Under this shelf registration process, the selling stockholder may, from time to time, sell the securities described in this prospectus in one or more offerings. This prospectus provides you with a general description of the securities that may be offered by the selling stockholder. Each time the selling stockholder sells securities, the selling stockholder is required to provide you with this prospectus and, in certain cases, a prospectus supplement, containing specific information about the selling stockholder and the terms of the securities being offered. That prospectus supplement may include additional risk factors or other special considerations applicable to those securities. Any prospectus supplement may also add, update or change information in this prospectus. If there is any inconsistency between the information in this prospectus and any prospectus supplement, you should rely on the information in that prospectus supplement. You should read both this prospectus and any prospectus supplement together with additional information described under Incorporation of Certain Information by Reference.

The shares of common stock registered for resale in this prospectus may also include additional shares of common stock that become issuable due to potential Series D-3 Preferred Stock anti-dilution adjustments.

A similar shelf registration statement on Form S-3 (Registration No. 333-123632) was filed with the SEC in 2005 covering resales by the selling stockholder of up to 7,500,000 shares of our common stock that are issuable upon of the conversion or redemption of, or as dividends on, 30,000 shares of our Series D-1 Cumulative Convertible Preferred Stock, \$0.01 par value per share (the Series D-1 Preferred Stock), which shares were purchased by Fletcher in February 2005. Additionally, a similar shelf registration statement on Form S-3 (Registration No. 333-148235) was filed with the SEC in December 2007 covering resales by the selling stockholder of up to 550,000 shares of our common stock that are issuable upon of the conversion or redemption of, or as dividends on, 5,000 shares of our Series D-2 Cumulative Convertible Preferred Stock, \$0.01 par value per share (the Series D-2 Preferred Stock), which shares were purchased by Fletcher in December 2007. Except for the conversion prices, the terms and conditions of the Series D-1 Preferred Stock, the Series D-2 Preferred Stock and the Series D-3 Preferred Stock are substantially the same.

This prospectus does not cover the issuance of any shares of common stock by us to the selling stockholder, and we will not receive any of the proceeds from any sale of shares by the selling stockholder. Except for any underwriting discounts and selling commissions that may be paid by the selling stockholder, we have agreed to pay the expenses incurred in connection with the registration of the shares of common stock covered by this prospectus.

Information about the selling stockholder may change over time. Any changed information given to us by the selling stockholder will be set forth in a prospectus supplement if and when necessary. Further, in some cases, the selling stockholder will also be required to provide a prospectus supplement containing specific information about the terms on which it or its permitted assignees are offering and selling our common stock. If a prospectus supplement is provided and the description of the offering in the prospectus supplement varies from the information in this prospectus, you should rely on the information in the prospectus supplement.

PROSPECTUS SUMMARY

This summary highlights selected information about us and this offering by the selling stockholder contained elsewhere in this prospectus and the documents incorporated by reference into this prospectus. This summary is not complete and may not contain all of the information that is important to you. Our Company

We are a technology-focused seismic solutions company that provides advanced acquisition equipment, software, and planning and seismic processing services to the global energy industry. Our products, technologies and services are used by oil and gas exploration and production (E&P) companies and seismic acquisition contractors to generate high-resolution images of the subsurface during exploration, exploitation, and production operations. Our products are designed to create better analyses for the subsurface, which enables oil companies to make improved drilling and production decisions. Our products and services include the following:

land and marine seismic data acquisition equipment,

navigation and data management software products,

survey design planning services,

seismic data processing services, and

seismic data libraries.

We have been involved in the seismic technology industry for approximately 40 years, starting in the 1960s as a manufacturer of seismic equipment. In recent years, we have transformed our business from being solely a manufacturer and seller of seismic equipment to being a provider of a full range of seismic imaging products, technologies and services.

In September 2007, we changed our corporate name from Input/Output, Inc. to ION Geophysical Corporation. This change was made to reflect the evolution of our company from being primarily known as an equipment manufacturer to our current expanded portfolio of land and marine acquisition hardware, survey design and command & control software, advanced imaging services, and seismic data libraries.

Our executive headquarters are located at 2105 CityWest Boulevard, Suite 400, Houston, Texas 77042-2839. Our telephone number is (281) 933-3339. Our home page on the Internet is *www.iongeo.com*. We make our website content available for information purposes only. It should not be relied upon for investment purposes, nor is it incorporated by reference into this prospectus.

