PROXY STATEMENT
FOR THE 2010 ANNUAL MEETING OF STOCKHOLDERS

The Board of Directors of Glowpoint, Inc. (referred to throughout this proxy statement as “Glowpoint” or “we” or “our” or the “Company”) is soliciting proxies for our 2010 Annual Meeting of Stockholders or any adjournment or postponement thereof. The Annual Meeting will be held at 1:30 p.m. local time on June 17, 2010, at the law offices of Gibbons P.C., One Gateway Center, 21st Floor, Newark, New Jersey 07102. This proxy statement, the accompanying proxy card, and our 2009 Annual Report filed on Form 10-K on March 31, 2010 are first being mailed to stockholders on or about April 28, 2010.

At the Annual Meeting, stockholders will be asked to consider and vote on (i) amending our 2007 Stock Incentive Plan to increase the shares reserved for issuance thereunder; (ii) authorizing the Board of Directors, in its discretion, to amend the Company’s certificate of incorporation to effect a reverse stock split of the Company’s issued and outstanding shares of common stock, without further approval or authorization of its stockholders, at a ratio of not less than one-for-two and not more than one-for-five, with the exact ratio to be set within this range as determined by the Board of Directors in its sole discretion at any time prior to the next annual meeting of stockholders of the Company (the “Reverse Split”); (iii) electing five members of our board of directors to serve a one-year term each; and (iv) ratifying the appointment of Amper, Politziner & Mattia, LLP as our Independent Registered Public Accounting Firm for fiscal year 2010. At the Annual Meeting, stockholders may also be asked to consider and take action with respect to other matters that properly come before the meeting. We have not received notice of other matters that may properly be presented for voting at the Annual Meeting.

RECORD DATE; QUORUM

Only holders of record of our common stock at the close of business on April 16, 2010 are entitled to vote at the Annual Meeting (the “Record Date”). As of the Record Date, approximately 81,746,232 shares of common stock were issued and outstanding, each of which entitles its holder to cast one vote on each matter to be presented at the Annual Meeting. A quorum is present at the Annual Meeting if a majority of shares of common stock issued and outstanding and entitled to vote on the record date are represented in person or by proxy. If a quorum is not present, the Annual Meeting may be adjourned from time to time until a quorum is obtained.

VOTING PROCEDURES

The shares represented by the proxies received, properly dated and executed or authenticated, in the case of voting by telephone, and not revoked will be voted at the Annual Meeting in accordance with the instructions of the stockholders.

The affirmative vote of the holders of a majority of the shares of common stock voting on the matter is required for amending the 2007 Stock Incentive Plan to increase the shares reserved for issuance thereunder (Proposal 1). The affirmative vote of the holders of a majority of the shares of common stock outstanding is required for authorizing an amendment to our certificate of incorporation to effect the Reverse Split (Proposal 2). The affirmative vote of the holders of a plurality of the shares of common stock voting on the matter is required for the election of directors (Proposal 3). The affirmative vote of the holders of a majority of the shares of common stock voting on the matter is required for the ratification of the selection by the Audit Committee of Amper, Politziner & Mattia, LLP as our Independent Registered Public Accounting Firm for the fiscal year ending December 31, 2010 (Proposal 4).

Abstentions and broker “non-votes” will be treated as shares that are present and entitled to vote for purposes of determining the presence of a quorum. An abstention is the voluntary act of not voting by a stockholder who is present at a meeting and entitled to vote. A broker “non-vote” occurs when a broker nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary power for that particular item and has not received instructions from the beneficial owner.

Proposal 1: The vote of holders of a majority of the voting power held by stockholders present in person or represented by proxy is required for approval of amending the 2007 Stock Incentive Plan to increase the shares reserved for issuance thereunder. A properly executed proxy marked “ABSTAIN” will not be voted, although it will be counted as present and entitled to vote for purposes of the Proposal. Accordingly, an abstention will have the effect of a vote against the Proposal. Additionally, the approval of the amendment to our 2007 Stock Incentive Plan is not a matter on which a broker or other nominee is generally empowered to vote, and therefore, broker non-votes may exist in connection with Proposal 1.

Proposal 2: The vote of holders of a majority of our common stock outstanding is required for authorizing an amendment to our certificate of incorporation to effect the Reverse Split. A properly executed proxy marked “ABSTAIN” will not be voted, although it will be counted as present and entitled to vote for purposes of the Proposal. Accordingly, an abstention will have the effect of a vote against the Proposal. Additionally, the approval of a Reverse Split and the corresponding amendment to our certificate of incorporation is not a matter on which a broker or other nominee is generally empowered to vote, and therefore, broker non-votes may exist in connection with Proposal 2.

Proposal 3: A plurality of the votes duly cast is required for the election of directors. This means that the nominees receiving the highest number of affirmative votes will be elected to fill the director positions available. Accordingly, votes withheld will have no effect in determining which director receives the highest number of votes. Additionally, the election of directors is not a matter on which a broker or other nominee is generally empowered to vote, and therefore broker non-votes may exist in connection with Proposal 3.

Proposal 4: The vote of holders of a majority of voting power held by the stockholders present in person or represented by proxy is required for the ratification of the selection of Amper, Politziner & Mattia, LLP as our Independent Registered Public Accounting Firm for the fiscal year ending December 31, 2010. A properly executed proxy marked “ABSTAIN” will not be voted, although it will be counted as present and entitled to vote for purposes of the Proposal. Accordingly, an abstention will have the effect of a vote against the Proposal. Additionally, the ratification of the appointment of the Independent Registered Public Accounting Firm for 2010 is a matter on which a broker or other nominee is generally empowered to vote, and therefore, no broker non-votes will exist in connection with Proposal 4.

Properly executed or authenticated proxies that do not contain voting instructions will be voted (1) FOR amending the 2007 Stock Incentive Plan to increase the shares reserved for issuance thereunder, (2) FOR amending our certificate of incorporation to effect the Reverse Split of the Company’s issued and outstanding shares of common stock without further approval or authorization of its stockholders at any time prior the next annual meeting of stockholders of the Company, (3) FOR each of the nominees named below for election as director, (4) FOR ratification of Amper, Politziner & Mattia, LLP as our Independent Registered Public Accounting Firm for the fiscal year ending December 31, 2010, and (5) with respect to other matters that may come before the Annual Meeting, at the discretion of the proxy holders.

Stockholders have the option to vote by telephone. **WE ENCOURAGE YOU TO RECORD YOUR VOTE BY TELEPHONE.** It is convenient, and it saves significant postage and processing costs. In addition, when you vote by phone prior to the meeting date, your vote is recorded immediately and there is no risk that postal delays will cause your vote to arrive late and therefore not be counted.

SOLICITATION AND REVOCATION

After you have submitted a proxy, you may change your vote at any time before the proxy is exercised by submitting a notice of revocation or a proxy bearing a later date. Regardless of whether you voted using a traditional proxy card or by telephone, you may use either of these methods to change your vote. You may change your vote either by submitting a proxy card prior to the date of the Annual Meeting or by voting again prior to the time at which the telephone voting facilities close by following the procedures applicable to those methods of voting. In each event, the later submitted vote will be recorded and the earlier vote revoked. You may also revoke a proxy by voting in person at the Annual Meeting. Your attendance at the Annual Meeting will not by itself constitute revocation of a proxy.

