Proposal #1: Election of Mr. Taylor, Mr. McNitt and Dr. Rachesky as directors,

Proposal #2: Ratification of independent registered public accounting firm of Grant Thornton LLP,

Proposal #3: To approve a non-binding advisory resolution on executive compensation.

Quorum for Annual Meeting

Common Stockholders of record on the Record Date are entitled to cast their votes in person or by properly executed proxy at the Annual Meeting. The presence, in person or by properly executed proxy, of the Common Stockholders holding a majority of the Common Stock outstanding on the Record Date is necessary to constitute a quorum at the Annual Meeting. Abstentions and “broker non-votes” (in cases when a broker has delivered a proxy that has authority to vote on the proposal in question) are counted as present in determining whether or not there is a quorum. If a quorum is not present at the time the Annual Meeting is convened, a majority of the Common Stockholders present in person or represented by properly executed proxy may adjourn the Annual Meeting.

Procedures

All Common Stock represented at the Annual Meeting by properly executed proxies received prior to or at the Annual Meeting and not properly revoked will be voted at the Annual Meeting in accordance with the instructions indicated in such proxies. If no instructions are indicated, such proxies will be voted FOR the Proposal #1, #2, and #3, and persons designated as proxies will vote with their best judgment on such other business as may properly come before the Annual Meeting. The Board of Directors does not know of any matters that will come before the Annual Meeting other than those described in the Notice of Annual Meeting attached to this Proxy Statement.

Vote Required to Approve Proposals

Proposal #1: The election of each of Mr. Taylor, Mr. McNitt and Dr. Rachesky as directors requires the affirmative vote of Common Stockholders holding a majority of the shares of Common Stock present in person or represented by proxy at the Annual Meeting.

Proposal #2: Ratification of the independent registered public accounting firm of Grant Thornton LLP requires the affirmative vote of the Common Stockholders holding a majority of the shares of Common Stock present in person or represented by proxy at the Annual Meeting.

Proposal #3: The non-binding advisory vote on executive compensation requires the affirmative vote of the Common Stockholders holding a majority of the shares of Common Stock present in person or represented by proxy at the Annual Meeting.

Abstentions are counted in the number of shares present in person or represented by proxy for purposes of determining whether a proposal has been approved, and so are equivalent to votes against a proposal. Broker non-votes are not considered to be entitled to vote and thus will have no impact on the outcome of Proposals #1 and #3. Because brokers have discretionary authority to vote on Proposal #2 in the absence of timely instructions from their beneficial owners, there will be no broker non-votes with respect to Proposal #2.

VOTING PROCEDURES (continued)

Revoking a Proxy

Any proxy given pursuant to this solicitation may be revoked at any time before it is voted. Common Stockholders may revoke a proxy at any time prior to its exercise by filing with the Secretary of the Company a duly executed revocation, a proxy bearing a later date or by voting in person by written ballot at the Annual Meeting. Attendance at the Annual Meeting will not of itself constitute revocation of a proxy. Any written notice revoking a proxy should be sent to: Michael G. Troyanovich, Secretary of Titan International, Inc., 2701 Spruce Street, Quincy, Illinois 62301.

Cost of Proxy Solicitation

The costs of solicitation of proxies will be borne by the Company. PROPOSAL #1 - Election of Maurice M. Taylor Jr., Peter B. McNitt and Mark H. Rachesky, MD
as Directors

The Board of Directors recommends that stockholders vote FOR Maurice M. Taylor Jr., Peter B. McNitt and Mark H. Rachesky, MD as Director nominees standing for election to serve until the 2017 Annual Meeting.

The Company's By-laws provide for three classes of directors of approximately equal numbers designated as Class I, Class II and Class III until the election of directors at the Annual Meeting of Stockholders to be held in 2018. Commencing with the election of directors at the 2016 Annual Meeting of Stockholders, each director is elected for a one-year term. With the exception of the Chairman & Chief Executive Officer (Mr. Taylor), all directors are independent as defined in the New York Stock Exchange listing standards. The Nominating Committee recommended to the Board of Directors that Maurice M. Taylor Jr., Peter B. McNitt and Mark H. Rachesky, MD stand for election as Class I directors to serve until the 2017 Annual Meeting. The Board has put forth the slate of nominees consisting of Maurice M. Taylor Jr., Peter B. McNitt and Mark H. Rachesky, MD to stand for election at the 2016 Annual Meeting. Mr. Taylor, Mr. McNitt and Dr. Rachesky are each current directors of the Company. Each of the nominees has consented to serve as director if elected.

In the unexpected event that the nominee for director becomes unable to serve before the Annual Meeting, it is intended that shares represented by proxies which are executed and returned will be voted for such substitute nominee as may be appointed by the Company's existing Board of Directors, as recommended by the Nominating Committee. The following is a brief description of the business experience of each of the nominees for at least the past five years.

Maurice M. Taylor Jr.

