DSW INC.
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. BUSINESS OPERATIONS

DSW Inc. (DSW) and its wholly-owned subsidiaries, including DSW Shoe Warehouse, Inc. (DSWSW), are herein referred to collectively as DSW or the Company . DSW 's Class A Common Shares are listed on the New York Stock Exchange trading under the ticker symbol DSW . At November 1, 2008, Retail Ventures, Inc. (RVI or Retail Ventures) owned approximately 62.9% of DSW 's outstanding Common Shares, representing approximately 93.1% of the combined voting power of DSW 's outstanding Common Shares.

As of November 1, 2008, DSW operated a total of 295 stores located throughout the United States and dsw.com. DSW stores and dsw.com offer a wide selection of better-branded dress, casual and athletic footwear for men and women, as well as accessories. During the nine months ended November 1, 2008, DSW opened 37 new DSW stores, closed one DSW store and launched dsw.com. DSW also operates leased departments for three non-affiliated retailers and one affiliated retailer in its leased department segment. As of November 1, 2008, DSW supplied merchandise to 279 Stein Mart stores, 65 Gordmans stores, 36 Filene 's Basement stores, and one Frugal Fannie 's store. During the nine months ended November 1, 2008, DSW added one affiliated and nine non-affiliated leased departments, respectively, and ceased operations in one affiliated and seven non-affiliated leased departments, respectively. DSW owns the merchandise, records sales of merchandise net of returns and sales tax, owns the fixtures (except for Filene 's Basement, the affiliated retailer) and provides supervisory assistance in these locations. Stein Mart, Gordmans, Filene 's Basement and Frugal Fannie 's provide the sales associates. DSW pays a percentage of net sales as rent.

2. BASIS OF PRESENTATION

The accompanying unaudited interim condensed consolidated financial statements should be read in conjunction with the Company 's Annual Report on Form 10-K as filed with the Securities and Exchange Commission (SEC) on April 17, 2008 (the 2007 Annual Report).

In the opinion of management, the unaudited interim condensed consolidated financial statements reflect all adjustments, consisting of normal recurring adjustments, which are necessary to present fairly the consolidated financial position, results of operations and cash flows for the periods presented.

3. ADOPTION OF ACCOUNTING STANDARDS

In September 2006, the FASB issued FASB Statement No. 157, *Fair Value Measurements* (FAS 157), which defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. The intent of this standard is to ensure consistency and comparability in fair value measurements and enhanced disclosures regarding the measurements. This statement is effective for financial assets and liabilities for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. For non-financial assets and liabilities measured at fair value on a non-recurring basis, FAS 157 is effective for fiscal years beginning after November 15, 2008. DSW is currently evaluating the impact of the adoption of FAS 157 for non-financial assets and liabilities on its financial position and results of operations.

Although the adoption of this standard for financial assets and liabilities in the quarter ended May 3, 2008 had no impact on DSW 's financial position or results of operations, it does result in additional disclosures regarding fair value measurements. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Therefore, fair value is a

market-based measurement based on assumptions of the market participants. As a basis for these assumptions, FAS 157 establishes the following three level fair value hierarchy:

Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that are publicly accessible. Active markets have frequent transactions with enough volume to provide ongoing pricing information.

Level 2 inputs are other than level 1 inputs that are directly or indirectly observable. These can include unadjusted quoted prices for similar assets or liabilities in active markets, unadjusted quoted prices for identical assets or liabilities in inactive markets, or other observable inputs.

Level 3 inputs are unobservable inputs.

Table of Contents

DSW INC.
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

Financial assets and liabilities measured at fair value on a recurring basis as of November 1, 2008 consisted of the following:

	Balance at November 1, 2008	Level 1 (in thousands)	Level 2	Level 3
Assets:				
Cash and equivalents	\$ 45,570	\$ 45,570		
Short-term investments	84,915		\$ 84,915	
Long-term investments	4,493			\$ 4,493
	\$ 134,978	\$ 45,570	\$ 84,915	\$ 4,493

Cash and equivalents primarily represent cash deposits and investments in money market funds held with financial institutions. The activity related to level 3 investments for the nine months ended November 1, 2008 is summarized below:

	Short-term (in thousands)	Long-term
Carrying value as of February 2, 2008	\$ 70,005	\$ 12,500
Maturities and sales	(68,855)	(7,600)
Transfers between short-term and long-term investments	(1,150)	1,150
Unrealized losses included in accumulated other comprehensive loss		(1,557)
Carrying value as of November 1, 2008	\$ 0	\$ 4,493

4. STOCK BASED COMPENSATION

DSW has a 2005 Equity Incentive Plan that provides for the issuance of equity awards to purchase up to 4,600,000 common shares, including stock options and restricted stock units to management, key employees of DSW and affiliates, consultants (as defined in the plan), and directors of DSW. During the three months ended November 1, 2008 and November 3, 2007, the Company recorded stock based compensation expense of approximately \$1.2 million and \$1.1 million, respectively, and for each of the nine months ended November 1, 2008 and November 3, 2007, the Company recorded stock based compensation expense of approximately \$3.3 million and \$3.1 million, respectively.

Stock Options

The following table summarizes the Company's stock option activity (in thousands):

Nine months
ended
November 1,
2008

Outstanding, beginning of period	1,520
Granted	1,040
Exercised	(1)
Forfeited	(402)
Outstanding, end of period	2,157
Exercisable, end of period	523

The weighted-average grant date fair value of each option granted in the three months ended November 1, 2008 and November 3, 2007 was \$6.91 and \$11.54 per share, respectively, and for the nine months ended November 1, 2008 and November 3, 2007 was \$5.89 and \$17.38 per share, respectively. The following table illustrates the weighted-average assumptions used in the Black-Scholes option-pricing model for options granted in each of the periods presented.

	Nine months ended	
	November 1, 2008	November 3, 2007
Assumptions:		
Risk-free interest rate	2.8%	4.5%
Expected volatility of DSW common stock	48.1%	39.4%
Expected option term	4.9 years	5.0 years
Expected dividend yield	0.0%	0.0%

Table of Contents

DSW INC.
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

Restricted Stock Units

The following table summarizes the Company's restricted stock unit activity (in thousands):

	Nine months ended November 1, 2008
Outstanding, beginning of period	151
Granted	133
Vested	(4)
Forfeited	(58)
Outstanding, end of period	222

The total aggregate intrinsic value of nonvested restricted stock units at November 1, 2008 was \$2.9 million. As of November 1, 2008, the total compensation cost related to nonvested restricted stock units not yet recognized was approximately \$2.2 million with a weighted average expense recognition period remaining of 2.2 years. The weighted average exercise price for all restricted stock units is zero.

