2 SEMI-ANNUAL REPORT FEBRUARY 28, 2010	

### Dear Shareholder

The past year marked a pivotal turning point for global markets as the Great Recession that started in December 2007 began to recede and give way to recov-

ery. The dramatic about-face could be attributed to a confluence of factors, most notably the extraordinary policy actions of global governments and central

banks, a resurgence in corporate profits and growing signs of stability and healing in world economies.

After reaching a trough in early March 2009, stocks galloped higher as investors were lured back into the markets by depressed valuations, desire for higher

yields and increasing confidence that all-out financial disaster had been averted. The result was a powerful upswing in global equities and other higher-risk

assets through the end of 2009. More recently, the combination of mixed economic data, lingering deflation issues (especially in Europe) and proposed fees

and levies on banks dampened investor conviction, resulting in a several-week bout of profit-taking. The selloff had a more pronounced negative effect on inter-

national and emerging market equities due primarily to concerns of higher interest rates in Asia and negative headlines out of Europe, particularly in Greece.

Generally speaking, investors renewed affinity for risk was notable in the fixed income markets as well, where non-Treasury assets made a robust recovery. One

of the major themes in 2009 was the reversal of the flight-to-quality trade. High yield, one of the most battered areas during the financial crisis, emerged as

the strongest-performing fixed income sector in both the taxable and tax-exempt space. Despite weak fundamentals, the municipal market produced solid

returns as technical conditions remained supportive of the asset class. Municipal bond mutual funds enjoyed strong inflows and tax-exempt issuance remained

low thanks to the ever-increasing popularity of the Build America Bond program. Nevertheless, state and local fiscal woes and bankruptcy fears remain firmly in

the spotlight, and bear close monitoring.

At the same time, yields on money market securities declined throughout the reporting period and remain near all-time lows, with the Federal Open Market

Committee reiterating that economic circumstances are likely to necessitate an accommodative interest rate stance for an extended period. Investor assets in

money market funds declined from the peak registered in early 2009, but remain above levels registered prior to the financial crisis that began in 2007.

Against this backdrop, the major market averages posted the following returns:

Total Returns as of February 28, 2010	6-month	12-month
US equities (S&P 500 Index)	9.32%	53.62%
Small cap US equities (Russell 2000 Index)	10.59	63.95
International equities (MSCI Europe, Australasia, Far East Index)	0.72	54.58
3-month Treasury bill (BofA Merrill Lynch 3-Month Treasury Bill Index)	0.07	0.20
US Treasury securities (BofA Merrill Lynch 10-Year US Treasury Index)	0.07	(1.54)
Taxable fixed income (Barclays Capital US Aggregate Bond Index)	3.19	9.32
Tax-exempt fixed income (Barclays Capital Municipal Bond Index)	4.13	9.98
High yield bonds (Barclays Capital US Corporate High Yield 2% Issuer Capped Index)	13.86	55.20

Past performance is no guarantee of future results. Index performance shown for illustrative purposes only. You cannot invest directly in an index.

The market continues to show signs of improvement, but questions about the strength and sustainability of the recovery abound. Through periods of uncer-

tainty, BlackRock s full resources are dedicated to the management of our clients assets. For additional market perspective and investment insight, visit

www.blackrock.com/shareholdermagazine, where you II find the most recent issue of our award-winnin@hareholder® magazine, as well as its quarterly com-

panion newsletter, Shareholder Perspectives. As always, we thank you for entrusting BlackRock with your investments, and we look forward to your continued

partnership in the months and years ahead.

# Trust Summary as of February 28, 2010 BlackRock Maryland Municipal Bond Trust

#### **Investment Objective**

BlackRock Maryland Municipal Bond Trust (BZM) (the Trusts) eks to provide current income exempt from regular federal income taxes and Maryland

personal income taxes. Under normal market conditions, the Trust will invest at least 80% of its managed assets in municipal bonds that are investment

grade quality, or determined by its investment advisor to be of equivalent credit quality at the time of purchase. The Trust may invest up to 20% of its total

assets in municipal bonds that are rated, at the time of investment, Ba/BB or B by Moody s Investors Services, Inc. ( Moody s ), Standard and Poor s

Corporation (S&P) or are unrated but judged to be of comparable quality by BlackRock.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the six months ended February 28, 2010, the Trust returned (1.96)% based on market price and 8.90% based on net asset value ( NAV ). For the

same period, the closed-end Lipper Other States Municipal Debt Funds category posted an average return of 7.90% on a market price basis and 7.08% on

a NAV basis. All returns reflect reinvestment of dividends. The Trust s premium to NAV, which narrowed during the period, accounts for the difference between

performance based on price and performance based on NAV. The Trust benefited from our effort to increase the portfolio weighting in interest-rate-sensitive

bonds as tax-exempt, thirty-year interest rates rallied 25 basis points (0.25%) lower for the six months. A greater weighting in the development district

sector also contributed to performance as credit spreads generally tightened during the period. Conversely, a low weighting in Maryland tax-backed bonds

detracted from performance. As available Maryland tax-exempt supply continues to wane, demand for specialty state paper, such as Maryland, has driven

the positive performance of this sector.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These

views are not intended to be a forecast of future events and are no guarantee of future results.

<sup>4</sup> SEMI-ANNUAL REPORT FEBRUARY 28, 2010

### Trust Summary as of February 28, 2010 BlackRock MuniHoldings New York Insured Fund, Inc.

#### **Investment Objective**

BlackRock MuniHoldings New York Insured Fund, Inc. (MHN) (the Trusts) to provide shareholders with current income exempt from federal income

taxes and New York State and New York City personal income taxes by investing primarily in a portfolio of long-term, investment grade municipal obligations,

the interest on which, in the opinion of bond counsel to the issuer, is exempt from federal income taxes and New York State and New York City personal

income taxes.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the six months ended February 28, 2010, the Trust returned 9.79% based on market price and 7.20% based on NAV. For the same period, the closed-

end Lipper Single-State Insured Municipal Debt Funds category posted an average return of 5.35% on a market price basis and 6.19% on a NAV basis. All

returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance

based on price and performance based on NAV. Concentrations in lower-rated bonds and a focus on bonds with longer-dated maturities benefited Trust per-

formance over the six months, as credit spreads continued to tighten and municipal rates declined across the yield curve. Within an overall context of being

neutral to slightly long duration, the Trust pursued opportunities to add positive convexity to the portfolio by adding discount-coupon bonds and greater

call protection. This, too, proved advantageous as these bonds afforded the portfolio slightly greater capital appreciation as the market rallied. On the other

hand, the Trust s positions in zero-coupon bonds hindered performance as these issues have underperformed the broader municipal market. Also negatively

affecting performance were the Trust s existing weighting in higher-coupon, cushion bonds, as well as its lack of exposure to tax-backed credits and essential

service credits.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These

views are not intended to be a forecast of future events and are no guarantee of future results.

<sup>&</sup>lt;sup>4</sup> Represents Preferred Shares and TOBs as a percentage of total managed assets, which is the total assets of the Trust, including any assets attribu-

<sup>6</sup> The investment advisor has deemed certain of these non-rated securities to be of investment grade quality. As of August 31, 2009,

the market value of these securities was \$18,918,142 representing 3% of the Trust s long-term investments.

