UNITED STATES SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2012

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-14989

WESCO International, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

25-1723342

(I.R.S. Employer Identification No.)

225 West Station Square Drive

Suite 700

Pittsburgh, Pennsylvania

(Address of principal executive offices)

N/A

(Former name, former address and former fiscal year, if changed since last report)

(412) 454-2200

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for at least the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of May 1, 2012, WESCO International, Inc. had 43,583,551 shares of common stock outstanding.

WESCO INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. ORGANIZATION

WESCO International, Inc. and its subsidiaries (collectively, "WESCO"), headquartered in Pittsburgh, Pennsylvania, is a full-line distributor of electrical, industrial and communications maintenance, repair and operating ("MRO") and original equipment manufactures ("OEM") products, construction materials, and advanced supply chain management and logistics services used primarily in the industrial, construction, utility and commercial, institutional and government markets. We serve over 65,000 active customers globally, through approximately 400 full service branches and eight distribution centers located primarily in the United States, Canada and Mexico, with offices in 11 additional countries.

2. ACCOUNTING POLICIES

Basis of Presentation

The unaudited condensed consolidated financial statements of WESCO have been prepared in accordance with Rule 10-01 of Regulation S-X of the Securities and Exchange Commission (the "SEC"). The unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in WESCO's 2011 Annual Report on Form 10-K filed with the SEC. The December 31, 2011 condensed consolidated balance sheet data was derived from audited financial statements but does not include all disclosures required by accounting principles generally accepted in the United States.

The unaudited condensed consolidated balance sheet as of March 31, 2012, the unaudited condensed consolidated statements of income for the three months ended March 31, 2012 and 2011, respectively, and the unaudited condensed consolidated statements of cash flows for the three months ended March 31, 2012 and 2011, respectively, in the opinion of management, have been prepared on the same basis as the audited consolidated financial statements and include all adjustments necessary for the fair statement of the results of the interim periods. All adjustments reflected in the unaudited condensed consolidated financial statements are of a normal recurring nature unless indicated. Results for the interim periods presented are not necessarily indicative of the results to be expected for the full year.

Reclassification

Certain prior period amounts have been reclassified to conform with the current period's financial statement presentation.

Fair Value of Financial Instruments

The Company measures the fair value of financial assets and liabilities based on the guidance of ASC 820, "Fair Value Measurements and Disclosures," which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements.

ASC 820 establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 describes three levels of inputs that may be used to measure fair value:

Level 1 inputs are quoted prices in active markets for identical assets or liabilities.

Level 2 inputs include inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of assets or liabilities.

Level 3 inputs are unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

At March 31, 2012, the par value of WESCO's fixed rate long-term debt was \$494.9 million and the fair value was approximately \$983.5 million. At December 31, 2011, the par value of WESCO's fixed rate long-term debt was \$495.0 million and the fair value was approximately \$850.9 million. The fair value of WESCO's fixed rate long-term debt is based on quoted prices in active markets and is therefore classified as Level 1 within the valuation hierarchy. The

reported carrying amounts of WESCO's other debt instruments approximate their fair values and are classified as Level 2 within the valuation hierarchy.

Recent Accounting Pronouncements

5

Pronouncements issued by the Financial Accounting Standards Board (the "FASB") or other authoritative accounting standards groups with future effective dates are either not applicable or are not expected to be significant to WESCO's financial position, results of operations or cash flows.

3. STOCK-BASED COMPENSATION

WESCO's stock-based employee compensation plans are comprised of stock options, stock-settled stock appreciation rights, restricted stock units and performance-based awards. Compensation cost for all stock-based awards is measured at fair value on the date of grant, and compensation cost is recognized, net of estimated forfeitures, over the service period for awards expected to vest. The fair value of stock options and stock-settled appreciation rights is determined using the Black-Scholes valuation model. The fair value of restricted stock units is determined by the grant-date closing price of WESCO's common stock. The forfeiture assumption is based on WESCO's historical employee behavior that is reviewed on an annual basis. No dividends are assumed.

