ITEM 1 BUSINESS

General Development of the Business

In this 10-K, we, us, our, or the Company, refers to Monmouth Real Estate Investment Corporation, together with predecessors and subsidiaries, unless the context requires otherwise.

The Company is a corporation operating as a qualified real estate investment trust (REIT) under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code.

The Company was established in 1968 as a New Jersey Business Trust (NJBT). In 1990, the NJBT merged into a newly formed Delaware corporation. On May 15, 2003, the Company changed its state of incorporation from Delaware to Maryland by merging with and into a Maryland corporation (the Reincorporation). The Reincorporation was approved by the Company's shareholders at the Company's annual meeting on May 6, 2003. In 2005, the Company formed a wholly-owned taxable REIT subsidiary organized in Maryland, named MREIC Financial, Inc. MREIC Financial, Inc. had no activity from inception through September 30, 2009.

On July 31, 2007, the Company completed its strategic combination with Monmouth Capital Corporation (Monmouth Capital), a New Jersey Corporation (the merger). As a result of the merger, each share of Monmouth Capital's common stock outstanding at the time of the merger was converted into and exchanged for the right to receive .655 shares of the Company's common stock and the Company became the owner of all of the outstanding stock of Monmouth Capital. As a result of this transaction, the Company issued 3,727,706 shares of common stock valued at approximately \$32,400,000. The total cost of the merger paid by the Company was approximately \$33,970,000, which included the value of outstanding stock options of Monmouth Capital and certain transaction costs. The assets and liabilities of Monmouth Capital as of the effective time of the merger were recorded by the Company at their respective fair values and added to those of the Company.

The Company's primary business is the ownership of real estate. Its investment focus is to own net leased industrial properties which are leased to investment-grade tenants on long-term leases. In addition, the Company holds a portfolio of REIT securities.

Narrative Description of Business

Currently, the Company derives its income primarily from real estate rental operations. Rental and reimbursement revenue was \$41,318,498, \$39,148,259 and \$28,237,404 for the years ended September 30, 2009, 2008 and 2007, respectively. Total assets were \$394,774,778 and \$389,077,597 as of September 30, 2009 and 2008, respectively.

The Company has approximately 6,132,000 square feet of space that it leases, of which approximately 2,910,000 square feet, or 47%, is leased to Federal Express Corporation (FDX) and its subsidiaries and approximately 279,000 square feet, or 5%, is leased to Keebler Company, a subsidiary of the Kellogg Company. During 2009, 2008 and 2007, rental and reimbursement revenue from properties leased to these companies approximated 64%, 61% and 55%, respectively, of total rental and reimbursement revenue. The Company's weighted-average lease expiration was 5.0 years as of September 30, 2009 and its average rent per occupied square foot as of September 30, 2009 and 2008 was \$5.64 and \$5.28, respectively. At September 30, 2009 and 2008, the Company's occupancy was 96% and 98%, respectively.

At September 30, 2009, the Company owns fifty-nine rental properties. (See Item 2 for a detailed description of the properties.) These properties are located in twenty-five states: Alabama, Arizona, Colorado, Connecticut, Florida, Georgia, Illinois, Iowa, Kansas, Maryland, Michigan, Minnesota, Missouri, Mississippi, North Carolina, Nebraska, New Jersey, New York, Ohio, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, and

Wisconsin. All properties are leased on a net basis except the industrial park in Monaca, Pennsylvania and the shopping center in Somerset, New Jersey.

In fiscal 2009, the Company purchased a 40,000 square foot industrial property in Topeka, Kansas for a total cost of approximately \$4,088,000. The Company acquired a 449,900 square foot industrial building in Memphis, Tennessee in the first fiscal quarter of 2010 for approximately \$14,600,000. The Company has a contract to purchase an industrial property for approximately \$8,050,000 which transaction is expected to close in the first quarter of fiscal 2010. The Company anticipates additional acquisitions in 2010. The funds for these acquisitions are expected to come from mortgages, other bank borrowings, proceeds from the Dividend Reinvestment and Stock Purchase Plan (DRIP), private placements and public offerings or placements of additional common or preferred stock or other securities. To the extent that funds or appropriate properties are not available, fewer acquisitions will be made. Because of the contingent nature of contracts to purchase real property, the Company announces acquisitions only upon closing.

The Company competes with other investors in real estate for attractive investment opportunities. These investors include other equity real estate investment trusts, limited partnerships, syndications and private investors, among others. Competition in the market areas in which the Company operates is significant and affects the Company's ability to acquire or expand properties, occupancy levels, rental rates, and operating expenses of certain properties. Management has built relationships with merchant builders which have historically provided the Company with investment opportunities which fit the Company's investment policy.

The Company continues to invest in both debt and equity securities of other REITs. The Company from time to time may purchase these securities on margin when the interest and dividend yields exceed the cost of the funds. This securities portfolio, to the extent not pledged to secure borrowings, provides the Company with liquidity and additional income. Such securities are subject to risk arising from adverse changes in market rates and prices, primarily interest rate risk relating to debt securities and equity price risk relating to equity securities. From time to time, the Company may use derivative instruments to mitigate interest rate risk. At September 30, 2009 and 2008, the Company had \$27,824,665 and \$21,005,663, respectively, of securities available for sale. The unrealized net gain (loss) on securities available for sale at September 30, 2009 and 2008 was \$3,796,831 and (\$6,139,451), respectively.

Investment and Other Policies

The Company's investment policy is to concentrate its investments in the area of long-term net-leased industrial properties to investment grade tenants. The Company's strategy is to obtain a favorable yield spread between the yield from the net-leased industrial properties and mortgage interest costs. In addition, management believes that investments in well-located industrial properties provide a potential for long-term capital appreciation. There is the risk that, upon expiration of current leases, the properties will become vacant or re-leased at lower rents. The results obtained by the Company by re-leasing the properties will depend on the market for industrial properties at that time.

The Company seeks to invest in well-located, modern buildings leased to investment grade tenants on long-term leases. In management's opinion, newly built facilities leased to FDX or FDX subsidiaries meet these criteria. The Company has a concentration of properties leased to FDX and FDX subsidiaries. This is a risk factor that shareholders should consider. FDX is a publicly-owned corporation and information on its financial and business operations is readily available to the Company's shareholders.

The Company had operated as part of a group of three public companies (all REITs) which included UMH Properties, Inc. (UMH) and Monmouth Capital (the affiliated companies). Monmouth Capital was merged into the Company on July 31, 2007. The Company continues to operate in conjunction with UMH. UMH has focused its investing in manufactured home communities. General and administrative expenses are allocated between the Company and UMH based on use or services provided, pursuant to a cost sharing arrangement between the affiliated companies. The Company currently has nine employees. Allocations of salaries and benefits are made between the affiliated companies based on the amount of the employees' time dedicated to each affiliated company.

The Company may issue securities for property; however, this has not occurred to date. The Company may repurchase or reacquire its shares from time to time if, in the opinion of the Board of Directors, such acquisition is advantageous to the Company.

Property Management

All of the wholly-owned properties and the shopping center are managed by Cronheim Management Services, Inc. (CMS), a division of David Cronheim Company, a related party as discussed in Note No. 13 to the Consolidated Financial Statements. During fiscal 2009, 2008 and 2007, the Company was subject to management contracts with CMS. For each of the calendar years 2009, 2008, and 2007 the management fee was fixed at \$380,000. CMS provides sub-agents as regional managers for the Company's properties and compensates them out of this management fee.

CMS also received \$20,352, \$3,219 and \$33,273 in lease commissions in 2009, 2008 and 2007, respectively. CMS received \$42,558 for a real estate commission on the sale of the South Brunswick, New Jersey property in 2007. The David Cronheim Mortgage Corporation, an affiliated company, received \$-0-, \$-0- and \$47,250 in mortgage brokerage commissions in 2009, 2008 and 2007, respectively.

The industrial property in Carlstadt, New Jersey is owned by Palmer Terrace Realty Associates, LLC. This property is managed by Marcus Associates, an entity affiliated with the 49% minority partner. Management fees paid to Marcus Associates for 2009, 2008 and 2007 (from the time of the merger) totaled \$14,399, \$12,993 and \$2,166, respectively. The industrial properties in Wheeling, Illinois and El Paso, Texas, are owned by Wheeling Partners, LLC and Jones EPI, LLC, respectively. These properties are managed by Jones Development Company, an entity affiliated with the 37% and 35% minority partners, respectively. Management fees paid to Jones Development Company for 2009, 2008 and 2007 (from the time of the merger) were \$20,531, \$20,327 and \$3,477, respectively.

Additional information about the Company can be found on the Company's website which is located at www.mreic.com. The Company makes available, free of charge, on or through its website, annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, as soon as reasonably practicable after we electronically file such material with, or furnish it to, the Securities and Exchange Commission (SEC). You can also read and copy any materials the Company files with the SEC at its Public Reference Room at 100 F Street, NE, Washington, DC 20549 (1-800-SEC-0330). The SEC maintains an Internet site (<http://www.sec.gov>) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC.

Environmental Matters

Under various federal, state and local environmental laws, statutes, ordinances, rules and regulations, an owner of real property may be liable for the costs of removal or remediation of certain hazardous or toxic substances at, on, in or under such property as well as certain other potential costs relating to hazardous or toxic substances. These liabilities may include government fines and penalties and damages for injuries to persons and adjacent property. Such laws often impose liability without regard to whether the owner knew of, or was responsible for, the presence or disposal of such substances. Although generally our tenants are primarily responsible for any environmental damage and claims related to the leased premises, in the event of the bankruptcy or inability of a tenant of such premises to satisfy any obligations with respect to such environmental liability, the Company may be required to satisfy such obligations. In addition, as the owner of such properties, the Company may be held directly liable for any such damages or claims irrespective of the provisions of any lease.

From time to time, in connection with the conduct of the business or upon acquisition of a property, the Company authorizes the preparation of Phase I and, when necessary, Phase II environmental reports with respect to its properties. Based upon such environmental reports and the Company's ongoing review of its properties, as of the date of this Annual Report, the Company is not aware of any environmental condition with respect to any of its properties which it believes would be reasonably likely to have a material adverse effect on its financial condition and/or results of operations. There can be no assurance, however, that (1) the discovery of environmental conditions, the existence or severity of which were previously unknown; (2) changes in law; (3) the conduct of

tenants; or (4) activities relating to properties in the vicinity of our properties, will not expose the Company to material liability in the future.

ITEM 1A RISK FACTORS

Real Estate Industry Risks

Our business and financial results are affected by local real estate conditions in areas where we own properties.

We may be affected adversely by general economic conditions and local real estate conditions. For example, an oversupply of industrial properties in a local area or a decline in the attractiveness of our properties to tenants and potential tenants would have a negative effect on us.

Other factors that may affect general economic conditions or local real estate conditions include:

- population and demographic trends;
- employment and personal income trends;
- zoning, use and other regulatory restrictions;
- income tax laws;
- changes in interest rates and availability and costs of financing;
- competition from other available real estate;
- our ability to provide adequate maintenance and insurance; and
-

increased operating costs, including insurance premiums, utilities and real estate taxes, which may not be offset by increased rents.

We may be unable to compete with our larger competitors and other alternatives available to tenants or potential tenants of our properties. The real estate business is highly competitive. We compete for properties with other real estate investors and purchasers, including other real estate investment trusts, limited partnerships, syndications and private investors, many of whom have greater financial resources, revenues and geographical diversity than we have. Furthermore, we compete for tenants with other property owners. All of our industrial properties are subject to significant local competition. We also compete with a wide variety of institutions and other investors for capital funds necessary to support our investment activities and asset growth. To the extent that we are unable to effectively compete in the marketplace, our business may be adversely affected.

We are subject to significant regulation that inhibits our activities and may increase our costs. Local zoning and use laws, environmental statutes and other governmental requirements may restrict expansion, rehabilitation and reconstruction activities. These regulations may prevent us from taking advantage of economic opportunities. Legislation such as the Americans with Disabilities Act may require us to modify our properties at a substantial cost and noncompliance could result in the imposition of fines or an award of damages to private litigants. Future legislation may impose additional requirements. We cannot predict what requirements may be enacted or amended or what costs we will incur to comply with such requirements.

Our investments are concentrated in the industrial distribution sector and our business would be adversely affected by an economic downturn in that sector. Our investments in real estate assets are primarily concentrated in the industrial distribution sector. This concentration may expose us to the risk of economic downturns in this sector to a greater extent than if our business activities included a more significant portion of other sectors of the real estate industry.

Risks Associated with Our Properties

We may be unable to renew leases or relet space as leases expire. While we seek to invest in well-located, modern buildings leased to investment grade tenants on long-term leases, a number of our properties are subject to short-term leases. When a lease expires, a tenant may elect not to renew it. We may not be able to relet the property on similar terms, if we are able to relet the property at all. The terms of renewal or re-lease (including the cost of required renovations and/or concessions to tenants) may be less favorable to us than the prior lease. If we are unable to relet all or a substantial portion of our properties, or if the rental rates upon such reletting are significantly lower than expected rates, our cash generated before debt repayments and capital expenditures and our ability to make expected distributions, may be adversely affected. We have established an annual budget for renovation and reletting expenses that we believe is reasonable in light of each property's operating history and local market characteristics. This budget, however, may not be sufficient to cover these expenses.

Our business is substantially dependent on Federal Express Corporation. FDX is our largest tenant. As of September 30, 2009, FDX leased approximately 47% of the total square footage that we own. Annualized rental income and occupancy charges from FDX and its subsidiaries are estimated at approximately 59% of total rental and reimbursement revenue for fiscal 2009. If FDX were to terminate its leases with us or become unable to make lease payments because of a downturn in its business or otherwise, our financial condition and ability to make expected distributions would be materially and adversely affected.

We are subject to risks involved in single tenant leases .. We focus our acquisition activities on real properties that are net leased to single tenants. Therefore, the financial failure of, or other default by, a single tenant under its lease is likely to cause a significant reduction in the operating cash flow generated by the property leased to that tenant and might decrease the value of that property. In addition, we will be responsible for 100% of the operating costs following a vacancy at a single tenant building.

We may be affected negatively by tenant financial difficulties and leasing delays. At any time, a tenant may experience a downturn in its business that may weaken its financial condition. Similarly, a general decline in the economy may result in a decline in the demand for space at our industrial properties. As a result, our tenants may delay lease commencement, fail to make rental payments when due, or declare bankruptcy. Any such event could result in the termination of that tenant's lease and losses to us, resulting in a decrease of distributions to investors. We receive a substantial portion of our income as rents under long-term leases. If tenants are unable to comply with the terms of their leases because of rising costs or falling revenues, we, in our sole discretion, may deem it advisable to modify lease terms to allow tenants to pay a lower rental rate or a smaller share of operating costs, taxes and insurance. If a tenant becomes insolvent or bankrupt, we cannot be sure that we could recover the premises from the tenant promptly or from a trustee or debtor-in-possession in any bankruptcy proceeding relating to the tenant. We also cannot be sure that we would receive rent in the proceeding sufficient to cover our expenses with respect to the premises. If a tenant becomes bankrupt, the federal bankruptcy code will apply and, in some instances, may restrict the amount and recoverability of our claims against the tenant. A tenant's default on its obligations to us for any reason could adversely affect our financial condition and the cash we have available for distribution.

We may be unable to sell properties when appropriate because real estate investments are illiquid. Real estate investments generally cannot be sold quickly and, therefore, will tend to limit our ability to vary our property portfolio promptly in response to changes in economic or other conditions. In addition, the Code limits our ability to sell our properties. The inability to respond promptly to changes in the performance of our property portfolio could adversely affect our financial condition and ability to service debt and make distributions to our stockholders.

Environmental liabilities could affect our profitability. We face possible environmental liabilities. Environmental laws today can impose liability on a previous owner or operator of a property that owned or operated the property at a time when hazardous or toxic substances were disposed on, or released from, the property. A conveyance of the property, therefore, does not relieve the owner or operator from liability. As a current or former owner and operator of real estate, we may be required by law to investigate and clean up hazardous substances released at or from the properties we currently own or operate or have in the past owned or operated. We may also

be liable to the government or to third parties for property damage, investigation costs and cleanup costs. In addition, some environmental laws create a lien on the contaminated site in favor of the government for damages and costs the government incurs in connection with the contamination. Contamination may adversely affect our ability to sell or lease real estate or to borrow using the real estate as collateral. We are not aware of any environmental liabilities relating to our investment properties which would have a material adverse effect on our business, assets, or results of operations. However, we cannot assure you that environmental liabilities will not arise in the future and that such liabilities will not have a material adverse effect on our business, assets or results of operation.

Actions by our competitors may decrease or prevent increases in the occupancy and rental rates of our properties.

We compete with other owners and operators of real estate, some of which own properties similar to ours in the same submarkets in which our properties are located. If our competitors offer space at rental rates below current market rates or below the rental rates we currently charge our tenants, we may lose potential tenants, and we may be pressured to reduce our rental rates below those we currently charge in order to retain tenants when our tenants' leases expire. As a result, our financial condition, cash flow, cash available for distribution, market price of our preferred and common stock and ability to satisfy our debt service obligations could be materially adversely affected.

Coverage under our existing insurance policies may be inadequate to cover losses. We generally maintain insurance policies related to our business, including casualty, general liability and other policies, covering our business operations, employees and assets. However, we would be required to bear all losses that are not adequately covered by insurance. In addition, there are certain losses that are not generally insured because it is not economically feasible to insure against them, including losses due to riots or acts of war. If an uninsured loss or a loss in excess of insured limits were to occur with respect to one or more of our properties, then we could lose the capital we invested in the properties, as well as the anticipated future revenue from the properties and, in the case of debt, which is with recourse to us, we would remain obligated for any mortgage debt or other financial obligations related to the properties. Although we believe that our insurance programs are adequate, we cannot assure you that we will not incur losses in excess of our insurance coverage, or that we will be able to obtain insurance in the future at acceptable levels and reasonable costs.

We may be unable to acquire properties on advantageous terms or acquisitions may not perform as we expect. We have acquired individual properties and portfolios of properties, and intend to continue to do so. Our acquisition activities and their success are subject to the following risks:

-

when we are able to locate a desired property, competition from other real estate investors may significantly increase the purchase price;

-

acquired properties may fail to perform as expected;

-

the actual costs of repositioning or redeveloping acquired properties may be higher than our estimates;

-

acquired properties may be located in new markets where we face risks associated with an incomplete knowledge or understanding of the local market, a limited number of established business relationships in the area and a relative unfamiliarity with local governmental and permitting procedures;

-

we may be unable to quickly and efficiently integrate new acquisitions, particularly acquisition of portfolios of properties, into our existing operations, and as a result, our results of operations and financial condition could be adversely affected; and

-

we may acquire properties subject to liabilities and without any recourse, or with only limited recourse. As a result, if a claim were asserted against us based upon ownership of those properties, we might have to pay substantial sums to resolve it, which could adversely affect our cash flow and financial condition.

Financing Risks

We face inherent risks associated with our debt incurrence. We finance a portion of our investments in properties and marketable securities through the incurrence of debt. We are subject to the risks normally associated with debt financing, including the risk that our cash flow will be insufficient to meet required payments of principal and interest. In addition, debt creates other risks, including:

- rising interest rates on our variable rate debt;
- failure to repay or refinance existing debt as it matures, which may result in forced disposition of assets on disadvantageous terms;
- refinancing terms less favorable than the terms of existing debt; and
- failure to meet required payments of principal and/or interest.