SEMI-ANNUAL REPORT FEBRUARY 28, 2010 5

# Trust Summary as of February 28, 2010 BlackRock New Jersey Municipal Bond Trust

#### **Investment Objective**

BlackRock New Jersey Municipal Bond Trust (BLJ) (the Trusts) eks to provide current income exempt from regular federal income taxes and New Jersey

gross income taxes. Under normal market conditions, the Trust will invest at least 80% of its managed assets in municipal bonds that are investment grade

quality, or determined by its investment advisor to be of equivalent credit quality at the time of purchase. The Trust may invest up to 20% of its total assets

in municipal bonds that are rated, at the time of investment, Ba/BB or B by Moody s, S&P or Fitch or that are unrated but judged to be of comparable

quality by BlackRock.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the six months ended February 28, 2010, the Trust returned 8.86% based on market price and 9.04% based on NAV. For the same period, the closed-

end Lipper New Jersey Municipal Debt Funds category posted an average return of 7.40% on a market price basis and 7.44% on a NAV basis. All returns

reflect reinvestment of dividends. The Trust s premium to NAV, which narrowed during the period, accounts for the difference between performance based on

price and performance based on NAV. The Trust held a higher concentration in health care and housing bonds with maturities of 20 years and longer, which

benefited performance as the municipal yield curve flattened during the last six months. The Trust s slightly higher concentration in zero-coupon bonds

detracted from performance during the period. The Trust s cash allocation also hampered results as cash equivalents are currently trading at record-low

yields and, consequently, detracted from income.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These

views are not intended to be a forecast of future events and are no guarantee of future results.

8 SEMI-ANNUAL REPORT FEBRUARY 28, 2010

# Trust Summary as of February 28, 2010 BlackRock New York Municipal Income Trust II

#### **Investment Objective**

BlackRock New York Municipal Income Trust II (BFY) (the Trusts) eks to provide high current income exempt from regular federal income taxes and New

York State and New York City personal income taxes. Under normal market conditions, the Trust will invest at least 80% of its managed assets in municipal

bonds that are investment grade quality, or determined by its investment advisor to be of equivalent credit quality at the time of purchase. The Trust may invest

up to 20% of its total assets in municipal bonds that are rated, at the time of investment, Ba/BB or B by Moody s, S&P or Fitch or that are unrated but judged

to be of comparable quality by BlackRock.

No assurance can be given that the Trust s investment objective will be achieved.

#### Performance

For the six months ended February 28, 2010, the Trust returned 6.69% based on market price and 7.49% based on NAV. For the same period, the closed-

end Lipper New York Municipal Debt Funds category posted an average return of 5.59% on a market price basis and 7.34% on a NAV basis. All returns

reflect reinvestment of dividends. The Trust s discount to NAV, which widened during the period, accounts for the difference between performance based on

price and performance based on NAV. Concentrations in lower-rated bonds and a focus on bonds with longer-dated maturities benefited Trust performance

over the six months, as credit spreads continued to tighten and municipal rates declined across the yield curve. Within an overall context of being neutral to

slightly long duration, the Trust pursued opportunities to add positive convexity to the portfolio by adding discount-coupon bonds and greater call protection.

This, too, proved advantageous as these bonds afforded the portfolio slightly greater capital appreciation as the market rallied. On the other hand, the Trust s

positions in zero-coupon bonds hindered performance as these issues have underperformed the broader municipal market. Also negatively affecting per-

formance were the Trust s existing weighting in higher-coupon, cushion bonds, as well as its lack of exposure to tax-backed credits and essential service

credits.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These

### Trust Summary as of February 28, 2010 BlackRock Virginia Municipal Bond Trust

#### **Investment Objective**

BlackRock Virginia Municipal Bond Trust (BHV) (the Trusts\( \)eks to provide current income exempt from regular federal income taxes and Virginia per-

sonal income taxes. Under normal market conditions, the Trust will invest at least 80% of its managed assets in municipal bonds that are investment grade

quality, or determined by its investment advisor to be of equivalent credit quality at time of purchase. The Trust may invest up to 20% of its total assets in

municipal bonds that are rated, at the time of investment, Ba/BB or B by Moody s, S&P or Fitch or that are unrated but judged to be of comparable quality

by BlackRock.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the six months ended February 28, 2010, the Trust returned 14.56% based on market price and 6.64% based on NAV. For the same period, the

closed-end Lipper Other States Municipal Debt Funds category posted an average return of 7.90% on a market price basis and 7.08% on a NAV basis.

All returns reflect reinvestment of dividends. The Trust s premium to NAV, which widened during the period, accounts for the difference between perform-

ance based on price and performance based on NAV. The Trust benefited from our effort to increase the portfolio weighting in interest-rate-sensitive bonds

as tax-exempt, thirty-year interest rates rallied 25 basis points (0.25%) lower for the six months. A greater weighting in the transportation and corporate

municipal sectors also contributed to performance as credit spreads generally tightened in these sectors during the period. Conversely, a low weighting in

Virginia tax-backed bonds detracted from performance. As available Virginia tax-exempt supply continues to wane, demand for specialty state paper, such

as Virginia, has driven the positive performance of this sector.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These

views are not intended to be a forecast of future events and are no guarantee of future results.

10 SEMI-ANNUAL REPORT FEBRUARY 28, 2010

### Trust Summary as of February 28, 2010 The Massachusetts Health & Education Tax-Exempt Trust

#### **Investment Objective**

The Massachusetts Health & Education Tax-Exempt Trust (MHE) (the Trusts) eks to provide shareholders with as high a level of current income exempt from

both regular federal income taxes and Massachusetts personal income taxes as is consistent with the preservation of shareholders capital. The Trust seeks to

achieve its investment objective by investing primarily in Massachusetts tax-exempt obligations issued on behalf of participating not-for-profit institutions. The

Trust will continue to invest primarily in investment-grade obligations. The Trust is intended to be a long-term investment and not a short-term trading vehicle.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the six months ended February 28, 2010, the Trust returned 10.05% based on market price and 7.66% based on NAV. For the same period, the closed-

end Lipper Other States Municipal Debt Funds category posted an average return of 7.90% on a market price basis and 7.08% on a NAV basis. All returns

reflect reinvestment of dividends. The Trust moved from a discount to NAV to a premium by period-end, which accounts for the difference between perform-

ance based on price and performance based on NAV. The Trust maintained a higher exposure to health care and education bonds with maturities of 20

years and longer, which benefited performance as the municipal yield curve flattened during the last six months. A lower concentration in housing bonds

detracted from the Trust s performance.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These

views are not intended to be a forecast of future events and are no guarantee of future results.

# The Benefits and Risks of Leveraging

The Trusts may utilize leverage to seek to enhance the yield and NAV of their Common Shares. However, these objectives cannot be achieved in all interest rate environments.

To leverage, the Trusts issue Preferred Shares, which pay dividends at prevailing short-term interest rates, and invest the proceeds in long-term municipal bonds. In general, the concept of leveraging is based on the premise that the cost of assets to be obtained from leverage will be based on short-term interest rates, which normally will be lower than the income earned by each Trust on its longer-term portfolio investments. To the extent that the total assets of each Trust (including the assets obtained from leverage) are invested in higher-yielding portfolio investments, each Trust s Common Shareholders will benefit from the incremental net income.

To illustrate these concepts, assume a Trust s Common Shares capitalization is \$100 million and it issues Preferred Shares for an additional \$50 million, creating a total value of \$150 million available for investment in long-term municipal bonds. If prevailing short-term interest rates are 3% and long-term interest rates are 6%, the yield curve has a strongly positive slope. In this case, the Trust pays dividends on the \$50 million of Preferred Shares based on the lower short-term interest rates. At the same time, the securities purchased by the Trust with assets received from Preferred Shares issuance earn the income based on long-term interest rates. In this case, the dividends paid to Preferred Shareholders are significantly lower than the income earned on the Trust s long-term investments, and therefore the Common Shareholders are the beneficiaries of the incremental net income.

If short-term interest rates rise, narrowing the differential between short-term and long-term interest rates, the incremental net income pickup on the Common Shares will be reduced or eliminated completely. Furthermore, if prevailing short-term interest rates rise above long-term interest rates of 6%, the yield curve has a negative slope. In this case, the Trust pays dividends on the higher short-term interest rates whereas the Trust stotal portfolio earns income based on lower long-term interest rates.

