SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended December 29, 2018.

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 0-19357

MONRO, INC.

(Exact name of registrant as specified in its charter)

New York 16-0838627
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification #)

200 Holleder Parkway, Rochester, New York 14615
(Address of principal executive offices) (Zip code)

585-647-6400

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated

Edgar Filing: MONRO, INC. - Form 10-Q

filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of January 25, 2019, 33,103,468 shares of the registrant's common stock, par value \$.01 per share, were outstanding.

MONRO, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Note 1 – Condensed Consolidated Financial Statements

The consolidated balance sheets as of December 29, 2018 and March 31, 2018, the consolidated statements of comprehensive income for the quarters and nine months ended December 29, 2018 and December 23, 2017, the consolidated statement of changes in shareholders' equity for the nine months ended December 29, 2018 and the consolidated statements of cash flows for the nine months ended December 29, 2018 and December 23, 2017, include financial information for Monro, Inc. and its wholly-owned subsidiaries, Monro Service Corporation and Car-X, LLC (collectively, "Monro," "we," "us," "our," the "Company"). These unaudited, condensed consolidated financial statements have been prepared by Monro. We believe all known adjustments (consisting of normal recurring accruals or adjustments) have been made to fairly state the financial position, results of operations and cash flows for the unaudited periods presented.

Interim results are not necessarily indicative of results for a full year. The year-end consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with the audited financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2018.

We report our results on a 52/53 week fiscal year with the fiscal year ending on the last Saturday in March of each year. The following are the dates represented by each fiscal period reported in these condensed financial statements:

"Quarter Ended Fiscal December 2018"	September 30, 2018 – December 29, 2018 (13 weeks)
"Quarter Ended Fiscal December 2017"	September 24, 2017 – December 23, 2017 (13 weeks)
"Nine Months Ended Fiscal December 2018"	April 1, 2018 – December 29, 2018 (39 weeks)
"Nine Months Ended Fiscal December 2017"	March 26, 2017 – December 23, 2017 (39 weeks)

Fiscal 2019, ending March 30, 2019, is a 52 week year.

Monro's operations are organized and managed in one operating segment. The internal management financial reporting that is the basis for evaluation in order to assess performance and allocate resources by our chief operating decision maker consists of consolidated data that includes the results of our retail, commercial and wholesale

locations. As such, our one operating segment reflects how our operations are managed, how resources are allocated, how operating performance is evaluated by senior management and the structure of our internal financial reporting.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (“FASB”) issued new accounting guidance for the reporting of revenue from contracts with customers. This guidance provides guidelines a company will apply to determine the measurement of revenue and timing of when it is recognized. Additional guidance has subsequently been issued to amend or clarify the reporting of revenue from contracts with customers. The guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2017. Early adoption was permitted. We adopted this guidance and all related amendments during the first quarter of fiscal 2019 using the modified retrospective approach. The adoption of this guidance did not have a material impact on our Consolidated Financial Statements. See Note 7 for additional information.

In February 2016, the FASB issued new accounting guidance related to leases. This guidance establishes a right of use (“ROU”) model that requires a lessee to record a ROU asset and lease liability on the balance sheet for all leases with terms longer than twelve months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition. The guidance is effective for financial statements issued for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years. Additional guidance has subsequently been issued in order to provide an additional transition method as well as an additional practical expedient to be available upon adoption. We are required to adopt the new lease guidance utilizing one of two methods: retrospective restatement for each reporting period presented at time of adoption, or a modified retrospective approach with the cumulative effect of initially applying this guidance recognized at the date of initial application. Under the modified retrospective approach, prior periods would not be restated. Early adoption is permitted, but we have not early adopted this guidance. We expect to adopt using the modified retrospective approach and that the new lease standard will have a material impact on our Consolidated Financial Statements. While we are continuing to assess the effects of adoption, we currently believe the most significant changes relate to the recognition of new ROU assets and lease liabilities on the Consolidated Balance Sheet for operating leases as approximately 50% of our store leases, all of our land leases and all of our non-real estate leases are currently not recorded on our balance sheet. We expect that substantially all of our operating lease commitments will be subject to the new guidance and will be recognized as operating lease liabilities and ROU assets upon adoption. Absent potential acquisitions, we do not anticipate any significant changes in the volume of our leasing activity until the period of adoption.

Table of Contents

MONRO, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

In August 2016, the FASB issued new accounting guidance related to cash flow classification. This guidance clarifies and provides specific guidance on eight cash flow classification issues that are not addressed by current generally accepted accounting principles and thereby reduce the current diversity in practice. This guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2017. Early adoption was permitted. We adopted this guidance during the first quarter of fiscal 2019. The adoption of this guidance did not have a material impact on our Consolidated Financial Statements.

In January 2017, the FASB issued new accounting guidance which clarifies the definition of a business, particularly when evaluating whether transactions should be accounted for as acquisitions or dispositions of assets or businesses. This guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2017. Early adoption was permitted for certain transactions. We adopted this guidance during the first quarter of fiscal 2019. The adoption of this guidance did not have a material impact on our Consolidated Financial Statements.

In January 2017, the FASB issued new accounting guidance simplifying the accounting for goodwill impairment by removing Step 2 of the goodwill impairment test, which required the determination of an implied fair value of goodwill. Under this guidance, an entity should perform its annual or interim goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value. This guidance is effective for annual or interim goodwill impairment tests in fiscal years beginning after December 15, 2019, and should be applied on a prospective basis. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. We adopted this guidance during the third quarter of fiscal 2019. The adoption of this guidance did not have a material impact on our Consolidated Financial Statements.

In March 2017, the FASB issued accounting guidance that amends how employers present the net benefit cost in the income statement. The new guidance requires employers to disaggregate and present separately the current service cost component from the other components of the net benefit cost within the Consolidated Statement of Comprehensive Income. This guidance is effective for fiscal years and interim periods beginning after December 15, 2017, and should be applied retrospectively. Early adoption was permitted. We adopted this guidance during the first quarter of fiscal 2019. The adoption of this guidance did not have a material impact on our Consolidated Financial Statements.

