Ultrapetrol Announces Forbearance Agreements with Lenders

- Company reaches forbearance agreement with majority of noteholders
- Finalizes forbearance agreements with IFC and OFID

NASSAU, Bahamas, January 29, 2016 – Ultrapetrol (Bahamas) Limited (Nasdaq:ULTR) ("Ultrapetrol" or the "Company") today announced that, as a result of its negotiations with advisors representing a majority of holders of the Company's 8.875% First Preferred Ship Mortgage Notes due 2021 (the "Notes"), the Company has reached a forbearance agreement through March 31, 2016 in relation to in excess of 85% of the outstanding Notes (the "Consenting Holders").

The Company expressed its appreciation to all of its secured creditors for their continued support and cooperation in agreeing to a forbearance period through the first quarter of 2016. Having secured additional time to continue ongoing lender discussions, the Company is confident in its ability to achieve a consensual financial restructuring that provides Ultrapetrol with a sustainable capital structure that supports the Company's long-term business plan and results in long-term value generation for the benefit of all stakeholders.

The forbearance agreement also provides for the appointment of two new, independent directors, as well as but not limited to the formation of a special committee that, among other things, will explore options and make recommendations to the Company's board of directors in connection with the restructuring of the Company. During this period, the Company intends to continue operating its businesses as usual while executing its strategic initiatives to improve operational performance and position the Company to benefit from a recovery of global commodity and offshore energy markets. Additional details including a copy of the forbearance agreement are outlined in a Form 6-K ("Form 6-K") that the Company has filed with the Securities and Exchange Commission ("SEC") on the SEC's EDGAR System at www.sec.gov.

The Company has also filed as an exhibit to the Form 6-K a notice to holders of its Notes with details of how any holder of Notes may consent to join the forbearance agreement and receive a pro rata share of a fee paid by the Company to any holder of Notes that has consented to the forbearance set forth in the forbearance agreement.

Ultrapetrol further announced that it has finalized forbearance agreements with IFC and OFID regarding loan facilities related to the Company's River Business, in addition to the previously announced forbearance agreement with lenders to certain of the Company's subsidiaries in its Offshore Business. All of the forbearance agreements expire at the earlier of March 31, 2016 or the occurrence of certain events specified in the agreements.

The secured lenders party to these agreements have agreed, for the duration of the forbearance agreements, not to accelerate their loans, take any enforcement actions or exercise any remedies with respect to defaults resulting from the non-payment by the Company of its interest payment under the Notes and to work with the Company in negotiating a sustainable financial structure. During this time, the Company believes that it has sufficient liquidity to fully fund all aspects of its operations and to conduct business as usual, including making full and timely payments to employees, vendors, suppliers, and trading counterparties.

Forward-Looking Language

The forward-looking statements in this press release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, our management's examination of historical operating trends, data contained in our records and other data available from third parties. Although we believe that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, we cannot assure you that we will achieve or accomplish these expectations, beliefs or projections.

In addition to these important factors, other important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include future operating or financial results; pending or recent acquisitions, business strategy and expected capital spending or operating expenses, including dry docking and insurance costs; general market conditions and trends, including charter rates, vessel values, and factors affecting vessel supply and demand; our ability to obtain additional financing; our financial condition and liquidity, including our ability to obtain financing in the future to fund capital expenditures, acquisitions and other general corporate activities; our expectations about the availability of vessels to purchase, the time that it may take to construct new vessels, or vessels' useful lives; our dependence upon the abilities and efforts of our management team; changes in governmental rules and regulations or actions taken by regulatory authorities; adverse weather conditions that can affect production of the goods we transport and navigability of the river system; the highly competitive nature of the oceangoing transportation industry; the loss of one or more key customers; fluctuations in foreign exchange rates and devaluations; potential liability from future litigation; and other factors. Please see our filings with the Securities and Exchange Commission for a more complete discussion of these and other risks and uncertainties.
