(Address of principal executive offices) (Zip code)

Jerry W. Miller
522 Fifth Avenue, New York, New York 10036
(Name and address of agent for service)

Registrant's telephone number, including area code: 212-762-4000

Date of fiscal year end: 12/31

Date of reporting period: 6/30/08

Item 1. Report to Shareholders.

The Trust's semi-annual report transmitted to shareholders pursuant to Rule 30e-1 under the Investment Company Act of 1940 is as follows:

Welcome, Shareholder

In this report, you'll learn about how your investment in Van Kampen High Income Trust II performed during the semiannual period. The portfolio management team will provide an overview of the market conditions and discuss some of the factors that affected investment performance during the reporting period. In addition, this report includes the trust's financial statements and a list of trust investments as of June 30, 2008.

MARKET FORECASTS PROVIDED IN THIS REPORT MAY NOT NECESSARILY COME TO PASS. THERE IS NO ASSURANCE THAT THE TRUST WILL ACHIEVE ITS INVESTMENT OBJECTIVE. TRUSTS ARE SUBJECT TO MARKET RISK, WHICH IS THE POSSIBILITY THAT THE MARKET VALUES OF SECURITIES OWNED BY THE TRUST WILL DECLINE AND THAT THE VALUE OF TRUST SHARES MAY THEREFORE BE LESS THAN WHAT YOU PAID FOR THEM. ACCORDINGLY, YOU CAN LOSE MONEY INVESTING IN THIS TRUST.

Performance Summary as of 6/30/2008

HIGH INCOME TRUST II
SYMBOL: VLT

AVERAGE ANNUAL TOTAL RETURNS	BASED ON NAV	BASED ON MARKET PRICE
Since Inception (4/28/89)	4.98%	4.46%
10-year	1.95	-0.35
5-year	5.45	1.07
1-year	-5.26	-9.08
6-month	-7.18	-5.16

PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE, WHICH IS NO GUARANTEE OF FUTURE RESULTS, AND CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN THE FIGURES SHOWN. FOR THE MOST RECENT MONTH-END PERFORMANCE FIGURES, PLEASE VISIT VANKAMPEN.COM OR SPEAK WITH YOUR FINANCIAL ADVISOR. INVESTMENT RETURNS, NET ASSET VALUE (NAV) AND COMMON SHARE MARKET PRICE WILL FLUCTUATE AND TRUST SHARES, WHEN SOLD, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST.

NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities and preferred shares, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the trust at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the trust's dividend reinvestment plan, and sale of all shares at the end of the period. The trust's adviser has waived or reimbursed fees and expenses from time to time; absent such waivers/reimbursements the trust's returns would have been lower. Periods of less than one year are not annualized.

The Lehman Brothers U.S. Corporate High Yield 2% Issuer Cap Index is an unmanaged, broadbased index that reflects the general performance of the U.S. dollar denominated, fixed-rate, non-investment grade, taxable corporate bond market. Issuers are capped at 2% of the index. It is not possible to invest directly in an index.

1

Trust Report

FOR THE SIX-MONTH PERIOD ENDED JUNE 30, 2008

MARKET CONDITIONS

Volatility remained high throughout the six-month reporting period as a combination of tight credit conditions and a worsening economic outlook weighed

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

on the market. In the first quarter of 2008, the Federal Reserve (the "Fed") continued its aggressive efforts to boost liquidity and the economy, including lowering the target federal funds rate by 200 basis points. The markets continued to struggle, however, as mortgage-related writedowns by financial institutions continued to mount and economic growth appeared to be slowing, prompting concerns of recession. As the quarter neared a close, news that the Fed had orchestrated the purchase of Bear Stearns by JPMorgan Chase at a fraction of its share price just weeks earlier further roiled the markets and led to fears that the entire financial system was in trouble. In this environment, the high yield bond market turned in its worst quarterly performance in history as weaker economic data, poor earnings releases, rising defaults and poor liquidity pushed prices considerably lower, leading to a first-quarter return of -2.97 percent (as measured by the Lehman Brothers U.S. Corporate High Yield 2% Issuer Cap Index). As would be expected in a declining market, lower-quality high yield bonds underperformed higher-quality issues.

Early in the second quarter, however, the Fed's efforts to enhance liquidity began to take hold. Investors began to take on risk, and the high yield market rebounded in April and May. In June, concerns about inflation grew, prompting the Fed to hold the target federal funds rate steady at 2.0 percent, where it had stood since the Fed's last rate cut in April, and the market to speculate that its easing campaign had finally come to an end. Inflationary pressures, coupled with new credit-related concerns caused investors to again question the outlook for the market and the economy. As a result, the high yield market reversed course, giving back much of the gains realized in the first two months of the quarter. Nonetheless, the high yield bond market returned 1.95 percent, beating equities for the second consecutive quarter. All high yield ratings categories had positive returns in the second quarter, with lower-quality bonds outperforming higher-quality bonds. High yield spreads tightened by 80 basis points during the second quarter, ending the reporting period 736 basis points over Treasuries. New high yield issuance remained low and while industry returns varied considerably, finance companies were consistently among the worst performers.

