TO THE STOCKHOLDERS

For the nine months ended September 30, 2006, the investment return to our stockholders was 9.5% (assuming reinvestment of all dividends and distributions). The net asset value per Common Share increased by 5.1%. By comparison, the rate of return (including income) for our benchmark, the Standard & Poor's 500 Stock Index, was 8.5%. For the twelve months ended September 30, 2006, the return to our stockholders was 14.5%, and the return on the net asset value per Common Share was 7.9%; these compare with a return of 10.7% for the S&P 500. During each period, the discount at which our shares traded continued to fluctuate and at September 30, 2006, it was 7.8%.

As set forth in the accompanying financial statements (unaudited), as of September 30, 2006, the net assets applicable to the Company's Common Stock were \$1,163,557,535, equal to \$40.86 per Common Share.

The increase in net assets resulting from operations for the nine months ended September 30, 2006 was \$55,739,257. During this period, the net realized gain on securities sold was \$75,265,381, and the decrease in net unrealized appreciation was \$18,062,829. Net investment income for the nine months was \$7,461,705, and distributions to Preferred Stockholders amounted to \$8,925,000.

During the nine months, 573,900 shares of the Company's Common Stock were repurchased for \$21,122,590 at an average discount from net asset value of 9.2%.

The market resumed its advance in the quarter just ended, led by pharmaceutical manufacturers and companies that produce consumer non-durable goods like soft drinks, tobacco and alcoholic beverages. On a more selective basis, other gainers included retailers and technology providers. Our portfolio lagged behind the major market indices owing to weakness in commodity-based securities - notably those related to the oil and natural gas industries. It should be noted that our exposure to this sector was markedly reduced earlier in the year, as reflected in the aforementioned net realized gains on securities sold.

It appears that the economy is slowing and that the rate of earnings growth is likely to be tempered in the period immediately ahead. Personal spending, which has exceeded income gains for some time, may falter as its enabler, the rising value of housing, moderates or even reverses course. Fiscal policy has been no

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-30B-2

less generous, with government expenditure continuing to exceed tax receipts and widening trade deficits conveying more and more wealth to foreigners. Stocks may continue to perform well over the balance of the year, however, energized by the tax-cut-like result of falling gasoline prices. Furthermore, declining interest rates could have a salubrious effect on price-to-earnings ratios, and facilitate the refinancing of some mortgages that would otherwise burden consumer spending.

Information about the Company, including our investment objectives, operating policies and procedures, investment results, record of dividend and distribution payments, financial reports and press releases, is on our website and has been updated through September 30, 2006. It can be accessed on the internet at www.generalamericaninvestors.com.

NOTES TO FINANCIAL STATEMENTS (Unaudited)

----- General American Investors

1. SIGNIFICANT ACCOUNTING POLICIES - General American Investors Company, Inc. (the "Company"), established in 1927, is registered under the Investment Company Act of 1940 as a closed-end, diversified management investment company. It is internally managed by its officers under the direction of the Board of Directors.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

a. SECURITY VALUATION Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the period. Securities reported on the NASDAQ national market are valued at the official closing price on that day. Listed and NASDAQ securities for which no sales are reported on that day and other securities traded in the over-the-counter market are valued at the last bid price (asked price for open short positions) on the valuation date. Securities traded primarily in foreign markets are generally valued at the preceding closing price of such securities on their respective exchanges or markets. If, after the close of the foreign market, conditions change significantly, the price of certain foreign securities may be adjusted to reflect fair value as of the time of the valuation of the portfolio. Corporate discount notes are valued at amortized cost, which approximates market value. Investments in money market funds are valued at their net asset value. Special holdings (restricted securities) and other securities for which quotations are not readily available are valued at fair value determined in good faith pursuant to procedures established by and under the general supervision of the Board of Directors.

b. SHORT SALES The Company may make short sales of securities for either speculative or hedging purposes. When the Company makes a short sale, it borrows the securities sold short from a broker; in addition, the Company places cash with that broker and securities in a segregated account with the custodian, both as collateral for the short position. The Company may be required to pay a fee to borrow the securities and may also be obligated to pay any dividends declared on the borrowed securities. The Company will realize a gain if the security price decreases and a loss if the security price increases between the date of the short sale and the date on which the Company replaces the borrowed securities.

c. FEDERAL INCOME TAXES The Company's policy is to fulfill the requirements of

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-30B-2

the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all taxable income to its stockholders. Accordingly, no provision for Federal income taxes is required.

d. INDEMNIFICATIONS In the ordinary course of business, the Company enters into contracts that contain a variety of indemnifications. The Company's maximum exposure under these arrangements is unknown. However, the Company has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

e. OTHER As customary in the investment company industry, securities transactions are recorded as of the trade date. Dividend income and distributions to stockholders are recorded as of the ex-dividend dates. Interest income, adjusted for amortization of discount and premium on investments, is earned from settlement date and is recognized on the accrual basis. Cost of short-term investments represents amortized cost.