We will bear the cost of the solicitation of proxies from our stockholders, including the cost of preparing, assembling and mailing the proxy solicitation materials. In addition to solicitation by mail, our directors, officers and employees may solicit proxies from stockholders by telephone or other electronic means or in person, but no such person will be specifically compensated for such services. We will cause brokerage houses and other custodians, nominees and fiduciaries to forward solicitation materials to the beneficial owners of stock held of record by such persons. We will reimburse such custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses in doing so. We have engaged American Stock Transfer and Trust Company to aid in the distribution of the proxy materials and will reimburse the related reasonable out-of-pocket expenses.

STOCKHOLDER PROPOSALS

Any stockholder who intends to present a proposal at the 2011 Annual Meeting of Stockholders, currently expected to occur in May 2011, must deliver the proposal to the Corporate Secretary, Glowpoint, Inc., 225 Long Avenue, Hillside, New Jersey 07205, no later than December 31, 2010 if such proposal is to be considered for inclusion in our proxy materials for that meeting.

In addition, our by-laws provide that, in order for a stockholder to propose business for consideration at an annual meeting of stockholders, the stockholder must give written notice to our Corporate Secretary at our principal executive offices not less than 60 days nor more than 90 days prior to the anniversary date of the immediately preceding annual meeting of stockholders; provided however, that in the event the annual meeting is called for a date that is not within 30 days before or after such anniversary date, notice by the stockholder in order to be timely must be received not later than the close of business on the 10th day following the day on which such notice of the date of the annual meeting was mailed or such public disclosure of the date the annual meeting was made, whichever occurs first.

PROPOSAL NO. 1 —

**APPROVE AN AMENDMENT TO THE 2007 STOCK INCENTIVE PLAN TO INCREASE
THE SHARES RESERVED FOR ISSUANCE THEREUNDER TO 5,500,000**

The stockholders are being asked to approve an amendment to our 2007 Stock Incentive Plan (the "2007 Plan") to increase the maximum aggregate number of shares which may be issued pursuant to all awards to 5,500,000 shares of common stock from 3,000,000 shares of common stock (the "Plan Amendment"). The 2007 Plan was adopted at our Annual Meeting of Stockholders on August 14, 2007. Under the 2007 Plan, options and other equity rights, including stock appreciation rights ("SARs"), and sales, bonuses and other grants of restricted stock, or any combination of these, may be issued from time to time to employees, directors and consultants who contribute to the management, growth and financial success of the Company. The purpose of the 2007 Plan is to attract and retain the best available personnel, to provide additional incentive to our directors, officers, employees and consultants and to promote the success of our business.

As of April 16, 2010, 2,282,400 stock options and 705,457 shares of restricted stock were issued and outstanding, and options to acquire 11,667 shares were exercised, from the 3,000,000 originally reserved for issuance thereunder. This leaves only 476 shares available for future issuance under the 2007 Plan. The Board believes that our ability to continue providing non-cash compensation and incentives in the form of equity is crucial to our ability to attract, retain and motivate talented employees, consultants and non-employee directors. The Plan Amendment was adopted by the Board of Directors on April 1, 2010.

We also currently maintain the 2000 Stock Incentive Plan, which was adopted when the Company was known as Wire One Technologies (the "2000 Plan"). Under the 2000 Plan, as amended, 4,400,000 shares of common stock have been reserved for issuance thereunder. As of April 16, 2010, 3,165,216 stock options and 592,000 shares of restricted stock were issued and outstanding, and options to acquire 495,606 shares were exercised, from the 2000 Plan. The 2000 Plan is scheduled to automatically terminate on or about June 30, 2010; upon termination all outstanding grants under the 2000 Plan will continue to be governed by the 2000 Plan until such grants are exercised, expire or terminate pursuant to their terms.

The following table provides information regarding the aggregate number of securities to be issued under all of our stock options and equity-based plans upon exercise of outstanding options, warrants and other rights and their weighted-average exercise prices as of December 31, 2009. The securities issued under equity compensation plans not approved by security holders consist entirely of options issued with respect to individual compensation arrangements for officers, directors and consultants.

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights	Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (excluding securities reflected in the first column)
Equity compensation plans approved by security holders	4,686,051	\$ 0.82	1,529,219
Equity compensation plans not approved by security holders	20,000	3.94	—
Total	4,706,051	\$ 0.84	1,529,219

Summary of 2007 Plan, As Amended

The Board believes that the adoption of the Plan Amendment is necessary in order to have a sufficient reserve of common stock to provide option grants as an equity incentive to attract and retain the services of key individuals essential to the Company's long-term success. A summary of the terms of the 2007 Plan, assuming the approval the Plan Amendment (the "Amended 2007 Plan"), is provided below. The summary, however, is not intended to be a description of all the terms of the Amended 2007 Plan. The full text of the Amended 2007 Plan is attached as Exhibit A to this proxy statement, and incorporated herein by reference.

Available Shares

Subject to adjustment to reflect certain corporate events, such as stock dividends, recapitalizations and business combinations, the maximum aggregate number of shares which may be issued pursuant to all awards under the Amended 2007 Plan is 5,500,000 shares of common stock. Any shares covered by an award, or portion of an award, which are forfeited or canceled, expire or are settled in cash, shall be deemed not to have been issued for purposes of determining the maximum aggregate number of shares which may be issued under the Amended 2007 Plan.

Administration

Under the Amended 2007 Plan, our board of directors, the Compensation Committee or such other committee designated by the Board, administers the granting of stock and options to directors and officers in a way that allows these grants of stock to be exempt from Section 16(b) of the Securities Exchange Act and determines the provisions, terms and conditions of each award. When stock or options are granted to other participants in the Amended 2007 Plan, our Board, the Compensation Committee or such other committee designated by our Board administers these awards and determines the provisions, terms and conditions of each award. Each entity, whether the Board, the Compensation Committee or such other committee designated by the Board, will be referred to herein as the "Administrator," and such Administrator will have complete discretion (subject to the provisions of the Amended 2007 Plan) to authorize option grants under the Amended 2007 Plan.

Eligibility

All employees, officers, directors and consultants of the Company or any of its affiliates are eligible to participate in the Amended 2007 Plan, although incentive stock options ("ISOs") may be granted only to employees. As of April 16, 2010, approximately 122 employees and directors were eligible to participate in the Amended 2007 Plan.

Form of Awards

The Amended 2007 Plan permits the grant of options and other equity rights, including stock appreciation rights ("SARs"), bonuses and other grants of restricted stock.

Options may include non-qualified stock options ("NQSOs") as well as ISOs, which are intended to qualify for special tax treatment. The term of an option will be determined by the Administrator, provided, however, that the term shall be no more than ten and five years, respectively, for ISOs issued to employees who are less than 10% stockholders and employees who are 10% stockholders.

The exercise price or purchase price, if any, of Amended 2007 Plan awards that are not incentive stock options will not be less than the fair market value of the stock. The exercise price or purchase price, if any, of Amended 2007 Plan awards that are ISOs (a) granted to an employee who, at the time of such grant, owns stock representing more than 10% of the voting power of all classes of stock of the Company or any parent or subsidiary, shall be not less than 110% of the fair market value of the stock on the date of the grant; or (b) granted to any employee other than an employee described in clause (a) above, shall be not less than 100% of the fair market value of the stock on the date of the grant. The form of payment for the shares of common stock when options are exercised or stock is purchased under an Amended 2007 Plan award will be determined by the Administrator and may include cash, check, shares of common stock, or the assignment of part of the proceeds from the sale of shares acquired upon exercise or purchase of the award.

Where the award agreement permits the exercise or purchase of an award for a period of time following the recipient's termination of service with us, that award will terminate to the extent not exercised or purchased on the last day of the specified period or the last day of the original term of the award, whichever occurs first.

