RYDER SYSTEM, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS
(unaudited)

1. GENERAL

Interim Financial Statements

The accompanying unaudited Consolidated Condensed Financial Statements include the accounts of Ryder System, Inc. (Ryder) and all entities in which Ryder has a controlling voting interest (subsidiaries) and variable interest entities (VIEs) required to be consolidated in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The accompanying unaudited Consolidated Condensed Financial Statements have been prepared in accordance with the accounting policies described in our 2015 Annual Report on Form 10-K and should be read in conjunction with the Consolidated Financial Statements and notes thereto. The year-end condensed balance sheet data was derived from audited financial statements, but does not include all disclosures required by U.S. GAAP. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included and the disclosures herein are adequate. The operating results for interim periods are unaudited and are not necessarily indicative of the results that can be expected for a full year.

Beginning in 2016, we reclassified the losses from fair value adjustments on our used vehicles from "Other operating expenses" to "Gains on used vehicles, net" within the Consolidated Condensed Statement of Earnings. Prior year amounts have been reclassified to conform to the current period presentation.

2. RECENT ACCOUNTING PRONOUNCEMENTS

Statement of Cash Flows

In August 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-15, Statement of Cash Flows, which clarifies how companies present and classify certain cash receipts and cash payments in the statement of cash flows. The guidance will be effective January 1, 2018, with early adoption permitted. The standard is to be adopted on a retrospective basis. We do not expect this standard to have a material impact on the presentation of our consolidated cash flows.

Financial Instruments

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments - Credit Losses, which requires the measurement and recognition of expected credit losses for financial assets held at amortized cost. The standard applies to financial instruments including, but not limited to, trade and other receivables, held-to-maturity debt securities, loans and net investments in leases. The standard requires estimating expected credit losses over the remaining life of an instrument or a portfolio of instruments with similar risk characteristics based on relevant information about past events, current conditions and reasonable forecasts. The initial estimate of and the subsequent changes in expected credit losses will be recognized as credit loss expense through current earnings and will be reflected as an allowance for credit losses offsetting the carrying value of the financial instrument(s) on the balance sheet. The standard is effective January 1, 2020, with early adoption as of January 1, 2019 permitted. The standard is to be applied using a modified retrospective transition method. We do not expect this standard to have a material impact on our consolidated financial position, results of operations or cash flows.

Share-Based Payments

In March 2016, the FASB issued ASU No. 2016-09, Stock Compensation, which is intended to simplify several aspects of the accounting for share-based payment award transactions. The guidance will be effective January 1, 2017. We do not expect this standard to have a material impact on our consolidated financial position, results of operations or cash flows.

RYDER SYSTEM, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS — (Continued)

(unaudited)

Leases

In February 2016, the FASB issued ASU No. 2016-02, Leases, which sets out the principles for the recognition, measurement, presentation and disclosure of leases. The standard requires lessees to apply a dual approach, classifying leases as either finance or operating leases. This classification will determine whether the lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases. The new standard requires lessors to account for leases using an approach that is substantially equivalent to existing guidance for sales-type leases, direct financing leases and operating leases. The standard is effective January 1, 2019, with early adoption permitted. The standard is to be applied using a modified retrospective transition method. We are evaluating the impact on our consolidated financial position, results of operations and cash flows.

Revenue Recognition

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which together with related, subsequently issued guidance, requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU is effective January 1, 2018, and will replace most existing revenue recognition guidance. The standard permits the use of either the modified retrospective or cumulative effect transition methods. We are evaluating transition methods and the impact on our consolidated financial position and results of operations.

Presentation of Debt Issuance Costs

In April 2015, the FASB issued ASU No. 2015-03, Simplifying the Presentation of Debt Issuance Costs, which required an entity to present debt issuance costs as a direct reduction from the carrying amount of the related debt liability on the balance sheet. We adopted this guidance on January 1, 2016 and reclassified \$15 million from other assets to long-term debt in our December 31, 2015 balance sheet. Other than the change in presentation within the Consolidated Condensed Balance Sheets, this accounting guidance did not impact our consolidated financial position, results of operations or cash flows.

3. REVENUE EARNING EQUIPMENT

	September 30, 2016			December 31, 2015		
	Cost	Accumulated Depreciation	Net Book Value ⁽¹⁾	Cost	Accumulated Depreciation	Net Book Value ⁽¹⁾
	(In thousands)					
Held for use:						
Full service lease	\$9,460,749	(2,979,195)	6,481,554	\$8,839,941	(2,723,605)	6,116,336
Commercial rental	2,529,929	(893,545)	1,636,384	2,811,715	(907,412)	1,904,303
Held for sale	503,160	(346,266)	156,894	496,634	(332,538)	164,096
Total	\$12,493,838	(4,219,006)	8,274,832	\$12,148,290	(3,963,555)	8,184,735

Revenue earning equipment, net includes vehicles acquired under capital leases of \$42.9 million, less accumulated (1) depreciation of \$21.6 million, at September 30, 2016, and \$47.5 million, less accumulated depreciation of \$22.2 million, at December 31, 2015.

We lease revenue earning equipment to customers for periods typically ranging from three to seven years for trucks and tractors and up to ten years for trailers. The majority of our leases are classified as operating leases. However, some of our revenue earning equipment leases are classified as direct financing leases and, to a lesser extent, sales-type leases. As of September 30, 2016 and December 31, 2015, the net investment in direct financing and sales-type leases was \$418 million and \$438 million, respectively. Our direct financing lease customers operate in a wide variety of industries, and we have no significant customer concentrations in any one industry. We assess credit risk for all of our customers including those who lease equipment under direct financing leases prior to signing a full service lease contract. For those customers who are designated as high risk, we typically require deposits to be paid in advance in order to mitigate our credit risk. Additionally, our receivables are collateralized by the vehicles which further mitigates our credit risk.

RYDER SYSTEM, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS — (Continued)

(unaudited)

As of September 30, 2016 and December 31, 2015, the amount of direct financing lease receivables past due was not significant, and there were no impaired receivables. Accordingly, we do not believe there is a material risk of default with respect to the direct financing lease receivables.

Revenue earning equipment held for sale is stated at the lower of carrying amount or fair value less costs to sell. Losses on vehicles held for sale for which carrying values exceeded fair value are recognized at the time they arrive at our used truck centers and are presented within "Gains on used vehicles, net" in the Consolidated Condensed Statements of Earnings. For revenue earning equipment held for sale, we stratify our fleet by vehicle type (trucks, tractors and trailers), weight class, age and other relevant characteristics and create classes of similar assets for analysis purposes. For a certain population of our revenue earning equipment held for sale, fair value was determined based upon recent market prices obtained from our own sales experience for sales of each class of similar assets and vehicle condition. These vehicles held for sale were classified within Level 3 of the fair value hierarchy.

The following table presents our assets held for sale that are measured at fair value on a nonrecurring basis and considered a Level 3 fair value measurement:

			Total Losses ⁽²⁾			
			Three months ended		Nine months ended	
	September 30, 2016	September 30, 2015	September 30, 2016	September 30, 2015	September 30, 2016	September 30, 2015
			(In thousands)			
Assets held for sale:						
Revenue earning equipment ⁽¹⁾ :						
Trucks	\$17,091	7,701	\$2,528	1,657	\$6,842	4,400
Tractors	61,480	10,093	7,985	2,062	22,073	3,970
Trailers	2,563	1,195	1,152	610	2,589	1,582
Total assets at fair value	\$81,134	18,989	\$11,665	4,329	\$31,504	9,952

Assets held for sale in the above table only include the portion of revenue earning equipment held for sale where net book values exceeded fair values and fair value adjustments were recorded. The net book value of assets held for sale not exceeding fair value was \$75.8 million and \$145.1 million as of September 30, 2016 and 2015, respectively.

Total losses represent fair value adjustments for all vehicles reclassified to held for sale throughout the period for which fair value was less than carrying value.

For the three and nine months ended September 30, 2016 and 2015, the components of gains on used vehicles, net were as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2016	2015	2016	2015
	(In thousands)

(1) Insurance obligations primarily represent claims for which we are self-insured.

The reduction in restructuring liabilities from December 31, 2015 principally represents cash payments for (2) employee termination costs. The majority of the balance remaining in restructuring liabilities is expected to be paid by the end of 2016.

Long-term debt				4,464,495	4,868,097
Total debt				\$5,519,641	5,502,627

(1) Amounts are net of aggregate unamortized original issue discounts of \$6.8 million and \$7.7 million at September 30, 2016 and December 31, 2015, respectively.

(2) Asset-backed U.S. obligations are related to financing transactions involving revenue earning equipment.

(3) The notional amount of executed interest rate swaps designated as fair value hedges was \$825 million at September 30, 2016 and December 31, 2015.

(4) See Note 2, "Recent Accounting Pronouncements," for further discussion of the presentation of debt issuance costs.

We maintain a \$1.2 billion global revolving credit facility with a syndicate of twelve lending institutions led by Bank of America N.A., Bank of Tokyo-Mitsubishi UFJ, Ltd., BNP Paribas, Mizuho Corporate Bank, Ltd., Royal Bank of Canada, Lloyds Bank Plc, U.S. Bank National Association and Wells Fargo Bank, N.A. The facility matures in January 2020. The agreement provides for annual facility fees which range from 7.5 basis points to 25 basis points based on Ryder's long-term credit ratings. The annual facility fee is currently 10 basis points, which applies to the total facility size of \$1.2 billion.

The credit facility is used primarily to finance working capital but can also be used to issue up to \$75 million in letters of credit (there were no letters of credit outstanding against the facility at September 30, 2016). At our option, the interest rate on borrowings under the credit facility is based on LIBOR, prime, federal funds or local equivalent rates. The credit facility contains no provisions limiting its availability in the event of a material adverse change to Ryder's

business operations; however, the credit facility does contain standard representations and warranties, events of default, cross-default provisions and certain affirmative and negative covenants.

In order to maintain availability of funding, we must maintain a ratio of debt to consolidated net worth of less than or equal to 300%. Net worth, as defined in the credit facility, represents shareholders' equity excluding any accumulated other comprehensive income or loss associated with our pension and other postretirement plans. The ratio at September 30, 2016 was 206%. At September 30, 2016, there was \$514.4 million available under the credit facility.

RYDER SYSTEM, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS — (Continued)

(unaudited)

Our global revolving credit facility enables us to refinance short-term obligations on a long-term basis. Short-term commercial paper obligations not expected to require the use of working capital are classified as long-term as we have both the intent and ability to refinance on a long-term basis. In addition, we have the intent and ability to refinance the current portion of certain long-term debt on a long-term basis. At September 30, 2016, we classified \$490.7 million of short-term commercial paper, \$349.9 million of current debt obligations and \$60.9 million of short-term borrowings under our global revolving credit facility as long-term. At December 31, 2015, we classified \$547.1 million of short-term commercial paper, \$300.0 million of current debt obligations and \$25.3 million of short-term borrowings under our global revolving credit facility as long-term.

