ONEMAIN HOLDINGS, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

September 30, 2016

1. Business and Basis of Presentation

OneMain Holdings, Inc. is referred to in this report as “OMH” or, collectively with its subsidiaries, whether directly or indirectly owned, the “Company,” “we,” “us,” or “our.” OMH is a Delaware corporation. At September 30, 2016, Springleaf Financial Holdings, LLC (the “Initial Stockholder”) owned approximately 58% of OMH’s common stock. The Initial Stockholder is owned primarily by a private equity fund managed by an affiliate of Fortress Investment Group LLC (“Fortress”).

On November 15, 2015, OMH completed its acquisition of OneMain Financial Holdings, LLC (“OMFH”) from CitiFinancial Credit Company (“Citigroup”) for \$4.5 billion in cash (the “OneMain Acquisition”). As a result of the OneMain Acquisition, OMFH became a wholly owned, indirect subsidiary of OMH. See Note 2 for further information on the OneMain Acquisition.

OMH is a financial services holding company whose principal subsidiaries are Springleaf Finance, Inc. (“SFI”) and Independence Holdings, LLC (“Independence”). SFI’s principal subsidiary is Springleaf Finance Corporation (“SFC”), and Independence’s principal subsidiary is OMFH. SFC and OMFH are financial services holding companies with subsidiaries engaged in the consumer finance and insurance businesses. OMFH, collectively with its subsidiaries, is referred to in this report as “OneMain.” OMH and its subsidiaries (other than OneMain) is referred to in this report as “Springleaf.”

BASIS OF PRESENTATION

We prepared our condensed consolidated financial statements using generally accepted accounting principles in the United States of America (“GAAP”). These statements are unaudited. The year-end condensed balance sheet data was derived from our audited financial statements, but does not include all disclosures required by GAAP. The statements include the accounts of OMH, its subsidiaries (all of which are wholly owned, except for certain indirect subsidiaries associated with a joint venture in which we owned a 47% equity interest prior to March 31, 2016), and variable interest entities (“VIEs”) in which we hold a controlling financial interest and for which we are considered to be the primary beneficiary as of the financial statement date.

We eliminated all material intercompany accounts and transactions. We made judgments, estimates, and assumptions that affect amounts reported in our condensed consolidated financial statements and disclosures of contingent assets and liabilities. In management’s opinion, the condensed consolidated financial statements include the normal, recurring adjustments necessary for a fair statement of results. Ultimate results could differ from our estimates. We evaluated the effects of and the need to disclose events that occurred subsequent to the balance sheet date. To conform to the 2016 presentation, we have reclassified certain items in prior periods, including certain items in prior periods of our condensed consolidated financial statements.

The condensed consolidated financial statements in this report should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015 (“2015 Annual Report on Form 10-K”). We follow the same significant accounting policies for our interim reporting, except for the change in accounting policy discussed below. As a result of the change in accounting policy, we have revised certain sections in our 2015 Annual Report on Form 10-K to reflect the retrospective application of this change in accounting policy, and such revised disclosures are included in exhibits to our Current

Report on Form 8-K filed with the Securities and Exchange Commission (the “SEC”) on August 29, 2016 (the “retrospective Form 8-K”). Therefore, the condensed consolidated financial statements in this report should also be read in conjunction with the retrospective Form 8-K.

CHANGE IN ACCOUNTING POLICY

Effective April 1, 2016, we changed our accounting policy for the derecognition of loans within a purchased credit impaired pool. Historically, we removed loans from a purchased credit impaired pool upon charge-off of the loan, based on the Company’s charge-off accounting policy at their allocated carrying value. Under our new accounting policy, loans will be removed from a purchased credit impaired pool when the loan is written-off, at which time further collections efforts would not be pursued, or sold or repaid. While both methods are acceptable under GAAP, we believe the new method for derecognition of purchased credit impaired loans is preferable as it enhances consistency with our industry peers. As of January 1, 2015, the cumulative effect of applying the change in accounting policy increased shareholders’ equity by \$36 million.

Table of Contents

For the three and nine months ended September 30, 2016, respectively, the effect of this change in accounting policy was as follows:

- increased income before provision for income taxes by \$24 million and \$27 million;
- increased net income by \$15 million and \$17 million;
- increased net income attributable to OMH by \$15 million and \$15 million;
- increased basic earnings per share by \$0.11 and \$0.11; and
- increased diluted earnings per share by \$0.11 and \$0.11.

Our policy for derecognition of purchased credit impaired loans following the change described above is presented below:

Purchased Credit Impaired Finance Receivables

As part of each of our acquisitions, we identify a population of finance receivables for which it is determined that it is probable that we will be unable to collect all contractually required payments. The population of accounts identified generally consists of those finance receivables that are (i) 60 days or more past due at acquisition, (ii) which had been classified as troubled debt restructured (“TDR”) finance receivables as of the acquisition date, (iii) may have been previously modified, or (iv) had other indications of credit deterioration as of the acquisition date.

We accrete the excess of the cash flows expected to be collected on the purchased credit impaired finance receivables over the discounted cash flows (the “accretable yield”) into interest income at a level rate of return over the expected lives of the underlying pools of the purchased credit impaired finance receivables. The underlying pools are based on finance receivables with common risk characteristics. We have established policies and procedures to update on a quarterly basis the amount of cash flows we expect to collect, which incorporates assumptions regarding default rates, loss severities, the amounts and timing of prepayments and other factors that are reflective of then current market conditions. Probable decreases in expected finance receivable cash flows result in the recognition of impairment, which is recognized through the provision for finance receivable losses. Probable significant increases in expected cash flows to be collected would first reverse any previously recorded allowance for finance receivable losses; any remaining increases are recognized prospectively as adjustments to the respective pool’s yield.

Our purchased credit impaired finance receivables remain in our purchased credit impaired pools until liquidation or write-off. We do not reclassify modified purchased credit impaired finance receivables as TDR finance receivables.

We have additionally established policies and procedures related to maintaining the integrity of these pools. A finance receivable will not be removed from a pool unless we sell, foreclose, or otherwise receive assets in satisfaction of a particular finance receivable or a finance receivable is written-off. If a finance receivable is renewed and additional funds are lent and terms are adjusted to current market conditions, we consider this a new finance receivable and the previous finance receivable is removed from the pool. If the facts and circumstances indicate that a finance receivable should be removed from a pool, that finance receivable will be removed at its allocated carrying amount, and such removal will not affect the yield used to recognize accretable yield of the pool.

We have retrospectively applied this change in accounting policy. The effect of this change in accounting policy on the amounts previously reported in our condensed consolidated statements of operations for the three and nine months ended September 30, 2015 and our condensed consolidated statements of cash flows for the nine months ended September 30, 2015 are included in the following tables.

Cash and cash equivalents at beginning of period	879	879

Cash and cash equivalents at end of period	\$3,861	\$ 3,865
--	---------	----------

The condensed consolidated statement of cash flows for the nine months ended September 30, 2015 includes a *reclassification resulting from our adoption of Accounting Standards Update (“ASU”) 2016-09, Improvements to Employee Share-Based Payment Accounting. See Note 3 for further information regarding this ASU.

Table of Contents

We have also adjusted the applicable prior period amounts in the Notes to the Condensed Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations in Part I, Item 2 herein to reflect the impact of this change in accounting policy.

2. Significant Transactions

ONEMAIN ACQUISITION

On November 15, 2015, OMH completed its acquisition of OneMain from Citigroup for approximately \$4.5 billion in cash after accounting for certain estimated adjustments at closing. OneMain is a leading consumer finance company in the United States, providing personal loans to primarily middle income households through a national, community based network.

We allocated the purchase price to the net tangible and intangible assets acquired and liabilities assumed, based on their respective estimated fair values as of October 31, 2015. Given the timing of this transaction and complexity of the purchase accounting, our estimate of the fair value adjustment specific to the acquired loans and intangible assets was preliminary, and our determination of the final tax positions with Citigroup was also preliminary. We intend to finalize the accounting for these matters as soon as reasonably possible and within the measurement period, which may be up to one year from the acquisition date.

The excess of the purchase price over the fair values, which we recorded as goodwill, was determined as follows:

(dollars in millions)	As Reported	Adjustments *	As Adjusted
Cash consideration	\$ 4,478	\$ (23)	(a) \$ 4,455
Fair value of assets acquired:			
Cash and cash equivalents	958	—	958
Investment securities	1,294	—	1,294
Personal loans	8,801	(6)	(b) 8,795
Intangibles	555	3	(c) 558
Other assets	247	(3)	(d) 244
Fair value of liabilities assumed:			
Long-term debt	(7,725)	—	(7,725)
Unearned premium, insurance policy and claims reserves	(936)	—	(936)
Other liabilities	(156)	1	(e) (155)
Goodwill	\$ 1,440		\$ 1,422

During the first half of 2016, we recorded the following adjustments to the assets acquired and liabilities assumed * with the corresponding offset to goodwill as new information, which existed as of the acquisition date, became available:

(a) Represents a subsequent cash payment from Citigroup as a result of reaching final agreement on certain purchase accounting adjustments.

(b) Represents the net impact of an increase to the discount of purchased credit impaired finance receivables of \$64 million and an increase to the premium on finance receivables purchased as performing receivables of \$58 million as a result of revisions to the receivables valuation during the measurement period.

- (c) Represents an increase in acquired intangibles related to customer loan applications in process at the acquisition date.
- (d) Represents a decrease in valuation of acquired software asset.
- (e) Represents the settlement of a payable to Citigroup during the measurement period.

Of the adjusted \$8.8 billion of acquired personal loans included in the table above, \$8.1 billion relates to finance receivables determined not to be credit impaired at acquisition. Contractually required principal and interest of these non-credit impaired personal loans was \$11.6 billion at the date of acquisition, of which \$2.2 billion is not expected to be collected.

Table of Contents

Changes in the carrying amount of goodwill, all of which are reported in our Consumer and Insurance segment, were as follows:

(dollars in millions)	Consumer and Insurance
Nine Months Ended September 30, 2016	
Balance at beginning of period	\$ 1,440
Adjustments to purchase price allocation *	(18)
Balance at end of period	\$ 1,422

*Goodwill adjustments were recorded at OMFH subsidiary level.

We did not record any impairments to goodwill during the nine months ended September 30, 2016.

The following unaudited pro forma information presents the combined results of operations of Springleaf and OneMain as if the OneMain Acquisition had occurred on January 1, 2014. The unaudited pro forma information is not necessarily indicative of the operating results that would have been achieved had the OneMain Acquisition occurred on January 1, 2014. In addition, the unaudited pro forma financial information does not purport to project the future operating results of the combined company following the OneMain Acquisition.

The unaudited pro forma information also reflects adjustments for the Lendmark Sale (as defined below), as if the Lendmark Sale had been consummated on January 1, 2015. In addition, the pro forma interest income assumes the adjustment of historical finance charges for estimated impacts of accounting for credit impaired loans. The unaudited pro forma financial information does not give effect to the SpringCastle Interests Sale or the August 2016 Real Estate Loan Sale (both of which are defined below).

As of September 30, 2016, we had incurred approximately \$137 million of acquisition-related transaction and integration expenses (\$75 million incurred during the nine months ended September 30, 2016) in connection with the OneMain Acquisition and the Lendmark Sale (as defined below), which we report as a component of operating expenses. These expenses include transaction costs, technology termination and certain compensation and benefit related costs.

The following table presents the unaudited pro forma financial information:

(dollars in millions)	Three Months Ended September 30, 2015	Nine Months Ended September 30, 2015
Interest income	\$ 838	\$ 2,442
Net income attributable to OneMain Holdings, Inc.	27	92

In connection with the closing of the OneMain Acquisition, on November 13, 2015, OMH and certain of its subsidiaries entered into an Asset Preservation Stipulation and Order and agreed to a Proposed Final Judgment (collectively, the "Settlement Agreement") with the U.S. Department of Justice (the "DOJ"), as well as the state attorneys general for Colorado, Idaho, Pennsylvania, Texas, Virginia, Washington and West Virginia. The Settlement Agreement resolved the inquiries of the DOJ and such attorneys general with respect to the OneMain Acquisition and

allowed OMH to proceed with the closing. Pursuant to the Settlement Agreement, OMH agreed to divest 127 branches of SFC subsidiaries across 11 states as a condition for approval of the OneMain Acquisition. The Settlement Agreement required certain of OMH's subsidiaries (the "Branch Sellers") to operate these 127 branches as an ongoing, economically viable and competitive business until sold to the divestiture purchaser. The court overseeing the settlement appointed a third-party monitor to oversee management of the divestiture branches and ensure the Company's compliance with the terms of the Settlement Agreement.

SPRINGCASTLE INTERESTS SALE

On March 31, 2016, SFI, SpringCastle Holdings, LLC ("SpringCastle Holdings") and Springleaf Acquisition Corporation ("Springleaf Acquisition" and, together with SpringCastle Holdings, the "SpringCastle Sellers"), wholly owned subsidiaries of OMH, entered into a purchase agreement with certain subsidiaries of New Residential Investment Corp. ("NRZ" and such subsidiaries, the "NRZ Buyers") and BTO Willow Holdings II, L.P. and Blackstone Family Tactical Opportunities Investment

Table of Contents

Partnership—NQ—ESC L.P. (collectively, the “Blackstone Buyers” and together with the NRZ Buyers, the “SpringCastle Buyers”). Pursuant to the purchase agreement, on March 31, 2016, SpringCastle Holdings sold its 47% limited liability company interest in each of SpringCastle America, LLC, SpringCastle Credit, LLC and SpringCastle Finance, LLC, and Springleaf Acquisition sold its 47% limited liability company interest in SpringCastle Acquisition LLC, to the SpringCastle Buyers for an aggregate purchase price of approximately \$112 million (the “SpringCastle Interests Sale”). SpringCastle America, LLC, SpringCastle Credit, LLC, SpringCastle Finance, LLC and SpringCastle Acquisition LLC are collectively referred to herein as the “SpringCastle Joint Venture.”

The SpringCastle Joint Venture primarily holds subordinate ownership interests in a securitized loan portfolio (the “SpringCastle Portfolio”), which consists of unsecured loans and loans secured by subordinate residential real estate mortgages and includes both closed-end accounts and open-end lines of credit. These loans are in a liquidating status and vary in form and substance from the Company’s originated loans. At December 31, 2015, the SpringCastle Portfolio included over 232,000 of acquired loans, representing \$1.7 billion in net finance receivables.

In connection with the SpringCastle Interests Sale, the SpringCastle Buyers paid \$101 million of the aggregate purchase price to the SpringCastle Sellers on March 31, 2016, with the remaining \$11 million paid into an escrow account on July 29, 2016. Such escrowed funds are expected to be held in escrow for a period of up to five years following March 31, 2016, and, subject to the terms of the purchase agreement and assuming certain portfolio performance requirements are satisfied, paid to the SpringCastle Sellers at the end of such five-year period. In connection with the SpringCastle Interests Sale, we recorded a net gain in other revenues at the time of sale of \$167 million.

As a result of this sale, SpringCastle Acquisition and SpringCastle Holdings no longer hold any ownership interests of the SpringCastle Joint Venture. However, unless we are terminated, we will remain as servicer of the SpringCastle Portfolio under the servicing agreement for the SpringCastle Funding Trust. In addition, we deconsolidated the underlying loans of the SpringCastle Portfolio and previously issued securitized interests, which were reported in long-term debt, as we no longer were considered the primary beneficiary.

Prior to the SpringCastle Interests Sale, affiliates of the NRZ Buyers owned a 30% limited liability company interest in the SpringCastle Joint Venture, and affiliates of the Blackstone Buyers owned a 23% limited liability company interest in the SpringCastle Joint Venture (together, the “Other Members”). The Other Members are parties to the purchase agreement for purposes of certain limited indemnification obligations and post-closing expense reimbursement obligations of the SpringCastle Joint Venture to the SpringCastle Sellers.

The NRZ Buyers are subsidiaries of NRZ, which is externally managed by an affiliate of Fortress. The Initial Stockholder, which owned approximately 58% of OMH’s common stock as of March 31, 2016, the date of sale, was owned primarily by a private equity fund managed by an affiliate of Fortress. Mr. Edens, Chairman of the Board of Directors of OMH, also serves as Chairman of the Board of Directors of NRZ. Mr. Edens is also a principal of Fortress and serves as Co-Chairman of the Board of Directors of Fortress. Mr. Jacobs, a member of the Board of Directors of OMH, also serves as a member of NRZ’s Board of Directors and Fortress’ Board of Directors.

The purchase agreement included customary representations, warranties, covenants and indemnities. We did not record a sales recourse obligation related to the SpringCastle Interests Sale.

SFC’S OFFERING OF 8.25% SENIOR NOTES

On April 11, 2016, SFC issued \$1.0 billion aggregate principal amount of 8.25% Senior Notes due 2020 (the “8.25% SFC Notes”) under an Indenture dated as of December 3, 2014 (the “Base Indenture”), as supplemented by a First

Supplemental Indenture, dated as of December 3, 2014 (the “First Supplemental Indenture”) and a Second Supplemental Indenture, dated as of April 11, 2016 (the “Second Supplemental Indenture” and, collectively with the Base Indenture and the First Supplemental Indenture, the “Indenture”), pursuant to which OMH provided a guarantee of the notes on an unsecured basis.

SFC used a portion of the proceeds from the offering to repurchase approximately \$600 million aggregate principal amount of its existing senior notes that mature in 2017, at a premium to principal amount from certain beneficial owners, and certain of those beneficial owners purchased new SFC senior notes in the offering. SFC intends to use the remaining net proceeds for general corporate purposes, which may include further debt repurchases and repayments.

The notes are SFC’s senior unsecured obligations and rank equally in right of payment to all of SFC’s other existing and future unsubordinated indebtedness from time to time outstanding. The notes are effectively subordinated to all of SFC’s secured

Table of Contents

obligations to the extent of the value of the assets securing such obligations and structurally subordinated to any existing and future obligations of SFC's subsidiaries with respect to claims against the assets of such subsidiaries.

The notes may be redeemed at any time and from time to time, at the option of SFC, in whole or in part at a "make-whole" redemption price specified in the Indenture. The notes will not have the benefit of any sinking fund.

The Indenture contains covenants that, among other things, (i) limit SFC's ability to create liens on assets and (ii) restrict SFC's ability to consolidate, merge or sell its assets. The Indenture also provides for events of default which, if any of them were to occur, would permit or require the principal of and accrued interest on the notes to become, or to be declared, due and payable.

LENDMARK SALE

On November 12, 2015, OMH and the Branch Sellers entered into a purchase and sale agreement with Lendmark Financial Services, LLC ("Lendmark") to sell 127 Springleaf branches and, subject to certain exclusions, the associated personal loans issued to customers of such branches, fixed non-information technology assets and certain other tangible personal property located in such branches to Lendmark (the "Lendmark Sale") for a purchase price equal to the sum of (i) the aggregate unpaid balance as of closing of the purchased loans multiplied by 103%, plus (ii) for each interest-bearing purchased loan, an amount equal to all unpaid interest that had accrued on the unpaid balance at the applicable note rate from the most recent interest payment date through the closing, plus (iii) the sum of all prepaid charges and fees and security deposits of the Branch Sellers to the extent arising under the purchased contracts as reflected on the books and records of the Branch Sellers as of closing, subject to certain limitations if the purchase price would exceed \$695 million and Lendmark would be unable to obtain financing on certain specified terms. In anticipation of the sale of these branches, SFC transferred \$608 million of personal loans from held for investment to held for sale on September 30, 2015.

Pursuant to the Settlement Agreement, we were required to dispose of the branches to be sold in connection with the Lendmark Sale within 120 days following November 13, 2015, subject to such extensions as the DOJ may approve. As we did not believe we would be able to consummate the Lendmark Sale prior to April 1, 2016, we requested two extensions of the closing deadline set forth in the Settlement Agreement. The DOJ granted our requests through May 13, 2016.

On May 2, 2016, we completed the Lendmark Sale for an aggregate cash purchase price of \$624 million. Such sale was effective as of April 30, 2016, and included the sale to Lendmark of personal loans with an unpaid principal balance ("UPB") as of March 31, 2016 of \$600 million. We have entered into a transition services agreement with Lendmark dated as of May 2, 2016 (the "Transition Services Agreement"), and our activities will remain subject to the oversight of the Monitoring Trustee appointed by the court pursuant to the Settlement Agreement until the expiration of the Transition Services Agreement. The Transition Services Agreement is currently scheduled to expire on or before February 2, 2017, subject to an additional three-month extension with the permission of the DOJ. Although we continue to take such steps as we believe are necessary to comply with the terms of the Settlement Agreement, no assurance can be given that we will not incur fines or penalties associated with our activities pursuant to the Transition Services Agreement or our efforts to comply with the terms of the Settlement Agreement.

REAL ESTATE LOAN SALE

On August 3, 2016, SFC and certain of its subsidiaries sold a portfolio of second lien mortgage loans for aggregate cash proceeds of \$246 million (the "August 2016 Real Estate Loan Sale"). In connection with this sale, we recorded a net loss in other revenues at the time of sale of \$4 million. Unless we are terminated or we resign as servicer, we will

continue to service the loans included in this sale pursuant to a servicing agreement. The purchase and sale agreement and the servicing agreement include customary representations and warranties and indemnification provisions.

