Filed Pursuant to Rule 433  
Registration Statement No. 333-228614

Notes Linked to an International Equity Index Basket

Issuer	The Bank of Nova Scotia ("BNS")
Principal Amount	\$10.00 per unit
Term	Approximately three years
Market Measure	An international equity index basket comprised of the EURO STOXX 50® Index (Bloomberg symbol: "SX5E"), the FTSE® 100 Index (Bloomberg symbol: "UKX"), the Nikkei Stock Average Index (Bloomberg symbol: "NKY"), the Swiss Market Index® (Bloomberg symbol: "SMI"), the S&P/ASX 200 Index (Bloomberg symbol: "AS51") and the Hang Seng Index (Bloomberg symbol: "HSI") (each, a "Basket Component"). The EURO STOXX® 50 Index will be given an initial weight of 40.00%, each of the FTSE® 100 Index and the Nikkei Stock Average Index will be given an initial weight of 20.00%, each of the Swiss Market Index® and the S&P/ASX 200 Index will be given an initial weight of 7.50% and the Hang Seng® Index will be given an initial weight of 5.00%.
Payout Profile at Maturity	<p>[130.00% to 150.00%] leveraged upside exposure to increases in the Market Measure</p> <p>A positive return equal to the absolute value of the percentage decline in the level of the Basket only if the Basket does not decline by more than 15.00% (e.g., if the negative return of the Basket is -10%, you will receive a positive return of +10%)</p> <p>1-to-1 downside exposure to decreases in the Market Measure beyond a 15.00% decline, with up to 85.00% of your principal at risk</p>
Participation Rate	[130.00% to 150.00%], to be determined on the pricing date.
Threshold Value	85.00% of the Starting Value of the Market Measure
Investment Considerations	This investment is designed for investors who anticipate that the Market Measure will either increase over the term of the notes or decrease to a value which is not below the threshold, and are willing to take downside risk below a threshold and forgo interim interest payments.

### Risk Factors

Please see the Preliminary Offering Documents for a description of certain risks related to this investment, including, but not limited to, the following:

Depending on the performance of the Market Measure as measured shortly before the maturity date, your investment may result in a loss; there is no guaranteed return of principal.

Payments on the notes are subject to the credit risk of BNS, and actual or perceived changes in the creditworthiness of BNS are expected to affect the value of the notes. If BNS becomes insolvent or is unable to pay its obligations, you may lose your entire investment.

Your potential for a positive return based on the depreciation of the Basket is limited and may be less than that of a comparable investment that takes a short position directly in the Basket Components (or the stocks included in the Basket Components). The absolute value return feature applies only if the Ending Value is less than the Starting Value but greater than or equal to the Threshold Value. Because the Threshold Value is 85% of the Starting Value, any positive return due to the depreciation of the Basket is limited to 15%. Any decline in the Ending Value from the Starting Value by more than 15% will result in a loss, rather than a positive return, on the notes. In contrast, for example, a short position in the Basket Components (or the stocks included in the Basket Components) would allow you to receive the full benefit of any decrease in the level of the Basket Components (or the stocks included in the Basket Components).

Changes in the level of one of the Basket Components may be offset by changes in the levels of the other Basket Components.

The initial estimated value of the notes on the pricing date will be less than their public offering price.

If you attempt to sell the notes prior to maturity, their market value may be lower than both the public offering price and the initial estimated value of the notes on the pricing date.

You will have no rights of a holder of the securities included in the Basket Components or of a holder with a short position directly in the Basket Components (or of the securities included in the Basket Components), and you will not be entitled to receive securities or dividends or other distributions by the issuers of the securities included in the Basket Components.

Your return on the notes may be affected by factors affecting the international securities markets, specifically changes in the countries represented by the Basket Components. In addition, you will not obtain the benefit of any increase in the value of the currencies in which the securities in the Basket Components trade against the U.S. dollar which you would have received if you had owned the securities in the Basket Components during the term of your notes, although the value of the Basket may be adversely affected by general exchange rate movements in the market. Final terms will be set on the pricing date within the given range for the specified Market-Linked Investment. Please see the Preliminary Offering Documents
