PROXY STATEMENT

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of Chemed Corporation (the Company or Chemed) of proxies to be used at the Annual Meeting of Stockholders (Annual Meeting) of the Company to be held on May 21, 2007, and any adjournments thereof. The Company s mailing address is 2600 Chemed Center, 255 East Fifth Street, Cincinnati, Ohio 45202-4726. The approximate date on which this Proxy Statement and the enclosed proxy are being sent to stockholders is April 4, 2007. Each valid proxy received in time will be voted at the meeting and, if a choice is specified on the proxy, the shares represented thereby will be voted accordingly. The proxy may be revoked by the stockholder at any time before the meeting by providing notice to the Secretary.

Only stockholders of record as of the close of business on March 30, 2007, will be entitled to vote at the Annual Meeting or any adjournments thereof. On such date, the Company had outstanding 25,580,082 shares of capital stock, par value \$1 per share (Capital Stock), entitled to one vote per share.

ELECTION OF DIRECTORS

Twelve directors are to be elected at the Annual Meeting to serve until the following annual meeting of stockholders and until their successors are duly elected and qualified. Set forth below are the names of the persons to be nominated by the Board of Directors, together with a description of each person s principal occupation during the past five years and other pertinent information.

Unless authority is withheld or names are stricken, it is intended that the shares covered by each proxy will be voted for the nominees listed. Votes that are withheld or stricken will be excluded entirely from the vote and will have no effect. The Company anticipates that all nominees listed in this Proxy Statement will be candidates when the election is held. However, if for any reason any nominee is not a candidate at that time, proxies will be voted for any substitute nominee designated by the Board of Directors (except where a proxy withholds authority with respect to the election of directors). The affirmative vote of a plurality of the votes cast will be necessary to elect each of the nominees for director.

The Audit Committee consists of Messrs. Erhart, Grace, Krebs and Saunders. The Audit Committee met six times during 2006. A copy of the Audit Committee Charter is available at www.chemed.com.

Table of Contents

Compensation/Incentive Committee The Compensation/Incentive Committee (CIC) makes recommendations to the Board of Directors concerning (a) salary and incentive compensation payable to officers and certain other key employees of the Company, (b) establishment of incentive compensation plans and programs generally, (c) adoption and administration of certain employee benefit plans and programs and (d) additional year-end contributions by the Company under the Chemed/Roto-Rooter Savings and Retirement Plan (Retirement Plan). In addition, the CIC administers the Company's (a) 2002 Executive Long-Term Incentive Plan, (b) six Stock Incentive Plans and the 1999 Long-Term Employee Incentive Plan and (c) grants of stock options and stock awards to key employees of the Company. The CIC consists of Messrs. Erhart, Breen and Wood. The CIC met seven times during 2006. A copy of the CIC Charter is available on the Company's Web site, www.chemed.com.

Nominating Committee The Nominating Committee (a) recommends to the Board of Directors the candidates for election to the Board at each Annual Meeting of Stockholders of the Company, (b) recommends to the Board of Directors candidates for election by the Board to fill vacancies on the Board, (c) considers candidates submitted by directors, officers, employees, stockholders and others and (d) performs such other functions as may be assigned by the Board. The Nominating Committee consists of Messrs. Erhart, Gemunder and Grace. Each member of the Nominating Committee is independent as defined under the listing standards of the New York Stock Exchange. The Nominating Committee met once during 2006. In identifying and evaluating nominees for director, the Nominating Committee considers candidates with a wide variety of academic backgrounds and professional and business experiences. After reviewing written statements of the candidates' backgrounds and qualifications, the Nominating Committee personally interviews those candidates it believes merit further consideration. Once it has completed this process, the Nominating Committee makes its final recommendations to the Board. Stockholders wishing to submit a candidate for election to the Board should submit the candidate's name and a supporting statement to the Company's Secretary at 2600 Chemed Center, 255 East Fifth Street, Cincinnati, Ohio 45202-4726. A copy of the Nominating Committee Charter is available on the Company's Web site, www.chemed.com.

Board Meetings The Board of Directors has five scheduled meetings a year, at which it reviews and discusses reports by management on the performance of the Company and its operating subsidiaries, its plans and properties, as well as immediate issues facing the Company. The Board meets during each of its meetings in executive session, without executives or management directors present. Such sessions are presided over by whichever non-management director raises a topic for discussion.