In February 2016, we issued \$300 million of unsecured medium-term notes maturing in November 2021. The proceeds from these notes were used to pay off maturing debt and for general corporate purposes. If these notes are downgraded below investment grade following, and as a result of, a change in control, the note holders can require us to repurchase all or a portion of the notes at a purchase price equal to 101% of principal value plus accrued and unpaid interest.

We have a trade receivables purchase and sale program, pursuant to which we sell certain of our domestic trade accounts receivable to a bankruptcy remote, consolidated subsidiary of Ryder, that in turn sells, on a revolving basis, an ownership interest in certain of these accounts receivable to a committed purchaser. The subsidiary is considered a VIE and is consolidated based on our control of the entity's activities. We use this program to provide additional liquidity to fund our operations, particularly when it is cost effective to do so. The costs under the program may vary based on changes in interest rates. The available proceeds that may be received under the program are limited to \$175 million. The program was renewed in October 2016. If no event occurs which causes early termination, the 364-day program will expire on October 23, 2017. The program contains provisions restricting its availability in the event of a material adverse change to our business operations or the collectibility of the collateralized receivables. Sales of receivables under this program are accounted for as secured borrowings based on our continuing involvement in the transferred assets. No amounts were outstanding under the program at September 30, 2016 or December 31, 2015.

At September 30, 2016 and December 31, 2015, we had letters of credit and surety bonds outstanding totaling \$338.9 million and \$345.7 million, respectively, which primarily guarantee the payment of insurance claims.

The fair value of total debt (excluding capital lease and asset-backed U.S. obligations) at September 30, 2016 and December 31, 2015 was approximately \$5.21 billion and \$5.06 billion, respectively. For publicly-traded debt, estimates of fair value were based on market prices. For other debt, fair value was estimated based on a model-driven approach using rates currently available to us for debt with similar terms and remaining maturities. The fair value measurements of our publicly-traded debt and other debt were classified within Level 2 of the fair value hierarchy. The carrying amounts reported in the Consolidated Condensed Balance Sheets for "Cash and cash equivalents," "Receivables, net" and "Accounts payable" approximate fair value because of the immediate or short-term maturities of these financial instruments.

In February 2016, Ryder filed an automatic shelf registration statement on Form S-3 with the SEC. The registration is for an indeterminate number of securities and is effective for three years. Under this universal shelf registration statement, we have the capacity to offer and sell from time to time various types of securities, including common stock, preferred stock and debt securities, subject to market demand and ratings status.

RYDER SYSTEM, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS — (Continued)

(unaudited)

6. DERIVATIVES

From time to time, we enter into interest rate derivatives to manage our fixed and variable interest rate exposure and to better match the repricing of debt instruments to that of our portfolio of assets. We assess the risk that changes in interest rates will have either on the fair value of debt obligations or on the amount of future interest payments by monitoring changes in interest rate exposures and by evaluating hedging opportunities. We regularly monitor interest rate risk attributable to both our outstanding or forecasted debt obligations as well as any offsetting hedge positions. This risk management process involves the use of analytical techniques, including cash flow sensitivity analyses, to estimate the expected impact of changes in interest rates on our future cash flows.

As of September 30, 2016, we had interest rate swaps outstanding which are designated as fair value hedges for certain debt obligations, with a total notional value of \$825 million and maturities through 2020. Interest rate swaps are measured at fair value on a recurring basis using Level 2 fair value inputs. The fair value of these interest rate swaps was approximately \$14.2 million and \$5.4 million as of September 30, 2016 and December 31, 2015, respectively. The amounts are presented in "Direct financing leases and other assets" in our Consolidated Condensed Balance Sheets. Changes in the fair value of our interest rate swaps were offset by changes in the fair value of the hedged debt instruments. Accordingly, there was no ineffectiveness related to the interest rate swaps.

7. SHARE REPURCHASE PROGRAMS

In December 2015, our Board of Directors authorized a share repurchase program intended to mitigate the dilutive impact of shares issued under our employee stock plans (the program). Under the program, management is authorized to repurchase (i) up to 1.5 million shares of common stock, the sum of which will not exceed the number of shares issued to employees under the Company's employee stock plans from December 1, 2015 to December 9, 2017, plus (ii) 0.5 million shares issued to employees that were not repurchased under the Company's previous share repurchase program. The program limits aggregate share repurchases to no more than 2 million shares of Ryder common stock. Share repurchases of common stock are made periodically in open-market transactions and are subject to market conditions, legal requirements and other factors. Management may establish prearranged written plans for the Company under Rule 10b5-1 of the Securities Exchange Act of 1934 as part of the program, which allow for share repurchases during Ryder's quarterly blackout periods as set forth in the trading plan.

During the nine months ended September 30, 2016 and September 30, 2015, we repurchased 379,896 shares for \$25.7 million and 69,107 shares for \$6.1 million, respectively.

8. ACCUMULATED OTHER COMPREHENSIVE LOSS

The following summary sets forth the components of accumulated other comprehensive loss, net of tax:

	Currency Translation Adjustments and Other (In thousands)	Net Actuarial Loss ⁽¹⁾	Prior Service (Cost)/ Credit ⁽¹⁾	Accumulated Other Comprehensive Loss

10. SHARE-BASED COMPENSATION PLANS

Share-based incentive awards are provided to employees under the terms of various share-based compensation plans (collectively, the “Plans”). The Plans are administered by the Compensation Committee of the Board of Directors and principally include at-the-money stock options, unvested stock and cash awards. Unvested stock awards include grants of market-based, performance-based and time-vested restricted stock rights. Under the terms of our Plans, dividends are not paid unless the stock award vests. Upon vesting, the amount of the dividends paid is equal to the aggregate dividends declared on common shares during the period from the grant date of the award until the date the shares underlying the award are delivered.

The following table provides information on share-based compensation expense and income tax benefits recognized during the periods:

	Three months ended September 30, 2016		Nine months ended September 30, 2016	
	2015		2015	
	(In thousands)			
Stock option and stock purchase plans	\$1,633	1,948	\$5,410	6,205
Unvested stock	2,237	2,995	8,460	9,907
Share-based compensation expense	3,870	4,943	13,870	16,112
Income tax benefit	(1,321)	(1,652)	(4,691)	(5,395)
Share-based compensation expense, net of tax	\$2,549	3,291	\$9,179	10,717

The following table is a summary of compensation expense recognized for market-based cash awards in addition to the share-based compensation expense reported in the previous table:

	Three months ended September 30, 2016		Nine months ended September 30, 2016	
	2015		2015	
	(In thousands)			
Cash awards	\$119	197	\$447	661

Total unrecognized pre-tax compensation expense related to all share-based compensation arrangements at September 30, 2016 was \$21.2 million and is expected to be recognized over a weighted-average period of 1.8 years.

The following table is a summary of the awards granted under the Plans during the periods presented:

	Nine months ended September 30, 2016		2015	
	(Shares in thousands)			

Edgar Filing: RYDER SYSTEM INC - Form 10-Q

11. EMPLOYEE BENEFIT PLANS

Components of net pension expense were as follows:

	Three months ended September 30, 2016 2015		Nine months ended September 30, 2016 2015	
	(In thousands)			
Pension Benefits				
Company-administered plans:				
Service cost	\$2,660	3,612	\$9,065	10,805
Interest cost	22,754	21,777	72,086	65,712
Expected return on plan assets	(22,601)	(24,697)	(68,353)	(74,618)
Amortization of:				
Net actuarial loss	7,324	7,665	23,889	23,137
Prior service cost/(credit)	320	(80)	3,060	(230)
	10,457	8,277	39,747	24,806
Union-administered plans	2,493	1,772	7,221	6,057
Net pension expense	\$12,950	10,049	\$46,968	30,863
Company-administered plans:				
U.S.	\$10,952	8,746	\$41,389	26,237
Non-U.S.	(495)	(469)	(1,642)	(1,431)
	10,457	8,277	39,747	24,806
Union-administered plans	2,493	1,772	7,221	6,057
Net pension expense	\$12,950	10,049	\$46,968	30,863

During the second quarter of 2016, we determined that certain pension benefit improvements made in 2009 had not been fully reflected in our projected benefit obligation. Because the amounts were not material to our consolidated financial statements in any individual period, and the cumulative amount is not material to 2016 results, we recognized a one-time, non-cash charge of \$7.7 million in "Selling, general and administrative expenses" and a \$12.8 million pre-tax increase to "Accumulated other comprehensive loss" in our second quarter 2016 consolidated condensed financial statements to correctly state the pension benefit obligation and account for these 2009 benefit improvements.

During the third quarter of 2015, we recorded adjustments of \$0.5 million to previously recorded, estimated pension settlement charges related to the exit from U.S. multi-employer pension plans.

During the nine months ended September 30, 2016, we contributed \$65.3 million to our pension plans. In 2016, the expected total contributions to our pension plans are approximately \$80 million. We also maintain other postretirement benefit plans that are not reflected in the above table. The amount of postretirement benefit expense was not material for the three or nine months ended September 30, 2016.

RYDER SYSTEM, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS — (Continued)

(unaudited)

12. OTHER MATTERS

We are a party to various claims, complaints and proceedings arising in the ordinary course of our continuing business operations including, but not limited to, those relating to commercial and employment claims, environmental matters, risk management matters (e.g., vehicle liability, workers' compensation, etc.) and administrative assessments primarily associated with operating taxes. We have established loss provisions for matters in which losses are probable and can be reasonably estimated. For matters from continuing operations, we believe that the resolution of these claims, complaints and legal proceedings will not have a material effect on our consolidated condensed financial statements.

Our estimates regarding potential losses and materiality are based on our judgment and assessment of the claims utilizing currently available information. Although we will continue to reassess our reserves and estimates based on future developments, our objective assessment of the legal merits of such claims may not always be predictive of the outcome and actual results may vary from our current estimates.

Although we discontinued our South American operations in 2009, we continue to be party to various federal, state and local legal proceedings involving labor matters, tort claims and tax assessments. We have established loss provisions for any matters where we believe a loss is probable and can be reasonably estimated. Other than with respect to the matters discussed below, we believe that such losses will not have a material effect on our consolidated condensed financial statements.