We mortgage our properties, which subjects us to the risk of foreclosure in the event of non-payment. We mortgage many of our properties to secure payment of indebtedness and if we are unable to meet mortgage payments, then the property could be foreclosed upon or transferred to the mortgagee with a consequent loss of income and asset value. A foreclosure of one or more of our properties could adversely affect our financial condition, results of operations, cash flow, ability to service debt and make distributions and the market price of our preferred and common stock.

We face risks related to balloon payments and refinancings. Certain of our mortgages will have significant outstanding principal balances on their maturity dates, commonly known as balloon payments. There can be no assurance that we will be able to refinance the debt on favorable terms or at all. To the extent we cannot refinance debt on favorable terms or at all, we may be forced to dispose of properties on disadvantageous terms or pay higher interest rates, either of which would have an adverse impact on our financial performance and ability to service debt and make distributions.

We face risks associated with our dependence on external sources of capital. In order to qualify as a REIT, we are required each year to distribute to our stockholders at least 90% of our REIT taxable income, and we are subject to tax on our income to the extent it is not distributed. Because of this distribution requirement, we may not be able to fund all future capital needs from cash retained from operations. As a result, to fund capital needs, we rely on third-party sources of capital, which we may not be able to obtain on favorable terms, if at all. Our access to third-party sources of capital depends upon a number of factors, including (i) general market conditions; (ii) the market's perception of our growth potential; (iii) our current and potential future earnings and cash distributions; and (iv) the market price of our capital stock. Additional debt financing may substantially increase our debt-to-total capitalization ratio. Additional equity issuance may dilute the holdings of our current stockholders.

We may become more highly leveraged, resulting in increased risk of default on our obligations and an increase in debt service requirements which could adversely affect our financial condition and results of operations and our ability to pay distributions . We have incurred, and may continue to incur, indebtedness in furtherance of our activities . Our governing documents do not limit the amount of indebtedness we may incur. Accordingly, our board of directors may vote to incur additional debt and would do so, for example, if it were necessary to maintain our status as a REIT. We could therefore become more highly leveraged, resulting in an increased risk of default on our obligations and in an increase in debt service requirements which could adversely affect our financial condition and results of operations and our ability to pay distributions to stockholders.

Covenants in our credit agreements could limit our flexibility and adversely affect our financial condition. The terms of our various credit agreements and other indebtedness require us to comply with a number of customary financial and other covenants, such as maintaining debt service coverage and leverage ratios and maintaining insurance coverage. These covenants may limit our flexibility in our operations, and breaches of these covenants could result in defaults under the instruments governing the applicable indebtedness even if we had

satisfied our payment obligations. If we were to default under credit agreements, our financial condition would be adversely affected.

Other Risks

Current economic conditions, including recent volatility in the capital and credit markets, could harm our business, results of operations and financial condition. The United States is in the midst of an economic recession with the capital and credit markets experiencing extreme volatility and disruption. The current economic environment has been affected by dramatic declines in the stock and housing markets, increases in foreclosures, unemployment and living costs as well as limited access to credit. This deteriorating economic situation has impacted and is expected to continue to impact consumer spending levels. A sustained economic downward trend could impact our tenants' ability to meet their lease obligations due to poor operating results, lack of liquidity, bankruptcy or other reasons. Our ability to lease space and negotiate rents at advantageous rates could also be affected in this type of economic environment. Additionally, if current levels of market volatility continue to worsen, access to capital and credit markets could be disrupted over a more extended period, which may make it difficult to obtain the financing we may need for future growth and/or to meet our debt service obligations as they mature. Any of these events could harm our business, results of operations and financial condition.

We may not be able to access adequate cash to fund our business. Our business requires access to adequate cash to finance our operations, distributions, capital expenditures, debt service obligations, development and redevelopment costs and property acquisition costs, if any. We expect to generate the cash to be used for these purposes primarily with operating cash flow, borrowings under secured term loans, proceeds from sales of strategically identified assets and, when market conditions permit, through the issuance of debt and equity securities from time to time. We may not be able to generate sufficient cash to fund our business, particularly if we are unable to renew leases, lease vacant space or re-lease space as leases expire according to expectations.

Moreover, difficult conditions in the financial markets, and the economy generally, have caused many lenders to suffer substantial losses, thereby causing many financial institutions to seek additional capital, to merge with other institutions and, in some cases, to fail. As a result, the real estate debt markets are experiencing a period of uncertainty, which may reduce our access to funding alternatives, or our ability to refinance debt on favorable terms, or at all. In addition, market conditions, such as the current global economic environment, may also hinder our ability to sell strategically identified assets and access the debt and equity capital markets. If these conditions persist, we may need to find alternative ways to access cash to fund our business, including distributions to shareholders. Such alternatives may include, without limitation, curtailing development or redevelopment activity, disposing of one or more of our properties possibly on disadvantageous terms or entering into or renewing leases on less favorable terms than we otherwise would, all of which could adversely affect our profitability. If we are unable to generate, borrow or raise adequate cash to fund our business through traditional or alternative means, our business, operations, financial condition and distribution to shareholders will be adversely affected.

We are dependent on key personnel. Our executive and other senior officers have a significant role in our success. Our ability to retain our management group or to attract suitable replacements should any members of the management group leave is dependent on the competitive nature of the employment market. The loss of services from key members of the management group or a limitation in their availability could adversely affect our financial condition and cash flow. Further, such a loss could be negatively perceived in the capital markets.

We may amend our business policies without your approval. Our board of directors determines our growth, investment, financing, capitalization, borrowing, REIT status, operations and distributions policies. Although our board of directors has no present intention to amend or reverse any of these policies, they may be amended or revised without notice to stockholders. Accordingly, stockholders may not have control over changes in our policies. We cannot assure you that changes in our policies will serve fully the interests of all stockholders.

The market value of our preferred and common stock could decrease based on our performance and market perception and conditions. The market value of our preferred and common stock may be based primarily upon the market's perception of our growth potential and current and future cash dividends, and may be secondarily based upon the real estate market value of our underlying assets. The market price of our preferred and common

stock is influenced by their respective distributions relative to market interest rates. Rising interest rates may lead potential buyers of our stock to expect a higher distribution rate, which would adversely affect the market price of our stock. In addition, rising interest rates would result in increased expense, thereby adversely affecting cash flow and our ability to service our indebtedness and pay distributions.

There are restrictions on the transfer of our capital stock. To maintain our qualification as a REIT under the Code, no more than 50% in value of our outstanding capital stock may be owned, actually or by attribution, by five or fewer individuals, as defined in the Code to also include certain entities, during the last half of a taxable year. Accordingly, our charter and bylaws contain provisions restricting the transfer of our capital stock.

Our earnings are dependent, in part, upon the performance of our investment portfolio. As permitted by the Code, we invest in and own securities of other real estate investment trusts. To the extent that the value of those investments declines or those investments do not provide an attractive return, our earnings and cash flow could be adversely affected.

We are subject to restrictions that may impede our ability to effect a change in control. Certain provisions contained in our charter and bylaws and certain provisions of Maryland law may have the effect of discouraging a third party from making an acquisition proposal for us and thereby inhibit a change in control. These provisions include the following:

-

Our charter provides for three classes of directors with the term of office of one class expiring each year, commonly referred to as a "staggered board." By preventing common stockholders from voting on the election of more than one class of directors at any annual meeting of stockholders, this provision may have the effect of keeping the current members of our board of directors in control for a longer period of time than stockholders may desire.

-

Our charter generally limits any holder from acquiring more than 9.8% (in value or in number, whichever is more restrictive) of our outstanding equity stock (defined as all of our classes of capital stock, except our excess stock). While this provision is intended to assure our ability to remain a qualified REIT for Federal income tax purposes, the ownership limit may also limit the opportunity for stockholders to receive a premium for their shares of common stock that might otherwise exist if an investor was attempting to assemble a block of shares in excess of 9.8% of the outstanding shares of equity stock or otherwise effect a change in control.

-

The request of the holders of a majority or more of our common stock is necessary for stockholders to call a special meeting. We also require advance notice by common stockholders for the nomination of directors or proposals of business to be considered at a meeting of stockholders.

Our Board of Directors may authorize and issue securities without stockholder approval. Under our Charter, the board has the power to classify and reclassify any of our unissued shares of capital stock into shares of capital stock with such preferences, rights, powers and restrictions as the board of directors may determine. The authorization and issuance of a new class of capital stock could have the effect of delaying or preventing someone from taking control of us, even if a change in control were in our stockholders' best interests.

Maryland business statutes may limit the ability of a third party to acquire control of us. Maryland law provides protection for Maryland corporations against unsolicited takeovers by limiting, among other things, the duties of the directors in unsolicited takeover situations. The duties of directors of Maryland corporations do not require them to (a) accept, recommend or respond to any proposal by a person seeking to acquire control of the corporation, (b) authorize the corporation to redeem any rights under, or modify or render inapplicable, any stockholders rights plan, (c) make a determination under the Maryland Business Combination Act or the Maryland Control Share Acquisition Act, or (d) act or fail to act solely because of the effect of the act or failure to act may have on an acquisition or potential acquisition of control of the corporation or the amount or type of consideration that may be offered or paid to the stockholders in an acquisition. Moreover, under Maryland law the act of a director of a Maryland corporation relating to or affecting an acquisition or potential acquisition of control is not subject to any higher duty or greater scrutiny than is applied to any other act of a director. Maryland law also contains a

statutory presumption that an act of a director of a Maryland corporation satisfies the applicable standards of conduct for directors under Maryland law.

The Maryland Business Combination Act provides that unless exempted, a Maryland corporation may not engage in business combinations, including mergers, dispositions of 10 percent or more of its assets, certain issuances of shares of stock and other specified transactions, with an interested stockholder or an affiliate of an interested stockholder for five years after the most recent date on which the interested stockholder became an interested stockholder, and thereafter unless specified criteria are met. An interested stockholder is generally a person owning or controlling, directly or indirectly, 10 percent or more of the voting power of the outstanding stock of the Maryland corporation. In our charter, we have expressly elected that the Maryland Business Combination Act not govern or apply to any transaction with UMH, a Maryland corporation.

We cannot assure you that we will be able to pay distributions regularly. Our ability to pay distributions in the future is dependent on our ability to operate profitably and to generate cash from our operations and the operations of our subsidiaries. We cannot guarantee that we will be able to pay distributions on a regular quarterly basis in the future.

If our leases are not respected as true leases for federal income tax purposes, we would fail to qualify as a REIT.

To qualify as a REIT, we must, among other things, satisfy two gross income tests, under which specified percentages of our gross income must be passive income, such as rent. For the rent paid pursuant to our leases, to qualify for purposes of the gross income tests, the leases must be respected as true leases for federal income tax purposes and not be treated as service contracts, joint ventures or some other type of arrangement. We believe that our leases will be respected as true leases for federal income tax purposes. However, there can be no assurance that the Internal Revenue Service (IRS) will agree with this view. If the leases are not respected as true leases for federal income tax purposes, we would not be able to satisfy either of the two gross income tests applicable to REITs, and we could lose our REIT status.

Failure to make required distributions would subject us to additional tax. In order to qualify as a REIT, we must, among other requirements, distribute, each year, to our stockholders at least 90 percent of our taxable income, excluding net capital gains. To the extent that we satisfy the 90 percent distribution requirement, but distribute less than 100 percent of our taxable income, we will be subject to federal corporate income tax on our undistributed income. In addition, we will incur a 4 percent nondeductible excise tax on the amount, if any, by which our distributions (or deemed distributions) in any year are less than the sum of:

- 85 percent of our ordinary income for that year;
- 95 percent of our capital gain net earnings for that year; and
- 100 percent of our undistributed taxable income from prior years.

To the extent we pay out in excess of 100 percent of our taxable income for any tax year, we may be able to carry forward such excess to subsequent years to reduce our required distributions in such years. We intend to pay out our income to our stockholders in a manner intended to satisfy the distribution requirement. Differences in timing between the recognition of income and the related cash receipts or the effect of required debt amortization payments could require us to borrow money or sell assets to pay out enough of our taxable income to satisfy the distribution requirement and to avoid corporate income tax.

We may not have sufficient cash available from operations to pay distributions, and, therefore, distributions may be made from borrowings. The actual amount and timing of distributions will be determined by our board of directors in

its discretion and typically will depend on the amount of cash available for distribution, which will depend on items such as current and projected cash requirements and tax considerations. As a result, we may not have sufficient cash available from operations to pay distributions as required to maintain our status as a REIT. Therefore, we may need to borrow funds to make sufficient cash distributions in order to maintain our status as a REIT, which may cause us to incur additional interest expense as a result of an increase in borrowed funds for the purpose of paying distributions.

We may be required to pay a penalty tax upon the sale of a property. The federal income tax provisions applicable to REITs provide that any gain realized by a REIT on the sale of property held as inventory or other property held primarily for sale to customers in the ordinary course of business is treated as income from a prohibited transaction that is subject to a 100 percent penalty tax. Under current law, unless a sale of real property qualifies for a safe harbor, the question of whether the sale of real estate or other property constitutes the sale of property held primarily for sale to customers is generally a question of the facts and circumstances regarding a particular transaction. We intend that we and our subsidiaries will hold the interests in the real estate for investment with a view to long-term appreciation, engage in the business of acquiring and owning real estate, and make occasional sales as are consistent with our investment objectives. We do not intend to engage in prohibited transactions. We cannot assure you, however, that we will only make sales that satisfy the requirements of the safe harbors or that the IRS will not successfully assert that one or more of such sales are prohibited transactions.

We may fail to qualify as a REIT. If we fail to qualify as a REIT, we will not be allowed to deduct distributions to stockholders in computing our taxable income and will be subject to Federal income tax, including any applicable alternative minimum tax, at regular corporate rates. In addition, we might be barred from qualification as a REIT for the four years following disqualification. The additional tax incurred at regular corporate rates would reduce significantly the cash flow available for distribution to stockholders and for debt service.

Furthermore, we would no longer be required to make any distributions to our stockholders as a condition to REIT qualification. Any distributions to stockholders would be taxable as ordinary income to the extent of our current and accumulated earnings and profits, although such dividend distributions would be subject to a top federal tax rate of 15% through 2010. Corporate distributees, however, may be eligible for the dividends received deduction on the distributions, subject to limitations under the Code.

To qualify as a REIT, we must comply with certain highly technical and complex requirements. We cannot be certain we have complied, and will always be able to comply, with the requirements to qualify as a REIT because there are few judicial and administrative interpretations of these provisions. In addition, facts and circumstances that may be beyond our control may affect our ability to continue to qualify as a REIT. We cannot assure you that new legislation, regulations, administrative interpretations or court decisions will not change the tax laws significantly with respect to our qualification as a REIT or with respect to the Federal income tax consequences of qualification. We believe that we have qualified as a REIT since our inception and intend to continue to qualify as a REIT. However, we cannot assure you that we are qualified or will remain qualified.

There is a risk of changes in the tax law applicable to real estate investment trusts. Because the Internal Revenue Service, the United States Treasury Department and Congress frequently review federal income tax legislation, we cannot predict whether, when or to what extent new federal tax laws, regulations, interpretations or rulings will be adopted. Any of such legislative action may prospectively or retroactively modify our tax treatment and, therefore, may adversely affect taxation of us and/or our investors.

We may be unable to comply with the strict income distribution requirements applicable to REITs. To maintain qualification as a REIT under the Code, a REIT must annually distribute to its stockholders at least 90% of its REIT taxable income, excluding the dividends paid deduction and net capital gains. This requirement limits our ability to accumulate capital. We may not have sufficient cash or other liquid assets to meet the distribution requirements. Difficulties in meeting the distribution requirements might arise due to competing demands for our funds or to timing differences between tax reporting and cash receipts and disbursements, because income may have to be reported before cash is received, because expenses may have to be paid before a deduction is allowed, because deductions may be disallowed or limited or because the Internal Revenue Service may make a determination that adjusts reported income. In those situations, we might be required to borrow funds or sell properties on adverse terms in order to meet the distribution requirements and interest and penalties could apply which could adversely affect our financial condition. If we fail to make a required distribution, we would cease to be taxed as a REIT.

Notwithstanding our status as a REIT, we are subject to various federal, state and local taxes on our income and property. For example, we will be taxed at regular corporate rates on any undistributed taxable income, including undistributed net capital gains, provided; however, that properly designated undistributed capital gains will effectively avoid taxation at the stockholder level. We may be subject to other Federal income taxes and may also

have to pay some state income or franchise taxes because not all states treat REITs in the same manner as they are treated for Federal income tax purposes.

Future terrorist attacks and military conflicts could have a material adverse effect on general economic conditions, consumer confidence and market liquidity. Among other things, it is possible that interest rates may be affected by these events. An increase in interest rates may increase our costs of borrowing, leading to a reduction in our earnings. Terrorist acts could also result in significant damages to, or loss of, our properties.

We and our tenants may be unable to obtain adequate insurance coverage on acceptable economic terms for losses resulting from acts of terrorism. Our lenders may require that we carry terrorism insurance even if we do not believe this insurance is necessary or cost effective. We may also be prohibited under the applicable lease from passing all or a portion of the cost of such insurance through to the tenant. Should an act of terrorism result in an uninsured loss or a loss in excess of insured limits, we could lose capital invested in a property, as well as the anticipated future revenues from a property, while remaining obligated for any mortgage indebtedness or other financial obligations related to the property. Any loss of these types would adversely affect our financial condition.

We are subject to risks arising from litigation. We may become involved in litigation. Litigation can be costly, and the results of litigation are often difficult to predict. We may not have adequate insurance coverage or contractual protection to cover costs and liability in the event we are sued, and to the extent we resort to litigation to enforce our rights, we may incur significant costs and ultimately be unsuccessful or unable to recover amounts we believe are owed to us. We may have little or no control of the timing of litigation, which presents challenges to our strategic planning.

ITEM 2 - PROPERTIES

The Company operates as a REIT. Our portfolio is primarily comprised of real estate holdings, some of which have been long-term holdings carried on our financial statements at depreciated cost. It is believed that their current market values exceed both the original cost and the depreciated cost.

On September 30, 2009, the closing price of our common stock was \$6.96.

As of September 30, 2009, there were approximately 1,222 shareholders of record who held shares of common stock of the Company.

It is the Company's intention to continue distributing quarterly dividends. On October 6, 2009 the Company declared a dividend of \$.15 per share to be paid on December 15, 2009 to shareholders of record on November 16, 2009.

Future dividend policy will depend on the Company's earnings, capital requirements, financial condition, availability and cost of bank financing and other factors considered relevant by the board of directors.

On October 20, 2009, the Company issued 1,730,200 shares of common stock in a registered direct placement at a price of \$6.50 per share. The Company received net proceeds of approximately \$10,500,000 and intends to use the net proceeds to acquire additional properties in the ordinary course of business and for general corporate purposes.

The Company has outstanding 1,322,500 shares of 7.625% Series A Cumulative Redeemable Preferred Stock, par value \$.01 per share (Series A Preferred Stock). The Series A Preferred Stock ranks, as to dividend rights and rights upon our liquidation, dissolution or winding up, senior to our common stock and equal to any equity securities that we may issue in the future, the terms of which specifically provide that such equity securities rank equal to the Series A Preferred Stock. We are required to pay cumulative dividends on the Series A Preferred Stock in the amount of \$1.90625 per share each year, which is equivalent to 7.625% of the \$25.00 liquidation value per share. On October 6, 2009, the board of directors declared a quarterly dividend of \$0.4766 per share to be paid December 15, 2009 to shareholders of record as of November 16, 2009.

