If any of the securities being registered on this Form are being offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act, check the following box. [X]

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. []

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier registration statement for the same offering. []

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier registration statement for the same offering. []

If delivery of the prospectus is expected to be made pursuant to Rule 434, please check the following box. []

CALCULATION OF REGISTRATION FEE

TITLE OF EACH CLASS OF SECURITIES TO BE REGISTERED	AMOUNT TO BE REGISTERED	PROPOSED MAXIMUM OFFERING PRICE PER SHARE (1)	PROPOSED MAX AGGREGATE OFFERING
Common Stock, \$0.001 par value per share (2)	61,582,000	\$4.075	\$250,946,6

(1) Estimated solely for the purpose of calculating the amount of registration fee pursuant to Rule 457(c) under the Securities Act of 1933, as amended, and based on the average of the high and low sales prices of the Registrant's common stock reported on the OTC Electronic Bulletin Board on May 21, 2004.

(2) This registration statement covers the resale of 61,582,000 shares of the Registrant's common stock, par value \$0.001 per share, consisting of: 2,000,000 shares of common stock issued upon conversion of an outstanding Convertible Note dated as of November 25, 2003; 25,830,000 shares of common stock issuable upon the conversion of outstanding 7% convertible preferred stock that was issued in our private placement completed on February 26, 2004; 25,830,000 shares of common stock issuable upon the exercise of outstanding warrants having an exercise price of \$1.00 per share that were issued in our private placement completed on February 26, 2004; 2,000,000 shares of common stock issuable upon (i) the conversion of 7% convertible preferred stock (1,000,000 shares) and (ii) warrants having an exercise price \$1.00 per share (1,000,000 shares),

that were issued to certain officers in exchange for previously outstanding indebtedness; 2,520,000 shares of common stock issuable upon (i) the conversion of 7% convertible preferred stock (1,260,000 shares) and (ii) warrants having an exercise price of \$1.00 per share (1,260,000 shares), as the securities underlying the placement agent warrant to purchase units that was issued to JMP Securities LLC as a portion of the placement agent fee issued in connection with

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

the private placement completed on February 26, 2004; 1,000,000 shares of common stock issuable upon (i) the conversion of 7% convertible preferred stock (500,000 shares) and (ii) warrants having an exercise price of \$1.00 per share (500,000 shares), as the securities underlying the placement agent warrant to purchase units that was issued to JMP Asset Management LLC as a portion of the placement agent fee issued in connection with the private placement completed on February 26, 2004; 1,840,000 shares of common stock issuable upon (i) the conversion of 7% convertible preferred stock (920,000 shares) and (ii) warrants having an exercise price of \$1.00 per share (920,000 shares), as the securities underlying the placement agent warrant to purchase units that was issued to Atlantis Equities, Inc. as a portion of the placement agent fee issued in connection with the private placement completed on February 26, 2004; 302,000 shares of common stock issued to CEOcast, Inc. pursuant to a consultant agreement, dated as of November 8, 2003; 160,000 shares of common stock issued to Hayden Communications, Inc. pursuant to a consultant agreement, dated as of November 26, 2003; and 100,000 shares of common stock issued to Mintz, Levin, Cohn, Ferris, Glovsky and Popeo, P.C. pursuant to a settlement agreement, dated as of December 5, 2003. This registration statement also shall cover any additional shares of common stock that become issuable by reason of any stock dividend, stock split, recapitalization or other similar transaction effected without the receipt of consideration which results in an increase in the number of the outstanding shares of common stock, as well as any additional shares of common stock that become issuable as a result of anti-dilution provisions.

THE REGISTRANT HEREBY AMENDS THIS REGISTRATION STATEMENT ON SUCH DATE OR DATES AS MAY BE NECESSARY TO DELAY ITS EFFECTIVE DATE UNTIL THE REGISTRANT SHALL FILE A FURTHER AMENDMENT WHICH SPECIFICALLY STATES THAT THIS REGISTRATION STATEMENT SHALL THEREAFTER BECOME EFFECTIVE IN ACCORDANCE WITH SECTION 8(a) OF THE SECURITIES ACT OF 1933, AS AMENDED, OR UNTIL THE REGISTRATION STATEMENT SHALL BECOME EFFECTIVE ON SUCH DATE AS THE SECURITIES AND EXCHANGE COMMISSION, ACTING PURSUANT TO SECTION 8(a), MAY DETERMINE.

You should rely only on the information contained in this prospectus. We have not authorized anyone to provide you with information different from that contained in this prospectus. This document may only be used where it is legal to sell these securities. The information contained in this prospectus is accurate only as of the date of this prospectus, regardless of the time of delivery of this prospectus or of any sale of common stock.

PROSPECTUS SUMMARY

This summary highlights the most important features of this offering and the information contained elsewhere in this prospectus. This summary is not complete and does not contain all of the information that you should consider before investing in our common stock. You should read the entire prospectus carefully, especially the risks of investing in our common stock discussed under "Risk Factors." As used in this prospectus the terms "Majesco", "we", "us" or "Company" mean Majesco Holdings Inc. and its subsidiaries.

MAJESCO HOLDINGS INC.

On December 5, 2003, we consummated a merger with Majesco Sales Inc., or MSI, a New Jersey corporation, whereby CTTV Merger Corp, our wholly-owned subsidiary, merged with and into MSI. As a result of the merger, MSI became our wholly-owned subsidiary and our sole operating business.

Majesco Sales Inc. is a developer, publisher and marketer of interactive entertainment software. MSI has released titles for all major videogame platforms and handhelds, including Sony's PlayStation and PlayStation(R) 2, Nintendo's N64, SNES, Game Boy(TM), Game Boy(TM) Color, Game Boy(TM) Advance and GameCube(TM), Microsoft's Xbox(TM), Sega's Dreamcast, Genesis and Game Gear, and the personal computer ("PC"). Additionally, Majesco is a manufacturer of a number of accessories licensed by Nintendo.

The Company was originally organized in the State of Delaware on May 8, 1998 as SMD Group, Inc. In January 1999, the name was changed to CDBeat.com, Inc. As CDBeat.com, Inc., the Company's primary business was providing B2B online marketing services geared toward the entertainment industry. Following the Company's business combination with Cakewalk LLC, an independent record company, in November 1999, the name was again changed to Spinrocket.com, Inc. On September 11, 2000, we changed our name to ConnectivCorp, and prior to the merger, as discussed above, ConnectivCorp had ceased active operations and was

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

exploring various business opportunities. On April 13, 2004, we changed our name to "Majesco Holdings Inc." to better reflect our current operating business.

THE OFFERING

Selling stockholders identified in this prospectus may sell up to 61,582,000 shares of our common stock, par value \$0.001 per share. The selling stockholders may sell their shares according to the plan of distribution described on page 3 below. We will not receive any proceeds from the sale of these shares. We will bear the expenses related to the registration of the common stock.

The 61,582,000 shares of common stock being sold by the selling stockholders include:

- o 2,000,000 shares of common stock issued upon conversion of an outstanding convertible note dated as of November 25, 2003;
- o 25,830,000 shares of common stock issuable upon the conversion of outstanding 7% convertible preferred stock that was issued in our private placement completed on February 26, 2004;
- o 25,830,000 shares of common stock issuable upon the exercise of outstanding warrants having an exercise price of \$1.00 per share that were issued in our private placement completed on February 26, 2004;
- o 1,000,000 shares of common stock issuable upon (i) the conversion of 7% convertible preferred stock (500,000 shares) and (ii) warrants having an exercise price \$1.00 per share (500,000 shares), that were issued to Jesse Sutton in exchange for previously outstanding indebtedness;
- o 1,000,000 shares of common stock issuable upon (i) the conversion of 7% convertible preferred stock (500,000 shares) and (ii) warrants having an exercise price \$1.00 per share (500,000 shares), that were issued to Joseph Sutton in exchange for previously outstanding indebtedness; and
- o 2,520,000 shares of common stock issuable upon (i) the conversion of 7% convertible preferred stock (1,260,000 shares) and (ii) warrants having an exercise price of \$1.00 per share (1,260,000 shares), as the securities underlying the placement agent warrant to purchase units that was issued to JMP Securities
- o 1,000,000 shares of common stock issuable upon (i) the conversion of 7% convertible preferred stock

1

(500,000 shares) and (ii) warrants having an exercise price of \$1.00 per share (500,000 shares), as the securities underlying the placement agent warrant to purchase units that was issued to JMP Asset Management LLC as a portion of the placement agent fee issued in connection with a private placement completed on February 26, 2004.

- o 1,840,000 shares of common stock issuable upon (i) the conversion of 7% convertible preferred stock (920,000 shares) and (ii) warrants having an exercise price of \$1.00 per share (920,000 shares), as the securities underlying the placement agent warrant to purchase units that was issued to Atlantis Equities, Inc. as a

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

portion of the placement agent fee issued in connection with a private placement completed on February 26, 2004.

- o 302,000 shares of common stock issued to CEOcast, Inc. pursuant to a consultation agreement, dated as of November 8, 2003.
- o 160,000 shares of common stock issued to Hayden Communications, Inc. pursuant to a consultation agreement, dated as of November 26, 2003.
- o 100,000 shares of common stock issued to Mintz, Levin, Cohn, Ferris, Glovsky and Popeo, P.C. pursuant to a settlement agreement, dated as of December 5, 2003.

Our symbol on the Over-the-Counter Bulletin Board is "MJSH." As of May 21, 2004 there were 80,853,440 shares of our common stock issued and outstanding.

2

RISK FACTORS

Investing in our stock is highly speculative and risky. You should be able to bear a complete loss of your investment. You should carefully consider the risks described below before making an investment decision. The risks described below are not the only ones facing us. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations.

Our business, financial condition or results of operations could be materially adversely affected by any of these risks. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment.

This prospectus also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks faced by us described below and elsewhere in this prospectus.

FACTORS AFFECTING OUR BUSINESS CONDITION

The risks described below are those associated with our newly acquired subsidiary, MSI. In addition to the other information and factors included in this prospectus, the following factors should be considered in evaluating our business and future prospects:

We have experienced recent net losses and we may incur future losses.

In fiscal years 2002 and 2003, we incurred net losses of \$751,000 and \$10,841,000, respectively. We believe these net losses were principally related to financing costs, litigation and impairment reserves. There can be no assurances that we will not continue to experience net losses.

Potential non-cash charges to operations may result from the Private Placement.

In accordance with Emerging Issues Task Force Issue 00-19 ("EITF 00-19"), "Accounting for Derivative Financial Instruments Indexed To, and Potentially Settled in, a Company's Own Stock", we will initially account for the fair value of the warrants issued in the private placement as a liability until a

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

registration statement for the resale of the underlying shares of common stock to be issued upon the conversion of the preferred stock and the exercise of the warrants is declared effective. As of the closing date of the private placement, the fair value of the warrants was approximately \$21 million calculated utilizing the Black-Sholes option pricing model. In addition, changes in the market value of our common stock from the closing date through the effective date of the registration statement, will result in non-cash charges or credits to operations to reflect the change in fair value of the warrants during this period. At the effective date of the registration statement, the fair value of the warrants will be reclassified to equity and, accordingly, the net effect of the application of the EITF would not be expected to have a material impact on our financial position and our business. However, in the interim, the effect of the EITF will be to record an initial liability and then to record non-cash charges or credits to our operating results to reflect the change in the fair value. Accordingly, the accounting treatment may have a negative impact on the way we are perceived by investors and by potential customers and partners. Further, it may have an adverse effect on our stock price and business prospects.

The National Association of Securities Dealers (the "NASD") has conducted a review of certain unusual trading activity in the Company's common stock which coincides with the signing of the letter of intent with respect to the Merger, the outcome of which could have a material adverse effect on the Company's reputation, listing, financial condition, results of operations and liquidity.

On December 17, 2003 we received a letter from the NASD's Market Regulation Department stating that the NASD was conducting a review of unusual trading activity in our common stock between the time of the signing of the letter of intent with respect to the Merger and the date that we announced that a letter of intent was signed. There also appears to be unusual trading activity around the time of the signing of the definitive agreement for the Merger and prior to the announcement of such signing.

By letter dated April 22, 2004, the NASD indicated that it had concluded its review and thanked us for our cooperation in the review. The letter indicated that the NASD referred the matter to the SEC for action, if any, the SEC deems appropriate. The letter concluded that "This referral should not be construed as indicating that any

3

violations of the federal securities laws or the NASD Conduct Rules have occurred, or as a reflection upon the merits of the security involved or upon any person who effected transactions in such security." If the Company is sanctioned or otherwise held liable for this trading any such sanctions could have a material adverse effect on the Company's reputation, listing, financial condition, results of operations and liquidity. In addition, it is possible that such matters may give rise to civil or criminal actions.

Our business is seasonal and cyclical and if we do not meet product development or delivery schedules we will experience fluctuation in our operating results.

Our business is highly seasonal, and fluctuates greatly on a quarterly basis with the highest levels of consumer demand, and a significant percentage of our revenue, occurring in the October through December calendar quarter. The timing of hardware platform introduction is often tied to the year-end holiday season and is not within our control. In addition, if we miss this key selling period, due to product or approval delays, delayed introduction of a new platform for which we have developed products, shipping delays, weather or any other reason, our sales will suffer disproportionately. Our industry is also cyclical. Videogame platforms have historically had a life cycle of four to six

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

years. As one group of platforms is reaching the end of its cycle and new platforms are emerging, consumers often defer game software purchases until the new platforms are available, causing sales to decline. This decline may not be offset by increased sales of products for the new platform.

Development schedules, particularly for new hardware platforms and high-end multimedia PCs, are difficult to predict because they involve creative processes, use of new development tools for new platforms, research and experimentation associated with development for new technologies, availability and price of licensing rights and availability of, and costs associated with, timely and accurate delivery schedules. Failure to meet any of these schedules will cause a shortfall in our revenue and profitability and cause our operating results to be materially different from expectations. Delays that prevent or otherwise hinder the release of our products, especially during peak selling seasons, will reduce lifetime sales of those products and our reputation in the marketplace.

Customer accommodations could materially adversely affect our earnings.

When demand for specific games falls below expectations, we sometimes negotiate accommodations to retailers or distributors in order to maintain our relationships with our customers and access to the distribution channels. These accommodations include our not requiring that all booked orders be filled. We also negotiate price discounts and credits against future orders with our customers. The conditions our customers must meet to be granted price protection or other allowances are, among other things, compliance with applicable payment terms, delivery to us of weekly inventory and sell-through reports, and participation in the launches of our premium title releases. When we offer price protection, we offer it with respect to a particular product to all of our retail customers, however, only those customers who meet the conditions detailed above can avail themselves of such price protection. We also offer a 90-day limited warranty to our end users that our products will be free from manufacturing defects.

At the time of product shipment, we establish reserves, including reserves under our policies for price protection and other allowances. These reserves are established according to our estimates of the potential for markdown allowances based upon historical rates, expected sales, retailer inventories of products and other factors. Although we believe that the reserves that we have established for customer accommodations are adequate, there is the possibility that actual customer accommodations could exceed our reserves. The effect of this would be a further reduction in our earnings. We cannot predict with certainty the amount or nature of accommodations that will be provided to our customers in the future

Increased competition for limited shelf space and promotional support from retailers could affect the success of our business and require us to incur greater expenses to market our products.

Retailers typically have limited shelf space and promotional resources to support any one product among an increasing number of newly introduced entertainment software products. Competition for retail shelf space is expected to increase, which may require us to increase our marketing expenditures. Competitors with more extensive lines, popular products and financial resources frequently have greater bargaining power with retailers. Accordingly, we may not be able to achieve or maintain the levels of support and shelf space that such competitors receive. As a result, sales of our products may be less than expected which would have a materially negative affected on our financial condition, results of operations and future prospects.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

Our activities will require additional financing, which may not be obtainable on acceptable terms, if at all.

As our business expands, we expect to increase our expenditures on sales, marketing, licensing and product development efforts. Although there can be no assurance, Company management believes that there are sufficient capital resources from operations, including our factoring and purchase order financing arrangements, and from funds received in our recently completed private placement, to finance our operational requirements through October 31, 2004. If we incur operating losses, or if unforeseen events occur that would require additional funding, we may need to raise additional capital or incur debt to fund our operations. We would expect to seek such capital through sales of additional equity or debt securities and/or loans from banks, but there can be no assurance that such funds will be available to us on acceptable terms, if at all, and any such sales of additional securities will be dilutive to investors in this Offering. Failure to obtain such financing or obtaining it on terms not favorable to us could have a material adverse effect on future operating prospects and continued growth.

Even if a new platform is successful, we must continue to deliver and market products accepted in the marketplace.

Even if we are able to accurately predict which platforms will be most successful, we must deliver and market videogames that are accepted in our extremely competitive marketplace. Prior to 1998, Majesco acted mostly as a distributor of videogames, not a publisher. Development and marketing efforts require substantial investment of time, money, personnel and other resources that we cannot be assured to ever recoup from our final products. In the event we are not successful in developing, licensing, marketing or distributing videogames, our financial condition, results of operations and future prospects could be materially negatively affected.

Videogame products typically have market life spans of only three to 12 months. Our new products may not achieve and sustain market acceptance during the short life cycle sufficient to generate revenue to recover our investment in developing the products and to cover our other costs. It is therefore important for us to be able to continue to develop many high quality new products that are popularly received. If we are unable to do this, our business and financial results may be materially negatively affected.

In addition, Microsoft, Sony and Nintendo, currently the largest companies operating in the entertainment hardware and software industry, have the financial resources to withstand significant price competition and to implement extensive advertising campaigns. Many of our other competitors also have far greater financial, technical, personnel and other resources than we do, and many are able to carry larger inventories and adopt more aggressive pricing policies. Prolonged price competition or reduced operating margins could cause a significant decrease in our profits.

Our platform licensors are also competitors and frequently control the manufacturing and access to our videogame products. If they do not approve our products, we will be unable to make sales of our products.

Our intellectual property licenses generally require that we submit new products developed under licenses for approval prior to release. In addition, some of our hardware licensors (such as Sony for the PlayStation 2(TM), Microsoft for the Xbox(TM) and Nintendo for the GameCube(TM) and Game Boy Advance(TM)) are also competitors. While we believe our relationships with our hardware licensors are positive, the potential for delay or refusal to approve or support our products exists. Such occurrences would hurt our business and have a material adverse impact on our financial performance and future growth.

prospects.

If we are unable to maintain or acquire licenses to intellectual property, we will publish fewer titles and our revenue may decline.

Although we continue to develop our own intellectual property, many of our products are based on or incorporate intellectual property and other character or story rights acquired or licensed from third parties. These license and distribution agreements are limited in scope and time, and we may not be able to renew key licenses when they expire or to include new products in existing licenses. If we are unable to maintain these licenses and obtain additional licenses with significant commercial value, or maintain them at reasonable costs, we will be unable to increase our revenue in the future unless we offset the loss of such revenue with revenue from our independently created material.

If we do not develop products for widely accepted new videogame platforms, our business will suffer.

We derive most of our revenue from the sale of products for play on proprietary videogame platforms of third parties, such as Sony's PlayStation 2(TM), Microsoft's Xbox(TM) and Nintendo's GameCube(TM) and Game Boy(TM). Therefore, the success of our products is driven in large part by the success of new videogame hardware systems and our ability to accurately predict which platforms will be most successful in the marketplace. Technology changes rapidly in our business, and if we fail to anticipate new technologies, the quality, timeliness and competitiveness of our products will suffer. We must make product development decisions and commit significant resources well in advance of the anticipated introduction of a new platform. A new platform for which we are developing products may be delayed, may not succeed or may have a shorter life cycle than anticipated. If the platforms for which we are developing products are not released when anticipated or do not attain wide market acceptance, our revenue growth will suffer.

MSI did not receive the consent of certain of its distributors and licensors with respect to the recently completed merger.

Certain agreements pursuant to which MSI operates with certain of its distributors and licensors require that MSI obtain the consent of such distributor or licensor prior to an assignment of the agreement or in some cases, a change of control of MSI. In connection with the Merger, MSI did not obtain the consent of certain of its distributors and licensors and such distributors and licensors may have the right to terminate these contracts as a result of MSI's failure to obtain such consent. While we believe we will be able to obtain such consents, and have already commenced this process, if we are unable to obtain certain of the consents, those distributors and licensors may terminate their contracts with us and such termination could have a material adverse effect on our financial condition and results of operations.

In December 2003, we received a letter of termination from one of our distributors, Vivendi Universal Games International, indicating Vivendi was terminating its existing License and Distribution Agreement with us as a result of the Merger. Although we believe that the basis for the termination is not in

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

accordance with the provisions of the License and Development Agreement, we are currently discussing this termination letter with Vivendi and Vivendi has indicated an interest in entering into a new contract under revised terms, however, there can be no assurance that we will be successful in negotiating a new contract on terms acceptable to us, or at all.

Approximately 55% of our sales for the year ended October 31, 2003 were generated from three (3) customers and, accordingly, the loss of any one such customer could adversely affect our sales.

As of October 31, 2003, three (3) customers accounted for approximately 55% of our sales. While this percentage is due in part to a consolidation of the retail industry generally, and although we are seeking to broaden our customer base, no assurance can be made that our efforts will be successful or that these three (3) customers will not continue to account for a large concentration of our sales. The loss of one or more of these three (3) customers, or any other customer that accounts for a significant portion of our sales, could materially adversely affect our business, operating results, and financial condition.

Our international revenues are subject to currency fluctuations.

We expect foreign sales to continue to account for a growing portion of our revenue. Such sales are subject to unexpected regulatory requirements, tariffs and other barriers. Additionally, foreign sales are primarily made in local currencies, which may fluctuate against the dollar. While we may hedge against foreign currency fluctuations, we cannot control translation issues. Any negative impact on our financial condition as a result of currency fluctuation or other international issues can be expected to have a material adverse effect on our results of operations and future operating prospects.

6

Our intellectual property is vulnerable to misappropriation and the effects of competitive, non-infringing technology.