During the three month periods ended March 31, 2012 and 2011, WESCO granted the following stock-settled stock appreciation rights, restricted stock units and performance-based awards at the following weighted average assumptions:

	Three Months Ended March 31,		
	2012	2011	
Stock-settled appreciation rights granted	249,582	379,757	
Restricted stock units granted	72,324	53,852	
Performance-based awards granted	46,804	—	
Risk free interest rate	0.9	% 2.4	%
Expected life (in years)	5.0	5.0	
Expected volatility	50	% 49	%

For the three months ended March 31, 2012 and 2011, the weighted average fair value per stock-settled appreciation right granted was \$27.98 and \$26.90, respectively. For the three months ended March 31, 2012 and 2011, the weighted average fair value per restricted stock unit granted was \$64.33 and \$60.05, respectively. For the three months ended March 31, 2012, the weighted average fair value per performance-based award granted was \$75.72. The following table sets forth a summary of stock options and stock-settled stock appreciation rights and related information for the three months ended March 31, 2012:

	Awards	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (In Years)	Aggregate Intrinsic Value (In thousands)
Outstanding at December 31, 2011	4,266,533	\$ 39.64		
Granted	249,582	64.33		
Exercised	(303,114)	33.69		
Forfeited	(5,000)	69.00		
Outstanding at March 31, 2012	4,208,001	41.50	6.1	\$92,601
Exercisable at March 31, 2012	2,996,413	\$40.60	5.2	\$69,000

The following table sets forth a summary of restricted stock units and related information for the three months ended March 31, 2012:

	Awards	Weighted Average Fair Value
Unvested at December 31, 2011	203,291	\$37.16
Granted	72,324	64.33
Vested	—	—
Forfeited	—	—

Unvested at March 31, 2012

275,615

\$44.29

6

Performance shares are awards for which the vesting will occur based on market or performance conditions. The following table sets forth a summary of performance-based awards for the three months ended March 31, 2012:

	Awards	Weighted Average Fair Value
Unvested at December 31, 2011	—	—
Granted	46,804	\$ 75.72
Vested	—	—
Forfeited	—	—
Unvested at March 31, 2012	46,804	\$ 75.72

The performance-based awards in the table above include 23,402 shares in which vesting of the ultimate number of shares underlying such awards will be dependent upon WESCO's total stockholder return in relation to the total stockholder return of a select group of peer companies over a three-year period. These awards are valued based upon a Monte Carlo simulation model, which is a valuation model that represents the characteristics of these grants. The probability of meeting the market criteria was considered when calculating the estimated fair market value on the date of grant. These awards were accounted for as awards with market conditions, which are recognized over the service period, regardless of whether the market conditions are achieved and the awards ultimately vest.

The fair value of the performance shares granted during the three months ended March 31, 2012 were estimated using a Monte Carlo simulation model with the following weighted-average assumptions:

Weighted Average Assumptions

Grant date share price	\$ 64.33	
WESCO expected volatility	41.97	%
Peer group median volatility	33.40	%
Risk-free interest rate	0.40	%
Correlation	135.4	%

Vesting of the remaining 23,402 shares of performance-based awards in the table above will be dependent upon the three-year average growth rate of WESCO's net income. These award are valued based upon the grant-date closing price of WESCO's common stock. These awards were accounted for as awards with performance conditions, in which stock-based compensation expense is recognized over the performance period based upon WESCO's determination of whether it is probable that the performance targets will be achieved.

WESCO recognized \$3.8 million and \$5.0 million of non-cash stock-based compensation expense, which is included in selling, general and administrative expenses, for the three months ended March 31, 2012 and 2011, respectively. As of March 31, 2012, there was \$27.9 million of total unrecognized compensation cost related to non-vested stock-based compensation arrangements for all awards previously made, of which approximately \$11.1 million is expected to be recognized over the remainder of 2012, \$10.9 million in 2013, \$5.3 million in 2014 and \$0.6 million in 2015.