In Brazil, various matters related to income taxes and social contribution taxes, as well as tax credits used to offset those taxes, were assessed by the Revenue Department for the 1997, 1998, 2004, 2005 and 2006 tax years. When available and appropriate, we have entered into various amnesty programs offered by the Brazilian tax authorities to settle some of these assessments at a discount and continue to evaluate these when offered. Payments to resolve open matters through these amnesty programs were not material and were reflected as costs in discontinued operations. Open matters, combined, total approximately \$4 million in assessments, penalties and interest and are pending at various levels of the administrative tax courts. We believe it is more likely than not that our position will ultimately be sustained either in these administrative courts or in actions before the judicial courts, if required.

13. SUPPLEMENTAL CASH FLOW INFORMATION

Supplemental cash flow information was as follows:

	Nine months ended September 30,	
	2016	2015
	(In thousands)	
Interest paid	\$ 100,903	110,141
Income taxes paid	12,250	13,635
Changes in accounts payable related to purchases of revenue earning equipment	(107,177)	18,307
Operating and revenue earning equipment acquired under capital leases	947	5,956

RYDER SYSTEM, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS — (Continued)

(unaudited)

14. SEGMENT REPORTING

Our primary measurement of segment financial performance, defined as segment “Earnings Before Tax” (EBT) from continuing operations, includes an allocation of Central Support Services (CSS) and excludes non-operating pension costs and certain professional fees associated with cost savings initiatives. Fleet Management Solutions (FMS) EBT, Dedicated Transportation Solutions (DTS) EBT and Supply Chain Solutions (SCS) EBT are our primary measures of segment performance. CSS represents those costs incurred to support all business segments, including human resources, finance, corporate services, public affairs, information technology, health and safety, legal, marketing and corporate communications. The objective of the EBT measurement is to provide clarity on the profitability of each segment and, ultimately, to hold leadership of each segment accountable for their allocated share of CSS costs. Certain costs are not attributable to any segment and remain unallocated in CSS, including costs for investor relations, public affairs and certain executive compensation.

Our FMS segment leases revenue earning equipment and provides fuel, maintenance and other ancillary services to the DTS and SCS segments. Inter-segment revenue and EBT are accounted for at rates similar to those executed with third parties. EBT related to inter-segment equipment and services billed to customers (equipment contribution) are included in both FMS and the segment which served the customer and then eliminated (presented as “Eliminations”).

The following tables set forth financial information for each of our segments and provide a reconciliation between segment EBT and earnings from continuing operations before income taxes for the three and nine months ended September 30, 2016 and 2015. Segment results are not necessarily indicative of the results of operations that would have occurred had each segment been an independent, stand-alone entity during the periods presented.

Capital expenditures paid					\$2,087,294

During the second quarter of 2016, we determined that certain pension benefit improvements made in 2009 were (1) not fully reflected in our projected benefit obligation. We recognized a charge of \$7.7 million related to these benefit improvements.

(2) Excludes revenue earning equipment acquired under capital leases.

(3) Consists of pension-related adjustments and certain professional fees associated with cost savings initiatives.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

OVERVIEW

The following discussion should be read in conjunction with the unaudited Consolidated Condensed Financial Statements and notes thereto included under Item 1. In addition, reference should be made to our audited Consolidated Financial Statements and notes thereto and related Management's Discussion and Analysis of Financial Condition and Results of Operations included in the 2015 Annual Report on Form 10-K.

Ryder System, Inc. (Ryder) is a global leader in transportation and supply chain management solutions. We report our financial performance based on three segments: (1) FMS, which provides full service leasing, commercial rental, contract maintenance, and contract-related maintenance of trucks, tractors and trailers to customers principally in the U.S., Canada and the U.K.; (2) DTS, which provides vehicles and drivers as part of a dedicated transportation solution in the U.S.; and (3) SCS, which provides comprehensive supply chain solutions including distribution and transportation services in North America and Asia. Dedicated transportation services provided as part of an integrated, multi-service, supply chain solution to SCS customers are reported in the SCS business segment.

We operate in highly competitive markets. Our customers select us based on numerous factors including service quality, price, technology and service offerings. As an alternative to using our services, customers may choose to provide these services for themselves, or may choose to obtain similar or alternative services from other third-party vendors. Our customer base includes enterprises operating in a variety of industries including automotive, industrial, food and beverage service, consumer packaged goods (CPG), transportation and warehousing, technology and healthcare, retail, housing, business and personal services, and paper and publishing.

This Management's Discussion and Analysis (MD&A) includes certain non-GAAP financial measures. Please refer to the "Non-GAAP Financial Measures" section of this MD&A for information on the non-GAAP measures included in the MD&A, reconciliations to the most comparable GAAP financial measure and the reasons why we believe each measure is useful to investors.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

Operating results were as follows:

	Three months ended September 30,		Nine months ended September 30,		Change 2016/2015	
	2016	2015	2016	2015	Three Months	Nine Months
(In thousands, except per share amounts)

Non-GAAP financial measure. Refer to the “Non-GAAP Financial Measures” section of this MD&A for a (1) reconciliation of total revenue to operating revenue and the reasons why management believes this measure is important to investors.

Non-GAAP financial measures. Refer to the “Non-GAAP Financial Measures” section for a reconciliation of EBT, (2) net earnings and earnings per diluted common share to the comparable measures and the reasons why management believes these measures are important to investors.

Total revenue and operating revenue (a non-GAAP measure excluding fuel and subcontracted transportation) increased 3% in the third quarter of 2016. For the nine months ended September 30, 2016, total revenue increased 3% and operating revenue increased 5%. Total revenue and operating revenue growth in both periods was due to growth in the full service lease fleet and higher prices on replacement vehicles in FMS and new business, increased volumes and higher pricing in SCS and DTS. These increases were partially offset by lower demand in the commercial rental product line and negative impacts from foreign exchange. Increased total revenue was also partially offset by lower fuel costs passed through to customers.

EBT decreased 6% in both the third quarter of 2016 and nine months ended September 30, 2016, reflecting lower used vehicle and commercial rental results, partially offset by higher full service lease results in FMS, lower insurance costs in DTS and increased pricing, new business and increased volumes in DTS and SCS. The 2016 EBT decrease in the nine months ended September 30, 2016, also reflects a \$7.7 million pension charge related to certain 2009 pension benefit improvements that were not fully reflected in our pension benefit obligation. EBT was negatively impacted by foreign exchange in the three and nine months ended September 30, 2016, by 100 basis points.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

CONSOLIDATED RESULTS

Lease and Rental

	Three months ended September 30,		Nine months ended September 30,		Change 2016/2015			
	2016	2015	2016	2015	Three Months	Nine Months		
	(Dollars in thousands)							
Lease and rental revenues	\$803,006	802,881	\$2,369,147	2,310,951	—	%	3	%
Cost of lease and rental	557,901	550,541	1,665,693	1,600,271	1	%	4	%
Gross margin	245,105	252,340	703,454	710,680	(3)%	(1)	%	
Gross margin %	31	% 31	% 30	% 31	%			

Lease and rental revenues represent full service lease and commercial rental product offerings within our FMS segment. Revenues were approximately \$803 million in the third quarter of 2016, consistent with the third quarter of 2015. For 2016, higher full service lease revenue, driven by growth in the average full service lease fleet and higher prices on replacement vehicles, was offset by lower commercial rental revenue reflecting lower demand and a negative impact from foreign exchange. Revenues increased 3% in the nine months ended September 30, 2016, primarily driven by a larger average full service lease fleet and higher prices on replacement vehicles, partially offset by lower commercial rental revenue reflecting lower demand and a negative impact from foreign exchange. Foreign exchange negatively impacted revenue growth by 100 basis points in both periods.

Cost of lease and rental represents the direct costs related to lease and rental revenues. These costs consist of depreciation of revenue earning equipment, maintenance costs (primarily repair parts and labor), and other costs such as licenses, insurance and operating taxes. Cost of lease and rental excludes interest costs from vehicle financing. Cost of lease and rental increased 1% in the third quarter and 4% in the nine months ended September 30, 2016, primarily due to higher depreciation and maintenance costs from a larger average lease fleet, partially offset by lower depreciation on a smaller average rental fleet (13% lower in the third quarter and 6% lower in the nine months ended September 30, 2016). Cost of lease and rental benefited by approximately \$9 million in the third quarter of 2016 and \$26 million in the nine months ended September 30, 2016, due to changes in estimated residual values effective January 1, 2016. Foreign exchange also reduced cost of lease and rental by 100 basis points in both periods.

Lease and rental gross margin decreased 3% in the third quarter and 1% in the nine months ended September 30, 2016. Lease and rental gross margin as a percentage of revenue remained at 31% in the third quarter and decreased to 30% in the nine months ended September 30, 2016. The decrease in gross margin dollars in the third quarter of 2016 and the nine months ended September 30, 2016 was due to lower commercial rental demand, partially offset by higher prices on lease replacement vehicles and lease fleet growth, as well as benefits from improved residual values. The decrease in gross margin as a percentage of revenue in the nine months ended September 30, 2016, reflects lower commercial rental fleet utilization, partially offset by benefits from improved residual values.

Services

	Three months ended September 30,		Nine months ended September 30,		Change 2016/2015			
	2016	2015	2016	2015	Three Months	Nine Months		
	(Dollars in thousands)							
Services revenue	\$801,004	734,803	\$2,345,922	2,165,677	9	%	8	%

Edgar Filing: RYDER SYSTEM INC - Form 10-Q

Cost of services	658,793	606,364	1,936,636	1,792,182	9 %	8 %
Gross margin	142,211	128,439	409,286	373,495	11 %	10 %
Gross margin %	18	% 17	% 17	% 17	%	

Services revenue represents all the revenues associated with our DTS and SCS segments, as well as contract maintenance, contract-related maintenance and fleet support services associated with our FMS segment. Services revenue increased 9% in the third quarter and 8% in the nine months ended September 30, 2016, due to new business, increased volumes and higher pricing in the DTS and SCS segments. The contract-related maintenance and contract maintenance product lines benefited from growth in fleet size, and contract-related maintenance revenue also increased from higher volumes. These increases were partially offset

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

by lower fuel prices passed through to our DTS and SCS customers. Foreign exchange also negatively impacted revenue growth by 200 basis points in both periods.

Cost of services represents the direct costs related to services revenue and is primarily comprised of salaries and employee-related costs, subcontracted transportation (purchased transportation from third parties) and maintenance costs. Cost of services increased 9% in the third quarter of 2016 and 8% in the nine months ended September 30, 2016 due to higher volumes, partially offset by lower fuel and insurance costs. Foreign exchange reduced cost of services by 100 basis points in both periods.