We own or have rights to use proprietary technology that we believe affords us a current competitive advantage. This technology is not, however, fully protected from infringement by competitors or from the introduction of non-infringing technologies. Our rights and the additional steps we have taken to protect our intellectual property may not be adequate to deter misappropriation, and our proprietary position remains subject to the risk that our competitors or others will independently develop non-infringing technologies substantially equivalent or superior to our technologies.

Intellectual property claims may increase our product costs or require us to cease selling affected products.

Development of original content sometimes results in claims of intellectual property infringement. Although we make reasonable efforts to ensure our products do not violate the intellectual property rights of others, it is possible that third parties still may allege such infringement. Such claims, or litigation resulting there from, could require us to stop selling the affected product(s), redesign such product(s) to avoid infringement and/or obtain a license for future sales of such product(s). Any of the foregoing could have a material adverse effect on our business, financial condition, results of operations and future business prospects.

We depend heavily on our executive officers and would have difficulty replacing them.

Our future success depends to a significant degree on the skills,

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

experience and efforts of our executive officers. We do not currently have written employment agreements with our executive officers and we may not be able to retain their services or those of other key personnel. The loss of these personnel could materially adversely affect our business and our ability to achieve profitability.

We need to attract and retain key personnel and manage our growth effectively in order to remain a successful company.

The market for technical, creative, marketing and other personnel essential to the development of our products and management of our business is extremely competitive. To manage this anticipated growth, we must implement systems and train, manage and integrate our increased employee base. We cannot make assurances we have made adequate allowances for the costs and risks associated with this growth, that our procedures or controls will be adequate to support our operations, or that we will be able to successfully offer and expand our product base. If we cannot successfully recruit and retain the employees we need, our ability to develop and manage our businesses will be impaired. If we are unable to manage our growth effectively, our business could be materially adversely affected.

We are controlled by a small number of stockholders, some of whom are key members of our executive management, and such control could prevent the taking of certain actions that may be beneficial to other stockholders.

A significant portion of our voting securities are owned or controlled by various members of the Sutton family. Although each member of the Sutton family may vote their respective shares independently, due to their substantial ownership of our voting securities, together they control the outcome of substantially all matters submitted to a vote of our stockholders, including but not limited to the selection of certain members to our Board of Directors and the adoption of measures that could delay or prevent a change in control or impede a merger, takeover or other business combination we may potentially be involved in. Additionally, Morris Sutton is the Chairman of our Board of Directors, Jesse Sutton (Morris' son) is our President and Chief Executive Officer and a member of our Board and Joseph Sutton (Morris' son) is our executive vice president of research and development and a member of our Board, thereby also giving them substantial control over matters considered by the officers and directors of the Company without approval of stockholders.

Anti-takeover provisions in our certificate of incorporation and Delaware law could prevent a potential acquirer from buying your stock.

Anti-takeover provisions of Delaware law may make a change in control of our Company more difficult, even if a change in control would be beneficial to our stockholders. These provisions may allow our board of directors to prevent or make changes in the management and control of our company. Without any further vote or action on the part of the stockholders, the board of directors will have the authority to determine the price, rights, preferences, privileges and restrictions of our preferred stock. This preferred stock may have preference over and impair the rights of the holders of Common Stock. Although the ability to issue preferred stock may provide us with flexibility in connection with possible investment acquisitions and other corporate purposes, this issuance may make it more difficult for a third party to acquire a majority of our outstanding voting stock. Similarly, our authorized but unissued common stock is available for future issuance without stockholder approval.

Our common stock is subject to penny stock regulation, which may limit the liquidity of our common stock and the ability of our stockholders to sell

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

shares.

Our common stock is subject to regulations of the SEC relating to the market for penny stocks. These regulations generally require that a disclosure schedule explaining the penny stock market and the risks associated with the penny stock market be delivered to purchasers of penny stocks and imposes various sales practice requirements on broker-dealers who sell penny stocks to persons other than established customers and accredited investors. Moreover, broker-dealers are required to determine whether an investment in a penny stock is a suitable investment for a prospective investor. These requirements may reduce the potential market for our common stock by reducing the number of potential investors. This may make it more difficult for investors in our common stock to sell shares to third parties or to otherwise dispose of them. Accordingly, there can be no assurance that an active trading market in the Company's shares will be developed or sustained.

Our common stock is thinly traded, and the public market may provide little or no liquidity for holders of our common stock.

There is currently a limited volume of trading in our common stock. Holders of our common stock may find it difficult to find buyers for their shares at prices quoted in the market, or at all.

Our stock price may be volatile, which could result in substantial losses for investors.

Volatility in the market could cause our stockholders to incur substantial losses. An active public market for our common stock may not develop and the market price of our common stock may become highly volatile particularly as additional information concerning MSI is released to the market for the first time. The market price of our common stock may fluctuate significantly in response to the following factors, some of which are beyond our control:

- o changes in market valuations of similar companies;
- o announcements by us or our competitors of new or enhanced products, technologies or services or significant contracts, acquisitions, strategic relationships, joint ventures or capital commitments;
- o regulatory developments;
- o additions or departures of key personnel;
- o deviations in our results of operations from the estimates of securities analysts; and
- o future issuances of our Common Stock or other securities.

If we are not current in our periodic filings with the SEC, we could lose our eligibility to trade our securities on the OTC Bulletin Board, which would have an adverse effect on our ability to raise additional funds.

We are required to file annual and quarterly reports with the SEC, pursuant to the Securities Exchange Act of 1934, as amended, and the rules promulgated thereunder. To the extent we do not timely file such reports, our securities may no longer be permitted to be traded on the OTC Bulletin Board, and would then be listed on the "pink sheets." Such action would have an adverse affect on our ability to raise additional funds in the future since many potential investors will not invest in companies whose securities are traded on the "pink sheets."

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some of the statements under "Prospectus Summary," "Risk Factors," "Management's Discussion and Analysis of Financial Condition and Results of Operations," "Business," and elsewhere in this prospectus constitute forward-looking statements. These statements relate to future events or our future financial performance and involve known and unknown risks, uncertainties, and other factors that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Those factors include, among other things, those listed under "Risk Factors" and elsewhere in this prospectus. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "plans," "anticipates," "believes," "estimates," "predicts," "potential" or "continue" or the negative of these terms or other comparable terminology. These statements are only predictions. Actual events or results may differ materially. Moreover, neither we nor any other person assumes responsibility for the accuracy or completeness of these statements. We are under no duty to update any of the forward-looking statements after the date of this prospectus to conform these statements to actual results.

8

USE OF PROCEEDS

We will not receive any proceeds from the sale of the shares of common stock by the selling stockholders.

We will bear the expenses of the registration of the shares of common stock offered herein and estimate that these expenses will be approximately \$200,000.

MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Our common stock is traded on the Over-The-Counter Bulletin Board under the symbol "MJSH". The market for the common stock has often been sporadic, volatile and limited.

The following table shows the high and low sale prices for our common stock as reported by the National Association of Securities Dealers Over-The-Counter Bulletin Board during the past two fiscal years and current fiscal year and have been adjusted, as appropriate, for the 1:10 split on March 12, 2002. The prices reflect inter-dealer quotations, without retail markup, markdown or commissions and may not represent actual transactions.

NOVEMBER 1, 2001 TO OCTOBER 31, 2002	HIGH	LOW
	-----	---
First Quarter	\$1.50	\$.30
Second Quarter	\$1.10	\$.26
Third Quarter	\$.45	\$.15
Fourth Quarter	\$.20	\$.12

Second Quarter	\$4.48	\$1.39
Third Quarter (May 1 through May 21, 2004)	\$4.78	\$3.70

Holder of Record

On May 21, 2004, we had approximately 360 registered holders of record of our common stock.

Dividends

We have never paid dividends on our common stock. Each share of our 7% convertible preferred stock will be entitled to receive a 7% cumulative dividend payable solely in shares of our common stock, on an annual basis. In addition, the holders of the 7% convertible preferred stock shall be entitled to share in any dividends paid on our common stock on an "as converted" basis. We do not anticipate paying any dividends in the foreseeable future.

"Penny Stock" Rules

The bid price of our common stock has been below \$5.00 per share, and therefore, Rules 15c-1 through 15c-9 promulgated under the Securities Exchange Act of 1934, as amended, impose sales practice and disclosure requirements on NASD broker-dealers who make a market in a "penny stock." A penny stock generally includes any non-NASDAQ equity security that has a market price of less than \$5.00 per share. The additional sales practice and disclosure requirements imposed upon broker-dealers may discourage broker-dealers from effecting transactions in our shares, which could severely limit the market liquidity of the shares and impede the sale of our shares in the secondary market.

9

SELECTED FINANCIAL DATA

The following table summarizes certain selected consolidated financial data, which should be read in conjunction with our consolidated financial statements and the notes thereto and with management's discussion and analysis of financial condition and results of operations included elsewhere in this prospectus. The selected consolidated financial data presented below as of and for each of the fiscal years in the five year period ended October 31, 2003 are derived from our audited consolidated financial statements. Our consolidated financial statements for each of the fiscal years in the three-year period ended October 31, 2003, and the auditors' report thereon, are included elsewhere in this prospectus. The consolidated financial information for the three months ended January 31, 2004 and 2003 is derived from our unaudited consolidated financial statements. The unaudited consolidated financial statements have been prepared on the same basis as the audited consolidated financial statements. On December 5, 2003, Majesco Holdings Inc. consummated a merger with MSI. As a result of the merger, MSI became a wholly-owned subsidiary and the sole operating business of the Company. All financial information presented reflects the results of MSI as if MSI had acquired Majesco Holdings Inc. on December 5, 2003.

(1) Other (income) expense includes a gain on the disposal of property of \$510,000 (2000), a provision for loss on an affiliate indebtedness of \$1.2 million (2001), a loss on an abandoned equity offering of \$201,000 (2002) and in the three months ended January 31, 2004 MSI expenses related to the Merger of \$342,000 and an unrealized loss on foreign exchange of \$315,000.

(2) Operating expenses in 2003 includes provisions for loss on impairment of software development costs of \$3.7 million and litigation and settlement costs of \$4.9 million.

(3) Operating expenses for the three months ended January 31, 2004 includes a charge for bad debts of \$577,000 related to the KB Toys bankruptcy.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis of our financial condition and results of operations together with "Selected Financial Data" and our financial statements and related notes appearing elsewhere in this prospectus. This discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions. The actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors, including, but not limited to, those set forth under "Risk Factors" and elsewhere in this prospectus.

OVERVIEW

On December 5, 2003, the Company consummated a merger with Majesco Sales Inc., or MSI, whereby CTTV Merger Corp., our wholly-owned subsidiary, merged with and into MSI. As a result of the Merger, MSI became the Company's wholly-owned subsidiary and sole operating business. On April 13, 2004, we changed our name from "ConnectivCorp" to "Majesco Holdings Inc." to better reflect our current operating business.

MSI is a developer, publisher and marketer of interactive entertainment software. MSI has released titles for all major videogame platforms and handhelds, including Sony's PlayStation and PlayStation(R) 2, Nintendo's N64, SNES, Game Boy(TM), Game Boy(TM) Color, Game Boy(TM) Advance and GameCube(TM), Microsoft's Xbox(TM), Sega's Dreamcast, Genesis and Game Gear, and the personal computer ("PC"). Additionally, MSI is a manufacturer of a number of accessories licensed by Nintendo.

One of the Company's strengths is our distribution and sales channels. MSI products are sold at major U.S. retail chains including Wal-Mart, Target, Toys "R" Us, Electronics Boutique, Gamestop, Best Buy and other national and regional retailers. Additionally, the Company has contractual relationships with game rental outlets such as Blockbuster, Hollywood Video and RenTrak. Internationally, our products are published through licensing arrangements with other publishers.

Although the Company began operations primarily as a seller of overstock or republished "value" videogames, we have shifted focus and product mix increasingly toward proprietary multiplatform video games and related products. An example of our proprietary videogames includes the BloodRayne title. Launched in October 2002, the title has generated major consumer interest worldwide. In addition, we have sold the movie rights associated with the BloodRayne title to Brightlight Pictures (Alone in the Dark, House of the Dead), entered into a strategy guide deal with Prima Publishing, and licensed custom controller rights. We are also in discussions to develop an animated series featuring the BloodRayne character, as well as collectible action figures, a series of novels, comic books, jewelry, and character and logo-bearing merchandise based on the character. BloodRayne 2, a videogame sequel, is currently in development and expected to be released in October 2004.

A new proprietary videogame, also scheduled for release in October 2004, is Advent Rising, an epic science-fiction action game with dialogue written by Hugo and Nebula award winning novelist, Orson Scott Card. The title has already been selected as one of the Top Games of 2004 by Official Xbox(TM) Magazine and garnered over 30 pages of print editorial (exposing it to well over three million videogame enthusiasts) and numerous online plaudits.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

We are one of the leading publishers of software for the Nintendo Game Boy(TM) Advance. As a result of MSI's experience with developing games for this platform, we have developed a proprietary compression technology that will enable gamers to view color video and stereo audio on a standard Nintendo Game Boy(TM) Advance System. Nintendo has granted the Company a license to use our technology for the Game Boy Advance in the North American and European markets, which have an installed base of 20 million and 10 million Game Boy Advance owners respectively. The proprietary technology enables consumers to view up to 45 minutes of video on a Game Boy(TM) Advance using a standard GBA cartridge. We expect to have the capability to release cartridges that can contain up to 90 minutes of video, including feature length content, by the end of 2004. No other hardware peripheral will be required and all the user will need to do is insert a regular GBA cartridge into the Game Boy(TM) Advance in order to turn it into a personal video player. Licensing agreements have been signed with Nickelodeon (SpongeBob SquarePants, Fairly OddParents, others), 4Kids Entertainment (Yu-Gi-Oh!, Sonic X, others), Cartoon Network (Code Name: Kids Next Door, PowerPuff Girls, others), DIC Entertainment (Strawberry Shortcake) and we are negotiating for other content. We have implemented a large-scale public relations effort that has resulted in positive editorial coverage in such mass-market publications as Newsweek, TV Guide and the NY Times. In addition, Nintendo is developing a large market campaign to support this new use for the GBA that will include TV, print, online and in-store tactics. The product was launched at retail in May 2004. Additionally, MSI will be the North American manufacturer and distributor of the officially licensed Game Boy Advance SP Neckband Style

11

Headphones that will launch in conjunction with our line-up of Game Boy Advance Video products.

Another element in our growth strategy is to expand abroad. We believe that many of our competitors generate significant portions of their revenues from sales abroad. In 2001, we established a London base of operations designed to help grow our overseas revenues.

CRITICAL ACCOUNTING POLICIES

Our discussion and analysis of financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ materially from these estimates under different assumptions or conditions.

We have identified the policies below as critical of our business operations and the understanding of our financial results. The impact and any associated risks related to these policies on our business operations is discussed throughout Management's Discussion and Analysis of Financial Condition and Results of Operations where such policies affect our reported and expected financial results. For a detailed discussion on the application of these and other accounting policies see Note 1 to consolidated financial statements included elsewhere in this prospectus.

Revenue Recognition. We recognize revenue upon shipment of our product

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

when title and risk of loss are transferred. In order to recognize revenue, we must not have any continuing obligations and it must also be probable that we will collect the accounts receivable. For those agreements, which provide customers with the right to multiple copies in exchange for guaranteed minimum royalty amounts (such as under our international distribution agreements), revenue is recognized at delivery of the product master or the first copy. Royalties on sales that exceed the guaranteed minimum are recognized as earned.

We generally sell our products on a no-return basis, although in certain instances, we may provide price protection or other allowances on certain unsold products. Price protection, when granted and applicable, allows customers a credit against amounts they owe to us with respect to merchandise unsold by them. Revenue is recognized net of estimates of these allowances. We estimate potential future product price protection and other allowances related to current period product revenue. We analyze historical experience, current sell through of retailer inventory of our products, current trends in the videogame market, the overall economy, changes in customer demand and acceptance of our products and other related factors when evaluating the adequacy of price protection and other allowances.

Sales incentives or other consideration given by us to customers that are considered adjustments of the selling price of its products, such as rebates and product placement fees, are reflected as reductions of revenue. Sales incentives and other consideration that represent costs incurred by us for assets or services received, such as the appearance of our products in a customer's national circular ad, are reflected as selling and marketing expenses.

Software Development Costs and Intellectual Property Licenses. Software development costs include milestone payments made to independent software developers under development arrangements. Software development costs are capitalized once technological feasibility of a product is established and such costs are determined to be recoverable against future revenues. For products where proven game engine technology exists, this may occur early in the development cycle. Technological feasibility is evaluated on a product-by-product basis. Amounts related to software development that are not capitalized are charged immediately to development costs. Intellectual property license costs represent license fees paid to intellectual property rights holders for use of their trademarks or copyrights in the development of our products.

Commencing upon the related product's release, capitalized software development and property licenses costs are amortized to cost of sales based upon the higher of (i) the contractual rate based on actual net product sales or (ii) the ratio of current revenue to total projected revenue. The recoverability of capitalized software development costs and intellectual property licenses is evaluated based on the expected performance of the specific products for which the costs relate. The following criteria are used to evaluate expected product performance: historical performance of comparable products using comparable technology; orders for the product prior to its release; and estimated performance of a sequel product based on the performance of the product on which the sequel is based.

12

Recent Accounting Pronouncements. The Company does not believe that any recently issued, but not yet effective accounting standards will have a material effect on the Company's consolidated financial position, results of operations or cash flows.

RESULTS OF OPERATIONS

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

THREE MONTHS ENDED JANUARY 31, 2004 VERSUS THE THREE MONTHS ENDED
JANUARY 31, 2003

Net revenues for the three-month period ended January 31, 2004 increased approximately \$11.2 million or 84% from \$13.4 million in the comparable prior year period to \$24.6 million. This increase is due primarily to the higher unit volume related to Game Boy Advance hand-held titles in the 2004 period. In addition, the Company launched three new console titles in the 2004 quarter versus one in the prior year quarter; however, console game title volumes were down in the 2004 quarter from the prior year quarter.

Gross margin increased to \$7.5 million for the three-month period ended January 31, 2004 from \$5.3 million in the comparable 2003 period due mainly to increased sales volume. Gross profit as a percentage of net revenues decreased to 30% for the three months ended January 31, 2004 from 40% in the comparable 2003 period. This shift in gross profit as a percentage of net revenues is largely the result of the higher volume of "value priced" and "catalogue" hand-held titles sold in the 2004 period which are sold at considerably lower prices than the frontline console games that were initially released during the prior year quarter. We expect that gross margins will continue at the current level until the fourth quarter when we expect to release new frontline products.

Product research and development costs decreased approximately \$135,000, or 19%, to \$ 574,000 from \$709,000 in the comparable 2003 period, principally due to employee attrition.

Selling and marketing expenses primarily include fulfillment and shipping expenses, advertising and other promotional expenses as well as related personnel costs. During the three months ended January 31, 2004, selling and marketing expenses decreased approximately \$410,000, or 12.8%, to \$2.8 million from \$3.2 million in the comparable 2003 period. The favorable variance is the result of lower advertising and promotion expenditures partially offset by higher variable costs (fulfillment and shipping) associated with higher sales volumes. The selling and marketing expenses decreased as a percentage of net revenues to 11.4% for the three months ended January 31, 2004 from 23.9% in the comparable 2003 period.

General and administrative expenses primarily represent personnel, including corporate executive and support staff, facilities and general office costs, professional fees and various other overhead charges. These expenses for the three-month period ended January 31, 2004 and 2003 remained relatively unchanged at \$1 million, exclusive of a \$577,000 charge for bad debts in the January 2004 quarter as a result of the Kay-Bee Toys bankruptcy. Total general and administrative expenses as a percentage of net revenues decreased to 7% for the three months ended January 31, 2004 from 8% in the comparable 2003 period due largely to the impact of higher sales generated in the current quarter.

Depreciation and amortization of \$90,000 for the three-month period ended January 31, 2004 remained relatively constant as compared to the 2003 period.

An unrealized loss of \$315,000 relating to a foreign exchange contract (See Note 6 to audited consolidated financial statements) was recorded in the three month period ended January 31, 2004. There was no corresponding gain or loss in the same period last year.

Merger costs of \$342,000 incurred by Majesco in the three months ended January 31, 2004, principally consist of professional fees and are nonrecurring.

Interest expense and financing costs increased approximately \$171,000 to \$635,000 for the three months ended January 31, 2004 from \$464,000 in the

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

comparable 2003 period as a result of increased volumes subject to purchase order financing.

The provision for income taxes in the 2004 period was completely offset by the benefit of deducting timing differences arising from the prior year. In the prior year period the Company was an S Corporation and as a result the Company was not responsible for its income taxes.

The significant increase in sales, coupled with the management of expenses as described above, resulted in

13

net income of \$1.1 million for the three months ended January 31, 2004 as compared to a net loss of \$197,000 in the comparable prior year period.

YEAR ENDED OCTOBER 31, 2003 COMPARED TO YEAR ENDED OCTOBER 31, 2002

Net revenues for the year ended October 31, 2003 decreased approximately \$3.1 million or 6.2% from \$49.7 million to \$46.6 million. The decrease in net revenues in 2003 reflects the decrease in new releases from 19 in the prior year including our franchise title BloodRayne, to seven in 2003.

Gross profit decreased 10.6% to \$15.8 million for the year ended October 31, 2003 from \$17.7 million in the comparable 2002 period due to the decrease in sales volume coupled with an increase in the percentage of sales related to the catalogue and value priced products. Gross profit as a percentage of net revenues decreased from 36% in the year ended October 31, 2002 to 34% in the comparable 2003 period as a result of higher product costs attributable to the higher mix of catalogue and value priced games.

Product research and development costs decreased approximately \$333,000, or 11.5%, to \$2.5 million from \$2.9 million in the comparable 2002 period due to lower employee related costs.

Selling and marketing expenses primarily include fulfillment and shipping expenses, advertising and other promotional expenses as well as related personnel costs. For the year ended October 31, 2003, selling and marketing expenses increased 25.5%, or approximately \$2.0, to \$10.2 million from \$8.2 million in the comparable 2002 period. The primary cause of the increase in promotion expenses is related to the media support we provided during the 2002 holiday season (first quarter 2003) for the retail release of BloodRayne. Additionally, a portion of the increase in these costs is attributed to the U.K. office that was in operation for a full year in the 2003 period compared to a partial year in the 2002 period. Selling and marketing expenses increased as a percentage of net revenues to 21.9% for the year ended October 31, 2003 from 16.4% in the comparable 2002 period.