During 2006, there were five meetings of the Board of Directors. Each director attended at least 75 percent of the aggregate of (a) the meetings held by the Board of Directors and (b) meetings held by all Committees on which he or she served held while he or she was a director or member of any such Committee. While the Company does not have a formal policy with regard to Board members' attendance at the Annual Meeting, all members of the Board are encouraged to attend. Thirteen members of the Board attended last year's Annual Meeting held on May 15, 2006.

Director Independence In March 2007, the Board and the Nominating Committee undertook an annual review of director independence. They considered transactions and relationships between each director or any member of his or her immediate family and the Company and its subsidiaries and affiliates, including those reported under the caption Certain Relationships and Transactions below. The Board and the Nominating Committee also examined transactions and relationships between directors or their affiliates and members of the Company's senior management or their affiliates. The purpose of this review was to determine whether any such relationships or transactions were inconsistent with a determination that the director is independent under the New York Stock Exchange corporate governance standards.

As a result of this review, the Board and the Nominating Committee affirmatively determined that, under the New York Stock Exchange listing standards, the following directors and nominees for director, constituting a majority of the individuals nominated for election as directors at the Annual Meeting, are independent of the Company and its management: Messrs. Breen, Erhart, Gemunder, Grace, Krebs, Saunders, Walsh and Wood.

In February 2007, the Audit Committee adopted a written policy and set of procedures for reviewing transactions between the Company and related persons who include directors, nominees, executive officers, and any person known to be the beneficial owner of more than 5% of the Company's voting securities or any immediate family member of such person. The policy also covers any firm, corporation or other entity in which any such person is

employed or is a partner or principal, or in which such person has a 5% or greater beneficial ownership interest. Prior to entering into a transaction with a related person, notice must be given to the Secretary of the Company containing (i) the related person's relationship to the Company and interest in the transaction, (ii) the material facts of the transaction (iii) the benefits to the Company of the transaction (iv) the availability of any other sources of comparable products or services and (v) an assessment of whether the transaction is on terms comparable to those available to an unrelated third party. If the Company's Secretary and Chief Financial Officer determine that it is a related party transaction, the proposed transaction is submitted to

Table of Contents

the Audit Committee for its approval. The policy also provides for the quarterly review of related person transactions which have not previously been approved or ratified and any other such transactions which come to the attention of the Company's Chief Executive Officer, Chief Financial Officer, Controller or Secretary. If the transaction is pending or ongoing, it will be promptly submitted to the Audit Committee for approval. If the transaction is completed, it will be submitted to determine if ratification or rescission is appropriate. This policy also covers charitable contributions or pledges by the Company to non-profit organizations identified with a related person.

Code of Ethics The Board of Directors has adopted Corporate Governance Principles and Policies on Business Ethics which along with the charters of the Audit, Compensation/Incentive and Nominating Committees are available on the Company's Web site under Corporate Governance Governance Documents (www.chemed.com). Printed copies may be obtained from the Company's Secretary at 2600 Chemed Center, 255 East Fifth Street, Cincinnati, Ohio 45202-4726.

Shareholder Communications Stockholders and others wishing to communicate with members of the Board should mail the Company's Secretary at 2600 Chemed Center, 255 East Fifth Street, Cincinnati, Ohio, 45202-4726. The Secretary will forward these communications to the members of the Board and, if applicable, to specified individual directors.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview of Compensation Program

The executive compensation program is administered by the CIC. The membership of the CIC is comprised of three independent directors. The CIC is responsible for the review, approval and recommendation to the Board of Directors of matters concerning base salary and annual cash incentive compensation for key executives of the Company. The recommendations of the CIC on such matters must be approved by the full Board of Directors. The CIC also administers the Company's stock incentive plans, under which it reviews and approves grants of stock options and awards, and the Company's LTIP. The CIC also has retained the services of independent compensation consultants to assist and advise the committee in administering the executive compensation program.

Objectives of Compensation Program

The Company's executive compensation program is intended to achieve the objectives of aligning executives interests with those of its stockholders; paying for performance; paying competitively; and creating incentive for long-term growth of our business. To achieve these objectives, the elements of executive compensation are designed to reward past performance and establish incentive for future growth.