3. Recent Accounting Pronouncements

ACCOUNTING PRONOUNCEMENTS RECENTLY ADOPTED

Consolidation

In February of 2015, the Financial Accounting Standards Board (the “FASB”) issued ASU 2015-02, Consolidation - Amendments to the Consolidation Analysis, which amends the current consolidation guidance and ends the deferral granted to reporting entities with variable interests in investment companies from applying certain prior amendments to the VIE guidance. This ASU is applicable to entities across all industries, particularly those that use limited partnerships as well as entities in any industry that outsource decision making or have historically applied related party tiebreakers in their consolidation analysis and disclosures. The standard became effective for public business entities for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015. We have adopted this ASU and concluded that it does not have a material effect on our consolidated financial statements.

Technical Corrections and Improvements

In June of 2015, the FASB issued ASU 2015-10, Technical Corrections and Improvements, to correct differences between original guidance and the Accounting Standards Codification, clarify the guidance, correct references and make minor improvements affecting a variety of topics. The amendments to this transition guidance became effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. We have adopted this ASU and concluded that it does not have a material effect on our consolidated financial statements.

Debt Instruments

In March of 2016, the FASB issued ASU 2016-06, Contingent Puts and Call Options in Debt Instruments, which clarifies the requirements for assessing whether contingent call (put) options that can accelerate the payment of principal on debt instruments are clearly and closely related to their debt host. The ASU requires assessing the embedded call (put) options solely in accordance with the four-step decision sequence. The amendment of this ASU becomes effective on a modified retrospective basis for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2016. We have early adopted this ASU and concluded that it does not have a material effect on our consolidated financial statements.

Stock Compensation

In March of 2016, the FASB issued ASU 2016-09, Improvements to Employee Share-Based Payment Accounting, which simplifies the accounting for share-based payment transactions, income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The amendments in this ASU were adopted as follows:

We adopted the amendment requiring recognition of tax benefits related to exercised or vested awards through the income statement rather than additional paid-in capital on a prospective basis as of January 1, 2016. Further, as of January 1, 2016, there was no impact to additional paid-in capital as a result of our adoption of this ASU under the modified retrospective method.

- We did not adopt the amendment allowing for the use of the actual number of shares vested each period, rather than estimating the number of awards that are expected to vest. We continue to use an estimate as it relates to the number of awards that are expected to vest.

We adopted the amendment for the threshold to qualify for equity classification permits withholding up to the maximum statutory tax rates, under the modified retrospective basis as of January 1, 2016. This amendment did not have a material impact on our consolidated financial statements.

We adopted the amendment requiring the classification of employee taxes paid on the statement of cash flows when an employer withholds shares for tax-withholding purposes to be presented in the financing activities instead of the operating activities, under the retrospective method as of January 1, 2014. This amendment did not have a material impact on our consolidated financial statements.

We adopted the amendment requiring the classification of excess tax benefits on the statement of cash flows to be presented in the operating activities instead of the financing activities, under the prospective method as of September 30, 2016. This amendment did not have a material impact on our consolidated financial statements.

Table of Contents

ACCOUNTING PRONOUNCEMENTS TO BE ADOPTED

Revenue Recognition

In May of 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which provides a consistent revenue accounting model across industries. In August of 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers - Deferral of the Effective Date, to defer the effective date of the new revenue recognition standard by one year, which would result in the ASU becoming effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. In March of 2016, the FASB issued ASU 2016-08, Principal versus Agent Considerations, which clarifies the implementation of the guidance on principal versus agent considerations from ASU 2014-09, Revenue from Contracts with Customers. ASU 2016-08 does not change the core principle of the guidance in ASU 2014-09, but rather clarifies the distinction between principal versus agent considerations when implementing ASU 2014-09. In April of 2016, the FASB issued ASU 2016-10, Identifying Performance Obligations and Licensing, to clarify the implementation guidance of ASU 2014-09 relating to performance obligations and licensing. In May of 2016, the FASB issued ASU 2016-12, Narrow-Scope Improvements and Practical Expedients, to clarify guidance in ASU 2014-09 related to assessing collectability, presentation of sales taxes, noncash consideration, and completed contracts/contract modifications. We are evaluating whether the adoption of these accounting pronouncements will have a material effect on our consolidated financial statements.

Short-Duration Insurance Contracts Disclosures

In May of 2015, the FASB issued ASU 2015-09, Disclosures about Short-Duration Contracts, to address enhanced disclosure requirements for insurers relating to short-duration insurance contract claims and unpaid claims liability rollforward for long and short-duration contracts. The disclosures are intended to provide users of financial statements with more transparent information about an insurance entity's initial claim estimates and subsequent adjustments to those estimates, the methodologies and judgments used to estimate claims, and the timing, frequency, and severity of claims. The amendments in this ASU become effective for annual periods beginning after December 15, 2015, and interim periods within annual periods beginning after December 15, 2016. We are evaluating the potential impact of the adoption of the ASU on our consolidated financial statements.

Financial Instruments

In January of 2016, the FASB issued ASU 2016-01, Recognition and Measurement of Financial Assets and Financial Liabilities, which simplifies the impairment assessment of equity investments. The update requires equity investments to be measured at fair value with changes recognized in net income. This ASU eliminates the requirement to disclose the methods and assumptions to estimate fair value for financial instruments, requires the use of the exit price for disclosure purposes, requires the change in liability due to a change in credit risk to be presented in other comprehensive income, requires separate presentation of financial assets and liabilities by measurement category and form of asset (securities and loans), and clarifies the need for a valuation allowance on a deferred tax asset related to available-for-sale securities. The amendments in this ASU become effective prospectively for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. We are evaluating whether the adoption of this ASU will have a material effect on our consolidated financial statements.

Leases

In February of 2016, the FASB issued ASU 2016-02, Leases (Topic 842). The ASU will require lessees to recognize assets and liabilities on leases with terms greater than 12 months and to disclose information related to the amount, timing and uncertainty of cash flows arising from leases, including various qualitative and quantitative requirements.

The amendments in this ASU become effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2018. We are evaluating whether the adoption of this ASU will have a material effect on our consolidated financial statements.

Investments

In March of 2016, the FASB issued ASU 2016-07, Simplifying the Transition to the Equity Method of Accounting, which eliminates the requirement that when an investment qualifies for use of the equity method as a result of an increase in the level of ownership interest or degree of influence, an investor must adjust the investment, results of operations, and retained earnings retroactively on a step-by-step basis as if the equity method had been in effect during all previous periods that the investment had been held. The ASU requires that an entity that has available-for-sale securities recognize, through earnings, the unrealized holding gain or loss in accumulated other comprehensive income at the date the investment becomes qualified for use of the equity method. The amendment in this ASU becomes effective prospectively for annual periods, and interim periods within

Table of Contents

those annual periods, beginning after December 15, 2016. We are evaluating whether the adoption of this ASU will have a material effect on our consolidated financial statements.

Revenue Recognition and Derivatives and Hedging

In May of 2016, the FASB issued ASU 2016-11, Revenue Recognition (Topic 605) and Derivatives and Hedging (Topic 815), to rescind certain SEC guidance in Topic 605 and Topic 815 as ASU 2014-09 becomes effective. Our adoption of ASU 2014-09 will bring us into alignment with this ASU. We are evaluating whether the adoption of this ASU will have a material effect on our consolidated financial statements.

Allowance for Finance Receivables Losses

In June of 2016, the FASB issued ASU 2016-13, Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The ASU significantly changes the way that entities will be required to measure credit losses. The new standard requires that the estimated credit loss be based upon an “expected credit loss” approach rather than the “incurred loss” approach currently required. The new approach will require entities to measure all expected credit losses for financial assets based on historical experience, current conditions, and reasonable forecasts of collectability. It is anticipated that the expected credit loss model will require earlier recognition of credit losses than the incurred loss approach.

The ASU requires that credit losses for purchased financial assets with a more-than-insignificant amount of credit deterioration since origination that are measured at amortized cost basis be determined in a similar manner to other financial assets measured at amortized cost basis; however, the initial allowance for credit losses is added to the purchase price of the financial asset rather than being reported as a credit loss expense. Subsequent changes in the allowance for credit losses are recorded in earnings. Interest income should be recognized based on the effective rate, excluding the discount embedded in the purchase price attributable to expected credit losses at acquisition.

The ASU also requires companies to record allowances for held-to-maturity and available-for-sale debt securities rather than write-downs of such assets.

In addition, the ASU requires qualitative and quantitative disclosures that provide information about the allowance and the significant factors that influenced management’s estimate of the allowance.

The ASU will become effective for the Company for fiscal years beginning January 1, 2020. Early adoption is permitted for fiscal years beginning January 1, 2019. We believe the adoption of this ASU will have a material effect on our consolidated financial statements and we are in the process of evaluating the expected impacts.

Statement of Cash Flows

In August of 2016, the FASB issued ASU 2016-15, Statement of Cash Flows, which clarifies how certain cash receipts and cash payments are presented and classified in the statement of cash flows. The amendments in this ASU will become effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. We are evaluating whether the adoption of this ASU will have a material effect on our consolidated financial statements.

We do not believe that any other accounting pronouncements issued during the nine months ended September 30, 2016, but not yet effective, would have a material impact on our consolidated financial statements or disclosures, if adopted.

4. Finance Receivables

Our finance receivable types include personal loans, real estate loans, and retail sales finance as defined below:

Personal loans — are secured by consumer goods, automobiles, or other personal property or are unsecured, typically non-revolving with a fixed-rate and a fixed, original term of three to six years. At September 30, 2016, we had over 2.2 million personal loans representing \$13.7 billion of net finance receivables, compared to 2.2 million personal loans totaling \$13.3 billion at December 31, 2015.

Real estate loans — are secured by first or second mortgages on residential real estate, generally have maximum original terms of 360 months, and are considered non-conforming. Real estate loans may be closed-end accounts or open-end home equity lines of credit and are primarily fixed-rate products. Since we ceased real estate lending in January of 2012, our real estate loans are in a liquidating status.

Table of Contents

Retail sales finance — include retail sales contracts and revolving retail accounts. Retail sales contracts are closed-end accounts that represent a single purchase transaction. Revolving retail accounts are open-end accounts that can be used for financing repeated purchases from the same merchant. Retail sales contracts are secured by the personal property designated in the contract and generally have maximum original terms of 60 months. Revolving retail accounts are secured by the goods purchased and generally require minimum monthly payments based on the amount financed calculated after the most recent purchase or outstanding balances. Our retail sales finance portfolio is in a liquidating status.

Our finance receivable types also included the SpringCastle Portfolio at December 31, 2015, as defined below:

SpringCastle Portfolio — included unsecured loans and loans secured by subordinate residential real estate mortgages that were sold on March 31, 2016, in connection with the SpringCastle Interests Sale. The SpringCastle Portfolio included both closed-end accounts and open-end lines of credit. These loans were in a liquidating status and varied in substance and form from our originated loans. Unless we are terminated, we will continue to provide the servicing for these loans pursuant to a servicing agreement, which we service as unsecured loans because the liens are subordinated to superior ranking security interests.

Components of net finance receivables held for investment by type were as follows:

(dollars in millions)	Personal Loans	SpringCastle Portfolio	Real Estate Loans	Retail Sales Finance	Total
September 30, 2016					
Gross receivables *	\$15,607	\$ —	\$ 200	\$ 14	\$15,821
Unearned finance charges and points and fees	(2,175)	—	—	(1)	(2,176)
Accrued finance charges	145	—	1	—	146
Deferred origination costs	79	—	—	—	79
Total	\$13,656	\$ —	\$ 201	\$ 13	\$13,870
December 31, 2015					
Gross receivables *	\$15,353	\$ 1,672	\$ 534	\$ 25	\$17,584
Unearned finance charges and points and fees	(2,261)	—	—	(2)	(2,263)
Accrued finance charges	147	31	4	—	182
Deferred origination costs	56	—	—	—	56
Total	\$13,295	\$ 1,703	\$ 538	\$ 23	\$15,559

*Gross receivables are defined as follows:

Finance receivables purchased as a performing receivable — gross finance receivables equal the UPB for interest bearing accounts and the gross remaining contractual payments for precompute accounts; additionally, the remaining unearned discount, net of premium established at the time of purchase, is included in both interest bearing and precompute accounts to reflect the finance receivable balance at its initial fair value;

Finance receivables originated subsequent to the respective OneMain and Fortress acquisitions — gross finance receivables equal the UPB for interest bearing accounts and the gross remaining contractual payments for precompute accounts;

Purchased credit impaired finance receivables — gross finance receivables equal the remaining estimated cash flows less the current balance of accretable yield on the purchased credit impaired accounts; and

TDR finance receivables — gross finance receivables equal the UPB for interest bearing accounts and the gross remaining contractual payments for precompute accounts; additionally, the remaining unearned discount, net of premium established at the time of purchase, is included in both interest bearing and precompute accounts previously purchased as a performing receivable.

Table of Contents

Unused lines of credit extended to customers by the Company were as follows:

(dollars in millions)	September 30, December 31,	
	2016	2015
Personal loans	\$ 1	\$ 2
SpringCastle Portfolio	—	365
Real estate loans	10	30
Total	\$ 11	\$ 397

Unused lines of credit on our personal loans can be suspended if any of the following occurs: (i) the value of the collateral declines significantly; (ii) we believe the borrower will be unable to fulfill the repayment obligations; or (iii) any other default by the borrower of any material obligation under the agreement occurs. Unused lines of credit on our real estate loans can be suspended if any of the following occurs: (i) the value of the real estate declines significantly below the property's initial appraised value; (ii) we believe the borrower will be unable to fulfill the repayment obligations because of a material change in the borrower's financial circumstances; or (iii) any other default by the borrower of any material obligation under the agreement occurs. Unused lines of credit on home equity lines of credit can be terminated for delinquency. Accordingly, no reserve has been recorded for the unused lines of credit.

CREDIT QUALITY INDICATORS

We consider the delinquency status and nonperforming status of the finance receivable as our primary credit quality indicators.

We accrue finance charges on revolving retail finance receivables up to the date of charge-off at 180 days past due. Our revolving retail finance receivables that were more than 90 days past due and still accruing finance charges at September 30, 2016 and at December 31, 2015 were immaterial. Our personal loans and real estate loans do not have finance receivables that were more than 90 days past due and still accruing finance charges.

Delinquent and Nonperforming Finance Receivables

We consider the delinquency status of the finance receivable as our primary credit quality indicator. We monitor delinquency trends to manage our exposure to credit risk. We consider finance receivables 60 days or more past due as delinquent and consider the likelihood of collection to decrease at such time.

We also monitor finance receivable performance trends to evaluate the potential risk of future credit losses. At 90 days or more past due, we consider our finance receivables to be nonperforming. Once the finance receivables are considered as nonperforming, we consider them to be at increased risk for credit loss.

Table of Contents

The following is a summary of net finance receivables held for investment by type and by number of days delinquent:

(dollars in millions)	Personal Loans	SpringCastle Portfolio	Real Estate Loans	Retail Sales Finance	Total
September 30, 2016					
Net finance receivables:

PURCHASED CREDIT IMPAIRED FINANCE RECEIVABLES

Our purchased credit impaired finance receivables consist of receivables purchased as part of the following transactions:

• OneMain Acquisition - effective November 1, 2015, we acquired personal loans (the "OM Loans"), some of which were determined to be credit impaired.

•

Ownership interest acquired by FCFI Acquisition LLC, an affiliate of Fortress (the “Fortress Acquisition”) - we revalued our assets and liabilities based on their fair value at the date of the Fortress Acquisition, November 30, 2010, in accordance with purchase accounting and adjusted the carrying value of our finance receivables (the “FA Loans”) to their fair value.

Table of Contents

At December 31, 2015, our purchased credit impaired finance receivables also included the SpringCastle Portfolio, which was purchased as part of the following transaction:

Joint venture acquisition of the SpringCastle Portfolio (the “SCP Loans”) - on April 1, 2013, we acquired a 47% equity interest in the SCP Loans, some of which were determined to be credit impaired on the date of purchase. On March 31, 2016, we sold the SpringCastle Portfolio in connection with the SpringCastle Interests Sale described in Note 2.

We report the carrying amount (which initially was the fair value) of our purchased credit impaired finance receivables in net finance receivables, less allowance for finance receivable losses or in finance receivables held for sale as discussed below.

At September 30, 2016 and December 31, 2015, finance receivables held for sale totaled \$166 million and \$793 million, respectively. See Note 6 for further information on our finance receivables held for sale, which include purchased credit impaired finance receivables, as well as TDR finance receivables. Therefore, we are presenting the financial information for our purchased credit impaired finance receivables and TDR finance receivables combined for finance receivables held for investment and finance receivables held for sale in the tables below.

Information regarding our purchased credit impaired finance receivables held for investment and held for sale were as follows:

(dollars in millions)	OM Loans	SCP Loans	FA Loans *	Total
September 30, 2016				
Carrying amount, net of allowance	\$ 380	\$ —	\$ 72	\$452
Outstanding balance	519	—	109	628
Allowance for purchased credit impaired finance receivable losses	29	—	8	37
December 31, 2015				
Carrying amount, net of allowance	\$ 652	\$ 350	\$ 89	\$1,091
Outstanding balance	911	482	136	1,529
Allowance for purchased credit impaired finance receivable losses	—	—	12	12

*Purchased credit impaired FA Loans held for sale included in the table above were as follows:

(dollars in millions)	FA Loans
September 30, 2016	
Carrying amount	\$ 56
Outstanding balance	85
December 31, 2015	
Carrying amount	\$ 59
Outstanding balance	89

The allowance for purchased credit impaired finance receivable losses at September 30, 2016 and December 31, 2015, reflected the net carrying value of the purchased credit impaired FA Loans being higher than the present value of the expected cash flows.

Table of Contents

Changes in accretable yield for purchased credit impaired finance receivables held for investment and held for sale were as follows:

(dollars in millions)	OM Loans	SCP Loans	FA Loans	Total
Three Months Ended September 30, 2016				
Balance at beginning of period	\$ 87	\$—	\$ 61	\$ 148
Accretion (a)	(15)	—	(1)	(16)
Reclassifications from nonaccretable difference (b)	—	—	8	8
Transfer due to finance receivables sold	—	—	(11)	(11)
Balance at end of period	\$ 72	\$—	\$ 57	\$ 129
Three Months Ended September 30, 2015				
Balance at beginning of period	\$—	\$ 411	\$ 53	\$ 464
Accretion (a)	—	(19)	(2)	(21)
Reclassifications from nonaccretable difference (b)	—	—	1	1
Balance at end of period	\$—	\$ 392	\$ 52	\$ 444
Nine Months Ended September 30, 2016				
Balance at beginning of period	\$ 151	\$ 375	\$ 66	\$ 592
Accretion (a)	(56)	(16)	(5)	(77)
Other (c)	(23)	—	—	(23)
Reclassifications from nonaccretable difference (b)	—	—	7	7
Transfer due to finance receivables sold	—	(359)	(11)	(370)
Balance at end of period	\$ 72	\$—	\$ 57	\$ 129
Nine Months Ended September 30, 2015				
Balance at beginning of period	\$—	\$ 452	\$ 54	\$ 506
Accretion (a)	—	(60)	(6)	(66)
Reclassifications from nonaccretable difference (b)	—	—	4	4
Balance at end of period	\$—	\$ 392	\$ 52	\$ 444

(a) Accretion on our purchased credit impaired FA Loans held for sale included in the table above were as follows:

(dollars in millions)	Three Months Ended September 30, 2016	Nine Months Ended September 30, 2015	Three Months Ended September 30, 2016	Nine Months Ended September 30, 2015
Accretion	\$ 2	\$ 1	\$ 4	\$ 4

(b) Reclassifications from nonaccretable difference represents the increases in accretable yield resulting from higher estimated undiscounted cash flows.

Other reflects a measurement period adjustment in the first quarter of 2016 based on a change in the expected cash (c) flows in the purchase credit impaired portfolio related to the OneMain Acquisition. The measurement period adjustment created a decrease of \$23 million to the beginning balance of the OM Loans accretable yield.

6. Finance Receivables Held for Sale

We report finance receivables held for sale of \$166 million at September 30, 2016 and \$793 million at December 31, 2015, which are carried at the lower of cost or fair value. At September 30, 2016, finance receivables held for sale consisted entirely of real estate loans, compared to \$617 million of personal loans and \$176 million of real estate loans at December 31, 2015. At September 30, 2016 and December 31, 2015, the fair value of our finance receivables held for sale exceeded the cost. We used the aggregate basis to determine the lower of cost or fair value of finance receivables held for sale.

Edgar Filing: OneMain Holdings, Inc. - Form 10-Q

On June 30, 2016, we transferred \$257 million of real estate loans (after deducting allowance for finance receivable losses) from held for investment to held for sale due to management's intent to no longer hold these finance receivables for the foreseeable future. In connection with the August 2016 Real Estate Loan Sale, we sold a portfolio of second lien mortgage loans with a carrying value of \$250 million and recorded a net loss in other revenues of \$4 million.

On May 2, 2016, we sold personal loans held for sale with a carrying value of \$602 million and recorded a net gain in other revenues at the time of sale of \$22 million.

Table of Contents

During March of 2016, we transferred \$1.6 billion of loans of the SpringCastle Portfolio (after deducting allowance for finance receivable losses) from held for investment to held for sale due to management's intent to no longer hold these finance receivables for the foreseeable future. We simultaneously sold our interests in these finance receivables held for sale on March 31, 2016 in the SpringCastle Interests Sale and recorded a net gain in other revenues at the time of sale of \$167 million.

