Interim financial information
March 31, 2008

Independent accountant's review report

To the Board of Directors
Ultrapar Participações S.A.
São Paulo - SP

- 1 We have reviewed the Quarterly Financial Information of Ultrapar Participações S.A. and the consolidated Quarterly Financial Information of the Company and its subsidiaries for the quarter ended March 31, 2008, comprising the balance sheets, the statements of income, statements of cash flows and the management discussion and analysis, which are the responsibility of its management.
- 2 Our review was conducted in accordance with specific rules set forth by the IBRACON - The Brazilian Institute of Independent Auditors and the Federal Council of Accounting – CFC, and consisted mainly of the following: (a) inquiries and discussions with the persons responsible for the Accounting, Finance and Operational areas of the company and its subsidiaries as to the main criteria adopted in the preparation of the Quarterly Financial Information; and (b) reviewing information and subsequent events that have or may have relevant effects on the financial position and operation of the Company and its subsidiaries.
- 3 Based on our review, we are not aware of any material modifications that should be made in the Quarterly Financial Information described above, for it to be in accordance with the rules issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of Quarterly Financial Information, including Exchange Commission - CVM Instruction 469/08.

4 As mentioned in Note 2.n, on December 28, 2007, it was enacted Law 11.638/07, and effective from January 1, 2008. This law modified, amended and introduced new rules to the existing Corporate Law (Law 6.404/76) and will result in changes to certain accounting practices currently adopted in Brazil. Despite the fact the new law is already in force, the changes required depend on the issuance of further normatization by local regulators, in order for them to be fully adopted by companies. Therefore, in this transition phase, in its communication to the financial markets on January 14, 2008, the Brazilian Securities and Exchange Commission (CVM), allowed the non-application of the rules of Law 11.638/07 in the preparation of Quarterly Financial Information. As a consequence, the accounting information included in the Quarterly Financial Information of the Company and its subsidiaries for the quarter ended March 31, 2008, were prepared in accordance with specific rules set forth by the CVM and does not contemplate the changes to the accounting practices introduced by Law 11.638/07.

Temporary cash investments include the results from hedges, as described in Notes 4 and 20 that management has held and intends to hold to maturity.

k. Basis for translation of the interim financial information of foreign subsidiaries

The interim financial information of foreign subsidiaries are translated into Brazilian Reais at the current exchange rate in effect at the date of the interim financial information. m. Use of estimates

Although these estimates are based on management's best available knowledge of current and expected future events, actual results could differ from those estimates.

n. Modification in Law 11.638/07 (Brazilian Corporate Law)

On December 28, 2007, Law no. 11.638/07 was enacted. This law modified, revoked and introduced new provisions to Law 6.404/76 (Corporate Law), aiming at the increasing harmonization of the accounting practices adopted in Brazil to the International Financial Reporting Standards (IFRS), resulting from the rules issued by the International Accounting Standard Board (IASB).

The main changes and effects on the Company's Quarterly Financial Information are summarized as follows:

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial information

(In thousands of Brazilian Reais, unless otherwise stated)

- Substitution of the Statement of Changes in Financial Position by the statement of Cash Flows. The Company already discloses the Statement of Cash Flows of the Parent and Consolidated Company in the annual financial statements and in its quarterly financial information.
- Inclusion of the Statement of Value Added, applicable to publicly-held companies, which states the value added by the Company, as well as the composition of sources and allocation of these amounts. The Company already discloses the Statement of Value Added in its annual financial statements and will start to disclose it in the quarterly financial information as from next year.
- Possibility of maintaining a separate bookkeeping to meet the tax law and, in the sequence, process the necessary adjustments to book the accounting practices. This practice was not yet adopted by the Company due to the lack of rules, that are still to be issued by the regulators.
- Creation of a new subgroup of intangible assets in the balance sheet. This account will record the rights that have as object intangible assets that are destined for Company's maintenance or that are exercised with this purpose, including goodwill. The Company already presents the group of intangibles in its financial statements (see Note 13). At the moment, the goodwill arising from the acquisitions is demonstrated as deferred charges (see Note 14) and will be reclassified to intangibles as soon the related regulations are issued.
- Obligation to record the rights whose purpose is the maintenance of the Company's activities in fixed assets, including those arising from operations which transfer to the Company the benefits, risks and control of assets. Some subsidiaries of the Company have lease operations of fuel distribution and systems equipment, which will be recorded as assets, liabilities and income in the year end financial statements of 2008. In Note 21.d, the effects of these lease operations are disclosed, in case these were capitalized. The Company will not have significant impacts in its net income for the period or in net equity due to this modification.

