Note Regarding Forward Looking Statements

This Annual Report on Form 10-KSB contains "forward-looking statements." These forward-looking statements are based on our current expectations, assumptions, estimates and projections about our business and our industry. Words such as "believe," "anticipate," "expect," "intend," "plan," "may," and other similar expressions identify forward-looking statements. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those reflected in the forward- looking statements. You are cautioned not to place undue reliance on these forward-looking statements, which relate only to events as of the date on which the statements are made. We undertake no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof. You should refer to and carefully review the information in future documents we file with the Securities and Exchange Commission.

PART I

ITEM 1. DESCRIPTION OF BUSINESS.

Corporate History

Wastech, Inc. (the Company) was incorporated under the laws of the State of Oklahoma in March 2004 as a holding company formed from Corporate Vision, Inc., an Oklahoma corporation (CVI), and as such is a successor to CVI pursuant to Rule 12g-3(a) promulgated under the Securities Exchange Act of 1934. CVI was incorporated under the laws of the State of Oklahoma in November 1990.

The Company operated as a privately held corporation until May 1995, when the shareholders of CVI approved a merger of the Company with Trident Enterprises, Inc., a company subject to the reporting requirements of the Securities Exchange Act of 1934. Subsequent to the merger, Trident ceased to exist and CVI became the surviving corporation. In June 1995, CVI s common stock began trading on the OTC Bulletin Board under the symbol "CVIA".

From June 1995 to August 1997, CVI s primary business was the development and production of custom CD-ROM, CD-i, On-line, and Internet products for the corporate and consumer markets, and in particular for use by companies in their training and marketing activities. CVI was principally involved in the development and production of interactive training programs on CD-ROM for one corporate customer, the Dowell Division of Schlumberger Technology Corporation, an international well logging, seismic and service company, under a production agreement dated January 1, 1995. CVI completed the interactive training project for Dowell during December 1996 and failed to obtain any new orders to develop CD-ROM titles. Consequently, in August 1997, CVI ceased operations.

From August 1997 to August 1998, CVI had no operations, produced no revenue, and its sole activity consisted of searching for a suitable operating company to merge into CVI. No suitable companies were found and, in August 1998, new officers and a new Board of Directors was appointed.

Business Incubator

From August 1998 to 2001, CVI's principle business was to act as an incubator, consultant and strategist to emerging growth companies. Typically, CVI acquired minority equity interests in its clients in consideration for cash, common stock of CVI, or both. In addition, CVI agreed to pay legal and accounting costs associated with capital raising, including initial public offerings, and provided advice and assistance in raising capital, corporate structuring, and other financial matters. CVI had limited success with this business strategy. Specifically, none of CVI s client companies were able to complete an initial public offering. The reasons for the poor success were the underestimation of legal and accounting costs associated with the initial public offering process, difficulties in obtaining approval of

registration statements by federal regulators, and adverse changes in the market environment for technology and internet-related offerings that have reduced investor demand for CVI's offerings.

In February 2001, CVI appointed a new board of directors, which evaluated all of CVI's investments in, and contractual obligations to, its client companies to determine which constituted viable investments. The new board did not elect to continue CVI's prior incubator strategy. All of the investments were written down to zero on CVI's financial statements, because none had any realizable value.

Liquid Waste Disposal Operations

On June 21, 2001, CVI acquired all the issued and outstanding shares of common stock of Southeastern Research and Recovery, Inc. ("SRR"), a South Carolina corporation, from Global Eco-Logical Services, Inc. ("Global") in exchange for 22,500,000 shares (the "CVIA Shares") of common stock of CVI. SRR operated a non-hazardous waste facility on 3.25 acres of land in Ehrhardt, South Carolina, that processed industrial sludge for commercial and industrial customers in the South Carolina/Georgia area prior to its disposal in traditional municipal solid waste (MSW) landfills. On December 9, 2002, CVI sold SRR to GulfTex Energy Corporation (GulfTex), in exchange for 5,250,000 post-split shares of GulfTex common stock. Concurrently therewith, CVI entered into an agreement to sell all of its GulfTex shares to Environmental Energy Services, Inc. (EES) at a price of \$0.02381 per share, subject to EES's receipt of funds under a royalty agreement. Subsequently, GulfTex ceased operations and liquidated, rendering the shares of GulfTex shares owned by CVI worthless. As a result, EES terminated its obligation to purchase any GulfTex shares from CVI.

Trucking Operations

On March 5, 2002, CVI acquired Stony's Trucking Co. ("Stony's"), and subsidiaries thereof, from Gregory J. Gibson. The acquisition of Stony's occurred by the merger of Stony's Acquisition Corp., a wholly-owned subsidiary of CVI, with and into Stony's (the "Merger"). As a result of the Merger, all of the issued and outstanding common stock of Stony's was exchanged for \$50,000 cash, a note for \$150,000 due thirty days after the Merger, and 20,000,000 shares of common stock of CVI, which resulted in Stony's becoming a wholly-owned subsidiary of CVI. The number of CVI shares issued to Mr. Gibson was subject to adjustment six and twelve months after the acquisition date to the extent the fair market value of the CVI shares was not equal to or greater than \$2,000,000 at each date.

Pursuant to the Merger, Mr. Gibson was appointed the chief executive officer of CVI. Further, pursuant to the Merger, CVI agreed to reduce the number of voting directors to two, and appointed Mr. Gibson. Richard D. Tuorto, Sr. was appointed as the other director. A. Leon Blaser, the former chairman of the board of the Company, became the sole member of CVI's advisory committee.

In connection with the acquisition of Stony's, CVI entered into the following additional agreements:

?

An Employment Agreement, under which CVI agreed to employ Mr. Gibson as chief executive officer for a five year period.

?

A Management and Operations Agreement, under which CVI contracted with GJG Management, LLC, a company wholly-owned by Mr. Gibson, to manage Stony's and its subsidiaries through December 31, 2007. Under the agreement, the GJG Management, LLC was entitled to a management fee of \$10 per month, and CVI was entitled to receive overhead fee of \$5,000 per month.

?

A Stockholders' Agreement, under which Mr. Gibson and Global agreed, *inter alia*, that Mr. Gibson would vote his shares of common stock in the Company in favor of Global's nominee for director, Global would vote its shares of common stock in the Company in favor of Mr. Gibson's nominee for director, Mr. Gibson and Global each would not approve certain major corporate actions without the consent of the other, and Global agreed not to sell, except under certain conditions, 15,000,000 shares of common stock it held in CVI for one year. In September 2002, CVI entered into an agreement to sell up to 20,000,000 shares of common to EES at \$0.125 per share, and the Stockholders' Agreement was amended to add EES as a party thereto. Under the amendment, EES agreed to vote its shares of common stock in favor of the nominees of Mr. Gibson and Global to the board. In addition, EES was entitled to nominate a director to the board whenever its total purchases of common stock exceeded \$500,000. In April 2003, EES's total purchases of common stock exceeded \$500,000, but it did not exercise its right to appoint a nominee to the Company's board until April 2006.

?

A Pledge Agreement, under which CVI pledged its shares of common stock in Stony's to secure its obligations to Mr. Gibson.

?

A Right of Rescission Agreement, under which each party granted the other the right to rescind the transaction under certain circumstances.

Stony's and its subsidiaries operated as a common and contract carrier transporting goods and commodities in the lower forty-eight states, as well as Canada and Mexico. Approximately 60% of Stony's business involved the shipment of materials by flatbed trailers, about 30% by intermodal containers, and the remaining 10% by vans. Historically, Stony's business had been concentrated on the shipment of steel and steel building products. Of Stony's flatbed business, approximately 30% related to iron and steel shipments, 25% related to building materials, 20% related to machinery, and the remainder was general freight shipments. Stony's fleet consisted of approximately 300 trucks and 375 trailers, of which 17 trucks and 28 trailers were company owned, and the remaining trucks and trailers were owned by owner-operators. Stony's business strategy relied heavily on independent contractors, or owner-operators, to supply tractors, trailers and drivers.

Sale of Stony's Assets

On August 8, 2003, Stony's entered into an Asset Purchase Agreement under which Stony's sold substantially all of its assets to Filbin International, Inc. ("Filbin"), including office equipment, software, furniture, fixtures and equipment, customers, agent relationships, and tradenames. The sale did not include any trucks or trailers used in the trucking operations. However, Filbin agreed to utilize certain trucks and trailers as part of its fleet, subject to Filbin's standard terms and conditions. The purchase price for the assets consisted of \$250,000 cash, and contingent payment equal to two percent (2%) of revenue from the trucking operations for a two-year period from February 1, 2004 to January 31, 2006. The purchase price did not include the assumption of any liabilities of Stony's or its subsidiaries. However, Filbin had the right to pay certain presale liabilities to the extent necessary to ensure smooth operations following the sale, and in that event the amount of contingent payments will be reduced by the amount of debt paid. CVI, Stony's and both directors of CVI indemnified Filbin against any claims or liabilities arising prior to the sale.

CVI's decision to sell its Stony's trucking operations was necessitated by operational and financial difficulties caused by Stony's difficulties in funding its operations under its factoring line of credit with Systran, which had resulted in a loss of business and declining revenues.

Exercise of Buyback Agreement and Settlement of Claims Against Stony s

On March 5, 2002, when CVI purchased Stony s from Mr. Gibson, CVI and Mr. Gibson executed a Right of Rescission Agreement, under which each had the right to rescind the acquisition under certain circumstances until December 31, 2002. In the event the acquisition was rescinded, then CVI would return to Mr. Gibson all shares of Stony s common stock, and Mr. Gibson would be obligated to return all consideration received by him for the Stony s shares, which included 20,000,000 shares of CVI common stock, \$50,000 cash, and all amounts received by Mr. Gibson under a Cognovit Promissory Note in the original principal amount of \$150,000.

On December 31, 2002, at the scheduled expiration date of the Right of Rescission Agreement, Mr. Gibson and CVI executed a Buyback Agreement, which granted Mr. Gibson the right to repurchase Stony s from CVI in consideration for the return of all consideration received by Mr. Gibson for Stony s, which included 20,000,000 shares of CVI common stock, \$50,000 cash, and all amounts received by Mr. Gibson under a Cognovit Promissory Note in the original principal amount of \$150,000.

On August 11, 2003, CVI and Mr. Gibson executed an agreement under which Mr. Gibson repurchased Stony s. CVI and Mr. Gibson agreed that Mr. Gibson would pay the buyback consideration as follows:

-

Mr. Gibson s obligation to pay CVI \$96,250 in cash would be applied against a CVI subsidiary s obligation to Mr. Gibson in the amount of \$164,735, leaving a balance owing Mr. Gibson of \$68,485;

-

Mr. Gibson s obligation to return 20,000,000 shares of CVI common stock to CVI would be satisfied by the return of 17,792,998 shares of CVI common stock and the cancellation of \$68,485 that was owed Mr. Gibson by a subsidiary of CVI.

In addition, the agreement between Mr. Gibson and CVI provided that Mr. Gibson s employment agreement with CVI would be terminated. However, Mr. Gibson remained a director and chief executive officer of CVI.

On August 11, 2003, CVI entered into a settlement agreement with Stony s and an agreement with Mr. Gibson to settle CVI s claim against Stony s for \$450,650 in advances made to Stony s. Under the agreements, Mr. Gibson agreed to pay CVI \$250,000 from the proceeds of the liquidation of certain receivables of Stony s that Mr. Gibson had a prior lien on to secure advances he had made to Stony s. To satisfy the balance of the advances, Stony s assigned CVI its interest in a royalty stream payable by Filbin from the revenues generated from the Stony s assets sold to Filbin. The royalty was equal to 2% of revenues generated from the operations of Stony s for the period from February 1, 2004 to January 31, 2006, and is subject to potentially substantial offsets by Filbin.

Settlement of Royalty Claim Against Filbin

When Stony s sold its assets to Filbin, part of the sales consideration was a royalty equal to 2% of revenues generated from the operations of Stony s for the period from February 1, 2004 to January 31, 2006. The royalty was potentially subject to substantial offsets by Filbin. The royalty was assigned to CVI pursuant to an August 11, 2003 agreement settling claims by CVI against Stony s. Due to non-payment by Filbin of the royalty, and disputes among the parties, on June 14, 2004, Filbin instituted a legal action in Macomb County Circuit Court, for the State of Michigan, Case No. 04-2473-CZ. CVI removed the litigation to the U.S. District Court, Eastern District, Case No. 04-73034.

Thereafter, the parties entered a Mutual Release and Settlement Agreement, under which the parties agreed to settle all claims by and between the parties, including CVI s claim for future royalties due by Filbin, for the payment by Filbin of \$95,000, of which the Company received a net amount of \$43,500.