Services gross margin increased 11% in the third quarter and 10% in the nine months ended September 30, 2016. Services gross margin as a percentage of revenue increased to 18% in the third quarter and remained at 17% in the nine months ended September 30, 2016. The increase in gross margin dollars reflects benefits from higher pricing, new business and higher volumes in our DTS and SCS segments. Increased gross margin dollars also benefited from growth in the full service lease fleet size, higher volumes in the contract-related business and growth in the contract maintenance fleet.

Fuel

	Three months ended September 30,		Nine months ended September 30,		Change 2016/2015	
	2016	2015	2016	2015	Three Months	Nine Months
	(Dollars in thousands)					
Fuel services revenue	\$ 120,408	131,382	\$ 342,765	422,522	(8)%	(19)%
Cost of fuel services	116,904	129,562	331,283	408,027	(10)%	(19)%
Gross margin	3,504	1,820	11,482	14,495	93 %	(21)%
Gross margin %	3	% 1	% 3	% 3	%	

Fuel services revenue represents fuel services provided to our FMS customers. Fuel services revenue decreased 8% in the third quarter and 19% in the nine months ended September 30, 2016, due to lower fuel prices passed through to customers.

Cost of fuel services includes the direct costs associated with providing our customers with fuel. These costs include fuel, salaries and employee-related costs of fuel island attendants and depreciation of our fueling facilities and equipment. Cost of fuel services decreased 10% in the third quarter and 19% in the nine months ended September 30, 2016, as a result of lower fuel prices.

Fuel services gross margin increased 93% in the third quarter and decreased 21% in the nine months ended September 30, 2016. Fuel services gross margin as a percentage of revenue increased to 3% in the third quarter and remained at 3% in the nine months ended September 30, 2016, compared to the same periods of 2015. Fuel is largely a pass-through to customers for which we realize minimal changes in margin during periods of steady market fuel prices. However, fuel services margin is impacted by sudden increases or decreases in market fuel prices during a short period of time, as customer pricing for fuel is established based on trailing market fuel costs. Fuel services gross margin was favorably impacted by these price change dynamics during the third quarter of 2016 and the earlier part of 2015, and adversely impacted during the third quarter of 2015.

	Three months ended September 30,	Nine months ended September 30,	Change 2016/2015
--	--	---------------------------------------	---------------------

Edgar Filing: RYDER SYSTEM INC - Form 10-Q

2016	2015	2016	2015	Three Months	Nine Months
------	------	------	------	-----------------	----------------

(In thousands)

Other operating expenses	\$27,997	26,957	\$85,944	88,912	4 %	(3)%
--------------------------	----------	--------	----------	--------	-----	-------

Other operating expenses include costs related to our owned and leased facilities within the FMS segment, such as facility depreciation, rent, purchased insurance, utilities and taxes. These facilities are utilized to provide maintenance to our lease, rental, contract maintenance and fleet support services customers. Other operating expenses increased slightly to \$28.0 million in the third quarter and decreased to \$85.9 million in the nine months ended September 30, 2016, due to lower utility costs for FMS facilities.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

	Three months ended September 30,		Nine months ended September 30,		Change 2016/2015	
	2016	2015	2016	2015	Three Months	Nine Months
(Dollars in thousands)						
Selling, general and administrative expenses (SG&A)	\$ 198,805	203,093	\$ 632,466	624,566	(2)%	1 %
Percentage of total revenue	12	% 12	% 13	% 13	%	

SG&A expenses decreased 2% in the third quarter and increased 1% in the nine months ended September 30, 2016. The decrease in the third quarter is primarily due to lower compensation-related expenses and marketing-related costs and foreign exchange, partially offset by increased information technology costs and pension expense. The increase in the nine months ended September 30, 2016 is primarily due to increased pension expense and information technology costs, partially offset by lower compensation-related expenses, professional fees and foreign exchange. Foreign exchange reduced the growth in SG&A expenses by 100 basis points. Pension expense, which primarily impacts SG&A expenses, increased \$2.9 million in the third quarter and \$16.1 million in the nine months ended September 30, 2016, due to the impact of a lower asset return assumption and a higher discount rate. Pension expense in the nine months ended September 30, 2016, also increased due to a one-time charge of \$7.7 million in the second quarter to reflect pension benefit improvements made in 2009 that were not fully reflected in our pension benefit obligation.

	Three months ended September 30,		Nine months ended September 30,		Change 2016/2015	
	2016	2015	2016	2015	Three Months	Nine Months
(Dollars in thousands)						
Gains on used vehicles, net	\$ 1,873	24,965	\$ 33,002	82,158	(92)%	(60)%

Gains on used vehicles, net includes gains from sales of used vehicles as well as the selling costs associated with used vehicles and write-downs of vehicles to fair market values. Gains on used vehicles, net decreased to \$1.9 million in the third quarter and \$33.0 million in the nine months ended September 30, 2016, primarily due to a drop in the market value of tractors which has resulted in lower gains on sales of used vehicles and higher fair market value write-downs. Global average proceeds per unit in the third quarter decreased from the prior year reflecting a 13% decrease in tractor proceeds per unit, partially offset by a 2% increase in truck proceeds per unit. Global proceeds per unit in the nine months ended September 30, 2016, decreased from the prior year reflecting a 12% decrease in tractor proceeds per unit, partially offset by a 1% increase in truck proceeds per unit in the nine months ended September 30, 2016.

	Three months ended September 30,		Nine months ended September 30,		Change 2016/2015	
	2016	2015	2016	2015	Three Months	Nine Months
(Dollars in thousands)

Effective interest rate	2.7	% 2.9	% 2.7	% 3.0	%	

Interest expense decreased 4% in the third quarter and 2% in the nine months ended September 30, 2016, reflecting a lower effective interest rate, partially offset by higher average outstanding debt. The lower effective interest rate in

Edgar Filing: RYDER SYSTEM INC - Form 10-Q

2016 reflects the replacement of higher interest rate debt with debt issuances at lower rates. The increase in average outstanding debt reflects planned vehicle capital spending.

Three months ended September 30,		Nine months ended September 30,		Change 2016/2015	
2016	2015	2016	2015	Three Months	Nine Months

(Dollars in thousands)

Miscellaneous income, net	\$3,247	1,372	\$10,968	5,037	137%	118%
---------------------------	---------	-------	----------	-------	------	------

Miscellaneous income, net consists of investment income on securities used to fund certain benefit plans, interest income, gains from sales of operating property, foreign currency transaction gains and other non-operating items. The increase in the third quarter and nine months ended September 30, 2016, is primarily driven by increased rabbi trust investment income.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS - (Continued)

	Three months ended September 30,		Nine months ended September 30,		Change 2016/2015	
	2016	2015	2016	2015	Three Month	Nine Months
	(Dollars in thousands)					
Provision for income taxes	\$46,560	49,089	\$121,820	127,470	(5)%	(4)%
Effective tax rate from continuing operations	35.4	% 35.1	% 36.1	% 35.7	%	%

Provision for income taxes decreased 5% in the third quarter and 4% in the nine months ended September 30, 2016. The decrease in the provision for income taxes reflects lower taxable earnings, partially offset by a slightly higher effective income tax rate.

Non-GAAP financial measure. Refer to the "Non-GAAP Financial Measures" section of this MD&A for a (1) reconciliation of total revenue to operating revenue, and segment total revenue to segment operating revenue, as well as the reasons why management believes these measures are important to investors.

As part of management's evaluation of segment operating performance, we define the primary measurement of our segment financial performance as "Earnings Before Taxes" (EBT) from continuing operations, which includes an allocation of Central Support Services (CSS), and excludes non-operating pension costs and other items discussed in Note 14, "Segment Reporting," in the Notes to Consolidated Condensed Financial Statements. CSS represents those costs incurred to support all segments, including human resources, finance, corporate services and public affairs, information technology, health and safety, legal, marketing and corporate communications.

The objective of the EBT measurement is to provide clarity on the profitability of each segment and, ultimately, to hold leadership of each segment accountable for their allocated share of CSS costs. Segment results are not necessarily indicative of the results of operations that would have occurred had each segment been an independent, stand-alone entity during the periods presented. Certain costs are not attributable to any segment and remain unallocated in CSS, including costs for investor relations, public affairs and certain executive compensation.

Inter-segment revenue and EBT are accounted for at rates similar to those executed with third parties. EBT related to inter-segment equipment and services billed to customers as well as the net gains on sale of this equipment (equipment contribution) and inter-segment fuel services are included in FMS, DTS and SCS and then eliminated (presented as “Eliminations” in the table above). Prior year amounts have been revised to conform to the current period presentation.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

The following table sets forth equipment contribution included in EBT for our DTS and SCS segments:

	Three months ended September 30,		Nine months ended September 30,		Change 2016/2015	
	2016	2015	2016	2015	Three Months	Nine Months
(Dollars in thousands)						
Equipment Contribution:						
Dedicated Transportation Solutions	\$8,047	8,527	\$24,214	24,351	(6)%	(1)%
Supply Chain Solutions	4,559	3,471	12,902	10,769	31	20
Total	\$12,606	11,998	\$37,116	35,120	5 %	6 %

The decrease in DTS equipment contribution is primarily driven by lower net gains on sales of vehicles previously used in DTS operations, partially offset by higher volumes. The increase in SCS equipment contribution is primarily driven by higher volumes.

Items excluded from our segment EBT measure and their classification within our Consolidated Condensed Statements of Earnings follow:

Description	Classification	Three months ended September 30,		Nine months ended September 30,	
		2016	2015	2016	2015

Non-GAAP financial measures. Reconciliations of FMS total revenue to FMS operating revenue, FMS EBT as a % of FMS total revenue to FMS EBT as a % of FMS operating revenue, as well as the reasons why management believes these measures are important to investors are included in the “Non-GAAP Financial Measures” section of this MD&A.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

The following table summarizes the components of the change in FMS revenue on a percentage basis versus the prior year:

	Three months ended September 30, 2016				Nine months ended September 30, 2016			
	Total	Operating (1)			Total	Operating (1)		
Organic, including price and volume	2 %	2 %			4 %	5 %		
Fuel	(1)	—			(3)	—		
Foreign exchange	(1)	(1))		(1)	(1))	
Net increase	— %	1 %			— %	4 %		

Non-GAAP financial measure. A reconciliation of FMS total revenue to FMS operating revenue as well as the (1) reasons why management believes this measure is important to investors is included in the "Non-GAAP Financial Measures" section of this MD&A.

FMS total revenue remained at \$1.16 billion in the third quarter and increased slightly to \$3.40 billion in the nine months ended September 30, 2016 due to higher FMS operating revenue (a non-GAAP measure excluding fuel), largely offset by a decline in fuel services revenue and negative impacts from foreign exchange. FMS operating revenue increased 1% in the third quarter and 4% in the nine months ended September 30, 2016 as a result of organic growth, primarily in the full service lease product line, partially offset by lower commercial rental revenue. In the third quarter and nine months ended September 30, 2016, foreign exchange negatively impacted both total and operating revenue growth by 100 basis points.

