Notes:

1. ICICI Limited, ICICI Personal Financial Services Limited and ICICI Capital Services Limited amalgamated with and into ICICI Bank Limited, effective March 30, 2002 for accounting purposes under generally accepted accounting principles in India ("Indian GAAP"). In this Semi-Annual Report, all references to "we", "our" and "us" are, unless the context otherwise requires, to ICICI Bank Limited on an unconsolidated basis subsequent to the amalgamation. References to specific data applicable to particular subsidiaries or other consolidated entities are made by reference to the name of that particular entity. References to "ICICI Bank" or "the Bank" are, as the context requires, to ICICI Bank Limited on an unconsolidated basis subsequent to the amalgamation, to ICICI Bank Limited on an unconsolidated basis prior to the amalgamation, or to both.
 2. In this document, references to "US\$" are to United States dollars, references to "Rs." are to Indian rupees, and references to "¥" or "JPY" are to Japanese yen. For convenience in reading this document, certain US dollar amounts have been translated into Japanese yen at the mean of the telegraphic transfer spot selling and buying rates vis-à-vis customers as at December 4, 2009 as quoted by The Bank of Tokyo-Mitsubishi UFJ, Ltd. in Tokyo (US\$ 1 = ¥ 88.12), and certain rupee amounts have been translated into Japanese yen at the reference rate of Rs. 1 = ¥ 2.09 based on the foreign exchange rate as announced by The Bank of Tokyo-Mitsubishi UFJ, Ltd. in Tokyo as at December 4, 2009.
 3. The fiscal year of the Bank commences on April 1 and ends at March 31 of each year. References to a particular "fiscal" year are to our fiscal year ended at March 31 of such year. For example, "fiscal 2009" refers to the year commenced on April 1, 2008 and ended at March 31, 2009.
 4. Figures in tables in this document have been rounded, subject to adjustment, if necessary, so that they may agree with the arithmetic sum of the figures.

Notes on segmental results:

- The disclosure on segmental reporting has been prepared in accordance with the Reserve Bank of India (RBI) circular no. DBOD.No.BP.BC.81/21.04.018/2006-07 dated April 18, 2007 on guidelines on enhanced disclosure on "Segmental Reporting" which is effective from the reporting period ended March 31, 2008. The segmental results for the half year ended September 30, 2007 as per the revised guidelines have not been prepared. The segmental results for the half year ended September 30, 2007 are presented based on the earlier segment categories and hence are not comparable.
- "Retail Banking" includes exposures which satisfy the four criteria of orientation, product, granularity and low value of individual exposures for retail exposures laid down in Basel Committee on Banking Supervision document "International Convergence of Capital Measurement and Capital Standards: A Revised Framework".
- "Wholesale Banking" includes all advances to trusts, partnership firms, companies and statutory bodies, which are not included under Retail Banking.
- "Treasury" includes the entire investment portfolio of the Bank.
- "Other Banking" includes hire purchase and leasing operations and also includes gain/loss on sale of banking & non-banking assets and other items not attributable to any particular business segment.

Notes:

- The financials have been prepared in accordance with Accounting Standard (AS) 25 on "Interim Financial Reporting".
- During the three months ended September 30, 2009, the Bank allotted 240,058 equity shares of Rs. 10.00 each pursuant to exercise of employee stock options.
- Status of equity investors' complaints/grievances for the three months ended September 30, 2009:

Opening	Additions	Disposals

Overview of Indian Financial Sector

Second Quarter Review of Annual Policy Statement for Fiscal 2010

In its second quarter review of the annual policy statement for fiscal 2010 announced on October 27, 2009, the Reserve Bank of India commenced an exit from the special measures introduced in fiscal 2009 following the global financial crisis.

The Reserve Bank of India has withdrawn the following special liquidity-injection measures introduced in fiscal 2009 based on improving liquidity conditions and low utilization of these facilities:

- Statutory liquidity ratio requirement for banks was increased from 24% to 25%.
- Special term repo facility for scheduled commercial banks (for funding to mutual funds, non-banking finance companies and housing finance companies) that was announced to be available up to March 31, 2010 was discontinued.
 - The foreign exchange swap facility available to banks for meeting overseas liabilities was discontinued.

In addition, the Reserve Bank of India has also announced the following measures:

- Provisioning requirements for advances to commercial real estate classified as standard assets was increased from 0.4% to 1.0%.
- Banks are being required to increase the total provisioning coverage ratio, including floating provisions, to 70% by September 30, 2010.
- Banks are now allowed to open branches in other than Tier-1 and Tier-2 cities under general permission without prior authorization of the Reserve Bank of India.
- A new category of non-banking finance companies called “Infrastructure non-banking finance companies” would be introduced which hold at least 75% of their total assets in financing infrastructure projects.
 - The category of persons that can act as business correspondents has been enlarged.
- Cash withdrawals up to Rs. 1,000 per day at point of sale terminals have been allowed for all debit cards issued in India.
- Several guidelines relating to repo of corporate bonds, introduction of credit default swaps, build up capital for take-out exposures in a phased manner, sound compensation policies for private sector and foreign banks, liquidity risk management and stress testing are proposed to be issued.

The Reserve Bank of India did not change the key policy rates and the cash reserve ratio.

3. State of Affiliated Companies

(1) The following table sets forth certain information relating to the company which became a subsidiary or joint venture for the half year ended September 30, 2009.

Name	Year of Formation	Activity	Equity Share Capital	Preference Share Capital	Total Share Capital	Ownership Interest	Total Income(1)	Net Worth(2)	Total Assets(3)
(in millions, except percentages)									
ICICI Prudential Pension Funds Management Company Limited (ICICI PruLife Towers, 1089, Appasaheb Marathe Marg, Prabhadevi, Mumbai, Maharashtra, India 400 025)	April 2009	Pension fund management	Rs. 110.0	-	Rs. 110.0	100.00%	Rs. 1.9	Rs. 109.6	Rs. 111.1

(1) Total income represents gross income from operations and other income.

(2) Net worth represents share capital/unit capital (in case of venture capital funds) and reserves and surplus.

(3) Total assets represent fixed assets, advances, investments and gross current assets (including cash and bank balances).

(2) The following table sets forth certain information relating to the companies which became other significant affiliates consolidated in our financial statements under Indian GAAP for the half year ended September 30, 2009. In addition, Contests2win.com India Private Limited, Crossdomain Solutions Private Limited and Transafe Services Limited are no longer other significant affiliates consolidated in our financial statements under Indian GAAP for the half year ended September 30, 2009.

Name	Year of formation	Activity	Ownership interest	Total income(1)	Net worth(2)	Total Assets(3)
(Rs. in millions, except percentages)						
Rainbow Fund(4) (10th Floor, Prestige, Obelisk, Kasturba Road, Bangalore, Karnataka, India 560 001)	March 2008	Unregistered venture capital fund	23.91%	Rs. 0.1	Rs. 26.4	Rs. 26.6

Edgar Filing: ICICI BANK LTD - Form 6-K

- (1) Total income represents gross income from operations and other income.
- (2) Net worth represents share capital/unit capital (in case of venture capital funds) and reserves and surplus.
- (3) Total assets represent fixed assets, advances, investments and gross current assets (including cash and bank balances).
- (4) These entities have been consolidated as per the equity method of accounting as prescribed by AS 23 on “Accounting for investments in associates in consolidated financial statements”.

