QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended December 31, 2017

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

001-36587

(Commission File Number)

Catalent, Inc.
(Exact name of registrant as specified in its charter)

Delaware 20-8737688
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

14 Schoolhouse Road, Somerset, NJ 08873
(Address of principal executive offices) (Zip code)

(732) 537-6200
Registrant's telephone number, including area code

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). x Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Edgar Filing: Catalent, Inc. - Form 10-Q

On February 2, 2018, there were 133,318,679 shares of the Registrant's common stock, par value \$0.01 per share, issued and outstanding.

Special Note Regarding Forward-Looking Statements

In addition to historical information, this Quarterly Report on Form 10-Q may contain “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), which are subject to the “safe harbor” created by those sections. All statements, other than statements of historical facts, included in this Quarterly Report on Form 10-Q are forward-looking statements. In some cases, you can identify these forward-looking statements by the use of words such as “outlook,” “believes,” “expects,” “potential,” “continues,” “may,” “will,” “should,” “could,” “seeks,” “approximates,” “predicts,” “intends,” “plans,” “estimates,” “anticipates” or the negative version of these words or other comparable words. These statements are based on assumptions and assessments made by our management in light of their experience and their perception of historical trends, current conditions, expected future developments and other factors they believe to be appropriate. Any forward-looking statement is subject to various risks and uncertainties. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements.

Some of the factors that may cause actual results, developments and business decisions to differ materially from those contemplated by such forward-looking statements include, but are not limited to, those described under the section entitled “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended June 30, 2017 and the following:

• We participate in a highly competitive market, and increased competition may adversely affect our business.

• The demand for our offerings depends in part on our customers’ research and development and the clinical and market success of their products. Our business, financial condition and results of operations may be harmed if our customers spend less on, or are less successful in, these activities.

• We are subject to product and other liability risks that could adversely affect our results of operations, financial condition, liquidity, and cash flows.

• Failure to comply with existing and future regulatory requirements could adversely affect our results of operations and financial condition or result in claims from customers.

• Failure to provide quality offerings to our customers could have an adverse effect on our business and subject us to regulatory actions or costly litigation.

• The services and offerings we provide are highly exacting and complex, and if we encounter problems providing the services or support required, our business could suffer.

• Our global operations are subject to economic, political, and regulatory risks, including the risks of changing regulatory standards or changing interpretations of existing standards, that could affect the profitability of our operations or require costly changes to our procedures.

• The referendum in the United Kingdom (the “U.K.”) and resulting decision of the U.K. government to consider exiting from the European Union could have future adverse effects on our revenues and costs, and therefore our profitability.

• If we do not enhance our existing or introduce new technology or service offerings in a timely manner, our offerings may become obsolete over time, customers may not buy our offerings, and our revenue and profitability may decline.

• We and our customers depend on patents, copyrights, trademarks, trade secrets, and other forms of intellectual property protections, but these protections may not be adequate.

Our future results of operations are subject to fluctuations in the costs, availability, and suitability of the components of the products we manufacture, including active pharmaceutical ingredients, excipients, purchased components, and raw materials.

Changes in market access or healthcare reimbursement for our customers' products in the United States or internationally, including the possible repeal or replacement of the Affordable Care Act in the United States, could adversely affect our results of operations and financial condition by affecting demand for our offerings.

Table of Contents

As a global enterprise, fluctuations in the exchange rate of the U.S. dollar against foreign currencies could have a material adverse effect on our financial performance and results of operations.

The impact to our business of recently enacted U.S. tax legislation could differ materially from our current estimates.

Tax legislative or regulatory initiatives or challenges to our tax positions could adversely affect our results of operations and financial condition.

Our ability to use our net operating loss carryforwards and certain other tax attributes may be limited.

Changes to the estimated future profitability of the business may require that we establish an additional valuation allowance against all or some portion of our net U.S. deferred tax assets.

We are dependent on key personnel.

We use advanced information and communication systems to run our operations, compile and analyze financial and operational data, and communicate among our employees, customers, and counter-parties, so the risks generally associated with information and communications systems could adversely affect our results of operations. We are continuously working to install new, and upgrade existing, systems and provide employee awareness training around phishing, malware, and other cyber security risks to enhance the protections available to us, but such protections may be inadequate to address malicious attacks or inadvertent compromises of data security.

We engage, from time to time, in acquisitions and other transactions that may complement or expand our business or divest of non-strategic businesses or assets. We may not be able to complete such transactions, and such transactions, if executed, pose significant risks, including risks relating to our ability to successfully and efficiently integrate acquisitions and realize anticipated benefits therefrom. The failure to execute or realize the full benefits from any such transaction could have a negative effect on our operations.

Our offerings or our customers' products may infringe on the intellectual property rights of third parties.

We are subject to environmental, health, and safety laws and regulations, which could increase our costs and restrict our operations in the future.

We are subject to labor and employment laws and regulations, which could increase our costs and restrict our operations in the future.

Certain of our pension plans are underfunded, and additional cash contributions we may make to increase the funding level will reduce the cash available for our business, such as the payment of our interest expense.

Our substantial leverage could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or in our industry, expose us to interest-rate risk to the extent of our variable rate debt and prevent us from meeting our obligations under our indebtedness.

We caution you that the risks, uncertainties and other factors referenced above may not contain all of the risks, uncertainties, and other factors that are important to you. In addition, we cannot assure you that we will realize the results, benefits, or developments that we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our business in the way expected. There can be no assurance that (i) we have correctly measured or identified all of the factors affecting our business or the extent of these factors' likely impact, (ii)

the available information with respect to these factors on which such analysis is based is complete or accurate, (iii) such analysis is correct, or (iv) our strategy, which is based in part on this analysis, will be successful. All forward-looking statements in this report apply only as of the date of this report or as of the date they were made and we undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise, except as required by law.

Table of Contents

Catalent, Inc. and Subsidiaries

Notes to Unaudited Consolidated Financial Statements

1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business

Catalent, Inc. ("Catalent" or the "Company") directly and wholly owns PTS Intermediate Holdings LLC ("Intermediate Holdings"). Intermediate Holdings directly and wholly owns Catalent Pharma Solutions, Inc. ("Operating Company"). The financial results of Catalent are comprised of the financial results of Operating Company and its subsidiaries on a consolidated basis.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the six months ended December 31, 2017 are not necessarily indicative of the results that may be expected for the year ending June 30, 2018. The consolidated balance sheet at June 30, 2017 has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by GAAP for complete financial statements. For further information on the Company's accounting policies and footnotes, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended June 30, 2017 filed with the Securities and Exchange Commission ("SEC").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Such estimates include, but are not limited to, allowance for doubtful accounts, inventory and long-lived asset valuation, goodwill and other intangible asset valuation and impairment, equity-based compensation, income taxes, and pension plan asset and liability valuation. Actual amounts may differ from these estimated amounts.

Foreign Currency Translation

The financial statements of the Company's operations outside the U.S. are generally measured using the local currency as the functional currency. Adjustments to translate the assets and liabilities of these foreign operations into U.S. dollars are accumulated as a component of other comprehensive income/(loss) utilizing period-end exchange rates. The currency fluctuations related to certain long-term inter-company loans deemed to not be repayable in the foreseeable future have been recorded within cumulative translation adjustment, a component of other comprehensive income/(loss). In addition, the currency fluctuation associated with the portion of the Company's euro-denominated debt designated as a net investment hedge is included as a component of other comprehensive income/(loss). Foreign currency transaction gains and losses calculated by utilizing weighted average exchange rates for the period are included in the consolidated statements of operations in the other (income)/expense, net line item. Foreign currency translation gains and losses generated from inter-company loans that are long-term in nature, but may be repayable in the foreseeable future, are also recorded within the other (income)/expense, net line item on the consolidated statements of operations.

Revenue Recognition

In accordance with Accounting Standards Codification ("ASC") 605 Revenue Recognition, the Company recognizes revenue when persuasive evidence of an arrangement exists, product delivery has occurred or the services have been rendered, the price is fixed or determinable and collectability is reasonably assured. In cases where the Company has multiple contracts with the same customer, the Company evaluates those contracts to assess if the contracts are linked or are separate arrangements. Factors the Company considers include the timing of negotiation, interdependency with other contracts or elements and payment terms. The Company and its customers generally view each contract

discussion as a separate arrangement.

Manufacturing and packaging service revenue is recognized upon delivery of the product in accordance with the terms of the contract, which specify when transfer of title and risk of loss occurs. Some of the Company's manufacturing contracts with

11

Table of Contents

its customers have annual minimum purchase requirements. At the end of the contract year, revenue is recognized for the unfilled purchase obligation in accordance with the contract terms. Development service contracts generally take the form of a fee-for-service arrangement. After the Company has evidence of an arrangement, the price is determinable and there is a reasonable expectation regarding payment, the Company recognizes revenue at the point in time the service obligation is completed and accepted by the customer. Examples of output measures include a formulation report, analytical and stability testing, clinical batch production or packaging and the storage and distribution of a customer's clinical trial material. Development service revenue is primarily driven by the Company's Drug Delivery Solutions segment.

Arrangements containing multiple elements, including service arrangements, are accounted for in accordance with the provisions of ASC 605-25 Revenue Recognition—Multiple-Element Arrangements. The Company determines the separate units of account in accordance with ASC 605-25. If the deliverable meets the criteria of a separate unit of accounting, the arrangement consideration is allocated to each element based upon its relative selling price. In determining the best evidence of selling price of a unit of account, the Company utilizes vendor-specific objective evidence ("VSOE"), which is the price the Company charges when the deliverable is sold separately. When VSOE is not available, management uses relevant third-party evidence ("TPE") of selling price, if available. When neither VSOE nor TPE of selling price exists, management uses its best estimate of selling price.

Goodwill

The Company accounts for purchased goodwill and intangible assets with indefinite lives in accordance with ASC 350 Goodwill, Intangible and Other Assets. Under ASC 350, goodwill and intangible assets with indefinite lives are not amortized, but instead are tested for impairment at least annually. The Company's annual goodwill impairment test was conducted as of April 1, 2017. The Company assesses goodwill for possible impairment by comparing the carrying value of its reporting units to their fair values. The Company determines the fair value of its reporting units utilizing estimated future discounted cash flows and incorporates assumptions that it believes marketplace participants would utilize. In addition, the Company uses comparative market information and other factors to corroborate the discounted cash flow results.

Property and Equipment and Other Definite Lived Intangible Assets

Property and equipment are stated at cost. Depreciation expense is computed using the straight-line method over the estimated useful lives of the assets, including capital lease assets that are amortized over the shorter of their useful lives or the terms of the respective leases. The Company generally uses the following ranges of useful lives for its property and equipment categories: buildings and improvements — 5 to 50 years; machinery and equipment — 3 to 10 years; and furniture and fixtures — 3 to 7 years. Depreciation expense was \$30.7 million and \$58.3 million for the three and six months ended December 31, 2017, respectively, and \$24.4 million and \$49.2 million for the three and six months ended December 31, 2016, respectively. Depreciation expense includes amortization of assets related to capital leases. The Company charges repairs and maintenance costs to expense as incurred. The amount of capitalized interest was immaterial for all periods presented.

Intangible assets with finite lives, primarily including customer relationships, patents and trademarks are amortized over their useful lives. The Company evaluates the recoverability of its other long-lived assets, including amortizing intangible assets, if circumstances indicate impairment may have occurred pursuant to ASC 360 Property, Plant and Equipment. This analysis is performed by comparing the respective carrying values of the assets to the current and expected future cash flows, on an un-discounted basis, to be generated from such assets. If such analysis indicates that the carrying value of these assets is not recoverable, the carrying value of such assets is reduced to fair value through a charge to the consolidated statements of operations. Fair value is determined based on assumptions the Company believes marketplace participants would utilize and comparable marketplace information in similar arm's length transactions. Impairment charges related to definite lived intangible assets and property, plant and equipment were not material for the three and six months ended December 31, 2017 and 2016.

Research and Development Costs

The Company expenses research and development costs as incurred. Costs incurred in connection with the development of new offerings and manufacturing process improvements are recorded within selling, general and

administrative expenses. Such research and development costs included in selling, general and administrative expenses amounted to \$1.5 million and \$3.3 million for the three and six months ended December 31, 2017, respectively, and \$1.5 million and \$3.0 million for the three and six months ended December 31, 2016, respectively. Costs incurred in connection with research and development services the Company provides to customers and services performed in support of the commercial manufacturing process for customers are recorded within cost of sales. Such research and development costs included in cost of sales amounted to \$12.4 million and \$22.4 million for the three and six months ended December 31, 2017, respectively, and \$11.0 million and \$21.3 million for the three and six months ended December 31, 2016, respectively.

Table of Contents

Earnings / (Loss) Per Share

The Company reports net earnings/(loss) per share in accordance with ASC 260 Earnings per Share. Under ASC 260, basic earnings per share, which excludes dilution, is computed by dividing net earnings or loss available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution caused by securities that could be exercised or converted into common shares, and is computed by dividing net earnings or loss available to common stockholders by the weighted average of common shares outstanding plus the dilutive potential common shares. Diluted earnings per share includes in-the-money stock options, restricted stock units, and unvested restricted stock using the treasury stock method. During a loss period, the assumed exercise of in-the-money stock options has an anti-dilutive effect, and, therefore, these instruments are excluded from the computation of diluted earnings per share.

Equity-Based Compensation

The Company accounts for its equity-based compensation awards pursuant to ASC 718 Compensation—Stock Compensation. ASC 718 requires companies to recognize compensation expense using a fair value based method for costs related to share-based payments including stock options and restricted stock units. The expense is measured based on the grant date fair value of the awards, and the expense is recorded over the applicable requisite service period using the accelerated attribution method. Forfeitures are recognized as and when they occur. In the absence of an observable market price for a share-based award, the fair value is based upon a valuation methodology that takes into consideration various factors, including the exercise price of the award, the expected term of the award, the current price of the underlying shares, the expected volatility of the underlying share price based on peer companies, the expected dividends on the underlying shares and the risk-free interest rate.

The terms of the Company's equity-based compensation plans permit an employee holding vested stock options to elect to have the Company withhold a portion of the shares otherwise issuable upon the employee's exercise of the option, a so-called "net settlement transaction," as a means of paying the exercise price meeting tax withholding requirements, or both.