2. CAPITAL STOCK AND DIVIDEND DISTRIBUTIONS - The authorized capital stock of the Company consists of 50,000,000 shares of Common Stock, \$1.00 par value, and 10,000,000 shares of Preferred Stock, \$1.00 par value, of which 28,476,499 shares and 8,000,000 shares, respectively, were outstanding at September 30, 2006.

On September 24, 2003, the Company issued and sold 8,000,000 shares of its 5.95% Cumulative Preferred Stock, Series B in an underwritten offering. The Preferred Shares are noncallable for 5 years and have a liquidation preference of \$25.00 per share plus an amount equal to accumulated and unpaid dividends to the date of redemption. The underwriting discount and other expenses associated with the Preferred Stock offering amounted to \$6,700,000 and were charged to paid-in capital.

The Company is required to allocate distributions from long-term capital gains and other types of income proportionately among holders of shares of Common Stock and Preferred Stock. To the extent that dividends on the shares of Preferred Stock are not paid from long-term capital gains, they will be paid from ordinary income or net short-term capital gains or will represent a return of capital.

Under the Investment Company Act of 1940, the Company is required to maintain an asset coverage of at least 200% for the Preferred Stock. In addition, pursuant to the Rating Agency Guidelines, the Company is required to maintain a certain discounted asset coverage for its portfolio that equals or exceeds the Basic Maintenance Amount under the guidelines established by Moody's Investors Service, Inc. The Company has met these requirements since the issuance of the Preferred Stock. If the Company fails to meet these requirements in the future and does not cure such failure, the Company may be required to redeem, in whole or in part, shares of Preferred Stock at a redemption price of \$25.00 per share plus accumulated and unpaid dividends (whether or not earned or declared). In addition, the Company's failure to meet the foregoing asset coverage requirements could restrict its ability to pay dividends on shares of Common Stock and could lead to sales of portfolio securities at inopportune times.

The holders of Preferred Stock have voting rights equivalent to those of the holders of Common Stock (one vote per share) and, generally, vote together with the holders of Common Stock as a single class.

At all times, holders of Preferred Stock will elect two members of the Company's Board of Directors and the holders of Preferred and Common Stock, voting as a single class, will elect the remaining directors. If the Company fails to pay dividends on the Preferred Stock in an amount equal to two full years' dividends, the holders of Preferred Stock will have the right to elect a

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-30B-2

transactions, respectively.

5. PENSION BENEFIT PLANS - The Company has funded (Qualified) and unfunded (Supplemental) noncontributory defined benefit pension plans that cover substantially all of its employees. The plans provide defined benefits based on years of service and final average salary with an offset for a portion of social security covered compensation. The components of the net periodic benefit cost of the plans for the nine months ended September 30, 2006 were:

Service cost	\$238,047
Interest cost	513,117
Expected return on plan assets	(845,280)
Amortization of:	
Prior service cost	26,322
Recognized net actuarial loss (gain)	139,126

Net periodic benefit cost (income)	\$71,332
	=====

The Company also has funded and unfunded contributory defined contribution thrift plans that cover substantially all employees. The aggregate cost of such plans for the nine months ended September 30, 2006 was \$486,468. The unfunded liability included in accrued expenses and other liabilities at September 30, 2006 was \$2,671,702.

6. OPERATING LEASE COMMITMENT - In July 1992, the Company entered into an operating lease agreement for office space which expires in 2007 and provides for future rental payments in the aggregate amount of approximately \$5.6 million. The lease agreement contains a clause whereby the Company received twenty months of free rent beginning in December 1992 and escalation clauses relating to operating costs and real property taxes.

Rental expense approximated \$252,000 for the nine months ended September 30, 2006. Minimum rental commitments under the operating lease are approximately \$505,000 per annum in 2006 through 2007.

In January 2003, the Company extended a sublease agreement (originally entered into in March 1996) which expires in 2007 and provides for future rental receipts. Minimum rental receipts under the sublease are approximately \$254,000 per annum in 2006 through 2007. The Company will also be charged its proportionate share of operating expenses and real property taxes under the sublease.
