Board Meetings and Attendance

The Board met five times in 2003. Committees of the Board met from time to time upon call of the Chairman of the Board or individual committee Chairs. During 2003, each Director attended at least 75% of the total number of meetings of the Board and the committees on which he or she served.

Although we do not have a formal policy with respect to Director attendance at the Annual Meeting of Shareholders, the Directors are encouraged to attend. All of our Directors did attend last year's Annual Meeting.

Director Compensation

Other than Mr. Ortino (who does not receive Director fees), each Director was paid an annual fee of \$30,000 and an attendance fee of \$1,500 per day for meetings of the Board and \$1,000 for committee meetings. The Chairs of the Audit Committee and the Governance, Nomination & Compensation Committees are paid an additional annual fee of \$10,000 each, and the Chairs of the Finance and Technology Strategy Committees are paid an additional fee of \$4,000 each. In addition, in 2003 Ferro granted each Director (other than Mr. Ortino) an option to purchase 7,000 shares of Common Stock under the Long-Term Incentive Compensation Plan described on page 11 below.

Directors may defer their fees into a Ferro Common Stock account. Amounts so deferred are invested in Ferro Common Stock and dividends on those shares are reinvested in Ferro Common Stock. Ferro distributes the amounts in a Director's deferred account after he or she retires or otherwise leaves the Board.

Vote Required

Unless cumulative voting is requested, the election of Directors will be by a plurality of shares present and voting at the Annual Meeting.

If the election of Directors is by cumulative voting (see page 24 below), then the four nominees who receive the highest number of votes cast on a cumulative basis will be elected.

Board Recommendation

The Board recommends that you vote **FOR** the election of Messrs. Bulkin, Mee, Sharp and Weisser. Unless you instruct otherwise on your proxy card or telephone or Internet voting instructions, your proxy will be voted in accordance with the Board's recommendation.

If the election of Directors is by cumulative voting (see page 24 below), however, the persons appointed by your proxy intend to cumulate the votes represented by the proxies they receive and distribute such votes in accordance with their best judgment.

Table of Contents

CORPORATE GOVERNANCE

Ferro's Board has long followed, both formally and informally, corporate governance principles designed to assure that the Board, through its membership, composition, and committee structure, is able to provide informed, competent and independent oversight of the Company.

In response to the enactment of the Sarbanes-Oxley Act and other developments in corporate governance, during 2003 and 2004 the Board has reviewed Ferro's corporate governance policies and committee charters to assure that the Board continues to meet fully its responsibilities to our shareholders and the investing public.

Below is a description of the measures in place to assure that objective is met:

Corporate Governance Principles

The Board has recently reviewed and adopted Corporate Governance Principles. These Corporate Governance Principles, which may be found on Ferro's website, are intended to assure that Ferro's Director qualifications, Committee structure and overall Board processes provide good corporate governance and independent oversight of the Company's management.

Director Independence

The Board has also recently adopted formal Guidelines for Determining Director Independence, which may also be found on Ferro's website. The purpose of these Guidelines is to assist the Board in its evaluation of and determination as to the independence of members of the Board. The Guidelines meet or exceed in all respects the standards set forth in section 303A of the NYSE listing standards, and the Board has determined that all Directors other than the Chief Executive Officer qualify as independent under such standards.

Board Committees

The Directors have five committees as follows:

Audit Committee

The Audit Committee assists the Board with oversight of the integrity of Ferro's financial statements, Ferro's compliance with legal and regulatory requirements relating to its financial reports (including the annual Audit Committee report as required by the Securities Exchange Act of 1934), Ferro's external independent auditors qualifications, independence, and performance, the performance of Ferro's internal audit and risk management functions, compliance with Ferro's legal and ethical policies, and Ferro's accounting practices and systems of internal control. The Audit Committee is not, however, responsible for conducting audits, preparing financial statements, or accuracy of any financial statements or filings, all of which remain the responsibility of management and the independent auditors.

The Audit Committee's charter is included as Appendix A to this Proxy Statement and can be found on Ferro's website.

