NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with instructions to Form 10-QSB and Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments, consisting of normal recurring accruals considered necessary for a fair presentation, have been included. Operating results for the three months ended June 30, 2003 are not necessarily indicative of the results that may be expected for the year ending December 31, 2003. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-KSB for the year ended December 31, 2002.

In order to maintain consistency and comparability between periods presented, certain amounts have been reclassified from the previously reported financial statements in order to conform to the financial statement presentation of the current period.

The consolidated financial statements include *Consulier Engineering, Inc.* (the Company or Consulier), and its wholly-owned subsidiaries, *Consulier Business Services, Inc.*, (CBSI) and *C-6 Products, Inc.* (C-6), as well as *South East Automotive Acquisition Corp.* (South East). All intercompany balances and transactions between the Company and its wholly-owned subsidiaries have been eliminated. The Company sold seventy percent of the common stock of its wholly-owned subsidiary, Southeast, to executive officers of Southeast, in exchange for 45,000 shares of the Company's common stock, and a promissory note of approximately \$1,700,000 payable to the Company by Southeast for its pre-existing debt to the Company, secured by Southeast's assets, the common stock in Southeast and the purchasers' personal guarantees, limited to the cash in Southeast at December 31, 2002 of approximately \$228,000. The note bears interest at 6% and is payable in monthly installments of principal and interest of approximately \$9,600 beginning February 20, 2003 through January 20, 2033. The effective date of the sale was subsequent to the close of business on December 31, 2002 and the closing was held on February 5, 2003. On June 29, 2003, the Company transferred its remaining thirty percent of the common stock of Southeast to executive officers of Southeast in consideration of their agreement to change the method of calculating the purchase price of the seventy percent of common stock of Southeast and their agreement to amend the original promissory note to reflect an original principal balance of \$1,764,581 with a term of 40 years from June 20, 2003, with a balloon payment of \$206,915.90 due on May 20, 2043; the remaining terms of the Note were unchanged. On June 30, 2003 the Company assigned the Note, together with its security interest for the consideration of \$1,762,574.74, the then current unpaid principal balance and accrued interest due on the Note which was received by the Company in collected funds on June 30, 2003.

Table of Contents

Although the Company retained a minority interest in Southeast during a portion of the quarter ending June 30, 2003, due to the significant portion of the sales proceeds being in the form of a note receivable collateralized by substantially all assets of Southeast, the Company will continue to account for Southeast as a consolidated subsidiary for the quarter ending June 30, 2003.

Note 2. Due from Principal Shareholder

Prior to 2001, capital and income distributions from the Company's investment in AVM (see Note 4) were distributed directly from AVM to the Company on a monthly basis. Beginning in 2001 and ending in July 2002, the Company had been advancing its cash distributions from AVM to its principal shareholder. These distributions are included in due from principal shareholder of \$-0- and \$1,022,471, respectively, at June 30, 2003 and December 31, 2002 on the consolidated balance sheets.

Note 3. Inventories

Inventories, stated at the lower of cost, determined on a first-in, first-out basis, or market, are summarized as follows:

Item 2. Management's Discussion and Analysis or Plan of Operation

Results of Operations

The following compares the results of operations for the three months ended June 30, 2003 to the three months ended June 30, 2002:

During the quarter ended June 30, 2003, sales decreased \$119,778 from the comparable amounts recorded during the quarter ended June 30, 2002. Net Income for the second quarter of 2003 was \$150,763, or \$0.03 per share, compared to \$206,659, or \$0.04 per share, in the second quarter of 2002. Although net income was approximately the same, increase in cost of sales and selling, general and administrative expenses were offset by an increase in other income.

Other income consisting of investment income and interest income/expense increased \$176,370, primarily attributable to a \$434,357 increase in earnings from AVM, offset by the \$162,650 decrease in undistributed income from BioSafe, and an undistributed loss from ST, LLC of \$283,045.

