President's Letter

Dear Shareholder,

I am pleased to present this semi-annual report for the Neuberger Berman Intermediate Municipal Closed-End Funds for the six months ended April 30, 2013. The report includes portfolio commentaries, listings of the Funds' investments and their unaudited financial statements for the reporting period.

Each Fund's investment objective is to provide a high level of current income exempt from regular federal income tax and, for each state-specific Fund, a high level of current income exempt from that state's personal income taxes (and, in the case of the New York Fund, New York City personal income tax).

We maintain a conservative investment philosophy and disciplined investment process in pursuit of providing you superior tax-exempt current income over the long term with less volatility and risk.

Thank you for your confidence in the Funds. We will continue to do our best to earn your trust in the years to come.

Sincerely,

ROBERT CONTI

Neuberger Berman Intermediate Municipal Closed-End Funds Portfolio Commentaries

For the six months ended April 30, 2013, on a net asset value ("NAV") basis, all three of the Neuberger Berman Intermediate Municipal Closed-End Funds posted positive returns and outperformed their benchmark, the Barclays 10 Year Municipal Bond Index. The California Intermediate Municipal Fund, Intermediate Municipal Fund and New York Intermediate Municipal Fund posted 2.36%, 3.11% and 2.24% total returns, respectively, whereas the benchmark generated a 2.15% return. The use of leverage (typically a performance enhancer in up markets and a detractor during market retreats) was beneficial for performance.

Despite several periods of weakness, the municipal market posted a positive return during the six months ended April 30, 2013. The market initially performed well due to relatively modest supply and robust demand. However, municipal bonds in general experienced a setback in late 2012, due to uncertainties surrounding their tax-favored status amid the fiscal cliff negotiations. The market then rallied in January and February 2013 as no changes were made to the tax-exempt status of municipal bonds. However, as is often the case, the municipal market sold off in March. This was triggered by an increase in supply, coupled with weaker demand as investors sold municipal bonds to meet their tax obligations. The market then ended the period on a positive note, as it generated solid results in April as demand resumed post tax season. Looking at the municipal market more closely, lower-quality securities outperformed their higher-quality counterparts as investors looked to generate incremental yield.

While we maintained long durations for the Funds during the reporting period, we tactically adjusted their positioning. We started the period with a long duration versus the index and then shortened it somewhat in the first quarter of 2013 given expected weakness during tax season. We then extended the Funds' duration post tax season and maintained this position for the remainder of the six-month term. Overall, duration did not meaningfully impact performance. In terms of the Funds' yield curve positioning, we maintained a barbell approach (investing in shorter and longer maturities). In contrast, the Funds' benchmark is concentrated in the eight- to 12-year portion of the curve. Given the strong performance of the intermediate portion of the curve, the Funds' barbell approach detracted from relative results.

The Funds maintained a lower quality bias compared to the benchmark as we sought to generate incremental yield. This was rewarded given the outperformance of lower-quality bonds during the reporting period. In addition, security selection contributed positively to results during the reporting period.

We have a generally positive outlook for the municipal market. The municipal yield curve remains steep from a historical perspective and appears attractively valued versus U.S. Treasuries and other taxable fixed income securities. Furthermore, with unemployment remaining elevated, the Federal Reserve appears to us likely to keep rates at their current ultra-low range for the foreseeable future. Given what we see as their compelling valuations versus other higher-quality fixed income securities, coupled with higher tax rates for upper income households, we anticipate demand for municipal bonds could be solid overall.

That being said, while no changes were made during the tax hike phase of the fiscal cliff negotiations, the tax-favored status of municipal bonds could again be on the table during discussions regarding federal government spending cuts. Against this backdrop, we could see periods of volatility in the municipal market going forward.

Sincerely,

JAMES L. ISELIN AND S. BLAKE MILLER

Closed-end funds, unlike open-end funds, are not continually offered. Generally, there is an initial public offering and, once issued, common shares of closed-end funds are sold in the open market through a stock exchange.

The performance data quoted represent past performance and do not indicate future results. Current performance may be lower or higher than the performance data quoted. For more current performance data, please visit www.nb.com.

