PART I - FINANCIAL INFORMATION

INTERPOOL, INC. AND SUBSIDIARIES

FINANCIAL STATEMENTS

The condensed consolidated financial statements of Interpool, Inc. and Subsidiaries (the "Company") included herein have been prepared by the registrant, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Registrant believes that the disclosures are adequate to make the information presented not misleading. It is suggested that these condensed consolidated financial statements be read in conjunction with the financial statements and the notes thereto included in the Company's latest Annual Report on Form 10-K. These condensed consolidated financial statements reflect, in the opinion of management, all adjustments (consisting only of normal recurring adjustments) necessary to present fairly the results for the interim periods. The results of operations for such interim periods are not necessarily indicative of the results for the full year.

The accompanying notes to consolidated financial statements are an integral part of these statements.

INTERPOOL, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(dollars in thousands, except per share amounts)
(Unaudited)

Note 1-- Nature of operations and accounting policies:

A. Nature of operations:

The Company and its subsidiaries conduct business principally in a single industry segment, the leasing of intermodal dry freight standard containers, chassis and other transportation related equipment. Within this single industry segment, the Company has three reportable segments: container leasing, domestic intermodal equipment and computer leasing equipment. The container-leasing segment specializes in the leasing of intermodal dry freight standard containers, while the domestic intermodal equipment segment specializes in the leasing of intermodal container chassis and other equipment namely freight rail cars and intermodal trailers. The computer leasing segment specializes in the leasing of microcomputers and other related equipment. The Company leases its containers

principally to international container shipping lines located throughout the world. The customers for the Company's chassis are a large number of domestic companies, many of which are domestic subsidiaries or branches of international shipping lines. In the computer leasing business MicroTech Leasing Corporation specializes in leasing to venture capital backed and emerging growth companies. PCR Corporation focuses on the computer and audio/visual (AV) equipment needs of companies for trade shows, conferences, training classes, meeting and events. Equipment is purchased directly or acquired through conditional sales contracts and lease agreements, many of which qualify as capital leases.

The Company's accounting records are maintained in United States dollars and the consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States.

B. Basis of consolidation:

The consolidated financial statements include the accounts of the Company and subsidiaries more than 50% owned. All significant intercompany transactions have been eliminated.

C. Net income per share:

Basic net income per share is computed by dividing net income by the weighted average number of shares outstanding during the period (which is net of treasury shares). Diluted income per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. The dilutive effect of stock options have been added to the weighted shares outstanding in the diluted earnings per share computation for the three and six months ended June 30, 2001. For the three and six months ended June 30, 2000, the effect of stock options is antidilutive, thus the common shares issuable has not been added to the weighted shares outstanding.

A reconciliation of weighted average common shares outstanding to weighted average common shares outstanding assuming dilution follows:

	(in thousands)			
	Three Months Ended		Six Months Ended	
	June 30,	2001	June 30,	2001
Average common shares outstanding	27,421	27,421	27,421	27,421
Common shares issuable (1)	1,329	---	1,515	---
Average common shares outstanding assuming dilution	28,750	27,421	28,936	27,421
	=====	=====	=====	=====

(1) Issuable under stock option plans.

(dollars in thousands, except per share amounts)

D. Adoption of New Accounting Standard:

In June 1998, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities*. In June 1999, the FASB issued Statement No. 137, *Accounting for Derivative Instruments and Hedging Activities - Deferral of the Effective Date of FASB Statement No. 133*. In June 2000, the FASB issued Statement 138, *Accounting for Certain Derivative Instruments and Certain Hedging Activities, an amendment of FASB Statement No. 133*. Statement 133, as amended,

establishes accounting and reporting standards requiring that every derivative instrument (including certain derivative instruments embedded in other contracts) be recorded in the balance sheet as either an asset or liability measured at its fair value. The Statement requires that changes in the derivative instrument's fair value be recognized currently in earnings unless specific hedge accounting criteria are met. Special accounting for qualifying hedges allows a derivative instrument's gains and losses to offset related results on the hedged item in the income statement, to the extent effective, and requires that a company must formally document, designate, and assess the effectiveness of transactions that receive hedge accounting.

Statement 133, as amended, is effective for fiscal years beginning after June 15, 2000. A company may also implement the Statement as of the beginning of any fiscal quarter after issuance (that is, fiscal quarters beginning June 16, 1998, and thereafter). Statement 133 cannot be applied retroactively. Statement 133 must be applied to (a) derivative instruments and (b) certain derivative instruments embedded in hybrid instruments. The Company does not hold any such hybrid instruments.