- 8 -

4. State of Employees

At September 30, 2009, the Bank had 33,731 permanent employees (including employees on probation) which excludes interns.

The Bank has also used the services of certain employees on contract basis. The contract is generally for a period of about one year. The number of such employees at September 30, 2009 was about 12,150.

III. STATEMENT OF BUSINESS

1. Outline of Results of Operations, etc.

Please refer to “ - III. - 7. Analysis of Financial Condition, Operating Results and Statement of Cash Flows”.

2. State of Production, Orders Accepted and Sales

Please refer to " - II. - 2. Nature of Business" and " - III. - 7. Analysis of Financial Condition, Operating Results and Statement of Cash Flows”.

3. Problems to be Coped with

There has been no material change since last ASR filed on September 30, 2009 for fiscal 2009.

4. Risks in Business, etc.

Since the last ASR filed on September 30, 2009 there have been the following changes in risks relating to our business:

In its mid-term review of policy statement for fiscal 2010, the Reserve Bank of India has required banks to increase the total provisioning coverage ratio, including floating provisions, to 70% by September 30, 2010. Our provisioning coverage ratio (i.e., total provisions made against non-performing advances as a percentage of gross non-performing advances) at September 30, 2009 was 51.1%. The combination of the mandated increase in provisions, with any further deterioration or increase in our non-performing asset portfolio could lead to an adverse impact on our business, our future financial performance and the price of our notes. The Reserve Bank of India has subsequently allowed banks to include technical write-offs in calculating the provisioning coverage ratio. We have sought clarification whether write-offs made by us qualify for such technical write-offs. The additional provisioning requirement could adversely impact our income statement.

Recently, Moody's Investors Service, an international rating agency placed under review for possible downgrade the ratings of hybrid and subordinated debt securities issued by banks in 36 countries following a change in its rating methodology for these instruments. Moody's had, in October 2009, downgraded the foreign and local currency deposit ratings and subordinated debt ratings of 13 Indian banks, including us, pursuant to their new methodology for imputing systemic support while assessing the local currency ratings of banks. Moody's has subsequently upgraded the foreign currency deposit rating of Indian banks in December 2009. In fiscal 2009, Moody's revised its baseline credit assessment for us from Baa1 to Baa2, and revised its long-term bank deposit and senior unsecured debt ratings on ICICI Bank UK from Baa1 to Baa2, the subordinated debt rating from Baa2 to Baa3 and junior subordinated debt rating from Ba1 to Ba2. Standard & Poor's has revised its outlook on India's sovereign rating, and consequently on the ratings of several Indian financial institutions including us, to negative from stable. Any reduction in our ratings (or withdrawal of ratings) may increase our borrowing costs, limit our access to capital markets and adversely affect our ability to sell or market our products, engage in business transactions particularly longer-term, and derivatives

transactions, or retain our customers.

- 9 -

5. Material Contracts relating to Management, etc.

There has been no material change since the last ASR filed on September 30, 2009 for fiscal 2009.

6. Research and Development Activities

Please refer to “ - II. - 2. Nature of Business”.

7. Analysis of Financial Condition, Operating Results and Statement of Cash Flows

The following discussion is based on the audited unconsolidated financial results of the Bank for the six months ended September 30, 2009.

Profit before provisions and tax increased by 24.1% from Rs. 39.99 billion in the six months ended September 30, 2008 to Rs. 49.64 billion in the six months ended September 30, 2009. This increase was primarily due to treasury income of Rs. 10.11 billion in the six months ended September 30, 2009 against a treasury loss of Rs. 7.46 billion in the six months ended September 30, 2008 and due to decrease in non-interest expenses by 18.7% from Rs. 36.54 billion in the six months ended September 30, 2008 to Rs. 29.71 billion in the six months ended September 30, 2009, offset, in part, by a decrease in fee income by 29.4% from Rs. 38.34 billion in the six months ended September 30, 2008 to Rs. 27.06 billion in the six months ended September 30, 2009 and a decrease in net interest income by 5.1% from Rs. 42.38 billion in the six months ended September 30, 2008 to Rs. 40.21 billion in the six months ended September 30, 2009.

Provisions and contingencies (excluding provision for tax) increased by 39.6% from Rs. 17.16 billion in the six months ended September 30, 2008 to Rs. 23.95 billion in the six months ended September 30, 2009 primarily due to a higher level of specific provisioning on non-performing retail loans and restructured corporate loans. Profit before tax increased by 12.5% from Rs. 22.83 billion in the six months ended September 30, 2008 to Rs. 25.69 billion in the six months ended September 30, 2009. Tax provision increased from Rs. 5.41 billion in the six months ended September 30, 2008 to Rs. 6.51 billion in the six months ended September 30, 2009, reflecting an effective tax rate of 25.3% in the six months ended September 30, 2009 as compared to 23.7% in the six months ended September 30, 2008. Profit after tax increased by 10.1% from Rs. 17.42 billion in the six months ended September 30, 2008 to Rs. 19.18 billion in the six months ended September 30, 2009.

Net interest income decreased by 5.1% from Rs. 42.38 billion in the six months ended September 30, 2008 to Rs. 40.21 billion in the six months ended September 30, 2009 reflecting primarily a decline of 5.0% in the average interest-earning assets during the period. The net interest margin at 2.4% was at the same level in the six months ended September 30, 2009 as in the six months ended September 30, 2008.

Non-interest income increased by 14.6% from Rs. 34.15 billion in the six months ended September 30, 2008 to Rs. 39.14 billion in the six months ended September 30, 2009 primarily due to an increase in income from treasury-related activities, offset, in part, by a 29.4% decrease in fee income.

Non-interest expense decreased by 18.7% from Rs. 36.54 billion in the six months ended September 30, 2008 to Rs. 29.71 billion in the six months ended September 30,

2009 primarily due to a decrease in direct marketing agency expenses from Rs. 3.73 billion in the six months ended September 30, 2008 to Rs. 0.48 billion in the six months ended September 30, 2009 and various cost reduction initiatives undertaken by us.

Provisions and contingencies (excluding provision for tax) increased from Rs. 17.16 billion in the six months ended September 30, 2008 to Rs. 23.95 billion in the six months ended September 30, 2009 primarily due to a higher level of specific provisioning on non-performing retail loans and restructured corporate loans. The increase in specific provision on retail non-performing loans was on account of seasoning of the secured loan portfolio, relatively higher losses on the unsecured portion of the portfolio and the adverse macro-economic environment.

Total assets decreased by 4.8% from Rs. 3,849.70 billion at September 30, 2008 to Rs. 3,663.74 billion at September 30, 2009 primarily due to decrease in advances by Rs. 311.25 billion and decline in cash and balances with the Reserve Bank of India by Rs. 45.25 billion due to reduction in the cash reserve ratio requirement, offset, in part, by an increase in investments by Rs. 228.18 billion.

Net Interest Income

Net interest income decreased by 5.1% from Rs. 42.38 billion in the six months ended September 30, 2008 to Rs. 40.21 billion in the six months ended September 30, 2009 primarily due to a 5.0% decline in average interest-earning assets during the period. Net interest margin continued to remain at the same level at 2.4% in the six months ended September 30, 2009 as in the six months ended September 30, 2008.