Issuer Purchases of Equity Securities

On March 3, 2009, the board of directors approved a Share Repurchase Program (the repurchase program) that authorizes the Company to purchase up to \$10,000,000 in the aggregate of the Company's common stock. The repurchase program is intended to be implemented through purchases made from time to time using a variety of methods, which may include open market purchases, privately negotiated transactions or block trades, or by any combination of such methods, in accordance with applicable insider trading and other securities laws and

regulations. The size, scope and timing of any purchases will be based on business, market and other conditions and factors, including price, regulatory and contractual requirements or consents, and capital availability. The repurchase program does not require the Company to acquire any particular amount of common stock, and the program may be suspended, modified or discontinued at any time at the Company's discretion without prior notice. Shares of stock repurchased under the program will be held as treasury shares.

During the year ended September 30, 2009, the Company repurchased 5,000 shares of its common stock for \$24,905 on the open market as follows:

* Funds from operations (FFO), is defined as net income applicable to common shareholders, excluding gains (or losses) from sales of depreciable assets, plus depreciation and amortization of intangible assets. FFO should be considered as a supplemental measure of operating performance used by REITs. The Company believes that FFO is helpful to investors as one of several measures of the performance of a REIT. FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost basis. The items excluded from FFO are significant components in understanding the Company's financial performance.

FFO (1) does not represent cash flow from operations as defined by generally accepted accounting principles; (2) should not be considered as an alternative to net income as a measure of operating performance or cash flows from operating, investing and financing activities; and (3) is not an alternative to cash flow as a measure of liquidity. FFO, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company's FFO is calculated as follows:

	2009	2008	2007	2006	2005

CONDITION AND RESULTS OF OPERATION

Safe Harbor Statement

Statements contained in this Form 10-K, including the documents that are incorporated by reference, that are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). Also, when we use any of the words anticipate, assume, believe, estimate, expect, intends, plans, may, or similar expressions, we are making forward-looking statements. These forward-looking statements are not guaranteed and are based on our current intentions and on our current expectations and assumptions. These statements, intentions, expectations and assumptions involve risks and uncertainties, some of which are beyond our control, which could cause actual results or events to differ materially from those we anticipate or project, such as:

- the ability of our tenants to make payments under their respective leases, our reliance on certain major tenants and our ability to re-lease properties that are currently vacant or that become vacant;
- our ability to obtain suitable tenants for our properties;
- changes in real estate market conditions and general economic conditions;
- the inherent risks associated with owning real estate, including local real estate market conditions, governing laws and regulations and illiquidity of real estate investments;
- our ability to sell properties at an attractive price;
- our ability to repay debt financing obligations;
- our ability to refinance amounts outstanding under our credit facilities at maturity on terms favorable to us;
-

the loss of any member of our management team;

-

our ability to comply with certain debt covenants;

-

our ability to integrate acquired properties and operations into existing operations;

-

continued ability to access the debt or equity markets ;

-

the availability of other debt and equity financing alternatives;

-

changes in interest rates under our current credit facilities and under any additional variable rate debt arrangements that we may enter into in the future;

-

our ability to successfully implement our selective acquisition strategy;

-

our ability to maintain internal controls and processes to ensure all transactions are accounted for properly, all relevant disclosures and filings are timely made in accordance with all rules and regulations, and any potential fraud or embezzlement is thwarted or detected;

-

changes in federal or state tax rules or regulations that could have adverse tax consequences; and

-

our ability to qualify as a real estate investment trust for federal income tax purposes.

You should not place undue reliance on these forward-looking statements, as events described or implied in such statements may not occur. We undertake no obligation to update or revise any forward-looking statements as a result of new information, future events or otherwise.

The following discussion should be read in conjunction with the financial statements and notes thereto included elsewhere herein.

Overview

The Company is a REIT and its primary business is the ownership and management of industrial buildings subject to long-term leases to investment grade tenants. The Company owns fifty-eight industrial properties and one shopping center totaling approximately 6,132,000 square feet. Total real estate investments were \$345,880,581 at September 30, 2009. These properties are located in twenty-five states: Alabama, Arizona, Colorado, Connecticut, Florida, Georgia, Illinois, Iowa, Kansas, Maryland, Michigan, Minnesota, Missouri, Mississippi, North Carolina, Nebraska, New Jersey, New York, Ohio, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, and Wisconsin.

The Company's weighted-average lease expiration was 5.0 and 5.6 years as of September 30, 2009 and 2008, respectively and its average rent per occupied square foot as of September 30, 2009 and 2008 was \$5.64 and \$5.28, respectively. At September 30, 2009 and 2008, the Company's occupancy was 96% and 98%, respectively. During fiscal 2009, the Company acquired one 40,000 square foot industrial property for approximately \$4,088,000.

The Company has a concentration of FDX leased properties. At September 30, 2009, the total FDX and subsidiaries leased square footage as a percentage of the Company's total rental space was 47%, with 17% leased with FDX and 30% leased with FDX subsidiaries. The percentage of rental and reimbursement revenue from FDX was 59% for the year ended September 30, 2009.

The Company's revenue primarily consists of rental and reimbursement revenue from the ownership of industrial rental property. Rental and reimbursement revenue increased \$2,170,239, or 6%, for the year ended September 30, 2009 as compared to the year ended September 30, 2008. Total expenses (excluding interest expense) increased \$843,865, or 4%, for the year ended September 30, 2009 as compared to the year ended September 30, 2008. The increases were due mainly to the revenue and expenses relating to acquisitions and property expansions made during fiscal 2009 and 2008. Interest expense increased \$758,631 or 6% due mainly to the origination of \$11,125,073 in new mortgages in fiscal 2009 and increased outstanding balances on the Company's line of credit and margin loans.

The Company intends to continue to increase its real estate investments in fiscal 2010 through acquisitions or expansions of properties. The growth of the real estate portfolio depends on the availability of suitable properties which meet the Company's investment criteria and appropriate financing. Competition in the market areas in which the Company operates is significant and affects acquisitions, occupancy levels, rental rates and operating expenses of certain properties.

Revenues also include interest and dividend income and gain (loss) on securities transactions. The Company holds a portfolio of securities of other REITs with a fair value of \$27,824,665 as of September 30, 2009. The Company invests in REIT securities on margin from time to time when the Company can achieve an adequate yield spread. The REIT securities portfolio provides the Company with liquidity and additional income until suitable acquisitions of real property are found. As of September 30, 2009, the Company's portfolio consisted of 74% preferred stocks and 26% common stocks. The Company's weighted-average yield on the securities portfolio for 2009 was 11.97%. Interest and dividend income increased \$630,991 or 34% in 2009 as compared to fiscal 2008. The increase was due mainly to higher invested funds balance and a higher average yield. During fiscal 2009, the Company recognized \$6,000,678 in non-cash impairment losses due to the writing down of the carrying value of certain securities which were considered other than temporarily impaired. The market for REIT securities has improved during fiscal 2009 and the Company has unrealized gains of \$3,796,831 in its REIT securities portfolio as of September 30, 2009. The dividends received from our securities investments continue to meet our expectations. It is our intent to hold these securities long-term.

On October 20, 2009, the Company issued 1,730,200 shares of common stock in a registered direct placement at a price of \$6.50 per share. The Company received net proceeds of approximately \$10,500,000 and intends to use the

net proceeds to acquire additional properties in the ordinary course of business and for general corporate purposes.

The Company has approximately \$6,000,000 in cash and \$28,000,000 in REIT securities as of September 30, 2009. The Company believes that funds generated from operations and the DRIP, and the line of credit, together with the ability to finance and refinance its properties, will provide sufficient funds to adequately meet its obligations over the next several years.

See PART I, Item 1 Business and Item 1A Risk Factors for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities and challenges, and risks on which the Company is focused.

Significant Accounting Policies and Estimates

The discussion and analysis of the Company's financial condition and results of operation are based upon the Company's consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles. The preparation of these consolidated financial statements requires management to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of the Company's consolidated financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Significant accounting policies are defined as those that involve significant judgment and potentially could result in materially different results under different assumptions and conditions. Management believes the following significant accounting policies are affected by our more significant judgments and estimates used in the preparation of the Company's consolidated financial statements. For a detailed description of these and other accounting policies, see Note No. 1 in the Notes to the Company's Consolidated Financial Statements included in this Form 10-K.

Real Estate Investments

The Company applies Financial Accounting Standards Board Accounting Standards Codification (ASC) 360-10, Property, Plant & Equipment (ASC 360-10) to measure impairment in real estate investments. Rental properties are individually evaluated for impairment when conditions exist which may indicate that it is probable that the sum of expected future cash flows (on an undiscounted basis without interest) from a rental property is less than its historical net cost basis. These expected future cash flows consider factors such as future operating income, trends and prospects as well as the effects of leasing demand, competition and other factors. Upon determination that a permanent impairment has occurred, rental properties are reduced to their fair value. For properties to be disposed of, an impairment loss is recognized when the fair value of the property, less the estimated cost to sell, is less than the carrying amount of the property measured at the time there is a commitment to sell the property and/or it is actively being marketed for sale. A property to be disposed of is reported at the lower of its carrying amount or its estimated fair value, less its cost to sell. Subsequent to the date that a property is held for disposition, depreciation expense is not recorded.

Upon acquisition of a property, the Company allocates the purchase price of the property based upon the fair value of the assets acquired, which generally consist of land, buildings, leasing commissions and intangible assets, including in-place leases and above and below market leases. The Company allocates the purchase price to the fair value of the tangible assets of an acquired property determined by third party appraisal of the property obtained in conjunction with the purchase. Acquired above and below market leases are valued based on the present value of the difference between prevailing market rates and the in-place rates over the remaining lease term.

The purchase price is further allocated to in-place lease values based on management's evaluation of the specific characteristics of each tenant's lease and the Company's overall relationship with the respective tenant. Acquired above and below market leases are amortized over the remaining non-cancelable terms of the respective leases. The value of in-place lease intangibles is amortized to expense over the remaining lease term. If a tenant terminates its lease early, the unamortized portion of the tenant improvements, leasing commissions above and below market leases and the in-place lease value is immediately charged to expense.

Securities Available for Sale

Investments in non-real estate assets consist primarily of marketable securities. Management individually reviews and evaluates our marketable securities for impairment on a quarterly basis, or when events or circumstances occur. Management considers, among other things, credit aspects of the issuer, amount of decline in fair value over cost and length of time in a continuous loss position. If a decline in fair value is determined to be other than

temporary, a non-cash impairment charge is recognized in earnings and the cost basis of the individual security is written down to fair value as the new cost basis.

The Company classifies its securities among three categories: Held-to-maturity, trading and available-for-sale. The Company's securities at September 30, 2009 and 2008 are all classified as available-for-sale and are carried at fair value based on quoted market prices. Gains or losses on the sale of securities are calculated based on the average cost method and are accounted for on a trade date basis. Unrealized holding gains and losses are excluded from earnings and reported as a separate component of Shareholders' Equity until realized.

Revenue Recognition and Estimates

Rental income from tenants with leases having scheduled rental increases are recognized on a straight-line basis over the term of the lease. Leases typically provide for reimbursement of real estate taxes, insurance, and other operating costs. These occupancy charges are recognized as earned. Estimates are used to establish amounts receivable and revenue from tenants for such things as annualized rents, real estate taxes and other cost recoveries. In addition, an estimate is made with respect to whether a provision for allowance for doubtful accounts receivable and loans receivable is necessary. The allowance for doubtful accounts reflects management's estimate of the amounts of the recorded accounts receivable and loans receivable at the balance sheet date that will not be realized from cash receipts in subsequent periods. If cash receipts in subsequent periods vary from our estimates, or if the Company's tenants financial condition deteriorates as a result of operating difficulties, additional changes to the allowance may be required.

Results of Operations

Occupancy and Rent per Occupied Square Foot

The Company's weighted-average lease expiration was 5.0 and 5.6 years as of September 30, 2009 and 2008, respectively and its average rent per occupied square foot for fiscal 2009 and 2008 was \$5.64 and \$5.28, respectively.

As of September 30, 2009 and 2008, the Company's occupancy was 96% and 98%, respectively. All improved properties were 100% occupied at September 30, 2009 except for the following:

Building was expanded in 2009.

Acquisitions

On September, 17, 2009, the Company purchased a 40,000 square foot industrial building in Topeka, Kansas. The building is 100% net-leased to Coca-Cola Enterprises through September 30, 2021. The purchase price including closing costs was approximately \$4,088,000. The Company obtained a mortgage of \$2,687,573 (see Note No. 9) at a fixed interest rate of 6.50% per year and used the margin loan to fund the balance of the costs of the acquisition.

Management estimated that the value of the lease at purchase was approximately \$408,300.

Expansions

The Company expanded the industrial building in Griffin, Georgia. Construction was completed in December 2008 and total costs were approximately \$416,000. The building was expanded from 215,720 square feet to 217,970 square feet and the parking lot was expanded 11,000 square feet. As of June 2009, the annual rent increased from \$1,093,700 (\$5.07 per square foot) to approximately \$1,169,000 (\$5.36 per square foot) and the lease was amended to cover the additional space.

The Company expanded the industrial building in Cheektowaga, New York. Construction was substantially completed in August 2009 and total construction costs were approximately \$2,200,000. The building was expanded from 84,923 square feet to 104,981 square feet. Annual rent increased from \$686,479 (\$8.08 per square foot) to \$961,838 (\$9.16 per square foot) and the lease was extended through August 2019.

Comparison of Year Ended September 30, 2009 to Year Ended September 30, 2008

The following tables summarize the Company's rental and reimbursement revenue, real estate taxes, operating expenses, and depreciation expense by category. For the purposes of the following discussion, same store properties are properties owned as of October 1, 2007 that have not been subsequently expanded. Expanded properties are properties which were expanded in fiscal 2008 or 2009. Acquired properties are properties that were acquired subsequent to September 30, 2007. Other amounts relate to general corporate expenditures.

As of September 30, 2009 and 2008, the occupancy rates of the Company's same store properties were 96% and 98%, respectively.

<u>Rental and Reimbursement Revenues</u>	<u>2009</u>	<u>2008</u>	<u>\$ Change</u>	<u>% Change</u>
Same Store Properties	\$32,789,884	\$32,989,373	(\$199,489)	(1%)

Total	\$41,318,498	\$39,148,259	\$2,170,239	8%

Rental and reimbursement revenue from same store properties decreased slightly due mainly to two properties which became vacant during fiscal 2009 in Liberty, MO and Greensboro, NC. The Company renewed or extended leases as described above during fiscal 2009. Rental and reimbursement revenue from expanded properties increased due to the collection of full years rents on expansions completed in 2008 in Beltsville, MD, Denver, CO, Augusta, GA (FDX Gr), Colorado Springs, CO and Hanahan, SC (FDX Gr) buildings in late fiscal 2008. Rental and reimbursement revenue from acquired properties increased due to the full years rents and reimbursement from the two industrial properties totaling 199,739 square feet purchased during fiscal 2008 in Cocoa, FL and Orlando, FL. The Company also purchased one 40,000 square foot industrial property in September 2009 in Topeka, KS.

<u>Real Estate Taxes</u>	<u>2009</u>	<u>2008</u>	<u>\$ Change</u>	<u>% Change</u>
Same Store Properties	\$5,602,436	\$5,385,214	\$217,222	4%

Total	\$6,586,939	\$6,083,951	\$502,988	3%

Real estate taxes from same store properties increased due to an increase in estimated taxes assessed in certain property locations. Real estate taxes from the expanded properties increased due mainly to the increase in assessed values from the completed expansions. Real estate taxes for acquired properties increased due to the full year expenses of the two industrial properties totaling 199,739 square feet purchased during fiscal 2008 in Cocoa, FL and Orlando, FL. Our single tenant properties are subject to net leases which require the tenants to absorb the real estate taxes as well as insurance and the majority of the repairs and maintenance. As such, the Company is reimbursed by the tenants for these real estate taxes. The reimbursement income is included in rental and reimbursement revenue.

<u>Operating Expenses</u>	<u>2009</u>	<u>2008</u>	<u>\$ Change</u>	<u>% Change</u>
Same Store Properties	\$2,892,516	\$3,234,547	(\$342,031)	(11%)

Total	\$3,394,450	\$3,720,527	(\$326,077)	(9%)

Operating expenses from same store properties and expanded properties decreased due mainly to a decrease in insurance costs and amortization of the intangible assets. Operating expenses from acquired properties increased due to the full year's expenses of the two industrial properties totaling 199,739 square feet purchased during fiscal 2008 in Cocoa, FL and Orlando, FL.

<u>Depreciation</u>	<u>2009</u>	<u>2008</u>	<u>\$ Change</u>	<u>% Change</u>
Same Store Properties	\$6,703,184	\$6,462,199	\$240,985	4%

Total	\$8,553,869	\$7,892,129	\$661,740	8%

Depreciation from same store properties increased slightly due mainly to capital projects placed in service during the year. Depreciation expense from the expanded properties increased due to the full year of depreciation on the completed expansions. Depreciation expense from acquired properties increased due to the full year's depreciation of the two industrial properties totaling 199,739 square feet purchased during fiscal 2008 in Cocoa, FL and Orlando, FL.

<u>Interest Expense</u>	<u>2009</u>	<u>2008</u>	<u>\$ Change</u>	<u>% Change</u>

Total	\$13,897,398	\$13,138,767	\$758,631	6%

Interest expense for same store properties increased due mainly to the full year of interest expense on the interest-only mortgages originated in June 2008 for Fayetteville, NC, Lakeland, FL, and August, GA (FDX). The increase in interest from these new mortgages was partially offset by reduced interest expense related to principal repayments made during the year. Interest expense for acquired properties increased primarily due to the full year of interest expense on the mortgages for the two industrial properties totaling 199,739 square feet purchased during fiscal 2008 in Cocoa, FL and Orlando, FL. Interest expense related to the debentures decreased due to the repurchase of \$1,000,000 in debentures at the beginning of fiscal 2009. Other interest relates to interest on the Company's line of credit and margin loans. The decrease relates mainly to a decrease in interest rates. Capitalized interest relates to the amount of interest capitalized related to property expansions. There were fewer expansions in fiscal 2009 as compared to 2008.

General and administrative expenses remained relatively consistent in fiscal 2009 as compared to 2008. Increases in personnel costs were partially offset by decreases in travel expenses and other professional fees.

Interest and dividend income increased \$630,991, or 34%, in 2009 as compared to 2008. This is due mainly to an increase in the size of the REIT securities portfolio and an increase in the yield from this portfolio. The securities portfolio increased from \$21,005,663 as of September 30, 2008 to \$27,824,665 as of September 30, 2009. The REIT securities portfolio yield for 2009 was 11.97% as compared to 9.5% for 2008.

Total Loss on Securities Transactions, net	(\$6,601,460)	(\$3,660,283)

Gain (loss) on securities transactions, net decreased \$2,941,177 in fiscal 2009 as compared to 2008. The decrease is due mainly to the impairment loss of \$6,000,678 due to the writing down of the carrying value of twenty-two REIT securities which were considered other than temporarily impaired. The market for REIT securities has improved and the Company has an unrealized gain of \$3,796,831 in its REIT securities portfolio as of September 30, 2009.

Comparison of Year Ended September 30, 2008 to Year Ended September 30, 2007

The following tables summarize the Company's rental and reimbursement revenue, real estate taxes, operating expenses, and depreciation expense by category. For purposes of the following discussion, same store properties are properties owned as of October 1, 2006 that have not been subsequently expanded. Expanded properties are properties which were expanded in fiscal 2008 or 2007. Monmouth Capital properties are the properties acquired in the strategic transaction with Monmouth Capital on July 31, 2007 and results from that date are included in the Company's results for the years ended September 30, 2008 and 2007. Acquired properties are properties that were acquired subsequent to September 30, 2006. Other amounts relate to general corporate expenditures.

As of September 30, 2008 and 2007, the occupancy rates of the Company's same store properties were 98% and 98%, respectively.