2

PERFORMANCE ANALYSIS

The Trust's return can be calculated based upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the Trust's portfolio securities, cash and other assets, less all liabilities and preferred shares, by the total number of common shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns can differ, as they did during the reporting period. The Trust underperformed its benchmark index, the Lehman Brothers U.S. Corporate High Yield 2% Issuer Cap Index, on both an NAV and market price basis.

TOTAL RETURN FOR THE SIX-MONTH PERIOD ENDED JUNE 30, 2008

	LEHMAN BROTHERS U.S. CORPORATE HIGH YIELD 2% ISSUER CAP INDEX
BASED ON NAV	BASED ON MARKET PRICE
-7.18%	-5.16%
	-1.08%

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

Performance data quoted represents past performance, which is no guarantee of future results, and current performance may be lower or higher than the figures shown. Investment return, net asset value and common share market price will fluctuate and Trust shares, when sold, may be worth more or less than their original cost. See Performance Summary for additional performance information and index definition.

The Trust's underperformance versus the benchmark was due in part to its higher relative credit quality. Although this defensive positioning was beneficial early in the period when the higher quality sector of the market outperformed the lower quality sector, it held back returns later in the period when lower quality issues had stronger results. The Trust's holdings in mortgage securities also held back performance as prices declined over the course of the period.

The Trust maintained an overweight relative to the benchmark in the health care sector, which was additive to returns as the sector performed well during the period. Additionally, the portfolio held no investments in the airline sector, which was beneficial as the sector struggled amid rising fuel prices.

Throughout the period, we continued to seek to maintain a balanced and well-diversified portfolio while allowing for strategic overweights in securities and sectors that we believed possessed the most attractive risk profiles. In terms of issuer size, we focused on larger companies because of their financial flexibility, their ability to withstand less favorable financial conditions, and their superior access to capital markets. At the end of the period, the Trust's major sector overweights included health care, energy, and chemicals. Key sector underweights included technology, buildings products/home builders, and manufacturing.

The Trust uses leverage to enhance its dividend to common shareholders. The Trust borrows money at short-term rates through the issuance of preferred shares. The proceeds are reinvested in longer-term securities, taking advantage

3

of the difference between short- and longer-term rates. During the course of the period, the Trust's borrowing activity became more expensive, thereby tempering its benefits.

Although credit spreads narrowed somewhat during the second quarter, they still remained much wider than long-term averages at the end of the period. As such, we are seeking opportunities to increase the portfolio's risk profile to a more neutral, rather than defensive, stance.

There is no guarantee that any sectors mentioned will continue to perform as discussed herein or that securities in such sectors will be held by the Trust in the future.

Van Kampen is a wholly owned subsidiary of a global securities firm which is engaged in a wide range of financial services including, for example, securities trading and brokerage activities, investment banking, research and analysis, financing and financial advisory services.

5

PORTFOLIO MANAGEMENT CHANGE

Van Kampen High Income Trust II is managed by members of the Adviser's Taxable Fixed Income team. The Taxable Fixed Income team consists of

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

portfolio managers and analysts. The current member of the team primarily responsible for the day-to-day management of the Trust's portfolio is Steven K. Kreider, a Managing Director of the Adviser. Mr. Kreider has been associated with the Adviser in an investment management capacity since 1988 and began managing the Trust in June 2007.

FOR MORE INFORMATION ABOUT PORTFOLIO HOLDINGS

Each Van Kampen fund provides a complete schedule of portfolio holdings in its semiannual and annual reports within 60 days of the end of the fund's second and fourth fiscal quarters. The semiannual reports and the annual reports are filed electronically with the Securities and Exchange Commission (SEC) on Form N-CSRS and Form N-CSR, respectively. Van Kampen also delivers the semiannual and annual reports to fund shareholders, and makes these reports available on its public Web site, www.vankampen.com. In addition to the semiannual and annual reports that Van Kampen delivers to shareholders and makes available through the Van Kampen public Web site, each fund files a complete schedule of portfolio holdings with the SEC for the fund's first and third fiscal quarters on Form N-Q. Van Kampen does not deliver the reports for the first and third fiscal quarters to shareholders, nor are the reports posted to the Van Kampen public Web site. You may, however, obtain the Form N-Q filings (as well as the Form N-CSR and N-CSRS filings) by accessing the SEC's Web site, <http://www.sec.gov>. You may also review and copy them at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the SEC's Public Reference Room may be obtained by calling the SEC at (800) SEC-0330. You can also request copies of these materials, upon payment of a duplicating fee, by electronic request at the SEC's e-mail address (publicinfo@sec.gov) or by writing the Public Reference section of the SEC, Washington, DC 20549-0102.