On January 1, 2001, the Company adopted Statement 133. Statement 133, in part, allows special hedge accounting for fair value and cash flow hedges. Statement 133 provides that the gain or loss on a derivative instrument designated and qualifying as a fair value hedging instrument as well as the offsetting loss or gain on the hedged item attributable to the hedged risk be recognized currently in earnings in the same accounting period. Statement 133 provides that the effective portion of the gain or loss on a derivative instrument designated and qualifying as a cash flow hedging instrument be reported as a component of other comprehensive income and be reclassified into earnings in the same period or periods during which the hedged forecasted transaction affects earnings. (The remaining gain or loss on the derivative instrument, if any, must be recognized currently in earnings.)

As of December 31, 2000, the Company had entered into 13 interest rate swap agreements with various financial institutions. The aggregate notional balance of the swaps was \$384.7 million as of December 31, 2000. These agreements are used by the Company to manage interest rate risks created by loans indexed to a floating rate index, primarily LIBOR, and contractually terminate at various dates between 2001 and 2007. Under previous generally accepted accounting principals (GAAP), the interest differential payable or receivable by the Company on its interest rate swaps is accrued by the Company as interest rates change, and is recognized by the Company over the life of the swap agreement. In contrast Statement 133 requires that changes in the fair value of the swap agreements which are designated as effective cash flow hedges, be reported as a component of other comprehensive income and changes in the fair value of the swap agreements that do not qualify for hedge accounting to be reported in earnings. The Company has determined that of the 13 interest rate swap agreements held, 10 qualify under Statement 133 as effective cash flow hedges with no ineffectiveness, while the remaining 3 interest rate swap agreements intended as cash flow hedges do not qualify for hedge accounting treatment. The adoption of Statement 133 on January 1, 2001 increased liabilities by approximately \$9,012, with offsetting amounts recorded as decreases to deferred tax liabilities of \$2,435 and accumulated other comprehensive income of \$7,411 and an increase to earnings (net of tax) of \$833.

(dollars in thousands, except per share amounts)

E. Comprehensive income:

The tax effect of comprehensive income is as follows:

	Before-Tax Amount	Tax Effect	Net of Tax Amount
Six Months Ended June 30, 2001			
Unrealized holding losses arising during the period:			
Marketable securities	\$ (46)	\$16	\$ (30)
Other investment securities	(658)	33	(625)

Edgar Filing: INTERPOOL INC - Form 10-Q

Swap agreements	(4,252)	702	(3,550)
Unrealized loss on marketable securities, other investment securities and swap agreements	----- \$ (4,956)	----- \$751	----- \$ (4,205)
	=====	=====	=====
Six Months Ended June 30, 2000			
Unrealized holding gains (losses) arising during the period:			
Marketable securities	\$ (38)	\$13	\$ (25)
Other investment securities	638	(31)	607
	-----	-----	-----
Unrealized gain on marketable and other investment securities	\$600	\$ (18)	\$582
	=====	=====	=====

F. Prospective accounting pronouncements:

On June 29, 2001, the Financial Accounting Standards Board approved its proposed Statement of Financial Accounting Standards No. 141, Business Combinations, and Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets.

Under Statement 141, all business combinations should be accounted for using the purchase method of accounting; use of the pooling-of-interests (pooling) method is prohibited. The provisions of the statement will apply to all business combinations initiated after June 30, 2001.

Statement 142 will apply to all acquired intangible assets whether acquired singly, as part of a group, or in a business combination. The statement will supersede Accounting Principals Board, or APB, Opinion No. 17, "Intangible Assets," and will carry forward provisions in APB Opinion No 17 related to internally developed intangible assets. Adoption of Statement 142 will result in ceasing amortization of goodwill. All of the provisions of the statement should be applied in fiscal years beginning after December 15, 2001 to all goodwill and other intangible assets recognized in an entity's statement of financial position at that date, regardless of when those assets were initially recognized.

The Company does not expect the adoption of these standards to have a material effect on our consolidated financial statements.

Note 2 -- Cash flow information:

For the six months ended June 30, 2001 and 2000 cash paid for interest was approximately \$54,417 and \$36,542, respectively. Cash paid for income taxes was approximately \$1,366 and \$850, respectively.

Note 3 -- Leasing Activities:

As lessor:

During the three months ended June 30, 2001, the Company initiated a bankruptcy claim against a customer and sought for the collection of receivables and the recovery of equipment values through its insurance policies. The total net book value of equipment leased to this customer as of June 30, 2001 is approximately \$29,415. The receivables as of June 30, 2001 are approximately \$7,649 of which \$6,727 is covered by insurance, with the balance reserved for in the allowance for doubtful accounts. As a result of the above, the Company has demanded the return of equipment on approximately \$8,482 of direct finance leases and reclassified the equipment value supporting these direct finance leases to operating leasing equipment.