In May 2017, the FASB issued new accounting guidance which clarifies when to account for a change to the terms or conditions of a share based payment award as a modification. Under this guidance, modification is required only if the fair value, the vesting conditions, or the classification of an award as equity or liability changes as a result of the

change in terms or conditions. This guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2017. Early adoption was permitted. We adopted this guidance during the first quarter of fiscal 2019. The adoption of this guidance did not have a material impact on our Consolidated Financial Statements.

In June 2018, the FASB issued new accounting guidance that amends the accounting for nonemployee share-based awards. Under the new guidance, the existing guidance related to the accounting for employee share-based awards will apply to nonemployee share-based transactions, with certain exceptions. This guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2018. Early adoption is permitted. We are currently evaluating the potential impact of the adoption of this guidance on our Consolidated Financial Statements.

In August 2018, the FASB issued new accounting guidance which eliminates, adds and modifies certain disclosure requirements for fair value measurements. This guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2019. Early adoption is permitted. We are currently evaluating the potential impact of the adoption of this guidance on our Consolidated Financial Statements.

In August 2018, the FASB issued new accounting guidance that aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal-use software license). This guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2019. Early adoption was permitted. We adopted this guidance during the third quarter of fiscal 2019. The adoption of this guidance did not have a material impact on our Consolidated Financial Statements.

Other recent authoritative guidance issued by the FASB (including technical corrections to the Accounting Standards Codification) and the Securities and Exchange Commission did not, or are not expected to have a material effect on our Consolidated Financial Statements.

MONRO, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Guarantees

At the time we issue a guarantee, we recognize an initial liability for the fair value, or market value, of the obligation we assume under that guarantee. Monro has guaranteed certain lease payments, primarily related to franchisees, amounting to \$2.2 million. This amount represents the maximum potential amount of future payments under the guarantees as of December 29, 2018. The leases are guaranteed through April 2020. In the event of default by the franchise owner, Monro generally retains the right to assume the lease of the related store, enabling Monro to re-franchise the location or to operate that location as a Company-operated store. As of December 29, 2018, no liability related to anticipated defaults under the foregoing leases is recorded. We recorded a liability related to anticipated defaults under the foregoing leases of \$.2 million as of March 31, 2018.

Note 2 – Acquisitions

Monro's acquisitions are strategic moves in our plan to fill in and expand our presence in existing and contiguous markets, and leverage fixed operating costs such as distribution, advertising and administration. Acquisitions in this footnote include acquisitions of five or more locations as well as acquisitions of one to four locations that are part of our greenfield store growth strategy.

Subsequent Events

Subsequent to December 29, 2018, we signed definitive asset purchase agreements to complete the acquisition of 12 retail tire and automotive repair stores located in Louisiana. This transaction is expected to close during the fourth quarter of fiscal 2019 and is expected to be financed through our existing credit facility.

On January 13, 2019, we acquired 13 retail tire and automotive repair stores located in Florida from R.A. Johnson, Inc. These stores operate under The Tire Choice name. The acquisition was financed through our existing credit facility.

Fiscal 2019

During the first nine months of fiscal 2019, we acquired the following businesses for an aggregate purchase price of \$45.4 million. The acquisitions were financed through our existing credit facility. The results of operations for these acquisitions are included in our financial results from the respective acquisition dates.

- On December 9, 2018, we acquired two retail tire and automotive repair stores located in Virginia from Colony Tire Corporation. These stores operate under the Mr. Tire name.
- On November 4, 2018, we acquired five retail tire and automotive repair stores located in Ohio from Jeff Pohlman Tire & Auto Service, Inc. These stores operate under the Car-X and Mr. Tire names.
- On October 14, 2018, we acquired one retail tire and automotive repair store located in Illinois from Quality Tire and Auto, Inc. This store operates under the Car-X name.
- On September 23, 2018, we acquired one retail tire and automotive repair store located in South Carolina from Walton's Automotive, LLC. This store operates under the Treadquarters name.
- On September 16, 2018, we acquired one retail tire and automotive repair store located in Illinois from C&R Auto Service, Inc. This store operates under the Car-X name.
- On September 9, 2018, we acquired four retail tire and automotive repair stores in Arkansas and Tennessee from Steele-Guiltner, Inc. These stores operate under the Car-X name.
- On July 15, 2018, we acquired one retail tire and automotive repair store located in Pennsylvania from Mayfair Tire & Service Center, Inc. This store operates under the Mr. Tire name.
- On July 8, 2018, we acquired eight retail tire and automotive repair stores in Missouri from Sawyer Tire, Inc. These stores operate under the Car-X name.
- On May 13, 2018, we acquired 12 retail/commercial tire and automotive repair stores and one retread facility located in Tennessee, as well as four wholesale locations in North Carolina, Tennessee and Virginia, from Free Service Tire Company, Incorporated. These locations operate under the Free Service Tire name.

Table of Contents

MONRO, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

· On April 1, 2018, we acquired four retail tire and automotive repair stores located in Minnesota from Liberty Auto Group, Inc. These stores operate under the Car-X name.

These acquisitions resulted in goodwill related to, among other things, growth opportunities, synergies and economies of scale expected from combining these businesses with ours, as well as unidentifiable intangible assets. All of the goodwill is expected to be deductible for tax purposes. We have recorded finite-lived intangible assets at their estimated fair value related to customer lists, favorable leases and a trade name.

We expensed all costs related to acquisitions in the nine months ended December 29, 2018. The total costs related to completed acquisitions were \$.1 million and \$.4 million for the quarter and nine months ended December 29, 2018, respectively. These costs are included in the Consolidated Statements of Comprehensive Income primarily under operating, selling, general and administrative expenses.

Sales for the fiscal 2019 acquired entities for the quarter and nine months ended December 29, 2018 totaled \$14.7 million and \$33.4 million, respectively, for the period from acquisition date through December 29, 2018.

