Section 2 -- Financial Information

Item 2.05 Costs Associated with Exit or Disposal Activities.

On June 26, 2006, Tower Automotive, Inc. (the "Company") announced that it will phase out production at its Toronto, Ontario aluminum foundry and mini-mill by August 31, 2006, as part of its ongoing restructuring plan. This action is part of the Company's ongoing strategy to improve operational efficiency and cost competitiveness while focusing on its core business of automotive structural stampings and assemblies.

Total estimated costs associated with this action amount to approximately \$19.9 million, which is comprised of employee related costs of \$4.3 million, asset impairment charges of \$14.5 million, other non cash charges of \$0.7 million and other costs of \$0.4 million. Future cash expenditures for these actions are estimated at \$4.7 million.

As part of this ongoing process, the Company may undertake additional actions in the future to rationalize and consolidate its operations.
