ON ASSIGNMENT, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Financial Statement Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and the rules of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to those rules and regulations. The December 31, 2014 condensed consolidated balance sheet was derived from audited financial statements. The financial statements include adjustments consisting of normal recurring items, which, in the opinion of management, are necessary for a fair presentation of the financial position of On Assignment, Inc. and its subsidiaries (the "Company") and its results of operations for the interim dates and periods set forth herein. The results for any of the interim periods are not necessarily indicative of the results to be expected for the full year or any other period. This Quarterly Report on Form 10-Q should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2014 ("2014 10-K").

The accompanying condensed consolidated statement of cash flows for the first quarter of 2014 has been reclassified to separate or combine certain line items to conform to the current period presentation.

2. Accounting Standards Update

In January 2015, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update No. 2015-01, Income Statement - Extraordinary and Unusual Items (Subtopic 225-20), Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items ("ASU No. 2015-01"). ASU No. 2015-01 eliminates from GAAP the concept of extraordinary items to simplify income statement presentation. Under the guidance an entity will no longer be able to segregate an extraordinary item from the results of operations, separately present an extraordinary item on the income statement, or disclose income taxes or earnings-per-share data applicable to an extraordinary item. The ASU is effective for all entities for reporting periods (including interim periods) beginning after December 15, 2015, and early adoption is permitted. The Company will adopt the guidance effective January 1, 2016. The Company does not expect the adoption of ASU No. 2015-01 to have a material effect on its consolidated financial statements.

In April 2015, the FASB issued Accounting Standards Update No. 2015-03, Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs ("ASU 2015-03"). ASU No. 2015-03 requires that debt issuance costs be presented in the balance sheet as a direct deduction from the carrying amount of debt, consistent with debt discounts. It is effective for annual periods (including interim periods) beginning after December 15, 2015, and must be applied on a retrospective basis with early adoption permitted. The Company does not expect the adoption of ASU No. 2015-03 to have a material effect on its consolidated financial statements.

In April 2015, the FASB issued Accounting Standards Update No. 2015-05, Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 350-40) ("ASU 2015-05"). ASU No. 2015-05 provides guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. It is effective for annual periods (including interim periods) beginning after December 15, 2015, and early adoption is permitted. The Company will adopt the guidance effective January 1, 2016. The Company does not expect the adoption of ASU No. 2015-05 to have a

material effect on its consolidated financial statements.

3. Discontinued Operations

On February 1, 2015 the Company completed the sale of its Physician Segment for \$123.0 million, of which \$6.0 million was placed in escrow for a period of 12 months. The gain on the sale was \$25.7 million (net of income taxes of \$14.4 million), which was included in discontinued operations. The \$6.0 million placed in escrow, along with a \$0.6 million receivable related to net working capital adjustments, are included in current assets in the condensed consolidated balance sheet at March 31, 2015. The operating results of this segment are presented as discontinued operations in the condensed consolidated statements of operations and comprehensive income for all periods presented. The condensed consolidated balance sheet at December 31, 2014 separately states the assets and liabilities of the Physician Segment as discontinued operations.

Edgar Filing: ON ASSIGNMENT INC - Form 10-Q

The following table is a reconciliation of the major classes of assets and liabilities of the Physician Segment that are presented separately in the condensed consolidated balance sheet at December 31, 2014, to the previously reported balances:

	December 31, 2014		
	As Previously Reported	Physician Segment	As Adjusted
Cash and cash equivalents	\$31,714	\$(2,854)	\$28,860
Accounts receivable, net	298,761	(21,615)	277,146

	\$286,539	\$219,934	\$3,691	\$510,164

Edgar Filing: ON ASSIGNMENT INC - Form 10-Q

As of the dates presented, the Company had the following acquired intangible assets (in thousands):

	Estimated Useful Life	As of March 31, 2015			As of December 31, 2014		
		Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Intangible assets subject to amortization:							
Customer relations	3 months – 10 years	\$ 100,693	\$ 56,214	\$ 44,479	\$ 101,141	\$ 53,434	\$ 47,707
Contractor relations	2 - 7 years	39,291	32,951	6,340	39,332	32,021	7,311
Non-compete agreements	2 - 7 years	3,582	2,062	1,520	3,654	1,922	1,732
In-use software	6 years	18,900	4,154	14,746	18,900	3,366	15,534
		162,466	95,381	67,085	163,027	90,743	72,284
Intangible assets not subject to amortization:							
Trademarks		178,325	—	178,325	178,325	—	178,325
Total		\$ 340,791	\$ 95,381	\$ 245,410	\$ 341,352	\$ 90,743	\$ 250,609