During the three months ended March 31, 2012 and 2011, the total intrinsic value of awards exercised was \$8.9 million and \$6.0 million, respectively, and the total amount of cash received from the exercise of options was \$0.1 million and \$0.2 million, respectively. The tax benefit associated with the exercise of awards for the three months ended March 31, 2012 and 2011 totaled \$1.8 million and \$1.0 million, respectively, and was recorded as an increase to additional capital.

4. EARNINGS PER SHARE

Basic earnings per share are computed by dividing net income by the weighted average common shares outstanding during the periods. Diluted earnings per share are computed by dividing net income by the weighted average common shares and common share equivalents outstanding during the periods. The dilutive effect of common share equivalents is considered in the diluted earnings per share computation using the treasury stock method, which includes consideration of stock-based compensation and convertible debt.

The following table sets forth the details of basic and diluted earnings per share:

	Three Months Ended	
	March 31,	
	2012	2011
Net income attributable to WESCO International, Inc.	\$ 52,978	\$ 37,305
Weighted average common shares outstanding used in computing basic earnings per share	43,476,818	43,060,351
Common shares issuable upon exercise of dilutive stock options	1,340,886	1,417,346
Common shares issuable from contingently convertible debentures (see below for basis of calculation)	6,467,623	5,955,068
Weighted average common shares outstanding and common share equivalents used in computing diluted earnings per share	51,285,327	50,432,765
Earnings per share attributable to WESCO International, Inc.		
Basic	\$ 1.22	\$ 0.87
Diluted	\$ 1.03	\$ 0.74

For the three months ended months ended March 31, 2012 and 2011, the computation of diluted earnings per share attributable to WESCO International, Inc. excluded 1.0 million and 1.2 million, respectively, of stock-settled stock appreciation rights at weighted average exercise prices of \$64 per share and \$63 per share, respectively. These amounts were excluded because their effect would have been antidilutive.

Because of WESCO's obligation to settle the par value of the 6.0% Convertible Senior Debentures due 2029 (the "2029 Debentures") and the previously outstanding 1.75% Convertible Senior Debentures due 2026 (the "2026 Debentures") and 2.625% Convertible Senior Debentures due 2025 (the "2025 Debentures" and together with the 2026 Debentures and 2029 Debentures, the "Debentures") in cash upon conversion, WESCO is not required to include any shares underlying the Debentures in its diluted weighted average shares outstanding until the average stock price per share for the period exceeds the conversion price of the respective Debentures. At such time, only the number of shares that would be issuable (under the treasury stock method of accounting for share dilution) would be included, which is based upon the amount by which the average stock price exceeds the conversion price. The conversion price of the 2029 Debentures is \$28.87. Share dilution is limited to a maximum of 11,949,791 shares for the 2029 Debentures. For the period ended March 31, 2012 and 2011, the effect of the Debentures on diluted earnings per share attributable to WESCO International, Inc. was a decrease of \$0.15 and \$0.10, respectively.

5. EMPLOYEE BENEFIT PLANS

A majority of WESCO's employees are covered by defined contribution retirement savings plans for their services rendered subsequent to WESCO's formation. WESCO also offers a deferred compensation plan for select individuals. For U.S. participants, WESCO will make contributions in an amount equal to 50% of the participant's total monthly contributions up to a maximum of 6% of eligible compensation. For Canadian participants, WESCO will make contributions in an amount ranging from 1% to 7% of the participant's eligible compensation based on years of continuous service. In addition, employer contributions may be made at the discretion of the Board of Directors. For the three months ended March 31, 2012 and 2011, WESCO incurred charges of \$9.0 million and \$7.8 million, respectively, for all such plans. Contributions are made in cash to defined contribution retirement savings plans. The deferred compensation plan is an unfunded plan. Employees have the option to transfer balances allocated to their accounts into any of the available investment options, including WESCO common stock.