Risk Factors

An investment in our common stock involves a high degree of risk. For a discussion of certain matters that should be considered by prospective purchasers of our common stock offered hereby, see **Risk Factors** beginning on page 5 of this prospectus, and **Item 1A. Risk Factors** beginning on page 14 of our Annual Report on Form 10-K for the fiscal year ended December 31, 2007, which has been previously filed with the SEC and is incorporated by reference into this prospectus.

FORWARD-LOOKING STATEMENTS

This prospectus contains or incorporates by reference statements concerning our future results and performance and other matters that are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the **Securities Act**), and Section 21E of the Securities Exchange Act of 1934, as amended (the **Exchange Act**). These statements involve known and unknown risks, uncertainties, and other factors that may cause our or our industry's results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as **may, will, should, intend, expect, plan, anticipate, believe, estimate, predict, potential, or continue** or the negative of such terms or other common terminology.

Examples of other forward-looking statements contained or incorporated by reference in this prospectus include statements regarding:

future seismic industry fundamentals;

success in integrating our acquired businesses;

expectations regarding realization of deferred tax assets; and

These forward-looking statements reflect our best judgment about future events and trends based on the information currently available to us. Our results of operations can be affected by inaccurate assumptions we make or by risks and uncertainties known or unknown to us. Therefore, we cannot guarantee the accuracy of the forward-looking statements. Actual events and results of operations may vary materially from our current expectations and assumptions.

Information regarding some of the important factors that could cause actual results to differ, perhaps materially, from those in our forward-looking statements is contained in the section entitled **Item 1A. Risk Factors** of our Annual Report on Form 10-K for the fiscal year ended December 31, 2007 filed with the SEC on February 27, 2008, which is incorporated into this prospectus by reference.

We disclaim any obligation, other than as may be imposed by law, to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

RISK FACTORS

In addition to the section entitled **Item 1A. Risk Factors** from our Annual Report on Form 10-K for the year ended December 31, 2007, which has been previously filed with the SEC and is incorporated by reference into this prospectus, we believe the following risk factors that relate to this offering should be considered carefully.

Our stock price may fluctuate, and your investment in our stock could decline in value.

The trading volume of our common stock may contribute to its volatility, and an active trading market may not continue.

If substantial amounts of our common stock were to be sold in the public market, the market price of our common stock could decline. Some of the other factors that can affect our stock price are:

future demand for seismic equipment and services;

the announcement of new products, services or technological innovations by us or our competitors;

the adequacy of our liquidity and capital resources;

consolidation among our significant customers;

continued variability in our revenues or earnings;

changes in quarterly revenue or earnings estimates for us made by the investment community;

Table of Contents

speculation in the press or investment community about our strategic position, financial condition, results of operations, business or significant transactions; and

general perception of the energy or technology sectors of the economy.

The market price of our common stock may also fluctuate significantly in response to factors that are beyond our control. The stock market in general has recently experienced extreme price and volume fluctuations. These broad market fluctuations could result in extreme fluctuations in the price of our common stock, which could cause a decline in its market value.

If we, our optionholders or our existing stockholders holding registration rights, sell additional shares of our common stock in the future, the market price of our common stock could decline.

The market price of our common stock could decline as a result of sales of a large number of shares of common stock in the market in the future, or the perception that such sales could occur. These sales, or the possibility that these sales may occur, could make it more difficult for us to sell equity securities in the future at a time and at a price that we deem appropriate.

At December 31, 2007, we had outstanding stock options to purchase up to 6,839,641 shares of our common stock. In addition, at that date there were 1,058,477 shares of restricted stock outstanding and reserved for issuance under outstanding restricted stock units awards.

Under our Agreement with Fletcher, Fletcher has the ability to sell the shares of our common stock covered by this prospectus that may be issued to it upon conversion or redemption of or as dividends on the Series D-3 Preferred Stock. In addition, Fletcher currently has the ability to sell shares of our common stock that may be issued to Fletcher upon conversion or redemption of or as dividends on the Series D-1 and D-2 Preferred Stock under separate effective registration statements.

Shares of our common stock are subject to piggyback registration rights held by Laitram, L.L.C. and certain former stockholders of Concept Systems Holdings Limited. We also may enter into additional registration rights agreements in the future in connection with any subsequent acquisitions or securities transactions we may undertake. Any sales of our common stock under these registration rights arrangements with Laitram, such certain former stockholders of Concept Systems Holdings Limited or other stockholders could be negatively perceived in the trading markets and negatively affect the price of our common stock. Sales of a substantial number of our shares of common stock in the public market under these arrangements, or the expectation of such sales, could cause the market price of our common stock to decline.