Amortization expense for intangible assets with finite lives was \$4.9 million and \$5.5 million for the three months ended March 31, 2015 and 2014, respectively. Estimated amortization for the remainder of this fiscal year, each of the next four fiscal years and thereafter follows (in thousands):

2015	\$ 14,464
2016	16,276
2017	12,012
2018	9,616
2019	7,928
Thereafter	6,789
	\$ 67,085

Goodwill and other intangible assets having an indefinite useful life are not amortized for financial statement purposes. Goodwill and intangible assets with indefinite lives are reviewed for impairment on an annual basis as of October 31 and whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. There were no triggering events that required an interim impairment analysis during the current period.

5. Long-Term Debt

Long-term debt consisted of the following at March 31, 2015 and December 31, 2014 (in thousands):

	2015	2014
Senior Secured Debt:		
\$125 million revolving credit facility, due May 2018	\$—	\$ 76,000
Term A loan facility, due May 2018	154,251	158,813
Term B loan facility, due May 2020	180,312	180,312
	\$ 334,563	\$ 415,125

Borrowings under the term A loan facility and revolving loan facility bear interest at the Company's option, either the Eurodollar rate (LIBOR) or the base rate, plus 1.75% to 2.50%. Borrowings under the term B loan facility bear interest at the LIBOR rate, with a floor of 1.0%, plus 2.50%. The commitment fee on the undrawn portion available under the revolving loan facility ranges from 0.25% to 0.40%. Under terms of the credit facility, the Company has the ability to increase the loan facilities by up to \$100.0 million under certain specified conditions.

At March 31, 2015, borrowings on the term A loan bore interest at 2.2 percent, and borrowings on the term B loan bore interest at 3.5 percent. The weighted average interest rate at March 31, 2015 was 2.9 percent.

During the remainder of 2015, each of the next four years, and thereafter, the Company will be required to make principal payments as follows (in thousands):

2015	\$ 13,688
2016	18,250
2017	18,250
2018	104,063
2019	—
Thereafter	180,312
	\$334,563

The Company is required to make mandatory prepayments of loans under the new facility, subject to specified exceptions, from excess cash flow and with the proceeds of asset sales, debt issuances and specified other events. The Company's obligations under the credit facility are guaranteed by substantially all of its direct and indirect domestic subsidiaries and secured by a lien on substantially all of the Company's tangible and intangible property and by a pledge of (i) all of the equity interests in its direct and indirect domestic subsidiaries and (ii) 65% of the equity interests in its first-tier foreign subsidiaries.

The credit facility includes various restrictive covenants, including, the maximum ratio of consolidated funded debt to consolidated EBITDA (3.50:1.00 as of March 31, 2015 and decreases to 3.25:1.00 on June 30, 2015 and thereafter). There are also limits on the Company's and its subsidiaries' ability to incur liens, incur additional indebtedness, make loans and investments, engage in mergers and acquisitions, engage in asset sales, declare dividends or redeem or repurchase capital stock, alter the business conducted by the Company and its subsidiaries, transact with affiliates, prepay, redeem or purchase subordinated debt and amend or otherwise alter debt agreements. On January 30, 2015 the Company amended its credit facility to not require a mandatory prepayment from the sale of the Physician Segment (see "Note 3. Discontinued Operations").

6. Commitments and Contingencies

The Company carries retention policies for its workers' compensation liability. The workers' compensation loss reserves are determined based on claims filed and claims incurred but not reported. The Company accounts for claims incurred but not yet reported based on estimates derived from historical claims experience and current trends of industry data. Changes in estimates and actual payments for claims are recognized in the period that the estimates change or the payments are made. The workers' compensation loss reserves were approximately \$1.9 million and \$2.2 million, net of anticipated insurance and indemnification recoveries of \$13.8 million and \$13.4 million, at March 31, 2015 and December 31, 2014, respectively.

The Company has unused stand-by letters of credit outstanding to secure obligations for workers' compensation claims with various insurance carriers. The unused stand-by letters of credit at March 31, 2015 and December 31, 2014 were \$3.2 million.