Full service lease revenue increased 7% in the third quarter and 8% in the nine months ended September 30, 2016, reflecting a larger average fleet size and higher prices on replacement vehicles. Foreign exchange negatively impacted full service lease revenue growth by 100 basis points in both the third quarter and the nine months ended September 30, 2016. We expect favorable full service lease revenue comparisons to continue through the end of the year based on sales activity. Commercial rental revenue decreased 14% in the third quarter and 8% in the nine months ended September 30, 2016 due to lower demand. We expect unfavorable commercial rental revenue comparisons through the end of the year based on a weaker demand environment. Contract-related maintenance revenue increased 5% in the third quarter and 12% in the nine months ended September 30, 2016, reflecting favorable impacts from growth in the full service lease fleet and higher volumes.

The following table provides commercial rental statistics on our global fleet:

	Three months ended September 30,		Nine months ended September 30,		Change 2016/2015	
	2016	2015	2016	2015	Three Months	Nine Months
	(Dollars in thousands)					
Rental revenue from non-lease customers	\$141,836	159,912	\$397,305	420,356	(11)%	(5) %
Rental revenue from lease customers ⁽¹⁾	\$74,756	90,689	\$238,723	274,389	(18)%	(13) %
Average commercial rental power fleet size — in service ^{(2), (3)}	30,900	35,500	31,700	33,400	(13)%	(5) %
Commercial rental utilization — power fleet ⁽²⁾	76.7	% 76.4	% 73.9	% 76.0	% 30 bps	(210) bps

-
- (1) Represents revenue from rental vehicles provided to our existing full service lease customers, generally in place of a lease vehicle.
- (2) Number of units rounded to nearest hundred and calculated using quarterly average unit counts.
- (3) Excluding trailers.

FMS EBT decreased 11% in the third quarter and 10% in the nine months ended September 30, 2016, reflecting lower used vehicle and commercial rental results, partially offset by higher full service lease results. Used vehicle results decreased due to lower tractor pricing as well as lower sales volume in third quarter. Commercial rental results declined from lower demand in both periods. The commercial rental results for the nine months ended September 30, 2016, were also negatively impacted by a 210 basis point decline in utilization. Full service lease results benefited from growth in the average lease fleet size. Full service lease and commercial rental results benefited from approximately \$9 million of lower depreciation in the third quarter and \$26 million in the nine months ended September 30, 2016, due to residual value changes implemented January 1, 2016.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS - (Continued)

Our global fleet of revenue earning equipment, contract maintenance vehicles and vehicles under on-demand maintenance is summarized as follows (number of units rounded to the nearest hundred):

	September 30, 2016	December 31, 2015	September 30, 2015	Change Sept. 2016/Sept. 2015		Sept. 2016/Dec. 2015	
End of period vehicle count							
By type:							
Trucks ⁽¹⁾	73,500	72,800	72,900	1	%	1	%

Year-to-date average vehicle count

Edgar Filing: RYDER SYSTEM INC - Form 10-Q

By product line:

Full service lease	133,800	128,800	128,000	4	%	5	%
Commercial rental	39,600	42,400	42,100	(7)	(6)
Service vehicles and other	3,400	3,200	3,200	6		6	
Active units	176,800	174,400	173,300	1		2	
Held for sale	8,600	6,100	5,800	41		48	
Total	185,400	180,500	179,100	3	%	4	%
Customer vehicles under contract maintenance	49,000	43,300	42,600	13	%	15	%
Customer vehicles under on-demand maintenance ⁽⁵⁾	22,700	20,000	16,900	NM		34	%

(1) Generally comprised of Class 1 through Class 7 type vehicles with a Gross Vehicle Weight (GVW) up to 33,000 pounds.

(2) Generally comprised of over the road on highway tractors and are primarily comprised of Class 8 type vehicles with a GVW of over 33,000 pounds.

(3) Generally comprised of dry, flatbed and refrigerated type trailers.

Includes 5,400 UK trailers (3,500 full service lease and 1,900 commercial rental), 6,100 UK trailers (3,900 full service lease and 2,200 commercial rental) and 6,500 UK trailers (4,300 full service lease and 2,200 commercial rental) as of September 30, 2016, December 31, 2015, and September 30, 2015, respectively.

Comprised of the number of unique vehicles serviced under on-demand maintenance agreements for the quarterly (5) and year-to-date periods. This does not represent averages for the periods. Vehicles included in the count may have been serviced more than one time during the respective period.

Note: Quarterly and year-to-date amounts were computed using a 6-point and 18-point average, respectively, based on monthly information.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

The following table provides a breakdown of our non-revenue earning equipment included in our global fleet count (number of units rounded to nearest hundred):

	September 30, 2016	December 31, 2015	September 30, 2015	Change Sept. 2016/ Sept. 2015	Change Sept. 2016/ Dec. 2015
Not yet earning revenue (NYE)	1,900	2,800	2,800	(32)%	(32)%
No longer earning revenue (NLE):					
Units held for sale	7,500	8,000	6,100	(6)%	23%
Other NLE units	5,000	3,300	3,900	52%	28%
Total	14,400	14,100	12,800	2%	13%

NYE units represent new vehicles on hand that are being prepared for deployment to a lease customer or into the rental fleet. Preparations include activities such as adding lift gates, paint, decals, cargo area and refrigeration equipment. NYE units decreased compared to September 30, 2015, reflecting lower lease fleet growth and the redeployment of used vehicles to fulfill lease sales. NLE units represent vehicles held for sale and vehicles for which no revenue has been earned in the previous 30 days. Accordingly, these vehicles may be temporarily out of service, being prepared for sale or awaiting redeployment. NLE units increased compared to September 30, 2015 primarily due to higher used vehicle inventories and a higher number of units being prepared for sale. We expect NLE levels to remain around current levels through the end of the year.

Dedicated Transportation Solutions

	Three months ended September 30,		Nine months ended September 30,		Change 2016/2015 Three Nine Months	
	2016	2015	2016	2015	Month	Months
(Dollars in thousands)

Memo:						
Average fleet	8,300	7,900	8,200	7,700	5 %	6 %

Non-GAAP financial measures. Reconciliations of DTS total revenue to DTS operating revenue, DTS EBT as a % of DTS total revenue to DTS EBT as a % of DTS operating revenue, as well as the reasons why management ⁽¹⁾ believes these measures are important to investors are included in the "Non-GAAP Financial Measures" section of this MD&A.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

The following table summarizes the components of the change in DTS revenue on a percentage basis versus the prior year:

	Three months ended September 30, 2016		Nine months ended September 30, 2016	
	Total	Operating ⁽¹⁾	Total	Operating ⁽¹⁾
Organic, including price and volume	16 %	7 %	18 %	10 %
Fuel	(1)	—	(3)	—
Net increase	15 %	7 %	15 %	10 %

Non-GAAP financial measure. A reconciliation of DTS total revenue to DTS operating revenue, as well as the (1) reasons why management believes this measure is important to investors is included in the "Non-GAAP Financial Measures" section of this MD&A.

In the third quarter of 2016, DTS total revenue increased 15% reflecting organic growth, partially offset by lower fuel prices passed through to our customers. DTS operating revenue (a non-GAAP measure excluding fuel and subcontracted transportation) increased 7% due to increased volumes, new business and higher pricing. DTS EBT increased 32% in the third quarter of 2016, primarily due to increased revenue.

In the nine months ended September 30, 2016, DTS total revenue increased 15% reflecting organic growth, partially offset by lower fuel prices passed through to our customers. DTS operating revenue increased 10% due to new business, increased volumes and higher pricing. We expect DTS total revenue and DTS operating revenue comparisons to remain favorable through the end of the year; however, at a lower growth rate. DTS EBT increased 39% in the nine months ended September 30, 2016, due to increased revenue.

Supply Chain Solutions

	Three months ended September 30,		Nine months ended September 30,		Change 2016/2015

(1) Includes intercompany fuel sales from FMS to SCS.

Non-GAAP financial measures. Reconciliations of SCS total revenue to SCS operating revenue, SCS EBT as a % of SCS total revenue to SCS EBT as a % of SCS operating revenue, as well as the reasons why management believes these measures are important to investors are included in the “Non-GAAP Financial Measures” section of this MD&A.

30

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

The following table summarizes the components of the change in SCS revenue on a percentage basis versus the prior year:

	Three months ended September 30, 2016				Nine months ended September 30, 2016			
	Total		Operating ⁽¹⁾		Total		Operating ⁽¹⁾	
Organic, including price and volume	9	%	9	%	7	%	9	%
Foreign exchange	(1)	(1)		(2)	(2)	
Net increase	8	%	8	%	5	%	7	%

Non-GAAP financial measure. A reconciliation of SCS total revenue to SCS operating revenue, as well as the (1) reasons why management believes this measure is important to investors is included in the "Non-GAAP Financial Measures" section of this MD&A.

In the third quarter of 2016, SCS total revenue increased 8% as growth in SCS operating revenue (a non-GAAP measure excluding fuel and subcontracted transportation) was partially offset by a negative impact from foreign exchange. SCS operating revenue increased 8% in the third quarter of 2016, primarily due to new business and increased volumes, partially offset by a negative impact from foreign exchange. SCS EBT increased 16% in the third quarter of 2016 due to the benefits of higher revenue.

In the nine months ended September 30, 2016, SCS total revenue increased 5%, as growth in SCS operating revenue was partially offset by a negative impact from foreign exchange. SCS operating revenue increased 7% due to new business, increased volumes and higher pricing, partially offset by a negative impact from foreign exchange. We expect SCS total revenue and SCS operating revenue comparisons to remain favorable through the end of the year; however, at a lower growth rate. SCS EBT increased 13% in the nine months ended September 30, 2016, due to higher pricing, new business and increased volumes.