Edgar Filing: INTERPOOL INC - Form 10-Q

At this time, the Company has estimated no impairment upon the liquidation and/or re-lease of these assets after considering anticipated insurance proceeds. The overall recovery of the asset values has been evaluated taking into consideration the equipment book value, the cost to recover and re-lease the equipment, and the total outstanding receivables, as well as the likelihood to collect through the recovery and sale of the equipment or the stipulated equipment values within the insurance policy. The Company has continued to record revenue from these leases in the three months ended June 30, 2001, as lease payments due during this period are covered by the insurance policies.

The Company will continue to assess the overall recovery of the asset values and adjust the assumptions used in evaluating the total insurance claim. As additional information becomes available, reserves for the impairment of the asset values may be necessary based upon changes in economic conditions and the assumptions used in evaluating the total insurance claim.

Allowance for doubtful accounts -

The following summarizes the activity in the allowance for doubtful accounts:

	2001

Balance beginning of year	\$14,377
Provision charged to expense	3,740
Write-offs, net of recoveries	(12,528)
Balance, June 30, 2001	\$5,589

During the three months ended June 30, 2001, Microtech (a subsidiary of the Company) experienced an increase in bad debt expense due to its concentration with the technology industry.

Note 4 -- Segment and geographic data:

The Company has three reportable segments: container leasing, domestic intermodal equipment and computer leasing. The container leasing segment specializes in the leasing of intermodal dry freight standard containers, while the domestic intermodal equipment segment specializes in the leasing of intermodal container chassis and other equipment, namely freight rail cars and intermodal trailers. The computer leasing segment specializes in the leasing of microcomputers and other related equipment.

The accounting policies of the segments are the same as those described in Note 1. The Company evaluates performance based on profit or loss from operations before income taxes and extraordinary items. The Company's reportable segments are strategic business units that offer different products and services.

Segment Information:

Six Months ended 2001:	Container Leasing	Domestic Intermodal Equipment	Computer Leasing	Totals
Revenues from external customers	\$54,728	\$99,393	\$19,523	\$173,644

The Company's shipping line customers utilize international containers in world trade over many varied and changing trade routes. In addition, most large shipping lines have many offices in various countries involved in container operations. The Company's revenue from international containers is earned while the containers are used in service carrying cargo around the world, while certain other equipment is utilized in the United States. Accordingly, the information about the business of the Company by geographic area is derived from either international sources or from United States sources. Such presentation is consistent with industry practice.

Geographic Information:

	2001 ----	2000 -----
REVENUES:		
United States	\$118,951	\$78,046
International	54,693	49,199
	\$173,644	\$127,245
ASSETS:		
United States	\$1,046,937	\$782,758
International	729,053	671,005
	\$1,775,990	\$1,453,763

Note 5 -- Other contingencies and commitments:

At June 30, 2001 the Company had outstanding purchase commitments for equipment of approximately \$55,000.

Under certain of the Company's leasing agreements, the Company, as lessee, may be obligated to indemnify the lessor for loss, recapture or disallowance of certain tax benefits arising from the lessor's ownership of the equipment.

The Company is engaged in various legal proceedings from time to time incidental to the conduct of its business. In the opinion of management, the Company is adequately insured against the claims relating to such proceedings, and any ultimate liability arising out of such proceedings will not have a material adverse effect on the financial condition or results of operations of the Company.

Note 6-- Lease securitization program:

Edgar Filing: INTERPOOL INC - Form 10-Q

On March 30, 1999, the Company entered into an asset backed note program (the "ABN Program"). The ABN Program involved the sale by the Company of direct finance leases (collateralized by intermodal containers) with a historical net book value of \$228,832 (the "Assets"). The Assets were sold to a special purpose entity whose sole business activity is issuing asset backed notes ("ABNs"), supported by the future cash flows of the Assets. Proceeds received by the Company upon selling the Assets were \$189,087 of cash and the lowest priority ABN issued in the ABN Program (the "Retained Interest") with an allocated historical book value of \$47,687.

The Company classified the Retained Interest as an available for sale security which is included in "Other Investment Securities" in the accompanying consolidated balance sheets. Accordingly, the Retained Interest is accounted for at fair value, with any changes in fair value over its allocated historical book value recorded as a component of other comprehensive income, net of tax, in the statement of changes in shareholders' equity. As of June 30, 2001, the Company estimated the fair market value of Retained Interest was \$30,538 using a discounted cash flow model assuming expected credit losses of 1.5% and a discount rate of 12.6%. During the six months ended June 30, 2001 and 2000, the Company recorded interest income on the Retained Interest totaling \$1,942 and \$1,985 which is included in revenues in the accompanying consolidated statements of income. During the three months ended June 30, 2001 and 2000, the Company recorded interest income on the Retained Interest totaling \$964 and \$972 which is included in revenues in the accompanying consolidated statements of income.