We did not have any other material transfer activity to or from finance receivables held for sale during each of the three and nine months ended September 30, 2016 and 2015.

7. Investment Securities

AVAILABLE-FOR-SALE SECURITIES

Cost/amortized cost, unrealized gains and losses, and fair value of available-for-sale securities by type were as follows:

* Unrealized losses on certain available-for-sale securities were less than \$1 million and, therefore, are not quantified in the table above.

On a lot basis, we had 465 and 2,404 investment securities in an unrealized loss position at September 30, 2016 and December 31, 2015, respectively. We do not consider the unrealized losses to be credit-related, as these unrealized losses primarily relate

32

Table of Contents

to changes in interest rates and market spreads subsequent to purchase. Additionally, at September 30, 2016, we had no plans to sell any investment securities with unrealized losses, and we believe it is more likely than not that we would not be required to sell such investment securities before recovery of their amortized cost.

We continue to monitor unrealized loss positions for potential impairments. During the three and nine months ended September 30, 2016, we recognized less than \$1 million of other-than-temporary impairment credit losses on corporate debt in investment revenues. During the three and nine months ended September 30, 2015, we did not recognize any other-than-temporary impairment credit losses on available-for-sale securities in investment revenues.

Changes in the cumulative amount of credit losses (recognized in earnings) on other-than-temporarily impaired available-for-sale securities were as follows:

(dollars in millions)	Three Months Ended		Nine Months Ended	
	September 30, 2016	September 30, 2015	September 30, 2016	September 30, 2015
Balance at beginning of period	\$ —	\$ 1	\$ 2	\$ 1
Reductions:				
Realized due to dispositions with no prior intention to sell	—	—	2	—
Balance at end of period	\$ —	\$ 1	\$ —	\$ 1

The proceeds of available-for-sale securities sold or redeemed and the resulting realized gains, realized losses, and net realized gains were as follows:

(dollars in millions)	Three Months Ended		Nine Months Ended	
	September 30, 2016	September 30, 2015	September 30, 2016	September 30, 2015
Proceeds from sales and redemptions	\$ 57	\$ 168	\$ 344	\$ 374
Realized gains	\$ 3	\$ 4	\$ 10	\$ 15
Realized losses	—	—	(1)	(1)
Net realized gains	\$ 3	\$ 4	\$ 9	\$ 14

Contractual maturities of fixed-maturity available-for-sale securities at September 30, 2016 were as follows:

(dollars in millions)	Fair Value	Amortized Cost
Fixed maturities, excluding mortgage-backed, asset-backed, and collateralized securities:		
Due in 1 year or less	\$ 152	\$ 152
Due after 1 year through 5 years	623	615
Due after 5 years through 10 years	378	361
Due after 10 years	208	200
Mortgage-backed, asset-backed, and collateralized securities	276	274

Total \$1,637 \$ 1,602

Actual maturities may differ from contractual maturities since borrowers may have the right to call or prepay obligations. We may sell investment securities before maturity for general corporate and working capital purposes and to achieve certain investment strategies.

The fair value of bonds on deposit with insurance regulatory authorities totaled \$170 million and \$152 million at September 30, 2016 and December 31, 2015, respectively.

33

Table of Contents

TRADING AND OTHER SECURITIES

The fair value of trading and other securities by type was as follows:

(dollars in millions)	September 30, 2016	December 31, 2015
Fixed maturity trading and other securities:		
Bonds		
Non-U.S. government and government sponsored entities	\$ 3	\$ 3

Mortgage-backed, asset-backed, and collateralized:		
RMBS	1	2
CMBS	2	2
CDO/ABS	3	—
Total bonds	106	131
Preferred stock	6	6
Total *	\$ 112	\$ 137

* The fair value of other securities, which we have elected the fair value option, totaled \$112 million at September 30, 2016 and \$128 million at December 31, 2015.

The net unrealized and realized gains (losses) on our trading and other securities, which we report in investment revenues, were as follows:

(dollars in millions)	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
Net unrealized gains (losses) on trading and other securities held at period end	\$(2)	\$(1)	\$ 6	\$ 3
Net realized gains (losses) on trading and other securities sold or redeemed	4	(1)	4	(2)
Total	\$ 2	\$(2)	\$ 10	\$ 1

8. Transactions with Affiliates of Fortress

SUBSERVICING AGREEMENT

Nationstar Mortgage LLC (“Nationstar”) subservices the real estate loans of certain of our indirect subsidiaries (collectively, the “Owners”). Investment funds managed by affiliates of Fortress indirectly own a majority interest in Nationstar. The Owners paid Nationstar subservicing fees of less than \$1 million for the three months ended September 30, 2016 and 2015 and \$1 million for the nine months ended September 30, 2016 and 2015.

INVESTMENT MANAGEMENT AGREEMENT

Logan Circle Partners, L.P. (“Logan Circle”) provides investment management services for Springleaf investments. Logan Circle is a wholly owned subsidiary of Fortress. Costs and fees incurred for these investment management services were less than \$1 million for the three months ended September 30, 2016 and 2015. Costs and fees incurred

for these investment management services totaled \$1 million for the nine months ended September 30, 2016 and 2015.

SALE OF EQUITY INTEREST IN SPRINGCASTLE JOINT VENTURE

On March 31, 2016, we sold our 47% equity interest in the SpringCastle Joint Venture, which owns the SpringCastle Portfolio, to certain subsidiaries of NRZ and Blackstone. See Note 2 for further information on this sale. NRZ is managed by an affiliate of Fortress.

Table of Contents

Unless we are terminated, we will continue to act as the servicer of the SpringCastle Portfolio for the SpringCastle Funding Trust pursuant to a servicing agreement. Servicing fees revenue totaled \$10 million and \$21 million for the three and nine months ended September 30, 2016. At September 30, 2016, the servicing fees receivable from the SpringCastle Funding Trust totaled \$3 million.

9. Long-term Debt

Principal maturities of long-term debt (excluding projected repayments on securitizations and revolving conduit facilities by period) by type of debt at September 30, 2016 were as follows:

(dollars in millions)	Senior Debt			Total
	Securitizations	Medium Term Notes	Junior Subordinated Debt	
Interest rates (a)	2.04%	5.25%	6.00%	
	-	-		
	6.94%	8.25%		
Fourth quarter 2016	\$—	\$—	\$—	\$—
First quarter 2017	—	—	—	—
Second quarter 2017	—	—	—	—
Third quarter 2017	—	257	—	257
Fourth quarter 2017	—	1,032	—	1,032
2018	—	—	—	—
2019	—	1,400	—	1,400
2020	—	1,300	—	1,300
2021-2067	—	1,750	350	2,100
Securitizations (b)	8,303	—	—	8,303
Total principal maturities	\$8,303	\$5,739	\$ 350	\$14,392
Total carrying amount	\$8,287	\$5,535	\$ 172	\$13,994
Debt issuance costs (c)	\$(19)	\$(16)	\$ —	\$(35)

(a) The interest rates shown are the range of contractual rates in effect at September 30, 2016.

Securitizations are not included in above maturities by period due to their variable monthly repayments. At (b) September 30, 2016, there were no amounts drawn under our revolving conduit facilities. See Note 10 for further information on our long-term debt associated with securitizations and revolving conduit facilities.

Debt issuance costs are reported as a direct deduction from long-term debt, with the exception of debt issuance (c) costs associated with our revolving conduit facilities, which totaled \$14 million at September 30, 2016 and are reported in other assets.

GUARANTY AGREEMENTS

8.25% SFC Notes

On April 11, 2016, OMH entered into a Second Supplemental Indenture, pursuant to which it agreed to fully and unconditionally guarantee, on a senior unsecured basis, the payments of principal, premium (if any) and interest on \$1.0 billion of the 8.25% SFC Notes. As of September 30, 2016, \$1.0 billion aggregate principal amount of the 8.25% SFC Notes were outstanding. See Note 2 for further discussion of this offering.

5.25% SFC Notes

On December 3, 2014, OMH entered into the Base Indenture and the First Supplemental Indenture, pursuant to which it agreed to fully and unconditionally guarantee, on a senior unsecured basis, the payments of principal, premium (if any) and interest on \$700 million of 5.25% Senior Notes due 2019 issued by SFC (the "5.25% SFC Notes"). As of September 30, 2016, \$700 million aggregate principal amount of the 5.25% SFC Notes were outstanding.

Table of Contents

Other SFC Notes

On December 30, 2013, OMH entered into Guaranty Agreements whereby it agreed to fully and unconditionally guarantee the payments of principal, premium (if any) and interest on approximately \$5.2 billion aggregate principal amount of senior notes, on a senior unsecured basis, and \$350 million aggregate principal amount of a junior subordinated debenture, on a junior subordinated basis, issued by SFC (collectively, the “Other SFC Notes”). The Other SFC Notes consisted of the following: 8.25% Senior Notes due 2023; 7.75% Senior Notes due 2021; 6.00% Senior Notes due 2020; a 60-year junior subordinated debenture; and all senior notes outstanding on December 30, 2013, issued pursuant to the Indenture dated as of May 1, 1999 (the “1999 Indenture”), between SFC and Wilmington Trust, National Association (the successor trustee to Citibank N.A.). The 60-year junior subordinated debenture underlies the trust preferred securities sold by a trust sponsored by SFC. On December 30, 2013, OMH entered into a Trust Guaranty Agreement whereby it agreed to fully and unconditionally guarantee the related payment obligations under the trust preferred securities. As of September 30, 2016, approximately \$2.9 billion aggregate principal amount of the Other SFC Notes were outstanding.

The OMH guarantees of SFC’s long-term debt discussed above are subject to customary release provisions.

OMFH Notes

On December 11, 2014, OMFH and certain of its subsidiaries entered into an indenture (the “OMFH Indenture”), among OMFH, the guarantors listed therein and The Bank of New York Mellon, as trustee, in connection with OMFH’s issuance of \$700 million aggregate principal amount of 6.75% Senior Notes due 2019 and \$800 million in aggregate principal amount of 7.25% Senior Notes due 2021 (collectively, the “OMFH Notes”). The OMFH Notes are OMFH’s unsecured senior obligations, guaranteed on a senior unsecured basis by each of its wholly owned domestic subsidiaries, other than certain subsidiaries, including its insurance subsidiaries and securitization subsidiaries. As of September 30, 2016, \$1.5 billion aggregate principal amount of the OMFH Notes were outstanding.

Subsequently, on November 8, 2016, OMH agreed to fully, unconditionally, and irrevocably guarantee the OMFH Notes. See Note 18 for further information on OMH’s guarantee of the OMFH Notes.

10. Variable Interest Entities

As part of our overall funding strategy and as part of our efforts to support our liquidity from sources other than our traditional capital market sources, we have transferred certain finance receivables to VIEs for securitization transactions. Since these transactions involve securitization trusts required to be consolidated, the securitized assets and related liabilities are included in our condensed consolidated financial statements and are accounted for as secured borrowings.

CONSOLIDATED VIES

We evaluated the securitization trusts and determined that these entities are VIEs of which SFC or OMFH is the primary beneficiary, and therefore, we consolidated such entities. SFC or OMFH is deemed to be the primary beneficiary of each of these VIEs because SFC or OMFH has the ability to direct the activities of each VIE that most significantly impact the entity’s economic performance and the obligation to absorb losses and the right to receive benefits that are potentially significant to each VIE. Such ability arises from SFC’s or OMFH’s and their affiliates’ contractual right to service the securitized finance receivables. Our retained subordinated notes and residual interest trust certificates expose us to potentially significant losses and potentially significant returns.

The asset-backed securities issued by the securitization trusts are supported by the expected cash flows from the underlying securitized finance receivables. Cash inflows from these finance receivables are distributed to investors and service providers in accordance with each transaction's contractual priority of payments ("waterfall") and, as such, most of these inflows must be directed first to service and repay each trust's senior notes or certificates held principally by third-party investors. The holders of the asset-backed securities have no recourse to the Company if the cash flows from the underlying qualified securitized assets are not sufficient to pay all principal and interest on the asset-backed securities. After these senior obligations are extinguished, substantially all cash inflows will be directed to the subordinated notes until fully repaid and, thereafter, to the residual interest that we own in each securitization trust. We retain interests in these securitization transactions, including residual interests in each securitization trust and, in some cases, subordinated securities issued by the VIEs. We retain credit risk in the securitizations through our ownership of the residual interest in each securitization trust, and, in some cases, ownership of the most subordinated class of asset-backed securities, which are the first to absorb credit losses on the securitized assets. We expect that any credit losses in the pools of securitized assets will likely be limited to our subordinated and residual

Table of Contents

retained interests. We have no obligation to repurchase or replace qualified securitized assets that subsequently become delinquent or are otherwise in default.

We parenthetically disclose on our consolidated balance sheets the VIE's assets that can only be used to settle the VIE's obligations and liabilities if its creditors have no recourse against the primary beneficiary's general credit. The carrying amounts of consolidated VIE assets and liabilities associated with our securitization trusts were as follows:

(dollars in millions)	September 30, 2016	December 31, 2015
Assets		
Cash and cash equivalents	\$ 4	\$ 11
Finance receivables:		
Personal loans	9,843	11,448
SpringCastle Portfolio	—	1,703
Allowance for finance receivable losses	500	431
Finance receivables held for sale	—	435
Restricted cash and cash equivalents	548	663
Other assets	14	48
Liabilities		
Long-term debt	\$ 8,287	\$ 11,654
Other liabilities	14	17

SECURITIZATION TRANSACTIONS

SFC Auto Loan Securitization

ODART 2016-1 Securitization. On July 19, 2016, SFC completed a private securitization transaction in which OneMain Direct Auto Receivables Trust 2016-1 ("ODART 2016-1"), a wholly owned special purpose vehicle of SFC, issued \$754 million principal amount of notes backed by direct auto loans with an aggregate UPB of \$754 million as of June 30, 2016. \$700 million principal amount of the notes issued by ODART 2016-1, represented by Classes A, B and C, were sold to unaffiliated parties at a weighted average interest rate of 2.27%, and \$54 million principal amount of Class D notes were retained. The maturity dates of the notes occur on January 15, 2021 for the Class A, May 17, 2021 for the Class B, September 15, 2021 for the Class C and February 15, 2023 for the Class D. The first principal and interest payment on the notes was due on August 15, 2016. The indenture governing the ODART 2016-1 notes contains events of default which, if triggered, may result in the acceleration of the obligation to pay principal and interest on the notes.

SFC Consumer Loan Securitization

Call of 2013-B Notes. On February 16, 2016, Sixteenth Street Funding LLC ("Sixteenth Street"), a wholly owned subsidiary of SFC, exercised its right to redeem the asset backed notes issued by the Springleaf Funding Trust 2013-B on June 19, 2013 (the "2013-B Notes"). To redeem the 2013-B Notes, Sixteenth Street paid a redemption price of \$371 million, which included \$1 million of accrued interest and excluded \$30 million for the Class C and Class D Notes owned by Sixteenth Street on February 16, 2016, the date of the optional redemption. The outstanding principal balance of the 2013-B Notes was \$400 million on the date of the optional redemption.

OMFH Consumer Loan Securitizations

OMFIT 2016-1 Securitization. On February 10, 2016, OMFH completed a private securitization transaction in which OneMain Financial Issuance Trust 2016-1 (“OMFIT 2016-1”), a wholly owned special purpose vehicle of OMFH, issued \$500 million of notes backed by personal loans. \$414 million of the notes issued by OMFIT 2016-1, represented by Classes A and B, were sold to unaffiliated third parties at a weighted average interest rate of 3.79%, and \$86 million of the notes issued by OMFIT 2016-1, represented by Classes C and D, were retained by OMFH. The notes mature on February 20, 2029 and have a 34-month revolving period during which no principal payments are required to be made on the notes. These notes are collateralized by a pool of secured and unsecured fixed rate personal loans with an aggregate UPB of \$570 million as of February 10, 2016. The indenture governing the notes contains customary early amortization events and events of default,

Table of Contents

which, if triggered, may result in the acceleration of the obligation to pay principal and interest on the notes.

On May 17, 2016, \$45 million of the notes issued by OMFIT 2016-1, represented by Class C, were sold to unaffiliated third parties at an interest rate of 6.00%.

OMFIT 2016-2 Securitization. On March 23, 2016, OMFH completed a private securitization transaction in which OneMain Financial Issuance Trust 2016-2 (“OMFIT 2016-2”), a wholly owned special purpose vehicle of OMFH, issued \$890 million of notes backed by personal loans. \$733 million of the notes issued by OMFIT 2016-2, represented by Classes A and B, were sold to unaffiliated third parties at a weighted average interest rate of 4.37%, and \$157 million of the notes issued by OMFIT 2016-2, represented by Classes C and D, were retained by OMFH. The notes mature on March 20, 2028 and have a 23-month revolving period during which no principal payments are required to be made on the notes. These notes are collateralized by a pool of secured and unsecured fixed rate personal loans with an aggregate UPB of \$1.0 billion as of March 23, 2016. The indenture governing the notes contains customary early amortization events and events of default, which, if triggered, may result in the acceleration of the obligation to pay principal and interest on the notes.

On July 25, 2016, OneMain Financial Funding III, LLC, a wholly owned special purpose vehicle of OMFH, sold \$83 million principal amount of the previously retained Class C Notes issued by OMFIT 2016-2 to unaffiliated third parties at an interest rate of 5.67%.

OMFIT 2016-3 Securitization. On June 7, 2016, OMFH completed a private securitization transaction in which OneMain Financial Issuance Trust 2016-3 (“OMFIT 2016-3”), a wholly owned special purpose vehicle of OMFH, issued \$350 million of notes backed by personal loans. \$317 million of the notes issued by OMFIT 2016-3, represented by Classes A, B and C, were sold to unaffiliated third parties at a weighted average interest rate of 4.33%, and \$33 million of the notes issued by OMFIT 2016-3, represented by Class D, were retained by OMFH. The notes mature on June 18, 2031 and have a 59-month revolving period during which no principal payments are required to be made on the notes. These notes are collateralized by a pool of secured and unsecured fixed rate personal loans with an aggregate UPB of \$397 million as of June 7, 2016. The indenture governing the notes contains customary early amortization events and events of default, which, if triggered, may result in the acceleration of the obligation to pay principal and interest on the notes.

REVOLVING CONDUIT FACILITIES**Conduit Facilities**

As of September 30, 2016, our borrowings under conduit facilities consisted of the following:

Table of Contents

First Avenue Funding LLC. On June 30, 2016, we amended the note purchase agreement with the First Avenue Funding LLC (“First Avenue”) to extend the revolving period ending in March 2018 to June 2018. Following the (a) revolving period, the principal amount of the notes, if any, will be reduced as cash payments are received on the underlying direct auto loans and will be due and payable in full 12 months following the maturity of the last direct auto loan held by First Avenue.

Midbrook 2013-VFN1 Trust. On February 24, 2016, we amended the note purchase agreement with the Midbrook Funding Trust 2013-VFN1 to (i) extend the revolving period ending in June 2016 to February 2018 and (ii) (b) decrease the maximum principal balance from \$300 million to \$250 million on February 24, 2017. Following the revolving period, the principal amount of the notes, if any, will be reduced as cash payments are received on the underlying personal loans and will be due and payable in the 36th month following the end of the revolving period.

Mill River 2015-VFN1 Trust. On January 21, 2016, we amended the note purchase agreement with the Mill River (c) 2015-VFN1 Trust to decrease the maximum principal balance from \$400 million to \$100 million.

Springleaf 2013-VFN1 Trust. On January 21, 2016, we amended the note purchase agreement with the Springleaf 2013-VFN1 Trust to (i) increase the maximum principal balance from \$350 million to \$850 million and (ii) extend (d) the revolving period ending in April 2017 to January 2018, which may be extended to January 2019, subject to the satisfaction of customary conditions precedent. Following the revolving period, the principal amount of the notes, if any, will be reduced as cash payments are received on the underlying personal loans and will be due and payable in the 36th month following the end of the revolving period.

Whitford Brook 2014-VFN1 Trust. On February 24, 2016, we amended the note purchase agreement with the Whitford Brook Funding Trust 2014-VFN1 (the “Whitford Brook 2014-VFN1 Trust”) to extend the revolving period (e) ending in June 2017 to June 2018. Following the revolving period, the principal amount of the notes, if any, will be reduced as cash payments are received on the underlying personal loans and will be due and payable in the 12th month following the end of the revolving period.

OneMain Financial B5 Warehouse Trust. On March 21, 2016, we refinanced the OneMain Financial B1 Warehouse Trust into OneMain Financial B5 Warehouse Trust with the same unaffiliated financial institutions that provided (f) committed financing on a revolving basis for personal loans originated by OMFH’s subsidiaries. The maximum principal balance under the new facility is \$550 million. The aggregate maximum capacity for this facility is subject to a scheduled reduction of \$100 million on January 21, 2017 and a further reduction of \$100 million on January 21, 2018.

OneMain Financial B6 Warehouse Trust. On July 28, 2016, we amended the note purchase agreement with the (g) OneMain Financial B6 Warehouse Trust to decrease the maximum principal balance from \$750 million to \$600 million.

VIE INTEREST EXPENSE

Other than our retained subordinate and residual interests in the remaining consolidated securitization trusts, we are under no obligation, either contractually or implicitly, to provide financial support to these entities. Consolidated interest expense related to our VIEs for the three and nine months ended September 30, 2016 totaled \$81 million and \$261 million, respectively, compared to \$49 million and \$136 million for the three and nine months ended September 30, 2015, respectively.