Proprietary Transport Operations - CV Transportation, Inc.

In January 2002, CVI secured the rights to a proprietary transport system (the "Jezco System") that provides an innovative and alternative means of containerizing, among other things, liquid and solid waste debris for transportation via traditional flat-bed and box-van trailers. The use of the system is pursuant to a licensing agreement. The agreement has no fixed termination date, other than a strict adherence to guidelines set by the licensor, and carries a fee of \$1.00 per ton on all transported materials.

The patents are identified by the United States Patent and Trademark Office (USPTO) as numbers 5,281,073, "apparatus for the transport and management of liquid bearing waste"; 5,873,593, "piggyback truck transport system"; 6,019,565, "container lifting and transport apparatus"; and 6,149,373, "rim engaging container manipulation apparatus".

On March 5, 2002, CVI incorporated a wholly-owned subsidiary, CV Transportation, Inc. ("CVT"), to facilitate the implementation of the Jezco System in the trucking operations of Stony's. CVT entered the business of contracting with transfer stations in high cost disposal sites to receive waste for disposal using the Jezco Systems in low cost disposal areas.

Transactions with McRal Co.

In February 2004, CVI entered into an agreement with McRal Co. ("McRal") to provide managerial expertise and financial support for its alternative waste transportation and disposal operations. Under the Agreement with McRal:

Formation of CV Logistics, LLC: CVI contributed its interest in CVT to CV Logistics, LLC (CVL), a newly-formed, Ohio limited liability company, for a 50% interest therein. Simultaneously, CVL issued a 50% equity interest to NewWaste, Inc. (NewWaste), a Delaware corporation that was a wholly-owned subsidiary of McRal. Subsequent to closing, CVL acquired approximately \$400,000 in transportation assets from Stony's and Mr. Gibson. The board of managers of CVL is composed of two designees of McRal and one designee of CVI.

Conveyance of Jezco Patents to NewWaste: NewWaste issued 24 shares of common stock to McRal in consideration of a capital contribution of \$500,000. NewWaste also issued 24 shares of common stock to CVI and paid CVI \$250,000 cash in consideration for an assignment of the license to use the Jezco Patents. The board of directors of NewWaste is composed of two designees of McRal and one designee of CVI.

Additional Agreements: The agreement further provided that certain additional transactions would take place within forty-five days after the date of the agreement:

-

McRal agreed to (a) invest an additional \$750,000 into NewWaste, and (b) cause an individual experienced in the waste management industry to sign an exclusive services contract with NewWaste. In the event McRal invested an additional \$750,000 in capital in NewWaste, McRal would be entitled to receive an additional 36 shares of NewWaste common stock. In the event McRal completed both items, McRal would further be entitled to receive shares of common stock of CVI representing 9% of its common stock on a fully-diluted basis. McRal did not invest an additional \$750,000 into NewWaste, nor did it procure the exclusive services contract with the named individual, by the deadline, and therefore is not entitled to an additional 36 shares of common stock in NewWaste or any CVI shares.

-

NewWaste and Richard D. Tuorto, Sr., CVI's chairman, entered into a nonexclusive, one year services agreement under which Mr. Tuorto provided managerial services to NewWaste.

- CVI and Mr. Tuorto agreed to negotiate an agreement under which NewWaste would acquire the Jezco Patents from the owner and inventor. In connection with the undertaking, CVI agreed to issue 2,000,000 shares of its common stock to acquire the Jezco Patents. In the event the shares of common stock were not utilized to acquire the Jezco Patents, the shares of common stock were to be issued to NewWaste. CVI and Mr. Tuorto were unable to procure an agreement for NewWaste to acquire the Jezco Patents, and therefore CVI is obligated to issue 2,000,000 shares of its common stock to NewWaste.

- CVI agreed to use its best efforts to acquire at least 60% of the issued and outstanding common stock (the "ABS Stock") of Absolute Waste Services, Inc. ("ABS"), which is a waste transportation and disposal firm based in Texas. If CVI was unable to acquire the ABS Stock, CVI was entitled to propose to McRal that a controlling interest be obtained in a similar waste operation, with appropriate adjustments to the rights and liabilities of the parties.

- In the event CVI acquired the ABS Stock, CVI was obligated to convey to NewWaste shares of ABS Stock representing ownership of 9% of the common stock of ABS on a fully-diluted basis. In addition, CVI would be obligated to convey NewWaste additional shares of ABS Stock to the extent necessary to maintain NewWaste's ownership of ABS at 9% of the outstanding shares on a fully-diluted basis. NewWaste would also have the option to acquire ABS Stock owned by CVI for a price per share equal to the greater of a) two (2) times earnings before interest, taxes, depreciation and amortization, divided by the total number of shares of ABS outstanding on a fully-diluted basis, and b) \$0.50 per share. The option could only be exercised between the first (1st) and fifth (5th) anniversary of the acquisition of the ABS Stock. CVI was not able to complete the acquisition of ABS or any alternative entity.

- In the event NewWaste acquired the Jezco Patents, entered into a services agreement with Mr. Tuorto, and acquired the ABS Stock, CVI was entitled to receive an additional 24 shares of NewWaste common stock. To date, the only condition for issuance of the additional 24 shares of NewWaste common stock that has been satisfied has been the execution of a services agreement with Mr. Tuorto, and therefore CVI is not entitled to the issuance of an additional 24 shares of common stock in NewWaste.

- At time of execution of the agreement, McRal executed a conditional assignment, under which it agreed to assign its interest in any common stock of NewWaste, and any rights under the agreement, to TTI Technologies, Inc. in the event McRal failed to both make an additional \$750,000 investment in NewWaste and procure an exclusive services agreement with that certain individual experienced in the waste management industry. McRal failed to satisfy either condition, and as a result TTI Technologies, Inc. exercised its rights under the conditional assignment.

Holding Company Reorganization

On March 18, 2004, pursuant to an Agreement and Plan of Reorganization, CVI merged with and into CV Merger, Inc. ("CVM"), an Oklahoma corporation ("CVM"), which was the survivor in the merger. Under the merger, shares of CVI common stock are entitled to receive an equivalent number of shares of common stock of Wastech, Inc., an Oklahoma corporation (the Company). Prior to the reorganization, the Company was a wholly-owned subsidiary of CVI, and CVM was a wholly-owned subsidiary of the Company. The reorganization was effected for the purpose of

reorganizing CVI as a holding company, under which the Company is now the parent company with the exact same shareholder base that CVI had prior to the reorganization. Immediately after the reorganization, all of the former assets, liabilities and operations of CVI were held by CVM by virtue of its position as the successor in interest to CVI in the reorganization. The merger was effected without shareholder approval of the Company, CVM or CVI pursuant to Section 1081(G) of the Oklahoma General Corporation Law. The common stock of the Company has identical rights, terms and privileges as the common stock of CVI.

Pursuant to the reorganization, each share of common stock of CVI became entitled to receive one share of common stock of the Company and each option, warrant or other instrument convertible or exchangeable into shares of common stock or preferred stock of CVI automatically became convertible into an equivalent number shares of common stock or preferred stock of the Company.

Prior to the reorganization, CVI's common stock was traded on the Pink Sheets under the symbol "CVIA." The Company received a new cusip number for its common stock, and a new trading symbol, "WTCH".

Immediately following the reorganization, the Company purchased certain assets from CVM for the assumption of certain indebtedness of CVM. Among the assets transferred were the 5,250,000 shares of GulfTex common stock, CVM's 50% interests in CVL and NewWaste, a royalty payable by Filbin, notes receivable from Stony's in the amount of \$292,188.34, and miscellaneous office equipment. The liabilities assumed included notes payable in the original principle amounts of \$100,000, plus accrued interest, and accrued consulting and employment expenses and taxes payable in the aggregate amount of \$343,765.35. On March 18, 2004, the Company sold CVM to an unrelated third party for \$10. At the time of the sale, CVM had minimal assets, substantial accounts payable and contingent lawsuits against it.

Resignation of Gibson

Effective May 18, 2004, the Company accepted the resignation of Gibson as an officer and director. In addition to a director, Mr. Gibson previously served as the sole officer to the Company, holding the positions of President and Chief Executive Officer, acting Chief Financial Officer and Secretary-Treasurer. The Company's Chairman, Richard D. Tuorto, Sr., succeeded to the respective officer positions.

Purchase of West Virginia Mineral Rights

On March 26, 2006, the Company, through a wholly-owned subsidiary, Wastech of West Virginia, Inc., a West Virginia corporation (Wastech WV), entered into an Assignment Agreement with H.M. Flood Business Trust Ltd (the "Flood Trust"), under which Wastech WV agreed to purchase the rights of the Flood Trust to acquire approximately 44,000 acres of subsurface coal, coal bed methane and all other mineral rights in various counties in West Virginia, as well as 5,898.49 acres of oil and gas reserves in Fayette County, West Virginia (the Mineral Rights). The Flood Trust held the right to acquire the Mineral Rights under contracts with H3, LLC ("H3") dated February 26, 2006. On April 13, 2006, Wastech WV and the Flood Trust amended the Assignment Agreement. On April 14, 2006 a simultaneous closing was held under the contracts between H3 and the Flood Trust, and the Assignment Agreement between the Flood Trust and Wastech WV. Under the contracts between H3 and the Flood Trust, the Flood Trust agreed to pay a total of \$520,000 for the Mineral Rights. Under the Assignment Agreement, as amended, Wastech WV agreed to pay the following amounts for the Mineral Rights:

-

\$525,000 paid on April 14, 2006 to H3, consisting of the Flood Trust's purchase price for the Mineral Rights, plus an additional \$5,000 for attorney's fees for H3's attorney's fees;

-

\$181,500 paid on April 14, 2006 to the Flood Trust;

-

\$980,000 cash payable to the Flood Trust on August 25, 2006;

-

11,750,000 shares of common stock in the Company; and

-

A promissory note of Wastech WV in the amount of \$4,000,000 due and payable in full on April 13, 2009 without interest, provided that, in consideration for the payment of \$175,000 by the Company to the Flood Trust by August 25, 2006, Wastech WV has the right to convert \$2,000,000 of the note into common stock of the Company at any time prior to the maturity of the note at the average ask price of the Company's common stock for seven (7) days prior to the date the option is exercised.

In addition, Wastech WV agreed to execute an employment agreement with John F. Hale, Jr. on such terms that the parties mutually agree. To date, Wastech WV has not entered into an employment agreement with Mr. Hale.

Wastech WV was not able to make the payment of \$980,000 that was due to the Flood Trust on August 25, 2006. As a result, Wastech WV negotiated an extension of the date of this payment to October 7, 2006. Wastech WV failed to make the payment on October 7, 2006, and remains in default under the Assignment Agreement. Wastech WV had planned to make the payment due the Flood Trust on August 25, 2006 from the proceeds of an investment that Environmental Energy Services, Inc. had agreed to make in the Company on that date, but Environmental Energy Services, Inc. defaulted on that commitment. (See Environmental Energy Services, Inc. Stock Purchase Agreements and Amendments). At this time, it is not known when or if Environmental Energy Services, Inc. will honor its commitment to make an investment in the Company, and the Company does not have any other source of capital to make the payment. On October 10, 2006, the Flood Trust filed suit against Wastech WV in Kanawha County, West Virginia to recover the \$980,000 payment due on August 25, 2006, as well as \$4,000,000 due under the promissory note due on April 13, 2009.

Since purchasing the Mineral Rights, the Company has been evaluating whether to develop the Mineral Rights itself, lease the Mineral Rights to mining or energy companies in return for an overriding royalty, or sell parcels of the Mineral Rights to third parties. The principle constraint on development of the Mineral Rights is the capital cost to develop the infrastructure and facilities to extract and market the minerals. Since the Company does not currently have a ready source of capital to fund the development of the Mineral Rights itself, the Company is currently in the process of marketing the Mineral Rights to third parties.

Environmental Energy Services, Inc. Stock Purchase Agreement and Amendments

2002 Stock Purchase Agreement and Amendments

In September 2002, CVI entered into a stock purchase agreement (the EES Agreement) to sell up to 20,000,000 shares of its common stock to EES for \$0.125 per share, for a total purchase price of \$2,500,000. Under the EES Agreement, EES was obligated to purchase such common stock in installments equal to fifty (50%) of the amount it receives under a technology royalty, up to a maximum of \$2,500,000. In April 2003, CVI and EES amended the agreement to provide that all royalty payments not used to satisfy prior liens would be used to purchase shares of CVI's common stock under the Agreement. EES granted CVI a security interest in EES's interest in the royalty agreement to secure its obligation to purchase the shares.

