PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS TO BE HELD ON JUNE 19, 2001

This Proxy Statement is furnished to stockholders of Apartment Investment and Management Company ("AIMCO" or the "Company"), a real estate investment trust ("REIT"), in connection with the solicitation of proxies in the form enclosed herewith for use at the Annual Meeting of Stockholders of the Company (the "Meeting") to be held on Tuesday, June 19, 2001, at 9:00 a.m. at the principal executive offices of the Company at 2000 South Colorado Boulevard, Tower Two, Suite 2-1000, Denver, Colorado 80222-7900, and at any and all adjournments or postponements thereof, for the purposes set forth in the Notice of Meeting. This Proxy Statement and the enclosed form of proxy are first being mailed to stockholders on or about May 24, 2001.

This solicitation is made by mail on behalf of the Board of Directors of the Company. Costs of the solicitation will be borne by the Company. Further solicitation of proxies may be made by telephone, fax or personal interview by the directors, officers and employees of the Company and its affiliates, who will not receive additional compensation for the solicitation. The Company has retained the services of Corporate Investor Communications, for an estimated fee of \$4,500, plus out-of-pocket expenses, to assist in the solicitation of proxies from brokerage houses, banks, and other custodians or nominees holding stock in their names for others. The Company will reimburse banks, brokerage firms and other custodians, nominees and fiduciaries for reasonable expenses incurred by them in sending proxy material to stockholders.

Edgar Filing: APARTMENT INVESTMENT & MANAGEMENT CO - Form DEF 14A

Holders of record of the Class A Common Stock of the Company ("Common Stock") as of the close of business on the record date, May 7, 2001 (the "Record Date"), are entitled to receive notice of, and to vote at, the Meeting. Each share of Common Stock entitles the holder to one vote. At the close of business on the Record Date, there were 73,624,858 shares of Common Stock issued and outstanding.

Shares represented by proxies in the form enclosed, if the proxies are properly executed and returned and not revoked, will be voted as specified. Where no specification is made on a properly executed and returned proxy, the shares will be voted: FOR the election of all nominees for director; FOR the ratification of the selection of Ernst & Young LLP as independent auditors for the calendar year ending December 31, 2001 and FOR the approval of the sale of an aggregate of 15,000 High Performance Partnership Units of AIMCO Properties, LP (the "Operating Partnership"). To be voted, proxies must be filed with the Secretary of the Company prior to voting. Proxies may be revoked at any time before voting by filing a notice of revocation with the Secretary of the Company, by filing a later dated proxy with the Secretary of the Company or by voting in person at the Meeting. Shares represented by proxies that reflect abstentions or "broker non-votes" (i.e., shares held by a broker or nominee which are represented at the Meeting, but with respect to which such broker or nominee is not empowered to vote on a particular proposal) will be counted as shares that are present and entitled to vote for purposes of determining the presence of a quorum.

6

The Company's 2000 Annual Report to Shareholders is being mailed with this Proxy Statement. The principal executive offices of the Company are located at 2000 South Colorado Boulevard, Tower Two, Suite 2-1000, Denver, Colorado 80222-7900.

PROPOSAL 1: ELECTION OF DIRECTORS

Pursuant to the Company's Charter, directors are elected at each Annual Meeting of Stockholders and hold office for one year, and until their successors are duly elected and qualify. The Company's Bylaws currently authorize a Board of Directors consisting of not fewer than three nor more than nine persons.

The nominees for election to the six positions on the Board of Directors to be voted upon at the Meeting are James N. Bailey, Terry Considine, Richard S. Ellwood, Peter K. Kompaniez, J. Landis Martin and Thomas L. Rhodes. Terry Considine, Richard S. Ellwood, Peter K. Kompaniez, J. Landis Martin and Thomas L. Rhodes were elected to the Board of Directors at the last Annual Meeting of Stockholders. James N. Bailey was elected to the Board of Directors on June 5, 2000 by a majority of the Board of Directors pursuant to the Bylaws of the Company. Messrs. Bailey, Ellwood, Martin, and Rhodes (the "Independent Directors") are not employed by, or affiliated with, the Company, other than by virtue of serving as directors of the Company. Unless authority to vote for the election of directors has been specifically withheld, the persons named in the accompanying proxy intend to vote for the election of Messrs. Bailey, Considine, Ellwood, Kompaniez, Martin and Rhodes to hold office as directors for a term of one year until their successors are elected and qualify at the next Annual Meeting of Stockholders. All nominees have advised the Board of Directors that they are able and willing to serve as directors.

If any nominee becomes unavailable for any reason (which is not anticipated), the shares represented by the proxies may be voted for such other

Edgar Filing: APARTMENT INVESTMENT & MANAGEMENT CO - Form DEF 14A

person or persons as may be determined by the holders of the proxies (unless a proxy contains instructions to the contrary). In no event will the proxy be voted for more than six nominees.