DECONSOLIDATED VIES

As a result of the SpringCastle Interests Sale on March 31, 2016, we deconsolidated the securitization trust holding the underlying loans of the SpringCastle Portfolio and previously issued securitized interests, which were reported in long-term debt.

As a result of the sales of the mortgage-backed retained certificates during 2014, we (i) deconsolidated the securitization trusts holding the underlying real estate loans and previously issued securitized interests which were reported in long-term debt and (ii) established a reserve for sales recourse obligations of \$7 million related to these sales. At September 30, 2016, this reserve totaled \$7 million. We had no repurchase activity associated with these sales as of September 30, 2016. See Note 14 for further information on the total reserve for sales recourse obligations relating to our real estate loan sales, including the sales of the mortgage-backed retained certificates.

Table of Contents

11. Earnings (Loss) Per Share

The computation of earnings (loss) per share was as follows:

(dollars in millions, except earnings (loss) per share)	Three Months		Nine Months	
	Ended		Ended	
	September 30,		September 30,	
	2016	2015	2016	2015
Numerator (basic and diluted):				
Net income (loss) attributable to OneMain Holdings, Inc.	\$25	\$ (13)	\$188	\$ (23)
Denominator:				
Weighted average number of shares outstanding (basic)	134,730,354	134,763	134,717,257	134,701,635
Effect of dilutive securities *	256,883	—	231,467	—
Weighted average number of shares outstanding (diluted)	134,987,238	134,763	134,948,724	134,701,635
Earnings (loss) per share:				
Basic	\$0.19	\$ (0.10)	\$1.40	\$ (0.18)
Diluted	\$0.19	\$ (0.10)	\$1.39	\$ (0.18)

We have excluded the following shares in the diluted earnings (loss) per share calculation for the three and nine * months ended September 30, 2016 and 2015 because these shares would be anti-dilutive, which could impact the earnings (loss) per share calculation in the future:

573,658 and 593,331 performance-based shares and 870,645 and 521,127 service-based shares for the three months ended September 30, 2016 and 2015, respectively; and
576,437 and 593,068 performance-based shares and 960,032 and 472,259 service-based shares for the nine months ended September 30, 2016 and 2015, respectively.

Basic earnings (loss) per share is computed by dividing net income or loss by the weighted-average number of shares outstanding during each period. Diluted earnings (loss) per share is computed based on the weighted-average number of common shares plus the effect of dilutive potential common shares outstanding during the period using the treasury stock method. Dilutive potential common shares represent outstanding unvested restricted stock units and restricted stock awards.

Table of Contents

13. Income Taxes

At September 30, 2016, we had a net deferred tax asset of \$171 million, compared to \$95 million at December 31, 2015. The increase in net deferred tax asset of \$76 million was primarily due to changes in the fair value of our finance receivables, purchase accounting for debt writedown, and an increase in allowance for finance receivable losses, partially offset by the impact of the SpringCastle Interests Sale and amortization of goodwill for tax purposes.

The effective tax rate for the nine months ended September 30, 2016 was 33.9%, compared to 1.3% for the same period in 2015. The effective tax rate for the nine months ended September 30, 2016 differed from the federal statutory rate primarily due to the effect of the non-controlling interests in the previously owned SpringCastle Portfolio, partially offset by the effect of state income taxes. The effective tax rate for the nine months ended September 30, 2015 differed from the federal statutory rate primarily due to the effect of the non-controlling interests in the previously owned SpringCastle Portfolio.

We are currently under examination of our U.S. federal tax return for the years 2011 to 2013 by the Internal Revenue Service. Management believes it has adequately provided for taxes for such years.

The Company's unrecognized tax positions, including interest and penalties, totaled \$17 million at September 30, 2016 and \$15 million at December 31, 2015, \$10 million of which would affect the effective tax rate if recognized. The amount of any change in the balance of uncertain tax positions over the next 12 months is not expected to be material to our consolidated financial statements.

14. Contingencies

LEGAL CONTINGENCIES

In the normal course of business, we have been named, from time to time, as defendants in various legal actions, including arbitrations, class actions and other litigation arising in connection with our activities. Some of the actual or threatened legal actions include claims for substantial compensatory and/or punitive damages or claims for indeterminate amounts of damages. While we will continue to evaluate legal actions to determine whether a loss is reasonably possible or probable and is reasonably estimable, there can be no assurance that material losses will not be incurred from pending, threatened or future litigation, investigations, examinations, or other claims.

We contest liability and/or the amount of damages, as appropriate, in each pending matter. Where available information indicates that it is probable that a liability had been incurred at the date of the condensed consolidated financial statements and we can reasonably estimate the amount of that loss, we accrue the estimated loss by a charge to income. In many actions, however, it is inherently difficult to determine whether any loss is probable or even reasonably possible or to estimate the amount of any loss. In addition, even where loss is reasonably possible or an exposure to loss exists in excess of the liability already accrued with respect to a previously recognized loss contingency, it is not always possible to reasonably estimate the size of the possible loss or range of loss.

For certain legal actions, we cannot reasonably estimate such losses, particularly for actions that are in their early stages of development or where plaintiffs seek substantial or indeterminate damages. Numerous issues may need to be resolved, including through potentially lengthy discovery and determination of important factual matters, and by addressing novel or unsettled legal questions relevant to the actions in question, before a loss or additional loss or range of loss or additional loss can be reasonably estimated for any given action.

For certain other legal actions, we can estimate reasonably possible losses, additional losses, ranges of loss or ranges of additional loss in excess of amounts accrued, but do not believe, based on current knowledge and after consultation with counsel, that such losses will have a material adverse effect on our condensed consolidated financial statements as a whole.

SALES RECOURSE OBLIGATIONS

Real Estate Loan Sales

At September 30, 2016, our reserve for sales recourse obligations totaled \$14 million, which primarily related to the real estate loan sales in 2014. During the three months ended September 30, 2016 and 2015 and the nine months ended September 30, 2016, we had no repurchase activity related to our real estate loan sales in 2014. For the nine months ended September 30, 2015, we repurchased 13 loans, totaling \$1 million, associated with the real estate loan sales in 2014. At September 30, 2016, there were no material recourse requests with loss exposure that management believed would not be covered by the reserve.

Table of Contents

However, we will continue to monitor any repurchase activity in the future and will adjust the reserve accordingly. When recourse losses are reasonably possible or exposure to such losses exists in excess of the liability already accrued, it is not always possible to reasonably estimate the size of the possible recourse losses or range of losses.

The activity in our reserve for sales recourse obligations primarily associated with the real estate loan sales during 2014 was as follows:

	Three		Nine	
	Months	Months	Months	Months
	Ended	Ended	Ended	Ended
	September	September	September	September
	30,	30,	30,	30,
(dollars in millions)	2016	2015	2016	2015
Balance at beginning of period	\$ 15	\$ 18	\$ 15	\$ 24
Recourse losses	—	—	—	(5)
Provision for recourse obligations, net of recoveries *	(1)	—	(1)	(1)
Balance at end of period	\$ 14	\$ 18	\$ 14	\$ 18

*Reflects the elimination of the reserve associated with other prior sales of finance receivables.

We did not establish a reserve for sales recourse obligations associated with the August 2016 Real Estate Loan Sale.

Lendmark Sale

We did not establish a reserve for sales recourse obligations associated with the personal loans sold to Lendmark in May of 2016 due to the higher credit quality of the personal loans sold.

15. Benefit Plans

The following table presents the components of net periodic benefit cost with respect to our defined benefit pension plans:

	Three		Nine	
	Months	Months	Months	Months
	Ended	Ended	Ended	Ended
	September	September	September	September
	30,	30,	30,	30,
(dollars in millions)	2016	2015	2016	2015
Components of net periodic benefit cost - pension plans:				
Interest cost	\$ 4	\$ 4	\$ 12	\$ 12
Expected return on assets	(5)	(5)	(13)	(14)
Net periodic benefit cost	\$(1)	\$(1)	\$(1)	\$(2)

We do not currently fund post retirement benefits.

Table of Contents

16. Segment Information

Our segments coincide with how our businesses are managed. At September 30, 2016, our three segments included:

Consumer and Insurance — We originate and service personal loans (secured and unsecured) through two business divisions: branch operations and centralized operations. We also offer credit insurance (life insurance, disability insurance, and involuntary unemployment insurance), non-credit insurance, and ancillary products, such as warranty protection. As a result of the OneMain Acquisition, our combined branch operations primarily conduct business in 44 states. Our centralized operations underwrite and process certain loan applications that we receive from our branch operations or through an internet portal. If the applicant is located near an existing branch (“in footprint”), our centralized operations make the credit decision regarding the application and then request, but do not require, the customer to visit a nearby branch for closing, funding and servicing. If the applicant is not located near a branch (“out of footprint”), our centralized operations originate the loan.

Acquisitions and Servicing — We service the SpringCastle Portfolio that was acquired through a joint venture in which we previously owned a 47% equity interest. On March 31, 2016, the SpringCastle Portfolio was sold in connection with the sale of our equity interest in the SpringCastle Joint Venture. These loans consist of unsecured loans and loans secured by subordinate residential real estate mortgages and include both closed-end accounts and open-end lines of credit. These loans are in a liquidating status and vary in substance and form from our originated loans. Unless we are terminated, we will continue to provide the servicing for these loans pursuant to a servicing agreement, which we service as unsecured loans because the liens are subordinated to superior ranking security interests.

Real Estate — We service and hold real estate loans secured by first or second mortgages on residential real estate. Real estate loans previously originated through our branch offices or previously acquired or originated through centralized distribution channels are serviced by: (i) MorEquity and subserviced by Nationstar; (ii) Select Portfolio Servicing, Inc.; or (iii) our centralized operations. Investment funds managed by affiliates of Fortress indirectly own a majority interest in Nationstar. Prior to the OneMain Acquisition, this segment also included proceeds from the sale of our real estate loans in 2014. We used these proceeds to acquire OneMain.

The remaining components (which we refer to as “Other”) consist of our other non-originating legacy operations, which are isolated by geographic market and/or distribution channel from our three segments. These operations include: (i) Springleaf legacy operations in 14 states where we also ceased branch-based personal lending; (ii) Springleaf liquidating retail sales finance portfolio (including retail sales finance accounts from its legacy auto finance operation); (iii) Springleaf lending operations in Puerto Rico and the U.S. Virgin Islands; and (iv) the operations of Springleaf United Kingdom subsidiary, prior to its liquidation on August 16, 2016.

On November 15, 2015, we completed our acquisition of OneMain, and their results are included in our consolidated results for the three and nine months ended September 30, 2016. We include OneMain’s operations within the Consumer and Insurance segment.

The accounting policies of the segments are the same as those disclosed in Note 3 to the consolidated financial statements of our 2015 Annual Report on Form 10-K, except as described below.

Due to the nature of the Fortress and OneMain acquisitions, we applied purchase accounting. However, we report the operating results of Consumer and Insurance, Acquisitions and Servicing, Real Estate, and Other using a “Segment Accounting Basis,” which (i) reflects our allocation methodologies for certain costs, primarily interest expense, loan loss reserves and acquisition costs to reflect the manner in which we assess our business results and (ii) excludes the impact of applying purchase accounting (eliminates premiums/discounts on our finance receivables at acquisition, as

well as the amortization/accretion in future periods). These allocations and adjustments currently have a material effect on our reported segment basis income as compared to GAAP. We believe a Segment Accounting Basis (a basis other than GAAP) provides investors a consistent basis on which management evaluates segment performance.

Table of Contents

We allocate revenues and expenses (on a Segment Accounting Basis) to each segment using the following methodologies:

Interest income	<p>Directly correlated with a specific segment.</p> <p>Acquisitions and Servicing - This segment includes interest expense specifically identified to the SpringCastle Portfolio.</p> <p>Consumer and Insurance, Real Estate and Other - The Company has securitization debt and unsecured debt. The Company first allocates interest expense to its segments based on actual expense for securitizations and secured term debt and using a weighted average for unsecured debt allocated to the segments. Average unsecured debt allocations for the periods presented are as follows:</p> <p>Subsequent to the OneMain Acquisition</p> <p>Total average unsecured debt is allocated as follows:</p> <p>1 Consumer and Insurance - receives remainder of unallocated average debt; and</p> <p>1 Real Estate and Other - at 100% of asset base. (Asset base represents the average net finance receivables including finance receivables held for sale.)</p> <p>The net effect of the change in debt allocation and asset base methodologies for the three months ended September 30, 2015, had it been in place as of the beginning of the year, would be an increase in interest expense of \$59 million for Consumer and Insurance and a decrease in interest expense of \$44 million and \$15 million for Real Estate and Other, respectively.</p> <p>The net effect of the change in debt allocation and asset base methodologies for the nine months ended September 30, 2015, had it been in place as of the beginning of the year, would be an increase in interest expense of \$179 million for Consumer and Insurance and a decrease in interest expense of \$134 million and \$45 million for Real Estate and Other, respectively.</p>
Interest expense	<p>For the period third quarter 2014 to the OneMain Acquisition</p> <p>Total average unsecured debt was allocated to Consumer and Insurance, Real Estate and Other, such that the total debt allocated across each segment equaled 83%, up to 100% and 100% of each of its respective asset base. Any excess was allocated to Consumer and Insurance.</p> <p>Average unsecured debt was allocated after average securitized debt to achieve the calculated average segment debt.</p> <p>Asset base represented the following:</p> <p>1 Consumer and Insurance - average net finance receivables, including average net finance receivables held for sale;</p> <p>1 Real Estate - average net finance receivables, including average net finance receivables held for sale, cash and cash equivalents, investments including proceeds from Real Estate sales; and</p> <p>1 Other - average net finance receivables other than the periods listed below:</p> <p>1 May 2015 to the OneMain Acquisition - average net finance receivables and cash and cash equivalents, less proceeds from equity issuance in 2015, operating cash reserve and cash included in other segments.</p> <p>1 February 2015 to April 2015 - average net finance receivables and cash and cash equivalents, less operating cash reserve and cash included in other segments.</p>
Provision for finance receivable losses	<p>Directly correlated with a specific segment, except for allocations to Other, which are based on the remaining delinquent accounts as a percentage of total delinquent accounts.</p>
Other revenues	<p>Directly correlated with a specific segment, except for: (i) net gain (loss) on repurchases and repayments of debt, which is allocated to the segments based on the interest expense allocation of debt and (ii) gains and losses on foreign currency exchange, which are allocated</p>

to the segments based on the interest expense allocation of debt.

Acquisition-related transaction and integration expenses Consists of: (i) acquisition-related transaction and integration costs related to the OneMain Acquisition, including legal and other professional fees, which we primarily report in Other, as these are costs related to acquiring the business as opposed to operating the business; (ii) software termination costs, which are allocated to Consumer and Insurance; and (iii) incentive compensation incurred above and beyond expected cost from acquiring and retaining talent in relation to the OneMain Acquisition, which are allocated to each of the segments based on services provided.

Other expenses Salaries and benefits - Directly correlated with a specific segment. Other salaries and benefits not directly correlated with a specific segment are allocated to each of the segments based on services provided.

Other operating expenses - Directly correlated with a specific segment. Other operating expenses not directly correlated with a specific segment are allocated to each of the segments based on services provided.

Insurance policy benefits and claims - Directly correlated with a specific segment.

Table of Contents

The “Segment to GAAP Adjustment” column in the following tables primarily consists of:

Interest income - reverses the impact of premiums/discounts on non-impaired purchased finance receivables and the interest income recognition under guidance in Accounting Standards Codification (“ASC”) 310-20, Nonrefundable Fees and Other Costs, and reestablishes interest income recognition on a historical cost basis;

Interest expense - reverses the impact of premiums/discounts on acquired long-term debt and reestablishes interest expense recognition on a historical cost basis;

Provision for finance receivable losses - reverses the impact of providing an allowance for finance receivable losses upon acquisition and reestablishes the allowance on a historical cost basis and reverses the impact of recognition of net charge-offs on purchased credit impaired finance receivables and reestablishes the net charge-offs on a historical cost basis;

Other revenues - reestablishes the historical cost basis of mark-to-market adjustments on finance receivables held for sale and on realized gains/losses associated with our investment portfolio;

Acquisition-related transaction and integration expenses - reestablishes the amortization of purchased software assets on a historical cost basis; and

Other expenses - reestablishes expenses on a historical cost basis by reversing the impact of amortization from acquired intangible assets and including amortization of other historical deferred costs.

The following tables present information about the Company’s segments, as well as reconciliations to the condensed consolidated financial statement amounts.

In connection with our policy integration with OneMain, we report unearned insurance premium and claim reserves *related to finance receivables (previously reported in insurance claims and policyholder liabilities) as a contra-asset to net finance receivables, which totaled \$240 million at September 30, 2015.

Table of Contents

17. Fair Value Measurements

The fair value of a financial instrument is the amount that would be expected to be received if an asset were to be sold or the amount that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. The degree of judgment used in measuring the fair value of financial instruments generally correlates with the level of pricing observability. Financial instruments with quoted prices in active markets generally have more pricing observability and less judgment is used in measuring fair value. Conversely, financial instruments traded in other-than-active markets or that do not have quoted prices have less observability and are measured at fair value using valuation models or other pricing techniques that require more judgment. An other-than-active market is one in which there are few transactions, the prices are not current, price quotations vary substantially either over time or among market makers, or little information is released publicly for the asset or liability being valued. Pricing observability is affected by a number of factors, including the type of financial instrument, whether the financial instrument is listed on an exchange or traded over-the-counter or is new to the market and not yet established, the characteristics specific to the transaction, and general market conditions.

The following table summarizes the fair values and carrying values of our financial instruments and indicates the fair value hierarchy based on the level of inputs we utilized to determine such fair values:

(dollars in millions)	Fair Value Measurements Using			Total Fair Value	Total Carrying Value
	Level 1	Level 2	Level 3		
September 30, 2016

FAIR VALUE MEASUREMENTS — RECURRING BASIS

The following tables present information about our assets measured at fair value on a recurring basis and indicates the fair value hierarchy based on the levels of inputs we utilized to determine such fair value:

(dollars in millions)	Fair Value Measurements Using			Total Carried At Fair Value
	Level 1	Level 2	Level 3	
September 30, 2016				
Assets				
Cash equivalents in mutual funds	\$ 158	\$ —	\$ —	\$ 158
Cash equivalents securities	—	69	—	69
Investment securities:				
Available-for-sale securities				
Bonds:				
U.S. government and government sponsored entities	—	40	—	40
Obligations of states, municipalities, and political subdivisions	—	135	—	135
Non-U.S. government and government sponsored entities	—	119	—	119

(a) Excludes an immaterial interest in a limited partnership that we account for using the equity method and Federal Home Loan Bank common stock of \$1 million at December 31, 2015, which is carried at cost.

(b) The fair value of other securities totaled \$128 million at December 31, 2015.

We had no transfers between Level 1 and Level 2 during the three and nine months ended September 30, 2016.

(b) During the nine months ended September 30, 2016, we transferred corporate debt securities totaling \$5 million into Level 3 primarily related to the reduced observability of pricing inputs.

(c) During the nine months ended September 30, 2015, we transferred CMBS securities totaling \$3 million out of Level 3 primarily related to the greater observability of pricing inputs.

We used observable and/or unobservable inputs to determine the fair value of positions that we have classified within the Level 3 category. As a result, the unrealized gains and losses for assets and liabilities within the Level 3 category presented in the Level 3 tables above may include changes in fair value that were attributable to both observable (e.g., changes in market interest rates) and unobservable (e.g., changes in unobservable long-dated volatilities) inputs.

The unobservable inputs and quantitative data used in our Level 3 valuations for our investment securities were developed and used in models created by our third-party valuation service providers, which values were used by us for fair value disclosure purposes without adjustment.

Quantitative information about Level 3 inputs for our assets measured at fair value on a recurring basis for which information about the unobservable inputs was reasonably available to us at September 30, 2016 and December 31, 2015 is as follows:

Valuation Technique(s)	Unobservable Input	Range (Weighted Average)
------------------------	--------------------	--------------------------

Edgar Filing: OneMain Holdings, Inc. - Form 10-Q

			September 30, 2016	December 31, 2015
Corporate debt	Discounted cash flows	Yield	2.13% - 10.76% (5.22%)	—
RMBS	Discounted cash flows	Spread	—	665 bps (a)
		Historical costs		
		Nature of investment		
		Local market		
Other long-term investments	Discounted cash flows and indicative valuations	conditions	(b)	(b)
		Comparables		
		Operating performance		
		Recent financing activity		

(a) At December 31, 2015, RMBS consisted of one bond, which was less than \$1 million.

Table of Contents

We applied the third-party exception which allows us to omit certain quantitative disclosures about unobservable (b) inputs for other long-term investments. As a result, the weighted average ranges of the inputs for these investment securities are not applicable.

The fair values of the assets using significant unobservable inputs are sensitive and can be impacted by significant increases or decreases in any of those inputs. Level 3 broker-priced instruments, including RMBS (except for the one bond described in note (a) above), CMBS, and CDO/ABS, are excluded from the table above because the unobservable inputs are not reasonably available to us.

