

Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

SKYWORKS SOLUTIONS INC

Form 424B3

January 22, 2003

Filed Pursuant to Rule 424(b) (3)  
SEC File Number 333-102157

-----  
SKYWORKS SOLUTIONS, INC.  
-----

\$45,000,000  
15% CONVERTIBLE SENIOR SUBORDINATED NOTES DUE 2005  
AND THE COMMON STOCK  
ISSUABLE UPON CONVERSION OR AT MATURITY  
(INCLUDING UPON CERTAIN ACCELERATION EVENTS) OF THE 15%  
CONVERTIBLE SENIOR SUBORDINATED  
NOTES  
-----

We issued on November 25, 2002 15% Convertible Senior Subordinated Notes due June 30, 2005 (the "Senior Notes") to Conexant Systems, Inc. ("Conexant") in exchange for an equal principal amount of 15% Interim Convertible Notes due June 30, 2005 (the "Interim Notes"), which were issued to Conexant in November 2002. The Interim Notes were issued by us in exchange for certain outstanding indebtedness issued under a financing agreement with Conexant. This prospectus may be used by Conexant or its assigns, the selling securityholders, to resell the Senior Notes and the common stock issuable upon conversion or at maturity (including upon certain acceleration events) of the Senior Notes.

We will pay interest in cash on the Senior Notes on the last business day of each March, June, September and December of each year, beginning December 31, 2002. The Senior Notes will mature on June 30, 2005, unless earlier converted or redeemed. At maturity (including upon certain acceleration events), we will pay the principal amount of the Senior Notes by issuing and delivering a number of whole shares of common stock equal to the principal amount of the Senior Notes then due and payable divided by the applicable conversion price in effect on such date, together with cash in lieu of any fractional shares.

The Senior Notes are convertible, at the option of the holder, at any time through the close of business on the business day immediately preceding June 30, 2005 into shares of our common stock. The Senior Notes are convertible at the applicable conversion price as of the conversion date. As of January 15, 2003, the Senior Notes are convertible at a conversion price of \$7.87 per share into 5,717,916 shares of common stock, subject to adjustment.

We may not redeem the Senior Notes (or any portion thereof) at any time prior to May 12, 2004. Thereafter we may redeem the Senior Notes at our option, in whole or in part, upon not less than 20 nor more than 60 days' notice by mail to holders of the Senior Notes. The redemption price of the Senior Notes will be \$1,030 per \$1,000 principal amount of Senior Notes to be redeemed, plus accrued and unpaid interest, if any, to, but not including, the redemption date.

Holders of the Senior Notes may require us to repurchase the Senior Notes upon a change in control.

Our common stock is quoted on the Nasdaq National Market under the symbol "SWKS." On January 15, 2003, the last reported sale price of the common stock on the Nasdaq National Market was \$9.00 per share.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

INVESTING IN THE SENIOR NOTES OR THE COMMON STOCK ISSUABLE UPON THE CONVERSION OR AT MATURITY (INCLUDING UPON CERTAIN ACCELERATION EVENTS) OF THE SENIOR NOTES INVOLVES A HIGH DEGREE OF RISK. SEE "RISK FACTORS" BEGINNING ON PAGE 6.

THE SECURITIES AND EXCHANGE COMMISSION AND STATE SECURITIES REGULATORS HAVE NOT APPROVED OR DISAPPROVED OF THESE SECURITIES OR DETERMINED IF THIS PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this prospectus is January 21, 2003.

WHERE YOU CAN FIND MORE INFORMATION ..... 54

YOU SHOULD RELY ONLY ON THE INFORMATION CONTAINED IN THIS DOCUMENT OR TO WHICH WE HAVE REFERRED YOU. WE HAVE NOT AUTHORIZED ANYONE TO PROVIDE YOU WITH INFORMATION THAT IS DIFFERENT. THIS DOCUMENT MAY BE USED ONLY WHERE IT IS LEGAL TO SELL THESE SECURITIES. THE INFORMATION IN THIS DOCUMENT MAY ONLY BE ACCURATE ON THE DATE OF THIS DOCUMENT.

### SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus includes forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, that are subject to the "safe harbor" created by those sections. Some of the forward-looking statements can be identified by the use of forward-looking terms such as "believes," "expects," "may," "will," "should," "could," "seek," "intends," "plans," "estimates," "anticipates" or other comparable terms. Forward-looking statements involve inherent risks and uncertainties. A number of important factors could cause actual results to differ materially from those in the forward-looking statements, including those factors discussed in this prospectus in "Risk Factors" and in the documents incorporated by reference herein. Factors that could cause actual results to differ from those reflected in forward-looking statements relating to the operations and business of the combined company include:

- o the failure to meet our expectations with respect to our merger with the wireless communications business of Conexant in June 2002;
- o the cyclical nature of the wireless communications semiconductor industry and the markets addressed by our products and our customers' products;
- o general economic and business conditions that adversely affect us or our suppliers, distributors or customers;
- o demand for and market acceptance of new and existing products;
- o successful development of new products and the timing of new product introductions;
- o the availability and extent of utilization of manufacturing capacity and raw materials;
- o pricing pressures and other competitive factors;
- o fluctuations in manufacturing yields;
- o product obsolescence;
- o our ability to develop and implement new technologies and to obtain protection of the related intellectual property;
- o our ability to attract and retain qualified personnel;

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

- o the disproportionate impact of our business relationships with large customers;
- o the uncertainties of litigation; and
- o other risks and uncertainties, including those set forth in this prospectus and those detailed from time to time in our filings with the Securities and Exchange Commission.

You should read this prospectus and the documents incorporated by reference into it completely and with the understanding that actual future results may be materially different from expectations. All forward-looking statements made in this prospectus are qualified by these cautionary statements. These forward-looking statements are made only as of the date of this prospectus, and we do not undertake any obligation, other than as may be required by law, to update or revise any forward-looking statements to reflect changes in assumptions, the occurrence of unanticipated events or changes in future operating results over time.

-2-

### PROSPECTUS SUMMARY

This summary provides an overview of selected information and may not contain all of the information that is important to you. You should read the entire prospectus carefully, including the "Risk Factors" section included herein, and the financial data, related notes and other information we have incorporated by reference, before making an investment decision.

Unless the context otherwise requires in this prospectus, "Skyworks," "the Company," "we," "us," and "our" refer to Skyworks Solutions, Inc. and its subsidiaries.

### ABOUT SKYWORKS

Skyworks Solutions, Inc. ("Skyworks" or the "Company") is a leading wireless semiconductor company focused on providing front-end modules, radio frequency (RF) subsystems, semiconductor components and complete system solutions to wireless handset and infrastructure customers worldwide. We offer a comprehensive family of components and RF subsystems, and also provide complete antenna-to-microphone semiconductor solutions that support advanced 2.5G and 3G services.

Skyworks offers components, subsystems and system-level semiconductor solutions for wireless voice and data communications applications, supporting the world's most widely adopted wireless standards. Skyworks possesses a broad wireless technology capability and one of the most complete wireless communications product portfolios, coupled with customer relationships with virtually all major handset and infrastructure manufacturers. Our product portfolio includes almost every key semiconductor integrated circuit found within a digital cellular handset. We believe that we have a comprehensive radio frequency and mixed signal processing and packaging portfolio, extensive circuit design libraries and a proven track record in component and system design. We sell our products primarily through a direct Skyworks sales force and also through independent manufacturers' representatives and distribution partners.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

Skyworks was formed through the merger ("Merger") of the wireless communications business of Conexant Systems, Inc. ("Conexant") and Alpha Industries, Inc. ("Alpha") on June 25, 2002. Following the Merger, Alpha changed its corporate name to Skyworks Solutions, Inc. On November 12, 2002, we successfully closed a private placement of \$230 million of 4 3/4% convertible subordinated notes due November 2007. The net proceeds from this convertible note offering were principally used to prepay debt owed to Conexant under a financing agreement entered into with Conexant immediately following the Merger. The payments to Conexant retired \$105 million of a \$150 million promissory note relating to the purchase of Conexant's semiconductor assembly, module manufacturing and test facility located in Mexicali, Mexico, and certain related operations ("Mexicali Operations"). The payments also repaid the \$65 million principal amount then outstanding under a loan facility provided by Conexant pursuant to the financing agreement, terminating the financing agreement, including the loan facility and resulting in the release of Conexant's security interest in substantially all assets and properties of the Company. Conexant's former wireless communications business and the Mexicali Operations are collectively referred to herein as "Washington/Mexicali."

We are headquartered in Woburn, Massachusetts, and have executive offices in Newport Beach, California. We have design, engineering, manufacturing, marketing, sales and service facilities throughout North America, Europe, and the Asia/Pacific region. Our Internet address is [www.skyworksinc.com](http://www.skyworksinc.com). We make available on our Internet website free of charge a link to our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports as soon as practicable after we electronically file such material with the SEC. The information contained on our website is not incorporated by reference in this prospectus.

-3-

### THE OFFERING

The following is a brief summary of some of the terms of the securities offered for resale in this prospectus. For a more complete description of the terms of the Senior Notes, see "Description of the Senior Notes" in this prospectus. For a more complete description of our common stock, see "Description of Capital Stock" in this prospectus.

Securities Offered....	\$45,000,000 aggregate principal amount of 15% Convertible Senior Subordinated Notes due June 30, 2005 and the shares of our common stock issuable upon conversion or at maturity (including upon certain acceleration events) of the Senior Notes.
Interest.....	The Senior Notes bear interest at an annual rate of 15%. Interest is payable in cash on the last business day of each March, June, September and December of each year, beginning December 31, 2002, and at maturity.
Maturity Date.....	June 30, 2005.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

Payment of Principal.. On the maturity date and upon certain acceleration events, we will pay the principal amount of the Senior Notes by issuing and delivering a number of whole shares of common stock equal to the principal amount of the Senior Notes then due and payable divided by the applicable conversion price in effect on such date (described below under "Conversion Rights"), together with cash in lieu of any fractional shares.

Conversion Rights..... Holders may convert the Senior Notes into shares of our common stock, at the applicable conversion price as of the related conversion date, at any time through the close of business on the business day immediately preceding June 30, 2005. The Senior Notes are initially convertible at a conversion price of \$7.87 per share, which, if converted in full on the date hereof, would result in the issuance of approximately 5,717,916 shares of our common stock. In the event that the market price of our common stock is below the conversion price for a specified period, the holders of the Senior Notes would be entitled to receive, upon conversion of the Senior Notes, that number of shares of our common stock that is equal to the principal amount of the Senior Notes being converted, divided by the market price of our common stock, provided that in no event will the number of shares issued exceed 125% of the number of shares that the holders would have received at the conversion price. The conversion price is also subject to adjustment pursuant to anti-dilution provisions. Upon conversion, holders will not receive any cash representing accrued interest on the portion of the Senior Notes converted.

Optional Redemption... We may redeem the Senior Notes on or after May 12, 2004, at a redemption price of 103% of the principal amount of the Senior Notes subject to redemption.

Change in Control..... Upon a change in control, we may be required to make an offer to purchase each holder's Senior Notes at a cash price equal to 100% of the principal amount thereof, plus accrued and unpaid interest, if any, to the date of purchase.

-4-

Subordination..... The Senior Notes are our unsecured obligations. The Senior Notes are senior in right of payment to our 4 3/4% Convertible Subordinated Notes due November 2007. The Senior Notes are subordinated in right of payment to all of our existing and future senior indebtedness (other than indebtedness that is expressly subordinated to the Senior Notes) and

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

structurally subordinated to all of our subsidiary indebtedness. As of December 27, 2002, our total senior indebtedness was approximately \$105 million. The indenture governing the Senior Notes does not limit our or our subsidiaries' ability to incur senior indebtedness or other debt.

Use of Proceeds.....	We will not receive any of the proceeds from the sale by the selling securityholders of the Senior Notes or the common stock issuable upon conversion or at maturity (including upon certain acceleration events) of the Senior Notes.
Common Stock.....	Our common stock is quoted on The Nasdaq National Market under the symbol "SWKS."

### RISK FACTORS

Investment in the Senior Notes and the common stock issuable upon conversion of the Senior Notes involves a high degree of risk. You should carefully consider the information under "Risk Factors" beginning on page 6 and all other information included and incorporated by reference in this prospectus before investing in the Senior Notes or the common stock into which the Senior Notes are convertible.

-5-

### RISK FACTORS

You should carefully consider the risks described below before investing in the Senior Notes or the common stock issuable upon conversion or at maturity (including upon certain acceleration events) of the Senior Notes. If any of the following risks actually occurs, our business, financial condition or results of operations could be materially and adversely affected. In such case, our ability to make payments on the Senior Notes could be impaired, the trading price of the Senior Notes and our common stock could decline, and you could lose all or part of your investment.

This prospectus also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks faced by us described below and elsewhere in this prospectus.

### RISKS RELATED TO SKYWORKS

WE HAVE RECENTLY INCURRED SUBSTANTIAL OPERATING LOSSES AND ANTICIPATE FUTURE LOSSES.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

Our operating results have been adversely affected by a global economic slowdown and an abrupt decline in demand for many of the end-user products that incorporate wireless communications semiconductor products and system solutions. As a result, we incurred substantial operating losses during the twelve-month period ended September 27, 2002. We expect that reduced end-customer demand, underutilization of our manufacturing capacity, changes in our revenue mix and other factors will continue to adversely affect our operating results in the near term. In order to become profitable, we must achieve substantial revenue growth and we will face an environment of uncertain demand in the markets for our products. We cannot assure you as to whether or when we will become profitable or whether we will be able to sustain such profitability, if achieved.

WE OPERATE IN THE HIGHLY CYCLICAL WIRELESS COMMUNICATIONS SEMICONDUCTOR INDUSTRY, WHICH IS SUBJECT TO SIGNIFICANT DOWNTURNS.

The wireless communications semiconductor industry is highly cyclical and is characterized by constant and rapid technological change, rapid product obsolescence and price erosion, evolving technical standards, short product life cycles and wide fluctuations in product supply and demand. From time to time these and other factors, together with changes in general economic conditions, cause significant upturns and downturns in the industry. Periods of industry downturns, as we experienced through most of calendar year 2001, have been characterized by diminished product demand, production overcapacity, high inventory levels and accelerated erosion of average selling prices. These factors, and in particular the level of demand for digital cellular handsets, may cause substantial fluctuations in our revenues and results of operations. We have experienced these cyclical fluctuations in our business and may experience cyclical fluctuations in the future. During the late 1990's and extending into 2000, the wireless communications semiconductor industry enjoyed unprecedented growth, benefiting from the rapid expansion of wireless communication services worldwide and increased demand for digital cellular handsets. During calendar year 2001, we were adversely impacted by a global economic slowdown and an abrupt decline in demand for many of the end-user products that incorporate our respective wireless communications semiconductor products and system solutions, particularly digital cellular handsets. The impact of weakened end-customer demand was compounded by higher than normal levels of inventories among our original equipment manufacturer, or OEM, subcontractor and distributor customers. We expect that reduced end-customer demand, underutilization of our manufacturing capacity, changes in revenue mix and other factors will continue to adversely affect our operating results in the near term.

WE ARE SUBJECT TO INTENSE COMPETITION.

The wireless communications semiconductor industry in general and the markets in which we compete in particular are intensely competitive. We compete with U.S. and international semiconductor manufacturers that are both larger and smaller than us in terms of resources and market share. We currently face significant competition in our markets and expect that intense price and product competition will continue. This competition has resulted and is expected to continue to result in declining average selling prices for our products. We also anticipate that additional competitors will enter our markets as a result of growth opportunities in communications electronics, the trend toward global

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

policy changes. We believe that the principal competitive factors for semiconductor suppliers in our market include, among others:

- o time-to-market;
- o new product innovation;
- o product quality, reliability and performance;
- o price;
- o compliance with industry standards;
- o strategic relationships with customers; and
- o protection of intellectual property.

We cannot assure you that we will be able to successfully address these factors. Many of our competitors have advantages over us, including:

- o longer presence in key markets;
- o greater name recognition;
- o ownership or control of key technology or intellectual property; and
- o greater financial, sales and marketing, manufacturing, distribution, technical or other resources.

As a result, certain competitors may be able to adapt more quickly than we can to new or emerging technologies and changes in customer requirements or may be able to devote greater resources to the development, promotion and sale of their products than we can.

Current and potential competitors have established or may establish financial or strategic relationships among themselves or with our customers, resellers or other third parties. These relationships may affect customers' purchasing decisions. Accordingly, it is possible that new competitors or alliances among competitors could emerge and rapidly acquire significant market share. We cannot assure you that we will be able to compete successfully against current and potential competitors.

OUR SUCCESS DEPENDS UPON OUR ABILITY TO DEVELOP NEW PRODUCTS AND REDUCE COSTS IN A TIMELY MANNER.

The markets into which we sell demand cutting-edge technologies and new and innovative products. Our operating results depend largely on our ability to continue to introduce new and enhanced products on a timely basis. Successful product development and introduction depends on numerous factors, including:

- o the ability to anticipate customer and market requirements and changes in technology and industry standards;
- o the ability to define new products that meet customer and market requirements;
- o the ability to complete development of new products and bring products to market on a timely basis;
- o the ability to differentiate our products from offerings of our

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

competitors; and

- o overall market acceptance of our products.

We cannot assure you that we will have sufficient resources to make the substantial investment in research and development in order to develop and bring to market new and enhanced products in a timely manner. We will be required continually to evaluate expenditures for planned product development and to choose among alternative technologies based on our expectations of future market growth. We cannot assure you that we will be able to develop and introduce new or enhanced wireless communications semiconductor products in a timely and cost-effective manner, that our products will satisfy customer requirements or achieve market acceptance or that we will be able to anticipate new industry standards and technological changes. We also cannot assure you that we will be able to respond successfully to new product announcements and introductions by competitors.

In addition, prices of established products may decline, sometimes significantly, over time. We believe that to remain competitive we must continue to reduce the cost of producing and delivering existing products at the same

-7-

time that we develop and introduce new or enhanced products. We cannot assure you that we will be able to continue to reduce the cost of our products to remain competitive.

WE MAY NOT BE ABLE TO KEEP ABREAST OF THE RAPID TECHNOLOGICAL CHANGES IN OUR MARKETS.

The demand for our products can change quickly and in ways we may not anticipate. Our markets generally exhibit the following characteristics:

- o rapid technological developments;
- o rapid changes in customer requirements;
- o frequent new product introductions and enhancements;
- o short product life cycles with declining prices over the life cycle of the product; and
- o evolving industry standards.

Our products could become obsolete or less competitive sooner than anticipated because of a faster than anticipated change in one or more of the technologies related to our products or in market demand for products based on a particular technology, particularly due to the introduction of new technology that represents a substantial advance over current technology. Currently accepted industry standards are also subject to change, which may contribute to the obsolescence of our products.

WE MAY NOT BE ABLE TO ATTRACT AND RETAIN QUALIFIED PERSONNEL NECESSARY FOR THE DESIGN, DEVELOPMENT, MANUFACTURE AND SALE OF OUR PRODUCTS. OUR SUCCESS COULD BE NEGATIVELY AFFECTED IF KEY PERSONNEL LEAVE.

Our success depends on our ability to continue to attract, retain and motivate qualified personnel, including executive officers and other key management and

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

technical personnel. As the source of our technological and product innovations, our key technical personnel represent a significant asset. The competition for management and technical personnel is intense in the semiconductor industry. We cannot assure you that we will be able to attract and retain qualified management and other personnel necessary for the design, development, manufacture and sale of our products. We may have particular difficulty attracting and retaining key personnel during periods of poor operating performance, given, among other things, the use of equity-based compensation by us and our competitors. The loss of the services of one or more of our key employees or our inability to attract, retain and motivate qualified personnel, could have a material adverse effect on our ability to operate our business.