Directors will be elected by a favorable vote of a plurality of the shares of voting stock present and entitled to vote, in person or by proxy, at the Meeting. Accordingly, abstentions or broker non-votes as to the election of directors will not affect the election of the candidates receiving the plurality of votes. Unless instructed to the contrary in the proxy, the shares represented by the proxies will be voted FOR the election of the six nominees named above as directors.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" EACH OF THE SIX NOMINEES.

PROPOSAL 2: RATIFICATION OF SELECTION OF INDEPENDENT AUDITORS

The firm of Ernst & Young LLP, the Company's independent auditors for the year ended December 31, 2000, was selected by the Board of Directors, upon the recommendation of the Audit Committee, to act in the same capacity for the fiscal year ending December 31, 2001, subject to ratification

2

7

by the Company's stockholders. The aggregate fees billed for services rendered by Ernst & Young LLP during the year ended December 31, 2000 are as follows:

Audit Fees. The aggregate fees billed by Ernst & Young LLP to the Company for professional services rendered for audits of the annual financial statements of the Company and certain of its subsidiaries and affiliates (approximately 485 entities) for the fiscal year ended December 31, 2000 and for the review of the financial statements included in the Quarterly Reports on Form 10-Q of the Company and certain of its subsidiaries and affiliates for the fiscal year ended December 31, 2000 were \$6.7 million.

Financial Information Systems Design and Implementation Fees. The aggregate fees billed for financial information systems design and implementation services for the fiscal year ended December 31, 2000 rendered by Ernst & Young LLP to the Company and certain of its subsidiaries and affiliates were \$5.4 million. Financial information systems design and implementation fees consist entirely of fees billed by the Ernst & Young consulting group prior to its sale on May 27, 2000, to Cap Gemini, a separate French public company.

All Other Fees. The aggregate fees billed for all other services rendered by Ernst & Young LLP to the Company and certain of its subsidiaries and affiliates for the fiscal year ended December 31, 2000 were \$15.5 million, which includes audit-related services of \$2.0 million and non-audit services of \$13.5 million. Audit related services generally include fees for employee benefit plan audits, accounting consultations and registration statements filed with the Securities and Exchange Commission. Non-audit services consist primarily of tax compliance (over 500 entities) and consulting services and assistance with mergers and acquisitions.

Representatives of Ernst & Young LLP will be present at the Meeting and will be given the opportunity to make a statement if they so desire and to respond to appropriate questions.

The affirmative vote of a majority of the votes cast regarding the proposal is required to ratify the selection of Ernst & Young LLP. Accordingly,

Edgar Filing: APARTMENT INVESTMENT & MANAGEMENT CO - Form DEF 14A

abstentions or broker non-votes will not affect the outcome of the vote on the proposal. Unless instructed to the contrary in the proxy, the shares represented by the proxies will be voted FOR the proposal to ratify the selection of Ernst & Young LLP to serve as independent auditors for the Company for the fiscal year ending December 31, 2001.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THE RATIFICATION OF THE SELECTION OF ERNST & YOUNG LLP.

PROPOSAL 3: APPROVAL OF THE SALE OF HIGH PERFORMANCE UNITS

As an additional step in furtherance of the Company's goal of increasing AIMCO's adjusted funds from operations, dividend income and share price by making share ownership the primary economic motivation of its officers and directors, in January 1998, the Operating Partnership sold an aggregate of 15,000 Class I High Performance Partnership Units (the "Class I Units") to a joint venture formed by fourteen of the Company's officers and to three of the

3

8

Company's Independent Directors, Messrs. Martin and Rhodes and John Smith (Mr. Smith resigned as a Director April 20, 2000 and now serves on the Company's advisory board). The Company's Operating Partnership received \$2,070,000 for these units, which the AIMCO Board of Directors determined, based upon the advice of an independent valuation expert, represented the fair market value of the units on the date of issuance.

Unlike Common Stock, Partnership Common Units ("OP Units") and options to purchase Common Stock, the Class I Units provided the following advantages to the Company:

- o AIMCO received \$2,070,000 for an interest that would have been of nominal cost to the Company unless the three year total return to the Company's stockholders was significantly better than the industry average (as measured by the Morgan Stanley Dean Witter REIT Index) and at least 30%; and
- o any value received by the purchasers was not readily transferable and would constitute a long-term investment in the Company, providing a further substantial and enduring alignment of the long-term economic interests of the Company and its officers and directors.

