MERCURY AIR GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2003

(Unaudited)

Note 1 General

Business

Mercury Air Group, Inc. (the Company), a Delaware Corporation, was organized in 1956 and provides a broad range of services to the aviation industry through four principal operating units: fixed base operations, cargo operations, fuel sales, and government contract services. Fixed base operations (FBOs) include fuel sales, into-plane services, ground support services, aircraft hangar and tie-down facilities and maintenance at certain locations for commercial, private, general aviation and military aircraft. Cargo operations consist of cargo handling, space logistics operations and general cargo sales agent services. Fuel sales include the sale of fuel and delivery of fuel primarily to domestic and international commercial airlines, business aviation and air freight airlines. Government contract services consist of aircraft refueling and fuel storage operations, base operating support (BOS) services, air terminal and ground handling services and weather observation and forecasting services performed principally for agencies of the United States Government. Additionally, the Company had a fifth operating unit, RPA Airline Automation Services, Inc. (RPA) which was sold on July 3, 2001 and is classified as a discontinued operation (See Note 2).

Risks and Uncertainties

The \$24.0 million Senior Subordinated 12% Note (the Note) contains provisions that provide incentives to prepay the principal of the Note. If the entire principal of the Note is not prepaid by December 31, 2003, the Note Holder will be entitled to stock warrants equivalent to 5% of the Company's outstanding shares of common stock then outstanding, exercisable for nominal consideration. If the principal amount of the Note is in excess of \$12.0 million on December 31, 2003, the Note Holder will be entitled to receive stock warrants equivalent to an additional 5% of the number of shares of common stock outstanding at that date, exercisable for nominal consideration, along with an additional note with a principal amount of \$5.0 million. In addition, beginning January 2004 and continuing through June 2004, the interest rate will increase by 1% per annum each month up to a maximum rate of 18%. The Company is assessing various options to prepay the principal of the Note by December 31, 2003 but if the Company does not prepay at least \$12.0 million in principal on the Note by December 31, 2003, the consideration due the Note Holder at that time will adversely affect the Company's financial position and may have a negative effect on its ability to meet its financial obligations. In addition, the issuance and exercise of these warrants will have a dilutive impact on the current shares of common stock outstanding.

While the Note is subordinate to the Senior Secured Credit Facility (the Facility), the loan and security agreement does allow for the prepayment of principal on both the Note and the Facility under certain conditions. Under the terms of loan and security agreement of the Facility, the first \$15.0 million of principal prepayment is to be applied equally to the outstanding principal of the Facility's term loan and the Note. The next \$4.5 million of principal prepayment is to be applied entirely to the outstanding principal of the Note. The next principal prepayments will then either be applied equally to the outstanding principal of the Facility and to the Note or entirely to the outstanding principal of the Note, depending on certain conditions, until the entire \$24.0 million of the Note has been repaid in full.

As of March 31, 2003, the Company was in compliance with all of the covenants contained in the Facility and the Note; however, based on management's judgement, the Company may exceed the Facility's maximum capital expenditure covenant and the Note's maximum professional fees covenant for the period ending June 30, 2003. The Company will be holding discussions with its Lenders to address these issues and attempt to obtain waivers for these financial covenants.

Table of Contents

MERCURY AIR GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Continued

Accounts receivable is comprised primarily of trade receivables from customers and is net of an allowance for doubtful accounts. The Company's credit risk is based in part on the following: 1) substantially all receivables are related to a single industry, aviation, 2) there is a concentration of credit risk as there are several customers who at any time have significant balances owed to the Company, and 3) significant balances are owed by certain customers that are not adequately capitalized. In addition, significantly higher fuel prices for extended periods of time have a negative impact on the aviation industry as it substantially increases airlines' operating expenses. Smaller airlines with lower levels of capital may be more seriously impacted. The Company assesses its credit portfolio on an ongoing basis and establishes allowances which it believes are adequate to absorb potential credit problems that can be reasonably anticipated.

The Company purchases fuel from a limited number of suppliers. If the Company's relationship with any of these key suppliers terminates, the Company may not be able to obtain a sufficient quantity of fuel on favorable terms or may experience difficulty in obtaining fuel from alternative suppliers. Furthermore, difficulties faced by these suppliers or fuel shortages or the inability to obtain fuel from alternate sources at acceptable prices and terms, could impair the Company's ability to sell fuel to its customers at competitive prices and terms.

The Company has received notice from Los Angeles World Airports (LAWA) of a proposed rental increase for the cargo operation's warehouse facility at the Los Angeles International Airport (LAX). The Company has objected to the proposed increase and intends on continuing to defend its position that the proposed increase is not justified given the business environment in which the Company is operating. The proposed increase, subject to approval by the Board of Airport Commissioners (the Board), is expected to be presented at the LAWA Board Meeting in late May 2003. The proposed increase included a retroactive adjustment of \$1.4 million and an additional \$2.5 million in rent over the remaining life of the lease. It is the Company's understanding that any retroactive adjustment would be applied prospectively over the remaining life of the lease. The existing lease expires in June of 2006. The effect of the proposed rent increase, if approved, will adversely affect the profitability of the Company's LAX warehousing position.

Basis of Presentation

The accompanying unaudited financial statements of the Company have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles in the United States of America for complete financial statements. In the opinion of management, all adjustments consisting of normal recurring adjustments and accruals, as well as accounting changes considered necessary for a fair presentation have been reflected in these financial statements. Operating results for the quarter are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2003 due to seasonal and other factors. In order to maintain consistency and comparability between periods presented, certain prior period amounts have been reclassified to conform to the current period presentation. The accompanying financial statements should be read in conjunction with the audited consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2002.

New Accounting Pronouncements

In December 2002, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 148 Accounting for Stock-Based Compensation Transition and Disclosure, an amendment of FASB Statement No. 123. This statement amends SFAS No. 123 Accounting for Stock-Based Compensation to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. SFAS No. 148 also amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both the annual and interim

Table of Contents**MERCURY AIR GROUP, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Continued**

financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The Company adopted the disclosure provisions beginning with the Company's quarter ended December 31, 2002. The Company has no current intention to change its policy of accounting for stock-based compensation.

The Company accounts for stock options in accordance with Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees. Had compensation cost for stock options been calculated using the fair value provisions of Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation, the Company's net loss and loss per share would have approximated the pro forma amounts indicated in the following table:

	Nine Months Ended		Three Months Ended	
	3/31/03	3/31/02	3/31/03	3/31/02
Net (loss) income as reported	\$ (1,926,000)	\$ 380,000	\$ (954,000)	\$ (380,000)
Net (loss) income pro forma	\$ (2,114,000)	\$ 215,000	\$ (1,018,000)	\$ (452,000)
Basic (loss) income per share as reported	\$ (0.30)	\$ 0.06	\$ (0.15)	\$ (0.06)
Basic (loss) income per share pro forma	\$ (0.32)	\$ 0.03	\$ (0.15)	\$ (0.07)
Diluted (loss) income per share as reported	\$ (0.30)	\$ 0.06	\$ (0.15)	\$ (0.06)
Diluted (loss) income per share pro forma	\$ (0.32)	\$ 0.03	\$ (0.15)	\$ (0.07)

The Company adopted SFAS No. 142, Goodwill and Other Intangible Assets on July 1, 2002. SFAS No. 142 requires that existing and future goodwill and intangible assets with indefinite lives not be amortized, but written down, as needed, based upon an impairment analysis that must occur at least, annually, or sooner if an event occurs or circumstances change that would more likely than not result in an impairment loss. All other intangible assets are amortized over their estimated useful lives. SFAS No. 142 requires that the Company perform step one of a two-part transitional impairment test to compare the reporting units fair value with their respective carrying amount, including goodwill. If the carrying value exceeds the fair value, step two of the transitional impairment test must be performed to measure the amount of the impairment loss, if any. SFAS No. 142 also requires that intangible assets be reviewed as of the date of adoption to determine if they continue to qualify as intangible assets under the criteria established under SFAS No. 141, Business Combinations, and to the extent previously recorded intangible assets do not meet the criteria that they be reclassified to goodwill.