Director Stock Units

DSW issues stock units to directors who are not employees of DSW or RVI. During the nine months ended November 1, 2008 and November 3, 2007, DSW granted 43,887 and 9,294 director stock units, respectively, and expensed \$0.6 million and \$0.3 million in each respective nine month period for these grants. As of November 1, 2008, 81,823 director stock units had been issued and no director stock units had been settled.

5. INVESTMENTS

The long-term investments balance at both November 1, 2008 and February 2, 2008 includes auction rate securities that failed at auction subsequent to February 2, 2008 and are presented as long-term as it is unknown if the Company will be able to liquidate these securities within one year. As a result, for the nine months ended November 1, 2008, the Company recorded a temporary impairment of approximately \$1.6 million, before taxes, related to its long-term investments. The auction rate securities are typically available for auction every 91 to 182 days.

Short-term investments at November 1, 2008 include tax exempt bonds, tax advantaged bonds, variable rate demand notes, tax exempt commercial paper and certificates of deposit. Tax exempt commercial paper and certificates of deposit mature every 28 to 126 days. The other types of short-term investments generally have interest reset dates of every 7 to 9 days. Despite the long-term nature of the stated contractual maturities of the bonds, tax exempt commercial paper and variable rate demand notes, the Company has the ability to quickly liquidate these securities. As a result, the Company has classified these securities as available for sale. At February 2, 2008, the short-term investment balance included variable rate demand notes and auction rate securities.

Edgar Filing: DSW Inc. - Form 10-Q

The following table discloses the major categories of our investments as of November 1, 2008 and February 2, 2008:

	Short-term investments		Long-term investments	
	November	February	November	February
	1,	2,	1,	2,
	2008	2008	2008	2008
	(in thousands)			
Available for sale:				
Tax exempt bonds	\$ 50,765			
Tax advantaged bonds	1,000			
Variable rate demand notes	18,150	\$ 44,505		
Tax exempt commercial paper	5,000			
Certificates of deposit	10,000			
Auction rate securities		25,500	\$ 6,050	\$ 12,500
Unrealized losses included in accumulated other comprehensive loss			(1,557)	
Total available for sale	\$ 84,915	\$ 70,005	\$ 4,493	\$ 12,500

Table of Contents

DSW INC.
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

6. EARNINGS PER SHARE

Basic earnings per share are based on net income and a simple weighted average of Class A and Class B Common Shares and director stock units outstanding. Diluted earnings per share reflect the potential dilution of Class A Common Shares related to outstanding stock options and restricted stock units. The numerator for the diluted earnings per share calculation is net income. The denominator is the weighted average diluted shares outstanding.

	Three months ended		Nine months ended	
	November	November	November	November
	1,	3,	1,	3,
	2008	2007	2008	2007
	(in thousands)			
Weighted average shares outstanding	44,011	43,957	43,992	43,951
Assumed exercise of dilutive stock options		165		227
Assumed exercise of dilutive restricted stock units	229	152	218	146
Number of shares for computation of diluted earnings per share	44,240	44,274	44,210	44,324

Options to purchase 1.4 million and 0.7 million common shares were outstanding at November 1, 2008 and November 3, 2007, respectively, but were not included in the computation of diluted earnings per share because the options' exercise prices were greater than the average market price of the common shares for the period, and therefore, the effect would be anti-dilutive.

7. LONG-TERM OBLIGATIONS

DSW \$150 Million Credit Facility- DSW has a \$150 million secured revolving credit facility that expires on July 5, 2010. Under this facility, the Company and its subsidiary, DSWSW, are named as co-borrowers. The DSW facility has borrowing base restrictions and provides for borrowings at variable interest rates based on LIBOR, the prime rate and the Federal Funds effective rate, plus a margin. The Company's obligations under the secured revolving credit facility are secured by a lien on substantially all of its and its subsidiary's personal property and a pledge of its shares of DSWSW. In addition, the secured revolving credit facility contains usual and customary restrictive covenants relating to the management and the operation of the business. These covenants will, among other things, restrict the Company's ability to grant liens on its assets, incur additional indebtedness, open or close stores, pay cash dividends and redeem its stock, enter into transactions with affiliates and merge or consolidate with another entity. In addition, if at any time the Company utilizes over 90% of its borrowing capacity under the facility, the Company must comply with a fixed charge coverage ratio test set forth in the facility documents. As of November 1, 2008 and February 2, 2008, \$139.5 million and \$134.3 million, respectively, was available under the \$150 million facility and no direct borrowings were outstanding. As of November 1, 2008 and February 2, 2008, \$10.5 million and \$15.7 million, respectively, in letters of credit were issued and outstanding.

Deferred Rent- Many of the Company's operating leases contain predetermined fixed increases of the minimum rentals during the initial lease term. For these leases, the Company recognizes the related rental expense on a straight-line basis and records the difference between the amount charged to expense and the rent paid as deferred rent and begins amortizing such deferred rent upon the delivery of the lease location by the lessor. The deferred rent included in the other noncurrent liabilities caption was \$31.7 million and \$29.3 million as of November 1,

2008 and February 2, 2008, respectively.

Construction and Tenant Allowances- The Company receives cash allowances from landlords, which are deferred and amortized on a straight-line basis over the life of the lease as a reduction of rent expense. These allowances are included in the caption other non-current liabilities and were \$64.0 million and \$58.8 million as of November 1, 2008 and February 2, 2008, respectively.

8. INCOME TAXES

The provision for income taxes is based on the current estimate of the annual effective tax rate and is adjusted as necessary for quarterly events. The Company's effective tax rate was 39.0% for both the three and nine months ended November 1, 2008. The Company's effective tax rates were 38.3% and 38.4%, respectively, for the three and nine months ended November 3, 2007.

Consistent with its historical financial reporting, the Company has elected to classify interest expense related to income tax liabilities, when applicable, as part of the interest expense in its condensed consolidated statements of income rather than

Table of Contents

DSW INC.
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

income tax expense. The Company will continue to classify income tax penalties as part of operating expenses in its condensed consolidated statements of income.