6. COMMITMENTS AND CONTINGENCIES

WESCO is a co-defendant in a lawsuit filed in a state court in Indiana in which a customer alleges that WESCO sold defective products manufactured or remanufactured by others and is seeking monetary damages in the amount of approximately \$50 million. WESCO has denied any liability, continues to believe that it has meritorious defenses and intends to vigorously defend itself against these allegations. Accordingly, no liability was recorded for this matter as of March 31, 2012. Furthermore, due to the uncertainty of this litigation, WESCO is not currently able to reasonably estimate the possible loss or range of loss from this legal proceeding.

7. INCOME TAXES

The effective tax rate for the three months ended March 31, 2012 and 2011 was 29.0% and 28.4% respectively. WESCO's effective tax rate is lower than the federal statutory rate of 35% primarily due to benefits resulting from the recapitalization of Canadian operations, which are partially offset by nondeductible expenses, state taxes and foreign rate differences. The effective tax rate for the three months ended March 31, 2012 reflects discrete adjustments totaling \$2.0 million, primarily

related to changes in uncertain tax positions and changes in state taxes. The effective tax rate for the three months ended March 31, 2011 included beneficial discrete adjustments totaling \$1.0 million primarily related to state taxes and adjustments for uncertain tax positions.

The total amount of net unrecognized tax benefits was \$20.1 million and \$20.9 million as of March 31, 2012 and December 31, 2011, respectively. A corresponding deferred tax asset in the amount of \$23.1 million excluding interest was recorded in 2011. If these tax benefits were recognized in the consolidated financial statements, the portion of these amounts that would reduce WESCO's effective tax rate would be \$19.8 million and \$19.7 million, respectively. This amount would be offset by the corresponding deferred tax asset discussed above.

During the next twelve months, it is reasonably possible that the amount of unrecognized tax benefits will decrease by as much as \$15.5 million (all of which will be offset by the reversal of a deferred tax asset) due to possible resolution of federal, state and/or foreign tax examinations and/or the expiration of statutes of limitations. Management does not expect this decrease to have an impact on the effective tax rate.

WESCO records interest related to uncertain tax positions as a part of interest expense in the consolidated statement of income. Penalties are recognized as part of income tax expense. As of March 31, 2012 and December 31, 2011, WESCO had an accrued liability for interest related to uncertain tax positions of \$8.2 million and \$11.4 million, respectively. During the three months ended March 31, 2012, accrued interest and net interest expense decreased by \$3.2 million as a result of a favorable Internal Revenue Service appeals settlement related to the years 2000 to 2006. There were no penalties recorded during the three months ended March 31, 2012 or 2011.

8. OTHER FINANCIAL INFORMATION

WESCO Distribution, Inc. ("WESCO Distribution"), a 100% owned subsidiary of WESCO International, Inc. ("WESCO International"), has outstanding \$150.0 million in aggregate principal amount of 7.50% Senior Subordinated Notes due 2017 (the "2017 Notes"), and WESCO International has outstanding \$344.9 million in aggregate principal amount of 2029 Debentures. The 2017 Notes are fully and unconditionally guaranteed by WESCO International on a subordinated basis to all existing and future senior indebtedness of WESCO International. The 2029 Debentures are fully and unconditionally guaranteed by WESCO Distribution on a senior subordinated basis to all existing and future senior indebtedness of WESCO Distribution.

Condensed consolidating financial information for WESCO International, WESCO Distribution, Inc. and the non-guarantor subsidiaries is as follows:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the information in the unaudited condensed consolidated financial statements and notes thereto included herein and WESCO International, Inc.'s Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations included in its 2011 Annual Report on Form 10-K. The matters discussed herein may contain forward-looking statements that are subject to certain risks and uncertainties that could cause actual results to differ materially from expectations. Certain of these risks are set forth in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2011, as well as the Company's other reports filed with the Securities and Exchange Commission.

Company Overview

WESCO International, Inc., incorporated in 1993 and effectively formed in February 1994 upon acquiring a distribution business from Westinghouse Electric Corporation, is a leading North American based distributor of products and provider of advanced supply chain management and logistics services used primarily in industrial, construction, utility and commercial, institutional and government markets. We serve over 65,000 active customers globally through approximately 400 full-service branches and eight distribution centers located in the United States, Canada, and Mexico, with offices in 11 additional countries. Approximately 80% of our net sales for the first three months of 2012 were generated from operations in the United States, 16% from Canada and the remainder from other countries.