Mr. Taylor is chairman of the Company's Board of Directors and Chief Executive Officer. Mr. Taylor has served as a director of Titan International, Inc. since 1990, when Titan was acquired in a leveraged buyout by Mr. Taylor and investors. Mr. Taylor, who owned 53% of Titan at the time, took the Company public in 1992 on NASDAQ and in 1993 moved Titan to the New York Stock Exchange. Mr. Taylor, who is 71 years old, has been in the manufacturing business for more than 50 years and has a bachelor's degree in engineering and is a journeyman tool and die maker as well as a certified welder. Mr. Taylor's work experiences provide in-depth knowledge and experience in sales, manufacturing, engineering and innovation that enhances the Board of Director's overall qualifications. Mr. Taylor's extensive background with the Company has given him a breadth of insight into Titan's markets and the requirements of end users. With Mr. Taylor's knowledge and a management style that constantly re-evaluates short-term goals, Titan is able to adapt quickly to changing conditions. Titan has gone from zero sales and zero employees to approximately \$2.2 billion in sales in 2013 and over 6,500 employees worldwide. Titan has acquired most of its companies in very depressed situations. Titan has concentrated on its core business of wheels and tires for farm, construction and mining worldwide. Mr. Taylor picked up the nickname of "The Grizz," so the mascot of Titan International is a version of a friendly Grizz bear. In 1996, Mr. Taylor ran as a Republican candidate for President of the United States, campaigning to bring sound fiscal management and business know-how to Washington.

Peter B. McNitt

Mr. McNitt is the Vice Chair of BMO Harris Bank. As part of BMO Harris Bank's executive leadership team, he has a wide range of responsibilities focusing the organization on delivering the full breadth of wealth, commercial and investment banking capabilities to the bank's customers. He has direct responsibility for strategic initiatives that both strengthen BMO Harris' capabilities around customer focus and development and expand the bank's market visibility and presence. Prior to becoming Vice Chair, Mr. McNitt led BMO Harris' U.S. Corporate Banking as Executive Vice President and U.S. Investment Banking as Executive Managing Director. He is on the Board of Directors of Youth Guidance, Chairman of the Board of Managers for the YMCA of Metropolitan Chicago, and the Board of Trustees of WTTW. Mr. McNitt also served on the Board of Directors of the Chicagoland Chamber of Commerce through 2015. Mr. McNitt, who is 61 years old, became a director of the Company in 2013. Mr. McNitt serves on the following

committees: Audit and Corporate Governance (Chairman). Mr. McNitt has a good working knowledge of the Company's business and history through being involved with banking activity with Titan in the past. Mr. McNitt adds a great deal of financial expertise to Titan's Board.

4

Mark H. Rachesky, MD

Dr. Rachesky is the Founder and President of MHR Fund Management LLC, a New York-based investment firm that takes a private equity approach to investing. MHR manages approximately \$6 billion of capital and has holdings in public and private companies in a variety of industries. Dr. Rachesky is Chairman of the Board of Directors of Lions Gate Entertainment Corp., Loral Space & Communications Inc. and Telesat Canada, and serves on the Board of Directors of Emisphere Technologies, Inc. and Navistar International Corporation. He has also previously served as a director of Leap Wireless International, Inc. Dr. Rachesky holds an MBA from the Stanford University School of Business, an MD from the Stanford University School of Medicine and a BA in Molecular Aspects of Cancer from the University of Pennsylvania. Dr. Rachesky, who is 57 years old, became a director of the Company in June of 2014. Dr. Rachesky serves on the following committees: Compensation, Nominating, and Corporate Governance. Dr. Rachesky has demonstrated leadership skills as well as extensive financial expertise and broad-based business knowledge and relationships. In addition, Dr. Rachesky has significant expertise and perspective as a member of the board of directors of private and public companies engaged in a wide range of businesses.

PROPOSAL #2 - Ratification of Independent Registered Public Accounting Firm of Grant Thornton LLP

The Board of Directors recommends that stockholders vote FOR the selection of the independent registered public accounting firm, Grant Thornton LLP, to audit the consolidated financial statements of the Company and its subsidiaries for 2016.

Grant Thornton LLP has served the Company as the independent registered public accounting firm during the year ended December 31, 2015, and has been selected by the Audit Committee to serve as the independent registered public accounting firm for the present year of 2016. If stockholders fail to ratify the selection of Grant Thornton LLP, the Audit Committee will consider this fact when selecting an independent registered public accounting firm for the 2017 audit year. Grant Thornton LLP has served the Company in this capacity since 2012.

A representative from Grant Thornton LLP is expected to be present at the Annual Meeting and will have an opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions of stockholders in attendance.

PROPOSAL #3 - To Approve a Non-Binding Advisory Resolution on Executive Compensation

The Board of Directors recommends that stockholders vote FOR the approval of a non-binding advisory resolution on executive compensation.

As required by Section 14A of the Securities Exchange Act of 1934, the Company is asking stockholders to vote on a non-binding advisory basis, on a resolution approving the compensation of our named executive officers as disclosed in this Proxy Statement in accordance with the rules of the Securities and Exchange Commission (SEC), included in the "Compensation Discussion and Analysis" section and the compensation tables and narrative discussion contained in the "Compensation of Executive Officers" section of this Proxy Statement.

As described in the "Compensation Discussion and Analysis" section, the objectives of the Company's compensation program are to attract and retain individuals with the necessary skills that are vital to the long-term success of Titan. The compensation program is designed to be fair and just to both the Company and the individual. The overall goal of the Company's compensation policy is to maximize stockholder value by attracting, retaining and motivating the executive officers that are critical to the long-term success of the Company. Stockholders are encouraged to review the "Compensation Discussion and Analysis" and "Compensation of Executive Officers" sections of this Proxy Statement for additional information regarding the Company's executive compensation.