9. SEGMENT REPORTING

The Company is managed in two operating segments: DSW stores, which includes dsw.com, and leased departments. All of the operations are located in the United States. The Company has identified such segments based on internal management reporting and management responsibilities and measures segment profit as gross profit, which is defined as net sales less cost of sales. The goodwill balance of \$25.9 million outstanding at November 1, 2008 and February 2, 2008 is recorded in the DSW stores segment. The tables below present segment information:

	DSW stores	Leased departments	Total
	(in thousands)		
Three months ended November 1, 2008:			
Net sales	\$350,066	\$41,289	\$391,355
Gross profit	101,597	7,478	109,075
Capital expenditures	22,758	48	22,806

Three months ended November 3, 2007:			
Net sales	\$321,471	\$45,909	\$367,380
Gross profit	97,723	8,937	106,660
Capital expenditures	30,368	485	30,853

	DSW stores	Leased departments	Total
	(in thousands)		
Nine months ended November 1, 2008:			
Net sales	\$986,841	\$127,953	\$1,114,794
Gross profit	285,283	21,933	307,216
Capital expenditures	66,427	305	66,732

As of November 1, 2008:			
Total assets	724,662	60,721	785,383

	DSW stores	Leased departments	Total
	(in thousands)		
Nine months ended November 3, 2007:			
Net sales	\$937,594	\$135,501	\$1,073,095
Gross profit	276,463	20,803	297,266
Capital expenditures	68,977	1,097	70,074

As of February 2, 2008:

Total assets	641,874	52,008	693,882
--------------	---------	--------	---------

10. ACCUMULATED OTHER COMPREHENSIVE LOSS

The balance sheet caption Accumulated other comprehensive loss of \$0.9 million at November 1, 2008, relates to the Company's unrealized loss on available-for-sale securities, net of income tax. For the nine months ended November 1, 2008, the comprehensive income was \$33.5 million. For the nine months ended November 3, 2007, there was no unrealized loss on available-for-sale securities and comprehensive income was equal to net income.

11. COMMITMENTS AND CONTINGENCIES

As previously reported, on March 8, 2005, Retail Ventures announced that it had learned of the theft of credit card and other purchase information from a portion of the Company's customers. On April 18, 2005, Retail Ventures issued the findings from its investigation into the theft. The theft covered transaction information involving approximately 1.4 million credit cards and data from transactions involving approximately 96,000 checks. During the second quarter of fiscal 2008, in a putative class action captioned Levine vs. DSW, the Company prevailed on a motion for summary judgment on all claims in the Court of Common Pleas, Cuyahoga County, Ohio. The Company currently has no pending litigation relating to this matter. As of November 1, 2008, the Company

Table of Contents

DSW INC.
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

decreased the balance of the associated reserve from \$0.5 million to \$0.1 million. Settlement of this case did not have a material impact on the Company's results of operations or financial condition.

The Company is involved in various legal proceedings that are incidental to the conduct of its business. The Company estimates the range of liability related to pending litigation where the amount of the range of loss can be estimated. The Company records its best estimate of a loss when the loss is considered probable. Where a liability is probable and there is a range of estimated loss, the Company records the most likely estimated liability related to the claim. In the opinion of management, the amount of any potential liability with respect to these proceedings will not be material to the Company's results of operations or financial condition. As additional information becomes available, the Company will assess the potential liability related to its pending litigation and revise the estimates as needed. Revisions in its estimates and potential liability could materially impact the Company's results of operations and financial condition.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

All references to we, us, our, DSW or the Company in this Quarterly Report on Form 10-Q mean DSW Inc. and its wholly-owned subsidiaries, including DSW Shoe Warehouse, Inc. (DSWSW), except where it is made clear that the term only means DSW Inc. DSW Class A Common Shares are listed for trading under the ticker symbol DSW on the New York Stock Exchange (NYSE).

All references to Retail Ventures , or RVI , in this Quarterly Report on Form 10-Q mean Retail Ventures, Inc. and its subsidiaries, except where it is made clear that the term only means the parent company. DSW is a controlled subsidiary of Retail Ventures. RVI Common Shares are listed under the ticker symbol RVI on the NYSE.

On January 23, 2008, Retail Ventures disposed of an 81% ownership interest in its Value City Department Stores business to VCHI Acquisition Co., a newly formed entity owned by VCDS Acquisition Holdings, LLC, Emerald Capital Management LLC and Crystal Value, LLC.

Company Overview

DSW is a leading U.S. branded footwear specialty retailer operating 295 shoe stores in 37 states as of November 1, 2008. We offer a wide selection of better-branded dress, casual and athletic footwear for women and men, as well as accessories. Our typical customers are brand, quality and style-conscious shoppers who have a passion for footwear and accessories. Our core focus is to create a distinctive store experience that satisfies both the rational and emotional shopping needs of our customers by offering them a vast, exciting selection of in-season styles combined with the convenience and value they desire. Our stores average approximately 22,000 square feet and carry approximately 27,000 pairs of shoes. We believe this combination of selection, convenience and value differentiates us from our competitors and appeals to consumers from a broad range of socioeconomic and demographic backgrounds. In addition, we also operate 381 leased shoe departments for four other retailers and sell shoes and accessories through dsw.com.

Cautionary Statement Regarding Forward-Looking Information for Purposes of the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995

Some of the statements in this Quarterly Report on Form 10-Q contain forward-looking statements which reflect our current views with respect to, among other things, future events and financial performance. You can identify these forward-looking statements by the use of forward-looking words such as outlook, believes, expects, potential, continues, may, should, seeks, approximately, predicts, intends, plans, estimates, anticipates or those words or other comparable words. Any forward-looking statements contained in this Quarterly Report on Form 10-Q are based upon our historical performance and on current plans, estimates and expectations and assumptions relating to our operations, results of operations, financial condition, growth strategy and liquidity. The inclusion of this forward-looking information should not be regarded as a representation by us or any other person that the future plans, estimates or expectations contemplated by us will be achieved. Such forward-looking statements are subject to numerous risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. In addition to those factors described under Part I, Item 1A. Risk Factors, in our Form 10-K filed on April 17, 2008 and Part II, Item 1A. Risk Factors in this Form 10-Q some important factors that could cause actual results, performance or achievements for DSW to differ materially from those discussed in forward-looking statements include, but are not limited to, the following:

- our success in opening and operating new stores on a timely and profitable basis;

- continuation of our supply agreements with our leased departments;

- maintaining good relationships with our vendors;

- our ability to anticipate and respond to fashion trends;

- fluctuation of our comparable store sales and quarterly financial performance;

disruption of our distribution operations;

impact of the change in the shared services agreement;

the risk of Value City Holdings, Inc. (Value City) not paying its obligations for the transition services;

impact of the disposition of a majority interest in Value City by Retail Ventures on the allocation of expenses pursuant to the shared services agreement with RVI;

failure to retain our key executives or attract qualified new personnel;

our competitiveness with respect to style, price, brand availability and customer service;

declining general economic conditions;

risks inherent to international trade with countries that are major manufacturers of footwear;

Table of Contents

the success of dsw.com;

liquidity and investment risks related to our investments; and

security risks related to our electronic processing and transmission of confidential customer information.

If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results, performance or achievements may vary materially from what we have projected. Furthermore, new factors emerge from time to time and it is not possible for management to predict all such factors, nor can it assess the impact of any such factor on the business or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. Any forward-looking statement speaks only as of the date on which such statement is made, and, except as required by law, DSW undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events.