Interpool Limited, a subsidiary of the Company (the "Servicer"), acts as servicer for the Assets. Pursuant to the terms of the servicing agreement, the Servicer is paid a fee of 0.40% of the assets under management. The Company's management has determined that the servicing fee paid approximates the fair value for services provided, as such, no servicing asset or liability has been recorded. For the six months ended June 30, 2001 and 2000, the Company received servicing fees totaling \$219 and \$336 which are included in revenues in the accompanying consolidated statements of income. For the three months ended June 30, 2001 and 2000, the Company received servicing fees totaling \$101 and \$160 which are included in revenues in the accompanying consolidated statements of income. For the six months ended June 30, 2001 and 2000, cash flows received (paid) on the Retained Interest were \$1,200 and \$(1,341), respectively.

At June 30, 2001, key economic assumptions and the sensitivity of the current fair value of residual cash flows to immediate 10 percent and 20 percent adverse changes in those assumptions are as follows:

	Securitized Lease Receivables -----
Carrying amount/fair value of retained interests	\$30,538
Weighted-average life (in years)	1.7
Expected credit losses (annual rate)	1.5%
Impact on fair value of 10% adverse change	\$378
Impact on fair value of 20% adverse change	\$756
Residual cash flows discount rate (annual)	12.6%
Impact on fair value of 10% adverse change	\$499
Impact on fair value of 20% adverse change	\$970

Note 7 -- Acquisition of North American Intermodal Division of Transamerica Leasing, Inc.:

In October 2000, the Company completed the acquisition of the North American Intermodal division of Transamerica Leasing, Inc. (TA), a subsidiary of Transamerica Finance Corporation and AEGON N.V. Under the terms of the agreement, the Company acquired substantially all of the domestic containers, chassis, and trailers of TA and related assets and assumed certain of the liabilities of the business. The Company paid approximately \$681,000 in cash for the acquisition, which includes \$8,400 in fees and other costs for advisors, of which \$1,650 is payable to a director of the Company for consultation services rendered. The acquisition was financed through a combination of

cash on hand, proceeds obtained from a committed secured financing facility in the amount of approximately \$300,000, as well as approximately \$101,000 of proceeds obtained from a chassis securitization facility established in July 2000.

In the acquisition, the Company acquired approximately 70,000 chassis, 23,000 rail trailers and 18,000 domestic containers. The acquisition was effective October 1, 2000 in a transaction accounted for under the purchase method of accounting, accordingly the acquired assets and liabilities have been recorded at the estimated fair values at the date of acquisition. In January 2001, the Company and TIP Intermodal Services (TIP), a GE Capital Company, announced the signing of a definitive agreement for the sale of 50,000 rail trailers and domestic containers by the Company to TIP, including all of the rail trailers and domestic containers the Company acquired from TA in October 2000. The Company established a basis in the assets acquired from TA to be sold to TIP equal to (i) TA's historical net book value of the assets (\$273,572), (ii) the expected gain to be realized from the sale to TIP (\$5,614), (iii) the estimated cash collections (net of cash disbursements) resulting from the operations of these assets from October 1, 2000 through the estimated date of disposition of March 31, 2001 (\$7,296) and (iv) the incremental amount of interest expense from October 1, 2000 through March 31, 2001 associated with the acquisition of these assets (\$18,828). The excess of the purchase price paid over the book value of the assets and liabilities acquired (after establishing the basis associated with the assets held for sale) in an amount approximating \$66,500 has been allocated to the chassis acquired from TA and is being amortized over the remaining depreciable life of those chassis.

Note 8 -- Assets Held for Sale:

In March 2001, the Company and TIP completed the sale of 50,000 rail trailers and domestic containers by the Company to TIP, including all 41,000 rail trailers and domestic containers the Company acquired from TA in October 2000. The assets held for sale as of December 31, 2000 include \$279,186 related to the units acquired from TA, \$5,871 of accounts receivable and \$63,332 of assets previously owned by the Company. The Company recorded a gain of \$1,774 upon the consummation of this sale, which represents the premium paid for the units previously owned by the Company over their net book value. The assets held for sale as of June 30, 2001 include \$5,927 of assets previously owned by the Company which have not yet been assumed by TIP and \$884 related to units which TIP has requested delayed delivery.