As of January 1, 2001, based on the three year total return to Company stockholders of 59.24% compared to the total return of the Morgan Stanley Dean Witter REIT Index of 0.58%, and the minimum total return of 30.00%, these units achieved a 29.24% Excess Return (59.24% minus 30.00%) and became entitled to receive distributions and allocations of income and loss from the Operating Partnership in the same amounts and at the same times (subject to certain exceptions upon liquidation of the Operating Partnership) as holders of approximately 2.4 million OP Units. The following table details the valuation of the Class I Units:

WEIGHTED AVERAGE STOCK PRICE OF \$48.36
- (4) BASED ON TOTAL DILUTIVE SHARES OUTSTANDING OF 97,834,000 AS OF
DECEMBER 31, 2000

The Company's Board of Directors has determined that the Class I Units achieved their stated goals:

- o Those who purchased the units had real financial risk and would have lost their entire investment if the units had been "valued" in four out of twelve quarters in the three year period. Similarly, for 89 out of 116 REITs in the Morgan Stanley Dean Witter REIT Index, the returns would have resulted in a total loss.
- o The Company's stockholder returns were superior over the three year period. The Company ranked fourth out of 116 REITs in total return to stockholders by the Morgan Stanley Dean Witter REIT Index. At the end of the period, the value of the Company's outstanding common stock was \$767 million higher than it would have been if the total return to stockholders had equaled the minimum return of 30%.
- o As a result of the Company's performance, the units provide senior management with a significant long-term stake in the Company.

Based on this success, the Board of Directors have determined to sell new High Performance Units to the Company's employees. The new High Performance Units program has been modified in the following respects:

- o The minimum investment hurdle has been raised from an annual rate of 9% to 11%.
- o The maximum dilution to AIMCO's stockholders will be limited to 1% per year (except for a three-year transition period in which total dilution will not exceed 3% over the three years).
- o The number of employee participants in the program will be increased from 12 to more than 40 offerees and additional participants can be added each year.
- o Independent directors will not be eligible to participate in the program, and

10

- o The valuation period will be a rolling three-year average after an initial transition period.

The new High Performance Units will have the following characteristics:

- o The High Performance Units will have a rolling three-year valuation period. Initially, there will be three classes of High Performance Units: Class II High Performance Partnership Units (the "Class II Units"); Class III High Performance Partnership Units (the "Class III Units"); and Class IV High Performance Partnership Units (the "Class IV Units"), with the Class II Units having a one year determination period ending December 31, 2001; the Class III Units having a two year determination period ending December 31 2002; and the Class IV Units having a three year determination period ending December 31, 2003. It is anticipated that in 2002 and each future year a new class of High Performance Units will be created with a three-year valuation period.
- o The High Performance Units will have nominal value unless the AIMCO total return (dividend income plus share price appreciation) exceeds 115% of the cumulative total return of the Morgan Stanley Dean Witter REIT Index and, at a minimum, has the following fixed total returns: 11% for the one year program (Class II Units); 23.2% for the two year program (Class III Units); and 36.8% for the three year program (Class IV Units). The three-year hurdle of 36.8% is an increase from 30.0% for the 1998-2000 program.
- o For each new High Performance Unit program (Classes II, III and IV), the amount, if any, by which the total return of the Common Stock over the measurement period exceeds the applicable total return hurdle will be considered the "Outperformance Return".
- o For each new High Performance Unit program (Classes II, III, and IV), Outperformance Return multiplied by AIMCO's average market capitalization will be considered "Outperformance Value Added" for shareholders.
- o If the minimum total return hurdle is met as of the relevant valuation date, the holders of High Performance Units will thereafter receive distributions and allocations of income and loss at the same time and in the same amount (subject to certain exceptions upon liquidation of the Operating Partnership) as a number of OP Units equal to (i) 5% of Outperformance Value Added divided by (ii) the average volume weighted price of the Company's Common Stock over the 20 trading days ending on the determination date (subject to the limits on dilution described below).
- o The High Performance Units are not transferable (except to family trusts or partnerships) until the holder of the units dies, and are not exchangeable for Common Stock unless there is a change of control of the Company.
- o The dilutive impact to AIMCO's stockholders from the three new High Performance Unit programs (Classes II, III and IV) will be limited to 3% in the aggregate with a limit of 0.5% for the Class II Units, 1.0% for the Class III Units and 1.5% for the Class IV Units. In the future, any new High Performance Units with a three year valuation period are expected to limit dilution to 1%.

Edgar Filing: APARTMENT INVESTMENT & MANAGEMENT CO - Form DEF 14A

- o In calculating the AIMCO total returns for the new High Performance Unit (Classes II, III and IV) programs, the initial value of the Common Stock will be \$48.36, which is the price used to

6

11

determine the value of the recently completed Class I Units program. It is an average of the volume-weighted daily trading price of the Common Stock for the 20 consecutive trading days immediately preceding the end of the period on December 31, 2000.