Critical Accounting Policies

The preparation of our condensed consolidated financial statements in conformity with generally accepted accounting principles, or GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of commitments and contingencies at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. On an ongoing basis, we evaluate our estimates and judgments, including, but not limited to, those related to inventory valuation, cash and equivalents, allowance for doubtful accounts, depreciation, amortization, recoverability of long-lived assets (including intangible assets), estimates for self insurance reserves for health and welfare, workers' compensation and casualty insurance, customer loyalty program, investments, income taxes, contingencies, litigation and revenue recognition. We base these estimates and judgments on our historical experience and other factors we believe to be relevant, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. The process of determining significant estimates is fact-specific and takes into account factors such as historical experience, current and expected economic conditions, product mix, and in some cases, actuarial and appraisal techniques. We constantly re-evaluate these significant factors and make adjustments where facts and circumstances dictate.

While we believe that our historical experience and other factors considered provide a meaningful basis for the accounting policies applied in the preparation of the condensed consolidated financial statements, we cannot guarantee that our estimates and assumptions will be accurate. As the determination of these estimates requires the exercise of judgment, actual results inevitably will differ from those estimates, and such differences may be material to our financial statements.

We believe the following represent the most significant accounting policies, critical estimates and assumptions, among others, used in the preparation of our condensed consolidated financial statements:

Revenue Recognition. Revenues from merchandise sales are recognized upon customer receipt of merchandise, are net of returns and sales tax and are not recognized until collectability is reasonably assured. Net sales also include revenue from shipping and handling while the related costs are included in cost of sales. Revenue from gift cards is deferred and the revenue is recognized upon redemption of the gift cards. Our policy is to recognize income from breakage of gift cards when the likelihood of redemption of the gift card is remote. In the fourth quarter of fiscal 2007, we determined that we had accumulated enough historical data to recognize income from gift card breakage. We recognized \$0.2 million and \$0.5 million as miscellaneous income from gift card breakage in the three and nine months ended November 1, 2008, respectively. Miscellaneous income is included in operating expenses. Prior to the fourth quarter of fiscal 2007, we had not recognized any income from gift card breakage.

Cost of Sales and Merchandise Inventories. Merchandise inventories are stated at realizable value, determined using the first-in, first-out basis, or market, using the retail inventory method. The retail inventory method is widely used in the retail industry due to its practicality. Under the retail inventory method, the valuation of

inventories at cost and the resulting gross profit are calculated by applying a calculated cost to retail ratio to the retail value of inventories. The cost of the inventory reflected on our condensed consolidated balance sheet is decreased by charges to cost of sales at the time the retail value of the inventory is lowered through the use of markdowns. Hence, earnings are negatively impacted as merchandise is marked down prior to sale. Reserves to value inventory at realizable value were \$24.4 million and \$26.5 million as of November 1, 2008 and February 2, 2008, respectively.

Inherent in the calculation of inventories are certain significant management judgments and estimates, including setting the original merchandise retail value or mark-on, markups of initial prices established, reductions in prices due to customers' perception of value (known as markdowns), and estimates of losses between physical inventory counts, or shrinkage, which, combined with the averaging process within the retail inventory method, can significantly impact the ending inventory valuation at cost and the resulting gross profit.

Table of Contents

We include in the cost of sales expenses associated with warehousing products for our retail stores and dsw.com, distribution and store occupancy. Warehousing costs are comprised of labor, benefits and other labor-related costs associated with the operations of the distribution centers, which are primarily payroll-related taxes and benefits. The non-labor costs associated with warehousing include rent, depreciation, insurance, utilities and maintenance and other operating costs that are passed to us from the landlord. Distribution costs include the transportation of merchandise to the distribution centers and from the distribution center to our stores. Store occupancy costs include rent, utilities, repairs, maintenance, insurance, janitorial costs, costs associated with licenses for leased departments and occupancy-related taxes, which are primarily real estate taxes passed to us by our landlords.

Cash and Equivalents. Cash and equivalents represent cash, highly liquid investments with original maturities of three months or less at the date of purchase and credit card receivables, which generally settle within three days. The carrying amounts approximate fair value.

Allowance for Doubtful Accounts. We monitor our exposure for credit losses and record related allowances for doubtful accounts. Allowances are estimated based upon specific accounts receivable balances, where a risk of default has been identified. As of November 1, 2008 and February 2, 2008, our allowances for doubtful accounts were \$0.6 million and \$0.4 million, respectively. The increase in our allowance is primarily related to the collectability of a receivable from Value City.

Investments. We determine the appropriate balance sheet classification of our investments at time of purchase and evaluate the classification at each balance sheet date. If we have the intent and ability to hold the investments to maturity, investments are classified as held-to-maturity. Held to maturity securities are stated at amortized cost plus accrued interest. Otherwise, our investments are classified as available-for-sale.

Investments, which can include tax exempt bonds, tax advantaged bonds, variable rate demand notes, tax exempt commercial paper, certificates of deposit and auction rate securities, are classified as available-for-sale securities or held to maturity. All income generated from these investments is recorded as interest income. Our investments in auction rate securities have variable interest rates, which typically reset every 91 to 182 days and are presented as long-term as it is unknown if the Company will be able to liquidate these securities within one year. Our investments in tax exempt commercial paper and certificates of deposit mature every 28 to 126 days. The other types of short-term investments generally have interest reset dates of every 7 to 9 days. Despite the long-term nature of the stated contractual maturities of the bonds, tax exempt commercial paper and variable rate demand notes, the Company has the ability to quickly liquidate these securities and classifies these securities as short-term investments accordingly.

We evaluate our investments for impairment and whether an impairment is other-than-temporary. In determining whether an impairment has occurred, we review information about the underlying investment that is publicly available and assess our ability to hold the securities for the foreseeable future. Based on the nature of the impairment(s), we would record a temporary impairment as an unrealized loss in other comprehensive income or an other-than-temporary impairment in earnings. The investment is written down to its current market value at the time the impairment is deemed to have occurred.

Asset Impairment and Long-lived Assets. We periodically evaluate the carrying amount of our long-lived assets, primarily property and equipment, and finite life intangible assets when events and circumstances warrant such a review to ascertain if any assets have been impaired. The carrying amount of a long-lived asset is considered impaired when the carrying value of the asset exceeds the expected future cash flows from the asset. Our reviews are conducted at the lowest identifiable level, which includes a store. The impairment loss recognized is the excess of the carrying amount of the asset over its fair value, based on projected discounted cash flows using a discount rate determined by management. Any impairment loss realized is included in cost of sales. We believe

as of November 1, 2008 that the long-lived assets carrying amounts and useful lives are appropriate. To the extent these future projections or our strategies change, the conclusion regarding impairment may differ from our current estimates.

