Internet Gold Acquires Full 100% Ownership of 012 Golden Lines

Sunday December 3, 5:06 am ET

PETACH TIKVA, Israel, Dec. 3 /PRNewswire-FirstCall/ -- Internet Gold, (Nasdaq: IGLD; TASE) today announced that it has reached an agreement to increase its ownership interest in 012 Golden Lines from 60% to approximately 100% in consideration for approximately US \$56 million. This acquisition completes the previous transaction which was signed in July 2006. The purchase is subject, inter alia, to the approval of the Israeli Anti-Trust Commissioner and the Ministry of Communications and Internet Gold Group believes that the agreed upon transfer of full ownership in 012 Golden Lines will expedite the review processes. Following receipt of the necessary approvals, Internet Gold expects to merge 012 Golden Lines with its communications subsidiary.

Ms. Stella Handler, current CEO of 012 Golden Lines, will serve as the CEO of the merged communications company.

Mr. Shaul Elovitch, Chairman of the Internet Gold Group who will also serve as the Chairman of the merged company said today: "After signing the previously announced transaction, we obtained a greater appreciation of the unique qualities of 012 Golden Lines, the professional management level of Ms. Handler and the excellent synergy which we can derive by merging 012 with our current communications activity. This caused us to expand the transaction and acquire full ownership in 012. We also believe that our obtaining 100% ownership will ease and expedite the process of obtaining the required regulatory approvals. I am certain that this transaction will be the base from which Internet Gold Group will emerge and position itself in the top tier of Israeli communications' companies."

Eli Holtzman, CEO of Internet Gold Group who will also serve as Vice Chairman of the merged company commented: "The fact that Internet Gold will hold full ownership in both companies will simplify and make the merger process more effective. We anticipate executing the merger plans in a quick and efficient manner so that our group benefits from the expected synergy both on the expense and revenue generation levels. I look optimistically towards 2007 as the year when the revenues of the Internet Gold Group are expected to increase significantly to above the billion Shekels threshold and that we will achieve improved profitability. I also believe that synergies arising from the merger should also contribute to a better level of service to our customers, the well being of our employees and will create new level of share value for our shareholders."