Supplemental pro forma information for the current or prior reporting periods has not been presented due to the impracticability of obtaining detailed, accurate or reliable data for the periods the acquired entities were not owned by Monro.

The preliminary fair values of identifiable assets acquired and liabilities assumed were based on preliminary valuations and estimates. The excess of the net purchase price over net identifiable assets acquired was recorded as goodwill. The preliminary allocation of the aggregate purchase price as of December 29, 2018 was as follows:

As of
Acquisition

	Date
	(Dollars in thousands)
Trade receivables	\$ 1,674
Inventories	8,517
Other current assets	230
Property, plant and equipment	12,490
Intangible assets	7,646
Other non-current assets	17
Long-term deferred income tax assets	1,555
Total assets acquired	32,129
Warranty reserves	314
Other current liabilities	1,578
Long-term capital leases and financing obligations	9,018
Other long-term liabilities	523
Total liabilities assumed	11,433
Total net identifiable assets acquired	\$ 20,696
Total consideration transferred	\$ 45,447
Less: total net identifiable assets acquired	20,696
Goodwill	\$ 24,751

The following are the intangible assets acquired and their respective fair values and weighted average useful lives:

	As of Acquisition Date	Weighted Average Useful Life
	Dollars in thousands	
Customer lists	\$ 5,697	13 years
Favorable leases	1,549	10 years
Trade name	400	2 years
Total	\$ 7,646	12 years

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Fiscal 2018

During the first nine months of fiscal 2018, we acquired the following businesses for an aggregate purchase price of \$15.7 million. The acquisitions were financed through our existing credit facility. The results of operations for these acquisitions are included in our financial results from the respective acquisition dates.

- On December 17, 2017, we acquired one retail tire and automotive repair store located in Indiana from MLR, Incorporated. This store operates under the Car-X name.
- On December 10, 2017, we acquired two retail tire and automotive repair stores located in Pennsylvania from TriGar Tire & Auto Service Center, LLC. One store operates under the Monro name and one store operates under the Mr. Tire name.
- On August 13, 2017, we acquired eight retail tire and automotive repair stores located in Indiana and Illinois from Auto MD, LLC. These stores operate under the Car-X name.
- On July 30, 2017, we acquired 13 retail tire and automotive repair stores in Michigan, 12 of which were operating as Speedy Auto Service and Tire dealer locations, from UVR, Inc. One of the acquired stores was not opened by Monro. These stores operate under the Monro name.
- On July 9, 2017, we acquired one retail tire and automotive repair store located in North Carolina from Norman Young Tires, Inc. This store operates under the Treadquarters name.
- On June 25, 2017, we acquired one retail tire and automotive repair store located in Illinois from D&S Pulaski, LLC. This store operates under the Car-X name.
- On June 11, 2017, we acquired two retail tire and automotive repair stores located in Minnesota and Wisconsin from J & R Diversified, Inc. These stores operate under the Car-X name.
- On June 11, 2017, we acquired one retail tire and automotive repair store located in Ohio from Michael N. McGroarty, Inc. This store operates under the Mr. Tire name.

Edgar Filing: MONRO, INC. - Form 10-Q

- On June 2, 2017, we acquired one retail tire and automotive repair store located in Connecticut from Tires Plus LLC. This store operates under the Monro name.
- On May 21, 2017, we acquired one retail tire and automotive repair store located in Ohio from Bob Sumerel Tire Co., Inc. This store operates under the Mr. Tire name.
- On April 23, 2017, we acquired one retail tire and automotive repair store located in Florida from Collier Automotive Group, Inc. This store operates under The Tire Choice name.

These acquisitions resulted in goodwill related to, among other things, growth opportunities, synergies and economies of scale expected from combining these businesses with ours, as well as unidentifiable intangible assets. All of the goodwill is expected to be deductible for tax purposes. We have recorded finite-lived intangible assets at their estimated fair value related to favorable leases and customer lists.

We expensed all costs related to acquisitions in the nine months ended December 23, 2017. The total costs related to completed acquisitions were \$.1 million and \$.4 million for the quarter and nine months ended December 23, 2017, respectively. These costs are included in the Consolidated Statements of Comprehensive Income primarily under operating, selling, general and administrative expenses.

Sales for the fiscal 2018 acquired entities for the quarter and nine months ended December 23, 2017 totaled \$4.6 million and \$8.2 million, respectively, for the period from acquisition date through December 23, 2017.

Supplemental pro forma information for the current or prior reporting periods has not been presented due to the impracticability of obtaining detailed, accurate or reliable data for the periods the acquired entities were not owned by Monro.

Table of Contents

MONRO, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

We have recorded the identifiable assets acquired and liabilities assumed at their fair values as of their respective acquisition dates (including any measurement period adjustments), with the remainder recorded as goodwill as follows:

	As of Acquisition Date (Dollars in thousands)
Inventories	\$ 474
Other current assets	146
Property, plant and equipment	6,677
Intangible assets	3,356
Other non-current assets	7
Long-term deferred income tax assets	2,738
Total assets acquired	13,398
Other current liabilities	1,309
Long-term capital leases and financing obligations	11,298
Other long-term liabilities	147
Total liabilities assumed	12,754
Total net identifiable assets assumed	\$ 644
Total consideration transferred	\$ 15,742
Less: total net identifiable assets assumed	644
Goodwill	\$ 15,098

The following are the intangible assets acquired and their respective fair values and weighted average useful lives:

	As of Acquisition Date	Weighted Dollars in Average thousands Useful Life
Favorable leases	\$ 2,304	10 years
Customer lists	1,052	7 years
Total	\$ 3,356	9 years

As a result of the updated purchase price allocations for the entities acquired during the fiscal year ended March 31, 2018, certain of the fair value amounts previously estimated were adjusted during the measurement period. These measurement period adjustments resulted from updated valuation reports and appraisals received from our external valuation specialists, as well as revisions to internal estimates. The changes in estimates include a decrease in inventories of \$.1 million; a decrease in property, plant and equipment of \$.2 million and a decrease in intangible assets of \$.2 million. The measurement period adjustments resulted in an increase of goodwill of \$.5 million.