The Board of Directors is requesting the support of Titan's stockholders for the executive compensation as disclosed in the "Compensation Discussion and Analysis" and "Compensation of Executive Officers" sections of this Proxy Statement. This proposal gives the Company's stockholders the opportunity to express their views on the executive officers' compensation. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our executive officers and the overall compensation objectives and philosophy described in this Proxy Statement.

Accordingly, the Board of Directors asks stockholders to vote FOR the following resolution at the Annual Meeting: "The stockholders of Titan International, Inc. hereby approve the compensation of the Company's Named Executive Officers as described in the Company's definitive Proxy Statement for the Company's 2016 Annual Meeting of Stockholders, including the sections entitled 'Compensation Discussion and Analysis' and 'Compensation of Executive Officers.'"

The vote on the compensation of executive officers is advisory and not binding on the Company, the Board of Directors, or the Compensation Committee. However, the Board of Directors and Compensation Committee will consider the outcome of this vote when making future compensation decisions for the named executive officers.

The Board of Directors has determined that the Company will hold an advisory vote on executive compensation annually.

OTHER BUSINESS

The Board of Directors does not intend to present at the Annual Meeting any business other than the items stated in the "Notice of Annual Meeting of Stockholders" and does not know of any matters to be brought before the Annual Meeting other than those referred to above. If, however, any other matters properly come before the Annual Meeting requiring a stockholder vote, the persons designated as proxies will vote on each such matter in accordance with their best judgment.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee of the Board of Directors (the Committee) was composed of three independent non-employee directors during 2015. The Board of Directors (Board) has determined that the members of the Committee satisfy the requirements of the New York Stock Exchange (NYSE) with respect to independence, experience and financial literacy. Mr. McNitt met the requirements of the NYSE as the “financial expert” of the Committee. The Committee operates under a written charter adopted May 18, 2000, and amended January 20, 2004. This charter is available on the Company's website: www.titan-intl.com.

The Committee has met quarterly with management, internal audit and the independent registered public accounting firm, individually and together, to review and approve the financial press releases, Form 10-Q and Form 10-K reports prior to their filing and release of earnings for 2015. The Committee has met in executive sessions and makes reports to the Board. The Committee has been active in the Sarbanes-Oxley 404 process and met as often as necessary to ensure that the process is on-going and the Company meets the year end December 31, 2015, requirements. The Audit Committee recommended that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

The Committee has selected Grant Thornton LLP (GT) to serve as the independent registered public accounting firm for the Company for 2016 with stockholders' approval. The Committee has discussed the issue of independence with GT and is satisfied that they have met the independence requirement including receipt of the written disclosures and the letter from GT as required by PCAOB Rule 3526 (Public Company Accounting Oversight Board Rule 3526, Communications with Audit Committees Concerning Independence). The Committee has discussed with GT the matters required by SAS 61 (Codification of Statements on Auditing Standards, Communication with Audit Committees).

The Committee meets independently with GT to discuss the accounting principles applied by management and to discuss the quality of the Company's internal audit function. GT reported to the Committee that there were no unresolved matters with management to report. The Committee has established procedures for the receipt, retention and treatment of complaints relating to the Company. The members of the Audit Committee are not professionally engaged in the practice of auditing or accounting and are not experts in those fields, but make every effort to test the veracity of facts and accounting principles applied by management.

The Company can use the combination of cash and stock based incentive compensation to attract and retain qualified directors to serve on the Board. In setting director compensation, the Company considers the amount of time and skill level required by the directors in fulfilling their duties to the Company.

Each Company director, with the exception of Mr. Taylor, receives an annual director fee of \$100,000 dollars. In lieu of this annual director fee, under the Titan International, Inc. 2005 Equity Incentive Plan, each non-employee director of the Company may receive a non-discretionary grant of stock options for 20,000 shares of the Company's common stock at the conclusion of each annual meeting of stockholders at which such director is elected, re-elected or continues in office. Such options will vest and become exercisable immediately and expire 10 years from the date of the grant.

The Audit Committee Chairman receives an additional \$22,500 annual cash payment while each Chairman of the Compensation Committee, the Nominating Committee, and the Corporate Governance Committee receives an additional \$15,000 annual cash payment for these positions. The Financial Expert receives an additional \$7,500 annual cash payment for this role. The Company pays each director, with the exception of Mr. Taylor, a fee of \$500 dollars for each Board of Director (Board) or committee meeting attended. Corporate Governance Committee

The Corporate Governance Committee, which met two times in 2015, provides guidance and assistance to the Board of Directors in discharging the duties and responsibilities related to corporate governance principles and practices of the Board and the Company.

BOARD LEADERSHIP STRUCTURE

The Company's Board of Directors is currently comprised of six non-employee directors and one employee director. Mr. Taylor is the one employee Director, has served as Chairman of the Board and Chief Executive Officer since 2005, and has been a member of the Board since 1993, when Titan became a public company. In 2005, the Board designated Mr. Billig as Vice Chairman. Mr. Billig retired from the Titan Board in June 2015. The Company believes that the number of independent, experienced directors that make up the Board benefits Titan and its stockholders.