Interest income decreased by 12.3% from Rs. 157.27 billion in the six months ended September 30, 2008 to Rs. 137.90 billion in the six months ended September 30, 2009 due to a decrease in average interest-earning assets by 5.0% from Rs. 3,511.06 billion in the six months ended September 30, 2008 to Rs. 3,334.38 billion in the six months ended September 30, 2009 and a decrease in yield on interest-earning assets by about 60 basis points from 8.9% in the six months ended September 30, 2008 to 8.3% in the six months ended September 30, 2009.

The average volume of interest-earning assets decreased in the six months ended September 30, 2009 primarily on account of a decrease in average advances and average balances with the Reserve Bank of India offset, in part, by increases in average repo lending and average non-statutory liquidity ratio investments. Average advances decreased by 8.2% from Rs. 2,186.83 billion in the six months ended September 30, 2008 to Rs. 2,007.84 billion in the six months ended September 30, 2009 primarily on account of decrease in retail advances. Retail advances decreased by 29.4% from Rs. 1,185.14 billion at September 30, 2008 to Rs. 836.70 billion at September 30, 2009. Net advances of overseas branches, in rupee terms, decreased by 12.1% from Rs. 577.42 billion at September 30, 2008 to Rs. 507.80 billion at September 30, 2009. Average earning investments decreased by 1.4% from Rs. 1,006.25 billion in the six months ended

September 30, 2008 to Rs. 991.86 billion in the six months ended September 30, 2009 primarily due to decrease in average investments in government and other approved securities held for statutory liquidity ratio compliance. This was primarily on account of a reduction in net demand and time liabilities by 13.7% from Rs. 2,616.04 billion at September 26, 2008 to Rs. 2,257.62 billion at September 25, 2009 (being the last reporting Fridays of the respective periods) as well as a reduction in statutory liquidity ratio.

Average balances with the Reserve Bank of India decreased by 45.9% from Rs. 227.37 billion in the six months ended September 30, 2008 to Rs. 122.94 billion in the six months ended September 30, 2009 due to a reduction in the cash reserve ratio requirement by 400 basis points from 9.0% at September 30, 2008 to 5.0% at September 30, 2009. Average other interest-earning assets increased by Rs. 121.13 billion from Rs. 90.61 billion in the six months ended September 30, 2008 to Rs. 211.74 billion in the six months ended September 30, 2009.

Yield on average interest-earning assets decreased by about 60 basis points from 8.9% in the six months ended September 30, 2008 to 8.3% in the six months ended September 30, 2009 primarily due to a decrease in the yield on advances by 94 basis points from 10.5% in the six months ended September 30, 2008 to 9.5% in the six months ended September 30, 2009 and a decrease in yield on earning investments by 86 basis points from 7.3% in the six months ended September 30, 2008 to 6.4% in the six months ended September 30, 2009 offset, in part, by an increase in yield due to a reduction in cash reserve ratio by 400 basis points during this period. As cash reserve ratio balances do not earn any interest income, the reduction resulted in a positive impact on yield on interest-earning assets.

Yield on advances decreased from 10.5% in the six months ended September 30, 2008 to 9.5% in the six months ended September 30, 2009 primarily on account of a reduction in proportion of average retail loans in average total loans and decrease in yield on retail loans by about 50 basis points from six months ended September 30, 2008 to six months ended September 30, 2009. The reduction in yield on retail advances was primarily on account of a reduction in the floating reference rate by the Bank. During the six months ended September 30, 2009, we reduced the prime lending rate for domestic advances by 100 basis points, the full impact of which will be reflected in fiscal 2010. Yield on advances of overseas branches was impacted by a decline in benchmark rates (LIBOR).

Interest income was also impacted by the receipt of interest on our income tax refund which was Rs. 0.72 billion in the six months ended September 30, 2009 as compared to Rs. 1.47 billion in the six months ended September 30, 2008.

Total interest expense decreased by 15.0% from Rs. 114.89 billion in the six months ended September 30, 2008 to Rs. 97.69 billion in the six months ended September 30, 2009 due to both, a decrease in average interest-bearing liabilities and decrease in average cost of funds. Average interest-bearing liabilities decreased by 5.4% from Rs. 3,332.62 billion in the six months ended September 30, 2008 to Rs. 3,152.13 billion in the six months ended September 30, 2009 primarily due to decrease in the volume of average deposits, offset, in part, by an increase in the volume of average borrowings.

Average volume of deposits decreased by 11.6% from Rs. 2,319.17 billion in the

six months ended September 30, 2008 to Rs. 2,050.64 billion in the six months ended September 30, 2009. Total deposits decreased by 11.4% from Rs. 2,234.02 billion at September 30, 2008 to Rs. 1,978.32 billion at September 30, 2009 primarily due to a reduction of the wholesale term deposit base. The proportion of current and savings account deposits in total deposits increased from 30.0% at September 30, 2008 to 36.9% at September 30, 2009 due to our conscious strategy of focusing on current and savings account deposits.

Average volume of borrowings, in rupee terms, increased from Rs. 1,013.45 billion in the six months ended September 30, 2008 to Rs. 1,101.49 billion in the six months ended September 30, 2009 primarily on account of an increase in overnight repo borrowing for money market operations based on arbitrage opportunities available in the market.

Average cost of funds decreased by 70 basis points from 6.9% in the six months ended September 30, 2008 to 6.2% in the six months ended September 30, 2009. The Bank's cost of deposits decreased by 60 basis points from 7.1% in the six months ended September 30, 2008 to 6.5% in the six months ended September 30, 2009 due to a decline in cost of term deposits by 54 basis points from 8.9% in the six months ended September 30, 2008 to 8.4% in the six months ended September 30, 2009 and an increase in the proportion of lower cost current and savings account deposits in total deposits. Effective cost of savings deposits for the six months ended September 30, 2009 was 2.7% against the Reserve Bank of India prescribed rate of 3.5% as the interest is paid on minimum outstanding balance in a savings account in a particular period. Effective April 1, 2010, the interest needs to be paid on the average balance in a savings account, which we expect to adversely impact our net interest margin by approximately 10 basis points. The cost of borrowings decreased by 74 basis points from 6.4% in the six months ended September 30, 2008 to 5.7% in the six months ended September 30, 2009 due to decrease in cost of foreign currency borrowings and cost of call money borrowings and repurchase transactions. The cost of foreign currency borrowings decreased due to reduction in benchmark rate (LIBOR).

Non-Interest Income

The following table sets forth the principal components of non-interest income for the periods presented.

	Six months ended September 30,			2009/2008 % change
	2008	2009	2009	
	(in millions, except percentages)			
Fee income (1)	Rs. 38,338.1	Rs. 27,060.9	JPY 56,557.3	(29.4)%
Income from treasury-related activities (2)	(7,464.8)	10,107.8	21,125.3	-
Lease income	1,175.2	1,065.1	2,226.0	(9.4)
Other income	2,106.6	902.9	1,887.1	(57.1)
Total non-interest income	Rs. 34,155.1	Rs. 39,136.7	JPY 81,795.7	14.6%

(1) Includes merchant forex income and margin on customer derivative transactions.

(2) Includes profit/loss on sale of investments and revaluation of investments and foreign exchange gain/loss.

Non-interest income increased by 14.6% from Rs. 34.15 billion in the six months ended September 30, 2008 to Rs. 39.14 billion in the six months ended September 30, 2009 primarily due to an increase in income from treasury-related activities, offset, in part, by a 29.4% decrease in fee income.