The Company is subject to contingent consideration agreements entered into in connection with its acquisition of CyberCoders, Inc. ("CyberCoders"). If the predetermined targets are met, the Company is obligated to make additional cash payments in accordance with the terms of the contingent consideration agreements. As of March 31, 2015, the Company has potential future contingent consideration of \$11.0 million through the end of 2015. Refer to "Note 7. Fair Value Measurements" for further information related to this contingent liability.

The Company has entered into various non-cancelable operating leases, primarily related to its facilities and certain office equipment used in the ordinary course of business. The Company leases two properties owned by related parties.

Edgar Filing: ON ASSIGNMENT INC - Form 10-Q

At March 31, 2015 and December 31, 2014, the Company had an income tax reserve in other long-term liabilities related to uncertain tax positions of \$0.9 million.

The Company is involved in various legal proceedings, claims and litigation arising in the ordinary course of business. Based on the facts currently available, the Company does not believe that the disposition of matters that are pending or asserted will have a material effect on its consolidated financial statements.

Prior to the sale of the Physician Segment on February 1, 2015, the Company additionally had various contingent liabilities that are now presented as discontinued operations in the condensed consolidated balance sheet at December 31, 2014 (refer to "Note 3. Discontinued Operations" for further information).

7. Fair Value Measurements

The recorded values of cash and cash equivalents, accounts receivable, accounts payable and accrued expenses approximate their fair value based on their short-term nature. Long-term debt recorded in the Company's condensed consolidated balance sheet at March 31, 2015 was \$334.6 million. The fair value of the long-term debt at that same date was \$334.2 million as determined using the quoted price technique, based on Level 2 inputs including the yields of comparable companies with similar credit characteristics.

The Company has an obligation to pay the former owners of CyberCoders, up to \$11.0 million in cash, if certain future financial results are met. The fair value of this contingent consideration is determined using an expected present value technique. Expected cash flows are determined using the probability-weighted average of possible outcomes that would occur should certain financial metrics be reached. There is no market data available to use in valuing the contingent consideration, therefore, the Company developed its own assumptions related to the future financial performance of the businesses to evaluate the fair value of these liabilities. As such, the contingent consideration is classified within Level 3. The liability for contingent consideration is established at the time of the acquisition and finalized by the end of the measurement period. At the end of each quarter, the fair value of this liability is re-measured and the change in the fair value (after the measurement period) is included in the SG&A expenses. The contingent consideration obligations measured at fair value on a recurring basis at March 31, 2015 and December 31, 2014 were \$3.0 million related to the acquisition of CyberCoders. This contingent consideration is presented within other long-term liabilities at March 31, 2015 and December 31, 2014.

The reconciliation of contingent consideration liability measured and carried at fair value on a recurring basis with the use of significant unobservable inputs (Level 3) is as follows (in thousands):

	Three Months Ended	
	March 31,	
	2015	2014
Contingent consideration:		
Balance at beginning of period	\$(3,000)	\$(3,667)
Payments on contingent consideration	—	691
Foreign currency translation adjustment	—	(24)
Balance at end of period	\$(3,000)	\$(3,000)

Certain assets and liabilities, such as goodwill, are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (e.g., when there is evidence of impairment). For the three months ended March 31, 2015 and 2014, no fair value adjustments were required for non-financial assets or liabilities.

8. Stockholders' Equity

On January 16, 2015, the Board of Directors approved a program authorizing the Company to repurchase up to \$100.0 million of the Company's common stock. The authorization was effective on February 23, 2015 and continues for two years thereafter. During the three months ended March 31, 2015, the Company repurchased 43,000 shares of its common stock at a cost of \$1.6 million. All shares repurchased under this program were retired. This resulted in a reduction of \$0.4 million in paid-in capital, and a reduction of \$1.2 million in retained earnings.

9. Accumulated Other Comprehensive Loss

Edgar Filing: ON ASSIGNMENT INC - Form 10-Q

The components of accumulated other comprehensive income (loss) were as follows (amounts in thousands):

	Foreign currency translation adjustment	Changes in fair value of derivative, net of tax	Accumulated other comprehensive income (loss)
Balance at December 31, 2014	(4,448) (122) (4,570
Other comprehensive income	(3,724) 47	(3,677
Balance at March 31, 2015	\$(8,172) \$(75) \$(8,247

11

10. Stock-based compensation

On March 31, 2015, the Company issued 125,101 shares of common stock under the On Assignment 2010 Employee Stock Purchase Plan (the "ESPP").