General and administrative expenses primarily represent personnel, including corporate executive and support staff, facilities and general office costs, professional fees and various other overhead charges. These expenses for the year ended October 31, 2003 decreased approximately \$1.9 million, or 39.7%, to \$2.8 million from \$4.7 million in the comparable 2002 period. The 2002 period included approximately \$1.3 million of professional fees including costs related to the litigation settled in 2003 and \$683,000 for salary and associated expenses including severance for a former executive officer. Total general and administrative expenses as a percentage of net revenues decreased to 6% for the year ended October 31, 2003 from 10% in the comparable 2002 period due to the decrease in expenses partially offset by the impact of lower sales generated in the current year.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

Depreciation and amortization for the year ended October 31, 2003 and the year ended October 31, 2002 remained relatively constant.

Litigation and settlement costs of \$4.9 million for the year ended October 31, 2003 relate primarily to the Atari settlement. See Note 8 to the audited consolidated financial statements.

Loss on impairment of software development costs of \$3.7 million for the year ended October 31, 2003 represents amounts deemed unrecoverable from current or future sales.

Interest expense and financing costs remained relatively constant in both the years ended October 31, 2003 and October 31, 2002.

The net loss for the year ended October 31, 2003 increased \$10.1 million to \$10.8 million as a result of the items discussed above.

YEAR ENDED OCTOBER 31, 2002 COMPARED TO YEAR ENDED OCTOBER 31, 2001

Net revenues for the year ended October 31, 2002 decreased approximately \$10.9 million, or 18%, from \$60.6 million to \$49.7 million. Although we were able to release 19 new titles including our franchise title BloodRayne in the 2002 period, an increase of six titles from the prior period, both the total quantity shipped and the average selling price declined in the 2002 period. Our entry into frontline product sales also required increased provisions for sales allowances to promote sell-through at the retail level, which is estimated and recorded as a reduction of net revenues at the time we record our sales.

14

Gross profit decreased 10.0% to \$17.7 million for the year ended October 31, 2002 from \$19.6 million in the comparable 2001 period due primarily to the decrease in sales volume and the increase in the provision for sales allowances. Gross profit as a percentage of net revenues increased to 36% in the year ended October 31, 2002 from 32% in the comparable 2001 period as a result of higher margins related to frontline sales of our franchise title BloodRayne.

Product research and development costs decreased approximately \$397,000, or 12.0%, to \$2.9 million from \$3.3 million in the comparable 2001 period due to lower employee related costs.

Selling and marketing expenses primarily include fulfillment and shipping expenses, advertising and other promotional expenses as well as related personnel costs. For the year ended October 31, 2002, selling and marketing expenses increased 17.5%, or approximately \$1.2, to \$8.2 million from \$6.9 million in the comparable 2001 period. The unfavorable variance is primarily the result of staff additions in the marketing department, which was expanded to promote our expanded product line of proprietary and licensed games. Selling and marketing expenses increased as a percentage of net revenues to 16.4% for the year ended October 31, 2002 from 11.5% in the comparable 2001 period.

General and administrative expenses primarily represent personnel, including corporate executive and support staff, facilities and general office costs, professional fees and various other overhead charges. These expenses for the year ended October 31, 2002 increased approximately \$1.1 million, or 29.7%, to \$4.7 million from \$3.6 million in the comparable 2001 period. The unfavorable variance is due to the build-up of an infrastructure to enable us to transition into a frontline publisher. Total general and administrative expenses as a percentage of net revenues increased to 10% for the year ended October 31, 2002 from 6% in the comparable 2001 period due to the increase in expenses and the

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

impact of lower sales in the current year.

Depreciation and amortization for the year ended October 31, 2002 and the year ended October 31, 2001 was \$400,000 and \$200,000, respectively, reflecting the increased investment in equipment to support both research and development and the administrative support staffs.

Other expenses in the 2002 period of \$201,000 related to an abandoned equity offering and for 2001 includes \$1.5 million for severance to former key employees of and the write-off of an uncollectible affiliate debt of \$1.2 million.

Interest expense and financing costs were \$2.1 million for the year ended October 31, 2002 and \$2.7 million for the year ended October 31, 2001. This decrease reflects a lower level of indebtedness in 2002.

The net loss of \$751,000 in the year ended October 31, 2002 versus income of \$107,000 for the prior year period is principally attributable to the lower net revenues and the build-up of the infrastructure necessary to transition to a frontline publisher.

LIQUIDITY AND CAPITAL RESOURCES

On February 26, 2004, we completed a private placement of securities in which we raised approximately \$25.8 million in gross proceeds from a group of institutional and accredited investors. The private placement resulted in net proceeds to us of approximately \$22 million after deducting the fees and other expenses related to the financing. In connection with the private placement, the holders of our Series A convertible preferred stock surrendered an aggregate of 352,112 shares of their Series A convertible preferred stock, which surrendered shares were convertible into approximately 25,000,000 shares of common stock.

We used \$3.3 million of the net proceeds to pay certain creditors, including \$2.5 million for a previously negotiated settlement amount to Atari Interactive, Inc. and approximately \$2.5 million to repay portions of loans previously made to us by two of our executive officers. In order to satisfy the remaining balance of the loans previously provided by the two executive officers, we agreed to issue to them, in the aggregate, 100 units, consisting of 100 shares of our 7% convertible preferred stock (initially convertible into 1,000,000 shares of our common stock) and warrants to purchase 1,000,000 shares of our common stock. We will use the remaining balance of the proceeds for working capital purposes including acquisition of intellectual property rights and prepayment of development costs.

In accordance with EITF 00-19, "Accounting for Derivative Financial Instruments Indexed To, and Potentially Settled in, a Company's Own Stock", we will initially account for the fair value of the warrants issued in the private

15

placement as a liability until a registration statement for the underlying shares of common stock to be issued upon the conversion of the preferred stock and the exercise of the warrants is declared effective. As of the closing date of the private placement the fair value of the warrants was approximately \$21 million calculated utilizing the Black-Scholes option pricing model. In addition, changes in the market value of our common stock from the closing date through the effective date of the registration statement will result in non-cash charges or credits to operations to reflect the change in fair value of the warrants during this period. At the effective date of the registration statement, the fair value of the warrants will be reclassified to equity and, accordingly, the net effect of the application of the EITF would not be expected to have a

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

material impact on our financial position and our business.

Although there can be no assurance, management believes that there are sufficient capital resources from operations, including our factoring and purchase order arrangements, and as a result of the proceeds received in our private placement, to finance our operational requirements through October 31, 2004, including the funding of development, production, marketing and the sale of new products, the purchases of equipment, and the acquisition of intellectual property rights for future products. If we incur operating losses, or if unforeseen events occur that would require additional funding, we may need to raise additional capital or incur debt to fund our operations. We would expect to seek such capital through sales of additional equity or debt securities and/or loans from banks, but there can be no assurance that such funds will be available to us on acceptable terms, if at all. Failure to obtain such financing or obtaining it on terms not favorable to us could have a material adverse effect on future operating prospects and continued growth.

Cash Flows

Cash was \$434,000 at January 31, 2004 compared to \$314,000 and \$692,000 at October 31, 2003 and 2002, respectively. The Company had a working capital deficit of \$8.8 million compared to \$10.9 million and \$2.7 million at October 31, 2003 and 2002, respectively.

During the three months ended January 31, 2004, \$1.9 million was provided by operating activities generated primarily by \$1.1 million of net income during the period, the reduction of due from factor of \$301,000 and inventories of \$9.1 million and an increase in accounts payable and accrued expenses of \$2.7 million, partially offset by an increase in prepaid software development and license fees of \$1.4 million and a decrease in advances from customers of \$9.9 million. During the year ended October 31, 2003, \$2.8 million was used by operating activities generated primarily by the net loss of \$10.8 incurred in the period, the increase in inventory of \$8.2 million and the increase in capitalized software development costs of \$2.3 million, partially offset by the decrease in advances from customers of \$7.5 million, the non-cash portion of the settlement obligation of \$4.9 million, the non-cash loss on impairment of development and other assets of \$3.7 million and other changes in working capital. During the year ended October 31, 2002, \$600,000 was provided by operating activities generated primarily by the net loss of \$700,000 incurred in the period, the increase in due from factor of \$1.7 million, increases in capitalized software development costs and prepaid expenses of \$2.9 million and \$1.0 million, respectively, partially offset by decreases in inventory of \$4.9 million and other changes in working capital.

Cash used in investing activities during the three months ended January 31, 2004 and for the years ended October 31, 2003 and 2002 was related to capital expenditures of \$22,000, \$152,000 and \$297,000, respectively.

During the three-month period ended January 31, 2004, \$1.7 million was used by financing activities primarily as a result of \$2.4 million in finance company repayments, \$300,000 in repayments to officers and shareholders, partially offset by \$1 million received related to a loan from a related party. During the year ended October 31, 2003, \$2.7 million was provided by financing activities primarily as a result of \$2.6 million in finance company proceeds and a loan from shareholders of \$2.3 million, partially offset by the repayment of a bank loan of \$2.3 million. During the year ended October 31, 2002, \$284,000 was used in financing activities primarily as a result of \$183,000 in finance company proceeds and a loan from stockholders of \$36,000, partially offset by the capital lease payments of \$38,000 and a distribution to stockholders of \$374,000.

We expect continued volatility in the use of cash due to seasonality of the

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

business, receivable payment cycles and quarterly working capital needs to finance our publishing businesses and growth objectives.

16

We do not currently have any material commitments with respect to any capital expenditures, except as of January 31, 2004, we are committed under our agreements with certain developers for milestone payments and for acquisition of intellectual property rights aggregating \$ 4.3 million through October 31, 2004.

At January 31, 2004, we had open letters of credit aggregating \$1.4 million under our purchase order assignment arrangement for inventory to be delivered during the subsequent quarter.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to various market risks, including the changes in foreign currency exchange rates and interest rates. Market risk is the potential loss arising from changes in market rates and prices. Foreign exchange contracts used to hedge foreign currency exposure are subject to market risk. We do not enter into derivatives or other financial instruments for trading or speculative purposes.

DESCRIPTION OF BUSINESS

OUR HISTORY

The Company was originally organized in the State of Delaware on May 8, 1998 as SMD Group, Inc. In January 1999, the name was changed to CDBeat.com, Inc. As CDBeat.com, Inc., the Company's primary business was providing B2B online marketing services geared toward the entertainment industry. Following the Company's business combination with Cakewalk LLC, an independent record company, in November 1999, the name was again changed to Spinrocket.com, Inc. On September 11, 2000, we changed our name to ConnectivCorp, and prior to the Merger, as defined below, ConnectivCorp had ceased active operations and was exploring various business opportunities. Effective upon the filing of an amendment to our certificate of incorporation, which occurred on April 13, 2004, we changed our name to "Majesco Holdings Inc." to better reflect our current operating business.

THE MERGER

On December 5, 2003, we consummated a merger with MSI, a New Jersey corporation, whereby CTTV Merger Corp., our wholly-owned subsidiary, merged with and into MSI and we exchanged 15,325,000 shares of common stock and 925,000 shares of Series A convertible preferred stock for all of the issued and outstanding common stock of MSI (the "Merger"). The 925,000 shares of Series A convertible preferred stock that were issued in the Merger are convertible into 65,675,000 shares of common stock. As a result of the Merger, MSI became our wholly-owned subsidiary and our sole operating business. Subsequently and in connection with the private placement, certain holders of the Series A convertible preferred stock surrendered for cancellation 352,112 shares of Series A convertible preferred stock that were convertible into approximately 25,000,000 million shares of common stock. On April 23, 2004, the holders of all of the outstanding Series A convertible preferred stock converted such shares into 40,675,048 shares of our Common Stock.

SUMMARY OF OUR CURRENT OPERATIONS

Majesco Sales Inc., or MSI, is a developer, publisher and marketer of

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

interactive entertainment software. MSI has released titles for all major videogame platforms and handhelds, including Sony's PlayStation and PlayStation(R) 2, Nintendo's N64, SNES, Game Boy(TM), Game Boy(TM) Color, Game Boy(TM) Advance and GameCube(TM), Microsoft's Xbox(TM), Sega's Dreamcast, Genesis and Game Gear, and the personal computer ("PC"). Additionally, MSI is a manufacturer of a number of accessories licensed by Nintendo.

One of MSI's strengths is its distribution and sales channels. MSI products are sold at major U.S. retail chains including Wal-Mart, Target, Toys "R" Us, Electronics Boutique, Gamestop, Best Buy and other national and regional retailers. Additionally, Majesco has contractual relationships with game rental outlets such as Blockbuster, Hollywood Video and RenTrak.

MSI has developed a well-balanced portfolio of software ranging from its new line of Game Boy(TM) Advance Videos to high profile proprietary and licensed properties to value-priced games. This product strategy broadens our potential target demographic, allows us to profit from different sectors of the market and mitigates our overall risk.

17

MSI has developed a proprietary compression technology that will enable gamers to view color video and stereo audio on a standard Nintendo Game Boy(TM) Advance System. Nintendo has granted the Company a license to use our technology for the Game Boy Advance in the North American and European markets, which have an installed base of 20 million and 10 million Game Boy Advance owners respectively. The proprietary technology enables consumers to view up to 45 minutes of video on a Game Boy(TM) Advance using a standard GBA cartridge. We expect to have the capability to release cartridges that can contain up to 90 minutes of video, including feature length content, by the end of the year. No other hardware peripheral will be required and all the user will need to do is insert a regular GBA cartridge into the Game Boy(TM) Advance in order to turn it into a personal video player. Licensing agreements have been signed with Nickelodeon (SpongeBob SquarePants, Fairly OddParents, others), 4Kids Entertainment (Yu-Gi-Oh!, Sonic X, others), Carton Network (Code Name: Kids Next Door, PowerPuff Girls, others), DIC Entertainment (Strawberry Shortcake) and we are negotiating for other content. We have implemented a large-scale public relations effort that has resulted in positive editorial coverage in such mass-market publications as Newsweek, TV Guide and the NY Times. In addition, Nintendo is developing a large market campaign to support this new use for the GBA that will include TV, print, online and in-store tactics. The product was launched at retail in May 2004. Additionally, MSI will be the North American manufacturer and distributor of the officially licensed Game Boy Advance SP Neckband Style Headphones that will launch in conjunction with our line-up of Game Boy Advance Video products.

An example of our proprietary videogames includes the BloodRayne title. Launched in October 2002, the title has generated major consumer interest and worldwide retail sales of more than 600,000 units. In addition, we have sold the movie rights associated with the BloodRayne title to Brightlight Pictures (Alone in the Dark, House of the Dead), entered into a strategy guide deal with Prima Publishing, and licensed custom controller rights. In addition, a picture of BloodRayne, which is also the name of the main character featured in the game, recently graced the cover of Play magazine's special "Girls of Gaming" issue (November 2003). We are also in discussions to develop an animated series featuring the BloodRayne character, as well as collectible action figures, a series of novels, comic books, jewelry, and logo-bearing merchandise based on the character. BloodRayne 2 is currently in development and expected to be released in October 2004.

A new proprietary videogame, also scheduled for release in October 2004, is

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

Advent Rising, an epic science-fiction action game with dialogue written by Hugo and Nebula award winning novelist, Orson Scott Card. The title has already been selected as one of the Top Games of 2004 by Official Xbox(TM) Magazine and garnered over 30 pages of print editorial (exposing it to well over three million videogame enthusiasts) and numerous online plaudits.

MSI is one of the leading publishers of software for the Nintendo Game Boy(TM) Advance (GBA) and has established itself as one of the primary suppliers of value-priced Game Boy Advance software to mass-market retailers. Additionally, MSI was the first company to publish a Sony PlayStation 2 title at a \$9.99 price point.

Although we began our business primarily as a seller of overstock or republished "value" videogames, we have shifted our focus and product mix increasingly toward proprietary multi-platform video games and related products.

Another element in our growth strategy is to expand abroad. We believe that many of our competitors generate 30-35% of their revenues from sales abroad. Our overseas sales accounted for approximately 7% of our revenues in fiscal 2003. In 2001, we established Majesco Europe Limited, a wholly owned subsidiary based in England, designed to help grow our overseas revenues.

BUSINESS EVOLUTION

Founded in 1986 as a specialty distributor, MSI initially focused on acquiring and placing videogame overstock on behalf of the major worldwide publishing companies. MSI was able to secure slow-moving or surplus inventory from publishers at highly competitive prices, then place the stock with major retailers at price points below normal retail prices.

During the early 1990s, MSI increasingly focused on republishing videogames that had ceased production. MSI was then able to contact the publishers and guarantee a minimum royalty to republish the game. Upon re-issuing a discontinued game title, MSI would reduce the game to a value price, often selling a game for as much as 50% below its original wholesale price. We believe MSI's strength in the value software sector was enhanced by the growing acceptance of entertainment software by the largest retailers in the U.S. as a mass consumer market opportunity. By 1993, MSI was supplying substantial unit volumes to such major retailers as Wal-Mart, K-Mart, Toys "R" Us and Target. In many instances, MSI acted as a consolidator for software companies that did not have

18

sufficient volume or title count to effectively distribute themselves.

In 1997, MSI became an authorized manufacturer, publisher and distributor of videogame hardware and software. Specifically, MSI acquired exclusive rights to republish software for the SNES, Sega Genesis and the PICO Video Game System. In addition, MSI acquired the exclusive rights from Sega to remanufacture the Genesis game system and the Game Gear handheld system.

As a result of and following these developments, MSI began to evolve into a fully integrated development, publishing and distribution business. Three primary factors drove this business evolution:

1. Becoming a frontline publisher offered an opportunity for rapid growth, increased profitability, brand recognition and creating value.
2. The changing format of storage medium from cartridge to CD for next generation videogames represented a significantly larger market as

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

well as a decreased risk due to lower cost of goods and faster manufacturing capability.

3. The availability of overstocked goods principally fluctuates with the cyclical introductions of new hardware and software. By developing our frontline publishing capabilities, we believed we could take advantage of both sides of the business, thereby creating a more balanced product mix.

In 1998, MSI created an in-house development studio. As a first project, the studio focused on acquiring licenses of proven game titles from older console or PC formats and converting them onto a variety of game platforms (a process known as "porting"). MSI's first internally developed title, Tom Clancy's Rainbow Six for the Dreamcast system (originally a PC game), garnered widespread acclaim after its May 2000 launch and sold more than 200,000 copies in its first four months. Another internally developed title based on a PC game, Soldier of Fortune, has sold over 200,000 units.

As part of MSI's evolution from a specialty distributor to a publisher, MSI enhanced its internal capabilities and systems and diversified its business across several fronts:

- o Revenue Mix - In fiscal 2003, new releases and catalog accounted for 84% of net revenues versus 16% in 1999.
- o Product Mix - Since the beginning of our transition in 1999 through October 31, 2003, MSI has published 61 different SKU's ranging from multi-million dollar, multi-platform titles to licensed properties to value priced software.
- o Platforms - MSI produced games across five different platforms in 2003, up from three platforms in 1999. MSI is also planning to produce games for Nintendo's new DS system (DS) expected to be introduced in time for the 2004 holiday season and Sony's new handheld system (PSP) that is expected to be released in 2005.
- o Personnel - In connection with its growth, MSI has added approximately 16 managerial members, with extensive industry backgrounds, to its product development, marketing, sales and executive teams.
- o Proprietary Intellectual Property (IP) - MSI has developed or acquired eight proprietary titles and has exclusive "right of first refusal" publishing rights to four other titles.
- o Customers - Over the last five years, MSI has diversified sales among its top retail accounts. MSI's top two customers comprised 78% of sales in 1999 whereas MSI's top six customers comprise that same percentage of sales in 2003.

INDUSTRY OPPORTUNITY

We believe the videogame industry is transitioning from a traditionally niche market into a more broad-based form of entertainment. It has been one of the few growing sub-sectors of the technology industry during the past three years. According to the NPD Group, the market for videogame hardware and software in North America was \$10.6 billion in 2003, surpassing movie box office receipts of \$9.8 billion and movie rentals of \$8.4 billion.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

billion in 2003 and projected system sales increasing by 6.9% in 2004.

We believe the rapid growth of the video game industry is explained by the fact that gamers are older and have more disposable income. They have "grown up" with games and identify with and readily accept interactive entertainment and its ever-changing nature. According to the Entertainment Software Association ("ESA"), 64% of all Americans play video games and approximately 92% of people who purchase computer and videogames are 18 years or older with an average age of 29. The first generation of gamers that played as children are having children of their own and introducing gaming as a form of family recreation. We believe the potential audience for videogames has not reached the same state of maturity as other forms of entertainment and has more room for growth.

Presently, according to the ESA, the current domestic software market opportunity is more than \$7 billion, while the worldwide market is over \$20 billion. U.S. publishers typically sell games within the United States and Europe. Domestically, we believe the opportunity for existing companies is large. While the top five publishers own 52% of the marketplace (on a revenue basis), the remaining publishers own less than 6% of the market each. Only two companies have more than a 10% share of such market.

INDUSTRY OVERVIEW

The interactive entertainment industry is comprised of game hardware manufacturers and videogame software publishers. Videogame software is played on game hardware platforms, including home game consoles that connect to a television set, self-contained handheld platforms and personal computers.

HARDWARE

Historically, a new generation of more powerful game consoles is introduced to the market every four to five years. With each new generation of hardware, or cycle, the customer base for videogame software expands. This is because gaming enthusiasts mature and advances in video game hardware and software technology engage new participants, generating greater numbers of console units purchased than the prior cycle. The beginning of each cycle is largely dominated by console sales as consumers upgrade to the next-generation technology. As the cycle matures, consumers' focus shifts to software, resulting in a period of rapid growth for the videogame software industry. The end of each cycle sees the "older" hardware systems and respective software move to more value pricing levels.