The Company recognizes that different board leadership structures may be appropriate for companies in other situations, and believes that no one structure is suitable for all companies. Titan believes the current Board leadership structure is optimal because it demonstrates to Company customers, employees, suppliers and stockholders that Titan has unified leadership, with the same individual establishing the tone and overall responsibility for managing the Company's operations. Having a single leader as both the CEO and the Chairman of the Board eliminates the potential for confusion or duplication of efforts, and provides clear leadership for the Company. The Company's Board of Directors believes Titan is currently well-served by this leadership structure.

The Company's Board of Directors conducts an annual evaluation in order to determine whether it and its committees are functioning effectively. As part of this annual self-evaluation, the Board evaluates whether the current leadership structure continues to be advantageous for Titan and its stockholders.

Risk Oversight

The Company's Board is responsible for overseeing Titan's risk management process. The Board focuses on Titan's general risk management strategy and the most significant risks facing Titan, and ensures that appropriate risk mitigation strategies are implemented by management. The Board is also apprised of particular risk management matters in connection with its general oversight and approval of corporate matters.

The Board has delegated to the Audit Committee Chairman oversight of Titan's risk management process. The Audit Committee Chairman reviews with management (i) policies with respect to risk assessment and management of risks that may be material to the Company, (ii) Titan's system of disclosure controls and system of internal controls over financial reporting, and (iii) Titan's compliance with legal and regulatory requirements. The Company's other Board committees also consider and address risk as they perform their respective committee responsibilities. Committees report to the full Board as appropriate, including when a matter rises to the level of a material risk.

Titan's management is responsible for day-to-day risk management. The Company's Internal Audit team serves as the primary monitoring and testing function for company-wide policies and procedures, and manages the day-to-day oversight of the risk management strategy for ongoing business. This oversight includes identifying, evaluating and addressing potential risks that may exist at the company, strategic, financial, operational, and compliance and reporting levels.

The Company's Board of Directors believes the risk management responsibilities detailed above are an effective approach for addressing the risks facing the Company at this time.

Risk Relating to Employee Compensation Policies and Practices

The Company's Board of Directors believes that any risk relating to compensation policies and practices for Titan employees is not reasonably likely to have a material adverse effect on the Company at this time.

In examining risk relating to employee compensation policies and practices, the Company considered the following factors:

• The Company is an industrial manufacturer; in the Company's opinion, this business does not lend itself to or incentivize significant risk taking by Company employees.

The compensation practices for the Company's non-bargaining employees and management have been established over several decades; in the Company's opinion, these practices have not promoted significant risk taking. The Company does not have a history of material changes in compensation that would have a material adverse effect on the Company related to risk management practices and risk-taking incentives.

BOARD DIVERSITY PROCESS

The Company is required to disclose whether the Board considers diversity in identifying nominees for director. The Nominating Committee and other members of the Board identify candidates for consideration by the Nominating Committee. The Nominating Committee evaluates candidates based on the qualifications for a director described in its charter. These considerations include, among other things, merit, expected contributions to the board, gender, race and ethnicity, organizational experience, professional experience, education, cultural and other background, viewpoint, skills, other personal qualities, and whether the candidate meets the independence standards of the Securities and Exchange Commission and the New York Stock Exchange. The Nominating Committee then presents qualified candidates to the full Board of Directors for consideration and selection.

Involvement in Legal Proceedings

The Company is not aware of any director or executive officer of the Company that was involved in material legal proceedings requiring disclosure under Item 401(f) of Regulation S-K that are material to an evaluation of the ability or integrity of any director or executive officer.

COMPENSATION DISCUSSION AND ANALYSIS

Overview

This Compensation Discussion and Analysis describes the compensation policies and determinations that apply to the Company's named executive officers. The Compensation Committee (the Committee) is empowered to review and approve the annual compensation package for the Company's named executive officers. The named executive officers are as follows:

Position	Name
Chairman and Chief Executive Officer	Maurice M. Taylor Jr.
President	Paul G. Reitz
Chief Financial Officer	John R. Hrudicka
Secretary & General Counsel	Michael G. Troyanovich

Objective

The objectives of the Company's compensation program are to attract and retain individuals with the necessary skills that are vital to the long-term success of Titan. To achieve these objectives the compensation program is designed to be fair and just to both the Company and the individual. Consideration is given to the individual's overall responsibilities, qualifications, experience and job performance.

Philosophy

The overall goal of the Company's compensation policy is to maximize stockholder value by attracting, retaining and motivating the executive officers that are critical to its long-term success. The Compensation Committee believes that executive compensation should be designed to promote the long-term economic goals of the Company. Accordingly, an important component of the Committee's compensation philosophy is to align the financial interests of the Company's executive officers with those of the Company's stockholders. To that end, the Committee has determined that the compensation package for executive officers shall consist of the following components:

- Base salaries to reflect responsibility, experience, tenure and performance of executive officers;
- Bonus awards, when applicable, to reward performance for strategic business objectives;
- Long-term incentive compensation, when applicable, to emphasize business objectives; and
- Other benefits as deemed appropriate to be competitive in the marketplace.

The Committee's intent has been that executive base salaries, bonus awards and long-term incentive opportunities are aligned with manufacturing industrial companies that have similarities with the Company for comparable positions, based on available public data.