The members of the Audit Committee are Dr. Hwang and Messrs. Lawrence, Sharp, and Weisser. Mr. Lawrence serves as the Chair. Each member of the Audit Committee is independent as required under section 301 of the

Sarbanes-Oxley Act of 2003, as well as under the standards contained in section 303A of the NYSE listing standards. The Board has determined, in its best judgment, that more than one member of the Audit Committee has the accounting and related financial management experience and expertise to qualify as an audit committee financial expert as defined in section 407 of the Sarbanes-Oxley Act and the SEC's rules under that statute. The Board, however, has designated Alberto Weisser as the Audit Committee's named financial expert. (Mr. Weisser's biography is on page 3 above.) The Board has further determined that each member of the Audit Committee has the requisite financial literacy required under section 303A of the NYSE listing standards to serve on the Audit Committee.

Table of Contents

The Audit Committee met three times in 2003, in addition to holding conference calls in advance of the release of Ferro's quarterly results. The Audit Committee's report is on page 19 below.

Governance, Nomination & Compensation Committee

The Governance, Nomination & Compensation Committee (formerly known as the Compensation & Organization Committee) is responsible for recommending to the Board corporate governance principles, overseeing adherence to the corporate governance principles adopted by the Board, recommending to the Board criteria and qualifications for new Board members, recommending to the Board nominees for appointment or election as Directors, recommending to the Board the composition of committees and the chairs of each, recommending policies for compensation of directors, and setting the compensation of Ferro's chief executive officer. The Committee's charter may be found on Ferro's website.

In its role as the nominating body for the Board, the Committee reviews the credentials of potential Director candidates (including potential candidates recommended by shareholders), conducts interviews and makes formal recommendations to the Board for the annual and any interim election of Directors. In making its recommendations, the Committee considers a variety of factors, including skills, independence, background, experience, diversity, independence and compatibility with existing Board members. Other than the foregoing, there are no stated minimum criteria for Director nominees, although the Committee may also consider such other factors as it deems appropriate in the best interests of Ferro and its shareholders.

The Committee identifies nominees by first evaluating the current members of the Board willing to continue in service. If any Board member does not wish to continue in service or if the Committee or the Board decides not to nominate a member for re-election, then the Committee identifies the desired skills and experience in light of the criteria outlined above. The Committee then establishes a pool of potential Director candidates from recommendations from the Board, senior management and shareholders. The Committee may also retain a third party search firm to assist in the identification of Director candidates.

The Committee will consider candidates for Director who are recommended by shareholders. Shareholder recommendations should be submitted in writing to: Secretary, Ferro Corporation, 1000 Lakeside Avenue, Cleveland, Ohio 44114-1147 USA. The recommendation letter should include the shareholder's own name, address and the number of shares owned and the candidate's name, age, business address, residence address, and principal occupation, as well as the number of shares the candidate owns. The letter should provide all of the information that would need to be disclosed in the solicitation of proxies for the election of directors under Federal securities laws. Finally, the shareholder should also submit the recommended candidate's written consent to be elected and commitment to serve if elected. Ferro may also require a candidate to furnish additional information regarding his or her eligibility and qualifications.

Messrs. Bulkin, Lawrence, Mee and Sharp are the members of the Governance, Nomination & Compensation Committee, with Mr. Bulkin serving as the Chair. All members of this Committee meet the independence standards contained in section 303A New York Stock Exchange's listing standards.

The Governance, Nomination & Compensation Committee met five times in 2003. Its report is on pages 11 to 13 below.

Finance Committee

The Finance Committee has oversight responsibilities with respect to reviewing the Company's capital structure, worldwide capital needs, major capital allocations, financial position, and related financial covenants and recommending to the Board financial programs and plans for implementing such programs. This Committee's charter may also be found on Ferro's website.

The Finance Committee met two times in 2003. Ms. Warrior and Messrs. Mee, Sullivan and Weisser are the members of the Finance Committee, with Mr. Mee serving as the Chair.

Table of Contents

Technology Strategy Committee

The Technology Strategy Committee has responsibility for considering new business initiatives presented by management in the electronics, pharmaceuticals and other high technology sectors and for evaluating and recommending strategies for developing and adding to the technologies involved in those initiatives.

Ms. Crayton, Dr. Hwang, Ms. Warrior, Mr. Bulkin, and Mr. Sullivan are members of the Technology Strategy Committee, with Ms. Crayton serving as the Chair. This Committee met three times in 2003 and its charter may also be found on Ferro's website.