In April 2003, EES received its first distribution under the royalty agreement. After satisfying prior liens on the royalty distribution, EES paid CVI \$1,672,947.50 to purchase 13,383,580 shares of common stock of CVI. The Company simultaneously loaned EES \$844,483.16 pursuant to a promissory note dated April 7, 2003 which bore interest at five percent (5%) per annum, and was secured by a lien on EES's interest in the royalty agreement. In connection with the initial royalty distribution, CVI and EES agreed that all distributions on the royalty agreement to which CVI was entitled shall be applied in the following manner: first to the payment of costs, interest and principal due under the April 7, 2003 Note, second to the purchase of additional shares of Company common stock under the September 2002 Agreement, and third to the purchase of shares of GulfTex Energy Corporation common stock from CVI.

EES had the right to terminate its obligation to purchase shares under the EES Agreement in the event there was a materially adverse change in the business or financial condition of CVI. On August 13, 2003, following the sale of Stony's assets, EES sent CVI a letter notifying CVI of its decision to terminate its obligation to purchase shares of CVI's common stock under the EES Agreement on the grounds that a material adverse change had occurred in CVI's financial condition. Following the receipt of the letter from EES, CVI and EES renegotiated the EES Agreement, the material terms of which are as follows:

-

EES was deemed to have purchased all shares of common stock purchased to date (13,383,580 shares) for all payments made to CVI to date, net of amounts loaned back to CVI by EES. That resulted in a total purchase price for the shares already purchased of \$905,535.13, or \$0.0676601 per share, instead of \$0.125 per share as specified in the original EES Agreement. As a result, CVI agreed to cancel the April 7, 2003 note from EES in the original principal amount of \$844,483.16.

-

EES agreed to use \$1,100,000 of payments from the technology royalty to purchase additional shares of common stock from CVI on the following schedule: \$20,000 from the royalty payment due for the quarter ended June 30, 2003, and \$60,000 from the royalty payment due for all succeeding quarters. The purchase price of each share purchase will be the greater of \$0.09 per share or the average market price of CVI's common stock for the five days preceding the receipt of each royalty payment.

-

EES no longer has the right to terminate its purchase commitment based on an existing or future material adverse change in CVI's business or financial condition. Instead, EES only has the right to terminate its purchase commitment in the event CVI fails to deliver certificates for any installment purchase to EES prior to the due date of the next installment, or if CVI has a custodian, receiver or trustee appointed for it or a substantial part of its assets, or if CVI voluntarily commences any proceeding under any bankruptcy, reorganization, arrangement, readjustment of debt, dissolution or liquidation law or statute of any jurisdiction, or an involuntary proceeding is commencement and not dismissed within ninety (90) days.

Pursuant to CVI's holding company reorganization on March 18, 2004, EES's commitment to purchase shares of common stock under the EES Agreement was transferred to the Company.

In May 2006, the Company did not receive its quarterly payment under the EES Agreement from the technology royalty because the amount of the payment was insufficient to satisfy senior liens against the payment. The technology license pertains to binding technology licensed to a production facility that qualifies for tax credits under Section 29 of the Internal Revenue Code. The amount of the royalty is determined from the amount of tax credits generated by the facility, among other factors. In May, August and November, 2006, EES's share of the technology

royalty was \$33,596.76, \$59,632.06, and \$59,355.34, respectively, which was far below the amount it historically received. The decline in the amount of the royalty was due, in large part, to the fact that the amount of tax credits which are payable under the IRS program decline as the price of oil rises, and are eliminated if the price of oil rises above a certain level. If the price of oil stays at current levels, it is likely that the amount of royalty payments will be far below historical amounts, and may actually be eliminated entirely. As a result, the Company may not receive any further payments under the Stock Purchase Agreement. However, EES made part of the quarterly payment that was payable in May 2006, notwithstanding the shortfall in the royalty payment received in that quarter. In addition, the Company believes EES will make additional payments under the Stock Purchase Agreement, notwithstanding the fact that it may not receive sufficient royalty proceeds, although at this time the Company has no legally binding agreement from EES to make those payments if the royalty payments are not actually received.

2006 Stock Purchase Agreement

The Company funded its initial purchase obligations for the Mineral Rights under the Assignment Agreement with the Flood Trust by entering into an additional Stock Purchase Agreement with EES dated April 12, 2006 (the 2006 EES Agreement). Under the 2006 EES Agreement, EES agreed to purchase 37,430,000 shares of the Company's common stock for \$0.05 per share, for a total purchase price of \$1,871,500, of which \$741,500 was due and payable on April 12, 2006 and \$1,130,000 was due and payable on August 25, 2006. EES and the Company also agreed to amend the EES Agreement to increase the amount purchasable thereunder by \$15,000 per quarter, to \$75,000 per quarter. The Company agreed that EES would have the right to appoint one additional member of the board of directors upon full payment of the amount due on August 25, 2006 under the 2006 EES Agreement. EES already had the right to appoint a member of the board of directors under the EES Agreement. In addition, the Company agreed to enter into a consulting agreement with Richard D. Tuorto, Sr., the Company's current chairman and chief executive officer, under which Mr. Tuorto would be entitled to compensation of \$150,000 per year for five years, provided that Mr. Tuorto shall be entitled to compensation of \$250,000 per year for five years if for any reason he does not receive the compensation of \$150,000 per year or does not remain on the board of directors. To date, the consulting agreement with Mr. Tuorto has not been executed.

On June 26, 2006, the Company and EES amended the 2006 EES Agreement to increase the amount of common stock to be sold to EES thereunder by 5,000,000 shares, which will result in additional proceeds to the Company of \$250,000. The amendment, however, does not contain any schedule for payment of the additional amount. The Company simultaneously announced that it would use the proceeds to repurchase shares of its common stock on the open market.

To date, EES has purchased 14,830,000 shares of common stock under the Stock Purchase Agreement pursuant to the closing of the purchase of the Mineral Rights from the Flood Trust. However, EES did not complete the purchase of \$1,130,000 of common stock on August 25, 2006, which caused the Company to default on its obligation to pay the Flood Trust \$980,000 on that date. The Company believes that EES will ultimately fulfill its commitment to purchase \$1,150,000 in common stock under the 2006 EES Agreement, but is not able to predict when or if EES will complete the purchase.

Based on the number of shares that EES has already purchased under the EES Agreement, the 2006 EES Agreement and otherwise, EES owns 28.8% of the Company's outstanding common stock. If EES completes its purchase obligations under the 2006 EES Agreement and the EES Agreement, it will own 44.4% of the Company's common stock, and will have the right to appoint 2 out of 3 directors on the board of directors.

EES Appointment to Board

On April 12, 2006, EES exercised its right to appoint a nominee to the board of directors under the EES Agreement, as amended, by appointing Douglas Holsted to the board. Mr. Holsted will serve as a director of the Company until its next annual meeting of shareholders. From 1999 to 2005, Mr. Holsted operated a private accounting and tax

practice in Oklahoma. In 2005, he joined EES full-time, where he is an officer and a director. From January 1996 to May 26, 1999, Mr. Holsted was the Chief Executive Officer of Sales Equipment Company in Oklahoma City, Oklahoma, which was in the business of distributing equipment in the pressurized gas industry. From 1991 through 1995, he was the Chief Financial Officer of The Dwyer Group, Inc. of Waco, Texas, a publicly owned company in the franchise industry. Mr. Holsted is a certified public accountant licensed in the State of Oklahoma.

Internal Hydro International Agreements

On August 31, 2006, the Company entered into a Commercial Purchase Agreement and Deposit Receipt (the "CoalGas Agreement") with USA CoalGas, L.P. ("CoalGas"), an Illinois limited partnership, under which the Company agreed to purchase 695.18 acres of land in Christian County, Illinois (the "Land"), and certain personal property located on the Land, for \$1,200,000. In addition, the Company agreed to assume, and purchase the Land and personal property subject to, a Lease and Easement Agreements between CoalGas and Libra National Resources, pls, and a Coal Fines Supply Agreement between CoalGas and LNR Kincaid, LLC (collectively, the "CoalGas Assets"). Of the purchase price, \$600,000 is payable at closing and the remaining \$600,000 is payable twelve months after closing with interest at 6% per annum. Closing is conditioned upon the Company completing the transfer to it of a permit from the Illinois Department of Natural Resources (Permit No. IL0026913), which requires environmental surety bonding in the amount of \$4,379,608, among other conditions. The CoalGas Agreement provides that closing will occur 120 days after the date of the Agreement, but that the deadline for closing may be extended for 30 days.

On September 25, 2006, the Company entered into an Agreement (the "IHI Agreement") with Internal Hydro International, Inc. ("IHI"), under which the Company assigned all of its right, title and interest in the CoalGas Agreement to Springfield Energy Project, LLC ("SEP"), a Florida limited liability company. SEP is a newly created limited liability company that was created to be the assignee of the CoalGas Agreement, and to acquire and own the CoalGas Assets. The Company owns 49% of SEP by virtue of owning 4,900 Class A Units, and IHI owns 47% of SEP by virtue of owning 4,700 Class A Units. The remaining 4% of SEP is owned by Private Capital Group, Inc. by virtue of owning 400 Class C Units. A principle purpose of IHI and the Company in purchasing the CoalGas Assets is to use the land for renewable energy operating involving coal reclamation, fly ash disposal and proprietary tire gasification (the "Gasification Project"). The IHI Agreement provides that IHI is to obtain initial financing for SEP in the amount of \$4,000,000 (the "Initial Financing"), and an additional \$4,000,000 of financing no later than approval of the Gasification Projection by the State of Illinois (the "Additional Financing"). The IHI Agreement provides that if IHI does not procure either the Initial Financing or the Additional Financing, that IHI and Private Capital Group, Inc. are required to tender all of the ownership interests in SEP to the Company. The IHI Agreement provides that if IHI procures the Initial Financing but not the Additional Financing, then IHI is required to tender one-half of its ownership interests in SEP to the Company.

Research and Development Expenditures

The Company did not incur any material research or development expenditures in 2005 or 2004.

Subsidiaries

The Company has the following subsidiaries: Wastech of West Virginia, Inc. (100%). The Company has a non-controlling interest in the following entities: NewWaste, Inc. (50%); CV Logistics, LLC (50%).

Patents and Trademarks

The Company does not own, either legally or beneficially, any patents or trademarks.

Employees and Consultants

At November 27, 2006, the Company had no employees.

ITEM 2. DESCRIPTION OF PROPERTY.

As of November 21, 2006, the Company leased approximately 1,535 square feet of office space at 3 Broad Street, Suite 3-A, Charleston, South Carolina 29401. The monthly rent is \$1,950, and the lease expires October 31, 2007.

Intercontinental Intercontinental Holdings, Inc. has orally agreed to pay the Company \$3,000 per month for certain management and administrative services, which includes use of part of the office space. Richard D. Tuorto, Sr., the chairman and chief executive officer of the Company, is also an officer and director of Intercontinental Holdings, Inc.

ITEM 3. LEGAL PROCEEDINGS.

At December 31, 2005, the Company was not a party to any legal proceedings.

On October 10, 2006, the H.M. Flood Trust sued Wastech of West Virginia, Inc., a wholly-owned subsidiary of the Company, to recover \$980,000 that was due on August 25, 2006, and \$4,000,000 that is due under a promissory note that is not due and payable until April 13, 2009. The Company is defending the lawsuit.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

No matters were voted upon by the stockholders during the fourth quarter of the fiscal year, as required to be reported upon by the Company in response to this Item 4.

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS.

The Company's common stock is registered with the United States Securities and Exchange Commission under 12(g) of the Securities Exchange Act of 1934. From January 1, 2002 to May 2003, the Company's common stock has been traded on the OTC Bulletin Board under the symbol CVIA. From May 2003 to June 2, 2004, the Company's common stock traded on the Pink Sheets under the symbol CVIA. Since June 3, 2004, the Company's common stock has been traded on the pink sheets under the symbol WTCH. The following table summarizes the low and high prices for the Company's common stock for each of the calendar quarters of 2003 and 2004.

	<u>2005</u>		<u>2004</u>	
	<u>High</u>	<u>Low</u>	<u>High</u>	<u>Low</u>
First Quarter	0.09	0.02	0.07	0.035
Second Quarter	0.05	0.019	0.07	0.02
Third Quarter	0.06	0.03	0.09	0.035
Fourth Quarter	0.09	0.012	0.055	0.015

The high and low quotes on the Company's common stock reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not represent actual transactions. There were 832 shareholders of record of the common stock as of November 27, 2006. This number does not include an indeterminate number of shareholders whose shares are held by brokers in "street name."