Furthermore, the value of the Trusts portfolio investments generally varies inversely with the direction of long-term interest rates, although other factors can influence the value of portfolio investments. In contrast, the redemption value of the Trusts Preferred Shares does not fluctuate in relation to interest rates. As a result, changes in interest rates can influence the Trusts NAV positively or negatively in addition to the impact on Trust performance from leverage from Preferred Shares discussed above.

The Trusts may also leverage their assets through the use of tender option bond ( TOB ) programs, as described in Note 1 of the Notes to Financial Statements. TOB investments generally will provide the Trusts with economic benefits in periods of declining short-term interest rates, but expose the

Trusts to risks during periods of rising short-term interest rates similar to those associated with Preferred Shares issued by the Trusts, as described above. Additionally, fluctuations in the market value of municipal bonds deposited into the TOB trust may adversely affect each Trust s NAV per share.

The use of leverage may enhance opportunities for increased income to the Trusts and Common Shareholders, but as described above, it also creates risks as short- or long-term interest rates fluctuate. Leverage also will generally cause greater changes in the Trusts NAVs, market price and dividend rate than a comparable portfolio without leverage. If the income derived from securities purchased with assets received from leverage exceeds the cost of leverage, the Trusts net income will be greater than if leverage had not been used. Conversely, if the income from the securities purchased is not sufficient to cover the cost of leverage, the Trusts net income will be less than if leverage had not been used, and therefore the amount available for distribution to Common Shareholders will be reduced. Each Trust may be required to sell portfolio securities at inopportune times or at distressed values in order to comply with regulatory requirements applicable to the use of leverage or as required by the terms of leverage instruments, which may cause a Trust to incur losses. The use of leverage may limit each Trust s ability to invest in certain types of securities or use certain types of hedging strategies, such as in the case of certain restrictions imposed by ratings agencies that rate preferred shares issued by the Trusts. Each Trust will incur expenses in connection with the use of leverage, all of which are borne by Common Shareholders and may reduce income to the Common Shares.

Under the Investment Company Act of 1940, the Trusts are permitted to issue Preferred Shares in an amount of up to 50% of their total managed assets at the time of issuance. Under normal circumstances, each Trust anticipates that the total economic leverage from Preferred Shares and/or TOBs will not exceed 50% of its total managed assets at the time such leverage is incurred. As of February 28, 2010, the Trusts had economic leverage from Preferred Shares and/or TOBs as a percentage of their total managed assets as follows:

	Percent of
	Leverage
BZM	37%
MHN	42%
BLJ	37%
BSE	36%
BQH	36%
BFY	38%
BHV	35%
MHE	40%

12 SEMI-ANNUAL REPORT FEBRUARY 28, 2010

### **Derivative Financial Instruments**

The Trusts may invest in various derivative instruments, including financial futures contracts, as specified in Note 2 of the Notes to Financial Statements, which constitute forms of economic leverage. Such instruments are used to obtain exposure to a market without owning or taking physical custody of securities or to hedge market and/or interest rate risks. Such derivative instruments involve risks, including the imperfect correlation between the value of a derivative instrument and the underlying asset, possible default of the counterparty to the transaction or illiquidity of the derivative instrument. The Trusts ability to successfully use a derivative

instrument depends on the investment advisor s ability to accurately predict pertinent market movements, which cannot be assured. The use of derivative instruments may result in losses greater than if they had not been used, may require a Trust to sell or purchase portfolio securities at inopportune times or for distressed values, may limit the amount of appreciation a Trust can realize on an investment or may cause a Trust to hold a security that it might otherwise sell. The Trusts investments in these instruments are discussed in detail in the Notes to Financial Statements.

\* The cost and unrealized appreciation (depreciation) of investments as of

February 28, 2010, as computed for federal income tax purposes, were as follows:

Aggregate cost \$45,051,304
Gross unrealized appreciation \$1,400,922
Gross unrealized depreciation (758,323)
Net unrealized appreciation \$642,599

- (a) Security represents a beneficial interest in a trust. The collateral deposited into the trust is federally tax-exempt revenue bonds issued by various state or local governments, or their respective agencies or authorities. The security is subject to remarketing prior to its stated maturity, and is subject to mandatory redemption at maturity.
- (b) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (c) US government securities, held in escrow, are used to pay interest on this security, as well as to retire the bond in full at the date indicated, typically at a premium to par.
- (d) Securities represent bonds transferred to a tender option bond trust in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to tender option bond trusts.
- (e) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Net

AffiliateActivityIncomeFFI Institutional Tax-Exempt Fund\$(697,269)\$464

(f) Represents the current yield as of report date.

For Trust compliance purposes, the Trust s sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes and/or as defined by Trust management.

This definition may not apply for purposes of this report, which may combine sector sub-classifications for reporting ease.

Fair Value Measurements Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, repayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3  $\,$  unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the

Trust s own assumptions used in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to the Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2010 in determining the fair valuation of the Trust s investments:

#### Investments in Securities

Valuation Inputs	Level 1	Level 2	Level 3	Total
Assets:				
Long-Term Securities <sup>1</sup>		\$46,690,808		\$46,690,808
Short-Term Investment	\$ 503,095			503,095
Total	\$ 503,095	\$46,690,808		\$47,193,903

See above Schedule of Investments for values in each state or political subdivision.

See Notes to Financial Statements.

* The cost and unrealized appreciation (depreciation) of investments as of		

February 28, 2010, as computed for federal income tax purposes, were as follows:

Aggregate cost \$674,275,891

Gross unrealized appreciation \$22,556,699

Gross unrealized depreciation (19,320,515)

Net unrealized appreciation \$3,236,184

- (a) US government securities, held in escrow, are used to pay interest on this security, as well as to retire the bond in full at the date indicated, typically at a premium to par.
- (b) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (c) Securities represent bonds transferred to a tender option bond trust in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to tender option bond trusts.
- (d) Variable rate security. Rate shown is as of report date and maturity shown is the date the principal owed can be recovered through demand.
- (e) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Net

Affiliate Activity Income
CMA New York Municipal Money Fund \$262,642 \$1,307

(f) Represents the current yield as of report date.

For Trust compliance purposes, the Trust s sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine sector sub-classifications for reporting ease.

Fair Value Measurements Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, repayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust s own assumptions used in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2010 in determining the fair valuation of the Trust s investments:

#### **Investments in Securities**

Valuation Inputs	Level 1	Level 2	Level 3	Total
Assets:				
Long-Term Investments <sup>1</sup>		\$743,537,212		\$743,537,212
Short-Term Securities	\$ 5,312,463	375,000		5,687,463
Total	\$ 5,312,463	\$743,912,212		\$749,224,675

See above Schedule of Investments for values in each state or political subdivision.

See Notes to Financial Statements.

Other Assets Less Liabilities 0.2%		63,396
Liability for Trust Certificates, Including Interest		
Expense and Fees Payable (1.3)%		(420,178)
Preferred Shares, at Redemption Value (56.8)%		(18,776,130)
Net Assets Applicable to Common Shares 100.0%		\$ 33,026,662
* The cost and unrealized appreciation (depreciation) of investments as of		
February 28, 2010, as computed for federal income tax purposes, were as follows:		
Aggregate cost		\$ 51,524,075
Gross unrealized appreciation		\$ 2,378,236
Gross unrealized depreciation		(2,162,520)

Net unrealized appreciation \$215,716

- (a) US government securities, held in escrow, are used to pay interest on this security, as well as to retire the bond in full at the date indicated, typically at a premium to par.
- (b) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (c) Security represents a beneficial interest in a trust. The collateral deposited into the trust is federally tax-exempt revenue bonds issued by various state or local governments, or their respective agencies or authorities. The security is subject to remarketing prior to its stated maturity, and is subject to mandatory redemption at maturity.
- (d) Security exempt from registration under Rule 144A of the Securities Act of 1933.
  These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (e) Securities represent bonds transferred to a tender option bond trust in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to tender option bond trusts.
- (f) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Net

Affiliate Activity Income
CMA New Jersey Municipal Money Fund \$1,208,770 \$185

(g) Represents the current yield as of report date.