Conversion or redemption of the Series D-1 Preferred Stock, the Series D-2 Preferred Stock, the Series D-3 Preferred Stock, the payment of dividends on the Series D Preferred Stock in the form of common stock and the conversion of our outstanding convertible notes will dilute the ownership interests of existing stockholders.

The conversion of the Series D-1 Preferred Stock, the Series D-2 Preferred Stock and the Series D-3 Preferred Stock into shares of our common stock (or redemption of the Series D-1 Preferred Stock, the Series D-2 Preferred Stock and the Series D-3 Preferred Stock for shares of common stock) by Fletcher will dilute the ownership interests of existing stockholders. As of the date of this prospectus, the shares of Series D-1, Series D-2 and Series D-3 Preferred Stock may be converted into an aggregate of 6,489,260 shares of common stock, based on the initial conversion prices for each Series. In addition, in December 2003, we issued \$60.0 million of convertible unsecured notes that mature in December 2008. As a result of the conversion of approximately \$52.76 million in aggregate principal amount of our outstanding convertible senior notes into 12,212,964 shares of common stock in November 2007, we reduced the outstanding principal amount of the notes to approximately \$7.24 million. The conversion of the remaining convertible notes will dilute the ownership interests of existing stockholders. Sales in the public market of shares of common stock issued upon conversion would apply downward pressure on prevailing market prices of our common stock. In addition, the very existence of the convertible notes and the Series D Preferred Stock represents a future issuance, and perhaps a future sale, of our common stock to be acquired on conversion, which could also depress trading prices for our common stock.

Table of Contents

Our certificate of incorporation and bylaws, Delaware law and contractual provisions under our Agreement with Fletcher contain provisions that could discourage another company from acquiring us.

Provisions of Delaware law, our certificate of incorporation, bylaws and our Agreement with Fletcher may discourage, delay or prevent a merger or acquisition that our stockholders may consider favorable, including transactions in which you might otherwise receive a premium for shares of our common stock. These provisions include:

authorizing the issuance of blank check preferred stock without any need for action by stockholders;

providing for a classified board of directors with staggered terms;

requiring supermajority stockholder voting to effect certain amendments to our certificate of incorporation and by-laws;

eliminating the ability of stockholders to call special meetings of stockholders;

prohibiting stockholder action by written consent;

establishing advance notice requirements for nominations for election to the board of directors or for proposing matters that can be acted on by stockholders at stockholder meetings; and

requiring an acquiring party to assume all of our obligations under our Agreement with Fletcher and the terms of the Series D-1 Preferred Stock, Series D-2 Preferred Stock and Series D-3 Preferred Stock set forth in our certificates of rights and designations for those shares, including the dividend, liquidation, conversion, redemption, voting and share registration provisions.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the shares of common stock offered and sold by the selling stockholder pursuant to this prospectus.

SELLING STOCKHOLDER

The 4,500,000 shares of our common stock covered by this prospectus consist of shares of our common stock that may be issued to Fletcher upon conversion or redemption of, or as dividends on, the Series D-3 Preferred Stock that we issued on February 21, 2008. The Series D-3 Preferred Stock is initially convertible into 2,365,168 shares of our common stock, subject to adjustment, at an initial conversion price of \$14.7981 per share, which conversion price is also subject to adjustment in certain events. Fletcher purchased the shares of the Series D-3 Preferred Stock pursuant to Fletcher's remaining right to purchase up to 35,000 shares of one or more additional series of Series D Preferred Stock, having similar terms and conditions as the Series D-1 Preferred Stock that we had issued to Fletcher in February 2005 and the Series D-2 Preferred Stock that we issued to Fletcher in December 2007. As used in this prospectus, selling stockholder means Fletcher International, Ltd. and donees, pledgees, transferees or other successors-in-interest selling shares received from Fletcher International, Ltd. as a gift, pledge, distribution or other transfer not involving a sale of our common stock pursuant to this prospectus. Fletcher has not held any position or office nor has it had any other material relationship with us or any of our affiliates within the past three years, other than as a result of its ownership of shares of our equity securities.

The following table provides certain information with respect to Fletcher, including Fletcher's beneficial ownership of our common stock as of February 25, 2008, and as adjusted to give effect to the sale of the shares covered by this prospectus. The amounts set forth below are based upon information provided to us by representatives of Fletcher, and our records, as of February 25, 2008, and are accurate to the best of our knowledge. As of the date of this prospectus, Fletcher has not converted or redeemed any of the Series D-1, Series D-2 or Series D-3 Preferred Stock and no shares of common stock have been issued as dividends on the Series D-1, Series D-2 or Series D-3 Preferred Stock. It is possible that Fletcher may have acquired, sold, transferred or

Table of Contents

otherwise disposed of shares of our common stock in transactions exempt from the registration requirements of the Securities Act since the date on which it provided the information to us regarding the shares beneficially owned by it. This table assumes that Fletcher will offer for sale all of its shares of our common stock. We do not know whether Fletcher will convert or redeem the Series D-1, Series D-2 or Series D-3 Preferred Stock or whether it will offer for sale any or all of the common stock covered by this prospectus.

