UMPQUA HOLDINGS REPORTS 13% INCREASE IN NET INCOME

PORTLAND, Ore. - July 21, 2005 - Umpqua Holdings Corporation (NASDAQ: UMPQ),

parent company of Umpqua Bank and Strand, Atkinson, Williams & York, Inc., today announced second quarter 2005 net income of \$16.0 million, or \$0.36 per diluted share, compared to \$9.1 million, or \$0.32 per diluted share, for the second quarter of 2004. These results reflect earnings per share growth of 13% compared to the same period a year ago.

Operating earnings are defined as the Company's net income before deduction of merger-related expenses, net of tax, which are reported in periods with merger-related costs. Excluding merger related expenses, the Company reports second quarter 2005 operating earnings of \$16.1 million, or \$0.36 per diluted share, compared to \$9.5 million, or \$0.33 per diluted share for the second quarter of 2004, an increase of 9% on a per share basis.

Umpqua Bank's net interest margin increased to 5.05% for the second quarter of 2005, compared to 4.74% for the same quarter one year ago, principally resulting from recent increases in short-term market interest rates.

During the second quarter of 2005, the Company recorded a \$2.1 million impairment to the value of our mortgage servicing right portfolio. This impairment resulted from a decline in mortgage interest rates, and is included as a charge in mortgage banking revenue on the Company's consolidated statement of income. Excluding mortgage servicing right impairments, mortgage banking revenue was \$2.3 million for the second quarter of 2005, compared to \$1.5 million for the same quarter one year ago, and \$1.6 million for the first quarter of 2005. Offsetting the impairment in the second quarter of 2005 were \$1.4 million in gains on the sale of securities, and \$0.6 million in gain on the sale of our remaining credit card portfolio which is reflected in other non-interest income.

Umpqua Bank, Umpqua Holdings' largest subsidiary, reported an efficiency ratio before merger-related expenses of 52.7% for the second quarter of 2005, compared to 55.1% for the same quarter one year ago, and 53.6% for the first quarter of 2005.

Total consolidated assets of Umpqua Holdings as of June 30, 2005 were \$5.04 billion, compared to \$4.98 billion as of March 31, 2005. Total gross loans and deposits were \$3.61 billion and \$3.97 billion, respectively, as of June 30, 2005, compared to \$3.53 billion and \$3.95 billion, respectively, as of March 31, 2005.

Strong loan growth resulted in loans increasing \$79.9 million during the second quarter of 2005. Deposits increased \$19.3 million during the same period. For the year to date, annualized organic growth rates for loans and deposits were 8% and 9%, respectively. Organic growth is defined as growth excluding the increase related to acquisitions on the Company's balance sheet, with all growth subsequent to the acquisition date included as organic.

"This was another strong quarter for the Company with our core business fundamentals as solid as ever," said Ray Davis, president and chief executive officer of Umpqua Holdings Corporation.

As previously announced, the Company completed the sale of its merchant card processing portfolio during the fourth quarter of 2004. In accordance with generally accepted accounting principles, the financial results related to the merchant card processing operations, including the gain on sale, have been classified as a discontinued operation.

As of June 30, 2005 total shareholders equity was \$714.7 million, and tangible book value per share was \$6.92.