For Trust compliance purposes, the Trust s sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes and/or as defined by Trust management.

This definition may not apply for purposes of this report, which may combine sector sub-classifications for reporting ease.

See Notes to Financial Statements.

SEMI-ANNUAL REPORT FEBRUARY 28, 2010 21

### Schedule of Investments (concluded) BlackRock New Jersey Municipal Bond Trust (BLJ)

Fair Value Measurements Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, repayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the

Trust s own assumptions used in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to the Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2010 in determining the fair valuation of the Trust s investments:

#### Investments in Securities

Valuation Inputs	Level 1	Level 2	Level 3	Total
Assets:				
Long-Term Securities <sup>1</sup>		\$50,300,203		\$50,300,203
Short-Term Investment	\$ 1,859,371			1,859,371
Total	\$ 1,859,371	\$50,300,203		\$52,159,574

See above Schedule of Investments for values in each state or political subdivision.

See Notes to Financial Statements.

\* The cost and unrealized appreciation (depreciation) of investments as of

February 28, 2010, as computed for federal income tax purposes, were as follows:

Aggregate cost \$129,621,123

Gross unrealized appreciation \$ 3,247,888

Gross unrealized depreciation (2,001,194)

Net unrealized appreciation \$1,246,694

- (a) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (b) US government securities, held in escrow, are used to pay interest on this security, as well as to retire the bond in full at the date indicated, typically at a premium to par.
- (c) Securities represent bonds transferred to a tender option bond trust in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to tender option bond trusts.
- (d) Variable rate security. Rate shown is as of report date and maturity shown is the date the principal owed can be recovered through demand.
- (e) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Net

Affiliate Activity Income
CMA New York Municipal Money Fund \$(2,819,693) \$75

(f) Represents the current yield as of report date.

For Trust compliance purposes, the Trust s sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes and/or as defined by Trust management.

This definition may not apply for purposes of this report, which may combine sector sub-classifications for reporting ease.

See Notes to Financial Statements.

\$91,278,460

### Schedule of Investments (concluded) BlackRock New York Insured Municipal Income Trust (BSE)

Fair Value Measurements Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, repayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust's own assumptions used in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2010 in determining the fair valuation of the Trust s investments:

#### Investments in Securities

Valuation Inputs	Level 1	Level 2	Level 3	Total
Assets:				
Long-Term Investments <sup>1</sup>		\$140,734,939		\$140,734,939
Short-Term Securities	\$ 491,381	50,000		541,381
Total	\$ 491,381	\$140,784,939		\$141,276,320

See above Schedule of Investments for values in each state or political subdivision.

See Notes to Financial Statements.

SEMI-ANNUAL REPORT FEBRUARY 28, 2010 27		

### Schedule of Investments (concluded) BlackRock New York Municipal Bond Trust (BQH)

\* The cost and unrealized appreciation (depreciation) of investments as of

February 28, 2009, as computed for federal income tax purposes, were as follows:

Aggregate cost \$61,861,019
Gross unrealized appreciation \$3,135,214
Gross unrealized depreciation (1,528,337)
Net unrealized appreciation \$1,606,877

- (a) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (b) U.S. government securities, held in escrow, are used to pay interest on this security, as well as to retire the bond in full at the date indicated, typically at a premium to par.
- (c) Issuer filed for bankruptcy and/or is in default of interest payments.
- (d) Non-income producing security.
- (e) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the current yield as of report date.
- (f) Security exempt from registration under Rule 144A of the Securities Act of 1933.
  These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (g) Security represents a beneficial interest in a trust. The collateral deposited into the trust is federally tax-exempt revenue bonds issued by various state or local governments, or their respective agencies or authorities. The security is subject to remarketing prior to its stated maturity, and is subject to mandatory redemption at maturity.
- (h) Securities represent bonds transferred to a tender option bond trust in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to tender option bond trusts.
- (i) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

 Affiliate
 Activity
 Income

 CMA New York Municipal Money Fund
 \$(656,726)
 \$101

(j) Represents the current yield as of report date.

For Trust compliance purposes, the Trust s sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine sector sub-classifications for reporting ease.

Fair Value Measurements Various inputs are used in determining the fair value of

investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for

similar assets or liabilities in markets that are active, quoted prices for identical

or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust s own assumptions used in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2010 in determining the fair valuation of the Trust s investments:

#### **Investments in Securities**

Valuation Inputs	Level 1	Level 2	Level 3	Total
Assets:				
Long-Term Investments <sup>1</sup>		\$64,496,359		\$64,496,359
Short-Term Securities	\$ 480,614			480,614
Total	\$ 480,614	\$64,496,359		\$64,976,973
<sup>1</sup> See above Schedule of Investments for v	alues in each state or			
political subdivision.				

See Notes to Financial Statements.

\$ 114,537,152

Gross unrealized appreciation \$4,059,600

Gross unrealized depreciation (2,239,326)

Net unrealized appreciation \$1,820,274

(a) US government securities, held in escrow, are used to pay interest on this security as

well as to retire the bond in full at the date indicated, typically at a premium to par.

- (b) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (c) Issuer filed for bankruptcy and/or is in default of interest payments.
- (d) Non-income producing security.
- (e) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown is as of the report date.
- (f) Security exempt from registration under Rule 144A of the Securities Act of 1933.

These securities may be resold in transactions exempt from registration to qualified

institutional investors.

- (g) Security represents a beneficial interest in a trust. The collateral deposited into the trust is federally tax-exempt revenue bonds issued by various state or local governments, or their respective agencies or authorities. The security is subject to remarketing prior to its stated maturity, and is subject to mandatory redemption at maturity.
- (h) Securities represent bonds transferred to a tender option bond trust in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to tender option bond trusts.
- (i) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Net

Affiliate Activity Income
CMA New York Municipal Money Fund \$973,518 \$69

(j) Represents the current yield as of report date.

For Trust compliance purposes, the Trust s sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine sector sub-classifications for reporting ease.

Fair Value Measurements Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical

or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3  $\,$  unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the

Trust s own assumptions used in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting

The following table summarizes the inputs used as of February 28, 2010 in determining the fair valuation of the Trust s investments:

policies, please refer to Note 1 of the Notes to Financial Statements.

\* The cost and unrealized appreciation (depreciation) of investments as of

February 28, 2010, as computed for federal income tax purposes, were as follows:

Aggregate cost	\$ 47,645,487
Gross unrealized appreciation	\$ 1,353,306
Gross unrealized depreciation	(1,071,416)
Net unrealized appreciation	\$ 281,890

- (a) US government securities, held in escrow, are used to pay interest on this security as well as to retire the bond in full at the date indicated, typically at a premium to par.
- (b) Securities represent bonds transferred to a tender option bond trust in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to tender option bond trusts.
- (c) Security may have a maturity of more than one year at time of issuance, but has variable rate and demand features that qualify it as a short-term security. The rate shown is as of report date and maturity shown is the date the principal owed can be recovered through demand.
- (d) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Net

**Affiliate** Activity Income CMA Massachusetts Municipal Money Fund \$804,141

(e) Represents the current yield as of report date.

For Trust compliance purposes, the Trust s sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine sector sub-classifications for reporting ease.

Fair Value Measurements Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical

or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3  $\,$  unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the

Trust s own assumptions used in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2010 in determining the fair valuation of the Trust s investments:

#### **Investments in Securities**

Valuation Inputs	Level 1	Level 2	Level 3	Total
Assets:				
Long-Term Investments <sup>1</sup>		\$48,162,831		\$48,162,831
Short-Term Securities	\$ 804,141	300,000		1,104,141
Total	\$ 804,141	\$48,462,831		\$49,266,972

See above Schedule of Investments for values in each state or political subdivision.

See Notes to Financial Statements.