IF OEMS OF COMMUNICATIONS ELECTRONICS PRODUCTS DO NOT DESIGN OUR PRODUCTS INTO THEIR EQUIPMENT, WE WILL HAVE DIFFICULTY SELLING THOSE PRODUCTS. MOREOVER, A "DESIGN WIN" FROM A CUSTOMER DOES NOT GUARANTEE FUTURE SALES TO THAT CUSTOMER.

Our products will not be sold directly to the end-user but will be components of other products. As a result, we will rely on OEMs of wireless communications electronics products to select our products from among alternative offerings to be designed into their equipment. Without these "design wins" from OEMs, we would have difficulty selling our products. Once an OEM designs another supplier's product into one of its product platforms, it is more difficult for us to achieve future design wins with that OEM product platform because changing suppliers involves significant cost, time, effort and risk on the part of that OEM. Also, achieving a design win with a customer does not ensure that we will receive significant revenues from that customer. Even after a design win, the customer is not obligated to purchase our products and can choose at any time to reduce or cease use of our products, for example, if its own products are not commercially successful, or for any other reason. We may be unable to achieve design wins or to convert design wins into actual sales.

BECAUSE OF THE LENGTHY SALES CYCLES OF MANY OF OUR PRODUCTS, WE MAY INCUR SIGNIFICANT EXPENSES BEFORE WE GENERATE ANY REVENUES RELATED TO THOSE PRODUCTS.

Our customers may need three to six months to test and evaluate our products and an additional three to six months to begin volume production of equipment that incorporates our products. The lengthy period of time required increases the possibility that a customer may decide to cancel or change product plans, which could reduce or eliminate our sales to that customer. As a result of this lengthy sales cycle, we may incur significant research and

-8-

development, and selling, general and administrative expenses before we generate the related revenues for these products, and we may never generate the anticipated revenues if our customer cancels or changes its product plans.

UNCERTAINTIES INVOLVING THE ORDERING AND SHIPMENT OF OUR PRODUCTS COULD ADVERSELY AFFECT OUR BUSINESS.

Our sales will typically be made pursuant to individual purchase orders and not under long-term supply arrangements with our customers. Our customers may cancel orders prior to shipment. Additionally, we will sell a portion of our products through distributors, some of whom will have rights to return unsold products. We may purchase and manufacture inventory based on estimates of customer demand for our products, which is difficult to predict. This difficulty may be compounded when we sell to OEMs indirectly through distributors or contract manufacturers, or both, as our forecasts of demand will then be based on

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

estimates provided by multiple parties. In addition, our customers may change their inventory practices on short notice for any reason. The cancellation or deferral of product orders, the return of previously sold products, or overproduction due to the failure of anticipated orders to materialize, could result in us holding excess or obsolete inventory, which could result in inventory write-downs.

OUR RELIANCE ON A SMALL NUMBER OF CUSTOMERS FOR A LARGE PORTION OF OUR SALES COULD HAVE A MATERIAL ADVERSE EFFECT ON THE RESULTS OF OUR OPERATIONS.

A significant portion of our sales are concentrated among a limited number of customers. If we lost one or more of these major customers, or if one or more major customers significantly decreased its orders of our products, our business would be materially and adversely affected. Sales to Samsung Electronics Co. and to Motorola, Inc. represented approximately 38% and 12%, respectively, of net revenues from customers other than Conexant during fiscal 2002 on a historical basis (such sales representing Washington/Mexicali sales for the fiscal year through June 25, 2002, and sales of Skyworks, the combined company, for the post-merger period from June 26, 2002 through the end of the fiscal year). Our future operating results will depend on the success of these customers and other customers and our success in selling products to them.

WE FACE A RISK THAT CAPITAL NEEDED FOR OUR BUSINESS WILL NOT BE AVAILABLE WHEN WE NEED IT.

We may need to obtain sources of financing in the future. After giving effect to the net proceeds we received in our private placement of 4 3/4% convertible subordinated notes due November 2007 and our debt refinancing with Conexant, we believe that our existing sources of liquidity, together with cash expected to be generated from operations, will be sufficient to fund our research and development, capital expenditure, working capital and other financing requirements for at least the next twelve months.

However, we cannot assure you that the capital required to fund these expenses will be available in the future. Conditions existing in the U.S. capital markets when the Company seeks financing will affect our ability to raise capital, as well as the terms of any financing. The Company may not be able to raise enough capital to meet our capital needs on a timely basis or at all. Failure to obtain capital when required would have a material adverse effect on the Company.

In addition, any strategic investments and acquisitions that we may make to help us grow our business may require additional capital resources. We cannot assure you that the capital required to fund these investments and acquisitions will be available in the future.

OUR MANUFACTURING PROCESSES ARE EXTREMELY COMPLEX AND SPECIALIZED.

Our manufacturing operations are complex and subject to disruption due to causes beyond our control. The fabrication of integrated circuits is an extremely complex and precise process consisting of hundreds of separate steps. It requires production in a highly controlled, clean environment. Minor impurities, errors in any step of the fabrication process, defects in the masks used to print circuits on a wafer or a number of other factors can cause a substantial percentage of wafers to be rejected or numerous die on each wafer not to function.

Our operating results are highly dependent upon our ability to produce integrated circuits at acceptable

-9-

manufacturing yields. Our operations may be affected by lengthy or recurring disruptions of operations at any of our production facilities or those of our subcontractors. These disruptions may include electrical power outages, fire, earthquake, flooding or other natural disasters. Disruptions of our manufacturing operations could cause significant delays in shipments until we are able to shift the products from an affected facility or subcontractor to another facility or subcontractor.

In the event of these types of delays, we cannot assure you that the required alternative capacity, particularly wafer production capacity, would be available on a timely basis or at all. Even if alternative wafer production capacity is available, we may not be able to obtain it on favorable terms, which could result in higher costs and/or a loss of customers. We may be unable to obtain sufficient manufacturing capacity to meet demand, either at our own facilities or through external manufacturing or similar arrangements with others.

Due to the highly specialized nature of the gallium arsenide integrated circuit manufacturing process, in the event of a disruption at the Newbury Park, California or Woburn, Massachusetts semiconductor wafer fabrication facilities, alternative gallium arsenide production capacity would not be immediately available from third-party sources. These disruptions could have a material adverse effect on our business, financial condition and results of operations.

WE MAY NOT BE ABLE TO ACHIEVE MANUFACTURING YIELDS THAT CONTRIBUTE POSITIVELY TO OUR GROSS MARGIN AND PROFITABILITY.

Minor deviations or perturbations in the manufacturing process can cause substantial manufacturing yield loss, and in some cases, cause production to be suspended. Manufacturing yields for new products initially tend to be lower as we complete product development and commence volume manufacturing, and typically increase as we bring the product to full production. Our forward product pricing includes this assumption of improving manufacturing yields and, as a result, material variances between projected and actual manufacturing yields will have a direct effect on our gross margin and profitability. The difficulty of forecasting manufacturing yields accurately and maintaining cost competitiveness through improving manufacturing yields will continue to be magnified by the increasing process complexity of manufacturing semiconductor products. Our manufacturing operations will also face pressures arising from the compression of product life cycles, which will require us to manufacture new products faster and for shorter periods while maintaining acceptable manufacturing yields and quality without, in many cases, reaching the longer-term, high-volume manufacturing conducive to higher manufacturing yields and declining costs.

WE ARE DEPENDENT UPON THIRD PARTIES FOR THE MANUFACTURE, ASSEMBLY AND TEST OF OUR PRODUCTS.

We rely upon independent wafer fabrication facilities, called foundries, to provide silicon-based products and to supplement our gallium arsenide wafer manufacturing capacity. There are significant risks associated with reliance on third-party foundries, including:

- o the lack of ensured wafer supply, potential wafer shortages and higher wafer prices;
- o limited control over delivery schedules, manufacturing yields, production costs and product quality; and

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

- o the inaccessibility of, or delays in obtaining access to, key process technologies.

Although we have long-term supply arrangements to obtain additional external manufacturing capacity, the third-party foundries we use may allocate their limited capacity to the production requirements of other customers. If we choose to use a new foundry, it will typically take an extended period of time to complete the qualification process before we can begin shipping products from the new foundry. The foundries may experience financial difficulties, be unable to deliver products to us in a timely manner or suffer damage or destruction to their facilities, particularly since some of them are located in earthquake zones. If any disruption of manufacturing capacity occurs, we may not have alternative manufacturing sources immediately available. We may therefore experience difficulties or delays in securing an adequate supply of our products, which could impair our ability to meet our customers' needs and have a material adverse effect on our operating results.

We also intend to utilize subcontractors to package, assemble and test a portion of our products. Because we rely on others to package, assemble or test our products, we are subject to many of the same risks as are described above with respect to foundries.

-10-

### WE ARE DEPENDENT UPON THIRD PARTIES FOR THE SUPPLY OF RAW MATERIALS AND COMPONENTS.

We believe we have adequate sources for the supply of raw materials and components for our manufacturing needs with suppliers located around the world. However, we are currently dependent on two suppliers for epitaxial wafers used in the gallium arsenide semiconductor manufacturing processes at our manufacturing facilities. Nevertheless, while we historically have not experienced any significant difficulties in obtaining an adequate supply of raw materials, including epitaxial wafers, and components necessary for our manufacturing operations, we cannot assure you that we will not lose a significant supplier or that a supplier will be able to meet performance and quality specifications or delivery schedules.

Under a supply agreement entered into with Conexant in connection with the Merger, we receive wafer fabrication, wafer probe and certain other services from Jazz Semiconductor, Inc., a Newport Beach, California foundry joint venture between Conexant and The Carlyle Group. Pursuant to our supply agreement with Conexant, we are initially obligated to purchase certain minimum volume levels from Jazz Semiconductor based on a contractual agreement between Conexant and Jazz Semiconductor. Our expected minimum purchase obligations under this supply agreement are anticipated to be approximately \$64 million, \$39 million and \$13 million in fiscal 2003, 2004 and 2005, respectively. We estimate that our minimum purchase obligation under this agreement will result in excess costs of approximately \$5.1 million and we have recorded this liability and charged to cost of sales in fiscal 2002.

### WE ARE SUBJECT TO THE RISKS OF DOING BUSINESS INTERNATIONALLY.

Historically, a substantial majority of the Company's net revenues from customers other than Conexant were derived from customers located outside the United States, primarily countries located in the Asia-Pacific region and Europe. In addition, we have suppliers located outside the United States and third-party packaging, assembly and test facilities and foundries located in the

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

Asia-Pacific region. Our international sales and operations are subject to a number of risks inherent in selling and operating abroad. These include, but are not limited to, risks regarding:

- o currency exchange rate fluctuations;
- o local economic and political conditions;
- o disruptions of capital and trading markets;
- o restrictive governmental actions (such as restrictions on transfer of funds and trade protection measures, including export duties and quotas and customs duties and tariffs);
- o changes in legal or regulatory requirements;
- o limitations on the repatriation of funds;
- o difficulty in obtaining distribution and support;
- o the laws and policies of the United States and other countries affecting trade, foreign investment and loans, and import or export licensing requirements;
- o tax laws; and
- o limitations on our ability under local laws to protect our intellectual property.

Because our international sales are denominated in U.S. dollars our products could become less competitive in international markets if the value of the U.S. dollar increases relative to foreign currencies. Moreover, we may be competitively disadvantaged relative to our competitors located outside the United States who may benefit from a devaluation of their local currency. We cannot assure you that the factors described above will not have a material adverse effect on our ability to increase or maintain our international sales.

OUR OPERATING RESULTS MAY BE NEGATIVELY AFFECTED BY SUBSTANTIAL QUARTERLY AND ANNUAL FLUCTUATIONS AND MARKET DOWNTURNS.

Our revenues, earnings and other operating results have fluctuated in the past and our revenues, earnings and other operating results may fluctuate in the future. These fluctuations are due to a number of factors, many of which are beyond our control. These factors include, among others:

- o changes in end-user demand for the products (principally digital cellular handsets) manufactured and sold

-11-

by our customers;

- o the effects of competitive pricing pressures, including decreases in average selling prices of our products;
- o production capacity levels and fluctuations in manufacturing yields;

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

- o availability and cost of products from our suppliers;
- o the gain or loss of significant customers;
- o our ability to develop, introduce and market new products and technologies on a timely basis;
- o new product and technology introductions by competitors;
- o changes in the mix of products produced and sold;
- o market acceptance of our products and our customers;
- o intellectual property disputes;
- o seasonal customer demand;
- o the timing of receipt, reduction or cancellation of significant orders by customers; and
- o the timing and extent of product development costs.

The foregoing factors are difficult to forecast, and these, as well as other factors, could materially adversely affect our quarterly or annual operating results. If our operating results fail to meet the expectations of analysts or investors, it could materially and adversely affect the price of our common stock.

OUR GALLIUM ARSENIDE SEMICONDUCTORS MAY NOT CONTINUE TO BE COMPETITIVE WITH SILICON ALTERNATIVES.

We manufacture and sell gallium arsenide semiconductor devices and components, principally power amplifiers and switches. The production of gallium arsenide integrated circuits is more costly than the production of silicon circuits. As a result, we must offer gallium arsenide products that provide superior performance to that of silicon for specific applications to be competitive with their respective silicon products. If we do not continue to offer products that provide sufficiently superior performance to justify the cost differential, our operating results may be materially and adversely affected. It is expected that the costs of producing gallium arsenide integrated circuits will continue to exceed the costs associated with the production of silicon circuits. The costs differ because of higher costs of raw materials for gallium arsenide and higher unit costs associated with smaller sized wafers and lower production volumes. Silicon semiconductor technologies are widely-used process technologies for certain integrated circuits and these technologies continue to improve in performance. We cannot assure you that we will continue to identify products and markets that require performance superior to that offered by silicon solutions.

WE MAY BE SUBJECT TO CLAIMS OF INFRINGEMENT OF THIRD-PARTY INTELLECTUAL PROPERTY RIGHTS OR DEMANDS THAT WE LICENSE THIRD-PARTY TECHNOLOGY, WHICH COULD RESULT IN SIGNIFICANT EXPENSE AND PREVENT US FROM USING OUR TECHNOLOGY.

The semiconductor industry is characterized by vigorous protection and pursuit of intellectual property rights. From time to time, third parties have asserted and may in the future assert patent, copyright, trademark and other intellectual property rights to technologies that are important to our business and have demanded and may in the future demand that we license their technology. At the present time, we are in discussions with a third party who claims that we are infringing certain of its intellectual property rights. The third party has filed a complaint in this matter but has not yet served Skyworks with the complaint. Although we believe that these claims are without merit, we are in

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

discussions with this party to avoid litigation. The third party has indicated its willingness to resolve these claims without litigation. If this third party were to proceed with litigation, we are prepared to vigorously defend against these claims. Moreover, we believe that the patent infringement claims that were asserted would impact only a limited number of our RF IC product line which presently accounts for less than 5% of our annualized revenues.

Any litigation to determine the validity of claims that our products infringe or may infringe these rights, including claims arising from our contractual indemnification of our customers, regardless of their merit or resolution, could be costly and divert the efforts and attention of our management and technical personnel. Regardless of the merits of any specific claim, we cannot assure you that we would prevail in litigation because of the complex technical issues and inherent uncertainties in intellectual property litigation. If litigation were to result in an adverse ruling, we could be required to:

- o pay substantial damages;

-12-

- o cease the manufacture, import, use, sale or offer for sale of infringing products or processes;
- o discontinue the use of infringing technology;
- o expend significant resources to develop non-infringing technology; and
- o license technology from the third party claiming infringement, which license may not be available on commercially reasonable terms.

IF WE ARE NOT SUCCESSFUL IN PROTECTING OUR INTELLECTUAL PROPERTY RIGHTS, IT MAY HARM OUR ABILITY TO COMPETE.

We rely on patent, copyright, trademark, trade secret and other intellectual property laws, as well as nondisclosure and confidentiality agreements and other methods, to protect our proprietary technologies, devices, algorithms and processes. In addition, we often incorporate the intellectual property of our customers, suppliers or other third parties into our designs, and we have obligations with respect to the non-use and non-disclosure of such third-party intellectual property. In the future, it may be necessary to engage in litigation or like activities to enforce our intellectual property rights, to protect our trade secrets or to determine the validity and scope of proprietary rights of others, including our customers. This could require us to expend significant resources and to divert the efforts and attention of our management and technical personnel from our business operations. We cannot assure you that:

- o the steps we take to prevent misappropriation, infringement, dilution or other violation of our intellectual property or the intellectual property of our customers, suppliers or other third parties will be successful;
- o any existing or future patents, copyrights, trademarks, trade secrets or other intellectual property rights will not be challenged, invalidated or circumvented; or
- o any of the measures described above would provide meaningful protection.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

Despite these precautions, it may be possible for a third party to copy or otherwise obtain and use our technology without authorization, develop similar technology independently or design around our patents. If any of our patents fails to protect our technology, it would make it easier for our competitors to offer similar products, potentially resulting in loss of market share and price erosion. In addition, effective patent, copyright, trademark and trade secret protection may be unavailable or limited for certain technologies and in certain foreign countries.

OUR SUCCESS DEPENDS, IN PART, ON OUR ABILITY TO EFFECT SUITABLE INVESTMENTS, ALLIANCES AND ACQUISITIONS, AND WE MAY HAVE DIFFICULTY INTEGRATING COMPANIES WE ACQUIRE. SKYWORKS' MERGER WITH THE WIRELESS BUSINESS OF CONEXANT PRESENTS SUCH RISKS.

Although we intend to invest significant resources in internal research and development activities, the complexity and rapidity of technological changes and the significant expense of internal research and development make it impractical for us to pursue development of all technological solutions on our own. On an ongoing basis, we intend to review investment, alliance and acquisition prospects that would complement our product offerings, augment our market coverage or enhance our technological capabilities. However, we cannot assure you that we will be able to identify and consummate suitable investment, alliance or acquisition transactions in the future. Moreover, if we consummate such transactions, they could result in:

- o issuances of equity securities dilutive to our stockholders;
- o large one-time write-offs;
- o the incurrence of substantial debt and assumption of unknown liabilities;
- o the potential loss of key employees from the acquired company;
- o amortization expenses related to intangible assets; and
- o the diversion of management's attention from other business concerns.

Additionally, in periods following an acquisition, we will be required to evaluate goodwill and acquisition-related intangible assets for impairment. When such assets are found to be impaired, they will be written down to estimated fair value, with a charge against earnings.

Integrating acquired organizations and their products and services may be difficult, expensive, time-consuming and a strain on our resources and our relationship with employees and customers and ultimately may not be successful.

-13-

WE MAY BE RESPONSIBLE FOR PAYMENT OF A SUBSTANTIAL AMOUNT OF U.S. FEDERAL INCOME AND OTHER TAXES UPON CERTAIN EVENTS.

In connection with Conexant's spin-off of its wireless business prior to the Merger, Conexant sought and received a ruling from the Internal Revenue Service to the effect that certain transactions related to and including the spin-off qualified as a reorganization and as tax-free for U.S. federal income tax purposes. While the tax ruling generally is binding on the Internal Revenue

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

Service, the continuing validity of the ruling is subject to certain factual representations and assumptions. In connection with the Merger, we entered into a tax allocation agreement with Conexant that generally provides, among other things, that we will be responsible for certain taxes imposed on various persons (including Conexant) as a result of either:

- o the failure of certain spin-off transactions to qualify as a reorganization for U.S. federal income tax purposes, or
- o the failure of certain spin-off transactions to qualify as tax-free to Conexant for certain U.S. federal income tax purposes,

if such failure is attributable to certain actions or transactions by or in respect of Skyworks (including our subsidiaries) or our stockholders, such as the acquisition of stock of Skyworks by a third party at a time and in a manner that would cause such failure. In addition, the tax allocation agreement provides that we will be responsible for various other tax obligations and for compliance with various representations, statements, and conditions made in the course of obtaining the tax ruling referenced above and in connection with the tax allocation agreement. Our obligations under the tax allocation agreement have been limited by a letter agreement dated November 6, 2002 entered into in connection with our debt refinancing with Conexant. Nevertheless, if we do not carefully monitor our compliance with the requirements imposed as a result of the spin-off and related transactions and our responsibilities under the tax allocation agreement, we might inadvertently trigger an obligation to indemnify certain persons (including Conexant) pursuant to the tax allocation agreement or other obligations under such agreement. In addition, our indemnity obligations could discourage or prevent a third party from making a proposal to acquire Skyworks.

