FORWARD INDUSTRIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 OVERVIEW

Forward Industries, Inc. (Forward or the Company) was incorporated under the laws of the State of New York and began operations in 1961 as a manufacturer and distributor of specialty and promotional products. The Company designs and distributes carry and protective solutions, primarily for hand held electronic devices. The Company's principal customer market is original equipment manufacturers, or OEMs (or the contract manufacturing firms of these OEM customers), that either package their products as accessories in box together with their branded product offerings, or sell them through their retail distribution channels. The Company's OEM products include carrying cases and other accessories for medical monitoring and diagnostic kits and a variety of other portable electronic and non-electronic products (such as sporting & recreational products, bar code scanners, smartphones, GPS location devices, tablets, and firearms). The Company's OEM customers are located in the Americas, the EMEA Region, and the APAC Region. The Company does not manufacture any of its OEM products and sources substantially all of its OEM products from independent suppliers in China (refer to Note 8 Buying Agency and Supply Agreement).

On June 21, 2012, the Company determined to exit its global retail business and focus solely on growing its OEM business. The decision to eliminate the Retail division was primarily driven by the longer than estimated path to bring it to profitability and the strong top line growth and cost rationalizations in the OEM business. The Retail business is presented as discontinued operations.

In the opinion of management, the accompanying condensed consolidated financial statements presented in this Quarterly Report on Form 10-Q reflect all normal recurring adjustments necessary to present fairly the financial position and results of operations and cash flows for the interim periods presented herein, but are not necessarily indicative of the results of operations for the year ending September 30, 2016. These condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements included in its Annual Report on Form 10-K for the fiscal year ended September 30, 2015, and with the disclosures and risk factors presented herein and therein, respectively. The September 30, 2015 condensed consolidated balance sheet has been derived from the audited consolidated financial statements.

NOTE 2 ACCOUNTING POLICIES

Accounting Estimates

The preparation of the Company's condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates and assumptions.

Basis of Presentation

The accompanying condensed consolidated financial statements include the accounts of Forward Industries, Inc. and its wholly owned subsidiaries (Forward US, Forward Switzerland, Forward HK (inactive) and Forward UK (inactive)). All significant intercompany transactions and balances have been eliminated in consolidation.

Income Taxes

The Company accounts for its income taxes in accordance with U.S. GAAP, which requires, among other things, recognition of future tax benefits and liabilities measured at enacted rates attributable to temporary differences between financial statement and income tax bases of assets and liabilities and to net tax operating loss carryforwards to the extent that realization of these benefits is more likely than not. As of March 31, 2016, there was no change to our assessment that a full valuation allowance was required against all net deferred tax assets. Accordingly, any deferred tax provision or benefit was offset by an equal and opposite change to the valuation allowance. No current book tax provision was recorded against book net income due to the existence of significant net operating loss carryforwards.

Revenue Recognition

Edgar Filing: FORWARD INDUSTRIES INC - Form 10-Q

The Company generally recognizes revenue from product sales to its customers when: (1) title and risk of loss are transferred (in general, these conditions occur at either point of shipment or point of destination, depending on the terms of sale); (2) persuasive evidence of an arrangement exists; (3) the Company has no continuing obligations to the customer; and (4) collection of the related accounts receivable is reasonably assured.

7

NOTE 2 ACCOUNTING POLICIES (CONTINUED)

Share-Based Compensation Expense

The Company recognizes employee and director share-based compensation in its condensed consolidated statements of operations and comprehensive income (loss) at the grant-date fair value of stock options and other equity-based compensation. The determination of stock option grant-date fair value is estimated using the Black-Scholes option-pricing model, which includes variables such as the expected volatility of the Company's share price, the exercise behavior of its grantees, interest rates, and dividend yields. These variables are projected based on the Company's historical data, experience, and other factors. In the case of awards with multiple vesting periods, the Company has elected to use the graded vesting attribution method, which recognizes compensation cost on a straight-line basis over each separately vesting portion of the award as if the award was, in-substance, multiple awards. Refer to Note 5 - Share-Based Compensation. In addition, the Company recognizes share-based compensation to non-employees based upon the fair value, using the Black-Scholes option pricing model, determined at the deemed measurement dates over the related contract service period.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers, which supersedes the revenue recognition requirements in Accounting Standards Codification (ASC) 605-Revenue Recognition and most industry-specific guidance throughout the ASC. The standard requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. ASU 2014-09 was further amended and is effective for annual periods and interim periods within those annual periods beginning after December 15, 2017 and should be applied retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application. The Company is currently evaluating the impact of the adoption of ASU 2014-09 on its consolidated financial statements.