Elements of Compensation

The elements of the Company's executive compensation program include base salary, annual cash bonus, and long-term incentive compensation in the forms of stock options, stock awards, and awards under the 2002 Executive Long-Term Incentive Plan (LTIP). Components of compensation which are available generally to all employees are defined contribution benefit plans; and life, disability and medical insurance programs. In addition, the Chemed Excess Benefit Plan, the Chemed Corporation Long Term Care Insurance Plan, the Chemed Supplemental Pension and Life Insurance Plan, and the Roto-Rooter Deferred Compensation Plan are available as components of compensation to executives and other highly compensated individuals. Base salary, annual cash bonuses, and pension and welfare plans are established at competitive levels and intended to reward executives for current and past performance, while longer term incentives such as stock options, stock awards and LTIP payments are intended to create incentive for future growth.

Amount of Each Element of Compensation; Decisions Concerning Payments

The CIC exercises its discretion in setting compensation for executives using performance standards and industry benchmarks with the assistance of the Committee's independent compensation consultants. It intends compensation to be linked directly to personal

Table of Contents

performance and to the Company's overall results, as well as those of specific business units for which executives are responsible. The Company's executive compensation program is focused on rewarding long-term growth.

The CIC reviewed each executive's total compensation and stock holdings, including salary, bonus, stock options granted, stock awards, LTIP payments, unrealized stock option gains, perquisites and defined contribution plan holdings in setting 2006 compensation.

In determining base salaries, the CIC considers the responsibilities held by each executive, and his or her experience and performance. Compensation Strategies Inc., an independent compensation advisory firm that is retained by and reports exclusively to the CIC and does no other work for the Company, reviewed base salaries and provided advice to the CIC. The CIC set base salaries at levels it believes will attract and retain qualified executives.

In determining annual cash bonuses, the CIC intends to reward executives whose performance enhances the operating results of their business unit and of the Company as a whole. The Company's operating results as compared with historical results and the performance of relevant competitors are primary considerations in determining annual cash bonuses. Sales and earnings growth, profitability, cash flow and return on investment are important performance measures in establishing annual cash bonus amounts. Non-financial performance elements which are also considered include organizational development, product or service expansion and strategic positioning of the Company's assets. The CIC also considers individual performance in determining annual cash bonuses. Bonuses as a percent of senior executives' salaries are intended to be sufficient to provide a major incentive for achieving superior operating performance.

In awarding long-term incentives, which include stock options, stock awards and LTIP awards, the CIC considers as recipients employees who have a demonstrated capacity for contributing to the Company's goals. Long-term awards are generally made in the form of stock grants and stock options and are intended to encourage these employees to act as owners of the business, further aligning their interests with those of stockholders. The CIC makes stock option grants at no less than 100% of fair market value of Capital Stock on the date of grant. It generally makes an annual grant of stock options to executives and non-executive employees at the Company's May Board meeting. The size of stock grants is not affected by the timing of the grants. Further, the grants are not made so as to time them before the release of material nonpublic information that is likely to result in an increase in stock price ("spring-loading") or delay them until after the release of nonpublic material information that is likely to result in a decrease in stock price ("bullet-dodging"). We do not reprice options or replace them if our stock price declines after the grant date.

The CIC grants a greater amount of stock awards and a higher proportion of stock options to those executives with greater positions of responsibility. The CIC considers each employee's current option holdings and previous option grants in making grants.

In May 2002, the stockholders of the Company approved the adoption of the LTIP covering officers and key employees of the Company. It was intended to replace the Company's restricted stock program under which restricted stock awards were granted which vested over a period of four or five years. The LTIP is administered by the CIC.

Since 2002, the CIC has adopted LTIP guidelines which cover the granting of awards based on operating performance and attainment of target stock prices. Under the current guidelines:

88,000 shares are to be awarded if the Company's cumulative pro forma adjusted EBITDA (including Vitas results beginning January 1, 2004) reaches \$365 million by December 31, 2007; and

80,000 shares are to be awarded if the stock price reaches the following targets during any 30 trading days out of any 60-day trading period between May 15, 2006 and May 14, 2009:

20,000 shares at \$62.00;

30,000 shares at \$68.00; and

30,000 shares at \$75.00.