Marketable Securities

Marketable securities consist of investments that have a readily determinable fair value based on quoted market price of the investment, which is considered a Level 1 fair value measurement. Under ASC 320, Investments—Debt and Equity Securities, these investments are classified as available-for-sale and are reported at fair value in other current assets on the Company's consolidated balance sheet. Unrealized holding gains and losses are reported within accumulated other comprehensive income/(loss). Under the Company's accounting policy, a decline in the fair value of marketable securities is deemed to be "other than temporary" and such marketable securities are generally considered to be impaired if their fair value is less than the Company's cost basis for a period based on the particular facts and circumstances surrounding the investment. If a decline in the fair value of a marketable security below the Company's cost basis is determined to be other than temporary, such marketable security is written down to its estimated fair value as a new cost basis and the amount of the write-down is included in earnings as an impairment charge.

Table of Contents

Recent Financial Accounting Standards

Recently Adopted Accounting Standards

In July 2015, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2015-11, Simplifying the Measurement of Inventory, which requires an entity to measure inventory at lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. The ASU is effective for public reporting entities in fiscal years beginning after December 15, 2016. The Company adopted this ASU prospectively in fiscal 2018. The adoption of this ASU did not have any material impact to the Company's consolidated financial statements. In August 2016, the FASB issued ASU 2016-15 Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments, which provides clarification on the presentation and classification of certain cash receipts and cash payments in the statement of cash flows. The guidance will be effective for publicly reporting entities in fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted in any interim or annual period. The Company early adopted this ASU retrospectively in fiscal 2018. The adoption of this ASU did not have any material impact to the Company's consolidated financial statements. New Accounting Standards Not Adopted as of December 31, 2017

In August 2017, the FASB issued ASU 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities, which reduces the complexity of and simplifies the application of hedge accounting by preparers. The ASU will be effective for fiscal years beginning after December 15, 2018, and interim periods within those years. Early adoption is permitted. The Company is currently evaluating the impact of adopting this guidance on its consolidated financial statements.

In May 2017, the FASB issued ASU 2017-09, Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting, which clarifies when an entity will apply modification accounting for changes to stock-based compensation arrangements. Modification accounting applies if the value, vesting conditions, or classification of the awards changes. The ASU will be effective for annual periods beginning after December 15, 2017, and interim periods within those annual periods. Early adoption is permitted. The Company is currently evaluating the impact of adopting this guidance on its consolidated financial statements.

In March 2017, the FASB issued ASU 2017-07, Compensation—Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost, which requires entities to report the service cost component of the net periodic benefit cost in the same income statement line as other compensation costs arising from services rendered by employees during the reporting period. The other components of the net benefit costs will be presented in the income statement separately from the service cost and below the income from operations subtotal. The ASU will be effective for public reporting entities in fiscal years beginning after December 15, 2017, and interim periods within those years. Early adoption is permitted in the first interim period of a fiscal year. The Company is currently evaluating the impact of adopting this guidance on its consolidated financial statements.

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business, which provides additional guidance on the definition of a business to assist entities with evaluating whether transactions should be accounted for as acquisitions of assets or businesses. The ASU will be effective for public reporting entities in fiscal years beginning after December 15, 2017 and interim periods within those fiscal years. The Company is currently evaluating the impact of adopting this guidance on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02 Leases (Topic 842), which will supersede ASC 840 Leases. The new guidance requires lessees to recognize most leases on their balance sheets for the rights and obligations created by those leases. The guidance requires enhanced disclosures regarding the amount, timing and uncertainty of cash flows arising from leases and will be effective for publicly reporting entities in annual reporting periods beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted. The guidance is required to be adopted using the modified retrospective approach. The Company anticipates that most of its operating leases will result in the recognition of additional assets and corresponding liabilities on its consolidated balance sheets. The Company continues to evaluate the impact of adopting this guidance and its implication on its consolidated

financial statements.

In May 2014, the FASB issued ASU No. 2014-09 Revenue from Contracts with Customers, which will supersede nearly all existing revenue recognition guidance. The new guidance's core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. In doing so, the new guidance creates a five-step model that requires a

14

Table of Contents

company to exercise judgment when considering the terms of the contracts and all relevant facts and circumstances. The five steps require a company to identify customer contracts, identify the separate performance obligations, determine the transaction price, allocate the transaction price to the separate performance obligations and recognize revenue when each performance obligation is satisfied. On July 9, 2015, the FASB approved a one-year deferral of the effective date so that the new guidance is effective for public entities for annual and interim periods beginning after December 15, 2017. The new guidance allows for either full retrospective adoption, where the standard is applied to all periods presented, or modified retrospective adoption where the standard is applied only to the most current period presented in the financial statements. Early adoption is permitted. The Company has identified its revenue streams, reviewed the initial impacts of adopting of the new standard on those revenue streams, and appointed a governance committee and project management leader. While the Company continues to assess all potential impacts of the standard, it has preliminarily assessed that the timing of revenue recognition may change for certain contractual arrangements containing minimum volume commitments in which the price is not fixed or determinable pursuant to the terms of the agreement. Under the current standard, the related pricing adjustments are considered to be contingent, while under the new standard they will likely be accounted for as variable consideration and revenue might be recognized earlier provided that the Company can reliably estimate the amount expected to be realized. Further, the Company has preliminarily determined that, for commercial supply arrangements, revenue will be recognized at the point in time of completing the required quality assurance process. The Company expects to adopt the new standard on a modified retrospective basis.

2. BUSINESS COMBINATIONS**Transaction Overview:**

On October 23, 2017, the Company acquired 100% of the equity interest in Cook Pharmica LLC (now doing business as Catalent Indiana, LLC, "Catalent Indiana") for an aggregate nominal purchase price of \$950 million, subject to adjustment, in order to enhance the Company's biologics capabilities. Catalent Indiana is a biologics-focused contract development and manufacturing organization with capabilities across biologics development, clinical and commercial cell culture manufacturing, formulation, finished-dose manufacturing, and packaging.

The Company accounted for the transaction using the acquisition method of accounting for business combinations, in accordance with ASC 805 Business Combinations. The total consideration was (in thousands):

Cash paid at closing	\$748,002
Fair value of deferred consideration at closing	184,838
Total consideration	\$932,840

In addition to the cash paid at the closing of the acquisition, the agreement governing the purchase includes a deferred consideration arrangement that requires the Company to pay an additional \$200.0 million in \$50.0 million increments on each of the first four anniversaries of the closing. The fair value of the deferred consideration recognized on the acquisition date was estimated by calculating the risk-adjusted present value of four deferred cash payments and includes a component of imputed interest. This deferred consideration is included in current and long-term obligations within the consolidated balance sheet at December 31, 2017.

Following the acquisition, the operating results of the Catalent Indiana business have been included in the consolidated financial statements. For the period from the acquisition date through December 31, 2017, Catalent Indiana's net revenue was \$40.4 million and pre-tax earnings were \$7.9 million. Transaction costs incurred as a result of the acquisition of \$1.9 million and \$10.4 million are included in selling, general and administrative expenses for the three and six months ending December 31, 2017, respectively.

Valuation Assumptions and Preliminary Purchase Price Allocation:

The Company estimated fair values at the date of acquisition for the preliminary allocation of consideration to the net tangible and intangible assets acquired and liabilities assumed. During the measurement period, the Company will continue to obtain information to assist in finalizing the fair value of net assets acquired, which may differ materially from these preliminary estimates. If any measurement period adjustment is material, the Company will record those adjustments, including any related impact on net income, in the reporting period in which the adjustments are determined.

Table of Contents

The preliminary purchase price allocation to assets acquired and liabilities assumed in the transaction is (in thousands):

Accounts Receivable	\$37,021
Inventory	25,144
Other current assets	1,344
Property, plant and equipment	221,139
Identifiable intangible assets	330,000
Trade and other payables	5,380
Deferred revenue	18,132
Total identifiable net assets	591,136
Goodwill	341,704
Total assets acquired and liabilities assumed	\$932,840

The carrying value of trade receivables, raw materials inventory and trade payables, as well as certain other current and non-current assets and liabilities, generally represented the fair value at the date of acquisition.

Property, plant and equipment was valued using a combination of the sales comparison approach and cost approach, which is based on current replacement and/or reproduction cost of the asset as new, less depreciation attributable to physical, functional, and economic factors. The Company then determined the remaining useful life based on the anticipated life of the asset and Company policy for similar assets.

Customer relationship intangible assets of \$330 million were valued using the multi-period excess-earnings method, a method that values the intangible asset using the present value of the after-tax cash flows attributable to the intangible asset only. The significant assumptions used in developing the valuation included the estimated annual net cash flows (including application of an appropriate margin to forecasted revenue, selling and marketing costs, return on working capital, contributory asset charges and other factors), the discount rate which appropriately reflects the risk inherent in each future cash flow stream, the assessment of the asset's life cycle, as well as other factors. The assumptions used in the financial forecasts were based on historical data, supplemented by current and anticipated growth rates, management plans, and market comparable information. Fair value determinations require considerable judgment and are sensitive to changes in underlying assumptions and factors. Preliminary assumptions may change and may result in significant changes to the final valuation. The customer relationship intangible asset has a weighted average useful life of 14 years.

Goodwill has preliminarily been allocated to our Drug Delivery Solutions segment as shown in Note 3, Goodwill. Goodwill is expected to be deductible for tax purposes and is mainly comprised of the following: growth from an expected increase in capacity utilization, potential new customers and the biologic expertise and know-how acquired with the acquisition of Catalent Indiana's workforce.

Pro Forma Results:

The following table provides unaudited pro forma results for the Company, prepared in accordance with ASC 805, for the three and six months ended December 31, 2017 and December 31, 2016, as if the Company had acquired Catalent Indiana as of July 1, 2016.

	For the Three	For the Six Months
	Months Ended	Ended
	December	December
	December	December
	31,	31,
	31, 2016	31, 2017
		31, 2016

Edgar Filing: Catalent, Inc. - Form 10-Q

	2017			
	(in millions, except per share data)			
Revenue	\$621.0	\$ 531.1	\$1,216.2	\$1,016.6
Net income/(loss)	(10.5)	17.6	(1.0)	(0.6)
Basic earnings/(loss) per share	(0.08)	0.13	(0.01)	0.00
Diluted earnings/(loss) per share	(0.08)	0.13	(0.01)	0.00

The unaudited pro forma financial information was prepared based on the historical information of Catalent and Catalent Indiana. In order to reflect the acquisition on July 1, 2016, the unaudited pro forma financial information includes adjustments

Table of Contents

to reflect the incremental amortization expense to be incurred based on the fair value of the intangible assets acquired, the incremental depreciation expense related to the fair value adjustments associated with Catalent Indiana's property, plant and equipment, the additional interest expense associated with the issuance of debt to finance the acquisition, the shares issued in connection with the first quarter equity offering to finance the acquisition, and the acquisition, integration, and financing-related costs incurred during the three and six months ended December 31, 2017 and 2016. The results do not include any anticipated cost savings or other effects associated with integrating Catalent Indiana into the rest of the Company. Unaudited pro forma amounts are not necessarily indicative of results had the acquisition occurred on July 1, 2016 or of future results.

3. GOODWILL

The following table summarizes the changes between June 30, 2017 and December 31, 2017 in the carrying amount of goodwill in total and by reporting segment:

(Dollars in millions)	Softgel Technologies	Drug Delivery Solutions	Clinical Supply Services	Total
Balance at June 30, 2017	\$ 415.2	\$ 477.2	\$ 151.7	\$ 1,044.1
Additions	—	341.7	—	341.7
Divestitures	(0.9)	—	—	(0.9)
Foreign currency translation adjustments	8.9	8.3	6.2	23.4
Balance at December 31, 2017	\$ 423.2	\$ 827.2	\$ 157.9	\$ 1,408.3

The reduction in goodwill in the Softgel Technologies reporting segment relates to the sale of two manufacturing sites in the Asia Pacific region. The site divestitures were neither material individually or in aggregate to the segment or to the Company. The increase in goodwill in the Drug Delivery Solutions reporting segment relates to the Catalent Indiana acquisition. See note 2 Business Combinations. There were no impairment charges recorded in the current period.

4. DEFINITE LIVED LONG-LIVED ASSETS

The Company's definite-lived long-lived assets include property, plant and equipment as well as other intangible assets with definite lives. Refer to Note 15 Supplemental Balance Sheet Information for details related to property, plant, and equipment.

The details of other intangible assets subject to amortization as of December 31, 2017 and June 30, 2017, are as follows:

(Dollars in millions)	Weighted Average Life	Gross Carrying Value	Accumulated Amortization	Net Carrying Value
December 31, 2017				
Amortized intangibles:				
Core technology	18 years	\$ 172.7	\$ (81.2)	\$ 91.5
Customer relationships	14 years	589.3	(121.2)	468.1
Product relationships	12 years	212.0	(189.6)	22.4
Total intangible assets		\$ 974.0	\$ (392.0)	\$ 582.0

The increase in customer relationships is associated with the acquisition of Catalent Indiana in October 2017. Refer to Note 2 Business Combinations for details of the acquisition.

