SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Quarterly Report Under Section 13 or 15 (d)  
of the Securities Exchange Act of 1934

For Quarter Ended March 31, 2001

Commission File Number 1-4773

AMERICAN BILTRITE INC.

(Exact name of registrant as specified in its charter)

Delaware

04-1701350

(State or other jurisdiction of  
incorporation or organization)

(IRS Employer Identification No.)

57 River Street  
Wellesley Hills, Massachusetts 02481-2097  
(Address of Principal Executive Offices)  
(781) 237-6655

(Registrant's telephone number, including area code)

Not Applicable

(Former name, former address and former  
fiscal year if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date covered by this report.

Title of Each Class -----	Outstanding at May 1, 2001 -----
Common	3,449,985 shares

FORM 10-Q

PART I. FINANCIAL INFORMATION  
 AMERICAN BILTRITE INC. AND SUBSIDIARIES  
 NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS  
 March 31, 2001

Note A - Basis of Presentation

The accompanying unaudited consolidated condensed financial statements which include the accounts of American Biltrite Inc. and its wholly-owned subsidiaries ("ABI") as well as entities over which it has voting control have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three month period ended March 31, 2001 are not necessarily indicative of the results that may be expected for the

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

year ending December 31, 2001. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2000.

### Note B - Changes in Accounting Principles

In June 1998, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standard No. 133, "Accounting for Derivative Instruments and Hedging Activities" (SFAS 133, as amended by SFAS 138), which requires that an entity recognize all derivatives as either assets or liabilities in the balance sheet and measure those instruments at fair value. The Company adopted SFAS 133 in the first quarter of fiscal 2001. Adoption of this pronouncement had no effect on the Company's consolidated financial position or results of operations.

### Note C - Inventories

Inventories at March 31, 2001 and December 31, 2000 consisted of the following (in thousands):

	March 31, 2001	December 31, 2000
Finished goods	\$66,414	\$63,810
Work-in-process	11,794	9,764
Raw materials and supplies	13,462	13,601
	-----	-----
	\$91,670	\$87,175
	=====	=====

5

FORM 10-Q

PART I. FINANCIAL INFORMATION  
AMERICAN BILTRITE INC. AND SUBSIDIARIES  
NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS  
March 31, 2001

### Note D - Distributor Transition Costs

During the third quarter of 2000, Congoleum Corporation ("Congoleum"), a consolidated majority owned subsidiary, announced the appointment of Mohawk Industries, Inc. as a national distributor. At the same time, Congoleum announced it was terminating its distribution arrangements with LDBrinkman & Co., who had been its exclusive distributor in much of the southwestern United States, accounting for 21% of Congoleum's sales in 1999. LDBrinkman & Co. contested Congoleum's right to terminate its distributor agreement and the matter went to arbitration in the fourth quarter of 2000. The parties signed a final settlement agreement in February 2001.

Congoleum recorded a charge of \$7,717,000 in the fourth quarter of 2000 to provide for the nonrecurring costs associated with the transition. Included in this charge were certain costs incurred by Congoleum for establishing Mohawk as a distributor. Also included in the charge are certain termination payments to be made to LDBrinkman pursuant to the terms of the settlement agreement.

Congoleum has provided right-of-return provisions to LDBrinkman in the termination agreement whereby LDBrinkman may return certain unsold inventory

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

purchased from Congoleum that meets minimum size and quality requirements. Therefore, Congoleum has deferred the recognition of revenue for its estimate of returns of inventory under this right-of-return agreement.

Of the \$7,717,000 in costs incurred during 2000, \$3,517,000 remains unpaid as of March 31, 2001. These amounts are anticipated to be paid by July 31, 2001.

### Note E - Commitments and Contingencies

In the ordinary course of its business, ABI and Congoleum become involved in lawsuits, administrative proceedings, product liability and other matters, as more fully described below. In some of these proceedings, plaintiffs may seek to recover large and sometimes unspecified amounts, and the matters may remain unresolved for several years. On the basis of information furnished by counsel and others, management does not believe that these matters, individually or in the aggregate, will have a material adverse effect on their business or financial condition.

American Biltrite Inc.

ABI records a liability for environmental remediation claims when it becomes probable that ABI will incur costs relating to a clean-up program or will have to make claim payments and the costs or payments can be reasonably estimated. As assessments are revised and clean-up programs progress, these liabilities are adjusted to reflect such revisions and progress.