During the quarter ended December 31, 2002, with the assistance of an independent valuation firm, the Company completed step one of the transitional test to determine whether there was a potential impairment of goodwill at July 1, 2002. Primarily based on a weighted value using a market approach and an income approach, it was determined that the fair values of the reporting units that have goodwill exceeded their carrying values, therefore a step two impairment test is not required. Since the completion of this valuation, nothing has come to the attention of management which would lead the Company to believe that an impairment has occurred subsequent to this valuation. In accordance with SFAS No. 142, the Company will perform an impairment test annually to determine whether any impairment has occurred requiring a pre-tax charge to operating income.

Table of Contents**MERCURY AIR GROUP, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Continued**

The following is a reconciliation of reported net (loss) income adjusted for adoption of SFAS No. 142:

	Nine Months Ended 3/31/03	Nine Months Ended 3/31/02	Three Months Ended 3/31/03	Three Months Ended 3/31/02
Net (Loss) Income as Reported	\$(1,926,000)	\$380,000	\$(954,000)	\$(380,000)
Goodwill amortization (net of tax)		186,000		62,000
Net (Loss) Income as adjusted	\$(1,926,000)	\$566,000	\$(954,000)	\$(288,000)
Fully diluted (loss) earnings per share, as adjusted	\$ (0.30)	\$ 0.08	\$ (0.15)	\$ (0.05)
Fully diluted (loss) earning per share, as reported	\$ (0.30)	\$ 0.06	\$ (0.15)	\$ (0.06)

The Company had \$1,108,000 and \$233,000 of net intangible assets at March 31, 2003 and June 30, 2002, respectively. Accumulated amortization for intangible assets was \$892,000 and \$767,000 at March 31, 2003 and June 30, 2002, respectively. Intangible assets at March 31, 2003 consist of covenants not to compete agreements and fuel sales contracts amortized over 3-5 years. Amortization expense for intangible assets was \$125,000 and \$150,000 for the nine months ended March 31, 2003 and the year ended June 30, 2002. Estimated amortization expense in each of the next five years is as follows: \$75,000 in the remainder of 2003; \$300,000 in 2004; \$233,000 in 2005; \$200,000 in 2006; \$200,000 in 2007; and \$100,000 thereafter.

Included in Property, Equipment and Leaseholds are leasehold interests relating to the unallocated purchase costs of certain FBO locations. The capitalized value of these leasehold interests was \$16,257,000 at March 31, 2003 and June 30, 2002. Accumulated depreciation of the leasehold interests was \$6,214,000 and \$5,434,000 at March 31, 2003 and June 30, 2002, respectively. Estimated depreciation expense in each of the next five years is as follows: \$260,000 in the remainder of 2003; \$1,041,000 in 2004; \$1,011,000 in 2005; \$1,001,000 in 2006; \$918,000 in 2007; and \$5,812,000 thereafter.

Effective June 30, 2002, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 143, Accounting for Asset Retirement Obligations. This Statement establishes accounting standards for the recognition and measurement of an asset retirement obligation and associated asset retirement cost. It also provides accounting guidance for legal obligations associated with the retirement of tangible long-lived assets. Adoption of this statement had no impact on the Company's consolidated results of operations or financial position.

Effective July 1, 2002, the Company adopted SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, which supersedes FASB Statement No. 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of. This new statement also supersedes certain aspects of APB Opinion No. 30, Reporting the Results of Operations-Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions, with regard to reporting the effects of a disposal of a component of a business and will require expected future operating losses from discontinued operations to be reported in discontinued operations in the period incurred (rather than as of the measurement date as previously required by APB Opinion No. 30). In addition, more dispositions may qualify for discontinued operations treatment. The adoption of SFAS No. 144 did not have a material effect on the Company's consolidated financial position or results of operations.

In April 2002, the FASB issued SFAS No. 145, Rescission of FASB Statements Nos. 4, 44 and 64, Amendment of FASB Statement No. 13 and Technical Corrections, which rescinds and amends other existing authoritative pronouncements to make various technical corrections, clarify meanings, or describe their applicability under changed conditions. The Company adopted SFAS No. 145 on July 1, 2002.

Table of Contents

MERCURY AIR GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Continued

In July 2002, the FASB issued SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. SFAS No. 146 requires that cost associated with an exit or disposal activity be recognized when incurred as opposed to an entity's commitment to an exit plan as previously allowed. The provisions of SFAS No. 146 are effective for exit or disposal activities that are initiated after December 31, 2002. The Company adopted SFAS No. 146 on January 1, 2003. The adoption of this statement did not affect the Company's consolidated financial position or results of operations.

On April 30, 2003, the FASB issued SFAS No. 149, Amendment of Statement 133 on Derivative Instruments and Hedging Activities. Such standard amends and clarifies the accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. The provisions of this statement are generally effective for contracts entered into or modified after June 30, 2003. The Company is in the process of assessing the impact of adopting this standard on its consolidated results of operations and financial position.

In November 2002, the FASB issued Interpretation No. 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others (FIN 45). This interpretation elaborates on disclosures to be made by a guarantor in its interim and annual financial statements with regard to its obligations under certain guarantees that it has issued. It also clarifies that a guarantor is required to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. The disclosure requirements of FIN 45 are effective for interim and annual periods ending after December 15, 2002, and the Company has adopted those requirements beginning with the Company's quarter ended December 31, 2002. The initial recognition and initial measurement requirements of FIN 45 are effective prospectively for guarantees issued or modified after December 31, 2002. The adoption of the recognition and initial measurement requirements of FIN 45 is not expected to have a material impact on the Company's financial position and results of operations.

In January 2003, the FASB issued Interpretation Number 46, Consolidation of Variable Interest Entities (FIN 46). This interpretation of Accounting Research Bulletin No. 51, Consolidated Financial Statements, addresses consolidation by business enterprises of variable interest entities. Under current practice, two enterprises generally have been included in consolidated financial statements because one enterprise controls the other through voting interests. FIN 46 defines the concept of variable interests and requires existing unconsolidated variable interest entities to be consolidated by their primary beneficiaries if the entities do not effectively disperse risks among the parties involved. This interpretation applies immediately to variable interest entities created after January 31, 2003. It applies in the first fiscal year or interim period beginning after June 15, 2003, to variable interest entities in which an enterprise holds a variable interest that it acquired before February 1, 2003. The interpretation may be applied prospectively with a cumulative-effect adjustment as of the date on which it is first applied or by restating previously issued financial statements for one or more years with a cumulative-effect adjustment as of the beginning of the first year restated. The Company is assessing, but at this point does not believe the adoption of FIN 46 will have a material impact on its financial position or results of operations.