A portion of the proceeds from the sale were used to pay down a secured financing facility by \$175,000 and an additional \$100,100 of cash was placed in escrow in anticipation of an amendment of the facility allowing the borrowing in this facility to remain outstanding. In May 2001, the Company finalized the amendment of the facility and paid down the secured financing facility by \$24,844 from funds held in escrow. Additionally, all remaining escrow funds were released to the Company upon finalization of the amendment. At June 30, 2001, \$99,156 of this facility was outstanding with an interest rate of 5.75%.

Note 9 -- Derivative instruments:

The Company's assets are primarily fixed rate in nature while its debt instruments are primarily floating rate. The Company employs derivative financial instruments (interest rate swap agreements) to effectively convert certain floating rate debt instruments into fixed rate instruments and thereby manage its exposure to fluctuations in interest rates.

The unrealized pre-tax losses on cash flow hedges as of June 30, 2001 of \$4,252 have been reported in the Company's condensed consolidated balance sheet as a component of accumulated other comprehensive income (loss), net of related deferred income taxes of \$702.

Amounts recorded in accumulated other comprehensive income would be reclassified into earnings upon termination of these interest rate swap agreements prior to their contractual maturity. The Company does not intend to terminate any such interest rate swap agreements prior to maturity and therefore does not expect any gains or losses to

be reclassified into income within the next twelve months.

Pre-tax losses for the six months ended June 30, 2001 resulting from the change in fair value of interest rate swap agreements held which do not qualify as cash flow hedges under Statement 133 of \$835 have been recorded on the condensed consolidated statements of income as market value adjustment for derivative instruments. Interest rate swap agreements which qualify as cash flow hedges, are perfectly correlated and therefore no ineffectiveness relating to these instruments is recorded in the condensed consolidated statements of income.

MANAGEMENT'S DISCUSSION AND ANALYSIS FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General

The Company generates revenues through leasing transportation equipment, primarily intermodal dry freight standard containers and container chassis. Most of the Company's revenues are derived from payments under operating leases and income earned under finance leases, under which the lessee has the right to purchase the equipment at the end of the lease term. For the six months ended June 30, 2001 and 2000 revenues from direct financing leases were \$11.0 million (6% of leasing revenues) and \$10.7 million (8% of leasing revenues), respectively. For the three months ended June 30, 2001 and 2000 revenues from direct financing leases were \$5.6 million (6% of leasing revenues) and \$4.8 million (7% of leasing revenues), respectively.

Three Months Ended June 30, 2001 compared to Three Months Ended June 30, 2000

Revenues

The Company's revenues increased to \$87.2 million for the three months ended June 30, 2001, from \$66.1 million in the three months ended June 30, 2000, an increase of \$21.1 million or 32%. The increase was primarily attributable to the Company's October 2000 acquisition of the North American Intermodal division of Transamerica Leasing Inc. (TA) which resulted in \$19.7 million of additional leasing revenues, increased operating lease revenues of \$2.7 million primarily generated by an expanded container and chassis fleet, and increased finance lease revenues of \$1.0 million, partially offset by reduced revenues of \$2.2 million generated by the computer leasing segment. Utilization rates of the container and chassis operating lease fleet at June 30, 2001 were 97% and 94%, respectively, and at June 30, 2000 were 99% and 97%, respectively.

Lease Operating and Administrative Expenses

The Company's lease operating and administrative expenses increased to \$32.5 million for the three months ended June 30, 2001 from \$21.5 million in the three months ended June 30, 2000, an increase of \$11.0 million. The increase was primarily due to the Company's October 2000 acquisition of assets from TA which resulted in \$7.3 million of additional lease operating and administrative expenses, as well as higher operating and administrative expenses resulting from expanded operations generating increased equipment rental, commissions, maintenance and repairs and salary expense, partially offset by reduced consulting and legal expenses.

Provision for Doubtful Accounts

The Company's provision for doubtful accounts increased to \$2.6 million for the three months ended June 30, 2001 from \$.9 million for the three months ended June 20, 2000, an increase of \$1.7 million. The increase was primarily due to \$1.5 million of additional bad debt reserves provided by MicroTech (a subsidiary within the computer leasing segment) due to its concentration within the technology industry, as well as \$.2 million of additional bad debt reserves as a result of the October 2000 acquisition of assets from TA.

Depreciation and Amortization of Leasing Equipment

The Company's depreciation and amortization expenses increased to \$19.8 million for the three months ended June 30, 2001 from \$16.3 million for the three months ended June 30, 2000, an increase of \$3.5 million. The increase was primarily a result of the October 2000 acquisition of assets from TA, partially offset by reduced depreciation expense of \$1.3 million as a result of the sale of the rail trailers and domestic containers to TIP in March 2001 as detailed in Note 8 to the condensed consolidated financial statements.

