Notes to Condensed Consolidated Financial Statements

Note A Basis of Financial Statements

The financial information included in this report includes the accounts of American National Financial, Inc. and its subsidiaries (collectively, the Company) and has been prepared in accordance with accounting principles generally accepted in the United States of America and the instructions to Form 10-Q and Article 10 of Regulation S-X. All adjustments, consisting of normal recurring accruals considered necessary for a fair presentation have been included. This report should be read in conjunction with the Company s Annual Report on Form 10-K for the year ended December 31, 2001.

Certain reclassifications have been made to the 2001 Condensed Consolidated Financial Statements to conform to classifications used in 2002.

Note B Share and Per Share Restatement

On June 27, 2002, our Board of Directors declared a five-for-four (5:4) stock split effective July 18, 2002. All data with respect to earnings per share, dividends per share and share information, including price per share where applicable, have been retroactively adjusted to reflect the effects of the stock split.

Note C Department of Insurance

In June 2001, auditors from the State of California Department of Insurance commenced a market conduct examination of American Title Company (ATC). Similar examinations have been or are being conducted at virtually all companies in the title insurance business. The examination is not yet completed. We are unable to determine if an unfavorable outcome is either probable or remote, however, management does not believe that any outcome will have a material effect on our condensed consolidated financial statements.

NOTE D Earnings Per Share

The Company presents basic earnings per share representing net earnings divided by the weighted average shares outstanding (excluding all common stock equivalents), and diluted earnings per share, representing the dilutive effect of all common stock equivalents. The following table illustrates the computation of basic and diluted earnings per share.

| | Three months ended September 30, | | Nine months ended September 30, | |

NOTE E Cash Dividend

On September 25, 2002, our Board of Directors declared a quarterly cash dividend of \$.125 per share, paid on October 21, 2002, to stockholders of record on October 7, 2002.

NOTE F Recent Accounting Pronouncements

Pursuant to the Employee Stock Purchase Plan and the Non-Employee Director Stock Purchase Plan adopted September 29, 1999 by the Board of Directors of ANFI (collectively, the Purchase Plan), ANFI was authorized to loan to certain employees and non-employee directors an aggregate of \$2,000,000 for the purchase of ANFI common stock, no par value (Common Stock). The Purchase Plan made open market purchases of Company common stock through a broker dealer designated by the Company. All loans were full recourse and unsecured, and had a five-year term with interest at six and one quarter percent (61/4%). In January 2002, the Emerging Issues Task Force (EITF) of the Financial Accounting Standards Board issued EITF 02-1 Classification of Assets Received in Exchange for Equity Instruments. Through March 31, 2002, the notes recorded in connection with these loans have been classified as notes receivable. Recent interpretations of EITF 02-1 require that such loans and accrued interest be classified as contra equity. Accordingly, at June 30, 2002, \$1.8 million was reclassified to reduce stockholders equity.

On July 10, 2002, the Company agreed to accept shares of its common stock as full payment of the notes. The price per share (\$14.97 pre-stock split) was determined using the 20-day average closing price on the NASDAQ through July 10, 2002. On a post stock split basis (\$11.99 per share), the Company received 146,575 shares of common stock, which shares were retired.

In July 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 141, Business Combinations (SFAS No. 141) and Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets (SFAS No. 142). SFAS No. 141 requires that all business combinations be accounted for under the purchase method. The statement further requires separate recognition of intangible assets that meet one of two criteria. The statement applies to all business combinations initiated after June 30, 2001.

SFAS No. 142 requires an intangible asset that we acquire to be initially recognized and measured based on its fair value. The statement also provides that goodwill should not be amortized, but shall be tested for impairment annually, or more frequently if circumstances indicate potential impairment, through a comparison of fair value to its carrying amount. Existing goodwill was amortized through December 31, 2001, after which time amortization ceased. We performed a goodwill impairment test in accordance with SFAS No. 142 and there was no impairment of goodwill. Excluding amortization expense of \$140,000 and \$420,000 for the three and nine-month periods ended September 30, 2001, net earnings, basic earnings per share and diluted earnings per share would have been \$3.0 million, \$8.9 million, \$0.34, \$0.93 and \$0.30, \$0.86, respectively, for the three and nine-month periods ended September 30, 2001.