The results shown in the table reflect the reinvestment of income dividends and other distributions, if any. The results do not reflect the effect of taxes a shareholder would pay on Fund distributions or on the sale of Fund shares.

The investment return and market price will fluctuate and common shares may trade at prices below NAV. Fund common shares, when sold, may be worth more or less than their original cost.

Returns would have been lower if Neuberger Berman Management LLC ("Management") had not waived a portion of its investment management fees during the periods shown. Please see Note B in the Notes to Financial Statements for specific information regarding fee waiver arrangements.

Notes to Schedule of Investments (Unaudited)

† In accordance with Accounting Standards Codification ("ASC") 820 "Fair Value Measurements and Disclosures" ("ASC 820"), all investments held by each of Neuberger Berman California Intermediate Municipal Fund Inc. ("California"), Neuberger Berman Intermediate Municipal Fund Inc. ("Intermediate") and Neuberger Berman New York Intermediate Municipal Fund Inc. ("New York") (each individually a "Fund" and collectively, the "Funds") are carried at the value that Neuberger Berman Management LLC ("Management") believes a fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment under current market conditions. Various inputs, including the volume and level of activity for the asset or liability in the market, are considered in valuing the Funds' investments, some of which are discussed below. Significant management judgment may be necessary to value investments in accordance with ASC 820.

ASC 820 established a three-tier hierarchy of inputs to create a classification of value measurements for disclosure purposes. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, amortized cost, etc.)
- Level 3 significant unobservable inputs (including a Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing an investment are not necessarily an indication of the risk associated with investing in those securities.

The value of the Funds' investments in municipal securities is determined by Management primarily by obtaining valuations from independent pricing services based on readily available bid quotations, or if quotations are not available, by methods which include various considerations such as yields or prices of securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions (generally Level 2 inputs). Other Level 2 inputs used by an independent pricing service to value municipal securities include current trades, bid-wanted lists (which informs the market that a holder is interested in selling a position and that offers will be considered), offerings, general information on market movement, direction, trends, and specific data on specialty issues.

Management has developed a process to periodically review information provided by independent pricing services for all types of securities.

If a valuation is not available from an independent pricing service, or if Management has reason to believe that the valuation received does not represent the amount a Fund might reasonably expect to receive on a current sale in an orderly transaction, the applicable Fund seeks to obtain quotations from principal market makers (generally considered Level 3 inputs). If such quotations are not readily available, the security is valued using methods the Fund's Board of Directors (each Fund's Board of Directors, a "Board") has approved on the belief that they reflect fair value. Numerous factors may be considered when determining the fair value of a security based on Level 2 or 3 inputs, including available analyst, media or other reports, trading in futures or ADRs and whether the issuer of the security being fair valued has other securities outstanding.

Fair value prices are necessarily estimates, and there is no assurance that such a price will be at or close to the price at which the security is next quoted or next trades.

Notes to Financial Statements Intermediate Municipal Closed-End Funds (Unaudited)

Note A Summary of Significant Accounting Policies:

1 General: The Funds were organized as Maryland corporations on July 29, 2002. California and New York registered as non-diversified, closed-end management investment companies and Intermediate registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the "1940 Act"). Each Fund's Board may classify or re-classify any unissued shares of capital stock into one or more classes of preferred stock without the approval of shareholders.

The assets of each Fund belong only to that Fund, and the liabilities of each Fund are borne solely by that Fund and no other.

The preparation of financial statements in accordance with U.S. generally accepted accounting principles ("GAAP") requires Management to make estimates and assumptions at the date of the financial statements. Actual results could differ from those estimates.

2 Portfolio valuation: Investment securities are valued as indicated in the notes following the Funds' Schedule of Investments.

3 Securities transactions and investment income: Securities transactions are recorded on trade date for financial reporting purposes. Interest income, including accretion of discount (adjusted for original issue discount, where applicable) and amortization of premium, where applicable, is recorded on the accrual basis. Realized gains and losses from securities transactions are recorded on the basis of identified cost and stated separately in the Statements of Operations.

