PROSPECTUS

STREICHER MOBILE FUELING, INC.

4,177,192 SHARES
COMMON STOCK
2,090,675 WARRANTS

The prospectus relates to 4,177,192 shares and 2,090,675 warrants that may be sold from time to time by the selling shareholders named in this prospectus. The shares offered include 666,666 shares issued in a private placement of our common stock in June 2001, 1,357,136 shares issued upon the conversion of promissory notes in January 2001 and January 2002, 62,715 shares issued in lieu of cash payment of interest on promissory notes, and 2,090,675 shares underlying warrants issued in private placements of promissory notes and warrants in May and August 2003. The 82,425 three year warrants issued in May 2003 entitle the holder to purchase an equal number of our shares of common stock at an exercise price of \$0.86 per share and the 2,008,250 five year warrants issued in August 2003 entitle the holder to purchase an equal number of our shares of common stock at an exercise price of \$1.00 per share.

The offering is not being underwritten. The offering price of our common stock that may be sold by selling shareholders may be the market price for our common stock prevailing at the time of sale on the Nasdaq SmallCap Market, a price related to the prevailing market price, a negotiated price or such other prices as the selling shareholders determine from time to time. The warrants do not have an established trading market and will not be listed on any securities exchange. The offering price of the warrants that may be sold by the selling shareholders may be the market price, if a market develops, a negotiated price or such other prices as the selling shareholders determine from time to time.

We could receive up to \$2,079,135 if the warrants are exercised by the selling shareholders. We will not receive any of the proceeds from the sales of our common stock or the warrants by the selling shareholders.

Our common stock is quoted on the Nasdaq SmallCap Market under the symbol "FUEL." On April 8, 2004, the closing price of our common stock was \$2.10 per share.

SEE "RISK FACTORS" BEGINNING ON PAGE 4 FOR A DESCRIPTION OF CERTAIN MATTERS WHICH YOU SHOULD CONSIDER BEFORE INVESTING IN OUR COMMON STOCK.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR DETERMINED IF THIS PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this Prospectus is April 8, 2004.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission utilizing a "shelf" registration process. Under this shelf process, the selling shareholders shown in this prospectus may sell up to an aggregate of 4,177,192 shares of our common stock. This prospectus provides you with a general description of our common stock which the selling shareholders may offer. When the selling shareholders sell our common stock, we may provide, if necessary, a prospectus supplement which will contain specific terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. You should read this prospectus and any prospectus supplement together with the additional information described under the heading "Where You Can Find More Information."

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains or incorporates by reference statements about our future which are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. This act provides a "safe harbor" for forward-looking statements to encourage companies to provide prospective information about themselves so long as they identify these statements as forward-looking and provide meaningful cautionary statements identifying important factors which could cause actual results to differ from the projected results. All statements other than statements of historical fact we make in this prospectus or any other document incorporated by reference are forward-looking. In some cases, you can identify these forward-looking statements by terminology such as "believes," "expects," "may," "will," "should," "seeks," "approximately," "intends," "plans," "estimates," or "anticipates" or the negative of those words or other comparable terminology. In evaluating these statements, you should specifically consider various factors, including the risks outlined under the caption "Risk Factors" in this prospectus. You should pay particular attention to the cautionary statements involving our history of losses, our capital requirements, our expansion and acquisition strategies, competition and government regulation. These factors and the others set forth under "Risk Factors" may cause our actual results to differ materially and adversely from any forward-looking statement.

PROSPECTUS SUMMARY

Because this is a summary, it may not contain all information which may be important to you. You should read this entire prospectus, including the information incorporated by reference, before you decide whether to buy our common stock. You should pay special attention to the risks of investing in our common stock as discussed under "Risk Factors."

STREICHER MOBILE FUELING, INC.

We provide mobile fueling and fuel management out-sourced services to businesses that operate fleets of vehicles and equipment of various sizes, including governmental agencies, utilities, trucking companies, bus lines, hauling and delivery services, courier services, construction companies and others. Our specialized trust fleet delivers fuel to customers' locations on a regularly scheduled or as needed basis, refueling vehicles and equipment and/or resupplying fixed-site storage facilities. Our patented proprietary electronic fuel tracking control system is used to measure, record and track fuel dispensed to each vehicle and tank fueled at a customer location, allowing verification of the amount and type of fuel delivered and providing customers with customized fleet fuel data for management analysis and tax reporting.