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial information

(In thousands of Brazilian Reais, unless otherwise stated)

- Only preoperating and restructuring expenses, which will contribute, effectively, for the increase in the profitability in more than one year and which do not characterize just a cost reduction or increase of operational efficiency may be recorded as deferred charges. Note 14 details the balance of deferred charges, in which restructuring and preoperating expenses will be maintained, as they contribute to the earnings of more than one year. The amounts related to goodwill will be reclassified to intangible, as previously mentioned.
- In accordance with CVM Resolution no. 527, of November 1st, 2007, the Company has to analyze, on a regular basis, the return capacity of the amounts recorded as fixed assets, intangible and deferred charges, aiming to ensure that: (i) the potential loss for the non-return of these assets is charged to income in the case of a decision of discontinuing the activities related to these assets or when there is evidence that the income derived from operating these assets will not be sufficient to guarantee their realization, and (ii) the criterion used to estimate the remaining useful lives of the assets, necessary to record their depreciation, amortization and depletion, is revised and adjusted. Currently, the Company does not have a situation subject to the impairment of its assets.
- There are requirements for the financial instruments, including derivatives, to be recorded: (i) considering their fair market value or equivalent, when related to financial investments classified as tradeable or available for sale, or (ii) at acquisition cost or value issued, updated in accordance with legal or contractual provisions, adjusted for the probable realization value, when this is lower. The Company already discloses the information of fair market value of financial instruments in the annual financial statements and quarterly financial information through Note 20, which indicates that the market value is higher than the accounting value in an amount of R\$ 36,988 as of March 31, 2008 (R\$ 32,866 as of December 31, 2007).
- Creation of the caption "Equity valuation adjustments" under the Shareholders' Equity in order to: (i) record the market price valuation of certain assets, mainly related to financial instruments; (ii) record of the exchange rate variation of investments carried on subsidiaries located abroad, as determined by CVM's Resolution 534/08; (iii) record of amounts directly in the Shareholders' Equity when required by an accounting pronouncement, and (iv) record of market value adjustments of assets and liabilities as a consequence of mergers and acquisitions occurred between non-related parties which entail change of control between parties. Item "(i)" may affect the Company's Shareholders' Equity as of March 31, 2008 in the estimated amount of R\$ 36,988 without

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial information

(In thousands of Brazilian Reais, unless otherwise stated)

significant effects on the net income for the period; for item (ii) no relevant impact was calculated in the net equity or income of the Company in the quarter. No situations were identified in which adjustments arising from items “(iii)” and “(iv)” would be necessary.

- Introduction of the concept of present value adjustment for long-term assets and liabilities and for the relevant short-term accounts. The Company performed the present value calculation in conformity with the guidance included in CVM Instruction 469/08 and its explanatory note, and the related impact, both in the net equity as of March 31, 2008 and of December 31, 2007, and in the income of the quarters ended March 31, 2008 and 2007 was not considered significant. The discount rate used was the Interbank Deposit Certificate rate (CDI), which is considered the opportunity cost for the financial yields of the Company.
- Revocation of the possibility of recording: (i) the premium received in the issuance of debentures; and (ii) donations and subsidies for investment (including tax incentives) directly as capital reserve in Shareholders' Equity. The Company does not have this type of reserve in its Shareholders' Equity.
- The existing revaluation reserve balances will have to be maintained up to their effective realization or reversed up to the end of the fiscal year in which Law 11.638/07 became effective. The Company will inform the adopted option in the 2nd. Quarter of the year. Revaluation reserve represents the amount of R\$ 11,307 in the Company's Shareholders' Equity as of March 31, 2008.
- Requirement that the assets and liabilities of a Company to be merged, arising from transactions that involve the acquisition, merger or split-off between independent parties resulting in change of control, be recorded at fair market value. The Company and its subsidiaries did not realize operations of this nature up to the present moment.
- Elimination of the relevance parameter for investment adjustment in related companies and in subsidiaries accounted for by the equity method, and substitution of the relevance parameter of 20% in the total capital of the investee to 20% of the voting capital of the investee. The Company will not suffer any effect due to this modification.