The Company's common stock is subject to rules adopted by the Securities and Exchange Commission ("Commission") regulating broker dealer practices in connection with transactions in "penny stocks." Those disclosure

rules applicable to "penny stocks" require a broker dealer, prior to a transaction in a "penny stock" not otherwise exempt from the rules, to deliver a standardized disclosure document prepared by the Commission. That disclosure document advises an investor that investment in "penny stocks" can be very risky and that the investor's salesperson or broker is not an impartial advisor, but rather paid to sell the shares. The disclosure contains further warnings for the investor to exercise caution in connection with an investment in "penny stocks," to independently investigate the security, as well as the salesperson the investor is working with and to understand the risky nature of an investment in this security. The broker dealer must also provide the customer with certain other information and must make a special written determination that the "penny stock" is a suitable investment for the purchaser, and receive the purchaser's written agreement to the transaction. Further, the rules require that, following the proposed transaction, the broker provide the customer with monthly account statements containing market information about the prices of the securities. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the Company's common stock. Many brokers may be unwilling to engage in transactions in our common stock because of the added disclosure requirements, thereby making it more difficult for stockholders to dispose of their shares.

The Company has not declared any cash dividends on its Common Stock during its fiscal years ended on December 31, 2005 or 2004. The board of directors of the Company has made no determination to date to declare cash dividends during the foreseeable future, but is not likely to do so. There are no restrictions on the Company's ability to pay dividends.

Securities Issued in Unregistered Transactions

During the quarter ended December 31, 2005, the Company issued 666,667 shares of common stock to Environmental Energy Services, Inc. at \$0.09 per share, for total consideration of \$60,000, pursuant to a Stock Purchase Agreement originally entered into in September 2002, as amended in April 2003 and November 2003. The shares were issued in reliance on the exemption from registration provided by Section 4(2) for the Securities Act of 1933.

Issuer Purchases of Equity Securities

During the quarter ended December 31, 2005, the Company did not repurchase any shares of its common stock.

Equity Compensation Plan Information

As of December 31, 2005, the Company did not have any equity compensation plans.

PART II

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION.

Disclosure Regarding Forward Looking Statements

This Annual Report on Form 10-KSB includes forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended ("Forward Looking Statements"). All statements other than statements of historical fact included in this report are Forward Looking Statements. In the normal course of its business, the Company, in an effort to help keep its shareholders and the public informed about the Company's operations, may from time-to-time issue certain statements, either in writing or orally, that contain or may contain Forward-Looking Statements. Although the Company believes that the expectations reflected in such Forward Looking Statements are reasonable, it can give no assurance that such expectations will prove to have been correct. Generally, these statements relate to business plans or strategies, projected or anticipated benefits or other consequences of such plans or strategies, past and possible future, of acquisitions and projected or anticipated benefits from acquisitions made by or to be made by the Company, or

projections involving anticipated revenues, earnings, levels of capital expenditures or other aspects of operating results. All phases of the Company operations are subject to a number of uncertainties, risks and other influences, many of which are outside the control of the Company and any one of which, or a combination of which, could materially affect the results of the Company's proposed operations and whether Forward Looking Statements made by the Company ultimately prove to be accurate. Such important factors (Important Factors) and other factors could cause actual results to differ materially from the Company's expectations are disclosed in this report. All prior and subsequent written and oral Forward Looking Statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by the Important Factors described below that could cause actual results to differ materially from the Company's expectations as set forth in any Forward Looking Statement made by or on behalf of the Company.

Results of Operation

Revenues

Revenues were \$0 and \$0 in 2005 and 2004. The lack of revenues in both years is attributable to the disposal of the Company's trucking business on August 8, 2003, and the absence of contracts at the Company's experimental waste disposal operations during 2004, which it disposed of on February 17, 2004. Since February 17, 2004, the Company's activities have involved the investigation of various business opportunities.

Operating Expenses

Operating expenses in 2005 were \$352,898, as compared to \$491,386 in 2004. The substantial decrease in operating expenses was the result of the significantly reduced level of operations resulting from the disposal of the Company's trucking operations in 2003 and the Company's experimental waste disposal operations in early 2004.

Other Income (Expense)

The Company incurred net Other Income (Expenses) in 2005 of \$231,419, as compared to \$230,000 in 2004. Other Income (Expenses) in 2005 was primarily influenced by a gain of \$241,809 from the cancellation of certain shares previously issued to satisfy accrued expenses and for compensation. In both years, the Company incurred \$20,000 of interest expense. In 2005, the Company also realized \$12,000 in rental income from a sublease of space to an affiliated entity. Other Income (Expenses) in 2004 was primarily influenced by a gain of \$250,000 from the sale of patent rights.

Net Income

The Company incurred a net loss in 2005 of (\$121,479), as compared to a net loss of (\$261,386) in 2004.

Liquidity and Capital Resources

As of December 31, 2005, the Company had cash and cash equivalents of \$1,000, as compared to cash of \$50,049 as of December 31, 2004. As of December 31, 2005, the Company had a net working capital deficit of (\$396,229), as compared to a working capital deficit of (\$111,460) as of December 31, 2004. The substantial decrease in the Company's working capital was largely the result of the reclassification of note payable to NewWaste, Inc. on October 1, 2006 as a short-term liability from a long-term liability. A large portion of the remaining current liabilities consist of loans from, or accrued liabilities to, officers and directors.

The Company has taken a number of steps to improve its liquidity. In 2004, the Company effected a holding company reorganization, and disposed of CV Merger, Inc., which had the effect of removing substantial liabilities from the Company's consolidated financial statements. In addition, the Company negotiated various agreements

under which EES committed to make equity investments in the Company to enable the Company to fund the costs of exploring business opportunities and acquire assets. However, many of the equity investments are contingent on EES's receipt of royalty payments under a technology royalty. As disclosed in Part I, Item 1: Description of Business, EES has recently experienced greatly reduced royalty payments because of the high price of oil, and there is substantial doubt as to whether EES will be able to honor its commitment to make equity investments in the Company. If EES is unable to make the equity investments which it has agreed to make, the Company will encounter difficulty paying routine general and administrative expenses, and will have to explore other sources of capital.

Going Concern

The Company's financial statements have been presented on the basis that it is a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the accompanying financial statements, the Company incurred a net operating loss in the year ended December 31, 2005, and had significant unpaid accounts payable and accrued liabilities. In addition, the Company has been dependent on the proceeds of sales its common stock to pay ongoing general and administrative costs, and there is substantial doubt as to whether the Company will receive any more payments from EES. These factors create an uncertainty about the Company's ability to continue as a going concern. The Company's new management has provided operating capital to the Company and has developed a plan to raise additional capital. The ability of the Company to continue as a going concern is dependent on the success of this plan. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

ITEM 7. FINANCIAL STATEMENTS.

The financial statements required by Item 310 of Regulation S-B are attached hereto as Exhibit A.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

On May 27, 2005, the Company was notified by Packer Thomas, PC ("Packer Thomas") that it had resigned as independent accountants. Packer Thomas' report for the year ended December 31, 2004 does not contain an adverse opinion or disclaimer of opinion, and was not modified as to audit scope, or accounting principles. However Packer Thomas' report was modified because of the substantial doubt about the Company's ability to continue as a going concern. During the periods from March 5, 2002 through May 27, 2005, there were no disagreements with Packer Thomas and the Company on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which, if not resolved to the former accountant's satisfaction, would have caused it to make reference to the subject matter of the disagreement(s) in connection with its report. Packer Thomas did not advise the Company of any of the matters described in Item 304(a)(1)(iv)(B), except that in connection with its report for the year ended December 31, 2004, Packer Thomas advised the Company that it lacked adequate internal controls at its Stony's Trucking Co. operations, which matter was disclosed in the Company's annual report on Form 10-KSB for the year ended December 31, 2004. The Company has authorized Packer Thomas to respond fully to the inquiries of the successor accountant concerning its resignation.

On July 14, 2005, the Company retained Turner, Jones & Associates, pllc as its principal accountant to audit the Company's financial statements. The Company, during the two most recent fiscal years and the subsequent interim periods prior to the engagement of the new accounting firm, did not consult with the new accounting firm with regard

to any of the matters listed in Regulation S-B, Items 304(a)(2)(i) or (ii).

ITEM 8A. CONTROLS AND PROCEDURES.

As of December 31, 2005, the end of the year to which this annual report relates, the Company did not have any operations, and its business activities consisted of the investigation of various business opportunities. The Company believes that its controls and procedures at December 31, 2005 were appropriate for a company not engaged in operations, as was the Company at the time. After December 31, 2005, the Company purchased the Mineral Rights, and entered into an agreement to acquire the CoalGas Assets. To the extent the Company enters active business operations in the future, it will improve its internal controls and procedures to accommodate an increased level of business activity in the future.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in the Company's reports filed or submitted under the Exchange Act are recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the Company's reports filed under the Exchange Act is accumulated and communicated to management, including the our company's chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

The Company does not have an audit committee. The board has reviewed and discussed the audited financial statements with management. The board has discussed with the independent auditors all matters required to be discussed. The board has received the written disclosures and the letter from the independent accountants as required by Independence Standards Board Standard No. 1 and has discussed with the independent accountant the independent accountants' independence.

ITEM 8B. OTHER INFORMATION.

None.

PART III

ITEM 9. DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS, AND CONTROL PERSONS; COMPLIANCE WITH SECTION 16(a) OF THE EXCHANGE ACT.

Listed below are the directors and executive officers of the Company.

<u>Name</u>	<u>Age</u>	<u>Present Positions with Company</u>
Richard D. Tuorto, Sr.	61	Chairman and Chief Executive Officer
Douglas Holsted	45	Director and Chief Financial Officer

The term of office of each director of the Company ends at the next annual meeting of the Company's stockholders or when such director's successor is elected and qualifies. No date for the annual meeting of stockholders is specified in the Company's bylaws or has been fixed by the Board of Directors. Pursuant to the Company's bylaws, the date of the annual meeting is to be determined by the current Board of Directors.

During 2004, the board of directors did not have one meeting which was attended by all of the members of the board of directors at the time. All matters were resolved pursuant to Consent. The Company does not have any committees. The Company does not have an audit committee financial expert on its board of directors.

The following information sets forth the backgrounds and business experience of the directors and executive officers:

Richard D. Tuorto, Sr., Director and Chief Executive Officer Prior to becoming chairman of the Company, Mr. Tuorto acted as a private consultant arranging mergers and acquisitions in the waste industry. From September 1998 to December 1998, and from January 1996 to December 1997, Mr. Tuorto worked at WasteMasters, Inc., which acquired and operated waste disposal facilities. Mr. Tuorto has not served as a director of any other publicly traded companies in the last five years. Mr. Tuorto serves as a director of Intercontinental Holdings, Inc. (Pink Sheets: ICLH).

Douglas C. Holsted, Director and Chief Financial Officer Mr. Holsted has served as a member of the Company's Board from April 12, 2006 to the present. From 1999 to the present, Mr. Holsted has operated a private accounting and tax practice in Oklahoma. From January 1996 to May 26, 1999, Mr. Holsted was the Chief Executive Officer of Sales Equipment Company in Oklahoma City, Oklahoma, which is in the business of distributing equipment in the pressurized gas industry. From 1991 through 1995, he was the Chief Financial Officer of The Dwyer Group, Inc. of Waco, Texas, a publicly owned company in the franchise industry. Mr. Holsted is a certified public accountant licensed in the State of Oklahoma. Mr. Holsted is also an officer and director of Environmental Energy Services, Inc. (Pink Sheets: EESV).

There are no family relationships among any of the officers or directors of the Company.

None of the above directors and executive officers have been involved in any legal proceedings as described in Regulation S-B, Section 228.401(d).

Section 16(a) Compliance

Based on the Company's review of filings received by it, the Company believes that certain persons may not have filed certain forms required by Section 16 of the Securities Exchange Act of 1934, as follows:

-

Environmental Energy Services, Inc. did not file a Form 4 or 5 with respect to additional purchases of 666,667 shares of common stock in February, July, August and November 2005.

Code of Ethics

The Board of Directors has not adopted a Code of Business Conduct and Ethics.

ITEM 10. EXECUTIVE COMPENSATION.

The following table sets forth the compensation earned by the Company's Chief Executive Officers during the last three fiscal years and other officers who received compensation in excess of \$100,000 during any of the last three fiscal years. In accordance with Item 402(a)(5), the Company has omitted certain columns from the table required by Item 402(b).

