Item 3. Source and Amount of Funds

Item 3 is hereby amended and restated to read as follows:

As of the date hereof, the Reporting Entities may, in the aggregate, be deemed to beneficially own 736,000 shares of Common Stock (the "Shares"). The Shares were purchased by BlueLine Catalyst VII and BCP in the open market with their investment capital.

Item 4. Purpose of the Transaction

Item 4 is hereby amended and restated to read as follows:

BlueLine Partners and its affiliated investment entities, including BCP and BlueLine Catalyst VII, seek to make investments in companies that are undervalued relative to their potential and in situations where they believe their efforts can help to create or unlock value. As part of its investment strategy, BlueLine Partners has made contact with members of management and the board of directors of the Company to discuss areas where it believes performance can be improved. Principal among these are: (i) better managing the Company's cost structure so that it can become consistently profitable and (ii) improving governance practices by, among other things, increasing the participation of the Company's board of directors.

Page 7 of 12

The Reporting Entities believe that the company has made progress in its efforts to reduce fixed costs. In coming quarters, BlueLine Partners hopes to continue working with the Company to effect similar operating improvements in the area of variable costs.

Unfortunately, similar reforms have not yet occurred with respect to the Company's governance practices. BlueLine Partners believes governance reforms are critical to the Company's future. Recent developments have raised expectations for the Company, but many potential investors and analysts remain wary given the Company's long history of underperformance. Only the board of directors has the opportunity and the power to provide the oversight necessary during the coming quarters. Such oversight depends upon motivated individuals and established policies and procedures.

Since their investment began in July 2004, the Reporting Entities have sought a dialog with members of the Company's board of directors in an effort to communicate the perspective of outside shareholders and the importance of proper governance practices. Having seen little effect from this private dialog with the Company's board members, the Reporting Entities now wish to initiate a public discussion on the need for oversight and governance reforms at the Company. The Reporting Entities expect this discussion to continue through the Company's annual meeting of shareholders scheduled for December 1, 2005 in Waukesha, Wisconsin. Representatives of the Reporting Entities will attend this meeting and be prepared to question why the minimal reforms listed below have not been adopted.

Governance reforms that the Reporting Entities would like to see adopted and instituted as soon as possible include:

- (1) consideration of new independent board members and the rotation off the board of existing board members who are not prepared to substantially increase their involvement with the Company;
- (2) reforms to the nominating and corporate governance committee to improve monitoring of the changing regulatory environment for public companies and ensure the Company's compliance with best practices;
- (3) reforms to the Company's audit committee procedures to provide independent oversight of the Company's accounting practices and assure the appropriateness of and compliance with the Company's accounting policies;

- (4) reforms to the compensation committee to establish a performance-based compensation plan for the Company's executive officers to better align the interests of management with those of the shareholders;
- (5) regular, in-person board meetings scheduled with sufficient notice to permit travel and advance review of agenda items;
- (6) executive sessions as part of every regularly scheduled board meetings; and
- (7) succession planning for management and the board of directors.

Depending on market conditions, general economic conditions and other factors, including the degree of their participation in the Company's business affairs, the Reporting Entities may purchase additional shares of Common Stock in the open market or in private transactions, or

Page 8 of 12

may dispose of all or a portion of the shares of Common Stock that they or any of them presently own or may hereafter acquire