The industry completed a transition from 32-bit and 64-bit home game consoles to the new, more powerful generation of game consoles, with the release of Sony's PlayStation(R) 2 in 2000 and the release of the Nintendo GameCube(TM) and Microsoft Xbox(TM) in 2001. Similarly, the 32-bit Game Boy(TM) Advance, introduced in 2001, has succeeded the 8-bit Game Boy(TM) Color handheld platform.

For consoles, PlayStation(R) 2's early introduction helped establish it as the leading hardware platform, with an installed base in North America of 22.3 million households in 2003, compared to 6.9 million and 7.8 million households for GameCube(TM) and Xbox(TM), respectively, according to International Data Group and the NPD Group. For handhelds, currently Nintendo is the major player with a worldwide installed base of 40.3 million Game Boy(TM) Advance units and is planning to launch a new handheld system, the DS, before the end of 2004. Sony, however, recently announced their handheld entry, the PSP, that is expected to launch in the first quarter of 2005.

SOFTWARE

Videogame software is created by the platform manufacturers (first parties)

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

and by many independent publishers/developers (third parties). Platform manufacturers license publishers to publish games for their platforms and retain a significant degree of control over the content, quality and manufacturing of these games. They also receive a royalty for every piece of software manufactured for their console. The publishers/developers, subject to the approval of the platform manufacturers, determine the types of games they will create, and either create them in-house, with their own development teams, or outsource the development to an independent company.

Advances in microprocessors, graphics chips, hard-drive capacity, operating systems and memory capacity have greatly enhanced the ability of the PC to serve as a videogame platform. These technological advances have enabled developers to introduce videogames for PCs with enhanced game play technology and superior graphics. Although

20

this market is not growing as quickly as the console and handheld markets, the fact that publishers are not required to pay hardware royalties and high manufacturing costs makes this an attractive market for videogame publishers.

Software for game platforms is sold generally by mass merchandise retailers such as Wal-Mart, Toys "R" Us, Best Buy and Target, or by regional retailers, discount store chains, video rental retailers, software specialty retailers and entertainment software distributors. Software publishers either distribute their products directly to these retailers and/or sell them through national distributors.

There are many participants in the videogame value chain - hardware manufacturers, licensed content providers, developers, publishers, distributors and retailers - each contributing to the creation and sale of a videogame. The amount of compensation each of these participants receives varies greatly from game to game in determining the cost of goods sold for these games. The gross margin earned on a particular game by a publisher is thus a direct function of which of these players are involved, their degree of involvement and the compensation they require. For instance, producing a blockbuster movie licensed title for multiple platforms is a different business model than producing a value-priced Game Boy Advance title. Although many variables affect the outcome of the profitability of a game, we believe the most important are: (1) game platform, (2) content source, (3) level of marketing and (4) cost of development.

GROWTH STRATEGY

Management is focused upon building MSI's position as a leading interactive entertainment software publisher. To achieve this goal, we will seek to execute the following strategies:

- o INCREASE OUR COMMITMENT TO DEVELOPING AND MARKETING ORIGINAL, MULTI-PLATFORM GAME TITLES, BASED ON CONTROLLED OR OWNED INTELLECTUAL PROPERTY.

We will attempt to focus our game developing and publishing activities principally on products that are, or have the potential to become, franchise properties. These products can serve as the basis for sequels, prequels and related new products in different mediums (such as television, movies, books and comic books and related themed merchandise such as toys, clothing and other items), which can be released over an extended period of time. MSI focuses equal efforts and resources on creating its own brands (IP's) as well as actively pursuing properties to be licensed that have strong sales potential.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

- o PURSUE TECHNOLOGY AND ACCESSORY OPPORTUNITIES WITH HIGH POTENTIAL RETURN.

We endeavor to leverage our experience in, and knowledge of, the console and handheld businesses, to create non-"game" products targeted to the existing installed base of videogame consumers. For example, as a result of our experience with developing products for the Game Boy(TM) Advance, we have developed a proprietary compression technology that enables gamers to view up to 90 minutes of color video and stereo audio on a standard Nintendo Game Boy(TM) Advance System, thereby giving it added functionality as a portable video player. Additionally, we intend to create a line of accessories for the Game Boy(TM) Advance including headphones, a wireless link and wireless instant messaging and non-traditional accessories that will give the unit functionality as a microscope/telescope, a GPS device or a portable videophone walkie-talkie. We have filed patent applications with respect to aspects of the compression technology for the Game Boy(TM) Advance and plan to do so for other accessory devices.

- o FOCUS EFFORTS ON PUBLISHING A DIVERSIFIED MIX OF TITLES FOR THE MOST COMMERCIALY VIABLE GAME PLATFORMS, GENRES AND PRICE POINTS.

We intend to concentrate our efforts on publishing a diverse mix of product offerings because it broadens our demographic market appeal, allows us to profit from different sectors of the market and mitigates our overall risk. We plan to develop and publish products across the most popular genres of games and platforms and target audiences ranging from game enthusiasts to mass-market consumers and "value priced" buyers. Currently, we develop, publish and distribute products for Sony's PlayStation(R) 2, Microsoft's Xbox(TM), and Nintendo's GameCube(TM) console systems and Nintendo's Game Boy(TM) Advance hand held device and PCs. We strive to offer our products on multiple platforms in order to leverage our costs of development, increasing potential unit sales and profitability. We take a number of factors into consideration when determining the appropriate platform, genre and price of our products including platform user demographics, the potential growth of the installed base of each platform, consumer trends and the competitive landscape at the time of a product's release.

21

- o SEEK OPPORTUNITIES TO SUPPORT, WHEN PROFITABLE, MATURE GAMING PLATFORMS, OVERSTOCK AND REPUBLISHED PRODUCTS AT A VALUE PRICE POINT.

We will continue to actively pursue opportunities to acquire or create products that appeal to the value segment of the market, an area of past success for us. We are one of the leading providers of \$14.99 Game Boy Advance software and we believe we are well known in the industry for providing large quantities of overstock at appealing prices. To this end, we frequently have discussions with other leading third party publishers regarding republishing and overstock opportunities as we seek to add to our value priced title selections.

- o EXPAND INTERNATIONAL PRESENCE BY MOVING TO A DIRECT PUBLISHING MODEL IN EUROPE AND DEVELOPING LICENSING/DISTRIBUTION AGREEMENTS IN OTHER TERRITORIES.

International markets represent a significant growth opportunity for us. Currently, our products are published in Europe through licensing arrangements with established European publishers. We intend eventually to become a leading interactive software publisher in Europe in order to achieve greater profitability, gain full brand exposure to consumers and

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

more control of the marketing process. To that end, we have established Majesco Europe Limited, a wholly owned subsidiary based in England.

o GROW THROUGH STRATEGIC ACQUISITIONS AND RELATIONSHIPS.

We believe acquisitions of companies with strong development talent, proprietary technologies or compelling intellectual properties will be a critical component in achieving the necessary scale and resources to be a leader in the industry. We intend to leverage strategic acquisitions and relationships to augment our internal development capacity and technical expertise, as well as to enhance our library of intellectual properties, brands and titles. We are also actively pursuing long-term strategic relationships with entertainment companies to secure license agreements and/or co-publishing opportunities.

PRODUCT DEVELOPMENT

Videogame Development

We develop videogames for console and handheld gaming platforms and PCs. We seek to develop videogames that are enjoyable, captivating and encourage repeated play. We take a cautious, but opportunistic "quality vs. quantity" approach to building our product line and seek to publish games for genres, price points and hardware platforms that have strong sales potential and nominal risk.

Before publishing a game, the title must pass through our "greenlight" process, which consists of extensive market research, studio due diligence and a thorough profit and loss analysis. As a final requirement before being accepted for publication, the title must be approved by the "greenlight" committee (comprised of members from our executive, product development, sales and marketing teams). Once a title is accepted, it is evaluated at regular milestones to make sure it is progressing on time, according to specifications and on budget. All members of the "greenlight" committee continue to be involved throughout the development process.

Independent third party developers create the majority of our next generation and original titles. However, we usually have broad rights to commercially exploit these products. We select third parties to develop videogames based on their capabilities, suitability, availability and cost. Contracts with developers are structured to give them incentives to provide timely and satisfactory performance of the development by associating payments with performance of substantive development milestones, and by providing for the payment of royalties to them based on sales of the product developed, only after we recoup the prepaid amounts.

We are currently working with some of the industry's leading developers, including Terminal Reality, Inc., HudsonSoft Co., Epic Games Inc. and GlyphX Games LLC. We are often sought out as a publishing partner and are presented with a number of projects and opportunities.

We are generally obligated to submit games to the platform manufacturers (first parties) for approval prior to publishing a game for their platforms. Additionally, prior to release, each product undergoes careful quality assurance testing, which involves technical review of each component of the final product and testing on the

applicable platforms. We believe we have developed excellent relationships with the platform manufacturers.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

We endeavor to comply with the rules established by a domestic ratings board voluntarily established by the videogame industry and some foreign countries' ratings boards, and we label our products with these ratings. We believe that ratings labels as to the violence contained in videogames will not have an adverse effect upon us so long as ratings are consistently applied throughout the industry.

In 1998, MSI founded an in-house development studio. As a first project, the studio focused on acquiring licenses of proven game titles from older console or PC formats and then converting them onto a variety of game platforms. MSI's first internally developed title, Tom Clancy's Rainbow Six for the Dreamcast system (originally a PC game), garnered widespread acclaim after its May 2000 launch and sold more than 200,000 copies in its first four months at retail. MSI is now capable of internally developing titles for the consoles/handheld platforms and the PC thanks to this and other experiences.

MSI's familiarity and working knowledge of the process and tools involved in game development have allowed it to accurately evaluate the work of its external game developers and provide assistance to such external developers in order to solve issues or expedite their development schedule.

Gameboy Advance Video

MSI is one of the leading publishers of software for the Nintendo Game Boy(TM) Advance. As a result of MSI's experience with developing games for this platform, MSI has developed a proprietary compression technology that will enable gamers to view color video and stereo audio on a standard Nintendo Game Boy(TM) Advance System. Nintendo has officially licensed this technology for the North American and European markets, which have an installed base of 20 million and 10 million Game Boy Advance owners respectively. The proprietary technology enables consumers to view up to 45 minutes of video on a Game Boy(TM) Advance using a standard GBA cartridge. We expect to have the capability to release cartridges that can contain up to 90 minutes of video, including feature length content, by the end of the year. No other hardware peripheral will be required and all the user will need to do is insert a regular GBA cartridge into the Game Boy(TM) Advance in order to turn it into a personal video player. Licensing agreements have been signed with both Nickelodeon (SpongeBob SquarePants, Fairly OddParents, others) and 4Kids Entertainment (Yu-Gi-Oh!, Sonic X, others) and we are negotiating for other content. We are planning a significant public relations and marketing campaign, with support from Nintendo, with a retail launch in Spring 2004.

Gameboy Advance Accessories

We also have launched two successful accessory products for the Nintendo Game Boy(TM) Advance, "Light Boy" and "Arm Light", which have been licensed by Nintendo, and will seek to continue making inroads in this category in the future. For example, we have received approval from Nintendo to create licensed headphones for the GBA SP and expect to ship them in conjunction with the launch of our Game Boy Advance Video line of products. Additionally, we intend to create a line of accessories for the Game Boy(TM) Advance, a wireless link and wireless instant messaging as well as non-traditional accessories that are expected to turn a Game Boy(TM) Advance into a microscope/telescope, a GPS device or a portable videophone walkie-talkie.

INTELLECTUAL PROPERTY

Platform Licenses

The major platform manufacturers require that publishers obtain a license from them to publish games for play on their platforms. The Company currently

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

has non-exclusive licenses from Nintendo (GBA, GBC and GameCube(TM)), Sony (PlayStation(R) and PlayStation(R) 2), Microsoft (Xbox(TM)) and Nokia (N-Gage(TM)). Each platform manufacturer requires that the software and a prototype of each title, together with all related artwork and documentation, be submitted for its pre-publication approval. This approval is generally discretionary.

Intellectual Property Licenses

While we develop original titles, the majority of our games are licensed from third party developers or based on trademarks and other rights and properties owned by third parties. Typically, we are obligated to make minimum guaranteed royalty payments over the term of these licenses and advance payment against these guarantees. License

23

agreements generally extend for a term of two to three years and are terminable under a variety of events. Some licenses are limited to specific territories or platforms.

We have secured the rights to exploit many major intellectual properties and proven game franchises from leading publishers and licensors. Our titles have included such recognizable names as Cartoon Network, Star Trek Voyager, Tom Clancy's Rainbow Six, Pitfall, Monopoly, Frogger, Castlevania, Pac-Man, Q-Bert, Disney's Hercules, Battlebots, King of the Cage and Tonka. Our management believes it has strong relationships with major licensors including Disney, Paramount, Time Warner, DC Comics, MTV and others.

Original Titles and Proprietary Intellectual Properties (IPs)

We own all intellectual property rights to Advent Rising, an epic science-fiction action game with dialogue written by Hugo and Nebula award winning novelist, Orson Scott Card. Although scheduled for release in September 2004, the title has already been selected as one of the Top Games of 2004 by Official Xbox(TM) Magazine and garnered over 30 pages of print editorial (exposing it to well over 3 million videogame enthusiasts) and numerous online plaudits. Advent Rising also has been placed on Microsoft's "watch list" of highly anticipated new releases.

Launched in October 2002, BloodRayne has generated major consumer interest and worldwide retail sell-in of more than 600,000 units. As a testament to the popularity of the franchise, we have sold the movie rights associated with the BloodRayne title to Brightlight Pictures (Alone in the Dark, House of the Dead), entered into a strategy guide deal with Prima Publishing, and licensed custom controller rights. In addition, a picture of BloodRayne, which is also the name of the main character featured in the game, recently graced the cover of Play magazine's special "Girls of Gaming" issue (November 2003). We are also in negotiations to develop BloodRayne into an animated series, collectible action figures, novels, comic books and jewelry. BloodRayne 2 is currently in development and expected to be released in October 2004.

Additional original titles Majesco owns intellectual property rights to are BlowOut, Iridion, Boy and his Blob, Fortress and Picassio.

We have filed patent applications with respect to aspects of the compression technology for the Game Boy(TM) Advance. There is no assurance that such applications will be approved or, if approved, provide significant protection.

MANUFACTURING

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

We prepare a set of master disks, documentation and packaging materials for our products for each respective hardware platform on which the product will be released. Disk duplication, packaging, printing, manufacturing, warehousing, assembly and shipping are performed by third parties in order to maintain protection over their hardware technologies, Sony and Nintendo generally specify or control the manufacturing and assembly of finished products. We deliver the master materials to the licensor or its approved replicator, which then manufactures finished goods and delivers them to us for distribution under our label. At the time our product unit orders are filled by the manufacturer, we become responsible for the costs of manufacturing, including their applicable per unit royalty on such units, even if the units do not ultimately sell.

Initial orders generally require seven to 40 days to manufacture depending on the platform. Reorders of disc-based products generally require only seven to 14 days to manufacture, while reorders of cartridge-based products require approximately 30 to 40 days to manufacture. Shipping of orders requires an additional three to ten days, depending on the mode of transport and location of the manufacturer. Only the Nintendo Game Boy(TM) Advance uses cartridges, while the new generation home consoles are all disc-based.

We participate in the electronic data interchange (EDI) program maintained by most of our large customers. We generally fill re-orders from inventory within two days. As a result, our videogames traditionally have no backlog of orders.

To date, we have not experienced any material difficulties or delays in the manufacture and assembly of our products or material returns due to product defects.

24

DOMESTIC SALES AND DISTRIBUTION

We believe we have effective distribution channels. We distribute our products domestically through both direct and indirect channels.

- o Direct - We believe our sales team has strong relationships with major retailers and communicates with them frequently. The sales team is led by Morris Sutton, our Chairman and the founder of Majesco, who manages our sales representatives and personally handles a number of key accounts.
- o Indirect - We currently utilize seven sales representative organizations located throughout the United States. The firms we use were chosen based on their performance and retailer relationships. On average, two sales representatives per organization are assigned to our account. It is customary for the sales representatives and distributors of our games who are assigned specific customers to also distribute games produced by other manufacturers. Distribution channels are dominated by a select group of companies, and a publisher's access to retail shelf space is a significant competitive factor.

Our principal customers are:

- o Mass merchandisers
- o National and regional retailers
- o Discount store chains
- o Video rental retailers
- o Entertainment software distributors and re-sellers

We believe we have enjoyed close relationships with key executives and buyers of a number of mass-market retailers including Wal-Mart, Target and Toys

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

"R" Us, as well as specialist retailers including Best Buy, Electronics Boutique and Game Stop. Over the last five years, MSI has diversified sales among our top retail accounts. MSI's top two customers comprised 78% of sales in 1999 whereas MSI's top six customers comprised the same percentage of sales in 2003.

MARKETING

Marketing programs principally support our premium priced publishing efforts. Our marketing objectives are to create strong brands and franchise properties, support sell-in to retail and drive sell-through to consumers. As each of our games has different features, benefits and target markets, we develop marketing programs for each title on an individual basis. The amount of support a title receives is directly related to its perceived "hit," or sales, potential. While all titles will be supported in some way, those with the most potential will have long lead (12 months or longer), multi-faceted, tactical marketing programs designed to generate enthusiasm and support long before being shipped to retail.

Specific consumer marketing strategies we may employ include TV, radio and/or print advertising, web site, online marketing, demo distribution, promotions (and cross-promotions with third parties) and point-of-purchase advertising. Additionally, central to a marketing campaign are customized public relations programs designed to create awareness with all relevant audiences, including core gamers and mass entertainment consumers.

To date, public relations efforts have resulted in continuing coverage for the company and individual titles in the all-important computer and video gaming publications, as well as major consumer newspapers, magazines and broadcast outlets, such as The New York Times, USA Today, Entertainment Weekly, Maxim, Playboy, Newsweek and CNN, among others. We also host media events throughout the year at which print, broadcast and online journalists can preview, review and demonstrate our products prior to their release.

In addition to regular face-to-face meetings and communication with our sales force, we employ extensive trade marketing efforts including direct marketing to buyers and store managers, trade shows (Electronic Entertainment Exposition, CES, Interactive Entertainment Merchant Association Show, the Licensing Show, etc.), premium distribution and sales incentive programs.

INTERNATIONAL OPPORTUNITY

We have historically focused our efforts and resources on established domestic markets. Over the last two years, we have expanded our international presence by establishing licensing and/or distribution agreements with leading international publishers. These established pan-European organizations fulfill all sales, marketing and distribution

25

needs for our multi-format product line-up in the European marketplace. We believe this strategy has enabled us to take a conservative approach to the international market, allowing us to develop our brands and build knowledge and relationships, while enjoying revenue-generating capabilities with limited risk. Similar licensing/distribution deals are being considered for other continents.

As part of this initiative, we have opened an office in the UK. Since its inception in 2001, Majesco Europe has been responsible for securing and managing commercial deals with THQ Inc., The Codemasters Software Company Limited and Vivendi Universal Games International and has to date generated retail revenue in excess of \$55 million. For additional information on MSI's relationship with Vivendi, please see "Risk Factor - MSI did not receive the consent of certain of

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

its distributors and licensors with respect to the recently completed merger."

- o Vivendi published BloodRayne, Black & Bruised and seven other titles throughout Europe and Asia.
- o THQ distributed 10 Game Boy Advance titles.
- o Codemasters published Star Trek Voyager and Soldier of Fortune.

The current European management infrastructure is responsible for converting all US products from the NTSC format to the European PAL format, localizing documentation, managing all European strategic and tactical marketing with our publishing partners and sourcing and acquiring new titles.

We seek to become a leading stand-alone interactive software publisher in Europe. Benefits of the direct publishing model include greater revenue opportunities, full brand exposure to consumers and greater control of the marketing process. To illustrate what we believe to be our international growth potential, we derived 7% of our revenue from international markets in 2003. On average, however, we believe most interactive entertainment publishers realize approximately 30% of their revenue from international distribution.

With an international charter, Majesco Europe focuses on critical markets such as England, France, Germany, Italy, Spain, Asia Pacific and the Benelux region.

COMPETITION

The interactive entertainment software industry is highly competitive. Furthermore, the industry is characterized by the continuous introduction of new titles and the development of new technologies.

Our ability to compete is based on our ability to:

- o Select and develop popular titles
- o Identify and obtain rights to commercially marketable intellectual properties
- o Adapt products for use with new technologies

Successful competition in our market is also based on:

- o Price
- o Access to retail shelf space
- o Product quality
- o Product enhancements
- o Brand recognition
- o Marketing support
- o Access to distribution channels

Our competitors vary in size from small companies with limited resources to large corporations with greater financial, marketing and product development resources. We compete with Nintendo, Microsoft and Sony, who publish software for their respective systems. We also compete with numerous other companies licensed by the platform manufacturers to develop software products for use with their respective systems. These competitors include Acclaim, Activision, Midway, Capcom, Eidos, Electronic Arts, Atari, Interplay Entertainment, Konami, Lucas Arts, Namco, Sega, Take-Two Interactive, THQ, and Ubi Soft, among others. We face additional competition from the entry of new companies into the market, including large diversified entertainment companies.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

LEGAL PROCEEDINGS

We are currently party to certain material, threatened and pending legal proceedings as briefly described below:

1. ATARI INTERACTIVE, INC. (FORMERLY KNOWN AS INFOGRAMES INTERACTIVE, INC.) In August 2003, the US District Court of Massachusetts in *Infogrames Interactive, Inc. v. Majesco Sales Inc.* entered judgment against MSI in the approximate amount of \$6.7 million pursuant to a breach of contract action. As previously disclosed in our public filings, we entered into a settlement agreement with Atari and as of May 11, 2004, had paid \$4.0 million pursuant to the terms of such settlement agreement. On May 11, 2004, Atari agreed to release us from the obligations (\$2.7 million and accrued interest) and restrictions contained in the settlement agreement and terminate such agreement in exchange for a one-time payment of \$1.5 million. The \$1.5 million was paid on May 21, 2004.

2. RAGE GAMES LIMITED V. MAJESCO SALES INC. On September 20, 2002, Rage Games Limited ("Rage") filed a complaint against MSI in the United States District Court for the District of New Jersey. MSI filed and served its Answer on or about November 6, 2002 (Rage Games Limited is currently in bankruptcy proceedings and is no longer doing business in the ordinary course).