Beneficial ownership is determined in accordance with Rule 13d-3(d) promulgated by the SEC under the Exchange Act. Unless otherwise noted, each person or group identified possesses sole voting and investment power with respect to the shares, subject to community property laws where applicable.

* Less than 1%.

- (1) Includes
- (a) 40,800 beneficially owned shares of common stock,
 - (b) 3,812,428 shares deemed to be beneficially owned pursuant to Fletcher's right to convert the Series D-1 Preferred Stock into common stock,
 - (c) 391,791 shares deemed to be beneficially owned pursuant to Fletcher's right to redeem the Series D-2 Preferred Stock into common stock and
 - (d) 2,742,538

shares deemed to be beneficially owned pursuant to Fletcher's right to redeem the Series D-3 Preferred Stock into common stock. Under the certificates of designation for the Series D Preferred Stock and our agreement with Fletcher, Fletcher has the option to either convert its Series D Preferred Stock into common stock or redeem its Series D Preferred Stock for common stock as provided therein. The number of common shares indicated above with respect to the Series D-1 Preferred Stock, the Series D-2 Preferred Stock and the Series D-3 Preferred Stock assumes that (i) Fletcher would exercise its option to either redeem or convert its Series D Preferred Stock as of February 25, 2008, (ii) Fletcher would exercise

its option to either convert or redeem each series of preferred stock based on which mechanism (conversion or redemption) would produce the largest number of common shares with regard to that specific date and (iii) all dividends on the Series D Preferred Stock would be paid in cash.

- (2) Assumes that Fletcher will receive all shares of common stock included in this table and sell all such shares under this prospectus and, with respect to its Series D-1 Preferred Stock and Series D-2 Preferred Stock, assumes that Fletcher will sell under this prospectus all such shares of common stock issuable pursuant to rights of conversion or redemption of, or in payment of quarterly dividends on, shares of such Series D-1 Preferred Stock

and Series D-2 Preferred Stock covered by the applicable shelf registration statements on Form S-3 (Registration No. 333-123632 and Registration No. 333-148235, respectively).

The securities listed above include outstanding securities held in one or more accounts managed by Fletcher Asset Management, Inc. (FAM) for Fletcher. FAM is an investment adviser to Fletcher and is registered under Section 203 of the Investment Advisors Act of 1940, as amended. Pursuant to an investment advisory agreement between FAM and Fletcher, FAM has the sole authority to vote and dispose of the securities in these accounts. By reason of the provisions of Rule 13d-3 under the Exchange Act, Fletcher and FAM may each be deemed to beneficially own the securities registered under the registration statement of which this prospectus is a part. In addition, by virtue of Alphonse Fletcher, Jr.'s position as Chairman and Chief Executive Officer of FAM, Mr. Fletcher may be deemed to have the shared power to vote or direct the vote of, and the shared power to dispose or direct the disposition of, these securities. For these reasons, Mr. Fletcher may also be deemed to be a beneficial owner of these securities.

If required, this prospectus may be amended or supplemented on a continual basis to describe a specific plan of distribution. In making sales, broker-dealers engaged by the selling stockholder may arrange for other broker-dealers to participate in the resales.

Table of Contents

In connection with the sale of shares, the selling stockholder may, subject to the terms of its Agreement with us, (1) enter into transactions with brokers, dealers or others, who in turn may engage in sales, including short sales, of the shares in the course of hedging the positions they assume, (2) deliver shares to close out positions entered into with brokers, dealers or others or (3) loan shares to brokers, dealers or others that may in turn sell such shares. The brokers, dealers or others referred to in (1) above may engage in those transactions referred to in (1), (2) or (3) above through this prospectus. The selling stockholder may enter into option, swap or other transactions with broker-dealers, other financial institutions or others that require the delivery to the broker-dealers, financial institutions or others of the shares. The broker-dealer or other financial institution or others may then resell or transfer these shares through this prospectus. The selling stockholder may also loan or pledge their shares to a broker-dealer or other financial institution. The broker-dealer or financial institution may sell the shares which are loaned or pursuant to a right to rehypothecate while pledged or, upon a default, the broker-dealer or other financial institution may sell the pledged shares by use of this prospectus. The broker-dealer or other financial institution may use shares pledged by the selling stockholder or borrowed from the selling stockholder or others to settle those sales or to close out any related open borrowings of shares, and may use securities received from the selling stockholder in settlement of those derivatives to close out any related open borrowings of shares. Some or all of the shares offered in this prospectus may also be sold to or through an underwriter or underwriters. Any shares sold in that manner will be acquired by the underwriters for their own accounts and may be resold at different times in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. These shares may be offered to the public through underwriting syndicates represented by one or more managing underwriters or may be offered to the public directly by one or more underwriters. Any public offering price and any discounts or concessions allowed or disallowed to be paid to dealers may be changed at different times.

