GENERAL INFORMATION

Who May Vote

Shareholders of PDC, as recorded in the Company's stock register on April 7, 2010, may vote at the meeting. The outstanding voting securities of the Company as of April 7, 2010, consisted of 19,253,526 shares of common stock. Each share is entitled to one vote on each matter considered at the meeting.

How Proxies Work

The Board is asking for your proxy. Giving the Board your proxy means that you authorize the Board to vote your shares at the meeting in the manner you direct. You may vote for any or all Director Nominees, or you may withhold your vote from any or all of the Director Nominees. You may also vote for or against the other proposals, or abstain from voting. Cumulative voting is not permitted by the Company's By-Laws in the election of Directors.

If your shares are held in your name, you can vote by completing, signing and dating your proxy card and returning it in the enclosed envelope.

If you give the Board your signed proxy but do not specify how to vote, your shares will be voted in favor of the Director Nominees named on the proxy, in favor of approving the 2010 Long-Term Equity Compensation Plan, and in favor of the ratification of PricewaterhouseCoopers LLP as the Company's independent registered accounting firm for the year ending December 31, 2010.

If you hold shares through someone else, such as a stockbroker, you will receive material from that firm asking how you want to vote. Check the voting form used by that firm to see what voting options you have available and to determine what procedures you must follow.

Revoking a Proxy

You may revoke your proxy before it is voted by:

- Submitting a new signed proxy with a later date;
- Notifying PDC's Corporate Secretary in writing before the meeting that you wish to revoke your proxy; or
- Appearing at the meeting, notifying the Inspector of the Election that you wish to revoke your proxy, and voting in person at the meeting. Merely attending the meeting will not result in your revoking your proxy.

If you hold your shares through someone else, such as a stockbroker, you will need to follow the directions they give you to revoke a proxy or otherwise vote at the meeting.

Quorum

In order to carry on the business of the meeting, there must be a quorum. This means that at least a majority of the outstanding shares eligible to vote must be represented at the meeting, either by proxy or in person. Treasury shares, which are shares owned by PDC itself, are not voted and do not count for this purpose.

Votes Needed

The Director Nominees who receive the most votes will be elected to fill the available seats on the Board. There is no provision in the Company's By-Laws which requires Director Nominees to receive a majority of the votes cast to be elected. Approval of each of the other proposals requires the favorable vote of a majority of the votes cast. Only votes for or against a proposal count. Abstentions and broker non-votes will count for quorum purposes but not for voting purposes. Broker non-votes occur when a

Table of Contents

broker returns a proxy but does not have authority from the owner of the stock to vote on a particular proposal.

Attending in Person

Only shareholders or their proxy holders and PDC's guests may attend the annual meeting. For safety and security reasons, no cameras, audio or video recording equipment, large bags, briefcases or packages will be permitted in the meeting. In addition, each shareholder and guest may be asked to present valid, government-issued picture identification, such as a driver's license, before being admitted to the meeting.

If your shares are held in the name of your broker, bank, or other nominee, you must bring to the meeting an account statement or letter from the nominee indicating that you beneficially owned the shares on April 7, 2010, the record date for voting. Shareholders who do not present such information at the meeting will be admitted upon verification of ownership at the admissions counter.

Conduct of the Meeting

The Chairman has broad authority to conduct the annual meeting in an orderly and timely manner. This authority includes establishing rules for shareholders who wish to address the meeting. The Chairman may also exercise broad discretion in recognizing shareholders who wish to speak and in determining the extent of discussion on each item of business. In light of the need to conclude the meeting within a reasonable period of time, there can be no assurance that every shareholder who wishes to speak on an item of business will be able to do so. The Chairman may also rely on applicable law regarding disruptions or disorderly conduct to ensure that the meeting is conducted in a manner that is fair to all shareholders.

PROPOSAL 2 APPROVE 2010 LONG-TERM EQUITY COMPENSATION PLAN

(ITEM 2 ON THE PROXY)

Purpose of this Proposal

The purpose of this proposal is to seek shareholder approval of the Company's 2010 Long-Term Equity Compensation Plan, effective April 1, 2010. We refer to this plan as the 2010 Plan. The 2010 Plan authorizes the issuance to employees and directors of up to 1,400,000 total shares of equity, in various forms, including but not limited to options, restricted stock and stock appreciation rights.

The Board of Directors proposes that you approve the 2010 Plan. The following is a substantive summary of the material provisions of the 2010 Plan. This summary is qualified in its entirety by reference to the full text of the 2010 Plan which appears as Exhibit A to this Proxy Statement.

Description of the 2010 Plan

In submitting the 2010 Plan to the shareholders for their consideration and approval, the Board is proposing to continue its program of equity incentives to key employees of the Company (currently through the Company's 2004 Long-Term Equity Compensation Plan (the "2004 Plan")) and its program of equity incentives to the Company's non-employee Directors (currently through the 2005 Non-Employee Director Restricted Stock Plan (the "2005 Plan")). The Company's shareholders have previously considered and approved each of these earlier plans. As of April 20, 2010, the 2004 Plan currently has only 144 shares available for award and grant to key employees, while the 2005 Plan has only 27,144 shares available for award to non-employee Directors. In aggregate, there were 67,588 options and SARs outstanding as of April 20, 2010 with a weighted average exercise price of \$27.10 and a weighted average term of 9.34 years. Also, as of April 20, 2010 there were 455,349 full value awards outstanding under all plans. The Board has determined that it is advisable for the Company to authorize, subject to shareholder approval, additional shares for issuance to the Company's key employees and non-employee Directors in order to continue to further incentivize them in their management of the Company and to encourage them to own Company stock to further align their interests with those of the Company's shareholders. For ease of administration, the Board has determined further that it is advisable to continue these programs in one new plan, the 2010 Plan, instead of two new freestanding plans. In this regard, the Board has determined to allocate and reserve a total of 1,400,000 shares of the Company's common stock for future issuance, grant and award under the 2010 Plan. Awards may not be amended to reduce the exercise

price of outstanding options or SARs or cancel outstanding options or SARs in exchange for cash, other awards or options or SARs with an exercise price that is less than the exercise price of the original options or SARs without shareholder approval.

Table of Contents

The Board's Reasons for the 2010 Plan

The success of the Company depends, in large measure, upon its ability to recruit and retain key employees with outstanding ability and experience. The Board also believes there is a need to align shareholder and employee interests by encouraging employee ownership of Company stock and to motivate employees with compensation conditioned upon achievement of the Company's financial goals. Additionally, the Company's Board plays a key role in setting the direction of the Company and representing the shareholders' interests. Recent changes in rules and regulations governing public corporations and the general business environment have greatly increased the time and effort required of all directors of publicly traded companies, including the Company's non-employee Directors. The Board believes that it is necessary to (1) compensate its non-employee Directors in a manner that will help attract qualified candidates to serve as non-employee Directors, and (2) induce incumbent non-employee Directors to continue to serve if the Board desires that they remain on the Board. At the same time, the Board desires to provide a vehicle by which non-employee Directors can increase their stock ownership and proprietary interest in the Company and enhance their identification with the interests of the Company's shareholders through awards of shares of common stock.

In order to accomplish these objectives, the Board has adopted the 2010 Plan. The 2010 Plan is being presented to the shareholders for their approval as required by listing standards of the NASDAQ Stock Market. The affirmative vote of a majority of the shares of common stock cast at the annual meeting represented in person or by proxy and entitled to vote at the annual meeting is required for approval of the 2010 Plan.

Summary Description of the 2010 Plan

The following summary of the material terms of the 2010 Plan is qualified in its entirety by reference to the text of the 2010 Plan, which is attached as Exhibit A to this Proxy Statement. The 2010 Plan was adopted by the Board of Directors effective as of April 1, 2010, subject to your approval. The 2010 Plan requires the participant to enter into an award agreement at the time the Committee makes an award. The award agreement will describe the terms and conditions of the particular grant.

Administration

The 2010 Plan is administered by the Compensation Committee of the Board of Directors (the "Committee"). As permitted by law, the Committee may delegate its authority.

Eligibility

Officers, key salaried employees and Directors who are employees of the Company and its subsidiaries are eligible to participate in all forms of awards in the 2010 Plan. Approximately 159 employees of the Company and its subsidiaries are presently eligible to participate. However, because the 2010 Plan provides for broad discretion by the Committee in selecting participants and in making awards, the total number of persons who will participate and the respective benefits to be accorded to them cannot be determined at this time.

Directors who are not employees of the Company or its subsidiaries are eligible to participate in all forms of award in the 2010 Plan, except for incentive stock options, performance shares and performance units. Currently, seven non-employee Directors of the Company are eligible to participate. However, because the size of the Board could change or other non-employee Directors could be elected, the total number of persons who will be eligible to participate in the future and the respective benefits to be accorded to them likewise cannot be determined at this time.

Stock Available for Issuance Through the 2010 Plan

The 2010 Plan provides for a number of forms of stock-based compensation, as further discussed below. Up to 1,400,000 shares of the Company's common stock are authorized for issuance through the

Table of Contents

2010 Plan. Shares issued under the 2010 Plan may be either authorized but unissued shares, treasury shares, or any combination thereof. Provisions in the 2010 Plan permit the reuse or reissuance by the 2010 Plan of shares of common stock for numerous reasons including shares of common stock underlying canceled, expired, or forfeited awards of stock-based compensation and stock appreciation rights (SARs) paid out in the form of cash. On April 26, 2010, the closing price for a share of the Company's common stock on the NASDAQ Stock Market was \$26.21. Stock-based compensation will typically be awarded in consideration for the future performance of services to the Company.

Description of Awards Under the 2010 Plan

Awards to Company Employees. The Committee may award to eligible employees incentive and nonqualified stock options, SARs, restricted stock, restricted stock units, performance units and performance shares.

Awards to Non-Employee Directors. The Committee may award to non-employee Directors non-qualified stock options, SARs, restricted stock and restricted stock units.

Stock Options

The Committee has discretion to award incentive stock options (ISOs), which are intended to comply with Section 422 of the Internal Revenue Code (the Code), or nonqualified stock options (NQSOs), which are not intended to comply with Section 422 of the Code. The exercise price of an option may not be less than the fair market value of the underlying shares of common stock on the date of grant. If an award of stock options is intended to qualify as performance-based compensation under Section 162(m) of the Code, the maximum number of shares which may be subject to stock options granted in any calendar year to any one participant is 200,000. Options granted to employees under the 2010 Plan will expire at such times as the Committee determines at the time of the grant; provided, however, that no option will be exercisable later than ten years after the date of grant. Subject to the specific terms of the 2010 Plan, the Committee will have discretion to set such additional limitations on such grants as it deems appropriate; the award agreement will reflect these limitations.

Each option award agreement will set forth the extent to which the participant will have the right to exercise the option following termination of the participant's employment with the Company. The termination provisions will be determined within the discretion of the Committee, might not be uniform among all participants and might reflect distinctions based on the reasons for termination of employment.

Upon the exercise of an option granted under the 2010 Plan, the option price is payable in full to the Company, either: (a) in cash or its equivalent, (b) if permitted in the award agreement, by tendering shares having a fair market value at the time of exercise equal to the total option price (provided that such shares have been held by the optionee for at least six months prior to their tender) or (c) by any combination of the foregoing methods of payment. The Committee may also allow options granted under the 2010 Plan to be exercised by a cashless exercise through a broker, as permitted under Federal Reserve Board Regulation T, or any other means the Committee determines to be consistent with the 2010 Plan's purpose and applicable law, including by cashless exercise directly with the Company whereby the Company would withhold the proper number of shares which would have a fair market value on the date of exercise equal to the option exercise price.

SARs

The Committee may award SARs under the 2010 Plan upon such terms and conditions as it may establish. The Committee may award either freestanding SARs or SARs in tandem with stock options (a tandem SAR); a tandem SAR may not be granted to a non-employee Director unless the related option is a NQSO. The exercise price of a freestanding SAR will equal the fair market value of a share of common stock on the date of grant, whereas the

exercise price of a tandem SAR issued in connection with a stock option will equal the option price of the related option. If an award of SARs is intended to

Table of Contents

qualify as performance-based compensation under Section 162(m) of the Code, the maximum number of shares which may be subject to SARs awarded in any calendar year to any one participant is 200,000. At the discretion of the Committee, the payment upon SAR exercise may be in cash, in shares of Company common stock of equivalent value, or in some combination thereof.

If granted other than in tandem, the Committee will determine the number of shares of common stock covered by and the exercise period of the SAR. Upon exercise of a freestanding SAR, the participant will receive an amount equal to the excess of the fair market value of one share of common stock on the date of exercise over the grant price, multiplied by the number of shares of stock exercised under the SAR. In the case of a tandem SAR, the Committee may determine the exercise period of the SAR except that the exercise period may not exceed that of the related option. The participant may exercise the tandem SAR when the option is exercisable, surrender the option and receive on exercise an amount equal to the excess of the fair market value of one share of common stock on the date of exercise over the option purchase price, multiplied by the number of shares of stock covered by the surrendered option. Each award agreement will set forth the extent to which the participant will have the right to exercise the SAR following termination of the participant's employment with the Company. The termination provisions will be determined by the Committee in its sole discretion, need not be uniform among all participants and may reflect distinctions based on the reasons for termination of employment.

Restricted Stock

The Committee may impose restrictions and conditions as to awards of shares of restricted stock as it deems advisable. With certain exceptions, all awards of restricted stock that are based on the passage of time may vest no more rapidly than over a three year period from the date of award; awards of restricted stock that are based on the achievement of specific measures may vest no more rapidly than one year from the date of award.

Awards to Key Employees. The Committee may choose to award shares of restricted common stock under the 2010 Plan upon such terms and conditions as it may establish. If an award of restricted stock is intended to qualify as performance-based compensation under Section 162(m) of the Code, the maximum number of shares which may be granted in the form of restricted stock in any one calendar year to any one participant is 100,000. The award agreement will specify the period(s) of restriction, the number of shares of restricted stock granted, requirements that a participant pay a stipulated purchase price for each share, restrictions based upon the achievement of specific performance objectives and/or restrictions under applicable federal or state securities laws. Recipients may have the right to vote these shares from the date of grant, as determined by the Committee on the date of award. As determined by the Committee on the date of award, participants may receive dividends on their shares of restricted stock. Dividends accrued on restricted stock will be paid only if the restricted stock vests.

Each award agreement for restricted stock will set forth the extent to which the participant will have the right, if any, to retain unvested restricted stock following termination of the participant's employment with the Company. The Committee will in its sole discretion make these determinations; these provisions need not be uniform among all shares of restricted stock issued under the 2010 Plan and may reflect distinctions based on reasons for termination of employment. Except in the case of terminations by reason of death or disability, the vesting of restricted stock, which qualifies for performance-based compensation under Section 162(m) and which are held by covered employees under Section 162(m), will occur at the time it otherwise would have vested, but for the employment termination.

Awards to Non-Employee Directors. The Committee may award to non-employee Directors non-qualified stock options, SARs, restricted stock and restricted stock units. Restricted stock awards to non-employee Directors will be subject to the restrictions for a period (the Restricted Period) which will

Table of Contents

commence upon the date when the restricted stock is awarded and will end on the earliest of the first to occur of the following:

the retirement of the non-employee Director from the Board in compliance with the Board's retirement policy as then in effect;

the termination of the non-employee Director's service on the Board as a result of the non-employee Director's not being nominated for reelection by the Board;

the termination of the non-employee Director's service on the Board because of the non-employee Director's resignation or failure to stand for reelection with the consent of the Board (which means approval by at least 80% of the Directors voting, with the affected non-employee Director abstaining);

the termination of the non-employee Director's service on the Board because the non-employee Director, although nominated for reelection by the Board, is not reelected by the shareholders;

the termination of the non-employee Director's service on the Board because of (i) the non-employee Director's resignation at the request of the Nominating and Governance Committee of the Board, (ii) the non-employee Director's removal by action of the shareholders or by the Board, or (iii) a Change in Control of the Company, as defined in the 2010 Plan;

the termination of the non-employee Director's service on the Board because of disability or death; or

the vesting of the award.