The Company's Board of Directors has determined, based upon the advice of an independent valuation expert, that the fair market value of the 5,000 Class II Units, the 5,000 Class III Units and the 5,000 Class IV Units are \$1,274,854, \$1,792,764 and \$1,792,764, respectively, and \$4,860,382 in the aggregate. The employees who are offered the opportunity to invest in the new High Performance Units will do so through three senior management partnerships, SMP 2002, L.L.C., SMP 2003, L.L.C., and SMP 2004, L.L.C., respectively, each a Delaware limited liability company (each, an "SMP"), which will hold a class of High Performance Units until their valuation date. The terms of the limited liability company agreement of each SMP will restrict the employees' ability to transfer their interests, and provides each SMP with a right to repurchase the interest of any employee at the original purchase price if such employee's employment with the Company is terminated for any reason (other than by death or disability) before the end of the applicable measurement period. As with the Class I Units issued in 1998, the employees are investing through a limited liability company to ensure that there is no opportunity to profit from the ownership of High Performance Units before the valuation date.

A family partnership controlled by Terry Considine, the Chairman of the Board and Chief Executive Officer of the Company, and Peter Kompaniez, the Vice-Chairman of the Board and President of the Company, will own approximately 40% and 10%, respectively, of each SMP. The remaining interests in each SMP may be owned by the other employee offerees of the Company. Accordingly, Messrs. Considine and Kompaniez will beneficially own 50% of the High Performance Units purchased by each SMP. The \$4,860,382 aggregate purchase price to be paid by the SMPs for their High Performance Units will be funded with cash contributions from the employees participating in the SMP. To the extent that offerees elect not to participate then their interests will be offered to other participants on a proportionate basis.

Holders of the new High Performance Units will not be able redeem their High Performance Units prior to the date (the "Valuation Date") that is the earlier of (i) January 1, 2002 (in the case of the Class II Units), January 1, 2003 (in the case of the Class III Units), or January 1, 2004 (in the case of the Class IV Units), or (ii) the date on which a change of control (as defined in the Operating Partnership's Agreement of Limited Partnership) occurs. Holders of the new High Performance Units will be entitled to receive distributions and allocations of income and loss from the Operating Partnership in the same amounts and at the same times (subject to certain exceptions upon liquidation of the Operating Partnership) as would holders of a number of OP Units (the "OP Unit Equivalent"). Prior to the relevant Valuation Date, the OP Unit Equivalent will be 0.01 for each new High Performance Unit. If, on the Valuation Date, the cumulative Total Return of the Company Common Stock from January 1, 2001 to the Valuation Date (the "Measurement Period") exceeds 115% of the cumulative Total Return of a peer group index over the same period, and is at least the equivalent of an 11% (over one year) cumulative

Total Return, in the case of Class II Units, a 23.2% (over two years) cumulative Total Return, in the case of Class III Units, or a 36.8% (over three years) cumulative Total Return, in the case of Class IV Units (in each case, the "Minimum Return"), then, on and after the Valuation Date for that class of High Performance Units, the OP Unit Equivalent for each High Performance Unit of that class will be revised to equal (i) the product of (A) 5% of the amount by which the cumulative Total Return of the Company Common Stock over the Measurement Period exceeds the greater of 115% of a peer group index or the Minimum Return (such excess being the "Outperformance Return"), multiplied by (B) the weighted average market value of the Company's equity capitalization (including Common Stock and OP Units but not preferred stock or preferred units), divided by (ii) the product of (A) the market value of one share of Common Stock on the Valuation Date and (B) the number of High Performance Units of that class originally issued (5,000 in the case of Class II Units, Class III Units or Class IV Units). However, the number of OP Unit Equivalents for the three classes of High Performance Units, may not exceed 0.5%, 1.0% and 1.5% (for the Class II Units, Class III Units and Class IV Units, respectively) of the number of shares of Common Stock and OP Units outstanding, on a fully diluted basis, on the relevant Valuation Date. (In the future any new High Performance Units with a three year valuation period are expected to limit dilution to 1%.) If, on the Valuation Date for a class of High Performance Units, the cumulative Total Return of the Company Common Stock does not satisfy these criteria, then the OP Unit Equivalent for that class of High Performance Units will remain at 0.01 per High Performance Unit. For purposes of determining the market value of Common Stock or OP Units as of any date, the average of the volume-weighted daily trading price of the Common Stock for the 20 consecutive trading days immediately preceding such date is used, except that the value of a share of Common Stock as of January 1, 2001 will be \$48.36, the price used to determine the value of the Class I Units as of December 31, 2000.