Note 2 Discontinued Operations

On July 3, 2001, the Company completed the sale of its subsidiary, RPA Airline Automation Services, Inc. (RPA), which provided airline revenue accounting and management information software consisting of proprietary software programs which are marketed to foreign and domestic airlines. During the quarter ended September 30, 2001, the Company recorded a loss of \$42,000 related to the sale of a building that had previously been RPA's corporate headquarters. As of June 30, 2002 the Company no longer retained any significant assets or liabilities related to RPA.

MERCURY AIR GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Continued

Note 3 Income Taxes

Income taxes have been computed based on the estimated annual effective income tax rate for the respective periods.

Note 4 Litigation

In September 2001, the Company filed a motion for declaratory judgment to determine its liability as a result of a fuel spill on April 8, 2001 at the Ontario, CA. Airport. On November 30, 2001, the Company received notice of a counter-complaint filed by UPS against the Company and a third party seeking indemnification and reimbursement in the amount of \$470,000 for the costs incurred as a result of the fuel spill. The parties have reached a tentative settlement through mediation. Trial has been continued until October 2003, pending the outcome of the proposed settlement.

On May 1, 2002, Mercury received a Notice of Violation (NOV) for its Fort Wayne, Indiana facility alleging that Mercury's Spill Prevention, Control and Countermeasure Plan (SPCC) did not meet certain federal regulatory guidelines. Specifically, the Environmental Protection Agency (EPA) alleged that Mercury's SPCC failed to provide for proper parking, secondary containment, and proper drainage of its refueler trucks. Mercury entered into discussions with the EPA and responded to the NOV. On January 29, 2003, the EPA again notified the Company of some deficiencies in its latest SPCC and requested that Mercury submit a written response to its allegations within 30 days. On March 14, 2003, Mercury received a Notice of Violation from the United States Environmental Protection Agency, Region 5 (EPA) alleging certain deficiencies in the SPCC for its Fort Wayne, Indiana facility, submitted to EPA in November 2002. Mercury believes that it has resolved all deficiencies except for alleged deficiencies related to: 1) secondary containment for refueler trucks, and 2) secondary containment for discrete fuel loading areas. Pursuant to an agreement detailed in a letter submitted to EPA on April 16, 2003, Mercury has been permitted to suspend modifications to its SPCC regarding the installation of secondary containment for its refueler trucks, pending resolution of federal regulatory issues associated with secondary containment for such trucks. EPA has also extended national compliance with regulations related to discrete loading areas until August 17, 2004.

On October 31, 2002 a complaint was filed before the National Labor Relations Board Region 12 on behalf of the Transport Workers Union of America, Local 525, AFL-CIO alleging that Maytag Aircraft Corporation has been engaging in unfair labor practices as set forth in the National Labor Relations Act at its Patrick Air Force Base location. On April 11, 2003, a settlement agreement was fully executed. The Company agreed to pay approximately \$170,000 plus applicable payroll taxes.

On November 18, 2002, Investorwatch LLC filed an action in the Superior Court of the State of California for the County of Los Angeles, Central District alleging derivative and direct claims against Mercury and certain of its affiliates based upon alleged wrongful conduct in connection with certain transactions entered into by Mercury, including certain related party transactions, which transactions were previously disclosed by Mercury. On February 18, 2003, the plaintiff filed a dismissal without prejudice with the court.

On November 27, 2002, Andrew J. Chitica filed a shareholder verified derivative complaint in the Superior Court of the State of California, County of San Diego, North County Division alleging that certain directors of the Company breached their fiduciary duty to the Company. On February 13, 2003, the plaintiff files a dismissal without prejudice with the court to dismiss the complaint and the entire action of all parties and causes of action.

On February 26, 2003, Robert Bosch, filed an action in the United States District Court, Eastern District of New York against Excel Cargo, Inc. and others, seeking \$1.5 million in damages for damaged cargo. The Company is in the process of responding to the complaint. Mercury does not believe the outcome of this claim will have a significant impact on its financial position or operating results.

Table of Contents

MERCURY AIR GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Continued

On April 16, 2003, the Plan Committee of Shuttle America Corp filed a Adversary Proceeding in the United States Bankruptcy Court, District of Connecticut alleging preferential transfers in the amount of \$995,000. The Company believes that it has significant defenses in this matter. The Company's answer is due on May 16, 2003. Mercury does not believe this matter will have a significant impact on its financial position or operating results.

The Company is also a defendant in certain litigation arising in the normal course of business. In the opinion of management, the ultimate resolution of such litigation will not have a significant effect on its financial position or operating results. Reference is made to the SEC Form 10-Q for the quarterly period ended December 31, 2002 for additional litigation with respect to which no material developments have occurred in the current quarter.

Note 5 Debt

On December 30, 2002, the Company entered into a loan and security agreement, (the Facility), refinancing its senior secured credit facilities with Foothill Capital Corporation (Foothill), a division of Wells Fargo Bank, for a five-year term, as agent for the lenders party thereto. In addition, the Company and J.H. Whitney Co. Mezzanine Fund entered into agreements revising the terms of the Note, which will mature on December 31, 2005. The funding under the Facility and the amendments to the Note were completed on December 31, 2002.

The Facility provides a total of up to \$42.5 million in revolving and term loans. The term loan is for an amount equal to \$12.5 million, while the revolving loan is for an amount not to exceed 85% of Eligible Accounts Receivable (as defined in the loan agreement), subject to certain limitations. The term loan is payable in \$1.0 million installments each April 1 and October 1, beginning April 1, 2003 and in \$0.5 million installments each July 1 and December 31, until paid in full. Amounts repaid under the term loan increase the maximum availability under the revolving loan. The Facility also provides for the issuance of certain letters of credit. The terms of the Facility requires that the Company maintain a minimum availability on the revolving line of credit of \$2.5 million. As of March 31, 2003, the Company had \$3.8 million of availability on the revolving line of credit. The amount of the available revolving credit line fluctuates on a daily basis dependent upon the amount of Eligible Accounts Receivable and the amount of letters of credit outstanding and the amount of outstanding cash borrowings against the revolving credit facility.

The Facility may be terminated on December 23, 2005, if the Whitney Note is not paid in full or refinanced, on terms acceptable to Foothill, prior to October 31, 2005. The Facility is secured by substantially all of the assets of the Company and its subsidiaries. The Facility contains provisions that require the maintenance of certain financial ratios including minimum EBITDA levels, minimum fixed charge coverage ratios, and maximum annual capital expenditure levels. In addition, under the Facility, the Company is prohibited from paying non-intercompany cash dividends.

