QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934

For the quarterly period ended September 26, 2015

OR
 TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934

For the transition period from _____ to _____
Commission File Number: 0-18706

Black Box Corporation
(Exact name of registrant as specified in its charter)
Delaware
(State or other jurisdiction of incorporation or
organization)

95-3086563
(I.R.S. Employer Identification No.)

1000 Park Drive, Lawrence, Pennsylvania 15055
(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code: 724-746-5500

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Non-accelerated filer
Accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of October 9, 2015, there were 15,382,475 shares of common stock, par value \$.001 (the "common stock"), outstanding.

BLACK BOX CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

Note 1: Business and Basis of Presentation

Business

Black Box Corporation ("Black Box" or "the Company") is a leading technology solutions provider dedicated to helping customers design, build, manage and secure their IT infrastructure. The Company offers Products and Services that it distributes through two platforms it has built over its 39-year history. The Products platform provides networking solutions through the sale of products including: (i) IT infrastructure, (ii) specialty networking, (iii) multimedia and (iv) keyboard/video/mouse ("KVM") switching. The Services platform is comprised of engineering and design, network operations centers, technical certifications, national and international sales teams, remote monitoring, on-site service teams and technology partner centers of excellence which includes dedicated sales and engineering resources. The primary services offered through this platform include: (i) communications lifecycle services, (ii) unified communications, (iii) structured cabling, (iv) video/AV services, (v) in-building wireless and (vi) data center services. Founded in 1976, Black Box, a Delaware corporation, is headquartered near Pittsburgh in Lawrence, Pennsylvania.

Basis of Presentation

The accompanying unaudited interim consolidated financial statements of Black Box have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. The Company believes that these consolidated financial statements reflect all normal, recurring adjustments needed to present fairly the Company's results for the interim periods presented. The results as of and for interim periods presented may not be indicative of the results of operations for any other interim period or for the full year. These financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's most recent Annual Report on Form 10-K as filed with the Securities and Exchange Commission ("SEC") for the fiscal year ended March 31, 2015 (the "Form 10-K"). The Company's fiscal year ends on March 31. The fiscal quarters consist of 13 weeks and end on the Saturday generally nearest each calendar quarter end, adjusted to provide relatively equivalent business days for each fiscal quarter. The actual ending dates for the periods presented in these Notes to the Consolidated Financial Statements as of September 30, 2015 and 2014 were September 26, 2015 and September 27, 2014, respectively. References herein to "Fiscal Year" or "Fiscal" mean the Company's fiscal year ended March 31 for the year referenced. All references to dollar amounts herein are presented in thousands, except per share amounts, unless otherwise noted.

The consolidated financial statements include the accounts of Black Box Corporation, the ultimate parent company, and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation. Certain items in the consolidated financial statements of prior years have been reclassified to conform to the current year's presentation.

The preparation of financial statements in conformity with GAAP requires Company management ("Management") to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates in these financial statements include project progress towards completion to estimated budget, allowances for doubtful accounts receivable, sales returns, net realizable value of inventories, loss contingencies, warranty reserves, intangible assets and goodwill. Actual results could differ from those estimates. Management believes these estimates are reasonable.

Note 2: Significant Accounting Policies

Significant Accounting Policies

The significant accounting policies used in the preparation of the Company's consolidated financial statements are disclosed in Note 2 of the Notes to the Consolidated Financial Statements within the Form 10-K. No additional significant accounting policies have been adopted during Fiscal 2016.

Table of Contents

Recent Accounting Pronouncements

There have been no accounting pronouncements adopted during Fiscal 2016 that have had a material impact on the Company's consolidated financial statements.

In April 2015, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Codification ("ASC") Update 2015-03, "Simplifying the Presentation of Debt Issuance Costs" ("ASC 2015-03") which requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. In August 2015, the FASB issued ASC Update No. 2015-15, "Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements," ("ASC 2015-15"). ASC 2015-15 provides additional guidance to ASC 2015-03, which did not address presentation or subsequent measurement of debt issuance costs related to line-of-credit arrangements. ASC 2015-03 requires retrospective adoption and is effective for annual reporting periods (including interim periods therein) beginning after December 15, 2015 with early adoption permitted. The Company does not expect the adoption of ASC 2015-03 to have a material impact on our financial statements.

In April 2015, the FASB issued ASC Update No. 2015-05, "Customer's Accounting for Fees Paid in a Cloud Computing Arrangement" ("ASC 2015-05") which provides additional guidance to customers about whether a cloud computing arrangement includes a software license. Under ASC 2015-05, if a software cloud computing arrangement contains a software license, customers should account for the license element of the arrangement in a manner consistent with the acquisition of other software licenses. If the arrangement does not contain a software license, customers should account for the arrangement as a service contract. Entities can use either of two methods: (i) prospectively to all arrangements entered into or materially modified after the effective date; or (ii) retrospectively providing certain additional disclosures as defined per ASC 2015-05. ASC 2015-05 is effective for annual reporting periods (including interim periods therein) beginning after December 15, 2015 with early adoption permitted. The Company does not expect the adoption of ASC 2015-05 to have a material impact on our financial statements.

In May 2014, the FASB issued ASC Update No. 2014-09, "Revenue from Contracts with Customers" ("ASC 2014-09"), which was amended in July 2015 by ASC Update No. 2015-14, that outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance. The core principle of ASC 2014-09 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expected to be entitled in exchange for those goods or services. Entities can use either of two methods: (i) retrospective to each prior period presented with the option to elect certain practical expedients as defined within ASC 2014-09; or (ii) retrospective with the cumulative effect of initially applying ASC 2014-09 recognized at the date of initial application and providing certain additional disclosures as defined per ASC 2014-09. ASC 2014-09 is effective for annual reporting periods (including interim periods therein) beginning after December 15, 2017 for public companies with early adoption permitted for annual reporting periods (including interim periods therein) beginning after December 15, 2016. The Company is evaluating the method of adoption and the impact of the adoption of ASU 2014-09 on its consolidated financial statements.

In July 2015, the FASB issued ASC Update No. 2015-11, "Simplifying the Measurement of Inventory" ("ASC 2015-11") which requires that inventory be measured at the lower of cost and net realizable value. ASC 2015-11 should be adopted prospectively and is effective for annual reporting periods (including interim periods therein) beginning after December 15, 2016 with early adoption permitted. The Company does not expect the adoption of ASC 2015-11 to have a material impact on our financial statements.

Note 3: Inventories

The Company's Inventories consist of the following:

	September 30, 2015	March 31, 2015
Raw materials	\$1,912	\$1,674
Finished goods	63,740	69,387
Inventory, gross	65,652	71,061
Excess and obsolete inventory reserves	(15,531)	(16,624)
Inventories, net	\$50,121	\$54,437

Table of Contents

Note 4: Goodwill

The following table summarizes Goodwill at the Company's reporting segments:

	North America Products	North America Services	International Products	International Services	Total
Goodwill (gross) at March 31, 2015	\$79,745	\$506,271	\$39,217	\$38,171	\$663,404

Goodwill (gross) at September 30, 2015	\$79,747	\$506,271	\$39,231	\$38,628	\$663,877
Accumulated impairment losses at September 30, 2015	(68,056)	(483,583)	(39,231)	(38,628)	(629,498)
Goodwill (net) at September 30, 2015	\$11,691	\$22,688	\$—	\$—	\$34,379

The Company conducted its annual goodwill impairment assessment during the third quarter of Fiscal 2015 using data as of September 27, 2014. The first step of the goodwill impairment assessment, used to identify potential impairment, resulted in a surplus of fair value over carrying amount for each of our reporting units; thus, the reporting units were considered not impaired and the second step of the impairment test was not necessary. The excess of the fair value over this adjusted carrying amount was \$23,061, \$68,364, \$14,839 and \$1,411 for North America Products, North America Services, International Products and International Services, respectively.

During the fourth quarter of Fiscal 2015 in connection with planning for the fiscal year ending March 31, 2016, and based on the results of Fiscal 2015, the Company reduced its longer-term revenue and profitability outlook for North America Services from the longer-term revenue and profitability outlook used in the annual goodwill impairment assessment completed in the third quarter of Fiscal 2015. The Company evaluated the impact of this reduced longer-term revenue and profitability outlook and determined that it was not likely to reduce the fair value of this reporting unit below its carrying amount; thus, no interim test was warranted. Such determination was based on the following considerations: (i) the Company continues to expect longer term revenue and profit growth, but at lower rates (ii) the carrying amount for North America Services did not materially change from the annual goodwill impairment assessment completed in the third quarter of Fiscal 2015 (iii) the Company had \$68,364 (31%) of excess of fair value over the carrying amount for North America Services from the annual goodwill impairment assessment completed in the third quarter of Fiscal 2015 and (iv) there were no material negative industry or macro-economic trends in the fourth quarter of Fiscal 2015. To illustrate the impact of the reduced longer-term revenue and profitability outlook, assuming all other assumptions held constant from the annual goodwill impairment assessment completed in the third quarter of Fiscal 2015, the excess of the fair value for North America Services would have been reduced from \$68,364 (31%) to \$14,963 (7%).