<sup>&</sup>lt;sup>8</sup> Interest expense and fees relate to tender option bond trusts. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to tender option bond trusts.

<sup>&</sup>lt;sup>9</sup> Amounts have been recalculated to conform with current period presentation.

## Notes to Financial Statements (Unaudited)

#### 1. Organization and Significant Accounting Policies:

BlackRock MuniHoldings New York Insured Fund, Inc. (MHN), BlackRock New York Insured Municipal Income Trust ( BSE ) (collectively the Insured Trusts ), BlackRock Maryland Municipal Bond Trust ( BZM ), BlackRock New Jersey Municipal Bond Trust ( BLJ ), BlackRock New York Municipal Bond Trust (BQH), BlackRock Virginia Municipal Bond Trust (BHV) (collectively the Bond Trusts ), BlackRock New York Municipal Income Trust II (BFY) (the Income II Trust), and The Massachusetts Health & Education Tax-Exempt Trust (MHE) (all, collectively the Trusts or individually as the Trust ) are registered under the Investment Company Act of 1940, as amended (the 1940 Act ), as non-diversified, closed-end management investment companies. All Trusts are organized as Delaware statutory trusts except MHN and MHE, which are organized as a Maryland corporation and a Massachusetts business trust, respectively. The Trusts financial statements are prepared in conformity with accounting principles generally accepted in the United States of America, which may require the use of management accruals and estimates. Actual results may differ from these estimates. The Board of Directors and the Boards of Trustees of the Trusts are referred to throughout this report as the Board of Trustees or the Board. Each Trust determines, and makes available for publication the net asset value of its Common Shares on a daily basis.

The following is a summary of significant accounting policies followed by the Trusts:

Valuation: The Trusts policy is to fair value their financial instruments at market value. Municipal investments (including commitments to purchase such investments on a when-issued basis) are valued on the basis of prices provided by dealers or pricing services selected under the supervision of each Trust's Board. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrixes, market transactions in comparable investments and information with respect to various relationships between investments. Financial futures contracts traded on exchanges are valued at their last sale price. Short-term securities with remaining maturities of 60 days or less may be valued at amortized cost, which approximates fair value. Investments in open-end investment companies are valued at net asset value each business day.

In the event that application of these methods of valuation results in a price for an investment which is deemed not to be representative of the market value of such investment or is not available, the investment will be valued by a method approved by each Trust s Board as reflecting fair value (Fair Value Assets). When determining the price for Fair Value Assets, the investment advisor and/or the sub-advisor seeks to determine the price that each Trust might reasonably expect to receive from the current sale of that asset in an arm s-length transaction. Fair value determina-

tions shall be based upon all available factors that the investment advisor and/or sub-advisor deems relevant. The pricing of all Fair Value Assets is subsequently reported to the Board or a committee thereof.

Forward Commitments and When-Issued Delayed Delivery Securities: Each Trust may purchase securities on a when-issued basis and may purchase or sell securities on a forward commitment basis. Settlement of such transactions normally occurs within a month or more after the purchase or sale

commitment is made. The Trusts may purchase securities under such conditions with the intention of actually acquiring them, but may enter into a separate agreement to sell the securities before the settlement date. Since the value of securities purchased may fluctuate prior to settlement, the Trusts may be required to pay more at settlement than the security is worth. In addition, the purchaser is not entitled to any of the interest earned prior to settlement. When purchasing a security on a delayed delivery basis, the Trusts assume the rights and risks of ownership of the security, including the risk of price and yield fluctuations. In the event of default by the counterparty, the Trusts maximum amount of loss is the unrealized gain of the commitment, which is shown on the Schedules of Investments, if any.

Municipal Bonds Transferred to Tender Option Bond Trusts: The Trusts leverage their assets through the use of tender option bond trusts ( TOBs ). A TOB is established by a third party sponsor forming a special purpose entity, into which one or more funds, or an agent on behalf of the funds, transfers municipal bonds. Other funds managed by the investment advisor may also contribute municipal bonds to a TOB into which a Trust has contributed bonds. A TOB typically issues two classes of beneficial interests: short-term floating rate certificates, which are sold to third party investors. and residual certificates ( TOB Residuals ), which are generally issued to the participating funds that made the transfer. The TOB Residuals held by a Trust include the right of the Trust (1) to cause the holders of a proportional share of the floating rate certificates to tender their certificates at par, and (2) to transfer, within seven days, a corresponding share of the municipal bonds from the TOB to the Trusts. The TOB may also be terminated without the consent of the Trust upon the occurrence of certain events as defined in the TOB agreements. Such termination events may include the bankruptcy or default of the municipal bond, a substantial downgrade in credit quality of the municipal bond, the inability of the TOB to obtain guarterly or annual renewal of the liquidity support agreement, a substantial decline in market value of the municipal bond or the inability to remarket the short-term floating rate certificates to third party investors.

The cash received by the TOB from the sale of the short-term floating rate certificates, less transaction expenses, is paid to the Trust, which typically invests the cash in additional municipal bonds. Each Trust s transfer of the municipal bonds to a TOB is accounted for as a secured borrowing, therefore the municipal bonds deposited into a TOB are presented in the Trusts Schedules of Investments and the proceeds from the issuance of the short-term floating rate certificates are shown as trust certificates in the

Statements of Assets and Liabilities.

Interest income from the underlying security is recorded by the Trusts on an accrual basis. Interest expense incurred on the secured borrowing and other expenses related to remarketing, administration and trustee services to a TOB are reported as expenses of the Trusts. The floating rate certificates have interest rates that generally reset weekly and their holders have the option to tender certificates to the TOB for redemption at par at each reset date. At February 28, 2010, the aggregate value of the underlying municipal bonds transferred to TOBs, the related liability for trust certificates and the range of interest rates on the liability for trust certificates were as follows:

# Notes to Financial Statements (continued)

	Underlying		
	Municipal Bonds	Liability	Range of
	Transferred	for Trust	Interest
	to TOBs	Certificates	Rates
BZM	\$ 3,145,800	\$ 1,500,000	0.19%
MHN	\$140,416,647	\$71,712,600	0.22% 0.59%
BLJ	\$ 639,359	\$ 419,783	0.29%
BSE	\$ 17,825,415	\$10,408,503	0.22% 0.59%
BQH	\$ 2,940,190	\$ 1,509,077	0.22% 0.26%
BFY	\$ 268,449	\$ 159,940	0.22%
BHV	\$ 3,148,951	\$ 1,499,291	0.19% 0.22%
MHE	\$ 2,092,406	\$ 1,339,595	0.26%

For the six months ended February 28, 2010, the Trusts average trust certificates outstanding and the daily weighted average interest rate, including fees, were as follows:

	Average Trust	Daily Weighted
	Certificates	Average
	Outstanding	Interest Rate
BZM	\$ 1,500,000	0.52%
MHN	\$66,405,044	0.81%
BLJ	\$ 419,783	0.80%
BSE	\$10,408,503	0.85%
BQH	\$ 1,516,156	0.58%
BFY	\$ 159,940	0.77%
BHV	\$ 1,499,291	0.69%
MHE	\$ 1,339,595	0.62%

Should short-term interest rates rise, the Trusts investments in TOBs may adversely affect the Trusts investment income and distributions to Common Shareholders. Also, fluctuations in the market value of municipal bonds deposited into the TOB may adversely affect the Trusts net asset value per share.

Zero-Coupon Bonds: Each Trust may invest in zero-coupon bonds, which are normally issued at a significant discount from face value and do not provide for periodic interest payments. Zero-coupon bonds may experience greater volatility in market value than similar maturity debt obligations, which provide for regular interest payments.