(Dollars in millions)	Weighted Average Life	Gross Carrying Value	Accumulated Amortization	Net Carrying Value
June 30, 2017				
Amortized intangibles:				
Core technology	18 years	\$ 170.3	\$ (74.8)	\$ 95.5
Customer relationships	14 years	253.0	(106.1)	146.9

Edgar Filing: Catalent, Inc. - Form 10-Q

Product relationships	12 years	206.9	(176.2)	30.7
Total intangible assets		\$ 630.2	\$ (357.1)	\$ 273.1

17

Table of Contents

Amortization expense was \$16.1 million and 27.5 million for the three and six months ended December 31, 2017, respectively, and \$11.1 million and \$22.1 million for the three and six months ended December 31, 2016, respectively. Future amortization expense for the next five fiscal years is estimated to be:

(Dollars in millions)	Remainder					
	Fiscal 2018	2019	2020	2021	2022	2023
Amortization expense	\$ 34.8	\$63.8	\$49.7	\$49.7	\$49.7	\$49.7

5. LONG-TERM OBLIGATIONS AND OTHER SHORT-TERM BORROWINGS

Long-term obligations and other short-term borrowings consist of the following at December 31, 2017 and June 30, 2017:

(Dollars in millions)	Maturity as of December 31, 2017	December 31, 2017	June 30, 2017
Senior Secured Credit Facilities			
Term loan facility dollar-denominated	May 2024	\$ 1,234.9	\$ 1,244.2
Term loan facility euro-denominated	May 2024	366.5	352.0
Euro-denominated 4.75% Senior Notes due 2024	December 2024	445.4	424.3
U.S. dollar-denominated 4.875% Senior Notes due 2026	January 2026	443.7	—
Deferred purchase consideration	September 2021	186.0	—
\$200 million revolving credit facility	May 2022	—	—
Capital lease obligations	2020 to 2032	62.8	53.3
Other obligations	2018 to 2019	3.1	5.9
Total		2,742.4	2,079.7
Less: Current portion of long-term obligations and other short-term borrowings		69.9	24.6
Long-term obligations, less current portion		\$ 2,672.5	\$ 2,055.1

Senior Secured Credit Facilities and Third Amendment

On October 18, 2017, Operating Company completed Amendment No. 3 (the "Third Amendment") to its Amended and Restated Credit Agreement, dated as of May 20, 2014 (as subsequently amended, the "Credit Agreement"), governing the senior secured credit facilities that provide U.S. dollar denominated term loans, euro-denominated term loans and a revolving credit facility. The Third Amendment lowered the interest rate on U.S. dollar-denominated and euro-denominated term loans and the revolving credit facility and extended the maturity dates on the senior secured credit facilities by three years. The new applicable rate for U.S. dollar-denominated term loans is LIBOR (the London Interbank Offered Rate, subject to a floor of 1.00%) plus 2.25%, which is 0.50% lower than the previous rate, and the new applicable rate for euro-denominated term loans is LIBOR (subject to a floor of 1.00%) plus 1.75%, which is 0.75% lower than the previous rate. The new applicable rate for the revolving loans is initially LIBOR plus 2.25%, which is 1.25% lower than the previous rate, and such rate can additionally be reduced to LIBOR plus 2.00% in future periods based on a measure of Operating Company's total leverage ratio. The term loans and revolving loans will now mature in May 2024 and May 2022, respectively. The Third Amendment also includes a prepayment of 1.0% in the event of another repricing event on or before the six-month anniversary of the Third Amendment.

Euro-denominated 4.75% Senior Notes due 2024

On December 9, 2016, Operating Company, completed a private offering of €380.0 million aggregate principal amount of 4.75% Senior Notes due 2024 (the "Euro Notes"). The Euro Notes are fully and unconditionally guaranteed, jointly and severally, by all of the wholly owned U.S. subsidiaries of Operating Company that guarantee its senior secured credit facilities. The Euro Notes were offered in the United States to qualified institutional buyers in reliance on Rule 144A under the Securities Act and outside the United States only to non-U.S. investors pursuant to Regulation S under the Securities Act. The Euro Notes will mature on December 15, 2024, bear interest at the rate of 4.75% per annum

and are payable semi-annually in arrears on June 15 and December 15 of each year.

18

Table of Contents

U.S. Dollar-denominated 4.875% Senior Notes due 2026

On October 18, 2017, Operating Company completed a private offering (the "Debt Offering") of \$450.0 million aggregate principal amount of 4.875% senior unsecured notes due 2026 (the "USD Notes"). The USD Notes are fully and unconditionally guaranteed, jointly and severally, by all of the wholly owned U.S. subsidiaries of Operating Company that guarantee its senior secured credit facilities. The USD Notes were offered in the United States to qualified institutional buyers in reliance on Rule 144A under the Securities Act and outside the United States only to non-U.S. investors pursuant to Regulation S under the Securities Act. The USD Notes will mature on January 15, 2026, bear interest at the rate of 4.875% per annum, and are payable semi-annually in arrears on January 15 and July 15 of each year, beginning on July 15, 2018. The net proceeds of the Debt Offering, after payment of the initial purchasers' discount and related fees and expenses, were used to fund a portion of the consideration for the Catalent Indiana acquisition due at its closing.

Deferred Purchase Consideration

In connection with the acquisition of Catalent Indiana in October 2017, \$200 million of the \$950 million aggregate nominal purchase price is payable in \$50 million installments, on each of the first four anniversaries of the closing date. The deferred purchase consideration is recorded at fair value and includes a component of imputed interest.

Bridge Loan Facility

On September 18, 2017, contemporaneous with the Company entering into the agreement to acquire Catalent Indiana, Operating Company entered into a debt commitment letter with Morgan Stanley Senior Funding, Inc., JP Morgan Chase Bank, N.A., Royal Bank of Canada, RBC Capital Markets, Bank of America, N.A. and Merrill Lynch, Pierce, Fenner & Smith Incorporated, as commitment parties. Pursuant to the debt commitment letter and subject to its terms and conditions, the commitment parties agreed to provide a senior unsecured bridge loan facility (the "Bridge Facility") of up to \$700.0 million in the aggregate for the purpose of providing any back-up financing necessary to fund a portion of the consideration to be paid in the acquisition and related fees, costs and expenses (the "Bridge Loan Commitment"). In connection with entering into the Bridge Facility, Operating Company incurred \$6.1 million of associated fees, which was recorded in prepaid expenses and other in the consolidated balance sheet as of September 30, 2017. Operating Company did not draw on it to fund the acquisition and the Company expensed the \$6.1 million in the second quarter as part of other income and expense and the facility was closed. See Note 7 for further discussion of financing costs incurred in the second quarter.

Debt Covenants

Senior Secured Credit Facilities

The Credit Agreement contains a number of covenants that, among other things, restrict, subject to certain exceptions, Operating Company's (and Operating Company's restricted subsidiaries') ability to incur additional indebtedness or issue certain preferred shares; create liens on assets; engage in mergers and consolidations; sell assets; pay dividends and distributions or repurchase capital stock; repay subordinated indebtedness; engage in certain transactions with affiliates; make investments, loans or advances; make certain acquisitions; enter into sale and leaseback transactions; amend material agreements governing Operating Company's subordinated indebtedness; and change Operating Company's lines of business.

The Credit Agreement also contains change of control provisions and certain customary affirmative covenants and events of default. The revolving credit facility requires compliance with a net leverage covenant when there is a 30% or more draw outstanding at a period end. As of December 31, 2017, Operating Company was in compliance with all material covenants related to its long-term obligations.

Subject to certain exceptions, the Credit Agreement permits Operating Company and its restricted subsidiaries to incur certain additional indebtedness, including secured indebtedness. None of Operating Company's non-U.S. subsidiaries or Puerto Rico subsidiaries is a guarantor of the loans.

Under the Credit Agreement, Operating Company's ability to engage in certain activities such as incurring certain additional indebtedness, making certain investments and paying certain dividends is tied to ratios based on Adjusted EBITDA (which is defined as "Consolidated EBITDA" in the Credit Agreement). Adjusted EBITDA is based on the

definitions in the Credit Agreement, is not defined under U.S. GAAP, and is subject to important limitations.

The Euro Notes and the USD Notes

The Indentures governing the Euro Notes and the USD Notes (the "Indentures") contain certain covenants that, among other things, limit the ability of Operating Company and its restricted subsidiaries to incur or guarantee more debt or issue certain preferred shares, pay dividends on, repurchase or make distributions in respect of their capital stock or make other

Table of Contents

restricted payments, make certain investments, sell certain assets, create liens, consolidate, merge, sell or otherwise dispose of all or substantially all of their assets, enter into certain transactions with their affiliates, and designate their subsidiaries as unrestricted subsidiaries. These covenants are subject to a number of exceptions, limitations and qualifications as set forth in the Indentures. The Indentures also contain customary events of default including, but not limited to, nonpayment, breach of covenants, and payment or acceleration defaults in certain other indebtedness of Operating Company or certain of its subsidiaries. Upon an event of default, either the holders of at least 30% in principal amount of each of the then-outstanding Euro Notes or the then-outstanding USD Notes, or either of the Trustees under the Indentures, may declare the applicable notes immediately due and payable, or in certain circumstances, the applicable notes will become automatically immediately due and payable. As of December 31, 2017, Operating Company was in compliance with all material covenants under the Indentures.

Fair Value of Debt Instruments

The estimated fair value of the senior secured credit facility, a Level 2 fair value estimate, is based on the quoted market prices for the same or similar issues or on the current rates offered for debt of the same remaining maturities and considers collateral, if any. The estimated fair value of the Euro and USD Notes, a Level 1 fair value estimate, is based on the quoted market prices of the instruments. The carrying amounts and the estimated fair values of financial instruments as of December 31, 2017 and June 30, 2017 are as follows:

(Dollars in millions)	Fair Value Measurement	December 31, 2017		June 30, 2017	
		Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Euro-denominated 4.75% Senior Notes	Level 1	\$445.4	\$ 474.4	\$424.3	\$ 454.0
U.S. Dollar-denominated 4.875% Senior Notes	Level 1	443.7	449.8	—	—
Senior Secured Credit Facilities & Other	Level 2	1,853.3	1,825.1	1,655.4	1,653.1
Total		\$2,742.4	\$ 2,749.3	\$2,079.7	\$ 2,107.1

6. EARNINGS PER SHARE

The reconciliations between basic and diluted earnings per share attributable to Catalent common shareholders for the three and six months ended December 31, 2017 and 2016, respectively, are as follows (in millions, except share and per share data):

	Three Months Ended		Six Months Ended	
	December 31,		December 31,	
	2017	2016	2017	2016
Net earnings/(loss)	\$(21.9)	\$ 17.4	\$(18.1)	\$ 22.0
Weighted average shares outstanding	132,983,103	132,889,681	129,327,188	129,870,327
Dilutive securities issuable-stock plans	—	1,524,963	—	1,470,476
Total weighted average diluted shares outstanding	132,983,103	134,414,644	129,327,188	131,340,803
Basic earnings per share of common stock:				
Net earnings/(loss)	\$(0.16)	\$ 0.14	\$(0.14)	\$ 0.18
Diluted earnings per share of common stock:				
Net earnings/(loss)	\$(0.16)	\$ 0.14	\$(0.14)	\$ 0.17

The computation of diluted earnings per share for the three and six months ended December 31, 2017 excludes the maximum effect of the potential common shares issuable under the employee stock option plan of approximately 2.6 million shares, and excludes restricted share awards of 2.1 million shares, because the Company had a net loss for the period and the effect would therefore be anti-dilutive. The computation of diluted earnings per share for the three and

six months ended December 31, 2016 excludes the effect of 0.5 million shares potentially issuable pursuant to awards granted under the 2007 Stock Incentive Plan, because the vesting provisions of those awards specify performance- or market-based conditions that had not been met as of the period end. The computation of diluted earnings per share for the three and six months ended December 31, 2016 excludes the effect of potential common shares issuable under employee-held stock options and restricted stock units of approximately 0.9 million and 1.1 million shares, respectively, because they are anti-dilutive.

Table of Contents**7. OTHER (INCOME)/EXPENSE, NET**

The components of other (income)/expense, net for the three and six months ended December 31, 2017 and 2016 are as follows:

	Three Months Ended December 31, 2017		Six Months Ended December 31, 2016	
(Dollars in millions)				
Other (income)/expense, net				
Debt refinancing costs ⁽¹⁾	\$11.8	\$4.3	\$11.8	\$4.3
Foreign currency (gains) and losses	1.3	(5.3)	6.9	(7.5)
Other	0.5	(0.8)	0.6	(0.7)
Total other (income)/expense, net	\$13.6	\$(1.8)	\$19.3	\$(3.9)

(1) The 2017 debt refinancing costs include financing charges related to the offering of the USD Notes and the Third Amendment and also include a \$6.1 million charge for commitment fees paid during the first quarter of fiscal 2018 on the Bridge Facility. The 2016 debt refinancing costs include financing charges of \$4.3 million related to the December 2016 offering of the Euro Notes and repricing and partial paydown of the Company's term loans.

8. RESTRUCTURING AND OTHER COSTS**Restructuring Costs**

The Company has implemented plans to restructure certain operations, both domestically and internationally. The restructuring plans focused on various aspects of operations, including closing and consolidating certain manufacturing operations, rationalizing headcount and aligning operations in a strategic and more cost-efficient structure. In addition, the Company may incur restructuring charges in the future in cases where a material change in the scope of operation with its business occurs. Employee-related costs consist primarily of severance costs and also include outplacement services provided to employees who have been involuntarily terminated and duplicate payroll costs during transition periods. Facility exit and other costs consist of accelerated depreciation, equipment relocation costs and costs associated with planned facility expansions and closures to streamline Company operations.

Other Costs / (Income)

Other income includes settlement charges, net of any insurance recoveries related to the probable resolution of certain customer claims related to a previous temporary suspension of operations at a softgel manufacturing facility. Refer to Note 13 Commitments and Contingencies for further discussions of such claims.

The following table summarizes the significant costs recorded within restructuring costs:

	Three Months Ended December 31, 2017		Six Months Ended December 31, 2016	
(Dollars in millions)				
Restructuring costs:				
Employee-related reorganization	\$1.6	\$(0.1)	\$3.3	\$0.7
Facility exit and other costs	(0.7)	0.2	(0.2)	0.5
Total restructuring costs	\$0.9	\$0.1	\$3.1	\$1.2
Other - customer claims net of insurance recoveries	(0.8)	3.2	(1.8)	3.2
Total restructuring and other costs	\$0.1	\$3.3	\$1.3	\$4.4

9. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company is exposed to fluctuations in the applicable exchange rate on its investments in foreign operations. While the Company does not actively hedge against changes in foreign currency, the Company has mitigated its

exposure from its investments in its European operations by denominating a portion of its debt in euros. At December 31, 2017, the Company had euro-denominated debt outstanding of \$811.9 million that is designated and qualifies as a hedge of a net investment in foreign operations. For non-derivatives designated and qualifying as net investment hedges, the effective portions of the translation gains or losses are reported in accumulated other comprehensive income/(loss) as part of the cumulative translation adjustment. The ineffective portions of the translation gains or losses are reported in the statement of operations. The following table includes net investment hedge activity during the three and six months ended December 31, 2017 and December 31, 2016.