Adjustments to Awards; Change of Control

Subject to any action that may be required by the stockholders of the Company, the Administrator may proportionately adjust the number and price of outstanding awards, and the number of shares authorized for issuance under the Amended 2007 Plan, in the event of a stock dividend, stock split, recapitalization or other corporate action having a similar effect on the capitalization of the Company. Assuming Proposal 2 is adopted and a Reverse Split is subsequently effected, it would have the effect of reducing the number of shares of common stock reserved for issuance under the Amended 2007 Plan, and adjust the number and price of outstanding awards, by the ratio determined by the board of directors. Upon a Change of Control (as defined in the 2007 Plan), all outstanding options and grants of restricted stock generally vest. The Administrator retains the discretion not to accelerate vesting in corporate transactions described in Code Section 424 in which the successor corporation assumes the options or substitutes its own options.

Amendment, Suspension or Termination

Unless terminated sooner, the Amended 2007 Plan will terminate automatically in 2017. The Board has the authority to amend, suspend or terminate the Amended 2007 Plan; however, to the extent necessary to comply with applicable laws, the Company will obtain stockholder approval of any amendment to the Amended 2007 Plan in such manner and to such degree as required.

Transferability

Those who hold ISOs granted under this plan cannot transfer these options other than by a will or the laws of descent upon the death of the option holder. No one is allowed to exercise ISOs except the person to whom the options were first issued while that person is alive. Other awards may be transferred during the lifetime of the grantee by gift or pursuant to a domestic relations order to members of the grantee's immediate family to the extent and in the manner determined by the Administrator.

New Plan Benefits

Because participation and the types of awards granted under the Amended 2007 Plan are subject to the discretion of the Administrator, the benefits or amounts that will be received by participants in the Amended 2007 Plan are not determinable at this time.

Federal Income Tax Consequences

The following description of the tax consequences of options under the Amended 2007 Plan is based on present Federal tax laws, and does not purport to be a complete description of the tax consequences of the Amended 2007 Plan.

No tax consequences result from the grant of options which are intended to qualify as ISOs within the meaning of Section 422 of the Code. If an option holder acquires stock upon the exercise of an ISO, no income will be recognized by the option holder for ordinary income tax purposes (although the difference between the option exercise price and the fair market value of the stock subject to the option may result in alternative minimum tax liability to the option holder), and the Company will be allowed no deduction as a result of such exercise, provided that the following conditions are met: (a) at all times during the period beginning on the date of grant of the ISO and ending on the day three months before the date of such exercise, the option holder is an employee of the Company or a parent or subsidiary; and (b) the option holder makes no disposition of the stock within two years from the date the ISO was granted nor within one year after the exercise of the ISO. The three-month period in clause (a) in the preceding sentence is extended to one year if the option holder is disabled. If an optionee dies while still employed or within three months after termination of employment, the plan may allow the estate additional time to exercise the option. If the holder of an ISO sells stock after compliance with these conditions, any gain realized over the exercise price of the ISO ordinarily will be treated as long-term capital gain, and any loss will be treated as long-term capital loss, in the year of sale.

No tax consequences result from the grant of NQSOs. An option holder who exercises an NQSO generally will realize compensation taxable as ordinary income in an amount equal to the difference between the option exercise price and the fair market value of the shares on the date of exercise, and the Company will be entitled to a deduction from income in the same amount in the year in which the exercise occurred. The option holder's basis in shares received in an exercise of an NQSO with cash will be the fair market value of the shares on the date income was realized, and when the holder disposes of the shares, he or she will recognize capital gain or loss, either long-term or short-term, depending on the holding period of the shares.

Although it is anticipated that certain awards under the Amended 2007 Plan will, pursuant to Section 162(m) of the Code, meet the requirements to avoid a limit on deductibility, no assurances can be given that all awards will meet such requirements. Specifically, awards of restricted stock will be subject to the limitation on deductibility imposed by Section 162(m) of the Code.

Required Vote and Board Recommendation

An affirmative vote of the holders of a majority of the shares of our common stock present at the Annual Meeting in person or by proxy and entitled to vote is required for approval of the Plan Amendment.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE IN FAVOR OF ADOPTING THE PLAN AMENDMENT AND INCREASING THE NUMBER OF SHARES RESERVED FOR ISSUANCE THEREUNDER TO 5,500,000 SHARES OF COMMON STOCK. PROXIES SOLICITED BY GLOWPOINT WILL BE VOTED IN FAVOR OF THIS PROPOSAL UNLESS STOCKHOLDERS SPECIFY IN THEIR PROXIES A CONTRARY CHOICE.

PROPOSAL NO. 2 —

APPROVAL OF A REVERSE STOCK SPLIT OF THE COMPANY'S ISSUED AND OUTSTANDING SHARES OF COMMON STOCK WITHOUT FURTHER APPROVAL OR AUTHORIZATION OF ITS STOCKHOLDERS AT ANY TIME PRIOR THE NEXT ANNUAL MEETING OF STOCKHOLDERS OF THE COMPANY

Background

We are seeking your approval authorizing the board of directors, in its discretion, to amend the Company's certificate of incorporation to effect a reverse stock split of the Company's issued and outstanding shares of common stock, without further approval or authorization of its stockholders, at a ratio of not less than one-for-two and not more than one-for-five, with the exact ratio to be set within this range as determined by the board of directors in its sole discretion at any time prior to the next annual meeting of stockholders of the Company (the "Reverse Split"). The board of directors has adopted a resolution (i) declaring the advisability of the Reverse Split, (ii) approving a corresponding amendment of our certificate of incorporation to effect the Reverse Split (the "Reverse Split Amendment"), subject to stockholder approval, and (iii) authorizing any other action it deems necessary to effect a Reverse Split, without further approval or authorization of our stockholders, at any time prior to our next annual meeting of stockholders. The board of directors may subsequently effect, in its sole discretion, a Reverse Split if approved by the stockholders.

If approved by our stockholders, one Reverse Split (but not more than one) would become effective on any date selected by the board of directors at any time prior our next annual meeting of stockholders. Only one Reverse Split Amendment may be filed and become effective. Notwithstanding the foregoing, the board of directors reserves the right, even after stockholder approval, to forego or postpone effecting a Reverse Split and filing the Reverse Split Amendment if such action is determined not to be in the best interests of the Company and its stockholders. If the Reverse Split adopted by the stockholders is not subsequently implemented by the board of directors and effected by our next annual meeting of stockholders, the Reverse Split will be deemed abandoned, without any further effect. In such case, the board of directors may again seek stockholder approval at a future date for a reverse stock split if it deems a reverse stock split to be advisable at that time.

Proposal

Depending on the ratio for the Reverse Split determined by the board of directors, multiple shares (e.g., two, three, four or five) of existing common stock, as determined by the board of directors, will be combined into one share of common stock. The number of shares of common stock issued and outstanding will therefore be reduced, depending upon the reverse stock split ratio determined by the board of directors. The Reverse Split Amendment that is filed to effect the Reverse Split, if any, will include only the reverse split ratio determined by the board of directors to be in the best interests of stockholders.

The Reverse Split, if approved by our stockholders, would become effective upon the filing of the Reverse Split Amendment with the Secretary of State of the State of Delaware. The exact timing of the filing of the Reverse Split will be determined by the board of directors based on its evaluation as to when such action will be the most advantageous to the Company and its stockholders. In addition, the board of directors reserves the right, notwithstanding stockholder approval and without further action by the stockholders, to elect not to proceed with the Reverse Split if, at any time prior to filing the Reverse Split Amendment, the board of directors, in its sole discretion, determines that it is no longer in the Company's best interests and the best interests of its stockholders to proceed with the Reverse Split. If a Reverse Split Amendment effecting the Reverse Split has not been filed with the Secretary of State of the State of Delaware by our next annual meeting of stockholders, the board of directors will abandon the Reverse Split.