The measurement period adjustments were not material to the Consolidated Statement of Comprehensive Income for the quarter and nine months ended December 29, 2018.

We continue to refine the valuation data and estimates primarily related to inventory, warranty reserves, intangible assets, real estate, and real property leases for fiscal 2018 acquisitions which closed subsequent to December 23, 2017 and the fiscal 2019 acquisitions, and expect to complete the valuations no later than the first anniversary date of the respective acquisition. We anticipate that adjustments will continue to be made to the fair values of identifiable assets acquired and liabilities assumed and those adjustments may or may not be material.

Note 3 – Earnings per Common Share

Basic earnings per common share amounts are computed by dividing income available to common shareholders, after deducting preferred stock dividends, by the average number of common shares outstanding. Diluted earnings per common share amounts assume the issuance of common stock for all potentially dilutive equivalent securities outstanding.

Table of Contents

MONRO, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

The following is a reconciliation of basic and diluted earnings per common share for the respective periods:

	Quarter Ended		Nine Months Ended	
	Fiscal December		Fiscal December	
	2018	2017	2018	2017
	(Amounts in thousands, except per share data)			
Numerator for earnings per common share calculation:				
Net income	\$ 20,531	\$ 11,601	\$ 62,936	\$ 46,452
Less: Preferred stock dividends	(102)	(92)	(306)	(276)
Income available to common shareholders	\$ 20,429	\$ 11,509	\$ 62,630	\$ 46,176
Denominator for earnings per common share calculation:				
Weighted average common shares, basic	33,032	32,779	32,932	32,746
Effect of dilutive securities:				
Preferred stock	510	510	510	510
Stock options	195	52	134	57
Restricted stock	29	11	29	4
Weighted average number of common shares, diluted	33,766	33,352	33,605	33,317
Basic earnings per common share:	\$.62	\$.35	\$ 1.90	\$ 1.41
Diluted earnings per common share:	\$.61	\$.35	\$ 1.87	\$ 1.39

The computation of diluted earnings per common share excludes the effect of the assumed exercise of approximately 120,000 and 274,000 stock options for the quarter and nine months ended December 29, 2018, respectively, and 934,000 and 1,096,000 stock options for the quarter and nine months ended December 23, 2017, respectively. Such amounts were excluded as the exercise price of these stock options was greater than the average market value of our common stock for those periods, resulting in an anti-dilutive effect on diluted earnings per common share.

Note 4 – Income Taxes

On December 22, 2017, the Tax Cuts and Jobs Act (the “Tax Act”) was signed into law. The Tax Act made broad and complex changes to U.S. federal corporate income taxation. Additionally, in December 2017, the staff of the SEC issued guidance under Staff Accounting Bulletin No. 118, “Income Tax Accounting Implications of the Tax Cuts and

Jobs Act,” allowing taxpayers to record provisional amounts for reasonable estimates when they did not have the necessary information available, prepared or analyzed in reasonable detail to complete their accounting for certain income tax effects of the Tax Act. During the quarter ended December 23, 2017, we recorded a provisional reduction to our net deferred tax asset, as well as a corresponding increase to income tax expense of \$5.3 million related to the revaluation of our net deferred tax asset. Additionally, we recognized an income tax benefit of approximately \$2.3 million during the quarter ended December 23, 2017 related to the impact of the reduction in the federal statutory income tax rate on our fiscal 2018 estimated annual effective tax rate. The guidance also provided a measurement period, which extended no longer than one year from the enactment date of the Tax Act, during which a company may complete its accounting for the income tax accounting implications of the Tax Act. As of December 29, 2018, our accounting for the impact of the Tax Act is complete. We did not record any material adjustments for the quarter and nine months ended December 29, 2018 to provisional amounts previously recorded. See Note 7 of our Consolidated Financial Statements included in our 2018 Annual Report on Form 10-K for further information.

In the normal course of business, we provide for uncertain tax positions and the related interest and penalties, and adjust our unrecognized tax benefits and accrued interest and penalties accordingly. The total amounts of unrecognized tax benefits were \$6.9 million and \$6.2 million at December 29, 2018 and March 31, 2018, respectively, the majority of which, if recognized, would affect our effective tax rate. Additionally, we have accrued interest and penalties related to unrecognized tax benefits of approximately \$.5 million and \$.4 million as of December 29, 2018 and March 31, 2018, respectively.

We file U.S. federal income tax returns and income tax returns in various state jurisdictions. We have finalized the examination by the Internal Revenue Service of our fiscal 2016 and fiscal 2017 tax years and have recorded an income tax benefit of approximately \$2.0 million related to a retroactive accounting method change application that was accepted by the Internal Revenue Service. An income tax benefit was recorded primarily due to the difference in the federal statutory income tax rate of 35% that applies to the refund amounts resulting from the accounting method change for the examination years, as compared to the federal statutory income tax rate of 21% for which deferred tax accounting applies. Additionally, various state tax years remain subject to income tax examinations by tax authorities.

Table of Contents

MONRO, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Note 5 – Fair Value

Long-term debt had a carrying amount that approximates a fair value of \$119.9 million as of December 29, 2018, as compared to a carrying amount and a fair value of \$148.1 million as of March 31, 2018. The fair value of long-term debt was estimated based on discounted cash flow analyses using either quoted market prices for the same or similar issues, or the current interest rates offered to Monro for debt with similar maturities.

Note 6 – Cash Dividend

In May 2018, our Board of Directors declared its intention to pay a regular quarterly cash dividend during fiscal 2019 of \$.20 per common share or common share equivalent beginning with the first quarter of fiscal 2019. We paid dividends of \$20.1 million during the nine months ended December 29, 2018. However, the declaration of and any determination as to the payment of future dividends will be at the discretion of the Board of Directors and will depend on our financial condition, results of operations, capital requirements, compliance with charter and credit facility restrictions, and such other factors as the Board of Directors deems relevant.