Compensation expense related to stock-based compensation, including the ESPP, was \$4.0 million and \$3.1 million for the three months ended March 31, 2015 and 2014, respectively. Stock-based compensation is included in the condensed consolidated statements of operations and comprehensive income in selling, general and administrative expenses.

11. Earnings Per Share

The following is a reconciliation of the shares used to compute basic and diluted earnings per share (in thousands):

	Three Months Ended March 31,	
	2015	2014
Weighted average number of common shares outstanding used to compute basic earnings per share	51,519	54,104
Dilutive effect of stock-based awards	690	871
Number of shares used to compute diluted earnings per share	52,209	54,975

The amount of anti-dilutive share equivalents outstanding during the three months ended March 31, 2015 and 2014 were insignificant.

12. Income Taxes

For interim reporting periods, the Company prepares an estimate of the full-year income and the related income tax expense for each jurisdiction in which the Company operates. Changes in the geographical mix, permanent differences or estimated level of annual pre-tax income can impact the Company's actual effective rate.

13. Segment Reporting

The Company has three reportable segments: Apex, Oxford, and Life Sciences Europe.

The Apex Segment provides information technology and scientific staffing professionals for contract, contract-to-hire and permanent placement positions to Fortune 1000 and mid-market clients across the United States, and offers consulting services for other select project-based needs. Apex Segment provides staffing and services support for companies from all major industries, including financial services, business services, consumer and industrials, technology, government services, and communications.

The Oxford Segment provides high-end contract placement services of information technology and engineering professionals with expertise in specialized information technology, software and hardware engineering, and mechanical, electrical, validation and telecommunications engineering fields. The Oxford Segment also provides direct hire placement services of professionals across many different fields and functions; the majority of its placements are information technology, finance, accounting, sales and engineering professionals.

The Life Sciences Europe Segment provides services of laboratory and scientific professionals to the biotechnology, pharmaceutical, food and beverage, medical device, personal care, chemical and environmental industries. These contract staffing specialties include chemists, clinical research associates, clinical lab assistants, engineers, biologists, biochemists, microbiologists, molecular biologists, food scientists, regulatory affairs specialists, lab assistants and other skilled scientific professionals.

The Company's management evaluates the performance of each segment primarily based on revenues, gross profit, and operating income. The information in the following tables is derived directly from the segments' internal financial reporting used for corporate management purposes. The Company's management does not evaluate, manage or measure performance of segments using asset information, and such information is not readily available. Accordingly, assets by reportable segment are not disclosed. The following tables present revenues, gross profit, operating income and amortization by reportable segment (in thousands):

12

Three Months Ended March 31, 2015

	Apex	Oxford	Life Sciences Europe	Corporate	Total
Revenues	\$294,293	\$127,471	\$8,281	\$—	\$430,045
Gross profit	79,643	53,524	2,708	—	135,875
Operating income	22,911	15,353	392	(13,585)	25,071
Amortization	3,522	1,300	47	—	4,869

Three Months Ended March 31, 2014

	Apex	Oxford	Life Sciences Europe	Corporate	Total
Revenues	\$278,408	\$117,500	\$10,943	\$—	\$406,851
Gross profit	75,506	49,026	3,623	—	128,155
Operating income	22,784	14,284	1,322	(11,882)	26,508
Amortization	4,089	1,370	71	8	5,538

As described in "Note 3. Discontinued Operations," the Company sold its Physician Segment on February 1, 2015 and the results of that business are now reported as discontinued operations in the condensed consolidated statements of operations for all periods presented. Accordingly, the Physician Segment is no longer presented in the tables above. Approximately \$0.4 million of the previously reported Corporate costs during the first quarter of 2014 were specifically attributed to the Physician Segment and those costs are included in discontinued operations in the condensed consolidated statements of operations.

During the fourth quarter of 2014, the Company closed its European retained search unit. Results for this unit, previously included in the Life Sciences Europe Segment, have been presented as discontinued operations in the condensed consolidated statements of operations and comprehensive income for all periods presented.