Summary Compensation Table

Name and Principal Position	Year	Annual Compensation		Other Annual Compensation \$
		Salary \$	Bonus \$	
Gregory J. Gibson, CEO, Acting CFO, Secretary/Treasurer (1)	2005	--	--	--

Edgar Filing: WASTECH, INC. - Form 10KSB

	2004	--	--	--
	2003	91,484	--	--
Richard D. Tuorto, Sr., CEO, Secretary/Treasurer	2005	--	--	--
	2004	\$35,000 (2)	--	--
	2003	--	--	--

1)

Mr. Gibson was chief executive officer from March 5, 2002 to December 31, 2003. Mr. Gibson was employed under an employment agreement that provided for annual compensation of \$150,000 per year from March 5, 2002 until August 11, 2003, when it was terminated by mutual agreement of the parties. From August 11, 2003 to December 31, 2003, Mr. Gibson received no compensation for his services as chief executive officer.

2)

Based on the accrual of two months of compensation under a consulting agreement dated December 1, 2001, under which Mr. Tuorto was entitled to annual compensation of \$210,000 per year. The consulting agreement was terminated on March 18, 2004, effective as of February 29, 2004. Mr. Tuorto did not receive any compensation in 2005.

The Company did not grant any options or stock appreciation rights or make an award under any long-term incentive plan to any of its named executive officers during the last fiscal year. The Company did not reprice any options or stock appreciation rights during the last fiscal year. None of the Company's named executive officers exercised any options or stock appreciation rights during the last fiscal year.

Employment Agreements

The Company did not have any employment agreements with any of its officers as of December 31, 2005.

Compensation of Directors

The Company's current policy is to pay its directors \$400 for each board meeting attended by the director, which is payable either in cash or the common stock equivalent at the election of the director. In addition, directors are reimbursed for any reasonable expenses incurred in the connection with attendance at board or committee meetings or any expenses generated in connection with the performance of services on the behalf of the Company. The Company is currently evaluating whether its compensation policy should be modified to attract new directors.

The Company does not have an audit, compensation or nominating committee of its Board. During the 2004 fiscal year, the Company did not pay any compensation to directors for attending meetings, as all meetings occurred by telephone or by a written consent.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT.

The following table sets forth certain information, as of November 21, 2006, with respect to the beneficial ownership of the Company's Common Stock by (i) all directors of the Company (ii) each executive officer of the Company named in the Summary Compensation Table, (iii) all directors and executive officers of the Company as a group, and

Edgar Filing: WASTECH, INC. - Form 10KSB

(iv) all persons known to the Company to be the beneficial owner of more than five percent (5%) of any class of the Company's voting securities.

Name and Address of Beneficial Owner	Amount and Nature of Beneficial Ownership	Percent of Class (1)
Environmental Energy Services, Inc. 3350 Americana Terrace Suite 215 Boise, Idaho 83706-2506	33,775,767	28.8%
H.M Flood Trust 5809 Raven Drive Charleston, West Virginia 25306	11,750,000	10.0%
Richard D. Tuorto, Sr. (2) 3 Broad Street, Suite 3A Charleston, South Carolina 29401	11,691,016	10.0%
Douglas Holsted (2) Environmental Energy Services, Inc. 3350 Americana Terrace Suite 215 Boise, Idaho 83706-2506	2,644,758	2.3%
All Officers and Directors as a Group	14,335,774	12.2%

(1)

Based upon 117,217,407 shares issued and outstanding as of November 21, 2006.

(2)

Mr. Tuorto's shares include 2,582,002 shares that he owns outright, and 9,109,014 shares owned by Intercontinental Holdings, Inc., of which he is an officer and director.

(3)

Mr. Holsted's shares include 300,000 shares that he owns outright, and 2,344,758 shares owned by GECL Merger, Inc., of which he is the sole shareholder. Mr. Holsted's shares do not include any shares owned by Environmental Energy Services, Inc., of which he is an officer and director. However, Mr. Holsted, along with the other directors of Environmental Energy Services, Inc., may have the power to vote and dispose of any shares owned by Environmental Energy Services, Inc.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

During the last two years, the Company has been a party to the following transactions with related parties.

Richard D. Tuorto, Sr.

In the quarter ended September 30, 2006, the Company accrued a finder's fee of \$93,500 payable to Richard D. Tuorto, Sr., the Company's chairman and chief executive officer, arising out of the Company's entry into agreements with USA CoalGas, L.P. and Internal Hydro International, Inc.

Richard D. Tuorto, Jr.

In 2004, the Company paid Richard D. Tuorto, Jr. \$25,000 for accounting and administrative services. Mr. Tuorto is the son of Richard D. Tuorto, Sr., the Company's chairman and chief executive officer.

William L. Tuorto

On June 21, 2003, the Company entered into an agreement with William L. Tuorto, the son of Richard D. Tuorto, Sr., to perform up to 144 hours of legal services per month for \$12,240 per month. The agreement originally had a term of three years. On April 1, 2004, following the Company's holding company restructuring, the Company executed a new agreement containing the same terms, except it expires on March 31, 2008.

In September 2004, the Company issued Mr. Tuorto 3,489,358 shares of common stock in satisfaction of \$226,808 of accrued compensation under a prior employment agreement. In August 2005, the Company and Mr. Tuorto entered into a mutual rescission agreement, under which the Company and Mr. Tuorto rescinded the issuance of 3,489,358 shares of common stock issued to him in September 2004.

Office Lease

On February 1, 2003, the Company entered into a two-year term sublease agreement with Intercontinental Holdings, Inc. for office space in Charleston, South Carolina. Richard D. Tuorto, Sr. and Gary Mays, the Company's former Director and Chief Executive Officer, are both officers and directors of Intercontinental Holdings, Inc. In April 1, 2004, the Company entered into a nine-month sublease of the same space from Intercontinental Holdings, Inc. at a slightly higher rent. On May 1, 2005, the Company entered into a lease of the same space directly with the owner of the building, who is not a related party to the Company.

Effective January 1, 2005, the Company orally agreed to sublease some of its office space to an entity affiliated with Richard Tuorto, Sr. for \$1,000 per month. Effective January 1, 2006, an entity affiliated with Richard Tuorto, Sr. orally agreed to pay the Company management fees of \$3,000 per month, which included the use of the office space covered by the oral sublease dated January 1, 2005.

Environmental Energy Services, Inc.

In September 2002, the Company entered into the EES Agreement with EES, under which EES committed to purchase shares of common stock in the Company. The EES Agreement was amended in April 2003, November 2003

and April 2006. Under the November 2003 amendment, EES agreed to purchase shares worth \$60,000 per quarter to the extent there were proceeds available under a technology royalty owned by EES. The purchase price under the November 2003 amendment is the greater of \$0.09 per share or the market price of the Company's common stock. The April 2006 amendment increased the amount that EES agreed to purchase on a quarterly basis to \$75,000 per quarter. As of November 20, 2006, EES had purchased 21,597,764 shares of common stock under the EES Agreement, as amended, at a total cost of \$1,644,811.63.

In April 2006, the Company entered into the 2006 EES Agreement with EES, under which EES agreed to purchase 37,430,000 shares of common stock for \$0.05 per share, for a total purchase price of \$1,871,500. Under the 2006 EES Agreement, EES agreed to purchase \$741,500 of shares on April 13, 2006 and another \$1,130,000 of shares on August 25, 2006. The Company intended to use the first installment of the 2006 EES Agreement to make the initial installment due under an agreement to purchase certain mineral rights in West Virginia, and the second installment to make a \$980,000 payment due for the West Virginia mineral rights on August 25, 2006. EES made the initial stock purchase on April 13, 2006, but did not make the subsequent stock purchase due on August 25, 2006. As a result, the Company was not able to make the payment of \$980,000 that was due on August 25, 2006. The Company obtained an extension of time to make the payment until October 7, 2006, but was not able to make the payment on that date either. As a result, the seller of the mineral rights has sued the Company's subsidiary which purchased the mineral rights to recover amounts due the seller.

In June 2006, the 2006 EES Agreement was amended to increase the number of shares to be purchased thereunder by 5,000,000 shares, which would result in additional proceeds to the Company of \$250,000; however, the amendment provides no timetable for receipt of the proceeds. The amendment provides that the proceeds are to be used to repurchase shares of the Company's common stock on the open market.

NewWaste, Inc.

On October 1, 2004, NewWaste, Inc. loaned the Company \$200,000 pursuant to a promissory note that bears interest no interest and is due and payable in full on October 1, 2006. The Company did not pay the note on October 1, 2006, and it remains in default. The Company owns a 50% non-controlling interest in NewWaste, Inc.

Bruce Blaser

On April 30, 2003, Bruce Blaser loaned the Company \$50,000 pursuant to a promissory note that that bears interest at the rate of 20% per annum and was due and payable on August 15, 2003. The Company issued Mr. Blaser 150,000 shares of common stock in satisfaction of interest on the note for the first 90 days. The note was not paid on its due date, and is still outstanding. Mr. Blaser is the brother of A. Leon Blaser, who is an advisory board member of the Company, and is the chairman and chief executive officer of EES.

(b) Reports on Form 8-K. The Company filed a Report on Form 8-K on October 12, 2005 reporting in Item 4.01 on the retention of Turner, Jones & Associates, pllc, as the Company's independent public accountants.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

In the last two fiscal years ended December 31, 2005 and 2004, the retained Turner, Jones & Associates, P.L.L.C. ("TJA") and Packer Thomas, P.C., respectively, as its principal accountants. The Company understands the need for its principal accountants to maintain objectivity and independence in their audit of its financial statements. To minimize relationships that could appear to impair the objectivity of our principal accountants, the Company's board has restricted the non-audit services that its principal accountants may provide to the Company primarily to tax services and audit related services. The Company is only to obtain non-audit services from its principal accountants when the services offered by its principal accountants are more effective or economical than services available from other service providers, and, to the extent possible, only after competitive bidding.

After careful consideration, the board has determined that payment of the audit fees was in conformance with the independent status of the Company's principal independent accountants.

Audit Fees: The aggregate fees billed for the fiscal years ended December 31, 2005 and 2004 for professional services rendered by the principal accountant for the audit of the Company's annual financial statements and the review of financial statements included in its filed Form 10-QSB's is \$35,000 and \$35,000, respectively.

Audit-Related Fees: The aggregate fees billed for the fiscal years ended December 31, 2005 and 2004 for assurance and related services by the principal accountant that are reasonably related to the performance of the audit or review for the audit or review of our annual financial statements and the review of financial statements and are not reported under the previous item, Audit Fees, was \$0 and \$0 respectively.

Tax Fees: The aggregate fees billed separately for the fiscal years ended December 31, 2005 and 2004 for professional services rendered by the principal accountant for tax compliance and tax planning was \$0 and \$0, respectively. The aggregate audit fees billed for 2005 and 2004 also included the preparation of income tax returns for each year.

All Other Fees: The aggregate fees billed for the fiscal years ended December 31, 2005 and 2004 for products and services provided by the principal accountant other than the services reported above was \$0 and \$0, respectively.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors

Wastech, Inc.

(Formerly Corporate Vision, Inc.)

We have audited the accompanying consolidated balance sheet of Wastech, Inc. formerly Corporate Vision, Inc. and Subsidiaries (the Company) as of December 31, 2005 and the related consolidated statements of operations, stockholders' equity, and cash flows for the years ended December 31, 2005 and 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Wastech, Inc. formerly Corporate Vision, Inc. and Subsidiaries as of December 31, 2005 and the consolidated results of its operations and changes in stockholders' equity and its cash flows for the years ended December 31, 2005, and 2004 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in the footnotes, all operating activities have ceased. Without substantial input of equity capital, the Company will not be able to resume meaningful revenue-producing activities. Those conditions raise substantial doubt about the Company's ability to continue as a going concern. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE A ORGANIZATION AND DESCRIPTION OF BUSINESS

Wastech, Inc. (the "Wastech") was incorporated under the laws of the State of Oklahoma in March 2004 as a holding company formed from Corporate Vision, Inc., an Oklahoma corporation ("CVI"). Effective March 18, 2004, Wastech and CVI completed a holding company reorganization under which CVI merged with and into CV Merger, Inc. ("CVM"). Prior to the merger, Wastech was a wholly-owned subsidiary of CVI, and CVM was a wholly owned subsidiary of Wastech. Pursuant to the holding company reorganization, each share of capital stock of CVI was automatically converted into one share of capital stock of Wastech with same rights and preferences. Prior to the holding company reorganization, CVI's common stock was registered under Section 12(g) of the Securities Exchange Act of 1934, and as such it was subject to the report requirements of Sections 13 and 15 of the Securities Exchange Act of 1934. Wastech is a successor to CVI for purposes of reporting under pursuant to Rule 12g-3(a) under the Securities Exchange Act of 1934. When used herein, the "Company" shall refer to either CVI or Wastech, as appropriate.

CVI was incorporated in Oklahoma on November 20, 1990. The Company went through a variety of business ventures, mostly associated with the technology industry, from the date of inception through 1996. In 1997, the Company discontinued its primary operations and liquidated the majority of its assets.