In October 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 144, Accounting for the Impairment of Long-Lived Assets (SFAS No. 144) which addresses financial accounting and reporting for the impairment or disposal of long-lived assets. While SFAS No. 144 supercedes Statement of Financial Accounting Standards No. 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of, it retains many of the fundamental provisions of that statement. SFAS No. 144 does not have a material impact on our financial statements or results of operations.

In June 2002, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 146, Accounting for Costs Associated with Exit or Disposal Activities , (SFAS No. 146). This standard is effective for exit or disposal activities that are initiated after December 31, 2002. The adoption of this standard is not expected to have a material effect on the Company s financial position or results of operations.

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

Factors That May Affect Operating Results

The statements contained in this Quarterly Report on Form 10-Q that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements regarding the Company s expectations, hopes, intentions or strategies regarding the future.

Forward-looking statements included in this document are based on information available to us on the date hereof, and we assume no obligation to update any such forward-looking statements. It is important to note that our actual results could differ materially from those in such forward-looking statements. The reader should consult the risk factors listed from time to time and other information disclosed in our reports on Forms 10-K and filings under the Securities Act of 1933, as amended.

The following discussion provides information to help understand and assess significant changes and trends related to our financial condition and results of operations. You should read this discussion and analysis in conjunction with the consolidated financial statements and the notes thereto.

Overview

Our revenues include net title service revenue, escrow fees, underwriting premiums, ancillary service fees, gain on sale/exchange of equity securities and investment income. Our operations generate escrow fees from holding and disbursing funds and documents in connection with the closing of real estate transactions. Escrow fees generally fluctuate in a pattern consistent with the fluctuation in net title service revenue. We also provide title insurance services through direct operations and through independent title insurance agents utilizing our underwriter, National Title Insurance of New York Inc. (National). Our ancillary services complement title and escrow services. In addition, many of our real estate related services are counter-cyclical to our title insurance and escrow services.

Net title service revenue and escrow fee revenues are recognized as income at the time the underlying real estate transaction closes. Expenses directly related to the title and escrow process are recognized as they are incurred throughout the duration of the transaction. As a result, our recognition of revenue lags approximately 45-90 days behind the recognition of the corresponding expenses. Other fees and revenue are generally recognized as income at the time the underlying transaction closes; however, certain other fees and revenue are recognized as income over the period during which the service is provided. These factors may result in fluctuations in gross margins. Net title service revenues consist of gross title insurance premiums less an 11% underwriting fee paid to the underwriter. Investment revenue consists of revenues received from our investment portfolio in addition to the gain on sale/exchange of equity securities.

While the number of orders that are closed affects our revenue, personnel costs are the largest component of our expenses. Since personnel costs are relatively fixed over the short term, in a rapidly declining market, reductions in the number of orders can adversely affect margins. Gross margins are also affected by the relative numbers of orders that relate to refinancing transactions as compared to those relating to real estate sale transactions.

10

Table of Contents

The average fee per file and corresponding gross margins are higher for real estate sale and resale transactions than refinance transactions for three principal reasons: (i) a larger percentage of sale and resale orders close as compared to refinance orders, (ii) typically two policies are issued in a resale transaction (one each to the buyer and lender) whereas only one is issued in a refinance transaction, (iii) the base rate charged on sale and resale transactions is typically higher than that charged on refinance transactions. As title insurance premiums are calculated with regard to the purchase price of the property or the amount of the related mortgage, average fees per file will also increase during periods in which real estate prices and corresponding mortgage loans are increasing.