You may obtain copies of a fund's fiscal quarter filings by contacting Van Kampen Client Relations at (800) 341-2929.

PROXY VOTING POLICY AND PROCEDURES AND PROXY VOTING RECORD

You may obtain a copy of the Trust's Proxy Voting Policy and Procedures without charge, upon request, by calling toll free (800) 341-2929 or by visiting our Web site at www.vankampen.com. It is also available on the Securities and Exchange Commission's Web site at <http://www.sec.gov>.

6

You may obtain information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 without charge by visiting our Web site at www.vankampen.com. This information is also available on the Securities and Exchange Commission's Web site at <http://www.sec.gov>.

In addition to filing a complete schedule of portfolio holdings with the SEC each fiscal quarter, the Trust makes portfolio holdings information available by periodically providing the information on its public website, www.vankampen.com. The Trust provides a complete schedule of portfolio holdings on the public web site on a calendar-quarter basis approximately 31 calendar days after the close of the calendar quarter. The Trust also provides Top 10 holdings information on the public web site approximately 15 business days following the end of each month. For more information, call (800) 341-2929.

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

Investment Advisory Agreement Approval

Both the Investment Company Act of 1940 and the terms of the Fund's investment advisory agreement require that the investment advisory agreement between the Fund and its investment adviser be approved annually both by a majority of the Board of Trustees and by a majority of the independent trustees voting separately.

At meetings held on April 15, 2008 and May 8, 2008, the Board of Trustees, and the independent trustees voting separately, considered and ultimately determined that the terms of the investment advisory agreement are fair and reasonable and approved the continuance of the investment advisory agreement as being in the best interests of the Fund and its shareholders. In making its determination, the Board of Trustees considered materials that were specifically prepared by the investment adviser at the request of the Board and Fund counsel, and by an independent provider of investment company data contracted to assist the Board, relating to the investment advisory agreement review process. The Board also considered information received periodically about the portfolio, performance, the investment strategy, portfolio management team and fees and expenses of the Fund. Finally, the Board considered materials it had received in approving a voluntary waiver of advisory fees effective July 1, 2006. The Board of Trustees considered the investment advisory agreement over a period of several months and the trustees held sessions both with the investment adviser and separate from the investment adviser in reviewing and considering the investment advisory agreement.

In approving the investment advisory agreement, the Board of Trustees considered, among other things, the nature, extent and quality of the services provided by the investment adviser, the performance, fees and expenses of the Fund compared to other similar funds and other products, the investment adviser's expenses in providing the services and the profitability of the investment adviser and its affiliated companies. The Board of Trustees considered the extent to which any economies of scale experienced by the investment adviser are shared with the Fund's shareholders, and the propriety of breakpoints in the Fund's investment advisory fee schedule. The Board of Trustees considered comparative advisory fees of the Fund and other investment companies and/or other products at different asset levels, and considered the trends in the industry. The Board of Trustees evaluated other benefits the investment adviser and its affiliates derive from their relationship with the Fund. The Board of Trustees reviewed information about the foregoing factors and considered changes, if any, in such information since its previous approval. The Board of Trustees discussed the financial strength of the investment adviser and its affiliated companies and the capability of the personnel of the investment adviser, and specifically the strength and background of its portfolio management personnel. The Board of Trustees reviewed the statutory and regulatory requirements for approval and disclosure of investment advisory agreements. The Board of Trustees, including the independent trustees,

8

evaluated all of the foregoing and does not believe any single factor or group of factors control or dominate the review process, and, after considering all factors together, has determined, in the exercise of its business judgment, that approval of the investment advisory agreement is in the best interests of the Fund and its shareholders. The following summary provides more detail on certain matters considered but does not detail all matters considered.

Nature, Extent and Quality of the Services Provided. On a regular basis, the Board of Trustees considers the roles and responsibilities of the investment adviser as a whole and for those specific portfolio management, support and

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

trading functions servicing the Fund. The trustees discuss with the investment adviser the resources available and used in managing the Fund and changes made in the Fund's portfolio management team and the Fund's portfolio management strategy over time. The trustees also discuss certain other services which are provided on a cost-reimbursement basis by the investment adviser or its affiliates to the Van Kampen funds including certain accounting, administrative and legal services. The Board has determined that the nature, extent and quality of the services provided by the investment adviser support its decision to approve the investment advisory agreement.