In July 2015, the FASB issued ASU 2015-11, "Inventory (Topic 330): Simplifying the Measurement of Inventory," which applies to inventory that is measured using first-in, first-out ("FIFO") or average cost. Under the updated guidance, an entity should measure inventory that is within scope at the lower of cost and net realizable value, which is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. Subsequent measurement is unchanged for inventory that is measured using last-in, first-out ("LIFO"). This ASU is effective for annual and interim periods beginning after December 15, 2016, and should be applied prospectively with early adoption permitted at the beginning of an interim or annual reporting period. The Company is currently evaluating the impact of adopting this guidance.

In November 2015, the FASB issued ASU 2015-17, "Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes," which applies to the classification of deferred tax assets and liabilities. The update eliminates the requirement to classify deferred tax assets and liabilities as noncurrent or current within a classified statement of financial position. This ASU is effective for annual and interim periods beginning after December 15, 2016, and should be applied prospectively with early adoption permitted at the beginning of an interim or annual reporting period. The Company is currently evaluating the impact of adopting this guidance.

In March 2016, the FASB issued ASU 2016-09, Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting, which simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. This ASU is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. Early adoption is permitted. The Company is currently evaluating the potential impact of adopting this guidance.

NOTE 3 DISCONTINUED OPERATIONS

On June 21, 2012, the Company determined to exit its global retail business and focus solely on growing its OEM business. The decision to eliminate the Retail division was primarily driven by the longer than estimated path to bring it to profitability and the strong growth in net revenues and cost rationalizations in the OEM business. Accordingly, the results of operations for the Retail division have been recorded as discontinued operations in the accompanying condensed consolidated financial statements for the periods presented. The Company has completed its exit of its Retail business. Summarized operating results of discontinued operations are presented in the following table:

FORWARD INDUSTRIES, INC. AND SUBSIDIARIES

The Company had \$280,000 of accounts receivable relating to overdue payments pursuant to a Settlement Agreement and General Release (Settlement Agreement) executed on July 3, 2013 between the Company and G-Form LLC (G-Form) in exchange for certain retail inventories, the Company's cooperation with certain administrative matters, and a mutual general release. Due to the age of the accounts receivable and G-Form's non-responsiveness to the Company's communication related to the matter, the Company established a full reserve for this receivable as of September 30, 2014. In December 2014, the Company recovered \$200,000 from a third party, which was recognized as other income during the three months ended December 31, 2014. There was no activity in discontinued operations for the six months ended March 31, 2016.

NOTE 4 SHAREHOLDERS EQUITY

6% Senior Convertible Preferred Stock

As of the 6% Senior Convertible Preferred Stock (the Convertible Preferred Stock) issuance date, the carrying amount was less than the redemption value. As a result of the Company's determination that redemption was probable, the carrying value was being increased by periodic accretions so that the carrying value would equal the redemption amount at the earliest redemption date. Such accretion was recorded as a preferred stock dividend.

