15.A	The Board of Directors' proposal regarding guidelines for remuneration to the executive management the Board of Directors' proposal in essence: the TeliaSonera objective is to maximize the effectiveness of cash and equity in remuneration programs to attract, retain and motivate high calibre executives needed to maintain the success of the business. Remuneration should be built upon a total reward approach allowing for a market relevant but not market	Management	For

leading and cost effective executive remuneration delivery based on the components base salary, variable pay, pension and other benefits; the base salary should reflect the competence required, responsibility, complexity and business contribution of the executive; the base salary should also reflect the performance of the employee and consequently be individual and differentiated; TeliaSonera may have annual and long term variable pay programs; a variable pay program should reflect the EU Commission recommendation 2009/3177/EG and the Swedish Code of Corporate Governance; variable pay programs should contain criteria which are supporting an increased shareholder value and should have a defined ceiling in relation to the executive's annual base salary; a program should have a set of pre-determined objectives, which are measurable and for each variable pay objective it should be stated what performance is required to reach the starting point (minimum requirement for payout) and what performance is required to reach the maximum (cap); an annual variable pay program should reward performance measured over a maximum period of 12 months, should ensure the long-term sustainability of the Company and be capped to a maximum of the executive's annual base salary of 40 percent; the objectives should be designed in such a way which allows the executive to reach the threshold for a solid performance, the target level for a performance meeting expectations and the maximum level for an exceptional performance; a long-term variable pay program should ensure long-term sustainability of the Company, secure a joint interest in increased shareholder value and provide an alignment between senior management and the shareholders by sharing risks and rewards of the TeliaSonera share price; the program may be annually repeated and shall reward performance measured over a minimum of a three year period, be capped to a maximum of 50 percent per annum of the annual base salary and should be equity based (invested and delivered in TeliaSonera shares with the ambition that the employee should remain shareholders also after vesting); a prerequisite for payout from such a program is the continuous employment at the end of the earnings period. Approximately 100 Members of the senior management may be eligible to a long-term variable pay program out of which approximately 10 belongs to the group executive management; the program measures performance over a minimum 3 year period in relation to Earnings Per Share (EPS) weight 50 percent and total shareholders return (TSR) compared to a corresponding TSR development of a pre-defined peer-group of companies weight 50 percent the prevalence of a long-term variable pay program is subject to the approval of the annual shareholders' meeting of the Company; If extraordinary circumstances occur the Board shall have the discretionary right to adjust variable salary payments; the Board shall reserve the right to reclaim variable components of remuneration that were awarded on the basis of data which subsequently proved to be manifestly misstated. Retirement benefits shall be based on the defined contribution method; pensionable salary is the base salary; the executive may be entitled to a company car or other similar benefit; the termination period for the executive management may be up to six month given from the employee and 12 months from the employer (for the CEO 6 months); in case of termination from the Company the executive may be entitled to a severance payment of up to 12 months (for the

CEO 24 months); severance pay shall be paid on a monthly basis in amounts equal to the base salary; the severance pay shall not constitute a basis for calculation of holiday pay or pension benefits and shall be reduced if the executive has a new employment or conducts his own business; the executive may be covered by health care provisions, travel insurance etc; in accordance with local labour market practice; the Board is allowed to make minor deviations on an individual basis from the principles stated above

| 15.B | PLEASE NOTE THAT THIS IS A SHAREHOLDER'S PROPOSAL: The Swedish State's proposal regarding guidelines for remuneration to the executive Management Proposal from the Swedish State: TeliaSonera's objective is to offer remuneration levels and other employment conditions required to attract, retain and motivate high caliber executives needed to maintain the success of the business; The executive management will not be able to receive annual variable pay or participate in long term variable pay programs; with this exception, the Swedish State's proposal includes in essence the same elements as described in item 15 (a) above   | Shareholder | Against |
| 16.  | The Board of Directors proposes that the Annual General Meeting authorize the Board of Directors to resolve, on one or more occasions prior to the 2011 Annual General Meeting, on acquisitions of own shares, which may take place both on Nasdaq OMX Stockholm and/or Nasdaq OMX Helsingfors and in accordance with an offer to acquire shares directed to all shareholders or through a combination of these two alternatives; the maximum number of shares to be acquired shall be such that the Company's holding from time to time does not exceed 10 percent of all shares in the Company; Acquisitions of shares on Nasdaq OMX Stockholm and/or Nasdaq OMX Helsinki may only be made at a price within the spread between the highest bid price and lowest ask price prevailing from time to time on the exchanges; acquisitions of shares by way of offers to acquire shares directed to all the Company's shareholders may take place at an acquisition price which exceeds the prevailing market price. It will thereupon be possible, by means of detachable and tradable sales rights (Sw. saljratter), for the shareholders to enjoy the value of the premium which may arise as a consequence of the Company acquiring shares at a price in excess of the market price for the share. In order to compensate shareholders who neither sell sales rights nor participate in the acquisition offer, for their non-exercised sales rights, a bank or another financial institution that may be appointed by the Company shall, upon expiry of the application period but otherwise in accordance with the terms and conditions of the acquisition offer, be entitled to transfer shares to the Company and to pay compensation, amounting to the value of | Management  | For     |

the non-exercised sales rights less the banks costs, to the shareholders concerned. However, the compensation payable may not exceed the compensation that may be paid per sales right in the event of an offer of commission-free sale of sales rights. In the event foreign legal and/or administrative rules significantly impede implementation of an acquisition offer in a particular country, the Board of Directors or a party appointed by the Board of Directors, shall be entitled to effect a sale of sales rights on behalf of the shareholders concerned and shall, instead, pay the cash amount received upon a sale carried out with due care, less costs incurred. The Board of Directors shall be entitled to decide on other terms and conditions for the acquisition; The purpose of the proposal above is to provide the Board of Directors with an instrument to adapt and improve the Company's capital structure and thereby create added value for the shareholders; The Board of Directors also intends to propose that future Annual General Meetings of the Company authorize the Board of Directors to resolve on acquisitions of own shares on terms and conditions that are materially equivalent to those set forth above, at present, the Company does not hold any own shares; the Board of Directors intends to propose the 2011 Annual General Meeting to cancel those own shares through a reduction of the Company's share capital without repayment to the shareholders