Segregation and Collateralization: In cases in which the 1940 Act and the interpretive positions of the Securities and Exchange Commission (SEC) require that the Trusts either deliver collateral or segregate assets in connection with certain investments (e.g., financial futures contracts), each Trust will, consistent with SEC rules and/or certain interpretive letters issued by the SEC, segregate collateral or designate on its books and records cash or other liquid securities having a market value at least equal to the amount that would otherwise be required to be physically segregated. Furthermore, based on requirements and agreements with certain exchanges and third party broker-dealers, each party has requirements to deliver/deposit securities as collateral for certain investments.

Investment Transactions and Investment Income: For financial reporting purposes, investment transactions are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on investment transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Interest income is recognized on the accrual method. Each Trust amortizes all premiums and discounts on debt securities.

Dividends and Distributions: Dividends from net investment income are declared and paid monthly. Distributions of capital gains are recorded on the ex-dividend dates. Dividends and distributions to Preferred Shareholders are accrued and determined as described in Note 6.

Income Taxes: It is each Trust spolicy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Each Trust files US federal and various state and local tax returns. No income tax returns are currently under examination. The statute of limitations on the Trusts US federal tax returns remains open for each of the four years ended August 31, 2009 (two years ended December 31, 2007 and the period ended August 31, 2008 and year ended August 31, 2009 for MHE). The statutes of limitations on the Trusts state and local tax returns may remain open for an additional year depending upon the jurisdiction.

Recent Accounting Standards: In June 2009, amended guidance was issued by the Financial Accounting Standards Board (FASB) for transfers of financial assets. This guidance is intended to improve the relevance, representational faithfulness and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor s continuing involvement, if any, in transferred financial assets. The amended guidance is effective for financial statements for fiscal years and interim periods beginning after November 15, 2009. Earlier application is prohibited. The recognition and measurement provisions of this guidance must be applied to transfers occurring on or after the effective date. Additionally, the enhanced disclosure provisions of the amended guidance should be applied to transfers

that occurred both before and after the effective date of this guidance. The impact of this guidance on the Trusts financial statements and disclosures, if any, is currently being assessed.

In January 2010, the FASB issued amended guidance to improve disclosures about fair value measurements which will require additional disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances and settlements in the reconciliation for fair value measurements using significant unobservable inputs (Level 3). It also clarifies existing disclosure requirements relating to the levels of disaggregation for fair value measurement and inputs and valuation techniques used to measure fair value. The amended guidance is effective for financial statements for fiscal years and interim periods beginning after December 15, 2009 except for disclosures about purchases, sales, issuances and settlements in the rollforward of activity in Level 3 fair value measurements, which are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The impact of this guidance on the Trusts financial statements and disclosures is currently being assessed.

Deferred Compensation and BlackRock Closed-End Share Equivalent Investment Plan: Under the deferred compensation plan approved by each Trust s Board, non-interested Trustees (Independent Trustees) may defer a portion of their annual complex-wide compensation. Deferred

## Notes to Financial Statements (continued)

amounts earn an approximate return as though equivalent dollar amounts had been invested in common shares of other certain BlackRock Closed-End Funds selected by the Independent Trustees. This has approximately the same economic effect for the Independent Trustees as if the Independent Trustees had invested the deferred amounts directly in other certain BlackRock Closed-End Funds.

The deferred compensation plan is not funded and obligations there under represent general unsecured claims against the general assets of each Trust. Each Trust may, however, elect to invest in common shares of other certain BlackRock Closed-End Funds selected by the Independent Trustees in order to match its deferred compensation obligations. Investments to cover each Trust s deferred compensation liability, if any, are included in other assets in the Statements of Assets and Liabilities. Dividends and distributions from the BlackRock Closed-End Funds investments under the plan are included in income affiliated in the Statements of Operations.

Other: Expenses directly related to a Trust are charged to that Trust. Other operating expenses shared by several funds are pro rated among those funds on the basis of relative net assets or other appropriate methods. Each Trust has an arrangement with its custodian whereby fees may be reduced by credits earned on uninvested cash balances, which if applicable are shown as fees paid indirectly in the Statements of Operations. The custodians impose fees on overdrawn cash balances, which can be offset by accumulated credits earned or may result in additional custody charges.

#### 2. Derivative Financial Instruments:

Each Trust may engage in various portfolio investment strategies both to increase the return of the Trusts and to economically hedge, or protect, exposure to certain risks such as interest rate risk. Losses may arise if the value of the contract decreases due to an unfavorable change in the price of the underlying instrument or if the counterparty does not perform under the contract. To the extent amounts due to the Trusts from its counterparties are not fully collateralized contractually or otherwise, the Trusts bear the risk of loss from counterparty non-performance. See Note 1 Segregation and Collateralization for information with respect to collateral practices. Counterparty risk related to exchange-traded financial futures contracts is minimal because of the protection against default provided by the exchanges on which they trade.

Financial Futures Contracts: The Trusts may purchase or sell financial futures contracts and options on financial futures contracts to gain exposure to, or economically hedge against, changes in interest rates (interest rate risk). Financial futures contracts are contracts for delayed delivery of securities at a specific future date and at a specific price or yield. Pursuant to the contract, the Trusts agree to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such

receipts or payments are known as margin variation and are recognized by the Trusts as unrealized gains or losses. When the contract is closed, the Trusts record a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The use of financial futures transactions involves the risk of an imperfect correlation in the movements in the price of financial futures contracts, interest rates and the underlying assets.

### Derivative Instruments Categorized by Risk Exposure:

 \$1,968,745
 \$595,200

3. Investment Advisory Agreement and Other Transactions with Affiliates:

The PNC Financial Services Group, Inc. ("PNC"), Bank of America Corporation ("BAC") and Barclays Bank PLC ("Barclays") are the largest stockholders of BlackRock, Inc. ("BlackRock"). Due to the ownership structure, PNC is an affiliate for 1940 Act purposes, but BAC and Barclays are not.

Each Trust entered into an Investment Advisory Agreement with BlackRock Advisors, LLC (the Manager ), the Trusts investment advisor, an indirect, wholly owned subsidiary of BlackRock, to provide investment advisory and administration services.

The Manager is responsible for the management of each Trust s portfolio and provides the necessary personnel, facilities, equipment and certain other services necessary to the operations of each Trust. For such services, each Trust pays the Manager a monthly fee of the Trust s average weekly net assets except MHN and MHE, which are based upon average daily net

## Notes to Financial Statements (continued)

assets. Average daily or weekly net assets are the average daily or weekly value of each Trust s total assets minus the sum of its accrued liabilities. Fees accrue at the following annual rates:

BZM	0.65%
MHN	0.55%
BLJ	0.65%
BSE	0.55%
BQH	0.65%
BFY	0.55%
BHV	0.65%
MHE	0.50%

The Manager has voluntarily agreed to waive its advisory fee on the proceeds of Preferred Shares and TOBs that exceed 35% of the average daily net assets of MHN. For the six months ended February 28, 2010, the Manager waived \$299,595, which is included in fees waived by advisor in the Statements of Operations.

The Manager has voluntarily agreed to waive a portion of the investment advisory fee for certain other funds. With respect to BSE, the waiver, as a percentage of average weekly net assets is as follows: 0.15% through October 2008, 0.10% through October 2009, and 0.05% through October 2010. With respect to the Bond Trusts, the waiver, as a percentage of average weekly net assets, is as follows: 0.20% through April 2009, 0.15% through April 2010, 0.10% through April 2011 and 0.05% through April 2012. With respect to the Income II Trust, the waiver, as a percentage of average weekly net assets is 0.10% through July 2009, and 0.05% through July 2012. For the six months ended February 28, 2010, the Manager waived the following amounts, which are included in fees waived by advisor in the Statements of Operations:

	Fees Waived
	by Manager
BZM	\$35,255
BLJ	\$38,470
BSE	\$47,040
BQH	\$48,400
BFY	\$28,867
BHV	\$27,715

The Manager has voluntarily agreed to waive its advisory fees by the amount of investment advisory fees each Trust pays to the Manager indirectly through its investment in affiliated money market funds, however the Manager does not waive its advisory fees by the amount of investment advisory fees through its investment in other affiliated investment companies. These amounts are included in fees waived by advisor in the Statements of Operations. For the six months ended February 28, 2010, the amounts waived were as follows:

	Fees Waived
	by Manager
BZM	\$ 93
MHN	\$11,772
BLJ	\$ 1,697
BSE	\$ 880
BQH	\$ 1,098
BFY	\$ 1,714
BHV	\$ 5
MHE	\$ 42

The Manager has entered into a separate sub-advisory agreement with BlackRock Investment Management, LLC (BIM) for MHN and MHE and BlackRock Financial Management, Inc. (BFM) for all other Trusts. BIM and BFM are affiliates of the Manager. The Manager pays BIM and BFM for services they provide, a monthly fee that is a percentage of the investment advisory fee paid by each Trust to the Manager.