If we were required to pay any of the taxes described above, the payment could be very substantial and have a material adverse effect on our business, financial condition, results of operations and cash flow.

In addition, it is expected that the interest payments we are required to make on the Senior Notes will not be deductible for tax purposes. Our inability to offset our interest expense from the Senior Notes against other income may increase our tax liability currently and in future years.

Further, the terms of the Senior Notes require us to pay the principal due at the maturity date or upon certain acceleration events in a number of shares of our common stock equal to the principal due at such time divided by the applicable conversion price (as described in "Description of the Senior Notes - Conversion of Notes") on such date. If the fair market value of our common stock on such date is less than the applicable conversion price, we may recognize cancellation of indebtedness income for tax purposes equal to the excess of the principal amount of the Senior Notes due at such time over the fair market value of the common stock issued by us to satisfy our obligations under the Senior Notes.

CERTAIN PROVISIONS IN OUR ORGANIZATIONAL DOCUMENTS AND DELAWARE LAW MAY MAKE IT DIFFICULT FOR SOMEONE TO ACQUIRE CONTROL OF US.

We have certain anti-takeover measures that may affect our common stock. Our certificate of incorporation, our by-laws and the Delaware General Corporation Law contain several provisions that would make more difficult an acquisition of control of us in a transaction not approved by our board of directors. Our certificate of incorporation and by-laws include provisions such as:

- o the division of our board of directors into three classes to be elected on a staggered basis, one class each year;

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

- o the ability of our board of directors to issue shares of preferred stock in one or more series without further authorization of stockholders;
- o a prohibition on stockholder action by written consent;
- o elimination of the right of stockholders to call a special meeting of stockholders;
- o a requirement that stockholders provide advance notice of any stockholder nominations of directors or any proposal of new business to be considered at any meeting of stockholders;
- o a requirement that the affirmative vote of at least 66 2/3% of our shares be obtained to amend or repeal any provision of our by-laws or the provision of our certificate of incorporation relating to amendments to our by-laws;

-14-

- o a requirement that the affirmative vote of at least 80% of our shares be obtained to amend or repeal the provisions of our certificate of incorporation relating to the election and removal of directors, the classified board or the right to act by written consent;
- o a requirement that the affirmative vote of at least 80% of our shares be obtained for business combinations unless approved by a majority of the members of the board of directors and, in the event that the other party to the business combination is the beneficial owner of 5% or more of our shares, a majority of the members of board of directors in office prior to the time such other party became the beneficial owner of 5% or more of our shares;
- o a fair price provision; and
- o a requirement that the affirmative vote of at least 90% of our shares be obtained to amend or repeal the fair price provision.

In addition to the provisions in our certificate of incorporation and by-laws, Section 203 of the Delaware General Corporation Law generally provides that a corporation shall not engage in any business combination with any interested stockholder during the three-year period following the time that such stockholder becomes an interested stockholder, unless a majority of the directors then in office approves either the business combination or the transaction that results in the stockholder becoming an interested stockholder or specified stockholder approval requirements are met.

WE MAY BE LIABLE FOR PENALTIES UNDER ENVIRONMENTAL LAWS, RULES AND REGULATIONS, WHICH COULD ADVERSELY IMPACT OUR BUSINESS.

We have used, and will continue to use, a variety of chemicals and compounds in manufacturing operations and have been and will continue to be subject to a wide range of environmental protection regulations in the United States. While we have not experienced any material adverse effect on our operations as a result of such regulations, we cannot assure you that current or future regulations would not have a material adverse effect on our business, financial condition and results of operations. Environmental regulations often require parties to

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

fund remedial action regardless of fault. Consequently, it is often difficult to estimate the future impact of environmental matters, including potential liabilities. We cannot assure you that the amount of expense and capital expenditures that might be required to satisfy environmental liabilities, to complete remedial actions and to continue to comply with applicable environmental laws will not have a material adverse effect on our business, financial condition and results of operations.

WE HAVE ADOPTED NEW ACCOUNTING POLICIES IN FISCAL 2003 THAT COULD NEGATIVELY IMPACT OUR EARNINGS FOR THE YEAR.

In our fiscal year 2003, which began on September 28, 2002, we have adopted SFAS No. 142, "Goodwill and Other Intangible Assets." This policy requires us to evaluate the goodwill and intangible assets with indefinite lives that we report on our balance sheet for potential impairment using a fair value method. If we determine that our goodwill and other intangible assets with indefinite lives are impaired, we will be required to report non-cash charges to our earnings in fiscal year 2003 in the amount of such impairment. At September 27, 2002, we reported goodwill and intangible assets of \$940,686,000. As a result, the adoption of SFAS No. 142 may result in asset write-downs on our balance sheet and significant non-cash charges to earnings in fiscal 2003. Management is assessing the impact that the adoption of SFAS 142 will have on our financial statements.

-15-

### RISKS RELATED TO THE NOTES

THE SENIOR NOTES ARE SUBORDINATED.

The Senior Notes are unsecured and subordinated in right of payment to all of our existing and future senior indebtedness. Generally, the indenture governing the Senior Notes defines senior indebtedness as all of our indebtedness, other than any indebtedness that expressly states that it is subordinated to the Senior Notes. The 4 3/4% convertible subordinated notes due November 2007 expressly state that they are subordinated to the Senior Notes. The terms of the Senior Notes do not limit the amount of additional indebtedness, including secured indebtedness, that we can create, incur, assume or guarantee. In the event of our bankruptcy, liquidation or reorganization or upon acceleration of the Senior Notes due to an event of default under the indenture and in certain other events, our assets will be available to pay obligations on the Senior Notes only after all senior indebtedness has been paid. In addition, the subordination provisions of the indenture provide that payments with respect to the Senior Notes will be blocked in the event of a payment default on senior indebtedness and may be blocked for up to 179 days each year in the event of certain non-payment defaults on senior indebtedness. As a result, there may be insufficient assets remaining to pay amounts due on any or all of the outstanding Senior Notes. In addition, under the subordination provisions of the indenture, payments that would otherwise be made to holders of the Senior Notes will instead be paid to holders of senior indebtedness under certain circumstances. As a result of these provisions, our other creditors (including trade creditors) may recover more, ratably, than the holders of the Senior Notes. The Senior Notes also will be structurally subordinated to all liabilities, including trade payables, of our subsidiaries, other than the 4 3/4% convertible subordinated notes due November 2007. The indenture governing the Senior Notes does not limit our or our subsidiaries' ability to incur debt, including senior indebtedness. Any right of ours to receive assets of any subsidiary upon its liquidation or reorganization, and the consequent right of

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

the holders of the Senior Notes to participate in the assets is subject to the claims of that subsidiary's creditors. If we or our subsidiaries were to incur additional debt or liabilities, our ability to pay our obligations on the Senior Notes could be adversely affected.

WE MAY BE UNABLE TO MEET THE REDEMPTION REQUIREMENTS UPON A CHANGE IN CONTROL.

Upon a change in control, holders of the Senior Notes may require us to purchase all or a portion of their Senior Notes for cash. If a change in control were to occur, we may not have enough funds to pay the purchase price for all tendered Senior Notes. Future agreements relating to our indebtedness might contain provisions that prohibit the repurchase of the Senior Notes upon a change in control. If a change in control occurs at a time when we are prohibited from purchasing the Senior Notes, we could seek the consent of our lenders to purchase the Senior Notes or could attempt to refinance this debt. If we do not obtain consent, we could not purchase the Senior Notes. Our failure to purchase tendered Senior Notes would constitute an event of default under the indenture. In such circumstances, or if a change in control would constitute an event of default under our senior indebtedness, the subordination provisions of the indenture would restrict payments to holders of the Senior Notes. The term "change in control" is limited to certain specified transactions and may not include other events that might harm our financial condition. Our obligation to offer to purchase the Senior Notes upon a change in control would not necessarily afford holders of the Senior Notes protection in the event of a highly leveraged transaction, reorganization, merger or similar transaction involving us.

OUR STOCK PRICE HAS BEEN VOLATILE AND OUR STOCK PRICE AND THE PRICE OF THE SENIOR NOTES MAY FLUCTUATE IN THE FUTURE.

Upon conversion and at maturity (including upon certain acceleration events), the principal of the Senior Notes will be paid in common stock of the Company. The issuance of the common stock underlying the Senior Notes or the issuance of the common stock underlying the 4 3/4% convertible subordinated notes due November 2007 could cause our stock price to fluctuate and may adversely affect the market price of our common stock.

-16-

The trading price of our common stock may fluctuate significantly. This price may be influenced by many factors, including:

- o our performance and prospects;
- o the performance and prospects of our major customers;
- o the depth and liquidity of the market for our common stock;
- o investor perception of us and the industry in which we operate;
- o changes in earnings estimates or buy/sell recommendations by analysts;
- o general financial and other market conditions; and
- o domestic and international economic conditions.

Public stock markets have experienced, and are currently experiencing, extreme price and trading volume volatility, particularly in the technology

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

sectors of the market. This volatility has significantly affected the market prices of securities of many technology companies for reasons frequently unrelated to or disproportionately impacted by the operating performance of these companies. These broad market fluctuations may adversely affect the market price of our common stock.

In addition, fluctuations in our stock price and our price-to-earnings multiple may have made our stock attractive to momentum, hedge or day-trading investors who often shift funds into and out of stocks rapidly, exacerbating price fluctuations in either direction particularly when viewed on a quarterly basis.

THERE MAY BE NO PUBLIC MARKET FOR THE SENIOR NOTES AND AN ACTIVE TRADING MARKET FOR THE SENIOR NOTES MAY NOT DEVELOP.

The Senior Notes constitute a new class of securities for which there is no established public trading market, and there can be no assurance as to:

- o the liquidity of any such market that may develop;
- o the ability of the holders of the Senior Notes to sell their Senior Notes; or
- o the price at which the holders of the Senior Notes would be able to sell their Senior Notes.

If such a market were to exist, the Senior Notes could trade at prices that may be higher or lower than their principal amount or purchase price, depending on many factors, including:

- o prevailing interest rates;
- o the market for similar notes; and
- o our financial performance and the performance of our subsidiaries.

There can be no assurance as to the development or liquidity of any market for the Senior Notes.

SECURITIES WE ISSUE TO FUND OUR OPERATIONS COULD DILUTE YOUR OWNERSHIP OR OTHERWISE ADVERSELY AFFECT YOU.

We may decide to raise additional funds through public or private debt or equity financings to fund our

-17-

operations. If we raise funds by issuing equity securities, the percentage ownership of current stockholders and the percentage ownership that holders of the Senior Notes will receive upon conversion or at maturity (including upon certain acceleration events) of the Senior Notes will be reduced and the new equity securities may have rights prior to those of the common stock underlying the Senior Notes. If we raise funds by issuing debt securities, we may be required to agree to covenants that substantially restrict our ability to operate our business. We may not obtain sufficient financing on terms that are favorable to investors or us. We may delay, limit or eliminate some or all of our proposed operations if adequate funds are not available.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

OUR DEBT SERVICE OBLIGATIONS MAY ADVERSELY AFFECT OUR CASH FLOW.

While the Senior Notes are outstanding, we will have debt service obligations on the Senior Notes of approximately \$6,750,000 per year. In addition, we have debt service obligations on our 4 3/4% convertible subordinated notes due November 2007 of approximately \$10,925,000 per year. If we issue other debt securities in the future, our debt service obligations will increase. If we are unable to generate sufficient cash to meet these obligations and must instead use our existing cash or investments, we may have to reduce or curtail other activities of our business.

We intend to fulfill our debt service obligations from cash generated by our operations, if any, and from our existing cash and investments. If necessary, among other alternatives, we may add lease lines of credit to finance capital expenditures and we may obtain other long-term debt, lines of credit and other financing.

Our indebtedness could have significant negative consequences, including:

- o increasing our vulnerability to general adverse economic and industry conditions;
- o limiting our ability to obtain additional financing;
- o requiring the dedication of a substantial portion of any cash flow from operations to service our indebtedness, thereby reducing the amount of cash flow available for other purposes, including capital expenditures;
- o limiting our flexibility in planning for, or reacting to, changes in our business and the industry in which we compete; and
- o placing us at a possible competitive disadvantage to less leveraged competitors and competitors that have better access to capital resources.

HOLDERS OF SENIOR NOTES MAY BE REQUIRED TO RECOGNIZE ORIGINAL ISSUE DISCOUNT OR OTHER TAXABLE INCOME PRIOR TO THE RECEIPT OF CASH PAYMENTS ON THE SENIOR NOTES, AND MAY BE REQUIRED TO TREAT AMOUNTS AS ORDINARY INCOME THAT WOULD OTHERWISE BE TREATED AS CAPITAL GAIN; CHARACTERIZATION AND TREATMENT OF THE SENIOR NOTES AS INDEBTEDNESS FOR U.S. FEDERAL INCOME TAX PURPOSES IS UNCLEAR IN VARIOUS RESPECTS, AND NOTEHOLDERS MUST CONSULT WITH THEIR OWN TAX ADVISORS CONCERNING THEIR TAX CONSEQUENCES FROM ACQUIRING, HOLDING, AND DISPOSING OF THE SENIOR NOTES.

For U.S. federal income tax purposes, the holders of Senior Notes may be required to recognize original issue discount or other taxable income on an accelerated basis prior to the receipt of cash payments on the Notes, and may be required to treat amounts as ordinary income that would otherwise be treated as capital gain. In addition, the U.S. federal income tax characterization and treatment of the Senior Notes as indebtedness (rather than as equity or some other type of investment instrument) is unclear in a number of respects, and noteholders must consult with their own tax advisors to understand and evaluate the tax consequences that may result from the acquisition, holding, and disposition of the Senior Notes. See "Certain U.S. Federal Income Tax Considerations."

# Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

## USE OF PROCEEDS

We will not receive any proceeds from the sale of the Senior Notes or the underlying common stock by the selling securityholders.

## RATIO OF EARNINGS TO FIXED CHARGES

Our ratio of earnings to fixed charges for each of the periods indicated is as follows:

	FISCAL YEARS ENDED SEPTEMBER 30,				
	2002	2001	2000	1999	1998
RATIO OF EARNINGS TO FIXED CHARGES	(1)	(2)	(3)	(4)	(5)

(1) As a result of the net loss incurred in fiscal 2002, the Company was unable to fully cover fixed charges. The amount of such deficiency in fiscal 2002 was approximately \$256 million.

(2) As a result of the net loss incurred in fiscal 2001, the Company was unable to fully cover fixed charges. The amount of such deficiency in fiscal 2001 was approximately \$317 million.

(3) As a result of the net loss incurred in fiscal 2000, the Company was unable to fully cover fixed charges. The amount of such deficiency in fiscal 2000 was approximately \$65 million.

(4) As a result of the net loss incurred in fiscal 1999, the Company was unable to fully cover fixed charges. The amount of such deficiency in fiscal 1999 was approximately \$13 million.

(5) As a result of the net loss incurred in fiscal 1998, the Company was unable to fully cover fixed charges. The amount of such deficiency in fiscal 1998 was approximately \$42 million.

-19-

## DESCRIPTION OF THE SENIOR NOTES

We issued the Senior Notes under an Indenture dated as of November 20, 2002 between the Company and Wachovia Bank, National Association, as Trustee, as supplemented by the First Supplemental Indenture dated as of January 15, 2003 (collectively, the "Indenture"). The terms of the Senior Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

Certain terms used in this description are defined under the subheading "-- Certain Definitions" and/or in the Indenture. In this description, the word "Company" refers only to Skyworks Solutions, Inc. and not to any of its subsidiaries.

The following description is only a summary of the material provisions of the Indenture and the Registration Rights Agreement. We urge you to read the Indenture and the Registration Rights Agreement because they, not this description, define your rights as holders of the Senior Notes. You may request copies of these agreements at our address set forth under the heading "Where You Can Find More Information."

### BRIEF DESCRIPTION OF THE SENIOR NOTES

These Senior Notes:

- o are unsecured subordinated obligations of the Company;
- o are subordinated in right of payment to all existing and future Senior Indebtedness of the Company (other than the 4 3/4% convertible subordinated notes due November 2007, which expressly state that they are subordinated to the Senior Notes);
- o are convertible into shares of common stock; and
- o together with the shares of common stock into which the Senior Notes are convertible, are subject to registration with the SEC pursuant to the Registration Rights Agreement.

The Company is not restricted from paying dividends, incurring debt, or issuing or repurchasing its securities under the Indenture. In addition, there are no financial covenants in the Indenture. You are not protected under the Indenture in the event of a highly leveraged transaction or a change in control of the Company except to the extent described under "-- Change in Control."

### PRINCIPAL, MATURITY AND INTEREST

The Senior Notes are in a maximum aggregate principal amount of \$45,000,000. The Senior Notes may be issued in denominations of \$1,000 and any integral multiple of \$1,000. The Senior Notes will mature on June 30, 2005.

Interest on the Senior Notes will accrue at the rate of 15% per annum and will be payable in cash quarterly in arrears on the last business day of each March, June, September and December, commencing on December 31, 2002, and at maturity. We will make each interest payment to the holders of record of the Senior Notes on the fifteenth day of each March, June, September and December.

Interest on the Senior Notes will accrue from the most recent date to which interest has been paid or, if no interest has been paid, from November 12, 2002. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Additional interest may accrue on the Senior Notes in certain circumstances pursuant to the Registration Rights Agreement.

At maturity (including upon certain acceleration events), we will pay the principal amount of the Senior Notes by issuing and delivering a number of whole shares of common stock equal to the principal amount of the Senior Notes then due and payable divided by the Applicable Conversion Price (as described below) in effect on such date,

-20-

together with cash in lieu of any fractional shares.

#### CONVERSION OF NOTES

Holders of the Senior Notes have the right, at their option, at any time prior to the close of business on the business day immediately preceding June 30, 2005, to convert the Senior Notes or any portion of the Senior Notes into shares of our common stock at the Applicable Conversion Price described below as of the related conversion date, subject to adjustment as described below, unless the Senior Notes or portion of a Senior Notes have been previously redeemed or purchased by the Company. The right to convert the Senior Notes called for redemption terminates on the close of business on the business day immediately preceding the redemption date or the purchase date upon a Change in Control, as the case may be, for such Senior Notes or such earlier date as the holder presents such Senior Notes for redemption or purchase (unless the Company shall default in payment of the redemption price or the purchase price upon a Change in Control, as the case may be, when due, in which case the conversion right shall terminate at the close of business on the date such default is cured and such Senior Notes are redeemed or purchased).

For purposes of the Indenture, "Applicable Conversion Price" means as applicable, with respect to the maturity or any conversion date, as the case may be, (a) if the Current Market Price is greater than or equal to the Conversion Price, the Conversion Price, (b) if the Current Market Price is less than the Conversion Price but greater than or equal to the Floor Price, the Current Market Price, and (c) if the Current Market Price is less than the Floor Price, the Floor Price. For the purpose of this definition, "Current Market Price" means the average of the daily Closing Price per share of the common stock for the ten consecutive Trading Days immediately prior to, but not including, the maturity date or the conversion date, as the case may be.

