Forward-Looking Statements

It is anticipated that some of the information presented at the annual meeting will contain forward-looking statements that are based on management's beliefs, assumptions, current expectations, estimates and projections about the financial services industry, the economy and Chemical. Words and phrases such as "anticipates," "believes," "continue," "estimates," "expects," "forecasts," "intends," "is likely," "judgment," "look forward," "opinion," "plans," "predicts," "probable," "projects," "should," "strategic," "trend," "will," and variations of such words and phrases or similar expressions are intended to identify such forward-looking statements. Such statements are based upon current beliefs and expectations and involve substantial risks and uncertainties which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. All statements referencing future time periods are forward-looking.

Management's determination of the provision and allowance for loan losses; the carrying value of acquired loans, goodwill and mortgage servicing rights; the fair value of investment securities (including whether any impairment on any investment security is temporary or other-than-temporary and the amount of any impairment); and management's assumptions concerning pension and other postretirement benefit plans involve judgments that are inherently forward-looking. There can be no assurance that future loan losses will be limited to the amounts estimated. All of the information concerning interest rate sensitivity is forward-looking. The future effect of changes in the financial and credit markets and the national and regional economies on the banking industry, generally, and on Chemical, specifically, are also inherently uncertain. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions ("risk factors") that are difficult to predict with regard to timing, extent, likelihood and degree of occurrence. Therefore, actual results and outcomes may materially differ from what may be expressed or forecasted in such forward-looking statements. Chemical undertakes no obligation to update, amend or clarify forward-looking statements, whether as a result of new information, future events or otherwise.

The annual meeting may also contain forward-looking statements regarding Chemical's outlook or expectations with respect to its recently completed acquisition of Monarch Community Bancorp, Inc. ("Monarch") and its planned acquisition of Lake Michigan Financial Corporation ("Lake Michigan"), the expected costs to be incurred in connection with the acquisitions, Monarch's and Lake Michigan's future performance and consequences of their integration into Chemical and the impact of the transactions on Chemical's future performance.

Risk factors relating to these transactions and the integration of Monarch and Lake Michigan into Chemical after closing include, without limitation:

Completion of the Lake Michigan transaction is dependent on, among other things, receipt of regulatory and shareholder approvals, the timing of which cannot be predicted with precision at this point and which may not be received at all.

The impact of the completion of the Lake Michigan transaction on Chemical's financial statements will be affected by the timing of the transaction.

The transactions may be more expensive to complete and the anticipated benefits, including anticipated cost savings and strategic gains, may be significantly harder or take longer to achieve than expected or may not be achieved in their entirety as a result of unexpected factors or events.

The integration of Monarch's and Lake Michigan's business and operations into Chemical, which will include conversion of operating systems and procedures, may take longer than anticipated or be more costly than anticipated or have unanticipated adverse results relating to Monarch's, Lake Michigan's or Chemical's existing businesses. Chemical's ability to achieve anticipated results from the transactions is dependent on the state of the economic and financial markets going forward. Specifically, Chemical may incur more credit losses from Monarch's or Lake Michigan's loan portfolio than expected and deposit attrition may be greater than expected.

In addition, risk factors include, but are not limited to, the risk factors described in Item 1A of Chemical's Annual Report on Form 10-K for the year ended December 31, 2014. These and other factors are representative of the risk factors that may emerge and could cause a difference between an ultimate actual outcome and a preceding forward-looking statement.

No Offer or Solicitation

This communication is not intended to and does not constitute an offer to sell or the solicitation of an offer to subscribe for or buy or an invitation to purchase or subscribe for any securities or the solicitation of any vote or approval in any jurisdiction pursuant to any merger agreement associated with the Lake Michigan transaction or otherwise, nor shall there be any sale, issuance or transfer of securities in any jurisdiction in contravention of applicable law. No offer of securities shall be made except by means of a prospectus meeting the requirements of Section 10 of the Securities Act of 1933, as amended.

Additional Information about the Lake Michigan Transaction