AUTOMOTIVE PARTS DISTRIBUTION Net sales of South East's automotive parts distribution represented 99% and 99% of Consulier's net sales in the second quarters of 2003 and 2002 respectively. Southeast's net sales increased approximately \$117,467 from \$691,755 in the second quarter of 2003 compared to the second quarter 2002 primarily due to general economic conditions. The automotive parts distribution segment had loss of \$5,875 in the second quarter of 2003, and net income before income taxes of \$60,274 in the second quarter of 2002.

HOUSEHOLD AND TOOL PRODUCTS C-6 incurred a net loss of \$5,277 in the second quarter of 2003, compared to a net loss of \$6,188 in the second quarter of 2002.

INVESTMENT IN AVM Investment income from Consulier's AVM limited partnership interest was \$772,154 in the second quarter of 2003, a 129% increase from the comparable 2002 quarter's income of \$337,797. This represents annualized returns of 132% and 61%, respectively, on Consulier's average investment during each quarter.

INVESTMENT IN BIOSAFE Equity in the loss of BioSafe was \$43,374 in the second quarter of 2003, compared to 2002 quarter's income of \$8,854. This represents the Company's 40% interest in BioSafe's net loss of approximately \$108,434 in the second quarter of 2003, compared to income of \$27,000 in the second quarter of 2002.

INVESTMENT IN ST, LLC Equity in the loss of ST, LLC was \$283,045, in the second quarter of 2003. The company did not own an interest in ST, LLC in the second quarter of 2002.

Table of Contents

CONSULIER ENGINEERING, INC. AND SUBSIDIARIES

Liquidity and Capital Resources

At June 30, 2003, Consulier's cash totaled \$2,289,937 as compared to \$262,303 at December 31, 2002. Net cash provided by operations was \$269,681 for the second three months of 2003 compared to \$724,522 of net cash used in the second three months of 2002. Net cash used by investing activities was primarily additional investment in ST, LLC of \$775,000, offset by the net increase of \$772,154 in distributions from AVM.

The ability of Consulier to continue to generate cash flow in excess of its normal operating requirements depends almost entirely on the performance of its limited partnership investment in AVM. Consulier cannot, with any degree of assurance, predict whether there will be a continuation of the net return experienced in the period that the AVM limited partnership interest has been owned. However, Consulier does not expect that the rate of return will decline to the point where Consulier has negative cash flow. Furthermore, although AVM has given Consulier no indication of any intention on its part to redeem the partnership interest, there can be no assurance that AVM will not do so in the future.

During the second quarter of 2003, none of the Company's excess cash funds was advanced to the Company's principal shareholder, under demand receivables.

Table of Contents

CONSULIER ENGINEERING, INC. AND SUBSIDIARIES

Future Outlook

Based on AVM's recent operations and operating results over the past five years, management expects continued annualized returns in 2003 on Consulier's limited partnership investment. However, there is no guarantee that the annualized return of 132% in the second quarter of 2003 will be maintained.

The Company has developed a new formula for its Captain Cra-z Hand and All Purpose Soap and is expecting its first delivery of soap based on this formula from its new domestic manufacturer in the third quarter of 2003. Design changes to packaging to better serve the industrial as well as retail markets will be implemented and launched with the new formula.

The Company has formed a new wholly owned subsidiary, Consulier International, Inc. to market its Captain Cra-z Hand and All Purpose Soap, as well as its future products and to develop new retail and distribution outlets nationally and internationally. Specifics of Consulier International's marketing plan have not been finalized. Clark T. Feezell, formerly Regional Manager for Ferguson Enterprise, Inc., a division of Wosley, PLC (NYSE:WOS) will head Consulier International, which will start operations during the third quarter of 2003.

The Company intends to substantially increase its investment in ST, LLC over the next three to five years. While the exact amount of the Company's future investment has not been quantified at this time, it is expected that the investment will be between \$5million and \$7million. The exact amount will be based upon market acceptance of PCTS's Amelior products and the need for investment funds.