Performance, Fees and Expenses of the Fund. On a regular basis, the Board of Trustees reviews the performance, fees and expenses of the Fund compared to its peers and to appropriate benchmarks. In addition, the Board spends more focused time on the performance of the Fund and other funds in the Van Kampen complex, paying specific attention to underperforming funds. The trustees discuss with the investment adviser the performance goals and the actual results achieved in managing the Fund. When considering a fund's performance, the trustees and the investment adviser place emphasis on trends and longer-term returns (focusing on one-year, three-year and five-year performance with special attention to three-year performance) and, when a fund's weighted performance is under the fund's benchmark, they discuss the causes and where necessary seek to make specific changes to investment strategy or investment personnel. The Fund discloses more information about its performance elsewhere in this report. The trustees discuss with the investment adviser the level of advisory fees for this Fund relative to comparable funds and other products advised by the adviser and others in the marketplace. The trustees review not only the advisory fees but other fees and expenses (whether paid to the adviser, its affiliates or others) and the Fund's overall expense ratio. The Board has determined that the performance, fees and expenses of the Fund support its decision to approve the investment advisory agreement.

Investment Adviser's Expenses in Providing the Service and Profitability. At least annually, the trustees review the investment adviser's expenses in providing services to the Fund and other funds advised by the investment adviser and the profitability of the investment adviser. These profitability reports are put together by the investment adviser with the oversight of the Board. The trustees discuss with the investment adviser its revenues and expenses, including among

9

other things, revenues for advisory services, portfolio management-related expenses, revenue sharing arrangement costs and allocated expenses both on an aggregate basis and per fund. The Board has determined that the analysis of the investment adviser's expenses and profitability support its decision to approve the investment advisory agreement.

Economies of Scale. On a regular basis, the Board of Trustees considers the size of the Fund and how that relates to the Fund's expense ratio and particularly the Fund's advisory fee rate. In conjunction with its review of the investment adviser's profitability, the trustees discuss with the investment adviser how more (or less) assets can affect the efficiency or effectiveness of managing the Fund's portfolio and whether the advisory fee level is appropriate relative to current asset levels and/or whether the advisory fee structure reflects economies of scale as asset levels change. The Board has determined that its review of the actual and potential economies of scale of the Fund support its decision to approve the investment advisory agreement.

Other Benefits of the Relationship. On a regular basis, the Board of Trustees considers other benefits to the investment adviser and its affiliates derived from its relationship with the Fund and other funds advised by the investment

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

adviser. These benefits include, among other things, fees for transfer agency services provided to the funds, in certain cases research received by the adviser generated from commission dollars spent on funds' portfolio trading, and in certain cases distribution or service related fees related to funds' sales. The trustees review with the investment adviser each of these arrangements and the reasonableness of its costs relative to the services performed. The Board has determined that the other benefits received by the investment adviser or its affiliates support its decision to approve the investment advisory agreement.

VAN KAMPEN HIGH INCOME TRUST II

NOTES TO FINANCIAL STATEMENTS -- JUNE 30, 2008 (UNAUDITED)

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen High Income Trust II (the "Trust") is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the "1940 Act"). The Trust's investment objective is to provide high current income, while seeking to preserve shareholders' capital through investment in a professionally managed diversified portfolio of income producing, fixed income securities. The Trust commenced investment operations on April 28, 1989.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Investments are stated at value using market quotations or indications of value obtained from an independent pricing service. For those securities where quotations or prices are not readily available, valuations are obtained from yield data relating to instruments or securities with similar characteristics in accordance with procedures established in good faith by the Board of Trustees. Futures contracts are valued at the settlement price established each day on the exchange on which they are traded. Swaps are valued using market quotations obtained from brokers. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

The Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" ("FAS 157"), effective January 1, 2008. In accordance with FAS 157, fair value is defined as the price that the Trust would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. FAS 157 establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Trust's investments. The inputs are summarized in the three broad levels listed below.

- Level 1--quoted prices in active markets for identical investments
- Level 2--other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3--significant unobservable inputs (including the Trust's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

26

VAN KAMPEN HIGH INCOME TRUST II

NOTES TO FINANCIAL STATEMENTS -- JUNE 30, 2008 (UNAUDITED) continued

The following is a summary of the inputs used as of June 30, 2008 in valuing the Trust's investments carried at value:

VALUATION INPUTS	INVESTMENTS IN SECURITIES	OTHER FINANCIAL INSTRUMENTS*
Level 1--Quoted Prices.....	\$ 137,475	\$ (2,616)

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

Level 2--Other Significant Observable Inputs.....	133,171,938	1,020,478
Level 3--Significant Unobservable Inputs.....	-0-	-0-
	-----	-----
Total.....	\$133,309,413	\$1,017,862
	=====	=====

* Other financial instruments include futures, forwards and swap contracts.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Trust may purchase and sell securities on a "when-issued" or "delayed delivery" basis with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Trust will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until after payment is made. At June 30, 2008, the Trust had \$90,000 of when-issued or delayed delivery purchase commitments.