Table of Contents

	Three Months Ended December 31, 2017		Six Months Ended December 31, 2016	
(Dollars in millions)	2017	2016	2017	2016
Unrealized foreign exchange gain/(loss) within other comprehensive income	\$(3.9)	\$13.6	\$(21.5)	\$10.0
Unrealized foreign exchange gain/(loss) within statement of operations	\$(2.8)	\$10.2	\$(16.2)	\$7.6

The net accumulated gain of the instrument designated as the hedge as of December 31, 2017 within other comprehensive income/(loss) was approximately \$38.5 million. Amounts are reclassified out of accumulated other comprehensive income/(loss) into earnings when the entity to which the gains and losses relate is either sold or substantially liquidated.

10. INCOME TAXES**U.S. Tax Reform**

On December 22, 2017, the U.S. government enacted wide-ranging tax legislation, the Tax Cuts and Jobs Act (the "2017 Tax Act"). The 2017 Tax Act significantly revises U.S. tax law by, among other provisions, (a) lowering the applicable U.S. federal statutory income tax rate from 35% to 21%, (b) creating a partial territorial tax system that includes imposing a mandatory one-time transition tax on previously deferred foreign earnings, (c) creating provisions regarding the (1) Global Intangible Low Tax Income ("GILTI"), (2) the Foreign Derived Intangible Income ("FDII") deduction, and (3) the Base Erosion Anti-Abuse Tax ("BEAT"), and (d) eliminating or reducing certain income tax deductions, such as interest expense, executive compensation expenses and certain employee expenses.

ASC 740 Income Taxes requires the effects of changes in tax laws to be recognized in the period in which the legislation is enacted. However, due to the complexity and significance of the 2017 Tax Act's provisions, the SEC staff issued Staff Accounting Bulletin No. 118 ("SAB 118"), which allows companies to record the tax effects of the 2017 Tax Act on a provisional basis based on a reasonable estimate and then, if necessary, subsequently adjust such amounts during a limited measurement period as more information becomes available. The measurement period ends when a company has obtained, prepared, and analyzed the information necessary to finalize its accounting, but cannot extend beyond one year from enactment. As a result of the 2017 Tax Act, the Company revised its estimated annual effective rate to reflect the change in the U.S. federal statutory rate. The revised blended U.S. federal statutory tax rate for the fiscal year is 28%.

Measurement of certain income tax effects that can be reasonably estimated (provisional amounts)

During the second quarter ended December 31, 2017, the Company recorded a one-time net charge of \$46.0 million within its income tax provision as a provisional estimate of the net accounting impact of the 2017 Tax Act in accordance with SAB 118. The net charge is comprised of the following: (i) expense of \$48.7 million related to the mandatory transition tax for deemed repatriation of deferred foreign income, \$8.7 million of which the Company expects to pay over an 8-year period after considering the use of certain net operating losses and foreign tax credits, and certain limitations on executive compensation; (ii) an additional \$9.5 million charge relating to the impact of provisional changes in the Company's intentions with respect to future repatriation of undistributed earnings from non-U.S. subsidiaries and (iii) a benefit of \$12.2 million related to a revaluation of the Company's deferred tax assets and liabilities. The one-time net charge, which was recorded on a provisional basis, increased the Company's effective tax rate by 164% and 154% during the three-month and six-month periods ended December 31, 2017, respectively.

Given the significant complexity of the 2017 Tax Act, anticipated guidance from the U.S. Treasury concerning implementation of the 2017 Tax Act, and the potential for additional guidance from the SEC or the FASB related to the 2017 Tax Act, the provisional estimates that the Company recorded may require adjustment during the measurement period. The provisional estimates were based on the Company's present understanding of the 2017 Tax Act and other information available as of the time of the estimates, including assumptions and expectations about future events, such as its projected financial performance, and are subject to further refinement as additional information becomes available (including the Company's actual full fiscal 2018 results of operations, as well as potential new or interpretative guidance issued by the SEC, the FASB, or the Internal Revenue Service) and the Company continues its analysis. The Company continues to analyze the changes to certain income tax deductions, assess calculations of earnings and profits in certain foreign subsidiaries, including whether those earnings are held in cash or other assets, and gather additional data to compute the full impact of the 2017 Tax Act on the Company's deferred and current tax assets and liabilities.

Table of Contents

Measurement of certain income tax effects that cannot be reasonably estimated

Because of the complexity of the new GILTI tax rules, the Company continues to evaluate this provision of the 2017 Tax Act and the application of ASC 740. In accordance with ASC 740, the Company will make an accounting policy election of either (1) treating taxes due on future U.S. inclusions in taxable income related to GILTI as a current-period expense when incurred (the “period cost method”) or (2) factoring such amounts into the Company's measurement of its deferred taxes (the “deferred method”). The Company's selection of an accounting policy with respect to the new GILTI tax rules will depend, in part, on analyzing its global income to determine whether it expects to have future U.S. inclusions in taxable income related to GILTI and, if so, what the impact is expected to be. Whether the Company expects to have future U.S. inclusions in taxable income related to GILTI depends on not only the Company's current structure and estimated future results of global operations, but also its intent and ability to modify its structure. Therefore, the Company has not made any adjustment related to potential GILTI tax in its financial statements and has not made a policy decision regarding whether to record deferred tax on GILTI.

Additionally, the Company continues to evaluate the potential impact of all other provisions, including but not limited to provisions regarding the FDII, BEAT, interest expense and certain employee expense deductions, as well as the state tax impact of the 2017 Tax Act. The Company is currently in the process of analyzing its structure and estimated future results and, as a result, is not yet able to reasonably estimate the effect of these provisions of the 2017 Tax Act.

Other Tax Matters

The Company accounts for income taxes in accordance with ASC 740. Generally, fluctuations in the effective tax rate are primarily due to changes in U.S. and non-U.S. pretax income resulting from the Company's business mix and changes in the tax impact of special items and other discrete tax items, which may have unique tax implications depending on the nature of the item. Such discrete items include, but are not limited to, changes in foreign statutory tax rates, the amortization of certain assets, and the tax impact of changes in its ASC 740 unrecognized tax benefit reserves. In the normal course of business, the Company is subject to examination by taxing authorities around the world, including such major jurisdictions as the United States, Germany, France, and the United Kingdom. The Company is no longer subject to new non-U.S. income tax examinations for years prior to fiscal year 2008. Under the terms of the 2007 purchase agreement by which the selling stockholders acquired their interest in the Company, the Company is indemnified by its former owner for tax liabilities that may arise after the 2007 purchase that relate to tax periods prior to April 10, 2007. The indemnification agreement applies to, among other taxes, any and all federal, state and international income-based taxes as well as related interest and penalties. As of December 31, 2017 and June 30, 2017, approximately \$0.7 million and \$0.8 million, respectively, of unrecognized tax benefit are subject to indemnification by the Company's former owner.

ASC 740 includes guidance on the accounting for uncertainty in income taxes recognized in the financial statements. This standard provides that a tax benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained upon examination, including resolution of any related appeal or litigation process, based on the technical merits. As of December 31, 2017, the Company had a total of \$52.5 million of unrecognized tax benefits. A reconciliation of its reserves for uncertain tax positions, excluding accrued interest and penalties, for December 31, 2017 is as follows:

(Dollars in millions)

Balance at June 30, 2017	\$52.5
Additions for tax positions of current year	—
Balance at December 31, 2017	\$52.5

As of December 31, 2017 and June 30, 2017, the Company had a total of \$57.5 million and \$57.5 million, respectively, of uncertain tax positions (including accrued interest and penalties). As of these dates, \$41.4 million and \$41.4 million, respectively, represent the amount of unrecognized tax benefits, which, if recognized, would favorably

affect the effective income tax rate. The Company recognizes interest and penalties related to uncertain tax positions as a component of income tax expense. As of December 31, 2017 and June 30, 2017, the Company has approximately \$5.0 million and \$5.0 million, respectively, of accrued interest and penalties related to uncertain tax positions. As of these dates, the portion of such interest and penalties subject to indemnification by its former owner is \$1.5 million and \$1.7 million, respectively.

Table of Contents

11. EMPLOYEE RETIREMENT BENEFIT PLANS

Components of the Company's net periodic benefit costs are as follows:

	Three Months Ended December 31,		Six Months Ended December 31,	
(Dollars in millions)	2017	2016	2017	2016
Components of net periodic benefit cost:				
Service cost	\$0.9	\$0.8	\$1.8	\$1.6
Interest cost	1.8	1.6	3.6	3.3
Expected return on plan assets	(2.9)	(2.6)	(5.8)	(5.4)
Amortization ⁽¹⁾	0.6	1.0	1.2	2.1
Net amount recognized	\$0.4	\$0.8	\$0.8	\$1.6

(1) Amount represents the amortization of unrecognized actuarial gains/(losses).

As previously disclosed, the Company notified the trustees of a multi-employer pension plan of its withdrawal from participation in such plan in fiscal 2012. The actuarial review process administered by the plan trustees ended in fiscal 2015. The liability reported reflects the present value of the Company's expected future long-term obligations. The estimated discounted value of the projected contributions related to such plans was \$39.1 million as of December 31, 2017 and June 30, 2017 and is included within pension liability on the consolidated balance sheets. The annual cash impact associated with the Company's obligation in such plan approximates \$1.7 million per year.

12. EQUITY AND ACCUMULATED OTHER COMPREHENSIVE INCOME/(LOSS)

Description of Capital Stock

The Company is authorized to issue 1,000,000,000 shares of common stock, par value \$0.01 per share, and 100,000,000 shares of preferred stock, par value \$0.01 per share. In accordance with the Company's amended and restated certificate of incorporation, each share of common stock has one vote, and the common stock votes together as a single class.

Public Stock Offering

On September 29, 2017, the Company completed a public offering of its common stock (the "Equity Offering"), pursuant to which the Company sold 7.4 million shares, including shares sold pursuant to an exercise of the underwriters' over-allotment option, at a price of \$39.10 per share, before underwriting discounts and commissions. Net of these discounts and commissions and other offering expenses, the Company obtained total proceeds from the Equity Offering, including the over-allotment exercise, of \$277.8 million. The net proceeds of the Equity Offering, after payment of the discount and related fees and expenses, were used to fund a portion of the consideration for the Catalent Indiana acquisition due at its closing.

Outstanding Stock

Shares outstanding include shares of unvested restricted stock. Unvested restricted stock included in reportable shares outstanding was 0.3 million shares as of December 31, 2017. Shares of unvested restricted stock are excluded from our calculation of basic weighted average shares outstanding, but their dilutive impact is added back in the calculation of diluted weighted average shares outstanding.

Stock Repurchase Program

On October 29, 2015, the Company's Board of Directors authorized a share repurchase program to use up to \$100.0 million to repurchase shares of its outstanding common stock. Under the program, the Company is authorized to repurchase shares through open market purchases, privately negotiated transactions, or otherwise as permitted by applicable federal securities laws. There has been no purchase pursuant to this program as of December 31, 2017.

Table of Contents

Accumulated Other Comprehensive Income/(Loss)

The components of the changes in the cumulative translation adjustment, minimum pension liability and available for sale investment for the three and six months ended December 31, 2017 and December 31, 2016 are presented below.

(Dollars in millions)	Three Months		Six Months	
	Ended		Ended	
	December 31,		December 31,	
	2017	2016	2017	2016

Balance at December 31, 2017	\$ (256.0)	\$ (43.0)	\$ 4.1	\$(294.9)

Table of Contents

For the six months ended December 31, 2017, the changes in accumulated other comprehensive income, net of tax by component are as follows:

(Dollars in millions)	Foreign Exchange Translation Adjustments	Pension and Liability Adjustments	Available for Sale investment Adjustments	Total
Balance at June 30, 2017	\$ (280.7)	\$ (43.9)	\$ 10.5	\$(314.1)
Other comprehensive income/(loss) before reclassifications	24.7	—	(6.4)	18.3
Amounts reclassified from accumulated other comprehensive income	—	0.9	—	0.9
Net current period other comprehensive income (loss)	24.7	0.9	(6.4)	19.2
Balance at December 31, 2017	\$ (256.0)	\$ (43.0)	\$ 4.1	\$(294.9)

13. COMMITMENTS AND CONTINGENCIES

The Company continues to receive and resolve claims stemming from a prior, temporary, regulatory suspension of one of our manufacturing facilities. To date, more than 30 customers of the facility have presented claims against the Company for alleged losses, including lost profits and other types of indirect or consequential damages that they have allegedly suffered due to the temporary suspension, or have reserved their right to do so subsequently. The Company is unable to estimate at this time either the total value of claims that are reasonably possible to be asserted with respect to this matter or the likely cost to resolve them, although (a) as of the end of December 31, 2017, the Company has settled 18 customer claims and (b) certain remaining customers have presented the Company with support for other claims having an aggregate claim value of approximately \$4.0 million. To date, none of the asserted claims takes into account limitations of liability in the contracts governing these claims or any other defense that the Company may assert. In addition, the Company may have insurance for additional costs it may incur as a result of such claims, subject to various deductibles and other limitations, but there can be no assurance as to the aggregate amount or timing of insurance recoveries against any such costs.

From time to time, the Company may be involved in legal proceedings arising in the ordinary course of business, including, without limitation, inquiries and claims concerning environmental contamination as well as litigation and allegations in connection with acquisitions, product liability, manufacturing or packaging defects and claims for reimbursement for the cost of lost or damaged active pharmaceutical ingredients, the cost of any of which could be significant. The Company intends to vigorously defend itself against any such litigation and does not currently believe that the outcome of any such litigation will have a material adverse effect on the Company's financial statements. In addition, the healthcare industry is highly regulated and government agencies continue to scrutinize certain practices affecting government programs and otherwise.

From time to time, the Company receives subpoenas or requests for information relating to the business practices and activities of customers or suppliers from various governmental agencies or private parties, including from state attorneys general, the U.S. Department of Justice, and private parties engaged in patent infringement, antitrust, tort, and other litigation. The Company generally responds to such subpoenas and requests in a timely and thorough manner, which responses sometimes require considerable time and effort and can result in considerable costs being incurred. The Company expects to incur costs in future periods in connection with future requests.