For the six months ended February 28, 2010, the Trusts reimbursed the Manager for certain accounting services, which are included in accounting services in the Statements of Operations.

	Reimbursement
BZM	\$ 437
MHN	\$ 6,876
BLJ	\$ 495
BSE	\$ 1,331
BQH	\$ 601
BFY	\$ 1,086
BHV	\$ 361
MHE	\$ 460

Certain officers and/or trustees of the Trusts are officers and/or directors of BlackRock or its affiliates. The Trusts reimburse the Manager for compensation paid to the Trusts Chief Compliance Officer.

#### 4. Investments:

Purchases and sales of investments, excluding short-term securities, for the six months ended February 28, 2010 were as follows:

	Purchases	Sales
BZM	\$ 4,858,322	\$ 3,936,045
MHN	\$83,309,726	\$79,451,103
BLJ	\$ 2,176,425	\$ 4,299,448
BSE	\$ 8,993,098	\$ 7,835,356
BQH	\$ 9,288,945	\$ 8,020,786
BFY	\$12,925,145	\$14,002,284
BHV	\$ 7,147,787	\$ 7,443,181
MHE	\$ 7,686,966	\$ 2,418,126

#### 5. Concentration, Market and Credit Risk:

Each Trust invests a substantial amount of their assets in issuers located in a single state or limited number of states. Please see the Schedules of Investments for concentrations in specific states.

Many municipalities insure repayment of their bonds, which may reduce the potential for loss due to credit risk. The market value of these bonds may fluctuate for other reasons, including market perception of the value of such insurance, and there is no guarantee that the insurer will meet its obligation.

In the normal course of business, the Trusts invest in securities and enter into transactions where risks exist due to fluctuations in the market (market risk) or failure of the issuer of a security to meet all its obligations (credit risk). The value of securities held by the Trusts may decline in response to certain events, including those directly involving the issuers whose securities are owned by the Trusts; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency and interest rate and price fluctuations. Similar to credit risk, the Trusts may be exposed to counterparty risk, or

## Notes to Financial Statements (continued)

the risk that an entity with which the Trusts have unsettled or open transactions may default. Financial assets, which potentially expose the Trusts to credit and counterparty risks, consist principally of investments and cash due from counterparties. The extent of the Trusts exposure to credit and counterparty risks with respect to these financial assets is generally approximated by their value recorded in the Trusts Statements of Assets and Liabilities, less any collateral held by the Trusts.

### 6. Capital Share Transactions:

The Trusts, except MHN, are authorized to issue an unlimited number of shares (200 million shares for MHN), all of which were initially classified as Common Shares. The par value for the Trusts, except MHN and MHE, is \$0.001 per share (\$0.10 for MHN and \$0.01 for MHE). Each Trust s Board is authorized, however, to reclassify any unissued shares without approval of Common Shareholders.

#### Common Shares

During the six months ended February 28, 2010 and the year ended August 31, 2009, the shares issued and outstanding increased by the following amounts as a result of dividend reinvestment:

Six Months	
Ended	Year Ended
February 28,	August 31,
2010	2009
3,327	9,282
3,806	7,624
	2,972
6,889	1,342
5,132	1,492
5,528	7,591
	February 28, 2010 3,327 3,806 6,889 5,132

Shares issued and outstanding remained constant during the six months ended February 28, 2010 and the year ended August 31, 2009 for MHN and MHE.

#### **Preferred Shares**

The Preferred Shares are redeemable at the option of each Trust, in whole or in part, on any dividend payment date at their liquidation preference per share plus any accumulated and unpaid dividends whether or not declared. The Preferred Shares are also subject to mandatory redemption at their liquidation preference plus any accumulated and unpaid

dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of a Trust, as set forth in each Trust s Statements of Preferences/Articles Supplementary/Certificates of Designation/Certificate of Vote of Trustees, as applicable (the Governing Instrument ), are not satisfied.

From time to time in the future, each Trust that has issued Preferred Shares may effect repurchases of such shares at prices below their liquidation preference as agreed upon by the Trust and seller. Each Trust also may redeem such shares from time to time as provided in the applicable Governing Instrument. Each Trust intends to effect such redemptions and/or repurchases to the extent necessary to maintain applicable asset coverage requirements or for such other reasons as the Board may determine.

The holders of Preferred Shares have voting rights equal to the holders of Common Shares (one vote per share) and will vote together with the holders of Common Shares (one vote per share) as a single class. However, the holders of Preferred Shares, voting as a separate class, are also entitled to elect two Trustees for each Trust. In addition, the 1940 Act requires that along with approval by shareholders that might otherwise be required, the approval of the holders of a majority of any outstanding Preferred Shares, voting separately as a class would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Shares, (b) change a Trust sub-classification as a closed-end investment company or change its fundamental investment restrictions or (c) change its business so as to cease to be an investment company.

The Trusts had the following series of Preferred Shares outstanding, effective yields and reset frequency at February 28, 2010:

				Reset
		Preferred	Effective	Frequency
	Series	Shares	Yield	Days
BZM	R-7	640	0.32%	7
MHN	Α	1,479	0.32%	7
	В	1,479	0.32%	7
	С	2,366	0.37%	7
	D	2,864	0.37%	7
	E	1,557	0.35%	7
BLJ	M-7	751	0.37%	7
BSE	R-7	1,623	0.32%	7
BQH	T-7	885	0.35%	7
BFY	W-7	1,779	0.32%	7
BHV	R-7	467	0.32%	7
MHE	Α	185	0.32%	7
	В	185	0.35%	7

Dividends on seven-day Preferred Shares are cumulative at a rate which is reset every seven days based on the results of an auction. If the Preferred Shares fail to clear the auction on an auction date, the affected Trust is required to pay the maximum applicable rate on the Preferred Shares to holders of such shares for successive dividend periods until such time as the shares are successfully auctioned. The maximum applicable rate on all series of Preferred Shares is the higher of 110% of AA commercial paper rate or 110% of 90% of the Kenney S&P 30-Day High Grade Index rate divided by 1.00 minus the marginal tax rate. The low, high and average dividend rates on the Preferred Shares for each Trust for the six months ended February 28, 2010 were as follows:

	Series	Low	High	Average
BZM	R-7	0.24%	0.56%	0.39%
MHN	A	0.26%	0.53%	0.40%
	В	0.24%	0.56%	0.39%
	С	0.24%	0.56%	0.39%
	D	0.24%	0.56%	0.39%
	E	0.26%	0.52%	0.40%
BLJ	M-7	0.24%	0.56%	0.40%
BSE	R-7	0.24%	0.56%	0.39%
BQH	T-7	0.27%	0.52%	0.40%
BFY	W-7	0.26%	0.53%	0.39%
BHV	R-7	0.24%	0.56%	0.39%
MHE	A	0.26%	0.53%	0.40%
	В	0.26%	0.52%	0.40%

Since February 13, 2008, the Preferred Shares of each Trust failed to clear any of their auctions. As a result, the Preferred Shares dividend rates

## Notes to Financial Statements (concluded)

were reset to the maximum applicable rate, which ranged from 0.24% to 0.56% for the six months ended February 28, 2010. A failed auction is not an event of default for the Trusts but it has a negative impact on the liquidity of Preferred Shares. A failed auction occurs when there are more sellers of a Trust s auction rate preferred shares than buyers. A successful auction for each Trust s Preferred Shares may not occur for some time, if ever, and even if liquidity does resume, Preferred Shareholders may not have the ability to sell the Preferred Shares at their liquidation preference.