The revised Whitney Note is in the form of a \$24.0 million Senior Subordinated 12% Note (the Note) with detachable warrants to purchase 503,126 shares of the Company's common stock exercisable at \$3.742 per share through September 9, 2006. The warrant exercise price was reduced from \$5.50 per share. The Note is secured by the Company's assets, subordinate to Foothill's interest. Warrants to purchase an additional 5% of the Company's common stock, exercisable for nominal consideration, will be issued if the principal amount of the Note is not prepaid by December 31, 2003. Warrants to purchase a second 5% of the Company's common stock, exercisable for nominal consideration, along with an additional note in the original principal amount of \$5.0 million, will also be issued if the outstanding principal amount of the Note is greater than \$12.0 million after December 31, 2003. In addition, beginning January 2004 and continuing through June 2004, the interest rate will increase by 1% per annum each month up to a maximum rate of 18%. The Company is currently assessing various options that will enable it to prepay the principal portion of the Note to avoid the necessity of having to issue the additional warrants and incur the additional note obligation. At such

Table of Contents

MERCURY AIR GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Continued

time when the Company determines that it is probable that the Note, or a portion of the Note, will be prepaid, the estimated amount of the prepayment may be classified as a current portion of long-term debt on the Company's balance sheet. Until the Company determines that it is not probable that the Note, or any portion of the Note, will be prepaid, the Company is accruing the additional cost of the new warrants and the additional note obligation over the remaining term of the Note. The Company is also required to prepay all outstanding principal of the Note and any additional note on December 31, 2004, but the failure by the Company to make such prepayment will not entitle the holder to accelerate the balance on the outstanding Note or outstanding additional note. The revised Whitney Note contains similar covenants as in the original Note, including covenants that, among other matters, limit senior indebtedness, the payment of dividends, and the disposition of assets. The revised covenants also include minimum EBITDA requirements and capital expenditure limitations.

While the Note is subordinate to the Facility, the loan and security agreement does allow for the prepayment of principal on both the Note and the Facility under certain conditions. Under the terms of loan and security agreement, the first \$15.0 million of principal prepayment is to be applied equally to the outstanding principal of the Facility's term loan and the Note. The next \$4.5 million of principal prepayment is to be applied entirely to the outstanding principal of the Note. The next principal prepayments will then either be applied equally to the outstanding principal of the Facility and to the Note or entirely to the outstanding principal of the Note, depending on certain conditions, until the entire \$24.0 million of the Note has been repaid in full.

As required by the Whitney Note, the Company has formed committees consisting of its independent directors to seek opportunities for asset sales and other financing transactions, with a view to reducing the Company's total debt.

At June 30, 2002, the Company was in noncompliance with certain debt covenants contained in the previous credit facility, giving the lenders the right to declare the outstanding obligation immediately due and payable. As such, the total principal amount outstanding on the previous Senior Secured Credit Facility and the Note were classified on the Company's consolidated balance sheet at June 30, 2002 as current portion of long-term debt and Senior Subordinated Note, current. With the aforementioned refinancing, the default conditions were removed and the debt is classified as current and long term based on normal due dates stipulated by the loan agreement. In addition, for the nine months ended March 31, 2003 the Company wrote off \$1.7 million in capitalized financing costs relating to the previous credit facility and Note.

Note 6 Preferred Stock

During December 2002, the Company issued 462,627 shares of Series A 8% Cumulative Convertible Preferred Stock (the Preferred Stock) at a stated value of \$1.00 per share with a par value of \$0.01 per share to investors having a pre-existing relationship with the Company, comprised of customers and employees. The issuance of the Preferred Stock occurred after the Company was unable to draw-down on the previous revolving credit facility.

The shares of the Preferred Stock are convertible to common stock, at the option of the stockholder, at a conversion price of \$7.50 per share. Dividends on the Preferred Stock are accrued on a semi-annual basis at an annual rate of 8.0% and paid, either in cash or in-kind at the election of the Company. During a 30-day period immediately following the third, fourth, fifth and each subsequent anniversary date of the issuance of the Preferred Stock, both the Company and the stockholder have the option to redeem the then outstanding shares of Preferred Stock for an amount equal to \$1.00 plus all accrued but unpaid dividends for each share of Preferred Stock redeemed. The Company has the option, whether the Company or the Stockholder exercised their redemption option, to pay all or part of the redemption in shares of the Company's common stock. In the event of any liquidation of the Company, the holders of Preferred Stock have a liquidation preference over common stock, plus all declared but unpaid dividends. In the event the assets are insufficient to cover the

Table of Contents**MERCURY AIR GROUP, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Continued**

aforsaid amounts, the Preferred Stockholders would share in the assets ratably in proportion to the full preferential amount.

Note 7 Earnings Per Share

Basic earnings per common share is computed by dividing net income by the weighted average number of common shares outstanding during the period. In calculating earnings per share, the loss for the nine and three month periods was reduced by accrued preferred stock dividends of \$9,000. Diluted earnings per share is computed by dividing net income less accrued preferred stock dividends by the weighted average number of common shares and potential common shares. Potential common shares include stock options, shares resulting from the assumed conversion of subordinated debentures, and preferred stock redemptions, when dilutive.

	Nine Months Ended				Three Months Ended

Note 8 Segment Reporting

The Company discloses segment information in accordance with Statements of Financial Accounting Standards (SFAS) No. 131, Disclosure About Segments of an Enterprise and Related Information, which requires companies to report selected segment information on a quarterly basis and to report certain entity-wide disclosures about products and services, major customers and material countries in which the entity holds assets and reports revenues. The operating segments reported below are the segments of the Company for which operating results are evaluated regularly by management in deciding how to allocate resources and in assessing performance. Intersegment sales are not significant.

The Company operates and reports its activities through four principal units: 1) Fuel Sales, 2) Fixed Based Operations, 3) Cargo Operations and 4) Government Contract Services.

	Fuel Sales	Fixed Base Operations	Cargo Operations	Government Contract Services	Corporate or Unallocated	Total
(Dollars in Thousands)

Capital Expenditures	7	3,597	67	4	321	3,996
Segment Assets	36,157	62,391	16,099	11,962	15,400	142,009
Nine Months Ended March 31, 2002						
Revenues	\$171,353	\$69,575	\$21,086	\$21,747		\$283,761
Gross Margin	5,169	10,455	1,008	5,411		22,043
Depreciation and Amortization	31	4,301	1,680	384	\$ 634	7,030
Capital Expenditures	22	2,718	142	5	18	2,905
Segment Assets	23,202	68,169	14,866	14,306	13,706	134,253

The Company's assets are reviewed by management on a consolidated basis because it is not meaningful to allocate assets to the various segments. The Company evaluates segment performance based on revenues and operating profits. The Company does not allocate income taxes or charges determined to be non-recurring in nature, such as restructuring and impairment charges. Unallocated amounts of operating profits consist of corporate expenses, and certain general and administrative expenses from field operations.

The revenue amount for the corporate or unallocated segment represents the elimination of intersegment sales between the fuel sales and fixed base operations segments.

Gross margin is used as the measure of profit and loss for segment reporting purposes as it is viewed by key decision makers as the principal operating indicator in measuring segment profitability. The key decision makers also view bad debt expense as an important measure of profit and loss. The predominant component of bad debt expense relates to Fuel Sales. Bad debt expense for Fuel Sales was approximately \$348,000 and \$449,000; total bad debt expense was \$442,000 and \$475,000 for the quarter ended March 31, 2003 and March 31, 2002, respectively. Bad debt expense for Fuel Sales was approximately \$980,000 and \$1,021,000; total bad debt expense was \$1,201,000 and \$1,247,000 for the nine months ended March 31, 2003 and March 31, 2002, respectively.

Note 9 Comprehensive Income

Note 10 Related Party Transactions

Edgar Filing: MERCURY AIR GROUP INC - Form 10-Q

CFK Partners, LLC is a partnership consisting of three of the Company's directors, one of whom also serves as the Company's Chief Executive Officer and another who serves as Chairman of the Board. In addition, CFK Partners, LLC also owns approximately 30% of the Company's outstanding common stock.