14. SEGMENT INFORMATION

The Company conducts its business within the following operating segments: Softgel Technologies, Drug Delivery Solutions, and Clinical Supply Services. The Company evaluates the performance of its segments based on segment earnings before noncontrolling interest, other (income) expense, impairments, restructuring costs, interest expense, income tax (benefit)/expense, and depreciation and amortization ("Segment EBITDA"). EBITDA from continuing operations is consolidated earnings from continuing operations before interest expense, income tax (benefit)/expense, depreciation and amortization and is adjusted for the income or loss attributable to noncontrolling interest. Segment EBITDA and EBITDA from continuing operations are not defined in GAAP and may not be comparable to similarly

titled measures used by other companies.

26

Table of Contents

The following tables include net revenue and Segment EBITDA during the three and six months ended December 31, 2017 and December 31, 2016:

(Dollars in millions)	Three Months Ended		Six Months Ended	
	December 31, 2017	December 31, 2016	December 31, 2017	December 31, 2016
Softgel Technologies				
Net revenue	\$228.1	\$201.9	\$447.8	\$388.3
Segment EBITDA	50.1	43.4	85.2	73.9
Drug Delivery Solutions

Segment EBITDA	81.1	50.0	128.5	92.0
Clinical Supply Services				
Net revenue	108.7	77.0	218.4	152.0
Segment EBITDA	19.0	11.6	35.7	22.1
Inter-segment revenue elimination	(15.9)	(9.2)	(27.2)	(19.7)
Unallocated Costs ⁽¹⁾	(48.2)	(19.8)	(82.2)	(40.1)
Combined Totals:				
Net revenue	\$606.3	\$483.7	\$1,150.2	\$925.9
EBITDA from continuing operations	\$102.0	\$85.2	\$167.2	\$147.9

(1) Unallocated costs include restructuring and special items, equity-based compensation, impairment charges, certain other corporate directed costs, and other costs that are not allocated to the segments as follows:

(Dollars in millions)	Three Months Ended		Six Months Ended	
	December 31, 2017	December 31, 2016	December 31, 2017	December 31, 2016
Impairment charges and gain/(loss) on sale of assets	\$(4.2)	\$(0.5)	\$(4.2)	\$(0.5)
Equity compensation	(8.5)	(4.9)	(15.5)	(11.8)
Restructuring and other special items ⁽²⁾	(11.9)	(7.2)	(24.2)	(13.1)
Other income/(expense), net ⁽³⁾	(13.6)	1.8	(19.3)	3.9
Non-allocated corporate costs, net	(10.0)	(9.0)	(19.0)	(18.6)
Total unallocated costs	\$(48.2)	\$(19.8)	\$(82.2)	\$(40.1)

(2) Segment results do not include restructuring and certain acquisition-related costs.

(3) Refer to Note 7 for details of financing charges and foreign currency translation adjustments recorded within other income/(expense), net.

Provided below is a reconciliation of EBITDA from continuing operations to earnings/(loss) from continuing operations:

(Dollars in millions)	Three Months Ended		Six Months Ended	
	December 31, 2017	December 31, 2016	December 31, 2017	December 31, 2016
Earnings/(loss) from continuing operations	\$(21.9)	\$17.4	\$(18.1)	\$22.0
Depreciation and amortization	46.8	35.5	85.8	71.3
Interest expense, net	27.2	22.8	51.5	44.9
Income tax expense/(benefit)	49.9	9.5	48.0	9.7
EBITDA from continuing operations	\$102.0	\$85.2	\$167.2	\$147.9

Table of Contents

The following table includes total assets for each segment, as well as reconciling items necessary to total the amounts reported in the consolidated financial statements:

(Dollars in millions)	December 31, 2017	June 30, 2017
Assets		
Softgel Technologies	\$1,538.4	\$1,631.8
Drug Delivery Solutions	2,650.5	1,639.0
Clinical Supply Services	620.3	596.2
Corporate and eliminations	(422.1)	(412.7)
Total assets	\$4,387.1	\$3,454.3

15. SUPPLEMENTAL BALANCE SHEET INFORMATION

Supplementary balance sheet information at December 31, 2017 and June 30, 2017 is detailed in the following tables.
Inventories

Work-in-process and finished goods inventories include raw materials, labor, and overhead. Total inventories consist of the following:

(Dollars in millions)	December 31, 2017	June 30, 2017
Raw materials and supplies	\$ 134.3	\$107.5
Work-in-process	29.3	42.8
Finished goods	69.9	56.7
Total inventories, gross	233.5	207.0
Inventory cost adjustment	(20.8)	(22.1)
Inventories	\$ 212.7	\$184.9

Prepaid expenses and other

Prepaid expenses and other current assets consist of the following:

(Dollars in millions)	December 31, 2017	June 30, 2017
Prepaid expenses	\$ 19.0	\$12.3
Spare parts supplies	11.4	11.8
Prepaid income tax	10.5	11.5
Non-US value added tax	19.9	16.0
Available for sale investment	9.8	18.6
Other current assets	34.8	27.6
Prepaid expenses and other	\$ 105.4	\$97.8

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company

We are the leading global provider of advanced delivery technologies and development solutions for drugs, biologics and consumer and animal health products. Our oral, injectable, and respiratory delivery technologies provide delivery solutions across the full diversity of the pharmaceutical industry, including small molecules, biologics, and consumer and animal health products. Through our extensive capabilities and deep expertise in product development, we help our customers take products to market faster, including nearly half of new drug products approved by the FDA in the last decade. Our advanced delivery technology platforms, which include those in our Softgel Technologies and our Drug Delivery Solutions segments, our proven formulation, manufacturing and regulatory expertise and our broad and deep intellectual property enable our customers and their patients' needs to develop more products and better treatments for patients and consumers. Across both development and delivery, our commitment to reliably supply our customers' needs is the foundation for the value we provide; annually, we produce approximately 72 billion doses for nearly 7,000 customer products or approximately one in every twenty doses of such products taken each year by patients and consumers around the world. We believe that through our investments in growth-enabling capacity and capabilities, our ongoing focus on operational and quality excellence, the sales of existing customer products, the introduction of new customer products, our innovation activities and patents, and our entry into new markets, we will continue to benefit from attractive and differentiated margins, and realize the growth potential from these areas.

Critical Accounting Policies and Estimates

We prepare our financial statements in accordance with GAAP. These standards require management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Such estimates include, but are not limited to, allowance for doubtful accounts, inventory and long-lived asset valuation, goodwill and other intangible asset impairment, income taxes, derivative financial instruments, self-insurance accruals, loss contingencies and restructuring charge reserves. Actual amounts may differ from these estimated amounts.

There was no material change to our critical accounting policies or in the underlying accounting assumptions and estimates from those described in our fiscal year 2017 Annual Report on Form 10-K, other than recently adopted accounting principles as disclosed in Note 1 to the unaudited consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q, which adoption had no material impact on net earnings.

Non-GAAP Performance Metrics

Use of EBITDA from continuing operations

Management measures operating performance based on consolidated earnings from continuing operations before interest expense, expense/(benefit) for income taxes and depreciation and amortization ("EBITDA from continuing operations"). EBITDA from continuing operations is not defined under GAAP and is not a measure of operating income, operating performance or liquidity presented in accordance with GAAP and is subject to important limitations.

We believe that the presentation of EBITDA from continuing operations enhances an investor's understanding of our financial performance. We believe this measure is a useful financial metric to assess our operating performance from period to period by excluding certain items that we believe are not representative of our core business and use this measure for business planning purposes. In addition, given the significant investments that we have made in the past in property, plant and equipment, depreciation and amortization expenses represent a meaningful portion of our cost structure. We believe that EBITDA from continuing operations will provide investors with a useful tool for assessing the comparability between periods of our ability to generate cash from operations sufficient to pay taxes, to service debt and to undertake capital expenditures because it eliminates depreciation and amortization expense. We present EBITDA from continuing operations in order to provide supplemental information that we consider relevant for the

readers of our consolidated financial statements, and such information is not meant to replace or supersede GAAP measures. Our definition of EBITDA from continuing operations may not be the same as similarly titled measures used by other companies. The most directly comparable GAAP measure to EBITDA from continuing operations is earnings/(loss) from continuing operations. Included in this report is a reconciliation of earnings/(loss) from continuing operations to EBITDA from continuing operations.

In addition, we evaluate the performance of our segments based on segment earnings before noncontrolling interest, other (income)/expense, impairments, restructuring costs, interest expense, income tax expense/(benefit), and depreciation and amortization (“Segment EBITDA”).

Table of Contents

Use of Constant Currency

As exchange rates are an important factor in understanding period-to-period comparisons, we believe the presentation of results on a constant currency basis in addition to reported results helps improve investors' ability to understand our operating results and evaluate our performance in comparison to prior periods. Constant currency information compares results between periods as if exchange rates had remained constant period-over-period. We use results on a constant currency basis as one measure to evaluate our performance. In this Quarterly Report on Form 10-Q, we compute constant currency by calculating current-year results using prior-year foreign currency exchange rates. We generally refer to such amounts calculated on a constant currency basis as excluding the impact of foreign exchange. These results should be considered in addition to, not as a substitute for, results reported in accordance with GAAP. Results on a constant currency basis, as we present them, may not be comparable to similarly titled measures used by other companies and are not measures of performance presented in accordance with GAAP.

Other Non-GAAP Measures

Organic revenue growth and segment EBITDA growth are useful measures calculated by the Company to explain the underlying results and trends in the business. Organic revenue growth and segment EBITDA growth are measures used to show current year sales and earnings from existing operations and include joint ventures and revenue from product participation related activities entered into within the year. Organic revenue growth and segment EBITDA growth exclude the impact of foreign currency, acquisitions of operating or legal entities and divestitures within the year. These measures should be considered in addition to, not as a substitute for, performance measures reported in accordance with GAAP. These measures, as we present them, may not be comparable to similarly titled measures used by other companies and are not measures of performance presented in accordance with GAAP.

Three Months Ended December 31, 2017 Compared to the Three Months Ended December 31, 2016

Results for three months ended December 31, 2017 compared to three months ended December 31, 2016 were as follows:

(Dollars in millions)	Three Months Ended		FX impact	Constant Currency Increase/(Decrease)	
	December 31, 2017	December 31, 2016		Change \$	Change %
Net revenue	\$606.3	\$483.7	\$ 17.0	\$ 105.6	22 %
Cost of sales	418.9	335.8	12.7	70.4	21 %

*Percentage not meaningful

Net Revenue

Net revenue increased \$105.6 million, or 22%, compared to the three months ended December 31, 2016, excluding the impact of foreign exchange. Net revenue increased 14% as a result of acquisitions. We acquired Cook Pharmica LLC (now doing business as Catalent Indiana, LLC, "Catalent Indiana") in October 2017, which is included within our Drug Delivery Solutions segment and Accucaps Industries Limited ("Accucaps") in February 2017, which is in our Softgel Technologies segment. Excluding the impact of acquisitions, net revenue increased by 8%, primarily due to increased volume in lower-margin comparator sourcing volume and our storage and distribution business within our Clinical Supply Services segment, timing of a standard maintenance shut-down at our European sterile pre-filled

syringe facility and increased volume within our biologics offerings within our Drug Delivery Solutions segment.

31

Table of Contents**Gross Margin**

Gross margin increased \$35.2 million, or 24%, compared to the three months ended December 31, 2016, excluding the impact of foreign exchange. Gross margin increased across all three reportable segments primarily due to increased sales volumes as discussed above. On a constant-currency basis, gross margin, as a percentage of revenue, increased 50 basis points to 31.1% in the three months ended December 31, 2017, compared to 30.6% in the prior year period. The increase was primarily due to a favorable mix shift to certain higher margin offerings within our oral delivery solutions and biologics offerings in our U.S. operations within our Drug Delivery Solutions segment, partially offset by a decrease in our product participation revenue within both our Softgel Technologies segment and our Drug Delivery Solutions segment.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$17.0 million, or 18%, compared to the three months ended December 31, 2016, excluding the impact of foreign exchange, primarily due to additional expenses from recently acquired companies of \$9 million, which includes \$5 million of incremental depreciation and amortization expense and \$2 million of employee related costs. Additionally, the three months ended December 31, 2017 includes one-time transaction fees of \$2 million related to the acquisition of Catalent Indiana in October 2017. Selling, general and administrative expenses further increased approximately \$4 million for non-cash equity based compensation driven by higher expense for certain performance based awards in the current period.

Impairment charges and (gain)/loss on sale of assets

Impairment charges and loss on sale of assets of \$4.2 million includes the loss on sale of two Softgel Technologies segment manufacturing sites in the Asia Pacific region. The site divestitures were neither material individually or in aggregate to the segment or to the Company.

Restructuring and Other

Restructuring and other costs of \$0.1 million for the three months ended December 31, 2017 decreased \$3.2 million compared to the three months ended December 31, 2016. Other costs in the three months ended December 31, 2016, included claim resolution charges of \$3.2 million (without regard to possible future insurance recoveries), related to a previous temporary regulatory suspension at one of our manufacturing facilities. Restructuring expense will vary period to period based on the level of acquisitions during the year and site consolidation efforts to further streamline the business.

Interest Expense, net

Interest expense, net of \$27.2 million for the three months ended December 31, 2017 increased by \$4.4 million, or 19%, compared to the three months ended December 31, 2016, primarily driven by an average higher level of outstanding debt associated with the financing for the Catalent Indiana acquisition in October 2017, partially offset by principal payments on our term loans and an overall reduction in our interest rates on our senior secured credit facility compared to the prior-year period.

On October 18, 2017, we completed a private offering (the "Debt Offering") of \$450 million aggregate principal amount of 4.875% senior unsecured notes due 2026 (the "USD Notes"). The USD Notes will mature on January 15, 2026, bear interest at the rate of 4.875% per annum, and are payable semi-annually in arrears on January 15 and July 15 of each year beginning on July 15, 2018. The net proceeds of the Debt Offering, after payment of the initial purchasers' discount and related fees and expenses, were used to fund a portion of the Catalent Indiana acquisition consideration at its closing.