In addition, the CIC maintains discretion with regards to the awarding of an additional 30,000 shares under the LTIP guidelines, 18,000 shares of which were awarded prior to 2006.

No shares were awarded under the LTIP in 2006. In March 2007, the CIC awarded 100,000 shares upon attainment of the cumulative pro forma adjusted EBITDA target of \$365 million. The shares awarded included 88,000 shares designated for award upon achievement of the EBITDA performance target and the remaining 12,000 of the shares under the discretion of the CIC.

The Company's executive compensation program offers perquisites that are commonly available to senior executives, the nature and amounts of which are detailed in the Summary Compensation Table below.

Table of Contents

U.S. federal income tax law prohibits us from taking a deduction for compensation paid to the Company's covered executive officers over \$1,000,000 per executive per year, but exempts certain performance-based compensation. The CIC considers tax regulations in structuring compensation arrangements to achieve deductibility, except where outweighed by the need for flexibility, or if otherwise in the best interests of the Company and its stockholders.

Employment Agreements; Severance Payments; Change in Control

During 2006 the CIC recommended reducing the number of executive employment agreements and continuing such agreements with only Messrs. McNamara, O Toole, and Williams. Other existing agreements expire or expired by their own terms in May 2006 and May 2007.

When the employment agreements of Mr. McNamara and Mr. O Toole expire in May 2008 and May 2007, respectively, they will be replaced with two year agreements that include automatic renewal provisions unless either party provides notice of non-renewal. These agreements will limit severance payments to 5.0 times and 2.5 times the executive's annual base salary, respectively, for Messrs. McNamara and O Toole, a pro-rated portion of his annual incentive bonus and continued participation in the Company's welfare benefit plans for twenty-four months and eighteen months, respectively. Severance payments and benefits would be conditioned upon non-competition, non-solicitation and confidentiality agreements as well as liability waivers. If these payments become subject to the excise tax imposed by Section 409A of Internal Revenue Code (Code), they would be entitled to gross-up payments. On November 30, 2006 Mr. Williams entered into a two-year employment agreement with the Company, which offers the same severance payments and benefits as outlined for Mr. O Toole above.

With the elimination of the majority of existing employment agreements, the Board adopted a Senior Executive Severance Policy for the twelve executives whose employment agreements were allowed to expire, including Messrs. Lee and Tucker. Under this policy if an executive is terminated without cause he is entitled to a lump sum payment of 1.5 times base salary and a pro-rated portion of annual incentive bonus. He is also entitled to continued participation in the Company's welfare benefit plans for one year following termination of employment. Severance payments and benefits are conditioned on execution of a general release in favor of the Company, nondisclosure and one-year non-compete and non-solicitation covenants. If payments under this Severance Policy are subject to excise taxes imposed by Section 409A of the Code, participants are entitled to gross-up payments.

In connection with the reduction in the number and duration of executive employment agreements and the adoption of the Severance Policy, in 2006 the Board adopted a Change in Control Severance Plan. It provides for severance payments and benefits in the event of a change in control of the Company followed within two years by an executive's termination of employment either without cause or by constructive termination (double trigger). Payments are in lieu of, and not in addition to, payments an executive might be entitled to under an employment agreement or the Severance Policy. Payments under the Control Plan are triggered by:

- a) termination of employment by the Company without cause; or
- b) termination of employment by the employee within 90 days of an event giving him or her good reason to so terminate.

The Control Plan provides for payments of three times base salary and bonus to Messrs. McNamara, O Toole and Williams, and two times base salary and bonus to the other participants, all paid in a lump sum within 10 days of termination. Participants also receive welfare benefits (including health insurance, life insurance, long-term care insurance and long-term disability benefits), a lump sum cash payment within 10 days of termination in the amount of employer contributions to defined contribution plans, and perquisites for a period of three or two years, respectively. Participants also receive full vesting of any unvested portions of stock awards or stock options; CIC allocation of and distribution of any shares then unallocated under the Company's equity-based plans, and outplacement assistance up to \$25,000. Payments are conditioned on execution of a general release of claims in favor of the Company. If payments under the Control Plan are subject to tax imposed by Sections 4999 or 409A of the Code, participants are entitled to gross-up payments.