Fee income decreased by 29.4% from Rs. 38.34 billion in the six months ended September 30, 2008 to Rs. 27.06 billion in the six months ended September 30, 2009 primarily due to subdued investment and mergers & acquisition activity in the corporate sector, which impacted our lending, structuring, advisory and syndication fees. The high interest rates prevalent for a large part of the previous year combined with our strategy to moderate balance sheet growth also resulted in a considerable slow down of retail disbursements. This resulted in lower retail asset-related fees in the six months ended September 30, 2009.

The total income from treasury-related activities in the six months ended September 30, 2009 was Rs. 10.11 billion compared to a loss of Rs. 7.46 billion in the six months ended September 30, 2008.

Treasury income was Rs. 10.11 billion in the six months ended September 30, 2009 primarily due to profit on sales and a reversal of mark to market losses on government securities and other fixed income instruments of Rs. 6.43 billion, positive impact on the valuation of the credit derivatives portfolio due to the softening of credit spreads and profit on sales and a reversal of mark to market losses on equity investments, offset, in part by mark-to-market losses on investments in security receipts issued by asset reconstruction companies and a diminution in the value of venture fund investments.

During the six months ended September 30, 2009, a recovery in equity markets and softening of credit spreads led to a positive impact on our trading fixed income portfolio and equity portfolio. Liquidity in the banking system continued to improve. As a result, there was a significant moderation in money market and wholesale deposit rates. However, the yield on 10-year government securities, after declining initially, increased during the six months ended September 30, 2009 following the increase in the government borrowing programme and a fiscal deficit of 6.8% of GDP estimated for fiscal 2010. We capitalized on certain market opportunities in the six months ended September 30, 2009 resulting in gains on sales and a reversal of mark to market losses of Rs. 6.43 billion on government securities and other fixed income securities. Income from treasury-related activities is necessarily volatile and depends upon the nature of our portfolio as well as interest rate trends and may not be sustainable.

Lease income, net of lease depreciation, decreased from Rs. 0.14 billion in the six months ended September 30, 2008 to Rs. 0.08 billion in the six months ended September 30, 2009 primarily due to a decrease in leased assets from Rs. 6.82 billion at September 30, 2008 to Rs. 3.93 billion at September 30, 2009.

Other income decreased by 57.1% from Rs. 2.11 billion in the six months ended September 30, 2008 to Rs. 0.90 billion in the six months ended September 30, 2009. Other

income primarily includes dividend from subsidiaries of Rs. 1.55 billion in the six months ended September 30, 2009 as against Rs. 1.69 billion in the six months ended September 30, 2008.

Non-Interest Expense

The following table sets forth the principal components of non-interest expense for the periods presented.

	Six months ended September 30,			2009/2008 % change
	2008	2009	2009	
	(in millions, except percentages)			
Employee expenses	Rs. 10,112.8	Rs. 9,160.7	JPY 19,145.9	(9.4)%
Depreciation on own property	2,234.2	2,547.4	5,324.1	14.0
Auditors' fees and expenses	11.3	11.2	23.4	(0.9)
Other administrative expenditure	19,413.4	16,521.3	34,529.5	(14.9)
Total non-interest expense (excluding lease depreciation and direct marketing agency expenses)	31,771.7	28,240.6	59,022.9	(11.1)
Depreciation (including lease equalization) on leased assets	1,039.5	980.9	2,050.1	(5.6)
Direct marketing agency expenses	3,728.3	484.0	1,011.5	(87.0)
Total non-interest expense	Rs. 36,539.5	Rs. 29,705.5	JPY 62,084.5	(18.7)%

Total non-interest expense decreased by 18.7% from Rs. 36.54 billion in the six months ended September 30, 2008 to Rs. 29.71 billion in the six months ended September 30, 2009 primarily due to a 87.0% decrease in direct marketing agency expenses and a 14.9% decrease in other administrative expenses.

We use marketing agents, called direct marketing agents or associates, for sourcing our retail assets. We include commissions paid to these direct marketing agents of our retail assets in non-interest expense. These commissions are expensed upfront and not amortized over the life of the loan. Due to lower retail disbursements, lower issuance of new credit cards and reduction in rate of commission, direct marketing agency expenses decreased by 87.0% from Rs. 3,728.3 million in the six months ended September 30, 2008 to Rs. 484.0 million in the six months ended September 30, 2009.

Employee expenses decreased by 9.4% from Rs. 10.11 billion in the six months ended September 30, 2008 to Rs. 9.16 billion in the six months ended September 30, 2009 primarily due to a 12.0% decrease in the employee base from 36,186 at September 30, 2008 to 33,731 at September 30, 2009.

Depreciation on own property increased by 14.0% from Rs. 2.23 billion in the six months ended September 30, 2008 to Rs. 2.55 billion in the six months ended September 30, 2009 reflecting the addition of new branches and ATMs and office equipments. The number of our branches in India increased from 1,399 at September 30, 2008 to 1,509 at September 30, 2009. The number of ATMs increased from 4,485 at September 30, 2008 to 4,883 at September 30, 2009. Depreciation on leased assets decreased from Rs. 1.04

billion in the six months ended September 30, 2008 to Rs. 0.98 billion in the six months ended September 30, 2009.

Other administrative expenses decreased by 14.9% from Rs. 19.41 billion in the six months ended September 30, 2008 to Rs. 16.52 billion in the six months ended September 30, 2009 primarily due to overall cost reduction initiatives undertaken by us. Expenses on account of retail business expenses, professional fees, traveling, conveyance, postage and insurance declined in the six months ended September 30, 2009 as compared to expenses in the six months ended September 30, 2008.

Provisions and Contingencies

The following table sets forth the components of provisions and contingencies for the periods presented.

	Six months ended September 30,			2009/2008 % change
	2008	2009	2009	
	(in millions, except percentages)			
Provision for investments (including credit substitutes) (net)	Rs. (109.3)	Rs. (388.4)	JPY (811.7)	-
Provision for non-performing assets(1) (including provision for restructured loans and standard assets)	17,362.5	24,075.4	50,317.6	38.7%
Others	(93.0)	262.5	548.6	-
Total provisions	Rs. 17,160.2	Rs. 23,949.5	JPY 50,054.5	39.6%

(1) The Bank does not distinguish between provisions and write-offs while assessing the adequacy of its loan loss coverage, as both provisions and write-offs represent a reduction of the principal amount of a non-performing asset. In compliance with regulations governing the presentation of financial information by banks, gross non-performing assets are reported gross of provisions net of cumulative write-offs in its financial results.

We classify our loans in accordance with the Reserve Bank of India guidelines. Provisions and contingencies (excluding provision for tax) increased from Rs. 17.16 billion in the six months ended September 30, 2008 to Rs. 23.95 billion in the six months ended September 30, 2009 primarily due to a higher level of specific provisioning on non-performing retail loans and restructured corporate loans. The increase in retail non-performing loans was on account of seasoning of the secured loan portfolio, relatively higher losses on the unsecured portion of the portfolio and the adverse macro-economic environment.

During the six months ended September 30, 2009, we made provisions of Rs. 2.04 billion on corporate loans as required by the Reserve Bank of India guidelines on restructured advances. The deterioration in the global economic environment during fiscal 2009, in particular following the bankruptcy of Lehman Brothers in September 2008, adversely impacted the operations of several Indian companies. Indian businesses were impacted by the lack of access to financing/refinancing from global debt capital markets,

losses on existing inventories due to the sharp decline in commodity prices, reduction in demand for and prices of output and reduction in cash accruals and profitability. There was some stress experienced by certain borrowers in real estate and developer financing, auto ancillaries, textiles and retail mortgages. This led to additional restructuring of loans in the Indian banking system, including us.