In January 2002, the Company sold the land and the office building which houses its corporate headquarters to CFK Partners, LLC for \$4,200,000, consisting of \$2,800,000 cash and a note receivable of

Table of Contents

MERCURY AIR GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Continued

\$1,400,000. The note accrues interest at 5% and contains provisions whereby CFK Partners, LLC can elect to extend the maturity date in one year increments through December 31, 2004. The note had an original maturity date of December 31, 2002. In early December 2002, the Company received notification from CFK Partners, LLC that it was exercising its right to extend the maturity date of the note for an additional one year period. For the nine-month period ended March 31, 2003, the Company has expended \$275,000 for leasehold improvements on its corporate headquarters. This amount will be amortized over the office lease term.

The Company and its Chairman (the Members) each own a 50% interest in MercMed, LLC (MercMed). MercMed was formed to own and operate a corporate aircraft. In early April 2002, the Members agreed to sell the aircraft. As part of this decision, the Members also agreed that the Company would fund the monthly partner contributions to allow MercMed to meet its monthly financial requirements as detailed in the Operating Agreement and that the Company would be reimbursed for the amount of contributions above its proportional share with the net proceeds, after repayment of the outstanding note, from the sale of the aircraft. From the period of April 1, 2002 through March 31, 2003 the Company has contributed \$369,000 to MercMed to meet its financial obligations. These contributions will be reflected in the Company's Capital Account and will be collected upon the sale of the aircraft. On March 27, 2003, MercMed secured new financing for the aircraft with a 15-year note with the effective interest rate being fixed for a 36-month period. At the end of the initial 36-month period until maturity, the interest rate will be reviewed and fixed at the then Federal Home Loan Bank's regular three-year interest rate plus 275 basis points. Both the Company and its Chairman are guarantors of this note. As of March 31, 2003, the principal amount of the note outstanding was \$703,000.

The Company uses the services of the legal firm McBreen and Kopko (the Firm) for various general corporate legal matters. Mr. Frederick H. Kopko, Jr., a partner of the Firm, is a member of the Company's Board of Directors and is a partner with CFK Partners, LLC. For the three and nine-month periods ended March 31, 2003, the Company paid the Firm \$179,000 and \$541,000, respectively, for legal services rendered.

(1) Gross margin as used here and throughout Management's Discussion excludes depreciation and amortization and selling, general and administrative expense.

(2) Intercompany eliminations represent sales between the fuel sales division and the FBO division.

Table of Contents

Three Months ended March 31, 2003 compared to the Three Months ended March 31, 2002

Revenue in the third quarter of fiscal year 2003 was \$111.0 million, representing an increase of 26.2% from the revenue reported for the third quarter of fiscal year 2002 of \$87.9 million. The increase in revenue is primarily attributed to a combination of higher average sale prices for petroleum products in the current quarter and improved performance by the Company's cargo operations. In addition, revenue in the amount of \$2.0 million is reflected in the third quarter of fiscal year 2002 from the Company's FBO in Bedford, Massachusetts (the Bedford FBO) which was sold in June 2002. The gross margin in the current quarter was \$6.2 million, a decrease of \$0.3 million or 4.6% from the gross margin of \$6.5 million reported last year which included \$0.6 million from the Company's Bedford FBO. Excluding the Bedford FBO margin from last year's results, gross margin increased \$0.3 million or 4.6%. The increase in gross margin was primarily the result of improved margins at the Company's FBO operations, higher margins in the Cargo operation, and offset by lower margins in the Government Contract Services business.

Revenue from the Fuel Sales business represented 65.3% of total revenue in the current period as compared to 59.4% of revenue a year ago. Fuel Sales revenue totaled \$72.5 million in the current period, an increase of 38.8% from the same period last year, on volume of 63.3 million gallons. This compares favorably to revenue during the third quarter of fiscal 2002 of \$52.2 million on sales volume of 70.1 million gallons. The increase in sales revenue is attributed to higher average sales prices for petroleum products. The current quarter was negatively impacted by reduced volume resulting from the cessation of business by National Airlines, Inc. (National) effective November 6, 2002. Excluding the impact of National, third quarter 2002 sales were \$41.8 million on a volume of 53.8 million gallons. Gross margin from fuel sales was \$1.7 million in the current period, a decrease of 7.2% from last year's gross margin of \$1.8 million. The average sales price for fuel in the current period was 114.3 cents per gallon, an increase of 39.9 cents per gallon from the average price of 74.4 cents per gallon last year while the average cost of fuel rose 39.0 cents per gallon to 109.9 cents per gallon as compared to 70.9 cents per gallon last year. There were many factors that contributed to the sharp increase in the cost of fuel, including uncertainties associated with war with Iraq and the effect the war would have on oil supplies and the oil workers' strike in Venezuela that temporarily halted oil production in that country leading to a temporary decline in oil supply to the United States. Since the end of the quarter, fuel costs have declined from the high point incurred during the most recent quarter as the war in Iraq winds down without resulting in an oil supply disruption and the oil workers' strike in Venezuela has ended with that country's oil production and exports returned to their more normal levels.

National, a customer of the Company's MercFuel, Inc. (MercFuel) subsidiary, ceased operations on November 6, 2002. The Company had been providing fuel to National since May 1999. In December 2000, National filed for Chapter 11 bankruptcy protection and the Company continued to sell fuel to National on a secured basis under the auspices of the bankruptcy court. Sales to National during the third quarter of fiscal year 2002 were \$10.4 million or 19.9% of third quarter revenue for fiscal 2002.

Revenue from the FBO business segment for the third quarter of fiscal year 2003 was \$24.4 million on sales volume of 8.0 million gallons. This compares to revenue of \$22.5 million on sales volume of 8.0 million gallons last year. Excluding the contribution of the Bedford FBO from last year's results, revenue increased \$3.9 million or 19.0% with a 10.5% increase in sales volume. The increase in revenue, after adjusting last year's results to exclude the Bedford FBO, was primarily due to higher average sales price of aviation fuel. The FBO's gross margin was \$2.9 million in the current period as compared to \$3.2 million last year, which included \$0.6 million from the Bedford FBO. The gross margin adjusted for the effects of the Bedford FBO improved 8.7% from the prior year.

The Cargo business segment had revenue of \$8.4 million in the third quarter of fiscal year 2003, an increase of \$2.0 million, or 31.2%, from last year's revenue of \$6.4 million. The increase in revenue is primarily attributed to higher import and export activity in the cargo handling operation. Gross margin from the Cargo business segment in the current period was \$0.5 million, an increase of \$0.7 million from last year's results, primarily due to higher margins in the cargo handling operations partially offset by higher start-up expenses for the Mercury World Cargo operations.

Table of Contents

Revenue from the Government Contract Services segment was \$6.0 million, a decrease of \$0.8 million, or 11.7%, from last year's third quarter revenue of \$6.8 million. The decline in revenue is primarily due to the loss of two refueling contracts. Gross margin for the second quarter of fiscal year 2003 was \$1.2 million, a decrease of \$0.5 million from last year's gross margin of \$1.7 million. The decrease in gross margin is primarily attributed to reduced margin on the base operations services contracts.