Role of Executive Officers

In addition to meeting with certain executive officers, the CIC meets in executive session without any Company employees present. It reviews the recommendations of management, except with respect to the compensation of Mr. McNamara, in order to determine the respective amount of each element of compensation for each executive. It can exercise its discretion in modifying any recommendations of management. The Committee's actions are reviewed and discussed by the non-employee members of the Board of Directors. The CIC directly awards compensation under the Company's stock incentive plans, such as stock options, stock awards and

Table of Contents

LTIP payments. Other forms of compensation such as annual salaries and annual cash bonuses are recommended by the CIC for approval by the non-employee members of the Board of Directors.

Stock Ownership Guidelines

Executive share ownership reflects an alignment of the interests of the Company's executives and directors with those of its stockholders. All of the Company's directors, Vice Presidents, Senior Vice Presidents, Executive Vice Presidents, Business Unit Presidents, and its CEO are required to acquire and retain a multiple of their annual base salary or board retainer in shares of Company stock.

The CEO's required stock ownership multiple is five times base salary; for the CFO, Executive Vice President and Unit Presidents, four times; for Senior Vice Presidents, three times; and for Vice Presidents, two times base salary. Non-employee directors are required to retain five times their annual board retainer, which was \$20,000, resulting in required holdings of \$100,000, in 2006. These guidelines are administered by the CIC. Mr. McNamara currently holds at least 11.5 times his base salary. All other executives and directors subject to the guidelines have either met their ownership requirements or are pursuing plans that will permit them to achieve them within the time frame allotted by the guidelines.

Report of the Compensation and Incentive Committee on Executive Compensation

The CIC has reviewed and discussed the Compensation Discussion and Analysis set forth above with the Company's management. Based on these reviews and discussions the CIC recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company's 2006 Annual Report on Form 10-K and the Company's 2007 Proxy Statement.

The undersigned members of the CIC have submitted this Report:

Employment Agreements

The Company has entered into employment agreements with Messrs. McNamara, O Toole and Williams. Mr. McNamara's employment agreement provides for his continued employment as President and Chief Executive Officer of the Company through May 3, 2008, subject to earlier termination under certain circumstances, at a base annual salary of \$650,000 or such higher amount as the Board of Directors may determine, as well as participation in incentive compensation plans, stock incentive plans and other benefit plans. In the event of termination without cause, for the balance of the term of the agreement, Mr. McNamara will receive severance payments equal to 150 percent of his then-current base salary, the amount of incentive compensation most recently paid or approved in respect of the previous year, and the fair market value of all stock awards which would have vested during the 12 months prior to

termination, even though such shares vested on an accelerated basis effective January 1, 2002. Such severance payments will be reduced by the amount of any earned income received by Mr. McNamara from any other source for any period such severance payments are payable. Mr. O Toole has an employment agreement which provides for his continued employment as a senior executive of the Company through May 3, 2007, and is identical in all material respects to that of Mr. McNamara, except his agreement provides for a base salary of \$504,500 or such higher amount as the Board of Directors may determine.

Mr. Williams' employment agreement provides for his employment as a senior financial executive through November 30, 2008 and provides for an annual salary of \$313,500 or such higher amount as the Board of Directors may determine. If his employment is terminated without cause, he receives severance at 2.5 times his annual base salary plus a prorated portion of his annual incentive compensation and he continues to participate in the Company's welfare benefit plans for eighteen months. Such payments are conditioned upon nondisclosure and one-year non-compete and non-solicitation covenants. If such payments are subject to excise tax imposed by Section 409A of the Code, Mr. Williams is entitled to gross-up payments.

Stock Incentive Plans

The Company has seven Stock Incentive Plans under which options to purchase shares of Capital Stock and awards of Capital Stock may be granted to key employees. All options granted under these plans provide for a purchase price equal to the fair market value of the Capital Stock at the grant date. Fair market value is defined as the mean between the high and low sales price of a share of Capital Stock on the principal stock exchange on which the Company is listed, which is the New York Stock Exchange.

The stock options plans are not qualified, restricted or incentive stock option plans under the Code. Options granted prior to 2004 generally became exercisable in four annual installments commencing six months after the date of grant. Options granted in 2004 became exercisable in full six months after the date of the grant. Options granted in 2005 were immediately exercisable and options granted in 2006 were exercisable in three annual installments on the anniversary date of the grant.

