#### Item 7.01 Regulation FD Disclosure

##### Revenue from Contracts with Customers

As disclosed in our Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2018, filed with the Securities and Exchange Commission on May 2, 2018, effective January 1, 2018, Caesars Entertainment Corporation (the “Company”) adopted the Accounting Standards Updated (“ASU”) 2014-09, Revenue from Contracts with Customers (and all related amendments). The Company adopted the new standard using the full retrospective method, which requires the Company to recast each prior reporting period presented consistent with the new standard.

In order to facilitate review of the recast information, the Company is furnishing this Form 8-K under Regulation FD to present the Company’s previously reported financial information on a basis consistent with the new standard.

The most significant effects of adopting the new standard related to the accounting for our Total Rewards customer loyalty program and casino promotional allowances.

Total Rewards affects revenue from our four core businesses: casino entertainment, food and beverage, rooms and hotel, and entertainment and other business operations. Previously, the Company accrued a liability based on the estimated cost of fulfilling the redemption of Reward Credits, after consideration of estimated forfeitures (referred to as “breakage”), based upon the cost of historical redemptions. Upon adoption of the new accounting standard, Reward Credits are no longer recorded at cost, and a deferred revenue model is used to account for the classification and timing of revenue recognized as well as the classification of related expenses when Reward Credits are redeemed. This results in a portion of casino revenues being recorded as deferred revenue as Reward Credits are earned. Revenue is recognized in a future period based on when and for what good or service the Reward Credits are redeemed (e.g., a hotel room).

Additionally, we previously recorded promotional allowances in a separate line item within net revenues. As part of adopting the new standard, promotional allowances are no longer presented separately. Alternatively, revenue is recognized based on relative standalone selling prices for transactions with more than one performance obligation. For example, when a casino customer is given a complimentary room, we are required to allocate a portion of the casino revenues earned from the customer to rooms revenues based on the standalone selling price of the room. As a result of this change, we are reporting substantially lower casino revenues; however, there is no material effect on total net revenues.

In addition, adopting the new standard did not have a material effect on income from operations or net income.