Central Support Services

	Three months ended September 30,		Nine months ended September 30,		Change 2016/2015	
	2016	2015	2016	2015	Three Months	Nine Months
	(Dollars in thousands)					
Human resources	\$4,184	4,596	\$12,968	14,976	(9)%	(13)%
Finance	15,143	15,269	44,267	44,317	(1)	—
Corporate services and public affairs	2,471	2,694	7,463	7,803	(8)	(4)
Information technology	20,466	22,104	60,369	63,228	(7)	(5)
Legal and safety	5,711	5,974	17,798	18,406	(4)	(3)
Marketing	4,336	7,049	14,220	17,177	(38)	(17)
Other	4,949	6,172	19,550	24,278	(20)	(19)
Total CSS	57,260	63,858	176,635	190,185	(10)	(7)
Allocation of CSS to business segments	(47,947)	(53,788)	(146,442)	(157,249)	(11)	(7)
Unallocated CSS	\$9,313	10,070	\$30,193	32,936	(8)%	(8)%

Total CSS costs decreased 10% and 7% in the third quarter and nine months ended September 30, 2016, respectively, due to lower compensation-related expenses and lower marketing-related and information technology costs. Unallocated CSS decreased 8% in both the third quarter and the nine months ended September 30, 2016, primarily due to lower compensation-related expenses.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

FINANCIAL RESOURCES AND LIQUIDITY

Cash Flows

The following is a summary of our cash flows from continuing operations:

	Nine months ended September 30, 2016 2015 (In thousands)	
Net cash provided by (used in):		
Operating activities	\$1,184,744	1,071,336
Financing activities	(55,236)	664,783
Investing activities	(1,108,584)	(1,707,378)
Effect of exchange rates on cash	(5,567)	(2,006)
Net change in cash and cash equivalents	\$15,357	26,735

Cash provided by operating activities increased to \$1.18 billion in the nine months ended September 30, 2016, compared with \$1.07 billion in 2015, due to higher earnings adjusted for non-cash items, primarily depreciation, and working capital improvements, partially offset by higher pension contributions. Cash used in financing activities was \$55.2 million in the nine months ended September 30, 2016, compared with cash provided from financing activities of \$664.8 million in 2015, due to lower borrowing needs. Cash used in investing activities decreased to \$1.11 billion in the nine months ended September 30, 2016, compared with \$1.71 billion in 2015, primarily due to lower payments for capital expenditures.

Our principal sources of operating liquidity are cash from operations and proceeds from the sale of revenue earning equipment. We refer to the sum of operating cash flows, proceeds from the sale of revenue earning equipment and operating property and equipment, collections on direct finance leases and other investing cash inflows from continuing operations as "total cash generated", a non-GAAP financial measure. We refer to the net amount of cash generated from operating and investing activities (excluding changes in restricted cash and acquisitions) from continuing operations as "free cash flow", also a non-GAAP financial measure.

The following table shows our free cash flow computation:

	Nine months ended September 30, 2016 2015 (In thousands)	
Net cash provided by operating activities from continuing operations	\$1,184,744	1,071,336
Sales of revenue earning equipment ⁽¹⁾	331,720	319,766
Sales of operating property and equipment ⁽¹⁾	6,623	1,203
Collections on direct finance leases and other items ⁽¹⁾	60,229	51,166
Total cash generated ⁽²⁾	1,583,316	1,443,471
Purchases of property and revenue earning equipment ⁽¹⁾	(1,511,359)	(2,087,294)
Free cash flow ⁽²⁾	\$71,957	(643,823)

Memo:

Net cash (used in) provided by financing activities	\$(55,236)	664,783
---	-------------	---------

Net cash used in investing activities	\$(1,108,584) (1,707,378)
---------------------------------------	---------------------------

(1) Included in cash flows from investing activities.

Non-GAAP financial measures. Reconciliations of net cash provided by operating activities to total cash generated (2) and to free cash flow are set forth in this table. Refer to the “Non-GAAP Financial Measures” section of this MD&A for the reasons why management believes these measures are important to investors.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

The following table provides a summary of capital expenditures:

	Nine months ended September 30, 2016 2015 (In thousands)	
Revenue earning equipment:		
Full service lease	\$1,223,141	1,509,420
Commercial rental	79,204	513,307
	1,302,345	2,022,727
Operating property and equipment	101,837	82,874
Total capital expenditures	1,404,182	2,105,601
Changes in accounts payable related to purchases of revenue earning equipment	107,177	(18,307)
Cash paid for purchases of property and revenue earning equipment	\$1,511,359	2,087,294

Capital expenditures decreased 33% to \$1.40 billion in the nine months ended September 30, 2016, reflecting planned lower investments in our commercial rental and lease fleet. We expect full-year 2016 capital expenditures to be approximately \$2 billion. We expect to fund 2016 capital expenditures primarily with internally generated funds and additional debt financing.

Financing and Other Funding Transactions

We utilize external capital primarily to support working capital needs and growth in our asset-based product lines. The variety of debt financing alternatives typically available to fund our capital needs include commercial paper, long-term and medium-term public and private debt, asset-backed securities, bank term loans, leasing arrangements and bank credit facilities. Our principal sources of financing are issuances of commercial paper and medium-term notes.

Our ability to access unsecured debt in the capital markets is impacted by both our short-term and long-term debt ratings. These ratings are intended to provide guidance to investors in determining the credit risk associated with particular Ryder securities based on current information obtained by the rating agencies from us or from other sources. Lower ratings generally result in higher borrowing costs, as well as reduced access to unsecured capital markets. A significant downgrade of our short-term debt ratings would impair our ability to issue commercial paper and likely require us to rely on alternative funding sources. A significant downgrade would not affect our ability to borrow amounts under our revolving credit facility described below, assuming ongoing compliance with the terms and conditions of the credit facility.

Our debt ratings and rating outlooks at September 30, 2016, were as follows:

	Rating Summary		
	Short-Term	Long-Term	Outlook
Fitch Ratings	F-2	A-	Stable
Standard & Poor's Ratings Services	A-2	BBB	Positive
Moody's Investors Service	P-2	Baa1	Stable

Cash and equivalents totaled \$75 million as of September 30, 2016. As of September 30, 2016, approximately \$45 million was held outside the U.S. and is available to fund operations and other growth of non-U.S. subsidiaries. If we decide to repatriate cash and equivalents held outside the U.S., we may be subject to additional U.S. income taxes and foreign withholding taxes. However, our intent is to permanently reinvest these foreign amounts outside the U.S. and

our current plans do not demonstrate a need to repatriate these foreign amounts to fund our U.S. operations.

We believe that our operating cash flows, together with our access to the public unsecured bond market, commercial paper market and other available debt financing, will be adequate to meet our operating, investing and financing needs in the foreseeable future. However, there can be no assurance that unanticipated volatility and disruption in the public unsecured debt market or the commercial paper market would not impair our ability to access these markets on terms commercially acceptable to us or at all. If we cease to have access to public bonds, commercial paper and other sources of unsecured borrowings, we would meet our liquidity needs by drawing upon contractually committed lending agreements as described below and/or by seeking other funding sources.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

As of September 30, 2016, we had the following amounts available to fund operations under the following facilities:

(In millions)

Global revolving credit facility \$514

Trade receivables program \$175

See Note 5, "Debt", in the Notes to Consolidated Condensed Financial Statements for a discussion of these debt facilities.

The following table shows the movements in our debt balance:

	Nine months ended September 30, 2016 2015 (In thousands)	
Debt balance at January 1	\$5,502,627	4,717,524
Cash-related changes in debt:		
Net change in commercial paper borrowings	73,597	184,750
Proceeds from issuance of medium-term notes	298,254	998,551
Proceeds from issuance of other debt instruments	—	331,259
Retirement of medium term notes	(300,000)	(660,000)
Other debt repaid	(40,707)	(135,837)
Debt issuance costs paid	(622)	(3,395)
	30,522	715,328
Non-cash changes in debt:		
Fair value adjustment on notes subject to hedging	8,960	10,964
Addition of capital lease obligations	948	5,956
Changes in foreign currency exchange rates and other non-cash items	(23,416)	(15,565)
Total changes in debt	17,014	716,683
Debt balance at September 30	\$5,519,641	5,434,207

In accordance with our funding philosophy, we attempt to match the aggregate average remaining re-pricing life of our debt with the aggregate average remaining re-pricing life of our assets. We utilize both fixed-rate and variable-rate debt to achieve this match and generally target a mix of 20% - 40% variable-rate debt as a percentage of total debt outstanding. The variable-rate portion of our total debt (including notional value of swap agreements) was 32% and 30% as of September 30, 2016 and December 31, 2015, respectively.

Refer to Note 5, "Debt," in the Notes to Consolidated Condensed Financial Statements for further discussion around the global revolving credit facility, the trade receivables program, the issuance of medium-term notes under our shelf registration statement, asset-backed financing obligations and debt maturities.

Ryder's debt to equity ratios were 263% and 277% as of September 30, 2016 and December 31, 2015, respectively.

The debt to equity ratio represents total debt divided by total equity.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS - (Continued)

Pension Information

The funded status of our pension plans is dependent upon many factors, including returns on invested assets and the level of certain market interest rates. We review pension assumptions regularly and we may, from time to time, make voluntary contributions to our pension plans, which exceed the amounts required by statute. In 2016, the expected total contributions to our pension plans are approximately \$80 million. During the nine months ended September 30, 2016, we contributed \$65.3 million to our pension plans. Changes in interest rates and the market value of the securities held by the plans during 2016 could materially change, positively or negatively, the funded status of the plans and affect the level of pension expense and contributions in 2016 and beyond. See Note 11, "Employee Benefit Plans," in the Notes to Consolidated Condensed Financial Statements for additional information.

Share Repurchases and Cash Dividends

See Note 7, "Share Repurchase Programs," in the Notes to Consolidated Condensed Financial Statements for a discussion of share repurchases.

In October 2016, our Board of Directors declared a quarterly cash dividend of \$0.44 per share of common stock.