Executive Committee

The Executive Committee meets only in special or emergency circumstances that arise between Board meetings. Ms. Crayton and Messrs. Bulkin, Lawrence, Mee, Ortino and Sullivan are members of the Executive Committee, with Mr. Ortino serving as the Chair. The Executive Committee did not meet during 2003.

Other Corporate Governance Measures

Ferro's independent Directors meet at regularly scheduled executive sessions at least once each year. These meetings are chaired by a lead Director selected from among the committee Chairs on a rotating basis. Neither the Chief Executive nor any other member of management attends these meetings. Following each executive session, the non-management Directors invite the Chief Executive Officer to join their meeting and share with him or her, at their discretion, any observations, comments, or concerns they may have.

The independent Directors also have access to Ferro management as they deem necessary or appropriate. And, the Chairs of the Audit Committee and the Governance, Nomination & Compensation Committee meet periodically with members of senior management.

Finally, Ferro has adopted a series of policies dealing with business conduct and ethics. These policies apply to all Ferro Directors, officers, and employees. A summary of these policies may be found on Ferro's website and the full text of the policies is available in print free of charge by writing to: General Counsel, Ferro Corporation, 1000 Lakeside Avenue, Cleveland, Ohio 44114-1147 USA. To further assure compliance, Ferro maintains a worldwide hotline that allows employees to report confidentially any detected violations of these legal and ethical conduct policies. Waivers of those policies may be made, if at all, only by the Directors and, in the unlikely event any such waivers are granted, such waivers will be posted promptly on Ferro's website.

Any shareholder who wishes to communicate directly and confidentially with the lead Director or the independent Directors as a group may contact the independent Directors at the following website: www.ferrodirectors.com. The independent Directors will handle such communications confidentially.

INFORMATION CONCERNING EXECUTIVE OFFICERS

Report of the Governance, Nomination & Compensation Committee

Our Compensation Program

Ferro's management compensation program is designed to balance current performance with achievement of long-term objectives and to align the interests of senior management with those of the shareholders. The three key elements of this program are (1) an annual base salary, (2) an annual incentive bonus, and (3) long-term incentives. The Chairman and Chief Executive Officer's compensation includes all three of these elements. The Governance, Nomination & Compensation Committee has general responsibility for administering the compensation program.

Annual Base Salary. The Committee sets the annual base salary of all executive officers, including the Chief Executive Officer. The Chief Executive Officer makes recommendations to the Committee as to the base salaries of officers other than himself. The Chief Executive Officer does not, however, participate in deliberations concerning his own compensation.

Annual Incentive Bonus. Annual cash bonuses are paid to management employees under an annual incentive compensation plan. Under this plan, the Chairman and Chief Executive Officer's achievement is measured exclusively by attainment of mathematical targets. Awards for other senior managers are based on achievements measured primarily by attainment of mathematical targets, but they are also measured to a lesser extent by personal performance objectives.

Each year the Committee determines which senior managers will participate in the annual incentive compensation plan, determines the applicable percentage of salary to be used for bonus measurement, and sets the mathematical targets by which the level of bonus achievement will be measured.

Long-Term Incentives. Historically, Ferro has used two forms of long-term incentives—stock options and performance shares. Previously, these two forms of incentives were governed by separate plans—the Ferro Employee Stock Option Plan and the Ferro 1997 Performance Share Plan. At last year's Annual Meeting, our shareholders adopted a new plan—the 2003 Long-Term Incentive Compensation Plan—that contemplates the grant of stock options, performance shares and other forms of long-term incentive compensation. In 2003, the only grants made under the Long-Term Incentive Compensation Plan were of stock options and performance shares. The terms of grants of stock options and performance shares may be summarized as follows:

Stock Options. Stock options are issued under the 2003 Long-Term Incentive Compensation Plan. Stock options are issued at no less than the current market price at the date of grant. Stock options have a maximum term of ten years and vest evenly over four years on the anniversary of the grant date. The Committee determines which employees receive stock options and the number of option shares granted to such employees in accordance with the terms of the Plan.

Performance Shares. Performance shares are also awarded under the 2003 Long-Term Incentive Compensation Plan. Employees are awarded a nominal or target number of shares. At the end of a pre-determined performance period (usually three years), a determination is made whether and to what extent the pre-established performance targets have been achieved. Unless target levels of performance are achieved, employees' actual payouts under the plan can be significantly below the nominal values of the awards. Payments under this plan are made one-half in shares and one-half in cash.