Reasons for the Reverse Split

The reason for the Reverse Split is an effort to make our common stock eligible for listing (a “Listing”) on the NYSE AMEX (the “Amex”) or the Nasdaq Capital Market (“NASDAQ”) and thereby increase investor interest in our Company.

Our board of directors believes that a listing on the Amex or NASDAQ could increase liquidity for the holders of outstanding shares of common stock, could attract the interest of investors, and could maximize stockholder value. We believe that, if the Reverse Split is approved, there is a greater likelihood that we will satisfy the required minimum bid price of our common stock necessary for a Listing, which is \$2.00 or \$3.00 per share in the case of the Amex and \$4.00 per share in the case of NASDAQ.

An increase in the per share price of our common stock, which we expect as a result of the Reverse Split, may heighten the interest of the financial community in our Company and broaden the pool of investors that may consider investing in our Company, potentially increasing the trading volume and liquidity of our common stock. As a matter of policy, many institutional investors are prohibited from purchasing stocks below minimum price levels. For the same reason, brokers often discourage their customers from purchasing such stocks. To the extent that the price per share of our common stock increases as a result of the Reverse Split, some of these concerns may be ameliorated. Many investors, however, will not invest in securities that have a historical trading price below \$5.00 per share, and there can be no assurance that the Reverse Split will increase the price above that level for any period of time.

The reduction in the number of outstanding shares of common stock caused by the Reverse Split is anticipated initially to increase the market price of the common stock. However, because some investors may view the Reverse Split negatively, there can be no assurance that the market price of the common stock after the proposed Reverse Split will adjust to reflect the conversion ratio (e.g., if the market price is \$0.75 before the Reverse Split and the selected ratio is one new share for every four shares outstanding there can be no assurance that the market price immediately after the Reverse Split will be \$3.00 (\$0.75 multiplied by four)), or that any price gain will be sustained in the future.

Principal Effects of the Proposed Reverse Split

Depending on the ratio for the Reverse Split determined by the board of directors, multiple shares (e.g., two, three, four or five) shares of existing common stock, as determined by the board of directors, will be combined into one share of common stock. The number of shares of common stock issued and outstanding will therefore be reduced, depending upon the reverse stock split ratio determined by the board of directors. In addition, the number of shares of our common stock subject to outstanding options and warrants issued by us, and the number of shares reserved for future issuances upon conversion of our preferred stock and under our stock plans, will be reduced by the same ratio. No fractional shares of our common stock will be issued in connection with the proposed Reverse Split. Holders of our common stock who would otherwise receive a fractional share of common stock pursuant to the Reverse Split will receive cash in lieu of the fractional share as explained more fully below.

If the Reverse Split is approved at the Annual Meeting and the board of directors, in its discretion, decides to effect a Reverse Split, the board of directors will fix a record date for determination of shares subject to the Reverse Split. As of the date of this Proxy Statement, the board of directors had not fixed a record date for the Reverse Split. As of the Record Date, there were approximately 81,746,232 shares of our common stock issued and outstanding, approximately 16,301,559 shares of common stock reserved for issuance upon the conversion of our Series A-2 Convertible Preferred Stock, and 8,360,304 shares of our common stock subject to warrants and options granted by us. If additional shares of our common stock are issued or redeemed prior to the record date for the Reverse Split, the actual number of shares issued and outstanding before and after the Reverse Split will increase or decrease accordingly.

Because the Reverse Split will apply to all issued and outstanding shares of our common stock and outstanding rights to purchase our common stock or to convert other securities into our common stock, the proposed Reverse Split will not alter the relative rights and preferences of our existing stockholders. The Reverse Split Amendment will, however, effectively increase the number of shares of our common stock available for future issuances by the board of directors.

If the proposed Reverse Split is approved at the Annual Meeting and effected by the board of directors, some of our stockholders may consequently own less than one hundred shares of our common stock. A purchase or sale of less than one hundred shares (an “odd lot” transaction) may result in incrementally higher trading costs through certain brokers, particularly “full service” brokers. Therefore, those stockholders who own less than one hundred shares following the Reverse Split may be required to pay higher transaction costs should they then determine to sell their shares.

After the filing of the Reverse Split Amendment, our common stock will have new Committee on Uniform Securities Identification Procedures (CUSIP) numbers, which is a number used to identify our equity securities, and stock certificates with the older CUSIP numbers will need to be exchanged for stock certificates with the new CUSIP numbers by following the procedures described below.

Cash Payment in Lieu of Fractional Shares

In lieu of any fractional shares to which a holder of our common stock would otherwise be entitled as a result of the Reverse Split, we will pay cash equal to such fraction multiplied by the average of the high and low trading prices of the Company’s common stock on the OTC Bulletin Board during regular trading hours for the five trading days immediately preceding the effective time of the Reverse Split, which amount is hereby determined to equal the fair market value of our common stock at the effective time of the Reverse Split. In the event that a stockholder owns a number of shares that is not evenly divisible by the split ratio determined by the board of directors, such stockholder will only be entitled to a cash payment.

Accounting Matters

The proposed amendments to our restated certificate of incorporation will not affect the par value of our common stock per share, which will remain at \$0.0001. As a result, as of the filing of the Reverse Split Amendment, the stated capital attributable to common stock on our balance sheet will be reduced proportionately based on the reverse stock split ratio (including a retroactive adjustment of prior periods), and the additional paid-in capital account will be credited with the amount by which the stated capital is reduced. Reported per share net income or loss will be higher because there will be fewer shares of common stock outstanding.

Federal Income Tax Consequences

The following description of the material federal income tax consequences of a Reverse Split is based on the Internal Revenue Code of 1986, as amended (the “Code”), applicable Treasury Regulations promulgated thereunder, judicial authority and current administrative rulings and practices as in effect on the date of this Proxy Statement. Changes to the laws could alter the tax consequences described below, possibly with retroactive effect. We have not sought and will not seek an opinion of counsel or a ruling from the Internal Revenue Service regarding the federal income tax consequences of a Reverse Split. This discussion is for general information only and does not discuss the tax consequences which may apply to special classes of taxpayers (e.g., non-resident aliens, broker/dealers or insurance companies). The state and local tax consequences of a Reverse Split may vary significantly as to each stockholder, depending upon the jurisdiction in which such stockholder resides. Stockholders are urged to consult their own tax advisors to determine the particular consequences to them.

In general, the federal income tax consequences of a Reverse Split will vary among stockholders depending upon whether they receive cash for fractional shares or solely a reduced number of shares of our common stock in exchange for their old shares of our common stock. We believe that because a Reverse Split is not part of a plan to increase periodically a stockholder's proportionate interest in our assets or earnings and profits, a Reverse Split will likely have the following federal income tax effects.

Our stockholders who receive solely a reduced number of shares of our common stock will not recognize gain or loss. In the aggregate, such a stockholder's basis in the reduced number of shares of our common stock will equal the sum of the stockholder's basis in its old shares of our common stock.