Note 7 – Revenues

Automotive undercar repair, tire sales and tire services represent the vast majority of our revenues. We also earn revenue from the sale of tire road hazard warranty agreements as well as commissions earned from the delivery of tires on behalf of certain tire vendors.

Revenue from automotive undercar repair, tire sales and tire services is recognized at the time the customers take possession of their vehicle or merchandise. For sales to certain customers that are financed through the offering of credit on account, payment terms are established for customers based on our pre-established credit requirements. Payment terms vary depending on the customer and generally range from 15 to 45 days. Based on the nature of receivables, no significant financing components exist. Sales are recorded net of discounts, sales incentives and rebates, sales taxes and estimated returns and allowances. We estimate the reduction to sales and cost of sales for returns based on current sales levels and our historical return experience. Such amounts are immaterial to our Consolidated Financial Statements.

Revenue from the sale of tire road hazard warranty agreements (included in the Tires product group in the table summarizing disaggregated revenue by product group below) is initially deferred and is recognized over the contract period as costs are expected to be incurred in performing such services, typically 21 to 36 months. The amounts recorded for deferred revenue balances at December 29, 2018 and March 31, 2018 were \$17.3 million and \$17.2 million, respectively, of which \$12.1 million and \$11.9 million, respectively, are reported in Warranty reserves and \$5.2 million and \$5.3 million, respectively, are reported in Other long-term liabilities in our Consolidated Balance Sheets.

The following table summarizes deferred revenue related to road hazard warranty agreements from March 31, 2018 to December 29, 2018:

	Dollars in thousands
Balance at March 31, 2018	\$ 17,182
Deferral of revenue	12,647
Deferral of revenue from acquisitions	566
Recognition of revenue	(13,121)
Balance at December 29, 2018	\$ 17,274

We expect to recognize \$4.0 million of deferred revenue related to road hazard warranty agreements in the remainder of fiscal 2019, \$9.7 million of such deferred revenue during our fiscal year ending March 28, 2020, and \$3.6 million of such deferred revenue thereafter.

Under various arrangements, we receive from certain tire vendors a delivery commission and reimbursement for the cost of the tire that we may deliver to customers on behalf of the tire vendor. The commission we earn from these transactions (included in the Tires product group in the following table) is as an agent and the net amount retained is recorded as sales.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

The statements contained in this Quarterly Report on Form 10-Q that are not historical facts, including (without limitation) statements made in the Management's Discussion and Analysis of Financial Condition and Results of Operations, may contain statements of future expectations and other forward-looking statements made pursuant to the Safe Harbor provisions of the Private Securities Litigation Reform Act of 1995. When used in this Quarterly Report on Form 10-Q, the words "anticipates," "believes," "contemplates," "expects," "see," "could," "may," "estimate," "appear," "intend," and variations thereof and similar expressions, are intended to identify forward-looking statements. Forward-looking statements are subject to risks, uncertainties and other important factors that could cause actual results to differ materially from those expressed. These factors include, but are not necessarily limited to, product demand, dependence on and competition within the primary markets in which Monro's stores are located, the need for and costs associated with store renovations and other capital expenditures, the effect of economic conditions, seasonality, the impact of weather conditions and natural disasters, the impact of competitive services and pricing, parts supply restraints or difficulties, our dependence on vendors, including foreign vendors, changes in U.S. or foreign trade policies, industry regulation, risks relating to leverage and debt service (including sensitivity to fluctuations in interest rates), continued availability of capital resources and financing, advances in automotive technology, disruption or unauthorized access to our computer systems, risks relating to protection of customer and employee personal data, business interruptions, risks relating to litigation, risks relating to integration of acquired businesses, including goodwill impairment and the risks set forth in our Annual Report on Form 10-K for the fiscal year ended March 31, 2018. Except as required by law, we do not undertake and specifically disclaim any obligation to update any forward-looking statement to reflect the occurrence of anticipated or unanticipated events or circumstances after the date of such statements. References to fiscal 2019 and fiscal 2018 in this Management's Discussion and Analysis of Financial Condition and Results of Operations refer to our fiscal years ending March 30, 2019 and March 31, 2018, respectively.

Results of Operations

The following table sets forth income statement data of Monro expressed as a percentage of sales for the fiscal periods indicated:

Quarter Ended

Nine Months Ended

Edgar Filing: MONRO, INC. - Form 10-Q

	Fiscal December		Fiscal December	
	2018	2017	2018	2017
Sales	100.0 %	100.0 %	100.0 %	100.0 %
Cost of sales, including distribution and occupancy costs	62.0	62.6	61.1	61.1
Gross profit	38.0	37.4	38.9	38.9
Operating, selling, general and administrative expenses	28.1	27.2	28.1	27.4
Operating income	9.9	10.3	10.8	11.5
Interest expense - net	2.2	2.1	2.2	2.1
Other income - net	(0.1)	-	(0.1)	-
Income before provision for income taxes	7.8	8.1	8.7	9.4
Provision for income taxes	1.2	4.1	1.8	3.9
Net income	6.6 %	4.1 %	6.9 %	5.5 %

Third Quarter and Nine Months Ended December 29, 2018 as Compared to Third Quarter and Nine Months Ended December 23, 2017

Sales were \$310.1 million for the quarter ended December 29, 2018 as compared with \$285.7 million for the quarter ended December 23, 2017. The sales increase of \$24.4 million, or 8.5%, was due to an increase of \$19.8 million related to new stores, of which \$14.3 million came from the fiscal 2019 and fiscal 2018 acquisitions. Additionally, comparable store sales increased by 2.2%. Partially offsetting this was a decrease in sales from closed stores amounting to \$1.3 million. There were 90 selling days in the quarter ended December 23, 2017 as compared to 89 selling days in the quarter ended December 29, 2018 due to the timing of the Christmas holiday. Adjusting for days, comparable store sales increased by 3.3%.