Our RMBS, CMBS, and CDO/ABS securities have unobservable inputs that are reliant on and sensitive to the quality of their underlying collateral. The inputs, although not identical, have similar characteristics and interrelationships. Generally, a change in the assumption used for the probability of default is accompanied by a directionally similar change in the assumption used for the loss severity and a directionally opposite change in the assumption used for prepayment speeds. An improvement in the workout criteria related to the restructured debt and/or debt covenants of the underlying collateral may lead to an improvement in the cash flows and have an inverse impact on other inputs, specifically a reduction in the amount of discount applied for marketability and liquidity, making the structured bonds more attractive to market participants.

FAIR VALUE MEASUREMENTS — NON-RECURRING BASIS

We measure the fair value of certain assets on a non-recurring basis when events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable.

Assets measured at fair value on a non-recurring basis on which we recorded impairment charges were as follows:

(dollars in millions)	Fair Value Measurements Using *			
	Level 1	Level 2	Level 3	Total
September 30, 2016				
Assets				
Finance receivables held for sale	\$ —	\$ —	\$ 157	\$ 157
Real estate owned	—	—	6	6
Commercial mortgage loans	—	—	3	3
Total	\$ —	\$ —	\$ 166	\$ 166
December 31, 2015				
Assets				
Real estate owned	\$ —	\$ —	\$ 11	\$ 11
Commercial mortgage loans	—	—	8	8
Total	\$ —	\$ —	\$ 19	\$ 19

*The fair value information presented in the table is as of the date the fair value adjustment was recorded.

Net impairment charges recorded on assets measured at fair value on a non-recurring basis were as follows:

(dollars in millions)	Three	Nine
	Months	Months
	Ended	Ended
	September	September
	30,	30,

Edgar Filing: OneMain Holdings, Inc. - Form 10-Q

2016 2015 2016 2015

Assets

Finance receivables held for sale	\$ —	\$ —	\$ 5	\$ —
Real estate owned	1	1	2	3
Commercial mortgage loans	(1)	—	—	(2)
Total	\$ —	\$ 1	\$ 7	\$ 1

In accordance with the authoritative guidance for the accounting for the impairment of finance receivables held for sale, we wrote down certain finance receivables held for sale reported in our Real Estate segment to their fair value during the second quarter of 2016 and recorded the writedowns in other revenues.

54

Table of Contents

In accordance with the authoritative guidance for the accounting for the impairment of long-lived assets, we wrote down certain real estate owned reported in our Real Estate segment to their fair value less cost to sell for the three and nine months ended September 30, 2016 and 2015 and recorded the writedowns in other revenues. The fair values of real estate owned disclosed in the table above are unadjusted for transaction costs, as required by the authoritative guidance for fair value measurements. The amounts of real estate owned recorded in other assets are net of transaction costs as required by the authoritative guidance for accounting for the impairment of long-lived assets.

In accordance with the authoritative guidance for the accounting for the impairment of commercial mortgage loans, we recorded allowance adjustments on certain impaired commercial mortgage loans reported in our Consumer and Insurance segment to record their fair value for the three and nine months ended September 30, 2016 and 2015 and recorded the net impairments in investment revenues.

The inputs and quantitative data used in our Level 3 valuations for our real estate owned and commercial mortgage loans are unobservable primarily due to the unique nature of specific real estate assets. Therefore, we used independent third-party providers, familiar with local markets, to determine the values used for fair value disclosures without adjustment.

Quantitative information about Level 3 inputs for our assets measured at fair value on a non-recurring basis at September 30, 2016 and December 31, 2015 was as follows:

	Valuation Technique(s)	Unobservable Input	Range (Weighted Average)	
			September 30, 2016	December 31, 2015
Finance receivables held for sale	Income approach	Market value for similar type loan transactions to obtain a price point	*	—
Real estate owned	Market approach	Third-party valuation	*	*
Commercial mortgage loans	Market approach	Local market conditions		
	Income approach	Nature of investment	*	*
	Cost approach	Comparable property sales Operating performance		

We applied the third-party exception which allows us to omit certain quantitative disclosures about unobservable *inputs for the assets measured at fair value on a non-recurring basis included in the table above. As a result, the weighted average ranges of the inputs for these assets are not applicable.

FAIR VALUE MEASUREMENTS — VALUATION METHODOLOGIES AND ASSUMPTIONS

We use the following methods and assumptions to estimate fair value.

Cash and Cash Equivalents

The carrying amount of cash and cash equivalents, including cash and certain cash equivalents, approximates fair value.

Mutual Funds

The fair value of mutual funds is based on quoted market prices of the underlying shares held in the mutual funds.

Investment Securities

We utilize third-party valuation service providers to measure the fair value of our investment securities, which are classified as available-for-sale or as trading and other and consist primarily of bonds. Whenever available, we obtain quoted prices in active markets for identical assets at the balance sheet date to measure investment securities at fair value. We generally obtain market price data from exchange or dealer markets.

We estimate the fair value of fixed maturity investment securities not traded in active markets by referring to traded securities with similar attributes, using dealer quotations and a matrix pricing methodology, or discounted cash flow analyses. This methodology considers such factors as the issuer's industry, the security's rating and tenor, its coupon rate, its position in the capital structure of the issuer, yield curves, credit curves, composite ratings, bid-ask spreads, prepayment rates and other relevant factors. For fixed maturity investment securities that are not traded in active markets or that are subject to transfer

Table of Contents

restrictions, we adjust the valuations to reflect illiquidity and/or non-transferability. Such adjustments are generally based on available market evidence. In the absence of such evidence, management's best estimate is used.

We elect the fair value option for investment securities that are deemed to incorporate an embedded derivative and for which it is impracticable for us to isolate and/or value the derivative.

The fair value of certain investment securities is based on the amortized cost, which is assumed to approximate fair value.

Finance Receivables

The fair value of net finance receivables, less allowance for finance receivable losses, both non-impaired and purchased credit impaired, are determined using discounted cash flow methodologies. The application of these methodologies requires us to make certain judgments and estimates based on our perception of market participant views related to the economic and competitive environment, the characteristics of our finance receivables, and other similar factors. The most significant judgments and estimates made relate to prepayment speeds, default rates, loss severity, and discount rates. The degree of judgment and estimation applied is significant in light of the current capital markets and, more broadly, economic environments. Therefore, the fair value of our finance receivables could not be determined with precision and may not be realized in an actual sale. Additionally, there may be inherent limitations in the valuation methodologies we employed, and changes in the underlying assumptions used could significantly affect the results of current or future values.

Finance Receivables Held for Sale

We determined the fair value of finance receivables held for sale that were originated as held for investment based on negotiations with prospective purchasers (if any) or by using projected cash flows discounted at the weighted-average interest rates offered by us in the market for similar finance receivables. We based cash flows on contractual payment terms adjusted for estimates of prepayments and credit related losses.

Restricted Cash and Cash Equivalents

The carrying amount of restricted cash and cash equivalents approximates fair value.

Commercial Mortgage Loans

Given the short remaining average life of the portfolio, the carrying amount of commercial mortgage loans approximates fair value. The carrying amount includes an estimate for credit related losses, which is based on independent third-party valuations.

Real Estate Owned

We initially base our estimate of the fair value on independent third-party valuations at the time we take title to real estate owned. Subsequent changes in fair value are based upon independent third-party valuations obtained periodically to estimate a price that would be received in a then current transaction to sell the asset.

Escrow Advance Receivable

The carrying amount of escrow advance receivable approximates fair value.

Receivables Related to Sales of Real Estate Loans and Related Trust Assets

The carrying amount of receivables related to sales of real estate loans and related trust assets less estimated forfeitures, which are reflected in other liabilities, approximates fair value.

Long-term Debt

We either receive fair value measurements of our long-term debt from market participants and pricing services or we estimate the fair values of long-term debt using projected cash flows discounted at each balance sheet date's market-observable implicit-credit spread rates for our long-term debt.

Table of Contents

We record at fair value long-term debt issuances that are deemed to incorporate an embedded derivative and for which it is impracticable for us to isolate and/or value the derivative. At September 30, 2016, we had no debt carried at fair value under the fair value option.

We estimate the fair values associated with variable rate revolving lines of credit to be equal to par.

18. Subsequent Event

OMH GUARANTY OF OMFH DEBT

On November 8, 2016, OMH entered into a second supplemental indenture (the “Supplemental Indenture”) to the OMFH Indenture, pursuant to which OMH agreed to fully, unconditionally and irrevocably guarantee the outstanding OMFH Notes in accordance with and subject to the terms of the OMFH Indenture. Further, as permitted by the terms of the OMFH Indenture, OMFH intends to satisfy its reporting obligations under the OMFH Indenture with respect to providing OMFH financial information to the holders of the OMFH Notes by furnishing financial information relating to the Company.

See Note 9 for further information on the OMFH Indenture and the OMFH Notes.

Forward-Looking Statements

This report contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are not statements of historical fact but instead represent only management’s current beliefs regarding future events. By their nature, forward-looking statements involve inherent risks, uncertainties and other important factors that may cause actual results, performance or achievements to differ materially from those expressed in or implied by such forward-looking statements. We caution you not to place undue reliance on these forward-looking statements that speak only as of the date they were made. We do not undertake any obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events or the non-occurrence of anticipated events. Forward-looking statements include, without limitation, statements concerning future plans, objectives, goals, projections, strategies, events or performance, and underlying assumptions and other statements related thereto. Statements preceded by, followed by or that otherwise include the words “anticipates,” “appears,” “are likely,” “believes,” “estimates,” “expects,” “foresees,” “intends,” “plans,” “projects” and similar expressions or future or conditional verbs such as “would,” “should,” “could,” “may,” or “will,” are intended to identify forward-looking statements. Important factors that could cause actual results, performance or achievements to differ materially from those expressed in or implied by forward-looking statements include, without limitation, the following:

- the inability to obtain, or delays in obtaining, cost savings and synergies from the OneMain Acquisition and risks and other uncertainties associated with the integration of the companies;
- unanticipated expenditures relating to the OneMain Acquisition;
- any litigation, fines or penalties that could arise relating to the OneMain Acquisition;
- the impact of the OneMain Acquisition on each company’s relationships with employees and third parties;
- various risks relating to the Lendmark Sale, in connection with the previously disclosed Settlement Agreement with the DOJ;

risks relating to continued compliance with the Settlement Agreement;

changes in general economic conditions, including the interest rate environment in which we conduct business and the financial markets through which we can access capital and also invest cash flows from our Consumer and Insurance segment;

58

Table of Contents

• levels of unemployment and personal bankruptcies;

• natural or accidental events such as earthquakes, hurricanes, tornadoes, fires, or floods affecting our customers, collateral, or branches or other operating facilities;

• war, acts of terrorism, riots, civil disruption, pandemics, disruptions in the operation of our information systems, cyber-attacks or other security breaches, or other events disrupting business or commerce;

• changes in the rate at which we can collect or potentially sell our finance receivables portfolio;

• the effectiveness of our credit risk scoring models in assessing the risk of customer unwillingness or lack of capacity to repay;

• changes in our ability to attract and retain employees or key executives to support our businesses;

• changes in the competitive environment in which we operate, including the demand for our products, customer responsiveness to our distribution channels, our ability to make technological improvements, and the strength and ability of our competitors to operate independently or to enter into business combinations that result in a more attractive range of customer products or provide greater financial resources;

• risks related to the acquisition or sale of loan portfolios, including delinquencies, integration or migration issues, increased costs of servicing, incomplete records, and retention of customers;

• the inability to successfully and timely expand our centralized loan servicing capabilities through the integration of the Springleaf and OneMain servicing facilities;

• risks associated with our insurance operations;

• the inability to successfully implement our growth strategy for our consumer lending business as well as successfully acquiring portfolios of consumer loans, pursuing acquisitions, and/or establishing joint ventures;

• declines in collateral values or increases in actual or projected delinquencies or credit losses;

• changes in federal, state or local laws, regulations, or regulatory policies and practices, including the Dodd-Frank Wall Street Reform and Consumer Protection Act (which, among other things, established the Consumer Financial Protection Bureau, which has broad authority to regulate and examine financial institutions, including us), that affect our ability to conduct business or the manner in which we conduct business, such as licensing requirements, pricing limitations or restrictions on the method of offering products, as well as changes that may result from increased regulatory scrutiny of the sub-prime lending industry, our use of third-party vendors and real estate loan servicing;

• potential liability relating to real estate and personal loans which we have sold or may sell in the future, or relating to securitized loans, if it is determined that there was a non-curable breach of a representation or warranty made in connection with such transactions;

• the costs and effects of any actual or alleged violations of any federal, state or local laws, rules or regulations, including any litigation associated therewith, any impact to our business operations, reputation, financial position, results of operations or cash flows arising therefrom, any impact to our relationships with lenders, investors or other third parties attributable thereto, and the costs and effects of any breach of any representation, warranty or covenant

under any of our contractual arrangements, including indentures or other financing arrangements or contracts, as a result of any such violation;

the costs and effects of any fines, penalties, judgments, decrees, orders, inquiries, investigations, subpoenas, or enforcement or other proceedings of any governmental or quasi-governmental agency or authority and any litigation associated therewith;

our continued ability to access the capital markets or the sufficiency of our current sources of funds to satisfy our cash flow requirements;

our ability to comply with our debt covenants;

59

Table of Contents

- our ability to generate sufficient cash to service all of our indebtedness;
 - any material impairment or write-down of the value of our assets;
 - the effects of any downgrade of our debt ratings by credit rating agencies, which could have a negative impact on our cost of and/or access to capital;
 - our substantial indebtedness, which could prevent us from meeting our obligations under our debt instruments and limit our ability to react to changes in the economy or our industry, or our ability to incur additional borrowings;
 - the impacts of our securitizations and borrowings;
 - our ability to maintain sufficient capital levels in our regulated and unregulated subsidiaries;
 - changes in accounting standards or tax policies and practices and the application of such new standards, policies and practices;
 - changes in accounting principles and policies or changes in accounting estimates;
 - any failure or inability to achieve the SpringCastle Portfolio performance requirements set forth in the SpringCastle Interests Sale purchase agreement; and
- the effect of future sales of our remaining portfolio of real estate loans and the transfer of servicing of these loans, including the environmental liability and costs for damage caused by hazardous waste if a real estate loan goes into default.

We also direct readers to other risks and uncertainties discussed in other documents we file with the SEC.

If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, our actual results may vary materially from what we may have expressed or implied by these forward-looking statements. We caution that you should not place undue reliance on any of our forward-looking statements. You should specifically consider the factors identified in this report that could cause actual results to differ before making an investment decision to purchase our common stock. Furthermore, new risks and uncertainties arise from time to time, and it is impossible for us to predict those events or how they may affect us.

Overview

On November 15, 2015, we completed our acquisition of OneMain from Citigroup. The acquisition of OneMain has brought together two branch-based consumer finance companies with complementary strategies and locations. Together, we provide personal loans primarily to non-prime customers through our combined network of over 1,800 branch offices in 44 states as of September 30, 2016 and on a centralized basis as part of our centralized operations and our iLoan platform (our online consumer loan origination business). We also write credit and non-credit insurance policies covering our customers and the property pledged as collateral for our personal loans.

OUR PRODUCTS

Our product offerings include:

Personal Loans — We offer personal loans through our combined branch network and over the internet through our centralized operations to customers who generally need timely access to cash. Our personal loans are typically non-revolving with a fixed-rate and a fixed, original term of three to six years and are secured by consumer goods, automobiles, or other personal property or are unsecured. At September 30, 2016, we had over 2.2 million personal loans, representing \$13.7 billion of net finance receivables, of which 43% were secured by collateral, compared to 2.2 million personal loans totaling \$13.3 billion at December 31, 2015, of which 27% were secured by collateral. Personal loans held for sale totaled \$617 million at December 31, 2015.

Insurance Products — We offer our customers credit insurance (life insurance, disability insurance, and involuntary unemployment insurance) and non-credit insurance through both our combined branch network and our centralized operations. Credit insurance and non-credit insurance products are provided by the Springleaf insurance subsidiaries,

Table of Contents

Merit Life Insurance Co. and Yosemite Insurance Company, and by the OneMain insurance subsidiaries, American Health and Life Insurance Company and Triton Insurance Company. We also offer home and auto membership plans of an unaffiliated company as an ancillary product.

Our products also included the SpringCastle Portfolio at December 31, 2015, as described below:

SpringCastle Portfolio — We service the SpringCastle Portfolio that was acquired through a joint venture in which we previously owned a 47% equity interest. On March 31, 2016, the SpringCastle Portfolio was sold in connection with the SpringCastle Interests Sale. These loans consisted of unsecured loans and loans secured by subordinate residential real estate mortgages and include both closed-end accounts and open-end lines of credit. These loans were in a liquidating status and varied in substance and form from our originated loans. Unless we are terminated, we will continue to provide the servicing for these loans pursuant to a servicing agreement, which we service as unsecured loans due to the fact that the liens are subordinated to superior ranking security interests.

Our non-originating legacy products include:

Real Estate Loans — We ceased real estate lending in January of 2012, and during 2014, we sold \$6.4 billion real estate loans held for sale, and in connection with the August 2016 Real Estate Loan Sale, we sold a portfolio of second lien mortgage loans with a carrying value of \$250 million. The remaining real estate loans may be closed-end accounts or open-end home equity lines of credit, generally have a fixed rate and maximum original terms of 360 months, and are secured by first or second mortgages on residential real estate. Our first lien mortgages are serviced by third-party servicers, and we continue to provide servicing for our second lien mortgages (home equity lines of credit). At September 30, 2016, we had \$201 million of real estate loans held for investment, of which 94% were secured by first mortgages, compared to \$538 million at December 31, 2015, of which 38% were secured by first mortgages. Real estate loans held for sale totaled \$166 million and \$176 million at September 30, 2016 and December 31, 2015, respectively.

Retail Sales Finance — We ceased purchasing retail sales contracts and revolving retail accounts in January of 2013. We continue to service the liquidating retail sales contracts and will provide revolving retail sales financing services on our revolving retail accounts. We refer to retail sales contracts and revolving retail accounts collectively as “retail sales finance.”

OUR SEGMENTS

At September 30, 2016, we had three operating segments:

• Consumer and Insurance;
• Acquisitions and Servicing; and
• Real Estate.

Following the OneMain Acquisition, we include OneMain’s operations within the Consumer and Insurance segment. See Note 16 of the Notes to Condensed Consolidated Financial Statements for more information about our segments.

Recent Developments and Outlook

ONEMAIN ACQUISITION

On November 15, 2015, we completed our acquisition of OneMain from Citigroup for approximately \$4.5 billion in cash. The purchase price for the OneMain Acquisition was based on OMFH's balance sheet as of 11:59 p.m. on October 31, 2015. The OneMain Acquisition brings together two branch-based consumer finance companies with complementary strategies and locations, focused on the non-prime market in the United States.

We believe the OneMain Acquisition will result in a number of strategic benefits and opportunities, including:

• Significant expansion of our geographical presence. We believe that our expanded footprint will allow us to reach new customers for our personal finance products and further enhance our reputation in the communities we serve.

Table of Contents

Diversification of our customer base. Our branch customer base more than doubled as a result of the OneMain Acquisition and, in addition, we believe the OneMain Acquisition will enable us to extend our reach to higher credit score segments than we historically served.

Product opportunities and scale benefits. We expect the OneMain Acquisition to enable us to distribute existing Springleaf products through OneMain branches and leverage key OneMain sales practices to achieve greater scale benefits in existing Springleaf branches.

Significant cost savings opportunities by combining complementary businesses. We expect the highly complementary nature of our two operating companies, including branch operations, to enable us to achieve significant ongoing cost savings. Expected drivers of cost savings include consolidation of branch operations, elimination of redundant centralized and corporate functions and greater efficiency of marketing programs. We expect to realize approximately \$275 million - \$300 million of synergies from the OneMain Acquisition, with that amount fully reflected in our results by the end of 2017. We also anticipate incurring approximately \$275 million of acquisition-related expenses to consolidate the two operating companies, which we expect to incur primarily during 2016 and the first half of 2017. As of September 30, 2016, we had incurred approximately \$137 million of acquisition-related transaction and integration expenses (\$75 million incurred during the nine months ended September 30, 2016).

The estimated synergies were derived by comparing the operating expenses expected in the second half of 2017 of the combined operations to the sum of operating expenses expected to be generated on a stand-alone basis, as if each company had the same business strategies. The foregoing estimates of synergies and charges in connection with consolidating the two companies and expectations regarding when they will be fully reflected in our results are subject to various risks, uncertainties and assumptions, many of which are beyond our control. Therefore, no assurance can be given as to when or if they will be realized. See “Forward-Looking Statements” above.

See Note 2 of the Notes to Condensed Consolidated Financial Statements for further information on the OneMain Acquisition.

SPRINGCASTLE INTERESTS SALE

On March 31, 2016, the SpringCastle Sellers, wholly owned subsidiaries of OMH, entered into a purchase agreement with the SpringCastle Buyers. Pursuant to the purchase agreement, SpringCastle Holdings sold its 47% limited liability company interest in each of SpringCastle America, LLC, SpringCastle Credit, LLC and SpringCastle Finance, LLC, and Springleaf Acquisition sold its 47% limited liability company interest in SpringCastle Acquisition LLC, to the SpringCastle Buyers for an aggregate purchase price of approximately \$112 million.

As a result of this sale, SpringCastle Acquisition and SpringCastle Holdings no longer hold any ownership interests of the SpringCastle Joint Venture. However, unless we are terminated, we will remain as servicer of the SpringCastle Portfolio under the servicing agreement for the SpringCastle Funding Trust.

See Note 2 of the Notes to Condensed Consolidated Financial Statements for further information on the SpringCastle Interests Sale.