As of the date specified by the Committee, each non-employee Director will be awarded that number of shares of restricted stock as determined by the Board, after consideration of the recommendations of the Committee. A non-employee Director who is first elected to the Board on a date subsequent to the date so specified will be awarded that number of shares of restricted stock as determined by the Board, after consideration of the recommendations of the Committee. The amount of the award for the upcoming plan year will be disclosed in the Company's proxy statement for the Company's annual meeting of shareholders. The 2010 Plan provides that non-employee Directors receiving restricted stock may have, subject to the provisions of the 2010 Plan, all of the rights of a shareholder with respect to the shares of restricted stock, including the right to vote the shares and receive cash dividends and other cash distributions thereon. Non-employee Directors receiving restricted stock units will have no voting rights during the restrictive period, but will be credited with an amount equal to the dividends paid on a share of common stock between the date of grant and the date the restricted stock unit is paid to the participant, if at all. If a non-employee Director ceases to be a member of the Board for any other reason, including removal or resignation for Cause, as defined in the 2010 Plan, the non-employee Director will forfeit to the Company all restricted stock awarded to him or her for which the Restricted Period has not ended.

Restricted Stock Units

The Committee may award restricted stock units (RSUs) to key employees and non-employee Directors upon such terms and conditions as the Committee determines. Each RSU will have a value equal to the fair market value of a share of the Company's common stock on the date of grant. The maximum aggregate award of RSUs to any one participant during any one fiscal year will be equal to the fair market value of 100,000 shares; provided, further, that the maximum aggregate award of restricted stock and RSUs for any one fiscal year will be coordinated so that in no event will any one participant be awarded more than the fair market value of 100,000 shares taking into account all such awards. In its discretion, the Committee may impose conditions and restrictions on RSUs, as specified in the

RSU award agreement, including restrictions based upon the achievement of specific performance goals and time-based restrictions on vesting following the attainment of the performance goals. As determined by the Committee at the time of the award, settlement of vested RSUs may be made in the form of cash,

Table of Contents

shares of Company stock, or a combination of cash and Company stock. Settlement of vested RSUs will be solely in a lump sum as soon as practicable after the vesting date. The amount of the settlement will equal the fair market value of the RSUs on the vesting date. Each RSU will be credited with an amount equal to the dividends paid on a share of Company stock between the date of award and the date the RSU is paid to the participant, if at all. Dividends will vest, if at all, upon the same terms and conditions governing the vesting of the RSU under the 2010 Plan. Payment of the dividend equivalent will be paid at the same time as payment of the RSU. The holders of RSUs will have no voting rights.

Performance Units/Performance Shares

The Committee has the discretion to award performance units and performance shares under the 2010 Plan upon such terms and conditions as it may establish. If an award of performance units or performance shares is intended to qualify as performance-based compensation under Section 162(m) of the Code, the maximum aggregate payout for awards of performance shares which may be granted in any one calendar year to any one participant will be the fair market value of 100,000 shares, whereas the maximum aggregate payout for awards of performance units which may be granted in any one calendar year to any one participant will be \$1,500,000. Performance units will have an initial value as determined by the Committee, whereas performance shares will have an initial value equal to one share of common stock on the date of award. The payout on the number and value of the performance units and performance shares will be a function of the extent to which corresponding performance goals are met. Payment of performance shares and performance units will be made in a single lump sum following the close of the applicable performance period. In its discretion, the Committee may pay earned performance shares or performance units in cash, in shares of Company stock or in a combination of cash and stock, which will have an aggregate fair market value equal to the value of the earned performance share or performance unit at the close of the applicable performance period. Participants will not be entitled to dividend or voting rights with respect to any performance shares or performance units earned but not yet distributed to a participant. Unless otherwise determined by the Committee, in the case of death or disability during the performance period, the participant, or his or her estate, will not be entitled to receive any payout of the performance shares or performance units. In the case of any other termination of the participant's employment during the performance period, all performance shares and performance units intended to qualify as performance-based compensation will be forfeited by the participant.

Performance Measures

The Committee may grant awards under the 2010 Plan to eligible employees and to non-employee Directors, subject to the attainment of certain specified performance measures. The number of performance-based awards granted to an officer, key employee or non-employee Director in any year is determined by the Committee in its sole discretion, subject to the maximum awards set forth in the 2010 Plan and as summarized above.

The value of each performance-based award will be determined solely upon the achievement of certain pre-established objective performance goals during each performance period. The duration of a performance period will be established by the Committee. The Committee will establish, in writing, the objective performance goals applicable to the valuation of performance-based awards granted in each performance period, the performance measures which will be used to determine the achievement of those performance goals, and any formulas or methods to be used to determine the value of the performance-based awards. Under the 2010 Plan, the Committee may utilize any of the following measures of performance: net income either before or after income taxes, including adjusted net income; share price; earnings per share (basic or diluted); total shareholder return; return on assets; return on equity; operating income; return on capital or investment; cash flow or adjusted cash flow from operations; economic value added or adjusted cash flow per share of Company stock (net income plus or minus change in operating assets and liabilities); debt level; cost reduction targets; equity ratios; capital efficiency (adjusted EBITDA divided by production and divided by average finding and development cost per unit); operating and general and administrative expense per

Mcf (the sum of total lease

12

operating expense, exploration general and administrative expense and corporate general and administrative expense divided by Mcfe (mcf equivalent for gas and oil)); average reserve replacement ratio (the sum of extensions and discoveries, revisions in previous estimates and purchase of reserves divided by the sum of the same); and production (actual production volume for a specified period of time); amount of the Company's oil and natural gas reserves; oil and gas reserve additions; and costs of finding for oil and gas reserves. The value of performance-based awards may be based on absolute measures or on a comparison of the Company's financial measures during a performance period to the financial measures of a group of competitors.

Following the end of a performance period, the Committee will determine the value of the performance-based awards granted for the period based on the attainment of the pre-established objective performance goals. The Committee will also have discretion to reduce (but not to increase) the value of a performance-based award. The Committee will certify, in writing, that the award is based on the degree of attainment of the pre-established objective performance goals. As soon as practicable thereafter, payment of the awards to participants will be made in the form of shares of Company common stock and/or cash, as applicable.

Conditions to Award Payments

With respect to participants who are employees, if such participant terminates employment with the Company for any reason other than death while any award under the 2010 Plan remains outstanding, that participant will receive such shares or benefit only if, during the entire period from his or her date of termination to the date of such receipt, the participant (i) consults and cooperates with the Company on matters under his or her supervision during the participant's employment, and (ii) refrains from engaging in any activity that is directly or indirectly in competition with any activity of the Company for a one-year period. If a participant fails to comply with this requirement, the participant's rights under any outstanding award will be forfeited unless otherwise waived by the Committee.

Adjustment and Amendments

The 2010 Plan provides for appropriate adjustments in the number of shares of Company stock subject to awards and available for future awards in the event of changes in outstanding common stock by reason of a merger, stock split, stock dividend, or certain other events.

The 2010 Plan may be modified or amended by the Board at any time and for any purpose which the Board deems appropriate. However, no such amendment may adversely affect any outstanding awards without the affected holder's consent. NASDAQ listing standards require shareholder approval for all material amendments of the 2010 Plan.

Change in Control

In the event of a change in control, as defined in the 2010 Plan, generally all options and SARs granted under the 2010 Plan will become immediately exercisable; restriction periods and other restrictions imposed on restricted stock and RSUs which are not performance-based will lapse; and the target payout opportunities attainable under all outstanding awards of performance-based restricted stock, RSUs, performance shares and performance units will be deemed to have been fully earned for the entire performance period as of the effective date of the change in control. The vesting of such awards will be accelerated as of the effective date of the change in control.

Nontransferability

No award under the 2010 Plan may be sold, assigned or otherwise transferred in any manner by a participant except by will or by the laws of descent and distribution; and any award will be exercisable during a participant's lifetime only by the participant or by the participant's guardian or legal representative. These limitations may be waived by the

Committee, subject to restrictions imposed under the SEC's short-swing trading rules and federal tax requirements relating to incentive stock options.

Table of Contents

Duration of the Plan

The 2010 Plan will remain in effect until all shares subject to the 2010 Plan have been purchased or acquired under the terms of the 2010 Plan, and all performance periods for performance-based awards granted under the 2010 Plan have been completed. However, in no event will an award be granted under the 2010 Plan on or after April 1, 2020.

Certain Federal Income Tax Consequences

The following description of the material federal income tax consequences of awards under the 2010 Plan is a general summary. State, local, and other taxes may also be imposed in connection with awards. This discussion is intended for the information of shareholders considering how to vote at the annual meeting and not as tax guidance to individuals who participate in the 2010 Plan.

Options

With respect to options which qualify as ISOs, a 2010 Plan participant will not recognize income for federal income tax purposes at the time options are granted or exercised, and the Company will not be entitled to a deduction with respect to the granting or exercise of such an option except in the limited circumstances discussed below. However, for purposes of the alternative minimum tax, in the year in which an ISO is exercised, the amount by which the fair market value of the shares acquired upon exercise exceeds the exercise price will be treated as an item of adjustment and included in the computation of the recipient's alternative minimum tax. If the participant disposes of shares acquired by exercise of an ISO either before the expiration of two years from the date the options are granted or within one year after the issuance of shares upon exercise of the ISO (the "holding periods"), the participant will recognize in the year of disposition: (a) ordinary income, to the extent the lesser of either (1) the fair market value of the shares on the date of option exercise or (2) the amount realized on disposition, exceeds the option price; and (b) capital gain, to the extent the amount realized on disposition exceeds the fair market value of the shares on the date of option exercise. In addition, if the holding periods are not met, the Company will be entitled to a deduction corresponding to the ordinary income amount recognized by the participant. If the shares are sold after expiration of the holding periods, the participant generally will recognize long-term capital gain or loss equal to the difference between the amount realized on disposition and the option price.

With respect to NQSOs, the participant will not recognize any income and the Company will not be entitled to a deduction upon grant of the option. Upon exercise, the participant will recognize ordinary income, and the Company will be entitled to a corresponding deduction, in an amount equal to the excess of the fair market value of the shares on the date of option exercise over the amount paid by the participant for the shares. Upon a subsequent disposition of the shares received under the option, the participant generally will recognize capital gain or loss to the extent of the difference between the fair market value of the shares at the time of exercise and the amount realized on the disposition.

SARs

The recipient of a grant of SARs will not realize taxable income and the Company will not be entitled to a federal income tax deduction with respect to such grant on the date of such grant. Upon the exercise of an SAR, the recipient will realize ordinary income, and the Company will generally be entitled to a corresponding deduction, equal to the amount of cash received.

Restricted Stock

A participant holding restricted stock will realize, at the time the shares vest, ordinary income in an amount equal to the fair market value of the shares and any cash received attributable to credited dividends at the time of vesting, and the Company will generally be entitled to a corresponding deduction for federal income tax purposes.

Table of Contents

RSUs

A participant holding RSUs will, at the time the participant receives a distribution, realize ordinary income in an amount equal to the distribution (which will be a single lump sum payment in cash or stock equal to the fair market value of the units held by the participant) and the Company will be entitled to a corresponding deduction for federal income tax purposes.

Performance Units and Performance Shares

The recipient of an award of performance units or performance shares will not realize taxable income and the Company will not be entitled to a deduction with respect to such grant on the date of such grant. Upon the payout of such award, the recipient will realize ordinary income and the Company will generally be entitled to a corresponding deduction, equal to the amount of cash or stock received.

Section 409A

Notwithstanding any contrary provision in the 2010 Plan, each provision in the 2010 Plan that otherwise relates to nonqualified deferred compensation benefits will be interpreted to permit the deferral of compensation and the payment of deferred amounts in accordance with Section 409A of the Code, to the extent applicable.

Section 162(m)

Under Section 162(m) of the Code, compensation paid by the Company in excess of \$1 million for any taxable year to a Covered Employee generally is not deductible by the Company or its affiliates for federal income tax purposes unless an exemption from such limitation exists. One such exemption is if the subject compensation is based on the attainment of performance goals, is paid pursuant to a plan approved by shareholders of the Company, and meets certain other requirements. Generally, Covered Employee under Section 162(m) means the chief executive officer and the three other highest paid executive officers of the Company other than the Chief Executive Officer as of the last day of the taxable year. The Committee will at all times consist of outside directors as required for purposes of Section 162(m), and that the Committee will take the effect of Section 162(m) into consideration in structuring 2010 Plan awards.

Prospective awards of equity compensation under the 2010 Plan, if approved by the shareholders, are not currently determinable. As disclosed in the Company's Current Report on Form 8-K, filed with the SEC on April 23, 2010, the Compensation Committee has made various awards of restricted shares and SARs to the Company's CEO and each of the named executive officers with respect to 2010 compensation. The 2004 Plan had sufficient remaining shares of common stock to fulfill these equity awards. At the date of this Proxy Statement, there are no current plans for additional equity awards to the CEO and named executive officers during 2010.

Also disclosed in the Form 8-K referenced in the previous paragraph is the determination by the Committee to award to each of the Company's continuing non-employee Directors shares of restricted stock with a value of \$110,000. These shares will be awarded to these Directors as of July 1, 2010 and will be priced on the basis of the average closing price on the NASDAQ Stock Market for the fifteen business days beginning ten days prior to the date of the Annual Meeting on June 4, 2010. Consequently, as of the date of this Proxy Statement, the Company is unable to determine the total number of restricted shares that each non-employee Director will receive as a result of this award. As of the date of this Proxy Statement, the Company anticipates that the 27,144 shares remaining in the Company's 2005 Non-Employee Director Restricted Stock Plan will be issued under this award to the subject Directors. The remaining indeterminable number of shares of restricted stock under the award will be issued to the subject Directors from the 2010 Plan, if approved by the shareholders at the annual meeting.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee of the Board is composed of four Directors (five prior to August 2009) and operates under a written charter adopted by the Board. Each member of the Audit Committee meets the independence requirements of Rule 5605(a)(2) of the NASDAQ listing standards. The duties of the Audit Committee are summarized in this Proxy Statement under Committees of the Board of Directors and are more fully described in the charter, which is available at the Company's website under Corporate Governance.

Management is responsible for the Company's internal controls and preparation of the consolidated financial statements in accordance with generally accepted accounting principles. The Company's independent registered public accounting firm is responsible for performing an independent audit of the Company's consolidated financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB) and issuing a report thereon. The Committee's responsibilities include monitoring and overseeing these processes.

The Committee met eight times during 2009 and the subcommittee related to the partnerships operated by the Company met an additional seven times. The Committee has continued to meet frequently during 2010.

The Committee reviewed and discussed the Company's audited consolidated financial statements for the year ended December 31, 2009 (the audited financial statements) with management and the Company's independent registered public accounting firm, PricewaterhouseCoopers LLP (PwC). The Committee also discussed with PwC the matters required to be discussed by Statement of Auditing Standards No. 61, as amended, and PwC directly provided reports on significant matters to the Committee.

The Committee has received the written disclosures and the letter from PwC required by PCAOB Rule 3526 and has discussed with PwC its independence from the Company.

The Committee has discussed with management and PwC such other matters and received such assurances from them as the Committee deemed appropriate.

Based on the foregoing review and discussions and relying thereon, the Committee recommended that the Board include the audited financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2009.

Table of Contents

The Board approved the Committee's recommendation to appoint PwC to serve as the Company's independent registered public accounting firm for 2010. In connection therewith, the Audit Committee considered whether the provision of non-audit services by PwC prior to their engagement was compatible with maintaining the independent registered public accounting firm's independence. This appointment is subject to ratification by the Company's shareholders.

ALL OTHER BUSINESS THAT MAY COME BEFORE THE 2010 ANNUAL MEETING

As of the date of this Proxy Statement, the Board is not aware of any matters to be brought before the 2010 Annual Meeting other than the matters set forth in this Proxy Statement. Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 (Exchange Act) requires the Company s officers and Directors, and persons who own more than 10% of the Company s equity securities, to file reports of ownership and changes in ownership with the SEC. Officers, Directors and holders of more than 10% of the common stock are required by regulations promulgated by the SEC pursuant to the Exchange Act to furnish the Company with copies of all Section 16(a) forms they file. The Company assists officers and Directors, and will assist beneficial owners, if any, of more than 10% of the common stock, in complying with the reporting requirements of Section 16(a) of the Exchange Act.

Based solely on its review of the copies of such forms received by it, the Company believes that for the year ended December 31, 2009, all Section 16(a) filing requirements applicable to its Directors, officers and greater than 10% beneficial owners were met, with the following exceptions: Form 4s were filed one day late for Messrs. Brookman, Mazza and Swoveland due to administrative delay.

CORPORATE GOVERNANCE

Corporate Governance Guidelines

The Board has adopted Corporate Governance Guidelines that govern the structure and functioning of the Board and establish the Board s policies on a number of corporate governance issues. The Guidelines are posted under Governance Policies in the Corporate Governance section of the Company s internet site at www.petd.com. They are also available to any shareholder on request; see Contact Information above.