The Morgan Stanley Dean Witter REIT Index will be used as the peer group index (the "Peer Group Index") for purposes of the new High Performance Units. The Morgan Stanley Dean Witter REIT Index is a capitalization-weighted index, with dividends reinvested, of the most actively traded real estate investment trusts. As of December 31, 2000, the Morgan Stanley Dean Witter REIT Index was comprised of 116 real estate investment trusts selected by Morgan Stanley Dean Witter & Co. Incorporated. The Board of Directors of the Company has selected this index because it believes that it is the real estate investment trust index most widely reported and accepted among institutional investors. The Board of Directors may select a different index if it determines that the Morgan Stanley Dean Witter REIT Index is no longer an appropriate comparison for the Company; if the Morgan Stanley Dean Witter REIT Index is not maintained throughout the Measurement Period; or for any other reason that the Board of Directors determines.

"Total Return" means, for any security and for any period, the cumulative total return for such security over such period, as measured by (i) the sum of (a) the cumulative amount of dividends paid in respect of such security for such period (assuming that all cash dividends are reinvested in such security as of the payment date for such dividend based on the security price on the dividend payment date), and (b) an amount equal to (x) the security price at the end of such

13

period, minus (y) the security price at the beginning of such period, divided by (ii) the security price at the beginning of the measurement period; provided, however, that if the foregoing calculation results in a negative number, the "Total Return" shall be equal to zero.

The new High Performance Units are subject to certain restrictions on transfer. Each SMP may not transfer its High Performance Units until after the relevant Valuation Date, and then only to its participants or to one of their family members (or a family-owned entity). Individuals may not transfer new High Performance Units except to a family member (or a family-owned entity) or in the event of death or disability.

The new High Performance Units are not convertible into Common Stock. However, in the event of a change of control of the Company, holders of the new High Performance Units will have redemption rights similar to those of holders of OP Units. Upon the occurrence of a change of control, any holder of the new High Performance Units may, subject to certain restrictions, require the Operating Partnership to redeem all or a portion of the High Performance Units held by such party in exchange for a cash payment per unit equal to their market value at the time of redemption. However, in the event that any High Performance Units are tendered for redemption, the Operating Partnership's obligation to pay the redemption price is subject to the prior right of the Company to acquire such High Performance Units in exchange for an equal number of shares of Common Stock (subject to certain adjustments).

Although the Company does not believe that the sale of the new High Performance Units will have an anti-takeover effect, the High Performance Units could increase the potential cost of acquiring control of the Company and thereby discourage an attempt to take control of the Company. However, the Board of Directors is not aware of any attempt to take control of the Company and the Board of Directors has not approved the sale of the new High Performance Units with the intention of discouraging any such attempt.

If the Company's Total Return over the Measurement Period exceeds 115% of the Total Return of the Morgan Stanley Dean Witter REIT Index and exceeds the Minimum Return (11.0% over one year, 23.2% over two years, and 36.8% over three years), then the holders of new High Performance Units could be entitled to a significant percentage of future distributions made by the Operating Partnership. This would have a dilutive effect on future earnings per share of Common Stock, and on the Company's equity ownership in the Operating Partnership after the Valuation Date if one assumes that the fact of the High Performance Units program did not have an offsetting incentive effect that resulted in increased earnings. However, the maximum dilutive effect for the three classes of High Performance Units will be 0.5%, 1.0% and 1.5% for the Class II Units, Class III Units and Class IV Units, respectively, of the number of shares of Common Stock and OP units outstanding, on a fully diluted basis, on the relevant Valuation Date. In the future, any new High Performance Units with a three year valuation period are expected to limit dilution to 1%.

Value of Class I Units (millions)	None	\$ 12.6

The tables below illustrate the value of the Class II (Table 1.), Class III (Table 2.) and Class IV Units (Table 3.) on the relevant Valuation Date under different circumstances. Each table demonstrates the value of that class of High Performance Units at given prices for Common Stock and the total return calculated at that price compared to both the Minimum Return and 115% of the peer group total return. For purposes of this illustration, the "value" the Class II, Class III and Class IV Units is calculated by multiplying (a) 5% of the Outperformance Shareholder Return, by (b) the weighted average market value of the Company's equity capitalization (including Common Stock and OP Units not held by the Company) over the Measurement Period. Also this determination of value does not represent the actual fair market value of the High Performance Units on the Valuation Date because the High Performance Units are subject to substantial restrictions on transfer and, in the absence of a change of control, do not entitle the holders thereof to any redemption rights. Except as otherwise indicated, it is assumed, for purposes of the illustration, that: (i) the Valuation Date is January 1: 2002 (for the Class II Units), 2003 (for the Class III Units) and 2004 (for the Class IV Units); (ii) the Peer Group Index has an annual Total Return of: 11% (for the Class II Units), 23.2% (for the Class III Units) and 36.8% (for the Class IV Units); and (iii) the weighted average market value of outstanding equity (Common Stock and OP Units not held by the Company) during the Measurement Period is \$3.979 billion.