The Trust may invest in repurchase agreements, which are short-term investments in which the Trust acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. The Trust may invest independently in repurchase agreements, or transfer uninvested cash balances into a pooled cash account along with other investment companies advised by Van Kampen Asset Management (the "Adviser") or its affiliates, the daily aggregate of which is invested in repurchase agreements. Repurchase agreements are fully collateralized by the underlying debt security. The Trust will make payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Trust.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis. Bond discount is accreted and premium is amortized over the expected life of each applicable security. Other income is comprised primarily of consent fees. Consent fees are earned as compensation for agreeing to changes in the terms of debt instruments.

D. FEDERAL INCOME TAXES It is the Trust's policy to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required. The Trust adopted the provisions of the Financial Accounting Standards Board ("FASB") Interpretation No. 48 ("FIN 48") Accounting for Uncertainty in Income Taxes on June 30, 2007. FIN 48 sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. The implementation of FIN 48 did not result in any unrecognized tax benefits in the accompanying financial statements. If applicable, the Trust recognizes interest accrued related to unrecognized tax benefits in "Interest Expense" and penalties in "Other"

27

VAN KAMPEN HIGH INCOME TRUST II

NOTES TO FINANCIAL STATEMENTS -- JUNE 30, 2008 (UNAUDITED) continued

expenses on the Statement of Operations. The Trust files tax returns with the U.S. Internal Revenue Service and New York. Generally, each of the tax years in the four year period ended December 31, 2007, remains subject to examination by taxing authorities.

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

The Trust intends to utilize provisions of the federal income tax laws which allow it to carry a realized capital loss forward for eight years following the year of the loss and offset these losses against any future realized capital gains. At December 31, 2007, the Trust had an accumulated capital loss carry forward for tax purposes of \$56,962,475 which will expire according to the following schedule.

AMOUNT	EXPIRATION
\$ 9,851,557	December 31, 2008
17,412,110	December 31, 2009
17,027,138	December 31, 2010
6,782,916	December 31, 2011
875,105	December 31, 2012
565,263	December 31, 2013
4,400,827	December 31, 2014
47,559	December 31, 2015

Due to a merger with another regulated investment company, a portion of the capital loss carry forward referred to above may be limited under Internal Revenue Code Section 382.

At June 30, 2008, the cost and related gross unrealized appreciation and depreciation were as follows:

Cost of investments for tax purposes.....	\$147,238,883
	=====
Gross tax unrealized appreciation.....	\$ 794,812
Gross tax unrealized depreciation.....	(14,724,282)

Net tax unrealized depreciation on investments.....	\$(13,929,470)
	=====

E. DISTRIBUTION OF INCOME AND GAINS The Trust declares and pays monthly dividends from net investment income to common shareholders. Net realized gains, if any, are distributed at least annually on a pro rata basis to common and preferred shareholders. Distributions from net realized gains for book purposes may include short-term capital gains and a portion of futures gains, which are included in ordinary income for tax purposes.

The tax character of distributions paid during the year ended December 31, 2007 was as follows:

Distributions paid from:	
Ordinary income.....	\$9,733,991
Return of Capital.....	-0-

	\$9,733,991
	=====

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

VAN KAMPEN HIGH INCOME TRUST II

NOTES TO FINANCIAL STATEMENTS -- JUNE 30, 2008 (UNAUDITED) continued

As of December 31, 2007, the components of distributable earnings on a tax basis were as follows:

Undistributed ordinary income..... \$15,356

Net realized gains or losses may differ for financial reporting and tax purposes primarily as a result of gains or losses recognized on securities for tax purposes but not for book purposes and deferral of losses relating to wash sale transactions.

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Trust's Investment Advisory Agreement, the Adviser will provide investment advice and facilities to the Trust for an annual fee payable monthly of .70% of the average daily net assets including preferred shares of the Trust. For the six months ended June 30, 2008, the Adviser voluntarily waived \$34,505 of its investment advisory fees. This represents .05% of the average daily net assets including preferred shares of the Trust. This waiver is voluntary and can be discontinued at any time.

For the six months ended June 30, 2008, the Trust recognized expenses of approximately \$4,800 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, of which a trustee of the Trust is a partner of such firm and he and his law firm provide legal services as legal counsel to the Trust.

Under separate Legal Services, Accounting Services and Chief Compliance Officer (CCO) Employment agreements, the Adviser provides accounting and legal services and the CCO provides compliance services to the Trust. The costs of these services are allocated to each trust. For the six months ended June 30, 2008, the Trust recognized expenses of approximately \$23,300 representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing accounting and legal services to the Trust, as well as the salary, benefits and related costs of the CCO and related support staff paid by Van Kampen. Services provided pursuant to the Legal Services agreement are reported as part of "Professional Fees" on the Statement of Operations. Services provided pursuant to the Accounting Services and CCO Employment agreement are reported as part of "Accounting and Administrative Expenses" on the Statement of Operations.