Other (Income)/Expense, Net

The change in other (income)/expense, net was due to a reduction in the Company's net loss on the sale of leasing equipment of \$.5 million during the three months ended June 30, 2001, partially offset by a decrease in the Company's income from unconsolidated subsidiaries of \$.5 million during the three months ended June 30, 2001.

Interest Expense, Net

The Company's net interest expense increased to \$21.6 million in the three months ended June 30, 2001 from \$15.6 million in the three months ended June 30, 2000, an increase of \$6.0 million. The increase in net interest expense was due to increased interest expense of \$5.2 million, as well as decreased investment income of \$.8 million. The increase in interest expense was primarily due to increased borrowings to acquire assets from TA and fund capital expenditures, resulting in incremental interest expense of \$4.9 million, as well as increased borrowing costs resulting in incremental interest expense of \$.3 million.

Provision for Income Taxes

The Company's provision for income taxes decreased to \$1.6 million from \$2.0 million primarily due to higher taxable income, partially offset by a lower effective tax rate resulting from greater income contribution from the international container leasing division.

Income Before Cumulative Effect of Change in Accounting Principle and Extraordinary Gain

As a result of the factors described above, the Company's net income before cumulative effect of change in accounting principle and extraordinary gain was \$11.4 million in the three months ended June 30, 2001 versus net income of \$10.4 million in the three months ended June 30, 2000.

Extraordinary Gain

The Company recorded an extraordinary gain on the retirement of debt of \$.3 million in the three months ended June 30, 2001.

Net Income

As a result of the factors described above, the Company's net income increased to \$11.7 million in the three months ended June 30, 2001 from \$10.4 million in the three months ended June 30, 2000.

Six Months Ended June 30, 2001 compared to Six Months Ended June 30, 2000

Revenues

The Company's revenues increased to \$173.6 million for the six months ended June 30, 2001, from \$127.2 million in the six months ended June 30, 2000, an increase of \$46.4 million or 36%. The increase was primarily

attributable to the Company's October 2000 acquisition of the North American Intermodal division of Transamerica Leasing Inc. (TA) which resulted in \$39.2 million of additional leasing revenues, increased operating lease revenues of \$6.7 million primarily generated by an expanded container and chassis fleet, and increased finance lease revenues of \$1.4 million, partially offset by reduced revenues of \$2.9 million generated by the computer leasing segment. Utilization rates of the container and chassis operating lease fleet at June 30, 2001 were 97% and 94%, respectively, and at June 30, 2000 were 99% and 97%, respectively.

Lease Operating and Administrative Expenses

The Company's lease operating and administrative expenses increased to \$62.5 million for the six months ended June 30, 2001 from \$42.2 million in the six months ended June 30, 2000, an increase of \$20.3 million. The increase was primarily due to the Company's October 2000 acquisition of assets from TA which resulted in \$13.7 million of additional lease operating and administrative expenses, as well as higher operating and administrative expenses resulting from expanded operations generating increased equipment rental, commissions, maintenance and repairs and salary expense, partially offset by reduced consulting and legal expenses.

Provision for Doubtful Accounts

The Company's provision for doubtful accounts increased to \$3.7 million for the six months ended June 30, 2001 from \$1.7 million for the six months ended June 30, 2000, an increase of \$2.0 million. The increase was primarily due to \$1.7 million of additional bad debt reserves provided by MicroTech (a subsidiary within the computer leasing segment) due to its concentration within the technology industry, as well as \$.3 million of additional bad debt reserves as a result of the October 2000 acquisition of assets from TA.

Depreciation and Amortization of Leasing Equipment

The Company's depreciation and amortization expenses increased to \$40.6 million for the six months ended June 30, 2001 from \$31.7 million for the six months ended June 30, 2000, an increase of \$8.9 million. The increase was primarily a result of the October 2000 acquisition of assets from TA, partially offset by reduced depreciation expense of \$1.3 million as a result of the sale of the rail trailers and domestic containers to TIP in March 2001 as detailed in Note 8 to the condensed consolidated financial statements.

Other (Income)/Expense, Net

The change in other (income)/expense, net of \$2.1 million was primarily due to a gain of \$1.8 million on the sale of the rail trailers and domestic containers previously owned by the Company to TIP Intermodal Services (TIP), a GE Capital Company. These rail trailers and domestic containers were not acquired from TA as part of the October 2000 acquisition. Additionally, exclusive of the sale of the above-mentioned rail trailers and domestic containers to TIP, the Company's net loss on the sale of leasing equipment decreased \$1.1 million during the six months ended June 30, 2001, partially offset by a decrease in the Company's income from unconsolidated subsidiaries of \$.8 million during the six months ended June 30, 2001.