We sell electrical, industrial, and communications maintenance, repair and operating ("MRO") and original equipment manufacturers ("OEM") products, construction materials, and advanced supply chain management and logistics services. Our primary product categories include general electrical and industrial supplies, wire, cable and conduit, data and broadband communications, power distribution equipment, lighting and lighting control systems, control and automation, and motors. We distribute over 1,000,000 products from more than 18,000 suppliers utilizing a highly automated, proprietary electronic procurement and inventory replenishment system. In addition, we offer a comprehensive portfolio of value-added services, which includes supply chain management, logistics and transportation procurement, warehousing and inventory management, as well as kitting, limited assembly of products and system installation. Our value-added capabilities, extensive geographic reach, experienced workforce and broad product and supply chain solutions have enabled us to grow our business and establish a leading position in North America.

Our financial results for the first three months of 2012 reflect improving conditions in a number of our served markets, successful growth initiatives, the positive impact from recent acquisitions, higher product prices and product costs, and effective spending control. Net sales increased \$174.7 million, or 12.2%, over the same period last year. Cost of goods sold as a percentage of net sales was 80.1% and 80.0% for the first three months of 2012 and 2011, respectively. Operating income increased by \$18.8 million, or 29.0%, primarily from organic growth of the base business and recent acquisitions. Net income attributable to WESCO International, Inc. for the three months ended March 31, 2012 and 2011 was \$52.9 million and \$37.3 million, respectively.

Cash Flow

We generated \$58.3 million in operating cash flow for the first three months of 2012. Included in this amount was increased income as a result of improved operating results offset by investments in working capital to fund our growth. Investing activities included payments of \$22.0 million for the acquisition of the business of RS Electronics and \$4.5 million for capital expenditures. Financing activities consisted of borrowings and repayments of \$59.4 million and \$90.1 million, respectively, related to our Revolving Credit Facility, and borrowings and repayments of \$85.0 million and \$95.0 million, respectively, related to our accounts receivable securitization facility (the "Receivables Facility").

Financing Availability

As of March 31, 2012, we had \$555.5 million in total available borrowing capacity. The available borrowing capacity under our Revolving Credit Facility, which has a maturity date in August 2016, was \$356.7 million, of which \$227.5

million was available for U.S. borrowings and \$129.2 million was available for Canadian borrowings. The available borrowing capacity under the Receivables Facility, which has a maturity date in August 2014, was \$198.8 million. We monitor the depository institutions that hold our cash and cash equivalents on a regular basis, and we believe that we have placed our deposits with creditworthy financial institutions. For further discussion refer to “Liquidity and Capital Resources.”

Critical Accounting Policies and Estimates

During the three months ended March 31, 2012, there were no significant changes to our critical accounting policies and estimates referenced in our 2011 Annual Report on Form 10-K.

Results of Operations

First Quarter of 2012 versus First Quarter of 2011

The following table sets forth the percentage relationship to net sales of certain items in our condensed consolidated statements of income for the periods presented:

	Three Months Ended			
	March 31,			
	2012	2011		
Net sales	100.0	% 100.0		%
Cost of goods sold	80.1	80.0		
Selling, general and administrative expenses	14.2	15.0		
Depreciation and amortization	0.5	0.5		
Income from operations	5.2	4.5		
Interest expense	0.6	0.9		
Income before income taxes	4.6	3.6		
Provision for income taxes	1.3	1.0		
Net income attributable to WESCO International, Inc.	3.3	% 2.6		%

Net sales in the first quarter of 2012 totaled \$1,606.0 million versus \$1,431.3 million in the comparable period for 2011, an increase of \$174.7 million, or 12.2%, over the same period last year. Sales were positively impacted by our growth initiatives and improved conditions in our markets served. The increase in net sales includes a positive impact from acquisitions of 2.6% and a positive impact of 1.6% due to one additional workday in the first quarter of 2012. Additionally, management estimates the price impact on net sales was approximately 1.5%. Foreign exchange did not have a significant impact on net sales during the first quarter of 2012.