- 17.A The Board of Directors' proposal in essence: [a] Management For  
Implementation of a long-term incentive program 2010/2013  
The proposed long-term incentive program for 2010/2013 [Performance Share Program 2010/2013] shall comprise approximately 100 senior executives within the TeliaSonera group of Companies [the Group] and in total no more than 1,560,000 TeliaSonera shares may be transferred to participants in the program upon fulfilment of the performance conditions set out in the program [Performance Shares]; The maximum number of Performance Shares that finally may be allotted, corresponds to approximately 0.03 percent of the total number of outstanding shares in the Company; the Board of Directors intends to propose forthcoming annual general meetings to implement performance-based share programs on similar conditions that apply to the now proposed program; Participants in the program shall be given the opportunity to, provided that certain performance conditions, consisting of financial targets linked to EPS [Earnings Per Share] and TSR [Total Shareholder Return], are met during the three financial years 2010-2012 [the Performance Period], receive without consideration final allotments of Performance Shares; participation in the program requires that the participants have invested in or allocated to the program TeliaSonera shares [Saving Shares] corresponding to a value of two (2) percent of a participant's annual gross base salary [i.e. before taxes] per year-end 2009 or, if a participant has been employed thereafter, the calculated annual gross base salary for

2010 [the Base Salary], saving shares shall normally be acquired or allocated to the program during a period of approximately two weeks following the publication of the Company's Interim Report for the first quarter 2010, but in the event of new recruitments thereafter, participation in the program may be offered and acquisition or allocation of Saving Shares may take place until the end of August 2010; a condition for final allotments of performance shares shall normally be that the participant has been employed within the Group during the whole period from entering into the program until the day of publication of the Company's Interim Report for the first quarter 2013 (the Vesting Period) and that all saving shares held by a participant have been kept during such period; maximum preliminary allotments of Performance Shares for each of the financial years 2010, 2011 and 2012 based on the EPS targets, shall amount to the number of performance shares corresponding to approximately 6.67 percent of the Base Salary for each member of the Group Management or, alternatively, 5.00 per cent of the base salary for each other manager, in both cases, divided by the average share price during December of the Company's share on the Nasdaq OMX Stockholm official price list each of the years 2009, 2010 and 2011; maximum allotments of performance shares based on the TSR target shall amount to the number of performance shares corresponding to 20 percent of the base salary for each Member of the Group Management or, alternatively, 15 percent of the base salary for each other manager, in both cases, divided by the average share price during December of the Company's share on the Nasdaq OMX Stockholm official price list year 2009; the targets for EPS based allotments as well as TSR based allotments of Performance Shares, shall include a minimum level, which must be exceeded in order for any allotment to occur at all, as well as a maximum level in excess of which no additional allotment will occur, should lower targets than the maximum level be achieved, a lower number of Performance Shares will be allotted, final allotments of Performance Shares will take place following the publication of the Company's Interim Report for the first quarter 2013, recalculation of final allotments of Performance Shares shall take place in the event of an intervening bonus issue, split, preferential rights issue and/or other similar events. In addition, the maximum financial outcome for a participant, and the maximum number of Performance shares to be finally allotted, shall be capped at a value corresponding to 50 percent of the Base Salary of each member of the Group Management and 37,5 percent of the Base Salary of each other manager, upon termination of the employment within the Group during the vesting period, the right to receive final allotments of performance shares normally lapses, in addition to what is set out above, the Board of Directors shall under certain circumstances be entitled to reduce final allotments of performance shares or, wholly or partially, terminate performance share program 2010/2013 in advance and to make such local adjustments of the program that may be necessary to implement the program with reasonable administrative costs and efforts in the concerned jurisdictions, including,

Edgar Filing: GABELLI GLOBAL MULTIMEDIA TRUST INC - Form N-PX

inter alia, to offer cash settlement as well as to waive the requirement for investing in or allocating saving shares to the program for participants in such jurisdictions

17.B The Board of Directors has considered two alternative hedging methods for Performance Program 2010/2013; either a hedging arrangement with a bank or other financial institution securing delivery of shares under the program or transfers of shares held by the Company itself to participants in Performance Share Program 2010/2013; the Board of Directors considers the latter alternative as its main alternative, however, should the annual general meeting not approve the proposed transfer of shares held by the Company itself, the Board of Directors may enter into a hedging arrangement set out above with a third party to hedge the obligations of the Company under the program. Based on the above conditions, the Board of Directors proposes that no more than 1,560,000 TeliaSonera shares may be transferred to participants in Performance Share Program 2010/2013 as performance shares, entitled to receive allotments of performance shares without consideration shall be such persons within the Group being participants in Performance Share Program 2010/2013. Further, subsidiaries shall be entitled to acquire shares without consideration, in which case such Company shall be obliged, pursuant to the terms and conditions of Performance Share Program 2010/2013, to immediately transfer the shares to such persons within the Group that participate in performance share program 2010/2013, transfers of shares shall be made without consideration at the time and on such additional terms and conditions that participants in Performance Share Program 2010/2013 are entitled to receive final allotment of shares, the number of shares that may be transferred shall be subject to recalculation in the event of an intervening bonus issue, split, preferential rights issue and/or other similar events
