POSITIVE ENVIRONMENTAL CERTIFICATE RECEIVED FOR KISLADAG GOLD PROJECT

VANCOUVER, BC Paul N. Wright, President and Chief Executive Officer of Eldorado Gold Corporation (Eldorado, the Company, or we), is pleased to announce the receipt of the Environmental Positive Certificate (the Certificate) for its 100% owned Kisladag Gold Project located in western Turkey. The Certificate was granted to the Company's wholly owned Turkish subsidiary, Tüprag Metal Madencilik Sanayi Ve Ticaret Limited (Tüprag), by the Turkish Ministry of Environment.

The acceptance of our Environmental Impact Assessment report and the issuing of the Certificate are major milestones in the permitting process, commented Paul Wright, President and Chief Executive Officer. The timely receipt of the Certificate reaffirms the Company's confidence in its development schedule which anticipates a construction decision in the fourth quarter 2003. The Kisladag Project's development schedule benefits from the continued support of the local community and all levels of government.

Kisladag, with a proven and probable mineral reserve of 4,532,000 ounces, is planned as a conventional 15-year, open pit, heap leach gold mine. A mine production rate of 5.0 million tonnes per annum (Mtpa) of ore producing 143,000 ounces per year has been set for the first four years of the mine's life. Annual ore production will increase to 7.5 Mtpa in year 5 and to 10.0 Mtpa producing 230,000 ounces of gold per year in year 6, remaining at that level until the end of the mine life. Total quantities of ore and waste mined will be 115.0 Mt and 106.0 Mt respectively, resulting in a life of mine strip ratio of 0.92. Cash operating cost over the life of the mine is anticipated to be US \$152 /oz of gold. In addition to completing the permitting and land acquisition necessary for construction, the Company continues to drill on the property with the objective to further extend limits of oxide mineralization and upgrade inferred resources within the existing pit design.

Edgar Filing: ELDORADO GOLD CORP /FI - Form 6-K

Eldorado is a gold producing and exploration company with gold assets in Brazil and Turkey; two countries that we believe have substantial geological potential. With our international expertise in mining, finance and project development, together with highly skilled and dedicated staff, we believe that Eldorado is well positioned to experience continued growth and value as we create and pursue new opportunities.

The terms Mineral Reserve, Proven Mineral Reserve and Probable Mineral Reserve used in this release are Canadian mining terms as defined in accordance with National Instrument 43-101 Standards of Disclosure for Mineral Projects under the guidelines set out in the Canadian Institute of Mining, Metallurgy and Petroleum (the CIM) Standards on Mineral Resources and Mineral Reserves, adopted by the CIM Council on August 20, 2000 as may be amended from time to time by the CIM. These definitions differ from the definitions in the United States Securities & Exchange Commission (SEC) Guide 7. In the United States, a mineral reserve is defined as a part of a mineral deposit which could be economically and legally extracted or produced at the time the mineral reserve determination is made.