During the second quarter of Fiscal 2016 and in connection with its recent downward adjustment to revenue and profitability outlook for Fiscal 2016 communicated on July 28, 2015 (the most recent earnings conference call), the Company conducted an interim goodwill assessment to determine whether such assets were recoverable as of June 27, 2015. Such assessment revealed that the carrying value of its reporting units exceeded the fair value of its reporting units and accordingly the Company proceeded to the second step of the goodwill impairment assessment.

The Company recorded a non-cash, pre-tax goodwill impairment loss of \$157,272, (consisting of \$25,211, \$119,547, \$5,348 and \$7,166 in its North America Products, North America Services, International Products and International Services reporting units, respectively) during the second quarter of Fiscal 2016 as a result of its interim goodwill assessment conducted as of June 27, 2015. In determining the impairment loss, the implied fair value of the reporting unit goodwill was compared to the carrying amount of the goodwill. The implied fair value of reporting unit goodwill was determined as the residual between the fair value of the reporting unit and the fair value of its assets (including

any unrecognized intangible assets) and liabilities as of the interim goodwill assessment date. The impairment charge did not impact the Company's business operations, compliance with debt covenants or future cash flows nor did it result in any cash expenditures.

9

Table of Contents

The primary factors contributing to the goodwill impairment loss in North America Services were lower projected revenue and profit in Fiscal 2016 and the corresponding impact in periods beyond Fiscal 2016 and a historically high weighted-average cost of capital. North America Services revenues are lower relative to recent historical amounts due to a slower than anticipated ramp up of the new sales organization in the Company's core commercial services business and continued deferrals of award and task order funding in the Company's federal business, partially offset by continued growth in the Company's Solutions Practices and large managed service contract. North America Services profits continue to be challenged by competitive pricing pressures and current period investments for the operations initiative and infrastructure which the Company believes will enable it to grow revenue and profits more efficiently beyond Fiscal 2016. North America weighted-average cost of capital was at a historical high primarily driven by a significant increase in the size premium within the cost of equity as a result of a decrease in the Company's market capitalization below \$300 million. The primary factor contributing to the goodwill impairment loss in North America Products, International Products and International Services were the historically high weighted-average cost of capital noted above and, to a lower extent, lower than expected projected profits. The Company adjusted the carrying value of its reporting units to reflect the goodwill impairment loss and compared that adjusted carrying value to the fair value of the reporting units. The excess of the fair value over this adjusted carrying value was \$23,599 and \$6,303 for North America Products and North America Services, respectively. A 100 basis point increase in the weighted-average cost of capital, which, holding all other assumptions constant, would have a significant impact on the fair value of a reporting unit, would decrease the fair value of the reporting units by \$5,732 and \$17,453 for North America Products and North America Services, respectively. Future events that could result in an interim assessment of goodwill impairment and/or a potential impairment loss include, but are not limited to, (i) significant underperformance relative to historical or projected future operating results, (ii) significant changes in the manner of or use of the assets or the strategy for the Company's overall business or (iii) significant negative industry or economic trends.

Note 5: Intangible Assets

The following table summarizes the gross carrying amount, accumulated amortization and net carrying amount by intangible asset class:

	September 30, 2015			March 31, 2015		
	Gross Carrying Amount ⁽¹⁾	Accum. Amort. ⁽¹⁾	Net Carrying Amount	Gross Carrying Amount	Accum. Amort.	Net Carrying Amount

Trademarks	35,992	8,253	27,739	35,992	8,253	27,739
Total	\$163,035	\$80,155	\$82,880	\$205,998	\$117,900	\$88,098

⁽¹⁾ Reflects the write-off of fully amortized non-compete agreements, customer relationships and backlog during the three-month period ending September 26, 2015.

The Company's indefinite-lived intangible assets consist solely of the Company's trademark portfolio. The Company's definite-lived intangible assets are comprised of employee non-compete agreements, customer relationships and backlog obtained through business acquisitions. During the second quarter of Fiscal 2016 and in connection with its recent downward adjustment to revenue and profitability outlook for Fiscal 2016, the Company conducted an interim long-lived asset assessment and determined such assets were recoverable as of June 27, 2015.

Table of Contents

The following table summarizes the changes to the net carrying amounts by intangible asset class:

	Trademarks	Non-Competes and Backlog	Customer relationships	Total
March 31, 2015	\$27,739	\$1,080	\$59,279	\$88,098
Intangibles Amortization	—	(575)	(4,642)	(5,217)
Foreign currency translation adjustment	—	(1)	—	(1)
September 30, 2015	\$27,739	\$504	\$54,637	\$82,880

The following table details the estimated intangibles amortization expense for the remainder of Fiscal 2016, each of the succeeding four fiscal years and the periods thereafter.

Fiscal	
2016	\$5,057
2017	8,885
2018	7,427
2019	6,446
2020	5,951
Thereafter	21,375
Total	\$55,141

Note 6: Indebtedness

The Company's Long-term debt consists of the following:

	September 30, 2015	March 31, 2015
Revolving credit agreement	\$150,300	\$136,000
Other	2,079	2,132
Total debt	\$152,379	\$138,132
Less: current portion (included in Other liabilities)	(1,091)	(865)
Long-term debt	\$151,288	\$137,267

On March 23, 2012, the Company entered into a Credit Agreement (the "Credit Agreement") with Citizens Bank of Pennsylvania, as administrative agent, and certain other lender parties. The Credit Agreement expires on March 23, 2017. Borrowings under the Credit Agreement were permitted up to a maximum amount of \$400,000, which the Company voluntarily reduced to \$300,000 effective as of April 16, 2015, and includes up to \$25,000 of swing-line loans and \$25,000 of letters of credit. The Company voluntarily reduced the unused commitment of our Credit Agreement by \$100,000 in order to reduce our commitment fee costs associated with the unused portion of the line. The Credit Agreement may be increased by the Company up to an additional \$100,000 with the approval of the lenders and may be unilaterally and permanently reduced by the Company to not less than the then outstanding amount of all borrowings. Interest on outstanding indebtedness under the Credit Agreement accrues, at the Company's option, at a rate based on either: (a) the greater of (i) the prime rate per annum of the agent then in effect and (ii) 0.50% plus the rate per annum announced by the Federal Reserve Bank of New York as being the weighted-average of the rates on overnight Federal funds transactions arranged by Federal funds brokers on the previous trading day, in each case plus 0% to 0.75% (determined by a leverage ratio based on the Company's consolidated Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA")) or (b) a rate per annum equal to the LIBOR rate plus 0.875% to 1.750% (determined by a leverage ratio based on the Company's consolidated EBITDA). The Credit Agreement requires the Company to maintain compliance with certain non-financial and financial covenants such as leverage and fixed-charge coverage ratios. As of September 30, 2015, the Company was in compliance with all covenants under the Credit Agreement.

Table of Contents

The maximum amount of debt outstanding under the Credit Agreement, the weighted-average balance outstanding under the Credit Agreement and the weighted-average interest rate on all outstanding debt for the three-months ended September 30, 2015 was \$183,050, \$172,037 and 1.9%, respectively, compared to \$198,055, \$186,676 and 1.6%, respectively, for the three-months ended September 30, 2014. The maximum amount of debt outstanding under the Credit Agreement, the weighted-average balance outstanding under the Credit Agreement and the weighted-average interest rate on all outstanding debt for the six-months ended September 30, 2015 was \$183,050, \$166,494 and 1.9%, respectively, compared to \$198,055, \$181,478 and 1.5%, respectively, for the six-months ended September 30, 2014. As of September 30, 2015, the Company had \$4,450 outstanding in letters of credit and \$145,250 in unused commitments, which are limited by a financial covenant, under the Credit Agreement.

Note 7: Derivative Instruments and Hedging Activities

The Company is exposed to certain market risks, including the effect of changes in foreign currency exchange rates and interest rates. The Company uses derivative instruments to manage financial exposures that occur in the normal course of business. It does not hold or issue derivatives for speculative trading purposes. The Company is exposed to non-performance risk from the counterparties in its derivative instruments. This risk would be limited to any unrealized gains on current positions. To help mitigate this risk, the Company transacts only with counterparties that are rated as investment grade or higher and all counterparties are monitored on a continuous basis. The fair value of the Company's derivatives reflects this credit risk.

Foreign currency contracts

The Company enters into foreign currency contracts to hedge exposure to variability in expected fluctuations in foreign currencies. All of the foreign currency contracts have been designated and qualify as cash flow hedges. The effective portion of any changes in the fair value of the derivative instruments is recorded in Accumulated Other Comprehensive Income ("AOCI") until the hedged forecasted transaction occurs or the recognized currency transaction affects earnings. Once the forecasted transaction occurs or the recognized currency transaction affects earnings, the effective portion of any related gains or losses on the cash flow hedge is reclassified from AOCI to the Company's Consolidated Statements of Operations.