In the event that the Current Market Price is less than the Conversion Price, the holders of the Senior Notes will be entitled to receive upon conversion of the Senior Notes that number of shares of our common stock that is equal to the principal amount of the Senior Notes being converted divided by the Current Market Price of our common stock, provided that in no event will the number of shares issued exceed 125% of the number of shares that the holders would have received at the Conversion Price.

For information as to notices of redemption, see "-- Selection and Notice of Redemption."

We will not issue fractional shares of common stock upon conversion of the Senior Notes. Instead, we will pay a cash adjustment based upon the market price of the common stock on the last trading day prior to the date of conversion.

The Conversion Price will be adjusted according to formulae set forth in the Indenture upon the occurrence of:

- (a) the issuance of shares of the Company's common stock as a dividend or distribution on the Company's common stock;
- (b) the subdivision or combination of the Company's outstanding common stock;

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

- (c) the issuance to all or substantially all holders of the Company's common stock of rights or warrants entitling them for a period of not more than 60 days to subscribe for or purchase the Company's common stock, or securities convertible into the Company's common stock, at a price per share or a Conversion Price per share less than the then Current Market Price Per Share, provided that the Conversion Price will be readjusted to the extent that such rights or warrants are not exercised prior to the expiration;
- (d) the distribution to all or substantially all holders of the Company's common stock of shares of our capital stock, evidences of indebtedness or other assets, including securities of another company, but excluding:
  - o dividends, distributions and rights or warrants referred to in clause (a) or (c) above;

-21-

- o dividends or distributions exclusively in cash referred to in clause (e) below;
- (e) the distribution to all or substantially all holders of the Company's common stock of all-cash distributions in an aggregate amount that, together with (A) any cash and the fair market value of any other consideration payable in respect of any tender offer by the Company or any of its subsidiaries for the Company's common stock consummated within the preceding 12 months that did not trigger a Conversion Price adjustment and (B) all other all-cash distributions to all or substantially all holders of the Company's common stock made within the preceding 12 months that did not trigger a Conversion Price adjustment, exceeds an amount equal to 10% of the Company's market capitalization on the business day immediately preceding the day on which the Company declares such distribution; and
- (f) the purchase of our common stock pursuant to a tender offer made by the Company or any of its subsidiaries to the extent that the same involves the payment of aggregate consideration that, together with (A) any cash and the fair market value of any other consideration payable in respect of any tender offer by the Company or any of its subsidiaries for our common stock consummated within the preceding 12 months that did not trigger a Conversion Price adjustment and (B) all cash distributions to all or substantially all holders of the Company's common stock made within the preceding 12 months that did not trigger a Conversion Price adjustment, exceeds an amount equal to 10% of the Company's market capitalization on the expiration date of such tender offer.

In the event of:

- o any reclassification of the Company's common stock, or
- o certain consolidations, mergers or combinations involving the Company, or
- o a sale or conveyance of all or substantially all of the property and assets of the Company,

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

in which the holders of our outstanding common stock would be entitled to receive stock, other securities, other property, assets or cash for their common stock, holders of Senior Notes will generally be entitled thereafter to convert their Senior Notes into the same type of consideration received by common stock holders immediately prior to one of these events.

No adjustment in the Conversion Price will be required unless such adjustment would require an increase or decrease of at least 1% in the Conversion Price; provided, however, that any adjustments which by reason of this limitation are not required to be made will be carried forward and taken into account in any subsequent adjustment.

The holders of the Senior Notes may, in some circumstances, be deemed to have received a dividend or other distribution subject to tax as a result of an adjustment (or absence of an adjustment) to the Conversion Price. See "Certain U.S. Federal Income Tax Considerations."

In addition, we may decrease the Conversion Price by any amount for any period of at least 20 days, in which case we will give at least 15 days' notice of that decrease, and if the reduction is irrevocable during the period if our Board of Directors determines that such reduction would be in our best interests; provided, however, that in no event may we decrease the Conversion Price to be less than the par value of a share of Common Stock.

In addition, we may make any reductions in the Conversion Price that the Board of Directors deems in its discretion to be advisable in order that any stock dividends, subdivisions of shares, distributions of rights to purchase stock or securities or distributions of securities convertible into or exchangeable for stock hereafter made by us to our stockholders shall not be taxable.

### OPTIONAL REDEMPTION

The Senior Notes may be redeemed, in whole or in part, at the option of the Company upon not less than 20 nor

-22-

more than 60 days' notice by mail to holders of the Senior Notes at any time after May 12, 2004. The redemption price (expressed as a percentage of principal amount) shall be 103%, together with accrued interest up to but not including the date of redemption, payable in cash.

### SELECTION AND NOTICE OF REDEMPTION

If we redeem less than all the Senior Notes at any time, the Trustee will select Senior Notes on a pro rata basis, by lot or by such other method as the Trustee in its sole discretion shall deem to be fair and appropriate.

We will redeem Senior Notes of \$1,000 or less in whole and not in part. We will mail notices of redemption at least 20 but not more than 60 days before the redemption date to each holder of Senior Notes to be redeemed at its registered address.

We will issue new Senior Notes, at our expense, in a principal amount equal to the unredeemed portion of the original Senior Notes in the name of the holder upon cancellation of the original Senior Notes. Senior Notes called for redemption become due on the date fixed for redemption.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

### MANDATORY REDEMPTION; OFFERS TO PURCHASE; OPEN MARKET PURCHASES

We are not required to make any mandatory redemption or sinking fund payments with respect to the Senior Notes. However, under certain circumstances, we may be required to offer to purchase Senior Notes as described under the caption "-- Change in Control." We may at any time and from time to time purchase Senior Notes in the open market or otherwise.

### SUBORDINATION

The payment of the principal of, premium, if any, and interest on the Senior Notes will be subordinate in right of payment to the prior payment in full of all the Company's existing and future Senior Indebtedness (other than the 4 3/4% convertible subordinated notes due November 2007, which expressly state that they are subordinate to the Senior Notes).

A substantial portion of the Company's operations are conducted through its subsidiaries. As a result, the Company's cash flow and its ability to service its debt, including the Senior Notes, is dependent upon the earnings of its subsidiaries. In addition, the Company is dependent on the distribution of earnings, loans or other payments by its subsidiaries.

The Company's subsidiaries are separate and distinct legal entities. Its subsidiaries have no obligation to pay any amounts due on the Senior Notes or to provide the Company with funds for its payment obligations, whether by dividends, distributions, loans or other payments. In addition, any payment of dividends, distributions, loans or advances by subsidiaries to the Company could be subject to statutory or contractual restrictions. Payments to the Company by its subsidiaries will also be contingent upon its subsidiaries' earnings and business consideration.

The Company's right to receive any assets of its subsidiaries upon their liquidation or reorganization, and therefore the right of the holders of the Senior Notes to participate in those assets, will be effectively subordinated to the claims of those subsidiaries' creditors, including trade creditors. In addition, even if the Company were a creditor of any of its subsidiaries, the Company's rights as a creditor would be subordinate to any security interest in the assets of its subsidiaries and any indebtedness of its subsidiaries senior to that held by the Company.

As of December 27, 2002, the Company had approximately \$105 million of Senior Indebtedness, while as of December 27, 2002 its subsidiaries had approximately \$11 million of outstanding indebtedness and other liabilities, including trade payables and excluding intercompany liabilities, as to which the Senior Notes are effectively subordinated.

Neither the Company nor its subsidiaries are prohibited from incurring senior indebtedness or any other indebtedness or liabilities under the Indenture. The Company expects additional indebtedness and other liabilities, including Senior Indebtedness, in the future.

-23-

### REGISTRATION RIGHTS

The following summary of the registration rights provided in the registration rights agreement and the Senior Notes is not complete. You should refer to the registration rights agreement, which has been filed as Exhibit

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

10.bb to the Company's Annual Report on Form 10-K, filed with the SEC on December 23, 2002 and incorporated herein by reference, for a full description of the registration rights that apply to the Senior Notes.

We have agreed to file a shelf registration statement under the Securities Act within 45 days after November 12, 2002 to register the Senior Notes and the shares of common stock into which the Senior Notes are convertible, which we refer to as registrable securities. We will use commercially reasonable efforts to have this shelf registration statement declared effective within 90 days after November 12, 2002, and we will use reasonable best efforts to keep it effective until the earliest of:

- (1) December 31, 2005 (or for such longer period if extended pursuant to the Registration Rights Agreement);
- (2) the date when all registrable securities shall have been registered under the Securities Act and disposed of; and
- (3) the date on which all registrable securities are eligible to be sold to the public pursuant to Rule 144(k) under the Securities Act or any successor rule thereof, if Conexant is then a holder of Senior Notes, it is no longer considered an affiliate of the Company under the Securities Act.

We will be permitted to suspend the use of the prospectus which is a part of the registration statement for a period not to exceed 45 consecutive days or an aggregate of 90 days in any twelve month period under certain circumstances relating to pending corporate developments, public filings with the SEC and similar events.

A holder of registrable securities that sells registrable securities pursuant to the shelf registration statement generally will be required to provide information about itself and the specifics of the sale, be named as a selling security holder in the related prospectus and deliver a prospectus to purchasers, be subject to relevant civil liability provisions under the Securities Act in connection with such sales and be bound by the provisions of the registration rights agreement which are applicable to such holder.

If:

- (1) by the 45th day after November 12, 2002, the shelf registration statement has not been filed with the SEC;
- (2) by the 90th day after November 12, 2002, the shelf registration statement has not been declared effective by the SEC;
- (3) we fail, with respect to a holder of Senior Notes that supplies the questionnaire described below, to amend or supplement the shelf registration statement in a timely manner in order to name additional selling securityholders; or
- (4) after the shelf registration statement has been declared effective, such shelf registration statement ceases to be effective or fails to be usable in connection with resales of Senior Notes and the common stock issuable upon the conversion of the Senior Notes in accordance with and during the periods specified in the Registration Rights Agreement and (A) we do not cure the shelf registration statement within fifteen business days by a post-effective

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

amendment or a report filed pursuant to the Exchange Act or (B) if applicable, we do not terminate the suspension period described above by the 45th or 90th day, as the case may be,

(we refer to each such event described above in clauses (1) through (4) as a registration default), additional interest will accrue on the Senior Notes, in addition to the 15% annual interest rate, from and including the date on which

-24-

any such registration default occurs to, but excluding the date on which the registration default has been cured, at the rate of 0.50% per year (or an equivalent amount for any common stock issued upon conversion of the Senior Notes that are registrable securities). In the case of a registration default described in clause (3), our obligation to pay additional interest extends only to the affected Senior Notes. We will have no other liabilities for monetary damages with respect to our registration obligations. With respect to each holder, our obligations to pay additional interest remain in effect only so long as the Senior Notes and the common stock issuable upon the conversion of the Senior Notes held by the holder are "Securities" within the meaning of the Registration Rights Agreement.

### CHANGE IN CONTROL

Upon the occurrence of any of the following events (each a "Change in Control"), each holder shall have the right to require that the Company repurchase, as of the date that is no less than 30 days and no more than 60 days from the date such notice is mailed or delivered, such holder's Senior Notes at a purchase price in cash equal to 100% of the principal amount thereof on the date of purchase, plus accrued and unpaid interest, if any, to, but not including, the date of repurchase by the Company (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date):

- (1) any "person" or "group" (as such terms are used in Sections 13(d) and 14(d) of the Exchange Act), is or becomes the "beneficial owner" (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of shares of Voting Stock of the Company representing 50% or more of the total voting power of all outstanding classes of Voting Stock of the Company or such person or group has the power, directly or indirectly, to elect a majority of the members of the board of directors of the Company ;
- (2) the merger or consolidation of the Company with or into another person or the merger of another person with or into the Company, or the sale of all or substantially all the assets of the Company to another person other than a transaction in which the persons that "beneficially owned," directly or indirectly, shares of Voting Stock of the Company immediately prior to such transaction "beneficially own," directly or indirectly, shares of Voting Stock representing at least a majority of the voting power of all outstanding classes of the Voting Stock of the surviving or transferee person; or
- (3) the adoption of a plan relating to the liquidation or dissolution of the Company.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

On or prior to the purchase date, we will deposit with a paying agent funds sufficient to pay the aggregate purchase price of the Senior Notes which is to be paid on the purchase date.

A Change in Control will not be deemed to have occurred:

- o if the Closing Price of our common stock for any five Trading Days during the ten Trading Days immediately preceding the Change in Control is at least equal to 105% of the Conversion Price in effect on such Trading Day; or
- o in the case of a merger or consolidation, at least 75% of the consideration received or to be received by the holders of shares of our common stock (excluding cash payments for fractional shares in the merger or consolidation constituting the Change in Control) consists of shares of common stock that are, or upon issuance will be, traded on a national securities exchange in the United States or through the Nasdaq National Market and as a result of such transaction or transactions the Senior Notes become convertible into such common stock.

Within 10 business days following any Change in Control, we will mail a notice to each holder, with a copy to the Trustee (the "Change in Control Offer"), stating, among other things:

- (1) that a Change in Control has occurred and that such holder has the right to require us to purchase such holder's Senior Notes at a purchase price in cash equal to 100% of the principal amount thereof on the date of purchase, plus accrued and unpaid interest, if any, to, but not including, the

-25-

date of repurchase (subject to the right of holders of record on the relevant record date to receive interest on the relevant interest payment date);

- (2) the circumstances and relevant facts regarding such Change in Control, including the then current Conversion Price and the Floor Price;
- (3) the purchase date;
- (4) identification of the securities being purchased; and
- (5) the procedures, as determined by us, consistent with the covenant described hereunder, that a holder must follow in order to have its Senior Notes repurchased by the Company and the procedures for withdrawing a Change in Control Offer.

To exercise the purchase right, the holder of Senior Notes must deliver, on or before the close of business on the business day prior to the purchase date, a written notice to us and the Paying Agent of the holder's exercise of the right. This notice must be accompanied by the certificates evidencing the Senior Notes with respect to which the right is being exercised, duly endorsed

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

for transfer. In addition, if the purchase date falls between the relevant record date and the succeeding interest payment date, the holder will also be required to deliver with the Senior Notes to be purchased a payment in cash equal to the interest that the holder is to receive on the interest payment date.

We will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of Senior Notes as a result of a Change in Control.

The Change in Control purchase feature of the Senior Notes may in certain circumstances make more difficult or discourage a sale or takeover of the Company and, thus, the removal of incumbent management. The Change in Control purchase feature is a result of negotiations between the Company and Conexant. We have no present intention to engage in a transaction involving a Change in Control, although it is possible that we could decide to do so in the future. We could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change in Control under the Indenture, but that could increase the amount of indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings. The Indenture will not contain any covenants or provisions that may afford holders of the Senior Notes protection in the event of a highly leveraged transaction.

Future indebtedness that we may incur may contain prohibitions on the occurrence of certain events that would constitute a Change in Control or require the repurchase of such indebtedness upon a Change in Control. Moreover, the exercise by the holders of their right to require us to repurchase the Senior Notes could cause a default under such indebtedness, even if the Change in Control itself does not, due to the financial effect of such repurchase on us. Finally, our ability to pay cash to the holders of Senior Notes following the occurrence of a Change in Control may be limited by our then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make any required repurchases.

The definition of "Change in Control" includes a disposition of all or substantially all of the assets of the Company to any person. Although there is a limited body of case law interpreting the phrase "substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances, there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of "all or substantially all" of the assets of the Company. As a result, it may be unclear as to whether a Change in Control has occurred and whether a holder of Senior Notes may require the Company to make an offer to repurchase the Senior Notes as described above.

The provisions under the Indenture related to our obligation to make an offer to repurchase the Senior Notes as a result of a Change in Control may be waived or modified with the written consent of the holders of a majority in principal amount of the Senior Notes.

-26-

### MERGER AND CONSOLIDATION

We shall not consolidate with or merge into any other person, in a transaction in which we are not the surviving corporation, or sell, convey, transfer or lease our properties and assets substantially as an entirety to, any

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

person, unless:

- o the successor person, if any, is a corporation, limited liability company, partnership, trust or other entity organized and existing under the laws of the United States, or any state of the United States, and expressly assumes the Company's obligations under the Indenture by a supplemental indenture,
- o immediately after giving effect to the transaction, no Event of Default, and no event which, after notice or lapse of time or both, would become an Event of Default, shall have occurred and be continuing, and
- o certain other conditions are met.

### DEFAULTS

Each of the following is an Event of Default:

- (1) a default in the payment of interest on the Senior Notes when due, which continues for 15 days;
- (2) a default in the payment of principal of any Senior Notes when due at its maturity, or a failure to redeem or purchase the Senior Notes when required pursuant to the Indenture or the Senior Notes;
- (3) the failure by the Company to provide notice of a Change of Control in accordance with the terms of the Indenture;
- (4) the failure by the Company to comply with its obligations described under "-- Merger and Consolidation" above;
- (5) the failure by the Company to comply with any of its agreements in the Senior Notes or in the Indenture (other than those referred to in clauses (1) through (4) above) and such failure continues for 60 days after the notice specified below;
- (6) certain events of bankruptcy, insolvency or reorganization of the Company (the "bankruptcy provisions"); and
- (7) the payment of the principal of the Company's 4 3/4% convertible subordinated notes due November 2007 is accelerated under the terms of the indenture governing such notes.

However, a default under clauses (3) and (5) will not constitute an Event of Default until the Trustee or the holders of 25% in principal amount of the outstanding Senior Notes notify the Company of the default and the Company does not cure such default within the time specified after receipt of such notice.

If an Event of Default relating to certain events of bankruptcy, insolvency or reorganization of the Company or the acceleration of the Company's 4 3/4% convertible subordinated notes due November 2007 occurs and is continuing, the principal of and interest on all the Senior Notes will ipso facto become and be immediately due and payable in cash without any declaration or other act on the part of the Trustee or any holders of the Senior Notes. If an Event of Default relating to the Company's failure to pay interest on the Senior Notes occurs and is continuing, or if an Event of Default relating to the Company's failure to redeem or purchase the Senior Notes when required pursuant

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

to the Indenture or the Senior Notes occurs and is continuing, the Trustee by notice to the Company, or the holders of at least 25% in principal amount of the Senior Notes by notice to the Company and the Trustee, may declare the principal of and interest on all the Senior Notes to be due and payable immediately in cash. If any other Event of Default occurs and is continuing, the Trustee or the holders of at least 25% in principal amount of the outstanding Senior Notes may declare the principal of and interest on all the Senior Notes to be due and payable, the

-27-

principal to be paid in shares of common stock and the interest to be paid in cash. Upon such a declaration, such principal and interest shall be due and payable immediately. Under certain circumstances, the holders of a majority in principal amount of the outstanding Senior Notes may rescind any such acceleration with respect to the Senior Notes and its consequences.

Subject to the provisions of the Indenture relating to the duties of the Trustee, in case an Event of Default occurs and is continuing, the Trustee shall exercise the rights and powers vested in it by the Indenture, and use the same degree of care and skill in its own exercise, as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs. Except to enforce the right to receive payment of principal, premium (if any) or interest when due, no holder of Senior Notes may pursue any remedy with respect to the Indenture or the Senior Notes unless:

- (1) such holder has previously given the Trustee notice that an Event of Default is continuing;
- (2) holders of at least 25% in principal amount of the outstanding Senior Notes have requested the Trustee to pursue the remedy;
- (3) such holders have offered the Trustee reasonable security or indemnity against any loss, liability or expense;
- (4) the Trustee has not complied with such request within 60 days after the receipt thereof and the offer of security or indemnity; and
- (5) holders of a majority in principal amount of the outstanding Senior Notes have not given the Trustee a direction inconsistent with such request within such 60-day period.

Subject to certain restrictions, the holders of a majority in principal amount of the outstanding Senior Notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee determines is unduly prejudicial to the rights of any other holder of Senior Notes or that would involve the Trustee in personal liability.