All five counts in the complaint arise out of two License and Distribution Agreements between Rage and MSI. Count One alleges breach by MSI of the first of the two agreements; Count Two alleges breach of the second agreement. Count Three alleges claims based on an unjust enrichment theory. Count Four asserts a right to relief on the basis of promissory estoppel. Count Five asserts a claim on an anticipatory repudiation theory. Rage seeks approximately \$6 million in damages.

MSI asserts substantial defenses that the product was not fit for use. MSI's Answer included three counterclaims. The First and Second Counterclaim assert claims for damages arising out of Rage's breach of the first agreement, and the Third Counterclaim seeks damages for unjust enrichment in connection with the second agreement.

In accordance with the Magistrate's order the entire record, including cross motions for summary judgment, opposition papers, and replies were submitted to the court on March 29, 2004.

In the opinion of management and the advice of counsel, the Company has made adequate provision for potential liabilities, if any, arising from the above matters. However, the costs and other effects of pending or future litigation, governmental investigations, legal and administrative cases and proceedings (whether civil or criminal), settlements, judgments and investigations, claims and changes in those matters (including those matters described above), and developments or assertions by or against the Company relating to intellectual property rights and intellectual property licenses, could have a material adverse effect on the Company's business, financial condition and operating results.

3. NATIONAL ASSOCIATION OF SECURITIES DEALERS REVIEW. On December 17, 2003 we received a letter from the NASD's Market Regulation Department stating that the NASD was conducting a review of unusual trading activity in our common stock between the time of the signing of the letter of intent with respect to the Merger and the date that we announced that a letter of intent was signed. There also appears to be unusual trading activity around the time of the signing of the definitive agreement for the Merger and prior to the announcement of such signing.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

By letter dated April 22, 2004, the NASD indicated that it had concluded its review and thanked us for our cooperation in the review. The letter indicated that the NASD referred the matter to the SEC for action, if any, the SEC deems appropriate. The letter concluded that "This referral should not be construed as indicating that any violations of the federal securities laws or the NASD Conduct Rules have occurred, or as a reflection upon the merits of the security involved or upon any person who effected transactions in such security." If the Company is sanctioned or otherwise held liable for this trading any such sanctions could have a material adverse effect on the Company's reputation, listing, financial condition, results of operations and liquidity. In addition, it is possible that such matters may give rise to civil or criminal actions.

PROPERTIES

We lease 21,250 square feet of office, development and storage space located at 160 Raritan Center Parkway, Edison, NJ 08837. The lease, which costs approximately \$28,500 per month (plus taxes, insurance and operating costs), expires in July 2009.

We also lease 1,082 square feet of office space located at 39 Newhall Street, Birmingham, UK. This lease costs approximately \$3,600 per month and expires in September 2004.

EMPLOYEES

We have 69 full time employees. We have not experienced any work stoppages and consider our relations with our employees to be good. We currently do not have any formal written employment contracts with any of our employees.

27

MANAGEMENT

OUR BOARD OF DIRECTORS

Name	Age	Position
----	---	-----
Morris Sutton	65	Chairman of the Board
Jesse Sutton	34	Director, Chief Executive Officer and President
Joseph Sutton	32	Director, Executive Vice President of Research and Development
Louis Lipschitz	59	Director

MORRIS SUTTON / CHAIRMAN OF THE BOARD. Morris Sutton has been Chairman since December 5, 2003. Mr. Sutton has more than 40 years of business experience and most recently, was the founder of MSI, our sole operating company and wholly-owned subsidiary, and, prior to the merger, was MSI's Chief Executive Officer from 1986 to December 2003. Morris Sutton is the father of Jesse Sutton and Joseph Sutton. From 1998 to 2001, Mr. Sutton was the Chairman of Majesco Biologicals, Inc., a biotechnology development company, which ceased all operations in 2001 pursuant to an assignment for the benefit of creditors.

JESSE SUTTON / CHIEF EXECUTIVE OFFICER & PRESIDENT / MEMBER OF THE BOARD. Jesse Sutton has served as one of our directors since December 5, 2003. Mr. Sutton is currently our Chief Executive Officer and President and has served in

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

such capacity since December 2003. Mr. Sutton has been the President of our current wholly-owned subsidiary since 1997 and became its Chief Executive Officer in December 2003. Jesse Sutton is Morris Sutton's son and Joseph Sutton's brother. From 1998 to 2001, Mr. Sutton was the President of Majesco Biologicals, Inc., a biotechnology development company, which ceased all operations in 2001 pursuant to an assignment for the benefit of creditors.

JOSEPH SUTTON / EXECUTIVE VICE PRESIDENT OF RESEARCH AND DEVELOPMENT / MEMBER OF THE BOARD. Joseph Sutton has served as one of our directors since December 5, 2003. Mr. Sutton is currently our Executive Vice President of Research and Development and has served in such capacity since December 2003. From 1997 to October 2000 Mr. Sutton was a Vice-President of MSI; from October 2000 through September 2003 he was Vice President-Game Development of MSI and in December 2003 he became MSI's Executive Vice President of Research and Development. Joseph Sutton is Morris Sutton's son and Jesse Sutton's brother.

LOUIS LIPSCHITZ / MEMBER OF THE BOARD. Louis Lipschitz has served as one of our directors since April 20, 2004. From February 1, 1996 to March 2004, Mr. Lipschitz served as Executive Vice President and Chief Financial Officer of Toys "R" Us, Inc.

In conjunction with our recently completed private placement, we have an obligation to, by June 25, 2004 increase the size of our Board of Directors to a maximum of seven (7) directors. In addition, for so long as 51% of the 7% convertible preferred stock remains outstanding, based on the number of shares outstanding as of the final closing of our recently completed private placement, Harvest Opportunity Partners II, L.P., on behalf of the holders of the 7% convertible preferred stock, will have the right to nominate two members to our Board of Directors, on behalf of the holders of the 7% convertible preferred stock. Those two members must be "independent" within the meaning of the regulations promulgated by Nasdaq for companies quoted on the Nasdaq National Market or by the American Stock Exchange for companies traded on such exchange. Furthermore, the consent, which shall not be unreasonably withheld, of Harvest Opportunity Partners II, L.P. on behalf of the holders of the 7% convertible preferred stock will be required with respect to the appointment by us of two additional "independent" members of our Board of Directors. On April 20, 2004, Louis Lipschitz was appointed to the Board of Directors as one of the two additional "independent" members who were to be appointed by us.

Subject to applicable federal securities laws and the rules of the Nasdaq Stock Market with respect to board composition and corporate governance, the Board members elected by the holders of the 7% convertible preferred stock, shall serve on the Audit Committee and Compensation Committee of our Board of Directors and either director shall serve as the chairman of either or both committees.

COMMITTEES OF THE BOARD OF DIRECTORS

Our Board of Directors is currently seeking to appoint additional members that will be deemed "independent" and that may serve on an audit committee and a compensation committee. We currently do not have an audit committee or a compensation committee although we anticipate appointing new board members and establishing such committees in the near future.

28

DIRECTOR COMPENSATION

In connection with his appointment to our Board, on April 30, 2004, Louis Lipschitz was granted an option to purchase 100,000 shares of our Common Stock at an exercise price of \$3.63 per share, which option expires ten years from the

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

grant date. In addition, we pay Mr. Lipschitz \$15,000 annually for serving on our Board and a fee of \$1,000 for his in-person attendance, and a fee of \$500 for his telephone attendance, at Board committee meetings. Other than Mr. Lipschitz, we do not pay directors any cash compensation for serving as a director.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

We do not currently have a Compensation Committee of our Board of Directors. None of our directors or executive officers serve as a member of the Board of Directors or compensation committee of any entity that has one or more executive officers serving as a member of our Board of Directors. The Board of Directors as a whole made decisions relating to the compensation of our executive officers.

OUR EXECUTIVE OFFICERS

Our executive officers who are not directors are Jan E. Chason, our Chief Financial Officer and Joseph Tuchinsky, our Secretary, General Counsel and Senior Vice President of Business and Legal Affairs. None of our executive officers have written employment agreements with us and all serve at the pleasure of the Board of Directors. Certain biographical information with respect to the executive officers is set forth below.

JAN E. CHASON / CHIEF FINANCIAL OFFICER. Jan E. Chason has served as our Chief Financial Officer since December 2003, and prior to the merger, as Chief Financial Officer of MSI, our sole operating business and wholly-owned subsidiary, since January 2, 2003. Prior to joining MSI, Mr. Chason provided interim Chief Financial Officer services through JEC Consulting Associates from June 2001 through December 2002. From June 1996 through June 2001, he served on the executive team of SFX Broadcasting and SFX Entertainment as the Chief Financial Officer of the following entities: Triathlon Broadcasting Company, The Marquee Group, Inc., and Artist Group International. He later served as Corporate Vice President Finance of Entertainment for SFX Entertainment. After the acquisition of SFX Entertainment by Clear Channel Communications Inc., he served as the Chief Financial Officer of Clear Channel Entertainment's Marketing and Media Divisions. Mr. Chason was a partner at Ernst & Young LLP from October 1982 through September 1994. Mr. Chason is a Certified Public Accountant and has a Bachelor of Business Administration from City College of New York.

JOSEPH TUCHINSKY / GENERAL COUNSEL/SENIOR VICE PRESIDENT BUSINESS AND LEGAL AFFAIRS AND SECRETARY. Joseph Tuchinsky joined Majesco on October 1, 2003. In his role, he is responsible for managing all of our business and legal affairs including development contracts, licensing relationships, litigation, intellectual property rights and corporate governance. Prior to joining the Company, Mr. Tuchinsky served as the Director of Legal and Business Affairs for Atari, Inc. and its predecessor company from October 2001 through August 2003 and Legal Counsel to Atari predecessor companies from September 1998 through September 2001. His prior positions included General Counsel for Future Vision Holding, Inc. and Senior Attorney for Long Island Lighting Corporation. Mr. Tuchinsky has a Bachelor of Arts from Queens College and Juris Doctor from Syracuse University College of Law.

EXECUTIVE COMPENSATION

The following Summary Compensation Table sets forth summary information as to compensation received by our Chief Executive Officer and each of the four most highly compensated executive officers who were employed by us at the end of the fiscal year ended October 31, 2003, the most recent fiscal period for which information is available, for services rendered to us in all capacities during the three prior fiscal years ended October 31, 2003 and who earned in excess of \$100,000 for services rendered to us during the fiscal year ended October 31,

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

2003. Pursuant to the Merger, MSI became our wholly-owned subsidiary and our sole operating business. Therefore, any information set forth in the table relating to the time period prior to December 5, 2003, the closing date of the Merger, relates to the operations of MSI for the periods indicated prior to MSI becoming a wholly-owned subsidiary of a public company.

29

SUMMARY COMPENSATION TABLE

NAME AND PRINCIPAL POSITION	YEAR	ANNUAL COMPENSATION	
		SALARY	ALL OTHER COMPENSATION (1)
Jesse Sutton, President and Chief Executive Officer (2)	2003	350,000	17,000
	2002	340,000	17,000
	2001	260,000	16,000
Joseph Sutton, Executive Vice President of Research and Development	2003	350,000	17,000
	2002	328,000	15,600
	2001	156,000	16,900
Morris Sutton, Chairman and former Chief Executive Officer (2)	2003	450,000	17,000
	2002	418,000	16,860
	2001	450,000	16,000
Jan E. Chason, Chief Financial Officer (3)	2003	159,000	--
	2002	--	--
	2001	--	--

(1) Other Annual Compensation represents contributions to the Majesco Sales Inc. Profit Sharing Plan on behalf of Jesse, Morris and Joseph Sutton.

(2) Jesse Sutton was named Chief Executive Officer on December 5, 2003, the closing date of the Merger. Unless otherwise noted, prior to such date, Morris Sutton served as Chief Executive Officer of MSI.

(3) Mr. Chason began his employment with Majesco on January 2, 2003.

With respect to the current annual compensation of Joseph Sutton and Jesse Sutton, each of them has agreed to lower such compensation from \$350,000 to \$225,000.

There were no option grants in the last fiscal year to the executive officers named in the summary compensation table above during our fiscal year ended October 31, 2003. Of the named individuals, only Jan E. Chason holds options to purchase shares of our common stock, pursuant to a grant on March 25, 2004 to purchase 300,000 shares, with an exercise price of \$1.90 per share, which expire on March 25, 2014.

EMPLOYEE BENEFIT PLANS

2004 EMPLOYEE, DIRECTOR AND CONSULTANT STOCK OPTION PLAN

Our 2004 Employee, Director and Consultant Stock Option Plan was approved by our Board of Directors in February 2004 and adopted by our stockholders on February 13, 2004, which approval by our stockholders became effective on April 13, 2004. Under this plan, we may grant incentive stock options, nonqualified stock options and stock. A total of 10,000,000 shares of common stock have been

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

reserved for issuance under this plan, all of which are currently available for future grant.

The Stock Option Plan is to be administered by our Board of Directors, except to the extent that it delegates its authority to a committee of the Board. The Plan authorizes the issuance of stock grants to our employees, directors and consultants, the grant of incentive stock options to our employees and the grant of non-qualified options to our employees and directors (approximately 26 people), and consultants; provided, however, that any member of the Sutton family (as specified in the Plan), who is also one of our directors, executive officers, or greater than 5% beneficial owner of any of our issued and outstanding securities shall not be eligible to participate in and receive a grant or grants under the Plan.

For non-qualified options, the exercise price per share is determined by the Board, subject to the limitation that the exercise price at least equal the par value per share of our common stock (i.e. \$0.001 per share). For incentive stock options, the exercise price per share is determined by the Board, subject to the limitation that the exercise price at least equals 100% of the fair market value per share of our common stock on the date of grant of the incentive stock option. If the participant in the Plan owns more than 10% of the total combined voting power of the company, the exercise price per share must at least equal 110% of the fair market value per share of our common stock on the date of grant of the incentive stock option.

The maximum term of options granted under this plan is ten years. The exercise price of non-qualified stock options shall not be less than the par value of our common stock. The exercise price of incentive stock options shall not be less than 100% of the fair market value per share of common stock on the date of the option grant, with

30

respect to plan participants who own 10% or less of the total combined voting power of all classes of our stock, and not less than 110% of the fair market value on the date of grant, with respect to plan participants who own more than 10% of the total combined voting power of all classes of our stock.

With respect to stock grants, the date prior to which an offer of a stock grant must be accepted by a grantee and the stock grant purchase price, if any, shall be determined by the Board. A stock grant may be subject to repurchase by us upon termination of employment of the grantee with the company, under certain circumstances

LIMITATION OF DIRECTORS' LIABILITY AND INDEMNIFICATION

The Delaware General Corporation Law authorizes corporations to limit or eliminate, subject to certain conditions, the personal liability of directors to corporations and their stockholders for monetary damages for breach of their fiduciary duties. Our certificate of incorporation limits the liability of our directors to the fullest extent permitted by Delaware law.

We have obtained director and officer liability insurance to cover liabilities of our directors and officers that may occur in connection with their services to us, including matters arising under the Securities Act of 1933 (the "Securities Act"). Our certificate of incorporation and bylaws also provide that we will indemnify and advance expenses to, to the fullest extent permitted by the Delaware General Corporation Law, any of our directors and officers, against any and all costs, expenses or liabilities incurred by them by reason of having been a director or officer.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

Such limitation of liability and indemnification does not affect the availability of equitable remedies. In addition, we have been advised that in the opinion of the SEC, indemnification for liabilities arising under the Securities Act is against public policy as expressed in the Securities Act and is therefore unenforceable.

There is no pending litigation or proceeding involving any of our directors, officers, employees or agents in which indemnification will be required or permitted. We are not aware of any threatened litigation or proceeding that may result in a claim for such indemnification.

31

RELATED PARTY TRANSACTIONS

Prior to our merger with MSI on December 5, 2003, Jesse Sutton and Joseph Sutton each previously loaned MSI approximately \$1.8 million, for an aggregate amount of approximately \$3.5 million, in order to enable the Company to repay amounts due under a line of credit from a bank with the remainder used for working capital purposes. Jesse and Joseph Sutton were repaid, in the aggregate, approximately \$2.5 million from the proceeds of our recently completed private placement. On February 26, 2004, the remaining \$1.0 million owed to them was exchanged for (i) 100 shares (\$1.0 million) of 7% Convertible Preferred Stock, which will be convertible at the option of the holder into 1,000,000 shares of our Common Stock and (ii) a three year warrant to purchase 1,000,000 shares of our Common Stock at an exercise price of \$1.00 per share.

On November 25, 2003, Albert Ades, the father-in-law of Jesse Sutton, loaned MSI \$1.0 million. MSI used the funds to satisfy a portion of its obligations pursuant to the Atari Settlement. The loan was satisfied in exchange for 2,000,000 shares of our Common Stock on April 23, 2004.

We currently use the services of a printing and packaging company in which Morris Sutton's nephew is a principal. In 2003, we received services from this company for which we were billed approximately \$1.9 million. Such charges were based on arms length negotiations, and to our knowledge, on terms equivalent to what we could receive from providers of similar services.

During 2003, approximately 9,500,000 unregistered shares of our Common Stock were sold at a price of \$0.10 per share. The proceeds of these sales were used to pay off debts to service providers and our other creditors, including a consulting fee payment in connection with the merger equal to \$450,000 to Atlantis Equities, Inc. ("Atlantis"), an entity of which Robert S. Ellin, our former Chairman, is a principal. Atlantis also received consulting fees of approximately \$130,000 for consulting services rendered to the Company in 2002 and 2003. In addition, Atlantis received an additional \$300,000 upon completion of our recently completed private placement. The placement agent we used in connection with the recently completed private placement paid a referral fee to Atlantis which included 92 units (92 shares of 7% Convertible Preferred Stock and a warrant to purchase 920,000 shares of Common Stock) as a portion of the placement agent warrant that was issued to the placement agent.

32

PRINCIPAL STOCKHOLDERS

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

The following table sets forth certain information regarding the beneficial ownership of our voting stock as of May 21, 2004, and as adjusted to reflect the sale of our common stock offered by this prospectus by:

- o the executive officers named in the summary compensation table;
- o each of our directors;
- o all of our current directors and executive officers as a group; and
- o each stockholder known by us to own beneficially more than five percent of our common stock.

Beneficial ownership is based upon 80,853,440 shares of common stock outstanding as of May 21, 2004 and determined in accordance with the rules of the SEC and includes voting or investment power with respect to the securities. Shares of common stock that may be acquired by an individual or group within 60 days of May 21, 2004, pursuant to the exercise of options, warrants or other derivative securities, are deemed to be outstanding for the purpose of computing the number of shares beneficially owned and the percentage ownership of such individual or group, but are not deemed to be outstanding for the purpose of computing the percentage ownership of any other person shown in the table. Percentage of voting power is based on the number of shares beneficially owned by the person or entity identified and the following shares outstanding: (i) 80,853,440 shares of common stock; and (ii) 2,683 shares of 7% convertible preferred stock.

Except as indicated in footnotes to this table, we believe that the stockholders named in this table have sole voting and investment power with respect to all shares of common stock shown to be beneficially owned by them, based on information provided to us by such stockholders.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

* Represents beneficial ownership of less than 1% of the shares of common stock

- (1) Includes 500,000 shares of common stock which may be acquired upon conversion of 50 shares of 7% convertible preferred stock and 500,000 shares of common stock which may be acquired upon exercise of warrants to purchase 500,000 shares of common stock.
- (2) Morris Sutton, Jesse Sutton and Joseph Sutton act as officers of the Jesse M. Sutton Foundation, and each has the power to vote and dispose of the shares held by the Foundation. The number of shares disclosed

33

under each of Jesse, Joseph and Morris Sutton does not include the number of shares held by the Foundation.

- (3) Pursuant to a voting agreement, Morris Sutton has the power to vote the shares held in the name of his daughter, Sarah Sutton. The voting agreement does not restrict Sarah from exercising all other rights of beneficial ownership, including disposition and the right to receive payments of dividends or other distributions from the Company with respect to the shares.
- (4) Does not include shares of common stock underlying outstanding options which options vest 1/3 annually commencing on March 25, 2005.
- (5) Adam Sutton is the adult son of Morris Sutton and brother of Jesse and Joseph Sutton. Adam is not an executive officer or director of the company.
- (6) All shares of 7% convertible preferred stock are immediately convertible into shares of common stock at a current conversion ratio of \$1.00 per share for each share of 7% convertible preferred stock with each share having a value of \$10,000. Each share of 7% convertible preferred stock has voting rights on an as-converted basis and votes together with the common stock as one class, except as otherwise regulated by law.
- (7) Does not include shares held by 033 Growth Int'l Fund Ltd., 033 Growth Partners II LP, and Oyster Pond Partners over which Michael T. Vigor has investment power and Lawrence C. Long Jr. has voting power, along with the shares held by 033 Growth Partners I LP.
- (8) Does not include shares held by Caspian Capital Partners L.P., Mariner Opportunities, Corsair Capital Investors, Ltd., Corsair Long/Short International, Corsair Capital Partners 100, and Corsair Select over which Jay Petschek and Steven Major share voting and investment power, along with the shares held by Corsair Capital.
- (9) Does not include shares held by Harvest Opportunity Offshore Ltd. and Harvest Opportunity Partners II Qualified L.P., beneficial ownership of which is held by Joseph A. Jolson, along with the shares held by Harvest Opportunity Partners II LP.