Dividends on the Convertible Preferred Stock totaled approximately \$0 and \$2,000 for the three months ended March 31, 2016 and 2015, respectively, and totaled approximately \$0 and \$21,000 for the six months ended March 31, 2016 and 2015, respectively. These dividends, in addition to the accretion, totaled approximately \$0 and \$2,000 for the three months ended March 31, 2016 and 2015, respectively, and \$0 and \$476,000 for the six months ended March 31, 2016 and 2015, respectively. At the December 30, 2014 Annual Meeting, the shareholder vote resulted in the turnover of a majority of the Board members, which represented a Change of Control pursuant to the terms of the Convertible Preferred Stock. On December 31, 2014, the Company determined to recognize the balance of the accretion and bring the Convertible Preferred Stock carrying value up to its redemption value due to the likelihood of the holders requesting redemption. On January 9, 2015, the Company received a notice of deemed liquidation from holders owning a majority of the outstanding Convertible Preferred Stock in which they requested redemption of their Convertible Preferred Stock. On February 23, 2015, the Company paid an aggregate of \$1,287,737 to the holders of the Convertible Preferred Stock in order to redeem all of the outstanding shares of Convertible Preferred Stock.

Stock Repurchase

In September 2002 and January 2004, the Board authorized the repurchase of up to an aggregate of 486,200 shares of outstanding common stock. Under those authorizations, through March 31, 2016, the Company repurchased an aggregate of 224,690 shares at a cost of approximately \$487,000. During the six months ended March 31, 2016, the Company repurchased and retired an aggregate of 1,076 shares of its outstanding restricted common stock at a cost of approximately \$2,000 in connection with the vesting of employee restricted stock awards, wherein certain employees surrendered a portion of their award in order to fund certain tax withholding obligations.

NOTE 5 SHARE-BASED COMPENSATION

There were no options granted during the six months ended March 31, 2016 and 2015.

The Company recognized compensation expense of approximately \$6,000 and \$(48,000) during the three months ended March 31, 2016 and 2015, respectively, and approximately \$10,000 and \$(37,000) during the six months ended March 31, 2016 and 2015, respectively, in continuing operations for stock option awards in its condensed consolidated statements of operations and comprehensive income (loss).

As of March 31, 2016, there was approximately \$18,000 of total unrecognized compensation cost related to unvested stock option awards, which is expected to be recognized over the remainder of the weighted average vesting period of 1.7 years.

The following table summarizes stock option activity during the six months ended March 31, 2016:

NOTE 6 INCOME (LOSS) PER SHARE

Basic income (loss) per share data for each period presented is computed using the weighted-average number of shares of common stock outstanding during each such period. Diluted income (loss) per share data is computed using the weighted-average number of common and dilutive common-equivalent shares outstanding during each period. Dilutive common-equivalent shares consist of: (a) shares that would be issued upon the exercise of stock options and warrants, computed using the treasury stock method; and (b) shares of non-vested restricted stock. Net income (loss) from continuing operations per basic and diluted share for the three and six months ended March 31, 2015 is net of preferred stock cash dividends and accretion.

For the three and six months ended March 31, 2015, the Company did not have any effects of dilutive securities. For the three and six months ended March 31, 2016, the Company calculated the potential diluted earnings per share in accordance with ASC 260, as follows:

Effective April 1, 2014, LCA increased the monthly rental charge (inclusive of rent, allocable share of office assistant, and equipment leases) from \$2,500 to approximately \$12,700 per month. On January 16, 2015, the Company provided notice to LCA that it was immediately terminating the New York Office Services Agreement. The service fee is calculated at \$100,000 per month plus 4% of Adjusted Gross Profit , which is defined as the selling price less the cost from Forward China. The amended Agreement was terminated on September 11, 2015 and the Company entered into a new Supply Agreement on substantially similar terms on September 9, 2015 which will expire on September 8, 2018, subject to renewal. Terence Bernard Wise, a director of the Company, is a principal of Forward China. In addition, Jenny P. Yu, a Managing Director of Forward China, beneficially owns more than 5% of the Company's shares of common stock. The Company recognized approximately \$366,000 and \$376,000 during the three months ended March 31, 2016 and 2015, respectively, and \$739,000 and \$773,000 during the six months ended March 31, 2016 and 2015, respectively, in service fees paid to Forward China, which are included as a component of costs of goods sold in continuing operations in the accompanying condensed consolidated statements of operations and comprehensive income (loss).