Sales were \$913.0 million for the nine months ended December 29, 2018 as compared with \$842.2 million for the nine months ended December 23, 2017. The sales increase of \$70.8 million, or 8.4%, was due to an increase of \$54.0 million related to new stores, of which \$39.5 million came from the fiscal 2019 and fiscal 2018 acquisitions. Additionally, comparable store sales increased by 2.4%. Partially offsetting this was a decrease in sales from closed stores amounting to \$4.8 million. There were 271 selling days in the nine months ended December 23, 2017 as compared to 270 selling days in the nine months ended December 29, 2018. Adjusting for days, comparable store sales increased by 2.8%.

Barter sales of slower moving inventory totaled approximately \$3.7 million and \$1.8 million for the nine months ended December 29, 2018 and December 23, 2017, respectively. There were no barter sales in the third quarter of fiscal 2019 or fiscal 2018.

Table of Contents

At December 29, 2018, we had 1,186 Company-operated stores and 99 franchised locations as compared with 1,138 Company-operated stores and 103 franchised locations at December 23, 2017. At March 31, 2018, we had 1,150 Company-operated stores and 102 franchised locations. During the quarter ended December 29, 2018, we added nine Company-operated stores and closed one store. Additionally, two franchised locations were opened during the quarter and nine months ended December 29, 2018. Year-to-date, we have added 45 Company-operated stores (including five purchased from existing franchisees) and closed nine stores.

Comparable store brakes, tires and alignment category sales for the quarter ended December 29, 2018 increased by approximately 12%, 3% and 1%, respectively, from the prior year quarter when adjusted for days. However, front end/shocks category sales for the quarter ended December 29, 2018 decreased by approximately 4% on a comparable store basis when adjusted for days as compared to the same period in the prior year. Comparable store maintenance services category sales for the quarter ended December 29, 2018 when adjusted for days were relatively flat from the prior year quarter. Comparable store sales when adjusted for days were impacted by higher average ticket from improved in-store execution.

Gross profit for the quarter ended December 29, 2018 was \$118.0 million or 38.0% of sales as compared with \$107.0 million or 37.4% of sales for the quarter ended December 23, 2017. The increase in gross profit for the quarter ended December 29, 2018, as a percentage of sales, was due primarily to a decrease in labor costs as a percentage of sales as compared to the prior year quarter due to a continued focus on our store staffing optimization initiative, as well as a decrease in distribution and occupancy costs as a percentage of sales from the prior year as we gained leverage on these largely fixed costs with higher overall comparable store sales. Partially offsetting these decreases was an increase in material costs which increased slightly as a percentage of sales as compared to the prior year quarter due primarily to a shift in sales mix related to recent acquisitions that have included commercial and wholesale tire locations.

At our retail tire and automotive repair locations, we provide a broad range of services on passenger cars, light trucks and vans for brakes; mufflers and exhaust systems; and steering, drive train, suspension and wheel alignment. We also provide other products and services, including tires and routine maintenance services, including state inspections. In recent years, including fiscal 2019, we acquired certain tire and automotive repair locations that also serve commercial customers and sell tires to customers for resale. These locations conduct tire and automotive repair activities that are similar to our retail locations, other than with respect to the lower gross margin sales mix resulting from the sale of commercial tires and the lower gross margin of the wholesale locations. The lower gross margin at our wholesale locations is due primarily to the higher mix of tires sold and the fact that those tire sales do not include installation or other tire related services that are more common at other locations. During the quarter ended December 29, 2018, there was an increase in consolidated revenue from the prior year quarter of approximately \$8.3 million due to increased sales from commercial and wholesale locations acquired in fiscal 2019. Additionally, due to the sales mix from our commercial and wholesale locations acquired in fiscal 2019, our consolidated gross margin for the quarter ended December 29, 2018 was reduced by approximately 90 basis points from the prior year quarter.

On a comparable store basis, gross profit for the quarter ended December 29, 2018 increased by approximately 160 basis points as compared to the prior year quarter.

Gross profit for the nine months ended December 29, 2018 was \$355.2 million as compared to \$327.8 million for the nine months ended December 23, 2017 and remained flat at 38.9% of sales as compared to the same period of the prior year. For the nine months ended December 29, 2018, the increase in material costs as a percentage of sales, resulting from a shift in sales mix related to recent acquisitions, including the recently acquired commercial and wholesale tire locations, was offset by a decrease in labor costs, as well as distribution and occupancy costs, which decreased as a percentage of sales, when compared to the same period in the prior year.

On a comparable store basis, gross profit for the nine months ended December 29, 2018 increased by approximately 70 basis points as compared to the prior year period.

Operating expenses for the quarter ended December 29, 2018 were \$87.3 million or 28.1% of sales as compared to \$77.7 million or 27.2% of sales for the quarter ended December 23, 2017. During the quarter ended December 23, 2017, operating expenses included approximately \$2.7 million in one-time costs consisting of \$2.0 million in litigation settlement costs and \$.7 million in management transition costs. The increase in operating expenses from the comparable period of the prior year is primarily due to \$1.5 million in costs related to Monro.Forward initiatives and investments, including \$.4 million in one-time costs, in order to enhance operational excellence and customer experience, as well as \$.4 million of corporate and field management realignment costs. The remaining increase includes increased expenses for 48 net new stores, as well as increased incentive compensation expense related to our improved performance.

For the nine months ended December 29, 2018, operating expenses increased by \$25.9 million to \$256.9 million from the comparable period of the prior year and were 28.1% of sales as compared to 27.4% of sales for the nine months ended December 23, 2017. During the nine months ended December 23, 2017, operating expenses included approximately \$4.2 million in one-time costs consisting of \$2.0 million in litigation settlement costs and \$2.2 million in management transition costs. The increase in operating

Table of Contents

expenses from the comparable period of the prior year is primarily due to \$4.9 million in costs related to Monro. Forward initiatives and investments, including \$2.2 million in one-time costs, in order to enhance operational excellence and customer experience, as well as \$.4 million of corporate and field management realignment costs. The remaining increase includes increased expenses for new stores, as well as increased incentive compensation expense related to our improved performance.