Certain officers and trustees of the Trust are also officers and directors of Van Kampen. The Trust does not compensate its officers or trustees who are also officers of Van Kampen.

The Trust provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Trust. The maximum annual benefit per trustee under the plan is \$2,500.

Shares Repurchased*.....	-0-	(42,294)
	-----	-----
Ending Shares.....	18,851,327	18,851,327
	=====	=====

* For the period ended December 31, 2007, the Trust repurchased 42,294 of its shares at an average discount of 6.269% from net asset value per share.

4. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments and U.S. Government securities, were \$27,889,815 and \$27,604,983, respectively. The cost of purchases and proceeds from sales of long-term U.S. Government securities, including paydowns on mortgage-backed securities, for the period were \$0 and \$54,934, respectively.

5. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

The Trust may use derivative instruments for a variety of reasons, such as to attempt to protect the Trust against possible changes in the market value of its portfolio or to generate potential gain. All of the Trust's portfolio holdings, including derivative instruments, are marked to market each day with the change in value reflected in the unrealized appreciation/depreciation. Upon disposition, a realized gain or loss is recognized accordingly, except when taking delivery of a security underlying a futures contract. In these instances, the recognition of gain or loss is postponed until the disposal of the security underlying the futures contract. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

Summarized below are the specific types of derivative financial instruments used by the Trust.

A. FUTURES CONTRACTS A futures contract is an agreement involving the delivery of a particular asset on a specified future date at an agreed upon price. The Trust generally invests in futures on U.S. Treasury Bonds or Notes. Upon entering into futures contracts, the Trust maintains an amount of cash or liquid securities with a value equal to a percentage of the contract amount with either a futures commission merchant pursuant to rules and regulations promulgated under the 1940 Act, or with its custodian in an account in the broker's name. This amount is known as initial margin. During the period the futures contract is open, payments are received from or made to the broker based upon changes in the value of the contract (the variation margin). The risk of loss associated with a futures contract is in excess of the variation margin reflected on the

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

Statement of Assets and Liabilities.

VAN KAMPEN HIGH INCOME TRUST II

NOTES TO FINANCIAL STATEMENTS -- JUNE 30, 2008 (UNAUDITED) continued

Transactions in futures contracts for the six months ended June 30, 2008 were as follows:

	CONTRACTS
Outstanding at December 31, 2007.....	290
Futures Opened.....	929
Futures Closed.....	(953)

Outstanding at June 30, 2008.....	266
	====

B. SWAP CONTRACTS The Trust may enter into credit default swap contracts for hedging purposes or to gain exposure to a credit in which the Trust may otherwise invest. A credit default swap is an agreement between two parties to exchange the credit risk of an issuer. A buyer of a credit default swap is said to buy protection by paying periodic fees in return for a contingent payment from the seller if the issuer has a credit event such as bankruptcy, a failure to pay outstanding obligations or deteriorating credit while the swap is outstanding. A seller of a credit default swap is said to sell protection and thus collects the periodic fees and profits if the credit of the issuer remains stable or improves while the swap is outstanding but the seller in a credit default swap contract would be required to pay an agreed-upon amount, which approximates the notional amount of the swap as disclosed in the table following the Portfolio of Investments, to the buyer in the event of an adverse credit event of the issuer. The Trust accrues for the periodic fees on credit default swaps on a daily basis with the net amount accrued recorded within unrealized appreciation/depreciation of swap contracts. Upon cash settlement of the periodic fees, the net amount is recorded as realized gain/loss on swap contracts on the Statement of Operations. Net unrealized gains are recorded as an asset or net unrealized losses are reported as a liability on the Statement of Assets and Liabilities. The change in value of the swap contracts is reported as unrealized gains or losses on the Statement of Operations. Payments received or made upon entering into a credit default swap contract, if any, are recorded as realized gain or loss on the Statement of Operations upon termination or maturity of the swap. Credit default swaps may involve greater risks than if a Trust had invested in the issuer directly. Credit default swaps are subject to general market risk, counterparty risk and credit risk.

The Trust may also enter into interest rate swaps primarily to preserve a return or spread on a particular investment or portion of its portfolio, as a duration management technique or to protect against any increase in the price of securities the Trust anticipates purchasing at a later date. Interest rate swaps are contractual agreements to exchange periodic interest payment streams calculated on a predetermined notional principal amount. Interest rate swaps generally involve one party paying a fixed interest rate and the other party paying a variable rate. The Trust will usually enter into interest rate swaps on a net basis, i.e., the two payment streams are netted out in a cash settlement on the payment date or dates specified in the instrument, with the Trust receiving or paying, as the case may be, only the net amount of the two

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

payments. The Trust accrues the net amount with respect to each interest rate swap on a daily basis. This net amount is recorded within unrealized appreciation/depreciation on swap contracts. Upon cash settlement of the periodic payments, the net amount is recorded as realized gain/loss on swap contracts on the Statement of Operations. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