6

FORM 10-Q

PART I. FINANCIAL INFORMATION  
AMERICAN BILTRITE INC. AND SUBSIDIARIES  
NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS  
March 31, 2001

### Note E - Commitments and Contingencies (continued)

ABI is a co-defendant with many other manufacturers and distributors of asbestos-containing products in approximately 419 pending claims involving approximately 1,364 individuals as of March 31, 2001. The claimants allege personal injury from exposure to asbestos or asbestos-containing products. Activity related to asbestos claims was as follows:

	Quarter Ended March 31, 2001 -----	Year Ended December 31, 2000 -----
Beginning claims	330	63
New claims	93	298
Settlements	(2)	(11)
Dismissals	(2)	(20)
	---	---
Ending claims	419 ===	330 ===

ABI reported in its December 31, 2000 Form 10-K that it has been named as a Potentially Responsible Party ("PRP") within the meaning of the Federal Comprehensive Environmental Response Compensation and Liability Act, as amended, with respect to two sites in two separate states. There have been no new

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

developments relating to these sites during the quarter ended March 31, 2001.

With regard to the Olin Corporation ("Olin") site in Wilmington, MA, Olin has requested reimbursement from ABI for the period from July 1, 2000 to December 31, 2000 in the amount of \$489,000. Olin has estimated that the response cost for 2001 will be \$6 million with ABI's allocated share being \$814,000. ABI, in discussion with Olin, has estimated that beyond 2001 the response costs will be in the range of \$16.3 million to \$29 million. As of March 31, 2001, ABI has estimated its share of potential liability for Olin to be in the range of \$3.3 million to \$5 million before any recoveries from insurance.

### Congoleum Corporation

Congoleum is subject to federal, state and local environmental laws and regulations, and certain legal and administrative claims are pending or have been asserted against Congoleum. Among these claims, Congoleum is a named party in several actions associated with waste disposal sites, asbestos-related claims and general liability claims. These actions include possible obligations to remove or mitigate the effects on the environment of wastes deposited at various sites, including Superfund sites and certain of Congoleum's owned and previously owned facilities. The contingencies also include claims for personal injury and/or property damage. The exact amount of

7

### FORM 10-Q

PART I. FINANCIAL INFORMATION  
AMERICAN BILTRITE INC. AND SUBSIDIARIES  
NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS  
March 31, 2001

#### Note E - Commitments and Contingencies (continued)

such future costs and timing of payments are indeterminable due to such unknown factors as the magnitude of clean-up costs, the timing and extent of the remedial actions that may be required, the determination of Congoleum's liability in proportion to other potentially responsible parties and the extent to which costs may be recoverable from insurance.

Congoleum records a liability for environmental remediation, asbestos-related claim costs and general liability claims when a clean-up program or claim payment becomes probable and the costs can be reasonably estimated. As assessments and clean-ups progress, these liabilities are adjusted based upon progress in determining the timing and extent of remedial actions and the related costs and damages. The extent and amounts of the liabilities can change substantially due to factors such as the nature or extent of contamination, changes in remedial requirements and technological improvements. The recorded liabilities are not discounted for delays in future payments and are not reduced by the amount of estimated insurance recoveries. Such estimated insurance recoveries are considered probable of recovery.

Although the outcome of these matters could result in significant expenses or judgments, management does not believe based on present facts and circumstances that their disposition will have a material adverse effect on the financial position of Congoleum.

Congoleum is one of many defendants in approximately 2,098 pending claims (including workers' compensation cases) involving approximately 14,072 individuals as of March 31, 2001, alleging personal injury from exposure to

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

asbestos or asbestos-containing products. There were 1,754 claims at December 31, 2000 that involved approximately 12,079 individuals. Activity related to asbestos claims was as follows:

	Quarter Ended March 31, 2001 -----	Year ended December 31, 2000 -----
Beginning claims	1,754	670
New claims	371	1,302
Settlements	(10)	(76)
Dismissals	(17)	(142)
	-----	-----
Ending claims	2,098 =====	1,754 =====

Nearly all claims allege that various diseases were caused by exposure to asbestos-containing products, including sheet vinyl and resilient tile manufactured by Congoleum (or, in the workers' compensation cases, exposure to asbestos in the course of employment with Congoleum). Congoleum discontinued the manufacture of asbestos-containing sheet vinyl products in 1983 and asbestos-containing tile products in 1974. In general, governmental authorities have determined that asbestos-containing sheet and tile products are nonfriable (i.e., cannot be crumbled by hand pressure) because the asbestos was encapsulated in the products during the manufacturing process.

8

FORM 10-Q

PART I. FINANCIAL INFORMATION  
 AMERICAN BILTRITE INC. AND SUBSIDIARIES  
 NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS  
 March 31, 2001

Note E - Commitments and Contingencies (continued)

Thus, governmental authorities have concluded that these products do not pose a health risk when they are properly maintained in place or properly removed so that they remain nonfriable. Congoleum has issued warnings not to remove asbestos-containing flooring by sanding or other methods that may cause the product to become friable.