Selling, general and administrative expenses in the third quarter were \$2.7 million a decrease of 9.4% from expenses of \$3.0 million in 2002, due to impact of severance related expenses paid in the third quarter of fiscal 2002.

Provision for bad debts of \$0.4 million decreased slightly from the prior year's provision of \$0.5 million.

Depreciation and amortization expense was \$2.0 million in the current period as compared to \$2.3 million last year. The reduction is primarily due to the sale of the Bedford FBO in June 2002. The current period reduction also reflects the non-amortization of goodwill for fiscal year 2003 which resulted in a \$0.1 million decrease from the three months ended March 31, 2002.

Interest expense and other in the current period was \$2.5 million, an increase of \$1.2 million or 93% from interest of \$1.3 million in the third quarter of 2002. The increase is due primarily to the accrual of a premium relating to the subordinated note, which would be realized in the event the note is not prepaid in full prior to December 31, 2003.

Income tax benefit approximated 39% of pre-tax loss for both periods reflecting the expected effective annual tax rate.

Nine Months ended March 31, 2003 compared to Nine Months ended March 31, 2002

Revenue for the first nine months of fiscal year 2003 was \$332.9 million, representing an increase of 17.3% from the revenue reported for the same period a year ago of \$283.8 million. The increase in revenue is primarily attributed to higher average sale prices for petroleum products and due to the adverse effect last year of the tragic events of September 11, 2001. Gross margin in the current period was \$19.3 million, a decrease of \$2.7 million or 12.4% from the gross margin of \$22.0 million reported last year. The decline in gross margin was primarily the result of the sale of the Bedford FBO in June 2002 and lower margins in the Government Contract Services business partially offset by higher margins in the Cargo operations.

Revenue from the Fuel Sales business represented 65.5% of total revenue in the current period as compared to 60.4% of revenue a year ago. Fuel sales revenue totaled \$218.1 million in the current period, an increase of 27.3% from the same period last year, on volume of 221.5 million gallons. This compares favorably to revenue during the first nine months of fiscal year 2002, of \$171.4 million on a sales volume of 213.3 million gallons. The increase in sales revenue and volume is attributed to higher average sales prices for petroleum products during the current year and the adverse effect on last year's sales volume due to September 11, 2001. Gross margin from fuel sales was \$4.7 million in the current period, down 8.2% from last year's gross margin of \$5.2 million. The average sales price for fuel in the current period was 98.4 cents per gallon, an increase of 18.3 cents per gallon from the average price of 80.1 cents per gallon last year while the average cost of fuel rose 18.1 cents per gallon to 94.6 cents per gallon as compared to 76.5 cents per gallon last year. There were many factors that contributed to the sharp increase in the cost of fuel, including uncertainties associated with war with Iraq and the effect the war would have on oil supplies and the oil workers strike in Venezuela that temporarily halted oil production in that country leading to a temporary decline in oil supply to the United States. Since the end of the quarter, fuel costs have declined from the high point incurred during the most recent quarter as the war in Iraq winds down without resulting in an oil supply disruption and the oil worker's strike in Venezuela has ended with that country's oil production and exports

National, a customer of the Company's MercFuel, Inc. (MercFuel) subsidiary, ceased operations on November 6, 2002. The Company had been providing fuel to National since May 1999. In December 2000, National filed for Chapter 11 bankruptcy protection and the Company continued to sell fuel to National on a secured basis under the auspices of the bankruptcy court. Sales to National for the first nine months of fiscal year 2003 were \$24.7 million on a volume of 29.0 million gallons as compared to \$35.5 million on a volume of

Table of Contents

49.9 million gallons for the first nine months of 2002. As a result of the secured nature of the transactions, the amount of loss on the cessation of business was negligible. Excluding the sales volume to National for both periods, the Fuels Sales business's sales volume was 192.5 million gallons for the first nine months of fiscal year 2003 as compared to 163.4 million gallons for the same period last year.

Revenue from the FBO business segment for the first nine months of fiscal year 2003 was \$72.2 million on a sales volume of 25.0 million gallons. This compares to revenue of \$69.6 million on a sales volume of 26.3 million gallons last year. Excluding the contribution of the Bedford FBO from last year's results, revenue increased \$7.9 million or 12.3% with essentially no change in sales volume. The increase in revenue, after adjusting last year's results to exclude the Bedford FBO, was primarily due to higher average sales price of aviation fuel. The FBO's gross margin was \$8.8 million in the current period as compared to \$10.4 million last year, which included \$1.3 million from the Bedford FBO. Excluding the margin contribution from the Bedford FBO from last year's results, gross margin for the FBO business segment decreased \$0.3 million, or 3.4%, from last year primarily due to higher insurance costs.

The Cargo business segment had revenue of \$24.8 million during the first nine months of fiscal year 2003, an increase of \$3.7 million, or 17.8%, from last year's revenue of \$21.1 million. The increase in revenue is primarily attributed to higher revenue in the cargo handling operation, which had increased handling volume due to the West Coast dockworkers' strike and due to improved import/export activity. Gross margin from the Cargo business segment in the current period was \$2.4 million, an increase of \$1.4 million from last year's results, primarily due to the subleasing of the Cargo business's Atlanta warehouse facility to Lufthansa Handling starting in March 2002 and higher margins at its Los Angeles warehouse operations partially offset by higher start-up expenses for the Mercury World Cargo operations and lower margins in the Cargo Management operations.

Revenue from the government contract services segment was \$18.5 million, a decrease of \$3.2 million, or 14.8%, from last year's revenue of \$21.7 million. The decline in revenue is primarily due to the loss of the Yokota, Japan contract, which expired in September 2001 and two refueling contracts. The Yokota contract provided \$1.4 million, or 6.5%, of the government contract services segment revenue during the first nine months of fiscal year 2002. Gross margin for the first nine months of fiscal year 2003 was \$3.4 million, a decrease of \$2.0 million from last year's gross margin of \$5.4 million. The decrease in gross margin is primarily attributed to the loss of the Yokota, Japan contract, lower margin on the Kuwait Air Terminal contract and a reserve for a legal settlement of \$0.3 million in fiscal year 2003.

The Company's selling, general and administrative expenses for the current period were \$8.2 million, an increase of \$0.4 from last year's expense of \$7.8 million. The increased expense was primarily due to expenses associated with the extension of certain stock options and the establishment of an environmental reserve of \$0.3 million for a previously sold site.

Provision for bad debts of \$1.2 million is essentially unchanged from last year.

Depreciation and amortization expense was \$6.1 million in the current period as compared to \$7.0 million last year. The reduction is primarily due to the sale of corporate headquarters in January 2002 and the sale of the Bedford FBO in June 2002. The current period also reflects the non-amortization of goodwill for fiscal year 2003 which resulted in a \$0.3 million decrease in amortization from the prior year.

Interest expense and other in the current period was \$5.2 million, an increase of \$0.9 million from last year's interest expense of \$4.3 million. The increase is due primarily to the accrual of a premium relating to the subordinated note, which would be realized in the event the note is not paid down prior to December 31, 2003.

As a result of the restructuring of the Company's long term debt in the current period, the Company wrote off capitalized financing costs of \$1.7 million. This is comprised of the unamortized portion of the deferred debt issuance costs associated with the previous senior secured credit facility and the subordinated note at the time of early debt extinguishment and note amendment and expenses incurred associated with other refinancing options that were not completed.