We hold a cumulative standard asset provision of Rs. 14.36 billion at September 30, 2009 against a requirement of Rs. 7.39 billion at September 30, 2009 as per the category-wise general provision requirement currently applicable to various categories of loans under the Reserve Bank of India guidelines. The excess provision has not been reversed in accordance with the Reserve Bank of India guidelines.

Tax Expense

The income tax expense (including wealth tax) increased from Rs. 5.41 billion in the six months ended September 30, 2008 to Rs. 6.51 billion in the six months ended September 30, 2009 reflecting an effective tax rate of 25.3% in the six months ended September 30, 2009 as compared to 23.7% in the six months ended September 30, 2008. The tax expense for six months ended September 30, 2009 and six months ended September 30, 2008 was based on the estimated tax liability for the full fiscal year in line with applicable guidelines under Indian GAAP. The Finance Act (No.2) Act, 2009 abolished the levy of fringe benefit tax with effect from fiscal 2010.

Financial Condition

Our total assets decreased by 4.8% from Rs. 3,849.71 billion at September 30, 2008 to Rs. 3,663.74 billion at September 30, 2009. Net advances decreased by 14.0% from Rs. 2,219.85 billion at September 30, 2008 to Rs. 1,908.60 billion at September 30, 2009 primarily due to a decrease in retail advances. Net retail advances (including dealer financing and developer financing portfolios of Rs. 7.17 billion and Rs. 20.23 billion, respectively at September 30, 2009) decreased by 29.4% from Rs. 1,224.67 billion at September 30, 2008 to Rs. 864.11 billion at September 30, 2009. Retail advances constituted 45.3% of our total net advances at September 30, 2009. Net advances of overseas branches (including our offshore banking unit) decreased in rupee terms by 12.1% from Rs. 577.42 billion at September 30, 2008 to Rs. 507.80 billion at September 30, 2009. Total investments at September 30, 2009 increased by 23.5% from Rs. 971.47 billion at September 30, 2008 to Rs. 1,199.65 billion at September 30, 2009 primarily due to an increase in investments in government securities of 23.4% from Rs. 630.80 billion at September 30, 2008 to Rs. 778.44 billion at September 30, 2009. We have a trading portfolio in various credit derivatives instruments including credit default swaps (CDSs), credit linked notes (CLNs) and collateralized debt obligations (CDOs). At September 30, 2009, we had a gross portfolio of funded credit derivatives of Rs. 17.46 billion and non-funded credit derivatives of Rs. 36.62 billion as compared to a gross portfolio funded credit derivatives of Rs. 15.73 billion and non-funded credit derivatives of Rs. 37.89 billion at September 30, 2008. Our entire exposure in these credit derivatives at September 30, 2009 is to underlying entities which are India-linked.

Our equity share capital and reserves increased from Rs. 486.45 billion at September 30, 2008 to Rs. 512.59 billion at September 30, 2009 primarily due to accretion to reserves out of profits. Total deposits decreased by 11.5% from Rs. 2,234.02 billion at

September 30, 2008 to Rs. 1,978.32 billion at September 30, 2009 primarily due to our conscious strategy of reducing wholesale term deposits. Term deposits decreased from Rs. 1,564.87 billion at September 30, 2008 to Rs. 1,249.02 billion at September 30, 2009. Our savings account deposits increased from Rs. 431.74 billion at September 30, 2008 to Rs. 493.18 billion at September 30, 2009 while current account deposits decreased from Rs. 237.40 billion at September 30, 2008 to Rs. 236.12 billion at September 30, 2009. Borrowings (including subordinated debt) increased from Rs. 948.49 billion at September 30, 2008 to Rs. 997.73 billion at September 30, 2009 primarily on account of an increase in subordinated debt from Rs. 226.70 billion at September 30, 2008 to Rs. 275.49 billion at September 30, 2009 and an increase in short-term collateralized borrowing and lending obligations.

Cash and cash equivalent decreased by 24.1% from Rs. 356.13 billion at September 30, 2008 to Rs. 292.67 billion at September 30, 2009. This decrease was primarily due to net cash outflow from financing and operating activities offset, in part by net cash inflow from investment activities.

Cash outflow from operating activities decreased from an outflow of Rs. 68.73 billion in the six months ended September 30, 2008 to an outflow of Rs. 25.61 billion in the six months ended September 30, 2009 primarily due to increase in net inflows from advances from Rs. 18.81 billion during the six months ended September 30, 2008 to Rs. 250.27 billion during the six months ended September 30, 2009, increase in net inflows from borrowings from Rs. 27.16 billion during the six months ended September 30, 2008 to Rs. 76.37 billion during the six months ended September 30, 2009, increase in net inflows from other assets and other liabilities (including provisions) which changed from an outflow of Rs. 78.35 billion during the six months ended September 30, 2008 to an inflow of Rs. 19.78 billion during the six months ended September 30, 2009, offset in part, by increase in net outflows on investments which changed from a net inflow of Rs. 135.58 billion during the six months ended September 30, 2008 to a net outflow of Rs. 211.42 billion during the six months ended September 30, 2009.

Cash flow from investing activities increased from net cash outflow of Rs. 2.55 billion in the six months ended September 30, 2008 to net cash inflow of Rs. 41.67 billion in the six months ended September 30, 2009 primarily due to increase in net inflows from held to maturity securities from Rs. 21.95 billion for the six months ended September 30, 2008 to Rs. 42.43 billion for the six months ended September 30, 2009, and decrease in net outflows on investments in subsidiaries and/or joint ventures from Rs. 20.88 billion for the six months ended September 30, 2008 to Rs. 3.34 billion for the six months ended September 30, 2009.

Cash flow from financing activities decreased from net cash inflow of Rs. 43.11 billion in the six months ended September 30, 2008 to net cash outflow of Rs. 21.02 billion in the six months ended September 30, 2009 primarily due to net outflows on bonds (including subordinated debt) which changed from a net inflow of Rs. 56.40 billion for the six months ended September 30, 2008 to a net outflow of Rs. 7.42 billion for the six months ended September 30, 2009.

Indian Economy and Banking Sector

Since the last ASR pertaining to fiscal 2009, filed on September 30, 2009 there have been following changes in the Indian economy and the banking sector.

In the second quarter of fiscal 2010, the GDP growth rate improved to 7.9% compared to 6.1% in the first quarter of fiscal 2010. The growth during the quarter was driven by a 9.0% increase in industry sector and 9.0% increase in the services sector. The index of industrial production continued to record sharper increases even during the second quarter of fiscal 2010 touching growth rates of 6.8% in July 2009 and 9.1% in September 2009. The agriculture sector with a growth of 0.9% in the second quarter of fiscal 2010 was, however, impacted by weak and erratic monsoons thus adding upward pressure on food prices. Further, it is expected that the growth in the agricultural sector during the third and fourth quarters of fiscal 2010 will be adversely impacted by the below average monsoon rainfall. The annual rate of inflation, based on monthly wholesale price index stood at 4.8% for the month of November 2009. The increase in inflation was primarily due to an increase in the prices of food articles with food articles inflation reaching 19.9% for the week ending December 5, 2009.