Self-insurance Reserves. We record estimates for certain health and welfare, workers compensation and general liability insurance costs that are self-insured programs. These estimates are based on actuarial assumptions and are subject to change based on actual results. We have purchased stop loss insurance to limit our exposure to any significant exposures on a per person basis for health and welfare and on a per claim basis for workers compensation and casualty insurance. Should the total cost of claims for health and welfare, workers compensation and general liability insurance exceed those anticipated, reserves recorded may not be sufficient, and, to the extent actual results vary from assumptions, earnings would be impacted. For example, for workers compensation and liability claims estimates, a 1% increase or decrease to the assumptions for claims costs and loss development factors would increase or decrease our self-insurance accrual by less than \$0.1 million. The self-insurance reserves were \$2.2 million and \$1.4 million as of November 1, 2008 and February 2, 2008, respectively.

Table of Contents

Customer Loyalty Program. We maintain a customer loyalty program for our DSW stores and dsw.com in which program members receive a discount on future purchases. Upon reaching the target-earned threshold, our members receive certificates for these discounts which must be redeemed within six months. We accrue the anticipated redemptions of the discount earned at the time of the initial purchase. To estimate these costs, we are required to make assumptions related to customer purchase levels and redemption rates based on historical experience.

Income Taxes. We are required to determine the aggregate amount of income tax expense to accrue and the amount which will be currently payable based upon tax statutes of each jurisdiction in which we do business. In making these estimates, we adjust income based on a determination of generally accepted accounting principles for items that are treated differently by the applicable taxing authorities. Deferred tax assets and liabilities, as a result of these differences, are reflected on our balance sheet for temporary differences that will reverse in subsequent years. A valuation allowance is established against deferred tax assets when it is more likely than not that some or all of the deferred tax assets will not be realized. If management had made these determinations on a different basis, our tax expense, assets and liabilities could be different.

Results of Operations**Overview**

As of November 1, 2008, we operated 295 DSW stores in 37 states, dsw.com and leased shoe departments in 279 Stein Mart stores, 65 Gordmans stores, 36 Filene's Basement stores and one Frugal Fannie's store. We manage our operations in two segments, defined as DSW stores, which includes dsw.com, and leased departments.

The following table sets forth, for the periods indicated, the percentage relationships to net sales of the listed items included in our condensed consolidated statements of income:

	Three months ended		Nine months ended	
	November 1, 2008	November 3, 2007	November 1, 2008	November 3, 2007
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of sales	(72.1)	(71.0)	(72.4)	(72.3)
Gross profit	27.9	29.0	27.6	27.7
Operating expenses	(22.5)	(19.5)	(22.7)	(20.2)
Operating profit	5.4	9.5	4.9	7.5
Interest income, net	0.2	0.4	0.2	0.5
Earnings before income taxes	5.6	9.9	5.1	8.0
Income tax provision	(2.2)	(3.8)	(2.0)	(3.1)
Net income	3.4%	6.1%	3.1%	4.9%

Key Financial Measures

In evaluating our results of operations, we refer to a number of key financial and non-financial measures relating to the performance of our business. Among our key financial measures are net sales, operating profit and net income. Other measures that we use in evaluating our performance include number of DSW stores and leased departments, net sales per average gross square foot for DSW stores, and change in comparable stores sales. The following describes certain line items set forth in our consolidated statement of income:

Net Sales. We record net sales exclusive of sales tax and net of returns. For comparison purposes, we define stores or leased departments as comparable or non-comparable. A store's or leased department's sales are included in comparable sales if the store or leased department has been in operation at least 14 months at the beginning of the fiscal year. Stores and leased departments are excluded from the comparison in the quarter that they close. Stores that are remodeled or relocated are excluded from the comparison if there is a material change in the size of the store or the store is relocated more than one mile out of its area.

Cost of Sales. Our cost of sales includes the cost of merchandise, distribution and warehousing (including depreciation), store occupancy (excluding depreciation), permanent and point of sale reductions, markdowns and shrinkage.

Operating Expenses. Operating expenses include expenses related to store management and store payroll costs, advertising, leased department operations, store depreciation and amortization, pre-opening advertising and other pre-opening costs (which are expensed as incurred), corporate expenses for buying services, information services, depreciation expense for corporate cost centers, marketing, legal, finance, outside professional services, customer service center expenses, allocable costs to and from

Table of Contents

Retail Ventures and other corporate related departments and benefits for associates and related payroll taxes. Corporate level expenses are primarily attributable to operations at our corporate offices in Columbus, Ohio.

THREE MONTHS ENDED NOVEMBER 1, 2008 COMPARED TO THREE MONTHS ENDED NOVEMBER 3, 2007

Net Sales. Sales for the three months ended November 1, 2008 increased by 6.5%, or \$24.0 million, from the three months ended November 3, 2007. The following table summarizes the increase in our net sales:

	Three months ended November 1, 2008 (in millions)
Net sales for the three months ended November 3, 2007	\$ 367.4
Decrease in comparable store sales	(13.5)
Net increase in 2007 and 2008 new stores, dsw.com and closed store sales	37.5
Net sales for the three months ended November 1, 2008	\$ 391.4

The following table summarizes our sales breakdown by segment:

	Three months ended November 1, 2008	November 3, 2007 (in millions)
DSW stores	\$350.1	\$321.5
Leased departments	41.3	45.9
	\$391.4	\$367.4

The decrease in comparable sales of 4.1% was primarily a result of the challenging economic environment in both segments evidenced by a decrease in customer traffic. For the third quarter of fiscal 2008, DSW comparable store sales decreased in women's by 3.5%, men's by 2.4%, accessories by 1.9%, and the athletic category by 5.2%.

Gross Profit. For the third quarter of fiscal 2008, gross profit increased \$2.4 million and 2.3%, from the third quarter of fiscal 2007. Gross margin decreased as a percentage of net sales from 29.0% in the third quarter of fiscal 2007 to 27.9% in the third quarter of fiscal 2008. By operating segment, gross profit as a percentage of sales was:

	November 1, 2008	November 3, 2007
DSW stores	29.0%	30.4%
Leased departments	18.1%	19.5%
Total DSW	27.9%	29.0%

The gross profit for DSW stores for the third quarter of fiscal 2008 decreased as a percentage of sales compared to the third quarter of fiscal 2007 due to increased store occupancy and distribution expense as a percentage of sales and a decrease in initial mark-up partially offset by a decrease in markdowns. The increase in distribution expense as a percentage of sales was a result of expenses related to our dsw.com fulfillment center, which was not operating in the third quarter of fiscal 2007. Store occupancy expense for DSW stores as a percentage of sales increased to 13.5% in the third quarter of fiscal 2008 from 12.7% in the third quarter of fiscal 2007 as a result of decreased average store sales as compared to the third quarter of fiscal 2007.