In addition to reviewing the compensation of executive officers against the competitive market, the Committee also considers recommendations from the Company's Chief Executive Officer regarding the total compensation for the other named executive officers. The Committee also considered the historical compensation of each named executive officer, from both a base salary and total compensation package perspective, in setting the 2015 compensation for the executives.

Compensation Committee Charter

The Committee has a charter to assist in carrying out its responsibilities. The Committee reviews the charter and the guidelines contained therein on an annual basis and makes any modifications as it deems necessary. The Compensation Committee Charter is available on our website at www.titan-intl.com.

COMPENSATION DISCUSSION AND ANALYSIS (continued)

Executive Short-Term Incentive Plan

Titan adopted the Titan International, Inc. Executive Short-Term Incentive Plan (Plan) effective January 1, 2013. The purpose of the Plan is to provide certain executive officers with annual cash incentive opportunities, based on the achievement of performance goals. While the Plan has a term of five years, the Compensation Committee may amend, suspend or terminate the Plan at any time. The Plan was approved by Titan shareholders at the 2013 Annual Meeting.

The Plan is intended to comply with section 162(m) of the Internal Revenue Code of 1986, as amended (the Code). Pursuant to section 162(m), the Company may not deduct more than \$1 million per year for compensation paid to the Company's principal executive officer and the other four highest compensated officers (other than the Company's principal executive officer). An exclusion from the \$1 million limitation is available for compensation that satisfies the requirements provided in section 162(m) for qualified performance-based compensation. The goal of the Compensation Committee is to structure compensation to take advantage of this exemption under section 162(m) to the extent practicable. However, the Compensation Committee may elect to provide compensation outside those requirements when necessary to achieve its compensation objectives.

Executive Compensation Decision-Making

Company management provides the Committee with historical compensation information relating to the executive officers to assist the Committee in formulating officer compensation. The information provided to the Committee includes items such as base salary, bonus, and equity based awards. The Committee takes into account the historical trend of each element of compensation and the total compensation for each year in connection with its decision about proposed compensation amounts. The Committee sets all compensation with regard to the Chief Executive Officer (CEO) of the Company. For the other named executive officers of Titan, the Committee receives recommendations from the CEO which it considers when setting compensation for these individuals.

The Committee has the authority to engage compensation consultants if it feels that such services are desirable. However, the Committee has historically believed that these services are not necessary. The Committee does utilize Equilar, a market leader for benchmarking executive compensation that compared each named executive officer to a selected peer group for base salary and total compensation. Equilar is used by companies to obtain competitive compensation information from public proxy data as a resource for referencing executive compensation to aid the Compensation Committee with its compensation program.

The Committee recognizes other companies may use different types of calculations and matrices to numerically decide what a compensation package should contain. However, the Committee believes any package that uses only such formulas and matrices may not be a complete representation of Titan's performance. The Committee's members use their extensive business experience and judgment including reviewing competitive compensation information obtained from public information to evaluate and determine the Company's executive compensation packages. The Committee's philosophy of evaluating the overall Company performance, not just using numeric measurement criteria, allows the Committee greater flexibility in carrying out its duties.

In setting compensation packages, the Committee considers the provisions of the Plan. The performance goals and objectives for the Plan are designed using the Committee's business experience and judgment to best align executive compensation with the Company's actual performance. The Committee also considers the limitation imposed by section 162(m) of the Internal Revenue Code.

COMPENSATION DISCUSSION AND ANALYSIS (continued)

Annual Incentive Compensation Plan

For 2016, the Compensation Committee has approved a new incentive compensation plan, known as the Annual Incentive Compensation Plan (the "Plan"). This short-term annual pay-for-performance incentive plan will be utilized to motivate and reward named executive officers and management for making decisions that improve performance as measured by EVA®. It is designed to produce sustained shareholder value by establishing a direct link between EVA improvement and incentive compensation:

Placing a greater emphasis on company-wide and business unit results

- Providing a consistent framework to drive accountability for performance throughout the company.
- Motivating management to think like owners.

Emphasizing teamwork and collaboration across all businesses and functions.

Addressing cyclical nature of business; smooth out volatility of reward, while linking reward to performance.

To achieve these objectives, the EVA measure was selected for the Titan Annual Incentive Compensation Plan, as it demonstrates a statistical correlation to share price growth and shareholder returns. EVA is calculated by subtracting a charge for the use of invested capital (the amount of Capital invested by Titan multiplied by Titan's Cost of Capital Rate) from net operating profit after-tax. Generating economic profit in excess of both operating and capital costs (debt and equity) creates EVA. If EVA increases/improves, value is created.

Performance Measures - Targets are self-adjusting annually for each business unit and for the Company as a whole based on prior year EVA performance. The Plan design motivates continuous improvement and "One Titan" teamwork in order to earn payouts at or above target over time. In practice, if EVA exhibits improvement over the prior year, employees will receive awards above target; EVA preservation at a constant level will generate a pay-out at target, and below target if EVA declines.