If a Default occurs and is continuing and if it is actually known to the Trustee, or upon written notice from the Company or any holder of Senior Notes or upon a default of Senior Indebtedness, the Trustee must mail to each holder of the Senior Notes notice of the Default within 90 days after it occurs. Except

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

in the case of a Default in the payment of principal of or interest on any Senior Note, the Trustee may withhold notice if and so long as a committee of its Trust Officers in good faith determines that withholding notice is in the interest of the holders of the Senior Notes.

### AMENDMENTS AND WAIVERS

Subject to certain exceptions, the Indenture or the Senior Notes may be amended with the consent of the holders of a majority in principal amount of the Senior Notes then outstanding (including consents obtained in connection with a tender offer or exchange for the Senior Notes), without notice to any holder of Senior Notes, and any past default or compliance with any provisions may also be waived with the consent of the holders of a majority in principal amount of the Senior Notes then outstanding. However, without the consent of each holder of outstanding Senior Notes affected thereby, an amendment or waiver may not:

- (1) change the stated maturity of the principal of, or interest on, any Senior Note;
- (2) reduce the principal amount of, or any premium or interest on, any Senior Note;
- (3) reduce the amount of principal payable upon acceleration of the maturity of any Senior Note;
- (4) change the time at which any Senior Notes may be redeemed in accordance with the Indenture;

-28-

- (5) change the place or currency of payment of principal of, or any premium or interest on, any Senior Note;
- (6) impair the right to institute suit for the enforcement of any payment on, or with respect to, any Senior Note;
- (7) modify the subordination provisions of the Indenture in a manner materially adverse to the holders of Senior Notes;
- (8) adversely affect the right of holders to convert Securities other than as provided in the Indenture
- (9) adversely affect the adjustment of the Conversion Price except as provided in the Indenture;
- (10) reduce the percentage of the aggregate principal amount of the outstanding Senior Notes whose holders must consent to a modification or amendment of the Indenture; and
- (11) modify any of the provisions of certain sections of the Indenture relating to the vote required to approve amendments and waivers, except to increase any specified percentage or to provide that specified additional provisions of the Indenture cannot be modified or waived without the consent of the holder of outstanding Senior Notes affected thereby.

Without the consent of any holder of the Senior Notes, the Company and Trustee may amend the Indenture:

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

- (1) to cure any ambiguity, omission, defect or inconsistency;
- (2) to provide for the assumption by a successor corporation of the obligations of the Company under the Indenture;
- (3) to provide for uncertificated Senior Notes in addition to or in place of certificated Senior Notes (provided that the uncertificated Senior Notes are issued in registered form for purposes of Section 163(f) of the Code, or in a manner such that the uncertificated Senior Notes are described in Section 163(f)(2)(B) of the Code);
- (4) to add guarantees with respect to the Senior Notes or to secure the Senior Notes;
- (5) to add to the covenants of the Company for the benefit of the holders of the Senior Notes or to surrender any right or power conferred upon the Company;
- (6) to make any change that does not adversely affect the rights of any holder of the Senior Notes;
- (7) to comply with any requirement of the SEC in connection with the qualification of the Indenture under the Trust Indenture Act; or
- (8) to appoint a successor Trustee.

However, no amendment may be made to the subordination provisions of the Indenture that adversely affects the rights of any Senior Indebtedness of the Company then outstanding unless the holders of such Senior Indebtedness, pursuant to the terms thereof, consent to such change.

The consent of the holders of the Senior Notes is not necessary under the Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment.

After an amendment under the Indenture becomes effective, the Company is required to mail to holders of the Senior Notes a notice briefly describing such amendment. However, the failure to give such notice to all holders of the Senior Notes, or any defect therein, will not impair or affect the validity of the amendment.

-29-

### TRANSFER

The Senior Notes will be issued in registered form and will be transferable only upon the surrender of the Senior Notes being transferred for registration of transfer. We may require payment of a sum sufficient to cover any tax, assessment or other governmental charge payable in connection with certain transfers and exchanges.

### SATISFACTION AND DISCHARGE

We may discharge our obligations under the Indenture (except as to any surviving rights of conversion, registration of transfer or exchange) while Senior Notes remain outstanding if (1) all outstanding Senior Notes will become

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

due and payable at their scheduled maturity within 90 days or (2) all outstanding Senior Notes have been called for redemption within 90 days, and in either case, we have deposited with the Trustee an amount of cash and/or shares of common stock sufficient to pay and discharge all outstanding Senior Notes on the date of their scheduled maturity or the scheduled date of redemption. Notwithstanding the satisfaction and discharge of the Indenture, certain other obligations of the Company shall survive until the Senior Notes have been paid in full.

### PURCHASE AND CANCELLATION

All Senior Notes surrendered for payment, redemption, registration or transfer or exchange or conversion shall, if surrendered to any person other than the Trustee, be delivered to the Trustee. All Senior Notes delivered to the Trustee shall be canceled promptly by the Trustee. No Senior Notes shall be authenticated in exchange for any Senior Notes canceled, as provided in the Indenture.

We may, to the extent permitted by law, purchase Senior Notes in the open market or by tender offer at any price or by agreement. Any Senior Notes purchased by us may, to the extent permitted by law, be reissued or resold or may, at our option, be surrendered to the Trustee for cancellation. Any Senior Notes surrendered for cancellation may not be reissued or resold and will be promptly canceled.

### REPLACEMENT OF NOTES

We will replace mutilated, destroyed, stolen or lost Senior Notes at the expense of the holder upon delivery to the Trustee of mutilated Senior Notes or evidence of the loss, theft or destruction of the Senior Notes satisfactory to us and the Trustee. In the case of a lost, stolen or destroyed Senior Note, indemnity satisfactory to the Trustee and us may be required at the expense of the holder of such Senior Notes before a replacement will be issued.

### CONCERNING THE TRUSTEE

Wachovia Bank, National Association, is the Trustee under the Indenture. We have appointed Wachovia Bank, National Association as Registrar and Paying Agent with regard to the Senior Notes.

The holders of a majority in principal amount of the outstanding Senior Notes will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee, subject to certain exceptions. If an Event of Default occurs (and is not cured), the Trustee will be required, in the exercise of its power, to use the degree of care of a prudent person in the conduct of his or her own affairs.

### NO PERSONAL LIABILITY OF DIRECTORS, OFFICERS, EMPLOYEES AND STOCKHOLDERS

No director, officer, employee, incorporator or stockholder of the Company will have any liability for any obligations of the Company under the Senior Notes, the Indenture or the Registration Rights Agreement or for any claim based on, in respect of, or by reason of such obligations or their creation. Each holder of the Senior Notes by accepting Senior Notes waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Senior Notes. Such waiver and release may not be effective to waive liabilities under the U.S. federal securities laws, and it is the view of the SEC that such a waiver is against public policy.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

### GOVERNING LAW

The Indenture and the Senior Notes will be governed by, and construed in accordance with, the laws of the State of New York.

### CERTAIN DEFINITIONS

"Board of Directors" means the board of directors of the Company or any committee thereof duly authorized to act on behalf of such board.

"Capital Stock" of any person means any and all shares, interests, rights to purchase, warrants, options, participations or other equivalents of or interests in (however designated) equity of such Person, including any Preferred Stock, but excluding any debt securities convertible into such equity.

"Closing Price" on any Trading Day shall be the last reported sales price or, in case no such reported sale takes place on such date, the average of the reported closing bid and asked prices in either case on The New York Stock Exchange (the "NYSE") or The Nasdaq National Market (the "NNM"), as applicable, or, if the Common Stock is not listed or admitted to trading on the NYSE or the NNM, the principal national securities exchange or quotation system on which the Common Stock is quoted or listed or admitted to trading or, if not quoted or listed or admitted to trading on any national securities exchange or quotation system, the closing sales price or, in case no reported sale takes place, the average of the closing bid and asked prices, as furnished by any two members of the National Association of Securities Dealers, Inc. selected from time to time by the Company for that purpose.

"Conversion Price" is \$7.87 per share, subject to adjustment under certain circumstances.

"Currency Agreement" means in respect of a person any foreign exchange contract, currency swap agreement or other similar agreement designed to protect such person against fluctuations in currency values.

"Default" means any event which is, or after notice or passage of time or both would be, an Event of Default.

"Floor Price" means 80% of the Conversion Price.

"Guarantee" means any obligation, contingent or otherwise, of any person directly or indirectly guaranteeing any Indebtedness of any other person and any obligation, direct or indirect, contingent or otherwise, of such Person:

- (1) to purchase or pay (or advance or supply funds for the purchase or payment of) such Indebtedness of such person (whether arising by virtue of partnership arrangements, or by agreements to keep-well, to purchase assets, goods, securities or services, to take-or-pay or to maintain financial statement conditions or otherwise); or
- (2) entered into for the purpose of assuring in any other manner the obligee of such Indebtedness of the payment thereof or to protect such obligee against loss in respect thereof (in whole or in part);

provided, however, that the term "Guarantee" shall not include endorsements for collection or deposit in the ordinary course of business. The term "Guarantee" used as a verb has a corresponding meaning. The term "Guarantor" shall mean any person Guaranteeing any obligation.

"Hedging Obligations" of any person means the obligations of such person

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

pursuant to any Interest Rate Agreement or Currency Agreement.

"Incur" means issue, assume, Guarantee, incur or otherwise become liable for; provided, however, that any Indebtedness or Capital Stock of a person existing at the time such person becomes a Subsidiary (whether by merger, consolidation, acquisition or otherwise) shall be deemed to be Incurred by such person at the time it becomes a Subsidiary. The term "Incurrence" when used as a noun shall have a correlative meaning. The accretion of principal of a non-interest bearing or other discount security shall not be deemed the Incurrence of Indebtedness.

"Indebtedness" means, with respect to any person on any date of determination (without duplication):

-31-

- (1) the principal of an premium (if any) in respect of (A) indebtedness of such person for money borrowed and (B) indebtedness evidenced by notes, debentures, bonds or other similar instruments for the payment of which such person is responsible or liable;
- (2) all Capital Lease Obligations of such person and all Attributable Debt in respect of Sale/ Leaseback Transactions entered into by such person;
- (3) all obligations of such person issued or assumed as the deferred purchase price of property, all conditional sale obligations of such person and all obligations of such person under any title retention agreement (but excluding trade accounts payable arising in the ordinary course of business);
- (4) all obligations of such person for the reimbursement of any obligor on any letter of credit, banker's acceptance or similar credit transaction (other than obligations with respect to letters of credit securing obligations (other than obligations described in clauses (1) through (3) above) entered into in the ordinary course of business of such person to the extent such letters of credit are not drawn upon or, if and to the extent drawn upon, such drawing is reimbursed no later than the tenth business day following payment on the letter of credit);
- (5) the amount of all obligations of such person with respect to the redemption, repayment or other repurchase of any Capital Stock of such person;
- (6) all obligations of the type referred to in clauses (1) through (5) of other persons and all dividends of other Persons for the payment of which, in either case, such person is responsible or liable, directly or indirectly, as obligor, guarantor or otherwise, including by means of any Guarantee;
- (7) all obligations of the type referred to in clauses (1) through (6) of other persons secured by any Lien on any property or asset of such person (whether or not such obligation is assumed by such Person), the amount of such

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

obligation being deemed to be the lesser of the value of such property or assets or the amount of the obligation so secured; and

- (8) to the extent not otherwise included in this definition, Hedging Obligations of such person.

The amount of Indebtedness of any person at any date shall be the outstanding balance at such date of all unconditional obligations as described above and the maximum liability, upon the occurrence of the contingency giving rise to the obligation, of any contingent obligations at such date; provided, however, that in the case of Indebtedness sold at a discount, the amount of such Indebtedness at any time will be the accreted value thereof at such time.

"Interest Rate Agreement" means in respect of a person any interest rate swap agreement, interest rate cap agreement or other financial agreement or arrangement designed to protect such person against fluctuations in interest rates.

"Obligations" means with respect to any Indebtedness all obligations for principal, premium, interest, penalties, fees, indemnifications, reimbursements, and other amounts payable pursuant to the documentation governing such Indebtedness.

"Preferred Stock", as applied to the Capital Stock of any person, means Capital Stock of any class or classes (however designated) which is preferred as to the payment of dividends or distributions, or as to the distribution of assets upon any voluntary or involuntary liquidation or dissolution of such person, over shares of Capital Stock of any other class of such person.

"principal" of Senior Notes means the principal plus the premium, if any, of the Senior Notes payable on the Senior Notes which is due or overdue or is to become due at the relevant time.

-32-

"Registration Rights Agreement" means the Registration Rights Agreement, dated November 12, 2002, between the Company and Conexant Systems, Inc.

"Senior Indebtedness" means with respect to any person:

- (1) all Indebtedness of such person, whether outstanding on November 12, 2002 or thereafter Incurred; and
- (2) all other Obligations of such person (including interest accruing on or after the filing of any petition in bankruptcy or for reorganization relating to such person whether or not post-filing interest is allowed in such proceeding) in respect of Indebtedness described in clause (1) above

unless, in the case of clauses (1) and (2), in the instrument creating or evidencing the same or pursuant to which the same is outstanding, it is expressly provided that such Indebtedness or other Obligations are not superior in right of payment to the Senior Notes; provided, however, that Senior Indebtedness shall not include:

- (1) any obligation of such person to any subsidiary;

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

- (2) any liability for Federal, state, local or other taxes owed or owing by such person; or
- (3) any accounts payable or other liability to trade creditors arising in the ordinary course of business (including guarantees thereof or instruments evidencing such liabilities).

"Trading Day" means, with respect to any security, each Monday, Tuesday, Wednesday, Thursday and Friday, other than any day on which securities are not generally traded on the principal exchange or market in which the security is traded.

### BOOK-ENTRY, DELIVERY AND FORM

We initially issued a certificated security, which may subsequently be exchanged for one or more global notes (the "Global Note"). The Global Note will be deposited with, or on behalf of, the Depository and registered in the name of the Depository or its nominee. Except as set forth below, the Global Note may be transferred, in whole and not in part, only to the Depository or another nominee of the Depository. A holder may hold its beneficial interest in the Global Note directly through the Depository if such holder has an account with the Depository or indirectly through organizations which have accounts with the Depository. The Depository has advised the Company as follows:

- o the Depository is a limited-purpose trust company organized under the laws of the State of New York,
- o a member of the Federal Reserve System,
- o a "clearing corporation" within the meaning of the New York Uniform Commercial Code,
- o and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act.

The Depository was created to hold securities of institutions that have accounts with the Depository ("participants") and to facilitate the clearance and settlement of securities transactions among its participants in such securities through electronic book-entry changes in accounts of the participants, thereby eliminating the need for physical movement of securities certificates. The Depository's participants include securities brokers and dealers (which may include the initial purchasers), banks, trust companies, clearing corporations and certain other organizations. The Depository is owned by a number of its participants and by the New York Stock Exchange, Inc., the American Stock Exchange LLC and the National Association of Securities Dealers, Inc. Access to the Depository's book-entry system is also available to others such as banks, brokers, dealers and trust companies (collectively, the "indirect participants") that clear through or maintain a custodial relationship with a participant, whether directly or indirectly. The Rules applicable to the Depository and its participants and indirect participants are on file with the SEC.

-33-

The Company expects that pursuant to procedures established by the Depository, upon the deposit of the Global Note with the Depository, the Depository will credit, on its book-entry registration and transfer system, the principal amount of Senior Notes represented by such Global Note to the accounts of participants. Ownership of beneficial interests in the Global Note will be

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

limited to participants or persons that may hold interests through participants. Ownership of beneficial interests in the Global Note will be shown on, and the transfer of those ownership interests will be effected only through, records maintained by the Depository (with respect to participants' interests), the participants and the indirect participants (with respect to the owners of beneficial interests in the Global Note other than participants). The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. Such limits and laws may impair the ability to transfer or pledge beneficial interests in the Global Note.

So long as the Depository, or its nominee, is the registered holder and owner of the Global Note, the Depository or such nominee, as the case may be, will be considered the sole legal owner and holder of any related Senior Notes evidenced by the Global Note for all purposes of such Senior Notes and the Indenture. The Depository has no knowledge of the actual beneficial owners of the Senior Notes; the Depository's records reflect only the identity of the participants to whose accounts such Senior Notes are credited, which may or may not be the beneficial owners. The participants and indirect participants will remain responsible for keeping account of their holdings on behalf of their customers. Except as set forth below, as an owner of a beneficial interest in the Global Note, you will not be entitled to have the Senior Notes represented by the Global Note registered in your name, will not receive or be entitled to receive physical delivery of certificated Senior Notes and will not be considered to be the owner or holder of any Senior Notes under the Global Note. We understand that under existing industry practice, in the event an owner of a beneficial interest in the Global Note desires to take any action that the Depository, as the holder of the Global Note, is entitled to take, the Depository would authorize the participants to take such action, and the participants would authorize beneficial owners owning through such participants to take such action or would otherwise act upon the instructions of beneficial owners owning through them.

Conveyance of notices and other communications by the Depository to participants, by participants to indirect participants, and by participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial owners of Senior Notes may wish to take certain steps to augment transmission to them of notices of significant events with respect to the Senior Notes, such as redemptions, tenders, defaults and proposed amendments to any security documents. Beneficial owners of Senior Notes may wish to determine whether the nominee holding the Senior Notes for their benefit has agreed to obtain and transmit notices to beneficial owners, or in the alternative, beneficial owners may wish to provide their names and addresses to the registrar and request that copies of the notices be provided directly to them.

Redemption notices will be sent to the Depository. If less than all of the Senior Notes within an issue are being redeemed, the Depository's practice is to determine by lot the amount of the interest of each participant in such issue to be redeemed.

We will make payments of principal of, premium, if any, and interest on Senior Notes represented by the Global Note registered in the name of and held by the Depository or its nominee to the Depository or its nominee, as the case may be, as the registered owner and holder of the Global Note.

We expect that the Depository or its nominee, upon receipt of any payment of principal of, premium, if any, or interest on the Global Note will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the Global Note as shown on the records of the Depository or its nominee. We also expect that

payments by participants or indirect participants to owners of beneficial interests in the Global Note held through such participants or indirect participants will be governed by standing instructions and customary practices and will be the responsibility of such participants or indirect participants. We will not have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Global Note for any Senior Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests or for any other aspect of the relationship between the Depository and its participants or indirect participants or the relationship between such participants or indirect participants and the owners of beneficial interests in the Global Note owning through such participants.

-34-

Although the Depository has agreed to the foregoing procedures in order to facilitate transfers of interests in the Global Note among participants of the Depository, it is under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. Under such circumstances, in the event that a successor securities depository is not obtained, Senior Note certificates are required to be printed and delivered as described below under "-- Certificated Notes." Neither the Trustee nor the Company will have any responsibility or liability for the performance by the Depository or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

The information in this section concerning the Depository and the Depository's book-entry system has been obtained from sources that the Company believes to be reliable, but neither the Company nor the initial purchasers take any responsibility for the accuracy thereof.

#### CERTIFICATED NOTES

Subject to certain conditions, the Senior Notes represented by the Global Note are exchangeable for certificated Senior Notes in definitive form of like tenor in denominations of \$1,000 and integral multiples thereof if:

- (1) the Depository notifies us that it is unwilling or unable to continue as Depository for the Global Note or the Depository ceases to be a clearing agency registered under the Exchange Act and, in either case, we are unable to locate a qualified successor within 90 days;
- (2) we in our discretion at any time determine not to have all the Senior Notes represented by the Global Note; or
- (3) a default entitling the holders of the Senior Notes to accelerate the maturity thereof has occurred and is continuing.

Any Senior Notes that are exchangeable as described above are exchangeable for certificated Senior Notes issuable in authorized denominations and registered in such names as the Depository shall direct. Subject to the foregoing, the Global Note is not exchangeable, except for a Global Note of the same aggregate denomination to be registered in the name of the Depository or its nominee.