2003 Executive Compensation

Compensation of the Chief Executive Officer. The Committee was responsible for setting the compensation package for Mr. Ortino, Ferro's Chairman and Chief Executive Officer. To assist in its evaluations, the Committee retained Watson Wyatt & Company (Watson Wyatt) as its independent

Table of Contents

executive consultants. Watson Wyatt's advice was based on a variety of competitive data maintained by, or available to, Watson Wyatt.

From these data, Watson Wyatt made recommendations to the Committee as to competitive levels of each element of Mr. Ortino's compensation (base salary, annual incentive and long-term incentive). The Committee took these recommendations into consideration in setting Mr. Ortino's compensation. The Committee's policy is to attain competitive levels of executive compensation for each of these elements.

For 2003, the Committee set the following compensation for Mr. Ortino:

<u>Base Salary</u>	<u>Annual Incentive Bonus</u>	<u>Stock Options</u>	<u>Performance Shares</u>
\$800,000 ⁽¹⁾	\$ 336,360	175,000 Shares	40,000 Shares

⁽¹⁾ Mr. Ortino's base salary was set at \$800,000 effective April 1, 2003. Before that date, his 2003 base salary was \$775,000.

The recommendations of the Committee represented satisfaction with the manner in which Mr. Ortino performed his responsibilities as Chairman and Chief Executive Officer during a challenging year. In particular, the Committee's decision was based upon Mr. Ortino's results orientation, sound business judgment, and continued success in integrating the dmc² business, as well as short- and long-term strategic planning and the results achieved by Ferro in a difficult business environment. The recommendations and actions of the Committee included consideration of Watson Wyatt's data as to competitive standards of compensation in the marketplace.

Mr. Ortino's base salary was in the third quartile of competitive market salary data as reported by Watson Wyatt. Mr. Ortino's annual incentive bonus target amount equaled 75% of his base salary, a percentage that, if achieved, would have placed Mr. Ortino's bonus in the third quartile of other companies in the marketplace for 2003 as reported by Watson Wyatt. Based on the mathematical application of performance factors for earnings per share growth, sales growth and debt reduction, Mr. Ortino's actual bonus for 2003 equaled 42% of his base salary rate.

With respect to long-term incentives, Mr. Ortino's 2003 stock option award was in the fourth quartile and his 2003 performance share award was in the fourth quartile of long-term incentive programs of comparable companies in the marketplace as reported by Watson Wyatt. The actual future value of stock option awards will, of course, be a function of the market value for Ferro stock in the future. The actual future value of performance share awards will be a function both of the future market value of Ferro stock and of the degree of achievement of performance targets.

Compensation of Senior Management. Mr. Ortino strongly advocates, and the Committee concurs, that a substantial portion of executive compensation should be variable, based upon performance of the Company and results achieved by each member of management.

In making its determinations with respect to Messrs. Bays, Gannon, and Kramer and Ms. Pitts, the Committee considered and discussed the same materials and information that were considered with respect to Mr. Ortino. With respect to these executives, the Committee also considered its and Mr. Ortino's evaluation of their individual performances. In the case of Mr. Kramer and Ms. Pitts, who have direct responsibilities with respect to Ferro business operations, their levels of achievement under the Annual Incentive Compensation Plan and Performance Share Plan were also materially affected by the performance of the specific operations for which they are responsible.

Based on the foregoing, the target bonuses for the four named senior executives as a group were in the third quartile of the peer companies reported in Watson Wyatt's competitive market data.

Interlocks and Insider Participation

During 2003, no officer or employee of Ferro served as a member of the Compensation & Organization Committee (now known as the Governance, Nomination & Compensation Committee). Also, during 2003, there were no interlocking relationships (as described in Item 402(j) of SEC Regulation S-K) between members of the Compensation & Organization Committee and Ferro.

Section 162(m) Limitation

In 1993, the Internal Revenue Code was amended to add section 162(m), which generally provides that certain compensation in excess of \$1 million per year paid to a company's chief executive officer and any of its four highest paid executive officers is no longer deductible by a company unless the compensation qualifies for an exception. Section 162(m) provides an exception for performance-based compensation if certain procedural requirements, including shareholder approval of the material terms of the performance goals, are satisfied. The 2003 Long-Term Incentive Compensation Plan contains the provisions necessary to qualify the Plan under the section 162(m) exception and preserve the tax deductibility to the Company of compensation paid to executives under these plans in the future. Mr. Ortino received compensation in excess of \$1 million in 2003.