Cost of goods sold for the first quarter of 2012 was \$1,286.3 million versus \$1,145.3 million for the comparable period in 2011, and cost of goods sold as a percentage of net sales was 80.1% and 80.0% in 2012 and 2011, respectively. The increase in the cost of goods sold percentage was primarily due to an unfavorable sales shipment type mix.

Selling, general and administrative ("SG&A") expenses in the first quarter of 2012 totaled \$228.1 million versus \$213.8 million in last year's comparable quarter. The increase in SG&A is primarily due to compensation expenses related to the growth in sales and income, and recent acquisitions. As a percentage of net sales, SG&A expenses were 14.2% in the first quarter of 2012 compared to 15.0% in the first quarter of 2011. SG&A expenses expanded at a lower rate than sales due to the continued effectiveness of our cost control initiatives and the fixed cost nature of certain SG&A expense components.

SG&A payroll expenses for the first quarter of 2012 of \$166.8 million increased by \$16.4 million compared to the same quarter in 2011. The increase in payroll expenses was primarily due to an increase in salaries and wages of \$10.0 million, an increase in commissions and incentives of \$5.8 million and an increase in benefit costs of \$3.4 million. These increases are primarily due to an increase in headcount, which is the result of both recent acquisitions and organic growth initiatives. Other SG&A payroll related expenses decreased \$2.8 million.

The remaining SG&A expenses for the first quarter of 2012 of \$61.3 million decreased by \$2.1 million compared to the same quarter in 2011.

Depreciation and amortization for the first quarter of 2012 was \$8.1 million versus \$7.5 million in last year's comparable quarter. The increase in depreciation and amortization is due to the increase in capital expenditures in 2011.

Interest expense totaled \$9.0 million for the first quarter of 2012 versus \$12.6 million in last year's comparable quarter, a decrease of 29.1%. The decrease in interest expense is primarily attributable to an adjustment of \$3.2 million of previously recorded interest related to uncertain tax positions. This adjustment was a result of a favorable Internal Revenue Service

appeals settlement in the first quarter of 2012 related to the years 2000 to 2006. Amortization of the debt discount resulted in non-cash interest expense of \$0.7 million in 2012 and \$0.6 million in 2011.

Income tax expense totaled \$21.6 million in the first quarter of 2012 compared to \$14.8 million in last year's comparable quarter, and the effective tax rate was 29.0% compared to 28.4% in the same quarter in 2011. The increase in the effective tax rate is primarily due to increased income related to our Canadian operations. For the first quarter of 2012, net income increased by \$15.6 million to \$52.9 million compared to \$37.3 million in the first quarter of 2011.

Net loss attributable to the noncontrolling interest was less than \$0.1 million for the first quarter of 2012.

Net income and diluted earnings per share attributable to WESCO International, Inc. was \$52.9 million and \$1.03 per share, respectively, for the first quarter of 2012, compared with \$37.3 million and \$0.74 per share, respectively, for the first quarter of 2011.

Liquidity and Capital Resources

Total assets at March 31, 2012 and December 31, 2011 were \$3.1 billion. Total liabilities at March 31, 2012 and December 31, 2011 were \$1.7 billion. Total liabilities remained unchanged primarily as a result of the increase in accounts payable of \$56.5 million, which was offset by a decrease in current and long-term debt of \$40.3 million and a decrease in accrued payroll and benefits costs of \$25.1 million due to the payment of the 2011 management incentive compensation. Stockholders' equity increased by 4.8% to \$1,411.2 million at March 31, 2012, compared with \$1,346.0 million at December 31, 2011, primarily as a result of net earnings of \$52.9 million, foreign currency translation adjustments of \$9.2 million, and stock-based compensation expense of \$3.8 million.