Total Revenue Total revenue for the third quarter ended September 30, 2002 increased 51.6% to \$51.1 million from \$33.7 million in the comparable 2001 period. Total revenues for the nine-month period ended September 30, 2002 increased 42.2% to \$138.9 million from \$97.7 million for the same prior year period. The increase in total revenue for the three-month and nine-month periods is primarily the result of strength in our title, escrow, underwriting premiums and ancillary services, which were positively impacted by favorable market conditions, especially the favorable real estate market aided in part by reduced interest rates and increased money supply.

Net Title Service Revenue related party. Net title service revenue for the three-month and nine-month periods ended September 30, 2002 compared to the same 2001 periods increased \$9.4 million, or 49.7% to \$28.3 million from \$18.9 million, and \$21.3 million or 39.3% to \$75.3 million from \$54.1 million, respectively, which is the result of the increase in both closed title orders and in the refinance activity businesses. In the three-month periods ended September 30, 2002 and 2001, the average fee per file decreased to \$902 and \$913. The fee per file decrease in the three months ended September 30, 2002 and 2001, respectively, is consistent with the lower fee per file refinance market compared to the higher fee per file resale real estate market. In the nine-month periods ended September 30, 2002 and 2001 the average fee per file were \$971 and \$919. The fee per file increase is consistent with the mix of title orders closing in the higher fee per file resale business compared to a lower fee per file refinance driven market in comparable nine-month period.

Escrow Fees. Escrow fees for the third quarter of 2002 were \$11.5 million, an increase of \$3.6 million, or 46.3% from the third quarter of 2001. The nine months ended September 30, 2002, escrow fees were \$30.7 million, an increase of \$7.4 million, or 31.5% from the comparable 2001 period. Escrow fees are primarily related to real estate transactions activity in the Company s direct operations. The increase in escrow fees is primarily the result of market conditions fueled by continued interest rate decreases and our recent broadened market in Phoenix, Arizona and our newest market in Clark County, Nevada.

Underwriting Premiums. Revenues from underwriting premiums for the third quarter of 2002 were \$5.8 million, an increase of \$3.4 million, or 146.2% from the third quarter of 2001. For the nine months ended September 30, 2002, underwriting premiums were \$13.8 million, an increase

of \$8.1 million, or 141.5% from the comparable 2001 period. In 2002 the increase in underwriting premiums was indicative of the expansion of our underwriter both through direct operations in Clark County, Nevada and independent agency relationships.

Table of Contents

Ancillary Service Fees. Ancillary service fees, such as document preparation services, appraisal services, inspections services, notary signing services and property management services relate partly to the level and mix of business, as well as the performance of certain ancillary service businesses. Ancillary service fees for the third quarter of 2002 increased \$850,000, or 19.7% to \$5.2 million from \$4.3 million in the comparable 2001 period. Ancillary service fees totaled \$15.5 million for the nine-month period ended September 30, 2002, an increase of \$2.8 million, or 22.3% from ancillary service fees of \$12.7 million for the 2001 period. The increase in both periods ended September 30, 2002 is attributed to the Company s strategy to strengthen its ancillary service businesses. The Company continues to leverage its core title and escrow businesses and its national presence to expand ancillary service businesses.

Gain On Sale/Exchange of Equity Securities. Gain on sale/exchange of equity securities in the nine-month period ended September 30, 2002 arose from our receiving 322,318 shares of CKE Restaurant Inc. s (CKE) common stock for the remaining 656,453 shares of Santa Barbara Restaurant Group, Inc. (SBRG) common stock which we owned. SBRG and CKE concluded a merger in March 2002. The CKE stock price on the closing date of the transaction was \$9.45 per share. In accordance with APB Opinion 29, Accounting for Nonmonetary Transactions, even though the shares received were not sold, a realized gain of \$2.4 million was required to be recorded. The market price of the 322,318 shares of CKE common stock still owned by the Company was \$4.00 per share on November 4, 2002. The \$1.0 million gain in 2001 is the result of the sale of a large block of SBRG common stock at the then current market price.