(1) This column includes dividends paid during 2003 on target performance shares awarded for performance periods 2000-2002, 2001-2003, 2002-2004, and 2003-2005 as follows: Mr. Ortino, \$62,495; Mr. Bays, \$8,265; Mr. Gannon, \$1,740; Mr. Kramer, \$11,383; and Ms. Pitts, \$11,383. This column also includes \$11,176 of above-market interest credited to Mr. Ortino under the Executive Deferred Compensation Plan.

(2) With the exception of grants made to Messrs. Bays and Gannon at the time of their joining Ferro (May 16, 2001, in the case of Mr. Bays; May 16, 2003, in the case of Mr. Gannon), these stock options were granted on February 9, 2001, February 11, 2002, and February 28, 2003.

(3)

The values reported in this column are based on awards made under Ferro long-term incentive compensation plans. The first plan is the 2003 Long-Term Incentive Compensation Plan described on page 11 above. With respect to this plan, the values reported represent the number of performance shares awarded *times* the market price of Ferro Common Stock on the date of the award. With these awards, the actual number of shares that will be paid out for any given three-year performance period will depend upon the level of achievement during such period and can equal up to twice the number of shares awarded. Dividends are paid to recipients of the performance shares during the three-year performance period.

At December 31, 2003, the persons listed above held the following number of performance shares applicable to performance periods not yet completed, valued at the value of the underlying shares at December 31, 2003: Mr. Ortino, 76,500 shares, valued at \$2,081,565; Mr. Bays, 12,000 shares, valued at \$326,520; Mr. Gannon, 6,000 shares, valued at \$163,260; Mr. Kramer, 16,000 shares, valued at \$435,360; and Ms. Pitts, 15,500 shares, valued at \$421,755.

The second plan is the Acquisition Performance Reward Plan. Under this plan, awards of Reward Shares are made to selected employees on completion of acquisitions. The maximum achievement under this plan, based on the degree of achievement of pre-established targets, is two times the number of Reward Shares awarded. No dividends are paid on Reward Shares during the performance period. In connection with the dmc² acquisition, on December 5, 2002, Ms. Pitts was awarded 3,000 Reward Shares, valued at \$67,050, under the Acquisition Performance Reward Plan.

- (4) This column includes the following amounts for 2003: Company matching payments under the Savings and Stock Ownership Plan (Mr. Ortino, \$8,000; Mr. Bays, \$8,000; Mr. Gannon, \$5,355; Mr. Kramer, \$7,860; Ms. Pitts, \$8,000); Company contributions to the Supplemental Executive Defined Contribution Plan (Mr. Ortino, \$98,883; Mr. Bays, \$11,560; Mr. Kramer, \$11,103; Ms. Pitts, \$17,454); term life insurance premiums (Mr. Ortino, \$20,436); and relocation expense (Mr. Gannon, \$41,800).
- (5) In 2002, management elected not to implement approved salary increases due to general business conditions. The year-to-year increases in base salaries for Ms. Pitts and Messrs. Bays and Kramer were not due to salary increases in 2002. Mr. Bays had been employed by Ferro for only a portion of calendar year 2001; his base salary did not change from 2001 to 2002. Mr. Kramer and Ms. Pitts each received a salary increase in September 2001 on promotion to their current positions and those salary levels were maintained throughout 2002.
- (6) Mr. Gannon joined Ferro as its Vice President and Chief Financial Officer in May 2003.

(2) The grant date present value has been calculated using the Black-Scholes method of option valuation. The model assumes the following: (a) an option term of ten years, (b) an interest rate that represents the interest rate on a U.S. Treasury bond with a 30-year maturity, (c) volatility calculated using month-end stock prices for the past three calendar years, and (d) the stock's annual dividend yield over the past three years.

The following table sets forth for each of the five highest compensated executive officers the exercises of stock options under previous Ferro stock option plans during the year ended December 31, 2003:

Ms. Pitts has additional measurements based on cumulative free cash flow, working capital, and expense controls.

