NOTE A - BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three month and six month periods ended June 30, 2001 are not necessarily indicative of the results that may be expected for the year ended December 31, 2001. For further information, refer to the consolidated annual financial statements and footnotes thereto for the year ended December 31, 2000.

Item 2. Management's Discussion and Analysis or Plan of Operation.

This Report includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical facts included in this Report, including, without limitation, statements regarding the Company's future financial position, business strategy, budgets, projected costs and plans and objectives of Management for future operations, are forward-looking statements. In addition, forward-looking statements generally can be identified by the use of forward-looking terminology such as "may," "will," "expect," "intend," "estimate," "anticipate" or "believe" or the negative thereof or variations thereon or similar terminology. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct. Such statements are based upon numerous assumptions about future conditions which may ultimately prove to be inaccurate and actual events and results may materially differ from anticipated results described in such statements. Important factors that could cause actual results to differ materially from the Company's expectations ("cautionary statements") include the risks inherent generally in the insurance and financial services industries, the impact of competition and product pricing, changing market conditions, the risks disclosed in the Company's Annual Report on Form 10-KSB for the Year Ended December 31, 2000 under "ITEM 6--Management's Discussion and Analysis or Plan of Operation," as well as the risks disclosed in this Report. All subsequent written and oral forward-looking statements attributable to the Company, or persons acting on its behalf, are expressly qualified in their entirety by these cautionary statements. The Company assumes no duty to update or revise its forward-looking statements based on changes in internal estimates or expectations or otherwise. As a result, the reader is cautioned not to place reliance on these forward-looking statements.

Liquidity and Capital Resources

Total assets were \$6,349,059 at June 30, 2001, compared to \$6,162,682 at December 31, 2000, an increase of 3.0%. The increase was due to the receipt of new annuity deposits.

Total liabilities (primarily insurance reserves for future policyholder benefits) were \$5,257,232 at June 30, 2001, compared to \$5,187,382 at December 31, 2000, an increase of 1%. The increase was due primarily to new annuity deposits.

Total stockholders' equity was \$1,091,827 at June 30, 2001, compared to

Edgar Filing: SUMMIT LIFE CORP - Form 10QSB

\$975,300 at December 31, 2001, an increase of 12%. The increase was attributable to the sale of 200,200 shares of the Company's common stock, sold pursuant to a public offering of the Company's stock.

The principal requirements for liquidity in connection with the Company's operations are its contractual obligations to policyholders and annuitants. The Company's contractual obligations include payments of surrender benefits, contract withdrawals, policy loans and claims under outstanding insurance policies and annuities. Payment of surrender benefits is a function of "persistency," which is the extent to which insurance policies are maintained by the policyholder. Policyholders sometimes do not pay premiums, thus causing their policies to lapse, or policyholders may choose to surrender their policies for their cash surrender value. If actual experience of a policy or block of policies is different from the initial or acquisition date assumptions, a gain or loss could result. Depending on the nature of the underlying policy, a lapse or surrender may result in surrender charge revenue or surrender benefit expense. Such amounts may be less than, or greater than, unamortized acquisition expenses and/or the related policy reserves; accordingly, current period earnings may either increase or decrease. Additionally, policy lapses and surrenders may result in lost future revenues and profits associated with those policies that are lapsed or surrendered.

Although the Company currently has a \$200,000 bank line of credit, it funds most of its activity directly from cash flow from operations and cash flow from financing activities, which includes deposits to policyholders' account balances. The line of credit extends to July 2002, with amounts borrowed thereunder bearing interest at prime plus .5%. At June 30, 2001 and as of the date of this Report, \$200,000 was outstanding under the line of credit.

On January 13, 1999, the Company acquired 100% of the outstanding common stock of Great Midwest Life Insurance Company, a Texas-chartered life insurance company. The total cost of the acquisition was approximately \$939,000. Of the purchase price, cash of \$607,000 was paid to seven of eight stockholders with the eighth stockholder receiving a promissory note for a principal amount of \$332,000, payable in three equal annual installments at an annual interest rate of 6% on the unpaid principal balance. The Company partially funded the cash portion of the purchase price with a \$350,000 loan from a bank. The loan accrued interest at an index rate plus .5%, payable monthly, and originally matured on July 9, 1999, at which time the Company paid \$100,000 of the principal amount owed and renewed the balance for a six-month term maturing January 9, 2000. The balance of the loan was paid December 31, 1999 using operating cash flow and the proceeds from the sale of Benefit Capital Life Insurance Company, a wholly owned subsidiary of the Company. In addition, during the three months ended June 30, 2001, the Company paid the last of the three installments on the promissory note held by a former stockholder of Great Midwest.

The Company has made and intends to make substantial expenditures in connection with its subsidiary's acquisition and marketing programs. Historically, the Company has funded these expenditures from cash flow from operations.

The Company believes that the liquidity resulting from the sale of its common stock, together with anticipated cash from continuing operations, should be sufficient to fund its operations and to make required payments under its credit facility and the annual 10% dividend on the Series A Preferred Stock, for at least the next 12 months. The Company may not, however, generate sufficient

Edgar Filing: SUMMIT LIFE CORP - Form 10QSB

cash flow for these purposes or to repay the note at maturity. The Company's ability to fund its operations and to make scheduled principal and interest payments will depend on its future performance, which, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond its control.

Item 4. Submission of Matters to Vote of Security Holders

The Company held its annual stockholders' meeting on May 10, 2001. Two proposals were voted on by the Company's stockholders: 1) election of directors, and 2) ratification of the appointment of Grant Thornton LLP as independent auditors.