Our stockholders who receive cash in lieu of a fractional share as a result of a Reverse Split will generally be treated as having received the payment as a distribution in redemption of the fractional share, as provided in Section 302(a) of the Code, which distribution will be taxed as either a distribution under Section 301 of the Code or an exchange to such stockholder, depending on that stockholder's particular facts and circumstances. Generally, a stockholder receiving such a payment should recognize gain or loss equal to the difference, if any, between the amount of cash received and the stockholder's basis in the fractional share. A stockholder's basis in the fractional shares of our common stock will equal the stockholder's basis in its old shares of our common stock, decreased by the basis allocated to the reduced number of shares.

Information returns generally will be required to be filed with the Internal Revenue Service (IRS) with respect to the receipt of cash in lieu of a fractional share of our common stock pursuant to a Reverse Split in the case of certain U.S. holders. In addition, U.S. holders may be subject to a backup withholding tax on the payment of such cash if they do not provide their taxpayer identification numbers in the manner required or otherwise fail to comply with applicable backup withholding tax rules. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be refunded or allowed as a credit against the U.S. holder's federal income tax liability, if any, provided the required information is timely furnished to the IRS.

We will not recognize any gain or loss as a result of a Reverse Split.

No Appraisal Rights

Under Delaware law and our restated certificate of incorporation, holders of our common stock will not be entitled to dissenter's rights or appraisal rights with respect to a Reverse Split.

Board Discretion to Implement the Reverse Split

If the proposed Reverse Split is approved at the Annual Meeting, the board of directors may, in its sole discretion, at any time prior to our next annual meeting of stockholders, authorize the Reverse Split and file the Reverse Split Amendment with the Delaware Secretary of State. The determination by the board of directors will be based on a number of factors, including market conditions, existing and expected trading prices for our common stock and the likely effect of business developments on the market price for our common stock.

THE BOARD OF DIRECTORS HAS NOT YET MADE A DETERMINATION TO PROCEED WITH ANY REVERSE STOCK SPLIT OF OUR ISSUED AND OUTSTANDING SHARES OF COMMON STOCK. NOTWITHSTANDING APPROVAL OF THE REVERSE SPLIT AT THE ANNUAL MEETING, THE BOARD OF DIRECTORS MAY, IN ITS SOLE DISCRETION, DETERMINE NOT TO IMPLEMENT SUCH REVERSE SPLIT.

Required Vote

To be approved by the stockholders, the proposal to implement the Reverse Split must receive the affirmative vote of holders of at least a majority of the outstanding shares of our common stock as of the Record Date.

-11-

Recommendation

The board of directors recommends a vote FOR the proposal to authorize the board of directors to amend the certificate of incorporation to effect a Reverse Split of our common stock at any time prior to our next annual meeting of stockholders.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE “FOR” PROPOSAL 2 TO AUTHORIZE THE BOARD OF DIRECTORS, IN ITS DISCRETION, TO AMEND THE CERTIFICATE OF INCORPORATION TO EFFECT A REVERSE SPLIT OF OUR COMMON STOCK AT ANY TIME PRIOR TO OUR NEXT ANNUAL MEETING OF STOCKHOLDERS. PROXIES SOLICITED BY GLOWPOINT WILL BE VOTED IN FAVOR OF THIS PROPOSAL UNLESS STOCKHOLDERS SPECIFY IN THEIR PROXIES A CONTRARY CHOICE.

PROPOSAL NO. 3 —

ELECTION OF DIRECTORS

Directors to be elected are to serve until the next annual meeting or until their respective successors are duly elected and qualified. The number of directors is determined from time to time by our board of directors and is currently five members. The nominees who will stand for election are James S. Lusk, Grant Dawson, David W. Board of Directors, Board Committees and Meetings

Corporate governance is typically defined as the system that allocates duties and authority among a company's stockholders, board of directors and management. The stockholders elect the board and vote on extraordinary matters; the board is the company's governing body, responsible for hiring, overseeing and evaluating management, particularly the chief executive officer; and management runs the company's day-to-day operations. The primary responsibilities of the board of directors are oversight, counseling and direction to our management in the long-term interests of us and our stockholders. At no time during 2009 was the chairman of our board of directors also our chief executive officer. Our board of directors consists of five directors. The current board members include three independent directors and two current members of our senior management. The director nominee is independent.

Our board of directors met eight times during the year ended December 31, 2009. During this period, each director attended or participated in more than 75% of the aggregate of (i) the total number of meetings of the board of directors held during the period for which he was a director and (ii) the total number of meetings of committees of the board on which he served, held during the period for which he served. The board has an audit committee, a compensation committee and a nominating committee.

As a general matter, board members are expected to attend our annual meetings. All of our board members attended our 2009 annual meeting of stockholders held on May 28, 2009.

“Independent” Directors. Each of our directors and director nominees other than Messrs. Laezza and Robinson qualify as “independent” in accordance with the published listing requirements of the NYSE AMEX LLC (“AmEx”). Messrs. Laezza and Robinson are currently our employees. The AmEx independence definition includes a series of objective tests, such as that the director is not an employee of the Company and has not engaged in various types of business dealings with the Company. In addition, as further required by the AmEx rules, the board has made a subjective determination as to each independent director that no relationship exist which, in the opinion of the board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In making these determinations, the directors reviewed and discussed information provided by the directors and the Company with regard to each director’s business and personal activities as they may relate to Glowpoint and Glowpoint’s management.

In addition, as required by AmEx rules, the members of the audit committee each qualify as “independent” under special standards established by the Securities and Exchange Commission (the “SEC”) for members of audit committees. The audit committee is also required to have at least one independent member who is determined by the board to meet the qualifications of an “audit committee financial expert” in accordance with SEC rules, including that the person meets the relevant definition of an “independent director.” Each member of the audit committee is independent and two nominees have been determined to be an audit committee financial expert. Stockholders should understand that this designation is a disclosure requirement of the SEC related to these directors’ experience and understanding with respect to certain accounting and auditing matters. The designation does not impose upon these directors any duties, obligations or liability that are greater than are generally imposed on them as a member of the audit committee and the board, and their designation as an audit committee financial expert pursuant to this SEC requirement does not affect the duties, obligations or liability of any other member of the audit committee or the board.

Audit Committee

We currently have an audit committee consisting of James S. Lusk, Peter A. Rust, and Grant Dawson. Mr. Rust has decided not to stand for re-election. Our board of directors has determined that each member of the audit committee has the accounting and related financial management expertise and satisfies the requirement as an “audit committee financial expert,” all as determined pursuant to the rules and regulations of the SEC. The audit committee consults and meets with our Independent Registered Public Accounting Firm and chief financial officer and accounting personnel, reviews potential conflict of interest situations where appropriate, and reports and makes recommendations to the full board of directors regarding such matters. The audit committee operates under a written audit committee charter, which was originally filed with our proxy statement for the 2003 annual meeting of our stockholders, but was amended and restated by the board on September 29, 2005. Our amended and restated audit committee charter is available online at www.glowpoint.com/governance. You may also request a copy of the audit committee charter, at no cost, by telephoning us at (866) GLOWPOINT or writing to us at Glowpoint, Inc., 225 Long Avenue, Hillside, New Jersey 07205, Attention: Investor Relations. The audit committee met six times during the year ended December 31, 2009.

Compensation Committee

We currently have a compensation committee consisting of James S. Lusk, Peter A. Rust, and Grant Dawson. Mr. Rust has decided not to stand for re-election. Each member of the compensation committee meets the independence requirements of the AmEx. The compensation committee is responsible for supervising our executive compensation policies, reviewing officers' salaries, approving significant changes in employee benefits and recommending to the board of directors such other forms of remuneration as it deems appropriate. The compensation committee operates under a written compensation committee charter, which was adopted in May 2007 and is available online at www.glowpoint.com/governance. You may also request a copy of the compensation committee charter, at no cost, by telephoning us at (866) GLOWPOINT or writing to us at Glowpoint, Inc., 225 Long Avenue, Hillside, New Jersey 07205, Attention: Investor Relations. The compensation committee acted by unanimous written consent during the year ended December 31, 2009.