4 Income tax information: It is the policy of each Fund to continue to qualify for treatment as a regulated investment company by complying with the requirements of the U.S. Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its net investment income and net realized capital gains to its shareholders. To the extent a Fund distributes substantially all of its net investment income and net realized capital gains to shareholders, no federal income or excise tax provision is required.

The Funds have adopted the provisions of ASC 740 "Income Taxes" ("ASC 740"). ASC 740 sets forth a minimum threshold for financial statement recognition of a tax position taken, or expected to be taken, in a tax return. The Funds recognize interest and penalties, if any, related to unrecognized tax positions as an income tax expense in the Statements of Operations. The Funds are subject to examination by U.S. federal and state tax authorities for returns filed for the prior three fiscal years 2009 - 2011. As of April 30, 2013, the Funds did not have any unrecognized tax positions.

Income distributions and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. These differences, if any, are primarily due to differing treatments of income and gains on various investment securities held by each Fund, timing differences, capital loss carryforwards expiring and differing characterization of distributions made by each Fund.

As determined on October 31, 2012, permanent differences resulting primarily from different book and tax accounting were reclassified at year end. Such differences may be attributed to one or more of the following: expiration of capital loss carryforwards and defaulted bond income adjustments. These reclassifications had no

effect on net income, net asset value ("NAV") or NAV per share of each Fund. For the year ended October 31, 2012, the Funds recorded the following permanent reclassifications:

	Paid-in Capital	Undistributed Net Investment Income (Loss)	Accumulated Net Realized Gains (Losses) on Investments
California	\$	\$	\$
Intermediate	(139,567)	4,243	135,324
New York	(156,636)		156,636

For tax purposes, distributions of short-term gains are taxable to shareholders as ordinary income.

The tax character of distributions paid during the years ended October 31, 2012 and October 31, 2011 were as follows:

	Tax-Exempt Income		Distributions Paid From: Ordinary Income		Total	
	2012	2011	2012	2011	2012	2011
California	\$ 4,563,960	\$ 4,620,617	\$ 80,858	\$ 72,367	\$ 4,644,818	\$ 4,692,984
Intermediate	\$ 1,770,565	15,974,776	300,959	305,243	16,171,524	16,280,019
New York	4,055,020	4,084,675	12,223	13,214	4,067,243	4,097,889

As of October 31, 2012, the components of distributable earnings (accumulated losses) on a U.S. federal income tax basis were as follows:

	Undistributed Tax-Exempt Income	Undistributed Ordinary Income	Undistributed Long-Term Gain	Unrealized Appreciation (Depreciation)	Loss Carryforwards and Deferrals	Other Temporary Differences	Total
California	\$ 2,803,673	\$	\$	\$ 7,528,059	\$ (1,289,012)	\$ (379,139)	\$ 8,663,581
Intermediate	\$ 1,480,955			35,047,246	(13,448,051)	(1,312,123)	31,711,027
New York	1,950,556			4,318,354	(1,741,656)	(336,490)	4,190,764

The differences between book basis and tax basis distributable earnings are primarily due to: timing differences of distribution payments, timing differences of wash sales, capital loss carryforwards and for Intermediate and New York, defaulted bond income adjustments.

To the extent each Fund's net realized capital gains, if any, can be offset by capital loss carryforwards, it is the policy of each Fund not to distribute such gains. The Regulated Investment Company ("RIC") Modernization Act of 2010 (the "Act") became effective for the Funds on November 1, 2011. The Act modernizes several of the federal income and excise tax provisions related to RICs. Among the changes made are changes to the capital loss carryforward rules allowing for RICs to carry forward capital losses indefinitely and to retain the character of capital loss carryforwards as short-term or long-term ("Post-Enactment"). Rules in effect previously limited the carryforward period to eight years and all carryforwards were considered short-term in character ("Pre-Enactment"). As determined at October 31, 2012, the following Funds had unused capital loss carryforwards available for federal income tax purposes to offset net realized capital gains, if any, as follows:

	Pre-Enactment Expiring in:					
	2013	2014	2015	2016	2017	2018
California	\$	\$	\$	\$	\$ 783,685	\$
Intermediate	58,816		126,780	232,566	9,552,881	302,263

New York	18,838	269,555	1,053,807	7,374
-----------------	--------	---------	-----------	-------

	Post-Enactment (No Expiration Date)	
	Long-Term	Short-Term
California	\$ 500,546	\$ 4,781
Intermediate	3,174,745	
New York	392,082	

Post-Enactment capital loss carryforwards must be fully used before Pre-Enactment capital loss carryforwards; therefore, under certain circumstances, Pre-Enactment capital loss carryforwards available as of the report date may expire unused.

During the year ended October 31, 2012, Intermediate and New York had capital loss carryforwards expire of \$139,567 and \$156,636, respectively.

5 Distributions to common shareholders: Each Fund earns income, net of expenses, daily on its investments. It is the policy of each Fund to declare and pay monthly distributions to common shareholders. Distributions from net realized capital gains, if any, are normally distributed in December. Distributions to common shareholders are recorded on the ex-date. Distributions to preferred shareholders are accrued and determined as described in Note A-7.

On May 15, 2013, each Fund declared a monthly distribution to common shareholders payable June 17, 2013, to shareholders of record on May 31, 2013, with an ex-date of May 29, 2013 as follows:

	Distribution per share	
California	\$	0.068
Intermediate		0.070
New York		0.065

On June 17, 2013, each Fund declared a monthly distribution to common shareholders payable July 15, 2013, to shareholders of record on June 28, 2013, with an ex-date of June 26, 2013 as follows:

	Distribution per share	
California	\$	0.068
Intermediate		0.070
New York		0.065

6 Expense allocation: Certain expenses are applicable to multiple funds. Expenses directly attributable to a Fund are charged to that Fund. Expenses borne by the complex of related investment companies, which includes open-end and closed-end investment companies for which Management serves as investment manager, that are not directly attributable to a particular investment company (e.g., a Fund) are allocated among the Funds and the other investment companies in the complex or series thereof on the basis of relative net assets, except where a more appropriate allocation of expenses to each of the investment companies in the complex or series thereof can otherwise be made fairly.

7 Financial leverage: On October 21, 2002, the Funds re-classified unissued shares of capital stock into several series of Auction Market Preferred Shares ("AMPS"), as follows:

	Series A Shares	Series B Shares
California	1,500	1,500
Intermediate	4,000	4,000
New York	1,500	1,500

On December 13, 2002, the Funds issued several series of AMPS, as follows:

	Series A Shares	Series B Shares
California	1,180	1,180
Intermediate	3,588	3,588
New York	965	965

All shares of each series of AMPS have a liquidation preference of \$25,000 per share plus any accumulated unpaid distributions, whether or not earned or declared by a Fund, but excluding interest thereon ("Liquidation Value"). Distributions to AMPS shareholders, which are cumulative, are accrued daily. It is the policy of each Fund to pay distributions every 7 days for each Fund's AMPS Series A and every 28 days for each Fund's AMPS Series B, unless in a special rate period.

In the absence of a special rate period, distribution rates are reset every 7 days for each Fund's AMPS Series A, based on the results of an auction. For the six months ended April 30, 2013, distribution rates ranged from:

	Distribution Rate
	%
California	0.130.38%
	%
Intermediate	0.130.38%
	%
New York	0.130.38%

In the absence of a special rate period, distribution rates are reset every 28 days for each Fund's AMPS Series B, based on the results of an auction. For the six months ended April 30, 2013, distribution rates ranged from:

	Distribution Rate
	%
California	0.130.32%
	%
Intermediate	0.150.32%
	%
New York	0.150.27%

The Funds declared distributions to AMPS shareholders for the period May 1, 2013 to May 31, 2013 for each series of the AMPS as follows:

	Series A Shares	Series B Shares
California	\$ 7,830	\$ 6,940
Intermediate	21,953	21,500
New York	6,317	5,760