LENDMARK SALE

As part of our initiative to close the OneMain Acquisition, on November 13, 2015, OMH and certain of its subsidiaries, the Branch Sellers, entered into the Settlement Agreement with the DOJ, as well as certain state attorneys general, to resolve any inquiries of the DOJ and such state attorneys general with respect to the OneMain Acquisition.

Pursuant to this agreement, OMH agreed to divest 127 Springleaf branches across 11 states as a condition for approval of the OneMain Acquisition.

On November 12, 2015, the Branch Sellers entered into a purchase and sale agreement with respect to the Lendmark Sale, and on May 2, 2016, the Branch Sellers completed the sale of 127 Springleaf branches to Lendmark for an aggregate cash purchase price of \$624 million. See Note 2 of the Notes to Condensed Consolidated Financial Statements for further information on the Settlement Agreement and the Lendmark Sale.

Table of Contents

REAL ESTATE LOAN SALE

In connection with the August 2016 Real Estate Loan Sale, we sold a portfolio of second lien mortgage loans for aggregate cash proceeds of \$246 million and recorded a net loss in other revenues at the time of sale of \$4 million. The proceeds from this sale, together with cash on hand, were used to pay off \$375 million aggregate principal amount of our senior notes that matured in the third quarter of 2016. Unless we are terminated or we resign as servicer, we will continue to service the loans included in this sale pursuant to a servicing agreement. The purchase and sale agreement and the servicing agreement include customary representations and warranties and indemnification provisions.

LIQUIDATION OF UNITED KINGDOM SUBSIDIARY

On August 16, 2016, we liquidated our United Kingdom subsidiary, Ocean Finance and Mortgages Limited, which had previously ceased originating real estate loans in 2012. In connection with this liquidation, we recorded a net gain in other revenues on the date of liquidation of \$5 million resulting from a net realized foreign currency translation gain.

OUTLOOK

On November 15, 2015, we completed the OneMain Acquisition, the most significant acquisition transaction ever undertaken by the Company. Assuming the U.S. economy continues to experience slow to moderate growth, we expect to continue our long history of strong credit performance and believe the strong credit quality of our loan portfolio will continue as the result of our disciplined underwriting practices and ongoing collection efforts. We also continue to see growth in the volume of secured loan originations, driven by our strategy to increase the proportion of our loan originations that are secured loans in order to mitigate credit risk exposure and the migration of customer activity from traditional channels, such as direct mail to online channels (primarily serviced through our combined branch network), where we believe we are well suited to capture volume due to our scale, technology, and deployment of advanced analytics.

During the third quarter of 2016, we completed a number of significant integration initiatives related to the OneMain Acquisition. These initiatives involved substantial changes in operating policies and procedures in the OneMain branch network and significant personnel realignment across our OneMain and Springleaf field management personnel. We developed and implemented unified pricing, credit and underwriting policies across all of our branches and consolidated branch incentive and commission plans. In addition, during the third quarter of 2016, we began preparations for the conversion of approximately 100 of the former OneMain branches (representing approximately 10% of the former OneMain branch network's net finance receivables) to the Springleaf loan origination and servicing systems. This conversion, as well as the re-branding of all of the Springleaf branches and websites under the "OneMain Financial" name and logo, was completed on October 1, 2016.

Given the volume and breadth of these integration-related changes, the significant time and effort involved with OneMain branch and field management personnel transitioning to new operating policies and procedures and, in the case of the OneMain branches that were converted to the Springleaf loan origination and servicing systems, the significant time and effort expended by OneMain branch personnel in receiving training and becoming familiar with Springleaf's loan origination and servicing systems, we experienced adverse productivity impacts on loan origination growth during the third quarter of 2016, primarily at the former OneMain branches that have experienced the most significant amount of integration-related changes. We believe this integration-related activity has also resulted in a slight increase in our early stage 30-89 day delinquencies for loans originated in 2016 that is not attributable to normal seasonal activity, but is instead attributable to our impacted branch personnel, primarily at the former OneMain

branches having less time available to pursue their normal loan monitoring and collection activities.

Additionally, we have observed an increase in unsecured credit availability to our target customer base in recent months from online lenders and various other unsecured credit providers. Given these market dynamics and in an effort to mitigate our credit risk exposure as part of our disciplined underwriting strategy, we have tightened our underwriting criteria for unsecured personal loans to lower credit tier customers. We have also continued to execute on our strategy of increasing the proportion of our loan originations that are secured loans (which typically have lower credit losses and yields relative to unsecured personal loans), particularly within the former OneMain branches where secured loan originations have historically represented a smaller proportion of total loan originations than those of the former Springleaf branches. While we have been able to increase secured loan originations at former OneMain branches in recent quarters, not every unsecured customer has the collateral or the willingness to take on a secured loan, and we believe this has contributed to slower growth in personal loan net finance receivables than anticipated in the former OneMain branches. Our focus on increasing secured loan originations, combined with the lower productivity experienced at former OneMain branches resulting from the significant integration activities discussed above, have led us to lower our expectations for growth in our personal loan net finance receivables for the balance of 2016 and 2017.

Table of Contents

Further, as a result of our experience during the third quarter and given the substantial integration-related systems conversion activity and consolidation of approximately 120 branches that we have planned through the first half of 2017, we believe that there exists the potential for a heightened level of delinquency, net charge-offs and increases in the provision for receivables losses for the balance of 2016 and 2017. Once the branch consolidations and the systems conversion of the former OneMain branches are successfully completed, which we are currently targeting for completion in the first half of 2017, we expect to be well positioned to re-accelerate growth in our personal loan net finance receivables and, with the successful execution of our secured lending and disciplined underwriting strategies, we expect to benefit from lower future credit losses beginning in 2018 consistent with our long-term historical experience prior to the acquisition of OneMain. No assurance can be given, however, that these actions and strategies will be effective, that we will be successful in implementing these actions and strategies, or that we will not incur increased credit losses or declines in or lower growth of our personal loan net finance receivables in the future.

However, with an experienced management team, long track record of successfully accessing the capital markets, and strong demand for consumer credit, we believe we are well positioned to execute on our strategic priorities of capturing the benefits of the OneMain Acquisition and strengthening our capital base through the following key initiatives:

- Reinvigorating growth in receivables at OneMain through enhanced marketing strategies and product options, including an expansion of our direct auto lending, upon the successful completion of the integration activities planned through the first half of 2017;
- Growing secured lending originations at OneMain with a goal of enhancing credit performance;
- Leveraging scale and cost discipline across the company to realize acquisition cost synergies;
- Reducing leverage;
- Maintaining a strong liquidity level and diversified funding sources; and
- Optimizing non-core assets.

In furtherance of our strategic priorities, we regularly consider strategic acquisitions, dispositions and other transactions, and we have been involved in transactions of various magnitudes involving a variety of forms of consideration and financing. There can be no assurance, however, that we will engage in strategic acquisitions, dispositions or other transactions in the future, including any such transactions that are of similar magnitude to any of our prior transactions.

Table of Contents

Results of Operations

CONSOLIDATED RESULTS

On November 15, 2015, we completed the OneMain Acquisition. The results of OneMain are included in our consolidated operating results and selected financial statistics for the three and nine months ended September 30, 2016 in the table below. A further discussion of our operating results for each of our operating segments is provided under “Segment Results” below.

(dollars in millions, except earnings (loss) per share)	Three Months Ended September 30,		At or for the Nine Months Ended September 30,

Table of Contents

Comparison of Consolidated Results for the Three Months Ended September 30, 2016 and 2015

Interest income increased for the three months ended September 30, 2016 when compared to the same period in 2015 due to the net of the following:

(dollars in millions)

Three Months Ended September 30, 2016 compared to 2015

Increase in average net receivables	\$445
Decrease in yield	(104)
Increase in interest income on finance receivables held for sale	2
Total	\$343

Average net receivables increased for the three months ended September 30, 2016 primarily due to (i) loans acquired in the OneMain Acquisition and (ii) the continued growth of our loan portfolio (primarily of our secured personal loans). This increase was partially offset by (i) the SpringCastle Interests Sale, (ii) the Lendmark Sale, and (iii) our liquidating real estate loan portfolio, including the transfer of \$257 million of real estate loans to finance receivables held for sale on June 30, 2016.

Yield decreased for the three months ended September 30, 2016 primarily due to (i) the continued growth of secured personal loans, which generally have lower yields relative to our unsecured personal loans, (ii) the August 2016 Real Estate Loan Sale of second lien mortgage loans, which generally had higher yields relative to our remaining real estate loans, and (iii) the effects of purchase accounting adjustments relating to the OneMain Acquisition.

Interest income on finance receivables held for sale increased for the three months ended September 30, 2016 primarily due to the transfer of \$257 million of real estate loans to finance receivables held for sale on June 30, 2016, which were sold on August 3, 2016.

Interest expense increased for the three months ended September 30, 2016 when compared to the same period in 2015 due to the net of the following:

(dollars in millions)

Three Months Ended September 30, 2016 compared to 2015

Increase in average debt	\$86
Decrease in weighted average interest rate	(42)
Total	\$44

Average debt increased for the three months ended September 30, 2016 primarily due to (i) debt acquired in the OneMain Acquisition and (ii) net unsecured debt issued during the past 12 months. This increase was partially offset by (i) the elimination of the debt associated with the SpringCastle Interests Sale and (ii) net repayments under our conduit facilities. See Notes 9 and 10 of the Notes to Condensed Consolidated Financial Statements for further information on our long-term debt, consumer loan securitization transactions and our conduit facilities.

Weighted average interest rate on our debt decreased for the three months ended September 30, 2016 primarily due to (i) debt acquired from the OneMain Acquisition, which generally has a lower weighted average interest rate relative to SFC's weighted average interest rate, and (ii) the repurchase of \$600 million unsecured notes, which had a higher interest rate relative to our other indebtedness, in connection with SFC's offering of the 8.25% SFC Notes. The decrease was partially offset by (i) SFC's offering of the 8.25% SFC Notes in April of 2016 and (ii) the elimination of debt associated with the SpringCastle Interests Sale, which generally had a lower interest rate relative to our other

indebtedness.

Provision for finance receivable losses increased \$184 million for the three months ended September 30, 2016 when compared to the same period in 2015 primarily due to (i) net charge-offs of \$144 million during the 2016 period resulting from the OneMain Acquisition and (ii) higher net charge-offs on Springleaf personal loans reflecting growth during the past 12 months. This increase was partially offset by (i) the absence of net charge-offs on the previously owned SpringCastle Portfolio and (ii)

66

Table of Contents

the continued refinement of our estimates of allowance for finance receivable losses and their related assumptions based on ongoing integration and alignment of collection and charge-off practices.

Other revenues increased \$111 million for the three months ended September 30, 2016 when compared to the same period in 2015 primarily due to the net of (i) other revenues of \$95 million during the 2016 period resulting from the OneMain Acquisition, which consisted of insurance revenues of \$71 million, investment revenues of \$14 million, and remaining other revenues of \$10 million, (ii) \$10 million of servicing charge income for the SpringCastle Portfolio in the 2016 period, (iii) foreign currency translation adjustment gain of \$5 million in the 2016 period resulting from the liquidation of our United Kingdom subsidiary, and (iv) net loss on the August 2016 Real Estate Loan Sale of \$4 million in the 2016 period.

Acquisition-related transaction and integration costs of \$21 million and \$14 million for the three months ended September 30, 2016 and 2015, respectively, reflected increased costs relating to the OneMain Acquisition and the Lendmark Sale, including branch and system conversions, information technology costs, certain compensation and benefit related costs, and other costs and fees that would not have been incurred in the ordinary course of business. See “Non-GAAP Financial Measures” below for further information regarding these costs.

Other expenses increased \$206 million for the three months ended September 30, 2016 when compared to the same period in 2015 due to the following:

Salaries and benefits increased \$91 million for the three months ended September 30, 2016 primarily due to salaries and benefits of \$96 million in the 2016 period resulting from the OneMain Acquisition. This increase was partially offset by a decrease in Springleaf average staffing as a result of the Lendmark Sale in May of 2016.

Other operating expenses increased \$95 million for the three months ended September 30, 2016 due to other operating expenses of \$95 million in the 2016 period resulting from the OneMain Acquisition, which consisted primarily of advertising expenses of \$25 million, occupancy costs of \$20 million, amortization on other intangible assets of \$16 million, and information technology expenses of \$12 million.

Insurance policy benefits and claims increased \$20 million for the three months ended September 30, 2016 primarily due to insurance policy benefits and claims of \$30 million in the 2016 period resulting from the OneMain Acquisition, partially offset by a \$10 million decrease in Springleaf insurance policy benefits and claims during the 2016 period primarily due to favorable variances in benefit reserves.

Provision for income taxes totaled \$8 million for the three months ended September 30, 2016 compared to \$1 million for the same period in 2015. The effective tax rate for the three months ended September 30, 2016 was 24.5% compared to 4.5% for the same period in 2015. The effective tax rate for the three months ended September 30, 2016 differed from the federal statutory rate primarily due to the effect of discrete tax benefits from our early implementation of ASU 2016-09 (see Note 3 of the Notes to Condensed Consolidated Financial Statements for further information on this ASU) and the income tax treatment of the net realized foreign currency translation gain arising from our United Kingdom subsidiary liquidation. The effective tax rate for the three months ended September 30, 2015 differed from the federal statutory rate primarily due to the effect of the non-controlling interests in the previously owned SpringCastle Portfolio. As discussed in Note 2 of the Notes to Condensed Consolidated Financial Statements, on March 31, 2016, the Company sold its equity interest in the SpringCastle Portfolio.

Comparison of Consolidated Results for the Nine Months Ended September 30, 2016 and 2015

Interest income increased for the nine months ended September 30, 2016 when compared to the same period in 2015 due to the net of the following:

(dollars in millions)

Nine Months Ended September 30, 2016 compared to 2015

Increase in average net receivables	\$1,428
Decrease in yield	(391)
Increase in number of days in 2016	7
Increase in interest income on finance receivables held for sale	58
Total	\$1,102

Table of Contents

Average net receivables increased for the nine months ended September 30, 2016 primarily due to (i) loans acquired in the OneMain Acquisition and (ii) the continued growth of our loan portfolio (primarily of our secured personal loans). This increase was partially offset by (i) the SpringCastle Interests Sale, (ii) the transfer of \$608 million of personal loans to finance receivables held for sale on September 30, 2015, and (iii) our liquidating real estate loan portfolio, including the transfer of \$257 million of real estate loans to finance receivables held for sale on June 30, 2016.

Yield decreased for the nine months ended September 30, 2016 primarily due to (i) the continued growth of secured personal loans, which generally have lower yields relative to our unsecured personal loans, (ii) the August 2016 Real Estate Loan Sale of second lien mortgage loans, which generally had higher yields relative to our remaining real estate loans, and (iii) the effects of purchase accounting adjustments relating to the OneMain Acquisition.

Interest income on finance receivables held for sale increased for the nine months ended September 30, 2016 primarily due to (i) the transfer of \$608 million of our personal loans to held for sale on September 30, 2015, which were sold in the Lendmark Sale on May 2, 2016, and (ii) the transfer of \$257 million of real estate loans to finance receivables held for sale on June 30, 2016, which were sold on August 3, 2016.

Interest expense increased for the nine months ended September 30, 2016 when compared to the same period in 2015 due to the net of the following:
(dollars in millions)

Nine Months Ended September 30, 2016 compared to 2015	
Increase in average debt	\$324
Decrease in weighted average interest rate	(169)
Total	\$155

Average debt increased for the nine months ended September 30, 2016 primarily due to (i) debt acquired in the OneMain Acquisition and (ii) net unsecured debt issued during the past 12 months. This increase was partially offset by (i) the elimination of the debt associated with the SpringCastle Interests Sale and (ii) net repayments under our conduit facilities. See Notes 9 and 10 of the Notes to Condensed Consolidated Financial Statements for further information on our long-term debt, consumer loan securitization transactions and our conduit facilities.

Weighted average interest rate on our debt decreased for the nine months ended September 30, 2016 primarily due to (i) debt acquired from the OneMain Acquisition, which generally has a lower weighted average interest rate relative to SFC's weighted average interest rate, and (ii) the repurchase of \$600 million unsecured notes, which had a higher interest rate relative to our other indebtedness, in connection with SFC's offering of the 8.25% SFC Notes. The decrease was partially offset by (i) SFC's offering of the 8.25% SFC Notes in April of 2016 and (ii) the elimination of debt associated with the SpringCastle Interests Sale, which generally had a lower interest rate relative to our other indebtedness.

Provision for finance receivable losses increased \$441 million for the nine months ended September 30, 2016 when compared to the same period in 2015 primarily due to (i) net charge-offs of \$319 million during the 2016 period resulting from the OneMain Acquisition and (ii) higher net charge-offs on Springleaf personal loans reflecting growth during the past 12 months. This increase was partially offset by (i) lower net charge-offs on the previously owned SpringCastle Portfolio reflecting the SpringCastle Interests Sale and the improved central servicing performance as the acquired portfolio matured under our ownership, (ii) lower net charge-offs on our real estate loans reflecting the liquidating status of the real estate loan portfolio and the transfer of \$257 million of real estate loans to finance receivables held for sale on June 30, 2016, and (iii) the continued refinement of our estimates of allowance for finance

receivable losses and their related assumptions based on ongoing integration and alignment of collection and charge-off practices.

Net gain on sale of SpringCastle interests of \$167 million for the nine months ended September 30, 2016 reflected the net gain associated with the sale of our equity interest in the SpringCastle Joint Venture on March 31, 2016. See Note 2 of the Notes to Condensed Consolidated Financial Statements for further information on the sale.

Other revenues increased \$305 million for the nine months ended September 30, 2016 when compared to the same period in 2015 primarily due to the net of (i) other revenues of \$290 million during the 2016 period resulting from the OneMain Acquisition, which consisted of insurance revenues of \$220 million, investment revenues of \$44 million, and remaining other revenues of \$26 million, (ii) \$21 million of servicing charge income for the SpringCastle Portfolio in the 2016 period, (iii) net

Table of Contents

gain on sales of personal and real estate loans of \$18 million in the 2016 period, (iv) increase in Springleaf insurance revenues of \$6 million reflecting higher earned credit premiums during the 2016 period, (v) foreign currency translation adjustment gain of \$5 million in the 2016 period resulting from the liquidation of our United Kingdom subsidiary, (vi) decrease in Springleaf investment revenues of \$22 million during the 2016 period primarily due to lower realized gains on the sale of investment securities and a decrease in invested assets, and (vii) net loss on repurchases and repayments of debt of \$16 million in the 2016 period.

Acquisition-related transaction and integration costs of \$75 million and \$29 million for the nine months ended September 30, 2016 and 2015, respectively, reflected increased costs relating to the OneMain Acquisition and the Lendmark Sale, including branch and system conversions, information technology costs, certain compensation and benefit related costs, and other costs and fees that would not have been incurred in the ordinary course of business. See “Non-GAAP Financial Measures” below for further information regarding these costs.

Other expenses increased \$681 million for the nine months ended September 30, 2016 when compared to the same period in 2015 due to the following:

Salaries and benefits increased \$292 million for the nine months ended September 30, 2016 primarily due to (i) salaries and benefits of \$291 million in the 2016 period resulting from the OneMain Acquisition and (ii) an increase in Springleaf average staffing during the 2016 period prior to the Lendmark Sale. This increase was partially offset by non-cash incentive compensation expense of \$15 million recorded in the second quarter of 2015 relating to the rights of certain executives to receive a portion of the cash proceeds from the sale of OMH’s common stock by the Initial Stockholder.

Other operating expenses increased \$314 million for the nine months ended September 30, 2016 primarily due to (i) other operating expenses of \$286 million in the 2016 period resulting from the OneMain Acquisition, which consisted primarily of advertising expenses of \$71 million, occupancy costs of \$59 million, amortization on other intangible assets of \$54 million, and information technology expenses of \$38 million, (ii) an increase in Springleaf information technology expenses of \$9 million during the 2016 period, (iii) an increase in Springleaf advertising expenses of \$9 million during the 2016 period, and (iv) an increase in Springleaf professional fees of \$8 million during the 2016 period primarily reflecting debt refinance costs.

Insurance policy benefits and claims increased \$75 million for the nine months ended September 30, 2016 primarily due to insurance policy benefits and claims of \$89 million in the 2016 period resulting from the OneMain Acquisition, partially offset by a \$14 million decrease in Springleaf insurance policy benefits and claims during the 2016 period primarily due to favorable variances in benefit reserves.

Provision for income taxes totaled \$111 million for the nine months ended September 30, 2016 compared to \$1 million for the same period in 2015. The effective tax rate for the nine months ended September 30, 2016 was 33.9% compared to 1.3% for the same period in 2015. The effective tax rate for the nine months ended September 30, 2016 differed from the federal statutory rate primarily due to the effect of the non-controlling interests in the previously owned SpringCastle Portfolio, partially offset by the effect of state income taxes. The effective tax rate for the nine months ended September 30, 2015 differed from the federal statutory rate primarily due to the effect of the non-controlling interests in the previously owned SpringCastle Portfolio. The effective tax rate for the nine months ended September 30, 2016 differed from the same period in 2015 primarily due to the SpringCastle Interests Sale. As discussed in Note 2 of the Notes to Condensed Consolidated Financial Statements, on March 31, 2016, the Company sold its equity interest in the SpringCastle Portfolio.