The selling stockholder may pay usual and customary or specifically negotiated underwriting discounts and concessions or brokerage fees or commissions in connection with their sales.

The selling stockholder and any dealers or agents that participate in the distribution of the shares may be deemed to be underwriters within the meaning of the Securities Act, and any profit on the sale of shares by them and any commissions received by any such dealers or agents might be deemed to be underwriting discounts and commissions under the Securities Act. Because the selling stockholder may be deemed to be an underwriter within the meaning of the Securities Act, the selling stockholder will be subject to the prospectus delivery requirements of the Securities Act. Neither the delivery of any prospectus, or any prospectus supplement, nor any other action taken by the selling stockholder or any purchaser relating to the purchase or sale of shares under this prospectus shall be treated as an admission that any of them is an underwriter within the meaning of the Securities Act relating to the sale of any shares.

To the extent required by the Securities Act, a prospectus supplement will be filed and disclose the specific number of shares of common stock to be sold, the name of the selling stockholder, the purchase price, the public offering price, the names of any agent, dealer or underwriter, and any applicable commissions paid or discounts or concessions allowed with respect to a particular offering and other facts material to the transaction. Compensation for or to a particular underwriter or broker-dealer might be in excess of customary commissions and will be in amounts to be negotiated at the time of the sale. We have agreed to bear certain expenses of registration of the common stock under federal and state securities laws and of any offering and sale hereunder but not certain other expenses, such as commissions of dealers or agents, and fees attributable to the sale of the shares. The aggregate proceeds to the selling stockholder from the sale of the shares will be the purchase price of the common stock sold less the aggregate agents commissions, if any, and other expenses of issuance and distribution not borne by us. We will not receive any of the proceeds from the sale of the shares of common stock offered by this prospectus.

We also have agreed to indemnify the selling stockholder, and the selling stockholder may agree to indemnify any broker-dealer or agent that participates in transactions involving sales of the shares, from certain damages or liabilities arising out of or based upon any untrue or alleged untrue statement of a material fact contained in, or material omission or alleged omission from, the registration statement of which this prospectus is a part, except to the extent the untrue or alleged untrue statement or omission or alleged omission was made in reliance upon written information furnished for inclusion herein by such selling stockholder.

The Restated Certificate of Incorporation of ION, as amended, provides that a director of ION shall not be personally liable to ION or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability (i) for any breach of the director's duty of loyalty to ION or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) under Section 174 of the DGCL, or (iv) for any transaction from which the director derived an improper personal benefit.

The Bylaws provide that the indemnification provided pursuant to the Bylaws is not exclusive of any other rights to which those seeking indemnification may be entitled under any provision of law, certificate of incorporation, bylaws, governing documents, agreement, vote of stockholders or disinterested directors or otherwise. ION has entered into indemnification agreements with certain of its officers and directors. Item 17. Undertakings.

The undersigned Registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this Registration Statement: (i) to include any prospectus required by Section 10(a)(3) of the Securities Act of 1933; (ii) to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement; and (iii) to include any material information with respect to the plan of distribution not previously disclosed in the Registration Statement or any material change to such information in the registration statement; provided, however, that (i) and (ii) above do not apply if the Registration Statement is on Form S-3 or Form S-8, and the information required to be included in a post-effective amendment by (i) and (ii) is contained in periodic reports filed with or furnished to the Commission by the Registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the

Registration Statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the Registration Statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act to any purchaser:

(i) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5) or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii) or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness and the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof; provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

(5) That, for the purpose of determining liability of the registrant under the Securities Act to any purchaser in the initial distribution of the securities, in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

(ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

(iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of an undersigned registrant; and

(iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for

indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.

The undersigned Registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the Registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 that is incorporated by reference in the Registration Statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