The equity markets appreciated significantly during fiscal 2010 with the benchmark index BSE SENSEX increasing by 74.3% between April 2009 and November 2009. Foreign institutional investor investments revived with net inflows of US\$ 14.9 billion during April-October 2009 compared to net outflows in fiscal 2009. The yield on the benchmark 10-year Government of India securities was 7.26% at November 30, 2009 compared to 7.01% at year-end fiscal 2009. Credit growth continued to remain moderate. Non-food credit grew by 11.0% on a year-on-year basis at December 4, 2009 compared to 17.5% at year-end fiscal 2009 and 22.3% at year-end fiscal 2008. Deposits of the banking system grew by 18.3% on a year-on-year basis at December 4, 2009 compared to 22.2% at year-end fiscal 2009. In its quarterly review of monetary policy in October 2009, the Reserve Bank of India increased the statutory liquidity ratio to 25.0% and withdrew certain liquidity facilities instituted following the global financial crisis. The Reserve Bank of India also directed banks to increase their total provisioning coverage ratio, including floating provisioning to 70% by September 30, 2010.

IV.

STATEMENT OF FACILITIES

1. State of Major Facilities

There has been no material change since last ASR filed on September 30, 2009 for the fiscal 2009.

2. Plan for Installation, Retirement, etc. of Facilities

We are in the process of implementing 580 branch licenses received from the Reserve Bank of India which would expand our branch network to about 2,000 branches.

Statement of Directors and Officers

The Bank's non-executive director, Mr. T. S. Vijayan has resigned with effect from November 24, 2009.

VI.

FINANCIAL CONDITION

The original English financial statements of ICICI Bank Limited (the “Bank”) for the six-month period ended September 30, 2009 presented in this document are the same as included in the Form 6-K filed with the U.S. Securities and Exchange Commission on October 30, 2009, and are prepared in accordance with accounting principles generally accepted in India (“Indian GAAP”).

This document includes the Japanese translation of the aforementioned English interim financial statements pursuant to the provision under item 2 of Article 76 of the Regulations Regarding Terminology, Format and Method of Preparation of Interim Financial Statements, etc. (Ministry of Finance Ordinance No. 38 of 1977).

These financial statements of the Bank were summary financial statements and extracted from the complete set of interim financial statements. The complete set of interim financial statements for the six-month period ended September 30, 2009 and 2008 were audited by B S R & Co., Chartered Accountants. Since the complete set of the audited financial statements were not filed with the U.S. Securities and Exchange Commission, the same have not been included in this document.

The financial statements of the Bank are presented in Indian rupees. In preparation of Japanese translation, only key amounts were translated into Japanese yen solely for the convenience of the reader at the rate of Rs.1=¥2.09 which was the telegraphic transfer customer selling exchange rate of The Bank of Tokyo Mitsubishi UFJ, Ltd. as of December 4, 2009.

“Major differences between United States and Japanese Accounting Principles and Practices” and “Major differences between Indian and Japanese Accounting Principles and Practices” are included at the end of this section.

2. Other Information

(1) Legal and Regulatory Proceedings

At December 15, 2009, there were 44 litigations each involving a claim of Rs. 10.0 million and more against us, in the aggregate amount of approximately Rs. 90.50 billion (to the extent quantifiable and including amounts claimed jointly and severally from us and other parties). At December 15, 2009, 263 litigations were pending against our directors in an aggregate amount of approximately Rs. 222.7 million (to the extent quantifiable). The following are the litigations where amounts claimed from us are Rs. 1.00 billion or higher:

We filed a recovery application against Mardia Chemicals Limited and its guarantors before the Debt Recovery Tribunal, Mumbai for recovery of Rs. 1.40 billion. In response, Mardia Chemicals Limited filed a counterclaim of Rs. 56.30 billion against us. We have filed an affidavit in this matter for rejection of the counterclaim. Meanwhile, Mardia Chemicals Limited was ordered to be liquidated. We have filed a motion for dismissal of the counterclaim pursuant to an order of the City Civil Court, Ahmedabad rejecting a suit filed by Mardia Chemicals against the directors of ICICI Bank arising out of the same cause of action. This matter is adjourned to February 1, 2010.

The promoters of Mardia Chemicals Limited, in their capacity as guarantors, filed a suit against us before the City Civil Court at Ahmedabad, for damages amounting to Rs. 20.80 billion. We filed applications for dismissal of the suit and have submitted that the suit should be tried before the Debt Recovery Tribunal. The Court by its order dated January 10, 2008, directed the guarantors of Mardia Chemicals Limited to approach the Debt Recovery Tribunal, Mumbai following which the promoters of

Mardia Chemicals Limited have filed an appeal before the High Court of Gujarat at Ahmedabad. The Hon'ble High Court by its order dated December 1, 2008 has confirmed the order of the Civil Court and reiterated that this suit is in the nature of a counter claim and ought to be tried along with the Original Application filed by the Bank before DRT, Mumbai. Consequently the Guarantors suit has now been filed before DRT Mumbai as a counter claim to the O.A. filed by the Bank against the Guarantors (977 of 1999). This matter is adjourned to February 1, 2010.

In 2002, we filed a suit before the Debt Recovery Tribunal, Ahmedabad against Gujarat Telephone Cables Limited for recovery of term loans, debentures and working capital finance provided by us. We sold our exposure to Asset Reconstruction Company (India) Limited in 2004. The borrower has filed a suit in the Civil Court claiming damages of Rs. 10.00 billion jointly and severally from State Bank of India, Bank of Baroda, United Western Bank, Axis Bank, Bank of India, Asset Reconstruction Company (India) Limited and us. We have filed an application for rejection of the plaint, to which Gujarat Telephone Cables Limited has filed its reply. ICICI Bank has filed its rejoinder. The company in the meanwhile has gone into liquidation and the notice has been served to the OL. The matter is now kept for hearing on January 6, 2010.

Esslon Synthetics Limited has filed counter claim of Rs. 1.00 billion against erstwhile ICICI Limited and others in the suit for recovery (Civil Suit No. 107 of 1999) filed by us for an amount of Rs. 169.0 million before the Debt Recovery Tribunal (DRT), Delhi. In the Company Petition No. 4/1996 at the High Court of Allahabad, the OL attached to the Allahabad High Court has sold the assets of the company for an amount of Rs. 60.6 million in November 2002. We have filed the claim with the OL attached to the Allahabad High Court for an amount of Rs. 88.2 million. The OL is in the process of adjudicating the amount and we are following up with the OL for the same. In the counter claim, it has been alleged by the guarantor that lenders including ICICI Bank had coerced him into signing an agreement between LML Limited, Esslon Synthetics and the lenders on account of which he suffered, among other things, loss of business. The guarantor has also filed an interim application on the ground that certain documents have not been exhibited to which ICICI has filed its reply stating that the required documents are neither relevant nor necessary for adjudicating the dispute between the parties. The matter is coming up for hearing on January 28, 2010. We are in touch with the company for settling this issue and withdrawing the counter claim.

Management believes, based on consultation with counsel, that the claims and counter-claims filed against us in the above legal proceedings are frivolous and untenable and their ultimate resolution will not have a material adverse effect on our results of operations, financial condition or our liquidity. Based on a review of other litigations with legal counsel, management also believes that the outcome of such other matters will also not have a material adverse effect on our financial position, results of operations or cash flows.