In 1998, the Company reentered the development stage after the remaining board members reactivated the Company and changed its primary business focus to providing investment and merchant banking services to privately held companies interested in making an initial public offering.

In 2001, a new board of directors and new officers were appointed. Under the direction of the new management team, the Company acquired Southeastern Research and Recovery, Inc. ("SRR") a waste disposal company in the business of solidifying non-hazardous liquid waste, operating in the Southeastern United States. During December 2002, the Company sold SRR to GulfTex Energy Corporation.

In March 2002, the Company acquired Stony's Trucking Company and Subsidiaries ("Stony's"). Stony's is engaged in local and long-distance hauling of various products under operating authorities granted by the Interstate Commerce Commission. Additionally, the Company commenced operations at a newly formed subsidiary CV Transportation, Inc., which is designed to gain efficiency in backhauling freight. In August 2003, the Company sold substantially all the assets of Stony's to a third party.

NOTE B SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation and Basis of Presentation

The consolidated financial statements include the accounts and results of operations of the Company and its wholly owned subsidiary, CV Transportation, Inc. (CVT). Intercompany transactions and balances have been eliminated in consolidation. In February 2004, the Company's interest in CVT was transferred in exchange for a fifty percent (50%) interest in CV Logistics, LLC.

Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Concentration of Credit Risks

The Company sells services and extends credit based on an evaluation of the customer's financial condition, without requiring collateral. Exposure to losses on receivables is principally dependent on each customer's financial condition. The Company monitors its exposure for credit losses and maintains allowances for anticipated losses.

Property and Equipment

Property and equipment are recorded at cost and are depreciated on a straight-line basis over the estimated useful life of the asset, from 3 to 20 years. Depreciation expense for the year ended December 31, 2005 and 2004 was \$537 and \$193, respectively.

Expenditures for repairs and maintenance are charged to income, and renewals and replacements are capitalized. When assets are retired or otherwise disposed of, the cost of the assets and the related accumulated depreciation are removed from the accounts.

Estimated useful lives are as follows:

Furniture, fixtures and equipment	5-10 years
Leasehold improvements	10 years
Vehicles	5 years
Computer and software	5 years

Investments

Investments in other companies in which the Company owns less than a majority interest are stated at fair value as estimated by management.

Revenue and Expense Recognition

When incurred, revenues are recognized when earned. Related expenses are recognized as incurred.

Potential Environmental Liability

The Company may have incurred liabilities for the deterioration of the environment as a result of its future operations, and may incur environmental liabilities as a result of future operations. Any substantial liability for environmental damage could materially adversely affect the operating results and financial condition of the Company. Since the Company has no insurance coverage for environmental liabilities, if the Company were to incur liability for environmental damage, its business and financial condition could be materially adversely affected.

Influence of Government Regulation

The Company's prior and potential operations are and would be subject to, and substantially affected by, extensive federal, state and local laws, regulation, orders and permits, which govern environmental protection, health and safety, zoning and other matters. These regulations may impose restrictions on operations that could adversely affect the Company's results, such as limitations on the expansion of disposal facilities, limitations on or the banning of disposal of out-of-state waste or certain categories of waste or mandates regarding the disposal of solid waste. Because of heightened public concern, companies in the waste management business may become subject to judicial and administrative proceedings involving federal, state or local agencies. These governmental agencies may seek to impose fines or to revoke or deny renewal of operating permits or licenses for violations of environmental laws or regulations or to require remediation of environmental problems at sites or nearby properties, or resulting from

transportation or predecessors transportation and collection operations, all of which could have a material adverse effect on the Company. Liability may also arise from actions brought by individuals or community groups in connection with the permitting or licensing of operations, any alleged violations of such permits and licenses or other matters. The Forward Looking Statements assume that there will be no materially negative impact on its operations due to governmental regulation.

Fair Value of Financial Instruments and Derivatives

The carrying amounts reflected in the consolidated balance sheets for all financial instruments excluding investments approximates the respective fair values due to the short maturities of those instruments and/or a minimal differential between variable and fixed interest rates for debt. Investments are recorded at fair value in the consolidated balance sheets. The fair values are based on quoted market prices or management's estimated of fair value for non-publicly traded investments. The primary derivative financial instruments the Company uses are interest rate swaps as part of its overall risk management policy. The Company does not use derivative financial instruments for trading or speculative purposes.

Impairment of Long-Lived Assets

The Company reviews the carrying values of its long-lived assets for possible impairment on an annual basis and whenever events or changes in circumstances indicate that the carrying amount of the assets should be addressed. The Company believes that no permanent impairment in the carrying value of long-lived assets exists for either of the two years ending December 31, 2005 and 2004.

Income Taxes

Deferred income taxes are recognized for the tax consequences of temporary differences between the financial statement carrying amounts and the tax bases of existing assets and liabilities and operating losses and tax credit carry forwards by applying enacted statutory tax rates applicable to future years. The effect on deferred taxes for a change in tax rates is recognized in income in the period that includes the enactment date. Management provides valuation allowances against the deferred tax asset for amounts that are considered more likely than not to be realized.

The Corporation uses Statement of Financial Standards No. 109 Accounting for Income Taxes (SFAS No. 109) in reporting deferred income taxes. SFAS No. 109 requires a company to recognize deferred tax liabilities and assets for expected future income tax consequences of events that have been recognized in the company's financial statements. Under this method, deferred tax assets and liabilities are determined based on temporary differences in financial carrying amounts and the tax bases of assets and liabilities using enacted tax rates in effect in the years in which temporary differences are expected to reverse.

Comprehensive Income

The Company has adopted Statement of Financial Accounting Standards No. 130 Reporting Comprehensive Income. Comprehensive income as defined includes all changes to equity except that resulting from investments by owners and distribution to owners. The Company has no item of comprehensive income to report.

Use of Estimates

The process of preparing the Company's consolidated financial statements in conformity with generally accepted accounting principles requires management to use estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Advertising Cost

The Company maintains a policy of expensing advertising costs when incurred. The Company incurred no advertising expense in the years ended December 31, 2005 and 2004.

Liquidity

The Company's consolidated balance sheet as of December 31, 2005 reflects cash and equivalents of \$1,000, total current assets of \$7,000 at historical cost, total current liabilities of \$403,229, and a working capital deficit of (\$396,229). Most of the Company's current liabilities represent legal, management and auditing fees that are paid each quarter, or loans from related parties.

Earnings Per Share

Basic earnings (loss) per common share is based on net (loss) attributable to common shares less preferred stock dividend requirements divided by weighted average number of common shares outstanding during the period. Diluted earnings per common share assumes issuance of the net incremental shares from stock options and full conversion of all dilutive convertible securities at the later of the beginning of the year or the date of issuance. During a loss period, the assumed exercise of convertible securities shares has an antidilutive effect. Therefore, these securities would not be included in the calculation of weighted average shares in a loss period.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

Valuation of Stock Issued for Goods and Services

The Company has adopted Emerging Issues Task Force (EITF) Issue No. 96-18, Accounting for Equity Instruments That are Issued for Sales of Goods and Services to Other Than Employees. Once the other party is committed to perform under contract, the Company measures the fair value of the equity instrument to be issued. Accordingly, such issuances are accounted for based on the fair value of the goods or services received.

NOTE C ACQUISITION

In November 2002, the Company licensed the rights to a series of patents to an alternative system for transporting waste by means of specialized containers (hereinafter, the "Jezco Patents"). The Jezco Patents concern an innovative means of containerizing waste materials for transportation via traditional flatbed and box-van trailers commonly used in the transportation of goods and commodities. The system allows otherwise undesirable materials to be transported through means previously unavailable. By providing additional transportation options, the Jezco Patents facilitate the disposal of waste generated in areas with high disposal costs, such as the Northeast, to areas with low disposal costs, such as the Mid-Atlantic States. Since licensing the Jezco Patents, the Company, through its subsidiary CV Transportation, Inc. ("CVT"), has been testing the concept at various disposal sites in the Northeast. The Jezco Patents are identified by the United States Patent and Trademark Office (USPTO) as numbers 5,281,073, "apparatus for the transport and management of liquid bearing waste;" 5,873,593, "piggyback truck transport system;" 6,019,565, "container lifting and transport apparatus;" and 6,149,373, "rim engaging container manipulation apparatus."

In February 2004, the Company entered into an Agreement with McRal Co. ("McRal") to provide managerial expertise and financial support for its alternative waste transportation and disposal operations. Under the Agreement with McRal:

Formation of CV Logistics, LLC: the Company contributed its interest in CVT to CV Logistics, LLC (CVL), a newly formed, Ohio limited liability company, for a 50% interest therein. Simultaneously, CVL issued a 50% equity interest to NewWaste, Inc., a Delaware corporation that was a wholly owned subsidiary of McRal. Subsequent to closing, CVL acquired approximately \$400,000 in transportation assets from Stony s and Gibson. The board of managers of CVL is composed to two designees of McRal and one designee of the Company.

Conveyance of Jezco Patents to NewWaste: NewWaste issued 24 shares of common stock to McRal in consideration of a capital contribution of \$500,000. NewWaste also issued 24 shares of common stock to the Company and paid the Company \$250,000 cash in consideration for an assignment of the license to use the Jezco Patents. The board of directors of NewWaste is composed of two designees of McRal and one designee of the Company.

Additional Agreements: The agreement further provided that certain additional transactions would take place within forty-five days after the date of the agreement:

•

McRal agreed to (a) invest an additional \$750,000 into NewWaste, and (b) cause an individual experienced in the waste management industry to sign an exclusive services contract with NewWaste. In the event McRal invested an additional \$750,000 in capital in NewWaste, McRal would be entitled to receive an additional 36 shares of NewWaste common stock. In the event McRal completed both items, McRal would further be entitled to receive shares of common stock of the Company representing 9% of its common stock on a fully diluted basis. McRal did not invest an additional \$750,000 into NewWaste, nor did it procure the exclusive services contract with the named individual, by the deadline, and therefore is not entitled to an additional 36 shares of common stock in NewWaste.

•

NewWaste and Richard D. Tuorto, Sr., the Company's chairman, entered into a nonexclusive, one-year services agreement under which Mr. Tuorto provided managerial services to NewWaste.

•

The Company and Mr. Tuorto agreed to negotiate an agreement under which NewWaste would acquire the Jezco Patents from the owner and inventor. In connection with the undertaking, the Company agreed to issue 2,000,000 shares of its common stock to acquire the Jezco Patents. In the event the shares of common stock are not utilized to acquire the Jezco Patents, the shares of common stock are to be issued to NewWaste. To date, the Company and Mr. Tuorto have yet to procure an agreement for NewWaste to acquire the Jezco Patents, and therefore the Company is obligated to issue 2,000,000 shares of its common stock to NewWaste, but has not done so to date.

•

The Company agreed to use its best efforts to acquire at least 60% of the issued and outstanding common stock (the "ABS Stock") of Absolute Waste Services, Inc. ("ABS"), which is a waste transportation and disposal firm based in Texas. If the Company is unable to acquire the ABS Stock, the Company is entitled to propose to McRal that a controlling interest be obtained in a similar waste operation, with appropriate adjustments to the rights and liabilities of the parties.

•

In the event the Company acquires the ABS Stock, the Company is obligated to convey to NewWaste shares of ABS Stock representing ownership of 9% of the common stock of ABS on a fully diluted basis. In addition, the Company would be obligated to convey NewWaste additional shares of ABS Stock to the extent necessary to maintain

NewWaste's ownership of ABS at 9% of the outstanding shares on a fully diluted basis.

•

NewWaste will have the option to acquire ABS Stock owned by the Company for a price per share equal to the greater of a) two (2) times earnings before interest, taxes, depreciation and amortization, divided by the total number of shares of ABS outstanding on a fully-diluted basis, and b) \$0.50 per share. The option can only be exercised between the first (1st) and fifth (5th) anniversary of the acquisition of the ABS Stock. The Company was not able to complete the acquisition of ABS or any alternative entity.

•

In the event NewWaste acquires the Jezco Patents, enters into a services agreement with Mr. Tuorto, and acquires the ABS Stock, the Company is entitled to receive an additional 24 shares of NewWaste common stock. To date, the only condition to issuance of the additional 24 shares of NewWaste common stock that has been satisfied has been the execution of a services agreement with Mr. Tuorto, and therefore the Company is not entitled to the issuance of an additional 24 shares of common stock in NewWaste.

•

At time of execution of the agreement, McRal executed a conditional assignment, under which it agreed to assign its interest in any common stock of NewWaste, and any rights under the agreement, to TTI Technologies, Inc. in the event McRal failed to both make an additional \$750,000 investment in NewWaste and procure an exclusive services agreement with that certain individual experienced in the waste management industry. McRal failed to satisfy either condition, and as a result TTI Technologies, Inc. exercised its rights under the conditional assignment.