Concurrent with the Debt Offering, we completed the Third Amendment (the "Third Amendment") to our Amended and Restated Credit Agreement (as amended, the "Credit Agreement"), which lowered the interest rate on U.S. dollar-denominated and euro-denominated term loans and the revolving credit facility and extended the maturity dates on the senior secured credit facilities by three years. The new applicable rate for U.S. dollar-denominated term loans decreased 0.50%, and the new applicable rate for euro-denominated term loans is LIBOR decreased 0.75%. The new applicable rate for the revolving loans decreased 1.25%.

Further, a component of the purchase price for the Catalent Indiana acquisition consists of \$200 million in deferred purchase consideration payable in \$50 million installments, on each anniversary of the closing date over a period of

four years, which is accounted for as debt and includes a component of imputed interest expense.

On December 9, 2016, we completed a private offering of €380.0 million aggregate principal of 4.75% Senior Notes due 2024 (the "Euro Notes"). The Euro Notes will mature on December 15, 2024, bear interest at the rate of 4.75% per annum and are payable semi-annually in arrears on June 15 and December 15 of each year.

Table of Contents

Other (Income)/Expense, net

Other expense was \$13.6 million for the three months ended December 31, 2017, compared to \$1.8 million of other income for the three months ended December 31, 2016. The expense in the three months ended December 31, 2017 was primarily driven by \$11.8 million of financing charges related to the USD Notes offering and the Third Amendment, and includes a \$6.1 million charge for commitment fees paid during the first quarter of fiscal 2018 on a proposed bridge loan made available to us for the purpose of providing back-up financing to fund a portion of the Catalent Indiana acquisition purchase price (the "Bridge Facility").

The three months ended December 31, 2016 of \$1.8 million was primarily driven by non-cash net gains of \$5.3 million related to foreign currency translation, partially offset by \$4.3 million of financing charges related to the December 2016 private offering of the Euro Notes and repricing and partial paydown of our term loans.

Provision/(Benefit) for Income Taxes

On December 22, 2017, the U.S. government enacted wide-ranging tax legislation, the Tax Cuts and Jobs Act (the "2017 Tax Act"). The 2017 Tax Act significantly revises U.S. tax law by, among other provisions, lowering the applicable U.S. federal statutory income tax rate from 35% to 21%, creating a partial territorial tax system that includes a mandatory one-time transition tax on previously deferred foreign earnings, and eliminating or reducing certain income tax deductions.

During the second quarter ended December 31, 2017, we recorded a one-time net charge of \$46.0 million within our income tax provision as a provisional estimate of the net accounting impact of the 2017 Tax Act in accordance with Staff Accounting Bulletin No. 118 issued by the staff of the SEC ("SAB 118"), of which \$48.7 million related to the mandatory transition tax for deemed repatriation of deferred foreign income, \$8.7 million of which we expect to pay over an 8-year period after considering the use of certain net operating losses and foreign tax credits, and certain limitations on executive compensation. The impact to our business resulting from the 2017 Tax Act, including related changes to our tax obligations and effective tax rate in future periods, as well as the one-time enactment-related charges recorded during the second quarter in fiscal 2018 on a provisional basis, are based on a reasonable estimate and are subject to change, and any change could differ materially from our current expectations. Further, there are certain effects of the 2017 Tax Act we cannot reasonably estimate as of the time of this filing, including (a) the Global Intangible Low Tax Income ("GILTI") rules, (b) the Foreign Derived Intangible Income ("FDII") deduction, (c) the Base Erosion Anti-Abuse Tax ("BEAT"), (d) provisions eliminating or reducing certain income tax deductions, such as interest expense, and certain employee expenses, and (e) the state tax impact of the 2017 Tax Act. As additional data is gathered, analyzed, and considered in context of the 2017 Tax Act and ASC 740, we may record additional or different tax charges in future periods during the measurement period.

Our provision for income taxes for the three months ended December 31, 2017 was \$49.9 million relative to earnings from continuing operations before income taxes of \$28.0 million. Our provision for income taxes for the three months ended December 31, 2016 was \$9.5 million relative to earnings from continuing operations before income taxes of \$26.9 million. The income tax provision for the current period is not comparable to the same period of the prior year due to the impact of the 2017 Tax Act, changes in pretax income over many jurisdictions, and the impact of discrete items. Generally, fluctuations in the effective tax rate are primarily due to changes in our geographic pretax income resulting from our business mix and changes in the tax impact of permanent differences, restructuring, other special items, and other discrete tax items, which may have unique tax implications depending on the nature of the item.

Non-allocated corporate costs, net	(10.0)	(9.0)
Total unallocated costs	\$(48.2)	\$(19.8)

(2) Restructuring and other special items include transaction and integration costs associated with the acquisition of Catalent Indiana.

(3) Amounts for the three months ended December 31, 2017 include \$11.8 million of financing expenses related to the offering of the USD Notes and the Third Amendment and include a \$6.1 million charge for commitment fees paid during the first quarter of fiscal 2018 on the Bridge Facility.

Table of Contents

Provided below is a reconciliation of earnings/(loss) from continuing operations to EBITDA from continuing operations:

(Dollars in millions)	Three Months Ended	
	December 31, 2017	December 31, 2016
Earnings/(loss) from continuing operations	\$(21.9)	\$17.4
Depreciation and amortization	46.8	35.5
Interest expense, net	27.2	22.8
Income tax expense/(benefit)	49.9	9.5
EBITDA from continuing operations	\$102.0	\$85.2
Softgel Technologies segment		

Factors Contributing to Year-Over-Year Change	2017 vs. 2016		
	Three Months Ended December 31, Net Segment Revenue/EBITDA		
Revenue/Segment EBITDA without acquisitions / divestitures	(3)%	4%	
Impact of acquisitions	12%	9%	
Constant currency change	9%	13%	
Foreign currency translation impact on reporting	4%	2%	
Total % change	13%	15%	

Softgel Technologies' net revenue increased by \$19.1 million, or 9%, excluding the impact of foreign exchange, compared to the three months ended December 31, 2016. Net revenue decreased 3%, excluding the impact of the Accucaps acquisition, primarily driven by decreased profit participation revenue of 2% as compared to three months ended December 31, 2016. Excluding the reduction in product participation revenue, net revenue without acquisitions decreased 1% primarily driven by decreased end-market volume demand for prescription products in Europe, and lower end-market volume demand for consumer health products in Latin America and Asia Pacific, partially offset with revenue generated by a historical contractual settlement.

Softgel Technologies' Segment EBITDA increased by \$5.6 million, or 13%, compared to the three months ended December 31, 2016, excluding the impact of foreign exchange. Segment EBITDA increased 4%, excluding the impact of the Accucaps acquisition. Excluding the reduction of product participation profit of 8%, segment EBITDA without acquisitions increased 12%, primarily related to the impact of a historical contractual settlement of 6% and a favorable shift in product mix within our consumer health products in Asia Pacific and within our prescription products in North America.

The net revenue and EBITDA impact to our Softgel Technologies segment from the Accucaps acquisition for the three months ended December 31, 2017 was an increase of 12% and 9%, respectively, compared to the prior-year period.

In December 2017, we divested of two manufacturing sites in Asia Pacific operated within the Softgel Technologies segment in order to better streamline our global operations. The site divestitures were material neither individually nor in aggregate to the segment or to the Company.

Drug Delivery Solutions segment

Factors Contributing to Year-Over-Year Change	2017 vs. 2016		
	Three Months Ended December 31,		

Edgar Filing: Catalent, Inc. - Form 10-Q

	Net Revenue	Segment EBITDA

Table of Contents

Net revenue in our Drug Delivery Solutions segment increased by \$64.4 million, or 30%, compared to the three months ended December 31, 2016, excluding the impact of foreign exchange. Revenue without acquisitions increased by 9%, driven primarily by timing of a standard maintenance shut-down at our European sterile pre-filled syringe facility of 6%, increased volume from our biologics offerings of 4%, partially offset by a decrease in product participation revenue of 1%.

Drug Delivery Solutions' segment EBITDA increased by \$29.1 million, or 58%, compared to the three months ended December 31, 2016, excluding the impact of foreign exchange. Segment EBITDA without acquisitions increased by 18% primarily due to favorable absorption of cost and timing of a standard maintenance shut-down at our European sterile pre-filled syringe facility, increased volume from our biologics offerings, and a favorable shift in end-customer demand to certain higher margin offerings primarily in our U.S. operations within our oral delivery solutions platform. These increases were partially offset by operational inefficiencies with respect to products utilizing our blow-fill-seal technology platform, decreased profit from our analytical services platform driven by decreased sales volumes related to fee-for-service development work and analytical testing in the U.S., and a reduction in profit related to product participation.

The net revenue and EBITDA impact to our Drug Delivery Solutions segment from the Catalent Indiana acquisition for the three months ended December 31, 2017 was an increase of 21% and 40%, respectively, compared to the prior-year period.

Clinical Supply Services segment

Factors Contributing to Year-Over-Year Change	2017 vs. 2016 Three Months Ended		
	December 31, Net Segment Revenue/EBITDA		
Revenue/Segment EBITDA without acquisitions	36%	55%	%
Impact of acquisitions	—%	—%	%
Constant currency change	36%	55%	%
Foreign currency translation impact on reporting	5%	9%	%
Total % Change	41%	64%	%

Clinical Supply Services' net revenue increased by \$28.0 million, or 36%, compared to the three months ended December 31, 2016, excluding the impact of foreign exchange, primarily due to increased lower-margin comparator sourcing volume of approximately \$17 million, or 22%, and higher volume and favorable mix in our storage and distribution business of approximately \$13 million, or 16%.

Clinical Supply Services' segment EBITDA increased by \$6.4 million, or 55%, excluding the impact of foreign exchange, compared to the three months ended December 31, 2016, primarily due to increased sales volumes and favorable mix in our storage and distribution business, improved capacity utilization across the network, and increased profit from our lower-margin comparator sourcing.

*Percentage not meaningful

Net Revenue

Net revenue increased by \$200.8 million, or 22%, compared to the six months ended December 31, 2016, excluding the impact of foreign exchange. Net revenue increased 11% as a result of acquisitions. We acquired Pharmatek Laboratories, Inc. ("Pharmatek") in September 2016 and Catalent Indiana in October 2017, both within our Drug Delivery Solutions segment, and Accucaps in February 2017, within our Softgel Technologies segment. Excluding the impact of acquisitions, net revenue increased 11%, primarily due to increased volume in lower-margin comparator sourcing and within our storage and distribution business within our Clinical Supply Services segment and favorable end customer demand for certain higher margin offerings within our oral delivery solutions platform and increased volume from our biologics offerings within our Drug Delivery Solutions segment in our U.S. operations.

Gross Margin

Gross margin increased by \$50.8 million, or 19%, compared to the six months ended December 31, 2016, excluding the impact of foreign exchange. Gross margin increased across all three reportable segments primarily due to increase sales volumes as discussed above. On a constant currency basis, gross margin, as a percentage of revenue, decreased 70 basis points to 28.7% in the six months ended December 31, 2017 as compared to 29.4% in the prior-year period, primarily driven by decreased product participation revenue within both our Softgel Technologies and our Drug Delivery Solutions segments and an unfavorable mix shift within our Softgel Technologies segment to lower-margin consumer health products as a result of the Accucaps acquisition, partially offset by a favorable mix shift to certain higher margin offerings within our oral delivery solutions and biologics offerings in our U.S. operations within our Drug Delivery Solutions segment.

Selling, General and Administrative Expense

Selling, general and administrative expense increased \$25.5 million, or 13%, compared to the six months ended December 31, 2016, excluding the impact of foreign exchange, primarily driven by acquisition related expenses during the period, including one-time transaction fees of \$10 million related to the acquisition of Catalent Indiana in October 2017 and an increase of approximately \$11 million, which included approximately \$6 million of incremental depreciation and amortization expense and \$4 million incremental employee-related costs. Selling, general and administrative expenses further increased approximately \$4 million for non-cash equity-based compensation driven by higher expense for certain performance based awards in the current period.

Table of Contents

Impairment charges and (gain)/loss on sale of assets

Impairment charges and loss on sale of assets of \$4.2 million includes the loss on sale of two Softgel Technologies segment manufacturing sites in the Asia Pacific region. The site divestitures were material neither individually nor in aggregate to the segment or to the Company.

Restructuring and Other

Restructuring and other charges of \$1.3 million for the six months ended December 31, 2017 decreased by \$3.1 million, compared to the six months ended December 31, 2016. Other costs in the six months ended December 31, 2016 included claim resolution charges of \$3.2 million (without regard to possible future insurance recoveries), related to a previous temporary regulatory suspension at one of our manufacturing facilities. Restructuring expense will vary period to period based on the level of acquisitions during the year and site consolidation efforts to further streamline the business.

Interest Expense, net

Interest expense, net of \$51.5 million for the six months ended December 31, 2017 increased \$6.6 million compared to the six months ended December 31, 2016, primarily driven by an average higher level of outstanding debt associated with the financing for the Catalent Indiana acquisition in October 2017, offset by principal payments on our term loans and an overall reduction in our interest rates on our senior secured credit facility as compared to the prior year period.

On October 18, 2017, we completed the Debt Offering. Concurrent with the Debt Offering, we completed the Third Amendment, which lowered the interest rate on U.S. dollar-denominated and euro-denominated term loans and the revolving credit facility. The new applicable rate for U.S. dollar-denominated term loans decreased 0.50%, and the new applicable rate for euro-denominated term loans is LIBOR decreased 0.75%. The new applicable rate for the revolving loans decreased 1.25%.

Further, a component of the purchase price for the Catalent Indiana acquisition consists of \$200 million in deferred purchase consideration payable in \$50 million installments, on each anniversary of the closing date over a period of four years, which is accounted for as debt and includes a component of imputed interest expense.

On December 9, 2016, we completed the Euro Notes offering. The Euro Notes bear interest at the rate of 4.75% per annum and are payable semi-annually in arrears on June 15 and December 15 of each year.

Other (Income)/Expense, net

Other expense, net of \$19.3 million for the six months ended December 31, 2017 was primarily driven by \$11.8 million of financing charges related to the Debt Offering and the Third Amendment and includes a \$6.1 million charge for commitment fees paid during the first quarter of fiscal 2018 on the Bridge Facility. Further, other expense, net for the six months ended December 31, 2017 includes \$6.9 million of non-cash net losses from foreign exchange translation.