Since February 2008, the market for auction rate preferred securities has experienced an unprecedented number of failed auctions. In the Funds' regularly scheduled auctions, more AMPS were submitted for sale than there were offers to buy. This meant that these auctions "failed to clear," and that preferred shareholders who wanted to sell their AMPS in these auctions were unable to do so. When a failed auction of AMPS occurs, the distribution rate for AMPS resets to a maximum rate, which is 110% of the base rate (the base rate is the greater of an "AA" rated composite commercial paper rate or the taxable equivalent of a short-term municipal bond rate) as a result of the failed auctions. Although the failed auctions have resulted in a current lack of liquidity for preferred shareholders, they are not an event of default for the Funds nor have they affected the credit quality of the AMPS. The Funds have paid, and continue to pay, distributions on their AMPS that are set at the maximum rate as a result of the failed auctions. If auctions continue to fail and the maximum rate increases due to changes in short term interest rates, the Funds' returns for common shareholders could be adversely affected. The Funds continue to monitor the developments in the AMPS

market.

The Funds may redeem shares of each series of AMPS, in whole or in part, on the second business day preceding any distribution payment date at Liquidation Value.

The Funds are also subject to certain restrictions relating to the AMPS. Failure to comply with these restrictions could preclude the Funds from declaring any distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of AMPS at Liquidation Value.

The holders of AMPS are entitled to one vote per share and will vote with holders of common shares as a single class, except that the AMPS will vote separately as a class on certain matters, as required by law or a Fund's charter. The holders of a Fund's AMPS, voting as a separate class, are entitled at all times to elect two Directors of the Fund, and to elect a majority of the Directors of the Fund if the Fund fails to pay distributions on AMPS for two consecutive years.

8 Concentration of risk: The ability of the issuers of the debt securities held by the Funds to meet their obligations may be affected by economic developments, including those particular to a specific industry or region. California and New York normally invest a substantial portion of their assets in municipal bonds of issuers located in the state of California and the state of New York, respectively. The value of each of these Funds' securities are more susceptible to adverse economic, political, regulatory or other factors affecting the issuers of such municipal bonds than a fund that does not limit its investments to such issuers.

9 Indemnifications: Like many other companies, the Funds' organizational documents provide that their officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, both in some of their principal service contracts and in the normal course of their business, the Funds enter into contracts that provide indemnifications to other parties for certain types of losses or liabilities. Each Fund's maximum exposure under these arrangements is unknown as this could involve future claims against each Fund.

10 Arrangements with certain non-affiliated service providers: Prior to January 1, 2013, each Fund had an expense offset arrangement in connection with its custodian contract. For the six months ended April 30, 2013, the impact of this arrangement was a reduction of expenses of \$113, \$40 and \$79 for California, Intermediate and New York, respectively.

In connection with the settlement of each AMPS auction, each Fund pays, through the auction agent, a service fee to each participating broker-dealer based upon the aggregate liquidation preference of the AMPS held by the broker-dealer's customers. For any auction preceding a rate period of less than one year, the service fee is paid at the annual rate of $\frac{1}{4}$ of 1% for each successful auction, and up to $\frac{3}{20}$ of 1% if the auction fails; for any auction preceding a rate period of one year or more, the service fee is paid at a rate agreed to by each Fund and the broker-dealer.

In order to satisfy rating agency requirements, each Fund is required to provide the rating agency that rates its AMPS a report on a monthly basis verifying that each Fund is maintaining eligible assets having a discounted value equal to or greater than the Preferred Shares Basic Maintenance Amount, which is a minimum level set by the rating agency as one of the conditions to maintain its rating on the AMPS. "Discounted value" refers to the fact that the rating agency requires each Fund, in performing this calculation, to discount portfolio securities below their face value, at rates determined by the rating agency. Each Fund pays a fee to State Street Bank and Trust Company ("State Street") for the preparation of this report which is reflected in the Statements of Operations under the caption "Basic maintenance expense (Note A)."