SELLING STOCKHOLDERS

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

This prospectus covers offers and sales of the following shares of common stock:

- o 2,000,000 shares of common stock issued upon conversion of an outstanding Convertible Note dated as of November 25, 2003.
- o 25,830,000 shares of common stock issuable upon the conversion of outstanding 7% convertible preferred stock issued in connection with a private placement completed on February 26, 2004.
- o 25,830,000 shares of common stock issuable upon the exercise of warrants having an exercise price of \$1.00 per share that were issued in connection with a private placement completed on February 26, 2004.
- o 1,000,000 shares of common stock issuable upon (i) the conversion of 7% convertible preferred stock (500,000 shares) and (ii) warrants having an exercise price \$1.00 per share (500,000 shares) that were issued to Jesse Sutton in exchange for previously outstanding indebtedness.
- o 1,000,000 shares of common stock issuable upon (i) the conversion of 7% convertible preferred stock (500,000 shares) and (ii) warrants having an exercise price \$1.00 per share (500,000 shares) that were issued to Joseph Sutton in exchange for previously outstanding indebtedness.
- o 2,520,000 shares of common stock issuable upon (i) the conversion of 7% convertible preferred stock (1,260,000 shares) and (ii) warrants having an exercise price of \$1.00 per share (1,260,000 shares), as the securities underlying the placement agent warrant to purchase units that was issued to JMP Securities LLC as a portion of the placement agent fee issued in connection with a private placement completed on February 26, 2004.
- o 1,000,000 shares of common stock issuable upon (i) the conversion of 7% convertible preferred stock (500,000 shares) and (ii) warrants having an exercise price of \$1.00 per share (500,000 shares), as the securities underlying the placement agent warrant to purchase units that was issued to JMP Asset Management LLC as a portion of the placement agent fee issued in connection with a private placement completed on February 26, 2004.
- o 1,840,000 shares of common stock issuable upon (i) the conversion of 7% convertible preferred stock (920,000 shares) and (ii) warrants having an exercise price of \$1.00 per share (920,000 shares), as the securities underlying the placement agent warrant to purchase units that was issued to Atlantis Equities, Inc. as a portion of the placement agent fee issued in connection with a private placement completed on February 26, 2004.
- o 302,000 shares of common stock issued to CEOcast, Inc. pursuant to a consultation agreement, dated as of November 8, 2003.
- o 160,000 shares of common stock issued to Hayden Communications, Inc. pursuant to a consultation agreement, dated as of November 26, 2003.
- o 100,000 shares of common stock issued to Mintz, Levin, Cohn, Ferris, Glovsky and Popeo, P.C. pursuant to a settlement agreement, dated as of December 5, 2003.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

The following table provides information on the selling stockholders, their current beneficial ownership of our securities, the number of shares offered for each stockholder's account, and the amount and percentage of their beneficial ownership after this offering, assuming they sell all of the offered shares. "Beneficial ownership" here means direct or indirect voting or investment power over outstanding stock and stock which a person has the right to acquire now or within 60 days after the date of this prospectus. The table also includes stock issuable on exercise of the warrants described above.

The information in the table was provided by the selling stockholders, reports furnished to us under rules of the SEC and our stock ownership records, as of the date of this prospectus. Except as noted in the footnotes, no selling stockholder has had, within the past three years, any position, office or other material relationship with us or any of our predecessors or affiliates. The calculation of the percentage of common stock beneficially owned after the offering is based on 80,853,440 shares outstanding as of May 21, 2004.

 - (17) Does not include shares which may be held by the individual members of the law firm.

36

PLAN OF DISTRIBUTION

We have registered the shares on behalf of the selling stockholders. For the purposes herein, the term "selling stockholder" includes donees, pledgees, transferees or other successors-in-interest selling shares of common stock received after the date of this prospectus from a selling stockholder as a gift, pledge, corporate dividend, partnership or limited liability company distribution or other transfer. We are bearing all costs relating to the registration of the shares, other than fees and expenses, if any, of counsel or other advisors to the selling stockholders. Any commissions, discounts, or other fees payable to broker-dealers in connection with any sale of the shares will be borne by the selling stockholders. The selling stockholders may offer their shares at various times in one or more of the following transactions, or in other kinds of transactions:

- o transactions on the Over-The-Counter Bulletin Board;
- o in private transactions other than through the Over-The-Counter Bulletin Board;
- o in connection with short sales of our shares;
- o by pledge to secure debts and other obligations;
- o in connection with the writing of non-traded and exchange-traded call options, in hedge transactions and in settlement of other transactions;
- o in standardized or over-the-counter options; or
- o in a combination of any of the above transactions.

The selling stockholders also may resell all or a portion of the shares in open market transactions in reliance on Rule 144 under the Securities Act, if they meet the criteria and conform to the requirements of that rule.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

The selling stockholders may sell their shares at quoted market prices, at prices based on quoted market prices, at negotiated prices or at fixed prices. The selling stockholders may use broker-dealers to sell their shares. If this happens, broker-dealers may either receive discounts or commissions from the selling stockholders, or they may receive commissions from purchasers of shares for whom they acted as agents.

The selling stockholders and any broker-dealers or agents that participate with the selling stockholders in the sale of shares may be "underwriters" within the meaning of the Securities Act. Any commissions received by broker-dealers or agents on the sales and any profit on the resale of shares purchased by broker-dealers or agents may be deemed to be underwriting commissions or discounts under the Securities Act.

Under the rules and regulations of the SEC, any person engaged in the distribution or the resale of our shares may not simultaneously buy, bid for or attempt to induce any other person to buy or bid for our common stock in the open market for a period of two business days prior to the commencement of the distribution. The rules and regulations under the Securities Exchange Act of 1934 may limit the timing of purchases and sales of shares of our common stock by the selling stockholders.

DESCRIPTION OF CAPITAL STOCK

Pursuant to our Certificate of Incorporation, we are authorized to issue 250,000,000 shares of common stock, \$.001 par value per share, and 10,000,000 shares of preferred stock, \$.001 par value per share, of which 3,000 shares have been designated 7% convertible preferred stock.

COMMON STOCK

Voting Rights. Holders of Common Stock are entitled to one vote per share held of record on all matters to be voted on by the stockholders.

Dividends. Subject to preferences that may be applicable to any Preferred Stock outstanding at the time, holders of Common Stock are entitled to receive ratably such dividends, if any, as may be declared from time to time by the Board of Directors out of funds legally available therefore, subject to the rights of the holders of preferred stock, if any.

Liquidation Preference. In the event we liquidate, dissolve or wind up, holders of Common Stock are entitled to share ratably in all assets remaining after payment of our liabilities and the liquidation preference, if any, of any then

37

outstanding shares of Preferred Stock.

Holders of Common Stock have no preemptive rights and no rights to convert their Common Stock into any other securities, and there are no redemption or sinking fund provisions with respect to such shares. The rights, preferences and privileges of holders of Common Stock are subject to, and may be materially adversely affected by, the rights of the holders of shares of any series of Preferred Stock which are currently outstanding or which the Board of Directors may designate and issue in the future. We currently have 250,000,000 shares of Common Stock authorized.

PREFERRED STOCK

We are authorized to issue up to 10,000,000 shares of Preferred Stock. The Board of Directors has the authority to issue the Preferred Stock in one or more

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

series and to fix the rights, preferences, privileges and restrictions granted to or imposed upon any wholly unissued shares of Preferred Stock, as well as to fix the number of shares constituting any series and the designations of such series, without any further vote or action by the stockholders. The Board of Directors, without stockholder approval, may issue Preferred Stock with voting and conversion rights that could materially adversely affect the voting power of the holders of Common Stock or other series of Preferred Stock. The issuance of Preferred Stock could also decrease the amount of earnings and assets available for distribution to holders of Common Stock. In addition, the issuance of Preferred Stock may have the effect of delaying, deferring or preventing our change in control.

SERIES A CONVERTIBLE PREFERRED STOCK

We previously authorized 1,000,000 shares of Preferred Stock, designated as Series A convertible preferred stock, \$0.001 par value per share, of which 572,888 shares were issued and outstanding immediately prior to their conversion into 40,675,048 shares of our Common Stock which occurred on April 23, 2004. All of the previously outstanding shares of Series A convertible preferred stock were distributed to the stockholders of MSI as part of the consideration for the merger which occurred in December 2003. All shares were convertible at the option of the holder into shares of Common Stock at a ratio of 71 shares of Common Stock for each share of Series A convertible preferred stock.

7% CONVERTIBLE PREFERRED STOCK

We have currently authorized 3,000 shares of 7% Convertible Preferred Stock, \$0.001 par value per share, of which 2,683 shares are currently outstanding. The 7% convertible preferred stock is convertible at the option of the holder into 10,000 shares of Common Stock of the Company per share of 7% convertible preferred stock at a conversion price of \$1.00. Each share of 7% convertible preferred stock is entitled to receive a 7% cumulative dividend payable solely in shares of Common Stock, on an annual basis. In addition, the holders of the 7% convertible preferred stock shall be entitled to share in any dividends paid on the Common Stock on an "as converted" basis. The holders of the 7% convertible preferred stock will be entitled to a liquidation preference equal to the amount invested per share, plus any accrued and unpaid dividends. The 7% convertible preferred stock has voting rights on an as-converted basis and votes together with the Common Stock as one class, except that it votes as a separate class on certain directors as described below and except as otherwise required by law.

The 7% convertible preferred stock shall rank senior to any other class or series of our capital stock. In the event of a liquidation, the holders of the 7% convertible preferred stock, after provision for payment of our debts and liabilities, before any distribution is made with respect to any other class or series of our capital stock will be entitled to receive a liquidation preference equal to the original purchase price of the 7% convertible preferred stock plus all accrued and unpaid dividends thereon.

Each share of 7% convertible preferred stock shall automatically convert into Common Stock of the Company at a conversion price of \$1.00 per share at such time as the closing price of the Common Stock is equal to or greater than \$2.50 per share for a 60 consecutive calendar day period, provided that during such 60 consecutive calendar day period, the average daily trading volume for each day is equal to or greater than 75,000 shares.

The certificate of designation for the 7% convertible preferred stock shall provide that, within 120 days after the final Closing of the Offering, there shall be a maximum of seven (7) directors on the Board of Directors. At each election of directors after the final Closing, for so long as 51% of the 7% convertible preferred stock remains outstanding, based on the number of shares

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

outstanding as of the final Closing, Harvest Opportunity Partners II, L.P., on behalf of the holders of the 7% convertible preferred stock will have the right to nominate two members to

38

the Company's Board of Directors, on behalf of the holders of the 7% Preferred Stock, who are "independent" within the meaning of the regulations promulgated by Nasdaq for companies quoted on the Nasdaq National Market and by the American Stock Exchange for companies traded on such exchange. In addition, the consent, which shall not be unreasonably withheld, of Harvest Opportunity Partners II, L.P. on behalf of the holders of the 7% convertible preferred stock will be required with respect to the appointment by the Company of two "independent" members of the Company's Board of Directors.

Subject to applicable federal securities laws and the rules of the Nasdaq Stock Market with respect to board composition and corporate governance, the Board members elected by the holders of the 7% convertible preferred stock, shall serve on the Audit Committee and Compensation Committee of the Company's Board of Directors and either director shall serve as the chairman of either or both committees.

WARRANTS ISSUED IN RECENT PRIVATE PLACEMENT

Exercise Price and Terms. Each warrant issued in our recently completed private placement (the "Warrants"), entitles the holder thereof to purchase at any time until three years after the issue date, up to ten thousand (10,000) shares of Common Stock at an exercise price equal to \$1.00 per share. The holder of any Warrant may exercise such Warrant by surrendering the Warrant to us, with the notice of exercise properly completed and executed, together with payment of the exercise price. The Warrants may be exercised at any time in whole or in part at the applicable exercise price until expiration of the Warrants. No fractional shares will be issued upon the exercise of the Warrants.

The Company, at its option, may call, at a price of \$.001 per share of Common Stock underlying the Warrant, up to one hundred percent (100%) of the Warrants in the event the closing price of the Common Stock is equal to or greater than \$2.50 for a 60 consecutive calendar day period, provided that during such 60 consecutive calendar day period, the average daily trading volume for each day is equal to or greater than 75,000 shares. Upon a call, the holder may exercise such Warrant and in the event the holder elects not to exercise the Warrant, then the Company may repurchase at such price.

PLACEMENT AGENT WARRANT

Exercise Price and Terms. Each Warrant entitles the holder thereof to purchase at any time until five years after the issue date, one Unit, consisting of one share of 7% convertible preferred stock and a Warrant, at a price per Unit equal to \$10,000.00. The Placement Agent may exercise the Placement Agent Warrant by surrendering it to us, with the notice of exercise properly completed and executed, together with payment of the exercise price. The Placement Agent Warrant may be exercised at any time in whole or in part at the applicable exercise price until expiration of the Warrants. No fractional shares will be issued upon the exercise of the Warrants.

REGISTRATION OBLIGATION

We have agreed to file on or before May 26, 2004, a registration statement on Form S-1 or other appropriate registration document with the SEC covering the resale of the shares of Common Stock issuable upon conversion of the 7% convertible preferred stock and issuable upon exercise of the Warrants, as well

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

as the shares of Common Stock issuable upon conversion and exercise, as applicable, of the securities underlying the Placement Agent Warrants. In the event we do not file the registration statement by such date, we shall be obligated to pay an amount, as liquidated damages to each holder of the 7% Preferred Stock, equal to 1.5% of such holder's initial investment in the Units for each thirty day period we fail to file subsequent to such date. In addition, in the event the registration statement is not declared effective by the SEC by August 23, 2004, we shall be obligated to pay an amount, as liquidated damages to each holder of the 7% convertible preferred stock, equal to 3.0% of such holder's initial investment in the Units for each thirty day period the registration statement is not declared effective by such date.

RESTRICTIONS ON TRANSFER OF SECURITIES PRIOR TO REGISTRATION

The 7% convertible preferred stock, the Warrants and the Placement Agent Warrant, including, prior to their registration for resale as described above, the shares of Common Stock issuable upon conversion of the 7% convertible preferred stock and issuable upon exercise of the Warrants, may not be transferred except as provided below. Prior to any proposed transfer of any of the identified securities, including such Common Stock, the holder thereof shall give written notice to us of such holder's intention to affect such transfer. Each such notice shall describe the manner and circumstances of the proposed transfer in sufficient detail, and shall be accompanied by

39

either (i) if required, a written opinion of legal counsel to the holder which shall be reasonably satisfactory to us to the effect that the proposed transfer of the securities may be effected without registration under the Securities Act or (ii) a "no-action" letter from the SEC to the effect that the distribution of such securities without registration will not result in a recommendation by the staff of the SEC that action be taken with respect thereto, whereupon the holder of such securities shall be entitled to transfer such securities in accordance with the terms of the notice delivered by such holder to us. We will not require such a legal opinion or "no action" letter (x) in any transaction in compliance with Rule 144 promulgated under the Securities Act, (y) in any transaction in which the holder distributes securities solely to its stockholders on a pro rata basis for no consideration, or (z) in any transaction in which a holder which is a partnership distributes securities solely to partners thereof on a pro rata basis for no consideration. These restrictions will terminate with respect to any such securities following their registration for resale pursuant to our registration obligation described above.

OPTION PLAN

We authorized adopting a 2004 Employee, Director and Consultant Stock Plan, pursuant to which we have reserved 10,000,000 shares of Common Stock for issuances under the plan to eligible participants; provided, however, eligible participants will not include any member of the Sutton family who is also one of our directors, executive officers or greater than 5% beneficial owners of any of our securities. Our stockholders approved this stock option plan pursuant to a majority written consent dated February 13, 2004, which approval by our stockholders was effective on April 13, 2004.

TRANSFER AGENT AND REGISTRAR

The transfer agent and registrar for the common stock is Florida Atlantic Stock Transfer Inc.

LISTING

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

Our common stock is quoted on the Over-The-Counter Bulletin Board under the symbol "MJSH."

LEGAL MATTERS

The legality of the shares of common stock offered in this prospectus has been passed upon by our counsel, Mintz Levin Cohn Ferris Glovsky and Popeo, P.C., New York, New York. Members of the Mintz firm hold in the aggregate 11,971 shares of common stock. In addition, Mintz, Levin, Cohn, Ferris, Glovsky and Popeo, P.C. holds 175,000 shares of common stock, of which 100,000 shares are being offered in this prospectus.

EXPERTS

The consolidated financial statements of Majesco Sales Inc and subsidiary as of October 31, 2003 and 2002, and the related consolidated statements of operations, shareholders' deficiency and cash flows for each of the years in the three-year period ended October 31, 2003, have been included herein in reliance upon the report of Goldstein Golub Kessler LLP, independent accountants, given on the authority of said firm as experts in accounting and auditing.

On January 5, 2004, we dismissed our independent auditors, Israeloff, Trattner & Co. P.C. ("Israeloff"). The decision to change independent auditors was made in connection with our merger and change of control of the Company, as reported in our Current Report on Form 8-K, dated December 5, 2003, and filed on December 22, 2003. In lieu of an audit or similar committee of the Board of Directors, the decision to dismiss Israeloff was recommended and approved by our Board of Directors. The report of Israeloff on our financial statements as of and for the fiscal year ended December 31, 2002 contained no adverse opinion or disclaimer of opinion, nor was the report qualified or modified as to uncertainty, audit scope or accounting principles. In connection with its audit for the fiscal year ended December 31, 2002 and during the subsequent period that began on January 1, 2003 and ended on January 4, 2004, there were no disagreements with Israeloff on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if they had occurred and not been resolved to the satisfaction of Israeloff, would have caused Israeloff to make reference to such disagreements in their report on the financial statements for such year. Israeloff was engaged by us on April 4, 2003 and had no involvement with us relating to the fiscal year ended December 31, 2001. On February 11, 2004, we engaged Goldstein Golub Kessler LLP, our current independent accountants

INDEPENDENT AUDITOR'S REPORT

The Board of Directors
Majesco Sales Inc.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

We have audited the accompanying consolidated balance sheets of Majesco Sales Inc. and subsidiary as of October 31, 2003 and 2002, and the related consolidated statements of operations, shareholders' deficiency and cash flows for each of the three years in the period ended October 31, 2003. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Majesco Sales Inc. and subsidiary as of October 31, 2003 and 2002, and the results of their operations and their cash flows for each of the three years in the period ended October 31, 2003, in conformity with accounting principles generally accepted in the United States of America.

GOLDSTEIN GOLUB KESSLER LLP
New York, New York

January 7, 2004, except for the last two paragraphs of Note 14, as to which the date is February 17, 2004.

F-6

MAJESCO SALES INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

1. PRINCIPAL BUSINESS ACTIVITY

Majesco Sales Inc. and subsidiary ("Majesco" or "Company") is a developer, publisher, and marketer of interactive entertainment software. The Company has released titles for all major videogame platforms and handhelds, including Sony's PlayStation and PlayStation(R) 2, Nintendo's N64, SNES, Game Boy(TM), Game Boy(TM) Color, Game Boy(TM) Advance and GameCube(TM), Microsoft's Xbox(TM), Sega's Dreamcast, Genesis and Game Gear, and the personal computer ("PC"). Additionally, the Company is a manufacturer of a number of accessories licensed by Nintendo. The Company's target audiences range from game enthusiasts and children to mass-market consumers and "value-priced" buyers. The Company's customers include Wal-Mart, Target, Toys "R" Us, Best Buy, Electronics Boutique, Gamestop and other national and regional retailers, discount store chains and specialty retailers. Internationally, the Company's products are published through licensing arrangements with other publishers.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation. The accompanying consolidated financial statements include the accounts of Majesco Sales Inc. and its wholly owned subsidiary, Majesco Europe Limited (a company incorporated in the United Kingdom, which commenced operations in February 2002). Significant intercompany accounts and transactions have been eliminated in consolidation.

Revenue Recognition. The Company recognizes revenue upon shipment of its product when title and risk of loss are transferred. In order to recognize revenue, the Company must not have any continuing obligations and it must also be probable that the Company will collect the accounts receivable.

For those agreements, which provide customers with the right to multiple copies in exchange for guaranteed minimum royalty amounts (such as under the Company's international distribution agreements) (see Note 7), revenue is recognized at delivery of the product master or the first copy. Royalties on sales that exceed the guaranteed minimum are recognized as earned.

The Company generally sells its products on a no-return basis, although in certain instances, the Company may provide price protection or other allowances on certain unsold products. Price protection, when granted and applicable, allows customers a credit against amounts they owe the Company with respect to merchandise unsold by them. Revenue is recognized net of estimates of these allowances.

The Company estimates potential future product price protection and other allowances related to current period product revenue. The Company analyzes historical experience, current sell through of retailer inventory of the Company's products, current trends in the videogame market, the overall economy, changes in customer demand and acceptance of the Company's products and other related factors when evaluating the adequacy of price protection and other allowances.

Sales incentives or other consideration given by the Company to customers that are considered adjustments of the selling price of its products, such as rebates and product placement fees, are reflected as reductions of revenue. Sales incentives and other consideration that represent costs incurred by the Company for assets or services received, such as the appearance of the Company's products in a customer's national circular ad, are reflected as selling and marketing expenses.

Shipping and Handling. Shipping and handling, which consist primarily of packaging and transportation charges incurred to move finished goods to

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

customers, are included in selling expenses.

Advertising Expenses. The Company generally expenses advertising costs as incurred except for production costs associated with media campaigns which are deferred and charged to expense at the first run of the ad. Advertising

F-7

costs charged to operations were approximately \$2,926,000, \$2,105,000, and \$311,000 for the years ended October 31, 2003, 2002, and 2001, respectively.

Income Taxes. Prior to November 1, 2003, the Company elected to be treated as an S Corporation under the provisions of the Internal Revenue Code. Accordingly, there is no provision for federal income taxes because such liability is the responsibility of the individual shareholders. Additionally, the Company has elected to be treated as an S Corporation under provisions of the New Jersey State income tax laws. The Company is subject to New Jersey State income taxes at reduced rates.

Effective November 1, 2003, the Company revoked its S Corporation election. On that date the Company became subject to federal and state income taxes. No pro forma provision for income taxes has been provided in the accompanying consolidated statement of operations due to the history of operating losses.

Cash and cash equivalents. Cash equivalents consist of highly liquid investments with insignificant rate risk and with maturities of three months or less at the date of purchase.

At various times, the Company had deposits in excess of the Federal Deposit Insurance Corporation limit. The Company has not experienced any losses on these accounts.