Other income, net for the six months ended December 31, 2016 of \$3.9 million was primarily driven by non-cash net gains from foreign exchange translation recorded during the period of \$7.5 million, partially offset by \$4.3 million of financing charges in the prior year.

Provision/(Benefit) for Income Taxes

During the second quarter ended December 31, 2017, we recorded a one-time net charge of \$46.0 million within our income tax provision as a provisional estimate of the net accounting impact of the 2017 Tax Act in accordance with SAB 118, of which \$48.7 million related to the mandatory transition tax for deemed repatriation of deferred foreign income, \$8.7 million of which we expect to pay over an 8-year period after considering the use of certain net operating losses and foreign tax credits, and certain limitations on executive compensation. The impact to our business resulting from the 2017 Tax Act, including related changes to our tax obligations and effective tax rate in future periods, as well as the one-time enactment-related charges recorded during the second quarter in fiscal 2018 on a provisional basis, are based on a reasonable estimate and are subject to change, and any change could differ materially from our current expectations. Further, there are certain effects of the 2017 Tax Act we cannot reasonably estimate as of the time of this filing, including (a) the GILTI rules, (b) the FDII deduction, (c) the BEAT, (d) provisions eliminating or reducing certain income tax deductions, such as interest expense, and certain employee expenses, and

(e) the state tax impact of the 2017 Tax Act. As additional data is gathered, analyzed, and considered in context of the 2017 Tax Act and ASC 740, we may record additional or different tax charges in future periods during the measurement period.

Our provision for income taxes for the six months ended December 31, 2017 was \$48.0 million relative to earnings before income taxes of \$29.9 million. Our provision for income taxes for the six months ended December 31, 2016 was \$9.7

Table of Contents

million relative to earnings before income taxes of \$31.7 million. The income tax provision for the current period is not comparable to the same period of the prior year due to the impact of the 2017 Tax Act, changes in pretax income over many jurisdictions, and the impact of discrete items. Generally, fluctuations in the effective tax rate are primarily due to changes in our geographic pretax income resulting from our business mix and changes in the tax impact of permanent differences, restructuring, other special items, and other discrete tax items, which may have unique tax implications depending on the nature of the item.

Segment Review

The Company's results on a segment basis for the six months ended December 31, 2017 compared to the six months ended December 31, 2016 were as follows:

(Dollars in millions)	Six Months Ended		FX impact	Constant Currency Increase/(Decrease)	
	December 31, 2017	2016		Change \$	Change %
Softgel Technologies					
Net revenue	\$447.8	\$388.3	\$11.1	\$48.4	12 %
Segment EBITDA	85.2	73.9	1.2	10.1	14 %
Drug Delivery Solutions					
Net revenue	511.2	405.3	9.5	96.4	24 %
Segment EBITDA	128.5	92.0	2.3	34.2	37 %
Clinical Supply Services					
Net revenue	218.4	152.0	4.1	62.3	41 %
Segment EBITDA	35.7	22.1	1.1	12.5	57 %
Inter-segment revenue elimination	(27.2)	(19.7)	(1.2)	(6.3)	32 %
Unallocated costs ⁽¹⁾	(82.2)	(40.1)	(2.3)	(39.8)	99 %
Combined total					
Net revenue	\$1,150.2	\$925.9	\$23.5	\$200.8	22 %
EBITDA from continuing operations	\$167.2	\$147.9	\$2.3	\$17.0	11 %

*Percentage not meaningful

(1) Unallocated costs includes equity-based compensation, certain acquisition-related costs, impairment charges, and certain other costs that are not allocated to the segments as follows:

(Dollars in millions)	Six Months Ended	
	December 31, 2017	2016
Impairment charges and gain/(loss) on sale of assets	\$(4.2)	\$(0.5)
Equity compensation	(15.5)	(11.8)
Restructuring and other special items ⁽²⁾	(24.2)	(13.1)
Other income/(expense), net ⁽³⁾	(19.3)	3.9
Non-allocated corporate costs, net	(19.0)	(18.6)
Total unallocated costs	\$(82.2)	\$(40.1)

(2) Restructuring and other special items include transaction and integration costs associated with the acquisition of Catalent Indiana.

Table of Contents

Amounts for the six months ended December 31, 2017 include \$11.8 million of financing expenses related to the (3) offering of the USD Notes and the Third Amendment and include a \$6.1 million charge for commitment fees paid during the first quarter of fiscal 2018 the Bridge Facility.

Provided below is a reconciliation of earnings/(loss) from continuing operations to EBITDA from continuing operations:

	Six Months Ended December 31,	
(Dollars in millions)	2017	2016
Earnings/(loss) from continuing operations	\$(18.1)	\$22.0
Depreciation and amortization	85.8	71.3
Interest expense, net	51.5	44.9
Income tax (benefit)/expense	48.0	9.7
EBITDA from continuing operations	\$167.2	\$147.9
Softgel Technologies segment		

	2017 vs. 2016 Six Months Ended December 31,	
Factors Contributing to Year-Over-Year Change	Net Revenue	Segment EBITDA
Revenue/Segment EBITDA without acquisitions	(1)%	1 %
Impact of acquisitions	13 %	13 %
Constant currency change	12 %	14 %
Foreign exchange fluctuation	3 %	1 %
Total % Change	15 %	15 %

Softgel Technologies' net revenue increased \$48.4 million, or 12%, excluding the impact of foreign exchange, compared to the six months ended December 31, 2016. Net revenue decreased 1%, excluding the impact of the Accucaps acquisition, primarily driven by decreased profit participation revenue of 1% as compared to six months ended December 31, 2016.

Softgel Technologies' Segment EBITDA increased by \$10.1 million, or 14%, compared to the six months ended December 31, 2016, excluding the impact of foreign exchange. Segment EBITDA increased 1% excluding the impact of the Accucaps acquisition. Excluding the reduction of product participation profit of 5%, segment EBITDA without acquisitions increased 6%, primarily related to the impact of a historical contractual settlement of 4% and a favorable shift in product mix within our prescription products in North America.

Net revenue and Segment EBITDA in our Softgel Technologies segment increased in the six months ended December 31, 2017 compared to the six months ended December 31, 2016 by 13% and 13%, respectively, due to the Accucaps acquisition.

In December 2017, we divested of two manufacturing sites in Asia Pacific operated within the Softgel Technologies segment in order to better streamline our global operations. The site divestitures were material neither individually nor in aggregate to the segment or to the Company.

Table of Contents

Drug Delivery Solutions segment

	2017 vs. 2016		
	Six Months		
Factors Contributing to Year-Over-Year Change	Ended		
	December 31,		
	Net Segment		
	Revenue		
	EBITDA		
Revenue/Segment EBITDA without acquisitions	11 %	14 %	%
Impact of acquisitions	13 %	23 %	%
Constant currency change	24 %	37 %	%
Foreign exchange fluctuation	2 %	3 %	%
Total % Change	26 %	40 %	%

Net revenue in our Drug Delivery Solutions segment increased by \$96.4 million, or 24%, compared to the six months ended December 31, 2016, excluding the impact of foreign exchange. Revenue without acquisitions increased by 11%, driven primarily by favorable end customer demand for certain higher margin offerings primarily in our U.S. operations within our oral delivery solutions platform of 5%, increased volume from our biologics offerings of 4% and by timing of execution related to timing of a standard maintenance shut-down at our European sterile pre-filled syringe facility of 2%.

Drug Delivery Solutions' Segment EBITDA increased by \$34.2 million, or 37%, compared to the six months ended December 31, 2016, excluding the impact of foreign exchange. Segment EBITDA without acquisitions increased by 14%, primarily due to an increase in sales volumes driven by favorable end-customer demand for certain higher margin offerings primarily in our U.S. operations within our oral delivery solutions platform of 11%, increased volume from our biologics offerings of 10%, and favorable absorption of cost and timing of a standard maintenance shut-down at our European sterile pre-filled syringe facility of 5%. Segment EBITDA also increased as a result of increased profit from our San Diego site (obtained as part of the Pharmatek acquisition) lapping a full year of ownership. These increases were partially offset by operational inefficiencies with respect to products utilizing our blow-fill-seal technology platform of 10%, decreased profit from our analytical services platform driven by decreased sales volumes related to fee-for-service development work and analytical testing in the U.S. of 6%.

On September 22, 2016, we acquired Pharmatek, which increased net revenue and EBITDA in our Drug Delivery Solutions segment for the six months ended December 31, 2017 by 2% and 1%, respectively, compared to the corresponding prior-year period.

On October 23, 2017, we acquired Catalent Indiana which increased net revenue and EBITDA in our Drug Delivery Solutions segment for the six months ended December 31, 2017 by 11% and 22%, respectively, compared to the corresponding prior-year period.

Clinical Supply Services segment

	2017 vs. 2016		
	Six Months		
Factors Contributing to Year-Over-Year Change	Ended		
	December 31,		
	Net Segment		
	Revenue		
	EBITDA		
Revenue/Segment EBITDA without acquisitions	41 %	57 %	%
Impact of acquisitions	— %	— %	%
Constant currency change	41 %	57 %	%
Foreign exchange fluctuation	3 %	5 %	%
Total % Change	44 %	62 %	%

Clinical Supply Services' net revenue increased by \$62.3 million, or 41%, compared to the six months ended December 31, 2016, excluding the impact of foreign exchange, primarily due to increased lower-margin comparator

sourcing volume of approximately \$35 million, or 23%, and higher volume related to our storage and distribution business of approximately \$27 million, or 18%.

Clinical Supply Services' Segment EBITDA increased by \$12.5 million, or 57%, excluding the impact of foreign exchange, compared to the six months ended December 31, 2016, primarily due to increased sales volumes in our storage and

Table of Contents

distribution business, improved capacity utilization across the network, as well as increased profit from our lower-margin comparator sourcing.

Liquidity and Capital Resources

Sources and Uses of Cash

Our principal source of liquidity has been cash flows generated from operations and certain financing activities for acquisitions. The principal uses of cash are to fund planned operating and capital expenditures, business or asset acquisitions, interest payments on debt and any mandatory or discretionary principal payments on debt issuances. As of December 31, 2017, our financing needs were supported by the five-year, \$200 million revolving credit facility maintained by Catalent Pharma Solutions, Inc. (our "Operating Company") that matures in May 2022 (following the Third Amendment in October 2017), the capacity of which is reduced by \$13.0 million in outstanding letters of credit. The revolving credit facility includes borrowing capacity available for letters of credit and for short-term borrowings, referred to as swing-line borrowings. As of December 31, 2017, we had no outstanding borrowings under our revolving credit facility.

On October 29, 2015, our Board of Directors authorized a share repurchase program to use up to \$100.0 million to repurchase shares of our outstanding common stock. Under the program, we are authorized to repurchase shares through open market purchases, privately negotiated transactions or otherwise as permitted by applicable federal securities laws. There has been no purchase pursuant to this program as of December 31, 2017.

U.S. Tax Reform Considerations

Recent changes to the taxation of undistributed foreign earnings in connection with the 2017 Tax Act could potentially change our future intentions regarding the reinvestment of such earnings. We intend to continue to monitor regulatory developments concerning the taxation of undistributed foreign earnings, as well as our liquidity needs both domestic and foreign. If our plans change and we choose to repatriate any funds to the U.S. in the future, we could potentially be subject to applicable state, local, and/or foreign taxes. We have yet to determine the potential use of any cash that may be repatriated to the U.S. as a result of the 2017 Tax Act. Based on the current estimate of the mandatory transition cash tax liability of \$8.7 million and timing of the related payments, we believe that cash from operations will be sufficient to make all required payments.

Cash Flows

The following table summarizes our consolidated statement of cash flows:

Six Months Ended

(Dollars in millions)	December 31,		Difference
	2017	2016	
Net cash provided by/(used in):			
Operating activities	\$176.0	\$96.0	\$ 80.0
Investing activities	\$(825.7)	\$(138.5)	\$(687.2)
Financing activities	\$682.4	\$175.7	\$ 506.7

Operating Activities

For the six months ended December 31, 2017, cash provided by operating activities was \$176.0 million compared to \$96.0 million for the corresponding prior-year period. Cash flow from operating activities for the six months ended December 31, 2017 increased due to certain working capital improvements primarily driven by a decrease in trade receivables from the higher collection of receivables during the current-year six-month period compared to the prior-year period.

Investing Activities

For the six months ended December 31, 2017, cash used in investing activities was \$825.7 million compared to \$138.5 million for the six months ended December 31, 2016, primarily driven by \$748.0 million of cash paid for the acquisition of Catalent Indiana in the second quarter of fiscal 2018. During the prior-year six-month period, \$86.9 million of cash was paid for the acquisition of Pharmatek, net of cash acquired. The increase in cash used in investing

activities was also due to an increase in acquisitions of property, plant and equipment, which totaled \$82.9 million for the six months ended December 31, 2017 compared to \$54.1 million in the six months ended December 31, 2016.

Table of Contents

Financing Activities

For the six months ended December 31, 2017, cash provided by financing activities was \$682.4 million compared to \$175.7 million for the six months ended December 31, 2016, primarily driven by net proceeds of \$442.6 million and \$277.8 million raised as part of our Debt Offering and a primary offering of our common stock in September 2017 (the "Equity Offering"), respectively, during the current-year six-month period. In the Equity Offering, we sold 7.4 million shares of our common stock at a price of \$39.10 per share, before underwriting discounts and commissions. The net proceeds of \$277.8 million includes the effect of these discounts and commissions and other offering expenses. The net proceeds of these offerings were used to fund a portion of the initial consideration for the Catalent Indiana acquisition. Contemporaneous to completing the Debt Offerings, we completed the Third Amendment to lower the interest rate and extend the maturity dates on our senior secured credit facilities. In connection with the Debt Offering and the Third Amendment, we incurred \$22.8 million of debt discount and third-party financing costs, of which \$11.8 million was expensed and recorded in other expense/(income), net in the consolidated statement of operations.