Nominating Committee

We currently have a nominating committee consisting of James S. Lusk, Peter A. Rust, and Grant Dawson. Mr. Rust has decided not to stand for re-election. Each member of the nominating committee meets the independence requirements of the AmEx. The nominating committee is responsible for assessing the performance of our board of directors and making recommendations to our board regarding nominees for the board. The nominating committee was formed in February 2004. Prior to the formation of the committee, its functions were performed by the board of directors. The nominating committee operates under a written nominating committee charter, which was filed with our proxy statement for the 2004 annual meeting of our stockholders and is available online at www.glowpoint.com/governance. You may also request a copy of the nominating committee charter, at no cost, by telephoning us at (866) GLOWPOINT or writing to us at Glowpoint, Inc., 225 Long Avenue, Hillside, New Jersey 07205, Attention: Investor Relations. The nominating committee acted by unanimous written consent during the year ended December 31, 2009.

The nominating committee considers qualified candidates to serve as a member of our board of directors suggested by our stockholders. Stockholders can suggest qualified candidates for director by writing to our Corporate Secretary at 225 Long Avenue, Hillside, New Jersey 07205. Stockholder submissions that are received in accordance with our by-laws and that meet the criteria outlined in the nominating committee charter are forwarded to the members of the nominating committee for review. Stockholder submissions must include the following information:

- A statement that the writer is our stockholder and is proposing a candidate for our board of directors for consideration by the nominating committee;
- The name of and contact information for the candidate;
- A statement of the candidate's business and educational experience;
- Information regarding each of the factors set forth in the nominating committee charter sufficient to enable the nominating committee to evaluate the candidate;
- A statement detailing any relationship between the candidate and any of our customers, suppliers or competitors;
- Detailed information about any relationship or understanding between the proposing stockholder and the candidate; and

- A statement that the candidate is willing to be considered and willing to serve as our director if nominated and elected.

-16-

In considering potential new directors and officers, the nominating committee will review individuals from various disciplines and backgrounds. Among the qualifications to be considered in the selection of candidates are broad experience in business, finance or administration; familiarity with national and international business matters; familiarity with our industry; and prominence and reputation. The nominating committee will also consider whether the individual has the time available to devote to the work of our board of directors and one or more of its committees. None of the candidates this year for election to the board of directors were brought to the nominating committee by stockholder submission pursuant to the foregoing.

The nominating committee will also review the activities and associations of each candidate to ensure that there is no legal impediment, conflict of interest, or other consideration that might hinder or prevent service on our board of directors. In making its selection, the nominating committee will bear in mind that the foremost responsibility of a director of a corporation is to represent the interests of the stockholders as a whole. The nominating committee will periodically review and reassess the adequacy of its charter and propose any changes to the board of directors for approval.

(2) Prior to June 1, 2009, when a non-employee is elected to the board of directors they received 80,000 restricted shares which vest as to 20,000 shares on each of the grant date and the first, second and third anniversary dates of the grant. The amounts included in the “Stock Awards” column represent the compensation cost we recognized in 2009 related to non-option stock awards, as described in FASB ASC Topic 718 without taking into account any forfeiture rates. We value the non-option stock awards using the common stock price of the grant date. Please see the “Grants of Plan-Based Awards” table for more information regarding stock awards we granted in 2009. Our current director compensation policy, which became effective on June 1, 2009 following our last Annual Meeting of Stockholders, provides that directors who are not our executive officers or employees receive an annual grant of 25,000 restricted shares of our common stock, which vest in one year. The options were fully vested when granted. The amounts included in the “Option Awards” column represent the compensation cost we recognized in 2009 related to option awards, as described in FASB ASC Topic 718. For a discussion of the valuation assumptions, see Note 2 to our consolidated financial statements included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2009. In 2009, we used the following weighted average assumptions to determine the fair value of option awards: a risk-free interest rate of 2.0%, an expected life of five years, expected volatility of 113.3% and no dividends. Please see the “Grants of Plan-Based Awards” table for more information regarding option awards we granted in 2009.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The information contained in this Audit Committee Report is not “soliciting material” and has not been “filed” with the Securities and Exchange Commission. This Audit Committee Report will not be incorporated by reference into any of our future filings under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that we may specifically incorporate it by reference into a future filing.

The audit committee is composed of three members. Each member is a director who meets the current independence standards under the applicable SEC and AmEx rules. The audit committee operates under a written audit committee charter. As described more fully in its charter, the purpose of the audit committee is to assist the board in its general oversight of Glowpoint’s financial reporting, internal controls and audit functions. Management is responsible for the preparation, presentation and integrity of Glowpoint’s financial statements; accounting and financial reporting principles; internal controls; and procedures designed to reasonably assure compliance with accounting standards, applicable laws and regulations. Amper, Politziner & Mattia, LLP (“Amper”), our Independent Registered Public Accounting Firm, is responsible for performing an independent audit of the consolidated financial statements in accordance with the Standards of the Public Company Accounting Oversight Board (United States). In accordance with law, the audit committee has ultimate authority and responsibility to select, compensate, evaluate and, when appropriate, replace our Independent Registered Public Accounting Firm. The audit committee has the authority to engage its own outside advisers, including experts in particular areas of accounting, as it determines appropriate, apart from counsel or advisers hired by management.

The audit committee members may not be professional accountants or auditors, and their functions are not intended to duplicate or to certify the activities of management and the Independent Registered Public Accounting Firm, nor can the audit committee certify that the Independent Registered Public Accounting Firm is “independent” under applicable rules. The audit committee serves a board-level oversight role, in which it provides advice, counsel and direction to management and the Independent Registered Public Accounting Firm on the basis of the information it receives, discussions with management and the Independent Registered Public Accounting Firm, and the experience of the audit committee’s members in business, financial and accounting matters. Each member of the audit committee has been determined by the board to meet the qualifications of an “audit committee financial expert” in accordance with SEC rules. Stockholders should understand that this designation is an SEC disclosure requirement related to these directors’ experience and understanding with respect to certain accounting and auditing matters. The designation does not impose on these directors any duties, obligations or liability that are greater than are generally imposed on them as a member of the audit committee and the board, and their designation as an audit committee financial expert pursuant to this SEC requirement does not affect the duties, obligations or liability of any other member of the audit committee or the board.

In accordance with law, the audit committee is responsible for establishing procedures for the receipt, retention and treatment of complaints received by Glowpoint regarding accounting, internal accounting controls or auditing matters, including the confidential, anonymous submission by our employees, received through established procedures, of concerns regarding questionable accounting or auditing matters.

Among other matters, the audit committee monitors the activities and performance of Glowpoint’s Independent Registered Public Accounting Firm, including the audit scope, external audit fees, Independent Registered Public Accounting Firm independence matters and the extent to which the Independent Registered Public Accounting Firm may be retained to perform non-audit services.

In accordance with audit committee policy and the requirements of law, all services to be provided by Amper are pre-approved by the audit committee. Pre-approval includes audit services, audit-related services, tax services and other services. To avoid certain potential conflicts of interest, the law prohibits a publicly-traded company from obtaining certain non-audit services from its Independent Registered Public Accounting Firm. We obtain these services from other service providers as needed.

The audit committee has reviewed our audited financial statements and met and held discussions with management regarding the audited financial statements. Management has represented to the audit committee that our consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States.