The Company's and/or business unit's EVA financial performance determines the amount of award earned under the Annual Incentive Compensation Plan. Such awards are based on actual EVA Momentum performance relative to the established EVA target. EVA Momentum is calculated by the "change in EVA" divided by prior year sales. EVA Momentum is a measure of growth rate of EVA scaled to Sales. The focus of EVA Momentum is on improvement (bigger is better). The metric can be applied to diverse business units to assess performance, regardless of capital intensity or profit state.

$$\text{EVA Momentum} = (\text{EVA current year minus EVA prior year}) \text{ divided by SALES prior year.}$$

For a given year, a payout of 100% of target annual incentive compensation is achieved when actual EVA Momentum is equal to the EVA Momentum target. Target EVA Momentum equals 0% where EVA target dollar amount equals prior year EVA. Base Bonus is earned for sustaining EVA performance levels through cyclical business cycles. As a consequence, the Plan is self-adjusting. For example, if EVA is lower in the current year, the pay-out will be lower than target; but the target resets for the following year by building off a "lower" base. If EVA has significantly increased in the current year, the pay-out will be higher than target; but the target resets for the following year building off a "higher" base. As a result, the bar is raised in terms of the EVA improvement that is required to earn a reward above target. The benefit of the self-adjusting target is that budgets and negotiations can be decoupled from compensation considerations.

In practice, actual annual incentive payments each year can range from 0% to 150% of the targeted incentive opportunity based on corporate performance and/or the performance of the business unit over which management has responsibility. For example, functions would be linked 100% to company-wide performance; while a business unit would be linked to 50% company-wide performance/50% business unit performance.

In order to smooth out volatility of payouts associated with the cyclical markets for which we compete, both a “multiplier” and a bonus reserve “banking system” are utilized. The multiplier determines the sensitivity and volatility level of the bonus ranges as EVA rises and falls over time. The proper “multiplier” places the performance index (payout %) in a range where it falls infrequently outside the 0% and 200% range. If the multiplier is too large, the performance index (PI) will be too volatile, resulting in very large bonuses in good performance years and no bonuses in poor years. If the multiplier is too small, the performance index (PI) will approximate zero and bonus will gravitate to base bonus (target), regardless of actual performance, and deter motivation and incentive.

COMPENSATION DISCUSSION AND ANALYSIS (continued)

In practice, high volatility businesses require a low multiplier, while stable businesses require a higher multiplier. The selected multiplier for the Company is “40”, based on back testing and simulations that support the proper volatility level of Titan.

010203040 5060708090100

TII

The Performance Index (payout %) starts at 100% for Base Bonus (employee target bonus \$). It adds an excess multiple, which is the delta between the Actual and Target EVA Momentum that year, multiplied by the “multiplier”.

The bonus reserve “banking system,” when coupled with the multiplier, will significantly reduce the volatility of bonus payouts. The banking system utilizes the performance index (payout %) by creating a bonus reserve when the performance index is greater than 150% that would be utilized in the future to fund poor performance years that fall below the threshold performance index.

The distribution from the reserve is scaled and linear to provide enhanced benefit based on the degree of EVA declines. In effect, the benefits include: 1) significantly reducing the volatility of the bonus pay-outs by mitigating “boom or bust” pay-outs; 2) stabilizing compensation by creating a forced savings plan; 3) buffering for poor performance years, that in turn promotes retention, and 4) enabling the annual cash incentive award to function as a long-term incentive plan by adapting through the cyclical of the business (peaks and troughs).

Equilar Benchmarking

Equilar is a market leader for benchmarking executive compensation that compares each named executive officer to a selected peer group for base salary and total compensation. As Titan is a manufacturer in the off-highway industry, Equilar obtained public compensation information relating to twenty public companies in the manufacturing and industrial businesses which include the following:

American Axle & Manufacturing	EnPro Industries, Inc	Kaiser Aluminum Corp	Nordson Corp
A O Smith	Federal Signal Corp	LKQ Corp	Stoneridge Inc
Applied Industrial Technologies Inc	Graco Inc	Materion Corp	Valmont Industries Inc
Briggs & Stratton Corp	ITT Corp	MSC Industrial Direct Co Inc	Wabash National Corp
Crane	Joy Global Inc	Myers Industries Inc	Woodward, Inc

Equilar was used by the Company to obtain competitive compensation information from public proxy data as a resource for the Compensation Committee for comparison purposes only regarding Titan's executive officers' compensation.

COMPENSATION DISCUSSION AND ANALYSIS (continued)

Compensation Committee Background

The Company's Compensation Committee is made up of Mr. Richard Cashin, Mr. Albert Febbo, Dr. Mark Rachesky and Mr. Anthony Soave. Mr. Cashin is the Chairman and manages multi-billion dollar investments and commitments in direct private equity transactions for OEP, where he is President. Mr. Febbo was formerly the Vice President of Sales and Marketing for General Electric. Dr. Rachesky has demonstrated leadership skills as well as extensive financial expertise and broad-based business knowledge and relationships. Mr. Soave runs multi-million dollar businesses. The Committee members are continually communicating with others in their own marketplaces to compare salaries and compensation packages. They review Company competitors to see what is being paid to other executives in like fields. They will normally ask the CEO for his feedback.