Board of Directors

The Company s By-Laws provide that the number of members of the Board shall be designated from time to time by a resolution of the Board. Currently, the designated number of Directors is nine, but with the decision by Vincent D Annunzio not to stand for re-election, the Board has reduced the number of Directors to eight, effective on the date of the 2010 annual shareholders meeting. The By-Laws provide that the Board shall be divided into three separate classes of directors which are required to be as nearly equal in number as practicable. At each annual meeting of shareholders one class of Directors, whose term expires, will be elected to a term of three years. The classes are staggered so that the term of one class expires each year. There is no family relationship between any Director or executive officer and any other Director or executive officer of the Company. There are no arrangements or understandings between any Director or officer and any other person pursuant to which the person was selected as an

officer.

Director Independence

Subject to some exceptions and transition provisions, the NASDAQ listing standards generally provide that a Director will not be independent if:

(A) the Director is, or at any time during the past three years was, employed by the Company;

(B) the Director or a member of the Director's immediate family has received from the Company compensation of more than \$120,000 during any period of 12 consecutive months within the three years preceding the determination of independence other than for service as a Director; compensation paid to a family member who is an employee of the Company (other than an executive officer); or benefits under a tax-qualified retirement plan;

(C) the Director is a family member of an individual who is, or at any time during the past three years was, an executive officer of the Company;

(D) the Director or a member of the Director's immediate family is a partner in, or a controlling person of, or an executive officer of any organization to which PDC made, or from which PDC received, payments for property or services in the current or any of the past three fiscal years that exceed 5% of the recipient's consolidated gross revenues for that year, or \$200,000, whichever is more;

(E) the Director or a member of the Director's immediate family is employed as an executive officer of another entity where at any time during the past three years any of the Company's executive officers serves on the compensation committee of the other entity; or

(F) the Director or a member of the Director's immediate family is a current partner of PwC or during the past three years was a partner or employee of PwC.

Audit Committee members are subject to additional, more stringent NASDAQ and Exchange Act requirements.

The Board has reviewed business and charitable relationships between the Company and each non-employee Director to determine compliance with the NASDAQ listing standards described above and to evaluate whether there are any other facts or circumstances that might impair a Director's independence. The Board has determined that all non-employee Directors are independent under NASDAQ Listing Rule 5605 and the Exchange Act.

Board Meetings and Attendance

The Board met ten times in 2009. Each of PDC's Directors attended at least 75% of the aggregate Board and committee meetings (on which he or she served) during 2009.

Annual Meeting Attendance

As specified in the Company's Corporate Governance Guidelines, Directors are strongly encouraged to attend the annual meeting of shareholders. All Directors attended last year's meeting, except for Ms. Wakim, who was ill.

(1) Mr. D Annunzio has notified the Board that he will not stand for re-election as a Director at the Annual Meeting.

The non-employee Directors generally meet in executive session without the presence of employee Directors at their discretion in connection with each regularly scheduled Board meeting. Mr. Swoveland serves as Presiding Independent Director at these sessions; however, the other non-employee Directors may, in the event of his absence, select another Director to preside over a particular session.

Audit Committee

The Audit Committee, which met 15 times in 2009, is composed entirely of persons whom the Board has determined to be independent under NASDAQ Listing Rule 5605(a)(2), Section 301 of the Sarbanes-Oxley Act of 2002 and Section 10A(m)(3) of the Exchange Act. Mr. Crisafio chairs the Audit Committee; other members are Ms. Wakim and Messrs. Casabona and Swoveland. The Board has determined that all four members of the Audit Committee qualify as financial experts as defined by SEC regulations and that all of the Audit Committee members are independent of management. The Audit Committee's purpose is to assist the Board in monitoring the integrity of the financial reporting process, systems of internal controls and financial statements of the Company, and compliance by the Company with legal and regulatory requirements. Additionally, the Committee is directly responsible for the appointment, compensation and oversight of the independent auditors employed by the Company for the purpose of preparing or issuing an audit report or related work and to assess the need for an internal audit function and recommend its establishment when deemed appropriate.

In performing its responsibilities, the Audit Committee monitors the integrity of the Company's financial reporting process and systems of internal controls regarding finance, accounting and legal compliance; monitors the independence of the independent registered public accounting firm; and provides an avenue of communications among the independent registered public accounting firm, management and the Board. The Board has adopted a Charter of the Audit Committee which is posted on the Company's website. The Board continues to assess the adequacy of the Charter and will revise it as necessary.

Compensation Committee

The Board has determined that all members of the Compensation Committee are independent of the Company under Rule 5605(a)(2) of the NASDAQ listing standards. The Compensation Committee met eight times in 2009. The Board has adopted a Compensation Committee Charter which is posted on the Company's website.

Table of Contents

The purpose and functions of the Compensation Committee are to (1) oversee the development of a compensation strategy for the Company; (2) oversee the administration of the Company's compensation programs; (3) evaluate the performance of and set compensation for the Chief Executive Officer; (4) review and approve the elements of compensation for other executive officers of the Company; (5) negotiate the terms of employment agreements with executive officers of the Company; (6) review and recommend to the full Board compensation of the Company's Directors and changes in compensation levels to the Board; (7) approve equity grants and recommend equity-based incentive plans necessary to implement the Company's compensation strategy; and (8) administer all equity-based incentive programs of the Company.

Compensation Committee Interlocks and Insider Participation.

There are no Compensation Committee interlocks.

Executive Committee

The purpose and functions of the Executive Committee are to exercise the powers and duties of the Board between Board meetings and, while the Board is not in session, implement the policy decisions of the Board. The Board has adopted an Executive Committee Charter which is posted on the Company's website.

Nominating and Governance Committee

The Board has determined that all members of the Nominating and Governance Committee are independent of the Company under Rule 5605(a)(2) of the NASDAQ listing standards. The Nominating and Governance Committee met six times in 2009. The purpose of and functions performed by the Committee are to (1) assist the Board by identifying individuals qualified to become Board members and to recommend to the Board nominees for the next annual meeting of shareholders or fill any vacancies; (2) recommend to the Board corporate governance guidelines applicable to the Company; (3) lead the Board in its annual review of the Board's performance; and (4) recommend to the Board Director nominees for each committee. The Board has adopted a Charter for the Nominating and Governance Committee. The Charter has been posted on the Company's website.

As noted in the Corporate Governance Guidelines, the Board believes it is appropriate and efficient to combine the offices of Chairman and Chief Executive Officer, provided that a Lead Director is in place to preside at executive sessions of the independent Directors and otherwise provide leadership for the independent Directors. Particularly at a small business, such as the Company, the Board believes that separation of these roles is not necessary. In addition, the Board currently consists of eight independent Directors and only one management Director, further mitigating any risks associated with combining the offices of Chairman and Chief Executive Officer. The Committee reviews this position of combined offices, as well as the other Governance Guidelines, on an annual basis.

Director Qualifications and Selection

The Board has adopted Director Nomination Procedures that prescribe the process the Nominating and Governance Committee will use to select the Company's nominees for election to the Board. The Nominating and Governance Committee evaluates each candidate based on the candidate's level and diversity of experience and knowledge (specifically within the industry and relevant industries in which the Company operates, as well as his or her general overall experience and knowledge), skills, education, reputation and integrity, professional stature and other factors that may be relevant depending on the particular candidate.

Additional factors considered by the Committee include the size and composition of the Board at a particular time, and allowing the Company to benefit from having a broad mixture of skills, experience and perspectives on the Board.

Accordingly, one or more of these factors may be given more weight in a particular case at a particular time, no single factor would be viewed as determinative, and the

Table of Contents

Committee has not specified any minimum qualifications that it believes must be met by any particular nominee. The Company's Director Nomination Procedures are posted on the Company's website.

The Committee identifies Director candidates primarily through recommendations made by the non-employee Directors. These recommendations are developed based on the Directors' own knowledge and experience in a variety of fields, and research conducted by PDC staff at the Committee's direction. The Committee also considers recommendations made by the employee Directors, employees, shareholders, and others, including search firms. All recommendations, regardless of the source, are evaluated on the same basis against the criteria contained in the guidelines. The Committee has the authority to engage consultants to help identify or evaluate potential Director nominees but has not done so recently. Mr. Trimble, appointed in 2009, was recommended by several non-employee Directors.

Diversity Consideration

In addition to qualities of intellect, integrity and judgment, the Nominating and Governance Committee takes into consideration diversity of background, senior management experience, education, and an understanding of some combination of oil and gas marketing, finance, technology, government regulation, and public policy. The Committee makes its determination in the context of an assessment of the perceived needs of the Board at that point in time. The Committee evaluates all nominees for Director considering these criteria, including nominees recommended by shareholders. The new director nomination process specifically includes disclosure of the diversity provided by each candidate, but the Nominating and Governance Committee does not make the recommendations of nominees based solely on any such criteria, nor does it have any official or unofficial goals for any specific group.

Shareholder Recommendations

The Company's Nominating and Governance Committee will consider Director candidates recommended by shareholders of the Company. Any shareholder who wishes to recommend a prospective Board nominee to the Committee should notify the Nominating and Governance Committee of the recommendation by writing to the Committee at the Company's headquarters, or by sending the information via email to board@petd.com. All recommendations will be received by the Nominating and Governance Committee.

A submission recommending a candidate should include:

Sufficient biographical information to allow the Committee to evaluate the candidate in light of the Director Nomination Guidelines;

An indication as to whether the proposed candidate will meet the requirements for independence under the NASDAQ guidelines;

Information concerning any relationships between the candidate and the shareholder recommending the candidate; and

Material indicating the willingness of the candidate to serve if nominated and elected.

Shareholder Nominations

Shareholders who wish to may nominate candidates for election to the Board. The Company's By-Laws require shareholders who wish to submit nominations of persons for election to the Board of Directors at the annual meeting of shareholders to follow certain procedures. The shareholder must give written notice to the Corporate Secretary at

Petroleum Development Corporation, 1775 Sherman Street, Suite 3000, Denver, Colorado 80203 or may email notice to board@petd.com not later than 80 days nor more than 90 days prior to the first anniversary of the preceding year's annual meeting or, if the date of the annual meeting is more than 30 days before or more than 60 days after that anniversary date, notice by such shareholder to be timely, not later than 80 days before such annual meeting, or within 10 days following the Company's public announcement of the date of its annual shareholder meeting. The

Table of Contents

shareholder notice also must be received by the Company no earlier than 90 days prior to the annual meeting. The shareholder must be a shareholder of record at the time the notice is given. The written notice must set forth (a) as to each nominee all information relating to that person that is required to be disclosed in solicitations of proxies for election of directors in an election contest, or is otherwise required, in each case pursuant to Regulation 14A under the Exchange Act (including such person's written consent to being named in the proxy statement as a nominee and to serving as a Director if elected); (b) as to the shareholder giving the notice and the beneficial owner, if any, on whose behalf the nomination is made (1) the name and address of the shareholder, as they appear on the Company's books, and of such beneficial owner and (2) the class and number of shares of the Company's securities that are beneficially owned by such shareholder and the beneficial owner; and (c) any material interest of such shareholder and such beneficial owner in such nomination.

Planning and Finance Committee

The purpose of the Planning and Finance Committee is to oversee the responsibilities of the Board relating to planning and finance, including: (1) to organize and oversee the Board's participation in the development of the Company's Strategic Plan and the risk assessment and management process; (2) to follow the progress in the implementation of the Strategic Plan and to advise the Board if additional Board action appears to be needed to assure successful implementation of the plan or if a need exists to revise the plan in the face of changing conditions or other factors; (3) to assure that management is addressing the personnel requirements for the successful implementation of the Strategic Plan; (4) to assure that a talent-rich organization is being developed to address both current and future leadership needs; (5) to assure that robust management development and succession planning processes are developed and implemented for management at all levels in the Company; and (6) to work with the CFO and other executive management regarding corporate financial matters including operating and capital budgets, capital structure, dividends, and other significant financial and capital issues. The Board has adopted a charter for the Planning and Finance Committee which is posted on the Company's website.

The Board Role in Risk Management

The Board seeks to understand and oversee critical business risks. Risks are considered in every business decision, not just through Board oversight of the Company's Risk Management system. For instance, a special assessment of risks (financial and otherwise) is included in every acquisition proposal presented to the Planning and Finance Committee. The Board realizes, however, that it is not possible to eliminate all risk, nor is it desirable, and that appropriate risk-taking is essential to achieve the Company's objectives.

The Board risk oversight structure provides that management report on risk to the Planning and Finance Committee. Other committees, however, are active in managing the risks related to such committees' oversight areas. For example, the Audit Committee reviews many risks and related controls in areas that it considers fundamental to the integrity and reliability of the financial statements, such as counterparty risks and derivative program risks. Similarly, the Compensation Committee considers risks related to the structure and size of the Company's compensation plans as noted in the following section.

Compensation Risk Assessment

We do not believe the Company's executive and non-executive compensation structure is reasonably likely to have a materially adverse effect on the Company. With respect to specific elements of compensation and risk analysis:

Base salary does not encourage risk-taking as it is a fixed amount and is set at market rates.

The annual incentive plan is designed to reward achievement of short-term performance metrics. Through a combination of plan design and Board and management procedures, undue risk-taking is mitigated. Specifically, the plan has a cap on the award for any individual and the annual incentive constitutes a relatively small portion of total direct compensation for executive officers.

Table of Contents

Board and management procedures include ongoing management review and quarterly review of business performance by the Audit Committee and the Company's internal disclosure committee. The Committee has also added clawbacks to all executive officers' employment agreements to discourage excessive risk-taking.

A number of factors mitigate risks inherent in long-term equity compensation. Specifically, the Company has stock ownership requirements for senior executives. Executive officers must also obtain permission from the Company's General Counsel before selling any Company shares, even during an open trading window under its Insider Trading Policy.

One element of compensation for Mr. Lauck is a bonus related to successful results from future acquisitions over several years. The Company has considered this risk and does not consider it to be inappropriate. Other units of the Company receive incentive compensation primarily related to Company performance as a whole. For example, the individuals responsible for oil and gas price hedging transactions are not compensated on the basis of the success or timing of those trades. Furthermore, they can only initiate trades approved by the Company's Derivative Committee, which includes a broad cross-section of management, and whose committee charter prohibits speculative trading.

Communications with Directors

Shareholders wishing to communicate with the Board or a committee may do so by writing to the attention of the Board or committee at the Company's corporate headquarters or by emailing the Board at board@petd.com, with Board or the appropriate committee in the subject line.

Code of Business Conduct and Ethics

In January 2003, the Company adopted its Code of Business Conduct and Ethics, as amended (the Code of Conduct) applicable to all Directors, officers, employees, agents and representatives of the Company and consultants. The Company's principal executive officer, principal financial officer and principal accounting officer are subject to additional specific provisions under the Code of Conduct. The Company's Code of Conduct is posted on its website at www.petd.com. In the event of an amendment to, or a waiver of, including an implicit waiver, the Code of Conduct, the Company will disclose the information on its internet website. The Board approved a waiver regarding any potential conflict related to the service of Mr. Swoveland on the Board of Directors of Linn Energy LLC. If the Board becomes aware of a potential conflict in the future, it will consider at that time whether or not to continue this waiver.

Policies and Procedures with Respect to Transactions with Related Persons

The Board has adopted a written policy for the review, approval and ratification of transactions that involve related parties and potential conflicts of interest.

The related party transaction policy applies to each Director and executive officer of the Company, any nominee for election as a Director, any security holder who is known to own more than five percent of the Company's voting securities, any immediate family member of any of the foregoing persons and any corporation, firm or association in which one or more of the Company's Directors are directors or officers, or have a substantial financial interest.

Under the related party transaction policy, a related person transaction is a transaction or arrangement involving a related person in which the Company is a participant or that would require disclosure in the Company's filings with the SEC as a transaction with a related person.

The related persons must disclose to the Audit Committee any potential related person transactions and must disclose all material facts with respect to such interest. All related person transactions will be reviewed by the Audit

Committee. In determining whether to approve or ratify a transaction, the Audit Committee will consider the relevant facts and circumstances of the transaction which may include factors such as the relationship of the related person with the Company, the materiality or significance of

Table of Contents

the transaction to the Company and the business purpose and reasonableness of the transaction, whether the transaction is comparable to a transaction that could be available to the Company on an arms-length basis, and the impact of the transaction on the Company's business and operations.

From January 1, 2009 to the present, there was no transaction or series of transactions, or any currently proposed transaction, in which the amount involved exceeds \$120,000 and in which any director, executive officer, holder of more than five percent of the Company's common stock or any member of the immediate family of any of the foregoing persons had or will have a direct or indirect material interest.