The audit committee has discussed with Amper, our Independent Registered Public Accounting Firm, the matters required to be discussed by Statement of Auditing Standards No. 61 (Communication with Audit Committees). These discussions have included a review as to the quality, not just the acceptability, of our accounting principles.

Our Independent Registered Public Accounting Firm also provided to the audit committee the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussion with Audit Committees), and the audit committee discussed with the Independent Registered Public Accounting Firm its independence from management and our company. The audit committee has also considered the compatibility of non-audit services with the Independent Registered Public Accounting Firm's independence.

Based on the audit committee's discussion with management and the Independent Registered Public Accounting Firm, the audit committee's review of the audited financial statements, the representations of management and the report of the Independent Registered Public Accounting Firm to the audit committee, the audit committee recommended that the board of directors file the audited consolidated financial statements for the year ended December 31, 2009 with the SEC on Form 10-K.

COMPENSATION DISCUSSION AND ANALYSIS

General Compensation Philosophy

Our overall compensation philosophy is to provide a total compensation package that is competitive and enables us to attract, motivate, reward and retain key executives and other employees who have the skills and experience necessary to promote our short- and long-term financial performance and growth.

The Compensation Committee recognizes the critical role of our executive officers in our growth, success and in our future prospects. Accordingly, our executive compensation policies are designed to (1) align the interests of executive officers with those of stockholders by encouraging stock ownership by executive officers and by making a significant portion of executive compensation dependent on our financial performance, (2) provide compensation that will attract and retain talented professionals, (3) reward individual results through base salary, annual cash bonuses, long-term incentive compensation in the form of stock options, restricted stock awards and various other benefits, and (4) manage compensation based on skill, knowledge, effort and responsibility needed to perform a particular job successfully.

In establishing salary, bonuses and long-term incentive compensation for our executive officers, the Compensation Committee takes into account both the position and the expertise of a particular executive, as well as the Committee's understanding of competitive compensation for similarly situated executives in our sector of the technology industry. Each of our Co-Chief Executive Officers confers with members of the Compensation Committee, and makes recommendations, regarding the compensation of all executive officers other than him. Neither Co-Chief Executive Officer, however, participates in the Compensation Committee's deliberations regarding his own compensation. In determining the compensation of our executive officers, the Compensation Committee may consult available compensation reports, and at its sole discretion may engage in retaining a compensation consultant or engage in benchmarking. In 2009 the Compensation Committee did not engage a compensation consultant.

Components of Compensation

The components of the compensation program for named executive officers are described below.

Base Salary. Salaries for executive officers for 2009 were generally determined by the Compensation Committee on an individual basis in connection with the determination of the terms of such executive's applicable employment agreement, based on the following criteria: the executive's scope of responsibility, performance, prior experience and salary history, as well as the salaries for similar positions at comparable companies.

The base salaries for the named executive officers for 2009 were increased from the 2008 levels pursuant to an employment agreement or in accordance with our company policy and past practice.

Bonus/Incentive Compensation. The Compensation Committee believes that a substantial portion of the annual compensation of each executive officer should be in the form of variable cash incentive pay. Accordingly, we did not award a guaranteed bonus to any executive officer in 2009. However, each executive officer is eligible, at the discretion of the Compensation Committee, to receive up to 40% of his base salary for the fiscal year upon the achievement of certain financial performance goals or other criteria and metrics as established by the Co-CEOs and the Compensation Committee.

The Compensation Committee did not award any bonus to the named executive officers for 2009. Mr. Laezza did, however, receive \$15,000, in lieu of any payments due under our sales commission plan, for new business he originated in 2009.

Long-Term Incentive Awards. The Compensation Committee believes that equity-based compensation in the form of stock options or restricted stock links the interests of executives with the long-term interests of our stockholders and encourages executives to remain in our employ. We grant stock options in accordance with our various stock option plans. Grants of options and/or restricted stock are awarded based on a number of factors, including the individual's level of responsibility, the amount and term of options already held by the individual, the individual's contributions to the achievement of our financial and strategic objectives, and industry practices and norms.

Broad-based Employee Benefits. As employees, our named executive officers have the opportunity to participate in a number of benefits programs that are generally available to all eligible employees. These benefits include:

- Healthcare Plans – includes medical benefits, dental benefits, and vision care program.
- 401(k) Retirement Plan – allows eligible employees to save for retirement on a tax-advantaged basis. Under the 401(k) Plan, participants may elect to defer a portion of their compensation on a pre-tax basis and have it contributed to the Plan subject to applicable annual Internal Revenue Code limits. Pre-tax contributions are allocated to each participant's individual account and are then invested in selected investment alternatives according to the participants' directions. Employee elective deferrals are 100% vested at all times. The 401(k) Plan allows for matching contributions to be made by us. As a tax-qualified retirement plan, contributions to the 401(k) Plan and earnings on those contributions are not taxable to the employees until distributed from the 401(k) Plan and all contributions are deductible by us when made.

Compensation Committee Report

The information contained in this Compensation Committee Report is not “soliciting material” and has not been “filed” with the Securities and Exchange Commission. This Compensation Committee Report will not be incorporated by reference into any of our future filings under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that we may specifically incorporate it by reference into a future filing.

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis section appearing above with Glowpoint’s management. Based on this review and these discussions, the Compensation Committee recommended to Glowpoint’s board of directors that the Compensation Discussion and Analysis be included in this proxy statement.

In 2009, we used the following weighted average assumptions to determine the fair value of the option awards: a risk-free interest rate of 2.0%, an expected life of five years, expected volatility of 113.3% and no dividends. Please see the “Grants of Plan-Based Awards” table for more information regarding option awards we granted in 2009 and 2008. Internal Revenue Code Section 162(m) Limitation

Section 162(m) of the Internal Revenue Code, enacted in 1993, generally disallows a tax deduction to publicly held companies for compensation exceeding \$1 million per year paid to certain executive officers. The limitation applies only to compensation that is not considered to be performance-based. The non-performance based compensation paid to our executive officers in 2009 did not, in the case of any officer, exceed the \$1 million per year limit. The compensation committee generally intends to limit the dollar amount of all non-performance based compensation payable to our executive officers to no more than \$1 million per year.

Compensation Committee Interlocks And Insider Participation

Grant Dawson, Peter Rust, Dean Hiltzik, Bami Bastani, and James S. Lusk served as members of the compensation committee of the board of directors at various times during 2009. No member of the compensation committee was at any time during 2009 or at any other time our officer or employee. No member of the compensation committee served on the board of directors or compensation committee of any entity that has one or more executive officers serving as a member of the board or our compensation committee.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

We receive financial and tax services from Marks, Paneth & Shron LLP, an accounting and consulting firm in which Dean Hiltzik, one of our directors, who resigned in May 2009, is a partner. In the last fiscal year through the date he resigned as a director, we incurred fees of approximately \$26,000 for services received from this firm. We provide managed video services to a company in which James Lusk, one of our directors, is an officer. In the last fiscal year, we received fees of approximately \$305,000 for the provision of our services. We believe that all of the foregoing described transactions are at arm's-length and for terms that would have been obtained from, or provided by, unaffiliated third parties.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth information regarding the beneficial ownership of common stock as of April 16, 2010 by each of the following:

- each person (or group within the meaning of Section 13(d)(3) of the Securities Exchange Act of 1934) known by us to own beneficially more than 5% of the common stock;
- each person who has been a director or named executive officers since January 1, 2009 (the beginning of our last fiscal year); and
 - all of our directors and executive officers as a group.