Interest expense related to the debentures increased due to the full year of debentures outstanding at 8% during fiscal 2008 as compared to two months in 2007. Other interest relates to interest on the Company's line of credit and margin loans. The increase relates to increased average balances on these lines, partially offset by a decrease in interest rates. Capitalized interest relates to the amount of interest capitalized during fiscal 2008 and 2007 to construction in progress related to property expansions.

General and administrative expenses increased \$412,803, or 17% in fiscal 2008 as compared to 2007. The increase relates mainly to increases in personnel costs, professional fees and franchise taxes.

Interest and dividend income increased \$403,818, or 28%, in fiscal 2008 as compared to 2007. This is due mainly to an increase in the size of the REIT securities portfolio and an increase in the yield from this portfolio. The securities portfolio increased from \$13,436,992 as of September 30, 2007 to \$21,005,663 as of September 30, 2008. The Company increased the size of its REIT securities portfolio due to the proceeds received from the preferred stock offering in 2007 and through the merger with Monmouth Capital. The REIT securities portfolio yield for fiscal 2008 was 9.5% as compared to 7.6% for 2007.

Gain (loss) on securities transactions, net decreased \$3,817,006 in fiscal 2008 as compared to 2007. The decrease is due mainly to the impairment loss of \$3,104,774 due to the writing down of the carrying value of seven REIT securities which were considered other than temporarily impaired. The Company had unrealized losses of \$6,139,451 in its REIT securities portfolio as of September 30, 2008.

Discontinued Operations

Discontinued operations in fiscal 2009 include the operations of the property in Quakertown, Pennsylvania which was classified as held for sale as of September 30, 2009. Discontinued operations in fiscal 2008 include the operations of properties in Quakertown, Pennsylvania as well as properties in Franklin, Massachusetts and Ramsey, New Jersey, both of which were sold in 2008. Discontinued operations in fiscal 2007 include the 3 properties mentioned above and a vacant property in S. Brunswick, New Jersey sold in August 2007. The following table summarizes the components of discontinued operations:

	<u>2009</u>	<u>2008</u>	<u>2007</u>

Cash flows from Financing Activities	(206,677)	(4,476,881)	(4,254,668)

The absence of cash flows from discontinued operations is not expected to materially affect future liquidity and capital resources.

Off-Balance Sheet Arrangements and Contractual Obligations

The Company has not entered into any off-balance sheet arrangements.

The following is a summary of the Company's contractual obligations as of September 30, 2009:

<u>Contractual</u> <u>Obligations</u>	<u>Total</u>	Less than 1 <u>year</u>	<u>1-3 years</u>	<u>3-5 years</u>	More than <u>5 years</u>
Mortgage Notes					
Payable	\$192,050,283	\$12,510,087	\$33,493,524	\$42,487,743	\$103,558,929

Total	\$229,266,736	\$35,270,087	\$33,613,524	\$46,377,743	\$114,005,382

Mortgage notes payable represents the principal amounts outstanding by scheduled maturity. The interest rates on these mortgages are fixed rates ranging from 5.22% to 8.48%, with a weighted average of 6.44%. The above table does not include the Company's obligation under its line of credit and margin loan as described in Note No. 9 of the Notes to Consolidated Financial Statements.

Debentures represent the repayment of the 8% Convertible Subordinated debentures of \$3,770,000 due in 2013 and \$10,220,000 in 2015.

Purchase of property represents the purchase price of two industrial properties under contract. One acquisition for approximately \$14,600,000 closed in October 2009. The other contract for the purchase of an industrial property for approximately \$8,050,000 is anticipated to close in the first quarter of fiscal 2010.

Retirement benefits represent post-retirement benefits that are unfunded and therefore will be paid from the assets of the Company. The liability is being accrued and expensed over the payment terms.

Liquidity and Capital Resources

The Company operates as a real estate investment trust deriving its income primarily from real estate rental operations. The Company's shareholders' equity increased from \$159,910,964 as of September 30, 2008 to \$161,497,704 as of September 30, 2009, principally due to issuance of common shares in the DRIP and an increase in the unrealized gain of available for sale securities partially offset by payments of distributions in excess of income. See further discussion below.

The Company's ability to generate cash adequate to meet its needs is dependent primarily on income from its real estate investments and securities portfolio, the sale of real estate investments and securities, refinancing of mortgage debt, leveraging of real estate investments, availability of bank borrowings, proceeds from the DRIP, proceeds from public offerings and private placements, and access to the capital markets. Purchases of new properties, payments of expenses related to real estate operations, capital improvement programs, debt service, general and administrative expenses, and distribution requirements place demands on the Company's liquidity.

The Company intends to operate its existing properties from the cash flows generated by the properties. However, the Company's expenses are affected by various factors, including inflation. Increases in operating expenses raise the breakeven point for a property and, to the extent that they cannot be passed on through higher rents, reduce the amount of available cash flow which can adversely affect the market value of the property.

The current global economic situation and the continued lack of liquidity in the lending environment may impact management's ability to grow by acquiring additional properties or REIT securities. Industrial space demand is very closely correlated to GDP growth. Current economic indicators show the U.S. economy to be slowly emerging from a deep and protracted recession. Whether this return to economic growth is sustainable remains to be seen especially in light of the massive government stimulus programs. However, the high caliber of our tenants, coupled with the long

duration of our leases, should enable the Company to perform well despite the weak economy. As of September 30, 2009, the Company had \$6,080,888 in cash and cash equivalents and \$27,824,665 in marketable securities subject to margin loans of \$4,063,750.

On October 20, 2009, the Company issued 1,730,200 shares of common stock in a registered direct placement at \$6.50 per share. The Company received net proceeds from the offering of approximately \$10,500,000. The Company intends to use the net proceeds to acquire additional properties in the ordinary course of business and for general corporate purposes. The Company has been raising equity capital through its DRIP, private placements and the public placement of common and preferred stock and investing in net-leased industrial properties. The Company believes that funds generated from operations, the DRIP, and bank borrowings, together with the ability to finance and refinance its properties, will provide sufficient funds to adequately meet its obligations over the next few years.

At September 30, 2009, the Company owned fifty-nine properties of which eleven are not subject to mortgages; however the Company's line of credit contains covenants which may restrict the Company's ability to place financing on unencumbered properties.

The Company has a variable rate line of credit with Capital One, N.A. maturing in March 2011 of \$15,000,000. The line was fully drawn as of September 30, 2009. The interest rate is based on LIBOR plus 200 basis points and interest is due monthly. The interest rate was 2.25% as of September 30, 2009. The Company must keep not less than \$1,000,000 in average net collected balances at Capital One, N.A. and meet certain loan covenants as contained in the loan agreement, including a 65% loan to value ratio on certain negatively pledged properties.

The Company also uses margin loans for purchasing securities, for temporarily funding of acquisitions, and for working capital purposes. The interest rate charged on the margin loans is the bank's margin rate and was 2.0% and 3.75% as of September 30, 2009 and 2008, respectively. The margin loans are due on demand. At September 30, 2009 and 2008, the margin loans totaled \$4,063,750 and \$2,299,947, respectively and are collateralized by the Company's securities portfolio. The Company must maintain a coverage ratio of approximately 50%.

The Company's subsidiary Monmouth Capital has outstanding \$3,770,000 of 8% Convertible Subordinated Debentures due 2013 (the 2013 Debentures), and \$10,220,000 of 8% Convertible Subordinated Debentures due 2015 (the 2015 Debentures). These Debentures are convertible into common stock of the Company at any time prior to redemption or maturity, at the conversion price of \$9.16 per share in the case of the 2013 Debentures (equivalent to a rate of 109.17 shares of common stock for each \$1,000 principal amount), and a conversion price of \$11.45 per share in the case of the 2015 Debentures (equivalent to a rate of 87.336 shares of common stock for each \$1,000 principal amount), in each case subject to adjustment under certain conditions.

The Company's focus is on real estate investments. The Company has historically financed purchases of real estate primarily through mortgages. During 2009, the Company made an acquisition of an industrial property totaling approximately \$4,088,000, which was funded through a mortgage of \$2,687,573 at a fixed interest rate of 6.50% per year and funds available on the margin loan. During the first month of fiscal 2010, the Company made an acquisition of an industrial property totaling approximately \$14,600,000, which was funded through a mortgage of \$10,000,000 at a fixed rate of 6.25% per year and the remainder in cash. In fiscal 2010, the Company plans to continue to acquire additional net-leased industrial properties. The Company also intends to expand its properties when requested by the tenants. The funds for these acquisitions and expansions may come from bank borrowings and proceeds from the DRIP or private placements or additional public offerings of preferred and common stock. To the extent that funds or appropriate properties are not available, fewer acquisitions or expansions will be made.

The Company also invests in debt and equity securities of other REITs as a proxy for real estate when suitable acquisitions are not available, for liquidity, and for additional income. The Company from time to time may purchase these securities on margin when there is an adequate yield spread. During fiscal 2009, the Company's securities portfolio increased \$6,819,002, primarily due to purchases of \$5,890,534 and increase in the unrealized gain of \$9,936,282, partially offset by sales of securities with cost of \$3,007,136 and impairment losses of \$6,000,678. The Company earned interest and dividend income of \$2,502,253 during fiscal 2009. The margin loan balance was \$4,063,750 and \$2,299,947 as of September 30, 2009 and 2008, respectively.

Cash flows provided from operating activities were \$19,591,455, \$17,438,835 and \$13,224,299 for fiscal years 2009, 2008 and 2007, respectively. The increase in cash flows provided from operating activities is due to increased income from acquisitions of properties and expanded operations.

Cash flows used in investing activities were \$11,655,914, \$39,831,002 and \$25,526,868 for fiscal years 2009, 2008 and 2007, respectively. Cash flows used in investing activities decreased in fiscal 2009 as compared to 2008 due mainly to fewer acquisitions of industrial properties, fewer property expansions, and decreased purchases of REIT securities. Cash flows used in investing activities in fiscal 2008 increased as compared to 2007 due mainly to increased building expansions and the purchase of REIT securities.

Cash flows provided from (used in) financing activities were (\$7,202,915), \$16,345,092 and \$21,668,476 for fiscal years 2009, 2008 and 2007, respectively. Cash flows from financing activities decreased in fiscal 2009 as compared to 2008 due mainly to decreased proceeds from mortgages and loans payable. Cash flows from financing

activities decreased in fiscal 2008 as compared to 2007 due mainly to the preferred stock offering proceeds of \$31,584,466 in 2007.

As of September 30, 2009, the Company had total assets of \$394,774,778 and liabilities of \$229,883,628. The Company's total debt plus Series A Preferred Stock to market capitalization as of September 30, 2009 and 2008 was approximately 59% and 56%, respectively. The Company believes that it has the ability to meet its obligations and to generate funds for new investments.

The Company has a dividend reinvestment plan (DRIP), in which participants can purchase stock from the Company at a price of approximately 95% of market. During fiscal 2007, the Company modified its DRIP plan to allow for the DRIP to purchase shares on the open market at market value for participants. Currently, DRIP shares are purchased directly from the Company at a 5% discount. It is anticipated, although no assurances can be given, that the level of participation in the DRIP in 2010 will be comparable to 2009.

During 2009, the Company paid \$14,984,179 as a dividend of \$0.60 per common share. Of the \$14,984,179 in dividends paid, \$4,328,028 was reinvested pursuant to the terms of the DRIP. Management anticipates maintaining the annual dividend rate of \$0.60 per common share although no assurances can be given since various economic factors can reduce the amount of cash flow available to the Company for common dividends. All decisions with respect to the payment of dividends are made by the Company's board of directors.

In 2009, the Company paid \$2,521,214 in preferred dividends. The Company is required to pay cumulative dividends on the Series A Preferred Stock in the amount of \$1.90625 per share per year, which is equivalent to 7.625% of the \$25.00 liquidation value per share.

During the year ended September 30, 2009, no stock options were exercised. During the year ended September 30, 2008, one employee exercised options to purchase 14,000 shares of common stock for \$99,820. During the year ended September 30, 2007, no stock options were exercised.

During the year ended September 30, 2002, nine officers, directors and key employees exercised their stock options and purchased 255,000 shares for a total of \$1,617,488. Of this amount, 225,000 shares, for a total of \$1,439,363, were exercised through the issuance of notes receivable from officers. These notes receivable are at an interest rate of 5%, mature on April 30, 2012 and are collateralized by the underlying common shares. As of September 30, 2009 and 2008, the balance of these notes receivable was \$1,201,563.

On an ongoing basis, the Company funds capital expenditures primarily to maintain structure and other maintenance items as required in the various leases. These expenditures may also include expansions as requested by tenants, or various tenant improvements on properties which are re-tenanted. The amounts of these expenditures can vary from

year to year depending on the age of the properties, tenant negotiations, market conditions and lease turnover.

New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued the FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles, also known as FASB Accounting Standards Codification (ASC) 105-10, Generally Accepted Accounting Principles, (ASC 105-10). ASC 105-10 establishes the FASB Accounting Standards Codification (Codification) as the single source of authoritative U.S. GAAP recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative U.S. GAAP for SEC registrants. The subsequent issuances of new standards will be in the form of Accounting Standards Updates (ASUs) that will be included in the Codification. Generally, the Codification is not expected to change U.S. GAAP.

All other accounting literature excluded from the Codification will be considered nonauthoritative. This ASC is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Company adopted this ASC for our quarter ended September 30, 2009. The adoption did

not have any effect on our financial condition or results of operations. All accounting references have been updated, and therefore SFAS references have been replaced with ASC references.

ASC 810-10, Consolidations, which, among other things, provides guidance and establishes amended accounting and reporting standards for a parent company's noncontrolling interest in a subsidiary. The Company will adopt this ASC on October 1, 2009 and will change the presentation of the minority interest on the financial statements. As of October 1, 2009, the noncontrolling interest will be reported separately within the equity section of the consolidated balance sheet.

In August 2009, FASB issued ASU 2009-05, Fair Value Measurements and Disclosures (Topic 820) Measuring Liabilities at Fair Value. This ASU clarifies how an entity should measure the fair value of liabilities and that the restrictions on the transfer of a liability should not be included in its fair value measurement. The effective date of this ASU is the first reporting period after the issuance date, August 26, 2009. The Company adopted this ASU for our quarter ended September 30, 2009. The adoption of this ASU did not have a material effect on our financial condition or results of operations.

ASC 855-10, Subsequent Events, establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or available to be issued. ASC 855-10 requires an entity to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet. For unrecognized subsequent events that must be disclosed to keep the financial statements from being misleading, an entity will be required to disclose the nature of the event as well as an estimate of its financial effect, or a statement that such an estimate cannot be made. In addition, ASC 855-10 requires an entity to disclose the date through which subsequent events have been evaluated. ASC 855-10 is effective for the interim or annual financial periods ending after June 15, 2009. The Company adopted ASC 855-10 effective for the quarter ended June 30, 2009. The adoption of this ASC did not have a material effect on our financial condition or results of operations.

The FASB provided additional application guidance and enhanced disclosures about fair value measurements and impairments of securities. ASC 820-10, Fair Value Measurements and Disclosures, clarifies the objective and method of fair value measurement even when there has been a significant decrease in market activity for the asset being measured. ASC 320-10, Investments-Debt and Equity Securities, establishes a new model for measuring other-than-temporary impairments for debt securities, including criteria for when to recognize a write-down through earnings versus other comprehensive income. ASC 825-10, Financial Instruments, expands the fair value disclosures required for certain financial instruments to interim periods as well as in annual reports. All of these ASCs are effective for interim and annual periods ending after June 15, 2009. The Company adopted these ASCs effective for the quarter ended June 30, 2009. The adoption of these ASCs did not have a material effect on our financial condition or results of operations. However, adoption of ASC 825-10 resulted in increased disclosures in our consolidated financial statements.

ASC 805-10, Business Combinations and ASC 810-10, Consolidation, requires most identifiable assets, liabilities, noncontrolling interests and goodwill acquired in a business combination to be recorded at full fair value and require

noncontrolling interests (previously referred to as minority interests) to be reported as a component of equity, which changes the accounting for transactions with noncontrolling interest holders. The provisions of ASC 805-10 and ASC 810-10 are effective for our fiscal year beginning October 1, 2009. ASC 805-10 will be applied to business combinations occurring after the effective date and ASC 810-10 will be applied prospectively to all changes in noncontrolling interests, including any that existed at the effective date. The adoption of ASC 805-10 and ASC 810-10 effective October 1, 2009 for future business combinations may result in the recognition of certain types of expenses in our results of operations that are currently capitalized pursuant to existing accounting standards, among other potential impacts.

ASC 815-10, Derivatives and Hedging, requires enhanced disclosures about (a) how and why derivative instruments are used, (b) how derivative instruments and related hedged items are accounted for and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance and cash

flows. ASC 815-10 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The Company adopted ASC 815-10 effective January 1, 2009. The adoption of this ASC did not have a material effect on our financial condition or results of operations.

ITEM 7A QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET

RISK

The Company is exposed to interest rate changes primarily as a result of its line of credit, margin loans and long-term debt used to maintain liquidity and fund capital expenditures and acquisitions of the Company's real estate investment portfolio. The Company's interest rate risk management objectives are to limit the impact of interest rate changes on earnings and cash flows and to lower its overall borrowing costs. To achieve its objectives, the Company borrows primarily at fixed rates. During 2008 and 2007, the Company invested in futures contracts of 10-year treasury notes with the objective of reducing exposure of the preferred equity and debt securities portfolio to interest rate fluctuations and to mitigate the risk of rolling over fixed-rate debt at higher interest rates upon maturity. The Company has discontinued its hedging program and closed out its futures contracts in May 2008. There are no open contracts as of September 30, 2009 or 2008.

The following table sets forth information as of September 30, 2009, concerning the Company's long-term debt obligations, including principal payments by scheduled maturity, weighted average interest rates and estimated fair value:

Long Term Debt: Fixed Rate	Fiscal	Carrying Value	Average Interest Rate	Fair Value
	2010	513,747	5.24%	
	2011	2,437,500	5.00%	
	2012	6,802,435	7.29%	
	2013	24,217,673	6.38%	
	2014	3,187,381	7.15%	
	Thereafter	154,891,547	6.42%	
	Total	\$ 192,050,283	6.44%	\$ 189,682,000

The Company has \$13,990,000 in 8% debentures outstanding as of September 30, 2009, with \$3,770,000 due in 2013 and \$10,220,000 due in 2015.

The Company also has a variable rate line of credit with Capital One, N.A. maturing in March 2011 of \$15,000,000. The line was fully drawn as of September 30, 2009. The interest rate is based on LIBOR plus 200 basis points and interest is due monthly. The interest rate was 2.25% as of September 30, 2009.

Additionally, the Company has the ability to obtain margin loans, secured by its marketable securities. The balance outstanding on the margin loan was \$4,063,750 as of September 30, 2009. The interest rate on the margin account is the bank's margin rate and was 2.0% as of September 30, 2009. The value of marketable securities was \$27,824,665 as of September 30, 2009.

The Company also invests in both debt and equity securities of other REITs and is primarily exposed to equity price risk from adverse changes in market rates and conditions. All securities are classified as available for sale and are carried at fair value.

ITEM 9 - CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON

ACCOUNTING AND FINANCIAL DISCLOSURE

On June 25, 2008, the Company dismissed Reznick Group, P.C. (Reznick) as the Company's independent registered public accounting firm. The decision to change accountants was approved by the Audit Committee of the Board of Directors of the Company.