Note B Management Fees, Administration Fees, and Other Transactions with Affiliates:

Each Fund retains Management as its investment manager under a Management Agreement. For such investment management services, each Fund pays Management a fee at the annual rate of 0.25% of its average daily Managed Assets. Managed Assets equal the total assets of the Fund, less liabilities other than the aggregate indebtedness entered into for purposes of leverage. For purposes of calculating Managed Assets, the Liquidation Value of any AMPS outstanding is not considered a liability.

Each Fund retains Management as its administrator under an Administration Agreement. Each Fund pays Management an administration fee at the annual rate of 0.30% of its average daily Managed Assets under this agreement. Additionally, Management retains State Street as its sub-administrator under a Sub-Administration Agreement. Management pays State Street a fee for all services received under the agreement.

Neuberger Berman LLC ("Neuberger") is retained by Management to furnish it with investment recommendations and research information without added cost to the Funds. Several individuals who are officers and/or Directors of each Fund are also employees of Neuberger and/or Management.

Management and Neuberger are indirect subsidiaries of Neuberger Berman Group LLC ("NBG") and together with its consolidated subsidiaries ("NB Group"). NBSH Acquisition, LLC ("NBSH" and together with NBG, the "NB Parties"), which is owned by portfolio managers, members of the NB Group management team and certain of NB Group's key employees, senior professionals, and certain of their permitted transferees, owns, as of March 14, 2013, approximately 72% of NBG's common units, and Lehman Brothers Holdings Inc. ("LBHI") and certain of its subsidiaries (collectively the "LBHI Parties") own the remaining 28% of such common units. Pursuant to agreements among the NB Parties and the LBHI Parties, as well as the issuance of NBSH common equity to employees with respect to their previously made equity elections relating to 2013 compensation, it is expected that NBSH will own 81% of NBG's common units as of January 1, 2014. NBSH has the opportunity to continue to acquire the remaining NBG Class A common units from the LBHI Parties through a process that is expected to end in 2016 (and if necessary, 2017).

(Unaudited)

† Total return based on per share NAV reflects the effects of changes in NAV on the performance of each Fund during each fiscal period. Total return based on per share market value assumes the purchase of common shares at the market price on the first day and sale of common shares at the market price on the last day of the period indicated. Dividends and distributions, if any, are assumed to be reinvested at prices obtained under each Fund's distribution reinvestment plan. Results represent past performance and do not indicate future results. Current returns may be lower or higher than the performance data quoted. Investment returns may fluctuate and shares when sold may be worth more or less than original cost. For each Fund, total return would have been lower if Management had not waived a portion of the investment management fee.

Represents the annualized ratios of net expenses to average daily net assets if Management had not waived a portion of the investment management fee.

‡ After waiver of a portion of the investment management fee by Management. Each Fund is required to calculate an expense ratio without taking into consideration any expense reductions related to expense offset arrangements. Had the Funds not received expense reductions related to expense offset arrangements, the annualized ratios of net expenses to average daily net assets applicable to common shareholders would have been:

	Six Months Ended April 30,		Year Ended October 31,			
	2013	2012	2011	2010	2009	2008
California	1.39%	1.33%	1.29%	1.34%	1.34%	1.03%
Intermediate	1.15%	1.09%	1.05%	1.05%	1.09%	.87%
New York	1.40%	1.34%	1.29%	1.30%	1.37%	1.09%

@ Calculated by subtracting the Fund's total liabilities (excluding accumulated unpaid distributions on AMPS) from the Fund's total assets and dividing by the number of AMPS outstanding.

†† Expense ratios do not include the effect of distributions to holders of AMPS. Income ratios include income earned on assets attributable to AMPS outstanding.

¢ Calculated based on the average number of shares outstanding during each fiscal period.

∅∅ The annualized ratios of preferred share distributions to average net assets applicable to common shareholders were:

	Six Months Ended April 30,		Year Ended October 31,

** Not Annualized.

§ Each of the Funds conducted tender offers to purchase approximately 10% of its outstanding common shares at 98% of the Fund's net asset value ("NAV") per share. Intermediate conducted one tender offer, with final payment of

\$13.46 per share on May 29, 2009. New York conducted one tender offer, with final payment of \$13.33 per share on May 29, 2009. California conducted two tender offers, with final payments of \$13.46 and \$14.15 per share on May 29, 2009 and October 16, 2009, respectively.