As of September 30, 2015, the Company had open contracts in Australian and Canadian dollars, Danish krone, Euros, Mexican pesos, Norwegian kroner, British pounds sterling, Swedish krona, Swiss francs and Japanese yen, all of which have been designated as cash flow hedges. These contracts had a notional amount of \$47,964 and will expire within eight months. There was no hedge ineffectiveness during Fiscal 2016 or Fiscal 2015.

Interest-rate Swaps

On November 15, 2011, the Company entered into a three-year floating-to-fixed interest-rate swap, with an effective start date of July 26, 2012, which was based on a three-month LIBOR rate versus a 1.25% fixed rate, had a notional value of \$125,000 and terminated on July 26, 2015. As a result of reduced debt levels and expected continued low interest rates, the Company did not replace this swap. This interest-rate swap did not qualify for hedge accounting and is hereinafter referred to as the "interest-rate swap."

The following tables summarize the carrying amounts of derivative asset/liability and the impact on the Company's Consolidated Statements of Operations:

Classification	Asset Derivatives		Liability Derivatives	
	September 30, 2015	March 31, 2015	September 30, 2015	March 31, 2015
Derivatives designated as hedging instruments				
Foreign currency contracts Other liabilities (current)			\$ 808	\$ 4,959
Foreign currency contracts Other assets (current)	\$ 375	\$ 402		
Derivatives not designated as hedging instruments				
Interest-rate swaps Other liabilities (non-current)			\$—	\$ 400

Table of Contents

	Classification	Three-months ended		Six-months ended	
		September 30 2015	2014	September 30 2015	2014
Derivatives designated as hedging instruments					
Gain (loss) recognized in other comprehensive income (effective portion), net of taxes	Other comprehensive income	\$(123)\$53	\$(222)\$(28
Amounts reclassified from AOCI into results of operations (effective portion), net of taxes	Selling, general & administrative expenses	\$69	\$39	\$275	\$145
Derivatives not designated as hedging instruments					
Gain (loss) recognized in results of operations	Interest expense (income), net	\$105	\$297	\$399	\$546

Note 8: Fair Value Disclosures

Recurring fair value measurements

The following table presents information about the Company's assets and liabilities measured at fair value on a recurring basis as of September 30, 2015, and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value:

	Level 1	Level 2	Level 3	Total
Assets at Fair Value				
Defined benefit pension plan assets ⁽¹⁾	\$12,950	\$22,721	\$—	\$35,671
Foreign currency contracts	\$—	\$375	\$—	\$375
Total Assets at Fair Value	\$12,950	\$23,096	\$—	\$36,046
Liabilities at Fair Value				
Foreign currency contracts	\$—	\$808	\$—	\$808
Interest-rate swap	\$—	\$—	\$—	\$—
Total Liabilities at Fair Value	\$—	\$808	\$—	\$808

(1) The fair value of pension plan assets is measured annually, thus this value is as of March 31, 2015.

Non-recurring fair value measurements

The Company's assets and liabilities that are measured at fair value on a non-recurring basis include non-financial assets and liabilities initially measured at fair value in a business combination and Goodwill.

Note 9: Stockholder's Equity

Accumulated Other Comprehensive Income

The components of AOCI consisted of the following for the periods presented:

	September 30, 2015	March 31, 2015
Foreign currency translation adjustment	\$368	\$(858
Derivative instruments, net of tax	(150)(203
Defined benefit pension, net of tax	(12,167)(12,338
Accumulated other comprehensive income	\$(11,949)(13,399

Table of Contents

Dividends

The following table presents information about the Company's dividend program:

Period	Record Date	Payment Date	Rate	Aggregate Value
2Q16	September 25, 2015	October 9, 2015	\$0.11	\$1,692
1Q16	June 26, 2015	July 10, 2015	\$0.11	\$1,691
4Q15	March 31, 2015	April 15, 2015	\$0.10	\$1,537
3Q15	December 26, 2014	January 9, 2015	\$0.10	\$1,536
2Q15	September 26, 2014	October 10, 2014	\$0.10	\$1,544
1Q15	June 27, 2014	July 11, 2014	\$0.10	\$1,554

While the Company expects to continue to declare quarterly dividends, the payment of future dividends is at the discretion of the Company's Board of Directors (the "Board") and the timing and amount of any future dividends will depend upon earnings, cash requirements and the financial condition of the Company. Under the Credit Agreement, the Company is permitted to make distributions or dividends as long as no Event of Default or Potential Default (as defined in the Credit Agreement) shall have occurred and is continuing or shall occur as a result thereof. In addition, no distribution or dividend is permitted under the Credit Agreement if such event would violate a consolidated leverage ratio required to be maintained under the Credit Agreement other than regular quarterly dividends not exceeding \$15,000 per year.

Common Stock Repurchases

The following table presents information about the Company's common stock repurchases:

	Three-months ended		Six-months ended	
	September 30		September 30	
	2015	2014	2015	2014
Shares of common stock purchased	—	95,433	141,524	266,737
Aggregate purchase price	\$—	\$2,000	\$2,796	\$5,936
Average purchase price	\$—	\$20.96	\$19.75	\$22.26

During the six-month period ended September 30, 2015, the Company made tax payments of \$796 and withheld 40,176 shares of common stock, which were designated as treasury shares, at an average price per share of \$19.80, in order to satisfy employee income taxes due as a result of the vesting of certain restricted stock units. During the six-month period ended September 30, 2014, the Company made tax payments of \$949 and withheld 41,404 shares of common stock, which were designated as treasury shares, at an average price per share of \$22.92, in order to satisfy employee income taxes due as a result of the vesting of certain restricted stock units.

Since the inception of its repurchase programs beginning in April 1999 and through September 30, 2015, the Company has repurchased 10,828,575 shares of common stock for an aggregate purchase price of \$402,360, or an average purchase price per share of \$37.16. These shares do not include the treasury shares withheld for tax payments due upon the vesting of certain restricted stock units and performance shares. As of September 30, 2015, 671,425 shares were available under the most recent repurchase programs. Additional repurchases of common stock may occur from time to time depending upon factors such as the Company's cash flows and general market conditions. There can be no assurance as to the timing or amount of such repurchases. Under the Credit Agreement, the Company is permitted to repurchase its common stock as long as no Event of Default or Potential Default (as defined in the Credit Agreement) shall have occurred and is continuing or shall occur as a result thereof. In addition, no repurchase of common stock is permitted under the Credit Agreement if the Company's consolidated leverage ratio (based on EBITDA) exceeds 3.0. At September 30, 2015, the Company's leverage ratio was 3.2 which restricts the Company from repurchasing its stock on the open market during the third quarter of Fiscal 2016 and until the Company reports a leverage ratio of 3.0 or less.

Table of Contents

Note 10: Income Taxes

The Company's benefit for income taxes for the three-months ended September 30, 2015 was \$21,512, an effective tax rate of 14.2% on loss before provision for income taxes of \$151,357, compared to a provision for income taxes for the three-months ended September 30, 2014 of \$2,640, an effective tax rate of 45.2% on income before provision for income taxes of \$5,843. The effective tax rate decrease from 45.2% to 14.2% was primarily due to a decrease in Income before provision for income taxes and the non-deductible portion of the goodwill impairment loss. The Company's benefit from income taxes for the six-months ended September 30, 2015 was \$19,438, an effective tax rate of 13.1% on loss before provision for income taxes of \$148,529, compared to a provision for income taxes for the six-months ended September 30, 2014 of \$6,171, an effective tax rate of 46.3% on income before provision for income taxes of \$13,317. The effective tax rate decrease from 46.3% to 13.1% was primarily due to a decrease in Income before provision for income taxes and the non-deductible portion of the goodwill impairment loss. The effective tax rate for the six-months ended September 30, 2015 of 13.1% differs from the federal statutory rate primarily due to a decrease in Income before provision for income taxes and the non-deductible portion of the goodwill impairment loss.

The Company provides for income taxes at the end of each interim period based on the estimated effective tax rate adjusted for certain discrete items for the full fiscal year. Cumulative adjustments to the Company's estimate are recorded in the interim period in which a change in the estimated annual effective rate is determined.

Fiscal 2013 through Fiscal 2015 remain open to examination by the Internal Revenue Service ("IRS") and Fiscal 2010 through Fiscal 2015 remain open to examination by certain state and foreign taxing jurisdictions.

Note 11: Stock-based Compensation

In August 2008, the Company's stockholders approved the 2008 Long-Term Incentive Plan (the "Incentive Plan"), which replaced the 1992 Stock Option Plan, as amended, and the 1992 Director Stock Option Plan, as amended. As of September 30, 2015, the Incentive Plan is authorized to issue stock options, restricted stock units and performance shares, among other types of awards, for up to 5,240,377 shares of common stock, par value \$0.001 per share (the "common stock").