The Compensation Committee takes into account whether or not stock-based compensation is given as part of the executives' performance. The Committee awarded restricted stock in 2015 and 2013. The Committee consults with other members of the Board of Directors regarding what is going on in their markets relating to compensation. Boards may hire consultants due to the fact they may not have the knowledge or experience of compensation practices of comparable companies. The Company's Board has four members that have extensive manufacturing experience and two members that have extensive global financial market experience. The Compensation Committee considers competitors, markets, and individual performance as well as the Company performance when making salary adjustments and bonus awards. The Compensation Committee also considers the results of the non-binding advisory resolution from the previous year's annual meeting.

Salary Level Considerations

Salary levels of the Company executives are reviewed and may be adjusted annually by the Compensation Committee. In determining appropriate salaries, the Committee considers: (i) the CEO's recommendations as to compensation for all other executives; (ii) the scope of responsibility, experience, time, position and individual performance of each executive officer, including the CEO; and (iii) compensation levels of other executives based on the Committee members' own business experience and judgment as well as annual salary surveys, etc. The Compensation Committee members sit on other boards of directors and receive information such as annual salary surveys from different markets as well as the manufacturing industry. The Committee considers the Company's competitors' compensation, which comes from their public filings. The Committee's analysis is a subjective process, which utilizes no specific weights or formulas in determining executives' base salaries but includes a discussion with management of all of the factors as required by Item 402(b) of Regulation S-K as well as all the other information discussed above.

Salary adjustments for executives can be based on the CEO's recommendation to the Committee that their job performance may warrant a salary increase for each. The CEO will discuss the executives' job performance with the Committee and answer any questions that they may have regarding the recommendation. The Committee will consider the recommendation of the CEO as well as the members' personal interactions with each of the executives.

The Compensation Committee considers performance, annual surveys, the industry, competitors, etc. The Committee receives information from each of the executives, which allows them to judge their individual performance as well as the Company's performance through their interaction with the executives.

Base Salary

Base salary is determined by evaluating the responsibilities of the executive position held, the individual's past experience, current performance and competitive marketplace conditions for executive talent. None of these items are weighted more than another. Salary levels are typically considered on an annual basis and there are no set merit increases in any given year. Based on a discussion of the above items, the executive salaries were approved by the Committee (except for Mr. Hrudicka in 2014) for the years of 2014, 2015 and 2016 and are detailed below. Mr. Hrudicka was not an executive officer when the Committee approved the 2014 base salaries.

In addition to a base salary, each executive is eligible for a bonus. Prior to implementing the EVA® incentive compensation plan in 2016, the Committee had no set bonus amount and did not use a pre-established plan or formula for determining the amount. The Committee determined the CEO's bonus, if any, taking into account the CEO's total compensation package along with the Company's performance related to financial and non-financial information. The CEO provided his recommendations regarding the other named executive officers' annual cash bonuses to the Committee, which then reviewed and made any changes it deemed appropriate. The following executive discretionary cash bonuses were approved by the Committee for 2015. The Committee considered the Company's performance during the current agricultural, mining and earthmoving/construction markets when determining these bonuses.

Employment Agreements

At December 31, 2015, the Company had outstanding employment agreements with certain of the executive officers of the Company selected by the Board of Directors. Mr. Taylor, Mr. Reitz, Mr. Hrudicka, and Mr. Troyanovich are each a party to such an agreement. These agreements provide that the individuals will not receive any separation benefits if they voluntarily leave the Company. The agreements contain change of control provisions as detailed below.

CEO Employment Agreement

CEO Employment Agreement Obligations Mr. Taylor's employment agreement expires April 28, 2017. The agreement automatically renews for successive one-year renewal periods unless notice of nonrenewal is given in accordance with the provisions of the agreement. Under the CEO's employment agreement, the Company will provide an employment agreement obligation to Mr. Taylor upon retirement per the employment agreement. The amount of the employment agreement obligation, if any, to be paid out will be determined at such time the CEO elects his contractual rights regarding retirement under his employment agreement. The calculated employment agreement obligation at December 31, 2015, was approximately \$11.3 million. The employment agreement obligation calculated value was actuarially determined using a discount rate of 3.75% and based upon a monthly benefit negotiated between the Committee and the executive of approximately \$66,667 for Mr. Taylor.

The Company's employment agreement for Mr. Taylor states that in the event the executive retires, the executive is entitled to receive medical, dental, life, and any other benefits that are supplied by the Company. This is an employment obligation that survives the agreement.

COMPENSATION DISCUSSION AND ANALYSIS (continued)

Change of Control Definition

For the purpose of the Chief Executive Officer's employment agreement, a "change of control of the company" means:

(i) any Person or two or more Persons acting in concert shall have acquired beneficial ownership (within the meaning of Rule 13d-3 of the Securities and Exchange Commission under the Securities Exchange Act of 1934), directly or indirectly, of securities of the Company (or other securities convertible into such securities) representing 20% or more of the combined voting power of securities of the company entitled to vote in the election of directors; or

(ii) any Person or two or more Persons acting in concert shall have acquired by contract or otherwise, or shall have entered into a contract or otherwise, or shall have entered into a contract or arrangement that, upon consummation, will result in its or their acquisition of control over securities of the company (or other securities convertible into such securities) representing 20% or more of the combined voting power of all securities of the company entitled to vote in the election of directors; or

(iii) consummation of any merger or consolidation with respect to which the Company or any Parent is a constituent corporation (other than a transaction for the purpose of changing the Company's corporate domicile), any liquidation or dissolution of the Company or any sale of substantially all of the assets of the Company to another corporation.

