## **FORWARD-LOOKING STATEMENTS**

Certain statements made herein, including statements relating to matters that are not historical facts and statements of our beliefs, intentions and expectations about developments, results and events which will or may occur in the future, which constitute forward-looking information within the meaning of applicable Canadian securities legislation and forward-looking statements within the meaning of the safe harbor provisions of the United States Private Securities Litigation Reform Act of 1995. Forward-looking information and statements are typically identified by words such as anticipate, could, should, expect, seek, may, intend, likely, plan, estimate, will, believe and suggesting future outcomes or statements regarding an outlook. These include, but are not limited to, statements respecting anticipated business activities; planned expenditures; corporate strategies; proposed acquisitions and

dispositions of assets; discussions with third parties respecting material agreements; the expected timing and outcome of the Company's discussions with representatives of the Government of Mongolia for an Investment Agreement in respect of the Oyu Tolgoi Project; the estimated timing and cost of bringing the Oyu Tolgoi Project into commercial production; anticipated future production and cash flows; target milling rates; the impact of amendments to the laws of Mongolia and other countries in which Ivanhoe Mines carries on business; the timing for completion of the 2007 IDP and changes in mine plan contemplated thereunder; the timing of commencement of full construction of the Oyu Tolgoi Project; the completion of licence transfers and the closing of the Coal Division merger and completion of an updated mine plan for the Nariin Sukhait Project; the potential sale of the Monywa Copper Project by the Monywa Trust to a third party; the possibility of having to record, in the future, a significant reduction of the project's carrying value on the Company's financial statements; and other statements that are not historical facts.

All such forward-looking information and statements are based on certain assumptions and analyses made by the Company's management in light of their experience and perception of historical trends, current conditions and expected future developments, as well as other factors management believes are appropriate in the circumstances. These statements, however, are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking information or statements. Important factors that could cause actual results to differ from these forward-looking statements include those described under the heading "Risks"

and Uncertainties elsewhere in this Annual Report on Form 40-F. The reader is cautioned not to place undue reliance on forward-looking information or statements.

This Annual Report on Form 40-F also contains references to estimates of mineral reserves and mineral resources. The estimation of reserves and resources is inherently uncertain and involves subjective judgments about many relevant factors. The accuracy of any such estimates is a function of the quantity and quality of available data, and of the assumptions made and judgments used in engineering and geological interpretation, which may prove to be unreliable. There can be no assurance that these estimates will be accurate or that such mineral reserves and mineral resources can be mined or processed profitably. Mineral resources that are not mineral reserves do not have demonstrated economic viability. Except as required by law, the Company does not assume the obligation to revise or update these forward-looking statements after the date of this document or to revise them to reflect the occurrence of future unanticipated events.

**NOTE TO UNITED STATES INVESTORS CONCERNING ESTIMATES OF MEASURED, INDICATED AND INFERRED RESOURCES**

This document and the documents incorporated by reference herein have been prepared in accordance with the requirements of securities laws in effect in Canada, which differ from the requirements of United States securities laws. Without limiting the foregoing, this document, and the documents incorporated by reference herein, use the terms measured, indicated and inferred resources. United States investors are advised that, while such terms are recognized and required by Canadian securities laws, the SEC does not recognize them. Under United States standards, mineralization may not be classified as a reserve unless the determination has been made that the mineralization could be economically and legally produced or extracted at the time the reserve determination is made. United States investors are cautioned not to assume that all or any part of measured or indicated resources will ever be converted into reserves. Further, inferred resources have a great amount of uncertainty as to their existence and as to whether they can be mined legally or economically. It cannot be assumed that all or any part of the inferred resources will ever be upgraded to a higher category. Therefore, United States investors are also cautioned not to assume that all or any part of the inferred resources exist, or that they can be mined legally or economically. Disclosure of contained ounces is permitted disclosure under Canadian regulations; however, the SEC only permits issuers to report resources as in place tonnage and grade without reference to unit measures. Accordingly, information concerning descriptions of mineralization and resources contained in this document, or in the documents incorporated by reference, may not be comparable to information made public by United States companies subject to the reporting and disclosure requirements of the SEC. National Instrument 43-101 Standards of Disclosure for Mineral Projects ( NI 43-101 ) is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects. Unless otherwise indicated, all reserve and resource estimates contained in or incorporated by reference in this document have been prepared in accordance with NI 43-101. These standards differ significantly from the requirements of the SEC, and reserve and resource information contained herein and incorporated by reference herein may not be comparable to similar information disclosed by U.S. companies. NI 43-101 permits historical estimates made prior to the adoption of NI 43-101 that does not comply with NI 43-101 to be disclosed using the historical terminology if the disclosure: (a) identifies the source and date of the historical estimate; (b) comments on the relevance and reliability of the historical estimate; (c) states whether the historical estimate uses categories other than those prescribed by NI 43-101; and (d) includes any more recent estimates or data available.

## ADDITIONAL DISCLOSURE

### CONTROLS AND PROCEDURES

#### Disclosure Controls and Procedures

Disclosure controls and procedures are designed to provide reasonable assurance that all relevant information is gathered and reported to senior management, including the Company's principal executive officer and principal financial officer, on a timely basis so that appropriate decisions can be made regarding public disclosure.