The Company recognized stock-based compensation expense of \$869 and \$1,282 for the three-months ended September 30, 2015 and 2014, respectively, and \$3,148 and \$3,594 for the six-months ended September 30, 2015 and 2014, respectively. The Company recognized total income tax benefit for stock-based compensation arrangements of \$332 and \$468 for the three-months ended September 30, 2015 and 2014, respectively, and \$1,201 and \$1,311 for the six-months ended September 30, 2015 and 2014, respectively. Stock-based compensation expense is recorded in Selling, general & administrative expense within the Company's Consolidated Statements of Operations.

Stock options

Stock option awards are granted with an exercise price equal to the closing market price of the common stock on the date of grant; such stock options generally become exercisable in equal amounts over a three-year period and have a contractual life of ten-years from the grant date. The fair value of stock options is estimated on the grant date using the Black-Scholes option pricing model, which includes the following weighted-average assumptions.

	Six-months ended September 30		
	2015	2014	
Expected life (in years)	7.5	7.7	
Risk free interest rate	2.0	% 2.3	%
Annual forfeiture rate	1.5	% 1.5	%
Expected Volatility	43.9	% 45.1	%
Dividend yield	1.8	% 1.3	%

Table of Contents

The following table summarizes the Company's stock option activity:

	Shares (in 000's)	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Life (Years)	Intrinsic Value (000's)
Outstanding at March 31, 2015	1,844	\$ 31.65		
Granted	160	19.51		
Exercised	—	—		
Forfeited or cancelled	(214) 31.05		
Outstanding at September 30, 2015	1,790	\$ 30.64	3.3	\$—
Exercisable at September 30, 2015	1,509	\$ 32.41	2.3	\$—

The weighted-average grant-date fair value of options granted during the six-months ended September 30, 2015 and 2014 was \$7.79 and \$9.59, respectively. The intrinsic value of options exercised during the six-months ended September 30, 2015 and 2014 was \$0 and \$0, respectively. The aggregate intrinsic value in the preceding table is based on the closing stock price of the common stock on September 25, 2015, which was \$14.54.

The following table summarizes certain information regarding the Company's non-vested stock options:

	Shares (in 000's)	Weighted-Average Grant-Date Fair Value
March 31, 2015	290	\$ 9.68
Granted	160	7.79
Vested	(135) 9.62
Forfeited	(34) 9.74
September 30, 2015	281	\$ 8.63

As of September 30, 2015, there was \$1,905 of total unrecognized pre-tax stock-based compensation expense related to non-vested stock options, which is expected to be recognized over a weighted-average period of 2.1 years.

Restricted stock units

Restricted stock unit awards are subject to a service condition and typically vest in equal amounts over a three-year period from the grant date. The fair value of restricted stock units is determined based on the number of restricted stock units granted and the closing market price of the common stock on the date of grant.

The following table summarizes the Company's restricted stock unit activity:

	Shares (in 000's)	Weighted-Average Grant-Date Fair Value
March 31, 2015	262	\$ 23.34
Granted	170	19.53
Vested	(151) 22.41
Forfeited	(23) 23.27
September 30, 2015	258	\$ 21.38

The total fair value of shares that vested during the six-months ended September 30, 2015 and 2014 was \$2,979 and \$3,401, respectively.

As of September 30, 2015, there was \$3,358 of total unrecognized pre-tax stock-based compensation expense related to non-vested restricted stock units, which is expected to be recognized over a weighted-average period of 2.0 years.

Table of Contents

Performance share awards

Performance share awards are subject to one of the performance goals - the Company's Relative Total Shareholder Return ("TSR") Ranking or cumulative Adjusted EBITDA - each over a three-year period. The Company's Relative TSR Ranking metric is based on the three-year cumulative return to stockholders from the change in stock price and dividends paid between the starting and ending dates. The fair value of performance share awards (subject to cumulative Adjusted EBITDA) is determined based on the number of performance shares granted and the closing market price of the common stock on the date of grant. The fair value of performance share awards (subject to the Company's Relative TSR Ranking) is estimated on the grant date using the Monte-Carlo simulation valuation method which includes the following weighted-average assumptions.

	Six-months ended		
	September 30		
	2015	2014	%
Risk free interest rate	0.9	%0.8	%
Expected Volatility	39.9	%44.7	%
Dividend yield	2.0	%1.3	%

The following table summarizes the Company's performance share award activity:

	Shares (in 000's)	Weighted-Average Grant-Date Fair Value
March 31, 2015	275	\$ 24.69
Granted	106	19.56
Vested	—	—
Forfeited	(121))23.53
September 30, 2015	260	\$ 23.14

The total fair value of shares that vested during the six-months ended September 30, 2015 and 2014 was \$0 and \$0, respectively.

As of September 30, 2015, there was \$1,600 of total unrecognized pre-tax stock-based compensation expense related to non-vested performance share awards, which is expected to be recognized over a weighted-average period of 2.1 years.

Note 12: Earnings (loss) Per Share

The following table details the computation of basic and diluted earnings (loss) per common share from continuing operations for the periods presented (share numbers in table in thousands):

	Three-months ended		Six-months ended	
	September 30		September 30	
	2015	2014	2015	2014
Net income (loss)	\$(129,845)	\$3,203	\$(129,091)	\$7,146
Weighted-average common shares outstanding (basic)	15,375	15,480	15,345	15,483
Effect of dilutive securities from equity awards	—	36	—	63
Weighted-average common shares outstanding (diluted)	15,375	15,516	15,345	15,546
Basic earnings (loss) per common share	\$(8.45)	\$0.21	\$(8.41)	\$0.46
Dilutive earnings (loss) per common share	\$(8.45)	\$0.21	\$(8.41)	\$0.46

The Weighted-average common shares outstanding (diluted) computation is not impacted during any period where the exercise price of a stock option is greater than the average market price. There were 2,113,322 and 2,014,132 non-dilutive equity awards outstanding for the three-months ended September 30, 2015 and 2014, respectively, and 1,850,305 and 1,931,703 non-dilutive equity awards outstanding for the six-months ended September 30, 2015 and 2014, respectively, that are not included in the corresponding period Weighted-average common shares outstanding (diluted) computation.

Table of Contents

Note 13: Segment Information

The Company conducts business globally and is managed on a geographic-service type basis consisting of four operating segments which are (i) North America Products, (ii) North America Services, (iii) International Products and (iv) International Services. These operating segments are also the Company's reporting units for purposes of testing goodwill for impairment and its reporting segments for financial reporting purposes. Revenues within our North America segments are primarily attributed to the United States while revenues within our International segments are attributed to countries in Europe, the Pacific Rim and Latin America.

The accounting policies of the operating segments are the same as those of the Company. The Company allocates resources to its operating segments and evaluates the performance of the operating segments based upon operating income.

The financial results for the Company's reporting segments are as follows:

	North America Products	North America Services	International Products	International Services	Total
2Q16					
Revenues	\$24,339	\$185,463	\$19,945	\$7,091	\$236,838

Note 14: Commitments and Contingencies

The Company is subject to unclaimed or abandoned property (escheat) laws which require it to turn over to state governmental authorities the property of others held by the Company that has been unclaimed for specified periods of time. Property held by the Company subject to escheat laws primarily includes accounts payable, payroll checks and trade accounts receivable credits. The Company participated in voluntary disclosure programs in all 50 states within the United States and the District of Columbia in an effort to voluntarily comply with state abandoned property laws and settle past due unclaimed property obligations. The Company completed the programs and settled with 49 states and the District of Columbia which resulted in an immaterial charge to the consolidated financial statements during the fiscal year ended March 31, 2014. On May 22, 2013, the Company entered into Delaware's Voluntary Disclosure Agreement Program in order to voluntarily comply with Delaware's abandoned property law in exchange for certain protections and benefits. Since that time, the Company has worked in good faith to complete a review of its books and records related to unclaimed or abandoned property during the periods required under the program. The Voluntary Disclosure Agreement had an original expiration date of June 30, 2015 which was subsequently extended for six months to December 30, 2015. The Company will continue to examine its options regarding the escheat laws of Delaware including completing Delaware's Voluntary Disclosure Agreement Program or proceeding to audit, as well as to pursue any indemnification claims the Company may have from a third party with respect to such liability. Amounts incurred and paid to resolve past due unclaimed property obligations in Delaware could have a material adverse effect on the Company's results of operations and cash flows.

The Company is involved in, or has pending, various legal proceedings, claims, suits and complaints arising out of the normal course of business. Based on the facts currently available to the Company, Management believes these matters are adequately provided for, covered by insurance, without merit or not probable that an unfavorable material outcome will result.