Indemnification of Directors and Officers

The Company's By-Laws provide that the Company shall indemnify any Director, officer, employee, or other agent of the Company who is or was a party, or is threatened to be made a party, to any proceeding (other than an action by or in the right of the Company to procure a judgment in its favor) by reason of the fact that such person is or was an agent of the Company, against expenses, judgments, fines, settlements, and other amounts actually and reasonably incurred in connection with such proceeding, if that person acted in good faith and in a manner that person reasonably believed to be in the best interest of the Company, and in the case of a criminal proceeding, had no reasonable cause to believe the conduct of that person was unlawful.

The Company has entered into separate indemnification agreements with each of its Directors whereby the Company has agreed to indemnify the Director against all expenses, including attorneys' fees, and other amounts reasonably incurred by the director in connection with any threatened, pending or completed civil, criminal, administrative or investigative action or proceeding to which such person is party by reason of the fact that he is or was a Director, as the case may be, of the Company, if the person acted in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the Company, and, with respect to any criminal action or proceeding, the person had no reasonable cause to believe such conduct to be unlawful. The agreements provide for the advancement of expenses and that the Company has the right to purchase and maintain insurance on behalf of the director against any liability or liabilities asserted against such person, whether or not the Company would have the power to indemnify the person against such liability under any provision of the agreement. The Company has agreed to indemnify such person against expenses actually and reasonably incurred in connection with any action in which the person has been successful on the merits or otherwise. Indemnification must also be provided by the Company (unless ordered otherwise by a court) only as authorized in the specific case upon a determination that the indemnification of the person is appropriate because he or she has met the applicable standard of conduct described in the agreement made by (1) the Board of Directors, by a majority vote of a quorum consisting of Directors who are not parties to such action or proceeding, (2) independent legal counsel in a written opinion or (3) the shareholders of the Company.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis focuses on the following:

- the principles on which our executive compensation program is based;
- how we make compensation decisions and determine the amount of each element of compensation;
- the elements of our total compensation program and the reasons why we have chosen these elements; and
- an analysis of the material compensation decisions made by the Compensation Committee in 2009.

The Compensation Committee

The Board has assigned to the Compensation Committee the responsibility for developing and overseeing the Company's compensation programs and executive compensation. The Committee consists entirely of independent Board members. The Committee has been authorized by the Board to make final determinations for all elements of compensation for the executive officers. Independent Board members who are not part of the Committee are often consulted as part of the Committee's decision making process. The Committee also negotiates terms and approves all executive employment agreements and administers the Company's long-term incentive plans.

Executive Summary

In early 2009, the oil and gas industry faced very low gas prices, tight credit markets and depressed stock prices. The Company found itself in a challenging position and as a result, chose to focus on ways to improve the Company's liquidity and maintain cash flow to fund ongoing operations. The Company delivered strong financial performance for 2009 by exceeding its cash flow and liquidity goals and making some key strategic moves such as aggressive and timely hedging late in the year which sustained the Company's bank line of credit amount and the formation of the Marcellus joint venture. During 2009, the Company's executive leadership team conducted a full strategic assessment and determined to increase the Company's focus on ways of reducing the Company's cost structure through cost

management and leveraging economies of scale in existing basins and to look at some significant asset reconfiguration efforts. These measures are tied to the short-term incentive goals for 2010. By focusing on strengthening the Company's financial position in 2009, PDC is financially poised for strategic growth in the future.

Table of Contents

During this period, the Compensation Committee reviewed its executive compensation programs to ensure that they provide appropriate incentive and reward in this environment based upon the Company's pay-for-performance objectives. As described below, no significant changes were made in the compensation programs for 2009, although the short-term incentive goals were shifted from the traditional focus on earnings and production to a focus on liquidity and cash flow, as the ultimate depth of the recession was still uncertain. Even though the Company's stock price was depressed, no repricing or accommodation was made for past restricted stock or performance share awards, which are now worth a fraction of their value upon issuance, or for options that now have no intrinsic value.

The Committee believes that the competition remains tight for effective oil and gas executives. The Compensation Committee targets total direct compensation (combination base salary, short-term incentives and long-term incentives) for the executive group at the median of the market measured against a group of peer companies and industry survey data (as defined below). Although the Committee believes Company performance has been excellent in recent years, target total direct compensation for the entire officer group was found to be below the market median when the Committee evaluated compensation in hindsight after 2009 peer data became available. As the market has improved, the Committee has made adjustments in pay for 2010 as described below.

The Compensation Committee will continue to monitor trends and developments to ensure that the Company provides the appropriate executive compensation incentives and remains competitively positioned to attract and retain executive talent. The Committee believes that the total executive compensation program provides significant incentive, but does not encourage management to take excessive risks, and serves the shareholders' best interests: it features short- and long-term performance measures, an appropriate balance of operating and financial performance goals, and promotes long-term retention and significant stock ownership. We believe that these elements, in combination, tie our executives' compensation to the Company's sustained long-term performance.

COMPENSATION DESIGN

Compensation Philosophy

The following characteristics of the compensation program constitute the Committee's general philosophy:

Provide compensation that is fair to the Company and to the executive officers, while motivating behavior that will enhance the value of the Company;

Offer a total compensation program that is competitive with the compensation practices of those peer companies with which the Company competes, so that the Company will attract, motivate and retain executive talent;

Tie a significant portion of executive compensation to the Company's achievement of pre-established financial and/or operating objectives and to personal objectives established for each executive individually;

Provide a significant portion of overall compensation in the form of equity-based compensation in order to align the interests of the Company's executives with those of the Company's shareholders and to avoid excess focus on short-term results;

Structure a significant proportion of total compensation in a fashion that promotes executive retention; a substantial portion of compensation should be forfeitable by the executive upon voluntary termination;

Structure performance-based compensation so that it does not encourage excessive risk-taking that may compromise the Company's value or the investment interests of its shareholders; and

Require executives to achieve and maintain a significant level of equity ownership over time.

Resources and Other Considerations Used in the Decision Making Process

The Compensation Committee utilizes several different tools and resources in reviewing elements of executive compensation and making compensation decisions. These decisions, however, are not formulaic and the Compensation Committee exercises judgment and discretion in making them.

Compensation Consultant. The Committee uses a nationally recognized independent executive compensation consultant, Towers Watson (formerly known as Towers Perrin), to review the Company compensation programs. The Compensation Committee directly retained Towers Watson (sometimes referred to herein as the Consultant). In this engagement, the Consultant reported directly and exclusively to the Compensation Committee. At the Committee's direction, the Consultant works directly with management to review or prepare materials for the Committee. The Consultant assists the Committee with the annual review and revision of the peer group, conducts a competitive benchmarking of the Company's executive and Non-Employee Director compensation programs, provides relevant market data as a background against which the Compensation Committee considers total compensation elements and awards, and attends and participates in Compensation Committee meetings throughout the year as the Committee deems appropriate. With the assistance of Towers Watson, the Committee periodically assesses (1) the effectiveness and competitiveness of the Company's executive compensation and compensation design, ensuring that the Company's programs are effectively aligned with the interests of our shareholders, and (2) the value and cost of various potential compensation arrangements. The Compensation Committee reviews the engagement of its independent compensation consultant on an annual basis and as a part of that process reviews a summary of all services provided by the Consultant and related costs. In 2009, the Consultant did not perform any other material services for the Company.

Benchmarking. The Compensation Committee targets compensation around the median of the market through a mix of cash and long-term incentives with a heavier emphasis on long-term incentives. The Committee believes that the executives should receive pay above the median when Company performance and individual performance so warrant and below the median when performance is not achieved. To determine the competitive market, the Committee conducts an annual benchmarking review of an industry peer group to use as a reference point for assessing competitive compensation data. This industry peer group consists of select oil and gas industry peer companies that are similar in size, scope and nature of business operations. The initial step in the annual benchmarking process is to evaluate the composition of the peer group and determine whether any changes are warranted due to changes among the peers that render them too large, too small, or otherwise less useful, *e.g.*, due to merger/acquisition activity. The composition of the peer group over the past three years is summarized below.

Benchmarking is conducted annually with respect to each of the key annual elements of the Company's executive compensation programs discussed above (salary, short-term incentive (this annual cash bonus is referred to as "STI") and long-term incentive (this stock/equity is referred to as "LTI") compensation). Historically, the primary source of the benchmarking analysis was the peer group described above. Beginning in 2009, in connection with 2010 compensation planning, the Consultant also benchmarked our executive positions using proprietary survey data from a broader sample of comparably-sized oil and gas companies in order to provide an additional market perspective. The Committee uses benchmarking data to establish a dollar target level for each key element to deliver a target total direct compensation to each executive at approximately the market median, with consideration of the executive's individual performance. Targeting the median with the ability to receive compensation above the median if Company and individual performance so warrants helps ensure that the Company's compensation practices will be competitive in terms of attracting and retaining executive talent, while performance based compensation provides for variations due to superior or sub-par performance.

Role of Chief Executive Officer and/or Other Executive Officers in Determining Executive Compensation. The Committee consults with the CEO regarding: proposed peer group changes; his evaluation of the Company's performance for the year; his assessment of his own performance and his evaluation of performance of the other executive officers; short-term and long-term incentive plans; individual executive achievement of key operating targets; the Company's strategic plan; and management development and succession planning. At the Compensation

Committee's request, our executive officers assess the design of, and make observations or recommendations related to, our compensation and benefit programs, including recommendations related to the appropriate financial and operational performance measures used in our incentive programs.

Table of Contents

The Compensation Committee, with input from the Consultant, determines each element of compensation for the CEO and, with input from the Consultant and the CEO, determines each element of compensation for the other executive officers. The CEO is not present during voting or deliberations with regard to his own compensation.

Review of Total Compensation. The Committee reviews for each of the executive officers the total dollar value of each officer's annual compensation, including salary, STI and LTI compensation, perquisites, retirement benefits, deferred compensation accruals and other compensation. The Committee also reviews shareholdings and accumulated unrealized gains under prior equity-based compensation awards, and amounts payable to the executive officer upon termination of the executive's employment under various different circumstances, including retirement and termination in connection with a change in control. See the 2009 Summary Compensation Table and the Termination Benefits Table below. As none of the current executive officers have served in their current positions long enough to have accumulated significant wealth from the Company, wealth accumulation is not a current consideration in Committee deliberations.

Other Considerations. In addition to the above resources, the Compensation Committee considers other factors when making compensation decisions, such as individual experience, individual performance, internal equity, development and/or succession status, and other individual or organizational circumstances. With respect to equity-based awards, the Compensation Committee also considers the cost of such awards, the impact on dilution, and the relative value of each element comprising total target executive compensation.

Regulatory Requirements. Together with the Consultant, the Compensation Committee carefully reviews and considers current tax, accounting and securities regulations as they relate to the design of the Company's compensation programs and related decisions.

Section 162(m) of the Internal Revenue Code of 1986, as amended (IRC), limits a company's ability to deduct compensation paid in excess of \$1 million during any fiscal year to the CEO and the next three highest executive officers, other than the CFO, unless the compensation is performance-based as defined under the IRC. Elements of the executive compensation program are indeed performance-based, such as stock options, SARs and performance-based equity awards issued under the Company's 2004 Long-Term Equity Compensation Plan. Other aspects of the executive compensation program do not qualify as performance-based, such as time-based restricted stock and the Company's STI annual incentive bonus program, because the Committee prefers to maintain the ability to exercise discretion in evaluating a portion of participants' performance. It is our intent to maximize our income tax deductions by qualifying compensation paid to our top executives, where practicable under our compensation policies. The Compensation Committee nonetheless may approve compensation that may not qualify for the compensation deduction if, in light of all applicable circumstances, the Committee believes that it would be in our best interest for such compensation to be paid. The financial implications of a potential lost deduction were not material in prior years; the Committee will continue to monitor its position on the impact of Section 162(m) for the Company's executive compensation programs.

Section 409A of the IRC provides that all amounts deferred under a non-qualified deferred compensation plan are currently included in gross income, to the extent not subject to a substantial risk of forfeiture and not previously included in gross income, unless certain requirements are met. We have designed or amended our plans and programs to either be exempt from Section 409A or, if subject to Section 409A, in compliance with applicable regulations to properly allow deferral.

Table of Contents**ELEMENTS OF EXECUTIVE COMPENSATION**

To achieve the objectives of the executive compensation program, the Committee uses four elements of compensation in varying proportions for the different executive officers. These elements, described below, are cash compensation (comprised of base salary and STI), awards tied to the Company's stock (LTI, which we also refer to as equity-based compensation) and other perquisites and benefits. The Committee balances salary and performance-based compensation, and cash and non-cash compensation, in a manner it believes best meets the overall compensation philosophy in its judgment as a Committee. The Committee allocates among the different elements of compensation in a manner similar to the median allocation of the Peer Group, based on the level of the executive's position, but generally targets the median in base salary and median in total direct compensation (base, target STI and LTI value). If Company and individual performance so warrants, the Committee may award above or below the market median. Generally, it is the policy of the Committee that, as position/responsibility levels increase, a greater proportion of the executive's income should be in the form of STI and LTI compensation. For example, the CEO of the Company receives a higher percentage of his compensation in the form of short- and long-term incentives compared to other Company executives and, correspondingly, a smaller percentage of his compensation in the form of salary, consistent with CEOs in the Peer Group. The following table shows the breakdown of target compensation among the three elements (other than perquisites and benefits) for 2008 and 2009 for each executive officer.

Target Compensation for Elements as a Percentage of Total Target Compensation

Name	2008			2009		
	Base Salary	Bonus Target	Equity Award	Base Salary	Bonus Target	Equity Award
Richard W. McCullough ⁽¹⁾	29%	27%	44%	27%	27%	46%
Gysle R. Shellum ⁽²⁾				40%	20%	40%
Eric R. Stearns ⁽³⁾	33%	20%	47%	32%	20%	47%
Barton R. Brookman ⁽⁴⁾	40%	20%	40%	39%	19%	42%
Daniel W. Amidon	40%	20%	40%	39%	19%	42%
Lance Lauck ⁽⁵⁾						

(1) Mr. McCullough was appointed CEO on June 23, 2008.

(2) Mr. Shellum joined the Company as Chief Financial Officer on November 11, 2008.

(3) Mr. Stearns left employment at the Company effective June 18, 2009.

(4) Mr. Brookman was appointed Senior Vice President on March 8, 2008.

(5) Mr. Lauck was hired as Senior Vice President Business Development on August 31, 2009.

The chart above indicates that, for the executive officers below the CEO, on average, 62% of target total direct compensation is variable and 42% is in the form of equity-based compensation, and for the CEO, 73% of his compensation is variable, with 46% in the form of equity-based compensation.

Base Salary

Base salary is intended to provide a fixed level of income to compensate executives for their level of responsibility, relative expertise and experience, individual performance and in some cases their potential for advancement. The Committee annually reviews the base salaries of the CEO and other executive officers relative to the Peer Group. Salaries are also reviewed in the case of promotions or other significant changes in responsibilities. Base salary is intended to provide a baseline of compensation that is not contingent upon the Company's performance.

After reviewing the Peer Group salary levels and considering individual performance, the Committee increased base salaries in 2009 by 32% for the CEO and between 0% and 8% for the other named executive officers.

Mr. McCullough's increase is related to 2009 being his first full year as CEO and to his

Table of Contents

assumption of the role of Chairman in 2009. In 2009, the base salary compensation of the executive officers approximated the median of the Peer Group, with the exception of a few of the officers, including the CEO, that were below the median. Annual base salaries for the executive officers for 2008 and 2009 are shown in the following table:

Name	Annual Base Salaries	
	2008	2009
Richard W. McCullough	\$ 340,000	\$ 450,000
Gysle R. Shellum	235,000	235,000
Eric R. Stearns	305,000	320,250
Barton R. Brookman, Jr.	250,000	270,000
Daniel W. Amidon	227,500	245,700
Lance Lauck		225,000

The Company increased base salaries in 2010. See 2010 Compensation below for a discussion of the changes.

Short-Term Incentives

The Company's STI program is intended to motivate and reward executives for achieving short-term Company goals and objectives aligned with value creation. This program also recognizes team and individual contributions to Company performance. The annual STI payment is tied to the Company's overall performance for the fiscal year, as measured against the objective criteria set each year by the Committee, as well as the Committee's subjective assessment of Company performance and individual performance of each executive.

Individual Target Bonus Opportunities. Individual STI target bonus opportunities, expressed as a percentage of base salary, are set for each named executive officer during the first 90 days of the fiscal year based on job level and responsibilities. In 2009, potential payouts ranged from zero to as much as 200% of the target for the year. The following table sets forth the STI threshold, target and maximum or stretch levels for 2008 and 2009 of the performance bonus portion of the STI for the executives, expressed as a percentage of base salary.

