Executive Compensation

As part of our cost reduction efforts, our Vice President—Marketing, Kristine Mechem, agreed to take sabbatical leave commencing June 11, 2018. The initial sabbatical period will end on September 10, 2018, but may be extended by OncoCyte for up to an additional three months. During the sabbatical period, Ms. Mechem will be treated as an employee on unpaid leave, meaning that she will be entitled to participate in employee benefit plans but will not receive her salary other than for any available paid time off days that she may elect to utilize. If OncoCyte elects to terminate Ms. Mechem’s employment during the sabbatical period, or determines not to reinstate her salary after the sabbatical period, or if she declines to continue her sabbatical following OncoCyte’s election to extend the sabbatical period, she will be entitled to the severance benefits provided by her employment agreement.

In connection with Ms. Mechem’s agreement to take a sabbatical, she was granted options to purchase 50,000 shares of OncoCyte common stock under our Employee Stock Option Plan (the “Plan”). The exercise price of the options is \$2.85 per share, the fair market value of OncoCyte common stock determined in accordance with the Plan. The options shall become exercisable upon vesting. One half of the option will vest upon the filing of the Medicare dossier for a local

coverage determination for our DetermaVu™ lung cancer diagnostic test, and one half of the options will vest upon OncoCyte obtaining a Medicare local coverage determination for DetermaVu™. Vesting is subject to Ms. Mechem's continued service as an employee on the applicable vesting date.

On June 13, 2018, we entered into a memorandum of agreement with our Chief Financial Officer, Mitchell Levine, pursuant to which, as part of our cost reduction efforts, Mr. Levine agreed to a temporary 10% salary reduction for the period June 10 to December 31, 2018. In the event of a termination of Mr. Levine's employment that would entitle him to severance payments under his employment agreement, the severance payments would be determined with reference to his base salary before the 10% salary reduction.

In connection with Mr. Levine's acceptance of a salary reduction, he was granted options to purchase 45,000 shares of OncoCyte common stock under the Plan. The exercise price of the options is \$2.55 per share, the fair market value of OncoCyte common stock determined in accordance with the Plan. The options shall become exercisable upon vesting. One half of the option shall vest upon the completion of a clinical validation study manuscript for DetermaVu™, and one-half of the options shall vest upon the commencement of a clinical utility study of DetermaVu™.