The gross profit for leased departments decreased as a percentage of sales compared to the third quarter of fiscal 2007 due to increased markdowns, a decrease in initial mark-up and an increase in distribution expense as a percentage of

sales. The increase in markdowns was a result of an increase in sales of clearance merchandise.

Operating Expenses. For the third quarter of fiscal 2008, operating expenses increased \$16.3 million as compared to the third quarter of fiscal 2007, which represented 22.5% and 19.5% of net sales, respectively. The increase in operating expenses as a percent of sales was the result of an increase in bonus expense as the third quarter of fiscal 2008 includes bonus expense while the third quarter of fiscal 2007 included a reversal of year-to-date bonus expense, an increase in expenses related to dsw.com, unreimbursed expenses to provide transition services to Value City and an increase in other home office expenses.

Operating Profit. Operating profit was \$20.9 million in the third quarter of fiscal 2008 compared to \$34.8 million in the third quarter of fiscal 2007 and decreased as a percentage of net sales to 5.4% in the third quarter of fiscal 2008 from 9.5% in the third quarter of fiscal 2007. The decrease in operating profit as a percentage of net sales was primarily impacted by a decrease in gross profit and an increase in operating expenses.

Interest Income, Net. Interest income, net of interest expense, for the third quarter of fiscal 2008 was \$0.7 million as compared to \$1.5 million of net interest income for the third quarter of fiscal 2007. Interest income for the quarter decreased due to the replacement of our short-term investments in favor of lower risk money market funds and other investments with lower yields.

Table of Contents

Income Taxes. Our effective tax rate for the third quarter of fiscal 2008 was 39.0%, compared to 38.3% for the third quarter of fiscal 2007.

Net Income. For the third quarter of fiscal 2008, net income decreased \$9.3 million, or 41.3%, over the third quarter of fiscal 2007 and represented 3.4% and 6.1% of net sales, respectively. This decrease was primarily the result of a decrease in gross profit and an increase in operating expenses.

NINE MONTHS ENDED NOVEMBER 1, 2008 COMPARED TO NINE MONTHS ENDED NOVEMBER 3, 2007

Net Sales. Sales for the nine months ended November 1, 2008 increased by 3.9%, or \$41.7 million, from the nine months ended November 3, 2007. The following table summarizes the increase in our net sales:

	Nine months ended November 1, 2008 (in millions)
Net sales for the nine months ended November 3, 2007	\$ 1,073.1
Decrease in comparable store sales	(53.7)
Net increase in 2007 and 2008 new stores, dsw.com and closed store sales	95.4
Net sales for the nine months ended November 1, 2008	\$ 1,114.8

The following table summarizes our sales breakdown by segment:

	Nine months ended November 1, 2008	Nine months ended November 3, 2007 (in millions)
DSW stores	\$ 986.8	\$ 937.6
Leased departments	128.0	135.5
	\$ 1,114.8	\$ 1,073.1

The decrease in comparable sales of 5.5% was primarily a result of the challenging economic environment in both segments as evidenced by a decrease in customer traffic. For the nine months ended November 1, 2008, DSW comparable store sales decreased in women's by 5.3%, men's by 3.8%, accessories by 8.1%, and the athletic category by 6.7%.

Gross Profit. For the nine months ended November 1, 2008, gross profit increased \$10.0 million, or 3.3%, as compared to the nine months ended November 3, 2007, and decreased as a percentage of net sales from 27.7% for the nine months ended November 3, 2007 to 27.6 % for the nine months ended November 1, 2008. By operating segment, gross profit as a percentage of sales was:

	November 1, 2008	November 3, 2007
DSW stores	28.9%	29.5%
Leased departments	17.1%	15.4%
Total DSW	27.6%	27.7%

The gross profit for DSW stores for the nine months ended November 1, 2008 decreased as a percentage of sales compared to the nine months ended November 3, 2007 due to increases in both DSW store occupancy expense and distribution expense as percentage of sales partially offset by a decrease in markdowns. As a result of a shift in our

markdown cadence, there was a decrease in markdowns for the nine months ended November 1, 2008. Store occupancy expense for DSW stores as a percentage of sales increased to 13.6% for the nine months ended November 1, 2008 from 12.4% for the nine months ended November 3, 2007 as a result of decreased average store sales as compared to the nine months ended November 3, 2007. The increase in distribution expense as a percentage of sales was a result of expenses related to our dsw.com fulfillment center that was not operational in fiscal 2007. The gross profit for the leased departments for the nine months ended November 1, 2008 increased as a percentage of sales compared to the nine months ended November 3, 2007 due to decreased markdowns. The decrease in markdowns was a result of an enhancement to the clearance markdown process.

Operating Expenses. For the nine months ended November 1, 2008, operating expenses increased \$35.7 million as compared to the nine months ended November 3, 2007, which represented 22.7% and 20.2% of net sales, respectively. The increase in operating expenses as a percent of sales was the result of an increase in expenses related to dsw.com, unreimbursed expenses to provide transition services to Value City, increased other home office expenses, including bonus expense. The nine months ended November 1, 2008 includes bonus expense while the nine months ended November 3, 2007 included a reversal of year-to-date bonus expense.

Table of Contents

Operating Profit. Operating profit was \$54.6 million for the nine months ended November 1, 2008 compared to \$80.3 million for the nine months ended November 3, 2007 and decreased as a percentage of net sales to 4.9% for the nine months ended November 1, 2008 from 7.5% for the nine months ended November 3, 2007. Operating profit as a percentage of net sales was impacted by an increase in operating expenses.

Interest Income, Net. Interest income, net of interest expense, for the nine months ended November 1, 2008 was \$1.8 million as compared to \$5.2 million of net interest income for the nine months ended November 3, 2007. Interest income decreased due to the replacement of our short-term investments in favor of lower risk money market funds and other investments with lower yields.

Income Taxes. Our effective tax rate for the nine months ended November 1, 2008 was 39.0%, compared to 38.4% for the nine months ended November 3, 2007.

Net Income. For the nine months ended November 1, 2008, net income decreased \$18.3 million, or 34.7%, over the nine months ended November 3, 2007 and represented 3.1% and 4.9% of net sales, respectively. This decrease was primarily the result of an increase in operating expenses.

Seasonality

Our business, measured in terms of net sales, is subject to seasonal trends. Our net sales, measured on a comparable stores basis, have typically been higher in spring and early fall, when our customers' interest in new seasonal styles increases. Unlike many other retailers, we have not historically experienced a large increase in net sales during our fourth quarter associated with the winter holiday season.