The Company operates internationally, with operations mainly in the United States, Europe, and Canada. The following table represents revenues by geographic location (in thousands):

	Three Months Ended March 31,	
	2015	2014
Revenues:		
Domestic	\$410,756	\$386,953
Foreign	19,289	19,898
	\$430,045	\$406,851

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

The information in this discussion contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Such statements are based upon current expectations that involve risks and uncertainties. Any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements or opinions. For example, the words "believes," "anticipates," "plans," "expects," "intends," and similar expressions are intended to identify forward-looking statements. Forward-looking statements include statements regarding our anticipated financial and operating performance for future periods. Our actual results could differ materially from those discussed herein. Factors that could cause or contribute to such differences include, but are not limited to, the following: (1) actual demand for our services; (2) the general political and economic environment; (3) our ability to attract, train and retain qualified staffing consultants; (4) our ability to remain competitive in obtaining and retaining staffing clients; (5) the availability of qualified contract professionals; (6) our ability to manage our growth efficiently and effectively; (7) continued performance and improvement of our enterprise-wide information systems; (8) our ability to manage potential or actual litigation matters; (9) the successful integration of our recently acquired subsidiaries; (10) the successful implementation of our five-year strategic plan and (11) other risks detailed from time to time in our reports filed with the Securities and Exchange Commission (the "SEC"), including in our 2014 10-K under the section "Risk Factors." Other factors also may contribute to the differences between our forward-looking statements and our actual results. In addition, as a result of these and other factors, our past financial performance should not be relied on as an indication of future performance. All forward-looking statements in this document are based on information available to us as of the date we file this Quarterly Report on Form 10-Q, and we assume no obligation to update any forward-looking statement or opinion, or the reasons why our actual results may differ.

OVERVIEW

On Assignment, Inc. is a leading global provider of highly skilled, hard-to-find professionals in the growing IT, engineering and life sciences sectors, where quality people are the key to success. We go beyond matching résumés with job descriptions to match people we know into positions we understand, for contract, contract-to-hire, and direct hire assignments.

The Apex Segment provides information technology and scientific staffing professionals for contract, contract-to-hire and permanent placement positions to Fortune 1000 and mid-market clients across the United States, and offers consulting services for other select project-based needs. Apex Segment provides staffing and services support for companies from all major industries, including financial services, business services, consumer and industrials, technology, government services, and communications.

The Oxford Segment provides high-end contract placement services of information technology and engineering professionals with expertise in specialized information technology, software and hardware engineering, and mechanical, electrical, validation and telecommunications engineering fields. The Oxford Segment also provides direct hire placement services of professionals across many different fields and functions; the majority of its placements are information technology, finance, accounting, sales and engineering professionals.

The Life Sciences Europe Segment provides services of laboratory and scientific professionals to the biotechnology, pharmaceutical, food and beverage, medical device, personal care, chemical and environmental industries. These contract staffing specialties include chemists, clinical research associates, clinical lab assistants, engineers, biologists, biochemists, microbiologists, molecular biologists, food scientists, regulatory affairs specialists, lab assistants and other skilled scientific professionals.

Seasonality

Demand for our staffing services historically has been lower during the first and fourth quarters due to fewer business days resulting from client shutdowns, adverse weather conditions and a decline in the number of contract professionals willing to work during the holidays. Demand for our staffing services usually increases in the second and third quarters of the year. In addition, our cost of services typically increases in the first quarter primarily due to the reset of payroll taxes.

RESULTS OF OPERATIONS

CHANGES IN RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED MARCH 31, 2015
COMPARED WITH THE THREE MONTHS ENDED MARCH 31, 2014

Revenues by Segment (dollars in thousands):

	Three Months Ended		Change		
	March 31, 2015	2014	\$	%	
Apex	\$294,293	\$278,408	\$15,885	5.7	%
Oxford	127,471	117,500	9,971	8.5	%
Life Sciences Europe	8,281	10,943	(2,662)	(24.3))%
	\$430,045	\$406,851	\$23,194	5.7	%

Revenues were \$430.0 million, up 5.7 percent year-over-year. Contract revenues were \$406.1 million, up from \$387.9 million in the first quarter of 2014. Direct hire and conversion fee revenues for the quarter were \$23.9 million, or 5.6 percent of total revenues, up from \$19.0 million, or 4.7 percent of total revenues, in the first quarter of 2014. The increase is due to CyberCoders, which accounted for \$18.7 million of direct hire and conversion fee revenues for the quarter, up from \$13.3 million in the first quarter of 2014. The decline in the average currency exchange rates in the current quarter, compared with the same period in 2014, had an adverse effect on revenues of approximately \$4.0 million. Accordingly, revenues on a constant currency basis for the current quarter were \$434.0 million, up 6.7 percent year-over-year, or a full percentage point above our reported growth rate. Constant currency revenues and growth rates for the quarter are calculated using the foreign currency exchange rates from the same period in the prior year.