The tables below are for illustrative purposes only and there can be no assurance that actual outcomes will be within the ranges used. Some of the factors that could affect the results set forth in the table are the Total Return of the Common Stock relative to the Total Return of the Morgan Stanley Dean Witter REIT Index, and the market value of the average outstanding equity of the Company during the Measurement Period. These factors may be affected by general economic conditions, local real estate conditions and the dividend policy of the Company.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed the audited financial statements in the Annual Report with management including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements. A written charter approved by the Board of Directors governs the Audit Committee. A copy of this charter is included as Appendix A hereto.

The Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the Company's accounting principles. The Audit Committee also has discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 relating to communication with audit committees. In addition, the Audit Committee has received from the independent auditors the written disclosures and letter required by Independence Standards Board Standard No. 1 relating to independence discussions with audit committees, has discussed with the independent auditors their independence from the Company and its management, and has considered whether the independent auditor's provision of non-audit services to the Company is compatible with maintaining the auditor's independence.

The Committee discussed with the Company's independent auditors the overall scope and plans for their audit. The Committee meets with the independent auditors, with and without management present, to discuss the results of their examination, their evaluation of the Company's internal controls, and the overall quality of the Company's financial reporting. The Committee held four meetings during fiscal year 2000.

None of the Audit Committee members have a relationship with the Company that might interfere with exercise of his independence from the Company and its management.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2000 for filing with the Securities and Exchange Commission. The Committee has also determined that provision by Ernst & Young LLP of financial information systems design and implementation and other non-audit services is compatible with maintaining Ernst & Young LLP's independence. The Committee and the Board have also recommended, subject to stockholder approval, the selection of the Company's independent auditors.

- (1) Excludes shares of Common Stock issuable upon redemption of OP Units or Class I Units
- (2) Represents the number of shares of Common Stock beneficially owned by each person divided by the total number of shares of Common Stock outstanding. Any shares of Common Stock which may be acquired by a person within 60 days upon the exercise of options, warrants, rights or conversion privileges are deemed to be beneficially owned by that person and are deemed outstanding for the

purpose of computing the percentage of outstanding shares of Common Stock owned by that person, but not any other person.

- (3) Through wholly owned subsidiaries, the Company acts as general partner of, and, as of March 8, 2001, holds approximately 90% of the interests in the Operating Partnership. If all OP Units were acquired by the Company for Common Stock (without regard to the ownership limit set forth in AIMCO's Charter) these shares of Common Stock would constitute approximately 12% of the then outstanding shares of Common Stock. OP Units are subject to certain restrictions on transfer. Class I Units are not convertible into Common Stock. However, in the event of a change of control of the Company, holders of the Class I Units will have redemption rights similar to those of holders of OP Units.

COMPENSATION COMMITTEE REPORT TO STOCKHOLDERS

The four members of the Board of Directors who are not members of management constitute the Compensation Committee. The Compensation Committee determines the compensation of the Chief Executive Officer and the President; reviews and approves compensation of other corporate officers holding the title of Senior Vice President or above ("Other Senior Management" and together with the Chief Executive Officer and the President, "Senior Management"), reviews the

Edgar Filing: APARTMENT INVESTMENT & MANAGEMENT CO - Form DEF 14A

general compensation and benefit practices of the Company; and administers the Company's stock option and other stock related plans.

In conducting its review and in making its determination and granting approvals, the Committee considers various factors: the alignment of management financial awards with shareholder objectives for Total Return (dividend income plus share price appreciation); reasonability of compensation in consideration of all the facts, including Total Return, the size and complexity of the Company, and practices of other real estate investment trusts; and recruitment and retention of the Company's management.

Compensation of Senior Management is comprised of Base Compensation, Discretionary Compensation and Incentive Compensation. The policy of the Compensation Committee is to set Base Compensation at or below the median paid by comparable companies to executive officers with comparable responsibilities; to utilize Discretionary Compensation, generally cash and in an amount not more than Base Compensation, to reward specific achievements; and to make the chief financial reward Incentive Compensation which is tied directly to the creation of shareholder value. The comparable

27

32

companies reviewed by the Compensation Committee are among those included in the SNL indices used in the stock price performance graph on page 36 of this Proxy Statement.

Base Compensation. The Compensation Committee determined 2000 Base Compensation for the Chief Executive Officer and for the President; reviewed and approved 2000 Base Compensation for Other Senior Management based upon the recommendation of the Chief Executive Officer and President; and considered such 2000 Base Compensation reasonable and in line with Company policy. The Base Compensation for Messrs. Considine and Kompaniez has been set to be equal or below the median compensation paid to executives with similar responsibilities at comparable companies reviewed by the Compensation Committee.