Table of Contents

In fiscal year 2002, the Company wrote-off the deferred stock offering costs of \$1.0 million associated with the planned public and private offering of MercFuel common stock. The Company decided not to undertake the offering due to market uncertainties and general economic conditions at the time.

Income tax (benefit) expense approximated 39% of pre-tax (loss) income for both periods reflecting the expected effective annual tax rate.

Liquidity and Capital Resources:

As of March 31, 2003, the Company's cash and cash equivalents were \$6.0 million, an increase of \$0.4 million for the nine month period then ended. Cash generated from operating activities for the nine month period ended March 31, 2003 was \$3.1 million comprised of cash generated of \$8.4 million from earnings, adjusted for non-cash items, less \$5.3 million for an increase in net working capital. The increase in working capital was primarily due to an increase in Mercfuel's trade receivables from higher petroleum prices and a reduction in the current income tax liability.

During the first nine months of fiscal year 2003, the Company used \$1.0 million in investing activities. The company made additions of \$3.9 million to property, plant and equipment primarily for hangar and tank farm projects for the fixed base operations. In addition, the Company used \$1.0 million for the purchase of fuel sales contracts for the fuel sales division. These outlays were offset by a decrease in restricted cash of \$3.8 million generated by the sale of the Bedford FBO and used to reduce long-term debt.

The Company's financing activities used \$1.7 million in cash primarily due to a net draw down on the revolving credit facility. In addition the Company generated \$0.3 million and \$0.1 million from the issuance of preferred stock and exercise of stock options, respectively. The issuance of the preferred stock occurred after the Company was unable to draw-down on the previous revolving credit facility.

On December 30, 2002, the Company entered into a loan and security agreement, (the Facility), refinancing its senior secured credit facilities with Foothill Capital Corporation (Foothill), a division of Wells Fargo Bank, for a five-year term, as agent for the lenders party thereto. In addition, the Company and J.H. Whitney Co. Mezzanine Fund entered into agreements revising the terms of the subordinated loan facility, which will mature on December 31, 2005. The funding under the senior facility and the amendments to the subordinated loan were completed on December 31, 2002.

The Facility provides a total of up to \$42.5 million in revolving and term loans. The term loan is for an amount equal to \$12.5 million, while the revolving loan is for an amount not to exceed 85% of Eligible Accounts Receivable (as defined in the loan agreement), subject to certain limitations. The term loan is payable in \$1.0 million installments each April 1 and October 1, beginning April 1, 2003 and in \$0.5 million installments each July 1 and December 31, until paid in full. Amounts repaid under the term loan increase the maximum availability under the revolving loan. The Facility also provides for the issuance of certain letters of credit. The terms of the Facility requires that the Company maintain a minimum availability on the revolving line of credit of \$2.5 million. As of March 31, 2003, the Company had \$3.8 million of availability on the revolving line of credit. The amount of available revolving credit line fluctuates on a daily basis dependent upon the amount of Eligible Receivables and the amount of letters of credit outstanding and the amount of outstanding cash borrowings against the revolving credit facility.

The Facility may be terminated on December 23, 2005, if the Whitney Note is not paid in full or refinanced, on terms acceptable to Foothill, prior to October 31, 2005. The Facility is secured by substantially all of the assets of the Company and its subsidiaries. The Facility contains provisions that require the maintenance of certain financial ratios including minimum EBITDA levels, minimum fixed charge coverage ratios, and maximum annual capital expenditure levels. In addition, under the Facility, the Company is prohibited from paying non-intercompany cash dividends.

The revised Whitney Note is in the form of a \$24.0 million Senior Subordinated 12% Note (the Note) with detachable warrants to purchase 503,126 shares of the Company's common stock exercisable at \$3.742 per share through September 9, 2006. The warrant exercise price was reduced from \$5.50 per share. The Note is secured by the Company's assets, subordinate to Foothill's interest. Warrants to purchase an additional 5%

Table of Contents

of the Company's common stock, exercisable for nominal consideration, will be issued if the principal amount of the Note is not prepaid by December 31, 2003. Warrants to purchase a second 5% of the Company's common stock, exercisable for nominal consideration, along with an additional note in the original principal amount of \$5,000,000, will also be issued if the outstanding principal amount of the Note is greater than \$12,000,000 after December 31, 2003. In addition, beginning January 2004 and continuing through June 2004, the interest rate will increase by 1% per annum each month up to a maximum rate of 18%. The Company is currently assessing various options that will enable it to prepay the principal portion of the Note to avoid the necessity of having to issue the additional warrants and incur the additional note obligation. At such time when the Company determines that it is probable that the Note, or a portion of the Note, will be prepaid, the estimated amount of the prepayment may be classified as a current portion of long term debt on the Company's balance sheet. Until the Company determines that it is not probable that the Note, or any portion of the Note, will be prepaid, the Company is accruing the additional cost of the new warrants and the additional note obligation over the remaining term of the Note. The Company is also required to prepay all outstanding principal of the Note and any additional note on December 31, 2004, but the failure by the Company to make such prepayment will not entitle the holder to accelerate the balance on the outstanding Note or outstanding additional note. The revised Whitney facility contains similar covenants as in the original Note, including covenants that, among other matters, limit senior indebtedness, the payment of dividends, and the disposition of assets. The revised covenants also include minimum EBITDA requirements and capital expenditure limitations.

While the Note is subordinate to the Facility, the loan and security agreement does allow for the prepayment of principal on both the Note and the Facility under certain conditions. Under the terms of loan and security agreement, the first \$15.0 million of principal prepayment is to be applied equally to the outstanding principal of the Facility's term loan and the Note. The next \$4.5 million of principal prepayment is to be applied entirely to the outstanding principal of the Note. The next principal prepayments will then either be applied equally to the outstanding principal of the Facility and to the Note or entirely to the outstanding principal of the Note, depending on certain conditions, until the entire \$24.0 million of the Note has been repaid in full.

As of March 31, 2003, the Company was in compliance with all of the covenants contained in the Facility and the Note; however, based on management's judgement, the Company may exceed the Facility's maximum capital expenditure covenant and the Note's maximum professional fees covenant for the period ending June 30, 2003. The Company will be holding discussions with its Lenders to address these issues and attempt to obtain waivers for these financial covenants.

As required by the Whitney Note, the Company has formed committees consisting of its independent directors to seek opportunities for asset sales and other financing transactions, with a view to reducing the Company's total debt.

Critical Accounting Policies

Management's beliefs regarding significant accounting policies have not changed significantly from those discussed in Item 7 of the Company's Annual Report on Form 10-K for the year ended June 30, 2002.

Item 3. *Quantitative and Qualitative Disclosure About Market Risk*

The Company does not currently utilize material derivative financial instruments which expose the Company to significant market risk. However, the Company's cash flow, earnings, and the fair value of its debt, may be adversely affected due to changes in interest rates with respect to its long-term debt. The table below presents principal cash flows and related weighted average interest rates of the Company's long-term debt at March 31, 2003 by expected maturity dates. Weighted average variable rates are based on rates in effect at March 31, 2003. These rates should not be considered a predictor of actual future interest rates.