The audit reports of Reznick on the consolidated financial statements of the Company and subsidiaries as of and for the years ended September 30, 2007 and 2006 did not contain an adverse opinion or disclaimer of opinion, and were not qualified or modified as to uncertainty, audit scope or accounting principles. The audit reports of Reznick on the effectiveness of internal control over financial reporting as of September 30, 2007 did not contain an adverse opinion or disclaimer of opinion, and were not qualified or modified as to uncertainty, audit scope or accounting principles.

In connection with the audits of the two fiscal years ended September 30, 2007 and the subsequent interim period preceding such dismissal, there were no (1) disagreements with Reznick on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of Reznick, would have caused them to make reference to the subject matter of the disagreements in connection with its report or (2) reportable events of the kind described in Item 304(a)(1)(v) of Regulation S-K.

The Company provided Reznick with a copy of the disclosure contained in Form 8-K filed on June 30, 2008 and requested that Reznick furnish it with a letter addressed to the Securities and Exchange Commission stating whether it agrees with the above statements. Reznick's letter, dated June 26, 2008, is filed as Exhibit 16.1 to the Form 8-K filed on June 30, 2008.

Effective as of June 25, 2008, the Company engaged PKF, Certified Public Accountants, a Professional Corporation (PKF) as the Company's new independent registered public accounting firm to audit the Company's consolidated financial statements. The decision to engage PKF was approved by the Audit Committee of the Board of Directors as of such date.

During the fiscal years ended September 30, 2007 and 2006 and the subsequent interim period preceding such engagement, the Company has not consulted PKF regarding either (a) the application of accounting principles to any completed or contemplated transaction, or the type of audit opinion that might be rendered on the Company's consolidated financial statements; or (b) any matter that was either the subject of a disagreement as defined in Item 304(a)(1)(iv) of Regulation S-K or a reportable event as described in Item 304(a)(1)(v) of Regulation S-K.

We have provided a copy of the disclosures in this report to PKF and offered them the opportunity to furnish a letter to the Commission contemplated by Item 304(a)(2)(ii)(D) of Regulation S-K. PKF has advised that it does not intend to furnish such a letter to the Commission.

ITEM 9A- CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures

The Company maintains controls and procedures designed to ensure that it is able to collect the information that is required to be disclosed in the reports it files with the SEC, and to process, summarize and disclose this information within the time period specified by the rules of the SEC. The Company's Chief Executive Officer and the Chief Financial Officer are responsible for establishing, maintaining and enhancing these controls and procedures. Based on their evaluation of the Company's disclosure controls and procedures as of September 30, 2009, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective.

(b) Management's Report on Internal Control Over Financial Reporting

Management of the Company is responsible for establishing and maintaining effective internal control over financial reporting. The Company's internal control system was designed to provide reasonable assurance regarding the preparation and fair presentation of published financial statements. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance regarding the reliability of financial statement preparation and presentation.

Management assessed the Company's internal control over financial reporting as of September 30, 2009. This assessment was based on criteria for effective internal control over financial reporting established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, management has concluded that the Company's internal control over financial reporting was effective as of September 30, 2009.

PKF, the Company's independent registered public accounting firm, has issued their report on their audit of the Company's internal control over financial reporting, a copy of which is included herein.

The Board of Directors and Shareholders

Monmouth Real Estate Investment Corporation

We have audited Monmouth Real Estate Investment Corporation's internal control over financial reporting as of September 30, 2009, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Monmouth Real Estate Investment Corporation's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based upon the assessed risk and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that

transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, (3) receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (4) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Monmouth Real Estate Investment Corporation maintained in all material respects, effective internal control over financial reporting as of September 30, 2009 based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Monmouth Real Estate Investment Corporation as of September 30, 2009 and 2008, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the two years then ended and our report dated December 9, 2009 expressed an unqualified opinion thereon.

Family Relationships

There are no family relationships between any of the directors or executive officers, except that Samuel A. Landy and Michael P. Landy are the sons of Eugene W. Landy, the President and a Director of the Company.

Audit Committee

The Company has a separately-designated standing audit committee established in accordance with Section 3 (a)(58)(A) of the Exchange Act (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Stephen Wolgin (Chairman), Matthew I. Hirsch, Scott Robinson and Catherine Elflein. The Company's board of directors has determined that Stephen B. Wolgin and Catherine B. Elflein are financial experts and that all members of the audit committee are independent. The audit committee operates under the Audit Committee Charter which can be found at the Company's website at www.mreic.com. The charter is reviewed annually for adequacy.

Delinquent Filers

There have been no delinquent filers pursuant to Item 405 of regulation S-K, to the best of management's knowledge.

Code of Ethics

The Company has adopted the Code of Business Conduct and Ethics (the Code of Ethics). The Code of Ethics can be found at the Company's website at www.mreic.com. In addition, the Code of Ethics was filed with the Securities and Exchange Commission on December 14, 2004 with the Company's September 30, 2004 Form 10-K. The Company will satisfy any disclosure requirements under Item 5.05 of Form 8-K regarding a waiver from any provision of the Code of Ethics for principal officers or directors by disclosing the nature of such amendment of waiver on our website.

ITEM 11 - EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview of Compensation Program

The Compensation Committee (for purposes of this analysis, the Committee) of the Board has been appointed to discharge the Board's responsibilities relating to the compensation of the Company's executive officers. The Committee has the overall responsibility for approving and evaluating the executive officer compensation plans, policies and programs of the Company. The Committee's primary objectives include serving as an independent and objective party to review such compensation plans, policies and programs.

Throughout this report, the individuals who served as the Company's president and chief executive officer and executive vice president during fiscal 2009, as well as the other individuals included in the Summary Compensation Table presented below in Item 11 of this report, are sometimes referred to in this report as the named executive officers.

Compensation Philosophy and Objectives

The Compensation Committee believes that a well-designed compensation program should align the goals of the shareholders with the goals of the chief executive officer, and that a significant part of the executive's compensation, over the long term, should be dependent upon the value created for shareholders. In addition, all executives should be held accountable through their compensation for the performance of the Company, and compensation levels should also reflect the executive's individual performance in an effort to encourage increased individual contributions to the Company's performance. The compensation philosophy, as reflected in the Company's employment agreements with its executives, is designed to motivate executives to focus on operating results and create long-term shareholder value by:

establishing a plan that attracts, retains and motivates executives through compensation that is competitive with a peer group of other publicly-traded real estate investment trusts, or REITs;

linking a portion of executives' compensation to the achievement of the Company's business plan by using measurements of the Company's operating results and shareholder return; and

building a pay-for-performance system that encourages and rewards successful initiatives within a team environment.

The Compensation Committee believes that each of the above factors is important when determining compensation levels for named executive officers. The Committee reviews and approves the employment contracts for the president and chief executive officer and executive vice presidents, including performance goals and objectives. The Committee annually evaluates performance of the executive officers in light of those goals and objectives. The Committee considers the Company's performance, relative shareholder return, the total compensation provided to comparable officers at similarly-situated companies, and compensation given to the named executive officers in prior years. The Company uses the annual Compensation Survey published by NAREIT as a guide to setting compensation levels. Participant company data is not presented in a manner that specifically identifies any named individual or company. This survey details compensation by position type with statistical salary and bonus information for each position. The Compensation Committee compares the Company's salary and bonus amounts to the ranges presented for reasonableness. To that end, the Committee believes executive compensation packages provided by the Company to its executive officers should include both base salaries and annual bonus awards that reward corporate and individual performance, as well as give incentives to those executives who meet or exceed established goals.

Role of Executive Officers in Compensation Decisions

The Committee makes all final compensation decisions for the Company's named executive officers. The president annually reviews the performance of the executive vice president, investments and controller and then presents his conclusions and recommendations to the Committee with respect to base salary adjustments and annual cash bonus and stock option awards. The Committee exercises its own discretion in modifying any recommended adjustments or awards, but does consider the recommendations from the president.

Role of Grants of Stock Options in Compensation Analysis

The Committee views the grant of stock options as a form of long-term compensation. The Committee believes that the grant of these options promotes the Company's goal of retaining key employees, and aligns the key employee's interests with those of the Company's shareholders from a long-term perspective. The number of options granted to each employee is determined by consideration of various factors including but not limited to the employee's title, responsibilities, and years of service.

Role of Employment Agreements in Determining Executive Compensation

Each of the Company's currently employed named executive officers is a party to an employment agreement. These agreements provide for base salaries, bonuses and customary fringe benefits. The key elements of our compensation program for the named executive officers are base salary, bonuses, stock options and perquisites and other benefits. Each of these is addressed separately below. In determining initial compensation, the compensation committee considers all elements of a named executive officer's total compensation package in comparison to current market practices and other benefits.

Base Salaries

Base salaries are paid for ongoing performance throughout the year. In order to compete for and retain talented executives who are critical to the Company's long-term success, the Committee has determined that the base salaries of named executive officers should approximate those of executives of other equity REITs that compete with the Company for employees, investors and business, while also taking into account the named executive officers' performance and tenure and the Company's performance relative to its peer companies within the REIT industry using the NAREIT Compensation Survey described above.

Bonuses

In addition to the provisions for base salaries under the terms of our employment agreements, the president is entitled to receive annual cash bonuses for each calendar year during the term of the agreement, based on the achievement of certain performance goals set by the Committee. The following are the bonus targets and recommended compensation for the president which the Compensation Committee uses as a guide in determining the bonus, if any:

	Threshold	Target	Outstanding
Growth in market cap	7.5%	12.5%	20%
Bonus	\$7,500	\$15,000	\$30,000
Growth in FFO/share	7.5%	12.5%	20%
Bonus	\$7,500	\$15,000	\$30,000
G r o w t h i n dividend/share	5%	10%	15%
Bonus	\$10,000	\$20,000	\$40,000
Total Bonus Potential	\$25,000	\$50,000	\$100,000

In addition to its determination of the executive's individual performance levels for 2009, the Committee also compared the executive's total compensation for 2009 to that of similarly-situated personnel in the REIT industry using the NAREIT Compensation Survey described above.

The bonus awarded to the other senior executives is determined by consideration of various factors including but not limited to the employees' title, responsibilities, and years of service.

Stock Options

The employment agreements also provide that certain executives are eligible for grants of stock options.

Perquisites and Other Personal Benefits

The Company's employment agreements provide the named executive officers with perquisites and other personal benefits that the Company and the Committee believe are reasonable and consistent with its overall compensation program to better enable the Company to attract and retain superior employees for key positions. The Committee periodically reviews the levels of perquisites and other personal benefits provided to the executive officers.

The named executive officers are provided the following benefits under the terms of their employment agreements: an allotted number of paid vacation weeks; eligibility for the executive, spouse and dependents in all Company sponsored employee benefits plans, including 401(k) plan, group health, accident, and life insurance, on terms no less favorable than applicable to any other executive; use of an automobile; and, supplemental long-term

disability insurance, at the Company's cost, as agreed to by the Company and the executive. Attributed costs of the personal benefits described above for the named executive officers for the fiscal year ended September 30, 2009, are included in All Other Compensation of the Summary Compensation Table provided below under Item 11 of this report.

Payments upon Termination or Change in Control

In addition, the named executive officers' employment agreements each contain provisions relating to change in control events and severance upon termination for events other than without cause or good reason (as defined under the terms of the employment agreements). These change in control and severance terms are designed to promote stability and continuity of senior management. Information regarding these provisions is included in Employment Contracts provided below in Item 11 of this report. There are no other agreements or arrangements governing change in control payments.

Evaluation

Mr. Eugene Landy is under an employment agreement with the Company. His base compensation under his amended contract was increased in 2004 to \$175,000 per year. Subsequent to the merger with Monmouth Capital in July 2007, his annual salary was increased to \$225,000 (The Summary Compensation Table for Mr. Eugene Landy shows a salary of \$225,000 and \$74,270 in stock options, director's fees and fringe benefits).

The Committee also reviewed the progress made by Ms. Cynthia J. Morgenstern, Executive Vice President. Ms. Morgenstern is under an employment agreement with the Company. Her base compensation under this contract is \$241,006 for 2009. Ms. Morgenstern received bonuses totaling \$12,934 and \$51,533 in stock options, director's fees and fringe benefits.

The Committee has also approved the recommendations of the president concerning the other named executives' annual salaries, bonuses, option grants and fringe benefits.

Compensation Committee Report

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the board that the Compensation Discussion and Analysis be included in this report.

Approximately 35% of this employee's compensation cost is allocated to and reimbursed by UMH, pursuant to a cost sharing agreement between the Company and UMH.

(6)

Represents discretionary contributions by the Company to the Company's 401(k) Plan allocated to an account of the named executive officer.

(7)

These values were established using the Black-Scholes stock option valuation model. See Note No. 11 to the Consolidated Financial Statements for assumptions used in the model. The actual value of the options will depend upon the performance of the Company during the period of time the options are outstanding and the price of the Company's common stock on the date of exercise.

Stock Option Plan

Options to purchase 245,000 shares were granted in 2009 and no options were exercised in 2009. Options to purchase 245,000 shares were granted during 2008 and options to purchase 14,000 shares were exercised during 2008. No options were granted or exercised during fiscal 2007. As of September 30, 2009, the number of options remaining for future grant is 1,402,620. Due to the merger with Monmouth Capital in 2007, options to purchase 214,000

shares of Monmouth Capital became exercisable in accordance with their existing terms for 140,170 shares of the Company stock at exercise prices adjusted for the stock conversion ratio. To the extent that an option to purchase Monmouth Capital common stock was not yet vested at the effective time of the merger, the option remained subject to the same terms and conditions of vesting as in effect immediately before the merger.

Grants of Plan-Based Awards

On July 26, 2007, the 2007 Stock Option Plan (the 2007 Plan) was approved by the shareholders authorizing the grant to officers, directors and key employees, of options to purchase up to 1,500,000 shares of common stock. Options may be granted any time up through December 31, 2016. No option shall be available for exercise beyond ten years. All options are exercisable after one year from the date of grant. The option price shall not be below the fair market value at date of grant. Canceled or expired options are added back to the pool of shares available under the Plan.

The following table sets forth, for the executive officers named in the Summary Compensation Table, information regarding individual grants of stock options made during the year ended September 30, 2009:

Name	Grant Date	Number of		Grant Date Fair Value (2)

(1)

These options expire 8 years from grant date.

(2)

These values were established using the Black-Scholes stock option valuation model. The following weighted-average assumptions were used in the model: expected volatility of 16.41%; risk-free interest rate of 3.38%; dividend yield of 8.3%; expected life of options of 8 years; and -0- estimated forfeitures. The actual value of the options will depend upon the performance of the Company during the period of time the options are outstanding and

the price of the Company's common stock on the date of exercise.

The following table sets forth for the executive officers named in the Summary Compensation Table, information regarding stock options outstanding at September 30, 2009:

Employment Agreements

Effective January 1, 2004, Eugene W. Landy entered into an amended employment agreement with the Company that will expire on December 31, 2009. The employment agreement renews for successive one-year terms, unless either party gives written notice of termination to the other party. Mr. Eugene Landy's amended employment agreement provides for annual base compensation of \$175,000 and a pension payment of \$50,000 per year, payable each year through December 31, 2013, which will increase to \$55,000 per year if the Company completes a transaction that

results in a 100% increase in the Company's market capitalization. Prior to the merger with Monmouth Capital, Mr. Eugene Landy was paid \$50,000 for acting as the president of Monmouth Capital. This additional salary amount was assumed by the Company upon consummation of the merger and its continuation was approved by the board of directors. Pursuant to the amended employment agreement, Mr. Eugene Landy will receive, each year, an option to purchase 65,000 shares of the Company common stock and may receive bonuses in amounts determined by the Company's board of directors, based upon progress towards achieving certain target levels of growth in market capitalization, funds from operations and dividends per share. The amended employment agreement provides that Mr. Eugene Landy is entitled to five weeks paid vacation and to participate in the Company's employee benefits plans at any time he is entitled to receive pension benefits. The amended employment agreement also provides for aggregate severance payments of \$500,000, payable to Mr. Eugene Landy upon the termination of his employment for any reason, in increments of \$100,000 per year for five years, disability payments, payable to Mr. Eugene Landy in the event of his disability (as defined in the amended employment agreement) for a period of three years, equal to Mr. Eugene Landy's salary and a death benefit of \$500,000 payable to Mr. Eugene Landy's designated beneficiary. Upon the termination of Mr. Eugene Landy's employment following or as a result of certain types of transactions that lead to a significant increase in the Company's market capitalization, the amended employment agreement provides that Mr. Eugene Landy will receive a grant of 35,000 to 65,000 shares of the Company common stock, depending on the amount of the increase in the Company's market capitalization, all of his outstanding options to purchase shares of the Company common stock will become immediately vested and he will be entitled to continue to receive benefits under the Company's health, dental, insurance and similar plans for one year. The merger does not trigger any of these provisions of the amended employment agreement, although the growth in market capitalization of the Company that would occur upon closing of the merger is one of many factors that the Company's board of directors may consider in determining the amount of Mr. Eugene Landy's bonus, if any. The amended employment agreement is terminable by the Company's board of directors at any time by reason of Mr. Eugene Landy's death or disability or for cause, which is defined in the amended employment agreement as a termination of the agreement if the Company's board of directors determines in good faith that Mr. Eugene Landy failed to substantially perform his duties to the Company (other than due to his death or disability), or has engaged in conduct the consequences of which are materially adverse to the Company, monetarily or otherwise. Upon

termination of the amended employment agreement, Mr. Eugene Landy will remain entitled to the disability, severance, death and pension benefits provided for in the amended employment agreement. On April 14, 2008, the Company executed the Third Amendment (the amendment) to Eugene W. Landy's employment agreement. The amendment provides that in the event of a change in control of the Company, Eugene W. Landy shall receive a lump sum payment of \$2,500,000, provided that the sale price of the Company is at least \$10 per share of common stock. A change of control shall be defined as the consummation of a reorganization, merger, share exchange, consolidation, or sale or disposition of all or substantially all of the assets of the Company. This change of control provision shall not apply to any combination between the Company and UMH. Payment shall be made simultaneously with the closing of the transaction, and only in the event that the transaction closes.

Effective January 1, 2007, the Company and Cynthia J. Morgenstern entered into an employment agreement that will expire on December 31, 2009. The employment agreement renews for successive one-year terms, unless either party gives written notice of termination to the other party. Under this employment agreement, Ms. Morgenstern is entitled to receive a base salary of \$208,550 for the year ending December 31, 2007, and is entitled to increases of 7.5% for the years ending December 31, 2008 and 2009, plus bonuses, if any, in amounts determined by the Company's board of directors or president. Pursuant to this employment agreement, the Company's president must request annually that the Company's stock option committee grant Ms. Morgenstern an option to purchase 50,000 shares of the Company's Common Stock, although the employment agreement does not require that the stock option committee grant any options. Ms. Morgenstern's employment agreement provides for four weeks paid vacation, the use of an automobile, reimbursement of her reasonable and necessary business expenses and that Ms. Morgenstern is entitled to participate in the Company's employee benefit plans. Ms. Morgenstern's employment agreement also requires the Company to reimburse Ms. Morgenstern for the cost of a disability insurance policy such that, in the event of Ms. Morgenstern's disability for a period of more than 90 days, Ms. Morgenstern will receive benefits equal to her then-current salary. In the event of a merger, sale or change of control of the Company, which is defined in Ms. Morgenstern's employment agreement as a change in voting control of the Company or change in control of 25% or more of the Company's board of directors by other than its existing directors and excludes transactions between the Company and UMH, Ms. Morgenstern will have the right to terminate the employment agreement or extend the employment agreement for three years from the date of the change in control. If there is a termination of employment for any reason, Ms. Morgenstern shall be entitled to receive one year's compensation at the date of termination. The compensation is to be at the greater of current compensation at the date of merger or change in control.