If the CEO terminates his agreement because of a change of control of the Company, Titan and/or its successor shall pay the executive 100% of his Base Salary or Adjusted Base Salary for the remaining employment term. Mr. Taylor's agreement also specifies that the Company shall provide fully vested supplemental retirement benefits to the executive.

In addition to the change of control definition above, Mr. Taylor's agreement specifies that the executive shall have sufficient reason to terminate the agreement if there is a failure by the Company to comply with any material provision of the agreement and such failure has continued for a period of ten days after notice of such failure has been given by the executive to the Company; or there is a purported termination of the executive's employment which is not effected pursuant to the provisions of the agreement relating to termination of the executive's employment by the Company.

For the purpose of the other executives' employment agreements, a "change of control of the company" means:

(i) any person or entity acquires direct or indirect beneficial ownership (as defined in the Securities Exchange Act of 1934, as amended, and the regulations promulgated thereunder) of more than 50% of the outstanding voting securities of Titan; or

(ii) the shareholders of Titan approve, or Titan otherwise effects, enters into or approves, (A) a merger or consolidation of Titan with or into any other person or entity, (B) an agreement for the sale or disposition (in one transaction or a series of transactions) of all or substantially all of the assets of Titan, (C) a plan of complete liquidation of Titan or (D) any transaction similar to any of the foregoing, other than, in the case of both (ii)(A) and (ii)(B) above, a merger, consolidation or sale that would result in the voting securities of Titan outstanding immediately prior thereto controlling or continuing to represent, directly or indirectly, either by remaining outstanding or by being converted into equity securities of the surviving person or entity, at least 50% of the total outstanding voting securities of Titan or the surviving person or entity outstanding immediately after such transaction.

Edgar Filing: TITAN INTERNATIONAL INC - Form DEF 14A

If the other executives terminate their agreement because of a change of control of the Company, Titan shall remain obligated to pay the executive 100% of his Base Salary or Adjusted Base Salary for both the balance of the calendar year in which the Executive is terminated or leaves Titan's employ and the following calendar year.

REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee of the Board of Directors (the Committee) was composed of four independent non-employee directors during 2015. The Board of Directors (Board) has determined that the members of the Committee are independent. The Committee provides oversight of all executive compensation and benefit programs. The Committee operates under a written charter adopted January 20, 2004, which is posted on the Company's website: www.titan-intl.com.

The philosophy of the Committee as it relates to executive compensation is that the Chief Executive Officer (CEO) and other executive officers should be compensated at competitive levels sufficient to attract, motivate and retain talented executives who are capable of leading the Company in achieving its business objectives in an industry facing increasing competition and change.

Annual compensation for the Company's executive officers consists of base salary and bonus compensation. Salary levels of the Company executives are reviewed and are normally adjusted annually, and any bonuses are normally awarded annually. In determining appropriate salaries, the Committee considers: (i) the CEO's recommendations as to compensation for all other executive officers; (ii) the scope of responsibility, experience, time and position and individual performance of each executive officer, including the CEO; and (iii) compensation levels of other executives based on the Committee's own business experience and judgment. The Committee's analysis is a subjective process, which utilizes no specific weights or formulas of the aforementioned factors in determining executives' base salaries and the Committee uses no compensation consultants.

The Committee considers bonus compensation to be the primary motivational method for encouraging and rewarding outstanding individual performance, especially for the Company's executive officers, and overall performance of the Company. Bonuses are based primarily upon: (i) performance of the Company; (ii) performance of the individual; and (iii) recommendation of the CEO. The purpose of awarding bonuses is to provide a special incentive to maximize individual performance and the overall performance of the Company. There are employment contracts for some of the executive officers, which are also considered.

For 2016, the Company has instituted an incentive compensation plan based on EVA, or economic value added. This short-term annual pay-for-performance incentive will be utilized to motivate and reward named executive officers and management for making decisions that improve performance as measured by EVA.

In determining the total compensation package for the CEO for 2015, the Committee considered all of the factors discussed above. Additionally, the Committee considered the Company's performance, the success of the Company's facilities in meeting their objectives, the quality and efficiency of the Company's staff, and certain other factors relating to the Company's performance.

The Committee discussed director compensation and made suggestions to the Board. The Committee has completed an annual evaluation and in their opinion has met the requirements of their charter. The Committee has reviewed the Compensation Committee Charter and has found it complies with requirements of the New York Stock Exchange. The Committee makes a report to the Board when appropriate and met two times during 2015.

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management. Based on such review and discussions, the Committee recommended that the Compensation Discussion and Analysis be included in this Proxy Statement and in the Company's Annual Report on Form 10-K for the year ended December 31, 2015, for filing with the Securities and Exchange Commission.

The Nominating Committee then presents qualified candidates to the full Board of Directors for consideration and selection.

The Nominating Committee will consider nominees for election to the Board that are recommended by stockholders, applying the same criteria for candidates as discussed above, provided that a description of the nominees' qualifications for the directorship, experience and background, a written consent by a nominee to act as such, and other information specified in the By-laws, accompany the stockholder's recommendation. Any stockholder nominations for election as directors at the 2017 Annual Meeting must be delivered to Titan at the address set forth below, not later than December 26, 2016.