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial information

(In thousands of Brazilian Reais, unless otherwise stated)

The estimates prepared by the Company on the impacts of Law 11.638/07 should be considered preliminary, as there still are a series of items to be regulated. These estimates correspond to the gross amounts and will not be subject to income and social contribution on income taxes under the terms of Art. 1 of the aforementioned law. The Company will continue to follow the progress of regulation concerning Law 11.638/07 prior to recording it in a definitive form.

(In thousands of Brazilian Reais, unless otherwise stated)

On April 18, 2007 the Company, together with Petróleo Brasileiro S.A. (“Petrobras”) and Braskem S.A. (“Braskem”), acquired a controlling interest in the Ipiranga Group, as informed in the “Material Event” published on that date. Under the terms of the Acquisition Agreement signed by the three buyers, the Company acted as a commission agent for Braskem and Petrobras in relation to the acquisition of their assets, and for itself for the acquisition of the fuels/lubricants distribution and related products businesses located in the South and Southeast Regions of Brazil and Empresa Carioca de Produtos Químicos S.A. (“Ipiranga”), maintaining the brand Ipiranga. Petrobras holds the control of fuel distribution and lubricant businesses located in the North, Northeast and Center West Regions of Brazil (“North Distribution Assets”), and Braskem holds control of the petrochemical assets, represented by Ipiranga Química S.A., Ipiranga Petroquímica S.A. (“IPQ”) and the ownership in Copesul – Companhia Petroquímica do Sul (“Copesul”) (“Petrochemical Assets”).

The transaction is structured in 4 stages:

- (i) acquisition of Ipiranga Group controlling interest (occurred on April 18, 2007);
- (ii) tag along offering for the purchase of common shares issued by Companhia Brasileira de Petróleo Ipiranga (“CBPI”), Refinaria de Petróleo Ipiranga S.A. (“RPI”) and Distribuidora de Produtos de Petróleo Ipiranga S.A. (“DPPI”) (occurred on October 22, 2007 for DPPI and RPI and on November 8, 2007 for CBPI);
- (iii) merger of the remaining shares of CBPI, RPI and DPPI into Ultrapar (occurred on December 18, 2007) with the concurrent accounts receivable from Braskem and Petrobras; and
- (iv) segregation of assets among Ultrapar, Petrobras and Braskem (occurred on February 2008, for the Petrochemical Assets). The stage of split-up by CBPI to party the North Distribution Assets is foreseen to occur in the second quarter of 2008 (see Note 24).

(In thousands of Brazilian Reais, unless otherwise stated)

The assets, liabilities and income of Ipiranga/Refinery have been reflected in the Company's financial statements since April, 2007.

In this quarter, Empresa Carioca de Produtos Químicos S.A. closed to be a subsidiary of Companhia Brasileira de Petróleo Ipiranga and became a subsidiary of Oxiteno S.A. Indústria e Comércio, given its allocation to the "chemical segment" of the Company.

Upon consolidation, intercompany investments, accounts, transactions and profits were eliminated. Minority interest in subsidiaries is presented separately in the interim financial information.