Congoleum regularly evaluates its estimated liability to defend and resolve current and reasonably anticipated future asbestos-related claims. It reviews, among other things, recent and historical settlement and trial results, the incidence of past and recent claims, the number of cases pending against it, and asbestos litigation developments that may impact the exposure of Congoleum. One such development, the declarations of bankruptcy by several companies that are typically lead defendants in asbestos-related cases, may have negatively impacted Congoleum's claim experience. The estimates developed are highly uncertain due to the limitations of the available data and the difficulty of forecasting the numerous variables that can affect the range of the liability.

During the fourth quarter of fiscal 2000, Congoleum updated its evaluation of the range of potential defense and indemnity costs for asbestos-related liabilities and the insurance coverage in place to cover these costs. As a result of Congoleum's analysis, Congoleum has determined that its range of probable and estimable losses for asbestos-related claims through the year 2049

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

is \$35.1 million to \$161.3 million before considering the effects of insurance recoveries and before discounting to present value. As discussed previously, it is very difficult to forecast a liability for Congoleum's ultimate exposure for asbestos-related claims as there are multiple variables that can affect the timing, severity, and quantity of claims. Therefore, Congoleum has concluded that no amount within that range is more likely than any other, and therefore has determined that the amount of the gross liability it should record for asbestos-related claims is equal to \$35.1 million in accordance with generally accepted accounting principles.

For a majority of the period that Congoleum produced asbestos-containing products, Congoleum purchased primary and excess insurance policies that cover bodily injury asbestos claims. Congoleum believes that it has in excess of \$1 billion primary and excess insurance coverage available as of December 31, 2000 to cover asbestos-related claims. To date, all claims and defense costs have been paid through primary insurance coverage, and Congoleum anticipates that primary insurance coverage will continue to cover these costs in the near future.

The same factors that affect developing forecasts of potential defense and indemnity costs for asbestos-related liabilities also affect estimates of the total amount of insurance that is probable of recovery, as do a number of additional factors. These additional factors include the financial viability of some of the insurance companies, the method in which losses will be allocated to the various insurance policies and the years covered by those policies, and how legal and other loss handling costs will be covered by the insurance policies.

9

FORM 10-Q

PART I. FINANCIAL INFORMATION  
AMERICAN BILTRITE INC. AND SUBSIDIARIES  
NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS  
March 31, 2001

Note E - Commitments and Contingencies (continued)

Congoleum has determined, based on its review of its insurance policies and the advice of legal counsel, that approximately \$20 million of the estimated \$35 million gross liability is highly probable of recovery. This determination was made after considering the terms of the available insurance coverage and the financial viability of the insurance companies. Congoleum believes that the criteria to offset the estimated gross liability with this highly probable insurance recovery, as defined by generally accepted accounting principles, have been met. The balance of the estimated gross liability of \$15 million has been reflected in the balance sheet as a long-term liability as of December 31, 2000 and March 31, 2001. Congoleum has also recorded in the balance sheet an insurance receivable of \$7 million that represents an estimate of probable insurance recoveries that do not qualify for offsetting against the gross liability. This insurance receivable has been recorded in other long-term assets as of December 31, 2000 and March 31, 2001.

Since many uncertainties exist surrounding asbestos litigation, Congoleum will continue to evaluate its asbestos-related estimated liability and corresponding estimated insurance assets as well as the underlying assumptions used to derive these amounts. It is reasonably possible that Congoleum's total exposure to asbestos-related claims may be greater than the recorded liability and that insurance recoveries may be less than the recorded asset. These uncertainties may result in Congoleum incurring future charges to income to adjust the

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

carrying value of recorded liabilities and assets. Congoleum does not believe, however, that asbestos-related claims will have a material adverse effect on its financial position or liquidity.

### Note F - Comprehensive Income

During the first quarter of 2001 and 2000, total comprehensive (loss) income amounted to \$(2,999,000) and \$262,000, respectively. Other comprehensive income consisted only of foreign currency translation adjustments.

	=====	=====

### Note H - Industry Segments

#### Description of Products and Services

The Company has four reportable segments: flooring products, tape products, jewelry and a Canadian division which produces flooring and rubber products. Congoleum, which manufactures vinyl and vinyl composition floor coverings with distribution primarily through floor covering distributors, retailers and contractors for commercial and residential use, represents the majority of the Company's flooring products segment. During 2000, the Company acquired Janus

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

Flooring Corporation, which has been included in the flooring products segment effective October 12, 2000. The tape products segment consists of two production facilities in the United States and finishing and sales facilities in Belgium, Singapore and Italy. The tape products segment manufactures paper, film, HVAC, electrical, shoe and other tape products for use in industrial and automotive

	8,244	16,053
Total consolidated assets	\$364,617	\$364,402

Tape product segment assets increased from \$53,724 to \$65,420 due to seasonal increases in inventories, receivables and intersegment accounts.