Distribution Reinvestment Plan for each Fund

Computershare Trust Company, N.A (the "Plan Agent") will act as Plan Agent for shareholders who have not elected in writing to receive dividends and distributions in cash (each a "Participant"), will open an account for each Participant under the Distribution Reinvestment Plan ("Plan") in the same name as their then current Shares are registered, and will put the Plan into effect for each Participant as of the first record date for a dividend or capital gains distribution.

Whenever the Fund declares a dividend or distribution with respect to the common stock of the Fund ("Shares"), each Participant will receive such dividends and distributions in additional Shares, including fractional Shares acquired by the Plan Agent and credited to each Participant's account. If on the payment date for a cash dividend or distribution, the net asset value is equal to or less than the market price per Share plus estimated brokerage commissions, the Plan Agent shall automatically receive such Shares, including fractions, for each Participant's account. Except in the circumstances described in the next paragraph, the number of additional Shares to be credited to each Participant's account shall be determined by dividing the dollar amount of the dividend or distribution payable on their Shares by the greater of the net asset value per Share determined as of the date of purchase or 95% of the then current market price per Share on the payment date.

Should the net asset value per Share exceed the market price per Share plus estimated brokerage commissions on the payment date for a cash dividend or distribution, the Plan Agent or a broker-dealer selected by the Plan Agent shall endeavor, for a purchase period lasting until the last business day before the next date on which the Shares trade on an "ex-dividend" basis, but in no event, except as provided below, more than 30 days after the payment date, to apply the amount of such dividend or distribution on each Participant's Shares (less their pro rata share of brokerage commissions incurred with respect to the Plan Agent's open-market purchases in connection with the reinvestment of such dividend or distribution) to purchase Shares on the open market for each Participant's account. No such purchases may be made more than 30 days after the payment date for such dividend or distribution except where temporary curtailment or suspension of purchase is necessary to comply with applicable provisions of federal securities laws. If, at the close of business on any day during the purchase period the net asset value per Share equals or is less than the market price per Share plus estimated brokerage commissions, the Plan Agent will not make any further open-market purchases in connection with the reinvestment of such dividend or distribution. If the Plan Agent is unable to invest the full dividend or distribution amount through open-market purchases during the purchase period, the Plan Agent shall request that, with respect to the uninvested portion of such dividend or distribution amount, the Fund issue new Shares at the close of business on the earlier of the last day of the purchase period or the first day during the purchase period on which the net asset value per Share equals or is less than the market price per Share, plus estimated brokerage commissions, such Shares to be issued in accordance with the terms specified in the third paragraph hereof. These newly issued Shares will be valued at the then-current market price per Share at the time such Shares are to be issued.

For purposes of making the reinvestment purchase comparison under the Plan, (a) the market price of the Shares on a particular date shall be the last sales price on the New York Stock Exchange (or if the Shares are not listed on the New York Stock Exchange, such other exchange on which the Shares are principally traded) on that date, or, if there is no sale on such Exchange (or if not so listed, in the over-the-counter market) on that date, then the mean between the closing bid and asked quotations for such Shares on such Exchange on such date and (b) the net asset value per Share on a particular date shall be the net asset value per Share most recently calculated by or on behalf of the Fund. All dividends, distributions and other payments (whether made in cash or Shares) shall be made net of any applicable withholding tax.

Open-market purchases provided for above may be made on any securities exchange where the Fund's Shares are traded, in the over-the-counter market or in negotiated transactions and may be on such terms as to price, delivery and

otherwise as the Plan Agent shall determine. Each Participant's uninvested funds held by the Plan Agent will not bear interest, and it is understood that, in any event, the Plan Agent shall have no liability in connection with any inability to purchase Shares within 30 days after the initial date of such purchase as herein provided, or with the timing of any purchases effected. The Plan Agent shall have no responsibility as to the value of the Shares acquired for each Participant's account. For the purpose of cash investments, the Plan Agent may commingle each Participant's funds with those of other shareholders of the Fund

for whom the Plan Agent similarly acts as agent, and the average price (including brokerage commissions) of all Shares purchased by the Plan Agent as Plan Agent shall be the price per Share allocable to each Participant in connection therewith.