- (a) Dual Currency Deposits are investments of the subsidiary Oxiteno Overseas Corp., whose yield can be in US dollars or Brazilian Reais, depending on the US dollar rate as of the maturity date. If the US dollar rate is lower than the strike rate on the maturity date, the yield of this operation will be in US dollars plus interest of 7.4% per year; otherwise, it will be in Brazilian Reais plus average interest of 12.6% per year. The subsidiary records the investment at the lower of the two alternative yields, which to 2007 and 2008 was represented by the US dollar. To 2008 the exchange rate has always remained below the strike rate. As of March 31, 2008 the Company and its subsidiaries have no investments in Dual Currency Deposits due their maturity on March 14, 2008.
- (b) Investments made by the subsidiaries Oxiteno Overseas Corp., Oxiteno International Corp., LPG International Inc. and Oxiteno México S.A. de C.V. in fixed-income funds, certificates of deposit and investment grade corporate securities.
- (c) In April 2006, subsidiary Oxiteno Overseas Corp., owner of notes in the amount of US\$ 60 million issued by Companhia Ultragaz S.A. in the international market in 1997 (Original Notes), sold these Original Notes to a foreign financial institution. Concurrently, subsidiary Oxiteno Overseas Corp. acquired from this financial institution a credit linked note backed by the Original Notes. This transaction provides a financial gain for the Company corresponding to the difference between the interest rate paid for the credit linked note and the Original Notes, as mentioned in Note 15.b).

(d) Accumulated gain or loss (see Note 20).

Notes to the interim financial information

The balance of ICMS is mainly due to credits of the Camaçari (Bahia State) plant of the subsidiary Oxiteno Nordeste S.A Indústria e Comércio, due to measures taken by the Bahia State, which made it difficult to utilize credits for import payment or to transfer them to third parties. The total balance of credits from this plant corresponds to R\$ 84,449 as of March 31, 2008 (R\$ 76,845 as of December 31, 2007), of which R\$ 31,220 have already been reviewed by the tax authorities and are awaiting release by the state finance department of Bahia for use/transfer. In addition to these credits, the subsidiary's management is working on a series of additional measures for consumption of the plant's ICMS balance. The allowance for loss of the plant's credits was recognized on the basis of the maximum discount expected on their commercialization. The PIS and COFINS credits are being utilized to offset other federal taxes, mainly income and social contribution taxes on income.

20 Risks and financial instruments (Consolidated)

The main risk factors to which the Company and its subsidiaries are exposed reflect strategic/operating and economic/financial aspects. Strategic/operating risks (such as behavior of demand, competition, technological innovation, and significant structural changes in industry, among others) are addressed by the Company's management model. Economic/financial risks mainly reflect customer default, macroeconomic variables, such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company. These risks are managed through control policies, specific strategies and the determination of limits, as follows:

- Customer default - These risks are managed by specific policies for accepting customers and analyzing credit, and are mitigated by diversification of sales. As of March 31, 2008, Oxiteno S.A. Indústria e Comércio and its subsidiaries maintained R\$ 1,955 (R\$ 1,485 as of December 31, 2007), the subsidiaries of Ultragaz Participações Ltda. maintained R\$ 18,093 (R\$ 16,735 as of December 31, 2007), and Ipiranga/Refinery maintained R\$ 46,506 (R\$ 43,448 as of December 31, 2007) as an allowance for doubtful accounts.
- Interest rates - The Company and its subsidiaries adopt conservative policies to obtain and invest funds and to minimize the cost of capital. Temporary cash investments of the Company and its subsidiaries are comprised mainly of transactions linked to the CDI, as described in Note 4. A portion of the financial assets is intended for foreign currency hedges, as mentioned below. Borrowings are mainly originated from the BNDES, debentures, promissory notes and foreign currency financing, as mentioned in Note 15.
- Exchange rate - The Company's subsidiaries use hedge instruments (mainly between CDI and US\$) available in the financial market to cover assets and liabilities in foreign currency, so as to reduce the exchange variation effects on their results. Such hedges have amounts, periods and indexes substantially equivalent to the assets and liabilities in foreign currency to which they are linked. Shown below are the assets and liabilities in foreign currency, translated into Brazilian Reais at March 31, 2008 and December 31, 2007:

21 Contingencies and commitments (Consolidated)

a. Labor, civil and tax lawsuits

The Petrochemical Industry Labor Union, of which the employees of Oxiteno Nordeste S.A. Indústria e Comércio are members, filed an action against the subsidiary in 1990, demanding compliance with the adjustments established in a collective labor agreement, in lieu of the salary policies effectively followed. At the same time, the employers' association proposed a collective bargaining for the interpretation and clarification of the fourth clause of the agreement. Based on the opinion of its legal counsel, who analyzed the last decision of the Federal Supreme Court (STF) on the collective bargaining, as well as the status of the individual lawsuit of the subsidiary, management believes that a reserve is not necessary as of March 31, 2008.

The subsidiaries Companhia Ultragaz S.A. and Ultragaz Participações Ltda. are parties to an administrative proceeding at CADE (Administrative Council for Economic Defense), under the allegation of anticompetitive practice in municipalities of a region of the State of Minas Gerais in 2001. In September 2005, the SDE (Economic Law Department) issued a technical notice recommending to CADE a ruling against the companies involved in this proceeding. In their defense, the subsidiaries' arguments, among others, are that: (i) under the terms of the notice issued by the Company's chief executive officer on July 4, 2000, the subsidiaries' employees were forbidden to discuss with third parties matters related to prices; and (ii) no consistent evidence was attached to the proceeding's records. In view of the arguments presented, the fact that the technical notice has no binding effect on CADE's decision, and their legal counsel's opinion, the subsidiaries did not record a provision for this issue. Should CADE's decision be unfavorable, the subsidiaries can still discuss the issue at the judicial level.

The subsidiary Companhia Ultragaz S.A. is a defendant in lawsuits relating to damages caused by an explosion in 1996 in a shopping mall in the city of Osasco, State of São Paulo. Such lawsuits involve: (i) individual suits filed by victims of the explosion claiming damages from Ultragaz for the loss of economic benefit and for pain and suffering; (ii) lawsuit for reimbursement of expenses by the administration company of the shopping mall and its insurance company; and (iii) class action suit seeking indemnification for property damage and pain and suffering for all the victims injured and deceased. The subsidiary believes that it has presented evidence that defective gas pipes in the shopping mall caused the accident and that Ultragaz's on-site LPG storage facilities did not contribute to the explosion. Of the 58 lawsuits judged thus far, a favorable judgment was obtained for 57, and of these 21 have already been dismissed; only 1 had an unfavorable decision, which is still subject to appeal, and whose amount, should the decision be upheld, is R\$ 17. Seven lawsuits have not yet been judged. The subsidiary has insurance coverage for these lawsuits, and the uninsured contingent amount is R\$ 22,488. The Company has not recorded any provision for this amount, since it believes the probability of loss is remote.

The Company and its subsidiaries obtained injunctions to pay PIS and COFINS (taxes on revenues) without the changes introduced by Law No. 9718/98 in its original version. The ongoing questioning refers to the levy of these taxes on sources other than revenues. In 2005, the STF decided the matter favorable to the taxpayer. Although it is a precedent, the effect of this decision does not automatically apply to all companies, since they must await judgment of their own lawsuits. In the first quarter of 2007, final decisions were rendered for the Company and its subsidiaries which reversed the accrual previously recorded, in the amount of R\$ 12,759, net of attorney's fees. The Company has other subsidiaries whose lawsuits have not yet been judged. Should there be final favorable outcomes for the subsidiaries in all lawsuits still not judged, the Company estimates that the total positive effect in income before income and social contribution taxes should reach R\$ 31,449, net of attorney's fees.

Subsidiary Utingás Armazenadora S.A. has challenged in court ISS (Service Tax) tax assessments issued by the municipal government of Santo André. Legal counsel of the subsidiary classifies the risk as low, since a significant portion of the judgement decisions at the administrative appeal level was favorable to the subsidiary. The thesis defended by the subsidiary is supported by the opinion of a renowned tax specialist. The unprovisioned updated amount of the contingency as of March 31, 2008 is R\$ 43,125 (R\$ 42,861 as of December 31, 2007).