Under the Company's incentive programs, shares of Capital Stock (restricted or non-restricted) may be issued as payment in lieu of incentive compensation earned or to be earned by a key employee. Restricted shares so issued may not be sold or otherwise transferred until they vest (in three or four annual installments). If the recipient's employment terminates due to death, disability, or termination without cause, the restrictions terminate. On retirement, for grants made in 2006 and thereafter, the restrictions lapse pro rata over the life of the grant. Otherwise, in the event of termination, unvested shares are forfeited. Recipients receive dividends on the awarded shares and are entitled to vote such shares, whether or not they are vested.

Long Term Incentive Plan

In 2002, the stockholders approved the Company's Long Term Incentive Plan, which covers officers and key employees of the Company. Based on guidelines established by the Compensation/Incentive Committee, the LTIP covers awards upon the attainment of certain goals. No awards were granted under the LTIP in 2006.

Other Plans

The Company has various plans including pension plans, savings plans and health insurance plans which are generally available to the employees of the Company. In addition, the Company has excess benefit plans for key employees, including the executives named in the Summary Compensation Table whose participation in the Company's tax-qualified benefit plans are limited by ERISA rules. Benefits are determined based on theoretical participation in the Company's qualified plans. Participants are able to direct investment into the mutual funds of their choosing.

Eligible employees, including the executives named in the Summary Compensation Table, also participate in the Company's supplemental pension and life insurance plan. Under this plan participants receive supplemental pension benefits, which may be used to purchase supplemental term life insurance.

Nonqualified Deferred Contribution and other Nonqualified Deferred Compensation Plans

Chemed Excess Benefit Plan and the Roto-Rooter Deferred Compensation Plan

The Excess Benefit Plan and Roto-Rooter Deferred Compensation Plan (the Plans) allow participants to defer up to 50% of their annual salary and 85% of their bonus and stock award income. The Plans also provide the participants with the Company matching contribution which would have been received in the qualified Retirement Plan had the employee and Company contributions not been limited to this qualified Plan by the Employee Retirement Income Security Act. These Plans offer only mutual funds as investment options for employee contributions. Employees can change their investment options for future deferrals as well as their current account balance at any time. The earnings paid on these employee deferrals are the actual earnings from the mutual funds the employees elect to invest in.

The table below shows the mutual funds available under the Plans and their annual rate of return for the calendar year ended December 31, 2006, as reported by the administrator of the Plans.

Prior to making deferrals in the Plans, employees must specify the date and manner in which they wish to receive their distribution from the Plans. They must elect to receive it at retirement, termination of employment or a specific date after termination or retirement. They must also elect whether to receive it in a lump sum or installment payments. They may elect to receive some or all of each year's deferral and related earnings on a specific date prior to retirement or termination of employment (In-Service Distribution). Certain key employees may not receive a distribution from the Plans until six months following a separation from service. In-Service Distributions are not subject to the six-month delay.

Kevin J. McNamara, Timothy S. O Toole, David P. Williams and Arthur V. Tucker, Jr. received Company contributions in the Chemed Excess Benefit Plan for the plan year 2006. Spencer S. Lee has elected to defer a portion of his 2006 compensation to the Roto-Rooter Deferred Compensation Plan and he also received Company contributions in this plan.

Chemed Supplemental Pension and Life Insurance Plan

The Chemed Supplemental Pension and Life Insurance Plan provides certain key executives with a supplemental pension and an optional supplemental life insurance benefit. Participants' accounts are credited with a fixed monthly company contribution. Participants have the option to use a portion of this Company contribution to purchase supplemental term life insurance. This Plan does not allow for employee contributions or deferrals. The participants' accounts are credited with monthly earnings based on an annual interest rate. This interest rate is subject to change once a year and is based on then-prevailing interest rates. Currently this interest rate is 7%. Kevin J. McNamara, Timothy S. O Toole, David P. Williams, Spencer S. Lee and Arthur V. Tucker, Jr. are participants in this Plan.

1986 Severance Plan

The 1986 Severance Plan was established in connection with the Company's 1986 elimination of its defined benefit retirement plan and adoption of a defined contribution plan. It is an un-funded accrual intended to lessen the impact on the retirement accounts of participants. Mr. Tucker is the only named executive officer who participates.