We believe that our mobile fueling services provide numerous advantages to our customers, including:

- o lower labor and administrative costs associated with fueling vehicles
- o centralized control over fuel inventories and usage
- o tax reporting benefits
- o elimination of costs and the risk of environmental liabilities associated with on-site fuel storage and dispensing facilities
- o lower risk of employee theft of fuel
- o emergency fuel availability and
- o the elimination of security risks associated with off-site fueling by employees

We presently operate over 100 custom mobile fueling trucks from 13 service locations in California, Florida, Georgia, North Carolina, Tennessee and Texas and are seeking to increase market penetration in our existing service areas and to develop operations in new markets.

We are a Florida corporation. Our principal executive office is located at 800 West Cypress Creek Road, Suite 580, Ft. Lauderdale, Florida 33309, and our phone number is (954) 308-4200.

RISK FACTORS

You should carefully read and consider the following factors and other information included or incorporated by reference in this prospectus before investing in our common stock.

NO ASSURANCES OF FUTURE PROFITABILITY; LOSSES FROM OPERATIONS; NEED FOR CAPITAL. We incurred net losses for the fiscal years ended June 30, 2003 and 2002 as well as the transition period ended June 30, 2001. We earned a profit in the fiscal year ended January 31, 2000, the fourth quarter ended June 30, 2002 and the first quarter ended September 30, 2002. In order for us to earn profits in the future, we need to increase volumes at profitable margins, control costs and generate sufficient cash flow to support our working capital and debt service requirements. There is no assurance that management will be able to accomplish our business plan, or that we will be able to continue to raise capital to support a working capital or debt service shortfall during any business downturns.

TRADING MARKET FOR THE COMPANY'S COMMON STOCK. Our common stock is thinly traded which could make it difficult for shareholders to sell shares at a predictable price or at all. In addition, there may be volatility in the market price of our common stock due to factors beyond our control. Our quarterly operating results, changes in general conditions in the economy, the financial markets or other developments affecting us could cause the market price of our common stock to fluctuate, making it difficult for shareholders to sell shares at predictable prices or times.

GROWTH DEPENDENT UPON EXPANSION; RISKS ASSOCIATED WITH EXPANSION INTO NEW MARKETS. A significant component of our future growth strategy will be to expand our business into new service locations. We intend to expand into additional major and secondary metropolitan areas. Expansion will largely be dependent on our ability to demonstrate the benefits of mobile fueling to potential new customers; successfully establish and operate new locations; hire, train and retain qualified management, operating, marketing and sales personnel; finance capital expenditures and working capital requirements; secure reliable sources of product supply on a timely basis and on commercially acceptable credit terms; and successfully manage growth by effectively supervising operations, controlling costs and maintaining appropriate quality controls. Our growth will depend upon our ability to achieve greater penetration in existing markets and to successfully penetrate new markets. We may also seek to expand through the acquisition of existing companies or their customer bases. During the fiscal year ended June 30, 2003, we commenced operations in the Greensboro, North Carolina market. However, there can be no assurance that we will be able to further expand our operations.

ACQUISITION AVAILABILITY; INTEGRATING ACQUISITIONS. Our future growth strategy may involve the acquisition of mobile fueling companies, wholesale fuel or petroleum lubricant distributors or other related entities and businesses in existing and new markets. There can be no assurance that we will be able to locate or make suitable acquisitions on acceptable terms or that future acquisitions will be effectively and profitably integrated into our existing business. Acquisitions involve risks that could adversely affect our operating

Edgar Filing: STREICHER MOBILE FUELING INC - Form 424B3

results, including management commitment; integration of the operations and personnel of the acquired operations; write downs of acquired intangible assets; and possible loss of key employees of the acquired operations.

DEPENDENCE ON KEY PERSONNEL. Our future success will be largely dependent on the continued services and efforts of Richard E. Gathright, our President and Chief Executive Officer, and other key personnel. The loss of the services of Mr. Gathright or other key personnel could have a material adverse effect on our business and prospects. Our success and plans for future growth will also depend on our ability to attract and retain additional qualified management, operating, marketing, sales and financial personnel. There can be no assurance that we will be able to hire or retain such personnel on terms satisfactory to us. We have entered into an employment agreement with Mr. Gathright which expires October 31, 2004. We have also entered into written employment agreements with certain other of our officers.