Discretionary Compensation. For 2000, the Compensation Committee considered, among other things:

- o AFFO and FFO per share increased to \$4.37 and \$4.81, respectively, an increase of 17% and 18%, respectively, over the prior year's results. Dividends per share increased from \$2.80 to \$3.12, an increase of 11% from the prior year.
- o Total market capitalization increased to approximately \$9.6 billion (\$5.0 billion in equity capitalization) as of December 31, 2000 compared to approximately \$7.2 billion (\$3.8 billion in equity capitalization), as of December 31, 1999, an increase of 33%.
- o 2000, acquisitions, in whole or in part, included approximately 179 properties, \$1 billion invested, including 39,779 units.
- o Property sales activity totaled approximately \$573.5 million for the year, consisting of 64 apartment communities, 11 commercial properties and 4 land parcels.
- o AIMCO's 2000 Total Return of 34.08% exceeded the Morgan Stanley Dean Witter REIT Index which had a return of 26.81%. On the basis of Total Return for 2000, AIMCO ranked fifth among apartment REITs of similar size.

- o AIMCO Total Return for the last five years is 256.10%, or 29.08% on an annualized basis, exceeding the Morgan Stanley Dean Witter REIT Index of 62.07%, which is 10.13% annualized. For the same period AIMCO ranked first among its peer group.

The Compensation Committee considered 2000 to be a year of strong performance by the Company. Recognizing Senior Management's contribution to this performance, the Compensation Committee approved Incentive Compensation consisting of options to purchase 200,000 shares of Common Stock each to Mr. Considine and to Mr. Kompaniez, and approved additional Discretionary Compensation of approximately \$5.1 million to other Senior Management. The Incentive Compensation paid to Messrs. Considine and Kompaniez consisted entirely of 200,000 options each to purchase Common Stock at \$47.63 per share, the closing price of the Company's Common Stock on January 23, 2001, the date prior to the award. The Compensation Committee valued the options at approximately \$5.00 per underlying share, based on the advice of a nationally recognized independent investment bank that

28

33

considered the exercise price, the terms of the options, the lack of transferability of the options, the vesting provisions (1/3 per year over three years), and the likely dividend rate on the underlying stock.

Incentive Compensation. Beginning in 1997, the Compensation Committee decided to determine Incentive Compensation primarily by reference to "Excess Value Added", calculated as the amount, if any, by which the Company's Total Return exceeded that achieved by other real estate investment trusts (as measured by Morgan Stanley Dean Witter REIT Index), multiplied by the weighted average market value of the Company's stock and OP Units outstanding during the measurement period. Up to 15% of Excess Value Added is available for cash or stock option awards (valued using a modified Black Scholes formula applied by an investment banking firm).

In 2000, the Company's Total Return was 34.08% which exceeded the 26.81% Total Return of the Morgan Stanley Dean Witter REIT Index; the Company's weighted average equity market value was approximately \$3.2 billion; and Excess Value Added was approximately \$234 million. The pool available for Incentive Compensation for 2000 was approximately \$35 million (15% of the Excess Value Added).

The Compensation Committee approved Senior Management receiving approximately \$5.1 million in 2000 Incentive Compensation, \$3.6 million paid in restricted stock grants vesting over the next three years (1/3 per year), and \$1.5 million in options to acquire 690,000 shares, on the same terms and with the same pricing as those issued to Mr. Considine and Mr. Kompaniez.

The following graph compares cumulative total returns for the Company's Common Stock ("AIMCO"), the Standard & Poor's 500 Total Return Index (the "S&P 500"), the NASDAQ, the SNL Residential REIT Index, the Morgan Stanley Dean Witter REIT Index and the Total Return of the Dow Jones Industrial Average from December 31, 1995 to December 31, 2000. The SNL Residential REIT Index was prepared by SNL Securities, an independent research and publishing firm specializing in the collection and dissemination of data on the banking, thrift and financial services industries. The Morgan Stanley Dean Witter REIT Index is published by Morgan Stanley Dean Witter & Co. Incorporated, an investment banking company. The indices are weighted for all companies that fit the definitional criteria of the particular index and are calculated to exclude companies as they are acquired and add them to the index calculation as they become publicly traded companies. All companies of the definitional criteria in existence at the point in time presented are included in the index calculations. The graph assumes the investment of \$100 in the Company's Common Stock and in each index on December 31, 1995, and that all dividends paid have been reinvested.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

From time to time, the Company has entered into various transactions with certain of its executive officers and directors. The Company attempts to price such transactions based on fair market value, and believes that the transactions are on terms that are as favorable to the Company as could be achieved with unrelated third parties.

High Performance Units. Effective January 1, 1998, the Operating Partnership sold to a limited liability company then owned by fourteen members of Senior Management (70% by a Considine family partnership, 14% owned by Mr. Kompaniez and 16% owned by twelve members of Senior Management) and then directors J. Landis Martin, Thomas Rhodes and John Smith, the Class I Units. The sale of Class I Units was ratified by stockholder vote at the Company's 1998 Annual Stockholders Meeting.