Name	Short-Term Incentive Compensation					
	2008			2009		
	% of Base Salary			% of Base Salary		
	Threshold	Target	Stretch	Threshold	Target	Stretch
Richard W. McCullough	0%	90%	180%	0%	100%	200%
Eric R. Stearns	0%	62.5%	125%	0%	62.5%	125%
Gysle R. Shellum				0%	50%	100%
Barton R. Brookman, Jr.		50%	100%	0%	50%	100%
Daniel W. Amidon	0%	50%	100%	0%	50%	100%
Lance Lauck ⁽¹⁾				0%	50%	100%

(1) Mr. Lauck joined the Company on August 31, 2009. In addition to his 100% stretch bonus for 2009, he is eligible for an additional annual bonus of up to 100% (*i.e.*, 200% total possible) based on the success of future Company acquisitions.

STI Performance Metrics for 2009. Annually, the Compensation Committee establishes goals for determining the STI awards for the executive officers. In determining the award for 2009, 60% of the award potential was based on objective criteria and 40% was based on individual performance and other factors at the discretion of the Committee. Historically, the Company has focused on production and earnings per share goals in determining the objective criteria for the STI. Because of the financial markets and depressed gas prices at the end of 2008 and early 2009, the Committee wanted management in 2009 to focus on two measures, adjusted cash flow and liquidity. In both approving goals and measuring the

Table of Contents

Company's performance against those goals, the Committee may use its discretion in determining the extent to which goals are met and whether the results properly reflect the Company's achievement of its overall business objectives, including any material changes in the Company's operations or business objectives during the course of the year. With respect to the 2009 objective criteria, the Committee did not adjust the criteria once the goals were established. The table below reflects the threshold, target, and maximum goals for the year, the actual performance and the weighting assigned each of the objective goal as approved by the Committee.

Pay-for-Performance Table for 2009

Criteria	Lower	Target	Maximum	Actual	Actual Results	Percent of Total Bonus
	Threshold Amount (0% of Goal)					
Cash flow per share	\$ 6.50	\$ 7.80	\$ 9.00	\$ 8.75	179%	20%
Liquidity	\$ 145.00	\$ 155.00	\$ 175.00	\$ 207.00	200%	40%

In determining the results for the objective criteria that make up 60% of the award, based on the actual results for 2009, the Company met 179% of its target for adjusted cash flow per share and exceeded the maximum target for liquidity. These results produced a total performance for the objective criteria of 193% of target. When the Compensation Committee considered the results after backing out the effect of the stock offering, the Company exceeded the maximum performance for both adjusted cash flow per share and liquidity which would have produced a total result of 200% of target. Although performance goals were met, stock performance remained flat. In determining the final award, the Compensation Committee concluded that although the stock price performance had yet to reflect the financial position of the Company, the actions taken by the management team to position the Company financially for growth by raising capital and securing liquidity in a time when markets were difficult was critical to the future success of the Company. Examples include the hedging steps that were taken again in late 2009 to help sustain the bank line levels and formation of the Marcellus joint venture to reduce risk and finance the development of that field and creating the ability for the Company to issue equity. Based on the assessment of all the considerations for 2009, the Committee adjusted the rating downward slightly and awarded an overall rating of 175% for the 60% objective portion of the bonus.

The discretionary portion of the STI program permits the Committee to account for individual performance and differentiate among executives. In determining what portion of the discretionary income to award, the Committee looks at the overall Company performance for the objective measures, multiplies the overall rating for the achievement of the Company objectives (175% for 2009) times the 40% discretionary portion and adjusts for individual performance. The Committee assesses individual executive performance with input from the CEO as well as other Board members and Committees. The CEO also provides input to the Committee as to how he and the Company have performed. In determining final awards, the Compensation Committee considered the executive team's performance in achieving the Company's results, the work performed and results undertaken on the Company's updated strategy and individual performance against each executive's specific goals. STI bonus awards are pro-rated for partial years. The 40% discretionary individual performance variations were fairly small, as the Committee believes that the senior management team must generally operate and be judged as a team, absent individual exceptional performance or markedly sub-standard performance.

The actual STI awards earned and paid for 2009 performance to each executive officer were as follows: Mr. McCullough \$788,000; Mr. Shellum \$210,000; Mr. Brookman \$235,000; Mr. Amidon \$215,000; and Mr. Lauck \$65,000. Mr. Lauck's award was pro-rated to adjust for partial-year employment in 2009. The Committee believes these awards are justified based on the discussion above.

In addition to his STI bonus described above, Mr. Lauck is eligible to receive a special bonus in the event of the completion of successful acquisitions in a given year, as determined by the Committee. The details of this program have not been finalized by the Committee, but the maximum Mr. Lauck could

Table of Contents

receive is an amount equal to 100% of his base salary (*i.e.*, 200% maximum when combined with normal STI) in effect as of the date of the acquisition, payable over 2 years. No payouts have been made under this program.

The STI plan for the named executives was modified for 2010 based on the Company's review of its long term strategic plan. The five metrics used in the new plan and the 2010 bonus targets are outlined below in 2010 Compensation below.

Long-Term Incentives

The Company's LTI program is an integral part of the Company's overall executive compensation program and serves to align the interests of executives with those of our shareholders. The program establishes a direct relationship between compensation and shareholder value by (1) emphasizing long-term share ownership through the Company's Stock Ownership Guidelines, (2) rewarding long-term growth in the Company's stock value, and (3) focusing senior executives on the achievement of long-term performance objectives that are aligned with the Company's corporate strategy. The program also furthers the goal of executive retention, since the executive officer will forfeit any unvested awards in the event the officer voluntarily terminates employment with the Company without good reason.

In the last three years, we have implemented our LTI program using two vehicles:

Restricted stock which vests over time has been used to help attract and retain our executive team and to help ensure delivery of a competitive pay package.

LTIP stock which vests over time subject to the achievement of specified stock price goals has been used to reinforce our commitment to shareholder value creation.

In making long-term incentive awards, the Committee uses a market-based value approach, in which the Committee determines competitive LTI values through the annual benchmarking work conducted by the Consultant. The value is then allocated to each of the LTI vehicles. In 2008, the LTI values were generally allocated half to time-vested restricted stock (vesting *pro rata* over four years) and half to performance-based LTIP stock. In response to the economic upheaval described earlier, and to promote stock ownership for our new management team, the 2009 LTI values were allocated 75% to time-vested restricted stock and 25% to performance-based LTIP stock.

Half of the 2009 performance-based LTIP stock awards will vest and be issued based upon an annual stock price increase of approximately 12%, with the starting price based on the average price of the stock in December preceding the award year. An additional 25% of the awarded LTIP shares will vest and be issued at an annualized hurdle rate of 16% and an additional 25% at 20%. For the 2009 performance-based LTIP awards, the stock price used to determine if the LTIP shares will vest will be the average daily closing price for each of the three monthly periods: December 2011, 2012, and 2013. Any shares not vested in 2011 and 2012 will remain eligible to be vested in future years; however, any unvested shares at December 31, 2013 will lapse. The Committee decided to use three measurement dates to take into account the volatility of energy prices and their impact on the stock price of the Company.

The Committee has used a consistent methodology to translate target LTI values into share awards, namely, award values have been converted to shares based on the average stock price in the December preceding the award. Further, with respect to the performance-based LTIP stock, at the Committee's direction, the Consultant calculated the fair value utilizing methods it has developed for use with these types of equity valuations, including taking into account the probability and/or timing of vesting under the performance criteria for the LTIP shares and the other restricted stock. The actual values of the 2009 grants were significantly below the intended values because the shares were granted in March when stock prices in general were near their low, however, the valuation was based on the prior December stock price. To address this problem for the future, in 2010, the Committee agreed that for all types of

equity grants, it would use prices based on an average 20-day trading price ending ten days prior to grant. This should make future actual grant values more consistent with the intended grant values and assist when comparing the Company with its peers.

Table of Contents

The following table summarizes recurring LTI awards for 2008 and 2009, and the second table summarizes the target prices for the performance vesting of the LTIP awards, all of which vested *pro rata* over four years from the date of issuance.

- (1) Growth target percentages and target prices are based on the average closing price of the Company's common stock during the preceding December for each of the years.
- (2) Performance shares will vest for a performance period only if the target price is met or exceeded for such period. Performance shares vested for a performance period will not be subject to divestment if the share price subsequently decreases below the threshold in a subsequent period.

The Compensation Committee made LTI grants under the 2004 Plan on April 19, 2010. For a description of the 2010 equity awards, see 2010 Compensation below. To enable the Committee to continue to use LTI grants as an integral part of the compensation package for executives and other employees of the Company, the Committee is requesting shareholders to approve the 2010 Long-Term Equity Compensation Plan.

Retirement Plans

The Company has a combined qualified 401(k) and profit sharing plan for all of the Company's employees, including the executive officers. The purpose of the retirement plan is to provide a competitive means for employees to build financial security, and offers a tax-advantaged vehicle for employees to save effectively for retirement. The plan provides for discretionary matching contributions. Generally, the Company matches 401(k) contributions dollar for dollar up to 10% of the employee's compensation and then matches 20% of employee contributions above 10% of the employee's compensation up to the

Table of Contents

maximum allowable limits under the Internal Revenue Code (IRC). The Company's profit sharing contribution is discretionary and for 2009 was equal to approximately \$500,000 for all employees.

Mr. McCullough, under the terms of his Employment Agreement, also earns the right to a future non-qualified deferred compensation benefit following his retirement or other termination from the Company. Under the terms of his Agreement, Mr. McCullough earns an annual payment for the 10 years following his termination equal to \$7,500 times the number of completed years of service with the Company (maximum 10 years). The maximum amount he could receive from the Company is \$750,000 (\$75,000 for 10 years). As of December 31, 2009, Mr. McCullough's total cumulative benefit, including the 2009 increment, was \$225,000 (\$22,500 per year for 10 years), as the benefit began in 2006, prior to his appointment as CEO, when Mr. McCullough was first hired as Chief Financial Officer.

Other Compensation and Benefits

In addition to the normal benefits provided to all employees, the Company provides certain other perquisites and benefits to its executive officers that are not tied to any formal individual or Company performance criteria and are intended to be part of a competitive overall compensation program. The purpose of these plans is to enhance employee welfare and financial security and to provide a competitive package to attract and retain employees and executive officers.

Perquisites and executive benefits do not constitute a significant part of executive compensation; however, each of the executive officers, except as noted below, has (1) a Company vehicle (or vehicle allowance) that he uses for Company business and is allowed personal usage as well, and (2) 13 weeks of short-term disability benefits under his employment agreement (described below). In addition, Messrs. McCullough and Amidon are entitled to (1) reimbursement of medical expenses not covered by the Company medical plan (eliminated effective April 19, 2010) and (2) the Company will provide them with or reimburse them for the cost of a \$1 million life insurance policy and disability insurance.

2010 Compensation

Based on the Committee's benchmarking review, the total direct compensation (base salary, STI and LTI) of the Company's executives have consistently been significantly below the median of the peer companies. Due to the economic climate at the end of 2008/early 2009, the Committee felt it was inappropriate to make adjustments in such compensation to the market, even though it felt the Company and individual performance had been excellent. Since then, market conditions have improved. The Committee believes that the Company has assembled an excellent management team and wants to ensure that the team is retained and focused on the long term growth of the Company.

As a result, in 2010, the Compensation Committee adjusted compensation to move executives closer to the median of the market and also recognized differences in specific roles within the Company with variations in STI and LTI target awards levels. This adjustment recognizes executives for actions taken in 2008/2009 to position the Company financially for growth by raising capital and securing liquidity in a time when markets were difficult. Examples include:

- hedging large portions of 2008 and 2009 production in 2008 before gas pricing collapsed, generating more than \$100 million in realized hedging gains in 2009 alone;

- similar well-timed hedging steps taken again in late 2009 to help sustain the bank line borrowing base levels;

- formation of the Marcellus joint venture to reduce the risk and finance the accelerated development of that field and create the ability for the Company to issue equity; and

significantly improving the Company's liquidity.

The Committee also wished to compensate the executives for renegotiating their employment agreements to replace the "single trigger" with a "double trigger" when determining separation benefits following a change of control of the Company. The compensation adjustments were conditional upon

Table of Contents

the executive signing the new employment agreement. In making its 2010 LTI equity grants, the Committee considered the level of equity grants in recent years, including the special retention grant of restricted stock in 2008. Prior to the 2010 equity grants, however, the management team had relatively little equity, which the Committee and investors believe is critical to success.

Additional reasons for adjustment in compensation of the CEO include: (1) The fact that the CEO has been instrumental over the last several years in addressing some significant accounting and reporting deficiencies of the Company that could have had detrimental effects if not corrected; (the NASDAQ hearing board, convened in 2007 to consider delisting of the Company, stated that it specifically considered the confidence it had in Mr. McCullough as a principal reason for giving the Company an additional chance to correct its accounting issues); (2) the CEO led an assessment of the Company's strategy resulting in a new vision and strategic direction focused on growing the Company intrinsically; (3) the CEO has brought together a strong leadership team, both at the executive and middle management levels and united that team to implement the strategy; (4) the CEO has implemented a number of progressive management systems and practices to prepare the Company for future growth; and (5) the CEO agreed to eliminate the reimbursement of medical expenses over and beyond those covered under the Company's medical plan as part of his new employment agreement.

As part of the changes in 2010, the Committee also adjusted the mix of compensation with more emphasis on short-term incentive bonus and long-term incentives to align executive compensation with the execution of the corporate strategy. For the named executive officers excluding the CEO, variable compensation on average now comprises 68% of total direct compensation with 50% in the form of equity-based grant values. The CEO now receives 77% of his compensation in the form of variable pay with 54% as equity-based compensation. Below is a table showing the new base salaries and STI targets expressed as a percentage of base salary, effective as of January 1, 2010. Actual award payouts under the STI plan can range from 0% to 200% of target.

2010 SHORT-TERM INCENTIVE COMPENSATION

Executive Officer	Base Salary	Bonus Target	Threshold	Target	Stretch
Richard W. McCullough	\$ 550,000	100%	0%	100%	200%
Gysle R. Shellum	\$ 275,000	60%	0%	60%	100%
Barton R. Brookman	\$ 290,000	60%	0%	60%	100%
Daniel W. Amidon	\$ 260,000	55%	0%	55%	100%
Lance Lauck	\$ 235,000	50%	0%	50%	100%

The Committee also changed LTI vehicles for 2010, allocating 75% of the grant value to restricted stock (same percentage as in 2009) which vests over three years and granting the remaining 25% in the form of SARs instead of LTIP shares (the SARs vest over three years and have a term of ten years). The Committee did not believe the LTIP shares were performing as designed because of the volatility of oil and gas prices, and made the change to ensure continued focus by the executives on increasing stock value, thereby directly linking compensation to the stock price. On April 19, 2010, the following values were awarded as LTI grants for 2010; Mr. McCullough \$1,300,000; Mr. Shellum \$435,000; Mr. Brookman \$425,000; Mr. Amidon \$400,000; and Mr. Lauck \$375,000.

The Committee also substantially reevaluated the corporate performance metrics to be used for 2010 STI, increasing the number of metrics as well as changing the type of metrics to tie to the Company's updated corporate strategy. The Committee felt the following five metrics would provide better balance and a broader picture of corporate performance:

- (1) Adjusted Cash Flow per Share Net income plus/minus change in operating assets and liabilities.
- (2) Capital Efficiency Adjusted EBITDA for 2010 divided by production divided by three years average finding and development cost per unit.

Table of Contents

- (3) Operating and General and Administrative Expense per Mcfe The sum of total lease operating expense, exploration general and administrative expense and corporate general and administrative expense divided by Mcfe (mcf equivalent for gas and oil).
- (4) Reserve Replacement Ratio (3 year average) The sum of 2008, 2009 and 2010 extensions and discoveries, revisions in previous estimates and purchase of reserves divided by the sum of 2008, 2009 and 2010 production.
- (5) Production Actual production volume for the year.

In calculating the bonus, 50% will be based on a combination of (1) and (2) above and 50% will be based on a combination of (3), (4) and (5) above. Such rating can also be adjusted upward or downward at the Committee's discretion based on successful completion of annual projects/goals by the executive team.

Executive Officer and Director Share Retention and Ownership Guidelines

In order to promote equity ownership and further align the interests of management with the Company's shareholders, the Committee has adopted share retention and ownership guidelines for senior management and non-employee Directors. Under these guidelines in effect during 2009, executive officers and non-employee Directors were required to achieve and continue to maintain a significant ownership position, as follows:

Chief Executive Officer:	3 times salary
Other Executive Officers:	2 times salary
Non-Employee Directors:	1 times retainer

Compliance is measured once a year, on July 2. Shares held by the executive officers and shares held indirectly through the Company 401(k) plan are included in determining an executive officer's share ownership.