On October 7, 2005, the subsidiaries of Ultragas Participações Ltda. filed for and obtained an injunction to support the offset of PIS and COFINS credits against other federal taxes administered by the Federal Revenue Service (SRF), notably corporate income tax and social contribution taxes. According to the injunction obtained, the subsidiaries have been making judicial deposits for these debits in the amount of R\$ 87,758 as of March 31, 2008 (R\$ 81,207 as of December 31, 2007) and recognizing the corresponding liability for this purpose.

Subsidiaries Ultragas Participações Ltda, Cia. Ultragas S.A., Utingás Armazenadora S.A., Terminal Químico de Aratu S.A. - Tequimar, Transultra - Armazenamento e Transporte Especializado Ltda. and Ultracargo Operações Logísticas e Participações Ltda., hold judicial measures petitioning the full and immediate utilization of supplementary monetary adjustment based on the Consumer Price Index (IPC) / National Treasury Bonds (BTN) for 1990 (Law No. 8.200/91), and hold accruals in the amount of R\$ 13,798 (R\$ 13,571 as of December 31, 2007) as a possible contingency, in case of unfavorable outcome of such lawsuits.

On December 29, 2006, the subsidiaries Oxiteno S.A Indústria e Comércio, Oxiteno Nordeste S.A Indústria e Comércio, Companhia Ultragas S.A. and Transultra Armazenamento e Transporte Especializado Ltda filed for an injunction seeking the deduction of ICMS from the PIS and COFINS tax basis. Oxiteno Nordeste S.A. Indústria e Comércio received an injunction and is paying the amounts into judicial deposits, as well as recording the respective accrual in the amount of R\$ 13,549 (R\$ 10,655 as of December 31, 2007); the others subsidiaries did not receive similar injunction and are waiting the judgment of an appeal to Regional Federal Court – TRF of the 3rd Region.

The Company and some subsidiaries filed a request for an injunction seeking not to be subject to the legislation that restricted the offset of corporate income tax (IRPJ) and social contribution (CSLL) tax loss carryforwards computed through December 31, 1994 to 30% of income for the year. As a result of the position of Supreme Court – STF and based on opinion of its legal counsellor, the provision for contingency was recorded in amount of R\$ 6,687 (R\$ 6,624 as of December 31, 2007).

In 2007, considering the evolution of the recent jurisprudence, the valuation of its legal advisors and the increase of amounts involved in realized operations, the Company and its subsidiaries decided to accrue PIS and COFINS on credits of interest on capital. The total amount accrued as of March 31, 2008 is R\$ 21,104 (R\$ 20,665 as of December 31, 2007).

The main tax contingencies of Ipiranga/Refinery which present risks evaluated as possible, and which, based in this evaluation, have not been accrued for in the interim financial information, refer to ICMS, in the total amount of R\$ 132,445 and relate, mainly to: (a) requirements for the reversal of credits on interstate outflows; (b) requirements of ICMS on the purchases of basic oils; (c) demands to reverse credits related with interstate transport services operations; (d) demands to reverse credits derived from excess taxation generated on the purchase of products in the petroleum refinery under the tax substitution system; (e) demands to reverse credits in operations with alcohol (anhydrous fuel alcohol) in the State of São Paulo; (f) tax assessment resulting from operations of alcohol loan devolutions (anhydrous fuel alcohol). In addition, subsidiary Distribuidora de Produtos de Petróleo Ipiranga S.A.-DPPI and its subsidiaries have tax assessments concerning non-homologation of IPI credits originated in acquisitions of products whose subsequent sales had no taxation. The non-accrued contingent amount as of March 31, 2008, is R\$ 31,948.