31

VAN KAMPEN HIGH INCOME TRUST II

NOTES TO FINANCIAL STATEMENTS -- JUNE 30, 2008 (UNAUDITED) continued

If there is a default by the counterparty to a swap agreement, the Trust will have contractual remedies pursuant to the agreements related to the transaction. Counterparties are required to pledge collateral daily (based on the valuation of each swap) on behalf of the Trust with a value approximately equal to the amount of any unrealized gain. Reciprocally, when the Trust has an unrealized loss on a swap contract, the Trust has instructed the custodian to pledge cash or liquid securities as collateral with a value approximately equal to the amount of the unrealized loss. Collateral pledges are monitored and subsequently adjusted if and when the swap valuations fluctuate. Cash collateral is disclosed in the table following the Portfolio of Investments. Cash collateral has been offset against open swap contracts under the provisions of FASB Interpretation No. 39: Offsetting of Amounts Related to Certain Contracts an interpretation of APB Opinion No. 10 and FASB Statement No. 105 and are included within "Swap Contracts" on the Statement of Assets and Liabilities. For cash collateral received, the Trust pays a monthly fee to the counterparty based on the effective rate for Federal Funds. This fee, when paid, is included within realized loss on swap contracts on the Statement of Operations.

6. MORTGAGE BACKED SECURITIES

The Trust may invest in various types of Mortgage Backed Securities. A Mortgage Backed Security (MBS) is a pass-through security created by pooling mortgages and selling participations in the principal and interest payments received from borrowers. Most of these securities are guaranteed by federally sponsored agencies--Government National Mortgage Association (GNMA), Federal National Mortgage Association (FNMA) or Federal Home Loan Mortgage Corporation (FHLMC). A Collateralized Mortgage Obligation (CMO) is a bond which is collateralized by a pool of MBS's.

These securities derive their value from or represent interests in a pool of mortgages, or mortgage securities.

Mortgage securities are subject to prepayment risk--the risk that, as mortgage interest rates fall, borrowers will refinance and "prepay" principal. A fund holding mortgage securities that are experiencing prepayments will have to reinvest these payments at lower prevailing interest rates. On the other hand, when interest rates rise, borrowers are less likely to refinance resulting in lower prepayments. This can effectively extend the maturity of a fund's mortgage securities resulting in greater price volatility. It can be difficult to measure precisely the remaining life of a mortgage security or the average life of a portfolio of such securities.

To the extent a fund invests in mortgage securities offered by non-governmental issuers, such as commercial banks, savings and loan institutions, private mortgage insurance companies, mortgage bankers and other secondary market issuers, the Trust may be subject to additional risks. Timely payment of interest and principal of non-governmental issuers are supported by various forms of private insurance or guarantees, including individual loan,

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

title, pool and hazard insurance purchased by the issuer. There can be no assurance that the private insurers can meet their obligations under the policies.

An unexpectedly high rate of defaults on the mortgages held by a mortgage pool may adversely affect the value of a mortgage backed security and could result in losses to a Trust. The risk of such defaults is generally higher in the case of mortgage pools that include subprime mortgages. Subprime mortgages refer to loans made to borrowers with weakened credit histories or with a lower capacity to make timely payment on their mortgages.

32

VAN KAMPEN HIGH INCOME TRUST II

NOTES TO FINANCIAL STATEMENTS -- JUNE 30, 2008 (UNAUDITED) continued

7. PREFERRED SHARES

The Trust has outstanding 2,616 Auction Preferred Shares (APS). Series A contains 1,112 shares and Series B contains 1,504 shares. Dividends are cumulative and the dividend rate on each series is currently reset every 28 days through an auction process. Beginning on February 20, 2008 and continuing through June 30, 2008, all series of preferred shares of the Trust were not successfully remarketed. As a result, the dividend rates of these preferred shares were reset to the maximum applicable rate on APS. If the preferred shares are unable to be remarketed on a remarketing date, the Trust would be required to pay the maximum applicable rate on APS to holders of such shares for successive dividend periods until such time when the shares are successfully remarketed. The maximum rate on APS is equal to 150% of the applicable commercial paper rate on the date. The average rate in effect on June 30, 2008 was 7.078%. During the six months ended June 30, 2008, the rates ranged from 4.400% to 7.103%.

The Trust pays annual fees equivalent to .25% of the preferred share liquidation value for the remarketing efforts associated with the preferred auctions. These fees are included as a component of "Preferred Share Maintenance" expense on the Statement of Operations.

The APS are redeemable at the option of the Trust in whole or in part at the liquidation value of \$25,000 per share plus accumulated and unpaid dividends. The Trust is subject to certain asset coverage tests and the APS are subject to mandatory redemption if the tests are not met.