Interest Expense, Net

The Company's net interest expense increased to \$44.1 million in the six months ended June 30, 2001 from \$29.3 million in the six months ended June 30, 2000, an increase of \$14.8 million. The increase in net interest expense was due to increased interest expense of \$12.3 million, as well as decreased investment income of \$2.5 million. The increase in interest expense was primarily due to increased borrowings to acquire assets from TA and fund capital expenditures, resulting in incremental interest expense of \$11.2 million, as well as increased borrowing costs resulting in incremental interest expense of \$1.1 million.

Provision for Income Taxes

The Company's provision for income taxes increased to \$4.5 million from \$3.9 million primarily due to higher taxable income, as well as a higher effective tax rate resulting from greater income contribution from the domestic intermodal division.

Income Before Cumulative Effect of Change in Accounting Principle and Extraordinary Gain

As a result of the factors described above, the Company's net income before cumulative effect of change in accounting principle and extraordinary gain was \$22.4 million in the six months ended June 30, 2001 versus net income of \$19.4 million in the six months ended June 30, 2000.

Cumulative Effect of Change in Accounting Principle

The Company recorded the cumulative effect of a change in accounting principle of \$.8 million in the three months ended March 31, 2001. This represents the cumulative effect through December 31, 2000 regarding the Company's accounting for swap transactions not accounted for as hedges in accordance with the Financial Accounting Standards Board issued statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities. The adoption of Statement 133 on January 1, 2001 increased liabilities by approximately \$9.0 million, with offsetting amounts recorded as decreases to deferred tax liabilities of \$2.4 million and accumulated other comprehensive income of \$7.4 million.

The Company recorded the cumulative effect of a change in accounting principle of \$.7 million in the three months ended March 31, 2000. This represents a change in the Company's accounting for its maintenance and repairs expense from an accrual to cash basis, in accordance with a recent Securities and Exchange Commission recommendation.

Extraordinary Gain

The Company recorded an extraordinary gain on the retirement of debt of \$.3 million in the three months ended June 30, 2001.

The Company recorded an extraordinary gain on the retirement of debt of \$.8 million in the three months ended March 31, 2000.

Net Income

As a result of the factors described above, the Company's net income increased to \$23.5 million in the six months ended June 30, 2001 from \$20.9 million in the six months ended June 30, 2000.

Liquidity and Capital Resources

The Company uses funds from various sources to finance the acquisition of equipment for lease to customers. The primary funding sources are cash provided by operations, borrowings, generally from banks, securitization of lease receivables, the issuance of capital lease obligations and the sale of the Company's debt securities. In addition, the Company generates cash from the sale of equipment being retired from the Company's fleet. In general, the Company seeks to meet debt service requirements from the leasing revenue generated by its equipment.

The Company generated cash flow from operations of \$86.7 million and \$72.9 million in the first six months of 2001 and 2000, respectively, and net cash used for financing activities was \$325.4 million and \$16.3 million for the first six months of 2001 and 2000, respectively. The Company has purchased the following amounts of equipment:

Edgar Filing: INTERPOOL INC - Form 10-Q

\$127.9 million for the six months ended June 30, 2001 and \$188.2 million for the six months ended June 30, 2000. The decrease was partially due to weaker economic conditions.

In March 1999, the Company established a container securitization facility of \$250.0 million. This program provides the Company with a lower cost of capital for its finance lease business and access to an additional source of funding. Included in other investment securities at June 30, 2001, is approximately \$30.5 million of retained interests in the securitized lease receivables. At June 30, 2001, \$71.7 million of the container securitization facility was utilized.

In October 2000, the Company established a secured financing facility in the amount of \$300.0 million of which \$100.0 million is due on October 23, 2001. The remaining \$200.0 million is payable in quarterly installments of \$.5 million beginning January 31, 2001, with a balloon payment of \$196.5 million due on October 24, 2002. As mentioned in Note 8 to the condensed consolidated financial statements, a portion of the proceeds from the sale to TIP were used to pay down the secured financing facility. At June 30, 2001, \$99.2 million of this facility was outstanding with an interest rate of 5.75%.

In July 2000, the Company established a chassis securitization facility of \$280.0 million. In October 2000, this chassis securitization facility was increased to \$300.0 million. At June 30, 2001, \$267.6 million of this facility was outstanding. This facility provides the Company an additional source of funding and is accounted for as on-balance sheet secured debt financing.