The Company utilizes forward contracts in order to reduce financial market risks. These instruments are used to hedge foreign currency exposures of underlying assets, liabilities, or certain forecasted foreign currency denominated transactions. The Company does not use forward exchange contracts for speculative or trading purposes. The Company's accounting policies for these instruments are based on whether they meet the criteria for designation as hedging transactions. The fair value of foreign currency contracts is estimated based on the spot rate of the various hedged currencies as of the end of the period. As of October 31, 2003, the fair value of the contract outstanding was approximately \$4,500,000. The Company had no outstanding foreign exchange forward contracts at October 31, 2002. The risk of counterparty nonperformance associated with this contract was not considered to be material. Notwithstanding the Company's efforts to manage foreign exchange risk, there can be no assurance that the Company's hedging activities will adequately protect against the risks associated with foreign currency fluctuations.

Software Development Costs and Intellectual Property Licenses. Software development costs include milestone payments made to independent software developers under development arrangements. Software development costs are capitalized once technological feasibility of a product is established and such costs are determined to be recoverable against future revenues. For products where proven game engine technology exists, this may occur early in the development cycle. Technological feasibility is evaluated on a product-by-product basis. Amounts related to software development that are not capitalized are charged immediately to development costs. Intellectual property license costs represent license fees paid to intellectual property rights holders for use of their trademarks or copyrights in the development of the Company's products.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

Commencing upon the related product's release, capitalized software development and property licenses costs are amortized to cost of sales based upon the higher of (i) the contractual rate based on actual net product sales or (ii) the ratio of current revenue to total projected revenue. The recoverability of capitalized software development costs and intellectual property licenses is evaluated based on the expected performance of the specific products for which the costs relate. The following criteria are used to evaluate expected product performance: historical performance of comparable products using comparable technology; orders for the product prior to its release; and estimated performance of a sequel product based on the performance of the product on which the sequel is based. During the year ended October 31, 2003, as the result of the Company's assessment of the recoverability of capitalized development costs, the Company recognized an impairment charge of approximately \$3,656,000 measured by the amount by which the carrying amount of the asset exceeded its fair value.

Inventory. Inventory, which consists principally of finished goods, is stated at the lower of cost as determined by the first-in, first-out method, or market. The Company estimates the net realizable value of slow-moving inventory on a title-by-title basis and charges the excess of cost over net realizable value to cost of sales.

F-8

Property and equipment. Property and equipment is stated at cost. Depreciation and amortization is being provided for by the straight-line method over the estimated useful lives of the assets. Amortization of leasehold improvements is provided for over the term of the lease.

Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities or the disclosure of gain or loss contingencies at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Among the more significant estimates included in these financial statements are the estimated customer allowances, the valuation of inventory and the recoverability of advance payments for development costs and intellectual property licenses. Actual results could differ from those estimates.

Foreign Currency Translation. The functional currency of the Company's foreign subsidiary is its local currency. All assets and liabilities of the Company's foreign subsidiary are translated into U.S. dollars at the exchange rate in effect at the end of the year, and revenue and operating expenses are translated at weighted average exchange rates during the year. The resulting translation adjustments are reflected as a component of shareholders' deficiency and included in other comprehensive loss in the statement of shareholders' deficiency.

Earnings per share. Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted-average number of shares of common stock outstanding during the period. Diluted earnings per share has not been presented in the accompanying consolidated statement of operations since the Company has no options, warrants and other potential common stock outstanding during the periods.

Recent accounting pronouncements. The Company does not believe that any recently issued, but not yet effective accounting standards will have a material effect on the Company's consolidated financial position, results of operations or cash flows.

Reclassifications. Certain October 31, 2002 and 2001 amounts have been

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

reclassified to conform to the financial statement presentation used at October 31, 2003.

3. DUE FROM FACTOR

The Company uses a factor to approve credit and to collect the proceeds from a substantial portion of its sales. Under the terms of the agreement, the Company assigns to the factor and the factor purchases from the Company eligible accounts receivable. Substantially all of the credit risk is then assumed by the factor for these eligible accounts receivable. The factor remits payments to the Company for the assigned accounts receivable that are within the financial parameters set forth in the factoring agreement. Those financial parameters include requirements that invoice amounts meet approved credit limits and that the customer does not dispute the invoices. The purchase price of the accounts receivable that the Company assigns to the factor equals the invoiced amount, which is adjusted for allowances for discounts and other customer credits.

After the factor purchases the Company's accounts receivable, the factor may, in its discretion, provide the Company with cash advances taking into account the assigned accounts receivable due from the Company's customers and inventory. As of October 31, 2003, the factor was advancing approximately 70% of the eligible receivables due from eligible customers and 50% of inventory (up to \$2 million). The factor charges the Company a factor charge, as defined, and also charges for advances taken. Interest is charged on these advances at the prime rate (4% at October 31, 2003) plus 1%. The factor charges and interest expense on the advances are included in "interest and financing costs" in the accompanying consolidated statement of operations.

The due from factor consists of the following:

	OCTOBER 31,	
	(000'S OMITTED)	
	2003	2002
	----	----
Outstanding accounts receivable sold to factor, net of allowances of \$2,173 and \$4,666, respectively	\$5,132	\$11,483
Advances from factor	4,536	7,973
	\$ 596	\$ 3,510
	=====	=====

F-9

The following table sets forth the adjustment to the allowances included as a reduction of the amounts due from factor:

	YEAR ENDED OCTOBER 31,		
	(000'S OMITTED)		
	2003	2002	2001
	-----	-----	-----
Balance - beginning of year	\$ (4,666)	\$ (2,750)	\$ (2,333)

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

Add: provision	(5,175)	(13,134)	(6,229)
Less: amounts charged to operations	7,668	11,218	5,812
Balance - end of year	\$ (2,173)	\$ (4,666)	\$ (2,750)

An officer of the Company and two officer/shareholders have guaranteed repayment of the advances from the factor.

4. PREPAID EXPENSES Prepaid expenses consist of the following:

	OCTOBER 31, (000'S OMITTED)	
	2003	2002
	-----	-----
Prepaid advertising	\$783	\$1,025
Prepaid taxes	149	
Prepaid insurance	49	76
	-----	-----
	\$981	\$1,101
	=====	=====

5. PROPERTY AND EQUIPMENT Property and equipment, net, consists of the following:

	OCTOBER 31, (000'S OMITTED)		
	2003	2002	ESTIMATED USEFUL LIFE
	-----	-----	-----
Software	\$ 35	\$ 22	3 years
Furniture	177	170	5 years
Computer equipment	1,753	1,621	5 years
Leasehold improvements	126	126	Term of lease
	-----	-----	
	2,091	1,939	
	-----	-----	
Less accumulated depreciation and amortization:			
Software	7	3	
Furniture	114	80	
Computer equipment	1,061	756	
Leasehold improvements	54	41	
	-----	-----	
Total accumulated depreciation and amortization	1,236	880	
	-----	-----	
	\$ 855	\$1,059	
	=====	=====	

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

Computer equipment includes amounts acquired under capital leases of approximately \$163 with related accumulated depreciation of approximately \$85 and \$54 at October 31, 2003 and 2002, respectively.

6. DUE TO FINANCE COMPANY:

The Company has a purchase order assignment arrangement with a finance company to provide funding for the manufacture of video games to fulfill customer purchase orders. The Company is obligated for a minimum volume of \$25,000,000, as defined, and to pay a minimum commitment fee subject to waiver, as described in the agreement, among other matters. The Company is charged 3.3% of the purchase order amount for each transaction to open a letter of credit. Letters of credit and advances outstanding beyond the initial 60 days bear interest at the prime rate (4% at October 31, 2003) plus 1% per annum.

7. ADVANCES FROM CUSTOMERS

The Company has entered into a license and distribution agreement, as amended, with an interactive game publisher to distribute the Company's videogames in Europe that expires March 31, 2005. During the years ended October 31, 2003 and 2002, the Company recorded in net revenues approximately \$2,763,000 and \$354,000, respectively, for royalties earned under the agreement. At October 31, 2003, under the amended agreement, the Company is guaranteed a minimum royalty of approximately \$5,200,000 over the term of the agreement against which the Company has already received an advance of \$608,000.

In December 2003, the Company was notified by the interactive game publisher that it was terminating the license and distribution agreement as a result of the Company's merger with ConnectivCorp (see Note 14). The Company is in discussion with the publisher who has indicated an interest in entering into a new contract under revised terms, however, there can be no assurance that the Company will be successful in negotiating a new contract on acceptable terms, or at all.

The Company has sales agreements with two customers, which require the Company to sell certain products to the customer. The sales agreements provide, among other matters, for the customers to advance to the Company, as of October 31, 2003, approximately \$11,000,000 in the aggregate, to be applied against future sales. In connection with sales agreements with one of the customers, the Company provided the customer with a performance bond through letters of credit aggregating \$4,573,000 to guarantee performance under the agreement.

As of January 7, 2004, the outstanding advance from the customers was approximately \$2,300,000, and the obligations under the performance bond were satisfied.

At October 31, 2002, one of the above customers had advanced the Company approximately \$4,121,000 against future sales.

8. SETTLEMENT OBLIGATION

In August 2003, the US District Court of Massachusetts in *Infogrames Interactive, Inc. v. Majesco Sales Inc.* entered judgment against the Company in the amount of \$6.7 million pursuant to a breach of contract action. In December 2003, the Company settled the matter by agreeing to pay Atari Interactive, Inc. (formerly Infogrames Interactive, Inc.) ("Atari") \$6,700,000 as follows: (a) \$1,000,000 within two weeks after signing (the "Effective Date"), which amount was borrowed (see Note 14) and paid; (b) \$2,500,000 upon the first to occur of (1) Majesco receiving a total of \$15,000,000 or more in third-party financing (subject to various terms and conditions) (the "Financing Date") or (2) June 30,

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

2004; (c) \$1,000,000 on the earlier of one year from the Financing Date or June 30, 2005, with interest at 5% per annum; and (d) \$2,200,000 on a date which is 42 months from the Effective Date, such payment accruing interest at the rate of 5% per annum from the earlier of the Financing Date or June 30, 2004.

As collateral security for Majesco's obligations to Atari, Majesco granted Atari a continuing security interest in all of its assets, to the extent permitted under the Company's existing or future indebtedness.

Consistent with the security interest granted to Atari, Majesco also agreed to assign to Atari its right to receive all revenue under certain of its distribution agreements, which assignment will be released under certain circumstances.

F-11

Such revenues are payable to Atari in order to satisfy Majesco's obligations described in (c) above and thereafter to satisfy the obligations in (b) above; provided that regardless of the revenue received under these agreements, Majesco is obligated to pay Atari, no later than March 31, 2004, on account of the obligations described in (c) above, \$500,000.

9. LOAN PAYABLE - SHAREHOLDERS

During the years ended October 31, 2003 and 2002, two of the Company's shareholders advanced the Company approximately \$2,295,000 and \$36,000, net of loan repayments. The outstanding loans bear interest at the rate 10% per annum with interest payable monthly. The loans are due on demand except for \$3,000,000, which subsequent to October 31, 2003 the shareholders agreed to convert into an equity security of ConnectivCorp (see note 14). At October 31, 2003 and 2002, there was approximately \$24,000 and \$36,000, respectively, of accrued interest outstanding. During the year ended October 31, 2003, approximately \$2,485,000 of the proceeds was used to repay the then outstanding amounts under a line of credit agreement with a bank. During the years ended October 31, 2003, 2002 and 2001, the Company charged operations for interest expense related to this obligation for approximately \$276,000, \$240,000 and \$153,000, respectively.

10. LOAN PAYABLE - BANK

The Company had a \$2,500,000 line of credit with a bank that was to expire on February 28, 2004. Borrowings under the line of credit bore interest at the bank's prime rate plus 1% with interest payable monthly. The loan payable-bank was repaid by the proceeds from shareholder advances (see Note 9).

11. EMPLOYEE RETIREMENT PLANS

During 2003, the Company merged its existing defined contribution pension plan and a money purchase pension plan which covered all eligible employees. Contributions are funded as accrued, not to exceed 25% of each eligible employee's compensation, as defined.

During October 2003, the Company adopted a defined contribution 401(k) plan covering all eligible employees.

The Company charged to operations approximately \$69,000, \$162,000 and \$160,000 for contributions to retirement plans for the years ended October 31, 2003, 2002 and 2001, respectively.

Certain shareholders and key employees of the Company serve as trustees of

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

plans.

12. MAJOR CUSTOMERS

During the years ended October 31, 2003 and 2002, sales to three customers accounted for approximately 55% and 40% of net revenue, respectively. During the year ended December 31, 2001, sales to two customers accounted for approximately 56% of net revenue.

13. COMMITMENTS AND CONTINGENCIES

The Company is obligated under noncancelable operating leases for administrative offices, automobiles, and other equipment expiring at various dates through 2009. The future aggregate minimum rental commitments exclusive of required payments for operating expenses, are as follows:

Year Ending October 31, -----	
2004	\$ 461,000
2005	378,000
2006	342,000
2007	334,000
2008	333,000
2009	251,000

	\$2,099,000
	=====

F-12

Rent expense amounted to approximately \$536,000, \$466,000 and \$405,000 for the years ended October 31, 2003, 2002 and 2001, respectively.

At October 31, 2003, the Company is committed under its agreements with certain developers for milestone payments and for acquisition of intellectual property rights aggregating \$4,100,000 through October 31, 2004.

At October 31, 2003, the Company had open letters of credit aggregating approximately \$3,656,000.

In September 2002, Rage Games Limited ("Rage") filed a complaint against the Company in the United States District Court for the District of New Jersey alleging the Company breached its two agreements with Rage and alleged claims based on an unjust enrichment theory, among other matters. Rage has, however, demanded full payment of "all amounts due and owing" under the agreements aggregating \$6,000,000, and royalties based on retail sales. The Company has asserted substantial defenses that the product was not fit for use and has asserted counterclaims for damages, including unjust enrichment in connection with the second agreement.

The National Association of Securities Dealers ("NASD") is conducting a review of certain unusual trading activity in the common stock of ConnectivCorp between the time of the signing of the letter of intent with respect to the merger of the Company and ConnectivCorp (see Note 14) and the date that ConnectivCorp announced that a letter of intent was signed. There also appears to be unusual trading activity around the time of the signing of the definitive agreement for the merger and prior to the announcement of such signing.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

Depending upon the outcome of the review by the NASD, the matter could be referred to the Securities and Exchange Commission for further action. If the Company is sanctioned or otherwise held liable for this trading, such sanctions could have a material adverse effect on the Company's reputation, listing, financial condition, results of operations and liquidity. In addition, it is possible that such matters may give rise to civil or criminal actions.

In the opinion of management and the advice of counsel, the Company has made adequate provision for potential liabilities, if any, arising from the above matters. However, the costs and other effects of pending or future litigation, governmental investigations, legal and administrative cases and proceedings (whether civil or criminal), settlements, judgments and investigations, claims and changes in those matters (including those matters described above), and developments or assertions by or against the Company relating to intellectual property rights and intellectual property licenses, could have a material adverse effect on the Company's business, financial condition and operating results.

14. SUBSEQUENT EVENTS

On December 5, 2003, the Company consummated a merger with ConnectivCorp, a substantially inactive company, in which ConnectivCorp exchanged 15,325,000 shares of its Common Stock and 925,000 shares of its Series A convertible preferred stock for all of the issued and outstanding common stock of the Company. (The Series A Preferred Stock is convertible into 65,675,000 shares of ConnectivCorp's common stock at anytime after ConnectivCorp amends its Certificate of Incorporation to increase its authorized common stock to allow for such conversion). As a result of the Merger, the Company became a wholly owned subsidiary of ConnectivCorp and its sole operating business. Pursuant to certain settlement agreements between ConnectivCorp and its creditors which were entered into prior to the merger with the Company, ConnectivCorp is obligated to pay these creditors \$750,000 upon the sale of at least \$10,000,000 of equity securities or convertible debt, if the sale occurs within one year of the closing of the merger. This transaction has been accounted for as a reverse acquisition whereby ConnectivCorp is treated as being acquired in a purchase transaction by the Company, as control rests with the former shareholders of the Company.

In November 2003, in connection with the settlement with Atari, the Company borrowed \$1,000,000 from the father-in-law of the Company's President. The loan is convertible into 2,000,000 shares of ConnectivCorp's common stock.

F-13

Effective February 17, 2004, in order to assist the Company in its financing efforts, the former principal shareholders of Majesco agreed to place 1 million shares of common stock received in the merger into escrow for five years to satisfy certain claims that may arise in the future.

As of February 17, 2004, ConnectivCorp has received subscriptions for 1,337 units, each unit consisting of (i) a share of 7% convertible preferred stock which is convertible into 10,000 shares of common stock and (ii) warrants to purchase, at an exercise price of \$1 per share, 10,000 shares of common stock pursuant to a private placement memorandum with accredited investors. In connection with the private placement, the subscribers deposited \$13,370,000 into escrow which will be released to ConnectivCorp upon the filing of Majesco's audited consolidated financial statements as of October 31, 2003 and 2002 and for each of the three years in the period ended October 31, 2003, along with certain pro forma information with the Securities and Exchange Commission. The release of the escrow to ConnectivCorp is also subject to customary closing conditions.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

15. RELATED PARTY TRANSACTIONS

The Company uses the services of a company in which the nephew of the Chairman is a principal for printing and packaging of the Company's products. During the years ended October 31, 2003 and 2002, the Company was charged approximately \$1,922,000 and \$672,000, respectively, for services provided which is included in the caption product costs in the accompanying consolidated statement of operations. At October 31, 2003 and 2002, the amounts due to this vendor are approximately \$876,000 and \$219,000, respectively, which are included in accounts payable and accrued expenses in the accompanying consolidated balance sheet. During the year ended October 31, 2001, this vendor was not used.

In addition, the father of the four principal shareholders who is also the Chairman advanced the Company \$200,000 during the year ended October 31, 2003. The amount was repaid in December 2003.

MAJESCO HOLDINGS INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

1. BASIS OF PRESENTATION AND PRINCIPAL BUSINESS ACTIVITY

On December 5, 2003, Majesco Holdings Inc. (formerly ConnectivCorp) ("MHI") consummated a merger with Majesco Sales Inc. ("MSI") (the "Merger"). As a result of the Merger, MSI became a wholly-owned subsidiary and the sole operating business of MHI (See Note 14). All financial information presented reflects the results of MSI as if MSI had acquired MHI on December 5, 2003.

Majesco Holdings Inc. and subsidiaries ("Majesco" or "Company") is a developer, publisher and marketer of interactive entertainment software. Majesco has released titles for all major video game platforms and handhelds, including Sony's PlayStation and PlayStation (Registered Trademark) 2, Nintendo's N64, Super Nintendo Entertainment System (SNES), Game Boy(TM), Game Boy(TM) Color, Game Boy(TM) Advance and GameCube(TM), Microsoft's Xbox(TM), Sega's Dreamcast, Genesis and Game Gear, and the personal computer ("PC"). Additionally, Majesco is a manufacturer of a number of accessories licensed by Nintendo. Majesco's customers include Wal-Mart, Target, Toys "R" Us, Best Buy, Electronics Boutique, Gamestop and other national and regional retailers. Internationally, Majesco's products are published through licensing agreements with other publishers.

On February 26, 2004, the Company completed a private placement of securities in which the Company sold for \$25.8 million, 2,583 units, each unit consisting of (i) one share of 7% convertible preferred stock and (ii) a warrant to purchase, at an exercise price of \$1.00 per share, ten thousand shares of common stock. Net proceeds to the Company were approximately \$22 million (See Note 7 - Preferred Stock Offering). The pro forma consolidated balance sheet as of January 31, 2004 assumes the private placement of securities and related transactions described in Note 7 occurred on that date.

The accompanying interim consolidated financial statements of the Company are unaudited, but in the opinion of management, reflect all adjustments,

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

consisting of normal recurring accruals, necessary for a fair presentation of the results for the interim period. Accordingly, they do not include all information and notes required by generally accepted accounting principles for complete financial statements. The results of operations for interim periods are not necessarily indicative of results to be expected for the entire fiscal year or any other period. These interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included herein elsewhere in this prospectus.

2. THE MERGER

On December 5, 2003, Majesco Holdings Inc. consummated a merger with MSI whereby CTTV Merger Corp., a wholly-owned subsidiary, merged with and into MSI and Majesco Holdings Inc. exchanged 15,325,000 shares of common stock and 925,000 shares of Series A preferred stock for all of the issued and outstanding common stock of MSI. The 925,000 shares of Series A preferred stock that were issued in the Merger were convertible into 65,675,000 shares of common stock at any time after MHI amended its certificate of incorporation to increase the authorized common stock to allow for such conversion. Pursuant to the merger agreement, MSI became a wholly-owned subsidiary of Majesco Holdings Inc. For accounting purposes, this merger has been accounted for as a reverse merger with MSI as the accounting acquirer. Costs incurred by the Company, principally professional fees in connection with the Merger, amounting to approximately \$342,000, were charged to operations during the quarter ended January 31, 2004.

MHI amended its Certificate of Incorporation on April 13, 2004 to increase its authorized common stock to 250,000,000 shares. In connection with the private placement of securities in February 2004, the holders of the Series A preferred stock surrendered to the Company for cancellation 352,112 shares of Series A preferred stock that were convertible into 24,999,952 shares of common stock and on April 23, 2004 (see Note 7 - Preferred Stock Offering), the holders converted their remaining 572,888 shares of Series A preferred stock into 40,675,048 shares of common stock.

F-19

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenue Recognition. The Company recognizes revenue upon shipment of its product when title and risk of loss are transferred. In order to recognize revenue, the Company must not have any continuing obligations and it must also be probable that the Company will collect the accounts receivable. For those agreements, which provide customers with the right to multiple copies in exchange for guaranteed minimum royalty amounts (such as under the Company's international distribution agreements), revenue is recognized at delivery of the product master or the first copy. Royalties on sales that exceed the guaranteed minimum are recognized as earned.

The Company generally sells its products on a no-return basis, although in certain instances, the Company may provide price protection or other allowances on certain unsold products. Price protection, when granted and applicable, allows customers a credit against amounts they owe the Company with respect to merchandise unsold by them. Revenue is recognized net of estimates of these allowances.

The Company estimates potential future product price protection and other allowances related to current period product revenue. The Company analyzes historical experience, current sell through of retailer inventory of the Company's products, current trends in the videogame market, the overall economy, changes in customer demand and acceptance of the Company's products and other related factors when evaluating the adequacy of price protection and other

allowances.