Our liquidity needs generally arise from fluctuations in our working capital requirements, capital expenditures, acquisitions and debt service obligations. As of March 31, 2012, we had \$356.7 million in available borrowing capacity under our Revolving Credit Facility, which combined with our \$198.8 million of available borrowing capacity under our Receivables Facility and our invested cash of \$16.4 million provided liquidity of \$571.9 million. Invested cash included in our determination of liquidity represents cash deposited in interest bearing accounts. We believe cash provided by operations and financing activities will be adequate to cover our current operational and business needs.

We communicate on a regular basis with our lenders regarding our financial and working capital performance and liquidity position. We are in compliance with all covenants and restrictions contained in our debt agreements as of March 31, 2012.

At March 31, 2012, we had cash and cash equivalents totaling \$63.6 million, of which \$30.7 million was held by foreign subsidiaries. The cash held by some of our foreign subsidiaries could be subject to additional U.S. income taxes if repatriated. We believe that we are able to maintain a sufficient level of liquidity for our domestic operations and commitments without repatriation of the cash held by these foreign subsidiaries.

We did not note any conditions or events during the first quarter of 2012 requiring an interim evaluation of impairment of goodwill. We will perform our annual impairment testing of goodwill and indefinite-lived intangible assets during the fourth quarter of 2012.

Over the next several quarters, we expect to maintain working capital productivity, and it is expected that excess cash will be directed primarily at debt reduction and acquisitions. Our near term focus will be managing our working capital as we experience sales growth and maintaining ample liquidity and credit availability. We believe our balance sheet and ability to generate ample cash flow provides us with a durable business model and should allow us to fund expansion needs and growth initiatives.

Cash Flow

Operating Activities. Cash provided by operating activities for the first three months of 2012 totaled \$58.3 million, compared with \$31.8 million of cash generated for the first three months of 2011. Cash provided by operating activities included net income of \$52.9 million and adjustments to net income totaling \$15.5 million. Other sources of cash in 2012 were generated from an increase in accounts payable of \$50.3 million due to the increase in sales activity, a decrease in prepaid expenses and other current assets of \$5.2 million, and a decrease in inventory of \$2.0 million. Primary uses of cash in 2012 included: \$38.2 million for the increase in trade and other receivables, resulting from the increase in sales; \$25.9 million for the decrease in accrued payroll and benefit costs resulting from the

payment of the 2011 management incentive compensation; and \$3.5 million for the decrease in other current and noncurrent liabilities. In 2011, primary sources of cash were net income of \$37.3 million and adjustments to net income totaling \$12.8 million. Other sources of cash included an increase in accounts payable of \$107.4 million and a decrease in prepaid expenses and other current assets of \$2.9 million. Primary uses of cash during the first three months of 2011 included: \$69.7 million for the increase in trade and other receivables resulting from the

increase in sales; \$38.7 million for the increase in inventory; \$16.7 million for the decrease in accrued payroll and benefits costs resulting from the payment of the 2010 management incentive compensation; and \$3.6 million for the decrease in other current and noncurrent liabilities.

Investing Activities. Net cash used by investing activities for the first three months of 2012 was \$26.5 million, compared with \$13.3 million of net cash used during the first three months of 2011. Included in 2012 were payments of \$22.0 million related to the acquisition of the business of RS Electronics. Included in 2011 were payments of \$7.8 million related to the acquisition of the business of RECO. Capital expenditures were \$4.5 million and \$5.6 million in the first three months of 2012 and 2011, respectively.

Financing Activities. Net cash used by financing activities for the first three months of 2012 and 2011 was \$35.0 million and \$21.0 million, respectively. During the first three months of 2012, borrowings and repayments of long-term debt of \$59.4 million and \$90.1 million, respectively, were made to our Revolving Credit Facility. Borrowings and repayments of \$85.0 million and \$95.0 million respectively, were applied to our Receivables Facility, and there were repayments of \$0.4 million to our mortgage financing facility. Financing activities in 2012 also included borrowings on our various international lines of credit of approximately \$9.4 million. During the first three months of 2011, borrowings and repayments of long-term debt of \$102.3 million and \$99.8 million, respectively, were made to our Revolving Credit Facility. Borrowings and repayments of \$15.0 million and \$40.0 million, respectively, were applied to our Receivables Facility, and there were repayments of \$0.4 million to our mortgage financing facility.