Apex accounted for 68.4 percent of consolidated revenues. Revenues for Apex were \$294.3 million, up 5.7 percent year-over-year. This increase reflected a 3.0 percent increase in the average number of contract professionals on assignment, and an 18.0 percent increase in the average number of staffing consultants.

Oxford accounted for 29.6 percent of consolidated revenues. Revenues for Oxford were \$127.5 million, up 8.5 percent year-over-year. This increase reflected a 14.8 percent increase in the average number of contract professionals on assignment, and an 11.3 percent increase in the average number of staffing consultants. Revenues for CyberCoders, which are included in the Oxford Segment, were \$22.5 million, up from \$17.4 million in the first quarter of 2014. The decline in the average currency exchange rates in the current quarter, compared with the same period in 2014, had an adverse effect on Oxford revenues of approximately \$2.2 million. Accordingly, Oxford revenues on a constant currency basis for the current quarter were \$129.7 million, up 10.4 percent year-over-year, or 1.9 percentage points above our reported growth rate.

Life Sciences Europe accounted for 1.9 percent of consolidated revenues. Revenues for Life Sciences Europe were \$8.3 million, down 24.3 percent year-over-year. The decline in the average currency exchange rates in the current quarter, compared with the same period in 2014, had an adverse effect on Life Sciences Europe revenues of approximately \$1.8 million. Accordingly, Life Sciences Europe revenues on a constant currency basis for the current quarter were \$10.1 million. The decrease in revenues as reported was also partially due to a 7.6 percent decrease in the average number of contract professionals.

Gross Profit and Gross Margin by Segment (dollars in thousands):

Three Months Ended

Edgar Filing: ON ASSIGNMENT INC - Form 10-Q

	March 31, 2015	Gross Profit	Gross Margin	2014	Gross Profit	Gross Margin
Apex		\$79,643	27.1 %		\$75,506	27.1 %
Oxford		53,524	42.0 %		49,026	41.7 %
Life Sciences Europe		2,708	32.7 %		3,623	33.1 %
		\$135,875	31.6 %		\$128,155	31.5 %

Gross profit was \$135.9 million, up 6.0 percent, as a result of the increase in revenues and expansion in gross margin. Gross margin for the quarter was 31.6 percent, up approximately 10 basis points year-over-year. The expansion in gross margin was due to the higher mix of direct hire and conversion fee revenues (5.6 percent of revenues for the current quarter compared with 4.7 percent for the first quarter of 2014).

Apex accounted for 58.6 percent of consolidated gross profit. Apex's gross profit was \$79.6 million, up 5.5 percent year-over-year as a result of the year-over-year increase in revenues. Apex's gross margin for the quarter was 27.1 percent, which was flat year-over-year.

Oxford accounted for 39.4 percent of consolidated gross profit. Oxford's gross profit was \$53.5 million, up 9.2 percent year-over-year as a result of the year-over-year increase in revenues. Oxford's gross margin for the quarter was 42.0 percent, an expansion of 30 basis points year-over-year. The expansion in gross margin was due to the higher mix of direct hire and conversion fee revenues. Direct hire and conversion fee revenues for the quarter were 15.4 percent of the segment's revenues, compared with 12.8 percent for the same period of 2014.

Selling, General and Administrative Expenses

For the quarter ended March 31, 2015, selling, general and administrative expenses ("SG&A") were \$105.9 million (24.6 percent of revenues "SG&A Margin"), up from \$96.1 million (23.6 percent of revenues) for the same period of 2014. SG&A expenses for the quarter included acquisition, integration and strategic planning expenses of \$1.3 million and approximately \$2.0 million related to our accelerated hiring of sales consultants and recruiters. SG&A expenses for the quarter were also higher due to the higher mix of direct hire and conversion fee revenues, which has higher gross margin and higher SG&A as a percent of revenue than our other business.

Amortization of Intangible Assets

Amortization of intangible assets for the quarter was \$4.9 million, compared with \$5.5 million in the same period of 2014.

Interest Expense, Net

Interest expense (net of interest income) for the quarter was \$3.1 million, compared with \$3.3 million in the same period of 2014. The decrease in interest expense is due to the lower carrying amount of debt (see "Note 5. Long-Term Debt" in Item 1). Interest expense for the quarter was comprised of interest on the credit facility of \$2.7 million and amortization of capitalized loan costs of \$0.4 million.