There has been no other significant or unusual activity during Fiscal 2016.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations("MD&A"). The discussion and analysis for the three-months and six-months ended September 30, 2015 and 2014 as set forth below in this Part I, Item 2 should be read in conjunction with the response to Part I, Item 1 of this report and the consolidated financial statements of Black Box Corporation ("Black Box," the "Company," "we" or "our"), including the related notes, and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in the Company's most recent Annual Report on Form 10-K, as filed with the Securities and Exchange Commission ("SEC") for the fiscal year ended March 31, 2015 (the "Form 10-K"). References to "2Q16" mean the three-month period ended September 30, 2015 while references to "2Q15" mean the three-month period ended September 30, 2014. References to "2QYTD16" mean the six-month period ended September 30, 2015 while references to "2QYTD15" mean the six-month period ended September 30, 2014. The Company's fiscal year ends on March 31. The fiscal quarters consist of 13 weeks and generally end on the Saturday nearest each calendar quarter end, adjusted to provide relatively equivalent business days for each fiscal quarter. The actual ending dates for the periods presented as of September 30, 2015 and 2014 were September 26, 2015 and September 27, 2014, respectively. References to "Fiscal Year" or "Fiscal" mean the Company's fiscal year ended March 31 for the year referenced. All dollar amounts are presented in thousands except for per share amounts or unless otherwise noted.

The Company

Black Box is a leading technology solutions provider dedicated to helping customers design, build, manage and secure their IT infrastructure. The Company offers Products and Services that it distributes through two platforms that it has built over its 39-year history.

Under our Products platform ("Products"), we provide networking solutions through the sale of products for IT infrastructure, specialty networking, multimedia and KVM switching.

Our Products' revenues are generated from sales to end-users, collaboration with key channel partners and system integrators and through a global distribution network. Products sells through a direct sales team as well as through its internet site and catalogs. These products are sold in a highly fragmented and competitive market. The Company has been in this business for over 39 years and has developed a reputation for being a reliable provider of high-quality communications and infrastructure products. With an average order size of less than one thousand dollars, product revenues are less impacted by capital spending and more so by general information technology spending.

Our Services platform ("Services") is comprised of engineering and design, network operations centers, technical certifications, national and international sales teams, remote monitoring, on-site service teams and technology partner centers of excellence which include dedicated sales and engineering resources. The primary services offered through this platform include communications lifecycle services, unified communications, structured cabling, video/AV services, in-building wireless and data center services.

The Company generates revenues in its Services business from the design, sale and/or installation of new communications and data infrastructure systems, the support of existing systems and MAC (moves, adds and changes) work. The Company's diverse portfolio of offerings allows it to service the needs of its clients independent of the technology that they choose, which it believes is a unique competitive advantage. For the sale and implementation of new communications systems, or other major projects, most significant orders are subject to competitive bidding processes and, generally, competition can be significant for such new orders. The Company is continually bidding on new projects to maintain and grow service revenues. Projects account for the majority of Services revenues and are primarily driven by the overall economic environment and information technology capital spending. The Company also serves government clients whose revenues are not as dependent on the overall economic environment as commercial clients but are subject to governmental budgetary constraints.

New communications systems orders often generate post-implementation maintenance via a fixed fee model where revenues are earned ratably over the term of the agreement (generally 1-3 years for commercial clients and 3-5 years for government clients) or a variable fee model that is based on time and materials per occurrence, similar to MAC work. Maintenance revenues generally are not dependent on the economy as clients contract for maintenance to extend the life of their existing equipment and delay capital spending on new communications systems. Maintenance and MAC work revenues are also dependent upon the Company's relationship with its clients and its long track record of providing high-quality service.

Table of Contents

The Company's Services business generates backlog which is defined by the Company as orders and contracts considered to be firm. At September 30, 2015, the Company's total backlog, which relates primarily to Services, was \$356,311, of which \$237,392 is expected to be completed within the next twelve months.

Our platforms introduce scale, flexibility and leverage to the business, and provide the following competitive advantages:

A diversified client base: We have built a diversified client base that ranges from small organizations to many of the world's largest corporations and institutions. Black Box clients participate in many industries, including government, technology, business services, healthcare, manufacturing, banking and retail, among others. Revenues from our clients are segmented with approximately 60% from large companies (i.e., revenues greater than \$1 billion, including federal governments), approximately 20% from medium-sized companies (i.e., revenues between \$50 million and \$1 billion, including state governments) and approximately 20% from small companies (i.e., revenues less than \$50 million, including local governments). We strive to develop extensive and long-term relationships with high-quality clients as we believe that satisfied clients will demand quality services and product offerings even in economic downturns. Also, we believe that our distinctive portfolio of products and services will allow us to leverage the relationships and introduce additional offerings to satisfied clients.

Key relationships with leading technology partners: We have built long-term relationships with all major communications equipment manufacturers and we are a top partner with the market leaders.

Broad geographic footprint: We have built a global footprint with offices throughout the world.

Deep organic resources: We have approximately 3,700 team members world-wide, with the experience and certifications to serve our clients with on-site and remote capabilities.

Dedicated sales force: We have a team of direct sales people world-wide.

Strong financial position: We have a strong balance sheet and have generated positive cash flow for 39 consecutive years.

The Company services a variety of clients within most major industries, with the highest concentration in the government, technology, business services, healthcare, manufacturing, banking and retail industry verticals. Factors that impact those verticals, therefore, could have an impact on the Company. While the Company generates most of its revenues in North America, the Company also generates revenues from around the world, primarily Europe, such that factors that impact European markets could impact the Company.

Table of Contents

2QYTD16 vs 2QYTD15 Summary

	2QYTD16	2QYTD15	% Change	
Revenues	\$466,052	\$494,099	(6)%
Gross profit margin	30.3	% 30.1	%—	%
Operating income (loss) margin	(31.3)% 3.2	% n/m	
Diluted earnings (loss) per share	\$(8.41) \$0.46	n/m	
Net cash provided by (used for) operating activities	\$(13,920) \$9,158	n/m	

n/m = not meaningful

Diluted loss per share was \$8.41, compared to Diluted earnings per share of \$0.46 in the same period last year as a result of:

- a \$28,047 decrease in Revenues as a result of a decrease in Service Revenues primarily due to a decrease in our core commercial revenues and government revenues within North America Services and a negative exchange rate impact of \$7,093 relative to the U.S. Dollar in International Products partially offset by an increase in our solutions practices, which includes the Cisco solutions practice and the Wireless solutions practice in North America Services, and an increase in North America Products as a result of direct selling efforts in focused markets,
 - a \$7,881 decrease in Gross profit as a result of the decrease in Revenues in North America Services noted above partially offset by the increase in Gross profit margin in North America Services resulting from project mix,
 - a \$3,754 decrease in Selling, general and administrative expenses which were primarily the result of cost savings from restructuring activity in the prior year in both International Products and North America Services partially offset by current period investments for the operations transformation and infrastructure in North America Services,
 - a \$157,272 increase in Goodwill impairment loss (see "Goodwill" below for additional information),
 - a \$277 increase in Interest expense (income), net resulting from \$242 of deferred financing costs that were written off in connection with the Company's voluntary reduction in the unused commitment of our Credit Agreement (as defined below) and a change in the fair value of the interest-rate swap of \$147 (from a gain of \$546 in 2QYTD15 to a gain of \$399 in 2QYTD16),
 - a \$25,609 decrease in Provision for income taxes and a decrease in the effective rate from 46.3% to 13.1% due to a decrease in Income before provision and the non-deductible portion of goodwill impairment loss, and
 - a 201 reduction in Diluted weighted-average common shares outstanding resulting from the Company's common stock repurchases partially offset by the vesting of certain restricted stock in 1Q16.
- Net cash used for operating activities was \$13,920, which included Net loss of \$129,091 and an increase in working capital of \$23,439, a decrease of 252% compared to net cash provided by operating activities of \$9,158, which included Net income of \$7,146 and an increase in working capital of \$4,770, in the same period last year.

Table of Contents

2Q16 vs 2Q15

Total Revenues were \$236,838, a decrease of 5% when compared to Total Revenues of \$248,873 in the same period last year. Product Revenues were \$44,284, a decrease of 1% compared to Product Revenues of \$44,549 in the same period last year primarily due to a negative exchange rate impact of \$3,363 relative to the U.S. Dollar in International Products partially offset by an increase in North America Products as a result of direct selling efforts in focused markets. Service Revenues were \$192,554, a decrease of 6% compared to Service Revenues of \$204,324 in the same period last year primarily due to a decrease in core commercial revenues, primarily in the business services industry, in North America Services and a decrease in government revenues as a result of project and task order funding delays partially offset by increases in a large managed services contract and our solutions practices, which includes the Cisco solutions practice and the Wireless solutions practice in North America Services.

Total Gross profit margin was 30.1%, an increase of 2% compared to Total Gross profit margin of 29.6% in the same period last year. Product Gross profit margin was 42.4%, an increase of 2% compared to Product Gross profit margin of 41.8% in the same period last year, primarily due to cost efficiency programs in North America Products partially offset by higher product costs due to the strength of the U.S. Dollar and product mix in International Products. Service Gross profit margin was 27.3%, an increase of 1% compared to Service Gross profit margin of 27.0% in the same period last year primarily due to project mix.