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

Net sales for the first quarter of 2001 were \$99.7 million compared to \$102.4 million for the first quarter of 2000, a decrease of \$2.7 million or 2.7%. Including sales of Janus Flooring on a pro forma basis, comparable first quarter 2000 sales were \$105.0 million.

Revenue declined in all segments except jewelry, reflecting the impact of the slowing economy on demand for durable and industrial goods, and depressed conditions in the manufactured housing industry, which is a major flooring customer.

Cost of products sold as a percentage of sales increased to 74.6% in the first quarter of 2001 from 72.6% in the first quarter of 2000. This increase was due to lower production volume and increased costs for raw materials and energy.

Selling, general and administrative expenses in the first quarter of 2001 were \$28.8 million, or 28.9% of sales, compared with \$27.5 million, or 26.8% of sales, in the same period one year earlier. Including Janus, first quarter 2000 selling, general and administrative expenses would have been \$27.7 million or 26.4% of comparable basis sales. Expenses in the first quarter of 2001 include \$.7 million for severance related to a 13% reduction of Congoleum's workforce. Other factors contributing to the increase in expenses were higher freight costs and increases in spending on promotional programs and new product development.

The net loss for the first quarter of 2001 was \$2.0 million compared to net income of \$.4 million (\$.7 million including Janus) one year earlier, as a result of reduced profitability at all operations.

### Liquidity and Capital Resources

Cash and cash equivalents, including short term investments, declined \$17.8 million in the first quarter of 2001 to \$11.2 million, compared with a decline of \$15.8 million in the first quarter of 2000. The higher use of cash was due to increased capital expenditures and the purchase of additional partnership interests in K&M, together with lower net income. These uses were partly offset by lower growth in receivables. Working capital at March 31, 2001 was \$57.7 million, down from \$72.0 million at December 31, 2000. The ratio of current assets to current liabilities at March 31, 2001 was 1.5, down from 1.7 at December 31, 2000.

Capital expenditures in the first quarter of 2001 were \$8.2 million. It is anticipated that capital spending for the full year 2001 will be in the range of \$25 - \$26 million.

### FORM 10-Q

PART I. FINANCIAL INFORMATION  
AMERICAN BILTRITE INC. AND SUBSIDIARIES  
MANAGEMENTS' DISCUSSION AND ANALYSIS  
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS  
March 31, 2001

The Company has recorded provisions which it believes are adequate for environmental remediation and product-related liabilities, including provisions for testing for potential remediation of conditions at its own facilities. While the Company believes its estimate of the future amount of these liabilities is reasonable, that such amounts will not have a material adverse effect on the financial position of the Company and that they will be paid over a period of three to ten years, the actual timing and amount of such payments may differ

## Edgar Filing: AMERICAN BILTRITE INC - Form 10-Q

significantly from the Company's assumptions. Although the effect of future government regulation could have a significant effect on the Company's costs, the Company is not aware of any pending legislation which could have a material adverse effect on its results of operations or financial position. There can be no assurances that such costs could be passed along to its customers.

Cash requirements for capital expenditures, working capital, debt service and the current authorization to repurchase \$.9 million of ABI's Common Stock and \$5.3 million of Congoleum's Common Stock are expected to be financed from operating activities and borrowings under existing bank lines of credit, which at ABI are presently \$41.6 million and at Congoleum are \$30.0 million. During the first quarter of 2001, ABI repurchased \$.5 million of its Common Stock.

### Item 3. Quantitative and Qualitative Disclosure About Market Risk

The Company is exposed to changes in prevailing market interest rates affecting the return on its investments but does not consider this interest rate market risk exposure to be material to its financial condition or results of operations. The Company invests primarily in highly liquid debt instruments with strong credit ratings and short-term (less than one year) maturities. The carrying amount of these investments approximates fair value due to the short-term maturities. Substantially all of the Company's outstanding long-term debt as of March 31, 2001 consisted of indebtedness with a fixed rate of interest, which is not subject to change based upon changes in prevailing market interest rates.

The Company operates internationally, principally in Canada, Europe and the Far East, giving rise to exposure to market risks from changes in foreign exchange rates. Foreign currency exchange rate movements also affect the Company's competitive position, as exchange rate changes may affect business practices and/or pricing strategies of non-U.S. based competitors. For foreign currency exposures existing at March 31, 2001, a 10% unfavorable movement in currency exchange rates in the near term would not materially affect ABI's consolidated operating results, financial position or cash flows.

The Company does not currently use derivative financial instruments, derivative commodity instruments or other financial instruments to manage its exposure to changes in interest rates, foreign currency exchange rates, commodity prices or equity prices.