-35-

DESCRIPTION OF CAPITAL STOCK

GENERAL

Skyworks has 550,000,000 authorized shares of capital stock, consisting of 525,000,000 shares of common stock and 25,000,000 shares of preferred stock. As of January 10, 2003, we had 138,006,514 shares of common stock outstanding and no shares of preferred stock outstanding. The authorized shares of common stock and preferred stock are available for issuance without further action by our stockholders, unless such action is required by applicable law or the rules of any stock exchange or automated quotation system on which our securities may be listed or traded. If the approval of our stockholders is not so required, our board of directors may determine not to seek stockholder approval.

The following is a summary of certain provisions of Delaware law, our Amended and Restated Certificate of Incorporation, as amended (the "Certificate of Incorporation") and our Second Amended and Restated By-laws (the "By-laws"). This summary does not purport to be complete and is qualified in its entirety by reference to the corporate law of Delaware and our Certificate of Incorporation and By-laws.

Certain of the provisions described below under "-- Certain Provisions in our Certificate of Incorporation and By-laws" could have the effect of discouraging transactions that might lead to a Change in Control of Skyworks. For example, our Certificate of Incorporation and Bylaws:

- establish a classified board of directors;
- permit the board of directors to issue shares of preferred stock in one or more series without further authorization of our stockholders;
- prohibit stockholder action by written consent;
- require stockholders to provide advance notice of any stockholder nominations of directors or any proposal of new business to be considered at any meeting of stockholders;
- require a supermajority vote to amend or repeal certain provisions of our Certificate of Incorporation or By-laws;
- preclude stockholders from calling a special meeting of stockholders;
- require a supermajority vote for business combinations not approved by a majority of the members of the board of directors in office prior to the time the other party to the business combination became the beneficial owner of 5% or more of the shares of Skyworks; and
- contain a fair price provision.

COMMON STOCK

Holders of our common stock are entitled to such dividends as may be declared by our Board of Directors out of funds legally available for such purpose. Dividends may not be paid on common stock unless all accrued dividends on preferred stock, if any, have been paid or declared and set aside. In the event of Skyworks' liquidation, dissolution or winding up, the holders of common stock will be entitled to share pro rata in the assets remaining after payment to creditors and after payment of the liquidation preference plus any unpaid dividends to holders of any outstanding preferred stock.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

Each holder of our common stock is entitled to one vote for each such share outstanding in the holder's name. No holder of common stock is entitled to cumulate votes in voting for directors. Our Certificate of Incorporation provides that, unless otherwise determined by our board of directors, no holder of common stock will have any preemptive right to purchase or subscribe for any stock of any class which we may issue or sell.

-36-

Our common stock is listed on the Nasdaq National Market under the symbol "SWKS". American Stock Transfer & Trust Company is the transfer agent and registrar for our common stock. Its address is 59 Maiden Lane, New York, NY 10038, and its telephone number is (800) 937-5449.

### PREFERRED STOCK

Our Certificate of Incorporation permits us to issue up to 25,000,000 shares of preferred stock in one or more series and with rights and preferences that may be fixed or designated by our board of directors without any further action by our stockholders. The designation, powers, preferences, rights and qualifications, limitations and restrictions of the preferred stock of each series will be fixed by the certificate of designation relating to such series, which will specify the terms of the preferred stock, including:

- the designation of the series, which may be by distinguishing number, letter or title;
- the number of shares of the series, which number the board of directors may thereafter (except where otherwise provided in the preferred stock designation) increase or decrease (but not below the number of shares thereof then outstanding);
- whether dividends, if any, shall be cumulative or noncumulative and the dividend rate of the series;
- the dates at which dividends, if any, shall be payable;
- the redemption rights and price or prices, if any, for shares of the series;
- the terms and amount of any sinking fund provided for the purchase or redemption of shares of the series;
- the amounts payable on shares of the series in the event of any voluntary or involuntary liquidation, dissolution or winding up of the affairs of Skyworks;
- whether the shares of the series shall be convertible into shares of any other class or series, or any other security, of Skyworks or any other corporation, and, if so, the specification of such other class or series or such other security, the conversion price or prices or rate or rates, any adjustments thereof, the date or dates as of which such shares shall be convertible and all other terms and conditions upon which such conversion may be made;
- restrictions on the issuance of shares of the same series or of any other class or series; and
- the voting rights, if any, of the holders of shares of the series, provided that no share of preferred stock of any series will be entitled

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

to more than one vote per share of preferred stock.

Although our Board of Directors has no intention at the present time of doing so, it could issue a series of preferred stock that could, depending on the terms of such series, impede the completion of a merger, tender offer or other takeover attempt.

### CERTAIN PROVISIONS IN OUR CERTIFICATE OF INCORPORATION AND BY-LAWS

Our Certificate of Incorporation and By-laws contain various provisions intended to:

- promote the stability of our stockholder base; and
- render more difficult certain unsolicited or hostile attempts to take us over, which could disrupt Skyworks, divert the attention of our directors, officers and employees and adversely affect the independence and integrity of our business.

-37-

Pursuant to our Certificate of Incorporation, the number of directors is fixed by our Board of Directors. Our directors are divided into three classes, each class to consist as nearly as possible of one third of the directors. Pursuant to our amended By-laws, directors elected by stockholders at an annual meeting of stockholders will be elected by a plurality of all votes cast. Currently, the terms of office of the three classes of directors will expire, respectively, at our 2002, 2003 and 2004 annual meetings. The term of the successors of each such class of directors expires three years from the year of election.

Our Certificate of Incorporation contains a fair price provision pursuant to which a business combination (including, among other things, a merger or consolidation) between Skyworks or its subsidiaries and a related person (as defined in the our Certificate of Incorporation), requires approval by the affirmative vote of the holders of at least 90% of the then outstanding shares of capital stock entitled to vote generally in the election of directors, voting together as a single class, unless the business combination is approved by a majority of the continuing directors (as defined in the our Certificate of Incorporation) and certain fair price criteria and procedural requirements specified in the fair price provision are met. If the business combination does not involve any cash or other property being received by any of the other stockholders, then the fair price criteria discussed below would not apply, and only approval by a majority of the continuing directors would be required.

Under the fair price provision, the fair price criteria that must be satisfied to avoid the 90% stockholder voting requirement include the requirement that the consideration paid to the Skyworks' stockholders in a business combination must be either cash or the same form of consideration used by the related person in acquiring its beneficial ownership of the largest number of shares of our capital stock acquired by the related person. The related person would be required to meet the fair price criteria with respect to each class of our capital stock entitled to vote generally in the election of directors, whether or not the related person beneficially owned shares of that class prior to proposing the business combination.

Under the fair price provision, even if the foregoing fair price criteria are met, the following procedural requirements must be met if the business combination is not to require approval by the holders of at least 90% of the

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

then outstanding shares of capital stock entitled to vote generally in the election of directors, voting together as a single class:

- after the related person had become a related person and before the consummation of such business combination, (1) Skyworks must not have failed to declare and pay full quarterly dividends on any outstanding Skyworks preferred stock, reduced the annual rate of dividends paid on Skyworks common stock or failed to increase such annual rate of dividends as necessary to reflect any reclassification, recapitalization, reorganization or any similar transaction which has the effect of reducing the number of outstanding shares of our common stock, unless such failure, reduction or reclassification was approved by a majority of the continuing directors and (2) the related person must not have acquired any newly issued shares of Skyworks capital stock entitled to vote generally in the election of directors, directly or indirectly, from Skyworks, except as part of the transaction which results in such related person becoming a related person;
- the related person must not have received, directly or indirectly (other than proportionately as a stockholder), at any time after becoming a related person, the benefit of any loans, advances, guarantees, pledges or other financial assistance or any tax advantages provided by Skyworks; and
- a proxy or information statement describing the proposed business combination and complying with the requirements of the Exchange Act must have been mailed to all stockholders of Skyworks at least 30 days prior to the consummation of the business combination and such proxy or information statement must have contained a recommendation as to the advisability or inadvisability of the business combination which any of the continuing directors may have furnished in writing to the board of directors.

Our Certificate of Incorporation requires the affirmative vote of the holders of at least 80% of the shares of all classes of stock entitled to vote for the election of directors, voting together as a single class, to approve a business combination (including, among other things, a merger, consolidation or sale of all or substantially all of the assets of Skyworks) that has not been approved by a majority of the members of the board of directors in office prior to the time the other party to the business combination became the beneficial owner of 5% or more of the shares of Skyworks entitled to vote for the election of directors.

-38-

Our By-laws provide that a special meeting of stockholders may be called only by a resolution adopted by a majority of the entire board of directors. Stockholders are not permitted to call, or to require that the board of directors call, a special meeting of stockholders. Moreover, the business permitted to be conducted at any special meeting of stockholders is limited to the business brought before the meeting pursuant to the notice of the meeting given by Skyworks. In addition, our Certificate of Incorporation provides that any action taken by our stockholders must be effected at an annual or special meeting of stockholders and may not be taken by written consent instead of a meeting. Our By-laws establish an advance notice procedure for stockholders to nominate candidates for election as directors or to bring other business before meetings of our stockholders.

Our Certificate of Incorporation requires the affirmative vote of the holders of at least 66 2/3% of the shares of all classes of stock entitled to

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

vote for the election of directors, voting together as a single class, to:

- amend or repeal any provision of our By-laws;
- amend or repeal the provision of our certificate of incorporation relating to amendments to our By-laws; or
- adopt any provision inconsistent with such provisions.

Our Certificate of Incorporation requires the affirmative vote of the holders of at least 80% of the shares of all classes of stock entitled to vote for the election of directors, voting together as a single class, to:

- amend or repeal the provisions of our second amended and restated certificate of incorporation relating to the election of directors, the classified board, or the right to act by written consent; or
- adopt any provision inconsistent with such provisions.

Our Certificate of Incorporation requires the affirmative vote of the holders of at least 90% of the shares of all classes of stock entitled to vote for the election of directors, voting together as a single class, to:

- amend or repeal the fair price provision of our Certificate of Incorporation; or
- adopt any provision inconsistent with such provision.

Under the business combination provision discussed above, our Certificate of Incorporation requires the affirmative vote of the holders of at least 80% of the shares of all classes of stock entitled to vote for the election of directors, voting together as a single class, to amend, revise or revoke the business combination provision.

### BUSINESS COMBINATION PROVISIONS

We are subject to a Delaware statute regulating "business combinations," defined to include a broad range of transactions, between Delaware corporations and "interested stockholders," defined as persons who have acquired at least 15% of a corporation's stock. Under such statute, a corporation may not engage in any business combination with any interested stockholder for a period of three years after the date such person became an interested stockholder unless certain conditions are satisfied. The statute contains provisions enabling a corporation to avoid the statute's restrictions. We have not sought to "elect out" of the statute, and therefore, the restrictions imposed by such statute will apply to us.

-39-

### CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

This section summarizes some of the U.S. federal income tax considerations relating to the purchase, ownership, and disposition of the Senior Notes and of our common stock into which the Senior Notes may be converted. This summary does not discuss the tax consequences relating to the purchase, ownership and disposition of the Interim Notes or the conversion of the Interim Notes into Senior Notes. This summary is for general purposes only; it does not address all potential tax considerations, and it does not provide a complete or detailed discussion of the matters that are discussed below. The information provided

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

below is based on existing and generally applicable U.S. federal income tax authorities, including the Internal Revenue Code of 1986, as amended (the "Code"), Treasury regulations, judicial decisions, and administrative pronouncements. These authorities may change, possibly on a retroactive basis, or the Internal Revenue Service (the "IRS") or the courts might interpret the existing authorities differently. In either case, the tax consequences of purchasing, owning or disposing of Senior Notes or our common stock could differ from those described below.

Except as specifically stated below, this summary applies only to "U.S. Holders" that hold Senior Notes or our common stock as "capital assets" (generally, for investment) for U.S. federal income tax purposes. For this purpose, U.S. Holders include individual citizens or residents of the United States and corporations (or entities treated as corporations for U.S. federal income tax purposes) organized under the laws of the United States or any state or the District of Columbia. Trusts are U.S. Holders if they are subject to the primary supervision of a U.S. court and the control of one or more U.S. persons with respect to substantial trust decisions. An estate is a U.S. Holder if the income of the estate is subject to U.S. federal income taxation regardless of the source of the income. The term "Non-U.S. Holder" means a holder that is not a U.S. Holder. This summary describes in general fashion some, but not all, of the special rules applicable to Non-U.S. Holders.

The tax treatment of a holder of Senior Notes or our common stock may vary depending on such holder's particular situation. This summary does not address all of the tax consequences that may be relevant to you in light of your particular circumstances, including but not limited to the application of the alternative minimum tax or rules applicable to taxpayers in special circumstances. Special rules may apply, for instance, to banks and financial institutions, regulated investment companies, insurance companies, S corporations, broker-dealers, tax-exempt organizations, pension funds, persons who hold Senior Notes or our common stock as part of a hedge, conversion or constructive sale transaction, straddle or other risk reduction transaction, persons that have a "functional currency" other than the U.S. dollar, or persons subject to taxation as expatriates of the United States. Furthermore, in general, this discussion does not address the tax consequences applicable to holders that are treated as partnerships or other passthrough entities for U.S. federal income tax purposes, or to persons who hold Senior Notes or common stock through a partnership or other passthrough entity.

-40-

This summary is based on the U.S. federal income tax law in effect as of the date hereof, which is subject to change, possibly on a retroactive basis. This summary does not describe the effect of the U.S. federal estate or gift tax laws on U.S. Holders or the effects of any other federal or any applicable foreign, state, or local tax laws.

PLEASE CONSULT YOUR OWN TAX ADVISOR REGARDING THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO YOUR PARTICULAR SITUATION AND THE CONSEQUENCES OF OTHER FEDERAL TAX LAWS, FOREIGN, STATE, OR LOCAL TAX LAWS, AND TAX TREATIES. You should note that we have not sought any ruling from the IRS with respect to the statements made in this summary, and there can be no assurances that the IRS or a court will agree with such statements.

### CHARACTERIZATION OF SENIOR NOTES

We currently intend to treat the Senior Notes as indebtedness for U.S. federal income tax purposes, but as discussed below there can be no assurance that such treatment will be followed by the IRS or the courts. We expect that

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

such characterization as indebtedness will be binding on us (but not the IRS or a court), and that it will also be binding on each holder (except in circumstances where a holder makes adequate disclosure on its U.S. federal income tax return that such holder will be treating the Senior Notes in a manner that is inconsistent with our characterization as indebtedness). However, noteholders should be aware that there is a substantial possibility that the IRS would seek to treat the Senior Notes as equity (i.e., stock) or as some other type of investment instrument, rather than as indebtedness. Neither our counsel nor other tax advisors have expressed any opinion concerning the characterization of the Senior Notes for U.S. federal income tax purposes, and you should consult with your own tax advisor concerning the appropriate characterization of the Senior Notes and the consequences that may result if the Senior Notes were to be characterized as equity or as some other type of investment instrument, as well as the consequences that would result from characterization as indebtedness. With respect to the possible characterization of the Senior Notes as equity, you should discuss with your own tax advisor, among other things, the possibility that you will have to include taxable dividends attributable to the Senior Notes into income before receiving cash payments (e.g., the payments denominated in the Senior Notes as "interest") with which to pay applicable taxes. This summary of U.S. federal income tax considerations will proceed on the basis of our currently intended characterization and treatment of the Senior Notes as indebtedness for U.S. federal income tax purposes. The U.S. federal income tax considerations will be substantially different if the Senior Notes are characterized and treated as other than indebtedness, and you should consult your tax advisor with respect to those differences.

### U.S. HOLDERS

#### TAXATION OF INTEREST AND ORIGINAL ISSUE DISCOUNT

U.S. Holders are generally required to recognize as ordinary income any interest paid or accrued on debt obligations, including the Senior Notes assuming they are characterized as indebtedness for U.S. federal income tax purposes, in accordance with their regular method of accounting for U.S. federal income tax purposes. However, if a holder of a debt instrument may receive payments, other than payments treated as qualified stated interest for U.S. federal income tax purposes, that exceed the issue price of the instrument, the holder may be required to recognize additional interest-type income as "original issue discount" ("OID") over the term of the instrument (or a shorter term in the case of certain deemed instruments). The OID rules are complicated, and often provide for the inclusion of OID in taxable income in circumstances where such treatment may not be readily apparent. Because the Senior Notes are payable at maturity in our stock, it is likely that the Senior Notes will be treated as contingent payment debt instruments, with consequences under the OID rules potentially including but not limited to the following: all or part of the payments denominated in the Senior Notes as "interest" may be treated as OID and included in the U.S. Holder's income on a constant yield basis over the period extending from the issue date until the dates such interest payments are made; and a substantial part of the value of any stock paid to the U.S. Holder upon maturity of the Senior Notes may be treated as OID and included in such holder's income for the taxable year such stock is received. Several results from the application of these rules may be, among other consequences, the inclusion of taxable income prior to the receipt of cash payments that could be used to pay applicable taxes on such income, and the treatment as ordinary income of amounts that otherwise might be treated as capital gain. The U.S. tax rules relating to OID, contingent payment debt instruments, and related tax issues and consequences are complex, and U.S. Holders are strongly urged to consult their tax advisors with respect to the application of those rules.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

We will provide the IRS and noteholders with information required to be reported under the Code and Treasury regulations with respect to OID on the Senior Notes.

We expect that we will not be permitted to deduct either interest payments or OID with respect to the Senior Notes on our federal income tax returns.

Under the terms of the Senior Notes, if a noteholder converts Senior Notes into our common stock after the record date but prior to the interest payment date (and thus receives the interest payment payable on the interest payment date, notwithstanding that as a result of the conversion the holder is not entitled to retain such payment), the noteholder is obligated to pay us an amount equal to the interest payable on the converted principal amount. The tax consequences to the noteholder of the receipt and repayment of this amount are uncertain. We believe that neither the receipt nor the repayment should be taken into account in computing the noteholder's taxable income. A taxing authority, however, may require the noteholder to recognize ordinary income in an amount equal to the interest payment received. In that case, we believe the noteholder should be allowed an offsetting deduction for the repayment. However, the noteholder may be required to capitalize (rather than deduct) the repaid interest payment as an addition to the adjusted tax basis in the common stock received in the conversion, or may otherwise be subject to certain limitations on the deductibility of the repaid interest payment.

The interest rate on the Senior Notes is subject to increase in the event of certain defaults and circumstances when payments of interest or principal are overdue. We intend to treat the possibility that we will have to pay such additional interest as a remote or incidental contingency, within the meaning of applicable Treasury regulations and, therefore, we believe that any such additional interest will not affect the yield to maturity on the Senior Notes and will be taxable to U.S. Holders at the time any such interest accrues or is received in accordance with each such holder's method of accounting. Our determination that there is a remote likelihood of paying the additional interest is binding on each U.S. Holder unless the holder explicitly discloses in the manner required by applicable Treasury regulations that its determination is different from ours. Our determination is not binding on the IRS or a court, however.