Based upon the Company's actual 1998-2000 performance versus the Morgan Stanley Dean Witter REIT Index, and a 30% minimum return the Class I Units were valued at \$115 million as of January 1, 2001 and thereafter entitled the holders thereof to receive distributions equal to those paid on approximately 2.4 million OP Units.

Transactions with Management Companies. From time to time the Company has formed corporations (the "Management Companies") in which the Operating Partnership holds non-voting preferred stock and 100% of the voting stock is owned by certain of the executive officers of the general partner of the Operating Partnership and AIMCO (or entities controlled by them), including Messrs. Considine and Kompaniez. The Management Companies were formed to engage in businesses generally not permitted under the REIT provisions of the Internal Revenue Code. Although transactions between the Company and the Management Companies are not at arm's length, the Company believes that such transactions are at fair market value.

After January 1, 2000, Messrs. Considine and Kompaniez, collectively, owned 1% of the outstanding stock (100% of the voting stock) of the following Management Companies: AIMCO/NHP Holdings, Inc. ("ANHI"), NHP Management Company ("NHPMC"), AIMCO/NHP Properties, Inc. ("ANPI") and NHP A&R Services, Inc. ("NHPAR"). All of Mr. Considine's ownership interests in these Management Companies are held through Tebet, L.L.C., a Colorado limited liability company of which he is the managing member ("Tebet") and Considine Investment Company ("CIC") which is wholly owned by Mr. Considine.

Effective January 1, 2000, the Operating Partnership offset debt owed to NHPMC and ANHI, against amounts receivable from NHPMC and ANHI in the aggregate amounts of \$255,510 and \$619,336, respectively. In addition, the Operating Partnership repaid all of its debt owed to NHPAR and ANPI in the amounts of \$1,894,326 and \$538,621, respectively.

Effective January 1, 2000, the Operating Partnership also contributed its 99% preferred stock holding in each of ANPI and NHPAR to NHPMC, and Messrs. Considine and Kompaniez contributed their collective 1% common stock holding in each of ANPI and NHPAR to NHPMC. As a result, NHPMC became the sole stockholder of both ANPI and NHPAR.

Effective January 1, 2000, after NHPMC became the sole stockholder of ANPI, NHPMC paid the Operating Partnership a dividend of all of the stock of TAHF Funding Corp., a wholly owned subsidiary of ANPI, and all the stock of

Edgar Filing: APARTMENT INVESTMENT & MANAGEMENT CO - Form DEF 14A

NHP-HDV Eleven, Inc., NHP-HDV Eighteen, Inc., and NHP-HDV Nineteen, Inc., three general partners of general partners of property owning partnerships.

For the year ended December 31, 2000, Tebet and CIC, and Mr. Kompaniez have received dividends of approximately \$23,800 and \$6,000, respectively, on their shares of common stock of the Management Companies, and the Company has received dividends of \$2,947,300 on its shares of preferred stock of the Management Companies.

As of January 1, 2001, Tebet and Mr. Kompaniez each transferred to the Operating Partnership the remainder of their common stock holdings in ANHI; and CIC and Mr. Kompaniez each transferred to the Operating Partnership the remainder of their common stock holdings in NHPMC. As a result, the Operating Partnership increased its ownership interest in each of ANHI and NHPMC from 99% to 100%, and Tebet, CIC and Mr. Kompaniez eliminated their ownership interests in each of ANHI and NHPMC. The purchase price paid by the Operating Partnership for the interests in these companies acquired from Tebet and CIC was \$1,303,800 and for the interests in NHPMC acquired from Mr. Kompaniez was \$325,950. These purchase prices were determined by AIMCO's independent directors, based on a valuation done by an independent appraiser. In consideration for the transfers, the Operating Partnership assumed \$98,305 of promissory notes that Tebet and CIC had issued to purchase their interests in NHPMC, and \$24,575 of promissory notes that Mr. Kompaniez had issued to purchase his interests in NHPMC. In considerations for the transfers, the Operating Partnership also issued to Tebet and CIC 24,140 OP Units, and to Mr. Kompaniez 6,035 OP Units.

STOCK PURCHASE LOANS

From time to time, the Company makes loans to its executive officers to finance their purchase of shares of Common Stock from the Company. During 2000, the Company sold 12,000 shares of Common Stock to Mr. Alcock and 13,148 shares of Common Stock to Mr. Monson for purchase prices of \$462,000 and \$506,198, respectively. In each case, the purchase price was equal to the closing price of the Common Stock on the New York Stock Exchange on the date of sale. In payment for such shares, Messrs. Alcock, and Monson executed notes payable to the Company bearing interest at 7.25% per annum, payable quarterly, and due in 2010. The following table sets forth certain information with respect to these loans to executive officers.