On April 19, 2010, the Board amended such guidelines effective July 1, 2010, to increase the non-employee Director ownership from one times the annual retainer to three times the annual retainer. Non-employee Directors are also now required to comply with the ownership guidelines within three years of their election to the Board instead of five years, as previously provided. Lastly, the Board clarified that unvested restricted stock would be included in the calculation for officers and Directors.

Mr. Lauck has occupied his position for less than one year, and therefore is exempt from the guidelines. Similarly, Mr. Trimble has been a member of the Board for less than three years, and therefore is exempt from guidelines.

Based on this annual compliance measurement and the three-year initial grace period, no Director or officer is anticipated to be out of compliance with the ownership guidelines on July 2, 2010.

The Company's Insider Trading Policy expressly prohibits Company officers, Directors, employees and associates from engaging in options, puts, calls or other transactions that are intended to hedge against the economic risk of owning the Company shares.

EXECUTIVE AGREEMENTS

Employment Agreements

The Compensation Committee has entered into employment agreements with each of the named executive officers. The Committee believes employment agreements are necessary to attract and help retain executive officers in a volatile and consolidating industry and to provide transitional income following an executive officer's involuntary termination of employment. The severance benefits in the event of an involuntary termination or a termination of employment by the employee for Good Reason following a change in control (double trigger) also serve to lessen the potential negative impact of a change in control on the executive officers and to lessen the potential conflict between the best interests of the shareholders and that of the executives. The Committee believes this provision is desirable, in combination with significant stock ownership, to encourage the executives to consider in an unbiased manner possible change in control situations that might benefit the Company's shareholders. The

Table of Contents

employment agreements provide for the continued employment for a period of two years following a change in control of the Company. For this purpose, the definition of change of control corresponds to the definition under IRC Section 409A and the supporting treasury regulations, with certain changes. These agreements are intended to retain the executives and provide continuity of management in the event of an actual or threatened change in the control of the Company and ensure that the executive's compensation and benefits expectations would be maintained in such event.

On April 19, 2010, as a condition of the compensation adjustments in 2010, the executive officers each entered into amended and restated employment agreements providing for a double trigger in place of the single trigger as well as related changes. A single trigger provision permits the executive to terminate his employment for any reason after a change of control and receive severance. A double trigger requires involuntary termination (or constructive termination for Good Reason) in addition to a change of control in order to trigger severance. In addition, in the April 2010 amendment, Messrs. McCullough and Amidon agreed to eliminate the contractual provision providing for reimbursement of medical expenses over and beyond those covered under the Company's medical plan.

The initial term of the new employment agreements is 21 months, until December 31, 2011. The agreements are automatically extended for an additional twelve months on December 31, 2010 and on each successive December 31 unless either party cancels the agreements.

The employment agreements continue to provide for (1) base annual salary to be reviewed annually (see Base Salary above); (2) an annual performance bonus as determined by the Committee based in part upon written objective criteria and in part upon the discretion of the Committee (see Short-Term Incentives above); (3) participation in the Company's long term equity program (see Long Term Incentives above); (4) participation in the Company's other cash, stock and benefit plans; (5) a Company-owned vehicle or vehicle allowance; (6) four weeks of vacation annually; (7) in the case of Messrs. McCullough and Amidon, \$1 million in life insurance benefits and company-paid disability benefits; and (8) in the case of Mr. McCullough, supplemental retirement benefits providing that, for each complete year worked, beginning with his employment date with the Company (November 13, 2006) and each anniversary thereof, he will earn and be entitled to receive an annual retirement payment for ten years following his termination of employment (see Retirement Plans above for a description of the program).

Each employment agreement contains a non-disclosure covenant and also provides that the executive officer is prohibited during the term of his employment and for a period of one year following his termination from engaging in any competing business within any county, or adjacent county, in which the Company is doing business.

Clawback Provisions. The employment agreements also contain a claw back provision requiring the executive to reimburse the Company for annual bonus payments received for each affected year if the Company must restate all or a portion of its financial statements due to material noncompliance by the Company with any financial reporting requirement under the securities laws. The reimbursements will be equal to the difference between the bonus paid to the employee for the affected years and the bonus that would have been paid to the employee had the financial results been properly reported.

Termination Benefits (other than for Change of Control). The executive is entitled to severance benefits upon certain termination events as outlined below:

When the Company terminates the executive officer without Just Cause or when the executive officer terminates employment for Good Reason, the severance benefits, to be paid in a lump sum within 40 days following the termination, are equal to two times (three times in the case of Messrs. McCullough and Amidon) the sum of: (a) the executive officer's highest annual base salary during the previous two years of employment immediately preceding the termination date plus (b) the highest annual bonus paid to the executive officer during the same two year period. The

executive officer is also entitled to (1) vesting of any unvested equity compensation (excluding all performance-based LTIP shares), (2) reimbursement for any unpaid expenses, (3) continued coverage under the Company's medical plan at the Company's cost for up to 18 months, (4) payment of any earned, unpaid bonus amounts, and (5) in the case of Mr. McCullough, the supplemental retirement benefits earned under the current employment agreement, although these benefits are

Table of Contents

not increased or accelerated. In addition, a terminated executive officer is entitled to receive any benefits that he otherwise would have been entitled to receive under our 401(k) and profit sharing plan, although those benefits are not increased or accelerated.

If an executive officer voluntarily terminates his employment with the Company for other than Good Reason, he is entitled to receive (1) the base salary and bonus, provided, however, that with respect to Messrs. McCullough and Amidon, there shall be no proration of the bonus in the event such executive officer leaves prior to March 31 in the year of his termination and, with respect to Messrs. Brookman, Shellum and Lauck, there shall be no bonus if such executive leaves prior to the last day of the year (2) any incentive, deferred or other compensation which has been earned or has become payable, but which has not yet been paid under the schedule originally contemplated in the agreement under which they were granted, (3) any unpaid expense reimbursement upon presentation by the executive officer of an accounting of such expenses in accordance with normal Company practices, and (4) any other payments for benefits earned under the employment agreement or Company plans.

If the executive officer's termination is due to his death or by the company due to his disability, certain benefits are provided to him. For this purpose, the definition of disability corresponds to the definition under IRC Section 409A and the supporting treasury regulations. The benefit payable shall be payable in a lump sum and shall be equal to base salary (plus bonus in the case of Messrs. McCullough and Amidon) that would otherwise have been paid for a six month period following the termination date plus, in the case of disability, ongoing base salary for up to 13 weeks following the disability.

Termination Benefits Following a Change of Control. If within two years following a change of control of the Company, either the executive is terminated by the Company without Just Cause or the executive terminates his employment for Good Reason, the executive is entitled to receive severance benefits equal to three times the sum of: (a) the executive officer's highest annual base salary during the previous two years of employment immediately preceding the termination date, plus (b) the highest annual bonus paid to the executive officer during the same two year period. If this occurs in the first two years of employment, Mr. Lauck's agreement provides that such bonus used for such calculation shall not be less than his target bonus percentage. The executive officer is also entitled to (1) vesting of any unvested equity compensation (excluding all performance-based LTIP shares), (2) reimbursement for any unpaid expenses, (3) continued coverage under the Company's medical plan at the Company's expense for up to 18 months, and (4) payment of any earned, unpaid bonus amounts. In addition, a terminated executive officer is entitled to receive any benefits that he otherwise would have been entitled to receive under our 401(k) and profit sharing plan, although those benefits are not increased or accelerated. The Company does not gross up any executive in the event a parachute tax is owed pursuant to Section 280G. In such circumstance, the severance payment will be reduced if it would result in a higher payment to the executive than paying such 280G tax.

The table below provides information regarding the amounts each of the executive officers would have been eligible to receive if a termination event had occurred as of December 31, 2009. For the purpose of valuing equity compensation, the presentation below assumes the closing price per share of the Company's stock on December 31, 2009 was \$18.21.

- (1) The benefits are calculated as of December 31, 2009. Please refer to previously disclosed Executive Employment Agreements for applicable termination provisions under the specified scenarios.
- (2) It is currently anticipated that an accrued and earned performance based and discretionary bonus would be paid to an Executive who has a voluntary termination of employment with the Company. However, it is not anticipated that a discretionary bonus, even if accrued, would be paid to an Executive who is terminated for Just Cause.
- (3) In the event of death or disability, the termination benefits would consist of (i) the base salary and bonus for the portion of the year the executive officer is employed by the Company, (ii) the base salary that would have been earned for the six months after termination; (iii) immediate vesting of all equity and option awards; (iv) the payment of deferred retirement compensation based upon the schedule originally contemplated in the deferred retirement compensation agreement or in a lump-sum no later than two and one-half months following the close of the calendar year in which the death or disability occurred; (v) reimbursement for any unpaid expenses; (vi) benefits earned under the 401(k) and profit sharing plan; and (vii) continued coverage under the Company's medical plan for up to 18 months following disability termination.

Effect of Change of Control on Equity Award. In addition to the change of control benefits discussed above, our equity plans and corresponding agreements provide that upon a change of control of the Company:

outstanding options and stock appreciation rights that are not vested and exercisable become fully vested and exercisable;

the restrictions on any outstanding restricted stock and restricted stock units lapse; and

any outstanding performance share or unit awards or performance-based restricted stock or restricted stock unit awards vest on a *pro rata* basis and the performance goals may be deemed to be earned based on a formula contained in the grant agreement.

We believe this single-trigger treatment in our stock plans is appropriate because it ensures that continuing employees are treated the same as terminated employees, and is particularly appropriate for performance based equity given the potential difficulty of replicating or achieving the performance goals after the change of control.

Other Agreements and Arrangements

Eric Stearns Separation Agreement. On May 19, 2009, the Company entered into a Separation Agreement with Eric Stearns, its prior Executive Vice President (the Stearns Separation Agreement). The Stearns Separation Agreement notes that Mr. Stearns resigned with Good Reason, as provided in his Employment Agreement. Mr. Stearns compensation included a payment of \$2,001,000 and acceleration of his restricted stock. Mr. Stearns was not compensated in excess of his rights under the Employment Agreement dated December 31, 2008, between the Company and Mr. Stearns.

Other Agreements. No current executive officers are investors in the Company's partnerships for which the Company is the general partner. Prior to 2007, however, prior executive officers could invest in a Board-approved executive drilling program at the Company's cost. Effective with the 2007 partnership, the Board eliminated this executive officer investment program.

5. *PERFORMANCE SHARES*: The maximum aggregate payout (determined as of the event of the applicable performance period) with respect to Awards of Performance Shares which are granted in any one fiscal year to any one Participant shall be equal to the Fair Market Value of one hundred fifty thousand (150,000) Shares.

6. *PERFORMANCE UNITS*: The maximum aggregate payout (determined as of the end of the applicable performance period) with respect to Awards of Performance Units which are granted in any one fiscal year to any one Participant shall be equal to one million five hundred thousand dollars (\$1,500,000).

B. *ADJUSTMENTS FOR AWARDS AND PAYOUTS*. Unless determined otherwise by the Committee, the following Awards and payouts will reduce, on a one-for-one basis, the number of Shares available for issuance under the Plan:

1. An Award of an Option;
2. An Award of a SAR;
3. An Award of Restricted Stock;
4. A payout of a Performance Share Award in Shares; and
5. A payout of a Performance Units Award in Shares.

Unless determined otherwise by the Committee, unless a Participant has received a benefit of ownership such as dividend or voting rights with respect to the Award, the following transactions will restore, on a one-for-one basis, the number of Shares available for issuance under the Plan:

1. A payout of a SAR or a Tandem SAR in cash;
2. A cancellation, termination, expiration, forfeiture or lapse for any reason (with the exception of the termination of a Tandem SAR upon exercise of the related Options, or the termination of a related Option upon exercise of the corresponding Tandem SAR) of any Award payable in Shares;

4. Shares withheld for payment of federal, state or local taxes;

C. *ADJUSTMENTS IN AUTHORIZED SHARES*. In the event of any change in corporate capitalization such as a stock split or stock dividend, or a corporate transaction such as any merger, consolidation, separation, including a spin-off, or other distribution of stock or property of the Company, any reorganization (whether or not such reorganization comes within the definition of such term in Code Section 368) or any partial or complete liquidation of the Company, such adjustment shall be made in the number and class of Shares which are reserved and may be

delivered under Section IV.A, in the number and class of and/or price of Shares subject to outstanding Awards granted under the Plan, and in the Award limits set forth in subsections IV.A.1 through IV.A.6, inclusive as may be determined to be appropriate and equitable by the Committee, in its sole discretion, to prevent dilution or enlargement of rights; provided, however, that the number of Shares subject to any Award shall always be a whole number.

V. ELIGIBILITY AND PARTICIPATION

A. *ELIGIBILITY.* Persons eligible to participate in this Plan include officers and certain key salaried Employees of the Company with potential to contribute to the success of the Company or its Subsidiaries, including Employees who are members of the Board. Notwithstanding the foregoing, Non-Employee Directors of the Company shall be eligible to participate in the Plan with respect to Awards of Non-Qualified Stock Options, Stock Appreciation Rights, Restricted Stock and RSUs, as specified in Article VI, Article VII, Article VIII and Article IX. Except as otherwise specifically provided in this Plan, the Committee shall determine the terms and conditions of any such Awards to Non-Employee Directors, including the terms and conditions which shall apply upon a termination of the Non-Employee Director's service as a member of the Board, and shall have full power and authority in its discretion to administer such Awards, subject to the terms of the Plan and applicable law.

B. *ACTUAL PARTICIPATION.* Subject to the provisions of the Plan, the Committee may, from time to time, select in its sole and broad discretion, upon or without the recommendation of officers of the Company, from all eligible Employees those to whom Awards shall be granted, and shall determine the nature and amount of each Award.

VI. STOCK OPTIONS

A. *GRANT OF OPTIONS.* Subject to the terms and provisions of the Plan, Options may be granted to Participants in such number, and upon such terms, and at any time and from time to time as shall be determined by the Committee. For purposes of this Article VI, with respect to NQSOs only, the term "Participant" shall include Non-Employee Directors of the Company.

B. *AWARD AGREEMENT.* Each Option grant shall be evidenced by an Award Agreement that shall specify the Option Price, the duration of the Option, the number of Shares to which the Option pertains, and such other provisions as the Committee shall determine. The Award Agreement also shall specify whether the Option is intended to be an ISO within the meaning of Code Section 422, or an NQSO, whose grant is intended not to fall under the provisions of Code Section 422.

C. *OPTION PRICE.* The Option Price for each grant of an Option under this Plan shall be at least equal to one hundred percent (100%) of the Fair Market Value of a Share on the date the Option is granted. Notwithstanding the foregoing, no ISO shall be granted to any person who, immediately prior to the grant, owns stock possessing more than ten percent (10%) of the total combined voting power of all classes of stock of the Company, unless the Option Price is at least one hundred ten percent (110%) of the Fair Market Value of a Share on the date of grant of the Option.

D. *DURATION OF OPTIONS.* Each Option granted to a Participant shall expire at such time as the Committee shall determine at the time of grant; provided, however, that no Option shall be exercisable later than the tenth (10th) anniversary following the date of its grant and provided further that no Option that is an ISO shall be exercisable later than the fifth (5th) anniversary following the date of its grant to a Participant, who at the time of such grant owns stock possessing more than ten percent (10%) of the total combined voting power of all classes of stock of the Company.

E. *EXERCISE OF OPTIONS.* Options granted under this Article VI shall be exercisable at such times and be subject to such restrictions and conditions as the Committee shall in each instance approve, which need not be the same for each grant or for each Participant.

F. *PAYMENT.* Options granted under this Article VI shall be exercised by the delivery of a written notice of exercise to the Company, setting forth the number of Shares with respect to which the Option is to be exercised, accompanied by full payment for the Shares.

The Option Price upon exercise of any Option shall be payable to the Company in full either: (a) in cash or its equivalent; or (b) by tendering previously acquired Shares having an aggregate Fair Market Value at the time of exercise equal to the total Option Price (provided that the Shares which are tendered must have been held by the Participant for at least six months prior to their tender to satisfy the Option Price); or (c) by a combination of (a) and (b).

A-7

Table of Contents

The Committee may also (a) allow cashless exercise as permitted under Federal Reserve Board's Regulation T, subject to applicable securities law restrictions, (b) cashless exercise by the Participant by the Company's withholding of Shares issuable upon exercise of an Option, or (c) by any other means which the Committee determines to be consistent with the Plan's purpose and applicable law.

