INTRODUCTION

This is a Pricing Supplement. It describes the Fixed Rate Notes being issued under the Medium Note Program of International Business Machines Corporation (the "Company"). This document adds to, or 'supplements' the description of the Notes referred to in the accompanying Prospectus Supplement and Prospectus. It does so by providing specific pricing and other information about the Notes issued in this particular transaction. This Pricing Supplement also amends the Prospectus Supplement and Prospectus to the extent that the description of the Notes in this Pricing Supplement is different from the terms which are set forth in the Prospectus Supplement and Prospectus.

Edgar Filing: INTERNATIONAL BUSINESS MACHINES CORP - Form 424B3

INTEREST

Interest on the Notes will be calculated based on a year of 360 days consisting of 12 months of 30 days each.

If any payment of principal or interest is due on a day that is not a Business Day, that payment may be made on the next day which is a Business Day. No additional interest will accrue as a result of the delay in payment. For purposes of this offering, the term "Business Day" means each day on which commercial banks and foreign exchange markets settle payments in The City of New York. We have capitalized a number of terms in this document. If you do not see a definition for those terms in this document, those terms will have the meanings which we have already given to them in the Prospectus Supplement and the Prospectus.

REDEMPTION

The Notes are not redeemable by the Company.