Provision for Income Taxes

The provision for income taxes was \$9.0 million for the quarter, compared with \$9.6 million for the same period of 2014. The effective tax rate for the quarter was 40.8 percent, a slight decrease from the 41.2 percent for the full year 2014.

Discontinued Operations

Discontinued operations include the net operating results of our Physician Segment (which was sold on February 1, 2015) and our European retained search business (which was shut down in December 2014). Discontinued operations for the quarter ended March 31, 2015 included the gain of \$25.7 million from the sale of the Physician Segment. Income from discontinued operations was \$0.4 million for the quarter ended March 31, 2015, compared with \$0.3 million in the same period of 2014.

Liquidity and Capital Resources

Our working capital as of March 31, 2015 was \$255.1 million and our cash and cash equivalents were \$76.4 million, of which \$7.9 million was held in foreign countries. Cash held in foreign countries is not available to fund domestic operations unless repatriated. We do not intend to repatriate cash held in foreign countries. Our operating cash flows and borrowings under our credit facilities have been our primary source of liquidity and have been sufficient to fund

our working capital and capital expenditure needs. Our working capital requirements consist primarily of the financing of accounts receivable, payroll expenses and debt service payments on our credit facilities. We believe that our working capital as of March 31, 2015, availability under our revolving credit facility and expected operating cash flows will be sufficient to meet our future debt obligations, working capital requirements and capital expenditures for the next 12 months.

Net cash provided by operating activities was \$19.9 million for the three months ended March 31, 2015, compared with \$4.3 million used in operating activities for the same period in 2014. Net cash provided by operating activities for the three months ended March 31, 2015 was comprised of net income of \$39.1 million and non-cash items of \$13.5 million, reduced by the \$25.7 million gain from the sale of the Physician Segment, and \$7.0 million year-over-year change in net operating assets. Net cash used in operating activities in the same period in 2014 was comprised of net income of \$13.9 million and non-cash items of \$13.7 million, reduced by \$31.9 million year-over-year change in net operating assets.

Net cash provided by investing activities was \$106.9 million for the three months ended March 31, 2015, compared with \$3.9 million used in investing activities for the same period in 2014. The increase was primarily due to \$114.9 million net proceeds from sale of the Physician Segment.

Net cash used in financing activities was \$81.5 million for the three months ended March 31, 2015, compared with \$5.4 million for the same period in 2014. Net cash used in financing activities for the three months ended March 31, 2015 consisted primarily of \$80.6 million in principal payments of long-term debt. Net cash used in financing activities in the same period in 2014 consisted primarily of \$105.5 million in principal payments of long-term debt, partially offset by proceeds of \$99.5 million from new borrowings.

Under terms of our credit facility, we are required to make quarterly payments of \$4.6 million on the term A loan facility. We are also required to make mandatory prepayments from excess cash flow and with the proceeds of asset sales, debt issuances and specified other

events. On January 30, 2015, we amended our credit facility to not require a mandatory prepayment from the sale of our Physician Segment (see "Note 3. Discontinued Operations"). The maximum ratio of consolidated funded debt to consolidated EBITDA steps down from 3.50 to 1.00 as of March 31, 2015 to 3.25 to 1.00 as of June 30, 2015 and thereafter. As of March 31, 2015, the leverage ratio was 1.77 to 1.00. Additionally, the credit facility, which is secured by substantially all of our assets, provides for certain limitations on our ability to, among other things, incur additional debt, offer loans, and declare dividends. As of March 31, 2015, we had \$121.8 million of borrowings available under our revolving credit facility.

On January 16, 2015, our Board of Directors approved a \$100.0 million share repurchase program. The authorization was effective February 23, 2015 and continues for two years thereafter. During the first quarter we repurchased 43,000 shares for \$1.6 million (\$38.26 average price per share). The remaining amount available under the program is \$98.4 million.