The Table below shows information concerning compensation deferred in the Company's Excess Benefit Plan, the Roto-Rooter Deferred Compensation Plan, the 1986 Severance Plan, and Supplemental Pension and Life Insurance Plan for the executives named in the Summary Compensation Table.

The Company has entered into employment agreements, described above, with each of Messrs. McNamara, O Toole and Williams.

Table of Contents

Pursuant to the terms of these employment agreements, if Mr. McNamara's employment had been terminated on December 31, 2006, he would have been entitled to a payment of \$3,763,403. If Mr. O Toole's employment had been terminated on December 31, 2006 he would have been entitled to a payment of \$441,286. Messrs. McNamara and O Toole would also be entitled to the aggregate balances in their respective accounts in the Chemed Excess Benefit Plan and the Chemed Supplemental Pension and Life Insurance Plan set forth above.

Pursuant to the terms of the employment agreement of Mr. Williams, described above, if his employment had been terminated on December 31, 2006, he would have been entitled to a payment of \$997,426. In addition, if Company payments to Mr. Williams were subject to excise tax imposed by Section 409A of the Code, he would be entitled to gross-up payments. This amount includes the payment of premiums for medical, dental, life and long-term care insurance. Mr. Williams would also be entitled to the aggregate balance in his accounts in the Chemed Excess Benefit Plan and the Chemed Supplemental Pension and Life Insurance Plan as set forth above.

Termination under the Senior Executive Severance Policy

The Company's Senior Executive Severance Policy, described above, covers twelve employees including Messrs. Tucker and Lee. Messrs. McNamara, O Toole and Williams are not covered by this policy.

Under the Severance Policy, if the employment of Messrs. Lee and Tucker had terminated on December 31, 2006, they would have been entitled to the following aggregate payments and benefits: Mr. Lee \$631,242; and Mr. Tucker \$371,798. These payments include the payment of premiums for medical, dental, life and long-term care insurance. In addition, Messrs. Termination Under Change In Control Severance Plan

The Company's Change In Control Severance Plan (Control Plan), described above, covers fifteen employees including Messrs. McNamara, O Toole, Williams, Lee and Tucker.

Payments under the Control Plan are triggered after a Change in Control (as defined in the plan) has occurred and (i) the Company terminates the employee without cause or (ii) the employee terminates his employment within 90 days of an event that gives him good reason to terminate. Good reason for the employee to terminate includes such events as material reduction in the nature and scope of the employee's responsibilities, authority or duties, a reduction in the employee's salary, bonus or aggregate level of employee benefits or a relocation of the employee's principal work location. In either case of termination, such termination must occur within two years of the Change in Control or prior to the Change in Control if the employee can demonstrate that a triggering event has occurred in connection with or in anticipation of Change in Control. All termination payments to an employee are conditioned upon the execution of a general release of claims in favor of the Company.

Welfare benefits under this Plan include continued health insurance, life insurance, long term care insurance and long-term disability benefits comparable to the benefits prior to the employee's termination. If the employee becomes reemployed during the applicable three year or two year period and is eligible to receive comparable benefits from his new employer, the insurance benefits provided by the Company are secondary to those provided by the new employer.

Within ten days of termination an employee is also entitled to a lump sum payment equal to the Company's contributions that would have been made to the Company's qualified or non-qualified defined contribution plans assuming the employee's participation in the plans had continued on the same basis as immediately prior to the termination for the applicable three year or two year period.

All payments under the Control Plan are provided in addition to, and not in lieu of, all other accrued or vested or earned but deferred compensation, rights, stock options, or other benefits which may be owed to a participating employee except for payments made under the Company's employment agreements with Messrs. McNamara, O Toole and Williams or the Company's Senior Executive Severance Policy.

Under the Control Plan if the employment of Messrs. McNamara, O Toole, Williams, Lee or Tucker had terminated on December 31, 2006, they would have been entitled to the following aggregate severance payments and benefits: Mr. McNamara \$6,483,339; Mr. Williams \$2,164,117; Mr. O Toole - \$3,081,974; Mr. Lee \$1,465,862; Mr. Tucker \$845,947. These amounts include the cost of continuing participation in the Company welfare benefits

plans for the applicable three year or two year periods as well as perquisites.