The Company has a \$215.0 million revolving credit facility with a group of commercial banks; on June 30, 2001, \$155.0 million was outstanding, with an interest rate of 5.09%. In July 2000, this facility was renewed and amended with the term extended to July 31, 2005. The credit limit remains at \$215.0 million through July 31, 2003; thereafter the credit limit declines to \$193.5 million through July 31, 2004 and \$172.0 million through July 21, 2005. In addition, as of June 30, 2001, the Company had available lines of credit of \$78.0 million under various facilities, under which \$43.1 million was outstanding. Interest rates under these facilities ranged from 5.1% to 6.3%. Subsequent to June 30, 2001 the Company has continued to incur and repay debt obligations in connection with financing its equipment leasing activities.

In March 2001, the Company and TIP completed the sale of 50,000 rail trailers and domestic containers by the Company to TIP, including all 41,000 rail trailers and domestic containers the Company acquired from TA in October 2000.

During the three months ended June 30, 2001, the Company initiated a bankruptcy claim against a customer and sought for the collection of receivables and the recovery of equipment values through its insurance policies. The total net book value of equipment as of June 30, 2001 is approximately \$29.4 million. The receivables as of June 30, 2001 are approximately \$7.6 million of which \$6.7 million is covered by insurance, with the balance reserved for in the allowance for doubtful accounts. As a result of the above, the Company has demanded the return of equipment on approximately \$8.5 million of direct finance leases and reclassified the equipment value supporting these direct finance leases to operating leasing equipment.

At this time, the Company has estimated no impairment upon the liquidation and/or re-lease of these assets after considering anticipated insurance proceeds. The overall recovery of the asset values has been evaluated taking into consideration the equipment book value, the cost to recover and re-lease the equipment, the total outstanding receivables, as well as the likelihood to collect through the recovery and sale of the equipment or the stipulated equipment values within the insurance policy. The Company has continued to record revenue from these leases in the three months ended June 30, 2001, as lease payments during this period are covered by the insurance policies. There can be no assurance that the Company will be able to re-lease recovered equipment for comparable rates or terms.

Edgar Filing: INTERPOOL INC - Form 10-Q

The Company will continue to assess the overall recovery of the asset values and adjust the assumptions used in evaluating the total insurance claim. As additional information becomes available, reserves for the impairment of the asset values maybe necessary based upon changes in economic conditions and the assumptions used in evaluating the total insurance claim.

On August 3, 2001, the Company filed a registration statement with the Securities and Exchange Commission for a proposed offering of 5,500,000 shares of common stock. The Company expects to use the net proceeds of the offering for general corporate purposes, including repayment of outstanding debt. This registration statement has not yet become effective. The securities may not be sold, nor may offers to buy be accepted, prior to the time the registration statement becomes effective.

As of June 30, 2001, commitments for capital expenditures totaled approximately \$55.0 million. The Company believes that cash on hand, cash flow from operations, borrowings under credit facilities and the net proceeds of the issuance of debt and equity securities in appropriate markets will be sufficient to meet the working capital needs of the Company's business and capital expenditures for the next twelve months. In addition, the Company expects to rely in substantial part on long-term financing for any purchase of equipment or strategic acquisitions to expand its business in the future. The Company cannot assure that additional long-term financing will be available for these purposes on acceptable terms or at all. In addition, from time to time, the Company explores new sources of capital both at the parent and subsidiary levels.

During 1999, the Company authorized the repurchase up to 1,000,000 shares of its common stock. A total of 158,500 shares were purchased by the Company during the fourth quarter of 1999, for an aggregate purchase price of \$1.17 million.

On June 29, 2001, the Financial Accounting Standards Board approved its proposed Statement of Financial Accounting Standards No. 141, Business Combinations, and Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets.

Under Statement 141, all business combinations should be accounted for using the purchase method of accounting; use of the pooling-of-interests (pooling) method is prohibited. The provisions of the statement will apply to all business combinations initiated after June 30, 2001.

Statement 142 will apply to all acquired intangible assets whether acquired singly, as part of a group, or in a business combination. The statement will supersede Accounting Principals Board, or APB, Opinion No. 17, Intangible Assets, and will carry forward provisions in APB Opinion No 17 related to internally developed intangible assets. Adoption of Statement 142 will result in ceasing amortization of goodwill. All of the provisions of the statement should be applied in fiscal years beginning after December 15, 2001 to all goodwill and other intangible assets recognized in an entity's statement of financial position at that date, regardless of when those assets were initially recognized.

The Company does not expect the adoption of these standards to have a material effect on our consolidated financial statements.