FUEL PRICING; EFFECT ON PROFITABILITY. Diesel fuel and gasoline are commodities which are refined and distributed by numerous sources. We purchase the fuel delivered to our customers from multiple suppliers at daily market prices and in some cases qualifies for volume discounts. We monitor fuel prices and trends in each of our service markets on a daily basis and seeks to purchase our supply at the lowest prices and under the most favorable terms. Commodity price risk is mitigated since we purchase and deliver our fuel supply daily and utilizes cost-plus

4

pricing to our customers. If we cannot pass on the cost-plus pricing to our customers, margins would decrease and a loss could be incurred. We have not engaged in derivatives or futures trading to hedge fuel price movements.

RISKS ASSOCIATED WITH CUSTOMER CONCENTRATION; ABSENCE OF WRITTEN AGREEMENTS. Although we provide services to an extensive number of customers, a significant portion of our revenue is generated from a few of our larger customers. While we have formal, length of service written contracts with some of these larger customers, such agreements are not customary in the mobile fueling business and have not been entered into by us with the majority of our customers. As a result, most of our customers can terminate our mobile fueling services at any time and for any reason, and we can similarly discontinue service to any customer. We may discontinue service to a customer if changes in the service conditions or other factors cause us not to meet our minimum level of margins and rates, and the pricing or delivery arrangements cannot be re-negotiated. As a result of this customer concentration and absence of written agreements, our business, results of operations and financial condition could be materially adversely affected if one or more of our large customers were lost or if we were to experience a high rate of contract terminations.

MANAGEMENT OF GROWTH. Our future growth strategy is dependent on effective operational, financial and other internal systems, and the ability to attract, train, motivate, manage and retain our employees. If we are unable to manage growth effectively, our results of operations will be adversely affected.

COMPETITION. We compete with other mobile fueling service providers, including several regional companies and numerous small, independent operators who provide these services. We also compete with retail marketing where fleet operators have the option of fueling their own equipment at retail stations and other third-party service locations. Our ability to compete is dependent on numerous factors, including price, delivery dependability, credit terms, service locations, and reporting and invoicing services. There can be no assurance that

Edgar Filing: STREICHER MOBILE FUELING INC - Form 424B3

we will be able to continue to compete successfully as a result of these or other factors.

OPERATING RISKS MAY NOT BE COVERED BY INSURANCE. Our operations are subject to all of the operating hazards and risks normally incidental to handling, storing and transporting diesel fuel and gasoline, which are classified as hazardous materials. We maintain insurance policies in such amounts and with such coverages and deductibles as we believe are reasonable and prudent. However, there can be no assurance that such insurance will be adequate to protect us from liabilities and expenses that may arise from claims for personal and property damage arising in the ordinary course of business or that such levels of insurance will be maintained by us or will be available at economical prices.

GOVERNMENTAL REGULATION. Our operations are affected by numerous federal, state and local laws, regulations and ordinances, including those relating to protection of the environment and worker safety. Various federal, state and local agencies have broad powers under these laws, regulations and ordinances. In particular, the operation of our mobile fueling fleet and our transportation of diesel fuel and gasoline are subject to extensive regulation by the U.S. Department of Transportation ("DOT") under the Federal Motor Carrier Safety Act ("FMCSA") and the Hazardous Materials Transportation Act ("HMTA"). We are subject to regulatory and legislative changes that can affect the economics of the industry by requiring changes in operating practices or influencing the demand for, and the cost of providing, our services. In addition, we depend on the supply of diesel fuel and gasoline from the oil and gas industry and, therefore, are affected by changing taxes, price controls and other laws and regulations generally relating to the oil and gas industry. We cannot determine the extent to which our future operations and earnings may be affected by new legislation, new regulations or changes in existing regulations.

The technical requirements of these laws and regulations are becoming increasingly expensive, complex and stringent. These laws may impose penalties or sanctions for damages to natural resources or threats to public health and safety. Such laws and regulations may also expose us to liability for the conduct of or conditions caused by others, or for our acts that were in compliance with all applicable laws at the time such acts were performed. Sanctions for noncompliance may include revocation of permits, corrective action orders, administrative or civil penalties and criminal prosecution. Certain environmental laws provide for joint and several liability for remediation of spills and releases of hazardous substances. In addition, we may be subject to claims alleging personal injury or property damage as a result of alleged exposure to hazardous substances, as well as damage to natural resources.

5

Although we believe that we are in substantial compliance with existing laws and regulations, there can be no assurance that substantial costs for compliance will not be incurred in the future. There could be an adverse affect upon our operations if there were any substantial violations of these rules and regulations. Moreover, it is possible that other developments, such as stricter environmental laws, regulations and enforcement policies thereunder, could result in additional, presently unquantifiable, costs or liabilities to us.

