NEWS RELEASE

INDEPENDENCE HOLDING COMPANY ANNOUNCES

2012 FIRST-QUARTER RESULTS

Stamford, Connecticut, May 10, 2012. Independence Holding Company (NYSE: IHC) today reported 2012 first-quarter results. As previously reported, IHC paid a special 10% stock dividend to shareholders of record on February 17, 2012. All per share amounts reflect such stock dividend. This press release contains both GAAP and non-GAAP financial information for which reconciliations can be found at the end of this release.

Financial Results

Net income per share attributable to IHC increased 16% to \$.22 per share, diluted, or \$3,922,000, for the three months ended March 31, 2012 compared to \$.19 per share, diluted, or \$3,184,000, for the three months ended March 31, 2011. This increase was achieved after the credit of \$2,319,000 of deferred income taxes relative to the Company's investment in AMIC in the first quarter of 2011 with no related amount in the comparable period of 2012.

Revenues decreased 2% to \$102,156,000 for the three months ended March 31, 2012 compared to revenues for the three months ended March 31, 2011 of \$104,319,000, primarily due to lower investment income due to the transfer of \$143 million of assets in settlement of the coinsurance agreement of group annuity contracts at Standard Security Life.

IHC reported operating income¹ per share of \$.18 per share, diluted, or \$3,248,000, for the three months ended March 31, 2012, compared to \$.21 per share, diluted, or \$3,509,000, for the three months ended March 31, 2011.

Chief Executive Officer's Comments

Roy Thung, Chief Executive Officer, commented, We are pleased with the significant increase in profitability of our stop-loss segment, which we attribute to the more efficient and controlled model of writing the majority of our medical stop-loss on a direct basis through IHC Risk Solutions. In the first quarter of 2012, the stop-loss segment recorded a 17% increase in premiums, on a net basis, as well as significant profits. We expect the stop-loss segment to generate continued profit throughout the remainder of 2012. We are also encouraged by the performance of all our other lines of business, and we experienced some initial success in our continuing efforts to introduce new products to our fully insured mix of business. Our overall investment portfolio continues to be very highly rated (on average, AA), and has a duration of approximately five years. Our book value has increased to \$14.72 per share at March 31, 2012 from \$14.46 per share at December 31, 2011.

Non-GAAP Financial Measures

The Company provides non-GAAP financial measures to complement its consolidated financial statements presented in accordance with GAAP: (i) Operating income is net income attributable to IHC excluding net realized gains or losses and other-than-temporary impairment losses; and (ii) Operating income per share is operating income (loss) on a per share basis. These non-GAAP financial measures are intended to supplement the user's overall understanding of the Company's current financial performance and its prospects for the future. Specifically, the Company believes the non-GAAP results provide useful information to both management and investors by excluding realized gains or losses, net of taxes, that, when excluded from the GAAP results, may provide additional understanding of the Company's core operating results or business performance. However, these non-GAAP financial measures are not intended to supersede or replace the Company's GAAP results. A reconciliation of the non-GAAP results to the GAAP results is provided in the "Reconciliation of GAAP Net Income Attributable to IHC to Non-GAAP Income from Operations" schedule below.

About Independence Holding Company