Recent Accounting Pronouncements

In January 2015, the FASB issued Accounting Standards Update No. 2015-01, Income Statement - Extraordinary and Unusual Items (Subtopic 225-20), Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items ("ASU No. 2015-01"). ASU No. 2015-01 eliminates from GAAP the concept of extraordinary items to simplify income statement presentation. Under the guidance an entity will no longer be able to segregate an extraordinary item from the results of operations, separately present an extraordinary item on the income statement, or disclose income taxes or earnings-per-share data applicable to an extraordinary item. The ASU is effective for all entities for reporting periods (including interim periods) beginning after December 15, 2015, and early adoption is permitted. We will adopt the guidance effective January 1, 2016. We do not expect the adoption of ASU No. 2015-01 to have a material effect on our consolidated financial statements.

In April 2015, the FASB issued Accounting Standards Update No. 2015-03, Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs ("ASU 2015-03"). ASU No. 2015-03 requires that debt issuance costs be presented in the balance sheet as a direct deduction from the carrying amount of debt, consistent with debt discounts. It is effective for annual periods (including interim periods) beginning after December 15, 2015, and must be applied on a retrospective basis with early adoption permitted. We do not expect the adoption of ASU No. 2015-03 to have a material effect on our consolidated financial statements.

In April 2015, the FASB issued Accounting Standards Update No. 2015-05, Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 350-40) ("ASU 2015-05"). ASU No. 2015-05 provides guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. It is effective for annual periods (including interim periods) beginning after December 15, 2015, and early adoption is permitted. We will adopt the guidance effective January 1, 2016. We do not expect the adoption of ASU No. 2015-05 to have a material effect on our consolidated financial statements.

Critical Accounting Policies

There have been no significant changes to our critical accounting policies and estimates during the three months ended March 31, 2015 compared with those disclosed in Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations of our 2014 10-K.

Commitments

In connection with certain acquisitions, we are subject to contingent consideration agreements. If the acquired businesses meet predetermined targets, we are obligated to make additional cash payments in accordance with the terms of such contingent consideration agreements. As of March 31, 2015, we have potential future contingent consideration of approximately \$11.0 million through 2015.

Other than those described above, we have not entered into any significant commitments or contractual obligations that have not been previously disclosed in our 2014 10-K.

Item 3 - Quantitative and Qualitative Disclosures about Market Risks

With respect to our quantitative and qualitative disclosures about market risks, there have been no material changes to the information included in our 2014 10-K. We are exposed to certain market risks arising from transactions in the normal course of business, principally risks associated with foreign currency fluctuations and changes in interest rates. We are exposed to foreign currency risk from the translation of foreign operations into U.S. dollars. Based on the relative size and nature of our foreign operations, we do not believe that a 10 percent change in the value of foreign currencies relative to the U.S. dollar would have a material impact on our financial statements. Our primary exposure to market risk is interest rate risk associated with our debt instruments. See the Notes to the condensed consolidated financial statements for further description of our debt instruments. A hypothetical 100 basis point change in interest rates on variable rate debt would have resulted in interest expense fluctuating approximately \$3.3 million based on \$334.6 million of debt outstanding for any 12-month period. We have not entered into any market risk sensitive instruments for trading purposes.

Item 4 - Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Principal Financial and Accounting Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act). Based on this evaluation, our Chief Executive Officer and Principal Financial and Accounting Officer have concluded that our disclosure controls and procedures are effective as of the end of the period covered by this report. The term “disclosure controls and procedures” means controls and other procedures of the Company that are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within required time periods. We have established disclosure controls and procedures to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Principal Financial and Accounting Officer, as appropriate, to allow timely decisions regarding required disclosure.

There have been no changes in our internal control over financial reporting that occurred during the three months ended March 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1 – Legal Proceedings

We are involved in various legal proceedings, claims and litigation arising in the ordinary course of business. However, based on the facts available, we do not believe that the disposition of matters that are pending or asserted will have a material effect on our financial position, results of operations or cash flows.

Item 1A – Risk Factors

Information regarding risk factors affecting our business is discussed in our 2014 10-K.

Item 2 – Unregistered Sales of Securities and Use of Proceeds

The Board of Directors approved a \$100.0 million share repurchase program on January 16, 2015. The authorization was effective February 23, 2015 and continues for two years thereafter. On Assignment purchases of securities during the quarter ended March 31, 2015 are shown in the table below.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares (or Approximate Dollar Value) or Shares That May Yet be Purchased Under the Plans or Programs.
January	—	\$—	—	\$—
February	14,000	\$39.03	14,000	\$99,454,000
March	29,000	\$37.89	29,000	\$98,356,000
Total	43,000	\$38.26	43,000	\$98,356,000

Item 6 - Exhibits