Total Operating loss margin was 63.3%, a decrease compared to Total Operating income margin of 2.8% in the same period last year. Product Operating loss margin was 63.2%, a decrease compared to Product Operating income margin of 3.6% in the same period last year, primarily due to goodwill impairment loss of \$30,559 (\$25,211 in North America Products and \$5,348 in International Products) and a decrease in Gross profit margin in International Products partially offset by a decrease in Selling, general and administrative expenses as a result of cost savings from restructuring activity in the prior year in International Products. Service Operating loss margin was 63.3%, a decrease compared to Service Operating income margin of 2.7% in the same period last year, primarily due to goodwill impairment loss of \$126,713 (\$119,547 in North America Services and \$7,166 in International Services), a decrease in Gross profit and current period investments for the operations transformation and infrastructure partially offset by a decrease in Selling, general and administrative expenses as a result of cost savings from restructuring activity in the prior year in North America Services.

2QYTD16 vs 2QYTD15

Total Revenues were \$466,052, a decrease of 6% compared to Total Revenues of \$494,099 in the same period last year. Product Revenues were \$84,780, a decrease of 3% compared to Product Revenues of \$87,768 in the same period last year, primarily as a result of a negative exchange rate impact of \$7,093 relative to the U.S. Dollar partially offset by an increase in both North America Products and International Products revenues as a result of direct selling efforts in focused markets. Service Revenues were \$381,272, a decrease of 6% compared to Service Revenues of \$406,331 in the same period last year primarily due to a negative exchange rate impact of \$2,936 relative to the U.S. Dollar, a decrease in core commercial revenues in North America Services, primarily in the business services industry and a decrease in government revenues as a result of project and task order funding delays partially offset by increases in a large managed services contract and our solutions practices, which includes the Cisco solutions practice and the Wireless solutions practice in North America Services.

Total Gross profit margin was 30.3%, an increase compared to Total Gross profit margin of 30.1% in the same period last year. Product Gross profit margin was 42.0%, an increase of 1% compared to Product Gross profit margin of 41.6% in the same period last year primarily due to cost efficiency programs in North America Products offset by higher product costs due to the strength of the U.S. Dollar and project mix in International Products. Service Gross profit margin was 27.7%, consistent with Service Gross profit margin of 27.7%, which included \$3,067 of unanticipated costs required to complete a fixed price contract, which decreased gross profit margin by 0.7%, in the same period last year primarily due to project mix.

Total Operating loss margin was 31.3%, a decrease compared to Total Operating income margin of 3.2% in the same period last year. Product Operating loss margin was 31.5%, a decrease compared to Product Operating income margin of 2.4% in the same period last year, primarily due to goodwill impairment loss of \$30,559 (\$25,211 in North America Products and \$5,348 in International Products) and a decrease in Gross profit margin in International Products

partially offset by an increase in Gross profit in North America Products and a decrease in Selling, general and administrative expenses as a result of cost savings from restructuring activity in the prior year in International Products. Service Operating loss margin was 31.2%, a decrease compared to Service Operating income margin of 3.3% in the same period last year, primarily due to goodwill impairment loss of \$126,713 (\$119,547 in North America Services and \$7,166 in International Services), a decrease in Gross profit and current period investments for the operations transformation and infrastructure partially offset by a decrease in Selling, general and administrative expenses as a result of cost savings from restructuring activity in the prior year in North America Services.

Table of Contents

Interest expense, Other expense and Income Taxes

	2Q16	2Q15	% Change	2QYTD16	2QYTD15	% Change	
Interest expense	\$1,053	\$1,027	3	% \$2,435	\$2,158	13	%
% of Revenues	0.4	%0.4	%—	% 0.5	%0.4	%25	%
Income taxes	\$(21,512)) \$2,640	n/m	\$(19,438)) \$6,171	n/m	
Effective income tax rate	14.2	%45.2	%n/m	13.1	%46.3	%n/m	

2Q16 vs 2Q15

Interest expense was \$1,053, an increase of 3% compared to Interest expense of \$1,027 in the same period last year primarily as a result of a change in the fair value of the interest-rate swap of \$192 (from a gain of \$297 in 2Q15 to a gain of \$105 in 2Q16). The interest-rate swap terminated on July 26, 2015 and was not replaced. Interest expense as a percent of Revenues was 0.4%, consistent with Interest expense as a percent of Revenues of 0.4% in the same period last year. The weighted-average outstanding debt and weighted-average interest rate was \$172,037 and 1.9%, respectively, compared to \$186,676 and 1.6% in the same period last year.

Benefit from income taxes was \$21,512, a decrease compared to provision for income taxes of \$2,640 in the same period last year. The effective income tax rate was 14.2%, a decrease compared to the effective income tax rate of 45.2% in the same period last year. The effective income tax rate decrease from 45.2% to 14.2% was primarily due to a decrease in Income before provision and the non-deductible portion of the goodwill impairment loss.

2QYTD16 vs 2QYTD15

Interest expense was \$2,435, an increase of 13% compared to Interest expense of \$2,158 in the same period last year primarily as a result of \$242 of deferred financing costs that were written off in connection with the Company's voluntary reduction in the unused commitment of our Credit Agreement (as defined below) and a change in the fair value of the interest-rate swap of \$147 (from a gain of \$546 in 2QYTD15 to a gain of \$399 in 2QYTD16). The interest-rate swap terminated on July 26, 2015 and was not replaced. Interest expense as a percent of Revenues was 0.5%, an increase of 25% compared to Interest expense as a percent of Revenues of 0.4% in the same period last year. The weighted-average outstanding debt and weighted-average interest rate was \$166,494 and 1.9%, respectively, compared to \$181,478 and 1.5% in the same period last year.

Benefit from income taxes was \$19,438, a decrease compared to provision for income taxes of \$6,171 in the same period last year. The effective income tax rate was 13.1%, a decrease compared to the effective income tax rate of 46.3% in the same period last year. The effective income tax rate decrease from 46.3% to 13.1% was primarily due to a decrease in Income before provision for income taxes and the non-deductible portion of the goodwill impairment loss. The Company expects an effective income tax rate of approximately 38.5% for Fiscal 2016.

Liquidity and Capital Resources

Overview

A majority of our revenue is generated through individual sales of products and services. Less than 20% of our revenue is generated from long-term support contracts. We depend on repeat client business, as well as our ability to develop new client business, to sustain and grow our revenue. Most significant orders are subject to a competitive bidding process and, generally, competition can be significant for such new orders. Our business model provides us with flexibility in terms of capital expenditures and other required operating expenses. For the foreseeable future, we expect to continue to generate net cash provided by operating activities that exceeds our capital expenditures and other required operating expenses and will be available for discretionary investments.

We seek to allocate company resources in a manner that will enhance per share results. Our discretionary investments include: investments in growth programs and infrastructure, strategic acquisitions of high quality growth-oriented companies, a return to our stockholders through dividends and common stock repurchases and repaying our debt.

Table of Contents

Liquidity Position

The following is a summary of our capitalization and liquidity position.

	2Q16	4Q15	2Q15
Cash and cash equivalents	\$20,287	\$23,534	\$28,352
Working capital	\$179,057	\$155,618	\$180,462
Long-term debt	\$151,288	\$137,267	\$161,423
Stockholders' equity	\$206,379	\$337,111	\$346,888
Unused commitments of the Credit Agreement ⁽¹⁾	\$145,250	\$259,950	\$234,590

(1) On April 16, 2015, the Company voluntarily reduced the unused commitments of the Credit Agreement by \$100,000.

We expect that our cash, the available unused commitments of the Credit Agreement (hereinafter defined), which are lower than the unused commitments due to a financial covenant, and net cash provided by operating activities should be sufficient to cover the Company's working capital requirements, capital expenditures, dividend program, potential stock repurchases, potential future acquisitions or strategic investments and other cash needs for at least the next 12 months.

Sources and Uses of Cash

The following is a summary of our sources and uses of cash.

	2QYTD16	2QYTD15
Net cash provided by (used for) operating activities	\$(13,920))\$9,158
Net cash provided by (used for) investing activities	\$(4,381))\$(4,253)
Net cash provided by (used for) financing activities	\$14,331	\$(6,096)
Net cash provided by (used for) operating activities		

Net cash used for operating activities was \$13,920, due primarily to an increase in Accounts receivable, net of \$14,256 and a decrease in All other liabilities of \$28,688, compared to net cash provided by operating activities of \$9,158 in the same period last year, due primarily to Net income of \$7,146, inclusive of non-cash charges, an increase in Accounts receivable, net of \$9,890 and a decrease in All other liabilities of \$6,252. Changes in the above accounts are based on average Fiscal 2016 and Fiscal 2015 exchange rates, as applicable.

Changes in working capital, and particularly changes in accounts receivable, costs in excess of billings and billings in excess of cost, can have a significant impact on net cash provided by operating activities, largely due to the timing of payments and receipts.

Net cash provided by (used for) investing activities

Capital expenditures

The Company made investments of \$4,498 compared to \$3,522 in the same period last year which primarily related to information technology infrastructure, computer hardware and software and vehicles.

Net cash provided by (used for) financing activities

Long-term debt

Proceeds from long-term debt was \$13,918 compared to \$946 in the same period last year, which was used to fund common stock repurchases and operations.