8. INDEMNIFICATIONS

The Trust enters into contracts that contain a variety of indemnifications. The Trust's maximum exposure under these arrangements is unknown. However, the Trust has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

9. ACCOUNTING PRONOUNCEMENT

On March 19, 2008, Financial Accounting Standards Board released Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities (FAS 161). FAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The application of FAS 161 is required for fiscal years and interim periods beginning after November 15, 2008. At this time, management is

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

evaluating the implications of FAS 161 and its impact on the financial statements has not yet been determined.

An Important Notice Concerning Our U.S. Privacy Policy

We are required by federal law to provide you with a copy of our Privacy

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

Policy annually.

The following Policy applies to current and former individual clients of Van Kampen Investments Inc., Van Kampen Asset Management, Van Kampen Advisors Inc., Van Kampen Funds Inc., Van Kampen Investor Services Inc. and Van Kampen Exchange Corp., as well as current and former individual investors in Van Kampen mutual funds, unit investment trusts, and related companies.

This Policy is not applicable to partnerships, corporations, trusts or other non-individual clients or account holders, nor is this Policy applicable to individuals who are either beneficiaries of a trust for which we serve as trustee or participants in an employee benefit plan administered or advised by us. This Policy is, however, applicable to individuals who select us to be a custodian of securities or assets in individual retirement accounts, 401(k) accounts, 529 Educational Savings Accounts, accounts subject to the Uniform Gifts to Minors Act, or similar accounts.

Please note that we may amend this Policy at any time, and will inform you of any changes to this Policy as required by law.

WE RESPECT YOUR PRIVACY

We appreciate that you have provided us with your personal financial information. We strive to maintain the privacy of such information while we help you achieve your financial objectives. This Policy describes what non-public personal information we collect about you, why we collect it, and when we may share it with others.

We hope this Policy will help you understand how we collect and share non-public personal information that we gather about you. Throughout this Policy, we refer to the non-public information that personally identifies you or your accounts as "personal information."

1. WHAT PERSONAL INFORMATION DO WE COLLECT ABOUT YOU?

To serve you better and manage our business, it is important that we collect and maintain accurate information about you. We may obtain this information from applications and other forms you submit to us, from your dealings with us, from consumer reporting agencies, from our Web sites and from third parties and other sources.

(continued on next page)

Van Kampen High Income Trust II

An Important Notice Concerning Our U.S. Privacy Policy continued

For example:

- We may collect information such as your name, address, e-mail address, telephone/fax numbers, assets, income and investment objectives through applications and other forms you submit to us.
- We may obtain information about account balances, your use of account(s) and the types of products and services you prefer to receive from us through your dealings and transactions with us and other sources.
- We may obtain information about your creditworthiness and credit history from consumer reporting agencies.
- We may collect background information from and through third-party

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

vendors to verify representations you have made and to comply with various regulatory requirements.

-- If you interact with us through our public and private Web sites, we may collect information that you provide directly through online communications (such as an e-mail address). We may also collect information about your Internet service provider, your domain name, your computer's operating system and Web browser, your use of our Web sites and your product and service preferences, through the use of "cookies." "Cookies" recognize your computer each time you return to one of our sites, and help to improve our sites' content and personalize your experience on our sites by, for example, suggesting offerings that may interest you. Please consult the Terms of Use of these sites for more details on our use of cookies.

2. WHEN DO WE DISCLOSE PERSONAL INFORMATION WE COLLECT ABOUT YOU?

To provide you with the products and services you request, to serve you better and to manage our business, we may disclose personal information we collect about you to our affiliated companies and to non-affiliated third parties as required or permitted by law.

A. INFORMATION WE DISCLOSE TO OUR AFFILIATED COMPANIES. We do not disclose personal information that we collect about you to our affiliated companies except to enable them to provide services on our behalf or as otherwise required or permitted by law.

B. INFORMATION WE DISCLOSE TO THIRD PARTIES. We do not disclose personal information that we collect about you to non-affiliated third parties except to enable them to provide services on our behalf, to perform joint marketing agreements with

other financial institutions, or as otherwise required or permitted by law. For example, some instances where we may disclose information about you to non-affiliated third parties include: for servicing and processing transactions, to offer our own products and services, to protect against fraud, for institutional risk control, to respond to judicial process or to perform services on our behalf. When we share personal information with these companies, they are required to limit their use of personal information to the particular purpose for which it was shared and they are not allowed to share personal information with others except to fulfill that limited purpose.

3. HOW DO WE PROTECT THE SECURITY AND CONFIDENTIALITY OF PERSONAL INFORMATION WE COLLECT ABOUT YOU?

We maintain physical, electronic and procedural security measures to help safeguard the personal information we collect about you. We have internal policies governing the proper handling of client information. Third parties that provide support or marketing services on our behalf may also receive personal information, and we require them to adhere to confidentiality standards with respect to such information.