Investment Management Agreement

On April 16, 2013, the Company entered into an Investment Management Agreement (the Investment Management Agreement) with LCA, pursuant to which the Company retained LCA to manage certain investment accounts funded by the Company (collectively, the Account). ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with our unaudited consolidated financial statements, and the notes thereto, and other financial information appearing elsewhere in this Quarterly Report on Form 10-Q and the audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2015. The following discussion and analysis compares our consolidated results of operations for the three and six months ended March 31, 2016 (the 2016 Quarter and 2016 Period, respectively), with those for the three and six months ended March 31, 2015 (the 2015 Quarter and 2015 Period, respectively). All figures in the following discussion are presented on a consolidated basis. All dollar amounts and percentages presented herein have been rounded to approximate values.

Business Overview

Forward Industries, Inc. is a designer and distributor of specialty and promotional products. The Company designs, markets, and distributes carry and protective solutions, primarily for hand held electronic devices. The Company's principal customer market is original equipment manufacturers, or OEMs (or the contract manufacturing firms of these OEM customers), that either package their products as accessories in box together with their branded product offerings, or sell them through their retail distribution channels. The Company does not manufacture any of its OEM products and sources substantially all of its OEM products from independent suppliers in China (refer to Note 8 to the unaudited condensed consolidated financial statements - Buying Agency and Supply Agreement).

We continue to be challenged by rising costs from our China-based supplier base, which causes our gross margins to narrow when we are not able to fully pass cost increases through to customers. Our dedicated Asia-based sourcing agent has made meaningful progress in areas such as quality assurance and overall operational performance which has better positioned us to negotiate such cost increases with our customers. However, we believe and anticipate that our supplier base may become more concentrated. As a result, our ability to effectively push back against such rising material costs may continue to diminish.

Variability of Revenues and Results of Operations

Because a high percentage of our net revenues is highly concentrated in a few large customers, and because the volumes of these customers order flows to us are highly variable, with short lead times, our quarterly revenues, and consequently our results of operations, are susceptible to significant variability over a relatively short period of time.

Critical Accounting Policies and Estimates

We discuss the material accounting policies that are critical in making these estimates and judgments in our Annual Report on Form 10-K for the fiscal year ended September 30, 2015, under the caption Management's Discussion and Analysis Critical Accounting Policies and Estimates. There has been no material change in critical accounting policies or estimates since September 30, 2015.

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED MARCH 31, 2016 (THE 2016 QUARTER) COMPARED TO THE THREE MONTHS ENDED MARCH 31, 2015 (THE 2015 QUARTER)

Income (Loss) from Continuing Operations

Income from continuing operations in the 2016 Quarter was approximately \$144,000 compared to a loss of approximately \$688,000 in the 2015 Quarter. The 2016 Quarter income is primarily due to decreases in general and administrative expenses of approximately \$714,000 and selling and marketing expenses of approximately \$263,000, partially offset by a decrease in gross profit of approximately \$151,000. The large expenses in the 2015 Quarter were primarily related to the litigation costs and settlements with the former CFO and CEO. The reduction in costs was compounded with the savings from a reduction of additional personnel. The decrease in gross profit was driven by a drop in net revenues and a decline in gross margins.

Net Revenues

Net revenues in the 2016 Quarter decreased \$0.2 million, or 3%, to \$7.0 million from \$7.2 million in the 2015 Quarter primarily due to lower revenues from Other Products, partially offset by higher revenues from Diabetic Products. The tables below set forth revenues by channel, product line, and geographic location of our customers for the periods indicated:

Diabetic Product Revenues

We design and sell carrying cases for blood glucose diagnostic kits directly to OEMs (or their contract manufacturers). The OEM customer or its contract manufacturer packages our carry cases in box as a custom accessory for the OEM's blood glucose testing and monitoring kits, or to a lesser extent, sells them through its retail distribution channels.

Revenues from Diabetic Products increased \$0.5 million to \$6.4 million in the 2016 Quarter, from \$5.9 million in the 2015 Quarter. The increase was primarily due to higher revenues derived from our three largest Diabetic Products customers (Diabetic customers A, B and C). The increase was offset, in part, by lower revenues derived from our other major Diabetic Products' customer (Diabetic customer D). Revenues from our other Diabetic Products customers were flat quarter over quarter.