Common stock repurchases

The Company made discretionary investments in the form of common stock repurchases of \$2,000 compared to \$4,987 in the same period last year. The Company also made tax payments of \$796 compared to \$949 in the prior year related to share withholding to satisfy employee income taxes due as a result of the vesting of certain restricted stock units.

Table of Contents

Since the inception of the repurchase program beginning in April 1999 through September 30, 2015, the Company has repurchased 10,828,575 shares of common stock for an aggregate purchase price of \$402,360, or an average purchase price per share of \$37.16. These shares do not include the treasury shares withheld for tax payments due upon the vesting of certain restricted stock units and performance shares. As of September 30, 2015, 671,425 shares were available under the most recent repurchase programs. Additional repurchases of common stock may occur from time to time depending upon factors such as the Company's cash flows and general market conditions. There can be no assurance as to the timing or amount of such repurchases. Under the Credit Agreement, the Company is permitted to repurchase its common stock as long as no Event of Default or Potential Default (as defined in the Credit Agreement) shall have occurred and is continuing or shall occur as a result thereof. In addition, no repurchase of common stock is permitted under the Credit Agreement if the Company's consolidated leverage ratio (based on EBITDA) exceeds 3.0. At September 30, 2015, the Company's leverage ratio was 3.2 which restricts the Company from repurchasing its stock on the open market during the second quarter of Fiscal 2016.

Dividends

The Company made discretionary investments in the form of dividends to its stockholders of \$3,229 compared to \$2,954 in the prior year. While the Company expects to continue to declare quarterly dividends, the payment of future dividends is at the discretion of the Company's Board of Directors (the "Board") and the timing and amount of any future dividends will depend upon earnings, cash requirements and the financial condition of the Company. Under the Credit Agreement, the Company is permitted to make distributions or dividends as long as no Event of Default or Potential Default (as defined in the Credit Agreement) shall have occurred and is continuing or shall occur as a result thereof. In addition, no distribution or dividend is permitted under the Credit Agreement if such event would violate a consolidated leverage ratio required to be maintained under the Credit Agreement other than regular quarterly dividends not exceeding \$15,000 per year.

Credit Agreement

On March 23, 2012, the Company entered into a Credit Agreement (the "Credit Agreement") with Citizens Bank of Pennsylvania, as administrative agent, and certain other lender parties. The Credit Agreement expires on March 23, 2017. Borrowings under the Credit Agreement were permitted up to a maximum amount of \$400,000, which the Company voluntarily reduced to \$300,000 effective as of April 16, 2015, and includes up to \$25,000 of swing-line loans and \$25,000 of letters of credit. The Company voluntarily reduced the unused commitment of our Credit Agreement by \$100,000 in order to reduce our commitment fee costs associated with the unused portion of the line. The Credit Agreement may be increased by the Company up to an additional \$100,000 with the approval of the lenders and may be unilaterally and permanently reduced by the Company to not less than the then outstanding amount of all borrowings. Interest on outstanding indebtedness under the Credit Agreement accrues, at the Company's option, at a rate based on either: (a) the greater of (i) the prime rate per annum of the agent then in effect and (ii) 0.50% plus the rate per annum announced by the Federal Reserve Bank of New York as being the weighted-average of the rates on overnight Federal funds transactions arranged by Federal funds brokers on the previous trading day, in each case plus 0% to 0.75% (determined by a leverage ratio based on the Company's consolidated Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA")) or (b) a rate per annum equal to the LIBOR rate plus 0.875% to 1.750% (determined by a leverage ratio based on the Company's consolidated EBITDA). The Credit Agreement requires the Company to maintain compliance with certain non-financial and financial covenants such as leverage and fixed-charge coverage ratios. As of September 30, 2015, the Company was in compliance with all covenants under the Credit Agreement.

Legal Proceedings

See Note 14 of the Notes to the Consolidated Financial Statements of this Quarterly Report on Form 10 Q (this "Form 10-Q"), which information is incorporated herein by reference.

Inflation

The overall effects of inflation on the Company have been nominal. Although long-term inflation rates are difficult to predict, the Company continues to strive to minimize the effect of inflation through improved productivity and cost reduction programs as well as price adjustments within the constraints of market competition.

Valuation of Goodwill

During the second quarter of Fiscal 2016 and in connection with its recent downward adjustment to revenue and profitability outlook for Fiscal 2016 communicated on July 28, 2015 (the most recent earnings conference call), the Company conducted an interim goodwill assessment to determine whether such assets were recoverable as of June 27, 2015. Such assessment revealed that the carrying value of its reporting units exceeded the fair value of its reporting units and accordingly the Company proceeded to the second step of the goodwill impairment assessment.

Table of Contents

The Company recorded a non-cash, pre-tax goodwill impairment loss of \$157,272, (consisting of \$25,211, \$119,547, \$5,348 and \$7,166 in its North America Products, North America Services, International Products and International Services reporting units, respectively) during the second quarter of Fiscal 2016 as a result of its interim goodwill assessment conducted as of June 27, 2015. In determining the impairment loss, the implied fair value of the reporting unit goodwill was compared to the carrying amount of the goodwill. The implied fair value of reporting unit goodwill was determined as the residual between the fair value of the reporting unit and the fair value of its assets (including any unrecognized intangible assets) and liabilities as of the interim goodwill assessment date. The impairment charge did not impact the Company's business operations, compliance with debt covenants or future cash flows nor did it result in any cash expenditures.

The primary factors contributing to the goodwill impairment loss in North America Services were lower projected revenue and profit in Fiscal 2016 and the corresponding impact in periods beyond Fiscal 2016 and a historically high weighted-average cost of capital. North America Services revenues are lower relative to recent historical amounts due to a slower than anticipated ramp up of the new sales organization in the Company's core commercial services business and continued deferments of award and task order funding in the Company's federal business, partially offset by continued growth in the Company's Solutions Practices and large managed service contract. North America Services profits continue to be challenged by competitive pricing pressures and current period investments for the operations initiative and infrastructure which the Company believes will enable it to grow revenue and profits more efficiently beyond Fiscal 2016. North America weighted-average cost of capital was at a historical high primarily driven by a significant increase in the size premium within the cost of equity as a result of a decrease in the Company's market capitalization below \$300 million. The primary factors contributing to the goodwill impairment loss in North America Products, International Products and International Services were the historically high weighted-average cost of capital noted above and, to a lesser extent, lower than expected projected profits.

The Company adjusted the carrying value of its reporting units to reflect the goodwill impairment loss and compared that adjusted carrying value to the fair value of the reporting units. The excess of the fair value over this adjusted carrying value was \$23,599 and \$6,303 for North America Products and North America Services, respectively. A 100 basis point increase in the weighted-average cost of capital, which, holding all other assumptions constant, would have a significant impact on the fair value of a reporting unit, would decrease the fair value of the reporting units by \$5,732 and \$17,453 for North America Products and North America Services, respectively.

Future events that could result in an interim assessment of goodwill impairment and/or a potential impairment loss include, but are not limited to, (i) significant underperformance relative to historical or projected future operating results, (ii) significant changes in the manner of or use of the assets or the strategy for the Company's overall business or (iii) significant negative industry or economic trends.

Contingencies

The Company is subject to unclaimed or abandoned property (escheat) laws which require it to turn over to state governmental authorities the property of others held by the Company that has been unclaimed for specified periods of time. Property held by the Company subject to escheat laws primarily includes accounts payable, payroll checks and trade accounts receivable credits. The Company participated in voluntary disclosure programs in all 50 states within the United States and the District of Columbia in an effort to voluntarily comply with state abandoned property laws and settle past due unclaimed property obligations. The Company completed the programs and settled with 49 states and the District of Columbia which resulted in an immaterial charge to the consolidated financial statements during the fiscal year ended March 31, 2014. On May 22, 2013, the Company entered into Delaware's Voluntary Disclosure Agreement Program in order to voluntarily comply with Delaware's abandoned property law in exchange for certain protections and benefits. Since that time, the Company has worked in good faith to complete a review of its books and records related to unclaimed or abandoned property during the periods required under the program. The Voluntary Disclosure Agreement had an original expiration date of June 30, 2015 which was subsequently extended for six months to December 30, 2015. The Company will continue to examine its options regarding the escheat laws of Delaware including completing Delaware's Voluntary Disclosure Agreement Program or proceeding to audit, as well as to pursue any indemnification claims the Company may have from a third party with respect to such liability. Amounts incurred and paid to resolve past due unclaimed property obligations in Delaware could have a material

adverse effect on the Company's results of operations and cash flows.

Critical Accounting Policies/Impact of Recently Issued Accounting Pronouncements

Critical Accounting Policies

The Company's critical accounting policies require the most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain and are the most important to the portrayal of the Company's consolidated financial statements. The Company's critical accounting policies are disclosed in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" of the Form 10-K. The significant accounting policies used in the preparation of the Company's consolidated financial statements are disclosed in Note 2 of the Notes to the Consolidated Financial Statements within the Form 10-K. No additional significant accounting policies have been adopted during Fiscal 2016.