Effective January 1, 2009, the Company and Michael P. Landy, Executive Vice President Investments, entered into a three-year employment agreement, under which Mr. Michael Landy receives an annual base salary of \$190,575 for 2009 with increases of 5% for 2010 and 2011, plus bonuses and customary fringe benefits. The employment agreement renews for successive one-year terms, unless either party gives written notice of termination to the other party. Mr. Michael Landy will also receive four weeks vacation. The Company will reimburse the Mr. Michael Landy for the cost of a disability insurance policy such that, in the event of his disability for a period of more than 90 days, he will receive benefits up to 60% of his then-current salary. In the event of a merger, sale or change of voting control of the Company, excluding transactions between the Company and UMH, Mr. Michael Landy will have the right to extend and renew this employment agreement so that the expiration date will be three years from the date of merger, sale or change of voting control, or the employee may terminate the employment agreement and be entitled to receive one year's compensation in accordance with the agreement. If there is a termination of employment by the Company for any reason, either involuntary or voluntary, including the death of Mr. Michael Landy, other than a termination for cause as defined by the agreement, he shall be entitled to the greater of the salary due under the remaining term of the agreement or one year's compensation at the date of termination, paid monthly over the remaining term or life of the agreement. Approximately 35% of Mr. Michael Landy's compensation is allocated to UMH pursuant to a cost sharing arrangement between the Company and UMH.

Effective January 1, 2009, the Company and Maureen E. Vecere, Controller and Treasurer, entered into a three-year employment agreement, under which Ms. Vecere receives an annual base salary of \$139,000 for 2009 with increases of 7% for 2010 and 2011, plus bonuses and customary fringe benefits. The employment agreement renews for successive one-year terms, unless either party gives written notice of termination to the other party. Ms. Vecere will also receive four weeks vacation. The Company will reimburse Ms. Vecere for the cost of a disability insurance policy such that, in the event of her disability for a period of more than 90 days, she will receive benefits up to 60% of her then-current salary. In the event of a merger, sale or change of voting control of the Company, excluding transactions between the Company and UMH, Ms. Vecere will have the right to extend and renew this employment agreement so that the expiration date will be three years from the date of merger, sale or change of voting control, or the employee may terminate the employment agreement and be entitled to receive one year's compensation in accordance with the agreement. If there is a termination of employment by the Company for any reason, either involuntary or voluntary, including the death of Ms. Vecere, other than a termination for cause as defined by the agreement, she shall be entitled to the greater of the salary due under the remaining term of the agreement or one year's compensation at the date of termination, paid monthly over the remaining term or life of the agreement.

ITEM 13 - CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

The Company has a note receivable from Mr. Eugene W. Landy with a balance of \$984,375 at September 30, 2009 and 2008 which is included in Loans to Officers, Directors and Key Employees included under Shareholders' Equity. This note was signed on April 30, 2002 and is due on April 30, 2012. The interest rate is fixed at 5% and the note is collateralized by 150,000 shares of the Company stock. In addition, the Company had a note receivable outstanding from Mr. Landy for \$180,000 which was included in Tenant and Other Receivables as of September 30, 2006 and 2005. This note was signed on July 25, 2002 and was due and paid in full on July 25, 2007. The interest rate on this loan reset to the prime rate annually on the anniversary date and the note was not collateralized. Interest earned on both of these notes during 2009, 2008 and 2007 was \$49,219, \$49,219 and \$63,653, respectively.

Daniel D. Cronheim is a Director of the Company and Executive Vice President of David Cronheim Company (Cronheim) and CMS. Daniel Cronheim received \$16,000, \$18,000 and \$19,000 for Director's fees in 2009, 2008 and 2007, respectively. The David Cronheim Company received \$20,352, \$3,219 and \$33,273 in lease commissions in 2009, 2008 and 2007, respectively. The David Cronheim Mortgage Corporation, an affiliated company, received \$-0-, \$-0- and \$47,250 in mortgage brokerage commissions in 2009, 2008 and 2007, respectively. Cronheim Management Company received \$42,558 for a real estate commission on the sale of the South Brunswick, New Jersey property in 2007.

CMS, a division of David Cronheim Company, received the sum of \$375,477, \$375,477 and \$367,976 for management fees during the years ended 2009, 2008 and 2007, respectively. During 2009, 2008 and 2007, the Company was subject to a management contract with CMS. For the calendar years 2009, 2008 and 2007, the management fee was fixed at \$380,000. Management believes that the aforesaid fees are no more than what the Company would pay for comparable services elsewhere.

Prior to the merger with Monmouth Capital on July 31, 2007, the Company operated as part of a group of three public companies (all REITs) which included the Company, UMH Properties, Inc (UMH) and Monmouth Capital Corporation (the affiliated companies). Some general and administrative expenses were allocated between the affiliated companies based on use or services provided. Allocations of salaries and benefits are made based on the amount of the employees' time dedicated to each affiliated company. On July 31, 2007, Monmouth Capital was merged into the Company. Subsequent to July 31, 2007, shared expenses are allocated between the Company and UMH.

There are five Directors of the Company who are also Directors and shareholders of UMH. The Company holds common stock of UMH in its securities portfolio. On October 10, 2008, the Company repurchased \$1,000,000 principal amount at par of 2013 Debentures which were held by UMH as of September 30, 2008.

On July 22, 2008, the Company sold its 44,719 square foot industrial property in Ramsey, New Jersey to HSM Acquisitions Partners, Inc. and other related parties, for a selling price of \$4,050,000. The decision to sell the property and the terms of the sale were recommended by the Company's Business Judgment Committee, whose members consist of independent directors. The Business Judgment Committee obtained an independent appraisal of the property to assist in determining the contract terms. The Company believes that the terms of the sale are comparable to what the Company could have agreed to with an unrelated party. A one-third interest in the purchasing group is held by the President of CMS, the Company's real estate advisor, who is also the father of one of the non-executive Directors of the Company. The majority of the purchasing group is unrelated to the Company. No real estate commission was paid on this transaction.

No director, executive officer, or any immediate family member of such director or executive officer may enter into any transaction or arrangement with the Company without the prior approval of the Board of Directors. The Board of Directors will appoint a Business Judgment Committee consisting of independent directors who are also independent of the transaction or arrangement. This Committee will recommend to the Board of Directors

approval or disapproval of the transaction or arrangement. In determining whether to approve such a transaction or arrangement, the Business Judgment Committee will take into account, among other factors, whether the transaction was on terms no less favorable to the Company than terms generally available to third parties and the extent of the executive officer's or director's involvement in such transaction or arrangement. While the Company does not have specific written standards for approving such related party transactions, such transactions are only approved if it is in the best interest of the Company and its shareholders. Additionally, the Company's Code of Business Conduct and Ethics requires all directors, officers and employees who may have a potential or apparent conflict of interest to immediately notify the Company's General Counsel. Further, to identify related party transactions, the Company submits and requires our directors and executive officers to complete director and officer questionnaires identifying any transactions with the Company in which the director, executive officer or their immediate family members have an interest.

See identification of independent directors under Item 10 and committee members under Item 11.

ITEM 14 - PRINCIPAL ACCOUNTING FEES AND SERVICES

Audit related fees include services that are normally provided by the Company's independent auditors in connection with statutory and regulatory filings, such as consents and assistance with and review of documents filed with the Securities and Exchange Commission.

Tax fees include professional services rendered for the preparation of the Company's federal and state corporate tax returns and supporting schedules as may be required by the Internal Revenue Service and applicable state taxing authorities. Tax fees also include other work directly affecting or supporting the payment of taxes, including planning and research of various tax issues.

Audit Committee Pre-Approval Policy

The Audit Committee has adopted a policy for the pre-approval of audit and permitted non-audit services provided by the Company's principal independent accountants. The policy requires that all services provided by our independent registered public accountants to the Company, including audit services, audit-related services, tax services and other

services, must be pre-approved by the Committee, and all have been so approved. The pre-approval requirements do not prohibit day-to-day normal tax consulting services, which matters will not exceed \$10,000 in the aggregate.

The Audit Committee has determined that the provision of the non-audit services described above is compatible with maintaining PKF's independence.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders

Monmouth Real Estate Investment Corporation

We have audited the accompanying consolidated balance sheets of Monmouth Real Estate Investment Corporation (the Company) as of September 30, 2009 and 2008 and the related consolidated statements of income, shareholders equity, and cash flows for each of the two years in the period ended September 30, 2009. Our audit also included the financial statement schedule listed in the Index at Item 15(a)(2)(i). These financial statements and schedule are the responsibility of the Company s management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and schedule are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Monmouth Real Estate Investment Corporation at September 30, 2009 and 2008, and the consolidated results of its operations and its cash flows for each of the two years in the period ended September 30, 2009, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company s internal control over financial reporting as of September 30, 2009 based on criteria established

in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated December 9, 2009 expressed an unqualified opinion thereon.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and
Stockholders of Monmouth Real Estate Investment Corporation

We have audited the consolidated balance sheet (not presented) of Monmouth Real Estate Investment Corporation as of September 30, 2007, and the related consolidated statements of income, shareholders' equity and cash flows for the year ended September 30, 2007. Monmouth Real Estate Investment Corporation's management is responsible for these consolidated financial statements. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Monmouth Real Estate Investment Corporation as of September 30, 2007, and the results of its operations and its cash flows for the year ended September 30, 2007 in conformity with accounting principles generally accepted in the United States of America.

MONMOUTH REAL ESTATE INVESTMENT CORPORATION AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

SEPTEMBER 30, 2009

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of the Business

Monmouth Real Estate Investment Corporation (a Maryland corporation) and its subsidiaries (the Company) operate as a real estate investment trust (REIT), deriving its income primarily from real estate rental operations. As of September 30, 2009 and 2008, rental properties consisted of fifty-nine and fifty-eight holdings, respectively. These properties are located in twenty-five states: Alabama, Arizona, Colorado, Connecticut, Florida, Georgia, Illinois, Iowa, Kansas, Maryland, Michigan, Minnesota, Missouri, Mississippi, North Carolina, Nebraska, New Jersey, New York, Ohio, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, and Wisconsin. The Company also owns a portfolio of investment securities.

On July 31, 2007, the Company completed a strategic combination (the merger) with Monmouth Capital Corporation (Monmouth Capital). As a result of the merger, each issued and outstanding share of Monmouth Capital's common stock, par value \$1.00 per share (MCC Common Stock), was converted into and exchanged for the right to receive 0.655 (the exchange ratio) shares (the merger consideration) of the Company's common stock, par value \$0.01 per share (common stock). The Company issued 3,727,706 shares of common stock as the merger consideration. Following consummation of the merger, Monmouth Capital's outstanding 8.0% Convertible Subordinated Debentures due 2013 and 8.0% Convertible Subordinated Debentures due 2015 (the Debentures) remained outstanding obligations of Monmouth Capital and became convertible into shares of the Company's common stock, at conversion prices adjusted to reflect the exchange ratio. As a result of the merger, the Company acquired a controlling interest in fourteen industrial properties totaling approximately 1,035,000 square feet and REIT securities of approximately \$2,700,000.

Use of Estimates

In preparing the financial statements, management is required to make certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from these estimates.

Principles of Consolidation and Minority Interest

The consolidated financial statements include the Company and its wholly-owned subsidiaries. In 2001, the Company formed a wholly-owned subsidiary, MRC I, LLC (a Wisconsin limited liability company) to purchase the Cudahy, Wisconsin property and in 2005, the Company formed MREIC Financial, Inc., a taxable REIT subsidiary. In 2007, the Company merged with Monmouth Capital, with Monmouth Capital surviving as a wholly-owned subsidiary. Monmouth Capital owns the majority interest in the following limited liability companies:

<u>Entity</u>	<u>Organized</u>	<u>Interest</u>
Palmer Terrace Realty Associates, New Jersey LLC		51%
Wheeling, Partners, LLC	Illinois	63.336%
Jones EPI, LLC	Delaware	65%

The Company consolidates the results of operations of the above limited liability companies with minority interests. Minority interest represents the equity of the minority members in the above entities. All intercompany transactions and balances have been eliminated in consolidation.

Buildings, Improvements and Equipment

Buildings, improvements and equipment are stated at the lower of depreciated cost or net realizable value. Depreciation is computed based on the straight-line method over the estimated useful lives of the assets, utilizing a half-year convention in the year of purchase. These lives range from 5 to 40 years.

The Company has an undivided 2/3 interest in a shopping center located in Somerset, NJ. The Company is entitled to its proportional share of income from the property and is severally liable for its proportional share of expenses and liabilities. The Company accounts for its undivided interest based upon its pro rata share of assets, liabilities, revenues and expenses.

If there is an event or change in circumstances that indicates that the basis of an investment property may not be recoverable, management assesses the possible impairment of value through evaluation of the estimated future cash flows of the property, on an undiscounted basis, as compared to the property's current carrying value. A property's carrying value would be adjusted to fair value, if necessary, to reflect impairment in the value of the property.

Gains on Sale of Real Estate

Gains on the sale of real estate investments are recognized by the full accrual method when the criteria for the method are met. Generally, the criteria are met when the profit on a given sale is determinable, and the seller is not obliged to perform significant activities after the sale to earn the profit.

Acquisitions

The Company records direct costs and deposits associated with potential acquisitions to Other Assets. Upon closing of the acquisition, the costs are reclassified to real estate investments. The costs are expensed if the acquisition is not consummated.

Upon acquisition of a property, the Company allocates the purchase price of the property based upon the fair value of the assets acquired, which generally consist of land, buildings, leasing commissions and intangible assets, including in-place leases and above and below market leases. The Company allocates the purchase price to the fair value of the tangible assets of an acquired property generally determined by third party appraisal of the property obtained in conjunction with the purchase.

The purchase price is further allocated to in-place lease values based on management's evaluation of the specific characteristics of each tenant's lease and the Company's overall relationship with the respective tenant. Acquired above and below market leases are valued based on the present value of the difference between prevailing market rates and the in-place rates over the remaining lease term. Acquired above and below market leases are amortized to rental revenue over the remaining non-cancelable terms of the respective leases. The value of in-place lease intangibles is amortized to amortization expense over the remaining lease term. If a tenant terminates its lease early, the unamortized portion of the tenant improvements, leasing commissions, above and below market leases and the in-place lease value is immediately charged to expense.

Securities Available for Sale

The Company classifies its securities among three categories: Held-to-maturity, trading and available-for-sale. The Company's securities at September 30, 2009 and 2008 are all classified as available-for-sale and are carried at fair value based on quoted market prices. Gains or losses on the sale of securities are calculated based on

the average cost method and are accounted for on a trade date basis. Unrealized holding gains and losses are excluded from earnings and reported as a separate component of Shareholders' Equity until realized.

A decline in the market value of any security below cost that is deemed to be other than temporary, results in a reduction in the carrying amount to fair value. Any impairment would be charged to earnings and a new cost basis for the security established.

Derivative Financial Instruments

The Company invested in futures contracts of ten-year treasury notes to reduce exposure of the debt securities portfolio to market rate fluctuations and to reduce the risk of refinancing fixed rate debt at higher interest rates. These futures contracts do not qualify for hedge accounting under ASC 815-10, Derivatives and Hedging. The contracts are marked-to-market and the unrealized gain or loss is recorded in the consolidated statement of income in Gain on Securities Transactions, net with corresponding amounts recorded in Other Assets or Other Liabilities on the consolidated balance sheet. Gain or loss on settled futures contracts are also recorded as a component of Gain on Securities Transactions, net. The Company closed out its futures contracts in May 2008.

Cash Equivalents

Cash and cash equivalents include all cash and investments with an original maturity of three months or less. The Company maintains its cash in bank accounts in amounts that may exceed federally insured limits. The Company has not experienced any losses in these accounts in the past. The fair value of cash and cash equivalents approximates their current carrying amounts since all such items are short-term in nature.

Intangible Assets, Lease Costs and Financing Costs

Intangible assets, consisting primarily of the value of in-place leases, are amortized to expense over the remaining terms of the respective leases. Upon termination of a lease, the unamortized portion is immediately charged to expense. Amortization expense related to these intangible assets was \$1,443,636, \$1,659,118 and \$735,683, for the

years ended September 30, 2009, 2008 and 2007, respectively. The Company estimates that aggregate amortization expense for existing intangible assets will be approximately \$1,040,000, \$1,040,000, \$1,037,000, \$979,000 and \$691,000 for each of the years 2010, 2011, 2012, 2013 and 2014 respectively. The weighted-average amortization period upon acquisition for intangible assets recorded during 2009 and 2008 was 12 years and -0- years, respectively.

Costs incurred in connection with the execution of leases are deferred and are amortized over the term of the respective leases. Unamortized lease costs are charged to expense upon cancellation of leases prior to the expiration of lease terms. Costs incurred in connection with obtaining mortgages and other financings and refinancing are deferred and are amortized over the term of the related obligations. Unamortized costs are charged to expense upon prepayment of the obligation. Amortization expense related to these deferred assets was \$480,839, \$425,399 and \$304,352 for the years ended September 30, 2009, 2008 and 2007, respectively. The Company estimates that aggregate amortization expense for existing assets will be \$556,000, \$493,000, \$457,000, \$398,000 and \$323,000 for the years 2010, 2011, 2012, 2013 and 2014, respectively.

Revenue Recognition

Rental income from tenants with leases having scheduled rental increases are recognized on a straight-line basis over the term of the lease. Leases typically provide for reimbursement of real estate taxes, insurance, and other operating costs. These occupancy charges are recognized as earned.

The Company provides an allowance for doubtful accounts against the portion of tenant and other receivables, loans receivable and deferred rent receivable which are estimated to be uncollectible. For accounts receivable the Company deems uncollectible, the Company uses the direct write-off method.

Discontinued Operations

The Company has adopted ASC 360-10, Property Plant & Equipment (ASC 360-10). ASC 360-10 addresses financial accounting and reporting for the disposal of long-lived assets that are considered a component. A component is comprised of operations and cash flows that can clearly be distinguished, operationally and for financial reporting purposes, from the rest of the Company. ASC 360-10 requires that the results of operations and gains or losses on the sale of a component of an entity be presented in discontinued operations if both of the following criteria are met: (a) the operations and cash flows of the property have been (or will be) eliminated from the ongoing operations of the Company as a result of the disposal transaction and (b) the Company will not have any significant continuing involvement in the operations of the property after the disposal transaction. ASC 360-10 also requires prior period results of operations for these properties to be restated and presented in discontinued operations in prior consolidated statements of income.

Net Income (Loss) Per Share

Basic net income (loss) per share is calculated by dividing net income (loss) by the weighted-average number of common shares outstanding during the period. Diluted net income (loss) per share is calculated by dividing net income (loss) plus interest expense related to the Debentures by the weighted-average number of common shares outstanding plus the weighted-average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method, plus the number of shares resulting from the possible conversion of the Debentures during the period. Interest expense of \$1,119,200, \$1,199,200 and \$599,600 for 2009, 2008 and 2007, respectively and common shares totaling 1,304,148 for 2009 and 1,413,319 for 2008 and 2007, related to potential conversion of the Debentures are excluded from the calculation for 2009, 2008 and 2007, due to their antidilutive effect. Options to purchase common shares in the amount of 6,959, 32,241 and 98,922 are included in the diluted weighted average shares outstanding for 2009, 2008 and 2007, respectively. As of September 30, 2009, 2008 and 2007, options to purchase 317,741, 914,420 and 53,710 shares, respectively, were antidilutive.

Stock Option Plan

The Company accounts for stock options in accordance with ASC 718-10, Compensation-Stock Compensation. ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period

(generally equal to the vesting period). This compensation cost is determined using option pricing models, intended to estimate the fair value of the awards at the grant date. Compensation costs of \$77,351, \$42,453 and \$104,552 have been recognized in 2009, 2008 and 2007, respectively. Included in Note No. 11 to these consolidated financial statements are the assumptions and methodology.