### MARKET DISCOUNT

If a Senior Note is acquired at a "market discount," certain provisions of the Code subject such market discount to special treatment, including treatment as ordinary income. For this purpose, the market discount on a Senior Note generally will equal the amount, if any, by which the stated redemption price at maturity of the Senior Note exceeds the purchaser's adjusted tax basis in the Senior Note immediately after its acquisition (other than at original issue). The amount of market discount is subject to reduction for required inclusions of OID with respect to the Senior Notes. Subject to a limited exception, the market discount provisions generally require a U.S. Holder who acquires a Senior Note at a market discount to treat as ordinary income any gain recognized on the disposition of that Senior Note to the extent of the accrued market discount on that Senior Note at the time of disposition, unless the U.S. Holder elects to include accrued market discount in income over the life of the Senior Note. This election to include market discount in income over the life of the Senior Note, once made, applies to all market discount obligations acquired on or after the first taxable year to which the election applies and may not be revoked without the consent of the IRS. In general, market discount will be treated as accruing on a straight-line basis over the remaining term of a Senior Note at the time of acquisition, or, at the election of a U.S. Holder, under a constant yield method. If such election is made, it will apply only to the Senior Note with respect to which it is made, and may not be revoked. A U.S. Holder who acquires

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

a Senior Note at a market discount and who does not elect to include accrued market discount in income over the life of the Senior Note may be required to defer the deduction of a portion of the interest on any indebtedness incurred or maintained to purchase or carry the Senior Note until such income is recognized. If a U.S. Holder acquires a Senior Note with market discount and receives common stock upon conversion of the Senior Note, the amount of accrued market discount not previously included in income with respect to the converted Senior Note through the date of conversion will be treated as ordinary income when the holder disposes of the common stock.

### AMORTIZABLE PREMIUM

A U.S. Holder who purchases a Senior Note at a premium over its stated principal amount, plus accrued interest, generally may elect to amortize that premium (referred to as Section 171 premium) from the purchase date to the

-42-

Senior Note's maturity date under a constant yield method that reflects semiannual compounding based on the Senior Note's payment period. However, amortizable premium will not include any premium attributable to a Senior Note's conversion feature. The premium attributable to the conversion feature generally is the excess, if any, of the Senior Note's purchase price over what the Senior Note's fair market value would be if there were no conversion feature. Amortized Section 171 premium is treated as an offset to interest income on the Senior Note and not as a separate deduction. Such offset shall require a U.S. Holder to make a corresponding reduction in the adjusted tax basis of its Senior Notes. The election to amortize premium on a constant yield method, once made, applies to all debt obligations held or subsequently acquired by the electing U.S. Holder on or after the first day of the first taxable year to which the election applies and may not be revoked without the consent of the IRS. If such an election to amortize Section 171 premium is not made, a U.S. Holder must include all amounts of taxable interest and OID income without reduction for such premium, and may receive a tax benefit from the premium only in computing such U.S. Holder's gain or loss upon a disposition of the Senior Note.

### SALE, EXCHANGE OR REDEMPTION OF THE SENIOR NOTES

Subject to the application of the OID and market discount rules described above, you will generally recognize capital gain or loss if you dispose of Senior Notes in a sale, redemption or exchange (other than a conversion of the Senior Notes into our common stock pursuant to their conversion rights). Your gain or loss will generally be equal to the difference between the proceeds received by you and your adjusted tax basis in the Senior Notes. The proceeds received by you will include the amount of any cash and the fair market value of any other property received for the Senior Notes. If the Senior Notes are treated as contingent payment debt instruments for purposes of the OID rules (as described above in "Taxation of Interest and Original Issue Discount"), you may be required to treat a substantial portion of such proceeds as OID and include such portion in your income for the taxable year in which such proceeds are received. Your adjusted tax basis in the Senior Notes will generally be equal to the issue price of the Senior Notes for U.S. federal income tax purposes, increased by any OID and any market discount included in income and reduced by any amortized premium. The portion of any proceeds that is attributable to accrued interest or OID will not be taken into account in computing your capital gain or loss but, instead, will be recognized as ordinary income (to the extent that you have not previously included the accrued interest or OID in income). The capital gain or loss recognized by you on a disposition of the Senior Notes generally will be long-term capital gain or loss if you held the Senior Notes for more than one year. Long-term capital gains of individual taxpayers are generally taxed at favorable rates relative to the rates imposed on ordinary

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

income. Short-term capital gains (capital gains other than long-term capital gains) recognized by non-corporate taxpayers and generally all capital gains recognized by corporate taxpayers are taxable at the same tax rates as are imposed on ordinary income. The deductibility of capital losses is subject to limitations.

### Maturity of the Senior Notes -- Exchange of Senior Notes for Our Stock

Subject to the application of the OID and market discount rules described above, in the case of an exchange of Senior Notes for our common stock upon maturity of the Senior Notes, you should consult with your tax advisor as to whether the exchange may be eligible for treatment as a tax-free exchange, in which case you generally would not recognize any income, gain or loss except (i) with respect to amounts treated as attributable to accrued interest and OID on the Senior Notes and includable as ordinary income for U.S. federal income tax purposes (and not previously included in income) and (ii) cash received in lieu of a fractional share of common stock. As indicated in the preceding paragraph, taking into account the operation of the OID rules dealing with contingent payment debt instruments, you may be required to treat a substantial portion of your proceeds from disposition of the Senior Notes as OID and include such portion in your income for the taxable year in which such proceeds are received. You will also be required to account for any market discount, in which case your treatment may be similar to that resulting in the case of conversion of the Senior Notes. See discussion above under "Market Discount." If the exchange of Senior Notes for our common stock at maturity were to be eligible for treatment as a tax-free exchange, your tax basis and holding period in the common stock would generally be determined in a manner similar to the case of a conversion of the Senior Notes for our common stock, described below under "Conversion of the Senior Notes." If the exchange of Senior Notes for our common stock is not eligible for tax-free exchange treatment, your income and gain or loss (if any such loss is recognizable for tax purposes) would generally be determined in the manner described in the preceding paragraph, your tax basis in our stock would generally be treated as if you purchased the stock in a taxable transaction at its fair market value, and the holding period in the stock would generally begin on the day after acquisition. The tax rules governing this exchange are complicated, and you should consult your tax advisor for advice with respect to the consequences of the exchange of Senior Notes for stock on maturity of the Senior Notes.

### CONVERSION OF THE SENIOR NOTES

You generally will not recognize any income, gain or loss on the conversion of Senior Notes into our common stock, except (i) with respect to any cash received in lieu of a fractional share of common stock and (ii) to the extent, if any, of any amounts treated as attributable to accrued interest and OID on the Senior Notes and includable as ordinary income for U.S. federal income tax purposes (and not previously included in income). If the Senior Notes are treated as contingent payment debt instruments for purposes of the OID rules (as described in "Taxation of Interest and Original Issue Discount"), upon conversion of the Senior Notes into our common stock, you may be required to treat a substantial amount as OID and include such amount in your ordinary income for the taxable year in which such conversion occurs. If you receive cash in lieu of a fractional share of stock, you would be treated as if you received the fractional share and then had the fractional share redeemed for the cash. You would recognize gain or loss equal to the difference between the cash received and that portion of your adjusted tax basis in the stock attributable to the fractional share. You will be required to account for any market discount in the manner described above under "Market Discount."

Your adjusted tax basis in the common stock received upon conversion of Senior Notes generally will be equal to your adjusted tax basis in the Senior Notes (less the basis allocable to any fractional share for which you receive

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

cash), and increased in the event of any interest or OID accrual, inclusion, or repayment that may be required or permitted to be capitalized and added to the basis in your stock. Your holding period for such stock generally will include the period during which you held the Senior Notes (except for the portion of such stock, if any, that is treated as attributable to accrued interest or OID, which may have a holding period beginning the day after conversion).

-43-

### DIVIDENDS ON COMMON STOCK

If, after you convert a Senior Note into common stock, we make a distribution in respect of that stock, the distribution will be treated as a dividend, taxable to you as ordinary income, to the extent it is paid from our current or accumulated earnings and profits. If the distribution exceeds our current and accumulated earnings and profits, the excess will be treated first as a tax-free return of your investment, up to the adjusted tax basis in your common stock. Any remaining excess will be treated as capital gain. If you are a U.S. corporation, you may be able to claim a deduction equal to a portion of any dividends received.

### ADJUSTMENT OF CONVERSION RATE

The terms of the Senior Notes allow for changes in the conversion price of the Senior Notes in certain circumstances. A change in the conversion price that allows noteholders to receive more shares of common stock on conversion may increase the noteholders' proportionate interests in our earnings and profits or assets. In that case, the noteholders may be treated as though they received a dividend in the form of our stock. Such a constructive stock dividend could be taxable to the noteholders, although they would not actually receive any cash or other property. A taxable constructive stock dividend would result, for example, if the conversion price is adjusted to compensate noteholders for certain distributions of cash or property to our shareholders. However, not all changes in the conversion price that allow noteholders to receive more stock on conversion would increase the noteholders' proportionate interests in Skyworks. For instance, a change in the conversion price could simply prevent the dilution of the noteholders' interests upon a stock split or other change in capital structure. Changes of this type, if made by a bona fide, reasonable adjustment formula, are not treated as constructive stock dividends. Conversely, if an event occurs that dilutes the noteholders' interests and the conversion price is not adjusted, the resulting increase in the proportionate interests of our shareholders could be treated as a taxable stock dividend to them. Any taxable constructive stock dividends resulting from a change to, or failure to change, the conversion price would be treated like distributions paid in cash or other property. These deemed distributions would result in ordinary income to the recipient, to the extent of our current or accumulated earnings and profits, with any excess treated as a tax-free return of capital up to the recipient's adjusted tax basis and then as capital gain.

### SALE OF COMMON STOCK

Except with respect to market discount as discussed above in "Market Discount," you will generally recognize capital gain or loss on the sale or exchange of our common stock that you received upon conversion of a Senior Note. Your gain or loss will generally be equal to the difference between the proceeds received by you and the adjusted tax basis in your stock. The proceeds received by you will include the amount of any cash and the fair market value of any other property received for your stock. The capital gain or loss recognized by you on a sale or exchange of stock will generally be long-term capital gain or loss if you held the stock for more than one year.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

### SPECIAL TAX RULES APPLICABLE TO NON-U.S. HOLDERS

The following rules apply to you if you are a Non-U.S. Holder.

#### TAXATION OF INTEREST AND OID

Payments of interest and OID to Non-U.S. Holders are generally subject to U.S. federal withholding tax at a rate of 30 percent of the amounts of interest and OID, collected by means of withholding by the payor. However, payments of interest and OID on the Senior Notes to most Non-U.S. Holders will likely qualify as "portfolio interest," and thus be exempt from withholding tax, if the holders certify their nonresident status as described below. Subject to other requirements, the portfolio interest exception generally will apply to payments of interest and OID to you if:

- you do not own, directly or indirectly, 10 percent or more of the total combined voting power of all classes of our stock entitled to vote; and
- you are not a "controlled foreign corporation" that is related to us.

In general, a foreign corporation is a "controlled foreign corporation" if more than 50 percent of either (i) the total combined voting power of all classes of its stock entitled to vote or (ii) the total value of its stock is owned,

-44-

directly or indirectly, by one or more U.S. persons that each owns, directly or indirectly, 10 percent or more of the total combined voting power of all classes of stock entitled to vote. If you are a bank investing in the Senior Notes as an extension of credit made pursuant to a loan agreement entered into in the ordinary course of your trade or business, please consult your own tax advisor regarding your investment in the Senior Notes. Even if the portfolio interest exemption does not apply, U.S. federal withholding tax may be reduced or eliminated under an applicable tax treaty assuming you properly certify your entitlement to the benefit under such treaty.

The portfolio interest exception and several of the special rules for Non-U.S. Holders described below apply only if you certify your nonresident status. You can generally meet this certification requirement by providing a Form W-8BEN or appropriate substitute form to us or our paying agent. If you hold Senior Notes through a financial institution or other agent acting on your behalf, you will be required to provide appropriate documentation to the agent. Your agent will then be required to provide certification to us or our paying agent, either directly or through other intermediaries.

If the Senior Notes are treated as equity for U.S. federal income tax purposes (see "Characterization of Senior Notes" above), payments of interest, OID, and other amounts are subject to treatment as dividends, and the portfolio interest exception would not be available. Amounts treated as dividends will be treated in generally the same manner, and subject to withholding taxes, as described below under "Special Tax Rules Applicable to Non-U.S. Holders -- Dividends on Common Stock."

#### SALE, EXCHANGE OR REDEMPTION OF THE SENIOR NOTES

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

Other than proceeds attributable to accrued interest and OID (or alternatively subject to dividend treatment), you generally will not be subject to U.S. federal income tax on any gain realized on the sale, exchange, or other disposition of Senior Notes. This general rule, however, is subject to several exceptions. For example, the gain would be subject to U.S. federal income tax if:

- the gain is treated as effectively connected with the conduct by you of a U.S. trade or business;
- you are a former citizen or long-term resident of the United States subject to special rules that apply to expatriates;
- you are an individual present in the United States for 183 days or more in the year of such sale, exchange or disposition and certain other requirements are met; or
- certain rules described below under "Special Tax Rules Applicable to Non-U.S. Holders -- United States Real Property Holding Corporation Status" apply to such sale, exchange, or other disposition.

Proceeds attributable to accrued interest and OID, or alternatively subject to dividend treatment, will be treated as described above under "Special Tax Rules Applicable to Non-U.S. Holders -- Taxation of Interest and OID."

### CONVERSION OF THE SENIOR NOTES

You generally will not recognize any income, gain or loss on converting Senior Notes into common stock. However, to the extent a Non-U.S. Holder receives cash in lieu of a fractional share of common stock on conversion, that cash may give rise to gain that would be subject to the rules described below under "Special Tax Rules Applicable to Non-U.S. Holders -- Sale of Common Stock." In addition, Non-U.S. Holders should be aware that they may be subject to withholding tax with respect to amounts considered to be received as payments of accrued interest and OID pursuant to the rules described above under "Special Tax Rules Applicable to Non-U.S. Holders -- Taxation of Interest and OID."

### DIVIDENDS ON COMMON STOCK

Dividends paid to you on common stock received on conversion of Senior Notes will generally be subject to U.S. withholding tax at a 30 percent rate. The withholding tax might not apply, however, or might apply at a reduced rate, under the terms of a tax treaty between the United States and your country of residence. In order to claim the

benefits of a tax treaty, you must demonstrate your entitlement by certifying your nonresident status and eligibility for treaty benefits. The conversion price of the Senior Notes may adjust in certain circumstances. An adjustment could potentially give rise to a deemed distribution to Non-U.S. Holders of the Senior Notes. See "U.S. Holders -- Adjustment of Conversion Rate" above. In that case, the deemed distribution would be subject to the rules regarding withholding of U.S. federal tax on dividends in respect of common stock.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

### SALE OF COMMON STOCK

You will generally not be subject to U.S. federal income tax on any gain realized on the sale, exchange, or other disposition of common stock. This general rule, however, is subject to exceptions, some of which are described above under "Special Tax Rules Applicable to Non-U.S. Holders -- Sale, Exchange or Redemption of the Senior Notes."

### INCOME OR GAINS EFFECTIVELY CONNECTED WITH A U.S. TRADE OR BUSINESS

The preceding discussion of the U.S. federal income tax consequences of the purchase, ownership and disposition of Senior Notes or common stock by a Non-U.S. Holder assumes that the holder is not engaged in a U.S. trade or business. If any interest or OID on the Senior Notes, dividends on common stock, or gain from the sale, exchange or other disposition of the Senior Notes or common stock is treated as effectively connected with a U.S. trade or business conducted by you, then the income or gain will be subject to U.S. federal income tax at the regular graduated rates. If you are eligible for the benefits of a tax treaty between the United States and your country of residence, any "effectively connected" income or gain generally will be subject to U.S. federal income tax only if it is also attributable to a permanent establishment maintained by you in the United States. Payments of interest, OID, or dividends that are effectively connected with a U.S. trade or business, and therefore included in your gross income, will not be subject to the 30 percent withholding tax. To claim this exemption from withholding, you must certify your qualification, which can be done by filing a Form W-8ECI. If you are a foreign corporation, your income effectively connected with a U.S. trade or business would generally be subject to an additional "branch profits tax." The branch profits tax rate is generally 30 percent, although an applicable tax treaty might provide for a lower rate.

### UNITED STATES REAL PROPERTY HOLDING CORPORATION STATUS

Gain recognized on a sale, exchange or other disposition of Senior Notes or our common stock may be subject to U.S. federal income tax (and, in certain circumstances, to withholding tax) if we are, or were within the five years before such sale, exchange or other disposition, a "United States real property holding corporation" ("USRPHC"). In general, we would be (or would have been) a USRPHC if assets treated as interests in U.S. real estate comprised 50 percent or more of our assets. Although there can be no assurances, at the present time we do not believe that we are (or have been) a USRPHC or that we will become one in the future.

### U.S. FEDERAL ESTATE TAX

The estates of nonresident alien individuals are subject to U.S. federal estate tax on property with a U.S. situs. The Senior Notes will not be U.S. situs property as long as interest on the Senior Notes would have qualified as portfolio interest (as described above under "Special Tax Rules Applicable to Non-U.S. Holders -- Taxation of Interest") were it received by the decedent at the time of death. Because we are a U.S. corporation, our common stock will be U.S. situs property if owned by a Non-U.S. Holder at the time of death, and therefore will be included in the taxable estate of a nonresident alien decedent for U.S. estate tax purposes. The U.S. federal estate tax liability of the estate of a nonresident alien may be affected by a tax treaty between the United States and the decedent's country of residence.

### BACKUP WITHHOLDING AND INFORMATION REPORTING

The Code and the Treasury regulations require those who make specified payments to report the payments to the IRS. Among the specified payments are interest, OID, dividends, and proceeds paid by brokers to their customers. The

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

required information returns enable the IRS to determine whether the recipient properly included the payments in income. This information reporting regime is reinforced by certain "backup withholding" rules. These rules require such payors to withhold tax at a 30 percent rate (for payments made in 2002 and 2003) from payments subject to information reporting if the recipient fails to cooperate with the reporting regime or fails to provide a correct taxpayer identification number to the payor, or if the IRS or a broker informs the payor that backup withholding is required. The rate of backup withholding is scheduled to be reduced over time to 28 percent in 2006. The information reporting and backup withholding rules do not apply to payments made to corporations, whether domestic or foreign.

If you are an individual U.S. holder of Senior Notes or common stock, payments of interest, OID, or dividends to you will generally be subject to information reporting, and will be subject to backup withholding unless you provide us with a correct taxpayer identification number and neither the IRS nor a broker informs us that withholding is required.

The backup withholding rules do not apply to payments of dividends, interest, or OID to Non-U.S. Holders that are subject to the 30 percent withholding tax described above under "Special Tax Rules Applicable to Non-U.S. Holders -- Taxation of Interest" and "Special Tax Rules Applicable to Non-U.S. Holders -- Dividends on Common Stock," or to payments that are exempt from that tax by application of a tax treaty or special exception. Therefore, payments to Non-U.S. Holders of dividends on common stock, or interest or OID on Senior Notes, will generally not be subject to backup withholding. To avoid backup withholding on dividends, interest, and OID, you will have to certify your nonresident status. Even if certification is provided, information reporting may still apply to payments of dividends, interest, and OID.

If you are a U.S. Holder, payments made to you by a broker upon a sale of Senior Notes or common stock will generally be subject to information reporting and possible backup withholding. If you are a Non-U.S. Holder, payments made to you by a broker upon a sale of Senior Notes or common stock will not be subject to information reporting or backup withholding as long as you certify your foreign status.

Amounts withheld from a payment to a holder of Senior Notes or common stock under the backup withholding rules can be credited against any U.S. federal income tax liability of the holder.

Holders may be required to comply with certain reporting requirements if the payment of our common stock to satisfy the principal due on the Senior Notes on the maturity date or upon certain acceleration dates causes us to recognize cancellation of indebtedness income for U.S. federal income tax purposes.

Holders of Senior Notes should consult with their own tax advisors regarding the application of the backup withholding and information reporting rules to their particular situations, the availability of an exemption from backup withholding and the procedure for obtaining such exemption, if available.