CHANGES IN ENVIRONMENTAL REQUIREMENTS. We expect to derive future business by converting to mobile fueling fleet operators currently utilizing underground fuel storage tanks for their fueling needs. The owners of underground storage tanks have been required to remove or retrofit those tanks to comply with technical regulatory requirements pertaining to their construction and

Edgar Filing: STREICHER MOBILE FUELING INC - Form 424B3

operation. If other more economical means of compliance are developed or adopted by owners of underground storage tanks, the opportunity for us to market our services to such owners may be adversely affected.

USE OF PROCEEDS

We will receive up to \$2,079,135 upon the exercise of the warrants by the selling shareholders. We will not receive any of the proceeds from the sales of our common stock or the warrants by the selling shareholders. Expenses expected to be incurred in connection with this offering are estimated to be approximately \$36,000.

SELLING SHAREHOLDERS

Of the 4,177,192 shares of our common stock registered by this prospectus:

- o 666,666 were issued to certain selling shareholders in a private placement of our common stock in June 2001;
- o 1,357,136 were issued to certain selling shareholders upon the conversion of promissory notes into our common stock on January 31, 2001 and January 15, 2002;
- o 2,090,675 are issuable to certain selling shareholders upon the exercise of warrants issued in private placements in May and August 2003; and

PLAN OF DISTRIBUTION

GENERAL

As used in this prospectus, the term "selling shareholders" includes the pledgees, donees, transferees and their successors in interest that receive the shares as a gift, partnership distribution or other non-sale related transfer.

Transactions. The selling shareholders may offer and sell their shares of common stock in one or more of the following transactions:

- o on the Nasdaq SmallCap Market,
- o in the over-the-counter market,
- o in privately negotiated transactions,
- o for settlement of short sales, or through long sales, options or transactions involving cross or block trades,
- o by pledges to secure debts and other obligations, or
- o in a combination of any of these transactions.

Prices. The selling shareholders may sell their shares of common stock at any of the following prices:

Edgar Filing: STREICHER MOBILE FUELING INC - Form 424B3

- o fixed prices which may be changed,
- o market prices prevailing at the time of sale,
- o prices related to prevailing market prices, or
- o privately negotiated prices.

Direct Sales; Agents, Dealers and Underwriters. The selling shareholders may effect transactions by selling their shares of common stock in any of the following ways:

- o directly to purchasers, or
- o to or through agents, brokers, dealers or underwriters designated from time to time.

Agents, dealers or underwriters may receive compensation in the form of underwriting discounts, concessions or commissions from the selling shareholders and/or the purchasers of shares for whom they act as agent or to whom they sell as principals, or both. The selling shareholders and any agents, dealers or underwriters that act in connection with the sale of shares might be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act, and any discount or commission received by them and any profit on the resale of shares as principal might be deemed to be underwriting discounts or commissions under the Securities Act. Because the selling shareholders might be deemed to be underwriters, the selling shareholders will be subject to the prospectus delivery requirements of the Securities Act.

Each selling shareholder will be subject to applicable provisions of the Exchange Act and the associated rules and regulations under the Exchange Act, including Regulation M, which provisions may limit the timing of purchases and sales of shares of our common stock by the selling shareholders.

In addition, any shares that qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than pursuant to this prospectus.

Supplements. To the extent required, we will set forth in a supplement to this prospectus filed with the SEC the number of shares to be sold, the purchase price and public offering price, the name or names of any agent, dealer or underwriter, and any applicable commissions or discounts with respect to a particular offering. In particular, upon being notified by a selling shareholder that a donee or pledgee intends to sell more than 500 shares, we will file a supplement to this prospectus.

State Securities Law. Under the securities laws of some states, the selling shareholders may only sell the shares in those states through registered or licensed brokers or dealers. In addition, in some states the selling

shareholders may not sell the shares unless they have been registered or qualified for sale in that state or an exemption from registration or qualification is available and is satisfied.

Expenses; Indemnification. We will receive up to \$2,079,135 upon exercise of the warrants by the selling shareholders but we will not receive any of the proceeds from the sale of the common stock sold by the selling shareholders. We will bear all expenses related to the registration of this offering but will not pay for any underwriting commissions, fees or discounts, if any. We have agreed to indemnify the selling shareholders against some civil liabilities, including some liabilities which may arise under the Securities Act.