Subject to any governing rules or regulations, as soon as practicable after receipt of a written notification of exercise and full payment, the Company shall deliver to the Participant, in the Participant's name, Share certificates in an appropriate amount based upon the number of Shares purchased under the Option(s).

G. RESTRICTIONS ON SHARE TRANSFERABILITY. The Committee may impose such restrictions on any Shares acquired pursuant to the exercise of an Option granted under this Article VI as it may deem advisable, including, without limitation, restrictions under applicable federal securities laws, under the requirements of any stock exchange or market upon which such Shares are then listed and/or traded, and under any blue sky or state securities laws applicable to such Shares.

H. TERMINATION OF EMPLOYMENT BY A PARTICIPANT WHO IS AN EMPLOYEE. With respect to a Participant who is an Employee, each Option Award Agreement shall set forth the extent to which the Participant shall have the right to exercise the Option following termination of the Participant's employment with the Company, with the exception of a termination of employment after a Change in Control, which is controlled by Article XVII. Such provisions shall be determined in the sole discretion of the Committee but shall conform to the limitations established in Section VI.D, shall be included in the Award Agreement entered into with each Participant, need not be uniform among all Options issued pursuant to this Article VI, and may reflect distinctions based on the reasons for termination of employment.

I. NONTRANSFERABILITY OF OPTIONS.

1. INCENTIVE STOCK OPTIONS. No ISO granted under the Plan may be sold, transferred, pledged, assigned or otherwise alienated or hypothecated, other than by will or by the laws of descent and distribution. Further, all ISOs granted to a Participant under the Plan shall be exercisable during his or her lifetime only by such Participant or the Participant's legal representative (to the extent permitted under Code Section 422).

2. NONQUALIFIED STOCK OPTIONS. No NQSO granted under this Article VI may be sold, transferred, pledged, assigned or otherwise alienated or hypothecated, other than by will or by the laws of descent and distribution. Further, except as otherwise provided in a Participant's Award Agreement, all NQSOs granted to a Participant under this Article VI shall be exercisable during his or her lifetime only by such Participant or the Participant's legal representative.

VII. STOCK APPRECIATION RIGHTS

A. GRANT OF SARS. Subject to the terms and conditions of the Plan, SARs may be granted to Participants at any time and from time to time as shall be determined by the Committee. The Committee may grant Freestanding SARs, Tandem SARs or any combination of these forms of SAR. For purposes of this Article VII, the term Participant shall include Non-Employee Directors of the Company; provided, however, that a Tandem SAR may not be granted to a Non-Employee Director unless the related Option is a NQSO.

The Committee shall have complete discretion in determining the number of SARs granted to each Participant (subject to Article IV herein) and, consistent with the provisions of the Plan, in determining the terms and conditions pertaining to such SARs.

The grant price of a Freestanding SAR shall equal the Fair Market Value of a Share on the date of grant of the SAR. The grant price of Tandem SARs shall equal the Option Price of the related Option.

B. *EXERCISE OF TANDEM SARs*. Tandem SARs may be exercised for all or part of the Shares subject to the related Option upon the surrender of the right to exercise the equivalent portion of the

A-8

Table of Contents

related Option. A Tandem SAR may be exercised only with respect to the Shares for which its related Option is then exercisable.

Notwithstanding any other provision of this Plan to the contrary, with respect to a Tandem SAR granted to an Employee in connection with an ISO: (i) the Tandem SAR will expire no later than the expiration of the underlying ISO; (ii) the value of the payout with respect to the Tandem SAR may be for no more than one hundred percent (100%) of the difference between the Option Price of the underlying ISO and the Fair Market Value of the Shares subject to the underlying ISO at the time the Tandem SAR is exercised; and (iii) the Tandem SAR may be exercised only when the Fair Market Value of the Shares subject to the ISO exceeds the Option Price of the ISO.

C. *EXERCISE OF FREESTANDING SARs.* Freestanding SARs may be exercised upon whatever terms and conditions the Committee, in its sole discretion, imposes upon them.

D. *SAR AGREEMENT.* Each SAR grant shall be evidenced by an Award Agreement that shall specify the grant price, the term of the SAR, and such other provisions as the Committee may determine.

E. *TERM OF SARs.* The term of an SAR granted under the Plan shall be determined by the Committee, in its sole discretion; provided, however, that such term shall not exceed ten (10) years.

F. *PAYMENT OF SAR AMOUNT.* Upon exercise of an SAR, a Participant shall be entitled to receive payment from the Company in an amount determined by multiplying:

1. the difference between the Fair Market Value of a Share on the date of exercise over the grant price; by
2. the number of Shares with respect to which the SAR is exercised.

At the discretion of the Committee, the payment upon SAR exercise may be in cash, in Shares of equivalent value, or in some combination thereof. The Committee's determination regarding the form of SAR payout shall be set forth in the Award Agreement pertaining to the grant of the SAR.

G. *TERMINATION OF EMPLOYMENT BY A PARTICIPANT WHO IS AN EMPLOYEE.* With respect to a Participant who is an Employee, each SAR Award Agreement shall set forth the extent to which the Participant shall have the right to exercise the SAR following termination of the Participant's employment with the Company and/or its Subsidiaries, with the exception of a termination of employment that occurs after a Change in Control, which is controlled by Article XVII. Such provisions shall be determined in the sole discretion of the Committee, shall be included in the Award Agreement entered into with Participants, need not be uniform among all SARs issued pursuant to the Plan and may reflect distinctions based on the reasons for termination of employment.

H. *NONTRANSFERABILITY OF SARs.* No SAR granted under the Plan may be sold, transferred, pledged, assigned or otherwise alienated or hypothecated, other than by will or by the laws of descent and distribution. Further, except as otherwise provided in a Participant's Award Agreement, all SARs granted to a Participant under the Plan shall be exercisable during his or her lifetime only by such Participant or the Participant's legal representative.

VIII. RESTRICTED STOCK

A. *GRANT OF RESTRICTED STOCK.* Subject to the terms and provisions of the Plan, the Committee, at any time and from time to time, may grant Shares of Restricted Stock to Participants in such amounts as the Committee shall determine. For purposes of this Article VIII, the term Participant shall include Non-Employee Directors of the Company.

B. *RESTRICTED STOCK AGREEMENT.* Each Restricted Stock grant shall be evidenced by a Restricted Stock Award Agreement that shall specify the Period(s) of Restriction, the number of Shares of Restricted Stock granted and such other provisions as the Committee shall determine.

C. *NONTRANSFERABILITY.* Except as provided in this Article VIII and subject to federal securities laws, the Shares of Restricted Stock granted under the Plan may not be sold, transferred, pledged,

A-9

assigned or otherwise alienated or hypothecated until the end of the applicable Period of Restriction established by the Committee and specified in the Restricted Stock Award Agreement, or upon earlier satisfaction of any other conditions, as specified by the Committee in its sole discretion and as set forth in the Restricted Stock Award Agreement. All rights with respect to the Restricted Stock granted to a Participant under the Plan shall be available during his or her lifetime only to such Participant or the Participant's legal representative for the Period of Restriction.

D. *OTHER RESTRICTIONS.* Subject to Article XI herein, the Committee may impose such other conditions and/or restrictions on any Shares of Restricted Stock granted pursuant to the Plan as it may deem advisable including, without limitation, a requirement that Participants pay a stipulated purchase price for each Share of Restricted Stock, restrictions based upon the achievement of specific performance goals (Company-wide, divisional and/or individual), time-based restrictions on vesting following the attainment of the performance goals and/or restrictions under applicable federal or state securities laws.

The Company may retain the certificates representing Shares of Restricted Stock in the Company's possession until such time as all conditions and/or restrictions applicable to such Shares have been satisfied.

Except as otherwise provided in this Article VIII and subject to Federal securities laws, Shares of Restricted Stock covered by each Restricted Stock grant made under the Plan shall become freely transferable by the Participant after the last day of the applicable Period of Restriction.

E. *VOTING RIGHTS.* Participants holding Shares of Restricted Stock granted hereunder may be granted the right to exercise full voting rights with respect to those Shares during the Period of Restriction.

F. *DIVIDENDS AND OTHER DISTRIBUTIONS.* During the Period of Restriction, Participants holding Shares of Restricted Stock granted hereunder shall be credited with regular cash dividends paid with respect to the underlying Shares while they are so held. The Committee may apply any restrictions to the dividends that the Committee deems appropriate. Without limiting the generality of the preceding sentence, if the grant or vesting of Restricted Stock granted to a Covered Employee is designed to comply with the requirements of the Performance-Based Exception, the Committee may apply any restrictions it deems appropriate to the payment of dividends declared with respect to such Restricted Stock, such that the dividends and/or the Restricted Stock maintain eligibility for the Performance-Based Exception. Notwithstanding anything to the contrary herein, (i) dividends accrued on Restricted Stock will only be paid if the Restricted Stock vests; and (ii) for any Award that is governed by Code Section 409A regarding non-qualified deferred compensation, the Committee shall establish the schedule of any payments of dividends in accordance with the requirements of Code Section 409A or any guidance promulgated thereunder.

G. *TERMINATION OF EMPLOYMENT BY A PARTICIPANT WHO IS AN EMPLOYEE.* With respect to a Participant who is an Employee, each Restricted Stock Award Agreement shall set forth the extent to which the Participant shall have the right to receive nonvested Restricted Shares following termination of the Participant's employment with the Company. Such provisions shall be determined in the sole discretion of the Committee, shall be included in the Award Agreement entered into with each Participant, need not be uniform among all Shares of Restricted Stock issued pursuant to the Plan and may reflect distinctions based on the reasons for termination of employment.

H. *VESTING OF RESTRICTED STOCK AWARDS.* Unless otherwise provided in the Plan or under an Award Agreement: (1) all Awards of Restricted Stock that vest based on the passage of time which are granted to a Participant shall vest no more rapidly than pro-rata over a three (3) year period from the date of grant (the Time-Based Restricted Stock); and (2) all Awards of Restricted Stock that vest based on the achievement of specific measures designed to satisfy the Performance-Based Exception or other performance measures which are granted to a Participant shall vest no more rapidly than one (1) year from the date of grant (the Performance-Based Restricted

Stock); provided, however: (1) up to ten percent (10%) of the Time-Based Restricted Stock Awards, Performance-Based Restricted Stock Awards,

or both, may by designation of the Committee (as reflected in the Restricted Stock Award Agreement), be subject to a more accelerated time-based vesting schedule or performance-based vesting schedule, as the case may be; and (2) Restricted Stock Awards which fully vest upon certain termination events as determined by the Committee and specified in the Employee's Restricted Stock Award Agreement (or as a result of termination from the Board as a Non-Employee Director pursuant to Section VIII.I.3.f.) or a Change in Control shall not count as part of this ten percent (10%) pool.

I. ADDITIONAL PROVISIONS RELATED TO RESTRICTED STOCK AWARDS TO NON-EMPLOYEE DIRECTORS.

1. ***AWARD DATES.*** Effective as of the date specified by the Committee in its sole discretion, each Non-Employee Director will be awarded such number of Shares of Restricted Stock as determined by the Board, after consideration of the recommendation of the Committee. Non-Employee Directors may, but need not, be awarded the same number of Shares of Restricted Stock. A Non-Employee Director who is first elected to the Board on a date subsequent to the date specified by the Committee in its sole discretion will be awarded such number of Shares of Restricted Stock as of such date of election as determined by the Board, after consideration of the recommendation of the Committee.

2. ***DIVIDEND RIGHTS OF HOLDERS OF RESTRICTED STOCK.*** Notwithstanding Section VIII.F., upon issuance of a Restricted Stock Agreement, the Non-Employee Director in whose name the Restricted Stock Agreement is registered will, subject to the provisions of the Plan have the right to receive cash dividends and other cash distributions thereon.

3. ***PERIOD OF RESTRICTION.*** Restricted Stock will be subject to the restrictions set forth in Section VIII.I.4. and the other provisions of the Plan during the Period of Restriction commencing on the date as of which the Restricted Stock is awarded (the Award Date) and ending on the earliest of the first to occur of the following:

- a. the retirement of the Non-Employee Director from the Board in compliance with the Board's retirement policy as then in effect;
- b. the termination of the Non-Employee Director's service on the Board as a result of the Non-Employee Director's not being nominated for reelection by the Board;
- c. the termination of the Non-Employee Director's service on the Board because of the Non-Employee Director's resignation or failure to stand for reelection with the consent of the Company's Board (which means approval by at least 80% of the Directors voting, with the affected Non-Employee Director abstaining);
- d. the termination of the Non-Employee Director's service on the Board because the Non-Employee Director, although nominated for reelection by the Board, is not reelected by the stockholders;
- e. the termination of the Non-Employee Director's service on the Board because of (i) the Non-Employee's Director's resignation at the request of the Nominating and Governance Committee of the Board (or successor committee), (ii) the Non-Employee Director's removal by action of the stockholders or by the Board, or (iii) a Change in Control of the Company;
- f. the termination of the Non-Employee Director's service on the Board because of Disability or death; or
- g. the vesting of the Restricted Stock.

Section VIII.I.3.a. through g. above are subject to the further restrictions that a removal or resignation for Cause will be deemed to not constitute completion of the Period of Restriction and will result in a forfeiture of Restricted Stock

not previously vested under Section VIII.I.4. For purposes of this Plan, Cause will be a good faith determination by the Board that the Non-Employee Director (i) failed to substantially perform his or her duties (other than a failure resulting from his or her incapacity due to physical or mental illness) after a written demand for substantial performance has been delivered to him

or her by the Board, which demand specifically identifies the manner in which the Board believes such Non-Employee Director has not substantially performed his or her duties; (ii) has engaged in conduct the consequences of which are materially adverse to the Company, monetarily or otherwise; or (iii) has pleaded guilty or *nolo contendere* to or been convicted of a felony. The Non-Employee Director will not be deemed to have been terminated for Cause unless there will have been delivered to the Non-Employee Director a letter from the Board setting forth the reasons for the Company's termination of the Non-Employee Director for Cause and, with respect to (i) or (ii), stating that the Non-Employee Director has failed to cure such reason for termination within thirty (30) days after the Non-Employee Director's receipt of such notice.

4. *FORFEITURE OF RESTRICTED STOCK.* As of the date (Termination Date) a Non-Employee Director ceases to be a member of the Board for any reason, including but not limited to removal or resignation for Cause, the Non-Employee Director shall forfeit to the Company all Restricted Stock awarded to the Non-Employee Director for which the Period of Restriction has not ended pursuant to Section VIII.I.3. as of or prior to the Termination Date.

IX. RESTRICTED STOCK UNITS

A. *GRANT OF RESTRICTED STOCK UNITS.* Subject to the terms of the Plan, RSUs may be granted to Participants in such amounts and upon such terms, and at any time and from time to time, as shall be determined by the Committee. For purposes of this Article IX, the term Participant shall include Non-Employee Directors of the Company.

B. *RESTRICTED STOCK UNIT AGREEMENT.* Each RSU grant shall be evidenced by a Restricted Stock Unit Award Agreement that shall specify the Period(s) of Restriction, the number of RSUs granted, and such other provisions as the Committee may determine.

C. *VALUE OF RESTRICTED STOCK UNIT.* Each RSU shall have a value that is equal to the Fair Market Value of a Share on the date of grant.

D. *FORM AND TIMING OF PAYMENT OF RESTRICTED STOCK UNITS.* Settlement of vested RSUs may be made in the form of (i) cash, (ii) Shares or (iii) any combination of both, as determined by the Committee at the time of the grant of the RSUs, in its sole discretion. Vested RSUs shall be settled in a lump sum as soon as administratively practicable after the vesting date, but in no event later than two and one-half (2 1/2) months following the vesting date. The amount of such settlement shall be equal to the Fair Market Value of the RSUs on the vesting date.

E. *DIVIDEND EQUIVALENTS.* Each RSU shall be credited with an amount equal to the dividends paid on a Share between the date of grant and the date such RSU is paid to the Participant (if at all). Dividend equivalents shall vest, if at all, upon the same terms and conditions governing the vesting of RSUs under the Plan. Payment of the dividend equivalent shall be made at the same time as payment of the RSU and shall be made without interest or other adjustment. If the RSU is forfeited, the Participant shall have no right to dividend equivalents.

F. *VOTING RIGHTS.* The holders of RSUs shall have no voting rights.

G. *NONTRANSFERABILITY.* RSUs may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated, other than by will or by laws of descent and distribution.

X. PERFORMANCE UNITS AND PERFORMANCE SHARES

A. *GRANT OF PERFORMANCE UNITS/SHARES.* Subject to the terms of the Plan, Performance Units and/or Performance Shares may be granted to Participants in such amounts and upon such terms, and at any time and from

time to time, as shall be determined by the Committee.