Income Tax

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code. The Company will not be taxed on the portion of its income which is distributed to shareholders, provided it distributes at least 90% of its taxable income, has at least 75% of its assets in real estate investments and meets certain other requirements for qualification as a REIT. The Company is subject to franchise taxes in some of the states in which the Company owns property.

Comprehensive Income

Comprehensive income is comprised of net income (loss) and other comprehensive income (loss). Other comprehensive income (loss) consists of unrealized gains or losses on securities available for sale.

Reclassifications

Certain amounts in the consolidated financial statements for the prior years have been reclassified to conform to the financial statement presentation for the current year.

Subsequent Events

Material subsequent events have been evaluated through December 9, 2009 and are disclosed in the accompanying consolidated financial statements.

New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued the FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles, also known as FASB Accounting Standards Codification (ASC) 105-10, Generally Accepted Accounting Principles, (ASC 105-10). ASC 105-10 establishes the FASB Accounting Standards Codification (Codification) as the single source of authoritative U.S. GAAP recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative U.S. GAAP for SEC registrants. The subsequent issuances of new standards will be in the form of Accounting Standards Updates (ASUs) that will be included in the Codification. Generally, the Codification is not expected to change U.S. GAAP. All other accounting literature excluded from the Codification will be considered nonauthoritative. This ASC is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Company adopted this ASC for our quarter ended September 30, 2009. The adoption did not have any effect on our financial condition or results of operations. All accounting references have been updated, and therefore Statement of Financial Accounting Standards references have been replaced with ASC references.

ASC 810-10, Consolidations, which, among other things, provides guidance and establishes amended accounting and reporting standards for a parent company's noncontrolling interest in a subsidiary. The Company will adopt on October 1, 2009 and will change the presentation of the minority interest on the financial statements. As of October 1, 2009, the noncontrolling interest will be reported separately within the equity section of the consolidated balance sheet.

In August 2009, FASB issued ASU 2009-05, Fair Value Measurements and Disclosures (Topic 820) Measuring Liabilities at Fair Value. This ASU clarifies how an entity should measure the fair value of liabilities and that the restrictions on the transfer of a liability should not be included in its fair value measurement. The effective date of this ASU is the first reporting period after the issuance date, August 26, 2009. The Company adopted this ASU for our

quarter ended September 30, 2009. The adoption of this ASU did not have a material effect on our financial condition or results of operations.

ASC 855-10, Subsequent Events, establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or available to be issued. ASC 855-10 requires an entity to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet. For unrecognized subsequent events that must be disclosed to keep the financial statements from being misleading, an entity will be required to disclose the nature of the event as well as an estimate of its financial effect, or a statement that such an estimate cannot be made. In addition, ASC 855-10 requires an entity to disclose the date through which subsequent events have been evaluated.

ASC 855-10 is effective for the interim or annual financial periods ending after June 15, 2009. The Company adopted ASC 855-10 effective for the quarter ended June 30, 2009. The adoption of this ASC did not have a material effect on our financial condition or results of operations.

The FASB provided additional application guidance and enhanced disclosures about fair value measurements and impairments of securities. ASC 820-10, Fair Value Measurements and Disclosures, clarifies the objective and method of fair value measurement even when there has been a significant decrease in market activity for the asset being measured. ASC 320-10, Investments-Debt and Equity Securities, establishes a new model for measuring other-than-temporary impairments for debt securities, including criteria for when to recognize a write-down through earnings versus other comprehensive income. ASC 825-10, Financial Instruments, expands the fair value disclosures required for certain financial instruments to interim periods as well as in annual reports. All of these ASCs are effective for interim and annual periods ending after June 15, 2009. The Company adopted these

ASCs effective for the quarter ended June 30, 2009. The adoption of these ASCs did not have a material effect on our financial condition or results of operations. However, adoption of ASC 825-10 resulted in increased disclosures in our consolidated financial statements.

ASC 805-10, Business Combinations and ASC 810-10, Consolidation, requires most identifiable assets, liabilities, noncontrolling interests and goodwill acquired in a business combination to be recorded at full fair value and require noncontrolling interests (previously referred to as minority interests) to be reported as a component of equity, which changes the accounting for transactions with noncontrolling interest holders. The provisions of ASC 805-10 and ASC 810-10 are effective for our fiscal year beginning October 1, 2009. ASC 805-10 will be applied to business combinations occurring after the effective date and ASC 810-10 will be applied prospectively to all changes in noncontrolling interests, including any that existed at the effective date. The adoption of ASC 805-10 and ASC 810-10 effective October 1, 2009 for future business combinations may result in the recognition of certain types of expenses in our results of operations that are currently capitalized pursuant to existing accounting standards, among other potential impacts.

ASC 815-10, Derivatives and Hedging, requires enhanced disclosures about (a) how and why derivative instruments are used, (b) how derivative instruments and related hedged items are accounted for and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance and cash flows. ASC 815-10 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The Company adopted ASC 815-10 effective January 1, 2009. The adoption of this ASC did not have a material effect on our financial condition or results of operations.

NOTE 2 MERGER WITH MONMOUTH CAPITAL CORPORATION

On July 31, 2007, the Company merged with Monmouth Capital, a REIT, which had a controlling equity interest in fourteen industrial properties. Monmouth Capital became a wholly-owned subsidiary of the Company. Management believes the merger has provided a number of strategic and financial benefits. The following are the industrial properties held by Monmouth Capital:

<u>Location</u>	<u>Sq Feet</u>	<u>Ownership</u>	<u>Tenant</u>
Carlstadt, NJ	59,400	51%	Macy's East, Inc.
White Bear Lake, MN	59,425	100%	Federal Express Corp

	1,034,717		

These properties were subject to various mortgages as further detailed in Note No. 9.

As a result of the merger, pursuant to the terms of an Indenture, dated as of October 23, 2003, between Monmouth Capital and Wilmington Trust Company, as trustee (Trustee), Monmouth Capital's outstanding 8% Convertible Subordinated Debentures Due 2013 became convertible into shares of the Company's common stock at an adjusted conversion price of \$9.16 per share and, pursuant to the terms of an Indenture, dated as of March 30, 2005, between Monmouth Capital and the Trustee, Monmouth Capital's outstanding 8% Convertible Subordinated

Debentures Due 2015 became convertible into shares of the Company's Common Stock at an adjusted conversion price of \$11.45 per share.

During 2008, the Company finalized the allocation of purchase price resulting in a reclassification of \$3,847,000 from intangible assets to real estate investments. The final allocation of the aggregate purchase price to the tangible and intangible net assets, is as follows:

Real estate investments	\$84,450,220
Intangible assets	5,108,304
Securities available for sale	3,522,668
Cash	1,204,754
Notes receivable	544,467

NOTE 4 ACQUISITIONS AND DISPOSITIONS

Fiscal 2009

Acquisitions

On September 17, 2009, the Company purchased a 40,000 square foot industrial building in Topeka, Kansas. The building is 100% net-leased to Coca-Cola Enterprises through September 30, 2021. The purchase price including closing costs was approximately \$4,088,000. The Company obtained a mortgage of \$2,687,573 (see Note No. 9) at a fixed interest rate of 6.50% per year and used the margin loan to fund the acquisition. Management estimated that the value of the lease at purchase was approximately \$408,300.

Expansions

The Company expanded the industrial building in Griffin, Georgia. Construction was completed in December 2008 and total costs were approximately \$416,000. The building was expanded from 215,720 square feet to 217,970 square feet and the parking lot was expanded by 11,000 square feet. As of June 2009, the annual rent increased from \$1,093,700 (\$5.07 per square foot) to approximately \$1,169,000 (\$5.36 per square foot).

The Company expanded the industrial building in Cheektowaga, New York. Construction was substantially completed in August 2009 and total construction costs were approximately \$2,200,000. The building was expanded from 84,923 square feet to 104,981 square feet. Annual rent increased from \$686,479 (\$8.08 per square foot) to \$961,838 (\$9.16 per square foot) and the lease was extended through August 2019.

Fiscal 2008

Acquisitions

On November 30, 2007, the Company purchased an 89,101 square foot industrial building in Cocoa, Florida. The building is 100% net-leased to FDX Ground through November 19, 2016. The purchase price including closing costs was approximately \$10,505,000. The Company obtained a mortgage of \$7,150,000 (see Note No. 9) at a fixed interest rate of 6.29% and used its line of credit to fund the acquisition.

On September 25, 2008, the Company purchased an 110,638 square foot industrial building in Orlando, Florida. The building is 100% net-leased to FDX through November 30, 2017. The purchase price including closing costs was approximately \$8,335,000. The Company obtained a mortgage of \$5,800,000 (see Note No. 9) at a fixed interest rate of 6.56% and used proceeds from the sale of the industrial property in Franklin, Massachusetts to fund the acquisition. This property is the replacement property in a like-kind exchange transaction that will qualify for tax-deferred treatment under Section 1031 of the Internal Revenue Code (see disposition below).

Dispositions

On June 3, 2008, the Company sold an 84,376 square foot industrial building in Franklin, Massachusetts for \$6,685,000 (\$79 per square foot). The property was leased to Kellogg Sales Company at the time of the sale and was leased through January 2010 at an annual rent of approximately \$6.25 per square foot or \$527,000. The Company recognized a gain on the sale of \$3,268,496. The operating results and gain on sale are presented as discontinued operations. The property was not subject to a mortgage, and is intended to serve as the relinquished property in a 1031 like-kind exchange transaction.

On July 22, 2008, the Company sold its 44,719 square foot industrial property in Ramsey, New Jersey to HSM Acquisitions Partners, Inc. and other related parties, for a selling price of \$4,050,000. The decision to sell the property and the terms of the sale were recommended by the Company's Business Judgment Committee, whose members consist of independent directors. The Business Judgment Committee obtained an independent appraisal of

the property to assist in determining the contract terms. The Company believes that the terms of the sale are comparable to what the Company could have agreed to with an unrelated party. A one-third interest in the purchasing group is held by the President of CMS, the Company's real estate advisor, who is also the father of one of the non-executive Directors of the Company. The majority of the purchasing group is unrelated to the Company. No real estate commission was paid on this transaction. The operating results and gain on sale are presented as discontinued operations. The Company recognized a gain on the sale of \$3,522,120.

Expansions

The Company expanded the industrial building in Beltsville, Maryland. Construction was completed in August 2008 and total costs were approximately \$5,400,000. The building was expanded from 109,705 square feet to 147,668 square feet. Annual rent increased from \$898,835 (\$8.19 per square foot) to \$1,426,104 (\$9.66 per square foot) and the lease was extended through July 2018.

The Company expanded the industrial building leased to FDX Ground in Augusta, Georgia. Construction was completed in August 2008 and total costs were approximately \$1,665,000. The building was expanded from 38,210 square feet to 59,358 square feet. Annual rent increased from \$278,579 (\$7.29 per square foot) to \$453,457 (\$7.64 per square foot) and the lease was extended through August 2018.

The Company expanded the industrial building leased to FDX Ground in Hanahan, South Carolina. Construction was completed in July 2008 and total costs were approximately \$2,900,000. The building was expanded from 54,286 square feet to 91,776 square feet. Annual rent increased from \$373,823 (\$6.89 per square foot) to \$675,239 (\$7.36 per square foot) and the lease was extended through July 2018.

The Company expanded the industrial building leased to FDX Ground in Denver, Colorado. Construction was completed in July 2008 and total costs were approximately \$1,412,000. The building was expanded from 60,361 square feet to 69,865 square feet. Annual rent increased from \$421,460 (\$6.98 per square foot) to \$564,206 (\$8.08 per square foot) and the lease was extended through July 2018.

The Company expanded the industrial building leased to FDX Ground in Colorado Springs, Colorado. Construction was completed in September 2008 and total costs were approximately \$2,300,000. The building was expanded from

53,202 square feet to 68,370 square feet. Annual rent increased from \$411,823 (\$7.74 per square foot) to \$644,729 (\$9.43 per square foot) and the lease was extended through September 2018.

NOTE 5 INTANGIBLE ASSETS

The following is a summary of the range of losses:

<u>Number of</u>	
<u>Individual Securities</u>	<u>Range of Loss</u>
7	Less than or equal to 10%
2	Less than or equal to 20%
1	Less than or equal to 30%

The Company has determined that these securities are temporarily impaired as of September 30, 2009. The Company normally holds REIT securities long term and has the ability and intent to hold these securities to recovery.

The Company had margin loan balances of \$4,063,750 and \$2,299,947 as of September 30, 2009 and 2008, respectively, which were collateralized by the securities portfolio.

Dividend income for the years ended September 30, 2009, 2008 and 2007 totaled \$2,362,521, \$1,659,665 and \$1,292,636, respectively. Interest income for the years ended September 30, 2009, 2008 and 2007 totaled \$139,732, \$211,597 and \$174,808, respectively.

The Company received proceeds of \$2,406,354, \$962,822 and \$4,225,963, on sales or redemptions of securities available for sale during 2009, 2008 and 2007, respectively. The Company recorded the following (Loss) Gain on Securities Transactions, net:

	2009	2008	2007
Gross realized gains	\$98,844	\$225,678	\$471,707
Gross realized losses	(699,626)	(38,880)	(45,561)

(Loss) Gain on Securities Transactions, net	(\$6,601,460)	(\$3,660,283)	\$156,723

During 2008 and 2007, the Company invested in futures contracts of ten-year treasury notes with a notional amount of \$9,000,000 with the objective of reducing the exposure of the preferred equity and debt securities portfolio to interest rate fluctuations and the risk of rolling over the fixed rate debt at higher rates. Changes in the market value of these derivatives have been recorded in gain on securities available for sale transactions, net with corresponding amounts recorded in other assets or other liabilities on the balance sheet. The Company closed out its

contract as of May 2008. There were no open contracts as of September 30, 2009 and 2008. The fair value of the derivatives at September 30, 2007 was a gain of \$102,657 and is included in gain on securities transactions, net.

During 2008 and 2007, the Company recorded a loss of \$742,307 and \$272,080, respectively, on settled futures contracts. During 2009, 2008 and 2007, the Company recognized a loss of \$6,000,678, \$3,104,774, and \$100,000, respectively, due to writing down the carrying value of securities available for sale, which were considered other than temporarily impaired. As of September 30, 2009, the securities portfolio had unrealized net gains of \$3,796,831.

NOTE 9 - MORTGAGE NOTES, LOANS PAYABLE AND CONVERTIBLE SUBORDINATED DEBENTURES

Mortgage Notes Payable:

On March 4, 2009, the Company obtained a mortgage from Two River Community Bank of \$2,437,500 secured by the 37,660 square foot industrial building leased to MagiKitchen, Inc. in Quakertown, Pennsylvania. The property is classified as held for sale as of September 30, 2009. The mortgage is an interest-only loan and is at a variable rate based on the Wall Street Journal Prime Rate plus 1% (but not less than 5%). The mortgage is due on March 4, 2011.

On June 23, 2009, the Company obtained a mortgage from Sun National Bank of \$6,000,000 secured by a second mortgage on the 149,384 square foot industrial building leased to FedEx Ground Package System, Inc. in Beltsville, Maryland. The second mortgage is at an annual fixed rate of 6.65% for the first three years (initial period). After the initial period, the rate resets every three years to an annual rate of 325 basis points over the FHLB daily advance rate for a five year loan (but not less than 6.5%). The loan requires principal and interest payments and matures on July 31, 2029. Sun National Bank has the option to call the loan on May 1, 2016. The property in Beltsville, Maryland is subject to a first mortgage with a balance of \$3,462,616 as of September 30, 2009 which is at a fixed interest rate of 7.53% and is due May 1, 2016.

Loans Payable:

Capital One, N.A.

The Company has a line of credit agreement with Capital One, N.A. for \$15,000,000. This \$15,000,000 line is unsecured and can be used for working capital purposes or acquisitions. The line's rate is variable at LIBOR plus 200 basis points and its term is through March 31, 2011. The interest rate was 2.25% and 4.49% as of September 30, 2009 and 2008. The Company must keep not less than \$1,000,000 in average net collected balances at Capital One, N.A. and meet certain loan covenants as contained in the loan agreement, including a 65% loan to value ratio on certain negatively pledged properties. The Company was in compliance with these covenants as of September 30, 2009. The annual commitment fee paid in 2009 was \$37,500. Fees paid to originate this line in 2008 were \$43,675 and are being amortized over the term of the modified line. The balance outstanding as of September 30, 2009 and 2008 was \$15,000,000 and \$12,251,000, respectively.

Margin Loans

The Company uses margin loans for purchasing securities, for temporarily funding of acquisitions, and for working capital purposes. The interest rate charged on the margin loan is the bank's margin rate and was 2.0% and 3.75% as of September 30, 2009 and 2008, respectively and is due on demand. At September 30, 2009 and 2008, the margin loans totaled \$4,063,750 and \$2,299,947, respectively and are collateralized by the Company's securities portfolio. The Company must maintain a coverage ratio of approximately 50%.

Convertible Subordinated Debentures

Debentures due 2013:

Monmouth Capital has \$3,770,000 of 8% Convertible Subordinated Debentures outstanding, due 2013 (the 2013 Debentures). Interest is paid semi-annually in arrears on April 30 and October 31 of each year. The 2013 Debentures are convertible into common stock of the Company at any time prior to redemption or maturity, at the conversion price of \$9.16 per share (equivalent to a rate of 109.17 shares of common stock for each \$1,000 principal amount), subject to adjustment under certain conditions.

The Company may redeem the 2013 Debentures, at its option, in whole or in part, at any time on and after October 31, 2004 at the redemption prices set below. The redemption price, expressed as a percentage of the principal amount, is 100% for the 12-month period beginning on:

<u>Period</u>	<u>Redemption Price</u>
October 23, 2008	105%
October 23, 2009 and thereafter	100%

In each case, the Company will pay accrued and unpaid interest to, but excluding, the date fixed for redemption. No sinking fund is provided for the 2013 Debentures.

Debentures due 2015:

Monmouth Capital has \$10,220,000 of 8% Convertible Subordinated Debentures outstanding, due 2015 (the 2015 Debentures). Interest is paid semi-annually in arrears on April 30 and October 31 of each year, commencing October 31, 2005. The 2015 Debentures are convertible into common stock of the Company at any time prior to redemption or maturity, at the conversion price of \$11.45 per share (equivalent to a rate of 87.336 shares of common stock for each \$1,000 principal amount), subject to adjustment under certain conditions.

The Company may redeem the 2015 Debentures, at its option, in whole or in part, at any time on and after March 30, 2006 at the redemption prices set below. The redemption price, expressed as a percentage of the principal amount, is as follows for the 12-month periods beginning on:

<u>Period</u>	<u>Redemption Price</u>
March 30, 2009	110%
March 30, 2010	105%
March 30, 2011 and Thereafter	100%

In each case, the Company will pay accrued and unpaid interest to, but excluding, the date fixed for redemption. No sinking fund is provided for the 2015 Debentures.

NOTE 10 - OTHER LIABILITIES

Other liabilities consist of the following:

	9/30/09	9/30/08

Total	\$2,696,053	\$2,114,627

NOTE 11 - STOCK OPTION PLAN

On July 26, 2007, the 2007 Stock Option Plan (the 2007 Plan) was approved by the shareholders authorizing the grant to officers, directors and key employees, of options to purchase up to 1,500,000 shares of common stock. Options may be granted any time up through December 31, 2016. No option shall be available for exercise beyond ten years. All options are exercisable after one year from the date of grant. The option price shall not be below the fair market value at date of grant. Canceled or expired options are added back to the pool of shares available under the Plan.