THE PRECEDING DISCUSSION OF CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS IS FOR GENERAL INFORMATION ONLY. IT IS NOT TAX ADVICE. YOU SHOULD CONSULT YOUR OWN TAX ADVISOR REGARDING THE PARTICULAR U.S. FEDERAL, STATE, LOCAL, AND FOREIGN TAX CONSEQUENCES OF PURCHASING, HOLDING, AND DISPOSING OF THE SENIOR NOTES OR OUR COMMON STOCK, INCLUDING THE CONSEQUENCES OF ANY CHANGE OR PROPOSED CHANGE IN APPLICABLE LAWS.

## SELLING SECURITYHOLDERS

We originally issued the Interim Notes to Conexant in November 2002 in exchange for certain outstanding indebtedness incurred in connection with the Merger and our acquisition of the Mexicali Operations. This exchange was exempt from the registration requirements of the Securities Act. On November 25, 2002, Conexant exchanged the Interim Notes for an equal aggregate principal amount of Senior Notes. Conexant or its assigns may offer and sell the Senior Notes and the common stock underlying the Senior Notes pursuant to this prospectus.

The following table contains information as of January 15, 2003, with respect to the initial selling securityholder and the principal amount of Senior Notes and underlying common stock beneficially owned by the selling securityholder that may be offered using this prospectus. The information is based on information provided by or on behalf of the selling securityholder. Because the selling securityholder may offer all or some of its Senior Notes, or the underlying common stock from time to time, we cannot estimate the amount of the Senior Notes or underlying common stock that will be held by the selling securityholder upon the termination of any particular offering. The column showing ownership after completion of the offering assumes that the selling securityholder will sell all of the securities offered by this prospectus. The selling securityholder listed in the table may have sold or transferred, in transactions exempt from the registration requirements of the Securities Act, some or all of its Senior Notes since the date on which the information in table is presented. Information about the selling securityholder may change over time. Any change in this information will be set forth in prospectus supplements, if required.

NAME OF SELLING SECURITYHOLDER (1)	PRINCIPAL AMOUNT OF SENIOR NOTES BENEFICIALLY OWNED THAT MAY BE SOLD (\$)	PERCENTAGE OF NOTES OUTSTANDING	# OF SHARES OF COMMON STOCK BENEFICIALLY OWNED PRIOR TO THE OFFERING	# OF SHA COMMON STO MAY BE SO
Conexant Systems, Inc.	\$45,000,000.00	100%	6,209,316	5,717,

\* Less than 1% of total outstanding common stock

- (1) Information about other selling securityholders will be set forth in prospectus supplements, if required.
- (2) Assumes conversion of all of the holder's Senior Notes at a conversion price of \$7.87 per share of common stock, which is the applicable conversion price as of January 15, 2003. Fractions of a share are not included for purposes of this calculation. The conversion price will be subject to adjustment as described under "Description of the Senior Notes - Conversion of Notes." As a result, the amount of common stock issuable upon conversion of the Senior Notes may increase or decrease in the future.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

- (3) Calculated based on Rule 13d-3(d)(1)(i) of the Exchange Act, using 138,006,514 shares of common stock outstanding as of January 10, 2003. In calculating this amount, we treated as outstanding the number of shares of common stock issuable upon conversion of all Senior Notes held by Conexant. However, we did not assume the conversion of any other holder's Senior Notes.

-47-

### RELATIONSHIP WITH CONEXANT

Skyworks was formed through the merger of the wireless communications business of Conexant, which it spun-off immediately prior to the Merger, with Alpha. The Merger was completed on June 25, 2002. Immediately following the Merger, Skyworks purchased the Mexicali Operations from Conexant for an aggregate purchase price of \$150 million. Following the Merger, Alpha changed its corporate name to Skyworks Solutions, Inc.

In connection with the Merger, Skyworks and Conexant have engaged in various transactions, including, without limitation, the transactions referred to elsewhere in this prospectus and in the consolidated financial statements and related notes thereto of Skyworks incorporated by reference herein. Skyworks also has established ongoing arrangements and agreements with Conexant, the more significant of which are described below.

As part of the terms of the Merger, four designees of Conexant - Messrs. Beall, Beguwala, Decker and Iyer - were appointed to the Skyworks Board of Directors, joining four members who had been serving on the Board having been previously elected by the stockholders of Alpha. Each of the four Conexant designees to the Board continues to have a business relationship with Conexant. Mr. Decker currently serves as the chief executive officer, as well as the chairman of the board, of Conexant. Mr. Iyer serves as senior vice president and chief financial officer, as well as a director, of Conexant. Mr. Beguwala is a current employee, as well as a former executive officer, of Conexant. Mr. Beall is a non-employee director of Conexant.

### FINANCING ARRANGEMENTS AND SENIOR NOTES

In connection with our acquisition from Conexant of the Mexicali Operations, we and certain of our subsidiaries entered into a financing agreement, dated as of June 25, 2002, with Conexant. Pursuant to the terms of the financing agreement, in payment for the Mexicali Operations, we and certain of our subsidiaries issued short-term promissory notes to Conexant in the aggregate principal amount of \$150 million. In addition, Conexant made a short-term \$100 million loan facility available to us under the financing agreement to fund working capital and other requirements. \$75 million of this facility became available on or after July 10, 2002, and the remaining \$25 million balance of the facility would have become available if we had more than \$150 million of eligible domestic receivables. Interest on the short-term promissory notes and the loan facility was payable at a rate of 10% per annum for the first ninety days following June 25, 2002, 12% per annum for the next ninety days and 15% per annum thereafter. Unless paid earlier at the option of the Company or pursuant to mandatory prepayment provisions contained in the financing agreement with Conexant, 50% of the principal of the short-term promissory notes would become due on March 24, 2003 and the remaining 50%, as well as the entire principal amount of any amounts borrowed under the loan facility, would become due on June 24, 2003. There were \$65 million of borrowings as of November 6, 2002 under this facility. The promissory notes and the loan facility were secured by our assets and properties.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

Pursuant to our private placement of \$230 million aggregate principal amount of 4 3/4% convertible subordinated notes due in November 2007, which closed on November 12, 2002, we and Conexant entered into a refinancing agreement, and we, certain of our subsidiaries and Conexant executed an amendment to the original financing agreement with Conexant, each dated as of November 6, 2002. Pursuant to the refinancing agreement and the amended financing agreement, of the net cash proceeds received from the private placement, we paid Conexant (i) \$105 million to prepay, in part, the short-term promissory notes issued to Conexant, leaving a principal balance of \$45 million due on such notes, and (ii) \$65 million to prepay in full and retire the loan facility. Upon retiring the loan facility, all security interests, liens and mortgages presently held by Conexant on our assets and properties were released, and the financing agreement with Conexant, as amended, was terminated. The remaining \$45 million principal amount of the short-term promissory notes was exchanged for the Interim Notes, which were subsequently exchanged for the Senior Notes.

Conexant has also agreed with us that it may not exercise its rights to convert the principal amount of the Senior Notes (or any portion thereof) to the extent that such conversion would result in Conexant owning at any one time more than 10% of the then outstanding shares of the Company's common stock.

### TAX ALLOCATION AGREEMENT

At the time of the Merger, we entered into a tax allocation agreement with Conexant, which provides for the allocation of all responsibilities, liabilities and benefits relating to or affecting all forms of taxation between us and our affiliates and Conexant and its affiliates. In general, Conexant assumed and is responsible for tax liabilities of the wireless communications business for periods prior to the Merger and we assumed and are responsible for tax liabilities of the wireless communications business for periods after the Merger. Subsequent to the execution of the tax allocation agreement, and in connection with the refinancing agreement and amended financing agreement with Conexant, we entered into a letter agreement on November 6, 2002 with Conexant that amends the tax allocation agreement to limit our indemnification obligations under the tax allocation agreement to a reduced set of circumstances that could trigger such indemnification. However, the tax allocation agreement continues to provide that we will be responsible for various other tax obligations and for compliance with various representations and covenants made under the tax allocation agreement.

### TRANSITION SERVICES AGREEMENT

In connection with the Merger, we entered into a transition services agreement with Conexant on June 25, 2002 under which we and Conexant were to provide to the other certain specified services, the majority of which were completed by December 31, 2002. The services provided by Conexant under the agreement include:

-48-

- accounting and payroll;
- finance and treasury;
- engineering and design services;
- platform technology and other support for our Newbury Park facility;
- human resources;
- information technology;
- sales;
- other support services, including global trade, shipping, storage and logistics services;
- manufacturing quality and reliability;

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

- facilities; and
- material management and printed wire board assembly services.

In addition, we provided certain services to Conexant, including services related to:

- engineering and design services for Conexant's broadband access products;
- human resources;
- product testing and package qualification consulting; and
- facilities, including environmental consulting services.

The price to be paid by us and Conexant for these services is generally based on the actual cost of providing such services, including out of pocket expenses.

### INFORMATION TECHNOLOGY SERVICES AGREEMENT

On June 25, 2002, in connection with the Merger, we entered into an information technology services agreement with Conexant under which Conexant provides to us a variety of information technology services that Conexant previously provided to its wireless communications business. These services generally are to be provided in six month increments until either party elects to terminate the agreement or certain specific services provided thereunder. Payments to Conexant for the services rendered under the agreement generally consist of a base fee per month, plus an additional monthly service fee depending on the particular services rendered. We and Conexant have agreed to review the fee structure each year during the term of the agreement.

The services provided by Conexant under the agreement include:

- data center operations management;
- remote-site support;
- information technology infrastructure services;
- programming services; and
- applications support.

### MEXICALI TRANSITION SERVICES AGREEMENT

Under a Mexicali transition services agreement dated as of June 25, 2002 with Conexant, we and Conexant provided certain transition services to each other with respect to the Mexicali Operations. A majority of these services were completed by December 31, 2002. The price for the services is the actual cost, including out-of pocket expenses, of providing the services. The services covered under the agreement include:

- general accounting support;
- metrology services and test equipment support;
- thermal mechanical analysis and measurement of packages;
- electrical analysis and measurement for packages; and
- electromagnetic impulse measurement and certification services.

-49-

### NEWPORT BEACH SUPPLY AGREEMENT

Under our Newport Beach wafer supply and services agreement entered into with Conexant on June 25, 2002, we obtain through Conexant silicon-based semiconductor products supplied by Jazz Semiconductor, Inc., a Newport Beach, California foundry joint venture between Conexant and The Carlyle Group to which

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

Conexant contributed its Newport Beach wafer fabrication facility. These services will be provided for a three-year period. Pursuant to the terms of this supply agreement with Conexant, we are committed to obtain a minimum level of service from Jazz Semiconductor, Inc., based on a contractual agreement between Conexant and Jazz Semiconductor. The volume for wafers during these three years has been pre-calculated based on our anticipated wafer fabrication needs. The pricing under the agreement is established at Conexant's cost for the first year, at the median of Conexant's cost and market price for the second year, and at market price for the third year. Our expected minimum purchase obligations under this supply agreement are anticipated to be approximately \$64 million, \$39 million and \$13 million in fiscal 2003, 2004 and 2005, respectively. We estimate that our obligation under this agreement will result in excess costs of approximately \$5.1 million and we have recorded this liability in fiscal 2002.

### NEWBURY PARK SUPPLY AGREEMENT

Under a Newbury Park wafer supply and services agreement entered into with Conexant on June 25, 2002, we provide services to Conexant for both production and prototypes of semiconductor products at our Newbury Park, California wafer fabrication facility, including services related to:

- semiconductor wafer fabrication;
- semiconductor wafer probe;
- final test; and
- die processing.

These services generally will be provided for a term of three years with additional one-year renewal terms as may be mutually agreed. The pricing for wafers has been fixed for the three years based on our mutual agreement, and is based on cost plus a 50% markup.

### MEXICALI SUPPLY AGREEMENT

Under a Mexicali device supply and services agreement entered into with Conexant on June 25, 2002, we provide Conexant with certain semiconductor processing, packaging and testing services, including:

- assembly services;
- final testing;
- post-test processing; and
- shipping.

During the term of the agreement, Conexant will have the right to purchase products manufactured through the use of technologies developed and qualified for full-scale production at the Mexicali facility at the time of the agreement and, upon mutual agreement, products manufactured through the use of any new technologies in development at the Mexicali facility at the time of the agreement, but not yet qualified for full scale production. These services will be performed at our Mexicali, Mexico facility and, upon mutual agreement, at other facilities approved by Skyworks. These services generally will be provided for a term of three years with additional one-year renewal terms as may be mutually agreed. The pricing for the first year has been fixed based generally on the yielded assembly cost of the particular materials. The pricing for the second year will either be: (i) a 5% reduction from year one, or (ii) the actual cost at the end of year one. Pricing for the third year will be negotiated between the parties.

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

### PLAN OF DISTRIBUTION

We will not receive any of the proceeds of the sale of the Senior Notes and the underlying common stock offered by this prospectus. The Senior Notes, and the common stock underlying the Senior Notes, may be sold from time to time to purchasers:

- directly by the selling securityholders;
- through underwriters, broker-dealers or agents who may receive compensation in the form of discounts, concessions or commissions from the selling securityholder or the purchasers of the Senior Notes and the underlying common stock.

The selling securityholders and any such broker-dealers or agents who participate in the distribution of the Senior Notes and the underlying common stock may be deemed to be "underwriters." As a result, any profits on the sale of the Senior Notes and common stock underlying the Senior Notes by selling securityholders and any discounts, commissions or concessions received by any such broker-dealers or agents might be deemed to be underwriting discounts and commissions under the Securities Act. If the selling securityholders were to be deemed underwriters, the selling securityholders may be subject to certain statutory liabilities of, including, but not limited to, Sections 11, 12 and 17 of the Securities Act and Rule 10b-5 under the Exchange Act.

If the Senior Notes and common stock underlying the Senior Notes are sold through underwriters or broker-dealers, the selling securityholders will be responsible for underwriting discounts or commissions or agent's commissions.

The Senior Notes and common stock underlying the Senior Notes may be sold in one or more transactions at:

- fixed prices;
- prevailing market prices at the time of sale;
- varying prices determined at the time of sale; or
- negotiated prices.

These sales may be effected in transactions:

- on any national securities exchange or quotation service on which the Senior Notes and underlying common stock may be listed or quoted at the time of the sale, including the Nasdaq National Market in the case of the common stock;
- in the over-the-counter market;
- in transactions otherwise than on such exchanges or services or in the over-the-counter market; or
- through the writing of options.

These transactions may include block transactions or crosses. Crosses are transactions in which the same broker acts as an agent on both sides of the trade.

In connection with sales of the Senior Notes and the common stock underlying the Senior Notes or otherwise, the selling securityholders may enter into hedging transactions with broker-dealers. These broker-dealers may in turn engage in short sales of the Senior Notes and common stock underlying the Senior Notes in

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

the course of hedging their positions. The selling securityholders may also sell the Senior Notes and the common stock underlying the Senior Notes short and deliver Senior Notes and the common stock underlying the Senior Notes to close out short positions, or loan or pledge notes and underlying common stock to broker-dealers that in turn may sell the Senior Notes and underlying common stock.

-52-

To our knowledge, there are currently no plans, arrangements or understandings between any selling securityholder and any underwriter, broker-dealer or agent regarding the sale of the Senior Notes and the common stock underlying the Senior Notes by the selling securityholders. There is no assurance that any selling securityholders will sell any or all of the Senior Notes and the common stock underlying the Senior Notes offered by them pursuant to this prospectus. In addition, we cannot assure you that any such selling securityholder will not transfer, devise or gift the Senior Notes and the common stock underlying the Senior Notes by other means not described in this prospectus.

Our common stock trades on the Nasdaq National Market under the symbol "SWKS." We do not intend to apply for listing of the Senior Notes on any securities exchange or for quotation through Nasdaq. Accordingly, no assurance can be given as to the development of liquidity or any trading market for the Senior Notes. See "Risk Factors -- Risks Related to the Notes."

In addition, any securities covered by this prospectus which qualify for sale pursuant to Rule 144 or any other available exemption from registration under the Securities Act may be sold under Rule 144 or any of the other available exemptions rather than pursuant to this prospectus.

The selling securityholders and any other person participating in such distribution will be subject to the Exchange Act. The Exchange Act rules include, without limitation, Regulation M, which may limit the timing of purchases and sales of any of the Senior Notes and the underlying common stock by the selling securityholders and any other such person. In addition, Regulation M of the Exchange Act may restrict the ability of any person engaged in the distribution of the Senior Notes and the underlying common stock to engage in market-making activities with respect to the particular Senior Notes and the underlying common stock being distributed for a period of up to five business days prior to the commencement of such distribution. This may affect the marketability of the Senior Notes and the underlying common stock and the ability of any person or entity to engage in market-making activities with respect to the Senior Notes and the underlying common stock.

Pursuant to the registration rights agreement incorporated by reference into the registration statement of which this prospectus is a part, we and the selling securityholders will be indemnified by the other against certain liabilities, including certain liabilities under the Securities Act or will be entitled to contribution in connection with these liabilities.

We have agreed to pay substantially all of the expenses incidental to the registration, offering and sale of the Senior Notes and underlying common stock to the public other than commissions, fees and discounts of underwriters, brokers, dealers and agents.

### LEGAL MATTERS

The validity of the securities offered hereby will be passed upon for us by Testa, Hurwitz & Thibault, LLP, Boston, Massachusetts.

### WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy these reports, proxy statements and other information filed by us at the SEC's public reference rooms at 450 Fifth Street, NW., Washington, D.C. 20549. You can request copies of these documents by writing to the SEC and paying a fee for the copying cost. Please call the SEC at 1-800-SEC-0330 for more information about the operation of the public reference rooms. Our SEC filings are also available at the SEC's web site at <http://www.sec.gov>. In addition, you can read and copy our SEC filings at the office of the National Association of Securities Dealers, Inc. at 1735 "K" Street, Washington, DC 20006.

We have filed with the SEC a registration statement on Form S-3 under the Securities Act with respect to the Senior Notes and the common stock issuable upon the conversion of the Senior Notes in connection with this prospectus. This prospectus does not contain all of the information set forth in the registration statement. We have omitted certain parts of the registration statement in accordance with the rules and regulations of the SEC. For further information with respect to us, the Senior Notes and the common stock, you should refer to the registration statement. Statements contained in this prospectus as to the contents of any contract or other document are not necessarily complete and, in each instance, you should refer to the copy of such contract or document filed as an exhibit to or incorporated by reference in the registration statement. Each statement as to the contents of such contract or document is qualified in all respects by such reference. You may obtain copies of the registration statement from the SEC's principal office in Washington, D.C. upon payment of the fees prescribed by the SEC, or you may examine the registration statement without charge at the offices of the SEC described above.

The SEC allows us to "incorporate by reference" information that we file with it, which means that we can disclose important information to you by referring

## Edgar Filing: SKYWORKS SOLUTIONS INC - Form 424B3

you to those documents. The information incorporated by reference is an important part of this prospectus, and information that we file later with the SEC will automatically update and supersede this information. We incorporate by reference the documents listed below and any future filings we will make with the SEC under Section 13(a), 13(c), 14 or 15(d) of the Exchange Act until the selling securityholders sell all of their Skyworks common stock:

- our annual report on Form 10-K for the fiscal year ended September 27, 2002;
- Audited Consolidated Financial Statements of Alpha Industries, Inc. and the notes thereto contained on pages 27 through 50 of the Annual Report on Form 10-K of Alpha Industries, Inc. for the fiscal year ended March 31, 2002 filed with the Securities and Exchange Commission on July 1, 2002;
- our current report on Form 8-K, filed with the SEC on November 6, 2002, our current report on Form 8-K, filed with the SEC on November 8, 2002, and the amendment thereto, filed with the SEC on November 12, 2002, and our additional current report on Form 8-K, filed with the SEC on November 8, 2002; and
- the description of our common stock contained in Item 1 of our Registration Statement on Form 8-A filed with the SEC on May 29, 1998, including any amendments or reports filed for the purpose of updating the description.