NON-GAAP FINANCIAL MEASURES

Segment Accounting Basis

We report the operating results of Consumer and Insurance, Acquisitions and Servicing, Real Estate, and Other using the Segment Accounting Basis, which (i) reflects our allocation methodologies for certain costs, primarily interest expense, loan loss reserves and acquisition costs to reflect the manner in which we assess our business results and (ii) excludes the impact of applying purchase accounting (eliminates premiums/discounts on our finance receivables at acquisition, as well as the amortization/accretion in future periods). These allocations and adjustments currently have a material effect on our reported segment basis income as compared to GAAP. See Note 16 of the Notes to Condensed Consolidated Financial Statements for a complete discussion of our segment accounting. We believe the Segment Accounting Basis (a basis other than GAAP) provides investors a consistent basis on which management evaluates segment performance.

Table of Contents

The reconciliations of income (loss) before provision for income taxes attributable to OMH on a GAAP basis (purchase accounting) to the same amounts under a Segment Accounting Basis were as follows:

(dollars in millions)	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
Income (loss) before provision for income taxes attributable to OMH - GAAP basis	\$33	\$(12)	\$299	\$(22)
GAAP to Segment Accounting Basis adjustments: (a) (b)				
Interest income	68	(3)	310	(9)
Interest expense	15	32	47	94
Provision for finance receivable losses	38	6	(14)	14
Other revenues	(12)	6	(2)	12
Acquisition-related transaction and integration expenses	(1)	—	(8)	—
Other expenses	10	1	40	3
Income before provision for income taxes attributable to OMH - Segment Accounting Basis	\$151	\$30	\$672	\$92

(a) The GAAP to Segment Accounting Basis adjustments primarily consists of:

Interest income - reverses the impact of premiums/discounts on non-impaired purchased finance receivables and the interest income recognition under guidance in ASC 310-20, Nonrefundable Fees and Other Costs, and reestablishes interest income recognition on a historical cost basis;

Interest expense - reverses the impact of premiums/discounts on acquired long-term debt and reestablishes interest expense recognition on a historical cost basis;

Provision for finance receivable losses - reverses the impact of providing an allowance for finance receivable losses upon acquisition and reestablishes the allowance on a historical cost basis and reverses the impact of recognition of net charge-offs on purchased credit impaired finance receivables and reestablishes the net charge-offs on a historical cost basis;

Other revenues - reestablishes the historical cost basis of mark-to-market adjustments on finance receivables held for sale and on realized gains/losses associated with our investment portfolio;

Acquisition-related transaction and integration expenses - reestablishes the amortization of purchased software assets on a historical cost basis; and

Other expenses - reestablishes expenses on a historical cost basis by reversing the impact of amortization from acquired intangible assets and including amortization of other historical deferred costs.

(b) Purchase accounting was not elected at the segment level.

We also report selected financial statistics relating to the net finance receivables and credit quality of Consumer and Insurance, Acquisitions and Servicing, Real Estate, and Other using a Segment Accounting Basis.

Adjusted Pretax Earnings (Loss)

Management uses adjusted pretax earnings (loss), a non-GAAP financial measure, as a key performance measure of our segments. Adjusted pretax earnings (loss) represents income (loss) before provision for (benefit from) income taxes on a Segment Accounting Basis and excludes acquisition-related transaction and integration expenses, net gain (loss) on sales of personal and real estate loans, net gain on sale of SpringCastle interests, SpringCastle transaction costs, losses resulting from accelerated repayment and repurchases of long-term debt, debt refinance costs, and net loss on liquidation of our United Kingdom subsidiary. Management believes adjusted pretax earnings (loss) is useful in assessing the profitability of our segments and uses adjusted pretax earnings (loss) in evaluating our operating performance. Adjusted pretax earnings (loss) is a non-GAAP measure and should be considered supplemental to, but not as a substitute for or superior to, income (loss) before provision for (benefit from) income taxes, net income, or other measures of financial performance prepared in accordance with GAAP.

Table of Contents

The reconciliations of income (loss) before provision for (benefit from) income taxes attributable to OMH on a Segment Accounting Basis to adjusted pretax earnings (loss) (non-GAAP) were as follows:

* Acquisition-related transaction and integration expenses include the following costs incurred as a result of the OneMain Acquisition and the Lendmark Sale:

• Compensation and employee benefit costs, including retention awards and severance costs;

• Accelerated amortization of acquired software asset;

• Branch renovations, including refurbishments to the OneMain brand;

• Branch infrastructure and other fixed asset integration costs;

• Information technology costs, such as internal platform development, software upgrades and licenses, and technology termination costs;

• Legal fees;

• Project management costs;

• System conversions, including payroll, marketing, risk, and finance functions; and

• Other costs and fees directly related to the OneMain Acquisition and integration.

Comparison of Pretax Operating Results for the Three Months Ended September 30, 2016 and 2015

Interest income, which consisted entirely of finance charges, increased \$534 million for the three months ended September 30, 2016 primarily due to the net of the following:

Average net receivables increased for the three months ended September 30, 2016 primarily due to (i) loans acquired in the OneMain Acquisition and (ii) the continued growth of our loan portfolio (primarily of our secured personal loans). This increase was partially offset by the Lendmark Sale.

Table of Contents

Yield decreased for the three months ended September 30, 2016 primarily due to the continued growth of secured personal loans, which generally have lower yields relative to our unsecured personal loans.

Interest expense increased \$148 million for the three months ended September 30, 2016 primarily due to (i) interest expense on debt acquired in the OneMain Acquisition and (ii) a change in the methodology of allocating interest expense, as described in the allocation methodologies table in Note 16 of the Notes to Condensed Consolidated Financial Statements.

Provision for finance receivable losses increased \$162 million for the three months ended September 30, 2016 primarily due to (i) provision for finance receivable losses of \$138 million in the 2016 period resulting from the OneMain Acquisition and (ii) higher net charge-offs on Springleaf personal loans reflecting growth during the past 12 months. This increase was partially offset by the continued refinement of our estimates of allowance for finance receivable losses and their related assumptions based on ongoing integration and alignment of collection and charge-off practices.

Other revenues increased \$96 million for the three months ended September 30, 2016 when compared to the same period in 2015 primarily due to other revenues of \$98 million during the 2016 period resulting from the OneMain Acquisition, which consisted of insurance revenues of \$71 million, investment revenues of \$17 million, and remaining other revenues of \$10 million.

Other expenses increased \$201 million for the three months ended September 30, 2016 due to the following:

Salaries and benefits increased \$93 million for the three months ended September 30, 2016 primarily due to salaries and benefits of \$96 million in the 2016 period resulting from the OneMain Acquisition. This increase was partially offset by a decrease in Springleaf average staffing as a result of the Lendmark Sale in May of 2016.

Other operating expenses increased \$88 million for the three months ended September 30, 2016 primarily due to (i) other operating expenses of \$85 million in the 2016 period resulting from the OneMain Acquisition, which consisted primarily of advertising expenses of \$25 million, occupancy costs of \$20 million, and information technology expenses of \$15 million, and (ii) an increase in Springleaf information technology expenses of \$2 million during the 2016 period.

Insurance policy benefits and claims increased \$20 million for the three months ended September 30, 2016 primarily due to insurance policy benefits and claims of \$30 million in the 2016 period resulting from the OneMain Acquisition, partially offset by a \$10 million decrease in Springleaf insurance policy benefits and claims during the 2016 period primarily due to favorable variances in benefit reserves.

Comparison of Pretax Operating Results for the Nine Months Ended September 30, 2016 and 2015

Interest income increased \$1.7 billion for the nine months ended September 30, 2016 due to the following:

Finance charges increased \$1.6 billion for the nine months ended September 30, 2016 primarily due to the net of the following:

Average net receivables increased for the nine months ended September 30, 2016 primarily due to (i) loans acquired in the OneMain Acquisition and (ii) the continued growth of our loan portfolio (primarily of our secured personal loans). This increase was partially offset by the transfer of \$608 million of our personal loans to finance receivables held for sale on September 30, 2015.

Yield decreased for the nine months ended September 30, 2016 primarily due to the continued growth of secured personal loans, which generally have lower yields relative to our unsecured personal loans.

Interest income on finance receivables held for sale of \$56 million for the nine months ended September 30, 2016 resulted from the transfer of personal loans to finance receivables held for sale on September 30, 2015 and sold in the Lendmark Sale on May 2, 2016.

Interest expense increased \$432 million for the nine months ended September 30, 2016 primarily due to (i) interest expense on debt acquired in the OneMain Acquisition and (ii) a change in the methodology of allocating interest expense, as described in the allocation methodologies table in Note 16 of the Notes to Condensed Consolidated Financial Statements.

Table of Contents

Provision for finance receivable losses increased \$497 million for the nine months ended September 30, 2016 primarily due to (i) provision for finance receivable losses of \$428 million in the 2016 period resulting from the OneMain Acquisition and (ii) higher net charge-offs on Springleaf personal loans reflecting growth during the past 12 months. This increase was partially offset by the continued refinement of our estimates of allowance for finance receivable losses and their related assumptions based on ongoing integration and alignment of collection and charge-off practices.

Other revenues increased \$296 million for the nine months ended September 30, 2016 when compared to the same period in 2015 primarily due to other revenues of \$304 million during the 2016 period resulting from the OneMain Acquisition, which consisted of insurance revenues of \$220 million, investment revenues of \$58 million, and remaining other revenues of \$26 million, partially offset by a decrease in Springleaf investment revenues of \$16 million in the 2016 period resulting from lower realized gains on the sale of investment securities and a decrease in invested assets.

Other expenses increased \$665 million for the nine months ended September 30, 2016 due to the following:

Salaries and benefits increased \$310 million for the nine months ended September 30, 2016 primarily due to (i) salaries and benefits of \$291 million in the 2016 period resulting from the OneMain Acquisition and (ii) an increase in Springleaf average staffing during the 2016 period prior to the Lendmark Sale.

Other operating expenses increased \$284 million for the nine months ended September 30, 2016 primarily due to (i) other operating expenses of \$250 million in the 2016 period resulting from the OneMain Acquisition, which consisted primarily of advertising expenses of \$71 million, occupancy costs of \$59 million, and information technology expenses of \$45 million, (ii) an increase in Springleaf information technology expenses of \$9 million during the 2016 period, (iii) an increase in Springleaf advertising expenses of \$9 million during the 2016 period, (iv) an increase in Springleaf professional fees of \$8 million during the 2016 period primarily reflecting debt refinance costs, and (v) an increase Springleaf credit and collection related costs of \$5 million in the 2016 period reflecting growth in our loan portfolio.

Insurance policy benefits and claims increased \$71 million for the nine months ended September 30, 2016 primarily due to insurance policy benefits and claims of \$84 million in the 2016 period resulting from the OneMain Acquisition, partially offset by a \$13 million decrease in Springleaf insurance policy benefits and claims during the 2016 period primarily due to favorable variances in benefit reserves.

Other revenues (b)	—	(2)	(17)	4
Other expenses	8	8	20	24
Adjusted pretax loss (non-GAAP)	\$(7)	\$(47)	\$(37)	\$(138)

Selected Financial Statistics

Finance receivables held for investment:

Net finance receivables			\$210	\$591
Number of accounts			3,847	19,001
Average net receivables (c)	\$215	\$605	\$433	\$633
Yield (c)	6.97 %	9.15 %	8.43 %	9.11 %
Loss ratio (c)	7.81 %	3.29 %	3.61 %	3.95 %
Delinquency ratio (c) (d)			17.62%	7.25 %

Finance receivables held for sale:

Net finance receivables			\$168	\$186
Number of accounts			3,191	3,283

Interest expense decreased \$50 million and \$142 million for the three and nine months ended September 30, 2016, respectively, when compared to the same periods in 2015 primarily due to a change in the methodology of (a) allocating interest expense, as described in the allocation methodologies table in Note 16 of the Notes to Condensed Consolidated Financial Statements, and the reallocation of interest expense to the Consumer and Insurance segment as a result of the August 2016 Real Estate Loan Sale.

Other revenues decreased \$21 million for the nine months ended September 30, 2016, when compared to the same period in 2015 primarily due to (i) impairments of \$10 million recognized on our real estate loans held for sale (b) during the nine months ended September 30, 2016 and (ii) a decrease in investment revenues during the 2016 period, as the prior period reflected higher investment income generated from investing the proceeds of the 2014 real estate loan sales.

(c) See “Key Financial Definitions” at the end of our management's discussion and analysis for formulas and definitions of key performance ratios.

(d) Delinquency ratio at September 30, 2016 reflected the retained real estate loan portfolio that was not eligible for sale.

OTHER

“Other” consists of our other non-originating legacy operations, which are isolated by geographic market and/or distribution channel from our three segments. These operations include: (i) Springleaf legacy operations in 14 states where we had also ceased branch-based personal lending during 2012; (ii) Springleaf liquidating retail sales finance portfolio (including retail sales finance accounts from its legacy auto finance operation); (iii) Springleaf lending operations in Puerto Rico and the U.S. Virgin Islands; and (iv) the operations of Springleaf United Kingdom subsidiary prior to its liquidation on August 16, 2016.

Table of Contents

Adjusted pretax operating results of the Other components (which are reported on an adjusted Segment Accounting Basis) were as follows:

(dollars in millions)	Three Months Ended		Nine Months Ended	
	September 30, 2016	2015	September 30, 2016	2015
Interest income	\$1	\$1	\$3	\$6
Interest expense (a)	1	16	2	48
Provision for finance receivable losses	—	—	—	1
Net interest income (loss) after provision for finance receivable losses	—	(15)	1	(43)
Other revenues	—	—	—	—
Other expenses (b)	1	1	—	16
Adjusted pretax earnings (loss) (non-GAAP)	\$(1)	\$(16)	\$1	\$(59)

Interest expense for the three and nine months ended September 30, 2016 when compared to the same periods in (a) 2015 reflected a change in the methodology of allocating interest expense, as described in the allocation methodologies table in Note 16 of the Notes to Condensed Consolidated Financial Statements.

In connection with the sale of our common stock by the Initial Stockholder, we recorded non-cash incentive (b) compensation expense of \$15 million in the second quarter of 2015 relating to the rights of certain executives to receive a portion of the cash proceeds received by the Initial Stockholder.

Net finance receivables of the Other components (which are reported on a Segment Accounting Basis) were as follows:

(dollars in millions)	September	
	30, 2016	2015
Net finance receivables:		
Personal loans	\$ 13	\$ 19
Retail sales finance	14	29
Total	\$ 27	\$ 48

Credit Quality

Our customers encompass a wide range of borrowers. In the consumer finance industry, they are described as prime or near-prime at one extreme and non-prime or sub-prime (less creditworthy) at the other. Our customers' incomes are generally near the national median but our customers may vary from national norms as to their debt-to-income ratios, employment and residency stability, and/or credit repayment histories. In general, our customers have lower credit quality and require significant levels of servicing.

We may offer borrowers the opportunity to defer their personal loan by extending the date on which any payment is due. We may require a partial payment prior to granting such a deferral. Deferrals must bring the account contractually current or due for the current month's payment. Borrowers are generally limited to two deferrals in a rolling 12-month period unless it is determined that an exception is warranted.

In addition to deferrals, we may also offer borrowers the opportunity to cure delinquent accounts when a customer demonstrates that he or she has rehabilitated from a temporary event that caused the delinquency. An account may be brought to current status after the cause for delinquency has been identified and remediated and the customer has made two consecutive qualified payments; however, no principal or interest amounts are forgiven or credited. Independent risk management approval is required for all cures.

When a loan is 60 days past due, we transfer the loan to one of our centralized service centers for account servicing and collection processing. This process includes assessing previous collection efforts, contacting the customer to determine whether the customer's financial problems are temporary, reviewing the collateral securing the loan and developing a plan to maintain

Table of Contents

contact with the customer to increase the likelihood of future payments. Certain non-routine collection activities may include litigation, repossession of collateral, or filing involuntary bankruptcy petitions.

We may renew a delinquent personal loan if the related borrower meets current underwriting criteria and we determine that it does not appear that the cause of past delinquency will affect the customer's ability to repay the new personal loan. We employ the same credit risk underwriting process that we would use for an application from a new customer to determine whether to grant a renewal of a personal loan, regardless of whether the borrower's account is current or delinquent.

We consider the delinquency status of the finance receivable as our primary credit quality indicator. We monitor delinquency trends to manage our exposure to credit risk. Although we engage in collection activities well before an account is 60 days past due, we consider finance receivables 60 days or more past due as delinquent and consider the likelihood of collection to decrease at such time. We record an allowance for loan losses to cover expected losses on our finance receivables. See table of net finance receivables held for investment by type and by number of days delinquent in Note 4 of the Notes to Condensed Consolidated Financial Statements.

TROUBLED DEBT RESTRUCTURING

We make modifications to our finance receivables to assist borrowers during times of financial difficulties. When we modify a loan's contractual terms for economic or other reasons related to the borrower's financial difficulties and grant a concession that we would not otherwise consider, we classify that loan as a TDR finance receivable.

Information regarding TDR finance receivables held for investment and held for sale were as follows:

(dollars in millions)	Personal Loans *	SpringCastle Portfolio	Real Estate Loans *	Total
September 30, 2016				
TDR net finance receivables	\$ 117	\$ —	\$ 138	\$ 255
Allowance for TDR finance receivable losses	\$ 49	\$ —	\$ 11	\$ 60
Number of TDR accounts	21,435	—	1,944	23,379
December 31, 2015				
TDR net finance receivables	\$ 46	\$ 13	\$ 201	\$ 260
Allowance for TDR finance receivable losses	\$ 17	\$ 4	\$ 34	\$ 55
Number of TDR accounts	12,449	1,656	3,506	17,611

*TDR finance receivables held for sale included in the table above were as follows:

(dollars in millions)	Personal Loans	Real Estate Loans	Total

Liquidity and Capital Resources

SOURCES OF FUNDS

We finance the majority of our operating liquidity and capital needs through a combination of cash flows from operations, securitization debt, borrowings from conduit facilities, unsecured debt and equity, and may also utilize other corporate debt facilities in the future. As a holding company, all of the funds generated from our operations are earned by our operating subsidiaries.

Table of Contents

SFC's Offering of 8.25% Senior Notes

On April 11, 2016, SFC issued \$1.0 billion aggregate principal amount of the 8.25% SFC Notes due 2020 under the Indenture, pursuant to which OMH provided a guarantee of the notes on a senior unsecured basis. SFC used a portion of the proceeds from the offering to repurchase approximately \$600 million aggregate principal amount of its existing senior notes that mature in 2017 and the remainder for general corporate purposes. See Note 2 of the Notes to Condensed Consolidated Financial Statements for further information on this offering.

Securitizations and Borrowings from Revolving Conduit Facilities

During the nine months ended September 30, 2016, we (i) completed three consumer loan securitizations and one auto securitization, (ii) exercised our right to redeem the asset backed notes issued by the Springleaf Funding Trust 2013-B, and (iii) deconsolidated the previously issued securitized interests of the SpringCastle Funding Asset-backed Notes 2014-A. See "Structured Financings" later in this section for further information on each of our securitization transactions.

During the nine months ended September 30, 2016, we (i) extended the revolving periods on four existing revolving conduit facilities, (ii) amended four existing revolving conduit facilities to change the maximum principal balances, and (iii) replaced the 2015 Warehouse Facility with the New Facilities (as defined below) and refinanced two of the New Facilities. Net repayments under the notes of our existing revolving conduit facilities totaled \$2.6 billion for the nine months ended September 30, 2016.

See Notes 9 and 10 of the Notes to Condensed Consolidated Financial Statements for further information on our long-term debt, consumer loan securitization transactions and conduit facilities.

Other Transactions

In addition to cash received from our senior notes offering and securitization transactions, our sources of funds were favorably impacted by the following transactions:

- SpringCastle Interests Sale;
- Lendmark Sale; and
- August 2016 Real Estate Loan Sale.

See Note 2 of the Notes to Condensed Consolidated Financial Statements for further information on these transactions.

USES OF FUNDS

Our operating subsidiaries' primary cash needs relate to funding our lending activities, our debt service obligations, our operating expenses (including acquisition-related transaction and integration expenses), payment of insurance claims and, to a lesser extent, expenditures relating to upgrading and monitoring our technology platform, risk systems, and branch locations.

At September 30, 2016, we had \$658 million of cash and cash equivalents, and during the nine months ended September 30, 2016, we generated net income attributable to OMH of \$188 million. Our net cash inflow from operating and investing activities totaled \$1.3 billion for the nine months ended September 30, 2016. At September

30, 2016, our remaining scheduled interest payments for 2016 on our existing debt (excluding securitizations) totaled \$209 million, and we had no remaining scheduled principal payments for 2016 on our existing debt. As of September 30, 2016, we had \$3.8 billion UPB of unencumbered personal loans and \$439 million UPB of unencumbered real estate loans (including \$230 million held for sale).

Based on our estimates and taking into account the risks and uncertainties of our plans, we believe that we will have adequate liquidity to finance and operate our businesses and repay our obligations as they become due for at least the next 12 months.

We have previously purchased portions of our unsecured indebtedness, and we may elect to purchase additional portions of our unsecured indebtedness in the future. Future purchases may be made through the open market, privately negotiated transactions with third parties, or pursuant to one or more tender or exchange offers, all of which are subject to terms, prices, and consideration we may determine.