The Company accounts for stock options in accordance with ASC 718-10, Compensation-Stock Compensation. ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period).

During the year ended September 30, 2009, eleven employees were granted options to purchase a total of 245,000 shares. The fair value of these options was approximately \$56,350 based on the assumptions noted below

and is being amortized over the 1-year vesting period. During the year ended September 30, 2008, eleven employees were granted options to purchase a total of 245,000 shares. The fair value of these options was approximately \$64,150 based on the assumptions noted below. No options were granted during 2007.

Due to the merger with Monmouth Capital, options to purchase 214,000 shares of Monmouth Capital became exercisable in accordance with their existing terms for 140,170 shares of the Company stock at exercise prices adjusted for the stock conversion ratio. To the extent that an option to purchase Monmouth Capital common stock was not yet vested at the effective time of the merger, the option remained subject to the same terms and conditions of vesting as in effect immediately before the merger.

The fair value of each option grant is estimated on the date of grant using the Black-Sholes option-pricing model with the following weighted-average assumptions used for grants in fiscal 2009 and 2008:

	<u>2009</u>	<u>2008</u>
Dividend yield	8.30%	7.59%

As of September 30, 2009, there were options to purchase 1,042,620 shares available for grant under the 2007 Plan.

NOTE 12 - INCOME FROM LEASES

The Company derives income primarily from operating leases on its commercial properties. In general, these leases are written for periods up to ten years with various provisions for renewal. These leases generally contain clauses for reimbursement (or direct payment) of real estate taxes, maintenance, insurance and certain other operating expenses of the properties. Minimum base rents due under noncancellable leases as of September 30, 2009 are approximately scheduled as follows:

Fiscal Year	Amount
2010	\$33,234,000
2011	30,927,000
2012	26,122,000
2013	21,112,000
2014	18,686,000
thereafter	51,188,000
Total	\$181,269,000

NOTE 13 - RELATED PARTY TRANSACTIONS

On January 1, 2004, Eugene W. Landy's Employment Agreement with the Company was amended to extend for five years to December 31, 2009. Mr. Landy's amended Employment Agreement provides for (1) an increase in his annual base compensation from \$150,000 to \$175,000; (2) an increase in his severance payment from \$300,000 payable \$100,000 a year for three years to \$500,000 payable \$100,000 a year for five years; and (3) an increase from \$40,000 a year to \$50,000 a year of his pension benefits payable for ten years; and (4) an extension of three years of his pension payments. In 2007, subsequent to the merger with Monmouth Capital, the Board increased his salary to \$225,000 per year. Mr. Landy receives bonuses and customary fringe benefits, including health insurance and five weeks vacation. Additionally, there will be bonuses voted by the board of directors. The Employment Agreement is terminable by either party at any time subject to certain notice requirements. On April 14, 2008, the Company executed the Third Amendment (the amendment) to Eugene W. Landy's employment agreement. The amendment provides that in the event of a change in control of the Company, Eugene W. Landy shall receive a lump sum payment of \$2,500,000, provided that the sale price of the Company is at least \$10 per

share of common stock. A change of control shall be defined as the consummation of a reorganization, merger, share exchange, consolidation, or sale or disposition of all or substantially all of the assets of the Company. This change of control provision shall not apply to any combination between the Company and UMH Properties, Inc. Payment shall be made simultaneously with the closing of the transaction, and only in the event that the transaction closes. Eugene W. Landy received \$16,000, \$18,000 and \$19,000 during 2009, 2008 and 2007 as Director. The firm of Eugene W. Landy received \$-0-, \$17,500 and \$-0- during 2009, 2008 and 2007, respectively, as legal fees.

The Company has a note receivable from Mr. Landy with a balance of \$984,375 at September 30, 2009 and 2008 which is included in Loans to Officers, Directors and Key Employees included under Shareholders Equity. This note was signed on April 30, 2002 and is due on April 30, 2012. The interest rate is fixed at 5% and the note is collateralized by 150,000 shares of the Company stock. In addition, the Company had a note receivable outstanding from Mr. Landy for \$180,000 which was included in Tenant and Other Receivables as of September 30, 2006 and 2005. This note was signed on July 25, 2002 and was due and paid in full on July 25, 2007. The interest rate on this loan reset to the prime rate annually on the anniversary date and the note was not collateralized. Interest earned on both of these notes during 2009, 2008 and 2007 was \$49,219, \$49,219 and \$63,653, respectively.

Effective January 1, 2007, the Company and Cynthia J. Morgenstern entered into a three-year employment agreement under which Ms. Morgenstern receives a base salary of \$208,550 for 2007 with increases of 7.5% for 2008 and 2009, plus bonuses, if any, in amounts determined by the Company's board of directors or president. Pursuant to this employment agreement, the Company's president must request annually that the Company's stock option committee grant Ms. Morgenstern an option to purchase 50,000 shares of the Company's common stock, although the employment agreement does not require that the stock option committee grant any options. Ms. Morgenstern's employment agreement provides for four weeks paid vacation, the use of an automobile, reimbursement of her reasonable and necessary business expenses and that Ms. Morgenstern is entitled to participate in the Company's employee benefit plans. Ms. Morgenstern's employment agreement also requires the Company to reimburse Ms. Morgenstern for the cost of a disability insurance policy such that, in the event of Ms. Morgenstern's disability for a period of more than 90 days, Ms. Morgenstern will receive benefits equal to her then-current salary. In the event of a merger, sale or change of control of the Company, which is defined in Ms. Morgenstern's employment agreement as a change in voting control of the Company or change in control of 25% or more of the Company's board of directors by other than its existing directors and excludes transactions between the Company and UMH, Ms. Morgenstern will have the right to terminate the employment agreement or extend the employment agreement for three years from the date of the change in control. Ms. Morgenstern received \$16,000, \$18,000 and \$19,000 during 2009, 2008 and 2007, respectively, as Director.

Effective January 1, 2009, the Company and Michael P. Landy entered into a three-year employment agreement, under which Mr. Michael Landy receives an annual base salary of \$190,575 for 2009 with increases of 5% for 2010 and 2011, plus bonuses and customary fringe benefits. The employee will also receive four weeks vacation. Mr.

Michael Landy's employment agreement also requires the Company to reimburse Mr. Michael Landy for the cost of a disability insurance policy such that, in the event of Mr. Michael Landy's disability for a period of more than 90 days, Mr. Michael Landy will receive benefits up to 60% of his then-current salary. In the event of a merger, sale or change of voting control of the Company, excluding transactions between the Company and UMH, the employee will have the right to extend and renew this employment agreement so that the expiration date will be three years from the date of merger, sale or change of voting control, or the employee may terminate the employment agreement and be entitled to receive one year's compensation in accordance with the agreement. If there is a termination of employment by the Company for any reason, either involuntary or voluntary, including the death of the employee, other than a termination for cause as defined by the agreement, the employee shall be entitled to the greater of the salary due under the remaining term of the agreement or one year's compensation at the date of termination, paid monthly over the remaining term or life of the agreement. Approximately 35%, 35% and 33% of Mr. Michael Landy's compensation was allocated to UMH in 2009, 2008 and 2007, respectively, pursuant to a cost sharing agreement between the Company and UMH. Mr. Michael Landy received \$16,000, \$18,000 and \$4,000 during 2009, 2008 and 2007 respectively, as Director.

Effective January 1, 2009, the Company and Maureen E. Vecere, Controller and Treasurer, entered into a three-year employment agreement, under which the employee receives an annual base salary of \$139,000 for 2009

with increases of 7% for 2010 and 2011, plus bonuses and customary fringe benefits. The employee will also receive four weeks vacation. The Company will reimburse the employee for the cost of a disability insurance policy such that, in the event of the employee's disability for a period of more than 90 days, the employee will receive benefits up to 60% of her then-current salary. In the event of a merger, sale or change of voting control of the Company, excluding transactions between the Company and UMH, the employee will have the right to extend and renew this employment agreement so that the expiration date will be three years from the date of merger, sale or change of voting control, or the employee may terminate the employment agreement and be entitled to receive one year's compensation in accordance with the agreement. If there is a termination of employment by the Company for any reason, either involuntary or voluntary, including the death of the employee, other than a termination for cause as defined by the agreement, the employee shall be entitled to the greater of the salary due under the remaining term of the agreement or one year's compensation at the date of termination, paid monthly over the remaining term or life of the agreement.

Daniel D. Cronheim is a Director of the Company and Executive Vice President of David Cronheim Company (Cronheim) and CMS. Daniel Cronheim received \$16,000, \$18,000 and \$19,000 for Director's fees in 2009, 2008 and 2007, respectively. The David Cronheim Company received \$20,352, \$3,219 and \$33,273 in lease commissions in 2009, 2008 and 2007, respectively. The David Cronheim Mortgage Corporation, an affiliated company, received \$0-, \$0- and \$47,250 in mortgage brokerage commissions in 2009, 2008 and 2007, respectively. Cronheim Management Company received \$42,558 for a real estate commission on the sale of the South Brunswick, New Jersey property in 2007.

CMS, a division of David Cronheim Company, received the sum of \$375,477, \$375,477 and \$367,976 for management fees during the years ended 2009, 2008 and 2007, respectively. During 2009, 2008 and 2007, the Company was subject to a management contract with CMS. For the calendar years 2009, 2008 and 2007, the management fee was fixed at \$380,000. Management believes that the aforesaid fees are no more than what the Company would pay for comparable services elsewhere.

Prior to the merger with Monmouth Capital on July 31, 2007, the Company operated as part of a group of three public companies (all REITs) which included the Company, UMH and Monmouth Capital Corporation (the affiliated companies). Some general and administrative expenses were allocated between the affiliated companies based on use or services provided. Allocations of salaries and benefits are made based on the amount of the employees' time dedicated to each affiliated company. On July 31, 2007, Monmouth Capital was merged into the Company. Subsequent to July 31, 2007, shared expenses are allocated between the Company and UMH.

There are five Directors of the Company who are also Directors and shareholders of UMH. The Company holds common stock of UMH in its securities portfolio. See Note No. 8 for current holdings. On October 10, 2008, the

Company repurchased \$1,000,000 principal amount at par of 2013 Debentures which were held by UMH as of September 30, 2008.

During 2004 the Company invested \$500,000 in the Monmouth Capital Corporation Convertible Subordinated Debenture, due 2013. Interest received on the investment in the Convertible Subordinated Debenture during 2007 (pre-merger) was \$40,000. The \$500,000 Subordinated Convertible Debenture was cancelled upon the closing of the merger.

As described in Note No. 4, on July 22, 2008, the Company sold its 44,719 square foot industrial property in Ramsey, New Jersey to HSM Acquisitions Partners, Inc. and other related parties, for a selling price of \$4,050,000. The decision to sell the property and the terms of the sale were recommended by the Company's Business Judgment Committee, whose members consist of independent directors. The Business Judgment Committee obtained an independent appraisal of the property to assist in determining the contract terms. The Company believes that the terms of the sale are comparable to what the Company could have agreed to with an unrelated party. A one-third interest in the purchasing group is held by the President of CMS, the Company's real estate advisor, who is also the father of one of the non-executive Directors of the Company. The majority of the purchasing group is unrelated to the Company. No real estate commission was paid on this transaction.

NOTE 14 - TAXES

Income Tax

The Company has elected to be taxed as a Real Estate Investment Trust under the applicable provisions of the Internal Revenue Code under Sections 856 to 860 and the comparable New Jersey Statutes. Under such provisions, the Company will not be taxed on that portion of its taxable income distributed currently to shareholders, provided that at least 90% of its taxable income is distributed. As the Company has and intends to continue to distribute all of its income currently, no provision has been made for income taxes. If the Company fails to qualify as a REIT in any taxable year, it will be subject to federal income taxes at regular corporate rates (including any applicable alternative minimum tax) and may not be able to qualify as a REIT for four subsequent taxable years. Even if the Company qualifies for taxation as a REIT, the Company may be subject to certain state and local taxes on its income and property, and to federal income and excise taxes on its undistributed taxable income. In addition, taxable income from non-REIT activities managed through taxable REIT subsidiaries is subject to federal, state, and local income taxes.

Federal Excise Tax

The Company does not have a Federal excise tax liability for the calendar years 2009, 2008 and 2007, since it intends to or has distributed all of its annual income.

NOTE 15 - SHAREHOLDERS EQUITYCommon Stock

The Company implemented a dividend reinvestment and stock purchase plan (the DRIP) effective December 15, 1987, as amended. Under the terms of the DRIP and subsequent amendments, shareholders who participate may reinvest all or part of their dividends in additional shares of the Company at a discounted price directly from the Company, from authorized but unissued shares of the Company common stock or at market price when purchased by the Company's transfer agent on the open market. When purchased in the open market, the purchase price per share will be the weighted average purchase price per share paid by the transfer agent for all of the shares purchased. In determining the weighted average purchase price, purchases may be aggregated for both dividend reinvestment and optional cash purchases, or independent calculations may be made, at the discretion of the Company. According to the terms of the DRIP, shareholders may also purchase additional shares by making optional cash payments monthly.

Amounts received, including dividend reinvestment of \$4,328,028, \$2,886,993 and -0-, in 2009, 2008 and 2007, respectively, and shares issued in connection with the DRIP for the years ended September 30, 2009, 2008 and 2007 were as follows:

	2009	2008	2007
Amounts Received	\$7,450,504	\$4,232,442	\$194,700
Shares Issued	1,221,753	612,330	26,327

The following cash distributions were paid to common shareholders during the years ended September 30, 2009, 2008 and 2007:

Quarter Ended	<u>2009</u>		<u>2008</u>		<u>2007</u>

On October 6, 2009 the board of directors declared a dividend of \$.15 per share to be paid on December 15, 2009 to shareholders of record on November 16, 2009.

Preferred Stock

On December 5, 2006, the Company issued 1,322,500 shares of 7.625% Series A Cumulative Redeemable Preferred Stock, par value \$.01 per share (Series A Preferred Stock), for net cash proceeds of \$32,021,031 after underwriting discounts and commissions of \$1,041,469. Other expenses incurred for the preferred offering, including legal and other professional fees, were \$436,565 and were included in additional paid in capital. The annual dividend of \$1.90625 per share, or 7.625% of the \$25.00 per share liquidation value, is payable quarterly in arrears on March 15, June 15, September 15, and December 15, commencing on March 15, 2007.

The Series A Preferred Stock has no maturity and will remain outstanding indefinitely unless redeemed or otherwise repurchased. Except in limited circumstances relating to the Company's qualification as a REIT, and as described below, the Series A Preferred Stock is not redeemable prior to December 5, 2011. On and after December 5, 2011, at any time and from time to time, the Series A Preferred Stock will be redeemable in whole, or in part, at the Company's option, at a cash redemption price of \$25.00 per share, plus all accrued and unpaid dividends (whether or not declared) to the date of redemption.

During any period of time that both (i) the Series A Preferred Stock is not listed on the New York Stock Exchange or The NASDAQ Stock Market and (ii) the Company is not subject to the reporting requirements of the Securities Exchange Act of 1934, as amended (the Exchange Act), but any shares of Series A Preferred Stock are outstanding, the Company will (a) increase the cumulative cash dividends payable on the Series A Preferred Stock to a rate of 8.625% per year of the \$25.00 liquidation value per share, which is equivalent to \$2.15625 per share per year, and (b) have the option to redeem the outstanding Series A Preferred Stock, in whole but not in part, within 90 days after the date upon which the shares of the Company cease to be listed and cease to be subject to such reporting requirements, for a redemption price of \$25.00 per share, plus accrued and unpaid dividends, if any, to the redemption date.

Holders of the Series A Preferred Stock generally have no voting rights, except if the Company fails to pay dividends for six or more quarterly periods, whether or not consecutive, or with respect to certain specified events.

The board of directors has declared and paid the following dividends on the Series A Preferred Stock for the years ended September 30, 2009, 2008 and 2007:

On October 6, 2009, the board of directors declared a quarterly dividend of \$0.4766 per share to be paid December 15, 2009 to shareholders of record as of November 16, 2009.

Treasury Stock

On March 3, 2009, the board of directors approved a Share Repurchase Program (the repurchase program) that authorizes the Company to purchase up to \$10,000,000 in the aggregate of the Company's common stock. The repurchase program is intended to be implemented through purchases made from time to time using a variety of methods, which may include open market purchases, privately negotiated transactions or block trades, or by any combination of such methods, in accordance with applicable insider trading and other securities laws and regulations.

The size, scope and timing of any purchases will be based on business, market and other conditions and factors, including price, regulatory and contractual requirements or consents, and capital availability. The repurchase program does not require the Company to acquire any particular amount of common stock, and the program may be suspended, modified or discontinued at any time at the Company's discretion without prior notice. Shares of stock repurchased under the program will be held as treasury shares. During the year ended September 30, 2009, the Company repurchased 5,000 shares of its common stock for \$24,905.

NOTE 16 - FAIR VALUE MEASUREMENTS

On October 1, 2008, the Company adopted ASC 825, Financial Instruments, for financial assets and liabilities recognized at fair value on a recurring basis. We measure certain financial assets and liabilities at fair value on a recurring basis, including securities available for sale. The fair value of these certain financial assets was determined using the following inputs at September 30, 2009:

Fair Value Measurements at Reporting Date Using

	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Securities available for sale	\$27,824,665	\$27,824,665	\$-0-	\$-0-
Real estate held for sale	2,724,261	-0-	2,724,261	-0-

The Company is also required to disclose certain information about fair values of financial instruments. Estimates of fair value are made at a specific point in time based upon where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. For a portion of the Company's financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties; future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only and, therefore, cannot be compared to the historical accounting model. Use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of cash and cash equivalents approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate mortgage notes payable and loans payable approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of

interest. At September 30, 2009, the fair value (estimated based upon expected cash outflows discounted at current market rates) and carrying value of fixed rate mortgage notes payable amounted to \$189,682,000 and \$192,050,283, respectively. As of September 30, 2009, the real estate held for sale is recorded at estimated fair value.

NOTE 17 - CASH FLOW AND COMPREHENSIVE INCOME INFORMATION

During 2009, 2008 and 2007, the Company paid cash for interest of \$14,084,559, \$13,383,667 and \$8,353,320, respectively. For 2009, 2008 and 2007, these amounts are net of interest capitalized of \$36,000 \$262,084 and \$34,434, respectively.

During 2009, 2008 and 2007, the Company had \$4,328,028, \$2,886,993 and \$-0-, respectively, of dividends which were reinvested that required no cash transfers.

The following is the non-cash investing activities related to the merger with Monmouth Capital during 2007. (see Note No. 2):

NOTE 18 CONTINGENCIES AND COMMITMENTS

The Company is subject to claims and litigation in the ordinary course of business. Management does not believe that any such claim or litigation will have a material adverse effect on the consolidated balance sheet or results of operations.

The Company has a contract to purchase an industrial building for approximately \$8,050,000. The purchase is anticipated to close in the first quarter of fiscal 2010.

NOTE 19 SUBSEQUENT EVENTS

On October 20, 2009, the Company issued 1,730,200 shares of common stock in a registered direct placement at \$6.50 per share. The Company received net proceeds from the offering of approximately \$10,500,000. The Company intends to use the net proceeds to purchase additional properties in the ordinary course of business and for general corporate purposes.

On October 22, 2009, the Company purchased a 449,900 square foot industrial building in Memphis, Tennessee. The building is 100% net-leased to FedEx Supply Chain Services, Inc. through May 31, 2019. The purchase price including closing costs was approximately \$14,600,000. The Company obtained a mortgage of \$10,000,000 at a fixed interest rate of 6.25% and paid the remainder in cash.