Liquidity and Capital Resources

Our primary ongoing cash requirements are for seasonal and new store inventory purchases, capital expenditures in connection with our store expansion, improving our information systems, the remodeling of existing stores and infrastructure growth. Our working capital and inventory levels typically build seasonally. We believe that we have sufficient financial resources and access to financial resources at this time. We are committed to a cash management strategy that maintains liquidity to adequately support the operation of the business, our growth strategy and to withstand unanticipated business volatility. We believe that cash generated from DSW operations, together with our current levels of cash and equivalents and short-term investments as well as availability under our revolving credit facility, will be sufficient to maintain our ongoing operations, support seasonal working capital requirements and fund capital expenditures related to projected business growth.

Net working capital increased \$13.9 million to \$296.6 million as of November 1, 2008 from \$282.7 million at February 2, 2008, primarily due to an increase in inventory which was partially offset by an increase in accounts payable and accrued taxes. The increase in accounts payable is consistent with the increase in inventory and the increase in accrued taxes is due to the timing of tax payments. At November 1, 2008 and February 2, 2008, the current ratio was 2.4 and 2.7, respectively.

Operating Cash Flows. For the nine months ended November 1, 2008, our net cash provided by operations was \$58.8 million, compared to \$38.9 million for the nine months ended November 3, 2007. The increase in our net cash flow from operations for the nine months ended November 1, 2008 was primarily a result of an increase in accounts payable and accrued expenses partially offset by a decrease in net income and an increase in inventory.

Investing Cash Flows. For the nine months ended November 1, 2008, our net cash used in investing activities was \$75.1 million compared to \$65.8 million for the nine months ended November 3, 2007. We expect to spend approximately \$85 million for capital expenditures in fiscal 2008. During the nine months ended November 1, 2008, we incurred \$66.7 million in capital expenditures. Of this amount, we incurred \$44.4 million for new stores and remodels of existing stores, \$3.2 million related to the corporate office and warehouses, \$4.4 million related to dsw.com and \$14.7 million related to information technology equipment upgrades and new systems, excluding dsw.com.

Although our plan of continued expansion could place increased demands on our financial, managerial, operational and administrative resources and result in increased demands on management, we do not believe that our anticipated growth plan will have an unfavorable impact on our operations or liquidity. The current slowdown in the United States economy could adversely affect consumer confidence and consumer spending habits, which may result in reduced customer traffic and comparable store sales in our existing stores with the resultant increase in inventory levels and

markdowns. Reduced sales may result in reduced cash flows if we are not able to appropriately manage inventory levels or leverage expenses. These negative economic conditions may also affect future profitability and may cause us to reduce the number of future store openings.

Table of Contents

Our future capital expenditures will depend heavily on the number of new stores we open, the number of existing stores we remodel and the timing of these expenditures. We plan to open 41 stores during fiscal 2008. Based on the current economic conditions and financial pressures facing real estate developers, we have reduced our plan to open at least 30 stores to 10 to 15 stores in fiscal 2009. We will continue to pursue real estate opportunities that fit our business model, but expect these pressures to slow our growth in fiscal 2009. We are currently evaluating the number of stores that we plan to open in fiscal 2010. During fiscal 2007, the average investment required to open a typical new DSW store was approximately \$1.6 million, prior to construction and tenant allowances. Of this amount, gross inventory typically accounted for \$0.6 million, fixtures and leasehold improvements typically accounted for \$0.9 million and pre-opening advertising and other pre-opening expenses typically accounted for \$0.1 million.

Auction Rate Securities. As of November 1, 2008, all of our long-term investments were invested in auction rate securities. Due to auction failures limiting the liquidity of our investments, we have presented all investments in auction rate securities as long-term investments at November 1, 2008. We believe that the current lack of liquidity relating to our investment in auction rate securities will have no impact on our ability to fund our ongoing operations and growth initiatives.

\$150 Million Secured Revolving Credit Facility. DSW has a \$150 million secured revolving credit facility that expires July 5, 2010. Under this facility, we and our subsidiary, DSWSW, are named as co-borrowers. The DSW facility has borrowing base restrictions and provides for borrowings at variable interest rates based on LIBOR, the prime rate and the Federal Funds effective rate, plus a margin. Our obligations under the secured revolving credit facility are secured by a lien on substantially all of our and DSWSW's personal property and a pledge of our shares of DSWSW. In addition, our secured revolving credit facility contains usual and customary restrictive covenants relating to our management and the operation of our business. These covenants will, among other things, restrict our ability to grant liens on our assets, incur additional indebtedness, pay cash dividends and redeem our stock, enter into transactions with affiliates and merge or consolidate with another entity. In addition, if at any time we utilize over 90% of our borrowing capacity under the facility, we must comply with a fixed charge coverage ratio test set forth in the facility documents. As of November 1, 2008 and February 2, 2008, \$139.5 million and \$134.3 million were available under the \$150 million secured revolving credit facility and no direct borrowings were outstanding.

Contractual Obligations

DSW had outstanding letters of credit that totaled \$10.5 million as of November 1, 2008 and \$15.7 million as of February 2, 2008. If certain conditions are met under these arrangements, the Company would be required to satisfy the obligations in cash. Due to the nature of these arrangements and based on historical experience, DSW does not expect to make any significant payments outside of terms set forth in these arrangements.

As of November 1, 2008, we have entered into various construction commitments, including capital items to be purchased for projects that were under construction, or for which a lease has been signed. Our obligations under these commitments aggregated to \$2.1 million as of November 1, 2008. In addition, we have signed lease agreements for 19 new store locations expected to be opened over the next 18 months, with annual rent of approximately \$6.5 million. In connection with the new lease agreements, we will receive \$8.0 million of construction and tenant allowances, which will reimburse us for expenditures at these locations.

We operate all our stores, warehouses and corporate office space from leased facilities. Lease obligations are accounted for either as operating leases or as capital leases based on lease by lease review at lease inception. The Company had no capital leases outstanding as of November 1, 2008 or February 2, 2008.

Off-Balance Sheet Arrangements

As of November 1, 2008, the Company has not entered into any off-balance sheet arrangements, as that term is described by the SEC.

