Item 2.02. Results of Operations and Financial Condition

On January 30, 2015 we issued a press release announcing our results of operations for the fourth quarter and twelve month period ended December 31, 2014, including, among other things, income statements for those periods. In addition, on the same day we held a teleconference for analysts and media to discuss those results. The teleconference was web cast on our web site. The press release and related financial statements are attached to this Form 8-K as Exhibit 99.1.

In our press release, we use non-GAAP financial measures, such as non-GAAP net income and earnings per share, that differ from financial statements reported in conformity to U.S. generally accepted accounting principles (“GAAP”). Our non-GAAP financial measures adjust our reported results to exclude the impact of significant acquisitions and divestitures. In addition, beginning with 2015 results, we will exclude amortization of intangibles primarily associated with costs of marketed products acquired or licensed from third parties. We also exclude other items that are typically highly variable, difficult to predict, and of a size that could have a substantial impact on our reported operations for a period. We believe these non-GAAP measures provide useful information to investors. Among other things, they may help investors evaluate our ongoing operations. They can assist in making meaningful period-over-period comparisons and in identifying operating trends that would otherwise be masked or distorted by the items subject to the adjustments. Management uses these non-GAAP measures internally to evaluate the performance of the business, including to allocate resources and to evaluate results relative to incentive compensation targets. Exhibit 99.1 contains a reconciliation of non-GAAP measures to the corresponding GAAP results.

Investors should consider these non-GAAP measures in addition to, not as a substitute for or superior to, measures of financial performance prepared in accordance with GAAP. For the reasons described above for use of non-GAAP measures, our prospective earnings guidance is subject to adjustment for certain future matters, similar to those identified above, as to which prospective quantification generally is not feasible.

The information in this Item 2.02 and the press release attached as Exhibit 99.1 are considered furnished to the Commission and are not deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended.