Table of Contents

LIQUIDITY

Operating Activities

Net cash provided by operations of \$1.1 billion for the nine months ended September 30, 2016 reflected net income of \$216 million, the impact of non-cash items, and a favorable change in working capital of \$97 million. Net cash provided by operations of \$398 million for the nine months ended September 30, 2015 reflected net income of \$75 million, the impact of non-cash items, and a favorable change in working capital of \$14 million.

Investing Activities

Net cash provided by investing activities of \$204 million for the nine months ended September 30, 2016 was primarily due to the SpringCastle Interests Sale, the Lendmark Sale, and the August 2016 Real Estate Loan Sale, partially offset by net principal collections and originations of finance receivables held for investment and held for sale. Net cash provided by investing activities of \$593 million for the nine months ended September 30, 2015 was primarily attributable to net sales of investment securities during 2015.

Financing Activities

Net cash used for financing activities of \$1.6 billion for the nine months ended September 30, 2016 was primarily due to net repayments of long-term debt. Net cash provided by financing activities of \$2.0 billion for the nine months ended September 30, 2015 reflected the debt issuances associated with the 2015-A and 2015-B securitizations and the April 2015 OMH equity offering.

Liquidity Risks and Strategies

SFC's and OMFH's credit ratings are non-investment grade, which have a significant impact on our cost of, and access to, capital. This, in turn, can negatively affect our ability to manage our liquidity and our ability or cost to refinance our indebtedness.

There are numerous risks to our financial results, liquidity, capital raising, and debt refinancing plans, some of which may not be quantified in our current liquidity forecasts. These risks include, but are not limited, to the following:

- our inability to grow or maintain our personal loan portfolio with adequate profitability;
- the effect of federal, state and local laws, regulations, or regulatory policies and practices;
- potential liability relating to real estate and personal loans which we have sold or may sell in the future, or relating to securitized loans; and
- the potential for disruptions in the debt and equity markets.

The principal factors that could decrease our liquidity are customer delinquencies and defaults, a decline in customer prepayments, a prolonged inability to adequately access capital market funding, and unanticipated expenditures in connection with the integration of OneMain. We intend to support our liquidity position by utilizing some or all the following strategies:

- maintaining disciplined underwriting standards and pricing for loans we originate or purchase and managing purchases of finance receivables;
- pursuing additional debt financings (including new securitizations and new unsecured debt issuances, debt refinancing transactions and standby funding facilities), or a combination of the foregoing;

purchasing portions of our outstanding indebtedness through open market or privately negotiated transactions with third parties or pursuant to one or more tender or exchange offers or otherwise, upon such terms and at such prices, as well as with such consideration, as we may determine; and
obtaining new and extending existing secured revolving facilities to provide committed liquidity in case of prolonged market fluctuations.

However, it is possible that the actual outcome of one or more of our plans could be materially different than expected or that one or more of our significant judgments or estimates could prove to be materially incorrect.

Table of Contents

OUR INSURANCE SUBSIDIARIES

State law restricts the amounts that the Springleaf and OneMain insurance subsidiaries may pay as dividends without prior notice to the Indiana Department of Insurance (the “Indiana DOI”) and Texas Department of Insurance (the “Texas DOI”), respectively. The maximum amount of dividends (referred to as “ordinary dividends”) for an Indiana or Texas domiciled life insurance company that can be paid without prior approval in a 12-month period (measured retrospectively from the date of payment) is the greater of: (i) 10% of policyholders’ surplus as of the prior year-end; or (ii) the statutory net gain from operations as of the prior year-end. Any amount greater must be approved by the Indiana DOI or Texas DOI prior to its payment. The maximum ordinary dividends for an Indiana or Texas domiciled property and casualty insurance company that can be paid without prior approval in a 12-month period (measured retrospectively from the date of payment) is the greater of: (i) 10% of policyholders’ surplus as of the prior year-end; or (ii) the statutory net income. Any amount greater must be approved by the Indiana DOI or Texas DOI prior to its payment. These approved dividends are called “extraordinary dividends.” During the nine months ended September 30, 2016, Springleaf insurance subsidiaries paid extraordinary dividends to SFC totaling \$63 million and OneMain insurance subsidiaries paid \$105 million of extraordinary dividends to OMFH.

OUR DEBT AGREEMENTS

SFC Debt Agreements

The debt agreements to which SFC and its subsidiaries are a party include customary terms and conditions, including covenants and representations and warranties. Some or all of these agreements also contain certain restrictions, including (i) restrictions on the ability to create senior liens on property and assets in connection with any new debt financings and (ii) SFC’s ability to sell or convey all or substantially all of its assets, unless the transferee assumes SFC’s obligations under the applicable debt agreement. In addition, the OMH guarantees of SFC’s long-term debt discussed above are subject to customary release provisions.

With the exception of SFC’s junior subordinated debenture, none of our debt agreements require SFC or any of its subsidiaries to meet or maintain any specific financial targets or ratios. However, certain events, including non-payment of principal or interest, bankruptcy or insolvency, or a breach of a covenant or a representation or warranty may constitute an event of default and trigger an acceleration of payments. In some cases, an event of default or acceleration of payments under one debt agreement may constitute a cross-default under other debt agreements resulting in an acceleration of payments under the other agreements.

As of September 30, 2016, SFC was in compliance with all of the covenants under its debt agreements.

Junior Subordinated Debenture. In January of 2007, SFC issued \$350 million aggregate principal amount of 60-year junior subordinated debenture (the “debenture”) under an indenture dated January 22, 2007 (the “Junior Subordinated Indenture”), by and between SFC and Deutsche Bank Trust Company, as trustee. The debenture underlies the trust preferred securities sold by a trust sponsored by SFC. SFC can redeem the debenture at par beginning in January of 2017.

Pursuant to the terms of the debenture, SFC, upon the occurrence of a mandatory trigger event, is required to defer interest payments to the holders of the debenture (and not make dividend payments to SFI) unless SFC obtains non-debt capital funding in an amount equal to all accrued and unpaid interest on the debenture otherwise payable on the next interest payment date and pays such amount to the holders of the debenture. A mandatory trigger event occurs if SFC’s (i) tangible equity to tangible managed assets is less than 5.5% or (ii) average fixed charge ratio is not more than 1.10x for the trailing four quarters.

Based upon SFC's financial results for the 12 months ended September 30, 2016, a mandatory trigger event did not occur with respect to the interest payment due in January of 2017, as SFC was in compliance with both required ratios discussed above.

OMFH Debt Agreements

None of OMFH's debt agreements require OMFH or any of its subsidiaries to meet or maintain any specific financial targets or ratios. However, the OMFH Indenture does contain a number of covenants that limit, among other things, OMFH's ability and the ability of most of its subsidiaries to incur additional debt; create liens securing certain debt; pay dividends on or make distributions in respect of its capital stock or make investments or other restricted payments; create restrictions on the ability of its restricted subsidiaries to pay dividends to OMFH or make certain other intercompany transfers; sell certain assets; consolidate, merge, sell or otherwise dispose of all or substantially all of its assets; and enter into certain transactions with affiliates. The OMFH Indenture also contains customary events of default which would permit the trustee or the holders of the OMFH Notes to declare the OMFH Notes to be immediately due and payable if not cured within applicable grace periods,

Table of Contents

including the nonpayment of principal, interest or premium, if any, when due; violation of covenants and other agreements contained in the OMFH Indenture; payment default after final maturity or cross acceleration of certain material debt; certain bankruptcy and insolvency events; material judgment defaults; and the failure of any guarantee of the notes, other than in accordance with the terms of the OMFH Indenture or such guarantee.

As of September 30, 2016, OMFH was in compliance with all of the covenants under its debt agreements.

Subsequently, on November 8, 2016, OMH agreed to fully, unconditionally, and irrevocably guarantee the OMFH Notes. See Note 18 of the Notes to Condensed Consolidated Financial Statements for further information on OMH's guarantee of the OMFH Notes.

Replacement of OMFH 2015 Warehouse Facility. On February 3, 2015, OMFH entered into a revolving conduit facility with a borrowing capacity of \$3.0 billion, backed by personal loans (the "2015 Warehouse Facility"). Pursuant to the terms of the 2015 Warehouse Facility, OMFH was required to (i) maintain minimum consolidated tangible shareholders' equity of not less than \$1 billion and (ii) not permit OMFH's consolidated debt to tangible shareholders' equity ratio to exceed 6.0 to 1.0 if a minimum draw condition exists.

On January 21, 2016, OMFH entered into four separate bilateral conduit facilities with unaffiliated financial institutions that provide an aggregate \$2.4 billion of committed financing on a revolving basis for personal loans originated by OneMain (the "New Facilities"). The New Facilities replaced the 2015 Warehouse Facility that was voluntarily terminated on the same date and, as a result, the financial covenants, including the Net Worth Covenant and the Leverage Covenant in the 2015 Warehouse Facility, were eliminated. As of September 30, 2016, the aggregate borrowing capacity of the New Facilities totaled \$2.25 billion. See Note 10 of the Notes to Condensed Consolidated Financial Statements for further information on the replacement of the 2015 Warehouse Facility.

Table of Contents

Structured Financings

We execute private securitizations under Rule 144A of the Securities Act of 1933. As of September 30, 2016, our structured financings consisted of the following:

(dollars in millions)	Initial Note Amounts Issued (a)	Initial Collateral Balance (b)	Current Note Amounts Outstanding (b)	Current Collateral Balance (b)	Current Weighted Average Interest Rate	Collateral Type	Revolving Period
Consumer Securitizations:							
Springleaf							
SLFT 2014-A	\$ 559	\$ 644	\$ 315	\$ 401	2.67 %	Personal loans	2 years
SLFT 2015-A	1,163	1,250	1,163	1,258	3.47 %	Personal loans	3 years
SLFT 2015-B	314	335	314	338	3.78 %	Personal loans	5 years
OneMain							
OMFIT 2014-1	760	1,004	496	736	2.60 %	Personal loans	2 years
OMFIT 2014-2	1,185	1,325	1,033	1,165	2.99 %	Personal loans	2 years
OMFIT 2015-1	1,229	1,397	1,229	1,395	3.74 %	Personal loans	3 years
OMFIT 2015-2	1,250	1,346	1,250	1,349	3.07 %	Personal loans	2 years
OMFIT 2015-3	293	330	293	330	4.21 %	Personal loans	5 years
OMFIT 2016-1	459	569	459	561	4.01 %	Personal loans	3 years
OMFIT 2016-2	816	1,007	816	1,005	4.50 %	Personal loans	2 years
OMFIT 2016-3	317	397	317	396	4.33 %	Personal loans	5 years
Total consumer securitizations	8,345	9,604	7,685	8,934			
Auto Securitization:							
Springleaf							
ODART 2016-1	700	754	618	688	2.30 %	Direct auto loans	N/A (c)
Total secured structured financings	\$ 9,045	\$ 10,358	\$ 8,303	\$ 9,622			

(a) Represents securities sold at time of issuance or at a later date and does not include retained notes.

(b) Represents UPB of the collateral supporting the issued and retained notes.

(c) Not applicable.

In addition to the structured financings included in the table above, we had access to eleven conduit facilities with a total borrowing capacity of \$4.6 billion as of September 30, 2016, as discussed in Note 10 of the Notes to Condensed Consolidated Financial Statements. At September 30, 2016, no amounts were drawn under these facilities.

See "Liquidity and Capital Resources - Sources of Funds - Securitizations and Borrowings from Revolving Conduit Facilities" for securitization and conduit transactions completed subsequent to September 30, 2016.

Our securitizations have served to partially replace secured and unsecured debt in our capital structure with more favorable non-recourse funding. Our overall funding costs are positively impacted by our increased usage of securitizations, as we typically execute these transactions at interest rates significantly below those of our maturing unsecured debt.

Table of Contents

Off-Balance Sheet Arrangements

We have no material off-balance sheet arrangements as defined by SEC rules. We had no off-balance sheet exposure to losses associated with unconsolidated VIEs at September 30, 2016 or December 31, 2015, other than certain representations and warranties associated with the sales of the mortgage-backed retained certificates during 2014. As of September 30, 2016, we had no repurchase activity related to these sales.

Critical Accounting Policies and Estimates

We describe our significant accounting policies used in the preparation of our consolidated financial statements in Note 3 of the Notes to Consolidated Financial Statements in Part II, Item 8 of our 2015 Annual Report on Form 10-K. We consider the following policies to be our most critical accounting policies because they involve critical accounting estimates and a significant degree of management judgment:

- allowance for finance receivable losses;
- purchased credit impaired finance receivables;
- TDR finance receivables;
- fair value measurements; and
- goodwill and other intangible assets.

Effective April 1, 2016, we changed our accounting policy for derecognition of purchased credit impaired loans. See Note 1 of the Notes to Condensed Consolidated Financial Statements for further information.

There have been no other material changes to our critical accounting policies or to our methodologies for deriving critical accounting estimates during the nine months ended September 30, 2016.

Recent Accounting Pronouncements

See Note 3 of the Notes to Condensed Consolidated Financial Statements for discussion of recently issued accounting pronouncements.

Seasonality

Our personal loan volume is generally highest during the second and fourth quarters of the year, primarily due to marketing efforts, seasonality of demand, and increased traffic in branches after the winter months. Demand for our personal loans is usually lower in January and February after the holiday season and as a result of tax refunds. Delinquencies on our personal loans are generally lowest in the first quarter and tend to rise throughout the remainder of the year. These seasonal trends contribute to fluctuations in our operating results and cash needs throughout the year.

Table of Contents

Key Financial Definitions

Average debt	average of debt for each day in the period
Average net receivables	average of monthly average net finance receivables (net finance receivables at the beginning and end of each month divided by 2) in the period
Delinquency ratio	UPB 60 days or more past due (greater than three payments unpaid) as a percentage of UPB earnings less income taxes, interest expense, extraordinary items, goodwill impairment, and any amounts related to discontinued operations, divided by the sum of interest expense and any preferred dividends
Fixed charge ratio	
Gross charge-off ratio	annualized gross charge-offs as a percentage of average net receivables
Loss ratio	annualized net charge-offs, net writedowns on real estate owned, net gain (loss) on sales of real estate owned, and operating expenses related to real estate owned as a percentage of average real estate loans
Net charge-off ratio	annualized net charge-offs as a percentage of average net receivables
Net interest income	interest income less interest expense
Recovery ratio	annualized recoveries on net charge-offs as a percentage of average net receivables
Tangible equity	total equity less accumulated other comprehensive income or loss
Tangible managed assets	total assets less goodwill and other intangible assets
Trust preferred securities	capital securities classified as debt for accounting purposes but due to their terms are afforded, at least in part, equity capital treatment in the calculation of effective leverage by rating agencies
Weighted average interest rate	annualized interest expense as a percentage of average debt
Yield	annualized finance charges as a percentage of average net receivables

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no material changes to our market risk previously disclosed in Part II, Item 7A of our 2015 Annual Report on Form 10-K.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are designed to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As of September 30, 2016, we carried out an evaluation of the effectiveness of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. This evaluation was conducted under the supervision of, and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer. Based on our evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were effective as of September 30, 2016 to provide the reasonable assurance described above.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the third quarter of 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

86

Table of Contents

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

See Note 14 of the Notes to Condensed Consolidated Financial Statements in Part I of this Quarterly Report on Form 10-Q.

Item 1A. Risk Factors.

There have been no material changes to the risk factors included in Part I, Item 1A of our 2015 Annual Report on Form 10-K, except for changes previously disclosed in Part II, Item 1A of our Quarterly Report on Form 10-Q for the period ended June 30, 2016, filed with the SEC on August 5, 2016, and as set forth below:

The OneMain Acquisition may not achieve its intended results, and we may be unable to successfully integrate our and OneMain's operations.

We acquired OneMain with the expectation that the OneMain Acquisition will result in various benefits, including, among other things, cost savings and operating efficiencies. Achieving the anticipated benefits of the OneMain Acquisition is subject to a number of uncertainties (many of which are outside our control), including whether our business and the business of OneMain can be integrated in an efficient and effective manner.

The integration of OneMain is a complex, costly and time-consuming process, and the significant size and scale of OneMain increases the risks to which we are subject relative to other acquired businesses. Such risks include the following, any of which could adversely affect our business, financial condition or results of operations or our ability to achieve the anticipated benefits of the OneMain Acquisition:

It is possible that the integration process could take longer than anticipated and could result in the loss of valuable employees, additional and unforeseen expenses, the disruption of our ongoing business, processes and systems, or inconsistencies in standards, controls, procedures, practices, policies and compensation arrangements.

There may be increased risk due to integrating financial reporting and internal control systems.

Difficulties in combining operations of the two companies could also result in the loss of contract counterparties or other persons with whom we or OneMain conduct business and potential disputes or litigation with contract counterparties or other persons with whom we or OneMain conduct business.

The integration process could result in the diversion of management and employee attention and resources or other disruptions that may adversely affect our ability to grow our business, pursue loan monitoring and collection activities, or achieve the anticipated benefits of the OneMain Acquisition. During the third quarter of 2016, we completed a number of significant integration initiatives related to the OneMain Acquisition which involved a significant investment of time and effort by OneMain branch and field management personnel, as described above under "Management's Discussion and Analysis of Financial Condition and Results of Operations-Outlook." We believe these integration-related activities contributed to lower than expected loan origination growth during the third quarter of 2016, primarily at the former OneMain branches, and an increase in our early stage 30-89 day delinquencies for loans originated in 2016. Given the substantial integration-related systems conversion activity and branch consolidation that we have planned through the first half of 2017, we may experience a heightened level of delinquency, net charge-offs and increases in the provision for receivables losses for the balance of 2016 and 2017. No assurance can be given, however, that we will not continue to incur increased credit losses or declines in, or lower

growth of, our personal loan net finance receivables in the future once the OneMain integration has been completed.

If we experience difficulties or delays with the OneMain integration process, or if our assumptions underlying expectations regarding the OneMain Acquisition prove to be inaccurate, the anticipated benefits, expense savings and synergies may not be realized fully or at all, or may take longer to realize than expected. Failure to achieve these anticipated benefits could result in increased costs, increased credit losses or decreases in the amount of expected revenues, any of which could adversely affect our future business, financial condition, operating results and prospects. Our results of operations following the OneMain Acquisition could also be adversely affected by any issues attributable to either company's operations that arise or are based on events or actions that occurred prior to the closing of the OneMain Acquisition.

Additionally, since the closing of the OneMain Acquisition, we remain reliant on Citigroup, the former parent company of OMFH, to provide certain operational services and support to OneMain, and a failure by Citigroup to perform such services

Table of Contents

could materially increase our costs or disrupt our business, which could adversely affect our financial condition and results of operations.

Our recent underwriting changes and strategy of increasing the proportion of secured loan originations within our loan portfolio may lead to declines in, or slower growth than anticipated of, our personal loan net finance receivables and yield, which could have a material adverse effect on our business, results of operations and growth prospects.

During the third quarter of 2016, in response to an increase in unsecured credit availability to our target customer base from online lenders and various other unsecured credit providers and an increase in our early stage 30-89 day delinquencies for loans originated in 2016, we tightened our underwriting criteria for unsecured personal loans to lower credit tier customers. As a result of these changes to our underwriting criteria, we are generally not underwriting new personal loans to this segment of our customer base absent collateral. We have also continued to execute on our strategy of increasing the proportion of our loan originations that are secured loans, particularly within the former OneMain branches where secured loan originations have historically represented a smaller proportion of total loan originations than those of the former Springleaf branches. Secured loans typically carry lower yields relative to unsecured personal loans. If we are unable to successfully convert lower credit tier customers to our secured loan products or otherwise increase new originations of secured personal loans, this will adversely affect our ability to grow personal loan net finance receivables. In addition, as secured loans continue to represent a larger proportion of our loan portfolio, our yields may be lower than our historical yields in prior periods.

If our estimates of finance receivable losses are not adequate to absorb actual losses, our provision for finance receivable losses would increase, which would adversely affect our results of operations.

We maintain an allowance for finance receivable losses. To estimate the appropriate level of allowance for finance receivable losses, we consider known and relevant internal and external factors that affect finance receivable collectability, including the total amount of finance receivables outstanding, historical finance receivable charge-offs, our current collection patterns, and economic trends. Our methodology for establishing our allowance for finance receivable losses is based on the guidance in ASC 450, Contingencies and, in part, on our historic loss experience. If customer behavior changes as a result of economic conditions and if we are unable to predict how the unemployment rate, housing foreclosures, and general economic uncertainty may affect our allowance for finance receivable losses, our provision may be inadequate. Our allowance for finance receivable losses is an estimate, and if actual finance receivable losses are materially greater than our allowance for finance receivable losses, our results of operations could be adversely affected. Neither state regulators nor federal regulators regulate our allowance for finance receivable losses.

In June of 2016, the FASB issued ASU 2016-13, Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. This ASU significantly changes the way that entities will be required to measure credit losses. The new standard requires that the estimated credit loss be based upon an “expected credit loss” approach rather than the “incurred loss” approach currently required. The new approach will require entities to measure all expected credit losses for financial assets based on historical experience, current conditions, and reasonable forecasts of collectability. It is anticipated that the expected credit loss model may require earlier recognition of credit losses than the incurred loss approach. This ASU will become effective for the Company for fiscal years beginning January 1, 2020. Early adoption is permitted for fiscal years beginning January 1, 2019. We believe the adoption of this ASU will have a material effect on our consolidated financial statements. See Note 3 of the Notes to Condensed Consolidated Financial Statements for more information on this new accounting standard.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.