Each of the awards listed above has a three-year performance cycle ending on December 31, 2005. The participant must continue to be an employee of Ferro until the end of the performance period in order to qualify for payment. However, if a participant dies, is disabled, or retires, a pro rata payment is made at the end of the performance period based upon the portion of the performance period during which the participant was employed. Also, in the case of a change in control, a cash payment is paid at the time of the change in control equal to (1) the aggregate value of performance share awards based on the remaining term in the executive's employment or change in control agreement and the portion of the performance period that expired prior to the change in control *minus* (2) the value of performance share payments actually made.

The following table sets forth information relating to the performance matrix and actual payouts under the previous Ferro Performance Share Plan for the 2001-2003 performance period to each of our five highest paid executive officers. Each award under the Performance Share Plan was based on a three-year performance cycle ending on December 31, 2003.

Under the Retirement Program, an eligible participant who retires at age 65 with at least 30 years of service will receive a monthly benefit equal to 50% of the average of the participant's highest five consecutive calendar years of compensation (includes base salary, bonuses, and incentive compensation substantially equivalent to salary, bonus and performance shares as reflected in the Summary Compensation Table), reduced for 50% of primary social security benefits. Service in excess of 30 years will not be taken into account for accrual of retirement benefits. Benefits are payable in a life annuity form with 120 monthly payments guaranteed unless the benefits under the Nonqualified Plan are commuted and paid in a single sum. Benefits are subject to reduction for service of less than 30 years and for early commencement. Furthermore, the benefits payable under the Nonqualified Plan to an eligible participant are conditioned upon the execution of, and compliance with, a noncompetition, nonsolicitation, nondisparagement, and confidentiality agreement.

The five-year average covered compensation for the individuals listed in the Summary Compensation Table was: Mr. Ortino, \$1,897,068; Mr. Bays, \$315,767; Mr. Gannon, \$285,575; Mr. Kramer, \$296,530; and Ms. Pitts, \$415,083. As of December 31, 2003, Messrs. Ortino, Bays, Gannon, and Kramer, and Ms. Pitts had 32, 2, 0, 4, and 5 whole years of service, respectively.

Executive Employment Agreements and Change in Control Agreements

Ferro is a party to an executive employment agreement (the Executive Employment Agreement) with Mr. Ortino and a party to change in control agreements (the Change in Control Agreements) with Messrs. Bays, Gannon, and Kramer and Ms. Pitts. The purpose of these agreements is to reinforce and encourage the officer's continued attention and dedication to his or her assigned duties without distraction in the face of solicitations by other employers and the potentially disturbing circumstances arising from the possibility of a change in control of Ferro. The two agreements

limit the respective officer's right to compete against Ferro after the termination of employment. The Change in Control Agreements are not employment agreements.

Severance benefits are payable under the Executive Employment Agreement if Mr. Ortino's employment is terminated for reasons other than for cause, disability, death or normal retirement or if Mr. Ortino terminates his employment for Good Reason. Good Reason will exist if (1) Ferro fails to honor certain obligations, (2) following a change in control, Mr. Ortino receives a notice of termination which prevents the extension of the term of his employment agreement or (3) Mr. Ortino voluntarily resigns during the three-month period following the first anniversary of a change in control. Severance

Table of Contents

benefits are also payable if a successor to all or substantially all of the business and/or assets of Ferro fails to expressly assume the Executive Employment Agreement.

The principal severance benefits to be paid to Mr. Ortino under the Executive Employment Agreement are (1) a lump sum severance payment equal to a full year's compensation (base salary and incentive compensation) multiplied by three, (2) a lump sum calculated to approximate the present value of the additional retirement benefits to which Mr. Ortino would have become entitled had he remained in the employment of Ferro for the same number of years used in computing the lump sum severance payment, (3) continued participation in Ferro's employee benefit programs for the same number of years used in computing the lump sum severance payment, and (4) a cash payment in an amount to reimburse, on an after-tax basis, that portion of any excise tax attributable to payments or benefits required to be made to Mr. Ortino. The Change in Control Agreements provide similar severance benefits (with a salary multiplier of two rather than three) if an officer's employment is terminated following a change in control.

In accordance with its obligation under the agreements, Ferro has deposited into an escrow account at National City Bank a percentage of the amount that would be payable to each of the officers under the agreements. No officer has a right to receive any amount in the escrow account until Ferro has defaulted in its obligations to that officer under the agreement to which he or she is a party. Interest earned on the escrow account is paid to the Company.