In addition, we have experienced rapid international expansion into banking in multiple jurisdictions which exposes us to a new variety of regulatory and business challenges and risks, including cross-cultural risk, and which increased the complexity of our risks in a number of areas including currency risks, interest rate risks, compliance risk, regulatory risk, reputation risk and operational risk. As a result of this

rapid growth and increased complexity, we or our employees may be subject to regulatory investigations or enforcement proceedings in multiple jurisdictions in a variety of contexts. Despite our best efforts at regulatory compliance and internal controls, we, or our employees, may from time to time, and as is common in the financial services industry, be the subject of confidential examinations or investigations that might, or might not, lead to proceedings against us or our employees. In any such situation it would be our policy to conduct an internal investigation, co-operate with the regulatory authorities and, where appropriate, suspend or discipline employees, including termination of their services.

Pursuant to charges filed against us by the Securities and Futures Commission of Hong Kong for carrying on the business of dealing in securities without having a license to do so, the Eastern Magistrate's Court, Hong Kong, fined us a sum of HK\$ 40,000 and ordered us to reimburse prosecution costs of HK\$ 54,860. The contravention was limited to a small component of our business in Hong Kong and we have taken action against the concerned employees, as well as strengthened the compliance and control functions at the Hong Kong branch.

We cannot predict the timing or form of any future regulatory or law enforcement initiatives, which we note are increasingly common for international banks, but we would expect to co-operate with any such regulatory investigation or proceeding.

Taxation proceedings

At September 30, 2009, we had been assessed an aggregate of Rs. 32.36 billion in excess of the provision made in the accounts mainly pertaining to income tax, and sales tax/value added tax demands by the government's tax authorities for past years. We have appealed each of these tax demands which are pending final disposal. Based on consultation with counsel and favorable judicial or appellate authority decisions in our own or other cases as set out below, management believes that the tax authorities are not likely to be able to substantiate their tax assessment and accordingly we have not provided for these tax demands at September 30, 2009.

We have received favorable decisions from the appellate authorities with respect to Rs. 4.18 billion of the assessment. Based on available information, the tax authorities have appealed these decisions to higher appellate authorities and the same are pending adjudication.

In our appeal of assessment of sales tax/value added tax aggregating to Rs. 839.0 million, we are relying on a favorable decision of the Supreme Court of India in respect of a writ petition filed by us and the facts of the case.

In our appeal of assessments of income tax, interest tax and wealth tax aggregating to Rs. 27.34 billion, we are relying on favorable precedent decisions of the appellate court and expert opinions. The major issues which are mainly industry wide disputes are detailed below:-

- Bad Debts: Rs. 13.37 billion relates to bad debts written off. Bad debts written off as irrecoverable have been disallowed by the tax authorities on the ground

that we have not established that the debts written off during the year are irrecoverable. In recent judgments in our own and other cases, the appellate authorities have allowed the claim of bad debts on the ground that after the amendment to Section 36(1) (vii) of the Income Tax Act, 1961 with effect from April 1, 1989, it is not obligatory on the part of the assessee to prove that the debts written-off are bad and it shall suffice if the assessee writes off its bad debts as irrecoverable in the accounts during the said year.

- Depreciation on leased assets: Rs. 4.11 billion relates to the disallowance of depreciation claim on leased assets. In respect of depreciation claimed by us for fiscal 1993 and fiscal 1994 on two sale and lease back transactions, the Income Tax Appellate Tribunal, Mumbai held that these transactions were tax planning tools and no depreciation was allowable. As the Income Tax Appellate Tribunal's decision is based on the facts of two specific transactions, we believe that the Income Tax Appellate Tribunal's decision will not have an adverse tax impact on other sale and lease back transactions entered into by us. In subsequent judgments in our own and other cases, the appellate authorities have held that finance lease transactions are genuine and have allowed depreciation on finance leases including sale and lease back transactions. Moreover, the lease agreements provide for variation in the lease rental to offset any loss of depreciation benefit to us.
- Penalty: Penalty amounting to Rs. 3.70 billion has been levied under Section 271(1) (c) by the tax authorities on contentious additions involving judicial interpretation. According to the Bank, there is no concealment of income. In recent judgments in our own and other cases, the appellate authorities have deleted penalties on debatable issues which cannot be said to be in the nature of concealment of income.
 - Allocation of expenses to earn dividend income Rs. 2.83 billion: The disputed issue involves computation of exemption under Section 10(33), 10(34) and deduction under Section 80M on account of dividend income viz. whether interest expenses can be attributed to earning exempt dividend income. According to the Bank, no interest can be allocated as there are no earmarked borrowings towards investment in shares and its interest free funds are sufficient to cover investments in the underlying shares. In recent judgment in another matter, the Bombay High Court has laid down the principle that if there are sufficient interests free funds available to an assessee to meet its investments it can be presumed that the investments were from the interest free funds available.
- Taxability under Section 41(4A) of amounts withdrawn from Special Reserve created upto Assessment Year 1997-98: Rs. 1.97 billion: Erstwhile ICICI Limited had maintained two special reserve accounts, "Special Reserve created upto Assessment Year 1997-98" and "Special Reserve created and maintained from Assessment Year 1998-99". Withdrawal has been made from the "Special Reserve created upto Assessment Year 1997-98" which was taxed on withdrawal. The bank has disputed the levy of tax as the special reserve created through this account was not required to be maintained. In recent judgment in our own case, the appellate authorities have granted relief in respect of withdrawal of special reserve created up to Assessment Year 1997-98.

Accordingly, we have not provided for these tax demands but have disclosed them as a contingent liability in the financial statements.

(2)

Subsequent Events

Corporate Social Responsibility Committee

At the meeting of the Board of Directors on October 30, 2009, a Corporate Social Responsibility Committee comprising three directors – Mr. M. K. Sharma, Dr. Anup K. Pujari and Ms. Chanda D. Kochhar was constituted. Mr. M. K. Sharma, an independent director, is the Chairman of the Committee.

The functions of the Committee include review of our corporate social responsibility initiatives, making recommendations to the Board with respect to the corporate social responsibility initiatives, policies and practices and review and implementation of other matters related to corporate social responsibility initiatives as recommended by the Reserve Bank of India or any other body.

3. Major Differences between United States and Japanese Accounting Principles and Practices

The financial statements of the Bank for the year ended March 31, 2009 include notes describing the differences between accounting principles generally accepted in India and those in the United States of America (“US GAAP”) and disclose net income and stockholders’ equity under US GAAP. Summarized hereunder are significant differences between the accounting policies under US GAAP and Japanese accounting principles.

(1) Principles of consolidation

The Bank consolidates entities in which it holds, directly or indirectly, more than 50% of the voting rights or where it exercises control. The Bank also consolidates entities deemed to be variable interest entities where the Bank is determined to be the primary beneficiary under FASB Interpretation No. 46R, “Consolidation of Variable Interest Entities”.

Under Japanese accounting principles, a concept of variable interest entities is not used to determine the scope of consolidation.

(2)

Venture capital investments

The Bank’s venture capital funds carry their investments at fair value, with changes in fair value on venture capital investments recognized as gain/loss in the profit and loss account.

Under Japanese accounting principles, there is no specific accounting standard for venture capital investments, and accounting for such investments should follow general accounting standards for investments in securities.

(3)

Goodwill

The Bank does not amortize goodwill but instead tests goodwill for impairment at least annually.

Under Japanese accounting principles, goodwill arising from business combinations is required to be amortized over a period not exceeding 20 years. Also, goodwill is subject to an impairment test.