Investment Revenue. Investment revenue is primarily a function of securities markets, interest rates and the amount of cash available for investment. Investment income in the third quarter of 2002 increased \$16,000 or 4.8% to \$351,000 from \$335,000 in the corresponding 2001 period. Investment revenue for the nine-month period ended September 30, 2002 totaled \$1.1 million compared with \$910,000 in the same 2001 period. The increase in investment and interest revenue earned in the third quarter ended September 30, 2002 is primarily the result of an increase in average invested assets.

Expenses

The following table presents the components of our expenses:

Our principal costs include personnel costs, other operating expenses and title plant rent and maintenance. Personnel costs include both base salaries and commission expense paid to employees and are the most significant operating expense incurred. These expenses fluctuate with the level of orders opened and closed and the mix of revenue.

Other operating expenses consist of facilities expenses, postage and courier services, computer services, professional services, advertising expense, general insurance, trade and note receivable allowances, depreciation expense and interest expense.

Title plant rent and maintenance costs consist of payments to access title plants and the costs of updating these plants. Title plant rent and maintenance costs include daily update expenses that are dependent on the volume of real estate transaction activity and a rental charge that is based on actual usage.

Personnel Costs. Personnel costs totaled \$25.8 million, \$18.5 million, \$70.3 million and \$53.2 million for the three-month and nine-month periods ended September 30, 2002 and 2001, respectively. Personnel costs, as a percentage of total revenue, exclusive of investment revenue and gain on sale/exchange of equity securities, decreased to 51.0% for the three-month period ended September 30, 2002 compared with 55.4% for the corresponding period in 2001. For the nine-month periods ended September 30, 2002 and 2001, personnel expenses as a percentage of total revenue, exclusive of investment revenue and gain on sale/exchange of equity securities, were 52.0% and 55.6%, respectively. Our ability to handle increased resale and refinance activity without a significant increase in staffing resulted in the decreased

13

Table of Contents

personnel expense as a percentage of revenue. We continue to take significant measures to maintain appropriate personnel levels and costs relative to the volume and mix of business and revenues. We continue to monitor the prevailing market conditions and will respond as necessary.

Other Operating Expenses. Other operating expenses, as a percentage of total revenue, exclusive of investment income and gain on sale/exchange of equity securities, increased to 27.5% in the three-month period ended September 30, 2002 compared with 25.8% for the corresponding 2001 period. Other operating expenses, as a percentage of total revenue, exclusive of investment revenue and gain on sale/exchange of equity securities, increased to 26.1% for the nine-month period ended September 30, 2002 compared with 25.3% for the corresponding 2001 period. Our new market in Nevada and our expansion in Arizona caused the increase in other operating expenses for both the three-month and nine-month periods, however, certain fixed costs are incurred regardless of revenue levels, resulting in fluctuations year over year. In addition, expenses paid to affiliates declined due to the implementation of our own employee benefit programs, the costs of which are included in other operating expenses. We continuously review and evaluate operating expenses relative to existing and projected market conditions.

Plant Rent and Maintenance Expense. Title plant rent and maintenance expense totaled \$2.2 million and \$1.7 million for the three month periods ended September 30, 2002 and 2001, respectively, and \$6.5 million and \$5.7 million for the nine-month periods ended September 30, 2002 and 2001, respectively. Title plant rent and maintenance expense decreased as a percentage of total revenue, exclusive of investment income and gain on sale/exchange of equity securities, to 4.4% from 5.2% in the three-month periods ended September 30, 2002 and 2001, respectively, and to 4.8% from 6.0% as a percentage of total revenue, exclusive of investment revenue and gain on sale/exchange of equity securities for the nine-month periods ended September 30, 2002 and 2001, respectively. The decrease in both the three and nine-month periods in title plant expense is primarily a result of renegotiations within several counties in California and Arizona resulting in maintaining consistent cost reductions for the Company as well as our increase in independent agency underwriting premiums.