B. *PERFORMANCE UNIT/SHARE AGREEMENT*. Each Performance Unit or Performance Share grant shall be evidenced by a Performance Unit or Performance Share Award Agreement, as the case may be, that shall specify the number of Performance Units or Performance Shares granted and such other provisions as the Committee may determine.

A-12

Table of Contents

C. *VALUE OF PERFORMANCE UNITS/SHARES.* Each Performance Unit shall have an initial value that is established by the Committee at the time of grant. Each Performance Share shall have an initial value equal to the Fair Market Value of a Share on the date of grant. The Committee shall set performance goals in its discretion which, depending on the extent to which they are met, will determine the number and/or value of Performance Units/Shares that will be paid out to the Participant. For purposes of this Article X, the time period during which the performance goals must be met shall be called a Performance Period.

D. *EARNING OF PERFORMANCE UNITS/SHARES.* Subject to the terms of this Plan, after the applicable Performance Period has ended, the holder of Performance Units/Shares shall be entitled to receive payout on the number and value of Performance Units/Shares earned by the Participant over the Performance Period, to be determined as a function of the extent to which the corresponding performance goals have been achieved.

E. *FORM AND TIMING OF PAYMENT OF PERFORMANCE UNITS/SHARES.* Payment of earned Performance Units/Shares shall be made in a single lump sum following the close of the applicable Performance Period. Subject to the terms of this Plan, the Committee, in its sole discretion, may pay earned Performance Units/Shares in the form of cash or in Shares (or in a combination thereof) which have an aggregate Fair Market Value equal to the value of the earned Performance Units/Shares at the close of the applicable Performance Period. Such Shares may be granted subject to any restrictions deemed appropriate by the Committee. The determination of the Committee with respect to the form of payout of such Awards shall be set forth in the Award Agreement pertaining to the grant of the Award. Payment shall be made no later than two and one-half (2 1/2) months following the close of the Performance Period.

F. *SEPARATION FROM SERVICE DUE TO DEATH OR DISABILITY.* In the event the Participant incurs a Separation From Service by reason of death or Disability during a Performance Period, the Participant shall not receive a payout of the Performance Units/Shares, unless determined otherwise by the Committee or set forth in the Participant's Award Agreement.

Payment of earned Performance Units/Shares shall be made at a time specified by the Committee in its sole discretion and set forth in the Participant's Award Agreement.

G. *TERMINATION OF EMPLOYMENT FOR OTHER REASONS.* In the event that a Participant's employment terminates for any reason other than those reasons set forth in Section X.F. herein, all Performance Units/Shares intended to qualify for the Performance-Based Exception shall be forfeited by the Participant to the Company.

H. *NONTRANSFERABILITY.* Except as otherwise provided in a Participant's Award Agreement, Performance Units/Shares may not be sold, transferred, pledged, assigned or otherwise alienated or hypothecated, other than by will or by the laws of descent and distribution. Further, except as otherwise provided in a Participant's Award Agreement, a Participant's rights under the Plan shall be exercisable during the Participant's lifetime only by the Participant or the Participant's legal representative.

I. *NO DIVIDEND AND VOTING RIGHTS.* Participants will not be entitled to receive any dividends declared with respect to Shares which have been earned in connection with grants of Performance Units and/or Performance Shares, but not yet distributed to Participants nor shall Participants have voting rights with respect to such Shares.

XI. PERFORMANCE MEASURES

Unless and until the Committee proposes for stockholder vote and the Company's stockholders approve a change in the general performance measures set forth in this Article XI, the attainment of which may determine the degree of payout and/or vesting with respect to Awards to Covered Employees which measures are designed to qualify for the Performance-Based Exception, the performance measure(s) to be used for purposes of such grants may be measured at

the Company level, at a Subsidiary or Affiliate level, or at an operating unit level and shall be chosen from among the following: net income

A-13

Table of Contents

either before or after taxes (including adjusted net income), share price, earnings per share (basic or diluted), total stockholder return, return on assets, return on equity, operating income, return on capital or investment, cash flow or adjusted cash flow from operations, economic value added or adjusted cash flow per Share (net income plus or minus change in operating assets and liabilities), debt level, cost reduction targets, equity ratios, capital efficiency (adjusted EBITDA divided by production and divided by average funding and development cost per unit), operating and general and administrative expense per Mcfe (the sum of total lease operating expense, exploration general and administrative expense and corporate general and administrative expense divided by Mcfe (mcf equivalent for gas and oil)), average reserve replacement ratio (the sum of extensions and discoveries, revisions in previous estimates and purchase of reserves divided by the sum of the same), production (actual production volume for a specified period of time) (including, but not limited to, any or all of such measures in comparison to the Company's competitors, the industry or some other comparator group), amount of the oil and gas reserves, oil and gas reserve additions, and costs of finding oil and gas reserves.

The Committee shall have the discretion to adjust the determinations of the degree of attainment of the preestablished performance goals; provided, however, that Awards which are designed to qualify for the Performance-Based Exception, and which are held by Covered Employees, may not be adjusted upward (the Committee shall retain the discretion to adjust such Awards downward).

In the event that applicable tax and/or securities laws or exchange listing standards change to permit Committee discretion to alter the governing performance measures without obtaining stockholder approval of such changes, the Committee shall have sole discretion to make such changes without obtaining stockholder approval. In addition, in the event that the Committee determines that it is advisable to grant Awards which shall not qualify for the Performance-Based Exception, the Committee may make such grants without satisfying the requirements of Code Section 162(m).

In the case of any Award which is granted subject to the condition that a specified performance measure be achieved, no payment under such Award shall be made prior to the time that the Committee certifies in writing that the performance measure has been satisfied, in accordance with Internal Revenue Service requirements. No such certification is required, however, in the case of an Award that is based solely on an increase in the value of a Share from the date such Award was made.

XII. BENEFICIARY DESIGNATION

Each Participant under the Plan may, from time to time, name any beneficiary or beneficiaries (who may be named contingently or successively) to whom any benefit under the Plan is to be paid in case of his or her death before he or she receives any or all of such benefit. Each such designation shall revoke all prior designations by the same Participant, shall be in a form prescribed by the Company, and will be effective only when filed by the Participant in writing with the Company during the Participant's lifetime. In the absence of any such designated beneficiary, benefits remaining unpaid at the Participant's death shall be paid to the Participant's estate.

XIII. DEFERRALS

The Committee may permit or require a Participant to defer such Participant's receipt of the payment of cash or the delivery of Shares that would otherwise be due to such Participant by virtue of the exercise of an Option or SAR, the lapse or waiver of restrictions with respect to Restricted Stock or Restricted Stock Units, or the satisfaction of any requirements or goals with respect to Performance Units/Shares. If any such deferral election is required or permitted, the Committee shall, in its sole discretion, establish rules and procedures for such payment deferrals, provided, however, all deferrals shall be made in accordance with all applicable requirements of Code Section 409A or any guidance promulgated thereunder.

Table of Contents

XIV. RIGHTS OF EMPLOYEES

A. *EMPLOYMENT.* Nothing in the Plan shall interfere with or limit in any way the right of the Company to terminate any Participant's employment at any time, nor confer upon any Participant any right to continue in the employ of the Company.

B. *PARTICIPATION.* No Employee shall have the right to be selected to receive an Award under this Plan or, having been so selected, to be selected to receive a future Award.

XV. AMENDMENT, MODIFICATION, TERMINATION AND ADJUSTMENTS

A. *AMENDMENT, MODIFICATION, AND TERMINATION.* Subject to the terms of the Plan, the Board, upon recommendation of the Committee, may at any time and from time to time, alter, amend, suspend or terminate the Plan in whole or in part for any purpose which the Committee deems appropriate and that is otherwise consistent with Code Section 409A; provided, however, no amendment shall, without shareholder approval, (i) materially increase the benefits accruing to Participants under the Plan; (ii) materially increase the number of securities which may be issued under the Plan; or (iii) materially modify the requirements for participation in the Plan.

Except in connection with a corporate transaction involving the Company (including, without limitation, any stock dividend, stock split, extraordinary cash dividend, recapitalization, reorganization, merger, consolidation, split-up, spin-off, combination, or exchange of shares), the terms of outstanding Awards may not be amended to reduce the exercise price of outstanding Options or SARs or cancel outstanding Options or SARs in exchange for cash, other awards or Options or SARs with an exercise price that is less than the exercise price of the original Options or SARs without shareholder approval.

B. *ADJUSTMENT OF AWARDS UPON THE OCCURRENCE OF CERTAIN UNUSUAL OR NONRECURRING EVENTS.* The Committee may make adjustments in the terms and conditions of, and the criteria included in, Awards in recognition of unusual or nonrecurring events (including, without limitation, the events described in Section IV.C. hereof) affecting the Company or the financial statements of the Company or of changes in applicable laws, regulations or accounting principles, whenever the Committee determines that such adjustments are appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Plan; provided that unless the Committee determines otherwise, no such adjustment shall be authorized to the extent that such authority would be inconsistent with the Plan or Awards meeting the requirements of Code Sections 162(m) and 409A, as from time to time amended.

C. *AWARDS PREVIOUSLY GRANTED.* Notwithstanding any other provision of the Plan to the contrary (but subject to Section XV.B. hereof), no termination, amendment or modification of the Plan shall adversely affect in any material way any Award previously granted under the Plan without the written consent of the Participant holding such Award.

D. *COMPLIANCE WITH CODE SECTION 162(m).* At all times when Code Section 162(m) is applicable, all Awards granted under this Plan shall comply with the requirements of Code Section 162(m); provided, however, that in the event the Committee determines that such compliance is not desired with respect to any Award or Awards available for grant under the Plan, then compliance with Code Section 162(m) will not be required. In addition, in the event that changes are made to Code Section 162(m) to permit greater flexibility with respect to any Award or Awards available under the Plan, the Committee may, subject to this Article XV, make any adjustments it deems appropriate consistent with the changes made to Code Section 162(m).

XVI. PAYMENT OF PLAN AWARDS AND CONDITIONS THEREON

A. *EFFECT OF COMPETITIVE ACTIVITY.* Anything contained in the Plan to the contrary notwithstanding, unless otherwise covered in an employment agreement by and between the Company and the Participant, with respect to any Participant who is an Employee, if the employment of any Participant shall terminate, for any reason other than death, while any Award to such Participant is outstanding hereunder, and such Participant has not yet received the Shares covered by such Award or otherwise

received the full benefit of such Award, such Participant, if otherwise entitled thereto, shall receive such Shares or benefit only if, during the entire period from the date of such Participant's termination to the date of such receipt, such Participant shall have earned such Award by: (i) making himself or herself available, upon request, at reasonable times and upon a reasonable basis, to consult with, supply information to, and otherwise cooperate with the Company or any Subsidiary or Affiliate thereof with respect to any matter that shall have been handled by him or her or under his or her supervision while he or she was in the employ of the Company or of any Subsidiary or Affiliate thereof; and (ii) refraining from engaging in any activity within any county or parish, or adjacent to any county or parish, in which the Company owns any oil and gas interests that is directly or indirectly in competition with any gas, exploration and production activities, including oil and gas leasing or drilling activities of the Company or any Subsidiary or Affiliate thereof for a period of one (1) year following his or her termination of employment.

B. NONFULFILLMENT OF COMPETITIVE ACTIVITY CONDITIONS; WAIVERS UNDER THE PLAN. In the event of a Participant's nonfulfillment of any condition set forth in Section XVI.A. hereof, such Participant's rights under any Award shall be forfeited and canceled forthwith; provided, however, that the nonfulfillment of such condition may at any time (whether before, at the time of, or subsequent to termination of employment) be waived by the Committee upon its determination that in its sole judgment there shall not have been and will not be any substantial adverse effect upon the Company or any Subsidiary or Affiliate thereof by reason of the nonfulfillment of such condition.

XVII. CHANGE IN CONTROL

A. TREATMENT OF OUTSTANDING AWARDS. Notwithstanding any provisions in the Participant's Employment Agreement to the contrary, but subject to Section XVII.B. herein or the Plan governing the particular Award, upon the occurrence of a Change in Control:

1. any and all Options and SARs granted hereunder shall become immediately exercisable;
2. any Periods of Restriction and restrictions imposed on Restricted Stock or RSUs which are not intended to qualify for the Performance-Based Exception shall lapse; and
3. any Award intended to qualify for the Performance-Based Exception shall be earned in accordance with the applicable Award Agreement.

B. TERMINATION, AMENDMENT AND MODIFICATIONS OF CHANGE-IN-CONTROL PROVISIONS. Notwithstanding any other provision of the Plan or any Award Agreement provision, the provisions of this Article XVII may not be terminated, amended or modified on or after the date of an event, commencing upon material discussions by the Board respecting a possible transaction that would result in a Change in Control, which is likely to give rise to a Change in Control to affect adversely any Award theretofore granted under the Plan without the prior written consent of the Participant with respect to said Participant's outstanding Awards.

XVIII. TAX PROVISIONS

A. TAX WITHHOLDING. The Company shall have the power and the right to deduct or withhold, or require a Participant who is an Employee to remit to the Company, an amount sufficient to satisfy federal, state and local taxes, domestic or foreign, required by law or regulation to be withheld with respect to any taxable event arising as a result of this Plan.

B. SHARE WITHHOLDING. With respect to withholding required upon the exercise of Options or SARs, upon the lapse of restrictions on Restricted Stock or Restricted RSUs, upon achievement of the performance goals on

Performance Shares or Performance Units or upon any other taxable event arising as a result of Awards granted hereunder, Participants who are Employees may elect, subject to the approval of the Committee, to satisfy the withholding requirement, in whole or in part, by having the Company withhold Shares having a Fair Market Value on the date the tax is to be determined at least equal to the minimum, but not more than the maximum, statutory tax which could be imposed on the transaction. All such elections shall be irrevocable, made in writing, and signed by the Participant, and

D. REQUIREMENT OF NOTIFICATION UPON DISQUALIFYING DISPOSITION UNDER CODE SECTION 421(b). If any Participant shall make any disposition of shares of stock delivered pursuant to the exercise of an Incentive Stock Option under the circumstances described in Code Section 421(b) (relating to certain disqualifying dispositions), such Participant shall notify the Company of such disposition within ten (10) days thereof.

XIX. INDEMNIFICATION

Each person who is or shall have been a member of the Committee, or of the Board, shall be indemnified and held harmless by the Company against and from any loss, cost, liability or expense that may be imposed upon or reasonably incurred by him or her in connection with or resulting from any claim, action, suit or proceeding to which he or she may be a party or in which he or she may be involved by reason of any action taken or failure to act under the Plan and against and from any and all amounts paid by him or her in settlement thereof, with the Company's approval, or paid by him or her in satisfaction of any judgment in any such action, suit or proceeding against him or her, provided he or she shall give the Company an opportunity, at its own expense, to handle and defend the same before he or she undertakes to handle and defend it on his or her own behalf. The foregoing right of indemnification shall not be exclusive of any other rights of indemnification to which such persons may be entitled under the Company's Articles of Incorporation or Bylaws, as a matter of law or otherwise, or any power that the Company may have to indemnify them or hold them harmless.

XX. SUCCESSORS

All obligations of the Company under the Plan with respect to Awards granted hereunder shall be binding on any successor to the Company, whether the existence of such successor is the result of a direct or indirect purchase, merger, consolidation or otherwise, of all or substantially all of the business or assets of the Company.

C. REQUIREMENTS OF LAW. The granting of Awards and the issuance of Shares under the Plan shall be subject to all applicable laws, rules and regulations, and to such approvals by any governmental agencies or national securities exchanges as may be required.

E. *CODE SECTION 409A COMPLIANCE.* Notwithstanding any other provision of this Plan to the contrary, all Awards under this Plan that are subject to Code Section 409A shall be designed and administered in a manner that does not result in the imposition of tax or penalties under Code Section 409A. Accordingly, Awards under this Plan that are subject to Code Section 409A shall comply with the following requirements, as applicable.

1. *Distribution to Specified Employees Upon Separation from Service.* To the extent that payment under an Award which is subject to Code Section 409A is due to a Specified Employee on account of the Specified Employee's Separation from Service from the Company or its Affiliate or Subsidiary, such payment shall be delayed until the first day of the seventh (7th) month following such Separation from Service (or as soon as practicable thereafter). The Committee, in its discretion, may provide in the Award document for the payment of interest at a rate set by the Committee for such six-month period. F. *GOVERNING LAW.* To the extent not preempted by federal law, the Plan, and all agreements hereunder, shall be construed in accordance with and governed by the laws of the State of Colorado.