The Trusts may not declare dividends or make other distributions on Common Shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Shares is less than 200%.

The Trusts pay commissions of 0.25% on the aggregate principal amount of all shares that successfully clear their auctions and 0.15% on the aggregate principal amount of all shares that fail to clear their auctions. Certain broker dealers have individually agreed to reduce commissions for failed auctions.

Preferred shares issued and outstanding remained constant for the six months ended February 28, 2010 for all Trusts.

During the year ended August 31, 2009, certain Trusts announced the following redemptions of Preferred Shares at a price of \$25,000 per share plus any accrued and unpaid dividends through the redemption date:

		Redemption	Shares	Aggregate
	Series	Date	Redeemed	Principal
MHN	Α	7/09/09	56	\$1,400,000
	В	7/06/09	56	\$1,400,000
	С	7/07/09	90	\$2,250,000
	D	7/06/09	109	\$2,725,000
	E	7/08/09	59	\$1,475,000
BLJ	M-7	7/14/09	17	\$ 425,000
BSE	R-7	7/10/09	44	\$1,100,000
BQH	T-7	7/08/09	11	\$ 275,000
BFY	W-7	7/09/09	7	\$ 175,000
BHV	R-7	7/10/09	20	\$ 500,000

The Trusts financed the Preferred Share redemptions with cash received from TOB transactions.

## Additional Information

### **Dividend Policy**

The Trusts dividend policy is to distribute all or a portion of their net investment income to its shareholders on a monthly basis. In order to provide shareholders with a more stable level of dividend distributions, the Trusts may at times pay out less than the entire amount of net investment income earned in any particular month and may at times in any particular month pay out such accumulated but undistributed income in addition to net

investment income earned in that month. As a result, the dividends paid by the Trusts for any particular month may be more or less than the amount of net investment income earned by the Trusts during such month. The Trusts current accumulated but undistributed net investment income, if any, is disclosed in the Statements of Assets and Liabilities, which comprises part of the financial information included in this report.

#### **General Information**

#### **Electronic Delivery**

Electronic copies of most financial reports are available on the Trusts websites or shareholders can sign up for e-mail notifications of quarterly statements, annual and semi-annual reports by enrolling in the Trusts electronic delivery program.

Shareholders Who Hold Accounts with Investment Advisors, Banks or Brokerages:

Please contact your financial advisor to enroll. Please note that not all investment advisors, banks or brokerages may offer this service.

#### Householding

The Trusts will mail only one copy of shareholder documents, including annual and semi-annual reports and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called householding and is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be householded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please call (800) 441-7762.

Availability of Quarterly Schedule of Investments

Each Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. The Trusts Forms N-Q are available on

the SEC s website at http://www.sec.gov and may also be reviewed and copied at the SEC s Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling (202) 551-8090. Each Trust s Forms N-Q may also be obtained upon request and without charge by calling (800) 441-7762.

Availability of Proxy Voting Policies and Procedures

A description of the policies and procedures that the Trusts use to determine how to vote proxies relating to portfolio securities is available (1) without charge, upon request, by calling (800) 441-7762; (2) at www.blackrock.com; and (3) on the SEC s website at http://www.sec.gov.

Availability of Proxy Voting Record

Information about how the Trusts voted proxies relating to securities held in the Trusts portfolios during the most recent 12-month period ended June 30 is available upon request and without charge (1) at www.blackrock.com or by calling (800) 441-7762 and (2) on the SEC s website at http://www.sec.gov.

# Additional Information (concluded)

#### Section 19(a) Notices

These reported amounts and sources of distributions are estimates and are not being provided for tax reporting purposes. The actual amounts and sources

for tax reporting purposes wll depend upon each Trust s investment experience during the year and may be subject to changes based on the tax regula-

tions. Each Trust will provide a Form 1099-DIV each calendar year that will explain the character of these dividends and distributions for federal income tax purposes.

#### **BlackRock Privacy Principles**

BlackRock is committed to maintaining the privacy of its current and former fund investors and individual clients (collectively, Clients) and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information BlackRock collects, how we protect that information and why in certain cases we share such information with select parties.

If you are located in a jurisdiction where specific laws, rules or regulations require BlackRock to provide you with additional or different privacy-related rights beyond what is set forth below, then BlackRock will comply with those specific laws, rules or regulations.

BlackRock obtains or verifies personal non-public information from and about you from different sources, including the following: (i) information we receive from you or, if applicable, your financial intermediary, on applications, forms or other documents; (ii) information about your transactions with us, our affiliates, or others; (iii) information we receive from a consumer reporting agency; and (iv) from visits to our websites.

BlackRock does not sell or disclose to non-affiliated third parties any non-public personal information about its Clients, except as permitted by law or as is necessary to respond to regulatory requests or to service Client

accounts. These non-affiliated third parties are required to protect the confidentiality and security of this information and to use it only for its intended purpose.

We may share information with our affiliates to service your account or to provide you with information about other BlackRock products or services that may be of interest to you. In addition, BlackRock restricts access to non-public personal information about its Clients to those BlackRock employees with a legitimate business need for the information. BlackRock maintains physical, electronic and procedural safeguards that are designed to protect the non-public personal information of its Clients, including procedures relating to the proper storage and disposal of such information.

This report is transmitted to shareholders only. It is not a prospectus. Past performance results shown in this report should not be considered a representation

of future performance. The Trusts have leveraged their Common Shares, which creates risks for Common Shareholders, including the likelihood of greater

volatility of net asset value and market price of the Common Shares and the risk that fluctuations in the short-term dividend rates of the Preferred Shares,

currently set at the maximum reset rate as a result of failed auctions, may reduce the Common Shares yield. Statements and other information herein are as

dated and are subject to change.

- Item 2 Code of Ethics Not Applicable to this semi-annual report
- Item 3 Audit Committee Financial Expert Not Applicable to this semi-annual report
- Item 4 Principal Accountant Fees and Services Not Applicable to this semi-annual report
- Item 5 Audit Committee of Listed Registrants Not Applicable to this semi-annual report

#### Item 6 Investments

- (a) The registrant s Schedule of Investments is included as part of the Report to Stockholders filed under Item 1 of this form.
- (b) Not Applicable due to no such divestments during the semi-annual period covered since the previous Form N-CSR filing.
- Item 7 Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies Not Applicable to this semi-annual report
- Item 8 Portfolio Managers of Closed-End Management Investment Companies Not Applicable to this semi-annual report
- Item 9 Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers Not Applicable
- Item 10 Submission of Matters to a Vote of Security Holders The registrant s Nominating and Governance Committee will consider nominees to the board of directors recommended by shareholders when a vacancy becomes available. Shareholders who wish to recommend a nominee should send nominations that include biographical information and set forth the qualifications of the proposed nominee to the registrant s Secretary. There have been no material changes to these procedures.

#### Item 11 Controls and Procedures

- 11(a) The registrant's principal executive and principal financial officers or persons performing similar functions have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act )) are effective as of a date within 90 days of the filing of this report based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act and Rule 13(a)-15(b) under the Securities Exchange Act of 1934, as amended.
- 11(b) There were no changes in the registrant s internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the registrant s internal control over financial reporting.
- Item 12 Exhibits attached hereto
- 12(a)(1) Code of Ethics Not Applicable to this semi-annual report
- 12(a)(2) Certifications Attached hereto
- 12(a)(3) Not Applicable

12(b) Certifications Attached hereto

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