Contractual Cash Obligations and Other Commercial Commitments

There were no material changes in our contractual obligations and other commercial commitments that would require an update to the disclosure provided in our 2011 Annual Report on Form 10-K. Management believes that cash generated from operations, together with amounts available under our Revolving Credit Facility and the Receivables Facility, will be sufficient to meet our working capital, capital expenditures and other cash requirements for the foreseeable future. However, there can be no assurances that this will continue to be the case.

Inflation

The rate of inflation affects different commodities, the cost of products purchased, and ultimately the pricing of our different products and product classes to our customers. Our pricing related to inflation was approximately 1.5% of our sales revenue for the first three months of 2012. Historically, price changes from suppliers have been consistent with inflation and have not had a material impact on the results of operations.

Seasonality

Our operating results are not significantly affected by seasonal factors. Sales during the first and fourth quarters are generally 1 to 3% below the sales of the second and third quarters, due to a reduced level of activity during the winter months of November through February. Sales typically increase beginning in March, with slight fluctuations per month through October. During periods of economic expansion or contraction, our sales by quarter have varied significantly from this pattern.

Impact of Recently Issued Accounting Standards

See Note 2 of our Notes to the Condensed Consolidated Financial Statements for information regarding the effect of new accounting pronouncements.

Forward-Looking Statements

From time to time in this report and in other written reports and oral statements, references are made to expectations regarding our future performance. When used in this context, the words “anticipates,” “plans,” “believes,” “estimates,” “intend,” “expects,” “projects,” “will” and similar expressions may identify forward-looking statements, although not all forward-looking statements contain such words. Such statements including, but not limited to, our statements regarding business strategy, growth strategy, competitive strengths, productivity and profitability enhancement, competition, new product and service introductions and liquidity and capital resources are based on management’s beliefs, as well as on assumptions made by and information currently available to, management, and involve various risks and uncertainties, some of which are beyond our control. Our actual results could differ materially from those expressed in any forward-looking statement made by us or on our behalf. In light of these risks and uncertainties, there can be no assurance that the forward-looking information will in fact prove to be accurate. Certain of these risks are set forth in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2011, as well as the

Company's other reports filed with the Securities and Exchange Commission. We have undertaken no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures about Market Risks

There have not been any material changes to our exposures to market risk during the quarter ended March 31, 2012 that would require an update to the disclosures provided in our 2011 Annual Report on Form 10-K.

Item 4. Controls and Procedures

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures as such term is defined under Rule 13a-15(e) promulgated under the Exchange Act. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting

During the first quarter of 2012, there were no changes in our internal control over financial reporting identified in connection with management's evaluation of the effectiveness of our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II - Other Information

Item 1. Legal Proceedings

From time to time, a number of lawsuits and claims have been or may be asserted against us relating to the conduct of our business, including routine litigation relating to commercial and employment matters. The outcome of any litigation cannot be predicted with certainty, and some lawsuits may be determined adversely to us. However, management does not believe, based on information presently available, that the ultimate outcome of any such pending matters is likely to have a material adverse effect on our financial condition or liquidity, although the resolution in any quarter of one or more of these matters may have a material adverse effect on our results of operations for that period.

As initially reported in our 2008 Annual Report on Form 10-K, we are a co-defendant in a lawsuit filed in a state court in Indiana in which a customer alleges that we sold defective products manufactured or remanufactured by others and is seeking monetary damages in the amount of approximately \$50 million. We have denied any liability, continue to believe that we have meritorious defenses and intend to vigorously defend ourselves against these allegations. Accordingly, no liability was recorded for this matter as of March 31, 2012. Furthermore, due to the uncertainty of this litigation, we are not currently able to reasonably estimate the possible loss or range of loss from this legal proceeding.

Item 6. Exhibits

(a) Exhibits

10.1 Form of Performance Share Awards Agreement for Employees