On October 1, 2004, the Company received a \$200,000 loan from NewWaste. The loan is a non-interest-bearing, unsecured loan that matures in October 2006. The loan was not repaid on its due date, and remains in default.

NOTE D EARNINGS PER SHARE

The computations of basic and dilutive loss per share were as follows:

	December 31,	
	<u>2005</u>	<u>2004</u>
Net income (loss) attributable to common shares	(\$ 121,479)	(\$ 261,386)
Weighted average common shares	79,988,289	78,930,072
Basic and dilutive income (loss) per common share	(\$0.00)	\$0.00

NOTE E INCOME TAXES

Deferred tax assets are recognized for deductible temporary differences and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases.

Management has provided a valuation allowance for the total net deferred tax assets as of December 31, 2005 and 2004, as they believe that it is more likely than not that the entire amount of deferred tax assets will not be realized.

The company filed a consolidated return, with a tax liability of \$0 for the year 2005. At December 31, 2005, the Company had net operating loss carry forwards for federal income tax purposes of approximately \$7,100,000 which are available to offset future taxable income, if any, on a scheduled basis beginning 2006.

NOTE F COMMITMENTS AND CONTINGENCIES

The Company leases office space for its administrative offices under a lease expiring in 2007. Minimum future rental payments under non-cancelable leases as of December 31, 2005 were:

<u>Year ended December 31,</u>	<u>Amount</u>
2006	24,032
2007	20,766
Thereafter	0
Total minimum future rental payments	\$44,798

The above leases provide for renewal options for periods through 2007. In the normal course of business, operating leases are generally renewed or replaced by other leases. Rental expense amounted to \$30,855 and \$30,000 in 2005 and 2004, respectively.

In the 1990's, the Company issued its Series A non-cumulative convertible preferred stock. Subsequent to the issuance of the Series A preferred stock, the Company declared three forward stock splits, but adjusted the number of shares of Series A preferred stock with respect to one of such stock splits. The terms of the Series A preferred stock required two 20% share dividends on August 15, 2003 if certain conditions failed to occur, and the automatic conversion of each share of Series A preferred stock into ten (10) shares of common stock on September 30, 2003. On September 30, 2003, the Company issued 2,201,679 shares of common stock in conversion of the Series A preferred stock. If the number of shares of preferred stock were adjusted proportionately for all three stock splits, the Company would be obligated to issue an additional 6,604,805 shares of common stock to the holders of the Series A preferred stock. The Company does not believe that the holders of preferred stock are entitled to the issuance of additional preferred stock in connection with the stock splits.

NOTE G RELATED PARTY TRANSACTIONS

The Company and its subsidiaries had, from time to time, received and repaid various loans from the Company's officers and directors, as well as entities that they control. In addition, the Company incurred indebtedness to Mr. Gibson in connection with its acquisition of Stony's from him. Also, at the time the Company acquired Stony's, it was obligated on various loans it had received from Mr. Gibson, as well as his mother. As of December 31, 2005 and 2004, the amount owed to officers, directors and other related parties by the Company and its subsidiaries for loans (but not accrued compensation) was as follows:

	<u>2005</u>	<u>2004</u>
NewWaste, Inc.	\$ 200,000	\$ 200,000
William L. Tuorto	-0-	-0-
Bruce Blaser	50,000	50,000
Total	\$ 250,000	\$ 250,000

Other Related Party Transactions during the 2004 Fiscal Year

On September 14, 2004, the Company issued William L. Tuorto 3,489,358 shares of common stock in satisfaction of \$226,808 in compensation due to Mr. Tuorto.

During 2004, the Company issued shares of common stock to Environmental Energy Services, Inc. (EES). (See Note H, I and N). An advisory board member of the Company is also the chairman and chief executive officer of EES.

In 2004, Richard D. Tuorto, Jr. was paid \$25,000 for accounting and administrative services. Mr. Tuorto is the son of the Company's chairman and chief executive officer.

As of December 31, 2004, the Company was indebted to certain related parties for accrued compensation as follows:
Richard D. Tourto, Sr. - \$89,017.

Other Related Party Transactions during the 2005 Fiscal Year

On August 12, 2005, the Company cancelled 3,950,702 shares of common stock of four employees/independent contractors in conjunction with the mutual rescission of their service agreements with the Company.

During 2005, the Company issued shares of common stock to Environmental Energy Services, Inc. (EES). (See Note H, I and N). An advisory board member of the Company is also the chairman and chief executive officer of EES.

As of December 31, 2005, the Company was indebted to certain related parties for accrued compensation as follows:
Richard D. Tourto, Sr. - \$55,842.

NOTE H 2002 STOCK PURCHASE AGREEMENT WITH ENVIRONMENTAL ENERGY SERVICES, INC.

In September 2002, the Company entered into a Stock Purchase Agreement to sell up to 20,000,000 shares of its common stock to Environmental Energy Services, Inc. (EES) for \$0.125 per share, for a total purchase price of \$2,500,000. Under the agreement, EES was obligated to purchase such common stock in installments equal to fifty (50%) of the amount it receives under a technology royalty, up to a maximum of \$2,500,000. In April 2003, the Company and EES amended the agreement to provide that all royalty payments not used to satisfy prior liens would be used to purchase shares of the Company's common stock under the Agreement. EES granted the Company a security interest in EES's interest in the royalty agreement to secure its obligation to purchase the shares. An advisory board member of the Company is the chairman and chief executive officer of EES, and owns shares of common stock in the Company.

In April 2003, EES received its first distribution under the royalty agreement. After satisfying prior liens on the royalty distribution, EES paid the Company \$1,672,948 to purchase 13,383,580 shares of common stock of the Company. The Company simultaneously loaned EES \$844,483 pursuant to a promissory note dated April 7, 2003 which bears interest at five percent (5%) per annum, and is secured by a lien on EES's interest in the royalty agreement. In connection with the initial royalty distribution, the Company and EES agreed that all distributions on the royalty agreement to which the Company is entitled shall be applied in the following manner: first to the payment of costs, interest and principal due under the April 7, 2003 note, second to the purchase of additional shares of Company common stock under the September 2002 Agreement, and third to the purchase of shares of GEC common stock from the Company.

Under the September 2002 Agreement, EES had the right to terminate its obligation to purchase shares in the event there is a materially adverse change in the business or financial condition of the Company. On August 13, 2003, following the sale of the Company's trucking operations, EES sent the Company a letter notifying the Company of its decision to terminate its obligation to purchase shares of the Company's common stock under the EES Agreement on

the grounds that a material adverse change had occurred in the Company's financial condition. Following the receipt of the letter from EES, the Company and EES renegotiated the EES Agreement, the material terms of which are as follows:

•

EES was deemed to have purchased all shares of common stock purchased to date (13,383,580 shares) for all payments made to the Company to date, net of amounts loaned back to the Company by EES. That resulted in a total purchase price for the shares already purchased of \$905,535, or \$0.0676601 per share, instead of \$0.125 per share as specified in the original EES Agreement. As a result, the Company agreed to cancel the April 7, 2003 note from EES in the original principal amount of \$844,483.

•

EES agreed to use \$1,100,000 of payments from the technology royalty to purchase additional shares of common stock from the Company on the following schedule: \$20,000 from the royalty payment due for the quarter ended June 30, 2003, and \$60,000 from the royalty payment due for all succeeding quarters. The purchase price of each share purchase will be the greater of \$0.09 per share or the average market price of the Company's common stock for the five days preceding the receipt of each royalty payment.

•

EES no longer has the right to terminate its purchase commitment based on an existing or future material adverse change in the Company's business or financial condition. Instead, EES only has the right to terminate its purchase commitment in the event the Company fails to deliver certificates for any installment purchase to EES prior to the due date of the next installment, or if the Company has a custodian, receiver or trustee appointed for it or a substantial part of its assets, or if the Company voluntarily commences any proceeding under any bankruptcy, reorganization, arrangement, readjustment of debt, dissolution or liquidation law or statute of any jurisdiction, or an involuntary proceeding is commencement and not dismissed within ninety (90) days.

Under a separate Stock Purchase Agreement between EES and the Company dated April 12, 2006, EES agreed to increase the amount purchasable under the EES Agreement by \$15,000 per quarter, to \$75,000 per quarter.

NOTE I GULFTEX ENERGY CORPORATION STOCK PURCHASE AGREEMENT AND AMENDMENTS

In December 2002, the Company entered into another stock purchase agreement (the GulfTex Agreement) with EES, under which EES agreed to utilize amounts it receives under the above-described technology royalty to acquire certain shares of common stock in GulfTex that the Company received from the sale of a subsidiary to GulfTex. EES granted the Company a security interest in EES's interest in the royalty agreement to secure its obligation to purchase the shares. EES has the right to terminate its obligation to purchase the GulfTex shares in the event there is a materially adverse change in the business or financial condition of GulfTex.

In August 2003, EES also purported to terminate its obligation to purchase shares of GulfTex stock under the GulfTex Agreement due to a material adverse change in the condition of GulfTex. The Company and EES then renegotiated the GulfTex Agreement to defer the first purchase of GulfTex stock thereunder until the royalty payment for the quarter ended December 2005. Thereafter, GulfTex went out of business, and its common stock is believed to be worthless. As a result, in May 2005, EES terminated its obligation to purchase GulfTex shares under the GulfTex Agreement. The Company has chosen not to contest the decision.

NOTE J GOING CONCERN

The Company's financial statements have been presented on the basis that it is a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the accompanying financial statements, the Company had a deficit in stockholders' equity, significant unpaid account payable and accrued liabilities, and is in default on certain debt. These factors create an uncertainty about the Company's ability to continue as a going concern. The Company's management has developed a plan to raise additional capital, and expand the business. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE K ISSUANCE OF COMMON STOCK

During 2005 and 2004, the Company issued EES 3,333,335 and 2,000,000 shares of common stock for cash investments of \$300,000 and \$180,000, respectively.

On September 14, 2004, the Company issued William L. Tuorto 3,489,358 shares of common stock in satisfaction of \$226,808 in compensation due to Mr. Tuorto.

NOTE L WASTECH, INC. REORGANIZATION

On March 18, 2004, the Company completed a holding company reorganization, under which CVI merged with and into CV Merger, Inc. ("CVM"), an Oklahoma corporation. Prior to the reorganization, Wastech was a wholly owned subsidiary of CVI, and CVM was a wholly owned subsidiary of Wastech. The reorganization was effected for the purpose of reorganizing CVI as a holding company, under which Wastech is now the parent company with the exact same shareholder base that CVI had prior to the reorganization. All of the former assets, liabilities and operations of CVI are now held by CVM by virtue of its position as the successor in interest to CVI in the reorganization. The merger was effected without shareholder approval of Wastech, CVM or CVI pursuant to Section 1081(G) of the Oklahoma General Corporation Law. The common stock of the Wastech has identical rights, terms and privileges as the common stock of CVI.

Pursuant to the reorganization, each share of common stock of CVI became entitled to receive one share of common stock of Wastech and each option, warrant or other instrument convertible or exchangeable into shares of common stock or preferred stock of CVI automatically became convertible into an equivalent number shares of common stock or preferred stock of Wastech.

The effective date of the reorganization was March 18, 2004. All of the outstanding certificates of CVI representing shares of stock of CVI shall be deemed for all purposes to evidence ownership of and to represent the shares of Wastech, as the case may be, into which the shares of stock of CVI represented by such certificates have been converted as herein provided and shall be so registered on the books and records of Wastech and its transfer agent. The registered owner of any such outstanding certificate shall, until such certificate shall have been surrendered for transfer or otherwise accounted for to Wastech or its transfer agent, have and be entitled to exercise any voting and other rights with respect to, and to receive any dividends and other distributions upon, the shares of stock of Wastech, as the case may be, evidenced by such outstanding certificate.

Prior to the reorganization, the Company's common stock was traded on the Pink Sheets under the symbol "CVIA." Following the reorganization, the Company received a new cusip number for its common stock, and a new trading symbol, "WTCH".

On March 18, 2004, the Company sold CV Merger, Inc. ("CVM"), a wholly owned subsidiary, to an unrelated third party for \$10. At the time of the sale, CVM had minimal assets, substantial accounts payable and contingent lawsuits against it.