Operating income for the quarter ended December 29, 2018 of approximately \$30.7 million increased by 4.8% as compared to operating income of approximately \$29.3 million for the quarter ended December 23, 2017, and decreased as a percentage of sales from 10.3% to 9.9% for the reasons described above. Adjusting for the impact on operating income for the reduction of selling days due to the Christmas holiday shift, operating income was 10.3% of sales.

Operating income for the nine months ended December 29, 2018 of approximately \$98.3 million increased by 1.5% as compared to operating income of approximately \$96.9 million for the nine months ended December 23, 2017, and decreased as a percentage of sales from 11.5% to 10.8% for the reasons described above. Adjusting for the impact on operating income for the reduction of selling days due to the Christmas holiday shift, operating income was 10.9% of sales.

Net interest expense for the quarter ended December 29, 2018 increased by approximately \$.7 million as compared to the same period in the prior year, and increased from 2.1% to 2.2% as a percentage of sales for the same periods. The weighted average debt outstanding for the quarter ended December 29, 2018 decreased by approximately \$7 million as compared to the quarter ended December 23, 2017. This decrease is primarily related to a decrease in debt outstanding under our Revolving Credit Facility, partially offset by an increase in capital lease debt recorded in connection with the fiscal 2018 and fiscal 2019 acquisitions and greenfield expansion. There was also an increase in the weighted average interest rate for the quarter ended December 29, 2018 of approximately 70 basis points as compared to the third quarter of the prior year. The increase in the weighted average interest rate for the quarter ended December 29, 2018 was due to an increase in the LIBOR and prime rates from the prior year period.

Net interest expense for the nine months ended December 29, 2018 increased by approximately \$2.2 million as compared to the same period in the prior year, and increased from 2.1% to 2.2% as a percentage of sales for the same periods. Weighted average debt increased by approximately \$11 million and the weighted average interest rate increased by approximately 60 basis points as compared to the same period of the prior year.

The effective income tax rate for the quarter ended December 29, 2018 and December 23, 2017 was 15.3% and 50.1%, respectively, of pre-tax income. The effective income tax rate for each respective period was significantly impacted by the Tax Cuts and Jobs Act (the "Tax Act"). Our effective income tax rate for the quarter ended December 29, 2018 benefited from a reduced federal statutory income tax rate. The effective income tax rate for the quarter

ended December 29, 2018 reflects an income tax benefit of \$2.0 million arising from the Internal Revenue Service's examination of our fiscal 2016 and fiscal 2017 tax years. An income tax benefit was recorded primarily due to the difference in the federal statutory income tax rate of 35% that applies to refund amounts resulting from an application for a retroactive accounting method change that was accepted by the Internal Revenue Service, as compared to the federal statutory income tax rate of 21% for which deferred tax accounting applies. In addition, as it relates to the Tax Act, we recorded a provisional tax expense of \$5.3 million during the quarter ended December 23, 2017 for the revaluation of our net deferred tax assets. Additional discrete tax items recognized during each respective quarter are insignificant.

The effective income tax rate for the nine months ended December 29, 2018 and December 23, 2017 was 20.3% and 41.4%, respectively, of pre-tax income. The effective income tax rate for each respective period was significantly impacted by the Tax Act. Our effective income tax rate for the nine months ended December 29, 2018 benefited from a reduced federal statutory income tax rate. The effective income tax rate for the nine months ended December 29, 2018 reflects an income tax benefit of \$2.0 million arising from the Internal Revenue Service's examination of our fiscal 2016 and fiscal 2017 tax years. In addition, as it relates to the Tax Act, we recorded a provisional tax expense of \$5.3 million during the nine months ended December 23, 2017 for the revaluation of our net deferred tax assets. Additional discrete tax items recognized during each respective period are insignificant.

Net income for the quarter ended December 29, 2018 of \$20.5 million increased 77.0% from net income for the quarter ended December 23, 2017. Earnings per common share on a diluted basis for the quarter ended December 29, 2018 of \$.61, including \$.06 per share of income tax benefit offset by \$.01 per share of non-recurring costs related to Monro.Forward initiatives and investments, \$.01 per share of corporate and field management realignment costs and \$.04 per share of negative impact from the reduction in selling days, increased 74.3% as compared to diluted earnings per share of \$.35 for the quarter ended December 23, 2017, which included \$.15 per share of one-time costs, including \$.10 per share related to the net impact of the Tax Act, \$.04 per share in litigation settlement costs and \$.01 per share in management transition costs.

For the nine months ended December 29, 2018, net income of \$62.9 million increased 35.5% from net income for the nine months ended December 23, 2017. Earnings per common share on a diluted basis for the nine months ended December 29, 2018 of \$1.87, including \$.05 per share of non-recurring costs related to Monro.Forward initiatives and investments, \$.01 per share of corporate and field management realignment costs, and \$.04 per share of negative impact from the reduction in selling days, partially offset by \$.06 per share of income tax benefit, increased 34.5% as compared to diluted earnings per share of \$1.39 for the nine months

ended December 23, 2017, which included \$.18 per share in one-time costs, including \$.10 per share related to the net impact of the Tax Act, \$.04 per share in litigation settlement costs and \$.04 per share in management transition costs.

Capital Resources and Liquidity

Capital Resources

Our primary capital requirements in fiscal 2019 are the upgrading of facilities and systems and the funding of our store expansion program, including potential acquisitions of existing store chains. For the nine months ended December 29, 2018, we spent approximately \$76.8 million on these items. Capital requirements were met primarily by cash flow from operations and from our revolving credit facility.