(4)

Share-based compensation

The Bank adopted the modified prospective method in which compensation costs is recognized from the year ended March 31, 2007 based on the requirements of Statement No. 123R, for all the share-based payments granted after April 1, 2006 and based on the requirements of Statement No. 123 for all awards granted to employees prior to April 1, 2006 that remain unvested. Previously, the Bank was using the intrinsic value method to account for its employee stock-based compensation plans. 123R requires all share-based payments to employees, including grants of employee stock options to be recognized in the income statement based on their fair values.

Under Japanese accounting principles, "Accounting Standard for Stock Options" was issued in December 2005 for the accounting for stock-based compensation. This accounting standard applies to share options granted to employees, other share options and shares within the scope of the standard on and after the date on which the Corporation Law takes effect (May 1, 2006). Under the standard, the intrinsic value based method is not used and the compensation expenses are accounted for based on the fair value at the grant date.

(5)

Loan origination fees

Under US GAAP, loan origination fees (net of costs) are amortized over the period of the loans as an adjustment to the yield on the loan.

Under Japanese accounting principles, there is no specific accounting standard for amortization of loan origination fees.

(6)

Hedge accounting

The Bank has designated certain derivatives as fair value hedges. Under fair value hedge accounting, changes in fair value of derivatives are recognized in the profit and loss account along with the changes in fair value of hedged items. The Bank has also designated certain derivatives as hedges of its net investments in foreign operations, under which the changes in the fair value of derivatives are directly recognised in equity, net of tax.

Under Japanese accounting principles, gains and losses arising from changes in fair value of hedging instruments are directly recognized in equity, net of tax effect.

(7) Fair value measurements

The Bank adopted Statement No. 157 “Fair Value Measurements” issued by the Financial Accounting Standards Board (FASB) in September 2006, which establishes a single authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures for instruments carried at fair value.

Under Japanese accounting principles, “Practical Guidelines Concerning Accounting for Financial Instruments” provides guidance on fair value and “Practical Treatment for Measuring Fair Value of Financial Assets” has also been issued, but no specific standards equivalent to US GAAP for fair value measurement exist.

4. Major Differences between Indian and Japanese Accounting Principles and Practices

The financial statements of the Bank are prepared in accordance with generally accepted accounting principles in India. Summarized hereunder are significant differences between the accounting policies adopted by the Bank and Japanese accounting principles.

(1) Principles of consolidation

The Bank consolidates entities in which it holds, directly or indirectly, more than 50% of the voting rights or where it exercises control. Assets, liabilities, income and expenditure of the jointly controlled entities are consolidated using the proportionate consolidation method. Under the proportionate consolidation method, the Bank’s share of each of the assets, liabilities, income and expenses is reported as separate line items in the consolidated financial statements.

Under Japanese accounting principles, there is no concept of proportionate consolidation.

(2) Stock issue costs

The expenses of the stock issue have been charged to the share premium account.

Under Japanese accounting principles, stock issue costs are either charged to expense as incurred or deferred to be amortized over three years.

(3) Sale of loans

The Bank transfers commercial and consumer loans through securitization transactions. The transferred loans are de-recognized and gains / losses are recorded net of allowance for credit losses only if the Bank surrenders the rights to benefits specified in the loan contract. Net income arising from sale of loan assets through direct assignment without recourse obligation, is recognized at the time of sale. With effect from February 1, 2006, net income arising from securitization of loan assets is amortized over the life of securities issued or to be issued by the special purpose vehicle/special purpose entity to which the assets are sold.

Under Japanese accounting principles, the transfer of loans are recognized as sales and the resulting gains are recognized if derecognition requirements for financial assets under the financial component approach are met.

(4) Share-based compensation

The Bank uses the intrinsic value based method to account for its stock-based employee's compensation plans. Compensation cost is measured by the excess, if any, of the fair market price of the underlying stock over the exercise price.

Under Japanese accounting principles, the intrinsic value based method is not used and the compensation expenses are accounted for based on the fair value at the grant date.

(5) Retirement benefit

In respect of gratuity benefit and other benefit schemes, where the Bank makes payments for retirement benefits out of its own funds, provisions are made in the profit and loss account based on actuarial valuation.

Under Japanese accounting principles, the defined benefit plan is accounted for based on the actuarial calculations, with actuarial gains or losses being amortized over a certain period of years within the average remaining service period.

(6) Mark-to-market of securities

Net unrealized gains on investments by category are ignored, except for the venture capital investments wherein the unrealized gains and losses are transferred to the Reserves and Surplus.

Under Japanese accounting principles, unrealized gains and losses on trading securities are recognized in the profit and loss account and those on other securities are recorded in equity. Additionally, under Japanese accounting principles, there is no specific accounting standard for venture capital investments, and accounting for such investments should follow general accounting standards for investments in securities.

(7) Acquisition costs of securities

Costs including brokerage and commission pertaining to investments, paid at the time of acquisition, are charged to the profit and loss account.

Under Japanese accounting principles, such costs are included in acquisition costs of securities.

(8) Profit on sale of held-to-maturities securities

Profit on sale of investments in the 'Held to Maturity' category is credited to the profit and loss account and is thereafter appropriated (net of applicable taxes and statutory reserve requirements) to capital reserve.

Under Japanese accounting principles, such profit is recognized in the profit and loss account upon sale. There is no specific standard concerning transfer of such profit to reserve.

(9) Provisions for loan losses

In case of corporate loans, provisions are made for sub-standard and doubtful assets at rates prescribed by the Reserve Bank of India (RBI). Subject to the minimum provisioning levels prescribed by RBI, provision on homogeneous retail loans/receivables is assessed at a portfolio level, on the basis of days past due. For restructured/rescheduled assets, provision is made by the Bank in accordance with the guidelines issued by RBI, which require a provision equal to the diminution in the fair value of the loan computed on a present value basis to be made at the time of restructuring.

Under Japanese accounting principles, provision for loan losses in banks is established based on self-assessment and the historical loss ratio and outstanding balance of each asset category. Alternatively, it is also permitted to be calculated based on the difference between the discounted future cash flows using the original effective interest rate and the outstanding balance. The regulatory agency does not prescribe certain rate to be used for calculation of provisions in banks.

(10) Hedge accounting

Under Indian GAAP, the swap contracts entered to hedge on-balance sheet assets and liabilities are structured in such a way that they bear an opposite and offsetting impact with the underlying on-balance sheet items. The impact of such derivative instruments is correlated with the movement of underlying assets and accounted pursuant to the principles of hedge accounting. Hedged swaps/options are accounted for on an accrual basis.

Under Japanese accounting principles, all derivatives are marked to market with unrealized gains and losses being deferred to the extent that the requirements for hedge accounting are met.

(11) Impairment of fixed assets

Fixed assets and certain intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset with future net discounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment is recognized by debiting the profit and loss account and is measured as the amount by which the carrying amount of the assets exceeds the fair value of the assets.

Under Japanese accounting principles, undiscounted cash flows are used for assessment of impairment.

(12)

Deferred tax

The Bank does not recognize deferred taxes on undistributed earnings of subsidiaries and affiliates.

Under Japanese accounting principles, deferred tax is recognized based on the schedule for reversal of temporary difference as a whole. Deferred tax liabilities are recognized on part of undistributed profits of subsidiaries that are expected to be taxed upon payment as dividends.

(13)

Dividends

Dividends on shares and the related dividend tax are recognized in the year to which it relates to.

Under Japanese accounting principles, dividends are recognized upon approval in the annual general meeting.