Income Taxes. Income taxes as a percentage of earnings, for the three-month and nine-month periods ended September 30, 2002, as a percentage of earnings, were 37.2% and 41.0%, income taxes for the three-month and nine-month periods ended September 30, 2001, were 42.0% and 41.4%, respectively. The fluctuations with income taxes as a percentage of earnings, is attributable to the effect of state income taxes on our wholly-owned underwritten title company and our ancillary service companies; the change in the amount and the characteristics of net revenue, operating income versus investment revenue; and the tax treatment of certain items.

Liquidity and Capital Resources

Cash Flows. Our current cash requirements include debt service, debt relating to capital leases, personnel and other operating expenses, taxes and dividends on common stock. We believe that all anticipated cash requirements for current and long-term operations will be met from internally generated funds and through cash received from our subsidiaries. Our cash requirements include expenses relating to the development and expansion of National s agency business. We presently have in place much of the infrastructure (principally consisting of personnel) that will be used for this development.

Two significant sources of our funds are dividends and distributions from our subsidiaries. As a holding company, we receive cash from our subsidiaries in the form of dividends and as reimbursement for operating and other administrative expenses we incur. These reimbursements are executed within the guidelines of various management agreements between the Company and our subsidiaries. Our insurance underwriting subsidiary is restricted by state regulations in their ability to pay dividends and make distributions. Our underwritten title company and our ancillary companies collect premiums and fees and pay underwriting fees and operating expenses. These companies are restricted only to the extent of maintaining minimum levels of working capital and net worth, but are not restricted by state regulations or banking authorities in their ability to pay dividends and make distributions. The restrictions to maintain minimum levels of working capital and net worth have not changed since December 31, 2001.

In March 2002, we completed the purchase of an ownership interest in a title plant located in Clark County, Nevada, for a purchase price of \$1.3 million, paid in cash. Also, in March, we acquired the right to access a title plant located in San Francisco, California for \$115,000, paid in cash.

14

Table of Contents

In April 2002, we completed the purchase of an office building located in the County of Orange, California, for a purchase price of \$1.1 million, paid in cash. This building will house our growing American Documents division and a new escrow office.

In September 2002, we paid in full a \$1.9 million mortgage note payable and accrued interest in the amount \$3,000.

Capital Stock Transactions. On September 26, 2002, our Board of Directors approved a stock repurchase program. Under the program, the Company is authorized to repurchase up to an aggregate of \$5 million of our common stock in the open market, in block purchases or in privately negotiated transactions, depending upon market conditions and other factors.

On June 27, 2002, our Board of Directors declared a five-for-four (5:4) stock split effective July 18, 2002. All data with respect to earnings per share, dividends per share and share information, including price per share where applicable, have been retroactively adjusted to reflect the effects of the stock split.

Critical Accounting Policies. There have been no material changes in our critical accounting policies described in our Annual Report on Form 10-K for the year ended December 31, 2001.

Item 3. Quantitative and Qualitative Market Risk Disclosures

There have been no material changes in the market risk disclosure described in our annual report on Form 10-K for the year ended December 31, 2001.

Item 4. Controls and Procedures

Within 90 days prior to the date of this report, we carried out an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of the disclosure controls and procedures. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures are effective in timely alerting them to material information required to be included in our periodic SEC reports. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

In addition, we reviewed our internal controls, and there have no significant changes in our internal controls or in other factors that could significantly affect those controls subsequent to the date of their last evaluation.

Part II: OTHER INFORMATION

Item 1. Legal Proceedings

In the ordinary course of business, we are involved in various pending and threatened litigation matters related to our operations, some of which include claims for punitive or exemplary damages. We believe that no actions depart from customary litigation incidental to our business and that the resolution of all such litigation will not have a material adverse effect on the Company.

Item 2. Changes in Securities and Use of Proceeds

On June 27, 2002, our Board of Directors declared a five-for-four (5:4) stock split effective July 18, 2002. All data with respect to earnings per share, dividends per share and share information, including price per share where applicable, have been retroactively adjusted to reflect the effects of the stock split. Fractional shares were cashed out and payments were made to shareholders in lieu of fractional shares.