Impact of Recently Issued Accounting Pronouncements

There have been no accounting pronouncements adopted during Fiscal 2016 that have had a material impact on the Company's consolidated financial statements.

In April 2015, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Codification ("ASC") Update 2015-03, "Simplifying the Presentation of Debt Issuance Costs" ("ASC 2015-03") which requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. In August 2015, the FASB issued ASC Update No. 2015-15, "Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements," ("ASC 2015-15"). ASC 2015-15 provides additional guidance to ASC 2015-03, which did not address presentation or subsequent measurement of debt issuance costs related to line-of-credit arrangements. ASU 2015-15 noted that the SEC staff would not object to an entity deferring and presenting debt issuance costs as an asset and subsequently amortizing the deferred debt issuance costs ratably over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings on the line-of-credit arrangement. ASC 2015-03 requires retrospective adoption and is effective for annual reporting periods (including interim periods therein) beginning after December 15, 2015 with early adoption permitted. The Company does not expect the adoption of ASC 2015-03 to have a material impact on our financial statements.

In April 2015, the FASB issued ASC Update No. 2015-05, "Customer's Accounting for Fees Paid in a Cloud Computing Arrangement" ("ASC 2015-05") which provides additional guidance to customers about whether a cloud computing arrangement includes a software license. Under ASC 2015-05, if a software cloud computing arrangement contains a software license, customers should account for the license element of the arrangement in a manner consistent with the acquisition of other software licenses. If the arrangement does not contain a software license, customers should account for the arrangement as a service contract. Entities can use either of two methods: (i) prospectively to all arrangements entered into or materially modified after the effective date; or (ii) retrospectively providing certain additional disclosures as defined per ASC 2015-05. ASC 2015-05 is effective for annual reporting periods (including interim periods therein) beginning after December 15, 2015 with early adoption permitted. The Company does not expect the adoption of ASC 2015-05 to have a material impact on our financial statements.

In May 2014, the FASB issued ASC Update No. 2014-09, "Revenue from Contracts with Customers" ("ASC 2014-09"), which was amended in July 2015 by ASC Update No. 2015-14, that outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance. The core principle of ASC 2014-09 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expected to be entitled in exchange for those goods or services. Entities can use either of two methods: (i) retrospective to each prior period presented with the option to elect certain practical expedients as defined within ASC 2014-09; or (ii) retrospective with the cumulative effect of initially applying ASC 2014-09 recognized at the date of initial application and providing certain additional disclosures as defined per ASC 2014-09. ASC 2014-09 is effective for annual reporting periods (including interim periods therein) beginning after December 15, 2017 for public companies with early adoption permitted for annual reporting periods (including interim periods therein) beginning after December 15, 2016. The Company is evaluating the method of adoption and the impact of the adoption of ASU 2014-09 on its consolidated financial statements.

In July 2015, the FASB issued ASC Update No. 2015-11, "Simplifying the Measurement of Inventory" ("ASC 2015-11") which requires that inventory be measured at the lower of cost and net realizable value. ASC 2015-11 should be adopted prospectively and is effective for annual reporting periods (including interim periods therein) beginning after December 15, 2016 with early adoption permitted. The Company does not expect the adoption of ASC 2015-11 to have a material impact on our financial statements.

Cautionary Forward Looking Statements

Any forward-looking statements contained in this Quarterly Report on Form 10-Q or in documents incorporated herein by reference are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and speak only as of the date of this Form 10-Q. You can identify these forward-looking statements by the fact that they use words such as "should," "anticipate," "estimate," "approximate," "expect," "target," "may," "will," "project," "intend," "plan," "believe" and other words of similar meaning and expression in connection with any discussion of future operating or financial performance. One can also identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. Forward-looking statements are inherently subject to a variety of risks and uncertainties that could cause actual results to differ materially from those projected. Although it is not possible to predict or identify all risk factors, they may include levels of business activity and operating expenses, expenses relating to corporate compliance requirements, cash flows, global economic and business conditions, successful integration of acquisitions, the timing and costs of restructuring programs and other initiatives, successful marketing of the Company's product and services offerings, successful implementation of the Company's integration initiatives, successful implementation of the Company's government contracting programs, competition, changes in foreign, political and economic conditions, fluctuating foreign currencies compared to the U.S. dollar, rapid changes in technologies, client preferences, the Company's arrangements with suppliers of voice equipment and technology, government budgetary constraints and various other matters, many of which are beyond the Company's control. Additional risk factors are included in the Form 10-K. We can give no assurance that any goal, plan or target set forth in forward-looking statements will be achieved and readers are cautioned not to place undue reliance on such statements, which speak only as of the date made. We undertake no obligation to release publicly any revisions to forward-looking statements as a result of future events or developments and caution you not to unduly rely on any such forward-looking statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Company is exposed to market risks in the ordinary course of business that include interest-rate volatility and foreign currency exchange rates volatility. Market risk is measured as the potential negative impact on earnings, cash flows or fair values resulting from a hypothetical change in interest rates or foreign currency exchange rates over the next year. The Company does not hold or issue any other financial derivative instruments (other than those specifically noted below) nor does it engage in speculative trading of financial derivatives.

Interest-rate Risk

The Company's primary interest-rate risk relates to its long-term debt obligations under the Credit Agreement which was \$150,300 as of September 30, 2015. To mitigate the risk of interest-rate fluctuations associated with the Company's variable rate long-term debt, the Company has implemented an interest-rate risk management strategy that incorporates the use of derivative instruments to minimize significant unplanned fluctuations in earnings caused by interest-rate volatility. On November 15, 2011, the Company entered into a three-year floating-to-fixed interest-rate swap, with an effective start date of July 26, 2012, that was based on a three-month LIBOR rate versus a 1.25% fixed rate, had a notional value of \$125,000 and terminated on July 26, 2015. As a result of reduced debt levels and expected continued low interest rates, the Company did not replace this swap. As of September 30, 2015, an instantaneous 100 basis point increase in the interest rate of the variable rate debt would reduce the Company's earnings in the subsequent fiscal quarter by \$371 (\$228 net of tax) assuming the Company employed no intervention strategies.

Foreign Exchange Rate Risk

The Company has operations, clients and suppliers worldwide, thereby exposing the Company's financial results to foreign currency fluctuations. In an effort to reduce this risk of foreign currency fluctuations, the Company generally sells and purchases inventory based on prices denominated in U.S. dollars. Intercompany sales to subsidiaries are generally denominated in the subsidiaries' local currency. The Company has entered and will continue in the future, on a selective basis, to enter into foreign currency contracts to reduce the foreign currency exposure related to certain intercompany transactions, primarily trade receivables and loans. All of the foreign currency contracts have been designated and qualify as cash flow hedges. The effective portion of any changes in the fair value of the derivative instruments is recorded in Accumulated Other Comprehensive Income ("AOCI") until the hedged forecasted

transaction occurs or the recognized currency transaction affects earnings. Once the forecasted transaction occurs or the recognized currency transaction affects earnings, the effective portion of any related gains or losses on the cash flow hedge is reclassified from AOCI to the Company's Consolidated Statements of Operations. In the event it becomes probable that the hedged forecasted transaction will not occur, the ineffective portion of any gain or loss on the related cash flow hedge would be reclassified from AOCI to the Company's Consolidated Statements of Operations.

30

Table of Contents

As of September 30, 2015, the Company had open foreign currency contracts in Australian and Canadian dollars, Danish krone, Euros, Mexican pesos, Norwegian kroner, British pounds sterling, Swedish krona, Swiss francs and Japanese yen. The open contracts have contract rates ranging from 1.26 to 1.42 Australian dollar, 1.22 to 1.34 Canadian dollar, 6.53 to 6.66 Danish krone, 0.88 to 0.94 Euro, 15.19 to 15.57 Mexican peso, 7.45 to 8.32 Norwegian kroner, 0.63 to 0.66 British pound sterling, 8.18 to 8.67 Swedish krona, 0.93 to 0.95 Swiss franc and 120.53 to 124.97 Japanese yen, all per U.S. dollar. The total open contracts had a notional amount of \$47,964 and will expire within eight months.

Item 4. Controls and Procedures.

Conclusions Regarding the Effectiveness of Disclosure Controls and Procedures

Management, including the Company's Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), for the Company. Management assessed the effectiveness of the Company's disclosure controls and procedures as of September 26, 2015. Based upon this assessment, Management has concluded that the Company's disclosure controls and procedures were effective as of September 26, 2015 to provide reasonable assurance that information required to be disclosed by the Company in the reports filed or submitted by it under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and to provide reasonable assurance that information required to be disclosed by the Company in such reports is accumulated and communicated to Management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during the most recent fiscal quarter that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

Limitations on the Effectiveness of Controls

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Because of its inherent limitations, the Company's internal control over financial reporting may not prevent or detect misstatements. In addition, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.