As of the end of the Company's fiscal year ended December 31, 2006, an evaluation of the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)) was carried out by the Company's management with the participation of the principal executive officer and principal financial officer. Based upon that evaluation, the Company's principal executive officer and principal financial officer have concluded that as of the end of that fiscal year, the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in United States Securities and Exchange Commission (SEC) rules and forms and (ii) accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

It should be noted that while the Company's principal executive officer and principal financial officer believe that the Company's disclosure controls and procedures provide a reasonable level of assurance that they are effective, they do not expect that the Company's disclosure controls and procedures or internal control over financial reporting will prevent all errors and fraud. A control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

#### Management's Report on Internal Control over Financial Reporting

Management of the Company is responsible for establishing and maintaining adequate internal control over the Company's financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act). Internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with United States generally accepted accounting principles and the requirements of the SEC in the United States, as applicable. Management of the Company excluded from its assessment the internal control over financial reporting at Myanmar Ivanhoe Copper Company Limited (MICCL) in which it holds a 50% interest, because the Company does not have the ability to dictate or modify controls at MICCL and does not have the ability to assess, in practice, the controls at the entity. Under U.S. generally accepted accounting principles, MICCL is accounted for using the equity method of accounting and the Company's proportionate interest in individual assets, liabilities, revenues and expenses is excluded from the consolidated financial statement amounts of the Company. Under Canadian generally accepted accounting principles, the Company proportionately consolidates MICCL which constitutes 24% and 29% of net and total assets respectively, and 10% of net loss of the consolidated financial statement amounts as of and for the year ended December 31, 2006. The Company's principal executive officer and principal financial officer have assessed the effectiveness of the Company's internal control over financial reporting as at December 31, 2006 in accordance with Internal Control - Integrated Framework issued by

the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this assessment, the Company's principal executive officer and principal financial officer have determined that the Company's internal control over financial reporting was effective as at December 31, 2006 and have certified the Company's annual filings with the SEC on Form 40-F as required by the United States Sarbanes-Oxley Act and with Canadian securities regulatory authorities.

Management of the Company reviewed the results of management's assessment with the Audit Committee of the Company's Board of Directors. Deloitte & Touche LLP, independent registered chartered accountants, was engaged, as approved by a vote of the Company's shareholders, to audit and provide independent opinions on the Company's consolidated financial statements, management's assessment of internal control over financial reporting and the effectiveness of the Company's internal control over financial reporting as at December 31, 2006. Deloitte & Touche LLP has provided such opinions.

#### **Changes in Internal Control Over Financial Reporting**

During the year ended December 31, 2006, there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

#### **ATTESTATION REPORT OF THE INDEPENDENT REGISTERED CHARTERED ACCOUNTANTS**

The Company's independent registered chartered accountants, Deloitte & Touche LLP, has audited Management's assessment of the effectiveness of internal control over financial reporting and the effectiveness of internal control over financial reporting of the Company, and has issued an attestation report on management's assessment of the Company's internal control over financial reporting and the effectiveness of internal control over financial reporting of the Company, which is included in the Company's Audited Comparative Consolidated Financial Statements for the year ended December 31, 2006 attached hereto as Exhibit 2.

#### **AUDIT COMMITTEE**

The Company's board of directors has a separately-designated standing Audit Committee as defined by Section 3a(58)(A) of the Exchange Act for the purpose of overseeing the accounting and financial reporting processes of the Company and audits of the Company's annual financial statements. As of the date of this annual report, the members of the Audit Committee are Messrs. John Weatherall, Kjeld Thygesen, David Korbin and Dr. Marcus Faber. Mr. Weatherall is the Chairman of the Audit Committee.

Each of the directors serving on the Audit Committee has also been determined by the board of the Company to be independent within the criteria established by the SEC, the New York Stock Exchange (the NYSE) and the NASDAQ Stock Market (Nasdaq) for audit committee membership.

#### **AUDIT COMMITTEE FINANCIAL EXPERT**

The Company's board of directors has determined that each of Mr. John Weatherall and Mr. David Korbin are an audit committee financial expert (as such term is defined in Form 40-F). In addition, both Mr. Weatherall and Mr. Korbin are independent, as that term is defined by the SEC and the NYSE and Nasdaq listing standards.

Mr. Weatherall, a Chartered Financial Analyst, is currently the President of Scarthingmoor Asset Management Inc. He has over 40 years of experience as an investment analyst and also has experience as

a portfolio manager. Mr. Korbin holds a Chartered Accountant designation and has worked as an accounting professional for over 25 years.

**CODE OF BUSINESS CONDUCT AND ETHICS**

The Company has adopted a written code of ethics (as that term is defined in Form 40-F), entitled Code of Business Conduct and Ethics, which applies to all of the Company’s employees, executive officers and directors, including the Company’s principal executive officer, principal financial officer, principal accounting officer or control, and persons performing similar functions. The Code of Business Conduct and Ethics includes, among other things, written standards for the Company’s principal executive officer, principal financial officer and principal accounting officer that are required by the SEC for a code of ethics applicable to such officers. To review or obtain a copy of the Company’s Code of Business Conduct and Ethics, see Corporate and Social Responsibilities Code of Business Conduct and Ethics posted on the Company’s website, www.ivanhoe-mines.com. #### Pre-Approval Policies and Procedures

All services to be performed by the Company's independent auditor must be approved in advance by the Audit Committee or a designated member of the Audit Committee ( Designated Member ). The Designated Member is a member of the Audit Committee who has been given the authority to grant pre-approvals of permitted audit and non-audit services.

The Audit Committee has considered whether the provision of services other than audit services is compatible with maintaining the auditors' independence and has adopted a policy governing the provision of these services. This policy requires the pre-approval by the Audit Committee or the Designated Member of all audit and non-audit services provided by the external auditor, other than any de minimus non-audit services allowed by applicable law or regulation.