INDEPENDENT AUDITORS

Report of the Audit Committee

The Audit Committee has reviewed and discussed with Ferro's management and KPMG LLP, Ferro's independent auditors, the audited financial statements of the Company for the fiscal year ended December 31, 2003. The Audit Committee has also discussed with KPMG all matters required by generally accepted auditing standards to be discussed. The Audit Committee has received the written disclosures and the letter from KPMG required by Independence Standards Board Standard No. 1, has discussed with KPMG its independence, and has concluded that KPMG is independent.

Based on the review and discussions noted above, the Audit Committee recommended to the Board that the audited financial statements be included in Ferro's Annual Report on Form 10-K for the fiscal year ended December 31, 2003, for filing with the Securities and Exchange Commission.

Respectfully submitted,

William B. Lawrence, Chair

Dr. Jennie S. Hwang

William J. Sharp

Alberto Weissner

Appointment of Auditors

The Audit Committee has sole responsibility for appointing the Company's independent auditors. KPMG served as Ferro's auditors for the fiscal year ended December 31, 2003, and the Audit Committee has appointed KPMG to continue as Ferro's auditors for the current fiscal year. In accordance with its responsibilities under its charter and the NYSE listing standards, the Audit Committee will assess periodically the advisability of rotating audit firms for audits in future years.

Representatives of KPMG will attend the Annual Meeting. They will have an opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

Auditors Fees

The Audit Committee has sole responsibility, in consultation with management, for approving the terms and fees for the engagement of the independent auditors for audits of Ferro's financial statements. In addition, the Audit Committee has sole responsibility for determining whether and under what circumstances Ferro's independent auditors may be engaged to perform audit-related services and must pre-approve any non-audit related service performed by the independent auditors. Under no circumstances are our independent auditors permitted to perform services of the nature described in section 201 of the Sarbanes-Oxley Act.

Since May 6, 2003, when the Securities and Exchange Commission rules concerning audit committee pre-approval of audit and non-audit services took effect, 100% of the services provided by KPMG have been approved in accordance with the pre-approval procedures described above.

For the year ended December 31, 2003, KPMG billed the Company aggregate fees of \$3,019,000. Fees for the year 2003, as well as the fees for the preceding year (which totaled \$3,377,000), were for the following services:

	Audit Fees	Audit-Related Fees	Tax Fees	All Other Services
2003	\$1,862,000	\$204,000	\$ 953,000	\$ 0
2002	\$2,081,000	\$232,000	\$1,064,000	\$ 0

- 19 -

Table of Contents

The Audit-Related Fees for 2003 related principally to work performed by KPMG with respect to Ferro's employee benefit plans and assistance KPMG provided in connection with a forensic investigation. The Tax Fees for 2003 included \$454,000 for tax compliance, planning and preparation of tax returns and \$499,000 for tax advisory services. (Effective January 1, 2004, Ferro has discontinued the further use of KPMG's tax advisory services.)

The Audit Committee has reviewed all non-audit services described above and has concluded that the provision of these non-audit services is compatible with maintaining KPMG's independence.

(1) With respect to officers named in the Summary Compensation Table on page 14 above, the shares reported above include:

- (a) 16,319, 1,597, 1,411, and 2,596 shares that will be paid out to Messrs. Ortino, Bays, and Kramer and Ms. Pitts, respectively, under the Performance Share Plan in April 2004 with regard to the 2001-2003 performance period (see page 16 above), which are no longer subject to forfeiture,

- (b) 116,500, 19,000, 25,700, and 25,200 shares awarded to Messrs. Ortino, Bays, and Kramer and Ms. Pitts, respectively, with regard to the 2002-2004, 2003-2005, and 2004-2006 performance periods and 15,300 shares awarded to Mr. Gannon with regard to the 2003-2005 and 2004-2006 (all of which shares are subject to forfeiture under the former Performance Share Plan and/or the 2003 Long-Term Incentive Compensation Plan), and

Ortino, Bays and Kramer and Ms. Pitts, respectively, in the Supplemental Defined Contribution Plan.