The following table sets forth our revenues by Diabetic Products customers for the periods indicated:

We design and sell cases and protective solutions to OEMs for a diverse array of portable electronic devices (such as bar code scanners, GPS devices, cellular phones, tablets and cameras), as well as a variety of other products (such as sporting and recreational products and firearms) on a made-to-order basis that are customized to fit the products sold by our OEM customers.

Revenues of Other Products decreased \$0.8 million to \$0.6 million in the 2016 Quarter from \$1.4 million in the 2015 Quarter. This is primarily due to the loss of several small customers. We will continue to investment in our sales and sales support teams in our attempt to expand and diversify our customer base.

Sales and Marketing Expenses

Sales and marketing expenses decreased approximately \$263,000, or 38%, to \$432,000 in the 2016 Quarter compared to approximately \$696,000 in the 2015 Quarter, primarily due to reduced personnel expenses as a result of the headcount reduction. A more cost conscious approach to travel & entertainment spending also provided for savings to a lesser extent. Fluctuations in other components of Sales and Marketing Expenses were not material individually or in the aggregate.

General and Administrative Expenses

General and administrative expenses decreased approximately \$714,000, or 53%, to approximately \$623,000 in the 2016 Quarter from approximately \$1,337,000 in the 2015 Quarter, due primarily to the following:

- \$0.4 million decrease in legal fees and professional fees related to the FY 2015 proxy contest and other legal matters; and
- \$0.2 million decrease in personnel expenses related to the accrual of a settlement with the former CEO.

Fluctuations in other components of General and Administrative Expenses were not individually material.

Other Expense, Net

Edgar Filing: FORWARD INDUSTRIES INC - Form 10-Q

LIQUIDITY AND CAPITAL RESOURCES

Our primary sources of liquidity are our operations. The primary demand on our working capital will be: (i) operating losses, should they occur; and (ii) any increases in accounts receivable and inventories arising in the ordinary course of business. Historically, our sources of liquidity have been adequate to satisfy working capital requirements arising in the ordinary course of business. We anticipate that our liquidity and financial resources for the next twelve months will be adequate to manage our operating and financial requirements.

At March 31, 2016, our current ratio (current assets divided by current liabilities) was 2.7; our quick ratio (current assets less inventories divided by current liabilities) was 2.1; and our working capital (current assets less current liabilities) was \$7.8 million. As of March 31, 2016, we had no short or long-term debt outstanding.

We do not anticipate the need to purchase additional material capital assets in order to carry out our business.

During the six months ended March 31, 2016 and 2015, our sources and use of cash were as follows:

Cautionary Note Regarding Forward-Looking Statements

This report contains forward-looking statements, as such term is used within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding our liquidity and working capital. Forward-looking statements can be identified by words such as anticipates, intends, plans, seeks, believes, estimates, expects and similar references to future periods. Forward-looking statements are our current expectations and assumptions regarding our business, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. Our actual results may differ materially from those contemplated by the forward-looking statements. We caution you therefore against relying on any of these forward-looking statements. They are neither statements of historical fact nor guarantees or assurances of future performance. Important factors that could cause actual results to differ materially from those in the forward-looking statements include the failure to receive material orders, failure to diversify the industries which we sell our products and pricing pressure on our products. Further information on our risk factors is contained in our filings with the SEC, including our Form 10-K for the year ended September 30, 2015. Any forward-looking statement made by us speaks only as of the date on which it is made. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures. Our management carried out an evaluation, with the participation of our Principal Executive Officer and Principal Financial Officer, required by Rule 13a-15 and Rule 15d-15 of the Securities Exchange Act of 1934 (the Exchange Act) of the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act. Based on their evaluation, our management has concluded that our disclosure controls and procedures are effective as of the end of the period covered by this report to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting. There were no changes in our internal control over financial reporting as defined in Rule 13a-15(f) and Rule 15d-15(f) under the Exchange Act that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations of the Effectiveness of Controls and Procedures. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations of any control system, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected.