Guarantees and Security

Senior Secured Credit Facilities

All obligations under the Credit Agreement and the guarantees of those obligations are secured by substantially all of the following assets of Operating Company and each guarantor (Operating Company's parent entity, PTS Intermediate Holdings LLC ("PTS Intermediate"), and each of Operating Company's material domestic subsidiaries), subject to certain exceptions:

- a pledge of 100% of the capital stock of Operating Company and 100% of the equity interests directly held by Operating Company and each guarantor in any wholly owned material subsidiary of Operating Company or any guarantor (which pledge, in the case of any non-U.S. subsidiary of a U.S. subsidiary, will not include more than 65% of the voting stock of such non-U.S. subsidiary); and
- a security interest in, and mortgages on, substantially all tangible and intangible assets of Operating Company and of each guarantor, subject to certain limited exceptions.

The Euro Notes and the USD Notes

All obligations under the Euro Notes and the USD Notes are general, unsecured and subordinated to all existing and future secured indebtedness of the guarantors to the extent of the value of the assets securing such indebtedness. The Euro Notes and the USD Notes are each separately guaranteed by all of Operating Company's wholly owned U.S. subsidiaries that guarantee the senior secured credit facilities. Neither the Euro Notes nor the USD Notes are guaranteed by either PTS Intermediate or Catalent, Inc.

Debt Covenants

Senior Secured Credit Facilities

The Credit Agreement contains a number of covenants that, among other things, restrict, subject to certain exceptions, Operating Company's (and Operating Company's restricted subsidiaries') ability to incur additional indebtedness or issue certain preferred shares; create liens on assets; engage in mergers and consolidations; sell assets; pay dividends and distributions or repurchase capital stock; repay subordinated indebtedness; engage in certain transactions with affiliates; make investments, loans or advances; make certain acquisitions; enter into sale and leaseback transactions; amend material agreements governing Operating Company's subordinated indebtedness and change Operating Company's lines of business.

The Credit Agreement also contains change of control provisions and certain customary affirmative covenants and events of default. The revolving credit facility requires compliance with a net leverage covenant when there is a 30% or more draw outstanding at a period end. As of December 31, 2017, we were in compliance with all material covenants related to our senior-secured obligations.

Subject to certain exceptions, the Credit Agreement permits us and our restricted subsidiaries to incur certain additional indebtedness, including secured indebtedness. None of our non-U.S. subsidiaries or Puerto Rico subsidiaries is a guarantor of the loans.

As market conditions warrant, we and our affiliates may from time to time seek to purchase our outstanding debt in privately negotiated or open market transactions, by tender offer or otherwise. Subject to any applicable limitation contained in the Credit Agreement, any purchase made by us may be funded by the use of cash on our balance sheet or the incurrence of new secured or unsecured debt. The amounts involved in any such purchase transactions, individually or in the aggregate, may be material. Any such purchase may be with respect to a substantial amount of a particular class or series of debt, with the

Table of Contents

attendant reduction in the trading liquidity of such class or series. In addition, any such purchases made at prices below the "adjusted issue price" (as defined for U.S. federal income tax purposes) may result in taxable cancellation of indebtedness income to us, which amounts may be material, and in related adverse tax consequences to us.

The Euro Notes and the USD Notes

The Indentures governing the Euro Notes and the USD Notes (the "Indentures") contain covenants that, among other things, limit the ability of Operating Company and its restricted subsidiaries to incur or guarantee more debt or issue certain preferred shares, pay dividends on, repurchase or make distributions in respect of their capital stock or make other restricted payments, make certain investments, sell certain assets, create liens, consolidate, merge, sell or otherwise dispose of all or substantially all of their assets, enter into certain transactions with their affiliates, and designate their subsidiaries as unrestricted subsidiaries. These covenants are subject to a number of exceptions, limitations and qualifications as set forth in the Indentures. The Indentures also contain customary events of default including, but not limited to, nonpayment, breach of covenants, and payment or acceleration defaults in certain other indebtedness of Operating Company or certain of its subsidiaries. Under the Indentures, upon an event of default, either the holders of at least 30% in principal amount of either the then-outstanding Euro Notes or the then-outstanding USD Notes, or either of the Trustees under the applicable notes may declare the applicable notes immediately due and payable, or in certain circumstances, the applicable notes automatically will become due and immediately payable. As of December 31, 2017, we were in compliance with all material covenants related to the Indentures.

As of December 31, 2017 and June 30, 2017, the amounts of cash and cash equivalents held by foreign subsidiaries were \$272.2 million and \$249.8 million, respectively, out of the total consolidated cash and cash equivalents of \$329.5 million and \$288.3 million, respectively. These balances are dispersed across many international locations around the world.

Backlog

While we generally have long-term supply agreements that provide for a revenue stream over a period of years, our backlog represents, as of a point in time, future service revenues from work not yet completed. For our Softgel Technologies and Drug Delivery Solutions segments, backlog represents firm orders for manufacturing services and includes minimum volumes, where applicable. For our Clinical Supply Services segment, backlog represents estimated future service revenues from work not yet completed under signed contracts. Using these methods of reporting backlog, as of December 31, 2017, backlog was approximately \$1,121.6 million, compared to approximately \$1,052.2 million as of June 30, 2017, including approximately \$306.0 million and \$338.3 million, respectively, related to our Clinical Supply Services segment. We expect to recognize approximately 70% of revenue from the backlog in existence as of December 31, 2017 by June 30, 2018.

To the extent projects are delayed, the timing of our revenue could be affected. If a customer cancels an order, we may be reimbursed for the costs we have incurred. For orders that are placed inside a contractual firm period, we generally have a contractual right to payment in the event of cancellation. Fluctuations in our reported backlog levels also result from the timing and order pattern of our customers who often seek to manage their level of inventory on hand. Because of customer ordering patterns, our backlog reported for certain periods may fluctuate and may not be indicative of future results.

Interest Rate Risk Management

A portion of the debt used to finance our operations is exposed to interest-rate fluctuations. We may use various hedging strategies and derivative financial instruments to create an appropriate mix of fixed- and floating-rate assets and liabilities. Historically, we have used interest-rate swaps to manage the economic effect of variable rate interest obligations associated with our floating-rate term loans so that the interest payable on the term loans effectively becomes fixed at a certain rate, thereby reducing the impact of future interest-rate changes on our future interest expense. As of December 31, 2017, we did not have any interest-rate swap agreements in place that would have the economic effect of modifying the variable interest obligations associated with our floating-rate term loans.

Currency Risk Management

We are exposed to fluctuations in the Euro-USD exchange rate on our investments in our operations in Europe. While we do not actively hedge against changes in foreign currency, we have mitigated the exposure of our investments in our European operations by denominating a portion of our debt in euros. At December 31, 2017, we had \$811.9 million of euro-denominated debt outstanding that qualifies as a hedge of a net investment in foreign operations. Refer to Note 9 to our unaudited consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for further discussion of net investment hedge activity in the period.

Periodically, we may utilize forward currency exchange contracts to manage our exposure to the variability of cash flows primarily related to the foreign exchange rate changes of future foreign currency transaction costs. In addition, we may utilize

Table of Contents

foreign currency forward contracts to protect the value of existing foreign currency assets and liabilities. Currently, we do not utilize foreign currency exchange contracts. We expect to continue to evaluate hedging opportunities for foreign currency in the future.

Contractual Obligations

Besides the changes in our long-term obligations related to the Third Amendment, the offering of the USD Notes, and the deferred purchase consideration associated with the Catalent Indiana acquisition as disclosed in Liquidity and Capital Resources earlier in this Item, there has been no significant change to our contractual obligations since our Annual Report on Form 10-K for the period ended June 30, 2017. Refer to Note 10 to our unaudited consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for a further discussion regarding tax reform and the Company's long-term obligations.

Off-Balance Sheet Arrangements

Other than operating leases and outstanding letters of credit as discussed above, we do not have any material off-balance sheet arrangements as of December 31, 2017.

Table of Contents

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to cash flow and earnings fluctuations as a result of certain market risks. These market risks primarily relate to changes in interest rates associated with our long-term debt obligations and foreign exchange rate changes.

Interest Rate Risk

The Company has historically used interest-rate swaps to manage the economic effect of variable rate interest obligations associated with our floating-rate term loans so that the interest payable on the term loans effectively becomes fixed at a certain rate, thereby reducing the impact of future interest-rate changes on our future interest expense. As of December 31, 2017, we did not have any interest-rate swap agreements in place that would either have the economic effect of modifying the variable interest obligations associated with our floating-rate term loans or would be considered an effective cash flow hedge for financial reporting purposes.

Foreign Currency Exchange Risk

By the nature of our global operations, we are exposed to cash flow and earnings fluctuations resulting from foreign exchange rate variation. These exposures are transactional and translational in nature. Since we manufacture and sell our products throughout the world, our foreign currency risk is diversified. Principal drivers of this diversified foreign exchange exposure include the European euro, British pound, Argentinean peso, Brazilian real and Australian dollar. Our transactional exposure arises from the purchase and sale of goods and services in currencies other than the functional currency of our operational units. We also have exposure related to the translation of financial statements of our foreign subsidiaries into U.S. dollars, the functional currency of the parent. The financial statements of our operations outside the U.S. are measured using the local currency as the functional currency. Adjustments to translate the assets and liabilities of these foreign operations in U.S. dollars are accumulated as a component of other comprehensive income/(loss) utilizing period-end exchange rates. Foreign currency transaction gains and losses calculated by utilizing weighted average exchange rates for the period are included in the statements of operations in "other (income)/expense, net." Such foreign currency transaction gains and losses include inter-company loans denominated in non-U.S. dollar currencies.

Table of Contents

Item 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our President and Chief Executive Officer and our Executive Vice President and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. Any control or procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Our management, with the participation of our President and Chief Executive Officer, and our Executive Vice President and Chief Financial Officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, our President and Chief Executive Officer and our Executive Vice President and Chief Financial Officer concluded that, as of December 31, 2017, our disclosure controls and procedures were effective to accomplish their objectives at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

The Company continues to receive and resolve claims stemming from a prior, temporary, regulatory suspension of one of our manufacturing facilities. To date, more than 30 customers of the facility have presented claims against the Company for alleged losses, including lost profits and other types of indirect or consequential damages that they have allegedly suffered due to the temporary suspension, or have reserved their right to do so subsequently. The Company is unable to estimate at this time either the total value of claims that are reasonably possible to be asserted with respect to this matter or the likely cost to resolve them, although (a) as of the end of December 31, 2017, the Company has settled 18 customer claims and (b) certain remaining customers have presented the Company with support for other claims having an aggregate claim value of approximately \$4 million. To date, none of the asserted claims takes into account limitations of liability in the contracts governing these claims or any other defense that the Company may assert. In addition, the Company may have insurance for additional costs it may incur as a result of such claims, subject to various deductibles and other limitations, but there can be no assurance as to the aggregate amount or timing of insurance recoveries against any such costs.

From time to time, the Company may be involved in legal proceedings arising in the ordinary course of business, including, without limitation, inquiries and claims concerning environmental contamination as well as litigation and allegations in connection with acquisitions, product liability, manufacturing or packaging defects and claims for reimbursement for the cost of lost or damaged active pharmaceutical ingredients, the cost of any of which could be significant. The Company intends to vigorously defend itself against any such litigation and does not currently believe that the outcome of any such litigation will have a material adverse effect on the Company's financial statements. In addition, the healthcare industry is highly regulated and government agencies continue to scrutinize certain practices affecting government programs and otherwise.

From time to time, the Company receives subpoenas or requests for information relating to the business practices and activities of customers or suppliers from various governmental agencies or private parties, including from state attorneys general, the U.S. Department of Justice, and private parties engaged in patent infringement, antitrust, tort, and other litigation. The Company generally responds to such subpoenas and requests in a timely and thorough manner, which responses sometimes require considerable time and effort and can result in considerable costs being incurred. The Company expects to incur costs in future periods in connection with future requests.

Item 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in the section entitled "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended June 30, 2017, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results. Other than what was disclosed in the Special Note Regarding Forward-Looking Statements and discussed below, there has been no material change to the risk factors disclosed in the Company's Annual Report on Form 10-K.

The following information amends, updates, and should be read in conjunction with the risk factors and information disclosed in the Fiscal 2017 10-K.

The impact to our business of recently enacted U.S. tax legislation could differ materially from our current estimates. On December 22, 2017, the U.S. government enacted wide-ranging tax legislation, the 2017 Tax Act. The 2017 Tax Act significantly revises U.S. tax law by, among other provisions, lowering the applicable U.S. federal statutory income tax rate from 35% to 21%, creating a partial territorial tax system that includes a mandatory one-time transition tax on previously deferred foreign earnings, and eliminating or reducing certain income tax deductions. Although we are still determining whether the 2017 Tax Act will ultimately benefit our results of operations and financial condition in future periods, primarily by reducing the applicable U.S. federal statutory income tax rate from 35% to 21%, we recorded a one-time net charge of \$46.0 million within our income tax provision as a provisional estimate of the net accounting impact of the 2017 Tax Act in the second quarter of fiscal 2018. We recorded this charge on a provisional basis, based on our present understanding of the 2017 Tax Act and other information available

as of the time of the estimates, including assumptions and expectations about future events.

Although we believe these provisional amounts represent a reasonable estimate of the ultimate enactment-related impact the 2017 Tax Act will have on our consolidated financial statements, we may adjust these amounts materially as additional information becomes available and we complete further analyses. The impact of the 2017 Tax Act to our business in future

Table of Contents

periods is also subject to a variety of factors beyond our control including, but not limited to, (i) potential amendments to the 2017 Tax Act; (ii) potential changes to state, local, and foreign tax laws in response to the 2017 Tax Act; and (iii) potential new or interpretative guidance issued by the SEC, the Financial Accounting Standards Board or the Internal Revenue Service related to the 2017 Tax Act. Any of these factors could cause our actual results to differ materially from our current expectations and/or investors' expectations. Further, there are certain effects of the 2017 Tax Act we cannot reasonably estimate, including (a) the GILTI rules, (b) the FDII deduction, (c) the BEAT, (d) provisions eliminating or reducing certain income tax deductions, such as interest expense, and certain employee expenses, and (e) the state tax impact of the 2017 Tax Act. As we gather, analyze, and consider additional data in the context of the 2017 Tax Act and ASC 740 Income Taxes, we may adjust in future periods our current estimates, but we will do so only during the measurement period prescribed by SAB 118. Any such adjustment may be material.