In May 2018, our Board of Directors declared its intention to pay a regular quarterly cash dividend of \$.20 per common share or common share equivalent beginning with the first quarter of fiscal 2019. We paid dividends of \$20.1 million during the nine months ended December 29, 2018. However, the declaration of and any determination as to the payment of future dividends will be at the discretion of the Board of Directors and will depend on Monro's financial condition, results of operations, capital requirements, compliance with charter and credit facility restrictions, and such other factors as the Board of Directors deems relevant.

Additionally, we have signed a definitive asset purchase agreement to complete the acquisition of 12 retail tire and automotive repair stores located in Louisiana. This transaction is expected to close during the fourth quarter of fiscal 2019 and is expected to be financed through our existing credit facility.

The acquisition subsequent to December 29, 2018 was financed through our existing credit facility. See "Acquisitions" in Note 2 of our Condensed Consolidated Financial Statements.

We plan to continue to seek suitable acquisition candidates. We believe we have sufficient resources available (including cash flow from operations and bank financing) to expand our business as currently planned for the next twelve months.

Liquidity

In January 2016, we entered into a new five-year \$600 million revolving credit facility agreement currently with eight banks (the “Credit Facility”). The Credit Facility replaced our previous revolving credit facility, as amended, which would have expired in December 2017. Interest only is payable monthly throughout the Credit Facility’s term. The Credit Facility increased our current borrowing capacity from our prior financing agreement by \$350 million to \$600 million, and includes an accordion feature permitting us to request an increase in availability of up to an additional \$100 million, an increase of \$25 million from our prior revolving credit facility. The expanded facility bears interest at 75 to 175 basis points over LIBOR. The Credit Facility requires fees payable quarterly throughout the term between .15% and .35% of the amount of the average net availability under the Credit Facility during the preceding quarter. There was \$119.9 million outstanding under the Credit Facility at December 29, 2018, as compared to \$154.5 million outstanding at December 23, 2017.

Within the Credit Facility, we have a sub-facility of \$80 million available for the purpose of issuing standby letters of credit. The line requires fees aggregating 87.5 to 187.5 basis points over LIBOR annually of the face amount of each standby letter of credit, payable quarterly in arrears. There was \$31.4 million in an outstanding letter of credit at December 29, 2018.

The net availability under the Credit Facility at December 29, 2018 was \$448.7 million.

Specific terms of the Credit Facility permit the payment of cash dividends not to exceed 50% of the prior year’s net income, and permit mortgages and specific lease financing arrangements with other parties with certain limitations. Other specific terms and the maintenance of specified ratios are generally consistent with our prior financing agreement. Additionally, the Credit Facility is not secured by our real property, although we have agreed not to encumber our real property, with certain permissible exceptions. We were in compliance with all debt covenants at December 29, 2018.

In addition, we have financed certain store properties with capital leases/financing obligations, which amounted to \$250.2 million at December 29, 2018 and are due in installments through May 2045.

Recent Accounting Pronouncements

See “Recent Accounting Pronouncements” in Note 1 of the Company’s Condensed Consolidated Financial Statements for a discussion of the impact of recently issued accounting standards on our Condensed Consolidated Financial Statements as of December 29, 2018 and the expected impact on the Consolidated Financial Statements for future periods.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to market risk from potential changes in interest rates. As of December 29, 2018, approximately .03% of our debt financing, excluding capital leases and financing obligations, was at fixed interest rates and, therefore, the fair value of such debt financing is affected by changes in market interest rates. Our cash flow exposure on floating rate debt would result in annual interest expense fluctuations of approximately \$1.2 million based upon our debt position at December 29, 2018 and approximately \$1.5 million for the fiscal year ended March 31, 2018, respectively, given a 1% change in LIBOR.

Debt financing had a carrying amount that approximates a fair value of \$119.9 million as of December 29, 2018, as compared to a carrying amount and a fair value of \$148.1 million as of March 31, 2018.

Item 4. Controls and Procedures

Disclosure controls and procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports that we file or submit to the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

In conjunction with the close of each fiscal quarter and under the supervision of our Chief Executive Officer (our principal executive officer) and Chief Financial Officer (our principal financial officer), we conduct an update, a review and an evaluation of the effectiveness of our disclosure controls and procedures. It is the conclusion of our Chief Executive Officer and Chief Financial Officer, based upon an evaluation completed as of the end of the most recent fiscal quarter reported on herein, that our disclosure controls and procedures were effective.

Changes in internal controls over financial reporting

There were no changes in our internal control over financial reporting during the quarter ended December 29, 2018 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

We are not a party or subject to any legal proceedings other than certain claims and lawsuits that arise in the normal course of our business. We do not believe that such claims or lawsuits, individually or in the aggregate, will have a material adverse effect on our financial condition or results of operations.

Item 1A. Risk Factors

Except as provided below, there have not been any material changes to the risk factors previously discussed in our Annual Report on Form 10-K for the fiscal year ended March 31, 2018.

Changes in the U.S. trade environment, including the recent imposition of import tariffs, could adversely affect our consolidated results of operations and cash flows.

The U.S. government recently proposed new or higher tariffs on specified imported products originating from China in response to what it characterizes as unfair trade practices, and China has responded by proposing new or higher tariffs on specified products imported from the United States. Additionally, the U.S. government has recently imposed imported steel and aluminum tariffs in response to national security concerns and several countries have retaliated by proposing or imposing new tariffs on specified products imported from the United States. Although we have no foreign operations and do not manufacture any products, tariffs imposed on products that we sell, such as tires, may cause our expenses to increase, which could adversely affect our profitability unless we are able to raise our prices for these products. If we increase the price of products impacted by tariffs, our service offerings may become less attractive relative to services offered by our competitors or cause our customers to delay needed maintenance. Given the uncertainty regarding the scope and duration of these trade actions by the U.S. or other countries, the impact of these trade actions on our operations or results remains uncertain. However, the tariffs, along with any additional tariffs or retaliatory trade restrictions implemented by other countries, could adversely affect the operating profits of our business, which could have an adverse effect on our consolidated results of operations and cash flows.