As a group, our Directors and officers have beneficial ownership of 3.0% of our outstanding Common Stock. (This percentage includes shares that would be issued if the Directors and officers exercised all stock options vested within 60 days after the record date for the Annual Meeting.) Mr. Ortino, who owns 1.7% of the outstanding Common Stock, is the only Director or executive officer that owns more than 1.0% of the outstanding shares. With regard to Series A ESOP Convertible Preferred Stock, Directors and executive officers as a group own 0.8% of the outstanding shares of that series.

In addition, based on information available to us, our Directors, executive officers and employees as a group own approximately 11.2% of the outstanding shares of Common Stock. That number assumes all stock options that are exercisable within 60 days of the record date and all of the Series A ESOP Convertible Preferred Stock are converted into Common Stock.

Table of Contents**Stock Ownership by Other Major Shareholders**

At December 31, 2003, the 603,442 shares of Convertible Preferred Stock were convertible into 1,568,225 shares of Common Stock, representing approximately 3.6% of the combined number of shares of Common Stock and Convertible Preferred Stock outstanding.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our officers and Directors, and persons who own more than ten percent of a registered class of our equity securities, to file reports of ownership and changes in ownership with the Securities and Exchange Commission. Officers, Directors and greater than ten percent shareholders are required by SEC regulation to furnish Ferro with copies of all section 16(a) forms they file.

Based solely upon a review of Forms 3 and 4 (including amendments to such forms) furnished to us during 2003 and Forms 5 (including, again, amendments to such forms) we received with respect to 2003, no Director, officer, beneficial owner of more than ten percent of its outstanding Common Stock, or stock convertible into Common Stock, or any other person subject to section 16 of the Exchange Act failed to file on a timely basis during 2003 or prior fiscal years any reports required by section 16(a) of the Exchange Act.

**SHAREHOLDER PROPOSALS FOR THE
2005 ANNUAL MEETING**

Any shareholder who intends to present a proposal at the 2005 Annual Meeting and who wishes to have the proposal included in Ferro's proxy statement and form of proxy for that meeting must deliver the proposal to Ferro at our headquarters, 1000 Lakeside Avenue, Cleveland, Ohio 44114, not later than November 26, 2004.

Any shareholder who intends to present a proposal at the 2005 Annual Meeting other than for inclusion in Ferro's proxy statement and form of proxy must deliver the proposal to Ferro at our headquarters, 1000 Lakeside Avenue, Cleveland, Ohio 44114, not later than February 9, 2005 or such proposal will be untimely. Ferro reserves the right to exercise discretionary voting authority on the proposal if a shareholder has failed to submit the proposal by February 9, 2005.

MISCELLANEOUS

Ferro will bear the cost of preparing and mailing this statement, with the accompanying proxy and other instruments. Ferro will also pay the standard charges and expenses of brokerage houses, or other nominees or fiduciaries, for forwarding such instruments to and obtaining proxies from security holders and beneficiaries for whose account they hold registered title to Ferro shares. In addition to using the mail, Directors, officers and other employees of Ferro, acting on its behalf, may also solicit proxies, and Morrow & Co., New York, New York, has been retained, at an estimated cost of \$7,500 plus expenses, to aid in the solicitation of proxies from brokers, institutional holders and individuals who own a large number of shares. Proxies may be solicited personally, by telephone, or by telegram. This proxy statement and the accompanying proxy will be sent to shareholders by mail on or about March 26, 2004.

Under the Ohio General Corporation Law, if a shareholder desires cumulative voting for election of the Directors, then the shareholder must provide written notice to the President, a Vice President or the Secretary of Ferro at least forty-eight hours before the meeting. Upon announcement of this notice at the meeting, each shareholder will have cumulative voting rights. Cumulative voting means that each shareholder is entitled to that number of votes equal to the number of shares that he or she owns multiplied by the number of Directors to be elected. Each shareholder may cast all of his or her votes for a single nominee or may distribute his or her votes among as many nominees as he or she sees fit. As indicated on page 7 above, if the election of Directors is by cumulative voting, the persons appointed by the accompanying proxy intend to cumulate the votes represented by the proxies they receive and distribute such votes in accordance with their best judgment. Those nominees receiving the largest number of votes for the Director positions to be filled will be elected to those positions. Abstentions and broker non-votes will be deemed to be present for the purpose of determining a quorum for the meeting, but will be deemed not voting on the issues or matters as to which the abstention and non-votes are applicable.

Only the business set forth above in this notice of meeting will be acted upon at the Annual Meeting of Shareholders.