RECENT ACCOUNTING PRONOUNCEMENTS

See Note 2, "Recent Accounting Pronouncements," in the Notes to Consolidated Condensed Financial Statements for a discussion of recent accounting pronouncements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

NON-GAAP FINANCIAL MEASURES

This Quarterly Report on Form 10-Q includes information extracted from consolidated condensed financial information but not required by generally accepted accounting principles (GAAP) to be presented in the financial statements. Certain elements of this information are considered "non-GAAP financial measures" as defined by SEC rules. Non-GAAP financial measures should be considered in addition to, but not as a substitute for or superior to, other measures of financial performance or liquidity prepared in accordance with GAAP. Also, our non-GAAP financial measures may not be comparable to financial measures used by other companies. We provide a reconciliation of each of these non-GAAP financial measures to the most comparable GAAP measure in the management's discussion and analysis or in this non-GAAP financial measures section. We also provide the reasons why management believes each non-GAAP financial measure is useful to investors in this section. Specifically, we refer to the following non-GAAP financial measures in this Form 10-Q:

Non-GAAP Financial Measure	Comparable GAAP Measure	Reconciliation in Section Entitled	Page
Operating Revenue Measures:			
Operating Revenue	Total Revenue	MD&A - Non-GAAP Financial Measures section	39
FMS Operating Revenue	FMS Total Revenue	MD&A - Non-GAAP Financial Measures section	40
DTS Operating Revenue	DTS Total Revenue	MD&A - Non-GAAP Financial Measures section	40
SCS Operating Revenue	SCS Total Revenue	MD&A - Non-GAAP Financial Measures section	40
FMS EBT as a % of FMS Operating Revenue	FMS EBT as a % of FMS Total Revenue	MD&A - Operating Results by Segment, Fleet Management Solutions section	40
DTS EBT as a % of DTS Operating Revenue	DTS EBT as a % of DTS Total Revenue	MD&A - Operating Results by Segment, Dedicated Transportation Solutions section	40
SCS EBT as a % of SCS Operating Revenue	SCS EBT as a % of SCS Total Revenue	MD&A - Operating Results by Segment, Supply Chain Solutions section	40
Comparable Earnings Measures:			
Comparable Earnings Before Income Tax	Earnings Before Income Tax		
Comparable Earnings	Earnings from Continuing Operations	MD&A, Non-GAAP Financial Measures section	39
Comparable EPS	EPS from Continuing Operations		
Cash Flow Measures:			
Total Cash Generated and Free Cash Flow	Cash Provided by Operating Activities	MD&A - Financial Resources and Liquidity, Cash Flows section	32

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS - (Continued)

Set forth in the table below is an explanation of each non-GAAP financial measure and why management believes that presentation of each non-GAAP financial measure provides useful information to investors:

Operating Revenue Measures:

Operating Revenue	Operating
FMS Operating Revenue	revenue is
DTS Operating Revenue	defined as total
SCS Operating Revenue	revenue for
FMS EBT as a % of FMS Operating Revenue	Ryder System,
DTS EBT as a % of DTS Operating Revenue	Inc. or each
SCS EBT as a % of SCS Operating Revenue	business
	segment (FMS,
	DTS and SCS),
	respectively,
	excluding any
	(1) fuel and (2)
	subcontracted
	transportation.
	We believe
	operating
	revenue
	provides useful
	information to
	investors as we
	use it to
	evaluate the
	operating
	performance of
	our core
	businesses and
	as a measure of
	sales activity at
	the consolidated
	level for Ryder
	System, Inc., as
	well as for each
	of our business
	segments. We
	also use
	segment EBT as
	a percentage of
	segment
	operating
	revenue for
	each business
	segment for the
	same reason.
	Note: FMS
	EBT, DTS EBT

and SCS EBT,
our primary
measures of
segment
performance,
are not
non-GAAP
measures.

Fuel: We
exclude FMS,
DTS and SCS
fuel from the
calculation of
our operating
revenue
measures, as
fuel is an
ancillary
service that we
provide our
customers,
which is
impacted by
fluctuations in
market fuel
prices, and the
costs are largely
a pass-through
to our
customers,
resulting in
minimal
changes in our
profitability
during periods
of steady
market fuel
prices.
However,
profitability
may be
positively or
negatively
impacted by
rapid changes in
market fuel
prices during a
short period of
time, as
customer
pricing for fuel

services is established based on trailing market fuel costs. Subcontracted transportation: We also exclude subcontracted transportation from the calculation of our operating revenue measures, as these services are also typically a pass-through to our customers and, therefore, fluctuations result in minimal changes to our profitability. While our DTS and SCS business segments subcontract certain transportation services to third party providers, our FMS business segment does not engage in subcontracted transportation and, therefore, this item is not applicable to FMS.

Comparable Earnings Measures:

Comparable earnings before income tax (EBT)

Comparable Earnings

Comparable earnings per diluted common share (EPS)

Comparable

EBT,

comparable earnings and

comparable
EPS are
defined,
respectively, as
GAAP EBT,
earnings and
EPS, all from
continuing
operations,
excluding (1)
non-operating
pension costs
and (2) any
other significant
items that are
not
representative
of our business
operations. We
believe these
comparable
earnings
measures
provide useful
information to
investors and
allow for better
year-over-year
comparison of
operating
performance.
Non-Operating
Pension Costs:
Our comparable
earnings
measures
exclude
non-operating
pension costs,
which include
the amortization
of net actuarial
loss, interest
cost and
expected return
on plan assets
components of
pension and
postretirement
costs. We
exclude

non-operating
pension costs
because we
consider these
to be impacted
by financial
market
performance
and outside the
operational
performance of
our business.
Other
Significant
Items: Our
comparable
earnings
measures also
exclude other
significant
items that are
not
representative
of our business
operations.
These other
significant
items vary from
period to period
and, in some
periods, there
may be no such
significant
items. In this
reporting
period, we
exclude the
following other
significant
items from our
comparable
earnings
measures in this
Form 10-Q:
____(1)
Pension-related
adjustments (in
the year to date
2016, third
quarter 2015
and year to date

2015). In the second quarter of 2016, it was determined that certain pension benefit improvements made in 2009 were not fully reflected in our projected benefit obligation, resulting in a charge to reflect those pension benefits. Additionally, in the third quarter of 2015, we recognized a benefit from lower than anticipated settlement charges to exit multi-employer pension plans.

(2)

Professional fees (in the third quarter and year to date 2015). These charges represent professional fees associated with the assessment of potential cost savings initiatives.

____(3) A benefit from a tax law change (in the year to date 2015). In the second quarter of 2015, the

states of
Connecticut and
Texas and the
city of New
York enacted
changes to their
tax systems,
which
decreased
Ryder's
provision for
income taxes in
each
jurisdiction.
Calculation of
comparable tax
rate: The
comparable
provision for
income taxes is
computed using
the same
methodology as
the GAAP
provision for
income taxes.
Income tax
effects of
non-GAAP
adjustments are
calculated
based on the
statutory tax
rates of the
jurisdictions to
which the
non-GAAP
adjustments
relate.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS - (Continued)

Cash Flow Measures:

Total Cash Generated We consider

Free Cash Flow total cash
generated and
free cash flow
to be
important
measures of
comparative
operating
performance,
as our
principal
sources of
operating
liquidity are
cash from
operations and
proceeds from
the sale of
revenue
earning
equipment.
Total Cash
Generated:
Total cash
generated is
defined as the
sum of (1) net
cash provided
by operating
activities, (2)
net cash
provided by
the sale of
revenue
earning
equipment
and (3)
operating
property and
equipment, (4)
collections on
direct finance
leases and (5)
other cash
inflows from
investing

activities. We believe total cash generated is an important measure of total cash flows generated from our ongoing business activities. Free Cash Flow: We refer to the net amount of cash generated from operating activities and investing activities (excluding changes in restricted cash and acquisitions) from continuing operations as “free cash flow”. We calculate free cash flow as the sum of (1) net cash provided by operating activities, (2) net cash provided by the sale of revenue earning equipment and (3) operating property and equipment, (4)

collections on
direct finance
leases and (5)
other cash
inflows from
investing
activities, less
(6) purchases
of property
and revenue
earning
equipment.

We believe
free cash flow
provides
investors with
an important
perspective on
the cash
available for
debt service
and for
shareholders,
after making
capital
investments
required to
support
ongoing
business
operations.

Our
calculation of
free cash flow
may be
different from
the calculation
used by other
companies
and, therefore,
comparability
may be
limited.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS - (Continued)

The following table provides a reconciliation of GAAP earnings before taxes (EBT), earnings, and earnings per diluted share (EPS) from continuing operations to comparable EBT, earnings and EPS from continuing operations, which was not provided within the MD&A discussion.

EBT, earnings and diluted EPS from continuing operations in the nine months ended September 30, 2016 and 2015, included certain items we do not consider indicative of our business operations and have been excluded from our comparable EBT, earnings and diluted EPS measures. The following table lists a summary of these items, which are discussed in more detail throughout our MD&A and within the Notes to Consolidated Condensed Financial Statements:

	EBT		Earnings		Diluted EPS	
	2016	2015	2016	2015	2016	2015
Three months ended September 30, (In thousands, except per share amounts)						
EBT/Earnings/EPS	\$131,698	139,900	\$85,138	90,811	\$1.59	1.70
Non-operating pension costs	7,206	4,780	4,216	2,727	0.08	0.05
Pension-related adjustments	—	(509)	—	(309)	—	(0.01)
Professional fees	—	63	—	39	—	—
Comparable EBT/ Earnings/ EPS	\$138,904	144,234	\$89,354	93,268	\$1.67	1.74
Nine months ended September 30,						
EBT/Earnings/EPS	\$337,185	357,524	\$215,365	230,054	\$4.02	4.31
Non-operating pension costs	21,691	14,351	12,653	8,190	0.24	0.15
Pension-related adjustments	7,650	(509)	4,817	(309)	0.09	(0.01)
Professional fees	—	3,843	—	2,424	—	0.04
Tax law change	—	—	—	(1,860)	—	(0.03)
Comparable EBT/ Earnings/ EPS	\$366,526	375,209	\$232,835	238,499	\$4.35	4.47

The following table provides a reconciliation of the provision for income taxes to the comparable provision for income taxes:

	Three months ended September 30,		Nine months ended September 30,	
	2016	2015	2016	2015
	(Dollars in thousands)			
Provision for income taxes ⁽¹⁾	\$(46,560)	(49,089)	\$(121,820)	(127,470)
Income tax effects of non-GAAP adjustments ⁽¹⁾	(2,990)	(1,877)	(11,871)	(7,380)
Tax law change ⁽¹⁾	—	—	—	(1,860)
Comparable provision for income taxes ⁽¹⁾	\$(49,550)	(50,966)	\$(133,691)	(136,710)

The comparable provision for income taxes is computed using the same methodology as the GAAP provision of (1) income taxes. Income tax effects of non-GAAP adjustments are calculated based on statutory tax rates of the jurisdictions to which the non-GAAP adjustments related.

The following table provides a reconciliation of total revenue to operating revenue, which was not provided within the MD&A discussion:

Three months ended September 30,	Nine months ended September 30,
----------------------------------	---------------------------------

Edgar Filing: RYDER SYSTEM INC - Form 10-Q

	2016	2015	2016	2015
	(In thousands)			
Total revenue	\$1,724,418	1,669,066	\$5,057,834	4,899,150
Fuel	(162,293)	(174,984)	(464,176)	(565,007)
Subcontracted transportation	(93,832)	(67,617)	(269,639)	(214,774)
Operating revenue	\$1,468,293	1,426,465	\$4,324,019	4,119,369

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (Continued)

The following table provides a reconciliation of FMS total revenue to FMS operating revenue, which was not provided within the MD&A discussion:

	Three months ended September 30,		Nine months ended September 30,	
	2016	2015	2016	2015
	(In thousands)			
FMS total revenue	\$1,155,011	1,157,578	\$3,404,452	3,394,077
Fuel ⁽¹⁾	(157,108)	(169,154)	(448,986)	(547,416)
FMS operating revenue	\$997,903	988,424	\$2,955,466	2,846,661
 FMS EBT	 \$112,282	 126,433	 \$306,387	 338,603
FMS EBT as a % of FMS total revenue	9.7	% 10.9	% 9.0	% 10.0
FMS EBT as a % of FMS operating revenue	11.3	% 12.8	% 10.4	% 11.9

(1)Includes intercompany fuel sales from FMS to DTS and SCS.