The Plan Agent may hold each Participant's Shares acquired pursuant to the Plan together with the Shares of other shareholders of the Fund acquired pursuant to the Plan in noncertificated form in the Plan Agent's name or that of the Plan Agent's nominee. The Plan Agent will forward to each Participant any proxy solicitation material and will vote any Shares so held for each Participant only in accordance with the instructions set forth on proxies returned by the Participant to the Fund.

The Plan Agent will confirm to each Participant each acquisition made for their account as soon as practicable but not later than 60 days after the date thereof. Although each Participant may from time to time have an undivided fractional interest (computed to three decimal places) in a Share, no certificates for a fractional Share will be issued. However, dividends and distributions on fractional Shares will be credited to each Participant's account. In the event of termination of a Participant's account under the Plan, the Plan Agent will adjust for any such undivided fractional interest in cash at the market value of the Shares at the time of termination, less the pro rata expense of any sale required to make such an adjustment.

Any Share dividends or split Shares distributed by the Fund on Shares held by the Plan Agent for Participants will be credited to their accounts. In the event that the Fund makes available to its shareholders rights to purchase additional Shares or other securities, the Shares held for each Participant under the Plan will be added to other Shares held by the Participant in calculating the number of rights to be issued to each Participant.

The Plan Agent's service fee for handling capital gains distributions or income dividends will be paid by the Fund. Participants will be charged their pro rata share of brokerage commissions on all open-market purchases.

Each Participant may terminate their account under the Plan by notifying the Plan Agent in writing. Such termination will be effective immediately if the Participant's notice is received by the Plan Agent not less than ten days prior to any dividend or distribution record date, otherwise such termination will be effective the first trading day after the payment date for such dividend or distribution with respect to any subsequent dividend or distribution. The Plan may be terminated by the Plan Agent or the Fund upon notice in writing mailed to each Participant at least 30 days prior to any record date for the payment of any dividend or distribution by the Fund.

These terms and conditions may be amended or supplemented by the Plan Agent or the Fund at any time or times but, except when necessary or appropriate to comply with applicable law or the rules or policies of the Securities and Exchange Commission or any other regulatory authority, only by mailing to each Participant appropriate written notice at least 30 days prior to the effective date thereof. The amendment or supplement shall be deemed to be accepted by each Participant unless, prior to the effective date thereof, the Plan Agent receives written notice of the termination of their account under the Plan. Any such amendment may include an appointment by the Plan Agent in its place and stead of a successor Plan Agent under these terms and conditions, with full power and authority to perform all or any of the acts to be performed by the Plan Agent under these terms and conditions. Upon any such appointment of any Plan Agent for the purpose of receiving dividends and distributions, the Fund will be authorized to pay to such successor Plan Agent, for each Participant's account, all dividends and distributions payable on Shares held in their name or under the Plan for retention or application by such successor Plan Agent as provided in these terms and conditions.

The Plan Agent shall at all times act in good faith and agrees to use its best efforts within reasonable limits to ensure the accuracy of all services performed under this Agreement and to comply with applicable law, but assumes no responsibility and shall not be liable for loss or damage due to errors unless such error is caused by the Plan Agent's negligence, bad faith, or willful misconduct or that of its employees. These terms and conditions are governed by the

laws of the State of Maryland.

Reinvested dividends and distributions are taxed in the same manner as cash dividends and distributions i.e., reinvestment in additional Shares does not relieve shareholders of, or defer the need to pay, any income tax that may be payable (or that is required to be withheld) on Fund dividends and distributions. Participants should contact their tax professionals for information on how the Plan impacts their personal tax situation. For additional information about the Plan, please contact the Plan Agent at 1-866-227-2136 or 480 Washington Boulevard, Jersey City, NJ 07317.
