Net Assets 100.0%	\$ 58,576,569

Percentages are calculated as a percentage of net assets applicable to common shares.

- (a) 144A-Private Placement security which is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. This security may only be resold in transactions exempt from

registration
which are
normally those
transactions
with qualified
institutional
buyers.

- (b) Market value is determined in accordance with procedures established in good faith by the Board of Trustees.
- (c) Non-income producing security.
- (d) Security has been deemed illiquid.

Van Kampen High Income Trust II**Portfolio of Investments § March 31, 2010 (Unaudited) continued**

Security Valuation Investments are valued by an independent pricing service using the mean of the last reported bid and asked prices. For those securities where quotations or prices are not readily available, valuations are obtained from yield data relating to instruments or securities with similar characteristics in accordance with procedures established in good faith by the Board of Trustees. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, or the appropriate stock exchange (for exchange-traded securities), analysis of the issuer's financial statements or other available documents and, if necessary, available information concerning other securities in similar circumstances. Futures contracts are valued at the settlement price established each day on the exchange on which they are traded. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates fair value.

Fair Value Measurements Financial Accounting Standards Board Accounting Standards Codification (ASC 820), *Fair Value Measurements and Disclosures* (ASC 820) (formerly known as FAS 157), defines fair value as the price that the Trust would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. ASC 820 establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Trust's investments. The inputs are summarized in the three broad levels listed below.

Level 1 Prices are based on quoted prices in active markets for identical investments

Level 2 Prices are based on other significant observable inputs which may include quoted prices (for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 Prices are based on significant unobservable inputs including the Trust's own assumptions in determining the fair value of investments. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, or the appropriate stock exchange (for exchange-traded securities), analysis of the issuer's financial statements or other available documents and, if necessary, available information concerning other securities in similar circumstances.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of March 31, 2010 in valuing the Trust's investments carried at value.

Investments	Level 1 Quoted Prices	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs (a)	Total
Investments in an Asset Position				
Corporate Bonds	\$	\$ 81,655,122	\$	\$81,655,122
Common and Preferred Stocks				
Apparel, Accessories & Luxury Goods				

Highways & Railtracks			
IT Consulting & Other Services			
Other Diversified Financial Services		218,784	218,784
Repurchase Agreements		1,809,000	1,809,000
Total Investments in an Asset Position	\$	\$ 83,682,906	\$ 83,682,906

(a) On December 31, 2009 and March 31, 2010, the Trust held securities classified as Level 3 with market values of zero.

Transfers between investment levels may occur as the markets fluctuate and/or as the availability of data used in an investment's valuation changes. The Trust recognizes the transfer of investments into or out of a valuation level at month end. As of the three-month period ended March 31, 2010, the Trust did not have any investments transfer between valuation levels.

Item 2. Controls and Procedures.

(a) The Trust's principal executive officer and principal financial officer have concluded that the Trust's disclosure controls and procedures are sufficient to ensure that information required to be disclosed by the Trust in this Form N-Q was recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, based upon such officers' evaluation of these controls and procedures as of a date within 90 days of the filing date of the report.

(b) There were no changes in the Trust's internal control over financial reporting that occurred during the registrant's fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Trust's internal control over financial reporting.

Item 3. Exhibits.

(a) A certification for the Principal Executive Officer of the registrant is attached hereto as part of EX-99.cert.

(b) A certification for the Principal Financial Officer of the registrant is attached hereto as part of EX-99.cert.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