The Company and its subsidiaries have other ongoing administrative and judicial proceedings; legal counsel classified the risks on these proceedings as possible and/or remote and, therefore, no reserves for potential losses on these proceedings have been recorded. The Company and its subsidiaries also have litigations that aim at recovery of taxes and contributions, that have not been registered in the interim financial information due to their contingent nature.

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial information

(In thousands of Brazilian Reais, unless otherwise stated)

In April 2007 Ultrapar acquired the control of various companies in the Ipiranga Group, ending up with: (i) the fuel and lubricants distribution businesses in the South and Southeast of Brazil and related activities, (ii) EMCA - Empresa Carioca de Produtos Químicos, a producer of white mineral-based oils and special fluids, and (iii) a stake in the refining operations. The financial statements of Ultrapar's consolidate all the businesses acquired from 2Q07 onwards. Except where otherwise mentioned, Ultrapar's financial statements for periods prior to 2Q07 do not include the operations acquired. With the purpose of providing a comparison basis for the analysis of the evolution in the performance of Ipiranga, unaudited financial statements for this company have been drawn up for periods prior to 2Q07 ("Ipiranga Pro-forma figures"). For the same reason, when indicated, the figures for operations acquired have been included in all Ultrapar's financial statements relating to quarters prior to 2Q07 ("Ultrapar pro-forma figures"). After the Share Exchange of shares issued by Refinaria de Petróleo Ipiranga S.A., Distribuidora de Produtos de Petróleo Ipiranga S.A. and Companhia Brasileira de Petróleo Ipiranga by Ultrapar in 4Q07, the correspondent portion of the minority interest in Refinaria de Petróleo Ipiranga S.A., Distribuidora de Produtos de Petróleo Ipiranga S.A. and Companhia Brasileira de Petróleo Ipiranga companies was reduced and since October 2007 Ultrapar started to consolidate 100% of the earnings of that companies in its figures. From 01/01/2008, EMCA has been consolidated into Oxiteno, reflecting the effective management responsibility for the business, while and the financial statements of Oxiteno and Ipiranga, prior to this date, reflect the current consolidation, retrospectively. The references to the term "Ipiranga", consequently, refer to the fuel and lubricant distribution businesses acquired in the South and Southeast of Brazil and related activities.

(2) Performance Analysis:

Net Sales and Services - Ultrapar's consolidated net sales and services amounted to R\$ 5,927.4 million in 1Q08, 405% higher than the net sales and services in 1Q07, as a consequence of the acquisition of Ipiranga, and 7% lower than the corresponding figure in 4Q07, as a consequence of seasonal variation between the periods in Ultrapar's businesses. Taking pro-forma figures for Ultrapar in 1Q07, net sales and services would have increased 3%.

Ultragaz: The Brazilian LPG market increased by 2% in 1Q08, compared to 1Q07, reflecting the improved performance of the economy and the increase in Brazilian population income. Sales volume at Ultragaz in 1Q08 totalled 366,000 tons, in line with the volume sold in 1Q07, reflecting the scheduled withdrawal of two major clients from the bulk segment which consumed 5,000 tons in 1Q07. In the bottled segment, Ultragaz's sales volume amounted to 249,000 tons, up 1% on 1Q07. Compared to 4Q07, Ultragaz's sales volume was down 7% as a result of the seasonal variation between the two periods. Net sales and services at Ultragaz amounted to R\$ 745.8 million in 1Q08, up 1% on 1Q07, as a result of an increase in the average cost of LPG, partially offset by the increased level of competition in the bottled segment since 3Q07. Compared to 4Q07, net sales and services were 3% lower, below the 7% seasonal reduction in sales volume, as a consequence of higher average LPG costs.