Table of Contents

	Expected Maturity Date						Total	Fair Value
	June-03	June-04	June-05	June-06	June-07	Thereafter		
Fixed Rate Subordinated Note	0	0	0	\$23,401,000	0	0	\$23,401,000	\$24,000,000
Average Interest Rate(3)	29.3%	29.3%	29.3%	29.3%	0	0	29.3%	
Fixed Rate Other Debt	\$ 122,000	\$ 26,000	\$ 26,000	\$ 26,000	\$ 26,000	\$ 143,000	\$ 369,000	\$ 369,000
Average Interest Rate	8.50%	8.58%	9.14%	9.14%	9.14%	9.14%	8.80%	
Variable Rate Tax Exempt Bonds(1)	\$ 500,000	\$ 1,000,000	\$ 1,000,000	\$ 1,000,000	\$ 1,000,000	\$ 10,000,000	\$ 14,500,000	\$ 14,500,000
Average Interest Rate	1.61%	1.61%	1.61%	1.61%	1.61%	1.61%	1.61%	
Variable Rate Other Debt(2)	\$ 1,000,000	\$ 3,000,000	\$ 3,000,000	\$ 3,000,000	\$ 2,500,000	\$ 3,336,000	\$ 15,836,000	\$ 15,836,000
Average Interest Rate	5.00%	5.00%	5.00%	5.00%	5.00%	5.00%	5.00%	

- (1) The interest rate is based upon a weekly remarketing of the bonds.
- (2) Consists of debt under which interest rates will fluctuate based upon changes in the prime rate or LIBOR.
- (3) The interest rate reflects an effective rate derived from the note's stated rate of 12% and the amortization effect of stock warrants, loan premium and financing cost.

In making its determination as to the balance of fixed and variable rate debt, the Company considers the interest rate environment (including interest rate trends), borrowing alternatives and relative pricing. The Company periodically monitors the balance of fixed and variable rate debt, and can make appropriate corrections either pursuant to the terms of debt agreements or through the use of swaps and other financial instruments.

Item 4. Controls and Procedures**Evaluation of Disclosure Controls and Procedures**

Based on evaluations as of a date within 90 days of the filing date of this report, our principal executive officer and principal financial officer, with the participation of our management team, have concluded that our disclosure controls and procedures (as defined in Rules 13a-14 (c) and 15d-14 (c) under the Securities Exchange Act) are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC.

Changes in Internal Controls

There were no significant changes in our internal controls or in other factors that could significantly affect these internal controls subsequent to the date of their most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

Forward-Looking Statements

Statements contained in this Quarterly Report on Form 10-Q which are not historical facts are forward-looking statements. In addition, Mercury, from time-to-time, makes forward-looking statements concerning its expected future operations and performance and other

developments. Such forward-looking statements are necessarily estimates reflecting Mercury's best judgment based upon current information and involve a number of risks and uncertainties, and there can be no assurance that other factors will not affect the accuracy

Table of Contents

of such forward-looking statements. While it is impossible to identify all such factors, factors which could cause actual results to differ materially from those estimated by Mercury include, but are not limited to, risks associated with acquisitions, the financial condition of customers, non-renewal of contracts, government regulation, as well as operating risks, general conditions in the economy and capital markets, and other factors which may be identified from time-to-time in Mercury's Securities and Exchange Commission filings and other public announcements.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

In September 2001, the Company filed a motion for declaratory judgment to determine its liability as a result of a fuel spill on April 8, 2001 at the Ontario, CA. Airport. On November 30, 2001, the Company received notice of a counter-complaint filed by UPS against the Company and a third party seeking indemnification and reimbursement in the amount of \$470,000 for the costs incurred as a result of the fuel spill. The parties have reached a tentative settlement through mediation. Trial has been continued until October 2003, pending the outcome of the proposed settlement.

On May 1, 2002, Mercury received a Notice of Violation (NOV) for its Fort Wayne, Indiana facility alleging that Mercury's Spill Prevention, Control and Countermeasure Plan (SPCC) did not meet certain federal regulatory guidelines. Specifically, the Environmental Protection Agency (EPA) alleged that Mercury's SPCC failed to provide for proper parking, secondary containment, and proper drainage of its refueler trucks. Mercury entered into discussions with the EPA and responded to the NOV. On January 29, 2003, the EPA again notified the Company of some deficiencies in its latest SPCC and requested that Mercury submit a written response to its allegations within 30 days. On March 14, 2003, Mercury received a Notice of Violation from the United States Environmental Protection Agency, Region 5 (EPA) alleging certain deficiencies in the SPCC for its Fort Wayne, Indiana facility, submitted to EPA in November 2002. Mercury believes that it has resolved all deficiencies except for alleged deficiencies related to: 1) secondary containment for refueler trucks, and 2) secondary containment for discrete fuel loading areas. Pursuant to an agreement detailed in a letter submitted to EPA on April 16, 2003, Mercury has been permitted to suspend modifications to its SPCC regarding the installation of secondary containment for its refueler trucks, pending resolution of federal regulatory issues associated with secondary containment for such trucks. EPA has also extended national compliance with regulations related to discrete loading areas until August 17, 2004.

On October 31, 2002 a complaint was filed before the National Labor Relations Board Region 12 on behalf of the Transport Workers Union of America, Local 525, AFL-CIO alleging that Maytag Aircraft Corporation has been engaging in unfair labor practices as set forth in the National Labor Relations Act at its Patrick Air Force Base location. On April 11, 2003, a settlement agreement was fully executed. The Company agreed to pay approximately \$170,000 plus applicable payroll taxes.

On November 18, 2002, Investorwatch LLC filed an action in the Superior Court of the State of California for the County of Los Angeles, Central District alleging derivative and direct claims against Mercury and certain of its affiliates based upon alleged wrongful conduct in connection with certain transactions entered into by Mercury, including certain related party transactions, which transactions were previously disclosed by Mercury. On February 18, 2003, the plaintiff filed a dismissal without prejudice with the court.

On November 27, 2002, Andrew J. Chitica filed a shareholder verified derivative complaint in the Superior Court of the State of California, County of San Diego, North County Division alleging that certain directors of the Company breached their fiduciary duty to the Company. On February 13, 2003, the plaintiff files a dismissal without prejudice with the court to dismiss the complaint and the entire action of all parties and causes of action.

On February 26, 2003, Robert Bosch, filed an action in the United States District Court, Eastern District of New York against Excel Cargo, Inc. and others, seeking \$1.5 million in damages for damaged cargo. The

Table of Contents

Company is in the process of responding to the complaint. Mercury does not believe the outcome of this claim will have a significant impact on its financial position or operating results.

On April 16,2003, the Plan Committee of Shuttle America Corp filed a Adversary Proceeding in the United States Bankruptcy Court, District of Connecticut alleging preferential transfers in the amount of \$995,000. The Company believes that it has significant defenses in this matter. The Company s answer is due on May 16, 2003. Mercury does not believe this matter will have a significant impact on its financial position or operating results.

The Company is also a defendant in certain litigation arising in the normal course of business. In the opinion of management, the ultimate resolution of such litigation will not have a significant effect on its financial position or operating results. Reference is made to the SEC Form 10-Q for the quarterly period ended December 31, 2002 for additional litigation with respect to which no material developments have occurred in the current quarter.

CERTIFICATION

I, Joseph Czyzyk, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Mercury Air Group, Inc.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly presents in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rule 13a-14 and 15d-14) for the registrant and we have:
 - a. designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b. evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the Evaluation Date); and
 - c. presented in the quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent function):
 - a. all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
 - b. any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officer and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
