Internet Gold Reports Record Revenues and Cash Flow From Operations for 2005

Tuesday February 7, 1:02 am ET

2005 Revenues Up 36% to \$64.7M; Q4 Revenues Up 33% to \$17.6M

PETACH TIKVA, Israel, February 7 /PRNewswire-FirstCall/ -- Internet Gold, (Nasdaq NMS: IGLD - News) today reported financial results for the fourth quarter and full year ended December 31, 2005.

Highlights of 2005:

- Record revenues: sales reach all-time high of \$64.7 million, up 36% compared to 2004, nearly reaching the NIS 300 million milestone
- Improving EBIT: operating income rose 14% year-over-year
- Primary growth drivers:
 - 015 International Telephony: aggressive market share targets achieved, resulting in significantly expanded revenues
 - Internet Advertising: 5 new portals added to the Group in 2005, positioning IGLD as one of Israel's strongest Internet Media Groups
 - Business services: expanded offering of advanced IT services began contributing strongly to revenues in 2005 and promise stronger contribution in 2006
 - Focus for 2006: continued growth in revenues and market share through expanded marketing activities and an increased advertising budget; improved profitability through efficiency measures

Financial Results

Revenues for the fourth quarter of 2005 reached a record NIS 81.1 million (US\$ 17.6 million), an increase of 33% compared with NIS 61.1 million in the fourth quarter of 2004 and 11% compared with the third quarter of 2005. Operating income for the quarter was NIS 7.1 million (US\$ 1.5 million), an increase of 1% compared to NIS 7.0 million in the fourth quarter of 2004 and 25% compared to NIS 5.7 million in the third quarter of 2005.

Net income for the quarter was NIS 5.4 million (US \$1.2 million), or NIS 0.29 (US\$ 0.06) per share, compared to NIS 6.4 million, or NIS 0.35 per share, for the fourth quarter of 2004, and NIS 1.6 million, or NIS 0.09 per share, for the third quarter of 2005.

Edgar Filing: INTERNET GOLD GOLDEN LINES LTD - Form 6-K

Revenues for the full year 2005 were a record NIS 297.7 million (US\$ 64.7 million), an increase of 36% compared to NIS 219.6 million in 2004. Operating income for the year was NIS 28.9 million (US\$ 6.3 million), an increase of 14% compared with NIS 25.3 million in 2004.

Net income for 2005 was NIS 18.3 million (US\$ 4 million), or NIS 0.99 (US\$ 0.22) per share, compared to NIS 19.5 million, or NIS 1.06 (US\$ 0.23) per share, recorded in 2004. This reflected unusually high financing expenses of NIS 9.4 million (US\$ 2 million) reflecting primarily the higher-than-expected CPI in the second and third quarters and its affect on the Group's outstanding bond offering.

Cash flow from operations in 2005 increased by 12% to a record NIS 42.8 million (US\$ 9.3 million) compared with NIS 38.2 million for 2004.

Comments of Management

Commenting on the results, Eli Holtzman, Internet Gold's CEO, said, "We are pleased to report another record year for Internet Gold marked by a 36% increase in revenues, cash flow of nearly NIS 43 million, improving EBIT and across-the-board strategic progress. The increase in our revenues was driven by the success of our 015 International Telephony and Internet Advertising businesses combined with a significant increase in the scope of our Business Services. At the same time, our portal acquisitions, combined with the continued rapid development of Israel's Internet Advertising market, have significantly increased our revenues from this emerging sector."

Mr. Holtzman continued, "Our plan for 2006 includes a strengthened focus on marketing efforts to continue building the top line, including an increased advertising budget to continue building our market share in the 015 and broadband access arena. In addition, we intend to continue expanding our Internet Media and e-Commerce businesses through additional acquisitions, joint ventures and creative marketing efforts. At the same time, we expect that the efficiency measures taken during the second half of 2005, including the unification of our Access and International Telephony call centers and other cost-cutting activities, will improve our results significantly beginning in 2006."

Mr. Holtzman concluded, "Taken as a whole, we are satisfied with our performance during 2005 and are working to deliver additional top-line and bottom-line growth in the year ahead."

Overview of Business Segments

smile.net - access and access-related value added services: During 2005, sales of the Group's Business Division grew by 30% compared to 2004, and revenues from value added services (anti-spam, anti-virus, specialized content and WiFi home networking) grew by 39%. The Group's smile.biz services grew by 60% during the year, reflecting the Group's successful launch of IT infrastructure deployment and integration services to complement its hosting, website development and other Professional Services. In addition, during the quarter the Group launched its new e-Safe Secured Internet Access service for residential users based on state-of-the-art technology developed by Aladdin Knowledge Systems (Nasdaq: ALDN - News). The service allows Internet user to "surf" freely while protecting their computers against viruses, spyware, Trojan Horses and other on-line

threats.

Israel's broadband penetration is now among the highest in the world, with over 60% of households having Internet access, 91% of those with broadband Internet access, and 42% of surfers online at least 10 hours a week.

smile.media - e-Advertising/Content: Revenues from the Group's portal operations grew significantly compared to 2004. During 2005, the Group added five Internet portals through acquisitions and joint ventures, establishing it as Israel's leading and most diverse Internet Media Group. As a result, Internet Gold currently owns a controlling interest and/or exclusive marketing rights to each of the following Internet advertising properties, enabling it to offer advertisers an extremely cost-effective means for reaching specific target audiences:

- MSN-Israel (50.1% owned) - Hebrew language MSN Messenger, Hotmail Israel and MSN Search Israel; co-operations with top world's advertisers for content-branded channels

- MSNJobs: Hebrew-language job search site
- Start (100% owned) - Internet search engine and web directory site
- Zahav.ru (100% owned) - Russian language portal
- VGames (100% owned) - online games-for-fun
- Seret (51% owned) - cinema portal (acquired in January 2006)
- GetPrice (51% owned) - price comparison site
- TheMoney (50.1% owned) - lead-generation financial portal
- Hype/Tipso (50% owned) - children's portal
- Nirshamim (50% owned) - portal for academics and university students

- Net-Express (exclusive marketing rights) - Internet search engines and web directory site

- GOOP (exclusive marketing rights) - youth portal

smile.015 - International Telephony: during 2005, the Group built its share of Israel's International Telephony market to 8.5%, securing more than 300,000 residential customers, 5,000 commercial customers and a strong share of the country's Russian-speaking population. The Group has initiated trials of local telephony services and plans to launch these services commercially in early 2007.

smile.shops - e-Commerce: 2005 revenues of P-1000, the Group's primary e-Commerce business, rose by 25% compared to 2004 and became profitable, and remained profitable during the fourth quarter. Internet Gold also owns 50.1% of MSN-Shops, 50% of dbook.co.il, Israel's #1 interactive book site, and 51% of Getprice.co.il, Israel's #2 comparison price engine.