The amounts and percentages are based on 81,746,232 shares of common stock issued as of April 16, 2010. As used in this table, “beneficial ownership” means the sole or shared power to vote or direct the voting or to dispose or direct the disposition of any security. A person is considered the beneficial owner of securities that can be acquired within 60 days of such date through the exercise of any option, warrant or right. Shares of common stock subject to options, warrants or rights which are currently exercisable or exercisable within such 60 days are considered outstanding for computing the ownership percentage of the person holding such options, warrants or rights, but are not considered outstanding for computing the ownership percentage of any other person. However, unless specifically waived by such 5% owner, the 5% owner is prohibited from acquiring shares of common stock under the Series A-2 Convertible Preferred Stock to the extent the selling stockholder would beneficially own more than 4.9% or 9.9%, as applicable, of our outstanding common stock after such acquisition.

(1) Unless otherwise noted, the address of each person listed is c/o Glowpoint, Inc., 225 Long Avenue, Hillside, New Jersey 07205.

(2) Unless otherwise noted indicated by footnote, the named persons have sole voting and investment power with respect to the shares of common stock beneficially owned.

(3) Includes 503,333 shares of restricted stock that are subject to forfeiture, 71,985 shares issuable upon conversion of our Series A-2 Convertible Preferred Stock, and 400,000 shares subject to stock options presently exercisable or exercisable within 60 days.

(4) Includes 393,333 shares of restricted stock that are subject to forfeiture, 410,627 shares issuable upon conversion of our Series A-2 Convertible Preferred Stock, and 295,666 shares subject to stock options presently exercisable or exercisable within 60 days.

(5) Includes 453,333 shares of restricted stock that are subject to forfeiture, 316,171 shares issuable upon conversion of our Series A-2 Convertible Preferred Stock, and 166,666 shares subject to stock options presently exercisable or exercisable within 60 days.

(6) Includes 210,000 shares of restricted stock that are subject to forfeiture.

(7) Includes 42,500 shares subject to stock options presently exercisable or exercisable within 60 days.

(8) Includes 47,000 shares subject to stock options presently exercisable or exercisable within 60 days.

(9) Based on ownership information provided when Mr. Brandofino resigned in March 2009, he had 59,159 shares and he subsequently exercised stock options for 32,000 shares of common stock and includes 142,559 shares issuable upon conversion of our Series A-2 Convertible Preferred Stock, and 400,000 shares of restricted stock that are

subject to forfeiture.

(10) Based on ownership information from the Schedule 13G filed by Vicis Capital LLC on April 16, 2010, stating that as of April 15, 2010, holder then owned 30,343,833 shares. Does not include 10,667,074 shares issuable upon conversion of our Series A-2 Convertible Preferred Stock which are exercisable on 61 days' prior written notice to the Company. The required 61 days prior written notice is designed to assure that the holder will not be deemed the beneficial owner of all underlying shares because the 61 day waiting period before the waiver becomes effective denies the holder the right to have beneficial ownership within 60 days. Therefore, without giving effect to the contractual ownership limitation, holder presently would have the right to acquire a total of 41,010,907, or 44.4% of the resulting outstanding shares.

Equity compensation plans not approved by security holders	20,000	3.94	—
Total	4,706,051	\$ 0.84	1,529,219

Section 16(A) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires executive officers and directors and persons who beneficially own more than 10% of a registered class of our equity securities to file reports of ownership and changes in ownership with the Securities and Exchange Commission. Executive officers, directors and greater than 10% stockholders are required by regulations of the Securities and Exchange Commission to furnish us with copies of all Section 16(a) reports they file.

Based solely on our review of the copies of reports we received, or written representations that no such reports were required for those persons, we believe that, for 2009, all statements of beneficial ownership required to be filed with the Securities and Exchange Commission were filed on a timely basis.

PROPOSAL NO. 4 –

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

General

The audit committee, composed entirely of independent, non-employee members of the board of directors, has appointed the firm of Amper, Politziner & Mattia, LLP (“Amper”) as the Independent Registered Public Accounting Firm to audit the consolidated financial statements of our company and its subsidiaries for fiscal year 2010 and is asking the stockholders for ratification of the appointment. Stockholder ratification is not required by our company’s bylaws or under any other applicable legal requirement. If the stockholders do not approve the selection of Amper, the audit committee will reconsider the appointment.

Amper has completed our audit for the fiscal years ended December 31, 2009, December 31, 2008 and December 31, 2007 and reviewed the quarterly periods therein. On March 31, 2010, we filed our 2009 audited consolidated financials statements with our Annual Report on Form 10-K.

As our Independent Registered Public Accounting Firm, Amper would audit our consolidated financial statements for fiscal year 2010, review the related interim quarters, and perform audit-related services and consultation in connection with various accounting and financial reporting matters. Amper may also perform certain non-audit services for our company. The audit committee has determined that the provision of the services provided by Amper as set forth herein are compatible with maintaining Amper’s independence and the prohibitions on performing non-audit services set forth in the Sarbanes-Oxley Act and relevant Securities and Exchange Commission rules.

Amper will have a representative present at the Annual Meeting who will be available to respond to appropriate questions. The representative will also have the opportunity to make a statement if he or she desires to do so.

Audit Fees

Amper, Politziner & Mattia, LLP (“Amper”), our principal accountant, billed us approximately \$255,000 for professional services for the audit of our annual consolidated financial statements for the 2009 fiscal year and the reviews of the consolidated financial statements included in our quarterly reports on Form 10-Q for the 2009 fiscal year and approximately \$278,000 for the audit of our annual consolidated financial statements for the 2008 fiscal year and the reviews of the consolidated financial statements included in our quarterly reports on Form 10-Q for the 2008 fiscal year.

Audit-Related Fees

Amper did not render in services in connection with audit related services in the 2009 fiscal year. In connection with filing a registration statement in 2008, Amper billed us approximately \$10,000 in fiscal year 2008. Except for the foregoing and as reported in the paragraph immediately above, Amper did not bill us for any assurance and related services that are reasonably related to the performance of the audit and review of our consolidated financial statements that are not already. All of these fees were billed in connection with our filings with the Securities and Exchange Commission and attendance at audit committee meetings.

Tax Fees

Amper did not render any services in connection with tax advice, tax compliance and tax planning in the 2009 fiscal year. In connection with tax advice, Amper billed us approximately \$6,000 but did not render any professional services to us for tax compliance and tax planning in the 2008 fiscal year.

All Other Fees

Amper did not bill us in the 2009 or 2008 fiscal years for any services or products other than Audit Fees, Audit-Related Fees and Tax Fees, as listed above.

In accordance with audit committee policy and the requirements of law, all services provided by Amper were pre-approved by the audit committee and all services to be provided by Amper will be pre-approved. Pre-approval includes audit services, audit-related services, tax services and other services. To avoid certain potential conflicts of interest, the law prohibits a publicly traded company from obtaining certain non-audit services from its auditing firm. We obtain these services from other service providers as needed.

Required Vote and Board Recommendation

While approval of the Independent Registered Public Accounting Firm proposal is not required, the board seeks the affirmative vote of a majority of the shares of common stock present at the Annual Meeting in person or by proxy and entitled to vote.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE RATIFICATION OF THE SELECTION OF AMPER, POLITZINER & MATTIA, LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2010.

OTHER MATTERS

The board of directors knows of no other business to be presented for action at the Annual Meeting. If any matters do come before the meeting on which action can properly be taken, the persons named in the enclosed proxy will have the discretion to vote such matters in accordance with their judgment.