Immediately following the reorganization, Wastech purchased certain assets from CVM for the assumption of certain indebtedness of CVM. Among the assets transferred were the 5,250,000 shares of common stock of GulfTex, CVM's 50% interests in CVL and NewWaste, Inc., a royalty payable by Filbin International, Inc., the notes receivable from Stony's in the amount of \$43,500, and miscellaneous office equipment. The liabilities assumed included notes payable in the original principle amounts of \$100,000, plus accrued interest, and accrued consulting and employment expenses and taxes payable in the aggregate amount of \$343,765. The total indebtedness assumed is approximately \$443,765. In determining the fair value of the assets transferred, the parties considered the historical cost for the asset, legal circumstances and disputes concerning certain assets, and the nature of any market for the assets.

NOTE M- CHANGES IN REGISTRANT'S CERTIFYING ACCOUNTANT

On May 27, 2005, the Company was notified by Packer Thomas, PC ("Packer Thomas") that it had resigned as independent accountants. Packer Thomas' report for the year ended December 31, 2002 does not contain an adverse opinion or disclaimer of opinion, and was not modified as to audit scope, or accounting principles. However Packer Thomas' report was modified because of the substantial doubt about the Company's ability to continue as a going concern. During the periods from March 5, 2002 through May 27, 2005, there were no disagreements with Packer Thomas and the Company on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which, if not resolved to the former accountant's satisfaction, would have caused it to make reference to the subject matter of the disagreement(s) in connection with its report.

Packer Thomas did not advise the Company of any of the matters described in Item 304(a)(1)(iv)(B), except that in connection with its report for the year ended December 31, 2002, Packer Thomas advised the Company that it lacked adequate internal controls at its Stony's operations, which matter was disclosed in the Company's annual report on Form 10-KSB for the year ended December 31, 2002.

On July 14, 2005, Wastech retained Turner, Jones & Associates, pllc as its principal accountant to audit Wastech's financial statements. Wastech, during the two most recent fiscal years and the subsequent interim periods prior to the engagement of the new accounting firm, did not consult with the new accounting firm with regard to any of the matters listed in Regulation S-B, Items 304(a)(2)(i) or (ii).

NOTE N SUBSEQUENT EVENTS

On June 13, 2006, the Company issued CLX & Associates, Inc. 5,000,000 shares of common stock in consideration for public relations services.

Purchase of West Virginia Mineral Rights.

On March 26, 2006, the Company, through a wholly-owned subsidiary, Wastech of West Virginia, Inc., a West Virginia corporation ("Wastech WV"), entered into an Assignment Agreement with H.M. Flood Business Trust Ltd (the "Flood Trust"), under which Wastech WV agreed to purchase the rights of the Flood Trust to acquire approximately 44,000 acres of subsurface coal, coal bed methane and all other mineral rights in various counties in West Virginia, as well as 5,898.49 acres of oil and gas reserves in Fayette County, West Virginia (the "Mineral Rights"). The Flood Trust held the right to acquire the Mineral Rights under contracts with H3, LLC ("H3") dated February 26, 2006. On April 13, 2006, Wastech WV and the Flood Trust amended the Assignment Agreement.

On April 14, 2006 a simultaneous closing was held under the contracts between H3 and the Flood Trust, and the Assignment Agreement between the Flood Trust and Wastech WV. Under the contracts between H3 and the Flood Trust, the Flood Trust agreed to pay a total of \$520,000 for the Mineral Rights. Under the Assignment Agreement, as amended, Wastech WV agreed to pay the following amounts for the Mineral Rights:

-

\$525,000 paid on April 14, 2006 to H3, consisting of the Flood Trust's purchase price for the Mineral Rights, plus an additional \$5,000 for attorney's fees for H3's attorney's fees;

•

\$181,500 paid on April 14, 2006 to the Flood Trust;

•

\$980,000 cash payable to the Flood Trust on August 25, 2006;

•

11,750,000 shares of common stock of the Company issuable to the Flood Trust; and

•

A promissory note of Wastech WV in the amount of \$4,000,000 due and payable in full on April 13, 2009 without interest, provided that, in consideration for the payment of \$175,000 by Wastech WV to the Flood Trust by August 25, 2006, Wastech WV has the right to convert \$2,000,000 of the note into common stock of the Company at any time prior to the maturity of the note at the average ask price of the Company's common stock for seven (7) days prior to the date the Company exercise the option.

•

In addition, Wastech WV agreed to execute an employment agreement with John F. Hale, Jr. on such terms that the parties mutually agree.

Wastech WV was not able to make the payment of \$980,000 that was due to the Flood Trust on August 25, 2006 because of the failure of EES to purchase an installment of common stock in the Company due on that same date. As a result, Wastech WV negotiated an extension of the date of this payment to October 7, 2006. Wastech WV was unable to make the payment due on October 7, 2006. On October 10, 2006, the Flood Trust filed a lawsuit against the Company in Kanawha County, West Virginia, to recover the payment of \$980,000 that was due on October 7, 2006, along with \$4,000,000 due under the promissory note due on April 13, 2009.

2006 Stock Purchase Agreement and Amendment.

The Company funded its initial purchase obligations under the Assignment Agreement with the Flood Trust by entering into an additional Stock Purchase Agreement with EES dated April 12, 2006 (the "2006 Agreement"). Under the 2006 Agreement, EES agreed to purchase 37,430,000 shares of the Company's common stock for \$0.05 per share, for a total purchase price of \$1,871,500, of which \$741,500 was due and payable on April 12, 2006 and \$1,130,000 is due and payable on August 25, 2006. EES and the Company also agreed to amend the EES Agreement to increase the amount purchasable thereunder by \$15,000 per quarter, to \$75,000 per quarter.

The Company agreed that EES would have the right to appoint one additional member of the board of directors upon full payment of the amount due on August 25, 2006 under the Stock Purchase Agreement. EES already had the right to appoint a member of the board of directors under the 2002 Agreement.

In addition, the Company agreed to enter into a consulting agreement with Richard D. Tuorto, Sr., the Company's current chairman and chief executive officer, under which Mr. Tuorto would be entitled to compensation of \$150,000 per year for five years, provided that Mr. Tuorto shall be entitled to compensation of \$250,000 per year for five years

if for any reason he does not receive the compensation of \$150,000 per year or does not remain on the board of directors. To date, the consulting agreement with Mr. Tuorto has not been executed.

To date, EES has purchased 14,830,000 shares of common stock under the Stock Purchase Agreement pursuant to the closing of the purchase of the Mineral Rights from the Flood Trust. Prior to its entry into the 2006, EES held 17,620,469 shares. Based on the number of shares that EES has already purchased under the 2006 Agreement, EES owns 28.8% of the Company's outstanding common stock. If EES completes its purchase obligations under the 2002 Agreement and the 2006 Agreement, it will own 44.4% of the Company's common stock, and will have the right to appoint 2 out of 3 directors on the board of directors.

On June 26, 2006, the Company and EES amended the 2006 Agreement to increase the amount of common stock to be sold to EES thereunder by 5,000,000 shares, which will result in additional proceeds to the Company of \$250,000. The Company simultaneously announced that it would use the proceeds to repurchase shares of its common stock on the open market.

Amendment to 2002 EES Agreement

Under the Stock Purchase Agreement between EES and the Company dated April 12, 2006, EES agreed to increase the amount purchasable under the 2002 Stock Purchase Agreement by \$15,000 per quarter, to \$75,000 per quarter.

In May 2006, the Company did not receive its quarterly payment under the EES Agreement from the technology royalty because the amount of the payment was insufficient to satisfy senior liens against the payment. The technology license pertains to binding technology licensed to a production facility that qualifies for tax credits under Section 29 of the Internal Revenue Code. The amount of the royalty is determined from the amount of tax credits generated by the facility, among other factors. In May 2006, EES's share of the technology royalty was \$33,597, which was far below the amount it historically received. The decline in the amount of the royalty was due, in large part, to the fact that the amount of tax credits which are payable under the IRS program decline as the price of oil rises, and are eliminated if the price of oil rises above a certain level. If the price of oil stays at current levels, it is likely that the amount of royalty payments will be far below historical amounts, and may actually be eliminated entirely. As a result, the Company may not receive any further payments under the Stock Purchase Agreement.

However, EES has agreed to make the quarterly payment that was payable in May 2006, notwithstanding the shortfall in the royalty payment received in that quarter. In addition, the Company believes EES will make additional payments under the Stock Purchase Agreement, notwithstanding the fact that it may not receive sufficient royalty proceeds, although at this time the Company has no legally binding agreement from EES to make those payments if the royalty payments are not actually received.

EES Appointment to Board.

On April 12, 2006, EES exercised its right to appoint a nominee to the board of directors under the Stock Purchase Agreement originally entered into in September 2002, by appointing Douglas C. Holsted to the board. Mr. Holsted will serve as a director of the Company until its next annual meeting of shareholders. The Company does not have any board committees, and therefore it is not anticipated that Mr. Holsted will be appointed to any board committees.

From 1999 to 2005, Mr. Holsted operated a private accounting and tax practice in Oklahoma. In 2005, he joined EES full-time, where he is a director. From January 1996 to May 26, 1999, Mr. Holsted was the Chief Executive Officer of Sales Equipment Company in Oklahoma City, Oklahoma, which was in the business of distributing equipment in the pressurized gas industry. From 1991 through 1995, he was the Chief Financial Officer of The Dwyer Group, Inc. of Waco, Texas, a publicly owned company in the franchise industry. Mr. Holsted is a certified public accountant licensed in the State of Oklahoma.

Internal Hydro International Agreements

On August 31, 2006, the Company entered into a Commercial Purchase Agreement and Deposit Receipt (the CoalGas Agreement) with USA CoalGas, L.P. (CoalGas), an Illinois limited partnership, under which the Company agreed to purchase 695.18 acres of land in Christian County, Illinois (the Land), and certain personal property located on the Land, for \$1,200,000.

In addition, the Company agreed to assume, and purchase the Land and personal property subject to, a Lease and Easement Agreements between CoalGas and Libra National Resources, pls, and a Coal Fines Supply Agreement between CoalGas and LNR Kincaid, LLC (collectively, the CoalGas Assets). Of the purchase price, \$600,000 is payable at closing and the remaining \$600,000 is payable twelve months after closing with interest at 6% per annum. Closing is conditioned upon the Company completing the transfer to it of a permit from the Illinois Department of Natural Resources (Permit No. IL0026913), which requires environmental surety bonding in the amount of \$4,379,608, among other conditions. The CoalGas Agreement provides that closing will occur 120 days after the date of the Agreement, but that the deadline for closing may be extended for 30 days.

On September 25, 2006, the Company entered into an Agreement (the IHI Agreement) with Internal Hydro International, Inc. (IHI), under which the Company assigned all of its right, title and interest in the CoalGas Agreement to Springfield Energy Project, LLC (SEP), a Florida limited liability company. SEP is a newly created limited liability company that was created to be the assignee of the CoalGas Agreement, and to acquire and own the CoalGas Assets. The Company owns 49% of SEP by virtue of owning 4,900 Class A Units, and IHI owns 47% of SEP by virtue of owning 4,700 Class A Units. The remaining 4% of SEP is owned by Private Capital Group, Inc. by virtue of owning 400 Class C Units. A principle purpose of IHI and the Company in purchasing the CoalGas Assets is to use the land for renewable energy operating involving the gasification of tires to energy (the Gasification Project). The IHI Agreement provides that IHI is to obtain initial financing for SEP in the amount of \$4,000,000 (the Initial Financing), and an additional \$4,000,000 of financing no later than approval of the Gasification Projection by the State of Illinois (the Additional Financing).

The IHI Agreement provides that if IHI does not procure either the Initial Financing or the Additional Financing, that IHI and Private Capital Group, Inc. are required to tender all of the ownership interests in SEP to the Company. The IHI Agreement provides that if IHI procures the Initial Financing but not the Additional Financing, then IHI is required to tender one-half of its ownership interests in SEP to the Company.

NOTE O -NEW ACCOUNTING PRONOUNCEMENTS

In November of 2002, the FASB issued FASB Interpretation No. 45, Guarantor s Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others , an interpretation of FASB Statements No. 5, 57, and 107 and rescission of FASB Interpretation No. 34. This interpretation elaborates on the disclosures to be made by a guarantor in its interim and annual financial statements about its obligations under certain guarantees that is has issued. It also clarifies that a guarantor is requested to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. The initial recognition and initial measurement provisions are applicable on a prospective basis to guarantees issued or modified after December 31, 2002 and the disclosure provisions were effective for the year ended December 31, 2002. The adoption of this interpretation did not have a material effect on the Company s consolidated results of operations, financial condition or cash flows.

In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity. This statement establishes standards for the classification and measurement of certain financial instruments with characteristics of both liabilities and equity. With the exception of certain measurement criteria deferred indefinitely by the FASB, SFAS No. 150 is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after

June 15, 2003. The implementation of SFAS No. 150 did not have a material impact on the Company's consolidated results of operations, financial condition, or cash flows.