Proposed Accounting Standards

The Financial Accounting Standards Board (FASB) periodically issues Statements of Financial Accounting Standards (SFAS), some of which require implementation by a date falling within or after the close of the fiscal year. See Note 3 to the Condensed Consolidated Financial Statements for a discussion of the new accounting standards implemented.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Our cash and equivalents have maturities of 90 days or less. Our investments in auction rate securities have variable interest rates that typically reset every 91 to 182 days. We also have investments in tax exempt bonds, tax advantaged bonds, variable rate

Table of Contents

demand notes, tax exempt commercial paper, and certificates of deposit. Tax exempt commercial paper and certificates of deposit mature every 28 to 126 days. Our other types of short-term investments generally have interest reset dates of every 7 to 9 days. These financial instruments may be subject to interest rate risk through lost income should interest rates increase during their limited term to maturity or resetting of interest rates and thus may limit our ability to invest in higher interest investments.

We have \$10.0 million invested in certificates of deposit and participate in the Certificate of Deposit Account Registry Service® (CDARS). CDARS provides FDIC insurance on deposits of up to \$50.0 million. The service places a large deposit with a financial institution registered in the CDARS network. The financial institution uses CDARS to place funds into certificates of deposit issued by banks in the network. This occurs in increments of less than \$0.1 million to ensure that both principal and interest are eligible for full FDIC insurance.

As of November 1, 2008, all of our long-term investments were in auction rate securities. Due to auction failures limiting the liquidity of these investments, we have presented all investments in auction rate securities as long-term investments as of November 1, 2008. While recent failures in the auction process have affected our ability to access these funds, we do not believe that the underlying securities have undergone an other-than-temporary impairment. We recorded a temporary impairment of \$0.9 million, net of tax during the nine months ended November 1, 2008. We expect to continue to earn interest at the prevailing rates on our remaining auction rate securities.

As of November 1, 2008, there was no long-term debt outstanding. Future borrowings, if any, would bear interest at negotiated rates and would be subject to interest rate risk. Because we have no outstanding debt, we do not believe that a hypothetical adverse change of 1% in interest rates would have a material effect on our financial position.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We, under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, performed an evaluation of our disclosure controls and procedures, as such term is defined in Securities Exchange Act Rules 13a-15(e) and 15d-15(e). Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded, as of the end of the period covered by this report, that such disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

No change was made in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****Item 1. Legal Proceedings.**

As previously reported, on March 8, 2005, Retail Ventures announced that it had learned of the theft of credit card and other purchase information from a portion of the Company's customers. On April 18, 2005, Retail Ventures issued the findings from its investigation into the theft. The theft covered transaction information involving approximately 1.4 million credit cards and data from transactions involving approximately 96,000 checks. During the second quarter of fiscal 2008, in a putative class action captioned Levine vs. DSW, we prevailed on a motion for summary judgment on all claims in the Court of Common Pleas, Cuyahoga County, Ohio. We currently have no pending litigation relating to this matter. As of November 1, 2008, we decreased the balance of the associated reserve from \$0.5 million to \$0.1 million. Settlement of this case did not have a material impact on the Company's results of operations or financial condition.

We are involved in various legal proceedings that are incidental to the conduct of our business. We estimate the range of liability related to pending litigation where the amount of the range of loss can be estimated. We record our best estimate of a loss when the loss is considered probable. Where a liability is probable and there is a range of estimated loss, we record the most likely estimated liability related to the claim. In the opinion of management, the amount of any potential liability with respect to these proceedings will not be material to our results of operations or financial condition. As additional information becomes available, we will assess the potential liability related to our pending litigation and revise the estimates as needed. Revisions in our estimates and potential liability could materially impact our results of operations and financial condition.

Item 1A. Risk Factors.

The following Risk factors supplement DSW's risk factors set forth in Part I, Item 1A of our last Annual Report on Form 10-K for the fiscal year ended February 2, 2008.

Value City Department Stores has filed for bankruptcy protection and announced its intention to close its remaining stores. Value City owes us approximately \$6.7 million as of November 1, 2008 and we may not be able to collect this amount from Value City. Further, once the liquidation of Value City is complete, we will no longer be able to allocate Value City a portion of our expenses, which will lead to increased expense to us.

In January 2008, RVI announced the disposition of an 81% ownership interest in Value City. As a part of this transaction, RVI agreed to provide certain transition services to Value City. On October 26, 2008, Value City filed for bankruptcy protection and announced that it would close its remaining stores. We have negotiated an agreement with Value City to continue to provide services post bankruptcy filing, including risk management, financial services, benefits administration, payroll, and information technology services, in exchange for a weekly payment.

As of November 1, 2008, Value City owes us approximately \$6.7 million, all for services rendered by us prior to the filing of bankruptcy. Of these unpaid amounts, we have reserved approximately \$0.6 million and have not recognized a receivable related to the remaining services provided. We plan on submitting a proof of claim in the bankruptcy proceeding seeking payment in full for all amounts owed to us. However, there is no assurance that we will be able to collect all or any of the amounts owed to us.

Further, once the liquidation of Value City is complete, we will no longer be able to allocate a portion of our expenses to Value City, which will lead to increased expenses for us. The amount of this increased expense could be material and may have a negative impact on our results of operations and financial position.

We provide key services to RVI and its other subsidiaries under a shared service agreement and are at risk for increased costs due to termination of services.

Effective March 17, 2008, we entered into an amended shared services agreement with RVI and Filene's Basement. Pursuant to the terms of the amended shared services agreement, DSW provides RVI and Filene's Basement with key services relating to risk management, tax, financial services, shared benefits administration, payroll, and information technology. The current term of the shared services agreement will expire at the end of fiscal 2008 and will be extended automatically for additional one-year terms unless terminated by one of the parties. We expect some of these services to be provided for longer or shorter periods than the current term.

In the event that the shared services agreement expires or is not renewed, or is otherwise terminated, DSW would not be able to allocate as much or any expense to RVI or Filene's Basement relating to shared services. This reduction in

expense allocation could be material and have a negative impact on our results of operations and financial position.

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

(a) Recent sales of unregistered securities. Not applicable.

(b) Use of Proceeds. Not applicable.

(c) Purchases of equity securities by the issuer and affiliated purchasers

DSW made no purchases of its Common Shares during the three months ended November 1, 2008.

We do not anticipate paying cash dividends on our Common Shares in the foreseeable future. Presently, we expect that all of our future earnings will be retained for development of our business. The payment of any future dividends will be at the discretion of our board of directors and will depend upon, among other things, future earnings, operations, capital requirements, our general financial condition and general business conditions. Our credit facility restricts the payment of dividends by us or our subsidiaries, other than dividends paid in stock of the issuer or paid to another affiliate, and cash dividends can only be paid to Retail Ventures by us up to the aggregate amount of \$5.0 million, less the amount of any loan advances made to Retail Ventures by us or our subsidiaries.

Item 3. Defaults Upon Senior Securities. None.

Item 4. Submission of Matters to a Vote of Security Holders. None.

Item 5. Other Information. None.

Item 6. Exhibits. See Index to Exhibits on page 24.