The following table provides a reconciliation of DTS total revenue to DTS operating revenue, which was not provided within the MD&A discussion:

	Three months ended September 30,		Nine months ended September 30,	
	2016	2015	2016	2015
	(In thousands)			
DTS total revenue	\$260,921	226,921	\$764,025	663,094
Subcontracted transportation	(37,743)	(13,657)	(106,896)	(42,817)
Fuel ⁽¹⁾	(26,530)	(29,017)	(75,916)	(93,395)
DTS operating revenue	\$196,648	184,247	\$581,213	526,882
 DTS EBT	 \$17,587	 13,296	 \$48,327	 34,701
DTS EBT as a % of DTS total revenue	6.7	% 5.9	% 6.3	% 5.2
DTS EBT as a % of DTS operating revenue	8.9	% 7.2	% 8.3	% 6.6

(1)Includes intercompany fuel sales from FMS to DTS.

The following table provides a reconciliation of SCS total revenue to SCS operating revenue, which was not provided within the MD&A discussion:

	Three months ended September 30,		Nine months ended September 30,	
	2016	2015	2016	2015
	(In thousands)			
SCS total revenue	\$416,898	387,305	\$1,207,665	1,155,300
Subcontracted transportation	(56,089)	(53,960)	(162,743)	(171,957)
Fuel ⁽¹⁾	(15,356)	(14,586)	(45,495)	(49,090)
SCS operating revenue	\$345,453	318,759	\$999,427	934,253
 SCS EBT	 \$30,954	 26,573	 \$79,121	 69,961
SCS EBT as a % of SCS total revenue	7.4	% 6.9	% 6.6	% 6.1
SCS EBT as a % of SCS operating revenue	9.0	% 8.3	% 7.9	% 7.5

(1) Includes intercompany fuel sales from FMS to SCS.

40

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS - (Continued)

FORWARD-LOOKING STATEMENTS

Forward-looking statements (within the meaning of the Federal Private Securities Litigation Reform Act of 1995) are statements that relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends concerning matters that are not historical facts. These statements are often preceded by or include the words "believe," "expect," "intend," "estimate," "anticipate," "will," "may," "could," "should" or similar expressions. This Quarterly Report on 10-Q contains forward-looking statements including, but not limited to, statements regarding:

- our expectations in our FMS business segment regarding anticipated full service lease and commercial rental revenue and demand;
- our expectations in our DTS and SCS business segments regarding anticipated operating revenue trends and growth rates;
- our expectations of the long-term residual values of revenue earning equipment;
- the anticipated decline in NLE vehicles in inventory through the end of the year;
- our expectations of operating cash flow and capital expenditures through the end of 2016;
- the adequacy of our accounting estimates and reserves for pension expense, compensation expense and employee benefit plan obligations, depreciation and residual value guarantees and income taxes;
- the anticipated timing of payment of restructuring liabilities;
- the adequacy of our fair value estimates of employee incentive awards under our share-based compensation plans, publicly traded debt and other debt;
- our beliefs regarding the default risk of our direct financing lease receivables;
- our ability to fund all of our operating, investing and financial needs for the foreseeable future through internally generated funds and outside funding sources;
- the anticipated impact of fuel price fluctuations;
- our expectations as to return on pension plan assets, future pension expense and estimated contributions;
- our expectations regarding the scope, anticipated outcomes and the adequacy of our loss provisions with respect to certain claims, proceedings and lawsuits;
- our expectations about the need to repatriate foreign cash to the U.S.;
- our ability to access commercial paper and other available debt financing in the capital markets;
- our expectations regarding the future use and availability of funding sources; and
- the anticipated impact of recent accounting pronouncements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS - (Continued)

These statements, as well as other forward-looking statements contained in this Quarterly Report, are based on our current plans and expectations and are subject to risks, uncertainties and assumptions. We caution readers that certain important factors could cause actual results and events to differ significantly from those expressed in any forward-looking statements. These risk factors include, but are not limited to, the following:

Market Conditions:

- Changes in general economic and financial conditions in the U.S. and worldwide leading to decreased demand for our services, lower profit margins, increased levels of bad debt and reduced access to credit

- Decreases in freight demand which would impact both our transactional and variable-based contractual business

- Changes in our customers' operations, financial condition or business environment that may limit their need for, or ability to purchase, our services

- Further decreases in market demand affecting the commercial rental market and used vehicle sales as well as global economic conditions

- Volatility in customer volumes and shifting customer demand in the industries serviced by our SCS business

- Changes in current financial, tax or regulatory requirements that could negatively impact the leasing market

Competition:

- Advances in technology may require increased investments to remain competitive, and our customers may not be willing to accept higher prices to cover the cost of these investments

- Competition from other service providers, some of which have greater capital resources or lower capital costs, or from our customers, who may choose to provide services themselves

- Continued consolidation in the markets in which we operate which may create large competitors with greater financial resources

- Our inability to maintain current pricing levels due to economic conditions, demand for services, customer acceptance or competition

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS - (Continued)

Profitability:

- Our inability to obtain adequate profit margins for our services
- Lower than expected sales volumes or customer retention levels
- Lower full service lease sales activity
- Decreases in commercial rental fleet utilization and pricing
- Lower than expected used vehicle sales pricing levels and fluctuations in the anticipated proportion of retail versus wholesale sales
- Loss of key customers in our DTS and SCS business segments
- Our inability to adapt our product offerings to meet changing consumer preferences on a cost-effective basis
 - The inability of our legacy information technology systems to provide timely access to data
- Sudden changes in fuel prices and fuel shortages
- Higher prices for vehicles, diesel engines and fuel as a result of new environmental standards
- Higher than expected maintenance costs and lower than expected benefits associated with our maintenance initiatives
- Our inability to successfully execute our asset management initiatives, maintain our fleet at normalized levels and right-size our fleet in line with demand
- Our inability to redeploy vehicles and prepare vehicles for sale in a cost-efficient manner
 - Our key assumptions and pricing structure of our DTS and SCS contracts prove to be invalid
- Increased unionizing, labor strikes and work stoppages
- Difficulties in attracting and retaining drivers and technicians due to driver and technician shortages, which may result in higher costs to procure drivers and technicians and higher turnover rates affecting our customers
- Our inability to manage our cost structure
- Our inability to limit our exposure for customer claims
- Unfavorable or unanticipated outcomes in legal proceedings or uncertain positions
- Business interruptions or expenditures due to severe weather or natural occurrences

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS - (Continued)

Financing Concerns:

- Higher borrowing costs and possible decreases in available funding sources caused by an adverse change in our debt ratings
- Unanticipated interest rate and currency exchange rate fluctuations
- Negative funding status of our pension plans caused by lower than expected returns on invested assets and unanticipated changes in interest rates
- Withdrawal liability as a result of our participation in multi-employer plans
- Instability in U.S. and worldwide credit markets, resulting in higher borrowing costs and/or reduced access to credit

Accounting Matters:

- Impact of unusual items resulting from ongoing evaluations of business strategies, asset valuations, acquisitions, divestitures and our organizational structure
- Reductions in residual values or useful lives of revenue earning equipment
- Increases in compensation levels, retirement rate and mortality resulting in higher pension expense; regulatory changes affecting pension estimates, accruals and expenses
- Increases in health care costs resulting in higher insurance costs
- Changes in accounting rules, assumptions and accruals
- Impact of actual insurance claim and settlement activity compared to historical loss development factors used to project future development

Other risks detailed from time to time in our SEC filings

New risk factors emerge from time to time and it is not possible for management to predict all such risk factors or to assess the impact of such risk factors on our business. As a result, no assurance can be given as to our future results or achievements. You should not place undue reliance on the forward-looking statements contained herein, which speak only as of the date of this Quarterly Report. We do not intend, or assume any obligation, to update or revise any forward-looking statements contained in this Quarterly Report, whether as a result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes to Ryder's exposures to market risks since December 31, 2015. Please refer to the 2015 Annual Report on Form 10-K for a complete discussion of Ryder's exposures to market risks.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of the end of the third quarter of 2016, we carried out an evaluation, under the supervision and with the participation of management, including Ryder's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of Ryder's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that as of the end of the third quarter of 2016, Ryder's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) were effective.

Changes in Internal Controls over Financial Reporting

During the nine months ended September 30, 2016, there were no changes in Ryder's internal control over financial reporting that have materially affected or are reasonably likely to materially affect such internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information with respect to purchases we made of our common stock during the three months ended September 30, 2016:

	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Maximum Number of Shares That May Yet Be Purchased Under the Anti-Dilutive Program ⁽²⁾
July 1 through July 30, 2016	—	\$ —	—	1,678,282
August 1 through August 31, 2016	58,178	64.59	58,178	1,620,104
September 1 through September 30, 2016	2,083	67.23	—	1,620,104
Total	60,261	\$ 64.68	58,178	

(1) During the three months ended September 30, 2016, we purchased an aggregate of 60,261 shares of our common stock in employee-related transactions. Employee-related transactions may include: (i) shares of common stock withheld as payment for the exercise price of options exercised or to satisfy the employees' tax withholding liability associated with our share-based compensation programs and (ii) open-market purchases by the trustee of Ryder's deferred compensation plans relating to investments by employees in our stock, one of the investment

options available under the plans.

In December 2015, our Board of Directors authorized a new share repurchase program intended to mitigate the dilutive impact of shares issued under our employee stock plans. Under the December 2015 program, management is authorized to repurchase (i) up to 1.5 million shares of common stock, the sum of which will not exceed the number of shares issued to employees under the Company's employee stock plans from December 1, 2015 to December 9, 2017 plus (ii) 0.5 million shares issued to employees that were not purchased under the Company's (2) previous share repurchase program. The December 2015 program limits aggregate share repurchases to no more than 2 million shares of Ryder common stock. Share repurchases of common stock are made periodically in open-market transactions and are subject to market conditions, legal requirements and other factors. Management may establish prearranged written plans for the Company under Rule 10b5-1 of the Securities Exchange Act of 1934 as part of the December 2015 program, which allow for share repurchases during Ryder's quarterly blackout periods as set forth in the trading plan.