Sales incentives or other consideration given by the Company to customers that are considered adjustments of the selling price of its products, such as rebates and product placement fees, are reflected as reductions of revenue. Sales incentives and other consideration that represent costs incurred by the Company for assets or services received, such as the appearance of the Company's products in a customer's national circular advertisement, are reflected as selling and marketing expenses.

Software Development Costs and Intellectual Property Licenses. Software development costs include milestone payments made to independent software developers under development arrangements. Software development costs are capitalized once technological feasibility of a product is established and such costs are determined to be recoverable against future revenues. For products where proven game engine technology exists, this may occur early in the development cycle. Technological feasibility is evaluated on a product-by-product basis. Amounts related to software development that are not capitalized are charged immediately to development costs. Intellectual property license costs represent license fees paid to intellectual property rights holders for use of their trademarks or copyrights in the development of the Company's products.

Commencing upon the related product's release, capitalized software development and property licenses costs are amortized to cost of sales based upon the higher of (i) the contractual rate based on actual net product sales or (ii) the ratio of current revenue to total projected revenue. The recoverability of capitalized software development costs and intellectual property licenses is evaluated based on the expected performance of the specific products for which the costs relate. The following criteria are used to evaluate expected product performance: historical performance of comparable products using comparable technology; orders for the product prior to its release; and estimated performance of a sequel product based on the performance of the product on which the sequel is based.

Earnings per share. Basic and diluted loss per share for the three months ended January 31, 2003 is computed by dividing net loss by the number of shares or voting rights exchanged for the 1,000 MSI shares actually outstanding (15,325,000 shares of common stock and the additional 65,675,000 shares of common stock issuable upon the conversion of the 925,000 shares of preferred stock or 81,000,000, in total). Basic earnings per share for the three months ended January 31, 2004 is computed by dividing net income by the weighted-average number of voting rights attributable to the MSI shareholders (81,000,000) and adding the shares deemed to be issued for the acquisition of MHI by MSI. Diluted earnings per share for the three months ended January 31, 2004 has not been presented since the effect of outstanding options and warrants would be antidilutive.

F-20

4. SETTLEMENT OBLIGATION

In August 2003, the U.S. District Court of Massachusetts, in *Infogrames Interactive, Inc. v. Majesco Sales Inc.*, entered judgment against MSI in the approximate amount of \$6.7 million pursuant to a breach of contract action. In December 2003, the Company settled the case by agreeing to pay Atari Interactive, Inc. (formerly Infogrames Interactive, Inc.) ("Atari") \$6.7 million as follows: (a) \$1 million no later than two weeks after signing of the settlement agreement (the "Effective Date"), which amount was borrowed and paid (See Note 5 - Loan Payable - Related Party); (b) \$2.5 million upon the first to occur of (1) the Company receiving a total of \$15 million or more in third party

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

financing (subject to various terms and conditions) (the "Financing Date") or (2) June 30, 2004; (c) \$1 million on the earlier of one year from the Financing Date or June 30, 2005, with interest at 5% per annum; and (d) \$2.2 million on a date which is 42 months from the Effective Date, such payment accruing interest at the rate of 5% per annum from the earlier of the Financing Date or June 30, 2004. As a result of the Preferred Stock Offering (See Note 7 - Preferred Stock Offering) the Company paid \$2.5 million to Atari on March 9, 2004.

As collateral security for all of MSI's obligations under the Settlement Agreement, MSI granted Atari a continuing security interest in all of its assets, to the extent permitted under it's existing or future indebtedness.

Consistent with the security interest granted to Atari, MSI also agreed to assign to Atari its right to receive all revenue under certain of its distribution agreements, which assignment will be released under certain circumstances. Such revenues are payable to Atari in order to satisfy MSI's obligations described in (c) above and thereafter to satisfy the obligations described in (b) above; provided that regardless of revenues received under these agreements, MSI is obligated to pay to Atari, no later than March 31, 2004, on account of the obligations described in (c) above, \$500,000 in immediately available funds.

MSI also agreed that until full and final payment of all obligations to Atari, without Atari's prior consent, it will not, directly or indirectly (a) create, guarantee or otherwise become liable with respect to any indebtedness, except in the ordinary course of its business (b) create, incur or assume any liens, except in the ordinary course of its business (c) liquidate, merge, consolidate, reorganize or dispose of any of its assets, (d) except with respect to previously existing affiliate loans not exceeding \$6 million, make any distribution to any of its principals or their affiliates, (e) enter into any transaction with any of its principals or their affiliates, except in the ordinary course of its business, (f) suspend or go out of business, or (g) except under certain circumstances, increase the pay or compensation of any of its affiliates. As more fully described under the caption "Legal Proceedings" all further obligations to Atari were satisfied by the payment of \$1,500,000 in May 2004.

5. LOAN PAYABLE - RELATED PARTY

In November 2003, in connection with the settlement with Atari, MSI borrowed \$1 million from the father-in-law of MSI's President. The loan was convertible into 2,000,000 shares of MHI's common stock upon such time as there is a sufficient number of authorized shares of common stock to allow for the conversion of the loan. The loan was subsequently converted into common stock in April 2004.

6. COMMITMENTS AND CONTINGENCIES

The Company may utilize forward contracts in order to reduce financial market risks. These instruments are used to hedge foreign currency exposures of underlying assets, liabilities, or certain forecasted foreign currency denominated transactions. The Company does not use forward exchange contracts for speculative or trading purposes. The Company's accounting policies for these instruments are based on whether they meet the criteria for designation as hedging transactions. The fair value of foreign currency contracts is estimated based on the spot rate of the hedged currency as of the end of the period. As of January 31, 2004, the fair value of the contract outstanding was approximately \$4.9 million, which required the Company to record an unrealized loss of \$315,000 during the three month period ended January 31, 2004. The risk of counter party nonperformance associated with this contract was not considered to be material. Notwithstanding the Company's efforts to manage foreign exchange risk, there can be no assurance that the Company's hedging activities will

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

adequately protect against the risks associated with foreign currency fluctuations.

F-21

At January 31, 2004, the Company is committed under its agreements with certain developers for milestone and license fee payments aggregating \$4.3 million through October 31, 2004.

At January 31, 2004, the Company had open letters of credit aggregating \$1.4 million under the Company's purchase order assignment arrangement for inventory to be delivered during the subsequent quarter.

In September 2002, Rage Games Limited ("Rage") filed a complaint against MSI in the United States District Court for the District of New Jersey alleging MSI breached its two agreements with Rage and alleged claims based on an unjust enrichment theory, among other matters. Rage has, however, demanded full payment of "all amounts due and owing" under the agreements aggregating \$6 million, and royalties based on retail sales. MSI has asserted substantial defenses that the products were not fit for use and has asserted counterclaims for damages, including unjust enrichment in connection with the second agreement.

In December 2003, the Company was notified by the interactive game publisher that distributes the Company's videogames in Europe that it was terminating the license and distribution agreement as a result of the Company's failure to obtain such party's consent to the assignment of such agreement in connection with the Merger. The Company is in discussion with the publisher who has indicated an interest in entering into a new contract under revised terms, however, there can be no assurance that the Company will be successful in negotiating a new contract on acceptable terms, or at all.

On December 17, 2003 the Company received a letter from the NASD's Market Regulation Department stating that the NASD was conducting a review of unusual trading activity in the Company's common stock between the time of the signing of the letter of intent with respect to the Merger and the date that the Company announced that a letter of intent was signed. There also appears to be unusual trading activity around the time of the signing of the definitive agreement for the Merger and prior to the announcement of such signing.

By letter dated April 22, 2004, the NASD indicated that it had concluded its review and thanked us for our cooperation in the review. The letter indicated that the NASD referred the matter to the SEC for action, if any, the SEC deems appropriate. The letter concluded that "This referral should not be construed as indicating that any violations of the federal securities laws or the NASD Conduct Rules have occurred, or as a reflection upon the merits of the security involved or upon any person who effected transactions in such security." If the Company is sanctioned or otherwise held liable for this trading any such sanctions could have a material adverse effect on the Company's reputation, listing, financial condition, results of operations and liquidity. In addition, it is possible that such matters may give rise to civil or criminal actions.

In the opinion of management, upon the advice of counsel, the Company has made adequate provision for the potential liability, if any, arising from the above mentioned matters. However, the costs and other effects of pending or future litigation, governmental investigations, legal and administrative cases and proceedings (whether civil or criminal), settlements, judgments and investigations, claims and changes in those matters (including those matters described above), and developments or assertions by or against the Company relating to intellectual property rights and intellectual property licenses, could have a material adverse effect on the Company's business, financial

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

condition and operating results.

7. PREFERRED STOCK OFFERING

On February 26, 2004, the Company completed a private placement of securities in which the Company raised approximately \$25.8 million in gross proceeds from a group of institutional and accredited investors. The private placement resulted in net proceeds of approximately \$22 million after deducting the placement agent fees and other expenses related to the private placement. In addition, the placement agent received warrants to purchase up to 268 units, exercisable for five years from the date of issuance.

Pursuant to the terms of the private placement, the Company issued 2,583 units, each unit consisting of (i) one share of 7% convertible preferred stock, convertible into 10,000 shares of common stock and (ii) a three year warrant to purchase 10,000 shares of common stock at an exercise price of \$1.00 per share.

F-22

Each share of 7% preferred stock entitles the holder to receive a 7% cumulative dividend payable solely in shares of common stock, on an annual basis. In addition, the holders of the 7% preferred stock are entitled to share in any dividends paid on the common stock on an "as converted" basis. The holders of the 7% preferred stock are entitled to a liquidation preference equal to the amount invested per share, plus any accrued and unpaid dividends. The 7% preferred stock has voting rights on an "as-converted" basis and votes together with the common stock as one class, except as otherwise required by law. In addition, so long as 51% of the currently outstanding 7% preferred stock remains outstanding, the Company will not issue any capital stock, or securities convertible into capital stock, that is senior to the 7% preferred stock.

Each share of 7% preferred stock will automatically convert into common stock at a conversion price of \$1.00 per share at such time as the closing price of the common stock is equal to or greater than \$2.50 per share for a 60 consecutive calendar day period, provided that during such 60 consecutive calendar day period, the average daily trading volume for each day is equal to or greater than 75,000 shares, and that the registration statement as to the resale of the common stock underlying the 7% preferred stock and the warrants is in effect. The Company may call the warrants issued in the private placement for \$.001 per share of common stock underlying the warrants upon achievement of similar conditions as identified in the preceding sentence.

Pursuant to the terms of the 7% preferred stock, the Company agreed within 120 days of closing of the private placement to expand the size of the Board of Directors to seven members. Four of the seven members are to be "independent," and two of those independent members are to be nominated by the holders of the 7% preferred stock, so long as 51% of the currently outstanding 7% preferred stock remains outstanding.

The Company used \$3.3 million of the net proceeds to pay certain creditors, including \$2.5 million for a previously negotiated settlement amount to Atari Interactive, Inc. and approximately \$2.5 million to repay portions of loans previously made to the Company by two of the Company's executive officers. In order to satisfy the remaining balance of the loans previously provided by the two executive officers, the Company agreed to issue to them, in the aggregate, 100 units. The Company will use the remaining balance of the proceeds for working capital purposes. In connection with the private placement, the holders of the Series A preferred stock surrendered an aggregate of 352,112 shares of their Series A convertible preferred stock, which were convertible into approximately 25,000,000 shares of common stock. Prior to the offering the stockholders also agreed to place 1,000,000 shares of their common stock into

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

escrow for five years to satisfy certain claims that may arise.

After giving effect to the private placement, the Company had outstanding 38,178,392 shares of common stock, 572,888 shares of Series A convertible preferred stock and 2,683 shares of 7% convertible preferred stock. Upon the effectiveness of an amendment to the Company's certificate of incorporation authorizing additional shares of common stock, which occurred on April 13, 2004, the Series A preferred stock, the 7% preferred stock and other outstanding obligations was converted into an aggregate of 69,505,048 shares of common stock.

All of the holders of the Company's Series A convertible preferred stock have agreed not to sell or otherwise dispose of any of the Company's securities held by such persons, subject to certain exceptions and without the consent of the placement agent, for a period of one year commencing upon the effectiveness of the registration statement. Additionally, certain holders of greater than 5% of the outstanding common stock have agreed not to sell or otherwise dispose of any securities of the Company held by such persons, subject to certain exceptions and without the consent of the placement agent, for a period of 90 days commencing one week prior to the final closing of the private placement.

The securities sold in the private placement or issuable upon exercise or conversion of securities sold in the private placement have not been registered under the Securities Act of 1933 and may not be offered or sold in the United States in the absence of an effective registration statement or exemption from registration requirements. The Company has agreed to file a registration statement with the SEC by May 25, 2004, to register for resale the common stock underlying the 7% preferred stock, the warrants, and the securities underlying the placement agent's warrants. In the event the Company does not file such registration statement by May 25, 2004, the Company shall be obligated to pay liquidated damages to each investor in the private placement, equal to 1.5% of each such investor's initial investment for each thirty

F-23

day period that the Company fails to file the registration statement. In addition, in the event the registration statement is not declared effective by the SEC by August 23, 2004, the Company shall be obligated to pay liquidated damages to each investor, equal to 3.0% of such investor's initial investment for each thirty day period the registration statement is not declared effective. None of the securities issued in the private placement are convertible or exercisable, as applicable, unless and until such time as there are a sufficient number of shares of authorized common stock to allow for all such securities to be converted or exercised, which increase occurred on April 13, 2004.

In accordance with Emerging Issues Task Force Issue 00-19 ("EITF 00-19"), Accounting for Derivative Financial Instruments Indexed To, and Potentially Settled in, a Company's Own Stock", the Company will initially account for the fair value of the warrants as a liability until the above mentioned registration statement is declared effective. As of the closing date of the private placement the fair value of the warrants was approximately \$21 million calculated utilizing the Black-Scholes option pricing model. In addition, changes in the market value of the Company's common stock from the closing date through the effective date of the registration statement will result in non-cash charges or credits to operations to reflect the change in fair value of the warrants during this period. At the effective date, the fair value of the warrants will be reclassified to equity.

8. INCOME TAXES

During the three month period ended January 31, 2004, the Company

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

recorded a deferred income tax asset for the tax effect of net operating loss carryforwards and temporary differences related to certain litigation expenses which were recorded for financial reporting purposes in prior years and not deductible for tax purposes until paid, aggregating approximately \$6.2 million. In recognition of the uncertainty regarding the ultimate amount of income tax benefits to be derived, the Company has recorded a valuation allowance of \$6.2 million at January 31, 2004. MHI's net operating loss carryforwards of approximately \$12.6 million, which arose prior to the Merger, are subject to limitations based on change of control and ownership changes.

In addition, no current provision for income taxes was provided for the 2004 period due to the deductibility of certain payments related to settlement obligations for income tax purposes when paid. During the three month period ended January 31, 2004 the Company paid approximately \$1,065,000 towards the settlement obligation accrued in the prior year that offset the taxable income for the three months ended January 31, 2004.

Prior to November 1, 2003, the Company elected to be treated as an S Corporation under the provisions of the Internal Revenue Code and as a result, income taxes were the responsibility of the individual shareholders. Effective November 1, 2003, the Company revoked its S Corporation election.

ITEM 14. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

The Delaware General Corporation Law authorizes corporations to limit or eliminate, subject to certain conditions, the personal liability of directors to corporations and their stockholders for monetary damages for breach of their

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

fiduciary duties. Our certificate of incorporation limits the liability of our directors to the fullest extent permitted by Delaware law.

We have obtained director and officer liability insurance to cover liabilities of our directors and officers that may occur in connection with their services to us, including matters arising under the Securities Act of 1933 (the "Securities Act"). Our certificate of incorporation and bylaws also provide that we will indemnify and advance expenses to, to the fullest extent permitted by the Delaware General Corporation Law, any of our directors and officers, against any and all costs, expenses or liabilities incurred by them by reason of having been a director or officer.

Such limitation of liability and indemnification does not affect the availability of equitable remedies. In addition, we have been advised that in the opinion of the SEC, indemnification for liabilities arising under the Securities Act is against public policy as expressed in the Securities Act and is therefore unenforceable.

There is no pending litigation or proceeding involving any of our directors, officers, employees or agents in which indemnification will be required or permitted. We are not aware of any threatened litigation or proceeding that may result in a claim for such indemnification.

ITEM 15. RECENT SALES OF UNREGISTERED SECURITIES.

The sale and issuance of the securities described in paragraphs 1 - 6 below were deemed to be exempt from registration under the Securities Act by virtue of Section 4(2) or Regulation D promulgated thereunder. No underwriter was involved with these transactions.

1. On March 18, 2002, we issued 1,205,000 shares of common stock to our then officers and directors in exchange for services provided to the company, and in conjunction with such issuance, recognized \$22,475 of compensation expense. During the same period, we issued 500,000 shares of common stock to satisfy \$42,292 of accounts payable outstanding at December 31, 2001.

II-2

2. During the quarter ended March 31, 2002, we issued 2,960,000 shares of our common stock to consultants as compensation for services rendered in connection with the letter of intent to acquire Aqua Development Corp. and in conjunction with such issuance, recognized consulting expense of \$58,922.
3. During the six months ended June 30, 2002, we raised \$297,500 through the issuance of 2,975,000 shares of our common stock at \$0.10 per share to four of our existing shareholders and consultants.
4. During the nine months ended September 30, 2003, we raised \$175,000 through the issuance of 1,750,000 shares of our common stock at \$0.10 per share to various accredited investors. In addition, during such period, we issued 250,000 shares of common stock at \$0.10 per share to satisfy a \$25,000 loan payable.
5. During the period from October 1, 2003 through December 5, 2003, we raised \$507,200 through the sale of 5,072,000 shares of common stock at \$0.10 per share to accredited investors.
6. On December 5, 2003, we consummated a merger with Majesco Sales Inc. ("Majesco"), whereby CTTV Merger Corp., our wholly-owned subsidiary, merged with and into Majesco. Pursuant to the merger, the stockholders of Majesco received 15,325,000 shares of our common stock and 925,000 shares of series

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

A convertible preferred stock in exchange for all of the issued and outstanding common stock of Majesco. On April 23, 2004, the holders of the series A convertible preferred stock converted, in the aggregate, 572,888 shares, representing all of the series A convertible preferred stock issued and outstanding immediately prior to their conversion, into 40,675,048 shares of our common stock.

7. On February 26, 2004, we raised gross proceeds of approximately \$25.8 million in a private placement in which we issued to accredited investors 2,583 units, each unit consisting of (i) one share of our 7% convertible preferred stock, convertible into 10,000 shares of our common stock and (ii) a three year warrant to purchase 10,000 shares of our common stock at an exercise price of \$1.00 per share. The net proceeds of the private placement were used as follows: (i) approximately \$3.3 million to pay certain creditors, including part of a previously negotiated settlement amount to Atari Interactive, Inc.; (ii) approximately \$2.5 million to repay portions of loans previously made to us by Jesse Sutton, our President and Chief Executive Officer, and Joseph Sutton, our Executive Vice President of Research & Development; and (iii) the remainder for working capital purposes. In addition, JMP Securities LLC, the placement agent, in the private placement received a warrant to purchase up to 268 units, on the same terms as such were issued to the investors.
8. During November 2003, we issued 302,000 shares of common stock to CEOcast, Inc. and 160,000 shares of common stock to Hayden Communications, Inc. at \$.10 per share pursuant to consultation agreements with these firms, as compensation for services.
9. During December 2003, we issued 100,000 shares of common stock to Mintz, Levin, Cohn, Ferris, Glovsky and Popeo, P.C., pursuant to a settlement agreement, as compensation for services.

ITEM 16. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES.

- * To be filed by amendment or as an exhibit to a report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 and incorporated by reference into this document.

(b) FINANCIAL STATEMENT SCHEDULES

Financial Statement Schedules are omitted because the information is included in our financial statements or notes to those financial statements.

ITEM 17. UNDERTAKINGS

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales of securities are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or

II-3

the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

(2) That, for purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered, and the offering of such securities at that time to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

II-4

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the Registrant certifies that it has duly caused this Registration Statement to be signed on its behalf by the undersigned, thereunto duly authorized, in Edison, New Jersey on May 24, 2004.

MAJESCO HOLDINGS INC.

By: /s/ Jesse Sutton
Jesse Sutton
President & Chief Executive Officer

POWER OF ATTORNEY

We the undersigned officers and directors of Majesco Holdings Inc., hereby severally constitute and appoint Jesse Sutton and Jan E. Chason, and each of

Edgar Filing: MAJESCO HOLDINGS INC - Form S-1

them singly (with full power to each of them to act alone), our true and lawful attorneys-in-fact and agents, with full power of substitution and resubstitution in each of them for him and in his name, place and stead, and in any and all capacities, to sign any and all amendments (including post-effective amendments) to this Registration Statement (or any other Registration Statement for the same offering that is to be effective upon filing pursuant to Rule 462(b) under the Securities Act of 1933), and to file the same, with all exhibits thereto and other documents in connection therewith, with the Securities and Exchange Commission, granting unto said attorneys-in-fact and agents, and each of them, full power and authority to do and perform each and every act and thing requisite or necessary to be done in and about the premises, as full to all intents and purposes as he might or could do in person, hereby ratifying and confirming all that said attorneys-in-fact and agents or any of them or their or his substitute or substitutes may lawfully do or cause to be done by virtue hereof.

Pursuant to the requirements of the Securities Act of 1933, this Registration Statement has been signed by the following persons in the capacities held on the dates indicated.

SIGNATURE -----	TITLE -----
/s/ Jesse Sutton ----- Jesse Sutton	President and Chief Executive Officer (principal executive officer) and Director
/s/ Jan E. Chason ----- Jan E. Chason	Chief Financial Officer (principal financial and accounting officer)
/s/ Morris Sutton ----- Morris Sutton	Chairman of the Board of Directors
/s/ Joseph Sutton ----- Joseph Sutton	Executive Vice President - Research and Development and Director
/s/ Louis Lipschitz ----- Louis Lipschitz	Director