Ipiranga: The increase in vehicle sales and the continuing improvements to legislation and inspection measures implemented in the sector, such as ANP resolution N° 7, the implementation of CODIF/Passage Fiscal and the addition of colorant to anhydrous alcohol, all had a positive influence on Ipiranga's sales volume, which in 1Q08 amounted to 2,716,000 cubic meters, a 5% increase on the pro-forma figure in 1Q07. The main highlights were:

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial information

(In thousands of Brazilian Reais, unless otherwise stated)

(i) the combined volume of gasoline, ethanol and NGV, which increased by 10% (100,000 cubic meters), with emphasis to the 62% increase in hydrated ethanol sales, as a result of the 39% increase in the sale of flex-fuel vehicles and the improvements introduced in the sector and (ii) diesel volume, which increased by 3% in the period (39,000 cubic meters), as a consequence of increased economic activity. Compared to 4Q07, there was a 9% drop in sales volume at Ipiranga (266,000 cubic meters), reflecting typical seasonal variation between the periods. Net sales and services at Ipiranga totalled R\$ 4,702.3 million in 1Q08, 4% higher than the pro-forma net sales and services of Ipiranga in 1Q07. This increase was due to a 5% rise in sales volume and benefits from improved regulation and inspection of the sector, partially offset by a reduction in the price of anhydrous and hydrated ethanol, as a consequence of increased supply levels of these products in the Brazilian market. Compared to 4Q07, net sales and services were down 7%, basically as a consequence of a 9% seasonal reduction in sales volume.

Oxiteno: Oxiteno's specialty chemicals sales volume in 1Q08 totalled 123,000 tons, up 12% (13,000 tons) compared to 1Q07, as a result of the additional production capacity in Brazil and Mexico as well as the acquisition of Oxiteno Andina in September 2007. Specialty chemicals sales volume in the domestic market increased by 7% (6,000 tons) as a consequence of the development of new products, with gains in market share, and good economic performance. The increase in the sales of specialty chemicals in the domestic market took place in practically all the company's operational segments, particularly (i) cosmetics and detergents, (ii) agrochemicals and (iii) paints and varnishes. In the international market, sales of specialty chemicals were up 30% on 1Q07 (7,000 tons), as a consequence of the acquisition of Oxiteno Andina, and an increase in the sales of Oxiteno Mexico. Glycol sales volume in 1Q08 was down 67% (29,000 tons) on 1Q07, with reductions both in the domestic, as well as the exports, as a result of the suspension of operations at two PET production plants in the country and higher sales in the spot market in 1Q07, as a consequence of a restriction in the supply of products in the international market. Oxiteno's sales volume totalled 137,000 tons, down 10% (16,000 tons) compared to 1Q07, as a result of lower glycol sales, which combined with the 12% increase in specialty chemicals sales, led to an improved product mix in this quarter. Compared to 4Q07, sales volume was down 23%, as a result of typical seasonal variation between the first and fourth quarters, in addition to the factors outlined above. Oxiteno reported net sales and services of R\$ 416.5 million in 1Q08, in line with 1Q07, despite the 10% reduction in sales volume and the 18% appreciation in the Brazilian Real as a consequence of the recovery in average prices in dollar terms, as a result of improved sales mix and commercial initiatives implemented by the company. Compared to 4Q07, net sales and services were down 16%, as a result of a 23% seasonal reduction and the 3% appreciation in the Brazilian Real, partly offset by a recovery in prices in dollar terms, and an improvement in sales mix.

Ultracargo: Average storage volumes at Ultracargo in 1Q08, measured in cubic meters, were 14% and 5% higher than in 1Q07 and 4Q07, respectively, basically due to expansions at the Aratu and Suape terminals, for the storage of vegetable oils and ethanol, and an increase in the amount of chemicals and ethanol handled at Santos terminal. In the transport segment, total kilometrage travelled was down 12% and 4% compared to 1Q07 and 4Q07, respectively, as a result of Ultracargo's decision to concentrate its operations on providing differentiated services, with higher added value. Net revenues from services at Ultracargo amounted to R\$ 59.9 million in 1Q08, up 10% on 1Q07, as a consequence of (i) the increase in volume stored at the Aratu, Suape and Santos terminals, and (ii) the new in-house logistics operations, with the acquisition of Petrolog in 2Q07, partially offset by the lower kilometrage travelled reported in the transport segment. Compared to 4Q07, net revenue was up 2%, due to a 5% increase in the average storage
